to the patient, any other provider designated by the patient, any person authorized by paragraph (2) of subsection (a) of this Code section to request a patient's or deceased patient's medical records, or any other person designated by the patient. Such record request shall be accompanied by:

(1) An authorization in compliance with the federal Health Insurance Portability and Accountability Act of 1996, 42 U.S.C. Section 1320d-2, et seq., and regulations implementing such act; and

(2) A signed written authorization as specified in subsection (d) of this Code section.

(c) If the provider reasonably determines that disclosure of the record to the patient will be detrimental to the physical or mental health of the patient, the provider may refuse to furnish the record; however, upon such refusal, the patient's record shall, upon written request by the patient, be furnished to any other provider designated by the patient.

(d) A provider shall not be required to release records in accordance with this Code section unless and until the requesting person has furnished the provider with a signed written authorization indicating that he or she is authorized to have access to the patient's records by paragraph (2) of subsection (a) of this Code section. Any provider shall be justified in relying upon such written authorization.

(e) Any provider or person who in good faith releases copies of medical records in accordance with this Code section shall not be found to have violated any criminal law or to be civilly liable to the patient, the deceased patient's estate, or to any other person. (Code 1981, § 31-32-2, enacted by Ga. L. 1984, p. 1680, § 1; Code 1981, § 31-33-2, as redesignated by Ga. L. 1985, p. 149, § 31; Ga. L. 2001, p. 1157, § 1; Ga. L. 2002, p. 641, § 2; Ga. L. 2006, p. 494, § 3/HB 912; Ga. L. 2007, p. 133, § 13/HB 24; Ga. L. 2008, p. 12, § 2-32/SB 433.)

Code Commission notes. — Pursuant to Code Section 28-9-5, in 2006, “and” was added at the end of subparagraph (a)(2)(C), in subsection (b), a comma was deleted following “Code section shall” in the introductory language, and “section” was substituted for “Section” in paragraph (b)(2).

Pursuant to Code Section 28-9-5, in 2008, “by the department” was deleted following “hospitals as issued” in division (a)(1)(B)(ii).

Editor's notes. — Ga. L. 2007, p. 133, § 1/HB 24, not codified by the General Assembly, provides: “(a) The General As-

sembly has long recognized the right of the individual to control all aspects of his or her personal care and medical treatment, including the right to insist upon medical treatment, decline medical treatment, or direct that medical treatment be withdrawn. In order to secure these rights, the General Assembly has adopted and amended statutes recognizing the living will and health care agency and provided statutory forms for both documents.

“(b) The General Assembly has determined that the statutory forms for the living will and durable power of attorney for health care are confusing and inconsis-

tent and that the statutes providing for the living will and health care agency contain conflicting concepts, inconsistent and out-of-date terminology, and confusing and inconsistent requirements for execution. In addition, there is a commendable trend among the states to combine the concepts of the living will and health care agency into a single legal document.

“(c) The General Assembly recognizes that a significant number of individuals representing the academic, medical, legislative, and legal communities, state officials, ethics scholars, and advocacy groups worked together to develop the advance directive for health care contained in this Act, and the collective intent was to create a form that uses understandable and everyday language in order to encourage more citizens of this state to execute advance directives for health care.

“(d) The General Assembly finds that

the clear expression of an individual’s decisions regarding health care, whether made by the individual or an agent appointed by the individual, is of critical importance not only to citizens but also to the health care and legal communities, third parties, and families. In furtherance of these purposes, the General Assembly enacts a new Chapter 32 of Title 31, setting forth general principles governing the expression of decisions regarding health care and the appointment of a health care agent, as well as a form of advance directive for health care.”

Law reviews. — For article, “What Every Attorney Should Know About Health Care Law,” see 15 (No. 6) Ga. St. B.J. 17 (2010).

For note on the 2002 amendment of this Code section, see 19 Ga. St. U.L. Rev. 200 (2002).

JUDICIAL DECISIONS

O.C.G.A. § 31-33-2(a)(2) not preempted by 45 C.F.R. § 164.502(g)(4). — O.C.G.A. § 31-33-2(a)(2) is more stringent than, and thus is not preempted by, 45 C.F.R. § 164.502(g)(4) because § 164.502(g)(4) permits an executor, administrator, or some other person authorized to act on behalf of the decedent or his or her estate to obtain protected health information, but the person whom § 31-33-2(a)(2) allows to act on behalf of the deceased individual or the estate is only the executor or administrator if the estate is represented, and only the surviving spouse if one exists and the estate is unrepresented. *Alvista Healthcare Ctr. v. Miller*, 286 Ga. 122, 686 S.E.2d 96 (2009).

Under federal law, decedent’s surviving spouse entitled to decedent’s medical records. — Nursing home was obliged to release a decedent’s medical records to the decedent’s surviving spouse who was pursuing a wrongful death action since under O.C.G.A. §§ 31-33-2(a)(2)(B) and 51-4-2 the spouse was authorized to access those records, and the trial court’s order requiring the release of the records complied with the Health Insurance Portability and Accountability Act of 1996, Pub. L. No. 104-191. *Alvista Healthcare*

Ctr., Inc. v. Miller, 296 Ga. App. 133, 673 S.E.2d 637 (2009).

Court of appeals did not err in affirming an order granting a surviving spouse a temporary restraining order and permanent injunction requiring the owner of a nursing care facility to release a decedent’s medical records and a declaratory judgment that the spouse was entitled to the records pursuant to O.C.G.A. § 31-33-2(a)(2)(B) because the spouse was entitled to access the decedent’s protected health information in accordance with 45 C.F.R. § 164.502(g)(4) when § 31-33-2(a)(2)(B) authorized a surviving spouse to act on behalf of the decedent or the estate in obtaining medical records; except for mental health records and any records which remained privileged or confidential, all of the decedent’s protected health information was relevant to the limited personal representation granted to a surviving spouse by § 31-33-2(a)(2)(B), and the spouse, by qualifying for that limited personal representation and requesting medical records which the spouse was authorized to request by virtue of such representation, had met every requirement of 45 C.F.R. § 164.502(g)(4). *Alvista Healthcare Ctr. v. Miller*, 286 Ga. 122, 686 S.E.2d 96 (2009).

Because the evident purpose of O.C.G.A. § 31-33-2(a)(2), when read in conjunction with § 31-33-2(b)(1), is to identify several persons, the executor or administrator being the first choice and the surviving spouse being the second, who have authority to submit an authorization in compliance with the Health Insurance Portability and Accountability Act of 1996, Pub. L. No. 104-191, and to obtain medical records on behalf of the decedent or the decedent's estate, § 31-33-2(a)(2) constitutes the applicable state law to which 45 C.F.R. § 164.502(g)(4) refers, and § 31-33-2(a)(2)(B) necessarily implies that, when there is no executor or administrator, the surviving spouse is granted authority to act on behalf of the decedent or his or her estate with respect to requests for medical records. *Alvista Healthcare Ctr. v. Miller*, 286 Ga. 122, 686 S.E.2d 96 (2009).

O.C.G.A. § 31-33-2(a)(2) treats the surviving spouse as a personal representative in lieu of the executor or administrator with respect to requests for medical records and § 31-33-2(a)(2)(B) establishes a limited personal representation in the surviving spouse for the express purpose of obtaining the decedent's medical records in compliance with the Health Insurance Portability and Accountability Act of 1996, Pub. L. No. 104-191, the Georgia statute does not provide for personal representation by the surviving spouse for other purposes, but the statute permits the spouse to obtain all types of medical records, other than mental health records as excepted by O.C.G.A. § 31-33-4, and subject to the preservation

in O.C.G.A. § 31-33-6 of the privileged or confidential nature of communications recognized in other laws, and therefore, § 31-33-2(a)(2) is carefully tailored to provide the authority contemplated by 45 C.F.R. § 164.502(g)(4). *Alvista Healthcare Ctr. v. Miller*, 286 Ga. 122, 686 S.E.2d 96 (2009).

45 C.F.R. § 164.502(g)(4) does not require that the person having authority to act on behalf of the decedent or his or her estate and requesting medical records must intend to make future use of those records in his or her fiduciary capacity as a personal representative because when the person having authority to act on behalf of the decedent or the estate makes a request for medical records which is within the scope of that authority, the very request constitutes an action in that person's capacity as a limited personal representative, and such request is the only action which can come within the limited personal representation established by O.C.G.A. § 31-33-2(a)(2) for the purpose of obtaining medical records; once the medical records are obtained by a person authorized by state law to act on behalf of the decedent or the estate by requesting them, 45 C.F.R. § 164.502(g)(4) does not restrict the future use of those records, and after obtaining the medical records, therefore, the surviving spouse may pursue a wrongful death claim, he or she may seek appointment as administrator in order to bring a survival action on behalf of the estate pursuant to O.C.G.A. § 51-4-5(b), he or she may do both or may do neither. *Alvista Healthcare Ctr. v. Miller*, 286 Ga. 122, 686 S.E.2d 96 (2009).

OPINIONS OF THE ATTORNEY GENERAL

Refusing copies of reports to applicant for disability retirement benefits. — If the medical board of the Employees Retirement System determines that the examining physician has met the criteria of subsection (c) of O.C.G.A.

§ 31-33-2 in recommending nondisclosure of medical records prepared in the evaluation of a claim for disability retirement benefits, it is appropriate to refuse copies of those reports to the applicant who was examined. 1992 Op. Att'y Gen. No. 92-19.

31-33-3. Costs of copying and mailing; patient's rights as to records.

(a) The party requesting the patient's records shall be responsible to the provider for the costs of copying and mailing the patient's record. A charge of up to \$20.00 may be collected for search, retrieval, and other direct administrative costs related to compliance with the request under this chapter. A fee for certifying the medical records may also be charged not to exceed \$7.50 for each record certified. The actual cost of postage incurred in mailing the requested records may also be charged. In addition, copying costs for a record which is in paper form shall not exceed \$.75 per page for the first 20 pages of the patient's records which are copied; \$.65 per page for pages 21 through 100; and \$.50 for each page copied in excess of 100 pages. All of the fees allowed by this Code section may be adjusted annually in accordance with the medical component of the consumer price index. The Office of Planning and Budget shall be responsible for calculating this annual adjustment, which will become effective on July 1 of each year. To the extent the request for medical records includes portions of records which are not in paper form, including but not limited to radiology films, models, or fetal monitoring strips, the provider shall be entitled to recover the full reasonable cost of such reproduction. Payment of such costs may be required by the provider prior to the records being furnished. This subsection shall not apply to records requested in order to make or complete an application for a disability benefits program.

(b) The rights granted to a patient or other person under this chapter are in addition to any other rights such patient or person may have relating to access to a patient's records; however, nothing in this chapter shall be construed as granting to a patient or person any right of ownership in the records, as such records are owned by and are the property of the provider. (Code 1981, § 31-32-3, enacted by Ga. L. 1984, p. 1680, § 1; Code 1981, § 31-33-3, as redesignated by Ga. L. 1985, p. 149, § 31; Ga. L. 2001, p. 1157, § 2.)

Editor's notes. — On June 29, 2010, the Office of Planning and Budget issued a statement authorizing an increase in the fees authorized by this Code section, effective July 1, 2010, as follows: search, retrieval, and other direct administrative costs, up to \$25.88; certification fee, up to \$9.70 per record; copying costs for records

in paper form, per page for pages 1-20, \$.97, per page for pages 21-100, \$.83, and per page for pages over 100, \$.66.

Law reviews. — For article, "Trial Practice and Procedure," see 53 Mercer L. Rev. 475 (2001). For survey article on workers' compensation law, see 60 Mercer L. Rev. 433 (2008).

JUDICIAL DECISIONS

Companies providing photocopying services were subject to the provision

requiring hospitals to furnish patients' records for the "reasonable costs of copy-

ing and mailing.” *Cotton v. Med-Cor Health Info. Solutions, Inc.*, 221 Ga. App. 609, 472 S.E.2d 92 (1996).

Workers’ Compensation Board regulated photocopying charges. — Because the Georgia Workers’ Compensation Board, and not the Health Records Act, O.C.G.A. § 31-33-3, regulated the medical photocopying charges in workers’ compensation proceedings, the trial court prop-

erly dismissed a declaratory judgment complaint filed by a photocopier, which sought guidance regarding the appropriate fee structure for medical photocopying services in workers’ compensation proceedings, for failure to state a claim upon which relief could be granted. *Smart Document Solutions, LLC v. Hall*, 290 Ga. App. 483, 659 S.E.2d 838 (2008).

31-33-4. Mental health records.

The provisions of this chapter, except as otherwise provided in Code Sections 31-33-7 and 31-33-8, shall not apply to psychiatric, psychological, or other mental health records of a patient. (Code 1981, § 31-32-4, enacted by Ga. L. 1984, p. 1680, § 1; Code 1981, § 31-33-4, as redesignated by Ga. L. 1985, p. 149, § 31; Ga. L. 2010, p. 286, § 18/SB 244.)

The 2010 amendment, effective July 1, 2010, inserted “, except as otherwise provided in Code Sections 31-33-7 and 31-33-8,” in the middle of this Code section.

Cross references. — Right of mental patients to examine medical records, §§ 37-3-162, 37-3-167.

31-33-5. Immunity from liability for releasing information.

Any provider releasing information in good faith pursuant to the provisions of this chapter shall not be civilly or criminally liable to the patient, guardian, parent, or any other person for such release. (Code 1981, § 31-32-5, enacted by Ga. L. 1984, p. 1680, § 1; Code 1981, § 31-33-5, as redesignated by Ga. L. 1985, p. 149, § 31.)

31-33-6. Confidential communications.

Nothing in this chapter shall be construed as destroying or diminishing the privileged or confidential nature of any communication now or hereafter recognized by law. (Code 1981, § 31-32-6, enacted by Ga. L. 1984, p. 1680, § 1; Code 1981, § 31-33-6, as redesignated by Ga. L. 1985, p. 149, § 31.)

JUDICIAL DECISIONS

Cited in *Stoneridge Properties, Inc. v. Kuper*, 178 Ga. App. 409, 343 S.E.2d 424 (1986).

31-33-7. Furnishing copies of psychological or psychiatric evaluation to law enforcement officer upon request.

(a) Notwithstanding the provisions of Code Section 31-33-4, if a law enforcement officer employed by a governmental entity is required to submit to a psychological or psychiatric examination for the purpose of assessing the law enforcement officer's fitness for duty, employment status, or assignment of duties, then, upon the written request of the law enforcement officer, the employer shall furnish to the law enforcement officer a complete copy of the evaluation or report.

(b) Any employer or health care provider furnishing or making a report or evaluation in good faith pursuant to the provisions of this Code section shall not be civilly or criminally liable to the law enforcement officer or any other person for furnishing or making such report or evaluation.

(c) If an employer reasonably determines that disclosure of the evaluation or report to the law enforcement officer will be detrimental to the mental health of the law enforcement officer, would present a risk of harm to other persons, would involve the disclosure of confidential information or would violate the privacy of a third party, then the employer may refuse to furnish the record of evaluation; provided, however, that upon such refusal the evaluation or report shall, upon written request by the law enforcement officer, be furnished by the employer to a psychiatrist or psychologist treating the law enforcement officer. (Code 1981, § 31-33-7, enacted by Ga. L. 1998, p. 1499, § 1.)

Cross references. — Employment and training of peace officers, T. 35, C. 8.

to Code Section 28-9-5, in 1998, “; provided,” was substituted for “provided;” in subsection (c).

Code Commission notes. — Pursuant

31-33-8. Electronic records; application to psychiatric, psychological, or other mental health records.

(a) Notwithstanding any other provision of the law to the contrary, any provider may, in its sole discretion, create, maintain, transmit, receive, and store records in an electronic format within the meaning of Code Section 10-12-2 and may, in its sole discretion, temporarily or permanently convert records into an electronic format.

(b) A provider shall not be required to maintain separate tangible copies of electronically stored records.

(c) The other provisions of this chapter shall apply to electronic records to the same extent as those provisions apply to tangible records.

(d) This Code section is subject to all applicable federal laws governing the security and confidentiality of a patient's personal health information.

(e) A tangible copy of a record reproduced from an electronically stored record shall be considered an original for purposes of providing copies to patients or other authorized parties and for introduction of the records into evidence in administrative or court proceedings.

(f) Except as provided otherwise under federal law, upon receiving a request for a copy of a record from a patient or an authorized person under Code Section 31-33-3, a provider shall provide copies of the record in either tangible or electronically stored form.

(g) Subsections (a), (b), (d) and (e) of this Code section shall apply to psychiatric, psychological, or other mental health records of a patient. (Code 1981, § 31-33-8, enacted by Ga. L. 2005, p. 618, § 1/SB 204; Ga. L. 2009, p. 698, § 4/HB 126; Ga. L. 2010, p. 286, § 19/SB 244.)

The 2010 amendment, effective July 1, 2010, redesignated the former second sentence of subsection (c) as present subsection (d); redesignated former subsections (d) and (e) as present subsections (e)

and (f), respectively; and added subsection (g).

Georgia Medical Fair, Official Compilation of the Rules and Regulations of the State of Georgia, State Medical Education Board of Georgia, Chapter 355-5.

31-34-1. Short title.

This chapter shall be known and may be cited as the “Physicians for Rural Areas Assistance Act.” (Code 1981, § 31-34-1, enacted by Ga. L. 1989, p. 1234, § 1; Ga. L. 2010, p. 322, § 1/HB 866.)

Editor’s notes. — Ga. L. 2010, p. 322, § 1/HB 866, effective July 1, 2010, reenacted this Code section without change.

31-34-2. Purpose and intent of chapter.

It is the purpose of this chapter to increase the number of physicians in physician underserved rural areas of Georgia by making loans to physicians who have completed their medical education and allowing such loans to be repaid by such physicians agreeing to practice medicine in such rural areas and by making grants to hospitals and, as determined by the Georgia Board for Physician Workforce, other health care entities, local governments, and civic organizations in physician underserved rural areas of Georgia that agree to provide matching funds to the grant, with the intent to enhance recruitment efforts in bringing physicians to such areas. It is the intent of the General Assembly that if funds are available to the Georgia Board for Physician

Workforce to make loans, grants, or scholarships under this chapter or under other applicable state law, the Georgia Board for Physician Workforce shall give priority to loans and scholarships under Part 6 of Article 7 of Chapter 3 of Title 20 and to loans under Code Section 31-34-4. (Code 1981, § 31-34-2, enacted by Ga. L. 1989, p. 1234, § 1; Ga. L. 2006, p. 152, § 2B/HB 1178; Ga. L. 2009, p. 8, § 31/SB 46; Ga. L. 2010, p. 322, § 1/HB 866; Ga. L. 2011, p. 459, § 2/HB 509.)

The 2010 amendment, effective July 1, 2010, added “and by making grants to hospitals and, as determined by the State Medical Education Board, other health care entities, local governments, and civic organizations in physician underserved rural areas of Georgia that agree to provide matching funds to the grant, with the intent to enhance recruitment efforts in bringing physicians to such areas” at the

end of the first sentence and added the second sentence.

The 2011 amendment, effective July 1, 2011, substituted “Georgia Board for Physician Workforce” for “State Medical Education Board” throughout this Code section.

Law reviews. — For article on 2006 amendment of this Code section, see 23 Ga. St. U.L. Rev. 197 (2006).

31-34-3. Administration by Georgia Board for Physician Workforce.

This chapter shall be administered by the Georgia Board for Physician Workforce, and, as used in this chapter, the word “board” means the Georgia Board for Physician Workforce created in Code Section 49-10-1. (Code 1981, § 31-34-3, enacted by Ga. L. 1989, p. 1234, § 1; Ga. L. 2010, p. 322, § 1/HB 866; Ga. L. 2011, p. 459, § 2/HB 509.)

The 2011 amendment, effective July 1, 2011, substituted “Georgia Board for Physician Workforce” for “State Medical Education Board” twice, and substituted “Code Section 49-10-1” for “Code Section 20-3-510” at the end.

Editor’s notes. — Ga. L. 2010, p. 322, § 1/HB 866, effective July 1, 2010, reenacted this Code section without change.

31-34-4. Loan applicant qualifications; rules and regulations.

(a) A physician who receives a loan under the program provided for in this chapter shall be a citizen or national of the United States licensed to practice medicine within the State of Georgia at the time the loan is made, and shall be a graduate of an accredited graduate medical education program located in the United States which has received accreditation or provisional accreditation by the Accreditation Council for Graduate Medical Education or the American Osteopathic Association.

(b) The board shall make a full investigation of the qualifications of an applicant for a loan under the provisions of this chapter to determine the applicant’s fitness for participation in such loan program, and for such purposes, the board may propound such examinations to appli-

cants as the board deems proper. The board's investigation shall include a determination of the outstanding medical education loans incurred by the applicant while completing his or her medical education and training.

(c) The board is authorized to consider among other criteria for granting loans under the provisions of this chapter the state residency status and home area of the applying physician and to give priority to those applicants who are physicians actively practicing or beginning active practice in specialties experiencing shortages or distribution problems in rural areas of this state as determined by the board pursuant to rules and regulations adopted by it in accordance with this chapter.

(d) The board may adopt and prescribe such rules and regulations as it deems necessary or appropriate to administer and carry out the loan program provided for in this chapter. Such rules and regulations shall provide for fixing the rate of regular interest to accrue on loans granted under the provisions of this chapter. Such regular rate of interest shall not exceed by more than 2 percent the prime rate published from time to time by the Board of Governors of the Federal Reserve System. Within such limitation, the regular rate of interest may be increased for new recipients of loans under this chapter. (Code 1981, § 31-34-4, enacted by Ga. L. 1989, p. 1234, § 1; Ga. L. 2006, p. 152, § 2C/HB 1178; Ga. L. 2009, p. 859, § 2/HB 509; Ga. L. 2010, p. 322, § 1/HB 866.)

The 2010 amendment, effective July 1, 2010, substituted the present provisions of subsection (a) for the former provisions, which read: "A physician who receives a loan under the program provided for in this chapter shall be licensed to practice medicine within the State of Georgia at the time the loan is made and shall be a graduate of an accredited four-year medical school located in the United States which has received accred-

itation or provisional accreditation by the Liaison Committee on Medical Education of the American Medical Association or the Bureau of Professional Education of the American Osteopathic Association for a program of education designed to qualify the graduate for licensure by the Georgia Composite Medical Board."

Law reviews. — For article on 2006 amendment of this Code section, see 23 Ga. St. U.L. Rev. 197 (2006).

31-34-4.1. Grants to hospitals and other entities; use of funds; rules and regulations authorized.

(a) After providing priority consideration to granting loans pursuant to Code Section 31-34-4, the board is authorized to make grants to hospitals and, as determined by the board, other health care entities, local governments, and civic organizations in physician underserved rural areas of Georgia, provided that any such hospital, health care entity, local government, or civic organization matches such grant in an amount not less than such grant. Such grants shall be for the purpose of enhancing recruitment efforts in bringing physicians to such areas.

(b) Acceptable expenditures of grant funds by a hospital or other health care entity, local government, or civic organization include, but are not limited to, medical education loan repayment, salary supplements for physicians, and additional support staff for a physician's office. Grant funds shall not be used for hiring or paying a recruiting firm or individual recruiter.

(c) The board is authorized to give priority over other grant applicants to applicant hospitals and other health care entities, local governments, and civic organizations in rural areas of this state experiencing shortages or distribution problems of certain specialties as determined by the board pursuant to rules and regulations adopted by the board in accordance with this chapter.

(d) The board may adopt and prescribe such rules and regulations as it deems necessary or appropriate to administer and carry out the grant program provided for in this chapter. Such rules and regulations shall provide for the criteria that must be met by an applicant and the penalties that shall be incurred for failure to comply with the grant requirements. (Code 1981, § 31-34-4.1, enacted by Ga. L. 2010, p. 322, § 1/HB 866.)

Effective date. — This Code section became effective July 1, 2010.

31-34-5. Service cancelable loan; amount; repayment; determination of physician underserved rural areas.

(a)(1) The board shall have the authority to grant to each applicant approved by the board on a one-year renewable basis a service cancelable loan for a period not exceeding four years. The amount of the loan shall be determined by the board, but such amount shall be related to the applicant's outstanding obligations incurred as a direct result of completing medical education and training.

(2) A loan or loans to each approved applicant shall be granted on the condition that the full amount of the loan or loans shall be repaid to the State of Georgia in services to be rendered by the applicant's practicing his or her profession in a board approved physician underserved rural area of Georgia. For each full year of practicing his or her profession in such a physician underserved rural area, the physician who obtained the loan shall receive credit for the full amount of one year's loan plus regular interest which accrued on such amount.

(b)(1) The board shall have the authority to make grants to each applicant hospital or other health care entity, local government, or civic organization approved by the board on a yearly basis, renewable each year at the discretion of the board. The amount of the grant shall

be determined by the board, but such amount shall be related to and shall not exceed the applicant's proposed expenditures to enhance recruitment efforts in bringing one or more physicians to the physician underserved rural area.

(2) A grant to an approved applicant shall be made on any condition or conditions determined by the board, which may include, but not be limited to, that one or more physicians are employed and retained in the physician underserved rural area for a prescribed minimum length of time.

(c) In making a determination of physician underserved rural areas of Georgia, the board shall seek the advice and assistance of the Department of Public Health, the University of Georgia Cooperative Extension Service, the Department of Community Affairs, and such other public or private associations or organizations as the board determines to be of assistance in making such determinations. Criteria to determine physician underserved rural areas shall include, but shall not be limited to, relevant statistical data related to the following:

- (1) The ratio of physicians to population in the area;
- (2) Indications of the health status of the population in the area;
- (3) The poverty level and dependent age groups of the population in the area;
- (4) Indications of community support for more physicians in the area; and
- (5) Indications that access to the physician's services is available to every person in the underserved area regardless of ability to pay. (Code 1981, § 31-34-5, enacted by Ga. L. 1989, p. 1234, § 1; Ga. L. 2009, p. 453, § 1-4/HB 228; Ga. L. 2010, p. 322, § 1/HB 866; Ga. L. 2011, p. 459, § 3/HB 509; Ga. L. 2011, p. 705, § 6-3/HB 214.)

The 2010 amendment, effective July 1, 2010, designated the previously existing provisions of subsection (a) as paragraph (a)(1); redesignated the former provisions of subsection (b) as paragraph (a)(2); and added subsection (b).

The 2011 amendments. — The first 2011 amendment, effective July 1, 2011, deleted "the Georgia Board for Physician Workforce," preceding "the University" in

the introductory language of subsection (c). The second 2011 amendment, effective July 1, 2011, substituted "Department of Public Health" for "Department of Community Health" in the introductory language of subsection (c).

Law reviews. — For article on the 2011 amendment of this Code section, see 28 Ga. St. U.L. Rev. 147 (2011).

31-34-6. Contract between applicant and state agreeing to terms and conditions of loan; breach of contract; service cancelable contracts.

(a)(1) Before being granted a service cancelable loan provided for in this chapter, each applicant therefor shall enter into a contract with the State of Georgia agreeing to the terms and conditions upon which the loan is granted, which contract shall include such terms and conditions as will carry out the purposes and intent of this chapter. The chairperson of the board and the executive director of the board, acting for and on behalf of the State of Georgia, shall execute the contract for the board. The contract shall also be properly executed by the applicant. The board is vested with full and complete authority to bring an action in its own name against any recipient of a loan under the provisions of this chapter for the performance of the contract and to collect any amount that may be due under the contract.

(2) Any recipient of a loan under the provisions of this chapter who breaches the contract for such loan by either failing to begin or failing to complete the rural practice service obligation under the contract shall be immediately liable to the board for twice the total uncredited amount of all loans contracted for with the recipient, such uncredited amount to be prorated on a monthly basis respecting the recipient's actual service rendered and the total service obligation. For compelling reasons provided for in rules or regulations of the board, the board may agree to and accept a lesser measure of damages for the breach of a contract.

(b)(1) Before receiving a grant under this chapter, each approved applicant hospital or other health care entity, local government, or civic organization shall enter into a service cancelable contract with the State of Georgia agreeing to the terms and conditions upon which the grant is made, which contract shall include such terms and conditions as will carry out the purposes and intent of this chapter. The chairperson of the board and the executive director of the board, acting for and on behalf of the State of Georgia, shall execute the contract for the board. The contract shall also be properly executed by the applicant. The board is vested with full and complete authority to bring an action in its own name against any recipient of a grant under the provisions of this chapter for the performance of the contract and to collect any amount that may be due under the contract.

(2) Any recipient of a grant under the provisions of this chapter who breaches the contract for such grant shall be liable for the measure of damages specified in the contract for the breach of such contract. (Code 1981, § 31-34-6, enacted by Ga. L. 1989, p. 1234, § 1; Ga. L. 2010, p. 322, § 1/HB 866.)

The 2010 amendment, effective July 1, 2010, designated the previously existing provisions of subsection (a) as paragraph (a)(1); in paragraph (a)(1), substituted “chairperson” for “chairman” near

the beginning of the second sentence; designated the former provisions of subsection (b) as paragraph (a)(2); and added subsection (b).

31-34-7. Cancellation of contract.

(a) The board shall have the authority to cancel the contract of any recipient of a loan under this chapter for cause deemed sufficient by the board, provided that such authority shall not be arbitrarily or unreasonably exercised. Upon such cancellation, the total uncredited amount paid to the recipient shall at once become due and payable to the board in cash, and interest at the rate of 12 percent per annum shall accrue on such total uncredited amount from the date of cancellation to the date of payment.

(b) The board shall have the authority to cancel the contract of any recipient of a grant under this chapter for cause deemed sufficient by the board, provided that such authority shall not be arbitrarily or unreasonably exercised. Upon such cancellation, the grant recipient shall not be eligible to receive further grant funds pursuant to this chapter. (Code 1981, § 31-34-7, enacted by Ga. L. 1989, p. 1234, § 1; Ga. L. 2010, p. 322, § 1/HB 866.)

The 2010 amendment, effective July 1, 2010, designated the existing provi-

sions as subsection (a); and added subsection (b).

31-34-8. Funding.

The funds necessary to carry out the loan and grant program authorized by this chapter may come from funds made available to the board from private, federal, state, or local sources. Funds appropriated by the General Assembly for the purposes of this chapter shall be appropriated to the Department of Community Health for the specific purpose of the cancelable loan and grant program authorized by this chapter. The board shall be assigned to the Department of Community Health for administrative purposes only, except that such department shall prepare and submit the budget for that board in concurrence with that board. (Code 1981, § 31-34-8, enacted by Ga. L. 1989, p. 1234, § 1; Ga. L. 1999, p. 296, § 10; Ga. L. 2010, p. 322, § 1/HB 866.)

The 2010 amendment, effective July 1, 2010, in the first and second sentences, substituted “loan and grant program” for

“loan program”, and substituted “state, or local” for “or state” near the end of the first sentence.

31-34-9. Biennial report to General Assembly.

The board shall make a biennial report to the General Assembly of its activities under the provisions of this chapter. Such report shall include the name of each recipient of a loan made under the provisions of this chapter, the amount of each such loan, and the rural area in which the recipient is practicing medicine. Such report shall include the name of each recipient of a grant made under the provisions of this chapter, the amount of each such grant, and the rural area in which the recipient is located. Such report shall also report the amount of administrative expenses incurred by the board in carrying out the provisions of this chapter. (Code 1981, § 31-34-9, enacted by Ga. L. 1989, p. 1234, § 1; Ga. L. 2010, p. 322, § 1/HB 866.)

The 2010 amendment, effective July 1, 2010, added the third sentence.

sponders; exemption provided
by physician; priority; adminis-
tration and implementation;
funding.

Code Commission notes. — This chapter, which was enacted as Chapter 34 of Title 31, was renumbered as Chapter 35 pursuant to Code Section 28-9-5 in light of the previous enactment of a Chapter 34 by Ga. L. 1989, p. 1234.

JUDICIAL DECISIONS

Sovereign immunity. — Sovereign immunity of a county was not waived by O.C.G.A. Ch. 35, T. 31 since the law does not create a general duty for counties to vaccinate officers. The chapter only requires vaccination at the request of an employee. *Diaz v. Gwinnett County*, 225 Ga. App. 807, 485 S.E.2d 42 (1997).

Official immunity of county employees was not waived since there was no evidence that the employees acted maliciously, willfully, or corruptly in connection with the failure of a police officer to be vaccinated against hepatitis B. *Diaz v. Gwinnett County*, 225 Ga. App. 807, 485 S.E.2d 42 (1997).

ARTICLE 1
GENERAL PROVISIONS

Code Commission notes. — Pursuant to Code Section 28-9-5, in 2003, Code Sections 31-35-1 through 31-35-3 were designated as Article 1 of Chapter 35 of Title 31.

31-35-1. Legislative finding.

The General Assembly finds and declares that, by reason of their employment, firefighters, emergency medical technicians, and public safety officers are required to work in the midst of and are subject to exposure to infectious diseases, especially hepatitis B and hepatitis C;

that the United States Centers for Disease Control and Prevention have estimated that 200,000 persons in the United States are infected each year with hepatitis B and of that number 25 percent become ill, 10,000 require hospitalization, and 5,000 die; that it is estimated that there are from 500,000 to 1,000,000 infectious hepatitis B carriers in the United States, of which up to 80 percent of such chronic carriers are unaware that they have hepatitis B and are capable of spreading it; that 3.9 million Americans are infected with chronic hepatitis C; that 350,000 to 450,000 new cases of chronic hepatitis C occur each year; that there is no known cure for hepatitis B or hepatitis C and for firefighters, emergency medical technicians, and public safety officers, there is no way of knowing who among those being helped at an accident, a fire, or any incident are hepatitis B or hepatitis C carriers. The General Assembly further finds and declares that all the aforementioned conditions exist and arise out of or in the course of such employment. (Code 1981, § 31-35-1, enacted by Ga. L. 1989, p. 1780, § 1; Ga. L. 1998, p. 1499, § 2; Ga. L. 2012, p. 775, § 31/HB 942.)

The 2012 amendment, effective May 1, 2012, part of an Act to revise, modernize, and correct the Code, substituted

“Centers for Disease Control and Prevention” for “Centers for Disease Control” in the first sentence.

31-35-2. Definitions.

As used in this chapter, the term:

(1) “Emergency medical technician” means an emergency medical technician as defined in Code Section 31-11-2.

(2) “Fire department” means a service group (paid or volunteer) that is organized and trained for the prevention and control of loss of life and property from fire or other emergency.

(3) “Firefighter” means an individual who is assigned by a fire department to fire-fighting activity and is required to respond to alarms and perform emergency action at the location of a fire, a hazardous materials emergency, or other emergency incident.

(4) “Public safety officer” means an individual sworn to enforce the criminal laws of this state or any county or municipality of this state. (Code 1981, § 31-35-2, enacted by Ga. L. 1989, p. 1780, § 1.)

31-35-3. Voluntary vaccinations for hepatitis B; screening for hepatitis C.

Any active firefighter, emergency medical technician, or public safety officer who may be exposed to hepatitis B or hepatitis C during a period while the firefighter, emergency medical technician, or public safety officer is engaged in the performance of his or her duties shall at the

request of the firefighter, emergency medical technician, or public safety officer be vaccinated for protection against hepatitis B or screened for exposure to hepatitis C. The cost, after the payment by any third-party payor, of such vaccination or screening shall be paid by the county, municipality, or other person or entity employing such firefighter, emergency medical technician, or public safety officer or by the governing authority of the county in the case of a volunteer firefighter. (Code 1981, § 31-35-3, enacted by Ga. L. 1989, p. 1780, § 1; Ga. L. 1998, p. 1499, § 3.)

ARTICLE 2

BIOTERRORISM PROTECTION FOR EMERGENCY RESPONDERS

Cross references. — Domestic terrorism, § 16-4-10. Bioterrorism and public health emergencies, §§ 31-12-1.1, 38-3-3.

31-35-10. Definitions.

As used in this article, the term:

(1) “Bioterrorism” means the intentional use, to cause or attempt to cause death, disease, or other biological malfunction in any living organism, of any of the following:

(A) Microorganism;

(B) Virus;

(C) Infectious substance; or

(D) Biological product that may be engineered as a result of biotechnology or any naturally occurring or bioengineered component of any microorganism, virus, infectious substance, or biological product.

(2) “Commissioner” means the commissioner of public health.

(3) “Department” means the Department of Public Health.

(4) “Disaster location” means any geographical location where a bioterrorism attack, terrorist attack, catastrophic event, natural disaster, or emergency occurs.

(5) “Emergency responder” means any person employed as state or local law enforcement personnel, fire department personnel, corrections officers, or emergency medical personnel who may be deployed to a bioterrorism attack, terrorist attack, catastrophic event, natural disaster, or emergency. (Code 1981, § 31-35-10, enacted by Ga. L. 2003, p. 569, § 4; Ga. L. 2009, p. 453, §§ 1-4, 1-6/HB 228; Ga. L. 2011, p. 705, §§ 6-3, 6-5/HB 214.)

The 2011 amendment, effective July 1, 2011, substituted “commissioner of public health” for “commissioner of community health” in paragraph (2) and substituted “Department of Public Health” for

“Department of Community Health” in paragraph (3).

Law reviews. — For article on the 2011 amendment of this Code section, see 28 Ga. St. U.L. Rev. 147 (2011).

31-35-11. Vaccinations for emergency responders; exemption provided by physician; priority; administration and implementation; funding.

(a) The department shall offer a vaccination program for emergency responders who may be exposed to infectious diseases when deployed to a disaster location. The program shall include diseases for which vaccinations are recommended by the United States Public Health Service and in accordance with the Federal Emergency Management Directors Policy and may include, but not be limited to, vaccinations for hepatitis A, hepatitis B, diphtheria-tetanus, influenza, and pneumococcal.

(b) An emergency responder shall be exempt from vaccination when a written statement from a licensed physician is presented to the department indicating that a vaccine is medically contraindicated for that person or the emergency responder signs a written statement that the administration of a vaccination conflicts with his or her personal choice or religious beliefs.

(c) In the event of a vaccine shortage, the commissioner, in consultation with the Governor and the federal Centers for Disease Control and Prevention, shall use federal recommendations to determine the priority for vaccinations for emergency responders.

(d) The department shall notify emergency responders of the availability of the vaccination program and the risks associated with such vaccinations and shall provide educational materials to emergency responders on ways to prevent exposure to infectious diseases.

(e) The department may contract with county and local health departments, not for profit home health care agencies, hospitals, physicians, or other licensed health care organizations to administer the vaccination program for emergency responders.

(f) The vaccination program established pursuant to this article shall be implemented only upon receipt of federal funding or grants for aid available and approved for purposes under this article.

(g) The department shall take all necessary steps to apply for federal funding to implement the vaccination program under this article including use of an expedited application procedure if circumstances

require such. The department shall also amend the state plan if necessary to meet federal funding requirements. (Code 1981, § 31-35-11, enacted by Ga. L. 2003, p. 569, § 4.)

CHAPTER 36

DURABLE POWER OF ATTORNEY FOR HEALTH CARE

Sec.

31-36-1 through 31-36-13 [Repealed].

31-36-1 through 31-36-13.

Reserved. Repealed by Ga. L. 2007, p. 133, § 3/HB 24, effective July 1, 2007.

Editor's notes. — This chapter consisted of Code Sections 31-36-1 through 31-36-13, relating to durable power of attorney for health care, and was based on Ga. L. 1990, p. 1101, § 1; Ga. L. 1999, p. 81, § 31; Ga. L. 1999, p. 485, § 6; Ga. L. 1999, p. 485, § 7. The former chapter was incorporated into Chapter 32 of this title by Ga. L. 2007, p. 133, § 2/HB 24, effective July 1, 2007.

Law reviews. — For article, “Medical Decision-Making in Georgia,” see 10 Ga. St. B.J. 50 (2005).

31-36A-1. Short title.

This chapter shall be known and may be cited as the “Temporary Health Care Placement Decision Maker for an Adult Act.” (Code 1981, § 31-36A-1, enacted by Ga. L. 1999, p. 485, § 5.)

31-36A-2. Legislative finding.

(a) The General Assembly recognizes that there may be occasions when an adult has not made advance arrangements for a situation when he or she is unable to consent to his or her own admission to or discharge from one health care facility or placement or transfer to another health care facility or placement. Under these circumstances, the General Assembly further recognizes that it may be necessary and in the adult’s best interest to be admitted to or discharged from one health care facility or placement or transferred to an alternative facility or placement.

(b) In recognition of the findings in subsection (a) of this Code section, the General Assembly declares that the laws of the State of Georgia shall provide for the most appropriate placement available for these individuals and shall declare an order of priority for those persons who may make the decision to transfer, admit, or discharge such adults at the appointed times and a procedure for obtaining authorization from the court in the absence of a person authorized to consent. (Code 1981, § 31-36A-2, enacted by Ga. L. 1999, p. 485, § 5.)

31-36A-3. Definitions.

As used in this chapter, the term:

(1) “Absence of a person authorized to consent” means that:

(A) After diligent efforts for a reasonable period of time, no person authorized to consent under the provisions of Code Section 31-36A-6 has been located; or

(B) All such authorized persons located have affirmatively waived their authority to consent or dissent to admission to or discharge from a health care facility or placement or transfer to an alternative health care facility or placement, provided that dissent by an authorized person to a proposed admission, discharge, or transfer shall not be deemed waiver of authority.

(2) “Unable to consent” means that an adult is unable to:

(A) Make rational and competent decisions regarding his or her placement options for health or personal care; or

(B) Communicate such decisions by any means. (Code 1981, § 31-36A-3, enacted by Ga. L. 1999, p. 485, § 5.)

31-36A-4. Construction of chapter in relation to Title 37.

This chapter shall not apply to involuntary examination and hospitalization for treatment of mental illness, which shall continue to be governed by Title 37. (Code 1981, § 31-36A-4, enacted by Ga. L. 1999, p. 485, § 5.)

31-36A-5. Certification by physician.

An attending physician, treating physician, or other physician licensed according to the laws of the State of Georgia, after having personally examined an adult, may certify in the adult’s medical records the following:

(1) The adult is unable to consent for himself or herself; and

(2) It is the physician’s belief that it is in the adult’s best interest to be discharged from a hospital, institution, medical center, or other health care institution providing health or personal care for treatment of any type of physical or mental condition and to be transferred to or admitted to an alternative facility or placement, including, but not limited to, nursing facilities, assisted living communities, personal care homes, rehabilitation facilities, and home and community based programs. (Code 1981, § 31-36A-5, enacted by Ga. L. 1999, p. 485, § 5; Ga. L. 2011, p. 227, § 21/SB 178.)

The 2011 amendment, effective July 1, 2011, inserted “assisted living communities,” near the end of paragraph (2).

31-36A-6. Persons authorized to consent; expiration of authorization; limitations on authority to consent; effect on other laws; immunity from liability or disciplinary action.

(a) Upon a physician’s certification pursuant to Code Section 31-36A-5, and in addition to such other persons as may be otherwise authorized and empowered, any one of the following persons is authorized and empowered to consent, in the priority order listed below, either orally or otherwise, to such transfer, admission, or discharge:

- (1) Any adult, for himself or herself;
- (2) Any person authorized to give such consent for the adult under an advance directive for health care or durable power of attorney for health care under Chapter 32 of this title;
- (3) Any guardian of the person for his or her ward;
- (4) Any spouse for his or her spouse;
- (5) Any adult child for such person’s parent;
- (6) Any parent for such person’s adult child;
- (7) Any adult for such person’s adult brother or sister;
- (8) Any grandparent for such person’s adult grandchild;
- (9) Any adult grandchild for such person’s grandparent;
- (10) Any adult uncle or aunt for such person’s adult nephew or niece; or
- (11) Any adult nephew or niece for such person’s adult uncle or aunt.

(b) Any person authorized and empowered to consent under subsection (a) of this Code section shall, after being informed of the provisions of this Code section, act in good faith to consent to a transfer, admission, or discharge which the patient would have wanted had the patient been able to consent in the circumstances under which such transfer, admission, or discharge is considered or, if the patient’s preferences are unknown, which such person believes the patient would have wanted had the patient been able to consent in the circumstances under which such transfer, admission, or discharge is considered. The current health care facility’s discharge planner, social worker, or other designated personnel shall assist the person authorized to consent under subsec-

tion (a) of this Code section with identifying the most appropriate, least restrictive level of care available, including home and community based services and available placements, if any, in reasonable proximity to the patient's residence.

(c) The authorization to consent to such transfer, admission, or discharge shall expire upon the earliest of the following:

(1) The completion of the transfer, admission, or discharge and such responsibilities associated with such transfer, admission, or discharge, including, but not limited to, assisting with applications for financial coverage and insurance benefits for health or personal care;

(2) Upon a physician's certification that the adult is able to consent to decisions regarding his or her placements for health or personal care; or

(3) Upon discovery that another person authorized under subsection (a) of this Code section of a higher priority is available who has not affirmatively waived his or her authority to consent or dissent to admission to or discharge from a health care facility or placement or transfer to an alternative health care facility or placement, provided that dissent by such authorized person to a proposed admission, discharge, or transfer shall not be deemed waiver of authority.

(d) The authorization to give consent for transfer, admission, or discharge is limited solely to said transfer, admission, or discharge decision and responsibilities associated with such decision, including providing assistance with financial assistance applications. It does not include the power or authority to perform any other acts on behalf of the adult not expressly authorized in this Code section.

(e) This Code section shall not repeal, abrogate, or impair the operation of any other laws, either federal or state, governing the transfer, admission, or discharge of a person to or from a health care facility or placement. Further, the adult retains all rights provided under laws, both federal and state, as a result of an involuntary transfer, admission, or discharge.

(f) Each certifying physician, discharge planner, social worker, or other hospital personnel or authorized person who acts in good faith pursuant to the authority of this Code section shall not be subject to any civil or criminal liability or discipline for unprofessional conduct. (Code 1981, § 31-36A-6, enacted by Ga. L. 1999, p. 485, § 5; Ga. L. 2007, p. 133, § 14/HB 24.)

Editor's notes. — Ga. L. 2007, p. 133, § 1/HB 24, not codified by the General Assembly, provides: "(a) The General Assembly has long recognized the right of the individual to control all aspects of his or her personal care and medical treat-

ment, including the right to insist upon medical treatment, decline medical treatment, or direct that medical treatment be withdrawn. In order to secure these rights, the General Assembly has adopted and amended statutes recognizing the living will and health care agency and provided statutory forms for both documents.

“(b) The General Assembly has determined that the statutory forms for the living will and durable power of attorney for health care are confusing and inconsistent and that the statutes providing for the living will and health care agency contain conflicting concepts, inconsistent and out-of-date terminology, and confusing and inconsistent requirements for execution. In addition, there is a commendable trend among the states to combine the concepts of the living will and health care agency into a single legal document.

“(c) The General Assembly recognizes that a significant number of individuals representing the academic, medical, legis-

lative, and legal communities, state officials, ethics scholars, and advocacy groups worked together to develop the advance directive for health care contained in this Act, and the collective intent was to create a form that uses understandable and everyday language in order to encourage more citizens of this state to execute advance directives for health care.

“(d) The General Assembly finds that the clear expression of an individual’s decisions regarding health care, whether made by the individual or an agent appointed by the individual, is of critical importance not only to citizens but also to the health care and legal communities, third parties, and families. In furtherance of these purposes, the General Assembly enacts a new Chapter 32 of Title 31, setting forth general principles governing the expression of decisions regarding health care and the appointment of a health care agent, as well as a form of advance directive for health care.”

31-36A-7. Petition for order by health care facility; issuance, expiration, and limited authorization of order; effect on other laws; immunity from liability or disciplinary action.

(a) In the absence of a person authorized to consent under the provisions of Code Section 31-36A-6, any interested person or persons, including, but not limited to, any authority, corporation, partnership, or other entity operating the health care facility where the adult who is unable to consent is then present, with or without the assistance of legal counsel, may petition the probate court for a health care placement transfer, admission, or discharge order. The petition must be verified and filed in the county where the adult requiring an alternative placement or transfer, admission, or discharge resides or is found, provided that the probate court of the county where the adult is found shall not have jurisdiction to grant the order if it appears that the adult was removed to that county solely for purposes of filing such a petition. The petition shall set forth:

- (1) The name, age, address, and county of the residence of the adult, if known;
- (2) The name, address, and county of residence of the petitioner;
- (3) The relationship of the petitioner to the adult;
- (4) The current location of the adult;

(5) A physician's certification pursuant to Code Section 31-36A-5;

(6) The absence of any person to consent to such transfer, admission, or discharge as authorized by the provisions of Code Section 31-36A-6;

(7) Name and address of the recommended alternative health care facility or placement; and

(8) A statement of the reasons for such transfer, admission, or discharge as required by subsections (b) and (c) of this Code section.

(b) The petition shall be supported by the affidavit of an attending physician, treating physician, or other physician licensed according to the laws of the State of Georgia, attesting the following:

(1) The adult is unable to consent for himself or herself;

(2) It is the physician's belief that it is in the adult's best interest to be admitted to or discharged from a hospital, institution, medical center, or other health care institution providing health or personal care for treatment of any type of physical or mental condition or to be transferred to an alternative facility or placement, including, but not limited to, nursing facilities, assisted living communities, personal care homes, rehabilitation facilities, and home and community based programs; and

(3) The identified type of health care facility or placement will provide the adult with the recommended services to meet the needs of the adult and is the most appropriate, least restrictive level of care available.

(c) The petition shall also be supported by the affidavit of the discharging health care facility's discharge planner, social worker, or other designated personnel attesting to and explaining the following:

(1) There is an absence of a person to consent to such transfer, admission, or discharge as authorized in Code Section 31-36A-6;

(2) The recommended alternative facility or placement is the most appropriate facility or placement available that provides the least restrictive and most appropriate level of care and reasons therefor; and

(3) Alternative facilities or placements were considered, including home and community based placements and available placements, if any, that were in reasonable proximity to the adult's residence.

(d) The court shall review the petition and accompanying affidavits and other information to determine if all the necessary information is provided to the court as required in subsections (a), (b), and (c) of this

Code section. The court shall enter an instanter order if the following information is provided:

- (1) The adult is unable to consent for himself or herself;
- (2) There is an absence of any person to consent to such transfer, admission, or discharge as authorized in Code Section 31-36A-6;
- (3) It is in the adult's best interest to be discharged from a hospital, institution, medical center, or other health care institution or placement providing health or personal care for treatment for any type of physical or mental condition and to be admitted or transferred to an alternative facility or placement;
- (4) The recommended alternative facility or placement is the most appropriate facility or placement available that provides the least restrictive and most appropriate level of care; and
- (5) Alternative facilities or placements were considered, including home and community based placements and available placements, if any, in reasonable proximity to the adult's residence.

The order shall authorize the petitioner or the petitioner's designee to do all things necessary to accomplish the discharge from a hospital, institution, medical center, or other health care institution and the transfer to or admission to the recommended facility or placement.

(e) At the same time as issuing the order, the court shall provide a copy of said order to the commissioner of public health.

(f) The order authorizing such transfer, admission, or discharge shall expire upon the earliest of the following:

- (1) The completion of the transfer, admission, or discharge and such responsibilities associated with such transfer, admission, or discharge, including, but not limited to, assisting with the completion of applications for financial coverage and insurance benefits for the health or personal care;
- (2) Upon a physician's certification that the adult is able to understand and make decisions regarding his or her placements for health or personal care and can communicate such decisions by any means; or
- (3) At a time specified by the court not to exceed 30 days from the date of the order.

(g) The order is limited to authorizing the transfer, admission, or discharge and other responsibilities associated with such decision, such as authorizing the application for financial coverage and insurance benefits. It does not include the authority to perform any other acts on behalf of the adult not expressly authorized in this Code section.

(h) This Code section shall not repeal, abrogate, or impair the operation of any other laws, either federal or state, governing the transfer, admission, or discharge of a person to or from a health care facility or placement. Further, such person retains all rights provided under laws, both federal and state, as a result of an involuntary transfer, admission, or discharge.

(i) Each certifying physician, discharge planner, social worker, or other hospital personnel or authorized person who acts in good faith pursuant to the authority of this Code section shall not be subject to any civil or criminal liability or discipline for unprofessional conduct. (Code 1981, § 31-36A-7, enacted by Ga. L. 1999, p. 485, § 5; Ga. L. 2009, p. 453, § 1-6/HB 228; Ga. L. 2011, p. 227, § 22/SB 178; Ga. L. 2011, p. 705, § 6-5/HB 214.)

The 2011 amendments. — The first 2011 amendment, effective July 1, 2011, inserted “assisted living communities,” near the end of paragraph (b)(2). The second 2011 amendment, effective July 1, 2011, substituted “commissioner of public

health” for “commissioner of community health” in subsection (e).

Law reviews. — For article on the 2011 amendment of this Code section, see 28 Ga. St. U.L. Rev. 147 (2011).

CHAPTER 37

HEALTH CARE PERSONNEL

Sec.
31-37-1 through 31-37-3 [Repealed].

31-37-1 through 31-37-3.

Reserved. Repealed by Ga. L. 1999, p. 296, § 11, effective July 1, 1999.

Editor’s notes. — Ga. L. 1999, p. 296, § 11, effective July 1, 1999, repealed and reserved the Code sections formerly codified at this chapter. The former chapter, relating to health care personnel, consisted of Code Sections 31-37-1 through 31-37-3 and was based on Ga. L. 1990, p. 1051, § 1; Ga. L. 1992, p. 6, § 31; Ga. L. 1996, p. 6, § 31.

CHAPTER 38

TANNING FACILITIES

| Sec. | | Sec. | |
|------------|---|-----------|--|
| 31-38-1. | Definitions. | 31-38-8. | Written report of injury requirement; use of equipment by minors restricted; equipment maintenance requirements; restriction on promoting and advertising certain health-related claims. |
| 31-38-2. | Exemptions from applicability of chapter. | 31-38-9. | Noncompliance with chapter. |
| 31-38-3. | Construction, operation, and maintenance requirements. | 31-38-10. | Private right of action authorized. |
| 31-38-4. | Warning sign to be posted; contents of warning sign. | 31-38-11. | Variance permitted. |
| 31-38-4.1. | Regulation of tanning facilities. | 31-38-12. | Effect of chapter on administrator; administrator's immunity from liability. |
| 31-38-5. | Compliance with federal regulations and national electrical code; physical barriers required. | | |
| 31-38-6. | Stand-up tanning booth requirements. | | |
| 31-38-7. | Protective goggles requirement. | | |

Code Commission notes. — Pursuant to Code Section 28-9-5, in 1991, Chapter 38 of Title 31, as enacted by Ga. L. 1991, p. 1853, was redesignated as Chapter 39 thereof, since Ga. L. 1991, p. 1411, enacted this chapter, also numbered Chapter 38.

31-38-1. Definitions.

As used in this chapter, the term:

- (1) "CFR" means Code of Federal Regulations.
- (1.1) "Consumer" means any individual who is provided access to a tanning facility as defined in this chapter.
- (2) "Individual" means any human being.
- (3) "Operator" means any individual designated by the tanning facility owner or tanning equipment lessee to operate or to assist and instruct the consumer in the operation and use of the tanning facility or tanning equipment.
- (4) "Person" means any individual, corporation, partnership, firm, association, trust, estate, public or private institution, group, agency, political subdivision of this state, any other state, or political subdivision or agency thereof, and any legal successor, representative, agent, or agency of these entities.
- (5) "Tanning equipment" means ultraviolet or other lamps and equipment containing such lamps intended to induce skin tanning

through the irradiation of any part of the living human body with ultraviolet radiation.

(6) "Tanning facility" means any location, place, area, structure, or business or a part thereof which provides consumers access to tanning equipment. "Tanning facility" includes, but is not limited to, tanning salons, health clubs, apartments, or condominiums regardless of whether a fee is charged for access to the tanning equipment.

(7) "Ultraviolet radiation" means electromagnetic radiation with wavelengths in air between 200 nanometers and 400 nanometers. (Code 1981, § 31-38-1, enacted by Ga. L. 1991, p. 1411, § 2.)

31-38-2. Exemptions from applicability of chapter.

(a) Any person is exempt from the provisions of this chapter to the extent that such person:

(1) Uses equipment which emits ultraviolet radiation incidental to its normal operation; and

(2) Does not use the equipment described in paragraph (1) of this subsection to deliberately expose parts of the living human body to ultraviolet radiation for the purpose of tanning or other treatment.

(b) Any physician licensed by the Georgia Composite Medical Board is exempt from the provisions of this chapter to the extent that such physician uses, in the practice of medicine, medical diagnostic and therapeutic equipment which emits ultraviolet radiation.

(c) Any individual is exempt from the provisions of this chapter to the extent that such individual owns tanning equipment exclusively for personal, noncommercial use. (Code 1981, § 31-38-2, enacted by Ga. L. 1991, p. 1411, § 2; Ga. L. 2009, p. 859, § 2/HB 509.)

31-38-3. Construction, operation, and maintenance requirements.

Each tanning facility in this state shall be constructed, operated, and maintained in accordance with the requirements of Code Sections 31-38-4 through 31-38-8. (Code 1981, § 31-38-3, enacted by Ga. L. 1991, p. 1411, § 2.)

31-38-4. Warning sign to be posted; contents of warning sign.

(a) The facility owner or operator shall conspicuously post the warning sign described in subsection (b) of this Code section within three feet of each tanning station and in such a manner that the sign is clearly visible, not obstructed by any barrier, equipment, or other

object, and can be easily viewed by the consumer before energizing the tanning equipment.

(b) The warning sign required in subsection (a) of this Code section shall use upper and lower case letters which are at least two inches and one inch in height, respectively, and shall have the following wording:

DANGER — ULTRAVIOLET RADIATION

-Follow instruction.

-Avoid overexposure. As with natural sunlight, overexposure can cause eye and skin injury and allergic reactions. Repeated exposure may cause premature aging of the skin and skin cancer.

-Wear protective eyewear.

**FAILURE TO USE PROTECTIVE EYEWEAR
MAY RESULT IN SEVERE BURNS OR
LONG-TERM INJURY TO THE EYES.**

-Medications or cosmetics may increase your sensitivity to the ultraviolet radiation. Consult a physician before using sunlamp or tanning equipment if you are using medications or have a history of skin problems or believe yourself to be especially sensitive to sunlight.

-If you do not tan in the sun, you are unlikely to tan from the use of this product.

**MAXIMUM EXPOSURE AT ANY ONE SESSION
SHOULD NEVER EXCEED 15 MINUTES.**

According to the research and clinical experience of the American Academy of Dermatology, excessive or improper exposure to ultraviolet light can cause harmful changes in the skin and other organs, including skin cancer, cataracts, impairment of the immune system, premature aging, and photosensitivity. These are virtually the same risks associated with outdoor tanning. (Code 1981, § 31-38-4, enacted by Ga. L. 1991, p. 1411, § 2.)

31-38-4.1. Regulation of tanning facilities.

(a) After January 1, 2011, no person shall establish, maintain, or operate a tanning facility without first having registered with the department.

(b) A person shall register under this Code section by submitting a form to the department. The form shall require only the name, address, and telephone number of the tanning facility and owner and the model number and type of each ultraviolet lamp used in the tanning facility.

(c) A registrant shall be required to pay an annual registration fee of \$25.00 per tanning facility and an additional registration fee of \$15.00 per tanning device owned, leased, or otherwise used by the tanning facility. (Code 1981, § 31-38-4.1, enacted by Ga. L. 2010, p. 548, § 2-1/SB 435.)

Effective date. — This Code section became effective July 1, 2010.

Editor's notes. — Ga. L. 2010, p. 548, § 1-1/SB 435, not codified by the General Assembly, provides: "The General Assembly finds that:

"(1) Diabetes is a chronic disease caused by the inability of the pancreas to produce insulin or to use the insulin produced in the proper way;

"(2) If untreated and poorly managed, diabetes has been medically proven to lead to blindness, kidney failure, amputation, heart attack, and stroke;

"(3) Diabetes is the sixth leading cause of death in the United States, responsible for a similar number of deaths each year as HIV/AIDS;

"(4) In Georgia, the prevalence of diabetes is 8 percent higher than the nation as a whole;

"(5) One out of three people with diabetes are not aware that they have the disease;

"(6) Without aggressive societal action, the number of people living with diabetes in Georgia will more than double to 1,697,000 people in the next 20 years, cutting life short for these people by ten to 20 years; and

"(7) Without aggressive societal action, the economic burden of diabetes on the State of Georgia is expected to grow from \$5 billion each year to about \$11.9 billion in the next 20 years."

Ga. L. 2010, p. 548, § 1-2/SB 435, not codified by the General Assembly, provides: "This Act shall be known and may be cited as the 'Diabetes and Health Improvement Act of 2010.'"

31-38-5. Compliance with federal regulations and national electrical code; physical barriers required.

(a) The tanning facility owner or operator shall use only tanning equipment manufactured in accordance with the specifications set forth in 21 CFR 1040.20. The exact nature of compliance shall be based on the standards in effect at the time of manufacture as shown on the device identification label required by 21 CFR 1010.3.

(b) Each assembly of tanning equipment shall be designated for use by only one consumer at a time and shall be equipped with a timer which complies with the requirements of 21 CFR 1040.20(c)(2). The maximum timer interval shall not exceed the manufacturer's maximum recommended exposure time. No timer interval shall have an error exceeding plus or minus 10 percent of the maximum timer interval for the product.

(c) Tanning equipment shall meet the National Fire Protection Association National Electrical Code and shall be provided with ground fault protection on the electrical circuit.

(d) Tanning equipment shall include physical barriers to protect consumers from injury induced by touching or breaking the lamps. (Code 1981, § 31-38-5, enacted by Ga. L. 1991, p. 1411, § 2.)

31-38-6. Stand-up tanning booth requirements.

Tanning booths designed for stand-up use shall also comply with the following additional requirements:

(1) Booths shall have physical barriers or other means, such as handrails or floor markings, to indicate the proper exposure distance between ultraviolet lamps and the consumer's skin;

(2) Booths shall be constructed with sufficient strength and rigidity to withstand the stress of use and the impact of a falling person;

(3) Access to booths shall be of rigid construction with doors which are nonlatching and open outwardly; and

(4) Booths shall be equipped with handrails and nonslip floors. (Code 1981, § 31-38-6, enacted by Ga. L. 1991, p. 1411, § 2.)

31-38-7. Protective goggles requirement.

(a) The tanning facility owner or operator shall provide protective goggles to each consumer for use during any use of tanning equipment.

(b) The protective goggles required in subsection (a) of this Code section shall meet the requirements of 21 CFR 1040.20(c)(5).

(c) Tanning facility operators shall ensure that consumers wear the protective goggles required by this Code section.

(d) The tanning facility owner or operator shall ensure that the protective goggles required by this Code section are properly sanitized before each use and shall not rely upon exposure to the ultraviolet radiation produced by the tanning equipment itself to provide such sanitizing. (Code 1981, § 31-38-7, enacted by Ga. L. 1991, p. 1411, § 2.)

31-38-8. Written report of injury requirement; use of equipment by minors restricted; equipment maintenance requirements; restriction on promoting and advertising certain health-related claims.

(a) The tanning facility owner or operator shall compile a written report of actual or alleged injury from use of tanning equipment within five working days after occurrence or notice thereof. Such report shall be maintained for a period of not less than three years and shall be available for inspection and copying by any consumer. The report shall include:

(1) The name of the affected individual;

(2) The name and location of the tanning facility and identification of the specific tanning equipment involved;

(3) The nature of the actual or alleged injury; and

(4) Any other information relevant to the actual or alleged injury to include the date and duration of exposure.

(b) The tanning facility owner or operator shall not allow minors under 14 years of age to use tanning equipment. The tanning facility owner or operator shall not allow minors 14 years of age or over but under 18 years of age to use tanning equipment unless the minor's parent or legal guardian signs a written consent form meeting the requirements of this Code section. Such consent form shall be signed by the parent or legal guardian at the tanning facility before the minor may use the equipment or facility.

(c) The tanning facility owner or operator shall replace defective or burned out lamps, bulbs, or filters with a type intended for use in the affected tanning equipment as specified on the product label and having the same spectral distribution.

(d) The tanning facility owner or operator shall replace ultraviolet lamps and bulbs, which are not otherwise defective or damaged, at such frequency or after such duration of use as may be recommended by the manufacturer of such lamps and bulbs.

(e) A tanning facility shall not advertise or distribute promotional materials that claim that using a tanning device is safe or free from risk or that the use of a tanning device will result in medical or health benefits. Violation of the provisions of this subsection shall constitute an unfair or deceptive act pursuant to the terms of Part 2 of Article 15 of Chapter 1 of Title 10, the "Fair Business Practices Act of 1975." (Code 1981, § 31-38-8, enacted by Ga. L. 1991, p. 1411, § 2; Ga. L. 2010, p. 548, § 2-2/SB 435.)

The 2010 amendment, effective July 1, 2010, in subsection (b), added "under 14 years of age" after "minors" in the first sentence, and added "The tanning facility owner or operator shall not allow minors 14 years of age or over but under 18 years of age to use tanning equipment" at the beginning of the second sentence; and added subsection (e).

Editor's notes. — Ga. L. 2010, p. 548, § 1-1/SB 435, not codified by the General Assembly, provides: "The General Assembly finds that:

"(1) Diabetes is a chronic disease caused by the inability of the pancreas to produce insulin or to use the insulin produced in the proper way;

"(2) If untreated and poorly managed, diabetes has been medically proven to

lead to blindness, kidney failure, amputation, heart attack, and stroke;

"(3) Diabetes is the sixth leading cause of death in the United States, responsible for a similar number of deaths each year as HIV/AIDS;

"(4) In Georgia, the prevalence of diabetes is 8 percent higher than the nation as a whole;

"(5) One out of three people with diabetes are not aware that they have the disease;

"(6) Without aggressive societal action, the number of people living with diabetes in Georgia will more than double to 1,697,000 people in the next 20 years, cutting life short for these people by ten to 20 years; and

"(7) Without aggressive societal action,

the economic burden of diabetes on the State of Georgia is expected to grow from \$5 billion each year to about \$11.9 billion in the next 20 years.”

Ga. L. 2010, p. 548, § 1-2/SB 435, not

codified by the General Assembly, provides: “This Act shall be known and may be cited as the ‘Diabetes and Health Improvement Act of 2010.’”

31-38-9. Noncompliance with chapter.

Any person who leases tanning equipment or who owns a tanning facility as defined by this chapter who operates or permits to be operated that equipment or facility in noncompliance with the requirements of this chapter shall be guilty of a misdemeanor. (Code 1981, § 31-38-9, enacted by Ga. L. 1991, p. 1411, § 2.)

31-38-10. Private right of action authorized.

In addition to any other rights or remedies otherwise provided to consumers by law, any consumer who is damaged by any violation of this chapter may bring an action in superior court to recover a penalty fee of no less than \$1,000.00 and to recover any actual, consequential, or punitive damages the court deems appropriate. Any recovery under this Code section shall also include attorney’s fees and court costs. It is the intent of the General Assembly in this Code section to provide consumers with an additional remedy to encourage enforcement of this chapter through private rights of action. (Code 1981, § 31-38-10, enacted by Ga. L. 1991, p. 1411, § 2.)

31-38-11. Variance permitted.

Any tanning facility which finds that it is not possible to comply with Code Section 31-38-4 may apply to the administrator appointed pursuant to subsection (a) of Code Section 10-1-395 for a variance from the requirements of Code Section 31-38-4. Any such variance granted by the administrator shall be in writing and shall be drawn as narrowly as possible. (Code 1981, § 31-38-11, enacted by Ga. L. 1991, p. 1411, § 2.)

31-38-12. Effect of chapter on administrator; administrator’s immunity from liability.

Nothing contained in this chapter shall be construed as imposing any duty, requirement, or enforcement authority upon the administrator appointed pursuant to Code Section 10-1-395 except as described in Code Section 31-38-11, provided that nothing contained in this chapter shall be construed in any manner as limiting the administrator from exercising any of his duties, powers, or authority under any other law.

The administrator shall not be liable to any person for any reason as a result of granting or failing to grant any variance under Code Section 31-38-11. (Code 1981, § 31-38-12, enacted by Ga. L. 1991, p. 1411, § 2.)

Code Commission notes. — Pursuant to Code Section 28-9-5, in 1991, this chapter, which was designated as Chapter 38 of Title 31, was redesignated as Chapter 39 thereof, since there exists another Chapter 38 of Title 31.

Law reviews. — For annual survey article on domestic relations law, see 45 Mercer L. Rev. 215 (1993). For article, "Medical Decision-Making in Georgia," see 10 Ga. St. B.J. 50 (2005).

For note on 1995 amendments and enactments of Code sections in this chapter, see 12 Ga. St. U.L. Rev. 223 (1995).

31-39-1. Legislative findings and intent.

The General Assembly finds that although cardiopulmonary resuscitation has proved invaluable in the reversal of sudden, unexpected death, it is appropriate for an attending physician, in certain circumstances, to issue an order not to attempt cardiopulmonary resuscitation of a patient where appropriate consent or authorization has been obtained. The General Assembly further finds that there is a need to establish and clarify the rights and obligations of patients, their families or representatives, and health care providers regarding cardiopulmonary resuscitation and the issuance of orders not to resuscitate. The General Assembly further finds that, in the interest of protecting individual autonomy, cardiopulmonary resuscitation in some circumstances may cause loss of patient dignity and unnecessary pain and suffering. In recognition of the considerable uncertainty in the medical and legal professions as to the legality of implementing orders not to resuscitate, in recognition of the request of the Supreme Court of Georgia for legislative guidance in this area, and in recognition of the

dignity and privacy which patients have a right to expect, the General Assembly declares that the laws of the State of Georgia shall recognize the right of patients or other authorized persons to instruct physicians and other health care personnel to refrain from cardiopulmonary resuscitation. (Code 1981, § 31-39-1, enacted by Ga. L. 1991, p. 1853, § 1; Ga. L. 1994, p. 672, § 1.)

31-39-2. Definitions.

As used in this chapter, the term:

(1) “Adult” means any person who is 18 years of age or older, is the parent of a child, or has married.

(2) “Attending physician” means the physician selected by or assigned to a patient to have primary responsibility for the treatment and care of the patient. Where more than one physician share such responsibility, any such physician may act as the attending physician pursuant to this chapter.

(3) “Authorized person” means any one person from the following list in the order of priority as listed below:

(A) Any agent under a durable power of attorney for health care or health care agent under an advance directive for health care appointed pursuant to Chapter 32 of this title;

(B) A spouse;

(C) A guardian over the person appointed pursuant to the provisions of Code Section 29-4-1;

(D) A son or daughter 18 years of age or older;

(E) A parent; or

(F) A brother or sister 18 years of age or older.

(4) “Candidate for nonresuscitation” means a patient who, based on a determination to a reasonable degree of medical certainty by an attending physician with the concurrence of another physician:

(A) Has a medical condition which can reasonably be expected to result in the imminent death of the patient;

(B) Is in a noncognitive state with no reasonable possibility of regaining cognitive functions; or

(C) Is a person for whom cardiopulmonary resuscitation would be medically futile in that such resuscitation will likely be unsuccessful in restoring cardiac and respiratory function or will only restore cardiac and respiratory function for a brief period of time so

that the patient will likely experience repeated need for cardiopulmonary resuscitation over a short period of time or that such resuscitation would be otherwise medically futile.

(5) “Cardiopulmonary resuscitation” means only those measures used to restore or support cardiac or respiratory function in the event of a cardiac or respiratory arrest.

(5.1) “Caregiver” means an unlicensed assistant who provides direct health related care to patients or residents, a proxy caregiver performing health maintenance activities as provided in Code Section 43-26-12, or a person performing auxiliary services in the care of patients as provided in Code Section 43-26-12.

(6) “Decision-making capacity” means the ability to understand and appreciate the nature and consequences of an order not to resuscitate, including the benefits and disadvantages of such an order, and to reach an informed decision regarding the order.

(6.1) “Emergency medical technician” means a person certified as an emergency medical technician, paramedic, or cardiac technician under Chapter 11 of this title.

(7) “Health care facility” means an institution which is licensed as a hospital or nursing home pursuant to Article 1 of Chapter 7 of this title or licensed as a hospice pursuant to Article 9 of Chapter 7 of this title, or a home health agency licensed pursuant to Article 7 of Chapter 7 of this title.

(8) “Minor” means any person who is not an adult.

(8.1) “Nurse” means a person who is a licensed practical nurse as provided in Code Section 43-26-32 or a registered professional nurse as provided in Code Section 43-26-3.

(9) “Order not to resuscitate” means an order not to attempt cardiopulmonary resuscitation in the event a patient suffers cardiac or respiratory arrest, or both.

(10) “Parent” means a parent who has custody of a minor or is the parent of an adult without decision-making capacity.

(11) “Patient” means a person who is receiving care and treatment from an attending physician.

(11.1) “Physician assistant” means a person licensed as a physician assistant pursuant to Article 4 of Chapter 34 of Title 43.

(12) “Reasonably available” means that a person to be contacted can be contacted with diligent efforts by an attending physician, another person acting on behalf of the attending physician, or the health care facility within a reasonable period of time as determined

by the attending physician. (Code 1981, § 31-39-2, enacted by Ga. L. 1991, p. 1853, § 1; Ga. L. 1994, p. 672, § 1; Ga. L. 1995, p. 722, §§ 1, 1.1; Ga. L. 2004, p. 161, § 7; Ga. L. 2007, p. 133, § 15/HB 24; Ga. L. 2011, p. 379, § 1/HB 275.)

The 2011 amendment, effective July 1, 2011, added paragraphs (5.1), (8.1), and (11.1).

Editor's notes. — Ga. L. 2007, p. 133, § 1/HB 24, not codified by the General Assembly, provides: “(a) The General Assembly has long recognized the right of the individual to control all aspects of his or her personal care and medical treatment, including the right to insist upon medical treatment, decline medical treatment, or direct that medical treatment be withdrawn. In order to secure these rights, the General Assembly has adopted and amended statutes recognizing the living will and health care agency and provided statutory forms for both documents.

“(b) The General Assembly has determined that the statutory forms for the living will and durable power of attorney for health care are confusing and inconsistent and that the statutes providing for the living will and health care agency contain conflicting concepts, inconsistent and out-of-date terminology, and confusing and inconsistent requirements for execution. In addition, there is a commendable trend among the states to combine

the concepts of the living will and health care agency into a single legal document.

“(c) The General Assembly recognizes that a significant number of individuals representing the academic, medical, legislative, and legal communities, state officials, ethics scholars, and advocacy groups worked together to develop the advance directive for health care contained in this Act, and the collective intent was to create a form that uses understandable and everyday language in order to encourage more citizens of this state to execute advance directives for health care.

“(d) The General Assembly finds that the clear expression of an individual's decisions regarding health care, whether made by the individual or an agent appointed by the individual, is of critical importance not only to citizens but also to the health care and legal communities, third parties, and families. In furtherance of these purposes, the General Assembly enacts a new Chapter 32 of Title 31, setting forth general principles governing the expression of decisions regarding health care and the appointment of a health care agent, as well as a form of advance directive for health care.”

JUDICIAL DECISIONS

Cited in *Edwards v. Shumate*, 266 Ga. 374, 468 S.E.2d 23 (1996).

31-39-3. Patient presumed to consent to administration of cardiopulmonary resuscitation; patient's order not to resuscitate; health care facilities not required to expand to provide cardiopulmonary resuscitation.

(a) Every patient shall be presumed to consent to the administration of cardiopulmonary resuscitation in the event of cardiac or respiratory arrest, unless there is consent or authorization for the issuance of an order not to resuscitate. Such presumption of consent does not presume that every patient shall be administered cardiopulmonary resuscitation, but rather that every patient agrees to its administration unless it is medically futile.

(b) Every adult shall be presumed to have the capacity to make a decision regarding cardiopulmonary resuscitation unless determined otherwise in writing in the patient's medical record pursuant to this Code section or pursuant to a court order. When an order not to resuscitate is requested by an adult with decision-making capacity, such order shall be presumed, unless revoked pursuant to Code Section 31-39-6, to be the direction of such person regarding resuscitation.

(c) Nothing in this chapter shall require a health care facility, any other facility, or a health care provider to expand its existing equipment and facilities to provide cardiopulmonary resuscitation. (Code 1981, § 31-39-3, enacted by Ga. L. 1991, p. 1853, § 1; Ga. L. 1994, p. 672, § 1.)

31-39-4. Persons authorized to issue order not to resuscitate.

(a) It shall be lawful for the attending physician to issue an order not to resuscitate pursuant to the requirements of this chapter. Any written order issued by the attending physician using the term "do not resuscitate," "DNR," "order not to resuscitate," "no code," or substantially similar language in the patient's chart shall constitute a legally sufficient order and shall authorize a physician, health care professional, nurse, physician assistant, caregiver, or emergency medical technician to withhold or withdraw cardiopulmonary resuscitation. Such an order shall remain effective, whether or not the patient is receiving treatment from or is a resident of a health care facility, until the order is canceled as provided in Code Section 31-39-5 or until consent for such order is revoked as provided in Code Section 31-39-6, whichever occurs earlier. An attending physician who has issued such an order and who transfers care of the patient to another physician shall inform the receiving physician and the health care facility, if applicable, of the order.

(b) An adult person with decision-making capacity may consent orally or in writing to an order not to resuscitate and its implementation at a present or future date, regardless of that person's mental or physical condition on such future date. If the attending physician determines at any time that an order not to resuscitate issued at the request of the patient is no longer appropriate because the patient's medical condition has improved, the physician shall immediately notify the patient.

(c) The appropriate authorized person may, after being informed of the provisions of this Code section, consent orally or in writing to an order not to resuscitate for an adult candidate for nonresuscitation; provided, however, that such consent is based in good faith upon what such authorized person determines such candidate for nonresuscitation

would have wanted had such candidate for nonresuscitation understood the circumstances under which such order is being considered. Where such authorized person is an agent under a durable power of attorney for health care or health care agent under an advance directive for health care appointed pursuant to Chapter 32 of this title, the attending physician may issue an order not to resuscitate a candidate for nonresuscitation pursuant to the requirements of this chapter without the concurrence of another physician, notwithstanding the provisions of paragraph (4) of Code Section 31-39-2.

(d) Any parent may consent orally or in writing to an order not to resuscitate for his or her minor child when such child is a candidate for nonresuscitation. If in the opinion of the attending physician the minor is of sufficient maturity to understand the nature and effect of an order not to resuscitate, then no such order shall be valid without the assent of such minor.

(e) If none of the persons specified in subsections (b), (c), and (d) of this Code section is reasonably available or competent to make a decision regarding an order not to resuscitate, an attending physician may issue an order not to resuscitate for a patient, provided that:

(1) Such physician determines with the concurrence of a second physician, in writing in the patient's medical record, that such patient is a candidate for nonresuscitation;

(2) An ethics committee or similar panel, as designated by the health care facility, concurs in the opinion of the attending physician and the concurring physician that the patient is a candidate for nonresuscitation; and

(3) The patient is receiving inpatient or outpatient treatment from or is a resident of a health care facility other than a hospice or a home health agency. (Code 1981, § 31-39-4, enacted by Ga. L. 1991, p. 1853, § 1; Ga. L. 1994, p. 672, § 1; Ga. L. 1995, p. 10, § 31; Ga. L. 1995, p. 722, §§ 2, 2.1; Ga. L. 2009, p. 298, § 1/HB 69; Ga. L. 2011, p. 379, § 2/HB 275.)

The 2011 amendment, effective July 1, 2011, inserted "nurse, physician assistant, caregiver," in the second sentence of subsection (a).

Law reviews. — For article, "Are

There Checks and Balances on Terminating the Lives of Children with Disabilities? Should There Be?," see 25 Ga. St. U.L. Rev. 959 (2009).

JUDICIAL DECISIONS

Cited in Edwards v. Shumate, 266 Ga. 374, 468 S.E.2d 23 (1996).

31-39-5. Cancellation of order not to resuscitate.

(a) An attending physician for whose patient an order not to resuscitate has been issued pursuant to subsection (c), (d), or (e) of Code Section 31-39-4 shall examine that patient at such intervals as determined periodically by the physician to determine whether the patient still qualifies as a candidate for nonresuscitation, unless that order has been canceled or consent thereto revoked as provided in this chapter. That physician shall record such determination in the patient's medical chart. Failure to comply with this subsection shall not invalidate that order.

(b) If the order not to resuscitate was entered pursuant to subsection (c), (d), or (e) of Code Section 31-39-4 and the attending physician who issued the order or, if that attending physician is unavailable, another attending physician, at any time determines that the patient no longer qualifies as a candidate for nonresuscitation, the attending physician or the physician's designee shall immediately include such determination in the patient's chart, cancel the order, and notify the patient, the person who consented to the order, and all health care facility staff responsible for the patient's care of the cancellation.

(c) If an order not to resuscitate was entered pursuant to subsection (c), (d), or (e) of Code Section 31-39-4 and the patient at any time regains decision-making capacity, the attending physician who issued the order or, if that attending physician is unavailable, another attending physician, shall immediately determine if the patient consents to the order not to resuscitate and, if the patient does not so consent, the attending physician or the physician's designee shall cancel the order by an appropriate entry on the record and notify all health care facility staff responsible for the patient's care of the cancellation. (Code 1981, § 31-39-5, enacted by Ga. L. 1991, p. 1853, § 1; Ga. L. 1994, p. 672, § 1; Ga. L. 1995, p. 722, § 2.2.)

31-39-6. Revocation of consent to order not to resuscitate.

(a) A patient may, at any time, revoke his or her consent to an order not to resuscitate by making either a written or an oral declaration or by any other act evidencing a specific intent to revoke such consent which is communicated to or in the presence of an attending physician, nurse, physician assistant, caregiver, health care professional, or emergency medical technician.

(b) Any parent or authorized person may at any time revoke his or her consent to an order not to resuscitate a patient by making either a written or an oral declaration or by any other act evidencing a specific intent to revoke such consent which is communicated to or in the

presence of an attending physician, nurse, physician assistant, caregiver, health care professional, or emergency medical technician.

(c) Any physician who is informed of or provided with a revocation of consent pursuant to this Code section shall, either by himself or herself or by designee, immediately include the revocation in the patient’s chart, cancel the order, and notify any health care facility staff responsible for the patient’s care of the revocation and cancellation. Any member of the nursing staff, or a physician assistant, caregiver, health care professional, or emergency medical technician who is informed of or provided with a revocation of consent pursuant to this Code section shall immediately notify a physician of such revocation. (Code 1981, § 31-39-6, enacted by Ga. L. 1991, p. 1853, § 1; Ga. L. 1994, p. 672, § 1; Ga. L. 1995, p. 722, § 4; Ga. L. 2011, p. 379, § 3/HB 275.)

The 2011 amendment, effective July 1, 2011, substituted “physician, nurse, physician assistant, caregiver, health care professional, or emergency medical technician” for “physician or a member of the nursing staff at the health care facility, a health care professional, or an emergency

medical technician” in subsections (a) and (b); and substituted “nursing staff, or a physician assistant, caregiver, health care professional” for “nursing staff, a health care professional” in the second sentence of subsection (c).

JUDICIAL DECISIONS

Parental consent to a DNR order. — O.C.G.A. § 31-39-6 allows “any parent” to revoke consent to an order not to resuscitate. The result is as follows: one parent may consent. If there is no second parent, if the other parent is not present, or if the other parent simply prefers not to participate in the decision, the consent of one

parent to a DNR order is legally sufficient under the statute. However, if there is a second custodial parent who disagrees with the decision to forego cardiopulmonary resuscitation, the second parent may revoke consent under the terms of subsection (b) of O.C.G.A. § 31-39-6. In re Doe, 262 Ga. 389, 418 S.E.2d 3 (1992).

31-39-6.1. Form of order not to resuscitate; bracelet or necklace; revocation or cancellation of order.

(a) In addition to those orders not to resuscitate authorized elsewhere in this chapter, any physician, health care professional, nurse, physician assistant, caregiver, or emergency medical technician shall be authorized to effectuate an order not to resuscitate for a person who is not a patient in a hospital, nursing home, or licensed hospice if the order is evidenced in writing containing the patient’s name, date of the form, printed name of the attending physician, and signature of the attending physician on a form substantially similar to the following:

“DO NOT RESUSCITATE ORDER

NAME OF PATIENT: _____

THIS CERTIFIES THAT AN ORDER NOT TO RESUSCITATE
HAS BEEN ENTERED ON THE ABOVE-NAMED PATIENT.

SIGNED: _____

ATTENDING PHYSICIAN

PRINTED OR TYPED NAME OF ATTENDING PHYSICIAN: _____

ATTENDING PHYSICIAN’S TELEPHONE NUMBER: _____

DATE: _____”

(b) A person who is not a patient in a hospital, nursing home, or licensed hospice and who has an order not to resuscitate pursuant to this Code section may wear an identifying bracelet on either the wrist or the ankle or an identifying necklace and shall post or place a prominent notice in such person’s home. The bracelet shall be substantially similar to identification bracelets worn in hospitals. The bracelet, necklace, or notice shall provide the following information in boldface type:

“DO NOT RESUSCITATE ORDER

Patient’s name: _____

Authorized person’s name and telephone number, if applicable: _____

Patient’s physician’s printed name and telephone number: _____

Date of order not to resuscitate: _____”

Any physician, health care professional, nurse, physician assistant, caregiver, or emergency medical technician shall be authorized to regard such a bracelet, necklace, or notice as a legally sufficient order not to resuscitate in the same manner as an order issued pursuant to this chapter unless such person has actual knowledge that such order has been canceled or consent thereto revoked as provided in this chapter.

(c) Any order not to resuscitate evidenced pursuant to subsection (a) or (b) of this Code section may be revoked as provided in Code Section 31-39-6 and may be canceled as provided in Code Section 31-39-5. (Code 1981, § 31-39-6.1, enacted by Ga. L. 1995, p. 722, § 3; Ga. L. 2011, p. 379, § 4/HB 275.)

The 2011 amendment, effective July 1, 2011, in subsection (a), and in the undesignated text following the form in subsection (c), inserted “nurse, physician assistant, caregiver,”; in subsection (a), substituted “if the order” for “and the order” near the middle, and substituted “signature of the” for “signed by the” near the end; in subsection (b), in the first sentence, substituted “may wear” for

“shall wear” and added “and shall post or place a prominent notice in such person’s home” at the end, in the third sentence, substituted “bracelet, necklace, or notice shall” for “bracelet or necklace shall be on an orange background and”, and, in the undesignated text following the form, substituted “bracelet, necklace, or notice” for “bracelet or necklace”.

Code Commission notes. — Pursuant

to Code Section 28-9-5, in 1995, “of” was substituted for “or” preceding “this Code section” in subsection (c).

31-39-7. Liability of persons carrying out in good faith decisions regarding cardiopulmonary resuscitation; notification of next of kin or authorized person of patient by physician refusing to comply with order not to resuscitate.

(a) No physician, health care professional, nurse, physician assistant, caregiver, health care facility, other licensed facility, emergency medical technician, or person employed by, acting as the agent of, or under contract with any of the foregoing shall be subject to criminal prosecution or civil liability or be deemed to have engaged in unprofessional conduct for carrying out in good faith a decision regarding cardiopulmonary resuscitation authorized by this chapter by or on behalf of a patient or for those actions taken in compliance with the standards and procedures set forth in this chapter.

(b) No physician, health care professional, nurse, physician assistant, caregiver, health care facility, other licensed facility, emergency medical technician, or person employed by, acting as the agent of, or under contract with any of the foregoing shall be subject to criminal prosecution or civil liability or be deemed to have engaged in unprofessional conduct for providing cardiopulmonary resuscitation to a patient for whom an order not to resuscitate has been issued, provided that such physician or person:

(1) Reasonably and in good faith was unaware of the issuance of an order not to resuscitate; or

(2) Reasonably and in good faith believed that consent to the order not to resuscitate had been revoked or canceled.

(c) No persons shall be civilly liable for failing or refusing in good faith to effectuate an order not to resuscitate. No person shall be subject to criminal prosecution or civil liability for consenting or declining to consent in good faith, on behalf of a patient, to the issuance of an order not to resuscitate pursuant to this chapter.

(d) Any attending physician who fails or refuses to comply with an order not to resuscitate entered pursuant to this chapter shall endeavor to advise promptly the patient, if conscious, or the next of kin or authorized person of the patient that such physician is unwilling to effectuate the order. The attending physician shall thereafter at the election of the next of kin or authorized person:

(1) Make a good faith attempt to effect the transfer of the patient to another physician who will effectuate the order not to resuscitate; or

(2) Permit the next of kin or authorized person to obtain another physician who will effectuate the order not to resuscitate.

(e) Any emergency medical technician who fails or refuses to comply with an order not to resuscitate entered pursuant to this chapter shall endeavor to advise promptly the patient, if conscious, or the next of kin or authorized person of the patient, if reasonably available, that such emergency medical technician is unwilling to effectuate the order. (Code 1981, § 31-39-7, enacted by Ga. L. 1991, p. 1853, § 1; Ga. L. 1995, p. 722, § 5; Ga. L. 2011, p. 379, § 5/HB 275.)

The 2011 amendment, effective July 1, 2011, in subsections (a) and (b), inserted “nurse, physician assistant, caregiver,” and inserted “other licensed facility”.

31-39-8. Effect of order not to resuscitate on life insurance policies.

(a) No policy of life insurance shall be legally impaired, modified, or invalidated in any manner by the issuance of an order not to resuscitate notwithstanding any term of the policy to the contrary.

(b) A person may not prohibit or require the issuance of an order not to resuscitate for an individual as a condition for such individual’s being insured or receiving health care services. (Code 1981, § 31-39-8, enacted by Ga. L. 1991, p. 1853, § 1.)

31-39-9. Effect of chapter on legal rights and responsibilities; right of court to approve order not to resuscitate.

(a) Nothing in this chapter shall impair or supersede any legal right or legal responsibility which any person may have to effect the withholding or withdrawal of cardiopulmonary resuscitation in any lawful manner or affect the validity of orders not to resuscitate issued and implemented under other circumstances. In such respect, the provisions of this chapter are cumulative.

(b) Nothing in this chapter shall be construed to preclude a court of competent jurisdiction from approving the issuance of an order not to resuscitate under circumstances other than those under which such an order may be issued pursuant to this chapter. (Code 1981, § 31-39-9, enacted by Ga. L. 1991, p. 1853, § 1; Ga. L. 1994, p. 672, § 2.)

CHAPTER 40

TATTOO STUDIOS

| Sec. | | Sec. | |
|----------|---|-----------|---|
| 31-40-1. | Definitions. | 31-40-6. | Enforcement of chapter; inspection of premises. |
| 31-40-2. | Issuance of permits. | 31-40-7. | Criminal penalty. |
| 31-40-3. | Denial, suspension, and revocation of permit. | 31-40-8. | Public education program. |
| 31-40-4. | Administrative review of order of county board of health. | 31-40-9. | Enactment of more stringent laws. |
| 31-40-5. | Rules and regulations. | 31-40-10. | Criminal law not repealed. |

31-40-1. Definitions.

As used in this chapter, the term:

- (1) “Tattoo” means to mark or color the skin by pricking in, piercing, or implanting indelible pigments or dyes under the skin.
- (2) “Tattoo artist” means any person who performs tattooing, except that the term tattoo artist shall not include in its meaning any physician or osteopath licensed under Chapter 34 of Title 43, nor shall it include any technician acting under the direct supervision of such licensed physician or osteopath, pursuant to subsection (a) of Code Section 16-5-71.
- (3) “Tattoo studio” means any facility or building on a fixed foundation wherein a tattoo artist performs tattooing. (Code 1981, § 31-40-1, enacted by Ga. L. 1994, p. 446, § 2.)

31-40-2. Issuance of permits.

It shall be unlawful for any person to operate a tattoo studio without having first obtained a valid permit for such studio. Such permits shall be issued by the county board of health or its duly authorized representative, subject to supervision and direction by the Department of Public Health but, where the county board of health is not functioning, the permit shall be issued by the department. A permit shall be valid until suspended or revoked and shall not be transferable with respect to person or location. (Code 1981, § 31-40-2, enacted by Ga. L. 1994, p. 446, § 2; Ga. L. 2009, p. 453, § 1-4/HB 228; Ga. L. 2011, p. 705, § 6-3/HB 214.)

The 2011 amendment, effective July 1, 2011, substituted “Department of Public Health” for “Department of Community Health” in the second sentence of this Code section.

Law reviews. — For article on the 2011 amendment of this Code section, see 28 Ga. St. U.L. Rev. 147 (2011).

Am. Jur. 2d. — 58 Am. Jur. 2d, Occupations, Trades, and Professions, § 67.

C.J.S. — 39A C.J.S., Health and Environment, § 65 et seq.

31-40-3. Denial, suspension, and revocation of permit.

The county boards of health may suspend or revoke permits where the health and safety of the public requires such action. When, in the judgment of such board or its duly authorized agents, it is necessary and proper that such application for a permit be denied or that a permit previously granted be suspended or revoked, the applicant or holder of the permit shall be so notified in writing and shall be afforded an opportunity for hearing as provided in Article 1 of Chapter 5 of this title. In the event that such application is finally denied or such permit finally suspended or revoked, the applicant for or holder of such permit shall be given notice in writing, which notice shall specifically state the reasons why the application or permit has been suspended, revoked, or denied. (Code 1981, § 31-40-3, enacted by Ga. L. 1994, p. 446, § 2.)

31-40-4. Administrative review of order of county board of health.

Any person substantially affected by any final order of the county board of health denying, suspending, revoking, or refusing to renew any permit provided under this chapter may secure review thereof by appeal to the department as provided in Article 1 of Chapter 5 of this title. (Code 1981, § 31-40-4, enacted by Ga. L. 1994, p. 446, § 2.)

31-40-5. Rules and regulations.

(a) The Department of Public Health and county boards of health shall have the power to adopt and promulgate rules and regulations to ensure the protection of the public health. Such rules and regulations shall prescribe reasonable standards for health and safety of tattoo studios with regard to:

- (1) Location and cleanliness of facilities;
- (2) Sterilization and Occupational Safety and Health Administration guidelines for the prevention and spread of infectious diseases by all personnel;
- (3) Informed consent by the person receiving a tattoo;
- (4) Procedures for ensuring adequate explanation to consumers of the proper subsequent care of a tattoo; and
- (5) Proper use and maintenance of tattoo equipment, including dyes and pigments.

(b) County boards of health are empowered to adopt and promulgate supplementary rules and regulations consistent with those adopted and promulgated by the department. (Code 1981, § 31-40-5, enacted by Ga. L. 1994, p. 446, § 2; Ga. L. 2009, p. 453, § 1-4/HB 228; Ga. L. 2011, p. 705, § 6-3/HB 214.)

The 2011 amendment, effective July 1, 2011, substituted “Department of Public Health” for “Department of Community Health” in the introductory paragraph of subsection (a).

Law reviews. — For article on the 2011 amendment of this Code section, see 28 Ga. St. U.L. Rev. 147 (2011).

31-40-6. Enforcement of chapter; inspection of premises.

The Department of Public Health and the county boards of health and their duly authorized agents are authorized and empowered to enforce compliance with this chapter and the rules and regulations adopted and promulgated under this chapter and, in connection therewith, to enter upon and inspect the premises of a tattoo studio at any reasonable time and in a reasonable manner, as provided in Article 2 of Chapter 5 of this title. (Code 1981, § 31-40-6, enacted by Ga. L. 1994, p. 446, § 2; Ga. L. 2009, p. 453, § 1-4/HB 228; Ga. L. 2011, p. 705, § 6-3/HB 214.)

The 2011 amendment, effective July 1, 2011, substituted “Department of Public Health” for “Department of Community Health” at the beginning of this Code section.

Law reviews. — For article on the 2011 amendment of this Code section, see 28 Ga. St. U.L. Rev. 147 (2011).

31-40-7. Criminal penalty.

Any person, firm, or corporation operating a tattoo studio without a valid permit or performing tattooing outside of a licensed tattoo studio shall be guilty of a misdemeanor. (Code 1981, § 31-40-7, enacted by Ga. L. 1994, p. 446, § 2.)

Code Commission notes. — Pursuant to Code Section 28-9-5, in 1994, “licensed” was substituted for “license”.

31-40-8. Public education program.

The Department of Public Health is authorized and directed to develop and institute a program of public education for the purpose of alerting the public to the possible side effects and exposure risks of tattooing. (Code 1981, § 31-40-8, enacted by Ga. L. 1994, p. 446, § 2; Ga. L. 2009, p. 453, § 1-4/HB 228; Ga. L. 2011, p. 705, § 6-3/HB 214.)

The 2011 amendment, effective July 1, 2011, substituted “Department of Public Health” for “Department of Community Health” in this Code section.

Law reviews. — For article on the 2011 amendment of this Code section, see 28 Ga. St. U.L. Rev. 147 (2011).

31-40-9. Enactment of more stringent laws.

Notwithstanding any other provision of this chapter, the governing authority of any county or municipality may enact more stringent laws governing tattooing. (Code 1981, § 31-40-9, enacted by Ga. L. 1994, p. 446, § 2.)

31-40-10. Criminal law not repealed.

Nothing in this chapter shall be construed to repeal the provisions of Code Section 16-12-5. (Code 1981, § 31-40-10, enacted by Ga. L. 1994, p. 446, § 2.)

Code Commission notes. — Pursuant to Code Section 28-9-5, in 1994, “chapter” was substituted for “Act”.

C.J.S. — 39A C.J.S., Health and Environment, §§ 51 et seq., 71. 52 C.J.S., Landlord and Tenant, § 419.

31-41-1. Short title.

This chapter shall be known and may be cited as the "Georgia Lead Poisoning Prevention Act of 1994." (Code 1981, § 31-41-1, enacted by Ga. L. 1994, p. 1617, § 1; Ga. L. 2010, p. 531, § 6/SB 78.)

Code Commission notes. — Pursuant to Code Section 28-9-5, in 1994, "chapter" was substituted for "Act".

Editor's notes. — Ga. L. 2010, p. 531, § 6/SB 78, effective May 27, 2010, reenacted this Code section without change.

31-41-2. Legislative findings.

(a) The General Assembly finds that childhood lead poisoning is a devastating environmental health hazard to the children of this state. Exposure to even low levels of lead increases a child's risks of developing permanent reading and learning disabilities, intelligence quotient deficiencies, impaired hearing, reduced attention span, hyperactivity, behavior problems, and other neurological problems. It is estimated that thousands of children below the age of six are affected by lead poisoning in Georgia. Childhood lead poisoning is dangerous to the public health, safety, and general welfare.

(b) Childhood lead poisoning is the result of environmental exposure to lead. The most significant source of environmental lead is lead-based paint, particularly in housing built prior to 1978, which becomes accessible to children as paint chips, house dust, and soil contaminated by lead-based paint. The danger posed by lead-based paint hazards can be controlled by abatement, renovation, or interim controls of lead-based paint or by measures to limit exposure to lead-based paint hazards.

(c) It is crucial that the identification of lead hazards and subsequent implementation of interim control, renovation, or abatement procedures be accomplished in a manner that does not result in additional harm to the public or the environment. Improper lead abatement or renovation constitutes a serious threat to persons residing in or otherwise using an affected structure or site, to those performing such work, to the environment, and to the general public.

(d) The General Assembly finds that it is in the public interest to establish minimum standards for the training and certification or licensure of all persons performing lead hazard reduction activities and for inspections, risk assessments, and planning and performance of interim controls, renovation, or abatement measures for such activities. (Code 1981, § 31-41-2, enacted by Ga. L. 1994, p. 1617, § 1; Ga. L. 2010, p. 531, § 6/SB 78.)

The 2010 amendment, effective May 27, 2010, inserted “, renovation,” throughout this Code section; inserted “or renovation” in the second sentence of subsection

(c); and, in subsection (d), substituted “and for inspections” for “, including inspections” near the middle and added “for such activities” at the end.

31-41-3. Definitions.

As used in this chapter, the term:

(1) “Abatement” means any set of measures designed to eliminate lead-based paint hazards, in accordance with standards developed by the board, including:

(A) Removal of lead-based paint and lead contaminated dust, the permanent containment or encapsulation of lead-based paint, the replacement of lead-painted surfaces or fixtures, and the removal or covering of lead contaminated soil; and

(B) All preparation, cleanup, disposal, and postabatement clearance testing activities associated with such measures.

(2) “Accessible surface” means an interior or exterior surface painted with lead-based paint that is accessible for a young child to mouth or chew.

(2.1) “Board” means the Board of Natural Resources of the State of Georgia.

(2.2) “Child-occupied facility” means a building or portion of a building constructed prior to 1978, visited by the same child, six years of age or under, on at least two different days within the same week (Sunday through Saturday period), provided that each day’s visit lasts at least three hours and the combined weekly visit lasts at least six hours. Child-occupied facilities include, but are not limited to, day-care centers, preschools, and kindergarten facilities.

(3) “Department” means the Department of Natural Resources.

(4) “Friction surface” means an interior or exterior surface that is subject to abrasion or friction, including certain window, floor, and stair surfaces.

(5) “Impact surface” means an interior or exterior surface or fixture that is subject to damage by repeated impacts, for example, certain parts of door frames.

(6) “Inspection” means a surface by surface investigation to determine the presence of lead-based paint and the provision of a report explaining the results of the investigation.

(7) “Interim controls” means a measure or set of measures as specified by the board taken by the owner of a structure that are designed to control temporarily human exposure or likely exposure to lead-based paint hazards.

(8) “Lead-based paint” means paint or other surface coatings that contain lead in excess of limits established by board regulation.

(9) “Lead-based paint activities” means the inspection and assessment of lead hazards and the planning, implementation, and inspection of interim controls, renovation, and abatement activities at target housing and child-occupied facilities.

(10) “Lead-based paint hazard” means any condition that causes exposure to lead from lead contaminated dust, lead contaminated soil, or lead contaminated paint that is deteriorated or present in accessible surfaces, friction surfaces, or impact surfaces that would result in adverse human health effects as established pursuant to Section 403 of the Toxic Substances Control Act.

(11) “Lead contaminated dust” means surface dust in residential dwellings or in other facilities occupied or regularly used by children that contains an area or mass concentration of lead in excess of levels determined pursuant to Section 403 of the Toxic Substances Control Act.

(12) “Lead contaminated soil” means bare soil on residential real property or on other sites frequented by children that contains lead at or in excess of levels determined to be hazardous to human health pursuant to Section 403 of the Toxic Substances Control Act.

(13) “Lead contaminated waste” means any discarded material resulting from an abatement activity that fails the toxicity characteristics determined by the department.

(13.1) “Lead dust sampling technician” means an individual employed to perform lead dust clearance sampling for renovation as determined by the department.

(14) “Lead firm” means a company, partnership, corporation, sole proprietorship, association, or other business entity that employs or contracts with persons to perform lead-based paint activities.

(15) “Lead inspector” means a person who conducts inspections to determine the presence of lead-based paint or lead-based paint hazards.

(16) “Lead project designer” means a person who plans or designs abatement activities and interim controls.

(17) “Lead risk assessor” means a person who conducts on-site risk assessments of lead hazards.

(18) “Lead supervisor” means a person who supervises and conducts abatement of lead-based paint hazards.

(19) “Lead worker” means any person performing lead hazard reduction activities.

(19.1) “Minor repair and maintenance activities” means activities that disrupt six square feet or less of painted surface per room for interior activities or 20 square feet or less of painted surface for exterior activities where none of the work practices prohibited or restricted as determined by the department are used or where the work does not involve window replacement or demolition of painted surface areas. Jobs performed in the same room within 30 days are considered the same job for purposes of this definition.

(19.2) “Renovation” means the modification of any target housing or child-occupied facility structure or portion thereof, that results in the disturbance of painted surfaces unless that activity is performed as part of an abatement activity. Renovation includes but is not limited to the removal, modification, re-coating, or repair of painted surfaces or painted components; the removal of building components; weatherization projects; and interim controls that disturb painted surfaces. A renovation performed for the purpose of converting a building, or part of a building into target housing or a child-occupied facility is a renovation. Such term shall not include minor repair and maintenance activities.

(19.3) “Renovation firm” means a company, partnership, corporation, sole proprietorship or individual doing business, association, or other business entity that employs or contracts with persons to perform lead-based paint renovations as determined by the department.

(19.4) “Renovator” means an individual who either performs or directs workers who perform renovations.

(20) “Risk assessment” means an on-site investigation to determine and report the existence, nature, severity, and location of lead-based paint hazards in or on any structure or site, including:

(A) Information gathering regarding the age and history of the structure and the occupancy or other use by young children;

(B) Visual inspection;

(C) Limited wipe sampling or other environmental sampling techniques;

(D) Other activity as may be appropriate; and

(E) Provision of a report explaining the results of the investigation.

(21) “Target housing” means any housing constructed prior to 1978, except housing for the elderly or persons with disabilities (unless any child or children age six years or under resides or is expected to reside in such housing for the elderly or persons with disabilities) or any zero-bedroom dwelling. (Code 1981, § 31-41-3, enacted by Ga. L. 1994, p. 1617, § 1; Ga. L. 1998, p. 248, § 1; Ga. L. 2010, p. 531, § 6/SB 78.)

The 2010 amendment, effective May 27, 2010, added paragraph (2.2); in paragraph (9), inserted “, renovation,” in the middle and substituted “at target housing and child-occupied facilities” for “as determined by the department” at the end; and added paragraphs (13.1), (19.1) through (19.4), and (21).

Code Commission notes. — Pursuant

to Code Section 28-9-5, in 1998, “Toxic Substances Control Act” was substituted for “Toxic Substance Control Act” in paragraphs (10), (11), and (12).

U.S. Code. — Section 403 of the Toxic Substances Control Act, referred to in this Code section, is codified at 15 U.S.C. § 2601 et seq.

31-41-4. Establishment of lead-based paint hazard reduction program; training programs; licensure and certification requirements; written information on renovation; record keeping requirements.

(a) There is established the Georgia Lead-Based Paint Hazard Reduction Program. The Department of Natural Resources is designated as the state agency responsible for implementation, administration, and enforcement of such program. The commissioner may delegate such duties to the Environmental Protection Division.

(b) The Board of Natural Resources not later than one year after the effective date of regulations promulgated by the federal Environmental Protection Agency relating to lead paint abatement and renovation certification programs shall issue regulations requiring the development and approval of training programs for the licensing or certification of persons performing lead-based paint hazard detection or lead-based paint activities, which may include, but shall not be limited to, lead inspectors, lead risk assessors, lead project designers, lead firms, lead supervisors, lead workers, lead dust sampling technicians, and renovators. The regulations for the approval of training programs shall include minimum requirements for approval of training providers, curriculum requirements, training hour requirements, hands-on training requirements, examinations of competency and proficiency, and

training program quality control. The approval program shall provide for reciprocal approval of training programs with comparable requirements approved by other states or the United States. The approval program may be designed to meet the minimum requirements for federal approval under Section 404 of the federal Toxic Substances Control Act and the department may apply for such approval. The department shall establish fees for approval of such training programs.

(c)(1) The Board of Natural Resources not later than one year after the effective date of regulations promulgated by the federal Environmental Protection Agency relating to lead paint abatement and renovation certification programs shall establish training and licensure requirements for lead inspectors, lead risk assessors, lead project designers, lead firms, lead supervisors, lead workers, renovators, renovation firms, and lead dust sampling technicians. No person shall be licensed under this chapter unless such person has successfully completed the appropriate training program, passed an examination approved by the department for the appropriate category of license, and completed any additional requirements imposed by the board by regulation. The department is authorized to accept any lead-based paint hazard training completed after January 1, 1990, in full or partial satisfaction of the training requirements. The board may establish requirements for periodic refresher training for all licensees as a condition of license renewal. The board shall establish examination fees, license fees, and renewal fees for all licenses issued under this chapter, provided that such fees shall reflect the cost of issuing and renewing such licenses, regulating licensed activities, and administering the program.

(2) On and after the effective date of regulations promulgated by the board as provided in subsection (b) of this Code section, no person shall perform or represent that such person is qualified to perform any lead-based paint activities unless such person possesses the appropriate licensure or certification as determined by the board or unless such person is:

(A) An owner performing abatement or renovation upon that person's own residential property, unless the residential property is occupied by a person or persons other than the owner or the owner's immediate family while these activities are being performed, or a child residing in the building has been identified as having an elevated blood lead level;

(B) An employee of a property management company doing minor repairs and maintenance activities upon property managed by that company where there is insignificant damage, wear, or corrosion of existing lead-containing paint or coating substances; or

(C) An owner routinely doing minor repairs and maintenance activities upon his or her property where there is insignificant

damage to, wear of, or corrosion of existing lead-containing paint or coating substances.

(3) A person who is employed by a state or county health department or state or federal agency to conduct lead investigations to determine the sources of lead poisonings, as determined by the department, shall be subject to licensing pursuant to paragraph (2) of this subsection as a lead risk assessor but shall not be required to pay any fees as otherwise required under this chapter or under rules and regulations promulgated by the board under this chapter.

(d) The board shall promulgate regulations establishing standards of acceptable professional conduct and work practices for the performance of lead-based paint activities, as well as specific acts and omissions that constitute grounds for the reprimand of any licensee, the suspension, modification, or revocation of a license, or the denial of issuance or renewal of a license.

(e) Written information on the renovation must be provided by the renovation firm or renovator to residents before beginning any renovation activities (except that the written information may be provided after the renovation begins for emergency renovations), in accordance with regulations promulgated by the board.

(f) The lead firm, renovation firm, and renovator must meet record-keeping and reporting requirements established by regulations promulgated by the board. (Code 1981, § 31-41-4, enacted by Ga. L. 1994, p. 1617, § 1; Ga. L. 1996, p. 1140, § 1; Ga. L. 1998, p. 248, § 2; Ga. L. 2010, p. 531, § 6/SB 78.)

The 2010 amendment, effective May 27, 2010, in the first sentence of subsection (b), inserted “and renovation” and substituted “lead workers, lead dust sampling technicians, and renovators” for “and lead workers of such persons” at the end; in the first sentence of paragraph (c)(1), inserted “and renovation” and substituted “lead workers, renovators, renovation firms, and lead dust sampling technicians” for “and lead workers” at the end; inserted “or renovation” near the beginning of subparagraph (c)(2)(A); substituted “minor repairs and maintenance activities” for “routine cleaning and repainting” near the beginning of sub-

paragraph (c)(2)(B); substituted “doing minor repairs and maintenance activities upon” for “cleaning or repainting” near the beginning of subparagraph (c)(2)(C); inserted “and work practices” near the beginning of subsection (d); and added subsections (e) and (f).

Code Commission notes. — Pursuant to Code Section 28-9-5, in 1996, “subsection (b)” was substituted for “subparagraph (b)” in paragraph (c)(2).

U.S. Code. — Section 404 of the Toxic Substances Control Act, referred to in this Code section, is codified at 15 USC § 2601 et seq.

31-41-5. Enforcement of chapter; violations.

The Board of Natural Resources shall be authorized to promulgate all necessary regulations for the implementation and enforcement of this

chapter. In addition to any action which may be taken to reprimand a licensee or to revoke or suspend a license, any person who violates any provision of this chapter or any regulation promulgated pursuant to this chapter or any term or condition of licensure may be subject to a civil penalty of not more than \$10,000.00, to be imposed by the department. If any violation is a continuing one, each day of such violation shall constitute a separate violation for the purpose of computing the applicable civil penalty. (Code 1981, § 31-41-5, enacted by Ga. L. 1994, p. 1617, § 1; Ga. L. 1996, p. 1140, § 2; Ga. L. 2010, p. 531, § 6/SB 78.)

Editor's notes. — Ga. L. 2010, p. 531, § 6/SB 78, effective May 27, 2010, reenacted this Code section without change.

31-41-6. Federal regulations; fees; corrective orders; violations.

(a) The department shall make available to all persons licensed or certified under this chapter current federal regulations affecting such licensees or certified persons.

(b) The department is authorized to charge an application fee, a license fee, a license renewal fee, or a similar fee and the amount of such fees shall be established by the Board of Natural Resources. Each fee so established shall be reasonable and shall be determined in such a manner that the total of the fees charged shall approximate the total of the direct and the indirect costs to the state of the operation of the licensing program. Fees may be refunded for good cause as determined by the department.

(c) The department is authorized to issue a corrective order to any person in violation of this chapter or any regulation promulgated pursuant thereto. The order shall specify the provisions of this chapter or any regulation alleged to have been violated and shall order necessary corrective action be taken within a reasonable time to be prescribed in such order.

(d) The department is authorized to revoke or suspend any license, certification, approval, or accreditation issued hereunder, in accordance with regulations promulgated pursuant to this chapter.

(e) It shall be unlawful for any person to engage in training or lead-based paint activities regulated under this chapter except in such a manner as to conform to and comply with this chapter and all applicable regulations and orders established under this chapter.

(f) Any person violating any of the provisions of this chapter shall be guilty of a misdemeanor. (Code 1981, § 31-41-6, enacted by Ga. L. 2011, p. 619, § 2/SB 211.)

Effective date. — This Code section became effective May 12, 2011.

Editor's notes. — Ga. L. 2011, p. 619, § 1/SB 211, not codified by the General Assembly, provides that: "The purpose of this Act is to reenact the provisions of former Code Section 31-41-6, relating to federal regulations copies, fees, corrective orders, and violations relative to lead poisoning prevention, as such Code section

existed immediately prior to its repeal on May 27, 2010, by SB 78."

This Code section formerly pertained to federal regulations, fees, corrective orders, and violations and was based on Code 1981, § 31-41-6, enacted by Ga. L. 1994, p. 1617, § 1; Ga. L. 1998, p. 248, § 3, and was repealed by Ga. L. 2010, p. 531, § 6/SB 78, effective May 27, 2010.

OPINIONS OF THE ATTORNEY GENERAL

Fingerprinting not required. — Offenses arising from a violation of O.C.G.A. § 31-41-6 do not, at this time, appear to be

offenses for which fingerprinting is required. 2011 Op. Att'y Gen. No. 11-5.

ARTICLE 2

CHILDHOOD LEAD EXPOSURE CONTROL

31-41-10. Short title.

This article shall be known and may be cited as the "Childhood Lead Exposure Control Act." (Code 1981, § 31-41-10, enacted by Ga. L. 2000, p. 1260, § 1.)

31-41-11. Legislative findings.

(a) The General Assembly finds that childhood lead poisoning prevention activities are currently carried out within the Environmental Health and Injury Prevention, Epidemiology and Prevention, and Laboratory Branches of the Department of Public Health. These activities include lead poisoning case identification, laboratory support, identification of exposure sources, environmental management, and lead hazard reduction. Childhood lead poisoning cases are identified through screening tests conducted by public health clinics and private health care providers and by laboratory reporting of test results. In 1994, lead poisoning was established as a notifiable condition and made part of the Notifiable Disease reporting system.

(b) The General Assembly further finds that the Georgia Public Health Laboratory is licensed and certified to analyze blood specimens for lead. Laboratory services are provided for children screened in public health clinics and for children without health insurance screened by private health care providers. For each reported case of lead poisoning, an environmental investigation is conducted to identify the source of lead. Environmental health specialists assess the primary residence and other locations frequented by the lead poisoned child.

Information is collected from parents and caregivers; on-site surface testing and environmental sample collection and analysis are done as needed. When the lead source is identified, recommendations are made for the mitigation or abatement of the lead hazard. Identified lead poisoning cases are tracked collaboratively by public health nurses and environmental health specialists to assure that appropriate treatment is received and that the child does not reenter the environment where the exposure occurred. (Code 1981, § 31-41-11, enacted by Ga. L. 2000, p. 1260, § 1; Ga. L. 2011, p. 705, § 6-2/HB 214.)

The 2011 amendment, effective July 1, 2011, substituted “Department of Public Health” for “Division of Public Health” at the end of the first sentence of subsection (a).

Code Commission notes. — Pursuant to Code Section 28-9-5, in 2000, “lead

poisoned child” was substituted for “lead-poisoned child” at the end of the fourth sentence in subsection (b).

Law reviews. — For article on the 2011 amendment of this Code section, see 28 Ga. St. U.L. Rev. 147 (2011).

31-41-12. Definitions.

As used in this article, the term:

(1) “Confirmed lead poisoning” means a confirmed concentration of lead in whole blood equal to or greater than 20 micrograms of lead per deciliter for a single test or between 15 and 19 micrograms of lead per deciliter in two tests taken at least three months apart.

(2) “Day-care facility” means a structure or structures used as a school, nursery, child care center, clinic, treatment center, or other facility serving the needs of children under six years of age including the grounds, any outbuildings, or other structures appurtenant to the facility.

(3) “Department” means the Department of Public Health.

(4) “Dwelling,” “dwelling unit,” or “residential housing unit” means the interior of a structure, all or part of which is designed or used for human habitation.

(5) “Elevated blood lead level” means a blood lead concentration of ten micrograms per deciliter or greater as determined by the lower of two consecutive blood tests within a six-month period.

(5.1) “Lead hazard abatement” means the removal and correction, in a manner no more strict than what is determined to be absolutely necessary, of a specifically identified hazard which causes a confirmed lead poisoning.

(6) “Lead poisoning hazard” means the presence of readily accessible or mouthable lead-bearing substances measuring 1.0 milligram per square centimeter or greater by X-ray fluorescence or 0.5 percent

or greater by chemical analysis; 100 micrograms per square foot or greater for dust on floors; 500 micrograms per square foot or greater for dust on window sills.

(7) "Lead safe housing" is housing that was built since 1978 or that has been tested by a person who has been licensed or certified by the Board of Natural Resources to perform such testing and either found to have no lead-based paint hazards within the meaning of Title X of the Residential Lead-Based Paint Hazard Reduction Act of 1992, 14 U.S.C. Code Section 185(b)(15) or housing that has been found to meet the requirements of the maintenance standard.

(8) "Maintenance standard" means the following:

(A) Repairing and repainting areas of deteriorated paint inside a residential housing unit;

(B) Cleaning the interior of the unit to a standard of cleaning which is at least customary in the local area at lease origination or as part of the abatement plan, whichever is first, to remove dust that constitutes a lead poisoning hazard;

(C) Adjusting doors and windows to minimize friction or impact on surfaces;

(D) Subject to the occupant's approval, appropriately cleaning any carpets at lease origination or as part of the abatement plan, whichever is first;

(E) Taking such steps as are necessary to ensure that all interior surfaces on which dust might collect are readily cleanable; and

(F) Providing the occupant or occupants all information required to be provided under the Residential Lead-Based Paint Hazard Reduction Act of 1992 and amendments thereto.

(9) "Managing agent" means any person who has charge, care, or control of a building or part thereof in which dwelling units or rooming units are leased.

(10) "Mouthable lead-bearing substance" means any substance on surfaces or fixtures five feet or less from the floor or ground that form a protruding corner or similar edge, protrude one-half inch or more from a flat wall surface, or are freestanding and contain lead contaminated dust at a level that constitutes a lead poisoning hazard. Mouthable surfaces or fixtures include vinyl miniblinds, doors, door jambs, stairs, stair rails, windows, window sills, and baseboards.

(11) "Persistent elevated blood lead level" means a blood lead concentration of 15 to 19 micrograms per deciliter as determined by the lowest of three consecutive blood tests. The first two blood tests

shall be performed within a six-month period, and the third blood test shall be performed at least 12 weeks and not more than six months after the second blood test.

(12) “Readily accessible lead-bearing substance” means any substance containing lead at a level that constitutes a lead poisoning hazard which can be ingested or inhaled by a child under six years of age. Readily accessible substances include deteriorated paint that is peeling, chipping, cracking, flaking, or blistering to the extent that the paint has separated from the substrate. Readily accessible substances also include paint that is chalking.

(13) “Regularly visits” means presence at a dwelling, dwelling unit, school, or day-care facility for at least two days a week for more than three hours per day.

(14) “Supplemental address” means a dwelling, dwelling unit, school, or day-care facility where a child with a persistent elevated blood lead level or a confirmed lead poisoning regularly visits or attends. Supplemental address also means a dwelling, school, or day-care facility where a child resided, regularly visited, or attended within the six months immediately preceding the determination of a persistent elevated blood lead level or a confirmed lead poisoning. (Code 1981, § 31-41-12, enacted by Ga. L. 2000, p. 1260, § 1; Ga. L. 2008, p. 822, § 1/HB 1043; Ga. L. 2011, p. 705, § 5-18/HB 214.)

The 2011 amendment, effective July 1, 2011, substituted “Department” for “Division” in two places in paragraph (3).

Code Commission notes. — Pursuant to Code Section 28-9-5, in 2000, “lead-bearing substances” was substituted

for “lead bearing substances” in paragraph (6).

Law reviews. — For article on the 2011 amendment of this Code section, see 28 Ga. St. U.L. Rev. 147 (2011).

31-41-13. Notice of lead poisoning hazard.

Upon determination that a lead poisoning hazard exists, the department shall give written notice of the lead poisoning hazard to the owner of the dwelling, dwelling unit, school, or day-care facility and to all persons residing in or attending the dwelling or facility. The department shall also make every reasonable and practicable effort to provide written notice to the managing agent of the dwelling, dwelling unit, school, or day-care facility. The written notice to the owner, managing agent, or tenant shall include a list of possible methods of abatement of the lead poisoning hazard. (Code 1981, § 31-41-13, enacted by Ga. L. 2000, p. 1260, § 1; Ga. L. 2008, p. 822, § 2/HB 1043; Ga. L. 2011, p. 705, § 6-6/HB 214.)

The 2011 amendment, effective July 1, 2011, substituted “department” for “di-

vision” in the first and second sentences of this Code section.

Law reviews. — For article on the 2011 amendment of this Code section, see 28 Ga. St. U.L. Rev. 147 (2011).

31-41-14. Abatement of lead poisoning hazard.

(a) Upon determination that a child less than six years of age has a confirmed lead poisoning and that the child resides in, attends, or regularly visits a dwelling, dwelling unit, school, or day-care facility containing lead poisoning hazards, the department shall require a lead hazard abatement. The department shall also require a lead hazard abatement at the supplemental addresses of a child less than six years of age with a confirmed lead poisoning. Upon confirming that all other potential sources of the confirmed lead poisoning have tested negative and making every reasonable effort to obtain consent from such dwelling's owner or managing agent to comply with this Code section, the department shall solicit a court order from the superior court with jurisdiction over such dwelling to order the dwelling's owner to perform a lead hazard abatement.

(b) When abatement is required under subsection (a) of this Code section, the owner or managing agent shall submit a written lead poisoning hazard abatement plan to the department within 14 days of receipt of the lead poisoning hazard notification and shall obtain written approval of the plan prior to initiating abatement. The lead poisoning hazard abatement plan shall comply with subsection (g) of this Code section. The written plan shall be deemed approved if the department does not respond within 14 days of receipt.

(c) If the abatement plan submitted fails to meet the requirements of this Code section, the department shall issue an abatement order requiring submission of a modified abatement plan. The order shall indicate the modifications which shall be made to the abatement plan and the date by which the plan as modified shall be submitted to the department.

(d) If the owner or managing agent does not submit an abatement plan within 14 days, the department shall issue an abatement order requiring submission of an abatement plan within five days of receipt of the order.

(e) The owner or managing agent shall notify the department and the occupants of the dates of abatement activities at least three days prior to the commencement of abatement activities.

(f) Abatement shall be completed within 60 days of the department's approval of the abatement plan. If the abatement activities are not completed within 60 days as required, the department shall issue an order requiring completion of abatement activities. An owner or man-

aging agent may apply to the department for an extension of the deadline for abatement. The department may issue an order extending the deadline for 30 days upon proper written application by the owner or managing agent.

(g) All lead-containing waste and residue of the abatement of lead shall be removed and disposed of by the person performing the abatement in accordance with applicable federal, state, and local laws and rules.

(h) The department shall verify by visual inspection that the approved abatement plan has been completed. The department may also verify plan completion by residual lead dust monitoring. Compliance with the maintenance standard shall be deemed equivalent to meeting the abatement plan requirements.

(i) Removal of children from the dwelling, school, or day-care facility shall not constitute abatement if the property continues to be used for a dwelling, school, or day-care facility. (Code 1981, § 31-41-14, enacted by Ga. L. 2000, p. 1260, § 1; Ga. L. 2008, p. 822, § 3/HB 1043; Ga. L. 2011, p. 705, § 6-6/HB 214.)

The 2011 amendment, effective July 1, 2011, substituted “department” for “division” throughout this Code section.

Law reviews. — For article on the 2011 amendment of this Code section, see 28 Ga. St. U.L. Rev. 147 (2011).

31-41-15. Owner liability for units constructed prior to 1978.

Any owner of a residential housing unit constructed prior to 1978 who is sued by a current or former occupant seeking damages for injuries allegedly arising from exposure to lead-based paint or lead-contaminated dust shall not be deemed liable: (1) for any injuries sustained by that occupant after the owner first complied with the maintenance standard defined under paragraph (8) of Code Section 31-41-12, provided that the owner has repeated the steps provided for in the maintenance standard annually and obtained a certificate of compliance under Code Section 31-41-16 annually during such occupancy; or (2) if the owner is able to show that the unit was lead safe housing containing no lead-based paint hazards during the period when the injuries were sustained. Nothing contained in this article shall be construed or interpreted as imposing or creating any liability on or creating any cause of action against any owner or managing agent of a dwelling, dwelling unit, or residential housing unit arising from exposure to lead-based paint or lead-contaminated dust, regardless of when such dwelling, dwelling unit, or residential housing unit was constructed and regardless of whether the requirements of this article have been complied with or accomplished. (Code 1981, § 31-41-15, enacted by Ga. L. 2000, p. 1260, § 1.)

Code Commission notes. — Pursuant to Code Section 28-9-5, in 2000, a comma was inserted following “Code Section 31-41-12”.

31-41-16. Certificate evidencing compliance; liability relief.

An owner of a unit who has complied with the maintenance standard may apply annually to the department for, and upon presentation of acceptable proof of compliance shall be provided by the department a certificate evidencing such compliance. The owner shall be entitled to the liability relief provided for in Code Section 31-41-15 upon obtaining such certificate or certificates. (Code 1981, § 31-41-16, enacted by Ga. L. 2000, p. 1260, § 1; Ga. L. 2011, p. 705, § 6-6/HB 214.)

The 2011 amendment, effective July 1, 2011, substituted “department” for “division” twice in the first sentence of this Code section.

Law reviews. — For article on the 2011 amendment of this Code section, see 28 Ga. St. U.L. Rev. 147 (2011).

31-41-17. Advice regarding cleaning activities in homes occupied by children with elevated blood lead levels.

In any residential housing unit occupied by a child less than six years old who has an elevated blood lead level of ten micrograms per deciliter or greater, the department shall advise, in writing, the owner or managing agent and the child’s parents or legal guardian as to the importance of carrying out routine cleaning activities in the units they occupy, own, or manage. Such cleaning activities shall include:

(1) Wiping clean all window sills with a damp cloth or sponge at least weekly;

(2) Regularly washing all surfaces accessible to the child;

(3) In the case of a leased residential housing unit, identifying any deteriorated paint in the unit and notifying the owner or managing agent of such conditions within 72 hours of discovery; and

(4) Identifying and understanding potential lead poisoning hazards in the environment of each child under the age of six in the housing unit including vinyl miniblinds, playground equipment, soil, and painted surfaces and taking steps to prevent the child from ingesting lead, such as encouraging the child to wash his or her face and hands frequently and especially after playing outdoors. (Code 1981, § 31-41-17, enacted by Ga. L. 2000, p. 1260, § 1; Ga. L. 2011, p. 705, § 6-6/HB 214.)

The 2011 amendment, effective July 1, 2011, substituted “department” for “division” in the first sentence of this Code section.

Law reviews. — For article on the 2011 amendment of this Code section, see 28 Ga. St. U.L. Rev. 147 (2011).

31-41-18. Application.

This article shall only apply to:

- (1) Owners of residential rental property; and
- (2) Landlords

that accept compensation for the use of residential property by another. (Code 1981, § 31-41-18, enacted by Ga. L. 2000, p. 1260, § 1; Ga. L. 2008, p. 822, § 3/HB 1043.)

31-41-19. Rules and regulations.

The Department of Public Health shall be authorized to promulgate all necessary regulations for the implementation and enforcement of this article. (Code 1981, § 31-41-19, enacted by Ga. L. 2000, p. 1260, § 1; Ga. L. 2011, p. 705, § 6-2/HB 214.)

The 2011 amendment, effective July 1, 2011, substituted “Department of Public Health” for “Division of Public Health” at the beginning of this Code section.

Law reviews. — For article on the 2011 amendment of this Code section, see 28 Ga. St. U.L. Rev. 147 (2011).

CHAPTER 42

OSTEOPOROSIS PREVENTION AND TREATMENT
EDUCATION

Sec.

31-42-1. Short title.

31-42-2. Purposes.

Sec.

31-42-3. Strategies to promote and
maintain education program.

Law reviews. — For note on the 1995 enactment of this chapter, see 12 Ga. St. U.L. Rev. 234 (1995).

31-42-1. Short title.

This chapter shall be known and may be cited as the “Osteoporosis Prevention and Treatment Education Act.” (Code 1981, § 31-42-1, enacted by Ga. L. 1995, p. 841, § 2.)

Cross references. — Bone mass measurement coverage, T. 31, C. 15A.

31-42-2. Purposes.

The purposes of this chapter are, to the extent funds are available:

(1) To create a multigenerational, state-wide program to promote awareness and knowledge about osteoporosis, risk factors, prevention, detection, and treatment options;

(2) To facilitate understanding of osteoporosis with educational materials, information about research, services, and strategies for prevention and treatment;

(3) To utilize educational and training resources of organizations with expertise and knowledge of osteoporosis;

(4) To evaluate the quality and accessibility of osteoporosis services of community based services;

(5) To provide easy access to clear, complete, and accurate osteoporosis information and referral services;

(6) To educate and train service providers, health professionals, and physicians; and to heighten awareness about the prevention, detection, and treatment of osteoporosis among health and human service officials, health educators, and policy makers; and

31-42-2 OSTEOPOROSIS PREVENTION/TREATMENT EDUCATION 31-42-3

(7) To promote the development of support groups for osteoporosis patients and their families and caregivers. (Code 1981, § 31-42-2, enacted by Ga. L. 1995, p. 841, § 2.)

31-42-3. Strategies to promote and maintain education program.

The department shall establish strategies to promote and maintain an osteoporosis prevention and treatment education program in order to raise public awareness, educate consumers, and train health professionals, teachers, and human service providers, including:

(1) PUBLIC AWARENESS. The department shall develop strategies for raising public awareness of the causes and nature of osteoporosis, personal risk factors, value of prevention and early detection, and options for diagnosis and treatment;

(2) CONSUMER EDUCATION. The department shall develop strategies for educating consumers about risk factors, diet and exercise, diagnostic procedures and their indications for use, risks and benefits of drug therapies currently approved by the U.S. Food and Drug Administration, and the availability of services;

(3) PROFESSIONAL EDUCATION. The department may develop strategies for educating physicians and health professionals and training service providers on osteoporosis prevention, diagnosis, and treatment, including guidelines for detecting and treating in special populations, and medication options;

(4) NEEDS ASSESSMENT. The department may conduct a needs assessment to identify research being conducted; technical assistance and educational materials and programs nationwide; the level of awareness about osteoporosis; the needs of patients, families, and caregivers; the needs of health care providers, including managed care organizations; the services available to patients; existence of treatment programs; existence of rehabilitation services; and number and location of bone density testing equipment. To the extent that funds are specifically appropriated, the department shall develop and maintain a resource guide to include osteoporosis related services; and

(5) TECHNICAL ASSISTANCE. The department may replicate and use successful osteoporosis programs and contracts with and purchase materials or services from organizations with expertise and knowledge of osteoporosis. (Code 1981, § 31-42-3, enacted by Ga. L. 1995, p. 841, § 2.)

CHAPTER 43

COMMISSION ON MEN’S HEALTH

| Sec. | | Sec. | |
|----------|---|-----------|--|
| 31-43-1. | Definition. | 31-43-7. | Terms of members; vacancies. |
| 31-43-2. | Findings of General Assembly. | 31-43-8. | Election of presiding officer; presiding officer’s power of appointment. |
| 31-43-3. | Creation of commission. | 31-43-9. | Compensation. |
| 31-43-4. | Members of commission. | 31-43-10. | Meetings; implementation of policies. |
| 31-43-5. | Appointments to commission. | 31-43-11. | Annual written report. |
| 31-43-6. | Lobbyists excluded as members; removal of members; validity of actions; notification when grounds for removal exists. | 31-43-12. | Duties and responsibilities. |
| | | 31-43-13. | Solicitation of donations. |

31-43-1. Definition.

As used in this chapter, the term “commission” means the Commission on Men’s Health created in Code Section 31-43-3. (Code 1981, § 31-43-1, enacted by Ga. L. 2000, p. 126, § 1.)

31-43-2. Findings of General Assembly.

The General Assembly makes the following findings:

- (1) There is a silent health crisis affecting the health and well-being of Georgia’s men;
- (2) This health crisis is of particular concern to men, but is also a concern for women, and especially to those who have fathers, husbands, sons, and brothers;
- (3) Men’s health is likewise a concern for employers who lose productive employees as well as pay the costs of medical care, and is a concern to state government and society which absorb the enormous costs of premature death and disability, including the costs of caring for dependents left behind;
- (4) The life expectancy gap between men and women has steadily increased from one year in 1920 to seven years in 1990;
- (5) Almost twice as many men than women die from heart disease, and 28.5 percent of all men die as a result of stroke;
- (6) In 1995, blood pressure of black males was 356 percent higher than that of white males, and the death rate for stroke was 97 percent higher for black males than for white males;
- (7) The incidence of stroke among men is 19 percent higher than for women;

(8) Significantly more men than women are diagnosed with AIDS each year;

(9) Fifty percent more men than women die of cancer;

(10) Although the incidence of depression is higher in women, the rate of life-threatening depression is higher in men, with men representing 80 percent of all suicides cases, and with men 43 times more likely to be admitted to psychiatric hospitals than women;

(11) Prostate cancer is the most frequently diagnosed cancer in the United States among men, accounting for 36 percent of all cancer cases;

(12) An estimated 180,000 men will be newly diagnosed with prostate cancer this year alone, of which 37,000 will die;

(13) Prostate cancer rates increase sharply with age, and more than 75 percent of such cases are diagnosed in men age 65 and older;

(14) The incidence of prostate cancer and the resulting mortality rate in African American men is twice that in white men;

(15) Studies show that men are at least 25 percent less likely than women to visit a doctor, and are significantly less likely to have regular physician check-ups and obtain preventive screening tests for serious diseases;

(16) Appropriate use of tests such as prostate specific antigen (PSA) exams and blood pressure, blood sugar, and cholesterol screens, in conjunction with clinical exams and self-testing, can result in the early detection of many problems and in increased survival rates;

(17) Educating men, their families, and health care providers about the importance of early detection of male health problems can result in reducing rates of mortality for male-specific diseases, as well as improve the health of Georgia's men and its overall economic well-being;

(18) Recent scientific studies have shown that regular medical exams, preventive screenings, regular exercise, and healthy eating habits can help save lives; and

(19) A Commission on Men's Health is needed to investigate these findings and take such further actions as may be needed to promote men's health in this state. (Code 1981, § 31-43-2, enacted by Ga. L. 2000, p. 126, § 1.)

31-43-3. Creation of commission.

There is created the Commission on Men's Health. The commission shall be assigned to the Department of Public Health for administrative

purposes only, as provided in Code Section 50-4-3, except that such department shall provide staff to the commission. (Code 1981, § 31-43-3, enacted by Ga. L. 2000, p. 126, § 1; Ga. L. 2011, p. 705, § 6-3/HB 214.)

The 2011 amendment, effective July 1, 2011, substituted “Department of Public Health” for “Department of Community Health” in the middle of the second sentence of this Code section.

Law reviews. — For article on the 2011 amendment of this Code section, see 28 Ga. St. U.L. Rev. 147 (2011).

31-43-4. Members of commission.

The commission shall consist of 11 members: seven members appointed by the Governor; two members of the Senate appointed by the Senate Committee on Assignments, one of whom shall be the chairperson of the Senate Health and Human Services Committee or his or her designee; and two members of the House of Representatives appointed by the Speaker of the House, one of whom shall be the chairperson of the House Committee on Health and Human Services or his or her designee. The Governor may also appoint an honorary chairperson to serve as a member of the commission. (Code 1981, § 31-43-4, enacted by Ga. L. 2000, p. 126, § 1; Ga. L. 2005, p. 48, § 3/HB 309.)

31-43-5. Appointments to commission.

Appointments to the commission shall be made without regard to the race, color, disability, sex, religion, age, or national origin of the appointees. The members of the commission appointed by the Governor shall be representative of major public and private agencies and organizations and shall be experienced in or have demonstrated particular interest in men’s health issues. (Code 1981, § 31-43-5, enacted by Ga. L. 2000, p. 126, § 1; Ga. L. 2001, p. 4, § 31.)

31-43-6. Lobbyists excluded as members; removal of members; validity of actions; notification when grounds for removal exists.

(a) A person may not serve as a member of the commission if the person is required to register as a lobbyist because of the person’s activities for compensation on behalf of a profession related to the operation of the commission.

(b) The elected official who appoints members to the commission may remove any member appointed by such official who:

- (1) Violates a prohibition established by this chapter;

(2) Cannot because of illness or disability discharge the member's duties for a substantial part of the term for which the member is appointed; or

(3) Is absent from more than half of the regularly scheduled commission meetings that the member is eligible to attend during a calendar year unless the absence is excused by majority vote of the commission.

(c) The validity of an action of the commission is not affected by the fact that it is taken when a ground for removal of a commission member exists.

(d) If a member of the commission has knowledge that a potential ground for removal exists, the member shall notify the presiding officer of the commission of the potential ground. The presiding officer shall then notify the elected official who appointed such member that a potential ground for removal exists. (Code 1981, § 31-43-6, enacted by Ga. L. 2000, p. 126, § 1.)

31-43-7. Terms of members; vacancies.

(a) The initial members of the commission who are members of the General Assembly shall serve for initial terms of office which expire December 31, 2000. Thereafter, those members of the commission who are members of the General Assembly shall serve for terms of office of two years each. Members of the commission who are not members of the General Assembly shall serve for terms of office of three years each. Members of the commission shall serve for the terms of office specified in this Code section and until their respective successors are appointed and qualified. Members of the commission may be reappointed to the commission upon the expiration of their terms of office if they otherwise continue to meet the qualifications for such office.

(b) If a vacancy occurs in the membership of the commission, the elected official who appointed the member to the position which became vacant shall appoint a successor for the remainder of the unexpired term and until a successor is appointed and qualified. (Code 1981, § 31-43-7, enacted by Ga. L. 2000, p. 126, § 1.)

31-43-8. Election of presiding officer; presiding officer's power of appointment.

(a) The commission annually shall elect one of its members as presiding officer.

(b) The presiding officer of the commission may appoint subcommittees for any purpose consistent with the duties of the commission under

this chapter. (Code 1981, § 31-43-8, enacted by Ga. L. 2000, p. 126, § 1.)

31-43-9. Compensation.

A member of the commission is not entitled to compensation or expenses, except that any member of the commission who is a member of the General Assembly shall receive the same expenses and allowances for each day of service upon the commission as is authorized for members of interim legislative study committees of the General Assembly. (Code 1981, § 31-43-9, enacted by Ga. L. 2000, p. 126, § 1.)

31-43-10. Meetings; implementation of policies.

(a) The commission may meet at the times and places that the commission designates.

(b) The commission shall develop and implement policies that provide the public with a reasonable opportunity to appear before the commission and to speak on any issue under the jurisdiction of the commission. (Code 1981, § 31-43-10, enacted by Ga. L. 2000, p. 126, § 1.)

31-43-11. Annual written report.

The commission shall prepare annually a complete and detailed written report accounting for all funds received and disbursed by the commission during the preceding fiscal year. (Code 1981, § 31-43-11, enacted by Ga. L. 2000, p. 126, § 1.)

31-43-12. Duties and responsibilities.

The commission shall:

- (1) Adopt rules as necessary for its own procedures;
- (2) Develop strategies, public policy recommendations, and programs, including community outreach and public-private partnerships, that are designed to educate Georgia's men on the benefits of regular physician check-ups, early detection and preventive screening tests, and healthy lifestyle practices;
- (3) Focus on improving health outcomes of men in specific disease areas, including but not necessarily limited to prostate and testicular cancer; cardiovascular disease including high blood pressure, stroke, and heart attacks; depression and suicide; and diabetes;
- (4) Monitor state and federal policy and legislation that may affect the areas of men's health;

(5) Recommend assistance, services, and policy changes that will further the goals of the commission; and

(6) Submit a report of its findings and recommendations under this chapter to the Governor, the President of the Senate, and the Speaker of the House of Representatives not later than October 1 of each year. (Code 1981, § 31-43-12, enacted by Ga. L. 2000, p. 126, § 1.)

Code Commission notes. — Pursuant to Code Section 28-9-5, in 2000, in paragraph (3), a comma was inserted following “disease areas” and “stroke” and semico-

lons were substituted for commas following “testicular cancer”, “heart attacks”, and “depression and suicide”.

31-43-13. Solicitation of donations.

The commission may solicit and accept donations, gifts, grants, property, or matching funds from a public or private source for the use of the commission in performing its functions under this chapter. (Code 1981, § 31-43-13, enacted by Ga. L. 2000, p. 126, § 1.)

CHAPTER 44

RENAL DISEASE FACILITIES

| Sec. | | Sec. | |
|----------|---|-----------|--|
| 31-44-1. | Definitions. | 31-44-8. | Qualifications of employees. |
| 31-44-2. | Fees. | 31-44-9. | Minimum standards for curricula, instructors, and training. |
| 31-44-3. | Adoption of rules; council established; terms of councilmembers. | 31-44-10. | Inspections. |
| 31-44-4. | License required. | 31-44-11. | Authority of department to deal with violations of this chapter or rules adopted thereunder. |
| 31-44-5. | Exceptions to licensing requirement. | 31-44-12. | Deposit of collected penalties. |
| 31-44-6. | Application for license; fee; evidence of qualified staff; temporary provisional license; issuance of license; renewability of license. | 31-44-13. | Temporary management of facilities. |
| 31-44-7. | Minimum standards of rules. | 31-44-14. | Action to enjoin operation of facility. |
| | | 31-44-15. | Fee of temporary manager. |

Code Commission notes. — Ga. L. 2000, p. 126, § 1, Ga. L. 2000, p. 526, § 1, and Ga. L. 2000, p. 549, § 3 all enacted a Chapter 43 of Title 31. Pursuant to Code Section 28-9-5, the chapter enacted by Ga. L. 2000, p. 526, § 1 has been redesignated as Chapter 44 and the chapter enacted by Ga. L. 2000, p. 549, § 3 has been redesignated as Chapter 45.

Editor’s notes. — Ga. L. 2005, p. 1194, § 1/SB 48, not codified by the General Assembly, provides that: “It is the general intent of this Act to eliminate the future ‘sunset’ of certain provisions relating to renal dialysis facilities. The following provisions of the Official Code of Georgia Annotated which were in effect and applicable on January 1, 2005, shall remain in effect and applicable until and unless changed by future Act of the General Assembly:

- “(1) Code Section 31-44-1, relating to definitions;
- “(2) Code Section 31-44-2, relating to fees;
- “(3) Code Section 31-44-3, relating to adoption of rules and the establishment of the Renal Dialysis Advisory Council;
- “(4) Code Section 31-44-4, relating to license requirement;
- “(5) Code Section 31-44-5, relating to exceptions to licensing requirements;

- “(6) Code Section 31-44-6, relating to application for license; fee; evidence of qualified staff; temporary provisional license; issuance of license; and renewability of license;
- “(7) Code Section 31-44-7, relating to minimum standards of rules;
- “(8) Code Section 31-44-8, relating to qualifications of employees;
- “(9) Code Section 31-44-9, relating to minimum standards for curricula, instructors, and training;
- “(10) Code Section 31-44-10, relating to inspections;
- “(11) Code Section 31-44-11, relating to authority of department to deal with violations of Chapter 44 of Title 31 or rules adopted thereunder;
- “(12) Code Section 31-44-12, relating to deposit of collected penalties;
- “(13) Code Section 31-44-13, relating to temporary management of facilities;
- “(14) Code Section 31-44-14, relating to action to enjoin operation of facility; and
- “(15) Code Section 31-44-15, relating to fee of temporary manager.

“(b) The following provision of law is repealed:
“Section 4 of an Act amending Title 31 of the Official Code of Georgia Annotated, relating to health, approved April 20, 2000 (Ga. L. 2000, p. 526), which now repealed

section would have provided for a future repeal or sunset of certain provisions relating to renal dialysis facilities.”

Administrative rules and regulations. — End stage renal disease facili-

ties, Official Compilation of the Rules and Regulations of the State of Georgia, Department of Human Resources, Office of Regulatory Services, Chapter 290-9-9.

31-44-1. Definitions.

As used in this chapter, the term:

(1) “Board” means the Board of Community Health.

(2) “Department” means the Department of Community Health.

(3) “Dialysis” means a process by which dissolved substances are removed from a patient’s body by diffusion, osmosis, and convection (ultrafiltration) from one fluid compartment to another across a semipermeable membrane.

(4) “Dialysis technician” means an individual who is not a registered nurse or physician and who provides dialysis care under the supervision of a registered nurse or physician.

(5) “End stage renal disease” means that stage of renal impairment that appears irreversible and permanent and that requires a regular course of dialysis or kidney transplantation to maintain life.

(6) “End stage renal disease facility” means a facility that provides dialysis treatment, home dialysis training, support services, or any combination thereof to individuals with end stage renal disease.

(7) “Physician” means an individual who is licensed to practice medicine under Article 2 of Chapter 34 of Title 34.

(8) “Reuse technician” means an individual who is not a registered nurse or licensed physician who performs the procedures necessary to clean and properly prepare kidney dialyzers for use for multiple treatments. (Code 1981, § 31-44-1, enacted by Ga. L. 2000, p. 526, § 1; Ga. L. 2011, p. 705, § 4-18/HB 214.)

The 2011 amendment, effective July 1, 2011, added paragraphs (1) and (2); and redesignated former paragraphs (1) through (6) as present paragraphs (3) through (8), respectively.

Code Commission notes. — Ga. L. 2000, p. 126, § 1, Ga. L. 2000, p. 526, § 1, and Ga. L. 2000, p. 549, § 3 all enacted a Chapter 43 of Title 31. Pursuant to Code Section 28-9-5, in 2000, the chapter enacted by Ga. L. 2000, p. 526, § 1 has been redesignated as Chapter 44 of Title 31 and the Code sections therein redesignated

accordingly. The chapter enacted by Ga. L. 2000, p. 549, § 3 has been redesignated as Chapter 45 of Title 31 and the Code sections therein redesignated accordingly.

Pursuant to Code Section 28-9-5, in 2000, “semipermeable” was substituted for “semi-permeable” in paragraph (1) (now paragraph (3)).

Editor’s notes. — For information as to the elimination of a certain future repeal or “sunset” of this Code section, see the Editor’s note at the beginning of this chapter.

Law reviews. — For article on the 2011 amendment of this Code section, see 28 Ga. St. U.L. Rev. 147 (2011).

31-44-2. Fees.

The board shall set fees imposed by this chapter in amounts reasonable and necessary to defray the costs of administering this chapter with due consideration to the amount of funds received from the federal government by the department for performance of medicare certification surveys of dialysis clinics. In setting fees under this Code section, the board shall consider setting a range of license and renewal fees based upon the number of dialysis stations at each facility, but in no event shall the annual license fee exceed \$1,500.00 per end stage renal disease facility. (Code 1981, § 31-44-2, enacted by Ga. L. 2000, p. 526, § 1.)

Code Commission notes. — Ga. L. 2000, p. 126, § 1, Ga. L. 2000, p. 526, § 1, and Ga. L. 2000, p. 549, § 3 all enacted a Chapter 43 of Title 31. Pursuant to Code Section 28-9-5, in 2000, the chapter enacted by Ga. L. 2000, p. 526, § 1 has been redesignated as Chapter 44 of Title 31 and the Code sections therein redesignated accordingly. The chapter enacted by Ga. L.

2000, p. 549, § 3 has been redesignated as Chapter 45 of Title 31 and the Code sections therein redesignated accordingly.

Editor's notes. — For information as to the elimination of a certain future repeal or "sunset" of this Code section, see the Editor's note at the beginning of this chapter.

31-44-3. Adoption of rules; council established; terms of councilmembers.

(a) The board shall adopt rules to implement this chapter, including but not limited to requirements for the issuance, renewal, denial, suspension, and revocation of a license to operate an end stage renal disease facility. The rules adopted by the board pursuant to this Code section shall not conflict with any federal law or regulation applicable to end stage renal disease facilities or personnel thereof and shall set forth minimum standards for the health, safety, and protection of the patient being served.

(b) The department shall establish a Renal Dialysis Advisory Council to advise the department regarding licensing and inspection of end stage renal disease facilities. The council shall be composed of a minimum of 13 persons appointed by the board: one member recommended by the Dogwood Chapter of the American Nephrology Nurses Association; one member recommended by the Georgia Association of Kidney Patients; two physicians specializing in nephrology recommended by the Georgia Renal Physicians Association; one member recommended by the National Kidney Foundation of Georgia; two administrators of facilities certified as outpatient dialysis facilities in

Georgia; three members of the general public, two of whom shall be dialysis patients or family members of dialysis patients; one member representing technicians working in renal dialysis facilities; one member representing social workers working in renal dialysis facilities; and one member representing dietitians working in renal dialysis facilities.

(c) Members of the council shall serve four-year terms and until their successors are appointed and qualified. No member of the council shall serve more than two consecutive terms. The council shall meet as frequently as the department considers necessary, but not less than twice each year. The council shall be consulted and have the opportunity to evaluate all rules promulgated by the department under this chapter applicable to end stage renal disease facilities prior to their adoption. Members shall serve without compensation. (Code 1981, § 31-44-3, enacted by Ga. L. 2000, p. 526, § 1; Ga. L. 2005, p. 1194, § 2/SB 48.)

Code Commission notes. — Ga. L. 2000, p. 126, § 1, Ga. L. 2000, p. 526, § 1, and Ga. L. 2000, p. 549, § 3 all enacted a Chapter 43 of Title 31. Pursuant to Code Section 28-9-5, in 2000, the chapter enacted by Ga. L. 2000, p. 526, § 1 has been redesignated as Chapter 44 of Title 31 and the Code sections therein redesignated accordingly. The chapter enacted by Ga. L.

2000, p. 549, § 3 has been redesignated as Chapter 45 of Title 31 and the Code sections therein redesignated accordingly.

Editor's notes. — For information as to the elimination of a certain future repeal or "sunset" of this Code section, see the Editor's note at the beginning of this chapter.

31-44-4. License required.

Except as provided by Code Section 31-44-5, no person, business entity, corporation, or association may operate an end stage renal disease facility without a license issued under this chapter. Any end stage renal disease facility which is in operation when this chapter becomes effective for all purposes, and which has been certified for participation in the federal medicare program shall be granted a license by the department upon payment of the applicable license fee. A license shall be effective for a 12 month period following the date of issue and shall expire one year following such date; provided, however, a facility that has not been inspected during the year may continue to operate under its existing license until an inspection is made. (Code 1981, § 31-44-4, enacted by Ga. L. 2000, p. 526, § 1.)

Code Commission notes. — Ga. L. 2000, p. 126, § 1, Ga. L. 2000, p. 526, § 1, and Ga. L. 2000, p. 549, § 3 all enacted a Chapter 43 of Title 31. Pursuant to Code Section 28-9-5, in 2000, the chapter enacted by Ga. L. 2000, p. 526, § 1 has been redesignated as Chapter 44 of Title 31 and the Code sections therein redesignated

accordingly. The chapter enacted by Ga. L. 2000, p. 549, § 3 has been redesignated as Chapter 45 of Title 31 and the Code sections therein redesignated accordingly.

Pursuant to Code Section 28-9-5, in 2000, "31-44-5" was substituted for "31-43-5" in the first sentence of this Code section.

Editor's notes. — For information as to the elimination of a certain future repeal or “sunset” of this Code section, see

the Editor's note at the beginning of this chapter.

31-44-5. Exceptions to licensing requirement.

The following facilities are not required to be licensed under this chapter:

- (1) A hospital permitted under Chapter 7 of this title that provides dialysis to individuals receiving services from the hospital;
- (2) The office of a physician unless the office is used primarily as an end stage renal disease facility; or
- (3) Federal or state agency facilities. (Code 1981, § 31-44-5, enacted by Ga. L. 2000, p. 526, § 1.)

Code Commission notes. — Ga. L. 2000, p. 126, § 1, Ga. L. 2000, p. 526, § 1, and Ga. L. 2000, p. 549, § 3 all enacted a Chapter 43 of Title 31. Pursuant to Code Section 28-9-5, in 2000, the chapter enacted by Ga. L. 2000, p. 526, § 1 has been redesignated as Chapter 44 of Title 31 and the Code sections therein redesignated accordingly. The chapter enacted by Ga. L.

2000, p. 549, § 3 has been redesignated as Chapter 45 of Title 31 and the Code sections therein redesignated accordingly.

Editor's notes. — For information as to the elimination of a certain future repeal or “sunset” of this Code section, see the Editor's note at the beginning of this chapter.

31-44-6. Application for license; fee; evidence of qualified staff; temporary provisional license; issuance of license; renewability of license.

- (a) An applicant for a license under this chapter must submit an application to the department on a form prescribed by the department.
- (b) Each application must be accompanied by a nonrefundable \$100.00 application fee.
- (c) Each application must contain evidence that there are sufficient qualified staff at the facility.
- (d) The department may grant a temporary provisional license to an applicant.
- (e) The department shall issue a license if it finds the applicant meets the requirements of this chapter and the rules adopted under this chapter.
- (f) The license is renewable periodically after submission of:
 - (1) The renewal application and fee; and
 - (2) Satisfactory compliance with the rules adopted under this chapter. (Code 1981, § 31-44-6, enacted by Ga. L. 2000, p. 526, § 1.)

Code Commission notes. — Ga. L. 2000, p. 126, § 1, Ga. L. 2000, p. 526, § 1, and Ga. L. 2000, p. 549, § 3 all enacted a Chapter 43 of Title 31. Pursuant to Code Section 28-9-5, in 2000, the chapter enacted by Ga. L. 2000, p. 526, § 1 has been redesignated as Chapter 44 of Title 31 and the Code sections therein redesignated accordingly. The chapter enacted by Ga. L.

2000, p. 549, § 3 has been redesignated as Chapter 45 of Title 31 and the Code sections therein redesignated accordingly.

Editor's notes. — For information as to the elimination of a certain future repeal or "sunset" of this Code section, see the Editor's note at the beginning of this chapter.

31-44-7. Minimum standards of rules.

The rules adopted under Code Section 31-44-3 must contain minimum standards to protect the health and safety of a patient of an end stage renal disease facility. (Code 1981, § 31-44-7, enacted by Ga. L. 2000, p. 526, § 1.)

Code Commission notes. — Ga. L. 2000, p. 126, § 1, Ga. L. 2000, p. 526, § 1, and Ga. L. 2000, p. 549, § 3 all enacted a Chapter 43 of Title 31. Pursuant to Code Section 28-9-5, in 2000, the chapter enacted by Ga. L. 2000, p. 526, § 1 has been redesignated as Chapter 44 of Title 31 and the Code sections therein redesignated accordingly. The chapter enacted by Ga. L. 2000, p. 549, § 3 has been redesignated as

Chapter 45 of Title 31 and the Code sections therein redesignated accordingly.

Pursuant to Code Section 28-9-5, in 2000, "31-44-3" was substituted for "31-43-3" in this Code section.

Editor's notes. — For information as to the elimination of a certain future repeal or "sunset" of this Code section, see the Editor's note at the beginning of this chapter.

31-44-8. Qualifications of employees.

An end stage renal disease facility may not employ or have working in that facility as a dialysis or reuse technician anyone other than an individual trained and competent pursuant to the rules promulgated under this chapter. (Code 1981, § 31-44-8, enacted by Ga. L. 2000, p. 526, § 1.)

Code Commission notes. — Ga. L. 2000, p. 126, § 1, Ga. L. 2000, p. 526, § 1, and Ga. L. 2000, p. 549, § 3 all enacted a Chapter 43 of Title 31. Pursuant to Code Section 28-9-5, in 2000, the chapter enacted by Ga. L. 2000, p. 526, § 1 has been redesignated as Chapter 44 of Title 31 and the Code sections therein redesignated accordingly. The chapter enacted by Ga. L.

2000, p. 549, § 3 has been redesignated as Chapter 45 of Title 31 and the Code sections therein redesignated accordingly.

Editor's notes. — For information as to the elimination of a certain future repeal or "sunset" of this Code section, see the Editor's note at the beginning of this chapter.

31-44-9. Minimum standards for curricula, instructors, and training.

The rules adopted by the board under Code Section 31-44-3 shall establish:

(1) Minimum standards for the curricula and instructors used to train individuals to act as dialysis or reuse technicians;

(2) Minimum standards for the determination of the competency of individuals who have been trained as dialysis or reuse technicians;

(3) Minimum requirements for documentation that an individual has been trained and determined to be competent as a dialysis or reuse technician and the acceptance of that documentation by another end stage renal disease facility that may later employ the individual; and

(4) The acts and practices that are allowed or prohibited for dialysis or reuse technicians. (Code 1981, § 31-44-9, enacted by Ga. L. 2000, p. 526, § 1.)

Code Commission notes. — Ga. L. 2000, p. 126, § 1, Ga. L. 2000, p. 526, § 1, and Ga. L. 2000, p. 549, § 3 all enacted a Chapter 43 of Title 31. Pursuant to Code Section 28-9-5, in 2000, the chapter enacted by Ga. L. 2000, p. 526, § 1 has been redesignated as Chapter 44 of Title 31 and the Code sections therein redesignated accordingly. The chapter enacted by Ga. L. 2000, p. 549, § 3 has been redesignated as

Chapter 45 of Title 31 and the Code sections therein redesignated accordingly.

Pursuant to Code Section 28-9-5, in 2000, “31-44-3” was substituted for “31-43-3” in the introductory language.

Editor’s notes. — For information as to the elimination of a certain future repeal or “sunset” of this Code section, see the Editor’s note at the beginning of this chapter.

31-44-10. Inspections.

(a) The department shall conduct periodic inspections of each end stage renal disease facility to verify compliance with this chapter and rules adopted under this chapter.

(b) An inspection conducted under this Code section shall be unannounced, except for initial inspections, location changes, or expansions. (Code 1981, § 31-44-10, enacted by Ga. L. 2000, p. 526, § 1.)

Code Commission notes. — Ga. L. 2000, p. 126, § 1, Ga. L. 2000, p. 526, § 1, and Ga. L. 2000, p. 549, § 3 all enacted a Chapter 43 of Title 31. Pursuant to Code Section 28-9-5, in 2000, the chapter enacted by Ga. L. 2000, p. 526, § 1 has been redesignated as Chapter 44 of Title 31 and the Code sections therein redesignated accordingly. The chapter enacted by Ga. L.

2000, p. 549 § 3 has been redesignated as Chapter 45 of Title 31 and the Code sections therein redesignated accordingly.

Editor’s notes. — For information as to the elimination of a certain future repeal or “sunset” of this Code section, see the Editor’s note at the beginning of this chapter.

31-44-11. Authority of department to deal with violations of this chapter or rules adopted thereunder.

(a) The department is authorized to issue, deny, suspend, or revoke a license issued under this chapter for a violation of this chapter or a

rule adopted under this chapter, or take other disciplinary actions against licensees as provided in Code Section 31-2-8.

(b) The denial, suspension, or revocation of a license by the department shall be a contested case for purposes of Chapter 13 of Title 50, the “Georgia Administrative Procedure Act.” (Code 1981, § 31-44-11, enacted by Ga. L. 2000, p. 526, § 1; Ga. L. 2009, p. 453, § 1-9/HB 228; Ga. L. 2011, p. 705, § 4-7/HB 214.)

The 2011 amendment, effective July 1, 2011, substituted “Code Section 31-2-8” for “Code Section 31-2-11” at the end of subsection (a).

Code Commission notes. — Ga. L. 2000, p. 126, § 1, Ga. L. 2000, p. 526, § 1, and Ga. L. 2000, p. 549, § 3 all enacted a Chapter 43 of Title 31. Pursuant to Code Section 28-9-5, in 2000, the chapter enacted by Ga. L. 2000, p. 526, § 1 has been redesignated as Chapter 44 of Title 31 and the Code sections therein redesignated

accordingly. The chapter enacted by Ga. L. 2000, p. 549, § 3 has been redesignated as Chapter 45 of Title 31 and the Code sections therein redesignated accordingly.

Editor’s notes. — For information as to the elimination of a certain future repeal or “sunset” of this Code section, see the Editor’s note at the beginning of this chapter.

Law reviews. — For article on the 2011 amendment of this Code section, see 28 Ga. St. U.L. Rev. 147 (2011).

31-44-12. Deposit of collected penalties.

A civil or administrative penalty collected under this chapter shall be deposited in the state treasury to the general fund. (Code 1981, § 31-44-12, enacted by Ga. L. 2000, p. 526, § 1.)

Code Commission notes. — Ga. L. 2000, p. 126, § 1, Ga. L. 2000, p. 526, § 1, and Ga. L. 2000, p. 549, § 3 all enacted a Chapter 43 of Title 31. Pursuant to Code Section 28-9-5, in 2000, the chapter enacted by Ga. L. 2000, p. 526, § 1 has been redesignated as Chapter 44 of Title 31 and the Code sections therein redesignated accordingly. The chapter enacted by Ga. L.

2000, p. 549, § 3 has been redesignated as Chapter 45 of Title 31 and the Code sections therein redesignated accordingly.

Editor’s notes. — For information as to the elimination of a certain future repeal or “sunset” of this Code section, see the Editor’s note at the beginning of this chapter.

31-44-13. Temporary management of facilities.

(a) A person holding a controlling interest in an end stage renal disease facility may, at any time, request the department to assume the management of the facility through the appointment of a temporary manager under this chapter.

(b) After receiving the request, the department may enter into an agreement providing for the appointment of a temporary manager to manage the facility under conditions considered appropriate by both parties if the department considers the appointment desirable.

(c) An agreement under this Code section must:

(1) Specify all terms and conditions of the temporary manager's appointment and authority; and

(2) Preserve all rights granted by law of the individuals served by the facility.

(d) The primary duty of the temporary manager is to ensure that adequate and safe services are provided to patients until temporary management ceases.

(e) The appointment terminates at the time specified by the agreement. (Code 1981, § 31-44-13, enacted by Ga. L. 2000, p. 526, § 1.)

Code Commission notes. — Ga. L. 2000, p. 126, § 1, Ga. L. 2000, p. 526, § 1, and Ga. L. 2000, p. 549, § 3 all enacted a Chapter 43 of Title 31. Pursuant to Code Section 28-9-5, in 2000, the chapter enacted by Ga. L. 2000, p. 526, § 1 has been redesignated as Chapter 44 of Title 31 and the Code sections therein redesignated accordingly. The chapter enacted by Ga. L. 2000, p. 549, § 3 has been redesignated as

Chapter 45 of Title 31 and the Code sections therein redesignated accordingly.

Pursuant to Code Section 28-9-5, in 2000, "Code" was inserted in the introductory language of subsection (c).

Editor's notes. — For information as to the elimination of a certain future repeal or "sunset" of this Code section, see the Editor's note at the beginning of this chapter.

31-44-14. Action to enjoin operation of facility.

The department may request that the Attorney General bring an action to enjoin either the continued operation of the facility or the closing of the facility in the superior court of the county in which an end stage renal disease facility is located in the name of and on behalf of the state or for the appointment of a temporary manager to manage that end stage renal disease facility if:

(1) The facility is operating without a license;

(2) The department has denied, suspended, or revoked the facility's license, but the facility continues to operate;

(3) License denial, suspension, or revocation proceedings against the facility are pending and the department determines that an imminent or reasonably foreseeable threat to the health and safety of a patient of the facility exists;

(4) The department determines that an emergency exists that presents an immediate threat to the health and safety of a patient of the facility; or

(5) The facility is closing and arrangements for the care of patients by other licensed facilities have not been made before closure. (Code 1981, § 31-44-14, enacted by Ga. L. 2000, p. 526, § 1.)

Code Commission notes. — Ga. L. 2000, p. 126, § 1, Ga. L. 2000, p. 526, § 1, and Ga. L. 2000, p. 549, § 3 all enacted a Chapter 43 of Title 31. Pursuant to Code Section 28-9-5, in 2000, the chapter enacted by Ga. L. 2000, p. 526, § 1 has been redesignated as Chapter 44 of Title 31 and the Code sections therein redesignated accordingly. The chapter enacted by Ga. L.

2000, p. 549, § 3 has been redesignated as Chapter 45 of Title 31 and the Code sections therein redesignated accordingly.

Editor's notes. — For information as to the elimination of a certain future repeal or "sunset" of this Code section, see the Editor's note at the beginning of this chapter.

31-44-15. Fee of temporary manager.

(a) A temporary manager appointed under Code Section 31-44-13 or 31-44-14 is entitled to a reasonable fee as determined by the court. The fee shall be paid by the facility.

(b) A temporary manager appointed under Code Section 31-44-13 may petition the court to order the release to such manager of any payment owed such manager for care and services provided to patients of the facility if the payment has been withheld.

(c) Withheld payments that may be released under subsection (b) of this Code section may include payments withheld by a governmental agency or other entity before or during the appointment of the temporary manager, including:

- (1) Medicaid, medicare, or insurance payments; or
- (2) Payments from another third party. (Code 1981, § 31-44-15, enacted by Ga. L. 2000, p. 526, § 1.)

Code Commission notes. — Ga. L. 2000, p. 126, § 1, Ga. L. 2000, p. 526, § 1, and Ga. L. 2000, p. 549, § 3 all enacted a Chapter 43 of Title 31. Pursuant to Code Section 28-9-5, in 2000, the chapter enacted by Ga. L. 2000, p. 526, § 1 has been redesignated as Chapter 44 of Title 31 and the Code sections therein redesignated accordingly. The chapter enacted by Ga. L. 2000, p. 549, § 3 has been redesignated as Chapter 45 of Title 31 and the Code sections therein redesignated accordingly.

Pursuant to Code Section 28-9-5, in 2000, "31-44-13 or 31-44-14" was substituted for "31-43-13 or 31-43-14" in subsection (a) and "31-44-13" was substituted for "31-43-13" in subsection (b).

Editor's notes. — For information as to the elimination of a certain future repeal or "sunset" of this Code section, see the Editor's note at the beginning of this chapter.

31-45-1. Short title.

This chapter shall be known and may be cited as “Michelle’s Law.” (Code 1981, § 31-45-1, enacted by Ga. L. 2000, p. 549, § 3.)

Code Commission notes. — Ga. L. 2000, p. 126, § 1, Ga. L. 2000, p. 526, § 1, and Ga. L. 2000, p. 549, § 3 all enacted a Chapter 43 of Title 31. Pursuant to Code Section 28-9-5, in 2000, the chapter enacted by Ga. L. 2000, p. 526, § 1 has been redesignated as Chapter 44 of Title 31 and the Code sections therein redesignated accordingly. The chapter enacted by Ga. L. 2000, p. 549, § 3 has been redesignated as Chapter 45 of Title 31 and the Code sections therein redesignated accordingly.

31-45-2. Purpose.

The purpose of this chapter is to protect the public health and safety through the proper design, operation, and maintenance of public swimming pools. (Code 1981, § 31-45-2, enacted by Ga. L. 2000, p. 549, § 3.)

Code Commission notes. — Ga. L. 2000, p. 126, § 1, Ga. L. 2000, p. 526, § 1, and Ga. L. 2000, p. 549, § 3 all enacted a Chapter 43 of Title 31. Pursuant to Code Section 28-9-5, in 2000, the chapter enacted by Ga. L. 2000, p. 526, § 1 has been

redesignated as Chapter 44 of Title 31 and the Code sections therein redesignated accordingly. The chapter enacted by Ga. L. 2000, p. 549, § 3 has been redesignated as Chapter 45 of Title 31 and the Code sections therein redesignated accordingly.

31-45-3. Definitions.

As used in this chapter, the term “public swimming pool,” “swimming pool,” or “pool” means any structure, chamber, or tank containing an artificial body of water used by the public for swimming, diving, wading, recreation, or therapy, together with buildings, appurtenances, and equipment used in connection with the body of water, regardless of whether a fee is charged for its use. The term includes municipal, school, hotel, or motel pools and any pool to which access is granted in exchange for payment of a daily fee. This chapter shall not apply to a private pool or hot tub serving a single-family dwelling and used only by the residents of the dwelling and their guests. This chapter also shall not apply to apartment complex pools, country club pools, subdivision pools which are open only to residents of the subdivision and their guests, therapeutic pools used in physical therapy programs operated by medical facilities licensed by the department or operated by a licensed physical therapist, therapeutic chambers drained, cleaned, and refilled after each individual use, or to religious ritual baths used solely for religious purposes. (Code 1981, § 31-45-3, enacted by Ga. L. 2000, p. 549, § 3.)

Code Commission notes. — Ga. L. 2000, p. 126, § 1, Ga. L. 2000, p. 526, § 1, and Ga. L. 2000, p. 549, § 3 all enacted a Chapter 43 of Title 31. Pursuant to Code Section 28-9-5, in 2000, the chapter enacted by Ga. L. 2000, p. 526, § 1 has been redesignated as Chapter 44 of Title 31 and the Code sections therein redesignated accordingly. The chapter enacted by Ga. L. 2000, p. 549, § 3 has been redesignated as Chapter 45 of Title 31 and the Code sections therein redesignated accordingly.

Pursuant to Code Section 28-9-5, in 2000, “single-family dwelling” was substituted for “single family dwelling” in the third sentence, and, in the fourth sentence, a comma was inserted following “licensed physical therapist” and following “each individual use”, “nor to” was deleted preceding “therapeutic chambers drained” and “or to religious” was substituted for “nor to religious”.

31-45-4. Issuance of permits; terms of expiration.

(a) On or after December 31, 2000, a permit shall be obtained from the county board of health in the county in which a public swimming pool is located prior to construction or continued operation of a public swimming pool. When the ownership of a public swimming pool changes or if the pool is leased by the owner, it shall be the responsibility of the new owner or lessee to secure a permit issued in his or her name.

(b) Unless suspended or revoked, a swimming pool operation permit shall be valid for the period of operation specified in the application, but in no event shall it be valid for more than 12 months. (Code 1981, § 31-45-4, enacted by Ga. L. 2000, p. 549, § 3.)

Code Commission notes. — Ga. L. 2000, p. 126, § 1, Ga. L. 2000, p. 526, § 1, and Ga. L. 2000, p. 549, § 3 all enacted a Chapter 43 of Title 31. Pursuant to Code Section 28-9-5, in 2000, the chapter enacted by Ga. L. 2000, p. 526, § 1 has been redesignated as Chapter 44 of Title 31 and the Code sections therein redesignated accordingly. The chapter enacted by Ga. L. 2000, p. 549, § 3 has been redesignated as Chapter 45 of Title 31 and the Code sections therein redesignated accordingly.

31-45-5. Operation permit required for each public swimming pool.

A separate application for an operation permit must be submitted for each public swimming pool. The owner or operator shall apply annually to the county board of health for an operator's permit. A form must be obtained from the county board of health to provide:

- (1) The owner's name, address, and telephone number;
- (2) The operator's name, address, and telephone number;
- (3) The street address of the public swimming pool;
- (4) The physical location of the public swimming pool;
- (5) The type of public swimming pool;
- (6) The construction date, if applicable;
- (7) The proposed operating dates;
- (8) The type of disinfection; and
- (9) The signature of the owner or a designated representative of the owner. (Code 1981, § 31-45-5, enacted by Ga. L. 2000, p. 549, § 3.)

Code Commission notes. — Ga. L. 2000, p. 126, § 1, Ga. L. 2000, p. 526, § 1, and Ga. L. 2000, p. 549, § 3 all enacted a Chapter 43 of Title 31. Pursuant to Code Section 28-9-5, in 2000, the chapter enacted by Ga. L. 2000, p. 526, § 1 has been

redesignated as Chapter 44 of Title 31 and the Code sections therein redesignated accordingly. The chapter enacted by Ga. L.

2000, p. 549, § 3 has been redesignated as Chapter 45 of Title 31 and the Code sections therein redesignated accordingly.

31-45-6. Construction of public swimming pools.

Construction of public swimming pools and additions and alterations to such pools may start only upon issuance and receipt of a permit pursuant to Code Section 31-45-4 and shall be in compliance with plans and data submitted in accordance with Code Section 31-45-5 and other data approved by the county board of health of the county in which each pool is located. (Code 1981, § 31-45-6, enacted by Ga. L. 2000, p. 549, § 3.)

Code Commission notes. — Ga. L. 2000, p. 126, § 1, Ga. L. 2000, p. 526, § 1, and Ga. L. 2000, p. 549, § 3 all enacted a Chapter 43 of Title 31. Pursuant to Code Section 28-9-5, in 2000, the chapter enacted by Ga. L. 2000, p. 526, § 1 has been redesignated as Chapter 44 of Title 31 and the Code sections therein redesignated

accordingly. The chapter enacted by Ga. L. 2000, p. 549, § 3 has been redesignated as Chapter 45 of Title 31 and the Code sections therein redesignated accordingly.

Pursuant to Code Section 28-9-5, in 2000, “31-45-4” was substituted for “31-43-4” and “31-45-5” was substituted for “31-43-5” in this Code section.

31-45-7. Notification for inspection.

A permittee shall notify the county board of health at the time of completion of the construction of a public swimming pool to permit inspection before the pool is placed in operation. (Code 1981, § 31-45-7, enacted by Ga. L. 2000, p. 549, § 3.)

Code Commission notes. — Ga. L. 2000, p. 126, § 1, Ga. L. 2000, p. 526, § 1, and Ga. L. 2000, p. 549, § 3 all enacted a Chapter 43 of Title 31. Pursuant to Code Section 28-9-5, in 2000, the chapter enacted by Ga. L. 2000, p. 526, § 1 has been

redesignated as Chapter 44 of Title 31 and the Code sections therein redesignated accordingly. The chapter enacted by Ga. L. 2000, p. 549, § 3 has been redesignated as Chapter 45 of Title 31 and the Code sections therein redesignated accordingly.

31-45-8. Inspections by the county board of health.

Each public swimming pool shall be inspected by the county board of health to determine compliance with this chapter and with the rules and regulations adopted by the Department of Public Health. Pools which open on or after April 1 and which close on or before October 31 shall be inspected at least once during the period of operation. All other pools shall be inspected at least twice a year. (Code 1981, § 31-45-8, enacted by Ga. L. 2000, p. 549, § 3; Ga. L. 2009, p. 453, § 1-4/HB 228; Ga. L. 2011, p. 705, § 6-3/HB 214.)

The 2011 amendment, effective July 1, 2011, substituted “Department of Public Health” for “Department of Community Health” in the first sentence of this Code section.

Code Commission notes. — Ga. L. 2000, p. 126, § 1, Ga. L. 2000, p. 526, § 1, and Ga. L. 2000, p. 549, § 3 all enacted a Chapter 43 of Title 31. Pursuant to Code Section 28-9-5, in 2000, the chapter en-

acted by Ga. L. 2000, p. 526, § 1 has been redesignated as Chapter 44 of Title 31 and the Code sections therein redesignated accordingly. The chapter enacted by Ga. L. 2000, p. 549, § 3 has been redesignated as Chapter 45 of Title 31 and the Code sections therein redesignated accordingly.

Law reviews. — For article on the 2011 amendment of this Code section, see 28 Ga. St. U.L. Rev. 147 (2011).

31-45-9. Suspension or revocation of permit.

A permit for a public swimming pool may be suspended or revoked by the county board of health for failure to comply with the provisions of this chapter and the rules and regulations adopted by the Department of Public Health. (Code 1981, § 31-45-9, enacted by Ga. L. 2000, p. 549, § 3; Ga. L. 2009, p. 453, § 1-4/HB 228; Ga. L. 2011, p. 705, § 6-3/HB 214.)

The 2011 amendment, effective July 1, 2011, substituted “Department of Public Health” for “Department of Community Health” at the end of this Code section.

Code Commission notes. — Ga. L. 2000, p. 126, § 1, Ga. L. 2000, p. 526, § 1, and Ga. L. 2000, p. 549, § 3 all enacted a Chapter 43 of Title 31. Pursuant to Code Section 28-9-5, in 2000, the chapter enacted by Ga. L. 2000, p. 526, § 1 has been

redesignated as Chapter 44 of Title 31 and the Code sections therein redesignated accordingly. The chapter enacted by Ga. L. 2000, p. 549, § 3 has been redesignated as Chapter 45 of Title 31 and the Code sections therein redesignated accordingly.

Law reviews. — For article on the 2011 amendment of this Code section, see 28 Ga. St. U.L. Rev. 147 (2011).

31-45-10. Rules and regulations.

(a) The Department of Public Health shall adopt and promulgate rules and regulations concerning the construction and operation of public swimming pools. The Department of Public Health shall classify public swimming pools on the basis of size, usage, type, or any other appropriate factor and shall adopt requirements for each classification. The rules shall include requirements for:

- (1) Submission and review of plans prior to construction;
- (2) Application, review, expiration, renewal, and revocation or suspension of an operating permit;
- (3) Inspection;
- (4) Design and construction including materials, depth and other dimensions, and standards for the abatement of suction hazards; and
- (5) Operation and safety including water source, water quality and testing, fencing, water treatment, chemical storage, toilet and bath

facilities, measures to ensure the personal cleanliness of bathers, safety equipment, and sewage and other waste-water disposal.

Public swimming pools constructed or remodeled prior to December 31, 2000, that do not meet specific design and construction requirements of the rules and regulations for public swimming pools adopted by the Department of Public Health shall not be required to comply with design and construction requirements other than requirements related to the abatement of suction hazards. Public swimming pools constructed or remodeled prior to December 31, 2000, shall comply with all other rules and regulations for public swimming pools adopted by the Department of Public Health by January 1, 2003.

(b) No single drain, single-suction outlet public swimming pool shall be allowed to operate unless a protective cover is properly installed. (Code 1981, § 31-45-10, enacted by Ga. L. 2000, p. 549, § 3; Ga. L. 2001, p. 4, § 31; Ga. L. 2009, p. 453, § 1-4/HB 228; Ga. L. 2011, p. 705, § 6-3/HB 214.)

The 2011 amendment, effective July 1, 2011, substituted “Department of Public Health” for “Department of Community Health” throughout subsection (a).

Code Commission notes. — Ga. L. 2000, p. 126, § 1, Ga. L. 2000, p. 526, § 1, and Ga. L. 2000, p. 549, § 3 all enacted a Chapter 43 of Title 31. Pursuant to Code Section 28-9-5, in 2000, the chapter enacted by Ga. L. 2000, p. 526, § 1 has been

redesignated as Chapter 44 of Title 31 and the Code sections therein redesignated accordingly. The chapter enacted by Ga. L. 2000, p. 549, § 3 has been redesignated as Chapter 45 of Title 31 and the Code sections therein redesignated accordingly.

Law reviews. — For article on the 2011 amendment of this Code section, see 28 Ga. St. U.L. Rev. 147 (2011).

31-45-11. Enforcement of rules and regulations.

Each county board of health and its duly authorized agents are authorized and empowered to enforce compliance with the provisions of this chapter and the rules and regulations relating to public swimming pools adopted and promulgated by the Department of Public Health and, in connection therewith, to enter upon and inspect the premises of a public swimming pool at any reasonable time and in a reasonable manner. (Code 1981, § 31-45-11, enacted by Ga. L. 2000, p. 549, § 3; Ga. L. 2009, p. 453, § 1-4/HB 228; Ga. L. 2011, p. 705, § 6-3/HB 214.)

The 2011 amendment, effective July 1, 2011, substituted “Department of Public Health” for “Department of Community Health” in the middle of this Code section.

Code Commission notes. — Ga. L. 2000, p. 126, § 1, Ga. L. 2000, p. 526, § 1, and Ga. L. 2000, p. 549, § 3 all enacted a Chapter 43 of Title 31. Pursuant to Code

Section 28-9-5, in 2000, the chapter enacted by Ga. L. 2000, p. 526, § 1 has been redesignated as Chapter 44 of Title 31 and the Code sections therein redesignated accordingly. The chapter enacted by Ga. L. 2000, p. 549, § 3 has been redesignated as Chapter 45 of Title 31 and the Code sections therein redesignated accordingly.

Law reviews. — For article on the 2011 amendment of this Code section, see 28 Ga. St. U.L. Rev. 147 (2011).

31-45-12. Inspection of unregulated pools.

Notwithstanding any provision of Code Section 31-45-13 regarding the applicability of this chapter to the contrary, a resident or owner of an apartment complex that is not subject to regulation under this chapter or local ordinance may request that the county board of health inspect a pool at such apartment complex. Upon receipt of such a request, the county board of health shall have the authority to inspect such pool at any reasonable time and in a reasonable manner and issue a report on the condition of such pool. (Code 1981, § 31-45-12, enacted by Ga. L. 2000, p. 549, § 3.)

Code Commission notes. — Ga. L. 2000, p. 126, § 1, Ga. L. 2000, p. 526, § 1, and Ga. L. 2000, p. 549, § 3 all enacted a Chapter 43 of Title 31. Pursuant to Code Section 28-9-5, in 2000, the chapter enacted by Ga. L. 2000, p. 526, § 1 has been redesignated as Chapter 44 of Title 31 and the Code sections therein redesignated

accordingly. The chapter enacted by Ga. L. 2000, p. 549, § 3 has been redesignated as Chapter 45 of Title 31 and the Code sections therein redesignated accordingly.

Pursuant to Code Section 28-9-5, in 2000, “31-45-13” was substituted for “31-43-13” in this Code section.

31-45-13. Applicability of chapter.

The provisions of this chapter shall apply only in those counties where local rules and regulations governing public swimming pools are not in effect on December 31, 2000. Nothing in this chapter shall be construed to limit the authority of a county to adopt an ordinance or resolution regarding public swimming pools that applies to apartment complex pools. (Code 1981, § 31-45-13, enacted by Ga. L. 2000, p. 549, § 3.)

Code Commission notes. — Ga. L. 2000, p. 126, § 1, Ga. L. 2000, p. 526, § 1, and Ga. L. 2000, p. 549, § 3 all enacted a Chapter 43 of Title 31. Pursuant to Code Section 28-9-5, in 2000, the chapter enacted by Ga. L. 2000, p. 526, § 1 has been

redesignated as Chapter 44 of Title 31 and the Code sections therein redesignated accordingly. The chapter enacted by Ga. L. 2000, p. 549, § 3 has been redesignated as Chapter 45 of Title 31 and the Code sections therein redesignated accordingly.

CHAPTER 46

NEWBORN UMBILICAL CORD BLOOD BANK

| | | | |
|----------|---|----------|---|
| Sec. | | Sec. | |
| 31-46-1. | Legislative findings. | 31-46-4. | Georgia Commission for Saving the Cure; creation; membership; appointment; terms of office; duties. |
| 31-46-2. | Definitions. | | |
| 31-46-3. | Newborn Umbilical Cord Blood Bank for postnatal tissue and fluid; creation; donations and information concerning donations. | 31-46-5. | Funding; requirements of federal law. |

Editor’s notes. — Ga. L. 2007, p. 473, § 1/SB 148, not codified by the General Assembly, provides: “This Act shall be known and may be cited as the ‘Saving the Cure Act.’ This Act may also be known and cited as ‘Keone’s Law.’”

Law reviews. — For note on 2007 enactment of this chapter, see 24 Ga. St. U.L. Rev. 211 (2007).

31-46-1. Legislative findings.

The General Assembly finds and declares that it shall be the public policy of this state to encourage the donation, collection, and storage of stem cells collected from postnatal tissue and fluid and to make such stem cells available for medical research and treatment; to promote principled and ethical stem cell research; and to encourage stem cell research with immediate clinical and medical applications. (Code 1981, § 31-46-1, enacted by Ga. L. 2007, p. 473, § 2/SB 148.)

31-46-2. Definitions.

As used in this chapter, the term:

(1) “Amniotic fluid” means the fluid inside the amnion.

(2) “Permitted stem cell research” means stem cell research permitted under federal law and Senate Resolution 30, the “Hope Offered through Principled and Ethical Stem Cell Research Act,” as approved by the United States Senate on April 11, 2007.

(3) “Placenta” means the organ that forms on the inner wall of the human uterus during pregnancy.

(4) “Postnatal tissue and fluid” means the placenta, umbilical cord, and amniotic fluid expelled or extracted in connection with the birth of a human being.

(5) “Stem cells” means unspecialized or undifferentiated cells that can self-renew and have the potential to differentiate into specialized cell types.

(6) “Umbilical cord” means the gelatinous tissue and blood vessels connecting an unborn human being to the placenta. (Code 1981, § 31-46-2, enacted by Ga. L. 2007, p. 473, § 2/SB 148.)

31-46-3. Newborn Umbilical Cord Blood Bank for postnatal tissue and fluid; creation; donations and information concerning donations.

(a) Not later than June 30, 2008, the Georgia Commission for Saving the Cure, as created in Code Section 31-46-4, shall establish a network of postnatal tissue and fluid banks in partnership with one or more public or private colleges or universities, public or private hospitals, nonprofit organizations, or private firms in this state for the purpose of collecting and storing postnatal tissue and fluid. The bank network, which shall be known as the Newborn Umbilical Cord Blood Bank, shall make such tissue and fluid available for medical research and treatment in accordance with this chapter.

(b) The Georgia Commission for Saving the Cure shall develop a program to educate pregnant patients with respect to the banking of postnatal tissue and fluid. The program shall include:

(1) Notice of the existence of the Newborn Umbilical Cord Blood Bank;

(2) An explanation of the difference between public and private banking programs;

(3) The medical process involved in the collection and storage of postnatal tissue and fluid;

(4) The current and potential future medical uses of stored postnatal tissue and fluid;

(5) The benefits and risks involved in the banking of postnatal tissue and fluid; and

(6) The availability and cost of storing postnatal tissue and fluid in public and private umbilical cord blood banks.

(c) Beginning June 30, 2009, all physicians and hospitals in this state shall inform pregnant patients of the full range of options for donation of postnatal tissue and fluids no later than 30 days from the commencement of the patient’s third trimester of pregnancy or at the first consultation between the attending physician or the hospital, whichever is later; provided, however, that this subsection shall not be

construed to require the participation of any physician who objects to the transfusion or transplantation of blood on the basis of bona fide religious beliefs.

(d) Nothing in this Code section shall be construed to prohibit a person from donating postnatal tissue or fluid to a private blood and tissue bank or storing postnatal tissue or fluid with a private blood and tissue bank.

(e) Any college or university, hospital, nonprofit organization, or private firm participating in the Newborn Umbilical Cord Blood Bank shall have or be subject to an institutional review board which shall be available on an ongoing basis to review the research procedures and conduct of any person desiring to conduct research with postnatal tissue and fluid from the bank. The institutional review board shall establish procedures to protect and ensure the privacy rights of postnatal tissue and fluid donors consistent with applicable federal guidelines. (Code 1981, § 31-46-3, enacted by Ga. L. 2007, p. 473, § 2/SB 148.)

31-46-4. Georgia Commission for Saving the Cure; creation; membership; appointment; terms of office; duties.

(a) There is created the Georgia Commission for Saving the Cure which shall consist of 15 members appointed as provided in this Code section. The commission shall be assigned to the Department of Public Health for administrative purposes only, as prescribed in Code Section 50-4-3.

(b) Seven members shall be appointed by the Governor. The Governor shall appoint four members to serve initial terms of three years and three members to serve initial terms of two years. Thereafter, successors to such initial appointees shall serve terms of three years. The Governor shall designate one of the persons so appointed to be the chairperson of the commission. If the chief executive officer of the Georgia Research Alliance is not appointed by the Governor or any other appointing authority to serve on the commission, he or she shall serve as an advisory member.

(c) Four members shall be appointed by the Lieutenant Governor or, if the Lieutenant Governor belongs to a political party other than the political party to which a majority of the members of the Senate belong, by the Senate Committee on Assignments. Of these four members, there shall be at least one of each of the following: a physician licensed to practice medicine in this state; a recognized medical ethicist with an accredited degree in medicine, medical ethics, or theology; a medical researcher in permitted stem cell research; and an attorney with experience in health policy law. The Lieutenant Governor or Senate

Committee on Assignments shall appoint two members to serve initial terms of three years and two members to serve initial terms of two years. Thereafter, successors to such initial appointees shall serve terms of three years.

(d) Four members shall be appointed by the Speaker of the House of Representatives. Of these four members, there shall be at least one of each of the following: a physician licensed to practice medicine in this state; a recognized medical ethicist with an accredited degree in medicine, medical ethics, or theology; a medical researcher in permitted stem cell research; and an attorney with experience in health policy law. The Speaker of the House of Representatives shall appoint two members to serve initial terms of three years and two members to serve initial terms of two years. Thereafter, successors to such initial appointees shall serve terms of three years.

(e) Members of the commission shall be eligible to succeed themselves. The initial terms of office shall begin on July 1, 2007. Appointments shall be made by the respective appointing authorities no later than June 15, 2007. Thereafter, appointments of successors shall be made by the respective appointing authority no later than June 1 of the year in which the member's term of office expires. Vacancies shall be filled for the unexpired term by the respective appointing authority.

(f) The commission shall meet at least four times per year at the call of the chairperson or upon the request of at least seven of its members.

(g) The commission shall have the following duties and responsibilities:

(1) To investigate the implementation of this chapter and to recommend any improvements to the General Assembly;

(2) To make available to the public the records of all meetings of the commission and of all business transacted by the commission;

(3) To oversee the operations of the Newborn Umbilical Cord Blood Bank established in Code Section 31-46-3, including approving all fees established to cover administration, collection, and storage costs;

(4) To undertake the Saving the Cure initiative by promoting awareness of the Newborn Umbilical Cord Blood Bank and encouraging donation of postnatal tissue and fluid to the bank;

(5) To ensure the privacy of persons who donate postnatal tissue and fluid to the Newborn Umbilical Cord Blood Bank pursuant to subsection (a) of Code Section 31-46-3 consistent with applicable federal guidelines;

(6) To develop a plan for making postnatal tissue and fluid collected under the Saving the Cure initiative available for medical

research and treatment and to ensure compliance with all relevant national practice and quality standards relating to such use;

(7) To develop a plan for private storage of postnatal tissue and fluid for medical treatment or to make potential donors aware of private storage options for said tissue and fluid as deemed in the public interest;

(8) To participate in the National Cord Blood Program and to register postnatal tissue and fluid collected with registries operating in connection with the program;

(9) To make grants and enter into agreements to support permitted stem cell research with immediate and clinical medical applications;

(10) To employ such staff and to enter into such contracts as may be necessary to fulfill its duties and responsibilities under this chapter subject to funding by the General Assembly; and

(11) To report annually to the General Assembly in December of each year concerning the activities of the commission with recommendations for any legislative changes or funding necessary or desirable to fulfill the goals of this chapter.

(h) The commission shall provide for protection from disclosure of the identity of persons making donations to the Newborn Umbilical Cord Blood Bank pursuant to subsection (a) of Code Section 31-46-3.

(i) The commission may request additional funding from any additional source including, but not limited to, federal and private grants.

(j) The commission may establish a separate not for profit organization or foundation for the purposes of supporting the Newborn Umbilical Cord Blood Bank established pursuant to Code Section 31-46-3. (Code 1981, § 31-46-4, enacted by Ga. L. 2007, p. 473, § 2/SB 148; Ga. L. 2009, p. 453, § 1-4/HB 228; Ga. L. 2011, p. 705, § 6-1/HB 214.)

The 2011 amendment, effective July 1, 2011, substituted “Department of Public Health” for “Division of Public Health of the Department of Community Health” in the second sentence of subsection (a).

Law reviews. — For article on the 2011 amendment of this Code section, see 28 Ga. St. U.L. Rev. 147 (2011).

31-46-5. Funding; requirements of federal law.

Any public funds expended for stem cell research shall conform to the requirements set forth in federal law and Senate Resolution 30, the “Hope Offered through Principled and Ethical Stem Cell Research Act,” as approved by the United States Senate on April 11, 2007. (Code 1981, § 31-46-5, enacted by Ga. L. 2007, p. 473, § 2/SB 148.)

CHAPTER 47

ARTHRITIS PREVENTION AND CONTROL PROGRAM

Sec.

- 31-47-1. Purpose of program; needs assessment; advisory panel; coordination and utilization with other programs.
- 31-47-2. Role and duties of commissioner.

Sec.

- 31-47-3. Acceptance of grants; compliance with federal requirements.

Effective date. — This chapter became effective July 1, 2010.

Editor's notes. — Ga. L. 2010, p. 1143, § 1/HB 1119, not codified by the General Assembly, provides that: "This Act shall be known and may be cited as the 'Georgia Arthritis Prevention and Control Act.'"

Ga. L. 2010, p. 1143, § 2/HB 1119, not codified by the General Assembly, provides: "The General Assembly finds that:

"(1) Arthritis encompasses more than 100 diseases and conditions that affect joints, the surrounding tissues, and other connective tissues;

"(2) As one of the most common family of diseases in the United States, arthritis affects nearly one of every five Americans and will impact an estimated 67 million people by the year 2030;

"(3) Arthritis is the most common cause of disability in the United States, limiting daily activities for more than 17.4 million citizens;

"(4) Although prevailing myths inaccurately portray arthritis as an old person's disease, arthritis is a multigenerational disease that has become one of this country's most pressing public health problems;

"(5) This disease has a significant impact on quality of life, not only for the individual who experiences its painful symptoms and resulting disability, but also for family members and caregivers;

"(6) Compounding this picture are the enormous economic and social costs associated with treating arthritis and its complications; in 2003, the costs were \$127.3 billion with \$80.8 billion and \$47 billion attributable to medical care expenditures

and lost earnings, respectively; \$3.9 billion of that was the cost in Georgia;

"(7) Currently, the challenge exists to ensure delivery of effective, but often underutilized, interventions that are necessary in the prevention or reduction of arthritis related pain and disability;

"(8) Although there exists a large quantity of public information and programs about arthritis, it remains inadequately disseminated and insufficient in addressing the needs of specific diverse populations and other underserved groups;

"(9) The Arthritis Foundation, the Centers for Disease Control and Prevention, and the Association of State and Territorial Health Officials have led in the development of a public health strategy, the National Arthritis Action Plan, to respond to this challenge; and

"(10) Educating the public and health care community throughout this state about this devastating disease is of paramount importance and is in every aspect in the public interest and to the benefit of all residents of the State of Georgia."

Ga. L. 2010, p. 1143, § 3/HB 1119, not codified by the General Assembly, provides: "The General Assembly finds that the purposes of this Act are to:

"(1) Create and foster a state-wide program that promotes public awareness and increases knowledge about the causes of arthritis, the importance of early diagnosis and appropriate management, effective prevention strategies, and pain prevention and management;

"(2) Develop knowledge and enhance understanding of arthritis by disseminating educational materials, information on

research results, services provided, and strategies for prevention and control to patients, health professionals, and the public;

“(3) Establish a solid scientific base of knowledge on the prevention of arthritis and related disabilities through surveillance, epidemiology, and prevention research;

“(4) Utilize educational and training resources and services developed by organizations with appropriate expertise and knowledge of arthritis and use available technical assistance;

“(5) Evaluate the need for improving the quality and accessibility of existing community based arthritis services;

“(6) Heighten awareness about the prevention, detection, and treatment of arthritis among state and local health and human officials, health professionals and providers, and policy makers;

“(7) Implement and coordinate state and local programs and services to reduce the public health burden of arthritis;

“(8) Fund adequately these programs on a state level; and

“(9) Provide lasting improvements in the delivery of health care for individuals with arthritis and their families, thus improving their quality of life while also containing health care costs.”

31-47-1. Purpose of program; needs assessment; advisory panel; coordination and utilization with other programs.

(a) The Department of Public Health shall establish, promote, and maintain an Arthritis Prevention and Control Program in order to raise public awareness, educate consumers, educate and train health professionals, teachers, and human services providers, and for other purposes.

(b) As a part of the Arthritis Prevention and Control Program, the Department of Public Health shall periodically conduct a needs assessment to identify:

(1) Epidemiological and other public health research being conducted within this state;

(2) Available technical assistance and educational materials and programs nation-wide and within this state;

(3) The level of public and professional arthritis awareness;

(4) The needs of people with arthritis, their families, and caregivers;

(5) Educational and support service needs of health care providers, including physicians, nurses, managed care organizations, and other health care providers;

(6) The services available to a person with arthritis;

(7) The existence of arthritis treatment, self-management, physical activity, and other educational programs; and

(8) The existence of rehabilitation services.

(c) The Department of Public Health shall establish and coordinate an advisory panel on arthritis which shall provide nongovernmental

input regarding the Arthritis Prevention and Control Program. Membership shall include, but shall not be limited to, persons with arthritis, public health educators, medical experts on arthritis, providers of arthritis health care, persons knowledgeable in health promotion and education, and representatives of national arthritis organizations and their local chapters.

(d) The Department of Public Health shall use, but shall not be limited to, strategies consistent with the National Arthritis Action Plan and existing state planning efforts to raise public awareness and knowledge about the causes and nature of arthritis, personal risk factors, the value of prevention and early detection, ways to minimize preventable pain, and options for diagnosing and treating the disease.

(e)(1) Subject to appropriation or access to other private or public funds, the Department of Public Health may replicate and use successful arthritis programs and enter into contracts and purchase materials or services from entities with appropriate expertise for such services and materials as are necessary to carry out the goals of the Arthritis Prevention and Control Program.

(2) Subject to appropriation or access to other private or public funds, the Department of Public Health may enter into agreements with national organizations with expertise in arthritis to implement parts of the Arthritis Prevention and Control Program. (Code 1981, § 31-47-1, enacted by Ga. L. 2010, p. 1143, § 4/HB 1119; Ga. L. 2011, p. 705, § 6-3/HB 214; Ga. L. 2011, p. 752, § 31/HB 142.)

The 2011 amendments. — The first 2011 amendment, effective July 1, 2011, substituted “Department of Public Health” for “Department of Community Health” throughout this Code section. The second 2011 amendment, effective May

13, 2011, part of an Act to revise, modernize, and correct the Code, revised punctuation throughout this Code section.

Law reviews. — For article on the 2011 amendment of this Code section, see 28 Ga. St. U.L. Rev. 147 (2011).

31-47-2. Role and duties of commissioner.

The commissioner of public health shall:

(1) Provide sufficient staff to implement the Arthritis Prevention and Control Program;

(2) Provide appropriate training for staff of the Arthritis Prevention and Control Program;

(3) Identify the appropriate organizations to carry out the program;

(4) Base the program on the most current scientific information and findings;

(5) Work to increase and improve community based services available to people with arthritis and their family members;

(6) Work with governmental offices, national voluntary health organizations and their local chapters, community and business leaders, community organizations, and health care and human service providers to coordinate efforts and maximize state resources in the areas of prevention, education, detection, pain management, and treatment of arthritis; and

(7) Identify and, when appropriate, use evidence based arthritis programs and obtain related materials and services from organizations with appropriate expertise and knowledge of arthritis. (Code 1981, § 31-47-2, enacted by Ga. L. 2010, p. 1143, § 4/HB 1119; Ga. L. 2011, p. 705, § 6-5/HB 214; Ga. L. 2011, p. 752, § 31/HB 142.)

The 2011 amendments. — The first 2011 amendment, effective July 1, 2011, substituted “commissioner of public health” for “commissioner of community health” in the introductory paragraph of this Code section. The second 2011 amendment, effective May 13, 2011, part

of an Act to revise, modernize, and correct the Code, revised punctuation in paragraphs (1) and (2).

Law reviews. — For article on the 2011 amendment of this Code section, see 28 Ga. St. U.L. Rev. 147 (2011).

31-47-3. Acceptance of grants; compliance with federal requirements.

(a) The commissioner of public health may accept grants, services, and property from the federal government, foundations, organizations, medical schools, and other entities as may be available for the purposes of fulfilling the obligations of this chapter.

(b) The commissioner of public health shall seek any federal waiver or waivers that may be necessary to maximize funds from the federal government to implement this chapter. (Code 1981, § 31-47-3, enacted by Ga. L. 2010, p. 1143, § 4/HB 1119; Ga. L. 2011, p. 705, § 6-5/HB 214.)

The 2011 amendment, effective July 1, 2011, substituted “commissioner of public health” for “commissioner of community health” in subsections (a) and (b).

Law reviews. — For article on the 2011 amendment of this Code section, see 28 Ga. St. U.L. Rev. 147 (2011).

CHAPTER 48

HEALTH CARE COMPACT

Sec.

31-48-1. Compact enacted and entered into by the State of Georgia; text of compact.

Effective date. — This chapter became effective July 1, 2011.

31-48-1. Compact enacted and entered into by the State of Georgia; text of compact.

The Health Care Compact is entered into and enacted into law with all jurisdictions legally joining therein, in the form substantially as follows:

“The Health Care Compact

WHEREAS, the separation of powers, both between the branches of the federal government and between federal and state authority, is essential to the preservation of individual liberty; and

WHEREAS, the Constitution creates a federal government of limited and enumerated powers, and reserves to the States or to the people those powers not granted to the federal government; and

WHEREAS, the federal government has enacted many laws that have preempted state laws with respect to Health Care, and placed increasing strain on State budgets, impairing other responsibilities such as education, infrastructure, and public safety; and

WHEREAS, the Member States seek to increase individual liberty and control over personal Health Care decisions, and believe the best method to achieve these ends is by vesting regulatory authority over Health Care in the States; and

WHEREAS, by acting in concert, the Member States may express and inspire confidence in the ability of each Member State to govern Health Care effectively; and

WHEREAS, the Member States recognize that consent of Congress may be more easily secured if the Member States collectively seek consent through an interstate compact;

NOW THEREFORE, the Member States hereto resolve, and by the adoption into law under their respective state constitutions of the present Health Care Compact, agree, as follows:

Sec. 1. Definitions. As used in this Compact, unless the context clearly indicates otherwise:

‘Commission’ means the Interstate Advisory Health Care Commission.

‘Effective Date’ means the date upon which this Compact shall become effective for purposes of the operation of state and federal law in a Member State, which shall be the latter of:

(a) The date upon which this Compact shall be adopted under the laws of the Member State; or

(b) The date upon which this Compact receives the consent of Congress pursuant to Article I, Section 10, of the United States Constitution, after at least two Member States adopt this Compact.

‘Health Care’ means care, services, supplies, or plans related to the health of an individual and includes, but is not limited to:

(a) Preventative, diagnostic, therapeutic, rehabilitative, maintenance, or palliative care and counseling, service, assessment, or procedure with respect to the physical or mental condition or functional status of an individual or that affects the structure or function of the body;

(b) Sale or dispensing of a drug, device, equipment, or other item in accordance with a prescription; and

(c) An individual or group plan that provides, or pays the cost of, care, services, or supplies related to the health of an individual,

except any care, services, supplies, or plans provided by the United States Department of Defense and United States Department of Veterans Affairs, or provided to Native Americans.

‘Member State’ means a State that is signatory to this Compact and has adopted it under the laws of that State.

‘Member State Base Funding Level’ means a number equal to the total federal spending on Health Care in the Member State during federal fiscal year 2010. On or before the Effective Date, each Member State shall determine the Member State Base Funding Level for its State, and that number shall be binding upon that Member State. The preliminary estimate of the Member State Base Funding Level for the State of Georgia is \$21,556,000,000.00.

‘Member State Current Year Funding Level’ means the Member State Base Funding Level multiplied by the Member State Current Year Population Adjustment Factor multiplied by the Current Year Inflation Adjustment Factor.

‘Member State Current Year Population Adjustment Factor’ means the average population of the Member State in the current year less the

average population of the Member State in federal fiscal year 2010, divided by the average population of the Member State in federal fiscal year 2010, plus 1. Average population in a Member State shall be determined by the United States Census Bureau.

‘Current Year Inflation Adjustment Factor’ means the Total Gross Domestic Product Deflator in the current year divided by the Total Gross Domestic Product Deflator in federal fiscal year 2010. Total Gross Domestic Product Deflator shall be determined by the Bureau of Economic Analysis of the United States Department of Commerce.

Sec. 2. Pledge. The Member States shall take joint and separate action to secure the consent of the United States Congress to this Compact in order to return the authority to regulate Health Care to the Member States consistent with the goals and principles articulated in this Compact. The Member States shall improve Health Care policy within their respective jurisdictions and according to the judgment and discretion of each Member State.

Sec. 3. Legislative Power. The legislatures of the Member States have the primary responsibility to regulate Health Care in their respective states.

Sec. 4. State Control. Each Member State, within its State, may suspend by legislation the operation of all federal laws, rules, regulations, and orders regarding Health Care that are inconsistent with the laws and regulations adopted by the Member State pursuant to this Compact. Federal and state laws, rules, regulations, and orders regarding Health Care will remain in effect unless a Member State expressly suspends them pursuant to its authority under this Compact. For any federal law, rule, regulation, or order that remains in effect in a Member State after the Effective Date, that Member State shall be responsible for the associated funding obligations in its State.

Sec. 5. Funding.

(a) Each federal fiscal year, each Member State shall have the right to federal monies up to an amount equal to its Member State Current Year Funding Level for that federal fiscal year, funded by Congress as mandatory spending and not subject to annual appropriation, to support the exercise of Member State authority under this Compact. This funding shall not be conditional on any action of or regulation, policy, law, or rule being adopted by the Member State.

(b) By the start of each federal fiscal year, Congress shall establish an initial Member State Current Year Funding Level for each Member State based upon reasonable estimates. The final Member State Current Year Funding Level shall be calculated and funding shall be reconciled by the United States Congress based upon

information provided by each Member State and audited by the United States Government Accountability Office.

Sec. 6. Interstate Advisory Health Care Commission.

(a) The Interstate Advisory Health Care Commission is established. The Commission consists of members appointed by each Member State through a process to be determined by each Member State. A Member State may not appoint more than two members to the Commission and may withdraw membership from the Commission at any time. Each Commission member is entitled to one vote. The Commission shall not act unless a majority of the members are present, and no action shall be binding unless approved by a majority of the Commission's total membership.

(b) The Commission may elect from among its membership a Chairperson. The Commission may adopt and publish bylaws and policies that are not inconsistent with this Compact. The Commission shall meet at least once a year, and may meet more frequently.

(c) The Commission may study issues of Health Care regulation that are of particular concern to the Member States. The Commission may make non-binding recommendations to the Member States. The legislatures of the Member States may consider these recommendations in determining the appropriate Health Care policies in their respective states.

(d) The Commission shall collect information and data to assist the Member States in their regulation of Health Care, including assessing the performance of various State Health Care programs and compiling information on the prices of Health Care. The Commission shall make this information and data available to the legislatures of the Member States. Notwithstanding any other provision in this Compact, no Member State shall disclose to the Commission the health information of any individual, nor shall the Commission disclose the health information of any individual.

(e) The Commission shall be funded by the Member States as agreed to by the Member States. The Commission shall have the responsibilities and duties as may be conferred upon it by subsequent action of the respective legislatures of the Member States in accordance with the terms of this Compact.

(f) The Commission shall not take any action within a Member State that contravenes any State law of this Member State.

Sec. 7. Congressional Consent. This Compact shall be effective on its adoption by at least two Member States and consent of the United States Congress. This Compact shall be effective unless the United

States Congress, in consenting to this Compact, alters the fundamental purposes of this Compact, which are:

(a) To secure the right of the Member States to regulate Health Care in their respective States pursuant to this Compact and to suspend the operation of any conflicting federal laws, rules, regulations, and orders within their States; and

(b) To secure federal funding for Member States that choose to invoke their authority under this Compact, as prescribed by Section 5 above.

Sec. 8. Amendments. The Member States, by unanimous agreement, may amend this Compact from time to time without the prior consent or approval of Congress and any amendment shall be effective unless, within one year, the Congress disapproves that amendment. Any State may join this Compact after the date on which Congress consents to the Compact by adoption into law under its State Constitution.

Sec. 9. Withdrawal; Dissolution. Any Member State may withdraw from this Compact by adopting a law to that effect, but no such withdrawal shall take effect until six months after the Governor of the withdrawing Member State has given notice of the withdrawal to the other Member States. A withdrawing State shall be liable for any obligations that it may have incurred prior to the date on which its withdrawal becomes effective. This Compact shall be dissolved upon the withdrawal of all but one of the Member States.” (Code 1981, § 31-48-1, enacted by Ga. L. 2011, p. 30, § 1/HB 461.)

TITLE 32

HIGHWAYS, BRIDGES, AND FERRIES

Chap.

1. General Provisions, 32-1-1 through 32-1-11.
2. Department of Transportation, 32-2-1 through 32-2-81.
3. Acquisition of Property for Transportation Purposes, 32-3-1 through 32-3-39.
4. State, County, and Municipal Road Systems, 32-4-1 through 32-4-123.
5. Funds for Public Roads, 32-5-1 through 32-5-31.
6. Regulation of Maintenance and Use of Public Roads Generally, 32-6-1 through 32-6-248.
7. Abandonment, Disposal, or Leasing of Property Not Needed for Public Road Purposes, 32-7-1 through 32-7-5.
8. Relocation Assistance, 32-8-1 through 32-8-6.
9. Mass Transportation, 32-9-1 through 32-9-14.
10. Public Authorities, 32-10-1 through 32-10-133.
11. Interstate Rail Passenger Network Compact, 32-11-1 through 32-11-9.
12. Georgia Coordinating Committee for Rural and Human Services Transportation, 32-12-1 through 32-12-6.

Administrative rules and regulations. — Rules and regulations of the Department of Transportation, Official Compilation of the Rules and Regulations of the State of Georgia, State Department of Transportation, Chapter 672-1 et seq.

Law reviews. — For article, "Quasi-Municipal Tort Liability in Georgia," see 6 Mercer L. Rev. 287 (1955).

JUDICIAL DECISIONS

Constitutionality of condemnation procedures. — Procedures for taking property established by the Georgia Code of Public Transportation are adequate for the protection of the rights of condemnees, and the procedures do not offend the due process clause or the equal protection

clause of the federal Constitution or the Georgia Constitution. *Coffee v. Atkinson County*, 236 Ga. 248, 223 S.E.2d 648 (1976).

CHAPTER 1

GENERAL PROVISIONS

| | | | |
|---------|--|----------|--|
| Sec. | | Sec. | |
| 32-1-1. | Short title. | 32-1-6. | Effect of Code Sections 32-1-4 and 32-1-5 on other laws. |
| 32-1-2. | Purpose and legislative intent. | 32-1-7. | Disbursement of fines and forfeitures [Repealed]. |
| 32-1-3. | Definitions. | 32-1-8. | Construction and maintenance of private roads. |
| 32-1-4. | Commissioner’s duty to transmit evidence relating to criminal acts against department’s property; institution and prosecution of criminal proceedings. | 32-1-9. | Enforcement of title by law enforcement officers. |
| 32-1-5. | Powers and duties of Attorney General under Code Section 32-1-4. | 32-1-10. | Penalty. |
| | | 32-1-11. | Construction of title. |

JUDICIAL DECISIONS

Cited in Chandler v. Robinson, 269 Ga. 881, 506 S.E.2d 121 (1998); Evans Timber Co. v. Central of Ga. R.R., 239 Ga. App. 262, 519 S.E.2d 706 (1999).

32-1-1. Short title.

This title shall be known as the “Georgia Code of Public Transportation.” (Code 1933, § 95A-101, enacted by Ga. L. 1973, p. 947, § 1.)

32-1-2. Purpose and legislative intent.

The purpose of this title is to provide a code of statutes for the public roads and other transportation facilities of the state, the counties, and municipalities of Georgia. The legislative intent is to provide an effective legal basis for the organization, administration, and operation of an efficient, modern system of public roads and other modes of transportation. (Code 1933, § 95A-102, enacted by Ga. L. 1973, p. 947, § 1.)

JUDICIAL DECISIONS

Purpose of the Georgia Code of Public Transportation is organization, administration, and operation of an efficient, modern system of public roads as between the state, counties, and municipalities; the statute’s purpose is not to ascertain and fix the status of the public right of use of every road in Georgia. **Sign permits.** — Although ground had not been broken on a proposed interchange as of the date an applicant submitted applications for permits for outdoor advertising signs, the Georgia Department of Transportation’s denial of the

applications comported with O.C.G.A. §§ 32-1-2, 32-6-74(a), and 32-6-75(a)(18) because the interchange project had progressed to a point such that it constituted an interchange for purposes of § 32-6-75(a)(18) and the proposed sign locations were within the 500-foot blocked out zone established by § 32-6-75(a)(18). *Eagle West, LLC v. Ga. DOT*, 312 Ga. App. 882, 720 S.E.2d 317 (2011).

Cited in *Fulton County v. Davidson*, 253 Ga. 734, 325 S.E.2d 135 (1985); *CSX Transp., Inc. v. Trism Specialized Carriers, Inc.*, 9 F. Supp. 2d 1374 (N.D. Ga. 1998); *Evans Timber Co. v. Central of Ga. R.R.*, 239 Ga. App. 262, 519 S.E.2d 706 (1999).

RESEARCH REFERENCES

ALR. — Power to limit weight of vehicle or its load with respect to use of streets or highways, 75 ALR2d 376.

32-1-3. Definitions.

As used in this title, the term:

(1) “Abandon” means to close permanently to public travel or to relinquish jurisdiction of a preexisting public road by official action as required by Chapter 7 of this title, thereby foreclosing the duty of future maintenance on such preexisting public road.

(2) “Board” means the State Transportation Board.

(3) “Borrow pit” means land from which dirt, gravel, rock, or related material will be excavated and used for a public road purpose. Such land need not be immediately adjacent or contiguous to the road or project under construction, repair, or reconstruction.

(4) “Bridge” means a structure, including the approaches thereto, erected in order:

(A) To afford unrestricted vehicular passage over any obstruction in any public road, including, but not limited to, rivers, streams, ponds, lakes, bays, ravines, gullies, railroads, public highways, and canals; or

(B) To afford unrestricted vehicular passage under or over existing railroads and public roads.

(5) “Commissioner” means the commissioner of transportation.

(6) “Construction” means the planning, location, surveying, designing, supervising, inspecting, and actual building of a new road; or the paving, striping, restriping, modifying for safety purposes, grading, widening, relocation, reconstruction, or other major improvement of a substantial portion of an existing public road together with all activities incident to any of the foregoing.

(7) “County” means either one of the several counties, any division, department, agency, authority, instrumentality, or branch thereof, or the county governing authority, that is, the judge of the probate court, board of county commissioners, county commissioner, or other county officers in charge of the roads, bridges, and revenues of the county.

(8) “Dedication” means the donation by the owner, either expressly or impliedly, and acceptance by the public of property for public road purposes, in accordance with statutory or common-law provisions.

(9) “Department” means the Department of Transportation.

(10) “Federal-aid systems” means those public roads in Georgia comprised of The Dwight D. Eisenhower System of Interstate and Defense Highways and the National Highway System, as those terms are defined in Section 103 of Title 23 of the United States Code.

(11) “Grade crossing” means a crossing at grade of a public road intersecting a track or tracks of a railroad.

(12) “Grade separation structure” means an underpass or overpass as defined in this Code section.

(12.1) “Interstate highways” means any highway which constitutes a part of The Dwight D. Eisenhower System of Interstate and Defense Highways as used in Section 103 of Title 23 of the United States Code.

(13) “Let” means to award a contract to one of several persons who have submitted competitive bids therefor in response to advertisement.

(14) “Limited-access road” means a public highway, road, or street for through traffic, over, from, or to which owners or occupants of abutting land or other persons have no right or easement or only a limited right or easement of access, light, view, or air by reason of the fact that their property abuts upon such limited-access highway, road, or street or for any other reason.

(15) “Maintenance” means the preservation of a public road, including repairs and resurfacing not amounting to construction as defined in this Code section.

(16) “Municipality” means an incorporated city, the governing body of which holds at least six regular meetings each year and which for a period of one year has levied and collected an ad valorem tax on the real property in such city or has for a one-year period performed at least two of the following municipal activities and services:

- (A) Furnished water service;
- (B) Furnished sewage service;

- (C) Furnished garbage collection;
- (D) Furnished police protection;
- (E) Furnished fire protection;
- (F) Assessed and collected business licenses;
- (G) Furnished street lighting facilities.

The term may also refer to any division, department, agency, authority, instrumentality, or branch of a municipality. Where the context requires or otherwise indicates, the term “municipality” may also mean the municipal governing authority, that is, the mayor and council, board of aldermen, board of commissioners, or other chief legislative body of a municipality.

(17) “Negotiated contract” means a contract made without formal advertising for competitive bids.

(18) “Other transportation purposes” or “other public transportation purposes” means any transportation facility designed to transport people or goods, including but not limited to railroads, port and harbor facilities, air transport and airport facilities, mass transportation facilities, as defined in paragraph (2) of subsection (a) of Code Section 32-9-1, transportation projects, as defined by subsection (h) of Section 2 of an Act approved March 10, 1965 (Ga. L. 1965, p. 2243), as amended, and transportation enhancement activities, as defined in Section 101 of Title 23 of the United States Code, as amended by Public Law 102-240 as it existed on January 1, 1993. However, in no event and for no purpose shall the term “other transportation purposes” or “other public transportation purposes” be deemed to include coal slurry pipelines.

(19) “Overpass” means a bridge, including the approaches thereto and all appurtenances thereof, for carrying public road traffic over a railroad or another public road or for providing pedestrian walkways over a public road.

(20) “Person” means any individual, partnership, corporation, association, or private organization of any character.

(21) “Private road” means a privately owned road or way, including any bridge thereon, which is only open for the benefit of one or more individuals and not for the general public. This term also means a road which lies on privately owned land.

(22) “Proposal guaranty” means acceptable surety furnished by a bidder as a guaranty that he will enter into a contract and will furnish contract performance and payment bonds if a contract is awarded to him.

(23) "Protective devices" means gates, flashing light signals, and similar devices or combinations thereof, together with necessary appurtenances, to be installed or in operation at any grade crossing and which comply with the safety standards determined by the department as being adequate at that time for the protection of traffic.

(24) "Public road" means a highway, road, street, avenue, toll road, tollway, drive, detour, or other way that either is open to the public or has been acquired as right of way, and is intended to be used for enjoyment by the public and for the passage of vehicles in any county or municipality of Georgia, including but not limited to the following public rights, structures, sidewalks, facilities, and appurtenances incidental to the construction, maintenance, and enjoyment of such rights of way:

(A) Surface, shoulders, and sides;

(B) Bridges;

(C) Causeways;

(D) Viaducts;

(E) Ferries;

(F) Overpasses;

(G) Underpasses;

(H) Railroad grade crossings;

(I) Tunnels;

(J) Signs, signals, markings, or other traffic control devices;

(K) Buildings for public equipment and personnel used for or engaged in administration, construction, or maintenance of such ways or research pertaining thereto;

(L) Wayside parks;

(M) Parking facilities;

(N) Drainage ditches;

(O) Canals and culverts;

(P) Rest areas;

(Q) Truck-weighing stations or check points; and

(R) Scenic easements and easements of light, air, view, and access.

(25) “Right of way” means, generally, property or any interest therein, whether or not in the form of a strip, which is acquired for or devoted to a public road.

(26) “Scenic easement” means a servitude devised to permit land to remain in private ownership for its normal agricultural, residential, or other use consistent with public road purposes but at the same time placing a control over the future uses of the area to maintain its scenic, landscape, sightly, or safety values for the public road which the land adjoins.

(27) “State agency” means any division, department, instrumentality, branch, or other body of the state to which state governmental functions have been delegated.

(27.1) “State roads” or “state routes” means those roads which are defined under paragraph (1) of Code Section 32-4-1.

(28) “Subcontract” means a contract by which one agrees with a party to another contract to perform all or a part of such other contract.

(29) “Underpass” means a bridge, including the approaches thereto and all appurtenances thereof, which provides access for a public road underneath a railroad or another public road or for a pedestrian walkway underneath a public road.

(30) “Utility” means any publicly, privately, or cooperatively owned line, facility, or system for producing, transmitting, or distributing communications, power, electricity, light, heat, gas, oil products, water, steam, clay, waste, storm water not connected with highway drainage, and other similar services and commodities, including publicly owned fire and police signals and street lighting systems, which directly or indirectly serve the public. This term also means a person, municipal corporation, county, state agency, or public authority which owns or manages a utility as defined in this paragraph.

(31) “Vehicle” means a device in, upon, or by which any person or property is or may be transported or drawn upon a public road. (Code 1933, § 95A-104, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1974, p. 1422, §§ 1, 2; Ga. L. 1976, p. 775, § 1; Ga. L. 1977, p. 267, § 1; Ga. L. 1979, p. 973, § 1; Ga. L. 1980, p. 590, § 4; Ga. L. 1982, p. 3, § 32; Ga. L. 1983, p. 3, § 23; Ga. L. 1993, p. 914, § 1; Ga. L. 2000, p. 136, § 32; Ga. L. 2005, p. 601, § 1/SB 160; Ga. L. 2011, p. 583, § 1/HB 137.)

The 2011 amendment, effective July 1, 2011, in the middle of the introductory paragraph of paragraph (24), inserted “that either is”, inserted “or has been acquired as right of way,”, and substituted “is intended to be used for enjoyment by the public” for “intended or used for its enjoyment”; and deleted “and traffic” pre-

ceding “signals” near the end of the first sentence of paragraph (30).

Law reviews. — For survey article on construction law for the period from June

1, 2002 through May 31, 2003, see 55 Mercer L. Rev. 85 (2003). For annual survey of local government law, see 56 Mercer L. Rev. 351 (2004).

JUDICIAL DECISIONS

Editor’s notes. — In light of the similarity of the statutory provisions, decisions under former Code 1882, § 684; former Civil Code 1895, § 603; former Civil Code 1910, §§ 748, 761, 768; and former Code 1933, § 95-1001, which were subsequently repealed but were succeeded by provisions in this Code section, are included in the annotations for this Code section.

Delegation to contractor permitted. — Nothing in O.C.G.A. § 32-1-3(24)(J) or O.C.G.A. § 32-2-2(a)(3) prevents the Georgia Department of Transportation from delegating the responsibility for designing and implementing a traffic control plan to a private contractor. *Comanche Constr., Inc. v. DOT*, 272 Ga. App. 766, 613 S.E.2d 158 (2005).

Sidewalk is included in term “public roads.” *Broadnax v. City of Atlanta*, 149 Ga. App. 611, 255 S.E.2d 86 (1979).

Unopened, undeveloped, proposed roads in a subdivision do not become “public roads” solely by virtue of the process of implied dedication and acceptance. *Chatham County v. Allen*, 261 Ga. 177, 402 S.E.2d 718 (1991).

Word “bridge,” in this section giving a right of action against a county for defective construction, means a bridge used as an instrumentality for travel along a highway and for crossing streams or ravines. *Hubbard v. County of Fulton*, 144 Ga. 363, 87 S.E. 281 (1915); *Ellis v. Floyd County*, 24 Ga. App. 717, 102 S.E. 181 (1920); *Berrien County v. Vickers*, 73 Ga. App. 863, 38 S.E.2d 619 (1946) (decided under former Civil Code 1910, § 748 and former Code 1933, § 95-1001).

Public bridge. — Bridge which constitutes a portion of the public road is necessarily a public bridge. *Early County v. Fain*, 2 Ga. App. 288, 58 S.E. 528 (1907) (decided under former Civil Code 1895, § 603).

Public bridge includes toll bridge owned by individual. — If a person

owning land on both sides of a stream built a bridge across the stream for the use of the public, and charged tolls, such a bridge is a public bridge. *Dougherty County v. Tift*, 75 Ga. 815 (1885) (decided under former Code 1882, § 684).

Public bridge includes all abutments and approaches. — Term “bridges” includes all the appurtenances necessary to the bridge’s proper use and embraces the bridge’s abutments and approaches, and that which is necessary as an approach, to connect the bridge with the highway, is an essential part of the bridge itself. *Howington v. Madison County*, 126 Ga. 699, 55 S.E. 941 (1906); *Havird v. Richmond County*, 176 Ga. 722, 168 S.E. 897, answer conformed to, 47 Ga. App. 580, 171 S.E. 220 (1933); *Warren County v. Battle*, 48 Ga. App. 240, 172 S.E. 673 (1934); *Berrien County v. Vickers*, 73 Ga. App. 863, 38 S.E.2d 619 (1946) (decided under former Civil Code 1895, § 603; former Civil Code 1910, § 748; and former Code 1933, § 95-1001).

Public bridge includes fill or embankment in a road which constitutes the approach to a bridge and which is necessary to make access to the bridge a part of the bridge. *Havird v. Richmond County*, 47 Ga. App. 580, 171 S.E. 220 (1933) (decided under former Code 1910, § 748).

Public bridge includes contiguous embankments necessary for access, which county must repair. — Contiguous embankment necessary to make access to a bridge, so as to pass over the bridge, is a part of the bridge, and title to the bridge covers such an embankment, but if the embankment is not a necessary part of the bridge, but a part of the streets of the municipality, the town, and not the county, would be bound to keep the bridge in repair. *Havird v. Richmond County*, 176 Ga. 722, 168 S.E. 897, answer conformed to, 47 Ga. App. 580, 171 S.E. 220 (1933) (decided under former Civil Code 1910, § 748).

Public bridge does not include culverts. — Culvert and a bridge are not the same even though the culvert and bridge may serve the same purpose. *Hubbard v. County of Fulton*, 144 Ga. 363, 87 S.E. 281 (1915); *Ellis v. Floyd County*, 24 Ga. App. 717, 102 S.E. 181 (1920); *Floyd County v. Stewart*, 97 Ga. App. 67, 101 S.E.2d 879 (1958) (decided under former Civil Code 1910, § 748 and former Code 1933, § 95-1001).

Alley and adjoining culvert were “public roads.” — Alley and an adjoining drainage culvert and ditch in which a child drowned fell within the definition of “public road” under O.C.G.A. § 32-1-3(24)(N), (O). *Walden v. City of Hawkinsville*, No. 5:03-CV-0398 (DF), 2005 U.S. Dist. LEXIS 21694 (M.D. Ga. Sept. 21, 2005).

Public bridges do not include piping and water boxes. — Piping and water boxes and culverts for drainage purposes across the public roads are not “bridges” within the meaning of the law. *Montgomery County v. Seaboard Air Line Ry.*, 41 Ga. App. 130, 152 S.E. 261 (1930) (decided under former Civil Code 1910, § 748).

Public bridges do not include road leading to bridge. — Word “bridge” does not include the public road leading thereto, or a drain or opening thereunder. *Warren County v. Battle*, 48 Ga. App. 240, 172 S.E. 673 (1934) (decided under former Civil Code 1910, § 748).

Definition of defects in bridge. — Defect in a bridge, which serves as the basis for liability by a county for injuries received by reason thereof, includes any condition of the bridge which renders the bridge unsafe for travelers passing over the bridge. *Havird v. Richmond County*, 47 Ga. App. 580, 171 S.E. 220 (1933) (decided under former Civil Code 1910, § 748).

O.C.G.A. § 32-1-3 does not create liability for counties for defects in bridges. *Coweta County v. Adams*, 221 Ga. App. 868, 473 S.E.2d 558 (1996).

Road striping falls under definition of construction. — Summary judgment pursuant to O.C.G.A. § 9-11-56 was properly granted in the county’s action to recover money had and received by the contractor after the contractor asserted

that the contract, which was for road striping and which was not opened for public bidding, was for a specialized service under O.C.G.A. § 32-4-63(5), an exception to the public bidding requirements under O.C.G.A. § 32-4-64; however, O.C.G.A. § 32-1-3(6) expressly defined road striping as a form of road construction and not as a special service. *Howard v. Brantley County*, 260 Ga. App. 330, 579 S.E.2d 758 (2003).

Construction involving moderate road improvement. — Plans or designs for striping or widening a road need only be in conformity with then existing standards for striping and widening. Plans or designs do not need to address design issues outside the scope of the moderate improvements. *Murray v. DOT*, 240 Ga. App. 285, 523 S.E.2d 367 (1999).

County, not Department of Transportation, liable for bridges. — County is liable for damages resulting from a defect in a bridge, although it may appear that jurisdiction over the highway on which the bridge was located had been assumed by the Highway Department (now Department of Transportation) under the terms of the law, and that the department and not the county was guilty of negligence in the maintenance and construction of the bridge or its approaches, which caused the injury. *Berrien County v. Vickers*, 73 Ga. App. 863, 38 S.E.2d 619 (1946) (decided under former Code 1933, § 95-1001).

Jury question as to effect of limited-access road on existing business. — Court erred in limiting a property owner’s right to present evidence to show that the owner’s access had been substantially restricted when the road on which the business fronted was changed by construction to a limited-access road. Whether a property owner has “reasonable access” to the property under the circumstances and whether the existing access was “substantially interfered with” are questions of fact to be decided by the jury. *Circle K Gen., Inc. v. Department of Transp.*, 196 Ga. App. 616, 396 S.E.2d 522 (1990).

Incumbrance known at time of purchase. — Public road running through a tract of land, which was known to the

purchaser at the time of purchase, is not such an incumbrance on the land as would constitute a breach of a covenant of warranty against incumbrances. *Hood v. Spruill*, 242 Ga. App. 44, 528 S.E.2d 565 (2000).

Railroad grade crossings. — Georgia Code of Public Transportation precluded a common-law cause of action against a railroad for the failure to install adequate protective devices at a grade crossing on a public road since the railroad had not been requested to do so by the appropriate governmental entity. *Southern Ry. v. Georgia Kraft Co.*, 188 Ga. App. 623, 373 S.E.2d 774 (1988).

Railroad was entitled to summary judgment in a survivor's action claiming damages from the survivor's decedent's fatal collision with a train because the survivor

failed to show that the allegedly vision-obstructing vegetation was planted or maintained in violation of any statute, code, or local ordinance and although railroads could be liable under common law negligence principles, the failure to maintain a railroad right of way was addressed by the Georgia Code of Public Transportation, specifically by O.C.G.A. § 32-6-51, and the scope of those provisions encompassed railroads. *Town of Register v. Fortner*, 262 Ga. App. 507, 586 S.E.2d 54 (2003).

Cited in *Wiles v. State*, 161 Ga. App. 473, 288 S.E.2d 271 (1982); *Duncan v. City of Macon*, 221 Ga. App. 710, 472 S.E.2d 455 (1996); *Gilbert v. City of Jackson*, 287 Ga. App. 326, 651 S.E.2d 461 (2007); *Toole v. Georgia-Pacific, LLC*, No. A10A2179, 2011 Ga. App. LEXIS 810 (Jan. 19, 2011).

OPINIONS OF THE ATTORNEY GENERAL

Editor's notes. — In light of the similarity of the statutory provisions, opinions under former Code 1933, § 102-103, which was subsequently repealed but was succeeded by provisions in this Code section, are included in the annotations for this Code section.

Street or road presumed to include bridges. — Bridges may be a part of city streets, county roads, or the State Aid Highways System; in each case the street or road is defined as including bridges, unless a different meaning is apparent from the context. 1972 Op. Att'y Gen. No. 72-64 (decided under former Code 1933, § 102-103).

Merely deeding privately owned road or driveway to county will not necessarily turn it into a public road. 1980 Op. Att'y Gen. No. U80-37.

Department of Transportation's use of motor fuel tax funds. — Department of Transportation may not utilize motor

fuel tax funds to construct walkways on bridges for fishing. 1975 Op. Att'y Gen. No. 75-96 (decided under former Code 1933, § 102-103).

No expenditure of money on historic preservation if not for transportation. — Department of Transportation may expend federal and state funds on transportation enhancement activities as defined in 23 U.S.C. § 101(a) in those instances where the Code of Public Transportation gives the department the authority to expend such funds, but the Department of Transportation has no authority to expend federal or state money on historic preservation, rehabilitation, and operation of historic transportation buildings, structures, or facilities (including historic railroad facilities and canals) when such buildings, structures, or facilities are not being acquired for transportation purposes. 1993 Op. Att'y Gen. No. 93-3.

Power of public utility commission to

require railroad company to grant or renew leases or other privileges on its right of way, 47 ALR 109.

Construction or maintenance of sewers, water pipes, or the like by public authorities in roadway, street, or alley as indi-

cating dedication or acceptance thereof, 52 ALR2d 263.

Conveyance of right of way, in connec-

tion with conveyance of another tract, as passing fee or easement, 89 ALR3d 767.

32-1-4. Commissioner's duty to transmit evidence relating to criminal acts against department's property; institution and prosecution of criminal proceedings.

(a) As used in this Code section, the term "property of the department" means any property, whether real or personal, which is owned by or in which there is an interest held by the department.

(b) Whenever it may appear to the commissioner that any person or corporation has committed, is committing, has attempted to commit, or is attempting to commit any act which is prohibited by the criminal laws of this state against, or involving in any manner whatsoever, property of the department, he may, in his discretion, transmit such evidence as may be available concerning such act to the Attorney General or to the appropriate prosecuting attorney who may, in his discretion, institute and prosecute the necessary criminal proceedings. (Ga. L. 1980, p. 590, § 1.)

32-1-5. Powers and duties of Attorney General under Code Section 32-1-4.

In carrying out the duties imposed by Code Section 32-1-4, the Attorney General is vested, in addition to and cumulative of the rights, powers, and duties otherwise appertaining to his office, with all of the rights, powers, duties, privileges, obligations, and immunities held by or inuring to any prosecuting attorney. (Ga. L. 1980, p. 590, § 2.)

Cross references. — District attorneys, T. 15, C. 18. Attorney General, T. 45, C. 15.

32-1-6. Effect of Code Sections 32-1-4 and 32-1-5 on other laws.

Nothing in Code Sections 32-1-4 and 32-1-5 shall limit any statutory or common-law right of the state to punish any person or corporation for the violation of any provision of any law. (Ga. L. 1980, p. 590, § 3.)

32-1-7. Disbursement of fines and forfeitures.

Reserved. Repealed by Ga. L. 2000, p. 951, § 2-1, effective July 1, 2001.

Editor's notes. — Ga. L. 2000, p. 951, § 2-1, provided for the repeal of this Code section. Section 13-1 of that Act, not codified by the General Assembly, provides that the Act becomes fully effective July 1, 2001, but authorizes certain administra-

tive action commencing April 28, 2000, for purposes of appointing certain officials, adopting rules and regulations, employing personnel, and preparing for and phasing in full implementation; provided, however, that the Governor may by executive order extend the date for full implementation of the Act to no later than July 1,

2003. In accordance with an executive order issued June 29, 2001, by the Governor, the repeal of this Code section by Ga. L. 2000, p. 951, became fully effective July 1, 2001.
This Code section was based on Ga. L. 1978, p. 1989, § 4; Ga. L. 1985, p. 149, § 32; Ga. L. 1992, p. 1236, § 1.

32-1-8. Construction and maintenance of private roads.

It shall be unlawful for any official, officer, or employee of the department, the State Road and Tollway Authority, the Georgia Highway Authority, or any similar authority or of any county or municipality to authorize the construction or maintenance of any private road. (Code 1933, § 95A-1102, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2001, p. 1251, § 2-1.)

Cross references. — Georgia Highway Authority, § 32-10-1 et seq. State Road and Tollway Authority, § 32-10-60 et seq. Conflicts of interest, § 45-10-20 et seq.

JUDICIAL DECISIONS

Compensated work on private property not prohibited. — O.C.G.A. § 32-1-8 does not prohibit a county from performing grading work on private property with county equipment and materials at rates established in a published schedule. *Woodard v. Smith*, 254 Ga. 39, 325 S.E.2d 377 (1985).

OPINIONS OF THE ATTORNEY GENERAL

Remuneration does not render work on private property lawful. — Even for payment, a county may not lawfully scrape privately-owned driveways; the county's collection of a fee for providing this service would not, given the plain language of the statute, make the transaction lawful. 1976 Op. Att'y Gen. No. U76-24.

32-1-9. Enforcement of title by law enforcement officers.

It shall be the duty of all state and local law enforcement officers to enforce any provision of this title which states that any act or omission is unlawful. (Code 1933, § 95A-1103, enacted by Ga. L. 1973, p. 947, § 1.)

32-1-10. Penalty.

(a) Any person who violates any of the provisions of this title for which no specific penalty is provided, whether or not such act or omission is expressly declared elsewhere in this title to be unlawful, or who violates any of the rules and regulations issued under authority of and in accord with the provisions of this title shall be guilty of a

misdemeanor; provided, however, that a violation of Code Sections 32-6-26 and 32-6-27 shall not be considered a crime.

(b) In addition to the penalty provided for in subsection (a) of this Code section, the department shall have the right to enjoin any act or omission so punishable as a misdemeanor or punished otherwise as provided elsewhere in this title. (Code 1933, § 95A-1101, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1978, p. 1989, § 4.)

OPINIONS OF THE ATTORNEY GENERAL

Promotion of safety and protection of public investment. — O.C.G.A. §§ 32-1-10, 32-6-23, 32-6-24, 46-7-61 (now repealed) and 46-7-78 (now repealed) are intended to promote the safety of the traveling public and protect the public's investment in the public's roads and highways. 1981 Op. Att'y Gen. No. U81-17.

When Department of Transporta-

tion officers may selectively stop vehicles. — Department of Transportation enforcement officers may not selectively stop vehicles unless the officers have an articulate and reasonable suspicion that the operator is violating, or the vehicle is in violation of, the law. 1987 Op. Att'y Gen. No. U87-31.

32-1-11. Construction of title.

This title shall be construed liberally to effectuate its purposes. (Code 1933, § 95A-103, enacted by Ga. L. 1973, p. 947, § 1.)

Editor's notes. — Ga. L. 2004, p. 898, § 2, not codified by the General Assembly, provides that: "The department will form a pilot program that will provide a state level flow through point for any available federal funding or other forms of financial and development sources and assistance for local, regional, and public-private streetcar projects. Any funding through

bonds for such pilot and grant program shall be administered by the State Road and Tollway Authority." This provision for a pilot program was repealed by Ga. L. 2006, p. 498, § 5/SB 150.

of Construction Hazards, 72 Am. Jur. Trials 215.

ARTICLE 1

GENERAL PROVISIONS

32-2-1. Composition of department.

The Department of Transportation shall consist of the State Transportation Board, the commissioner of transportation, the director of planning, the deputy commissioner of transportation, the chief engineer, the treasurer and the assistant treasurer of transportation, and such subordinate employees as may be deemed necessary by the commissioner or the director of planning. (Ga. L. 1919, p. 242, § 1; Ga. L. 1925, p. 208, § 1; Code 1933, § 95-1503, enacted by Ga. L. 1963, p. 3, § 5; Code 1933, § 95A-301, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1994, p. 591, § 1; Ga. L. 2009, p. 976, § 1/SB 200.)

32-2-2. Powers and duties of department generally.

(a) The powers and duties of the department, unless otherwise expressly limited by law, shall include but not be limited to the following:

(1) The department shall plan, designate, improve, manage, control, construct, and maintain a state highway system and shall have control of and responsibility for all construction, maintenance, or any other work upon the state highway system and all other work which may be designated to be done by the department by this title or any other law. However, on those portions of the state highway system lying within the corporate limits of any municipality, the department shall be required to provide only substantial maintenance activities and operations, including but not limited to reconstruction and major resurfacing, reconstruction of bridges, erection and maintenance of official department signs, painting of striping and pavement delineators, furnishing of guardrails and bridge rails, and other major maintenance activities; and, furthermore, the department may by contract authorize and require any rapid transit authority created by the General Assembly to plan, design, and construct, at no cost to the department and subject to the department's review and approval of design and construction, segments of the state highway system necessary to replace those portions of the system which the rapid transit authority and the department agree must be relocated in order to avoid conflicts between the rapid transit authority's facilities and the state highway system;

(2) Except for appropriations to authorize the issuance of general obligation debt for public road work, or to pay such debt, the department shall be the state agency to receive and shall have control and supervision of all funds appropriated for public road work by the state and activities incident thereto from the net proceeds of motor fuel tax, as provided in Article III, Section IX, Paragraph VI(b) of the Constitution of Georgia and any other funds appropriated or provided for by law for such purposes or for performing other functions of the department. If the General Assembly fails to appropriate all of the net proceeds of the motor fuel tax to the department, to the State of Georgia General Obligation Debt Sinking Fund, and to counties for public road work and activities incident thereto, any such unappropriated part of such funds, exclusive of those proceeds required by law to be provided as grants to counties for the construction and maintenance of county roads, shall be made available to the department by the state treasurer, notwithstanding any provisions to the contrary in Part 1 of Article 4 of Chapter 12 of Title 45, the "Budget Act";

(3) The department shall provide for surveys, plans, maps, specifications, and other things necessary in designating, supervising,

locating, abandoning, relocating, improving, constructing, or maintaining the state highway system or any part thereof, or any activities incident thereto, or in doing such other work on public roads as the department may be given responsibility for or control of by law;

(4) The department shall reimburse the Department of Law for expenses incurred when the Attorney General of Georgia assigns any assistant attorney general or any deputy assistant attorney general to perform specific legal services in connection with the validation of any bonds as authorized by Code Section 45-15-16 or in connection with contract lawsuits and the acquisition of rights of way for any project on the state highway system constructed or to be constructed by the department and when such services are designated by the Attorney General to include specific items of legal services involving the trial or preparation for trial of individual condemnation cases, contract lawsuits, and related matters on such project or projects, or a group or series of condemnation cases, contract lawsuits, and related matters in connection with a specific project or projects; provided, however, that no such reimbursement shall be made until the Attorney General has submitted a statement of the expenses of such legal services to the department, which statement shall include the name of the assistant attorney general performing such services, the items of legal services performed and the cost thereof, and, further, that no reimbursement shall be made for the expenses of legal services for contract lawsuits unless such services had the advance approval of the commissioner;

(5) The department shall have the authority to negotiate, let, and enter into contracts with the Georgia Highway Authority, the State Road and Tollway Authority, any person, any state agency, or any county or municipality of the state for the construction or maintenance of any public road or any other mode of transportation or for the benefit of or pertaining to the department or its employees in such manner and subject to such express limitations as may be provided by law;

(6) The department shall have the authority to negotiate and enter into reciprocal agreements and contracts with other states or agencies or subdivisions thereof concerning public roads and other modes of transportation and activities incident thereto;

(7) The department and the State Road and Tollway Authority shall be the proper agencies of the state to discharge all duties imposed on the state by any act of Congress allotting federal funds to be expended for public road and other transportation purposes in this state. The department shall have the authority to accept and use federal funds; to enter into any contracts or agreements with the

United States or its agencies or subdivisions relating to the planning, financing, construction, improvement, operation, and maintenance of any public road or other mode or system of transportation; and to do all things necessary, proper, or expedient to achieve compliance with the provisions and requirements of all applicable federal-aid acts and programs. Nothing in this title is intended to conflict with any federal law; and, in case of such conflict, such portion as may be in conflict with such federal law is declared of no effect to the extent of the conflict;

(8) The department shall have the authority to exercise the right and power of eminent domain and to purchase, exchange, sell, lease, or otherwise acquire or dispose of any property or any rights or interests therein for public road and other transportation purposes or for any activities incident thereto, subject to such express limitations as are provided by law;

(9) The department and its authorized agents and employees shall have the authority to enter upon any lands in the state for the purpose of making such surveys, soundings, drillings, and examinations as the department may deem necessary or desirable to accomplish the purposes of this title; and such entry shall not be deemed a trespass, nor shall it be deemed an entry which would constitute a taking in a condemnation proceeding, provided that reasonable notice is given the owner or occupant of the property to be entered and that such entry shall be done in a reasonable manner with as little inconvenience as possible to the owner or occupant of the property;

(10) In locating, relocating, constructing, improving, or maintaining any road on the state highway system, the department shall have the authority to control or limit access thereto, including the authority to close off or regulate access from any part of any public road on a county road system or municipal street system to the extent necessary in the public interest;

(11) The department shall have the authority to construct and to perform substantial maintenance of public roads within the boundaries of state parks and on main access roads leading into such parks;

(12)(A) The department shall have the authority to formulate, promulgate, and enforce rules and regulations setting minimum safety standards for bridges on federal-aid public roads and to inspect and close any bridge on any such public road which does not comply with the minimum standards set by the department and which the department determines is unsafe for public travel. No new bridge shall be constructed on any such public road without there first having been obtained a permit for its construction from

the department, such permit to be issued only where the proposed bridge will meet the minimum standards set by the department.

(B) The department may inspect and determine the maximum load, weight, and other vehicular dimensions which can be safely transported over each bridge on the state highway system and may post on each such bridge a legible notice showing such maximum safe limits. It shall be unlawful for any person to haul, drive, or bring onto any bridge any vehicle, load, or weight which in any manner exceeds the maximum limits so ascertained and posted on such bridge;

(13) The department shall have the authority to establish, maintain, and operate ferries as part of a public road and to authorize and issue permits for any state agency, any county or municipality, or any private person to establish, maintain, and operate ferries as part of a public road whenever, in the discretion of the department, such ferries are reasonably necessary and in the best interest of the public. All such ferries shall be operated subject to such rules and regulations as the department may adopt to protect the public interest, and the authorization of any such ferry may be revoked whenever, in the discretion of the department, its continued operation is no longer necessary or in the best interest of the public;

(14) The department shall have those duties and powers in regard to programs relating to the Metropolitan Atlanta Rapid Transit Authority established by subsection (i) of Section 8 of an Act approved March 10, 1965 (Ga. L. 1965, p. 2243), particularly as amended by Section 5 of an Act approved March 16, 1971 (Ga. L. 1971, p. 2092);

(15) Reserved;

(16) Reserved;

(17)(A) Subject to general appropriations for such purposes, the department is authorized to plan for and establish a long-term policy in regard to the establishment, development, and maintenance of aviation and aviation facilities in the state; to promote and encourage the use of aviation facilities of the state for air commerce in the state, between the state and other states, and between the state and foreign countries; to cooperate with, counsel, and advise political subdivisions of the state and other departments, boards, bureaus, commissions, agencies, or establishments, whether federal, state, local, public, or private, for the purpose of promoting and obtaining coordination in the planning for and in the establishment, development, construction, maintenance, and protection of a system of air routes, airports, landing fields, and other aviation facilities in the state.

(B) Subject to general appropriations for such purposes, the department is authorized to construct or to contract with any state

agency, political subdivision, authority, or person for the construction of airports and of facilities and appurtenances incident to their operation. The authority and limitations of Article 4 of this chapter pertaining to department contracts and subcontracts for construction of public roads shall likewise apply to such airport construction contracts; provided, however, that such a contract when negotiated with a political subdivision shall not be subject to the limitation of subparagraph (d)(1)(A) of Code Section 32-2-61 pertaining to the average bid price for the 60 day period preceding the making of the contract. Article 1 of Chapter 3 and Chapter 7 of this title shall apply to the acquisition or disposition of land or interests therein for such airport construction.

(C) Subject to general appropriations for such purposes, the department is authorized to establish air markers at appropriate locations throughout the state to facilitate air navigation within the state. Said markers shall consist of painting on appropriately located roofs of buildings the names of towns or cities within which such buildings are located, such names to be painted in sufficient size to be legible under good visibility conditions from a height of at least 3,000 feet. The department is authorized to obtain roof releases from the owners of buildings upon which air markers are to be painted or otherwise to obtain permission from such owners to use such roofs for such purposes and to pay the owners reasonable and nominal rentals therefor if such payment is necessary in order to obtain the appropriate permission for the use of such roofs for such purposes.

(D) Subject to general appropriations for such purposes, the department is authorized to maintain or to control for the maintenance of department owned or department leased airports, their facilities, and appurtenances incident to their operation. The authority and limitations of Article 4 of this chapter pertaining to contracts and subcontracts for maintenance of public roads shall likewise apply to such contracts for the maintenance of such department owned or department leased airports, provided that such a contract when negotiated with a political subdivision shall not be subject to the limitation of subparagraph (d)(1)(A) of Code Section 32-2-61 pertaining to the average bid price for the 60 day period preceding the making of the contract;

(18)(A) Subject to general appropriations and any provisions of Chapter 5 of this title to the contrary notwithstanding, the department is authorized within the limitations provided in subparagraph (B) of this paragraph to provide to municipalities, counties, authorities, and state agencies financial support by contract for clearing, dredging, or maintaining free from obstructions and for

the widening, deepening, and improvement of the ports, seaports, or harbors of this state.

(B)(i) Municipalities, counties, authorities, or state agencies may, by formal resolution, apply to the department for financial assistance provided by this paragraph.

(ii) The department shall review the proposal and, if satisfied that the proposal is in accordance with the purposes of this paragraph, may enter into a contract for expenditure of funds.

(iii) The time of payment and any conditions concerning such funds shall be set forth in the contract.

(C) In addition to subparagraph (A) of this paragraph and subject to general appropriations for such purposes, the department with its own forces or by contract may clear, dredge, or maintain free from obstruction and may widen, deepen, and improve the ports, seaports, or harbors of this state; and

(19) Code Sections 32-3-1 and 32-6-115 notwithstanding, the department may by contract grant to any rapid transit authority created by the General Assembly, under such terms and conditions as the department may deem appropriate, the right to occupy or traverse a portion of the right of way of any road on the state highway system by or with its mass transportation facilities. Furthermore, the department may by contract lease to the rapid transit authority, under such terms and conditions as the department may deem appropriate, the right to occupy, operate, maintain, or traverse by or with its mass transportation facilities any parking facility constructed by the department. Notwithstanding Code Section 48-2-17, all net revenue derived from the lease shall be utilized by the department to offset the cost of constructing any parking facility. Regardless of any financial expenditures by the rapid transit authority, no right of use or lease granted under this paragraph shall merge into or become a property interest of the rapid transit authority. Upon the transfer of the title of the mass transportation facilities to private ownership or upon the operation of the rapid transportation facilities for the financial gain of private persons, such rights granted by the department shall automatically terminate and all rapid transportation facilities shall be removed from the rights of way of the state highway system.

(b) In addition to the powers specifically delegated to it in this title, the department shall have the authority to perform all acts which are necessary, proper, or incidental to the efficient operation and development of the department and of the state highway system and of other modes and systems of transportation; and this title shall be liberally construed to that end. Any power vested by law in the department but

not implemented by specific provisions for the exercise thereof may be executed and carried out by the department in a reasonable manner pursuant to such rules, regulations, and procedures as the department may adopt and subject to such limitations as may be provided by law. (Ga. L. 1919, p. 242, art. 3, §§ 3, 5; Ga. L. 1919, p. 242, art. 4, §§ 1-3; Ga. L. 1919, p. 242, art. 6, § 3; Ga. L. 1922, p. 176, § 1; Ga. L. 1929, p. 260, § 2; Code 1933, §§ 95-1502, 95-1504, 95-1701, 95-1702, 95-1703, 95-1710, 95-1715, 95-1724; Code 1933, §§ 95A-302, 95A-303, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1974, p. 1422, §§ 6-9; Ga. L. 1975, p. 98, §§ 1, 2; Ga. L. 1976, p. 416, § 1; Ga. L. 1976, p. 775, § 2; Ga. L. 1979, p. 973, §§ 2, 3; Ga. L. 1980, p. 773, § 1; Ga. L. 1982, p. 3, § 32; Ga. L. 1983, p. 3, § 56; Ga. L. 1986, p. 10, § 32; Ga. L. 1991, p. 1355, § 1; Ga. L. 1993, p. 1402, § 18; Ga. L. 2000, p. 951, § 2-2; Ga. L. 2001, p. 1251, § 1-1; Ga. L. 2009, p. 848, § 2/SB 85; Ga. L. 2010, p. 863, § 3/SB 296.)

The 2010 amendment, effective July 1, 2010, substituted “state treasurer” for “director of the Office of Treasury and Fiscal Services” near the end of paragraph (a)(2).

Cross references. — Aviation authority, T. 6, C. 5. Further provisions regarding powers and duties of department as regards aviation, §§ 6-1-1, 6-1-2. Powers and duties of department with regard to construction of bicycle trails and bike-ways, § 12-3-115. Erosion and sediment control plan prepared, § 12-7-7.1. Motor fuel and road taxes, T. 48, C. 9. Powers and duties of department regarding welcome centers on federal highways, and installation and operation of vending machines at such centers, § 50-7-12 et seq. Powers and duties of department with regard to intracoastal waterway, T. 52, C. 3.

Code Commission notes. — Pursuant to Code Section 28-9-5, in 1985, periods were substituted for semicolons at the end

of subparagraphs (a)(12)(A), (a)(16)(B), (a)(16)(C), (a)(17)(A)-(a)(17)(C), (a)(18)(A) and subdivisions (a)(18)(B)(i)-(a)(18)(B)(iii); and “subparagraph (d)(1)(A)” was substituted for “subparagraph (A) of paragraph (1) of subsection (a)” in subparagraphs (a)(17)(B) and (a)(17)(D).

Pursuant to Code Section 28-9-5, in 1986, “and” was added at the end of subparagraph (a)(18)(C).

Pursuant to Code Section 28-9-5, in 1987, “property” was substituted for “porperty” in paragraph (a)(9) and, in subparagraph (a)(17)(A), “and aviation” was added following the first “aviation” and “and aviation” was deleted following the second “aviation”.

Pursuant to Code Section 28-9-5, in 1994, in subsection (a), “contract law-suits,” was substituted for “contract law-suits” near the middle of paragraph (a)(4) and “or private,” was substituted for “or private” near the end of subparagraph (a)(17)(A).

FERRIES

General Consideration

Editor's notes. — In light of the similarity of the statutory provisions, decisions under former Code 1863, § 672; former Code 1873, § 671; former Code 1882, §§ 684, 690; former Civil Code 1895, §§ 616, 622; former Civil Code 1910, § 748; and former Code 1933, §§ 95-302, 95-1504, 95-1701, 95-1715 and 95-1724, which were subsequently repealed but were succeeded by provisions in this Code section, are included in the annotations for this Code section.

Georgia DOT is an arm of the state and thus may have immunity under the Eleventh Amendment because any recovery would have been paid out of state funds and the fact that Georgia DOT can allocate the DOT's funds in DOT's own discretion and without intervention by the state legislature does not change the fact that these funds are state funds. *Robinson v. Georgia DOT*, 966 F.2d 637 (11th Cir.), cert. denied, 506 U.S. 1022, 113 S. Ct. 660, 121 L. Ed. 2d 586 (1992).

Under O.C.G.A. § 32-2-2, the legislature has delegated to DOT the authority to exercise the right and power of eminent domain for public road and transportation purposes. It follows that DOT is an "arm of the State" for eminent domain purposes, and the trial court correctly held that an action brought against DOT under 42 U.S.C. § 1983 could not be maintained for losses occasioned by pre-condemnation publicity. *Thompson v. DOT*, 209 Ga. App. 353, 433 S.E.2d 623 (1993).

Georgia DOT has immunity under the Eleventh Amendment. — Georgia DOT, which may receive immunity under the eleventh amendment, did not waive the DOT's immunity when plaintiffs sought relief for inverse condemnation of property that was an ancestral cemetery because DOT had consented to suit in state court; the Georgia Constitution expressly reserves the state's immunity in federal court and a waiver in state court does not constitute a waiver in federal court. *Robinson v. Georgia DOT*, 966 F.2d 637 (11th Cir.), cert. denied, 506 U.S. 1022, 113 S. Ct. 660, 121 L. Ed. 2d 586 (1992).

Negligent design. — Contractors were not liable for the negligent design of a

ramp as the Georgia Department of Transportation (DOT) had responsibility for the design of the ramp, notwithstanding the fact that DOT gave the contractors no drawings, that the contractors made suggestions for changes to the ramp, and that the contractors implemented the DOT's design; there was no evidence that the DOT relinquished control of the design to the contractors or that the contract specified that the design of the ramp was the contractors' responsibility. *Fraker v. C.W. Matthews Contr. Co.*, 272 Ga. App. 807, 614 S.E.2d 94 (2005), aff'd, 2007 U.S. App. LEXIS 28793 (11th Cir. 2007).

Standard of care. — Court of appeals declined to impose a higher standard of care on the Georgia Department of Transportation (DOT) in a co-executors' wrongful death actions alleging that the DOT was negligent in failing to inspect a tree and in failing to remove the tree before the tree fell on their parents' car because the waiver of sovereign immunity found in the Georgia Tort Claims Act, O.C.G.A. § 50-21-23(a), provided that the state would be liable for torts in the same manner as a private individual or entity would be liable under like circumstances. *Ga. DOT v. Smith*, No. A11A1579; No. A11A1580; No. A11A2017, 2012 Ga. App. LEXIS 205 (Feb. 29, 2012).

Cited in *Hall County Historical Soc'y, Inc. v. Georgia DOT*, 447 F. Supp. 741 (N.D. Ga. 1978); *Hendrix v. Department of Transp.*, 188 Ga. App. 429, 373 S.E.2d 264 (1988); *DOT v. Carr*, 254 Ga. App. 781, 564 S.E.2d 14 (2002); *Hubbard v. DOT*, 256 Ga. App. 342, 568 S.E.2d 559 (2002); *Campbell v. State Rd. & Tollway Auth.*, 276 Ga. 714, 583 S.E.2d 32 (2003).

Authority of Department

Enforcement authority granted by O.C.G.A. § 32-2-2 is neither overbroad nor an illegal delegation of legislative functions. *DOT v. Del-Cook Timber Co.*, 248 Ga. 734, 285 S.E.2d 913 (1982).

Delegation to contractor permitted. — Nothing in O.C.G.A. § 32-1-3(24)(J) or O.C.G.A. § 32-2-2(a)(3) prevents the Georgia Department of Transportation from delegating the responsibility for designing and implementing a traffic control plan to a private contractor. *Comanche*

Constr., Inc. v. DOT, 272 Ga. App. 766, 613 S.E.2d 158 (2005).

Department's duties in connection with state highway system. — When the charge in question does in fact state that the Department of Transportation has “general responsibility to design, manage and improve the state highway system,” it seems to capture the essence of the sections the defendant relies upon, which are in fact very broad, general descriptions of the duties of the DOT. The additional material used by the court is drawn from the more specific statutory description of the respective duties of the DOT and municipalities. Thus, O.C.G.A. § 32-2-2 does indeed mention the general duty of the DOT to “designate, improve, manage, control, construct, and maintain.” *Banks v. City of Brunswick*, 529 F. Supp. 695 (S.D. Ga. 1981), *aff'd*, 667 F.2d 97 (11th Cir. 1982).

Authority to maintain state-aid highways. — Court of equity will not interfere with the discretionary action of the State Highway Department (now Department of Transportation) in locating, grading, or improving a state-aid highway, within the area of their legally designated powers, unless such action is arbitrary and amounts to an abuse of the court's discretion. *State Hwy. Dep't v. Strickland*, 213 Ga. 785, 102 S.E.2d 3 (1958).

There is no general duty imposed on the counties to maintain state highways. *Christian v. Monroe County*, 203 Ga. App. 342, 417 S.E.2d 37 (1992); *Hardy v. Candler County*, 214 Ga. App. 627, 448 S.E.2d 487 (1994).

Authority to take property to relocate gas line. — State Highway Department (now Department of Transportation) was authorized to take property for the relocation of the gas company's interstate gas line since it was in the interest of safety and prevented inconvenience to the public using the gas line and since the acquisition was in furtherance of and reasonably for a public state highway use. *Benton v. State Hwy. Dep't*, 111 Ga. App. 861, 143 S.E.2d 396 (1965) (decided under former Code 1933, §§ 95-1701, 95-1715, and 95-1724).

Authority to construct public high-

way through municipalities or cities.

— State Highway Department (now Department of Transportation) may construct public highways through municipalities or cities of this state without their consent. *City of Carrollton v. Walker*, 215 Ga. 505, 111 S.E.2d 79 (1959) (decided under former Code 1933, § 95-1504).

Extending roads through towns without consent. — State Highway Board (now State Transportation Board), on the board's own initiative or acting through a county, has the legal right to extend and improve a state-aid road through the streets of a municipality without the consent of the municipality and even against the municipality's will. *Perkerson v. Mayor of Greenville*, 51 Ga. App. 240, 180 S.E. 22 (1935) (decided under former Code 1933, § 95-1504).

General regulatory power to approve erection of traffic signals. — When the additional portion of the charge objected to here similarly drew from specific applicable statutory language, the court properly noted the general regulatory power of the Department of Transportation to approve the erection of traffic signals. *Banks v. City of Brunswick*, 529 F. Supp. 695 (S.D. Ga. 1981), *aff'd*, 667 F.2d 97 (11th Cir. 1982).

Department lacks exclusive responsibility for all aspects of highway system. — O.C.G.A. § 32-2-2(a)(1) does not place exclusive responsibility for all aspects of the state highway system in the Department of Transportation. *City of Fairburn v. Cook*, 188 Ga. App. 58, 372 S.E.2d 245, *cert. denied*, 188 Ga. App. 911, 372 S.E.2d 245 (1988).

Maintenance of highways within city limits. — When the Department of Transportation fails to maintain those portions of the state highway system lying within a municipality's corporate limits as required by law and when the municipality agreed to perform the necessary maintenance, a municipality can be held liable for such failure under O.C.G.A. § 32-4-93(b). *City of Fairburn v. Cook*, 188 Ga. App. 58, 372 S.E.2d 245, *cert. denied*, 188 Ga. App. 911, 372 S.E.2d 245 (1988).

Authority to remove obstructions. — Management and control of the right of way of the state's system of roads is vested

Authority of Department (Cont'd)

in the Department of Transportation and the department can require the removal of any obstruction placed thereon without express permission. *Crider v. Kelley*, 232 Ga. 616, 208 S.E.2d 444 (1974).

No authority to maintain overgrown area bordering intersection. — In a wrongful death action, the trial court did not err in finding the Georgia Department of Transportation immune from suit from liability to the decedent's estate and survivors for failing to maintain an overgrown area of shrubbery that bordered an intersection, as neither O.C.G.A. § 32-2-2, when read in concert with O.C.G.A. § 32-4-93, nor O.C.G.A. § 50-21-24(8) imposed liability on the Department; hence, maintenance of the area did not constitute a "substantial" or "other major" maintenance activity. *Welch v. Ga. DOT*, 283 Ga. App. 903, 642 S.E.2d 913 (2007).

Condemnation of public property. — O.C.G.A. § 32-2-2(b) does not constitute specific authority to Department of Transportation to condemn public property. *DOT v. City of Atlanta*, 255 Ga. 124, 337 S.E.2d 327 (1985).

Bridges**1. Liability of County**

Duties of county authorities in maintaining and repairing bridges. — County authorities are not insurers of the safety of county bridges, but must only exercise ordinary care in maintaining and repairing the bridges. *Warren County v. Battle*, 48 Ga. App. 240, 172 S.E. 673 (1934) (decided under former Civil Code 1910, § 748).

Definition of "bridge" includes approaches. — While the word "bridge," as used in former Civil Code 1910, § 748 did not include the public road leading thereto, or a drain or opening thereunder, the statute did include "all the appurtenances necessary to its proper use, and embraces its abutments and approaches and that which is necessary as an approach, to connect the bridge with the highway, is an essential part of the bridge itself." *Warren County v. Battle*, 48 Ga.

App. 240, 172 S.E. 673 (1934) (decided under former Civil Code 1910, § 748).

In an action against a county for damages from the falling of truck through an opening where a public bridge had been into a ravine below, the petition was not subject to demurrer (now motion to dismiss), and the verdict for the plaintiff was not contrary to law or without evidence to support the verdict, under the defendant's contention that the injury was not caused by reason of a "defective bridge" within the meaning of the statute, but from the entire removal of the bridge, for which the county was not liable, since the petition and the evidence showed that at the time of the injury at least a part of the bridge, i.e., the sills constituting a portion of its "approaches," still remained, and the rest of the bridge was then being repaired. *Warren County v. Battle*, 48 Ga. App. 240, 172 S.E. 673 (1934) (decided under former Civil Code 1910, § 748).

2. Liability of Individual Owners

Standard of care required for private toll bridges. — Owner of a bridge franchise is bound to exercise only such care and diligence in the construction of a bridge and keeping the bridge in proper order which every prudent man would exert in relation to the same property in view of the object and purpose for which the bridge was erected and used by the prudent man. *Tift v. Towns*, 53 Ga. 47 (1874) (decided under former Code 1873, § 671).

Nonliability during repairs. — While the proprietor of a toll bridge is having the bridge repaired, in accordance with the proprietor's duty, the floor being taken up and no toll charged, the proprietor's role as a proprietor of a toll bridge is discontinued; and the proprietor is not liable under this section to one injured by reason of the condition of the bridge. *Tift v. Jones*, 52 Ga. 538 (1874) (decided under former Code 1873, § 671).

Private toll bridge without permit prohibited. — This section did not contemplate a case where a public road crossed a bridge, and where a few people obtained possession by a transfer of a mechanic's lien and proceeded to charge a toll without authority granted to the peo-

ple from some proper source. *Whelchel v. State ex rel. Wiley*, 76 Ga. 644 (1886) (decided under former Code 1882, § 684).

Ferries

Liability for ferry kept for own use.

— One who keeps a ferry for one's own use is not liable except for gross neglect unless one is in the habit of charging a toll. *Self v. Dunn & Brown*, 42 Ga. 528, 5 Am. R. 544 (1871) (decided under former Code 1863, § 672).

When ferry loses private character.

— While the owner of a private ferry may lawfully charge and collect a toll from persons incidentally crossing thereat, should the owner maintain the ferry for use by the public at large or seek public patronage, or pursue the business of keeping up the ferry for the public, the ferry loses the ferry's character as a private ferry. *Hudspeth v. Hall*, 111 Ga. 510, 36 S.E. 770 (1900) (decided under former Code 1895, § 616).

Suits against public ferry operators for loss of property. — Since public

ferry operators are common carriers, no allegation of negligence was necessary in suits brought to recover damages for loss of property accepted for shipment. *Deen v. Wheeler*, 7 Ga. App. 507, 67 S.E. 212 (1910) (decided under former Code 1895, § 622).

Landowner liability. — Under this section, the owner of the land on which a public ferry is situated, unless the ownership of the ferry be separated from that of the land, is liable for negligent torts committed by the ferry operator in the performance of the operator's duties as such, whether the owner objects to the use of the ferry or not. *Printup v. Patton & Jackson*, 91 Ga. 422, 18 S.E. 311 (1893) (decided under former Code 1882, § 690).

Amendment to petition showing liability as landowner permissible. — Petition originally basing liability on ownership of the ferry may be amended to include liability as owner of the land and proof of either will sustain the action. *Deen v. Wheeler*, 7 Ga. App. 507, 67 S.E. 212 (1910) (decided under former Code 1895, § 622).

OPINIONS OF THE ATTORNEY GENERAL

Editor's notes. — In light of the similarity of the statutory provisions, opinions under former Code 1933, §§ 95-1715 and 95-1724, which were subsequently repealed but were succeeded by provisions in this Code section, are included in the annotations for this Code section.

Department of Transportation control over contemplated tree cutting operations. — Given the Department of Transportation's authority and obligation to control the state highway system, it seems imperative that the department maintain rigid and absolute control over any contemplated tree cutting operations, particularly if those operations are undertaken by private individuals on rights-of-way. 1981 Op. Att'y Gen. No. 81-75.

Authorization to formulate rules related to, and issuance of permits for, cutting of trees and vegetation on rights-of-way does not impinge upon the Department of Transportation's authority and legal obligation to control the state

highway system. 1981 Op. Att'y Gen. No. 81-75.

Department lacks authority to fund county airport project. — Department of Transportation may not help fund completion of airport master planning project for county airport because it would constitute a forbidden assumption of county debt. 1973 Op. Att'y Gen. No. 73-126.

Department of Transportation may enter into transportation construction contracts with financial backing from State Road and Tollway Authority. — Department of Transportation may enter into transportation construction contracts with all or a portion of the financial backing for the contracts coming from a contractual promise from the State Road and Tollway Authority to borrow and provide money to DOT as and when needed to expend on projects that are the subjects of the construction contracts. 2001 Op. Att'y Gen. No. 2001-10.

Department may not contract with individual to maintain federal high-

ways. — Since the state is obligated to follow federal law with reference to interstate highways, the state's making a contract for supplying to an individual the hay cut from rights of way of interstate highways in return for the individual's cutting it would not be acceptable since the federal government requires maintenance contracts to be made with governmental instrumentalities only. 1973 Op. Att'y Gen. No. U73-71.

Authority to issue license for rail line. — Department of Transportation has authority to issue a revocable license to a company constructing and operating a rapid rail passenger service line to cross the rights-of-way of several state routes so long as consideration is received which represents a substantial benefit to the public. 1995 Op. Att'y Gen. No. 95-45.

Department may buy litter bags for distribution. — Department of Transportation may lawfully spend motor fuel tax funds for the purchase of litter bags to be distributed free of charge to motorists at Georgia's welcome stations. 1973 Op. Att'y Gen. No. 73-145.

Carriage upon state aircraft must be limited to state officials and employees on official business of the state and those non-employees from whose carriage the state derives some benefit. The only exceptions may be in those areas exempted from Ga. Const. 1983, Art. III, Sec. VI, Para. VI(a), the gratuities provision of the Constitution, by Ga. Const. 1983, Art. III, Sec. VI, Para. VI(b). 1989 Op. Att'y Gen. No. 89-19.

Use of state-owned aircraft. — If the Governor, Lieutenant Governor, or Speaker of the House must travel on personal or political business, such travel must be accomplished by private means unless the Commissioner of Public Safety has determined that travel on state aircraft is necessary for personal security; otherwise, when any public officer uses a state aircraft for a personal or political reason, the use of the aircraft is contrary to the prohibitions of the gratuities clause and state statutes authorizing the use of state aircraft, even were the official to reimburse the state for the direct costs associated with the trip. 2004 Op. Att'y Gen. No. 04-3.

Department's powers and duties on funding strictly construed. — Powers and duties delegated to the State Highway Department (now Department of Transportation), especially those concerning appropriations and expenditures of state funds, must be strictly construed. 1971 Op. Att'y Gen. No. 71-85 (decided under former Code 1933, §§ 95-1715 and 95-1724).

Department may not fund road outside of state highway system. — Specific powers mentioned in this section do not authorize the State Highway Department (now Department of Transportation) to match federal funds or to purchase rights of way on roads which are not on the official state highway system. 1971 Op. Att'y Gen. No. 71-85 (decided under former Code 1933, §§ 95-1715 and 95-1724).

Department may not reimburse subdivision for rights of way bought outside highway system. — State Highway Department (now Department of Transportation) has no legal authority to reimburse a political subdivision for the cost of any rights of way they may buy for a federal-aid highway improvement project on a road not on the official state highway system. 1971 Op. Att'y Gen. No. 71-85 (decided under former Code 1933, §§ 95-1715 and 95-1724).

Lapse of appropriations that become deobligated. — Appropriated state funds which become deobligated during a subsequent fiscal year are subject to lapse, and may not be applied to contracts for which motor fuel tax appropriations were previously committed. 1993 Op. Att'y Gen. No. 93-9.

Department may not expend money on historic preservation if not for transportation. — Department of Transportation may expend federal and state funds on transportation enhancement activities as defined in 23 U.S.C. § 101(a) in those instances where the Code of Public Transportation gives the department the authority to expend such funds, but the Department of Transportation has no authority to expend federal or state money on historic preservation, rehabilitation, and operation of historic transportation buildings, structures, or facilities (includ-

ing historic railroad facilities and canals) where such buildings, structures, or facilities are not being acquired for transportation purposes. 1993 Op. Att'y Gen. No. 93-3 (decided prior to 1993 amendment of O.C.G.A. § 32-1-3).

Applicability of Fair and Open Grants Act of 1993 to funds expended from funds. — Fair and Open Grants Act of 1993, O.C.G.A. § 28-5-120 et seq., does not apply to disbursements made by the

Department of Transportation pursuant to contracts entered into with private entities, nor to intergovernmental contracts with counties for harbor maintenance; but the Act does apply when funds are disbursed by the department on an unrestricted basis to, or for the benefit of, local governments for public road and other transportation purposes. 1994 Op. Att'y Gen. No. 94-1.

32-2-3. Development of transportation plans; public hearings; approval of plans by board; promulgation of rules and regulations.

(a) As used in this Code section, the term:

(1) "Comprehensive plan" means the major transportation facilities described in this Code section as well as collectors and interconnecting routes within or between standard metropolitan areas, urban areas, and rural areas.

(2) "Local governing body" means the governing body of the city, town, municipality, county, or other local governing unit or authority in the area in which the transportation facility will be located.

(3) "Major transportation facility" means:

(A) Any facility primarily designed to transport people or goods rapidly and efficiently, including but not limited to air transport facilities, railroads, bus services, terminals, freeways, expressways, arterial highways, belt highways, and port facilities; or

(B) Any facility or facilities utilized in providing a mass transit system for a standard metropolitan area or urban area.

(4) "Standard metropolitan area" means a county or group of contiguous counties or parts thereof as designated by the department which contains at least one central city of 50,000 inhabitants or more as determined by the latest available federal census or such other population estimate as may be provided by law.

(5) "Transportation corridor" means a strip of land between two termini or central points within which travel, topography, land uses, environment, and other characteristics are evaluated for transportation purposes.

(6) "Urban area" means an area including and adjacent to a municipality and other urban centers having a population of 5,000 or more as determined by the latest available federal census or such other population estimates as may be provided by law within boundaries to be fixed by the department.

(b)(1) The department in conjunction with the affected local governmental bodies, regional planning agencies, and other appropriate state and federal agencies shall develop:

(A) A comprehensive, state-wide, 20 year transportation plan;

(B) A comprehensive transportation plan for all standard metropolitan areas and those areas which the department determines, based upon population projections, will become a standard metropolitan area within 20 years, such plan to supplement and be compatible with the state-wide transportation plan; and

(C) Comprehensive plans for regions and urban areas as such plans are deemed necessary by the department.

(2) Priority for developing comprehensive plans shall be given to areas in which the need for construction of major transportation facilities is anticipated.

(3) In developing comprehensive transportation plans, the department shall take into account:

(A) Future as well as present needs;

(B) All possible alternative modes of transportation;

(C) The joint use of transportation corridors and major transportation facilities for alternate transportation and community uses;

(D) The integration of any proposed system into all other types of transportation facilities in the community or region;

(E) The coordination with other development plans in the community and region so as to facilitate and synchronize growth; and

(F) The total environment of the community and region including land use, state and regional development goals and decisions, population, travel patterns, traffic control features, ecology, pollution effects, esthetics, safety, and social and community values.

(c) In order to ensure an integrated transportation system, the planning, location, and design of transportation facilities shall be coordinated with the appropriate planning agencies and the affected local governmental bodies.

(d)(1) The department may adopt local or regional transportation plans as part of or in lieu of the department's plan.

(2) The department may develop and design plans for arterial and collector roads and streets, vehicular parking areas, other transportation modes and facilities, and other support facilities which are consistent with the department's comprehensive transportation plans. The department may render to local governmental bodies or their planning agencies such technical assistance and services as are necessary so that local plans and facilities are coordinated with the department's plans and facilities.

(e) The department shall develop systematic techniques for considering those factors to be used in developing comprehensive plans pursuant to subsection (b) of this Code section so that all transportation facilities are so planned that they will function as integral parts of the overall plan for community, regional, and state development as portrayed in the comprehensive plans; and these plans shall be updated at reasonable intervals so as to maintain a viable plan for a 20 year planning period.

(f)(1) The department shall, pursuant to its rules and regulations, hold planning hearings at the appropriate state, regional, or local level, at which time the comprehensive transportation plans included in subsection (b) of this Code section shall be presented for discussion and comment.

(2) The department shall, pursuant to its rules and regulations, hold hearings at the appropriate regional or local level for major transportation facilities, or as required by federal law, as follows:

(A) A facility, site, or project corridor hearing, at a time after the selection of the type or types of transportation facility or facilities to be constructed and prior to the final selection of the specific site or corridor of the proposed facility; and

(B) A design hearing, at a time prior to the department's commitment to a specific design proposal for the facility or facilities.

(3) These public hearings shall be conducted so as to provide an opportunity for effective participation by interested persons in transportation policy decisions, the process of transportation planning, modal selections, and site and route selection, and the specific location and design of major transportation facilities. The various factors involved in the decision or decisions and any alternative proposals shall be clearly presented so that the persons attending the hearing may present their views relating to the decision or decisions which will be made. The facility, site, or project corridor hearing and the design hearing for a proposed facility or facilities may be held simultaneously to satisfy the requirements of this subsection.

(4)(A) The department may satisfy the requirements for a public hearing by holding a public hearing or by publishing two notices of opportunity for public hearing in a newspaper having general circulation in the vicinity of the proposed undertaking and holding a public hearing if any written requests for such a hearing are received. The procedure for requesting a public hearing shall be explained in the notice. The deadline for submission of such a request may not be less than 21 days after the publication of the first notice of opportunity for public hearing and no less than 14 days after the date of publication of the second notice of opportunity for public hearing.

(B) A copy of the notice of opportunity for public hearing shall be furnished at the time of publication to the United States Department of Transportation, the appropriate departments of state government, and affected local governments and planning agencies. If no requests are received in response to a notice within the time specified for the submission of requests, the department shall be deemed to have met the hearing requirements.

(C) The opportunity for another public hearing shall be afforded in any case when proposed locations or designs are changed from those presented in the notices specified in this paragraph or at a public hearing so as to have a substantially different transportation service, social, economic, or environmental effect.

(D) The opportunity for a public hearing shall be afforded in each case in which the department is in doubt as to whether a public hearing is required.

(5)(A) When a public hearing is to be held, two notices of such hearing shall be published in a newspaper having general circulation in the vicinity of the proposed undertaking. The first notice shall be published no less than 30 days prior to the date of the hearing and the second notice shall be published no less than five days prior to the date of the hearing.

(B) Copies of the notice for public hearing shall be mailed to the United States Department of Transportation, appropriate departments of state government, and affected local governments and planning agencies.

(g) All long-range comprehensive transportation plans developed pursuant to this Code section shall be submitted to the board for its approval or disapproval.

(h) The department shall promulgate any rules and regulations, consistent with its practices, that it deems necessary in order to implement this title. (Ga. L. 1972, p. 1215, §§ 1-7; Code 1933, § 95A-205, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1982, p. 3, § 32; Ga. L. 1985, p. 149, § 32; Ga. L. 1986, p. 796, § 1; Ga. L. 2001, p. 4, § 32.)

Code Commission notes. — Pursuant to Code Section 28-9-5, in 1985, periods have been substituted for semicolons at the end of subparagraph (b)(1)(C) and paragraph (b)(2).

Pursuant to Code Section 28-9-5, in 1986, “shall” was substituted for “will” following “Code section” in paragraph (f)(1).

OPINIONS OF THE ATTORNEY GENERAL

Construed with Environmental Policy Act and § 27-3-132. — Factors enumerated in the Environmental Policy Act, O.C.G.A. § 12-16-1 et seq., must be considered when evaluating environmen-

tal concerns under O.C.G.A. § 32-2-3. The provisions of O.C.G.A. § 27-3-132 are not repealed by implication by the Georgia Environmental Policy Act. 1991 Op. Att’y Gen. No. 91-29.

RESEARCH REFERENCES

ALR. — Constitutionality of statute or ordinance denying right of property owners to defeat a proposed street improvement by protest, 52 ALR 883.

Right of private citizen to complain of re-routing of highway or removal or change of route or directional signs, 97 ALR 192.

32-2-4. Information for traveling public.

In order to provide information in the specific interest of the traveling public, the department is authorized to maintain maps and to permit informational directories and advertising pamphlets to be made available at safety rest areas and to establish information centers at safety rest areas for the purpose of informing the public of places of interest

within the state and providing such other information as may be considered desirable. (Ga. L. 1967, p. 423, § 14; Code 1933, § 95A-933, enacted by Ga. L. 1973, p. 947, § 1.)

Cross references. — Installation and operation of vending machines in safety rest areas, § 32-6-116.

32-2-4.1. Gateway Center.

(a) Notwithstanding any other provision of law to the contrary, the department may acquire, construct, operate, and maintain a demonstration safety rest area and information center in Cobb County. For purposes of this Code section, the safety rest area and information center shall be known as the “Gateway Center,” but the State Transportation Board may name or designate the center in its discretion. In addition to the powers provided in this Code section, cumulatively, the department shall have the same powers with respect to Gateway Center which the department otherwise enjoys with respect to safety rest areas, information centers, and welcome centers.

(b) The purpose of Gateway Center shall be to act as a “gateway” to all of Georgia. Toward that end it shall provide information, goods, and services which assist road travelers and tell them about Georgia. The center may have any facility and provide any service which furthers those purposes, including by way of illustration, but not limitation:

- (1) Playground equipment;
- (2) Recreation areas;
- (3) Indoor and outdoor eating areas;
- (4) Restaurant, snack bar, and other facilities for purveying food and beverage;
- (5) Vending machines;
- (6) Gift, novelty, and souvenir shops;
- (7) Advertising;
- (8) Information kiosks;
- (9) Multimedia displays;
- (10) Communication services, such as computer Internet connections;
- (11) Parking; and
- (12) Markets.

The prices charged for any service or product shall approximate the prevailing rate within the area for similar items so as not to compete unfairly with private enterprise.

(c) The department may establish a business plan for self-sufficient operation of Gateway Center and may retain for its improvement, maintenance, and operation all miscellaneous funds generated by its operation. Funds not expended for this purpose in the fiscal year in which they are generated shall be deposited in the state treasury. Further, nothing in this Code section may be construed to allow the department to retain any funds required by the Constitution of Georgia to be paid into the state treasury. Except with respect to Code Section 45-12-92 concerning miscellaneous funds, the department must also comply with Part 1 of Article 4 of Chapter 12 of Title 45, the "Budget Act," in regard to the fiscal operation of the center.

(d) By competitive process or negotiation, in its discretion, the department may contract, rent, license, allow, delegate, or otherwise act to cause private persons, public instrumentalities, and entities and units of state and local government to conduct the activities of the center. The department may accept monetary payments in return for rights and privileges, and it may also accept in-kind consideration, which supports the purposes of this Code section. The agreements under this Code section may allow the second parties to produce and retain revenue and may have a term not exceeding 50 years, whether the party is public or private. However, in no event may the department abrogate its ultimate responsibility or convey the fee, an estate for years, or any other interest in the real property of Gateway Center for the purposes of this Code section.

(e) Gateway Center may be a "welcome center, tourist center, and safety rest area" for purposes of Code Section 49-9-42, and the preference given by Code Sections 49-9-41 and 49-9-42 shall apply to and affect Gateway Center.

(f) Gateway Center shall be a "safety rest area and welcome center" for purposes of Code Section 35-2-32, and the Uniform Division of the Department of Public Safety may have jurisdiction to patrol Gateway Center for the purposes stated in that Code section.

(g) The department may pay the costs of Gateway Center from any lawful fund source, if it can comply with requirements of the fund source and this Code section. Possible sources may include, without limitation, miscellaneous funds from operation, gift, appropriation, proceeds of general obligation debt, funds of cooperating local governments and authorities, and grants by the United States or any agency or instrumentality thereof. (Code 1981, § 32-2-4.1, enacted by Ga. L. 1998, p. 1675, § 1; Ga. L. 2000, p. 1153, § 6; Ga. L. 2012, p. 303, § 6/HB 1146.)

The 2012 amendment, effective July 1, 2012, in subsection (e), substituted “Code Section 49-9-42” for “Code Section 34-15-42” and substituted “Code Sections 49-9-41 and 49-9-42” for “Code Sections 34-15-41 and 34-15-42”.

32-2-5. Actions by or against department.

(a) The department shall have the authority to bring actions; and it may be sued in such actions as are permitted by law. In addition, the department may adjust and make settlement of any and all claims presented to it under oath.

(b) All actions brought ex contractu by or against the department shall be brought in a county where any part of the work is to be or has been performed. All other actions by or against the department shall be brought in the county in which the cause of action arose. Service upon the department shall be sufficient by serving a second original process issued from the county where the action is filed upon the commissioner personally or by leaving a copy of the same in the office of the commissioner in the Department of Transportation Building, Atlanta, Georgia. (Ga. L. 1919, p. 242, art. 6, § 3; Ga. L. 1925, p. 208, § 4; Code 1933, § 95-1505; Code 1933, § 95A-304, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1974, p. 1422, § 10.)

Law reviews. — For article surveying contracts — legislation, see 34 Mercer L. Rev. 71 (1982).

For note analyzing sovereign immunity in this state and proposing implementa-

tion of a waiver scheme and creation of a court of claims, pursuant to the Georgia Constitution, see 27 Emory L.J. 717 (1978).

JUDICIAL DECISIONS

ANALYSIS

GENERAL CONSIDERATION
ACTIONS AGAINST DEPARTMENT
STATE'S CAPACITY TO SUE
STATE'S LIABILITY TO SUIT

General Consideration

Editor's notes. — In light of the similarity of the statutory provisions, decisions under former Code 1933, §§ 95-1701, 95-1709, 95-1710, and 95-1720, which were subsequently repealed but were succeeded by provisions in this Code section, are included in the annotations for this Code section.

Cited in *Habersham County v. Cornwall*, 38 Ga. App. 419, 144 S.E. 55 (1928); *Counihan v. Department of Transp.*, 162 Ga. App. 374, 290 S.E.2d 514 (1982); *Medical Ctr. Hosp. Auth. v.*

Andrews, 162 Ga. App. 687, 292 S.E.2d 197 (1982); *Donaldson v. DOT*, 262 Ga. 49, 414 S.E.2d 638 (1992); *Georgia DOT v. Smith*, 210 Ga. App. 741, 437 S.E.2d 811 (1993).

Actions Against Department

Constitutionality. — See *Andrews v. Department of Transp.*, 133 Ga. App. 78, 210 S.E.2d 30 (1974).

Section does not waive department's immunity. — Only under certain limited and previously recognized circumstances may suits be maintained against

the Department of Transportation; there was no intent by the General Assembly to waive immunity and permit suits for torts against the department. *Andrews v. Department of Transp.*, 133 Ga. App. 78, 210 S.E.2d 30 (1974).

Department of Transportation of the State of Georgia may rely on the defense of sovereign immunity in suits seeking to recover damages for breach of contract. *National Distrib. Co. v. Department of Transp.*, 248 Ga. 451, 283 S.E.2d 470 (1981).

There was no intent by the General Assembly in enacting subsection (a) of O.C.G.A. § 32-2-5 to waive immunity and permit suits for torts against the Department of Transportation. *Huggins v. Georgia Dep't of Transp.*, 165 Ga. App. 178, 300 S.E.2d 195 (1983).

Suit is permissible in several situations. — Suit can be maintained against the State Highway Department (now Department of Transportation) for breach of contract and for recovery of just compensation if private property is taken or damaged for public purposes. *Andrews v. Department of Transp.*, 133 Ga. App. 78, 210 S.E.2d 30 (1974).

Sovereign immunity of the Department of Transportation is pierced by the constitutional right insofar as required by Ga. Const. 1976, Art. I, Sec. III, Para. I (see Ga. Const. 1983, Art. I, Sec. III, Para. I); but no support exists for the argument that a waiver of sovereign immunity exists for an *ex contractu* action against the Department of Transportation which is not predicated upon Ga. Const. 1976, Art. I, Sec. III, Para. I (see Ga. Const. 1983, Art. I, Sec. III, Para. I). *National Distrib. Co. v. Department of Transp.*, 157 Ga. App. 789, 278 S.E.2d 648, *aff'd*, 248 Ga. 451, 283 S.E.2d 470 (1981).

Personal service by authorized person required. — Language in O.C.G.A. § 32-2-5 authorizing service “by leaving a copy [of process] in the office of the commissioner” contemplates that service may be accomplished by personally serving a person in the Department of Transportation building who is authorized or otherwise qualified to receive service; such service must be made by an authorized person, and employing a private delivery

service to deliver a package containing the summons and complaint failed to accomplish the required personal service. *DOT v. Marks*, 219 Ga. App. 738, 466 S.E.2d 273 (1995).

Effect of motor vehicle liability insurance. — Department of Transportation, as a state agency, does not come within the ambit of O.C.G.A. § 33-24-51(b), which provides for waiver of governmental immunity to the extent of the amount of motor vehicle liability insurance purchased by “a municipal corporation, a county, or any other political subdivision of this state....” *Huggins v. Georgia Dep't of Transp.*, 165 Ga. App. 178, 300 S.E.2d 195 (1983).

Not all actions *ex contractu* are authorized. — Fact that an action *ex contractu* is a correct procedural form by which to assert a constitutionally authorized action against the Department of Transportation does not permit an inference that all actions *ex contractu* are thus authorized. *National Distrib. Co. v. Department of Transp.*, 157 Ga. App. 789, 278 S.E.2d 648, *aff'd*, 248 Ga. 451, 283 S.E.2d 470 (1981).

Who may sue and be sued in permitted actions. — Department of Transportation, consisting of the State Transportation Board, the commissioner of transportation, the deputy commissioner of transportation, the state highway engineer, the treasurer and the assistant treasurer of transportation, and such subordinate employees as may be deemed necessary by the commissioner, may sue and be sued in such actions as are permitted by law. *National Distrib. Co. v. Department of Transp.*, 157 Ga. App. 789, 278 S.E.2d 648, *aff'd*, 248 Ga. 451, 283 S.E.2d 470 (1981).

State department as joint tortfeasor. — State department or agency can be considered a joint tortfeasor with other resident defendants for venue purposes. *Gault v. National Union Fire Ins. Co.*, 208 Ga. App. 134, 430 S.E.2d 63 (1993).

Venue against an employee of the DOT may be had in a county only if the employee is an alleged joint tortfeasor with a defendant resident in that county. *Gault v. National Union Fire Ins. Co.*, 208

Actions Against Department (Cont'd)

Ga. App. 134, 430 S.E.2d 63 (1993).

Section is venue statute only. — An action wherein grantors sought to recover against the Department of Transportation for alleged breach of conditions contained in an agreement delineated a "Soil Easement" could not be maintained under the authority of O.C.G.A. § 32-2-5 which is a venue statute only. *National Distrib. Co. v. Department of Transp.*, 157 Ga. App. 789, 278 S.E.2d 648, aff'd, 248 Ga. 451, 283 S.E.2d 470 (1981).

Special venue statutes cumulative of other venue statutes. — It appears that there is no authority that special venue statutes are exclusive and the inference in the cases is that the special venue statutes are cumulative of other venue statutes. *Jahncke Serv., Inc. v. Department of Transp.*, 134 Ga. App. 106, 213 S.E.2d 150 (1975).

Venue of action against department and joint tortfeasor. — In an action by a landowner against the Department of Transportation (DOT) and a corporation for abatement of a nuisance, the county in which the cause of action against DOT arose was the residence of DOT for purposes of the action; this allowed the corporation, as a resident joint tortfeasor, to be joined, even though the corporation resided in a separate county. *C.W. Matthews Contracting Co. v. Barnett*, 219 Ga. App. 763, 466 S.E.2d 657 (1996).

State's Capacity to Sue

Authority to sue. — State has complete power over the state's internal highway system, including bridges, and in the state's corporate capacity as sovereign may sue for any injury or interference with the state's highway system. *State Hwy. Dep't v. Florence*, 73 Ga. App. 852, 38 S.E.2d 628 (1946) (decided under former Code 1933, §§ 95-1701, 95-1709, 95-1720).

Legislative intent to let Department of Transportation protect state's interests. — General Assembly intended to confer upon the State Highway Department (now Department of Transportation), as one of the state's public agencies, not only the duty of con-

structing, maintaining, and repairing the highways and bridges of the state-aid system of roads, but also to confer on the Highway Department (now Department of Transportation) the right to protect the state's interest in matters growing out of the maintenance of the state's state-aid system of roads. *State Hwy. Dep't v. Florence*, 73 Ga. App. 852, 38 S.E.2d 628 (1946) (decided under former Code 1933, §§ 95-1701, 95-1709, 95-1720).

Legislative intent illustrated by giving Department of Transportation right to sue. — State has delegated the right to sue to the State Highway Department (now Department of Transportation), which is financially responsible for the state-aid road system. *State Hwy. Dep't v. Florence*, 73 Ga. App. 852, 38 S.E.2d 628 (1946) (decided under former Code 1933, §§ 95-1701, 95-1709, 95-1720).

Department as bailee for damaged bridge. — State Highway Department (now Department of Transportation) was holding a bridge, as part of the state-aid system of roads under the department's jurisdiction, in trust for the use of the public and with the duty to replace the bridge; and, in this capacity considered as a bailee, the department may bring an action for the allegedly negligent destruction of the bridge. *State Hwy. Dep't v. Florence*, 73 Ga. App. 852, 38 S.E.2d 628 (1946) (decided under former Code 1933, §§ 95-1701, 95-1709, 95-1720).

Use of damages to restore destroyed bridge. — Logical disposition of any money recovered in an action for the destruction of a bridge on a public highway which is to continue in use would be to use the money for the purpose of restoring the destroyed bridge, or where the bridge has already been rebuilt, to use the money to replace, as nearly as possible, those funds which the Highway Department (now Department of Transportation) expended in restoring the bridge. *State Hwy. Dep't v. Florence*, 73 Ga. App. 852, 38 S.E.2d 628 (1946) (decided under former Code 1933, §§ 95-1701, 95-1709, 95-1720).

State's Liability to Suit

Effect of department's acts. — Acts of Department of Transportation are the

acts of the State of Georgia and the state performs a governmental function when the state constructs and maintains highways through the Department of Transportation. *State Hwy. Dep't v. Parker*, 75 Ga. App. 237, 43 S.E.2d 172 (1947) (decided under former Code 1933, § 95-1710).

Extent of Department's powers. — State Highway Department (now Department of Transportation) has no power and no function except those expressly authorized by the state. *State Hwy. Dep't v. Parker*, 75 Ga. App. 237, 43 S.E.2d 172 (1947) (decided under former Code 1933, § 95-1710).

Department not suable without state consent. — Department of Transportation is a part of the sovereign state, an agent or servant of the state, and the department cannot be sued without the express consent of the sovereign. *State Hwy. Dep't v. Parker*, 75 Ga. App. 237, 43 S.E.2d 172 (1947) (decided under former Code 1933, § 95-1710).

State consent given only in limited situations. — Department of Transportation is authorized by the state to sue and to be sued, but the power to sue and to be sued in the case of the department is only for special purposes. *State Hwy. Dep't v. Parker*, 75 Ga. App. 237, 43 S.E.2d 172 (1947) (decided under former Code 1933, § 95-1710).

Situations in which county originally liable. — This section refers to claims for damages against a county

which must have originated under laws existing when the highway is taken over as a state-aid road by the State Highway Department (now Department of Transportation), and when the department "ultimately may be liable," not primarily liable. *Tounsel v. State Hwy. Dep't*, 180 Ga. 112, 178 S.E. 285, answer conformed to, 50 Ga. App. 520, 179 S.E. 167 (1935) (decided under former Code 1933, § 95-1710).

No consent for suits for personal injuries. — Right to "make settlement of all claims presented to it under oath," certainly does not include the right to sue the State Highway Department (now Department of Transportation) for damages for personal injuries due to negligence of the department's engineers, but refers to such matters as are expressly provided in statute. *Tounsel v. State Hwy. Dep't*, 180 Ga. 112, 178 S.E. 285, answer conformed to, 50 Ga. App. 520, 179 S.E. 167 (1935) (decided under former Code 1933, § 95-1710).

Consent for suits for personal injuries given where employee sues for workers' compensation. — An employee of the Department of Transportation has a right to bring an action directly against the department under the workers' compensation law for compensation for an injury arising out of and during the course of employment by the department. *State Hwy. Dep't v. Parker*, 75 Ga. App. 237, 43 S.E.2d 172 (1947) (decided under former Code 1933, § 95-1710).

OPINIONS OF THE ATTORNEY GENERAL

Editor's notes. — In light of the similarity of the statutory provisions, opinions under former law are included in the annotations of this Code section.

Necessity for retaining highway project file for 20-year period. — It is necessary to retain an entire highway project file for a 20-year period; retaining

the release, final voucher, and contract for this period will not adequately protect the state's interest in compliance with state law because highway construction contracts are sealed contracts and are therefore subject to a 20-year statute of limitations. 1973 Op. Att'y Gen. No. 73-89 (decided under former law).

 highway or street, 97 ALR3d 11.

32-2-6. Liability of department for actions against counties; procedure to institute actions.

(a) The department shall defend any action and be responsible for all damages awarded therein in any court of this state against any county under existing laws whenever the cause of action accrues on a public road which at the time of accrual had been designated by the department as a part of the state highway system; provided, however, that no action may be brought under this Code section until the construction of the public road on which the injury complained of occurred has been completed and such public road has been officially opened to traffic as provided in subsection (b) of this Code section. When any such action is brought against a county in any court of this state, it shall be the duty of the plaintiff to provide for service of notice of the pendency of such action against the county upon the department by providing for service of a second original process, issued from the court where the action is filed, upon the commissioner personally or by leaving a copy of the same in the office of the commissioner in the Department of Transportation Building, Atlanta, Georgia. The service of process in such action upon the county shall not be perfected until such second original process has been served as provided in this Code section. The department shall also have the right and authority to defend, adjust, and settle in the name of such county and on its behalf any claim for damages for which the department ultimately may be liable under this Code section.

(b) A public road shall be officially opened to traffic within the meaning of this Code section on the date that the department gives written notice of final acceptance of such work to the contractor or political subdivision performing the work on such road or otherwise in writing acts so as to open the road to traffic by the general public. (Code 1933, § 95A-305, enacted by Ga. L. 1973, p. 947, § 1.)

JUDICIAL DECISIONS

ANALYSIS

GENERAL CONSIDERATION
 JOINT STATE-COUNTY SUITS
 STATE LIABILITY
 LIMITS ON STATE LIABILITY
 COUNTY LIABILITY
 LIABILITY OF OTHER PARTIES

General Consideration

Editor's notes. — In light of the similarity of the statutory provisions, decisions under former Code 1933, §§ 95-1505, 95-1710, and 95-1712, which were subsequently repealed but were succeeded by provisions in this Code section, are included in the annotations for this Code section.

County's immunity from liability not waived. — This section specifically limits responsibility to those damages awarded against any county "under existing laws" and is not a waiver of the county's immunity from liability. *Williams v. Georgia Power Co.*, 233 Ga. 517, 212 S.E.2d 348 (1975) (see O.C.G.A. § 32-2-6).

No sovereign immunity from inverse condemnation action. — O.C.G.A. § 32-2-6 applies only to actions when sovereign immunity exists and must be statutorily waived. No sovereign immunity exists when a cause of action for inverse condemnation lies because the Constitution itself affords the right. *Powell v. Ledbetter Bros.*, 251 Ga. 649, 307 S.E.2d 663 (1983), overruled in part on other grounds, *David Allen Co. v. Benton*, 260 Ga. 557, 398 S.E.2d 191 (1990).

Cited in *Evans County v. McDonald*, 133 Ga. App. 955, 213 S.E.2d 82 (1975); *Counihan v. Department of Transp.*, 162 Ga. App. 374, 290 S.E.2d 514 (1982).

Joint State-County Suits

County need not be plaintiff in suit by board. — When the State Highway Board (now State Transportation Board) brings an action for declaratory judgment there is no statute which requires that the county where the subject matter of the suit is located be named a party plaintiff in the case. *Woodside v. State Hwy. Dep't*, 216 Ga. 254, 115 S.E.2d 560 (1960) (decided under former Code 1933, § 95-1710).

County could "vouch" in the Department of Transportation in an action brought against the county for personal injuries and wrongful death arising out of a collision at a highway intersection. *DOT v. Land*, 181 Ga. App. 94, 351 S.E.2d 470 (1986), *aff'd* except as to that part of the opinion affirming the trial

court's dismissal of the Department of Transportation as a named party, 257 Ga. 657, 362 S.E.2d 372 (1987); and vacated insofar as it is inconsistent, 185 Ga. App. 630, 366 S.E.2d 242 (1988).

County not proper party when suit lies against Department of Transportation. — O.C.G.A. § 32-2-6 does not make the county in which roads and bridges are located a proper and necessary party by operation of law when suit lies against the Department of Transportation. The section requires suit be brought against the county and the Department of Transportation shall defend, not vice versa. *Powell v. Ledbetter Bros.*, 251 Ga. 649, 307 S.E.2d 663 (1983), overruled in part on other grounds, *David Allen Co. v. Benton*, 260 Ga. 557, 398 S.E.2d 191 (1990).

State Liability

Department defends suits originating on state highways. — State Highway Department (now Department of Transportation) shall defend all suits and be responsible for all damages awarded against any county whenever the cause of action originates on highways, jurisdiction over which has been assumed by the department under the terms of the law. *Berrien County v. Vickers*, 73 Ga. App. 863, 38 S.E.2d 619 (1946) (decided under former Code 1933, § 95-1710).

Department defends suits after highway has been opened. — Language of this section is confined to suits brought against the county for causes of action originating on highways, placing ultimate liability upon the Department of Transportation which is to be made a defendant in such actions, and prohibiting the bringing of such actions until the highway is opened to traffic by the department. *Fulton County v. Woodside*, 223 Ga. 316, 155 S.E.2d 404 (1967) (decided under former Code 1933, §§ 95-1710, 95-1712).

Department defends suits even when plaintiff sold land before highway opened. — While the authority of the property owner to institute a suit against a county for damages to property arising from construction of a state-aid road by the Highway Department (now Department of Transportation) is re-

State Liability (Cont'd)

stricted until the state-aid road involved is completed and opened to traffic; the fact that the property owner has divested oneself of title to the property allegedly damaged before the state-aid road involved had been formally opened to traffic and the cause of action had thereby accrued does not defeat the owner's cause of action. *Dougherty County v. Pylant*, 104 Ga. App. 468, 122 S.E.2d 117 (1961) (decided under former Code 1933, § 95-1712).

Department as defendant in claim against its insured employees. — When a claim is covered to the extent of insurance provided to employees of the Department of Transportation (DOT), and the employees are named as defendants in the complaint, it is proper to name DOT as a party defendant, even though DOT carries no liability insurance as to such actions. *DOT v. Land*, 257 Ga. 657, 362 S.E.2d 372 (1987).

Limits on State Liability

Department's acts are acts of the State of Georgia, and the state, in the construction and maintenance of highways through the Department of Transportation, performs a governmental function. *State Hwy. Dep't v. Parker*, 75 Ga. App. 237, 43 S.E.2d 172 (1947) (decided under former Code 1933, §§ 95-1505, 95-1710).

Department cannot be sued without state consent. — Department of Transportation is a part of the sovereign state, an agent or servant of the state, and the department cannot be sued without the express consent of the sovereign. *State Hwy. Dep't v. Parker*, 75 Ga. App. 237, 43 S.E.2d 172 (1947) (decided under former Code 1933, §§ 95-1505, 95-1710).

Department may sue or be sued for only limited purposes. — Highway Department (now Department of Transportation) has no powers and no functions except those expressly authorized by the state; although the Department of Transportation is authorized by the state to sue and to be sued, the power to sue and to be sued in the case of the department is only for special purposes. *State Hwy. Dep't v. Parker*, 75 Ga. App. 237, 43 S.E.2d 172

(1947) (decided under former Code 1933, §§ 95-1505, 95-1710).

Negligent severance of building and negligent relocation of trunk sewer. — State Highway Department (now Department of Transportation) may be sued for the negligent severance of a building and the negligent relocation of a trunk sewer for the purpose of clearing a right of way for the construction of a state-aid road, which is sufficient to show a cause of action which originates on a highway. *Fulton County v. Woodside*, 223 Ga. 316, 155 S.E.2d 404 (1967) (decided under former Code 1933, §§ 95-1710, 95-1712).

Remedies for damages off highway not actions against department. — Procedure for bringing an action against the Department of Transportation is inapplicable to a case where the injury does not originate on a highway; if there has been an independent taking of private property for public use, the injured party is relegated either to the remedy of injunction or mandamus, when such a remedy is appropriate, or else to an action at law. *State Hwy. Dep't v. Parker*, 75 Ga. App. 237, 43 S.E.2d 172 (1947) (decided under former Code 1933, § 95-1710).

Exception for employee suing department for workers' compensation. — Employee of the Department of Transportation may bring an action directly against the department under the Workers' Compensation Act for an injury arising out of and during the course of employment; this is the sole exception under which the legislature has granted authority for the department to be sued other than the method provided for in statute. *State Hwy. Dep't v. Parker*, 75 Ga. App. 237, 43 S.E.2d 172 (1947) (decided under former Code 1933, §§ 95-1505, 95-1710).

County Liability

No waiver of immunity. — County was not liable because the county had no liability insurance and thus retained the county's sovereign immunity; under O.C.G.A. § 32-2-6, there was nothing which the DOT must have defended or for which DOT must have been responsible for on behalf of the county. *DOT v. Price*, 208 Ga. App. 320, 430 S.E.2d 602 (1993).

Department of Transportation's waiver of DOT's own immunity by the purchase of liability insurance for employees could not have created a "total" or "partial waiver" of the county's immunity. *DOT v. Price*, 208 Ga. App. 320, 430 S.E.2d 602 (1993).

No liability for county. — When there is no liability for the county, the mechanism for holding the DOT responsible for damages under O.C.G.A. § 32-2-6 does not create such liability. *Christian v. Monroe County*, 203 Ga. App. 342, 417 S.E.2d 37 (1992).

Where damage off highway. — When the department takes rock from land not on a highway, and uses the rock in the construction of a road, the owner's cause of action does not originate on a highway, and the owner's remedy is an action against the board in the county of the residence of a member at the time the suit is brought. *State Hwy. Dep't v. Parker*, 75 Ga. App. 237, 43 S.E.2d 172 (1947) (decided under former Code 1933, § 95-1710).

Liability of Other Parties

Section not applicable to other defendants. — Provisions of this section do

not include common-law tort actions against parties other than a county and the Department of Transportation simply because the alleged negligent act "originated on a highway." *Fulton County v. Woodside*, 223 Ga. 316, 155 S.E.2d 404 (1967) (decided under former Code 1933, §§ 95-1710, 95-1712).

Actions against contractors. — Proceeding against a private contractor although based upon a cause of action "originating on a highway" could be maintained without adherence to the provisions of this section. *Fulton County v. Woodside*, 223 Ga. 316, 155 S.E.2d 404 (1967) (decided under former Code 1933, §§ 95-1710, 95-1712).

Section on necessary parties not applicable to declaratory judgments. — When the suit was for a declaratory judgment and was not brought under former Code 1933, § 95-1710, a provision of that statute relating to necessary parties was inapplicable to the case made by the petition. *Woodside v. State Hwy. Dep't*, 216 Ga. 254, 115 S.E.2d 560 (1960) (decided under former Code 1933, § 95-1710).

RESEARCH REFERENCES

ALR. — Liability, in motor vehicle-related cases, of governmental entity for injury or death resulting from

design, construction, or failure to warn of narrow bridge, 2 ALR4th 635.

32-2-7. Compensation for employees injured in line of duty.

(a) As used in this Code section, the term "external violence, accident, or injury" means any act of violence, an accident, or an injury that is caused by a person other than:

- (1) One who is an employee of the department; or
- (2) One who is an employee of a contractor or subcontractor performing duties under a contract with the department.

(b) Any employee of the department who, on or after July 1, 1987, is injured in the line of duty by an act of external violence, accident, or injury shall be entitled to receive compensation as provided in this Code section. Going to and from work shall not be considered in the line of duty. For the purposes of this Code section, "line of duty" means working in the proximity of traffic movements or equipment movements

doing maintenance, construction, or other activities which may be construed as hazardous.

(c) An employee injured in the line of duty as provided in subsection (b) of this Code section shall continue to receive his regular compensation for the period of time that the employee is physically unable to perform the duties of his employment; provided, however, that such benefits provided in this Code section shall not be granted for injuries resulting from a single incident for more than a total of 180 working days. An employee shall be required to submit to his department head satisfactory evidence of such disability.

(d) Benefits made available under this Code section shall be subordinate to any workers' compensation benefits for which the employee is eligible and shall be limited to the difference between the amount of available workers' compensation benefits and the amount of the employee's regular compensation. (Code 1981, § 32-2-7, enacted by Ga. L. 1987, p. 390, § 1.)

32-2-8. Department to fly POW-MIA flag at interstate rest areas.

The Department of Transportation shall fly the POW-MIA flag year-round at each of the rest areas along interstate highways in this state. The department is authorized to place a plaque at each rest area to indicate Georgia's appreciation of the sacrifices of prisoners of war and those missing in action and their families. (Code 1981, § 32-2-8, enacted by Ga. L. 2001, p. 485, § 1.)

Code Commission notes. — Pursuant to Code Section 28-9-5, in 2001, “year-round” was substituted for “year round” in the first sentence.

ARTICLE 2

STATE TRANSPORTATION BOARD

Editor's notes. — Ga. L. 2001, p. 1215, § 2, not codified by the General Assembly, provides that: “No state agency shall name or rename any state road, bridge, interchange, or any part of a road in honor of, or with the name of, any person unless such action is approved by a joint resolution or Act of the General Assembly which is approved by the Governor or becomes law without such approval. This Code section shall not apply to a political sub-

division of the state naming any road which is under the jurisdiction of such political subdivision.”

Ga. L. 2006, p. 72, § 32A/SB 465, not codified by the General Assembly, provided for the repeal of Ga. L. 2001, p. 1215, § 2, which section has been codified as and superceded by Code Section 32-4-3, relating to naming state roads, bridges, or interchanges, and which Code section shall remain effective.

32-2-20. Composition of board; qualifications of members; terms of office; manner of selection of members; filling of vacancies; officers; meetings; compensation of members.

(a) The State Transportation Board shall be composed of one member to be chosen from each congressional district of the state in the manner provided in subsection (b) of this Code section. Each member of the board shall be a resident of the congressional district which he or she represents. In the event any person who is an officer, agent, official, or employee of the state or of any county, municipality, or other political subdivision thereof or who is a member of the General Assembly is appointed or elected as a member of the board, such person must resign as such officer, agent, official, employee, or member prior to taking office as a member of the board.

(b) Each member shall be elected to serve for a term of five years and until his or her successor is duly elected and certified. The member of the board from each congressional district shall be elected by a majority vote of the members of the House of Representatives and Senate whose respective districts are embraced or partly embraced within such congressional district, meeting in caucus at the regular session of the General Assembly immediately preceding the expiration of the term of office of each such board member. Said caucus shall be called at the state capitol by the Speaker of the House of Representatives and the President of the Senate within the first ten days of the convening of the General Assembly in regular session by mailing to the members of the General Assembly who are affected written notice at least four days before the caucus, which notice shall state the time, place, and purpose of said caucus. Within 15 days after each such election, the Speaker of the House and the President of the Senate shall jointly transmit a certificate of such election to the Secretary of State who, upon receipt thereof, shall immediately issue his or her commission thereon, with the great seal of the state affixed thereto. Any member of the board shall be subject to recall at any time by a majority vote of the legislative caucus that elected the member.

(c) In the event that any vacancy for any cause shall occur in the membership of the board during any regular session of the General Assembly, the remainder of the unexpired term shall be filled by a member elected by a majority vote of those members of the General Assembly whose respective districts are embraced or partly embraced within the congressional district where the vacancy occurred, in the same manner as provided in subsection (b) of this Code section for the election of board members. In the event that any vacancy for any cause shall occur in the membership of the board while the General Assembly is not in session, the remainder of the unexpired term shall be filled by

a member elected by a majority vote of those members of the General Assembly whose respective districts are embraced or partly embraced within the congressional district where the vacancy occurred, at a meeting which shall be called by the Speaker of the House of Representatives and the President of the Senate at some convenient location and in the manner provided in subsection (b) of this Code section for the election of board members.

(d) The board shall, by majority vote of those members present and voting at regular sessions, elect from their number a chairman and vice-chairman who shall serve at the pleasure of the board. In like manner, the board shall also elect a secretary, who need not necessarily be a member of the board, and who shall also serve at the pleasure of the board.

(e) The board shall meet in regular session at least one day each month, at least nine of which regular sessions are to be held at the headquarters of the Department of Transportation in Atlanta, and at such other special meetings as may be called by the commissioner, by the chairman, or by a majority of the members of the board upon reasonable written notice to all members of the board. Further, the chairman of the board or the commissioner is authorized from time to time to call meetings of committees of the board which are established by board policy; and to require the attendance of a member or members of the board at places inside or outside the state when, in the opinion of the chairman or the commissioner, the member or members of the board are needed to attend properly to the department's business. A majority of the board shall constitute a quorum for the transaction of all business including election or removal of the commissioner. Except as otherwise provided in this title, any power of the board may be exercised by a majority vote of those members present at any meeting at which there is a quorum.

(f) The members of the board shall receive no salary but shall receive for each day of actual attendance at meetings of the board and the committee meetings the per diem and transportation costs prescribed in Code Section 45-7-21. A like sum shall be paid for each day actually spent in studying the transportation needs of the state or attending other functions as a representative of the board, not to exceed 60 days in any calendar year. No per diem shall be paid for meetings of the board conducted by conference call. In addition, they shall receive actual transportation costs while traveling by public carrier or the legal mileage rate for the use of a personal automobile in connection with such attendance and road study. Such per diem and expense shall be paid from funds appropriated to the department upon presentation, by members of the board, of vouchers approved by the chairperson and signed by the secretary. (Ga. L. 1919, p. 242, art. 3, § 2; Ga. L. 1921, p.

199, §§ 6, 7; Code 1933, §§ 95-1601, 95-1602, 95-1603, 95-1605; Ga. L. 1950, p. 62, § 4; Ga. L. 1951, p. 31, § 1; Ga. L. 1958, p. 624, § 1; Ga. L. 1963, p. 3, § 1; Ga. L. 1963, p. 282, § 1; Ga. L. 1967, p. 151, § 1; Ga. L. 1968, p. 1055, § 1; Code 1933, § 95A-306, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1974, p. 1422, § 11; Ga. L. 1975, p. 833, § 1; Ga. L. 1990, p. 296, § 1; Ga. L. 1995, p. 1041, § 1; Ga. L. 1996, p. 6, § 32; Ga. L. 2009, p. 976, § 2/SB 200; Ga. L. 2010, p. 818, § 1/SB 520; Ga. L. 2011, p. 752, § 32/HB 142.)

The 2010 amendment, effective June 3, 2010, in subsection (b), inserted “or her” in the first sentence and in the next-to-last sentence, and added the last sentence.

The 2011 amendment, effective May

13, 2011, part of an Act to revise, modernize, and correct the Code, inserted “or she” in the second sentence of subsection (a).

JUDICIAL DECISIONS

No action for unlawful appropriation. — Without constitutional or statutory authorization, no action lies directly and primarily against the State Highway Board (now State Transportation Board)

for unlawful appropriation of private property for road construction purposes. *Edmonds v. State Hwy. Bd.*, 37 Ga. App. 812, 142 S.E. 214 (1928).

OPINIONS OF THE ATTORNEY GENERAL

Section 21-2-4.1 applicable to State Transportation Board. — O.C.G.A. § 21-2-4.1 applies to whatever appointments must be made to the State Transportation Board as a result of congressional redistricting. 1992 Op. Att’y Gen. No. 92-9.

Lapse of appropriations that become deobligated. — Appropriated state funds which become deobligated during a subsequent fiscal year are subject to lapse and may not be applied to contracts for which motor fuel tax appro-

priations were previously committed. 1993 Op. Att’y Gen. No. 93-9.

Expenses for attendance at out-of-state meetings. — Members of the State Transportation Board of Georgia are entitled to receive, as the daily expense allowance allocated to the members by O.C.G.A. § 45-7-21, their actual expenses for attendance at board and committee meetings which are held out-of-state. 1994 Op. Att’y Gen. No. 94-24.

32-2-21. Powers and duties of board generally.

The board shall be charged with the general control and supervision of the department. In the exercise of such general control and supervision, the board shall have such duties, powers, and authority as are expressly vested in it by this title, including but not limited to:

- (1) Designation of public roads on the state highway system;
- (2) Approval of negotiated construction contracts, of authority lease agreements, or of the advertising of nonnegotiated construction contracts; and
- (3) Approval of all long-range plans and programs of the department. (Ga. L. 1925, p. 208, § 3; Code 1933, § 95-1606; Ga. L. 1950, p. 62, § 6; Code 1933, § 95A-307, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1994, p. 591, § 2; Ga. L. 2009, p. 976, § 3/SB 200.)

OPINIONS OF THE ATTORNEY GENERAL

Lapse of appropriations that become deobligated. — Appropriated state funds which become deobligated during a subsequent fiscal year are sub-

ject to lapse and may not be applied to contracts for which motor fuel tax appropriations were previously committed. 1993 Op. Att'y Gen. No. 93-9.

32-2-22. Definitions; responsibilities of director and Planning Division; approval of program and plan.

(a) As used in this chapter and in Article 2 of Chapter 5 of this title, the term:

(1) "Director" means the director of planning provided for by Code Section 32-2-43.

(2) "Division" means the Planning Division of the department provided for by paragraph (4) of subsection (b) of Code Section 32-2-41.

(3) "Metropolitan planning organization" means the forum for cooperative transportation decision making for a metropolitan planning area.

(4) "Metropolitan transportation plan" means the official intermodal transportation plan that is developed and adopted through the metropolitan transportation planning process for a metropolitan planning area.

(5) “Nonmetropolitan area” means a geographic area outside the designated metropolitan planning areas.

(6) “State-wide strategic transportation plan” means the official, intermodal, comprehensive, fiscally constrained transportation plan which includes projects, programs, and other activities to support implementation of the state’s strategic transportation goals and policies. This plan and the process for developing the plan shall comply with 23 C.F.R. Section 450.104.

(7) “State-wide transportation improvement program” means a state-wide prioritized listing of transportation projects covering a period of four years that is consistent with the state-wide strategic transportation plan, metropolitan transportation plans, and transportation improvement programs and required for multi-modal projects to be eligible for funding under Title 23 U.S.C. and Title 49 U.S.C. Chapter 53.

(8) “Transportation improvement program” means a prioritized listing of transportation projects covering a period of four years that is developed and formally adopted by a metropolitan planning organization as part of the metropolitan transportation planning process, consistent with the metropolitan transportation plan, and required for projects to be eligible for funding under Title 23 U.S.C. and Title 49 U.S.C. Chapter 53.

(b) The director and the division shall:

(1) Review and make recommendations to the Governor concerning all proposed regional land transportation plans and transportation improvement programs and negotiate with the propounder of the plans concerning changes or amendments which may be recommended by the department or the Governor, consistent with applicable federal law and regulation;

(2) Review any transportation projects proposed by the department and adopt, remove, or otherwise include such projects as all or a portion of department plans, consistent with applicable federal law and regulation;

(3) Develop the state-wide strategic transportation plan and the state-wide transportation improvement program and support the various transportation improvement programs;

(4) Develop an annual capital construction project list to be reviewed by the Governor and submitted to the General Assembly for consideration in the budget;

(5) Promulgate rules and regulations necessary to carry out its duties under the provisions of this title. The division shall report the

content of such rules or regulations to the Transportation Committees of the Senate and House of Representatives for their approval by majority vote prior to the promulgation thereof; and

(6) Do all things necessary or convenient to carry out the powers expressly given in this Code section.

(c) After review and approval by the Governor, the state transportation improvement program and the state-wide strategic transportation plan shall be submitted to the State Transportation Board for approval. (Code 1981, § 32-2-22, enacted by Ga. L. 2009, p. 976, § 4/SB 200.)

ARTICLE 3

OFFICERS

32-2-40. Selection of commissioner of transportation; term; vacancy; bond; other elective office.

(a) The commissioner of transportation shall be the chief executive officer of the department.

(b) The commissioner, his successor, and each succeeding commissioner thereafter shall be selected by a vote of the majority of the total number of members of the board. At the time of said vote, the board shall stipulate the term the commissioner shall serve, and said commissioner shall serve during the stipulated term and until his successor is selected by the board and duly qualified. The board shall stipulate one of the following to be the term of the commissioner:

(1) The commissioner shall serve at the pleasure of the board; or

(2) The commissioner shall serve any term specified by the board up to and including a maximum of four years; however, the board shall not specify a term of office that extends beyond the end of the term of the Governor in office at the time the commissioner's term is scheduled to begin.

(c) If the board stipulates that the commissioner shall serve under the provisions of paragraph (2) of this subsection, upon a vote of the majority of the total members of the board, the commissioner shall be subject to removal by the board for just cause after reasonable notice, copy of charge, hearing, and opportunity for presentation of evidence. In the event of a vacancy in the office of the commissioner by reason of resignation, removal, death, or permanent incapacity and inability to perform the duties of the office, the deputy commissioner shall become acting commissioner to serve until such time as the board at any regular or called meeting selects a new commissioner to fill the unexpired term of office created by such vacancy.

(d) The commissioner shall qualify, upon selection, by executing a bond in the amount of \$100,000.00 with a corporate surety licensed to do business in this state and payable to the Governor and his successors in office, such bond to be approved by the Governor and conditioned on the faithful discharge of his duties as commissioner. The premium of such bond shall be paid from funds of the department.

(e) The commissioner shall devote full time and attention to the duties and responsibilities of his office. No person who serves as commissioner shall be eligible, except as hereinafter provided in this subsection, to qualify as a candidate in any primary, special, or general election for any state or federal elective office nor to hold any such office, except as hereinafter provided in this subsection, during the time he serves as commissioner and for a period of 12 months after the date he ceases to serve as commissioner. However, nothing contained in this subsection shall prevent the commissioner from being appointed to any other office nor disqualify him from running in any election to succeed himself in any office to which he was appointed nor to hold such office in the event he is elected thereto and otherwise qualified therefor; provided, however, that the commissioner shall resign as commissioner of transportation before accepting any such appointive office. (Code 1933, § 95A-308, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1983, p. 400, § 1.)

Cross references. — Official bonds generally, T. 45, C. 4.

32-2-41. Powers, duties, and authority of commissioner; establishment of divisions.

(a) As the chief executive officer of the department, the commissioner shall have direct and full control of the department. He or she shall possess, exercise, and perform all the duties, powers, and authority which may be vested in the department by law, except those duties, powers, and authority which are expressly reserved by law to the board or the director of planning. The commissioner's principal responsibility shall be the faithful implementation of transportation plans produced by the director of planning and approved by the Governor and the State Transportation Board, subject to the terms of such appropriations Acts as may be adopted from time to time. The commissioner shall also be responsible for the duties and activities assigned to the commissioner in Article 5 of Chapter 8 of Title 48. When the board is not in regular or called session, the commissioner shall perform, exercise, and possess all duties, powers, and authority of the board except:

- (1) Approval of the advertising of nonnegotiated construction contracts; and
- (2) Approval of authority lease agreements.

The commissioner shall also have the authority to exercise the power of eminent domain and to execute all contracts, authority lease agreements, and all other functions except those that cannot legally be delegated to him or her by the board.

(b)(1) The commissioner shall have the authority to employ, discharge, promote, supervise, and determine the compensation of such personnel as he or she may deem necessary or useful to the effective operation and administration of the department except that the commissioner shall not employ a person who is related within the second degree of consanguinity to the commissioner or any member of the board, provided that such prohibition shall not be applied so as to terminate the employment of persons employed before said prohibited relationship was created by the subsequent election of a board member or appointment of a commissioner.

(2) Notwithstanding the provisions of subsection (b) of Code Section 32-6-29, the commissioner shall have the authority to appoint and employ five nonuniformed investigators who shall be certified peace officers pursuant to the provisions of Chapter 8 of Title 35, the "Georgia Peace Officer Standards and Training Act." The investigators shall have full arrest powers in cases involving internal affairs of the department and in cases involving obstruction of, encroaching on, or injury to public roads or rights of way. In such cases, the investigators shall be authorized:

(A) To investigate Department of Transportation related crimes committed anywhere in the state;

(B) To arrest any person violating the criminal laws of this state;

(C) To serve and execute warrants after notifying the law enforcement agency of the local jurisdiction of the intent to serve such warrant or warrants;

(D) To enforce in general the criminal laws of this state;

(E) To issue citations for civil damage to any person found to be violating the laws, rules, and regulations pertaining to vegetation management; and

(F) To carry firearms while performing their duties but only if such investigators have been certified by the Georgia Peace Officer Standards and Training Council as having successfully completed the course of training required by Chapter 8 of Title 35, the "Georgia Peace Officer Standards and Training Act."

(3) The power granted to the commissioner in paragraph (1) of this subsection shall be subject to and limited by Article 1 of Chapter 20 of Title 45 establishing a merit system for department employees, to

the extent that the same or any amendments thereto are now or may be hereafter applicable to department personnel.

(4) There shall be a Planning Division of the department, directed and staffed by the director of planning, which shall be the department's principal unit for developing the state transportation improvement program and the state-wide strategic transportation plan and coordinating transportation policies, planning, and programs related to design, construction, maintenance, operations, and financing of transportation, under the supervision of the director. The division and the director shall not have jurisdiction over the funds allocated for the local maintenance and improvement grant program pursuant to subsection (d) of Code Section 32-5-27 except as expressly provided by said subsection.

(5) There shall be an Engineering Division of the department to be supervised by the chief engineer, a Finance Division of the department to be supervised by the treasurer, an Administration Division of the department to be supervised by the deputy commissioner, an Intermodal Division to be supervised by an appointee serving at the pleasure of the commissioner, and a Local Grants Division to be supervised by an appointee serving at the pleasure of the commissioner. The duties, responsibilities, and personnel of each such division shall be as established by the commissioner.

(6) The commissioner may establish a Construction Division, an Operations and Maintenance Division, a Permitting Division, and a Public-Private Initiatives Division of the department. The commissioner shall assign to such divisions, except as otherwise provided by law, such personnel and such duties and responsibilities as may be necessary and appropriate for the proper functioning of the department. (Code 1933, § 95A-309, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1974, p. 1422, § 12; Ga. L. 1994, p. 591, § 3; Ga. L. 2004, p. 898, § 1; Ga. L. 2009, p. 976, § 5/SB 200; Ga. L. 2010, p. 396, § 1/SB 305; Ga. L. 2010, p. 778, § 1.1/HB 277; Ga. L. 2010, p. 818, § 2/SB 520.)

The 2010 amendments. — The first 2010 amendment, effective June 2, 2010, added the fourth sentence in the introductory paragraph of subsection (a). The second 2010 amendment, effective June 3, 2010, in paragraph (b)(5), inserted “an Intermodal Division to be supervised by an appointee serving at the pleasure of the commissioner,” near the end of the first sentence. The third 2010 amendment, effective July 1, 2010, made identi-

cal changes to those made by the second 2010 amendment.

Code Commission notes. — Pursuant to Code Section 28-9-5, in 1991, “authority lease agreements” was substituted for “authority-lease agreements” in paragraph (a)(2) and in the undesignated language at the end of subsection (a).

Editor's notes. — Ga. L. 2010, p. 778, § 1/HB 277, not codified by the General Assembly, provides: “This Act shall be

known and may be cited as the "Transportation Investment Act of 2010."

Law reviews. — For annual survey of

law on administrative law, see 62 Mercer L. Rev. 1 (2010).

JUDICIAL DECISIONS

Regulation of outdoor advertising.

— Since former paragraph (a)(4) of O.C.G.A. § 32-2-41 expressly forbade the commissioner from exercising the board's power concerning the approval of "long-range plans and programs of the department," and the adoption, amendment, or repeal of departmental rules and

regulations concerning outdoor advertising in Georgia was a long-range program, the commissioner was not empowered to adopt proposed amendments to such rules and regulations sua sponte. *Outdoor Adv. Ass'n v. DOT*, 186 Ga. App. 550, 367 S.E.2d 827, cert. denied, 186 Ga. App. 918, 367 S.E.2d 827 (1988).

32-2-41.1. Progress report and Strategic Transportation Plan.

(a) On or before October 15, 2009, the director shall prepare a report for the Governor, the Lieutenant Governor, the Speaker of the House of Representatives, and the chairpersons of the Senate Transportation Committee and the House Committee on Transportation, respectively, detailing the progress the division has made on preparing a State-wide Strategic Transportation Plan. The director shall deliver a draft of the plan for comments and suggestions by members of the General Assembly and the Governor on or before December 31, 2009. Comments and suggestions by the House and Senate Transportation Committees of the General Assembly and the Governor shall be submitted to the director no later than February 15, 2010. This plan shall include a list of projects realistically expected to begin construction within the next four years, the cost of such projects, and the source of funds for such projects. The plan shall be developed with consideration of investment policies addressing:

- (1) Growth in private-sector employment, development of work force, and improved access to jobs;
- (2) Reduction in traffic congestion;
- (3) Improved efficiency and reliability of commutes in major metropolitan areas;
- (4) Efficiency of freight, cargo, and goods movement;
- (5) Coordination of transportation investment with development patterns in major metropolitan areas;
- (6) Market driven travel demand management;
- (7) Optimized capital asset management;
- (8) Reduction in accidents resulting in injury and loss of life;
- (9) Border-to-border and interregional connectivity; and

(10) Support for local connectivity to the state-wide transportation network.

The investment policies provided for in paragraphs (1) through (10) of this subsection shall also guide the development of the allocation formula provided for under Code Section 32-5-27 and shall expire on April 15, 2012, and every four years thereafter unless amended or renewed. The final version of the State-wide Strategic Transportation Plan shall be completed by April 10, 2010, and shall be delivered to the Governor, the Lieutenant Governor, the Speaker of the House of Representatives, and the chairpersons of the Senate Transportation Committee and the House Committee on Transportation. A report detailing the progress of projects and programs in the State-wide Strategic Transportation Plan shall be prepared and delivered semiannually thereafter, and a revised version shall be prepared and delivered at least biennially thereafter.

(b) The report and plan prepared under subsection (a) of this Code section shall also be published on the website of the department. (Code 1981, § 32-2-41.1, enacted by Ga. L. 2008, p. 528, § 1/HB 1189; Ga. L. 2009, p. 976, § 6/SB 200.)

Code Commission notes. — Pursuant to Code Section 28-9-5, in 2008, Code Section 32-2-41.1, as enacted by Ga. L. 2008, p. 806, § 1, was redesignated as Code Section 32-2-41.2.

32-2-41.2. Development of benchmarks; reports; value engineering studies.

(a) The commissioner shall develop and publish in print or electronically benchmarks, based upon the type and scope of a construction project, that detail a realistic time frame for completion of each stage of a construction project, including preliminary engineering and design, environmental permitting and review, and right of way acquisition.

(b) The director shall submit a semiannual report to the Governor, the Lieutenant Governor, the Speaker of the House of Representatives, and the chairpersons of the House and Senate Transportation Committees detailing the progress of every construction project valued at \$10 million or more against the benchmarks. This report shall include an analysis explaining the discrepancies between the benchmarks and actual performance on each project as well as an explanation for delays. This report shall also be published on the website of the department.

(c) The department shall create and maintain on its website a detailed status report on each project under planning or construction. This status report shall include, but not be limited to, the name and contact information of the project manager, if applicable.

(d) Value engineering studies shall be performed on all projects whose costs exceed \$10 million, and the director shall submit an annual report to the Governor, the Lieutenant Governor, the Speaker of the House of Representatives, and the chairpersons of the House and Senate Transportation Committees detailing the amount saved due to the value engineering studies. This report shall also be published on the website of the department. (Code 1981, § 32-2-41.2, enacted by Ga. L. 2008, p. 806, § 1/SB 417; Ga. L. 2009, p. 976, § 7/SB 200; Ga. L. 2010, p. 838, § 10/SB 388.)

The 2010 amendment, effective June 3, 2010, inserted “in print or electronically” in subsection (a).

Code Commission notes. — Pursuant

to Code Section 28-9-5, in 2008, Code Section 32-2-41.1, as enacted by Ga. L. 2008, p. 806, § 1, was redesignated as Code Section 32-2-41.2.

32-2-42. Deputy commissioner of transportation; chief engineer; treasurer and assistant treasurer.

(a) The commissioner shall appoint a deputy commissioner of transportation to serve at the pleasure of the commissioner. Before assuming the duties of his or her office, the deputy commissioner shall qualify by giving bond with a corporate surety licensed to do business in this state, such bond to be in the amount of \$500,000.00 and payable to the Governor and his or her successors in office. The bond shall be subject to the approval of the Governor and shall be conditioned on the faithful discharge of the duties of the office, including any duties of the office of the commissioner which the deputy commissioner may be required to perform as acting commissioner. The premium for the bond shall be paid out of the funds of the department. The deputy commissioner shall be the assistant commissioner and shall be empowered to act in his or her own name for the commissioner. The deputy commissioner may exercise to the extent permitted by law only such powers and duties of the commissioner as have been previously assigned to him or her in writing by the commissioner. In the event of the commissioner’s temporary incapacity which causes his or her absence from the offices of the Department of Transportation in Atlanta, Georgia, for 30 consecutive days, the deputy commissioner shall assume all the powers and duties of the commissioner, to be exercised until such time as the commissioner’s temporary absence or incapacity shall cease. In the event of the commissioner’s permanent incapacity, the deputy commissioner shall become acting commissioner, as provided in subsection (c) of Code Section 32-2-40.

(b) The commissioner shall appoint a chief engineer to serve at the pleasure of the commissioner. The chief engineer shall be the chief engineer of the department and shall be a professional engineer registered in accordance with Chapter 15 of Title 43 and who shall be experienced in highway engineering.

(c) The commissioner shall appoint a treasurer of the department to serve at the pleasure of the commissioner. Before assuming the duties of his or her office, the treasurer shall qualify by giving bond with a corporate surety licensed to do business in this state, such bond to be in the amount of \$500,000.00 and payable to the Governor and his or her successors in office. The bond shall be subject to the approval of the Governor and shall be conditioned on the faithful discharge of the duties of the office. The premium for the bond shall be paid out of the funds of the department. The duties of the treasurer shall be to receive all funds from all sources to which the department is entitled, to account for all funds received by the department, to adjust for additional appropriations or balances brought forward from previous years with the prior approval of the Office of Planning and Budget, and to perform such other duties as may be required of him or her by the commissioner. The commissioner shall have the authority to appoint an assistant treasurer in the same manner and under the same conditions as set forth in this subsection for the appointment of the treasurer, including the qualifying in advance by giving bond of the same type, amount, and paid for in the same manner as required of the treasurer. The assistant treasurer shall assume the duties of office of treasurer upon the incapacity or death of the treasurer and shall serve until a new treasurer is appointed as provided in this subsection.

(d) Any provision of this title or of any other statute or of any rule or regulation to the contrary notwithstanding, the commissioner or the deputy commissioner may, in addition to serving as commissioner or deputy commissioner, also simultaneously serve as chief engineer, provided that he or she shall be appointed and shall possess the qualifications as prescribed in subsection (b) of this Code section. A commissioner or deputy commissioner simultaneously serving as chief engineer shall be paid for the discharge of all his or her duties the sum to which he or she is entitled as commissioner or deputy commissioner. (Ga. L. 1925, p. 208, § 2; Code 1933, § 95-1607; Ga. L. 1950, p. 62, § 7; Code 1933, § 95A-310, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1975, p. 102, § 1; Ga. L. 1994, p. 591, § 4; Ga. L. 2009, p. 976, § 8/SB 200; Ga. L. 2011, p. 583, § 2/HB 137.)

The 2011 amendment, effective July 1, 2011, inserted “to adjust for additional appropriations or balances brought forward from previous years with the prior approval of the Office of Planning and

Budget,” in the fifth sentence of subsection (c).

Cross references. — Official bonds generally, T. 45, C. 4, T. 45.

32-2-43. Director of planning; appointment; responsibilities.

(a) There shall be a director of planning appointed by the Governor subject to approval by a majority vote of both the House Transportation Committee and the Senate Transportation Committee. The director

shall serve during the term of the Governor by whom he or she is appointed and at the pleasure of the Governor. If the Governor's term expires and the incoming Governor has not made an appointment, the current director of planning may serve until a replacement is appointed by the incoming Governor and confirmed by the House and Senate Transportation Committees.

(b) The director of planning's principal responsibility shall be the development of transportation plans, including the development of the state-wide strategic transportation plan and state-wide transportation improvement program and other comprehensive plans pursuant to the provisions of Code Section 32-2-3 and Code Section 32-2-22, strategic transportation plans pursuant to the provisions of Code Section 32-2-41.1, and benchmarks and value engineering studies pursuant to the provisions of Code Section 32-2-41.2, in consultation with the board, the Governor, and the commissioner. The director shall also be responsible for the duties and activities assigned to the director in Article 5 of Chapter 8 of Title 48. The director shall be the director of the Planning Division of the department and shall possess, exercise, and perform all the duties, powers, and authority which may be vested in such division by law and are necessary or appropriate for such purpose, except those duties, powers, and authority which are expressly reserved by law to the board or the commissioner. (Code 1981, § 32-2-43, enacted by Ga. L. 2009, p. 976, § 9/SB 200; Ga. L. 2010, p. 778, § 2/HB 277; Ga. L. 2011, p. 583, § 3/HB 137.)

The 2010 amendment, effective June 2, 2010, in subsection (a), inserted "both" and inserted "and the Senate Transportation Committee" in the first sentence; and added the next to last sentence in subsection (b).

The 2011 amendment, effective July 1, 2011, in subsection (a), substituted the present third sentence for the former third through fifth sentences, which read: "Before assuming the duties of his or her office, the director shall qualify by giving bond with a corporate surety licensed to do business in this state, such bond to be in the amount of \$500,000.00 and payable to the Governor and his or her successors

in office. The bond shall be subject to the approval of the Governor and shall be conditioned on the faithful discharge of the duties of the office. The premium for the bond shall be paid out of the funds of the department."

Code Commission notes. — Pursuant to Code Section 28-9-5, in 2009, "the" was deleted following "may be vested in" in the last sentence of subsection (b).

Editor's notes. — Ga. L. 2010, p. 778, § 1/HB 277, not codified by the General Assembly, provides: "This Act shall be known and may be cited as the 'Transportation Investment Act of 2010.'"

ARTICLE 4

EXERCISE OF POWER TO CONTRACT GENERALLY

Cross references. — Applicability of article to airport construction contracts, § 32-2-2(a)(17). State purchasing con-

tracts generally, § 50-5-50 et seq. Applicability of State Properties Code to department, § 50-16-38.

RESEARCH REFERENCES

ALR. — Construction and effect of works or construction contract with state “changed conditions” clause in public or its subdivision, 56 ALR4th 1042.

32-2-60. Authority to contract; form and content of construction contracts; federal-aid highway contracts; bonds.

(a) The department shall have the authority to contract as set forth in this article and in Code Section 32-2-2. All department construction contracts shall be in writing. Any contract entered into by the department for the construction of a public road shall include, as a cost of the project, provisions for sowing vegetation, if appropriate, on all banks, fills, cuts, ditches, and other places where soil erosion is likely to result from the necessary incidents to road work along the right of way of the road project.

(b) Persons, firms, or corporations submitting bids on department construction contracts are required to examine the site of the proposed work and determine for themselves the anticipated subsurface and latent physical conditions at the site prior to submitting a bid on the project. The submission of a bid shall be prima-facie evidence that the bidder has made such examination and is satisfied as to the conditions to be encountered in performing the work. The department does not in any way guarantee the amount or nature of subsurface materials which may be encountered and which must be excavated, graded, or driven through in performing the work on the project. The contractor shall not plead deception or misunderstanding because of variations from quantities of work to be performed or materials to be furnished as shown on the plans or minor variations from the locations or character of the work. Payment will be made only for actual quantities of work performed in accordance with the plans and specifications. The department shall not provide compensation above the amount bid on such project solely due to the encountering of subsurface or latent physical conditions at the site which are different from those anticipated by the bidder.

(c)(1) Notwithstanding the provisions of subsection (b) of this Code section, the department reserves the right to make, at any time during the progress of work, such increases or decreases in quantities and such alterations in the details of construction as necessary or desirable to satisfactorily complete the work. Such increases or decreases shall not invalidate the contract nor release the surety and the contractor agrees to perform the work as altered.

(2) Whenever an alteration materially increases or decreases the scope of the work specified in the contract, a supplemental agreement acceptable to both parties shall be made. In the absence of a

supplemental agreement acceptable to both parties, the department may direct that the work be done either by force account or at existing contract prices. Any force account agreement shall be in writing, specifying the terms of payment signed by the chief engineer, and agreed to in writing by the contractor.

(3) Changes made by the engineer will not be considered to waive any of the provisions of the contract, nor may the contractor make any claim for loss of anticipated profits because of the changes, or by reason of any variation between the approximate quantities and the quantities of work as done.

(d) The provisions of subsections (b) and (c) of this Code section shall be applicable only to federal-aid highway contracts.

(e)(1) When the estimated amount of any department construction contract exceeds \$300 million, performance and payment bonds shall be required in the amount of at least the total amount payable by the terms of the contract unless the department, after public notice, makes a written determination supported by specific findings that single bonds in such amount are not reasonably available, and the board approves such determination in a public meeting. In such event, the estimated value of the construction portion of the contract, excluding right of way acquisition and engineering, shall be guaranteed by a combination of security including, but not limited to, the following:

- (A) Payment, performance, surety, cosurety, or excess layer surety bonds;
- (B) Letters of credit;
- (C) Guarantees of the contractor or its parent companies;
- (D) Obligations of the United States and of its agencies and instrumentalities; or
- (E) Cash collateral;

provided, however, that the aggregate total guarantee of the project may not use a corporate guarantee of more than 35 percent. The combination of such guarantees shall be determined at the discretion of the department, subject to the approval of the board; provided, however, that such aggregate guarantees shall include not less than \$300 million of performance and payment bonds and shall equal not less than 100 percent of the contractor's obligation under the construction portion of the contract.

(2) Payment guarantees approved pursuant to this subsection shall be deemed to satisfy the requirements of Code Section 13-10-61. Contractors requesting payment under construction contracts guar-

anted pursuant to this subsection shall provide the following certification under oath with each such request: "All payments due to subcontractors and suppliers from previous payment received under the contract have been made, and timely payments will be made from the proceeds of the payment covered by this certification." (Ga. L. 1965, p. 628, § 1; Code 1933, § 95A-801, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1988, p. 1908, § 1; Ga. L. 1994, p. 591, § 5; Ga. L. 2006, p. 663, § 1/HB 1177; Ga. L. 2007, p. 47, § 32/SB 103.)

Code Commission notes. — Pursuant to Code Section 28-9-5, in 2006, "limited to, the following:" was substituted for "limited to the following:" near the end of the introductory paragraph (now paragraph (e)(1)) of subsection (e), "Guarantees" was substituted for "Guaranties" in paragraph (e)(3) (now subparagraph (e)(1)(C)), and in paragraph (e)(5) (now subparagraph (e)(1)(E)), "collateral; provided, however," was substituted for "collateral. (6) Provided however" and "percent" was substituted for "%".

Editor's notes. — Ga. L. 1988, p. 1908,

§ 2, not codified by the General Assembly, provides: "The provisions of this Act shall not be applicable to or affect existing contracts in effect on the effective date of this Act." This Act became effective April 14, 1988.

Ga. L. 1988, p. 1908, § 4, not codified by the General Assembly, provides: "No provision of this Act shall prohibit any court of law or equity from reforming a contract or awarding damages based upon a mutual mistake of fact or fraud in the inception of a contract or its performance."

OPINIONS OF THE ATTORNEY GENERAL

Necessity for retaining highway project file for 20-year period. — It is necessary to retain an entire highway project file for a 20-year period; retaining the release, final voucher, and contract for this period will not adequately protect the

state's interests in compliance with state law because highway construction contracts are sealed contracts and are therefore subject to a 20-year statute of limitations. 1973 Op. Att'y Gen. No. 73-89.

32-2-61. Limitations on power to contract.

(a) The department is expressly prohibited from making or contracting any debts or entering into any contract for which it does not have sufficient funds appropriated at the time of making said debt or entering into said contract to enable it to meet such debt or such contract obligation. However, such prohibition shall not apply to contracts entered into pursuant to Article IX, Section III, Paragraph I and Article VII, Section IV, Paragraph IV of the Constitution of Georgia; and the department is expressly authorized to enter into such contracts and to obligate the department in connection therewith. For the purpose of paying obligations imposed by any such contract, such funds as may be appropriated to the department for activities incident to providing and maintaining an adequate system of public roads in the state and the cost incident thereto may be pledged by the department.

(b)(1) The board shall not enter into any lease contract if:

(A) The aggregates of all lease rentals from that and all other such lease contracts including the contract or contracts proposed to be entered into exceed \$19,900,000.00 per annum or 15 percent of the funds appropriated to the department in the fiscal year immediately preceding entering into any such lease rental contract, whichever is greater; or

(B) Such lease contract constitutes security for bonds or other obligations issued by the lessor.

(2) The execution of any lease contract is prohibited until the General Assembly has specifically provided funds in an appropriations Act for the payment of at least one year's rental under such contract.

(c) Except as authorized by Article 3 of Chapter 5 of Title 50, the department is prohibited from entering into any contract for the purchase of supplies, materials, equipment, or services, except those services ancillary to the construction and maintenance of a public road.

(d)(1) The department is prohibited from negotiating any contract for the construction or maintenance of a public road involving the expenditure of \$200,000.00 or more except any contract:

(A) With counties, municipalities, and state agencies, provided that such negotiated contract shall be made at the average bid price of the same kind of work let to contract after advertisement during a period of 60 days prior to the making of the contract;

(B) With a railroad company or utility concerning relocation of its tracks or facilities where the same are not then located on a public road and such relocation is necessary as an incident to the construction or improvement of a public road. However, nothing contained in this subsection shall be construed as requiring the department to furnish a site or right of way for railroad or railway lines or tracks or utility facilities required to be removed from a public road. Furthermore, this subsection shall not prevent the department from assisting in the removal and relocation of publicly owned utilities from locations on public roads as provided in Code Section 32-6-170;

(C) For emergency construction or maintenance involving the expenditure of \$200,000.00 or more when the public interest requires that the work be done without the delay of advertising for public bids;

(D) For the procurement of business, professional, or other services from any person, firm, or corporation as an independent contractor;

(E) With the State Road and Tollway Authority; or

(F) Through the provisions of a design-build contract as provided for in Code Section 32-2-81.

(2) A department contract negotiated and made with a political subdivision, as authorized by subparagraph (A) of paragraph (1) of this subsection, may be subcontracted to any person or political subdivision. It may be performed with inmate labor, except in the case of a public work constructed with federal aid, or the forces of such political subdivision or those of a political subdivision to which such contract has been subcontracted. However, the department shall have the authority to furnish planning, contract plans, specifications, and engineering supervision over a public road being constructed by a political subdivision or by its subcontractor. Any subcontract made under authority of this subsection shall not constitute the basis of any claim against the department, nor shall such subcontract be considered an assignment of the rights of the political subdivision under its contract with the department.

(e) Except for public roads within and leading to state parks, the department is prohibited from maintaining any public road not on the state highway system. Any department contract with a state agency or political subdivision for construction of a public road not then, nor to become upon completion of the contract, part of the state highway system or a road within or leading to a state park shall not relieve the agency or the political subdivision of the responsibility for maintaining such public road as such duty is imposed by this Code section and by Code Sections 32-4-41 and 32-4-91. (Ga. L. 1950, p. 62, § 12; Ga. L. 1951, p. 31, § 3; Ga. L. 1953, Jan.-Feb. Sess., p. 81, § 1; Ga. L. 1955, p. 249, § 1; Ga. L. 1961, p. 22, § 1; Ga. L. 1967, p. 382, § 1; Ga. L. 1968, p. 1055, § 5; Code 1933, § 95A-802, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1974, p. 1422, § 19; Ga. L. 1975, p. 1159, §§ 1-3; Ga. L. 1983, p. 3, § 56; Ga. L. 1989, p. 356, § 1; Ga. L. 1997, p. 699, § 1; Ga. L. 2001, p. 1251, § 1-2; Ga. L. 2004, p. 905, § 1; Ga. L. 2005, p. 117, § 30A/HB 312; Ga. L. 2007, p. 167, § 1/HB 192; Ga. L. 2012, p. 1343, § 1/HB 817.)

The 2012 amendment, effective July 1, 2012, substituted “\$200,000.00” for “\$100,000.00” near the end of introductory language of paragraph (d)(1) and near the middle of subparagraph (d)(1)(C); and substituted “subdivision” for “division” in the last sentence of paragraph (d)(2).

Code Commission notes. — Pursuant to Code Section 28-9-5, in 1991, “subparagraph (A) of paragraph (1)” was substituted for “subparagraph (1)(A)” in the first sentence of paragraph (d)(2).

JUDICIAL DECISIONS

Effect of transfer of state road. — Department of Transportation is prohibited from maintaining a road after the road is transferred from the state highway

system and the department owed no duty to plaintiff who was injured in an accident on the road. *Georgia DOT v. Smith*, 210 Ga. App. 741, 437 S.E.2d 811 (1993).

When an injured party sued the Georgia Department of Transportation (DOT) for injuries received in a single-car accident on a county road, the party could not maintain a negligent maintenance claim against DOT because the road on which the accident occurred was not part of the state highway system, nor did the road

lead to a state park; thus, under O.C.G.A. § 32-4-41(1), the county was obligated to maintain the road and, under O.C.G.A. § 32-2-61(e), DOT's contract with the county to improve the road did not relieve the county of this responsibility. *Ogles v. E.A. Mann & Co.*, 277 Ga. App. 22, 625 S.E.2d 425 (2005).

Cited in *DOT v. Carr*, 254 Ga. App. 781, 564 S.E.2d 14 (2002); *Barrett v. Ga. DOT*, 304 Ga. App. 667, 697 S.E.2d 217 (2010).

OPINIONS OF THE ATTORNEY GENERAL

Department of Transportation may enter into transportation construction contracts with financial backing from State Road and Tollway Authority. — Department of Transportation may enter into transportation construction contracts with all or a portion of the

financial backing for the contracts coming from a contractual promise from the State Road and Tollway Authority to borrow and provide money to DOT as and when needed to expend on projects that are the subjects of the construction contracts. 2001 Op. Att'y Gen. No. 2001-10.

ALR. — Contract for personal services as within requirement of submission of bids as condition of public contract, 15 ALR3d 733.

32-2-62. Approval by board of advertising of nonnegotiated construction contracts; factors to be considered by board.

The advertising of all nonnegotiated department construction contracts shall have the prior approval of the board. When the board is not in session, the commissioner may approve negotiated construction contracts. In determining public roads most in need of work and also the type, class, width, location, and order of priority of each project, the board shall take into consideration such factors as the use of the public road in question; the present need and anticipated development of the area traversed by it; whether or not it is a school bus or mail route; and its use for agricultural or industrial purposes. The board shall also take into consideration the information disclosed by the records required by Code Section 32-4-2 to be maintained by the department. (Code 1933, § 95A-803, enacted by Ga. L. 1973, p. 947, § 1.)

32-2-63. Authority of commissioner to execute contracts and authority lease agreements.

The commissioner shall have full authority to execute contracts and authority lease agreements on behalf of the department whenever such

contracts or agreements have been approved in accordance with this title. (Code 1933, § 95A-804, enacted by Ga. L. 1973, p. 947, § 1.)

32-2-64. Required letting of contracts by public bid; posting bid on department website sufficient.

Except as authorized by subsection (d) of Code Section 32-2-61, all department construction and maintenance contracts shall be let by public bid. For purposes of this Code section, posting a bid on the department's website shall satisfy the public bid requirement. (Ga. L. 1949, p. 372, § 2; Code 1933, § 95A-805, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2012, p. 1343, § 2/HB 817.)

The 2012 amendment, effective July 1, 2012, added the second sentence.

ALR. — Contract for personal services as within requirement of submission of bids as condition of public contract, 15 ALR3d 733.

Authority of state, municipality, or other governmental entity to accept late bids for public works contracts, 49 ALR5th 747.

32-2-65. Advertising for bids.

(a) On all contracts required to be let by public bid, the commissioner shall advertise for competitive bids for at least two weeks; the public advertisement shall be inserted once a week in such newspapers or other publications, or both, as will ensure adequate publicity, the first insertion to be at least two weeks prior to the opening of bids, the second to follow one week after the publication of the first insertion.

(b) Such advertisement shall include but not be limited to the following items:

(1) A description sufficient to enable the public to know the approximate extent and character of the work to be done;

(2) The time allowed for performance;

(3) The terms and time of payment, including a statement that final payment of amounts withheld or deposited in escrow need not be made until the issuance of the chief engineer's certification of satisfactory completion of work and acceptance thereof, as provided in Code Sections 32-2-75 through 32-2-77;

(4) Where and under what conditions and costs the detailed plans and specifications and proposal forms may be obtained;

(5) The amount of the required proposal guaranty;

(6) The time and place for submission and opening of bids;

(7) The right of the department to reject any one or all bids; and

(8) Such further notice as the department may deem advisable as in the public interest. (Ga. L. 1949, p. 373, § 3; Code 1933, § 95A-806, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1994, p. 591, § 6.)

JUDICIAL DECISIONS

Editor's notes. — In light of the similarity of the statutory provisions, decisions under Ga. L. 1950, p. 62, as amended, which was subsequently repealed but was succeeded by provisions in this Code section, are included in the annotations for this Code section.

Judicial notice that construction be done by independent contractors. — In a suit by a property owner for

damage to property caused by highway construction, the requirement that competitive bids be taken on highway maintenance and construction contracts does not require the court to take judicial notice of the fact that the construction was done by an independent contractor. *Richmond County v. Williams*, 109 Ga. App. 670, 137 S.E.2d 343 (1964) (decided under former Ga. L. 1950, p. 62, as amended).

OPINIONS OF THE ATTORNEY GENERAL

Letting one-bid projects, limited negotiation with certain bidders, and letting to second-low bidders are now legal under O.C.G.A. § 32-2-69 and can be included in the "advertised specifications," whether that term can be applied

to the standard specifications themselves or whether the three identified circumstances must be specifically referenced in the actual advertisement of the project. 1986 Op. Att'y Gen. No. 86-21.

32-2-66. Prequalifications of contractors and subcontractors.

In order to establish a list of reliable persons qualified to bid on a department contract or to subcontract with such persons and to ensure that the contract may be awarded to the lowest reliable bidder, the department may adopt and publish in print or electronically uniform and reasonable rules and regulations which may include but not be limited to the following:

(1) A requirement that every contractor desiring to be qualified to bid or subcontract file with the department an application including, among other information: a financial statement; a complete questionnaire regarding the contractor's organization and the work performed by such contractor; and a statement of equipment owned or leased by such contractor;

(2) Conditions under which a contractor or subcontractor may become disqualified to bid or to subcontract;

(3) Procedures for assigning maximum capacity ratings to contractors and subcontractors; and

(4) Provisions for waiving prequalification of contractors for construction of specialty items. For the purpose of this paragraph, "specialty items" means work that requires highly specialized knowledge, craftsmanship, or equipment not ordinarily available in the type of contracting organizations qualified and expected to bid on the contract as a whole. (Code 1933, § 95A-807, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2010, p. 838, § 10/SB 388.)

The 2010 amendment, effective June 3, 2010, inserted "in print or electronically" in the introductory language.

32-2-67. Payment by bidder to cover costs.

A bidder shall be required to pay to the department a reasonable sum sufficient to cover the cost to the department of copies of the bid proposal form of the department, the standard specifications of the department, and the plans of the contract if such plans are required because the particular contract calls for construction. (Code 1933, § 95A-808, enacted by Ga. L. 1973, p. 947, § 1.)

32-2-68. Proposal guaranty by bidder.

(a) No bid will be considered by the department unless it is accompanied by a proposal guaranty in the form of a certified check or other acceptable security payable to the treasurer of the department for an amount deemed by the department to be in the public interest and necessary to ensure that the successful bidder will execute the contract on which he bid.

(b) A proposal guaranty will be returned to a bidder upon receipt by the department of the bidder's written withdrawal of his bid if such receipt is before the time scheduled for the opening of bids. Upon the determination by the department of the lowest reliable bidder, the department will return the proposal guaranties to all bidders except that of the lowest reliable bidder. If no contract award is made within

30 days after the date set for the opening of bids, all bids shall be rejected and all proposal guaranties shall be returned unless the department and the successful bidder agree in writing to a longer period of time. (Code 1933, § 95A-809, enacted by Ga. L. 1973, p. 947, § 1.)

JUDICIAL DECISIONS

Forfeiture of bid bond. — Contractor's bid bond was required to be forfeited since the contractor first attempted to withdraw the contractor's bid after all bids submitted were opened and then declined to execute the contract awarded to the contractor. *DOT v. American Ins. Co.*, 268 Ga. 505, 491 S.E.2d 328 (1997).

32-2-69. Bidding process and award of contract.

(a) Except as authorized by Code Sections 32-2-79 and 32-2-80, the department shall award the contract to the lowest reliable bidder, provided that the department shall have the right to reject any and all such bids whether such right is reserved in the public notice or not and, in such case, the department may readvertise, perform the work itself, or abandon the project.

(b) If only one bid is received, the department shall open and read the bid. If the bid is at or below the department's cost estimate for the project as certified by the chief engineer, such cost estimate shall be read immediately and publicly. If the bid exceeds the department's cost estimate for the project, the department may negotiate with the bidder to establish a fair and reasonable price for the contract, provided that the resulting negotiated contract price is not greater than the bid and that the department's cost estimate is disclosed to the bidder prior to the beginning of the negotiations.

(c) If the department made errors in the bidding documents which resulted in an unbalanced bid, the department may negotiate with the lowest reliable bidder to correct such errors, provided that the lowest reliable bidder is not changed.

(d) If the lowest reliable bidder is released by the department because of an obvious error or if the lowest reliable bidder refuses to accept the contract and thereby forfeits the bid bond, the department may award the contract to the next lowest reliable bidder, readvertise, perform the work itself, or abandon the project.

(e) For purposes of this Code section, posting of a bid on the department's website shall be equivalent to having read the bid. (Code 1933, § 95A-810, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1986, p. 153, § 1; Ga. L. 1994, p. 591, § 7; Ga. L. 2003, p. 905, § 3; Ga. L. 2012, p. 1343, § 3/HB 817.)

The 2012 amendment, effective July 1, 2012, added subsection (e).

Law reviews. — For note on the 2003

amendment to this Code section, see 20 Ga. St. U.L. Rev. 170 (2003).

JUDICIAL DECISIONS

Forfeiture of bid bond. — Contractor's bid bond was required to be forfeited after the contractor first attempted to withdraw the contractor's bid after all bids submitted were opened and then declined to execute the contract awarded to the contractor. *DOT v. American Ins. Co.*, 268 Ga. 505, 491 S.E.2d 328 (1997).

Department of Transportation was not obligated to release a bidder from the bidder's contractual obligations due to an obvious error in the bid. *DOT v. American Ins. Co.*, 268 Ga. 505, 491 S.E.2d 328 (1997).

Reliable bidder. — Even if a contractor's claim that a state transportation department violated the contractor's U.S. Const., amend. 14 equal protection rights by subjecting the contractor's paving work to testing and by preventing the contrac-

tor's lowest bid for a repaving project from being accepted was cognizable as a class of one claim, the contractor's complaint did not meet the tightened Fed. R. Civ. P. 8 requirements for 42 U.S.C. § 1983 claims; the contractor did not identify similarly situated contractors who were treated more favorably with regard to defect testing, and the comparator cited by the contractor with regard to the failure to facilitate acceptance of the contractor's repaving bid was not properly alleged to have been similarly situated in the absence of an allegation of performance problems, particularly when O.C.G.A. § 32-2-69(a) did not require that the lowest bidder be chosen, but that the lowest reliable bidder be chosen. *Douglas Asphalt Co. v. Qore, Inc.*, 541 F.3d 1269 (11th Cir. 2008).

OPINIONS OF THE ATTORNEY GENERAL

Letting one-bid projects, limited negotiation with certain bidders, and letting to second-low bidders are now legal under O.C.G.A. § 32-2-69 and can be included in the "advertised specifications," whether that term can be applied

to the standard specifications themselves or whether the three identified circumstances must be specifically referenced in the actual advertisement of the project. 1986 Op. Att'y Gen. No. 86-21.

Public contracts: low bidder's monetary relief against state or local agency for nonaward of contract, 65 ALR4th 93.

32-2-70. Bonds of successful bidder.

Where the contract price exceeds \$100,000.00, no department construction contract shall be valid unless the contractor first gives:

(1) The performance and payment bonds in accordance with Chapter 10 of Title 13; and

(2) Such other bonds or insurance policies required by the department in its proposal forms, including but not limited to public liability and property damage insurance bonds or policies. (Code 1933,

§ 95A-811, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2001, p. 4, § 32; Ga. L. 2001, p. 820, § 2; Ga. L. 2007, p. 167, § 2/HB 192.)

Code Commission notes. — The amendment of this Code section by Ga. L. 2001, p. 4, § 32, irreconcilably conflicted with and was treated as superseded by Ga. L. 2001, p. 820, § 2. See *County of Butts v. Strahan*, 151 Ga. 417 (1921).

State or local government's liability to subcontractors, laborers, or materialmen for failure to require general contractor to post bond, 54 ALR5th 649.

32-2-71. Failure of successful bidder to sign contract or furnish bonds.

If the successful bidder fails to sign the contract or furnish the bonds or policies required by Code Section 32-2-70, the proposal guaranty will become the property of the department as liquidated damages. The contract then may be readvertised or the project may be abandoned. (Code 1933, § 95A-812, enacted by Ga. L. 1973, p. 947, § 1.)

JUDICIAL DECISIONS

Forfeiture of bid bond. — Contractor's bid bond was required to be forfeited after the contractor first attempted to withdraw the contractor's bid after all

bids submitted were opened and then declined to execute the contract awarded to the contractor. *DOT v. American Ins. Co.*, 268 Ga. 505, 491 S.E.2d 328 (1997).

32-2-72. Oath by successful bidder.

A successful bidder, before commencing the work, shall execute a written oath, as required by subsection (e) of Code Section 36-91-21, stating that he or she has not violated such Code section which makes it unlawful to restrict competitive bidding. (Code 1933, § 95A-813, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2000, p. 498, § 7; Ga. L. 2001, p. 820, § 3.)

32-2-73. Supplemental and extension agreements.

The department shall be authorized to execute supplemental agreements to the original contract covering changes or revised or new unit prices and items and supplementing the original contract not to exceed a 20 percent increase in cost of the project and to execute extension agreements affecting the length of the project which may be increased by adding sections to said project or by relocation of said project not to

exceed 20 percent of the total length of the project or 20 percent of total contract cost. (Ga. L. 1949, p. 373, § 4; Code 1933, § 95A-814, enacted by Ga. L. 1973, p. 947, § 1.)

OPINIONS OF THE ATTORNEY GENERAL

Department of Transportation professional service contracts. — While the provisions of O.C.G.A. § 32-2-73 do not apply to contracts for professional services, which are governed by O.C.G.A. § 50-22-1 et seq., legislation is required to

allow the Department of Transportation to exceed the limitations of such professional services contracts found in O.C.G.A. § 50-6-25(b). 1994 Op. Att’y Gen. No. U94-14.

32-2-74. Effect of federal laws on Code Sections 32-2-60 through 32-2-73; power of department to secure benefits of federal-aid program.

(a) Nothing in Code Sections 32-2-60 through 32-2-73 is intended to conflict with any federal law; and, in case of such conflict, such portion of those Code sections as may be in conflict with such federal law is declared of no effect to the extent of the conflict.

(b) The department is authorized to take the necessary steps to secure the full benefit of the federal-aid program and to meet any contingencies not provided for in Code Sections 32-2-60 through 32-2-73, abiding at all times by a fundamental purpose to plan, survey, construct, reconstruct, maintain, improve, and pave as economically as possible those public roads of Georgia which, under the terms of Code Sections 32-2-60 through 32-2-73, are most in need of such construction or work in such a manner as will best promote the interest, welfare, and progress of the citizens of Georgia. (Code 1933, § 95A-815, enacted by Ga. L. 1973, p. 947, § 1.)

32-2-75. Contract clauses for retainage of amounts constituting a percentage of gross value of completed work; time of final payment of retained amounts to contractor.

(a) As used in this Code section and Code Sections 32-2-76 and 32-2-77, the term:

(1) “Engineer” means the chief engineer or the engineer designated by the Georgia Highway Authority or the State Road and Tollway Authority.

(2) “Escrow account” means the certificates of deposit issued by a state or national bank in Georgia and any uninvested cash held in escrow.

(3) “State” means the Department of Transportation, the Georgia Highway Authority, or the State Road and Tollway Authority.

(4) "Treasurer" means the treasurer of the Department of Transportation, the treasurer of the Georgia Highway Authority, or the treasurer of the State Road and Tollway Authority.

(b) The state is authorized to insert a clause in the specifications of all contracts let and awarded as a result of public lettings for the construction, improvement, maintenance, or repair of any road, highway, bridge, or appurtenance thereto providing for the retainage of amounts constituting a percentage of the gross value of the completed work as may be provided for in the contract.

(c) Final payment of the retained amounts to the contractor under the contract to which the retained amount relates will be made after certification by the engineer that the work has been satisfactorily completed and is accepted in accordance with the contract, plans, and specifications. (Ga. L. 1971, p. 635, § 1; Ga. L. 1982, p. 3, § 32; Ga. L. 1985, p. 149, § 32; Ga. L. 1994, p. 591, § 8; Ga. L. 2001, p. 1251, § 2-1.)

Cross references. — Authorization and procedure for retention of contractual payments by state or political subdivisions; procedure for final payment, § 13-10-81. Georgia Highway Authority, § 32-10-1 et seq. State Road and Tollway Authority, § 32-10-60 et seq.

ALR. — Right and duty of highway contractor as to barricading or obstructing street or highway, 104 ALR 955.

32-2-76. Contract clauses providing for escrow agreements; mandatory provisions of escrow agreements.

(a) In lieu of the retained amounts provided for in Code Section 32-2-75, the state is authorized to insert a clause in the specifications of all contracts let and awarded as a result of public lettings for the construction, improvement, maintenance, or repair of any road, highway, bridge, or appurtenance thereto providing for the maintenance of an escrow account in an amount at least equal to the amount of the retainage authorized by the contract, in accordance with such rules and regulations as are authorized to be promulgated by the state.

(b) Any such escrow agreement entered into pursuant to this Code section must contain as a minimum the following provisions:

(1) Only state or national banks chartered within this state may serve as an escrow agent;

(2) The escrow agent must limit the investment of funds of the contractor held in escrow in lieu of retained amounts provided for in Code Section 32-2-75 to negotiable certificates of deposits issued by

any state or national bank in this state, including but not limited to certificates of deposit issued by the bank acting as escrow agent, registered in the name of the escrow agent as such under escrow agreement with the contractor;

(3) As interest on certificates of deposits held in escrow becomes due, it shall be collected by the escrow agent and paid to the contractor;

(4) The escrow agent shall promptly acknowledge to the treasurer of the department or the appropriate authority the amount and value of the escrow account held by the escrow agent, and any additions to the escrow account shall be reported immediately. Withdrawals from the escrow account shall only be made subject to the written approval of the treasurer of the department or the appropriate authority;

(5) Upon default or overpayment, as determined by the state, of any contract subject to this procedure and upon the written demand of the treasurer of the department or the appropriate authority, the escrow agent shall within ten days deliver a certified check to the treasurer of the department or the appropriate authority in the amount of the escrow account balance relating to the contract in default;

(6) The escrow account may be terminated upon completion and acceptance of the contract(s) as provided in Code Section 32-2-75;

(7) All fees and expenses of the escrow agent shall be paid by the contractor to the escrow agent and if not paid shall constitute a lien on the interest accruing to the escrow account and shall be paid therefrom;

(8) The escrow account shall constitute a specific pledge to the state, and the contractor shall not, except to his surety, otherwise assign, pledge, discount, sell, or transfer his interest in said escrow account, the funds in which shall not be subject to levy, garnishment, attachment, or any other process whatsoever; and

(9) The form of the escrow agreement and provisions thereof in compliance with this Code section as well as such other provisions as the treasurer of the department or the appropriate authority shall from time to time prescribe shall be subject to written approval of the treasurer of the department or the appropriate authority. The approval of the escrow agreement by the treasurer of the department or the appropriate authority shall authorize the escrow agent to accept appointment in such capacity. (Ga. L. 1971, p. 635, § 2; Ga. L. 1982, p. 3, § 32.)

32-2-77. Liability of treasurer of the department or other appropriate authority and state to contractor or surety.

Neither the treasurer of the department or the appropriate authority nor the state shall be liable to the contractor or his surety for the failure of the escrow agent to perform under the escrow agreement, or for the failure of any bank to honor certificates of deposits issued by it which are held in the escrow account. (Ga. L. 1971, p. 635, § 3.)

32-2-78. Definitions.

As used in this Code section and Code Sections 32-2-79 and 32-2-80, the term:

(1) “Participating local governing authority” includes the governing authority of any county or municipality whose geographical jurisdiction includes the project.

(2) “Project” means a project which the department deems appropriate for letting pursuant to the procedures of Code Section 32-2-79 and Code Section 32-2-80. (Code 1981, § 32-2-78, enacted by Ga. L. 2009, p. 976, § 10/SB 200.)

Editor’s notes. — Former Code Section 32-2-78, concerning definitions, was based on Code 1981, § 32-2-78, enacted by Ga. L. 2003, p. 905, § 1; Ga. L. 2005, p.

902, § 1/SB 270, and was repealed by Ga. L. 2009, p. 976, § 1/SB 200, effective May 11, 2009.

OPINIONS OF THE ATTORNEY GENERAL

Projects pending at time of amendment. — Georgia Department of Transportation’s authority to enter a binding contract pursuant to the former Public Private Initiatives law was revoked by the 2009 Public Private Partnership law;

those projects or portions of projects which were not formalized by an executed contract with the selected firm before May 11, 2009, must be re-procured under the authority and provisions of the 2009 law. 2009 Op. Att’y Gen. No. 2009-7.

32-2-79. Reporting on congestion mitigation; letting of projects.

(a) The staff of the department shall jointly identify and report to the board by July 31 of each odd-numbered year those projects on the state-wide transportation improvement program or otherwise identified that afford the greatest gains in congestion mitigation or promotion of economic development.

(b) Any project identified pursuant to subsection (a) of this Code section that will not be initiated within two years of the reporting date or that does not have specific available and complete funding may be let and constructed utilizing the procedures of this Code section and Code Section 32-2-80. All personnel of the department shall cooperate in all respects in the letting, construction, maintenance, and operation of such projects, including without limitation providing such access and control of portions of the state highway system as may be requested or required from time to time for such purposes.

(c) Projects wholly or partly in a metropolitan planning area shall be included in a fiscally constrained transportation improvement program. (Code 1981, § 32-2-79, enacted by Ga. L. 2009, p. 976, § 10/SB 200.)

Editor's notes. — Former Code Section 32-2-79, concerning requirements for solicited and unsolicited proposals for public-private initiative, was based on Code 1981, § 32-2-79, enacted by Ga. L. 2003, p. 905, § 2; Ga. L. 2005, p. 902, § 2/SB 270; Ga. L. 2006, p. 72, § 32/SB 465, and was repealed by Ga. L. 2009, p. 976, § 1/SB 200, effective May 11, 2009.

Administrative rules and regulations. — Governing the public-private transportation initiatives, Official Compilation of the Rules and Regulations of the State of Georgia, State Department of Transportation, Chapter 672-17.

32-2-80. Evaluation of participation in financing projects; public comments; funding; no delegation of eminent domain; performance and payment security.

(a)(1) The department shall evaluate a project to determine, in the judgment of the department, appropriate or desirable levels of state, local, and private participation in financing such project. In making such determination, the department shall be authorized and encouraged to seek the advice and input of the affected local governing authorities, applicable metropolitan planning organizations, and the private financial and construction sectors.

(1.1) No constitutional officer or member of the State Transportation Board shall serve as an agent, lobbyist, or board member for any entity directly or indirectly under contract with or negotiating a contract with the department under this Code section for one year after leaving his or her position as a constitutional officer or member of the State Transportation Board.

(2) For projects that are funded or financed in part or in whole by private sources, the department shall be authorized to issue a written request for proposal indicating in general terms the scope of the project, the proposed financial participations in the project, and the factors that will be used in evaluating the proposal and containing or incorporating by reference other applicable contractual terms and conditions, including any unique capabilities or qualifications that will be required of the contractor. Public notice of such request for proposal shall be made at least 90 days prior to the date set for receipt of proposals by posting the legal notice on a single website that shall be procured and maintained for such purposes by the Department of Administrative Services or in substantially the same manner utilized by the department to solicit requests for proposals.

(3) Upon receipt of a proposal or proposals responsive to the request for proposals, the department shall accept written public comment, solicited in the same manner as provided for notice of proposals, for a period of 30 days beginning at least ten days after the date set for receipt of proposals. In addition, the department shall hold at least one public hearing on such proposals not later than the conclusion of the period for public comment.

(4) The department shall engage in individual discussions with two or more respondents deemed fully qualified, responsible, and suitable on the basis of initial responses and with emphasis on professional competence and ability to meet the level of private financial participation called for by the department. Repetitive informal interviews shall be permissible. In the event that any local governing authority has agreed to consider financial participation in the project, a representative of such local governing authority, appointed by such local governing authority, may participate in such discussions and interviews. At the discussion stage, the department may discuss estimates of total project costs, including, but not limited to, life cycle costing and nonbinding estimates of price for services. Proprietary information from competing respondents shall not be disclosed to the public or to competitors. At the conclusion of such discussions, on the basis of evaluation factors published in the request for proposal and all information developed in the selection process, the department, with the input of any participating local governing authority, shall select in the order of preference two or more respondents whose qualifications and proposed services are deemed most meritorious. Negotiations shall then be conducted with two or more respondents and with the participation of the designated representative of any participating local governing authority. Upon approval by the department, the commissioner shall select the respondent for project implementation based upon contract terms that are the most satisfactory and advantageous to the state and to

the department based upon a thorough assessment of value and the ability of the final project's characteristics to meet state strategic goals and investment policies as provided for by paragraphs (1) through (10) of subsection (a) of Code Section 32-2-41.1. Before making such selection, the commissioner shall consult with any participating local governing authority or authorities. Notwithstanding the foregoing, if the terms and conditions for multiple awards are included in the request for proposal, the department may award contracts to more than one respondent. Should the department determine in writing and in its sole discretion that only one respondent is fully qualified, or that one respondent is clearly more highly qualified and suitable than the others under consideration, a contract may be negotiated and awarded to that respondent.

(5) Nothing in this Code section shall require the department to continue negotiations or discussions arising out of any request for proposal.

(6) The department shall be authorized to promulgate reasonable rules or regulations to assist in its evaluation of the proposal and to implement the purposes of this Code section. The department shall report the content of such rules or regulations to the Transportation Committees of the Senate and House of Representatives for their approval by majority vote prior to the promulgation thereof and shall make quarterly reports to the same chairpersons of all of its activities undertaken pursuant to the provisions of this Code section.

(b) Any contracts entered into pursuant to this Code section may authorize funding to include tolls, fares, or other user fees and tax increments for use of the project that is the subject of the proposal. Such funding may be distributed by contract among the participants in the project as may be provided for by contract. The department may take any action to obtain federal, state, or local assistance for a qualifying project that serves the public purpose of this Code section and may enter into any contracts required to receive such assistance. The department may determine that it serves the public purpose of this Code section for all or any portion of the costs of a qualifying project to be paid, directly or indirectly, from the proceeds of a grant or loan made by the federal, state, or local government or any instrumentality thereof. The department may agree to make grants or loans to the operator from time to time from amounts received from the federal, state, or local government or any agency or instrumentality thereof.

(c) The commissioner shall be authorized to delegate such duties and responsibilities under this Code section as he or she deems appropriate from time to time; provided, however, that the final approval of contracts provided for in this Code section shall be by action of the State Transportation Board.

(d) The power of eminent domain shall not be delegated to any private entity with respect to any project commenced or proposed pursuant to this Code section.

(e) Any contract for a public-private partnership shall require the private partner or each of its prime contractors to provide performance and payment security. Notwithstanding any other provision of law, the penal sum or amount of such security may be less than the price of the contract involved, based upon the department's determination on a project-by-project basis of what sum may be required to adequately protect the department, the state, and the contracting and subcontracting parties. (Code 1981, § 32-2-80, enacted by Ga. L. 2009, p. 976, § 10/SB 200.)

Editor's notes. — Former Code Section 32-2-80, concerning authority to contract with proposer for public-private initiative, was based on Code 1981, § 32-2-80, enacted by Ga. L. 2003, p. 905, § 2; Ga. L. 2005, p. 902, § 3/SB 270, and was repealed by Ga. L. 2009, p. 976, § 1/SB 200, effective May 11, 2009.

OPINIONS OF THE ATTORNEY GENERAL

O.C.G.A. § 32-2-80(a)(2) authorizes a single method of procurement for contracts for a newly defined form of contract: a contract for public-private partnerships. While the former Public Private Initiatives law permitted both solicited and unsolicited proposals, the 2009 Public Private Partnership law, O.C.G.A. § 32-2-78 et seq., requires, that a solicited proposal be utilized. 2009 Op. Att'y Gen. No. 2009-7.

Qualification for consideration under public-private partnership. — The 2009 Public Private Partnership law, O.C.G.A. § 32-2-78 et seq., now contemplates that only those "projects that are funded or financed in part or in whole by private sources" qualify for consideration under the public-private partnership pro-

visions of O.C.G.A. § 32-2-80, whereas the former Public Private Initiatives law authorized private financial contribution as one of three permissible legal foundations for the contract. 2009 Op. Att'y Gen. No. 2009-7.

Projects pending at time of amendment. — Georgia Department of Transportation's authority to enter a binding contract pursuant to the former Public Private Initiatives law was revoked by the 2009 Public Private Partnership law, O.C.G.A. § 32-2-78 et seq.; those projects or portions of projects which were not formalized by an executed contract with the selected firm before May 11, 2009, must be re-procured under the authority and provisions of the 2009 law. 2009 Op. Att'y Gen. No. 2009-7.

32-2-81. "Design-build procedure" defined; procedures for utilization; receipt of letters of interest; limitation on contracting; summary projects.

(a) As used in this Code section, the term "design-build procedure" means a method of contracting under which the department contracts with another party for the party to both design and build the structures, facilities, and other items specified in the contract.

(b) The department may use the design-build procedure for buildings, bridges and approaches, rail corridors, and limited or controlled

access projects or projects that may be constructed within existing rights of way where the scope of work can be clearly defined or when a significant savings in project delivery time can be attained.

(c) When the department determines that it is in the best interests of the public, the department may combine any or all of the environmental services, right of way services, design services, and construction phases of a public road or other transportation purpose project into a single contract using a design-build procedure. Design-build contracts may be advertised and awarded notwithstanding the requirements of paragraph (1) of subsection (d) of Code Section 32-2-61. However, construction activities may not begin on any portion of such projects until title to the necessary rights of way and easements for the construction of that portion of the project has vested in the state or a local governmental entity and all railroad crossing and utility agreements have been executed.

(d) The department shall adopt by rule procedures for administering design-build contracts. Such procedures shall include, but not be limited to:

- (1) Prequalification requirements;
- (2) Public advertisement procedures;
- (3) Scope of service requirements;
- (4) Letters of interest requirements;
- (5) Request for proposals. Requests for proposal shall include the applicable percentage to be applied to each evaluation criterion and the relative weight to be assigned to each;
- (6) Criteria for evaluating technical information and project costs;
- (7) Criteria for selection and award process, provided that the rules shall specify that the criteria for selection shall consist of the following minimum two components:
 - (A) A statement of qualifications from which the department will determine a list of qualified firms for the project; and
 - (B) From the list of qualified firms as provided in subparagraph (A) of this paragraph, a price proposal from each firm from which the department shall select the lowest qualified bidder; provided, however, that a proposal will only be considered nonresponsive if it does not contain all the information and level of detail requested in the request for proposal. A proposal shall not be deemed to be nonresponsive solely on the basis of minor irregularities in the proposal that do not directly affect the ability to fairly evaluate the merits of the proposal. Notwithstanding the requirements of Code

Section 36-91-21, under no circumstances shall the department use a "best and final offer" standard in awarding a contract. The department may provide for a stipulated fee to be awarded to the short list of qualified proposers who provide a responsive, successful proposal. In consideration for paying the stipulated fee, the department may use any ideas or information contained in the proposals in connection with the contract awarded for the project, or in connection with a subsequent procurement, without obligation to pay any additional compensation to the unsuccessful proposers;

(8) Identification of those projects that the department believes are candidates for design-build contracting, with the understanding that in general this type of contract should have minimal right of way or utility issues which are unresolved; provided, however, the failure of the department to identify such projects does not prevent the department from using design-build contracting in extraordinary circumstances including emergency work, unscheduled projects, or where loss of funding might occur; and

(9) Criteria for resolution of contract issues. The department may adopt a method for resolving issues and disputes through negotiations at the project level by the program manager up to and including a dispute review board procedure with final review by the commissioner or his or her designee. Regardless of the status or disposition of the issue or dispute, the design-builder and the department shall continue to perform their contractual responsibilities. The department shall have the authority to suspend or provide for the suspension of Section 108 of the department's standard specifications pending final resolution of such contract issues and disputes. This paragraph does not prevent an aggrieved party from seeking judicial review.

(e) The department must receive at least three letters of interest in order to proceed with a request for proposals. The department shall request proposals from no fewer than three of the design-build firms submitting letters of interest. If a design-build firm withdraws from consideration after the department requests proposals, the department may continue if at least two proposals are received.

(f) In contracting for design-build projects, the department shall be limited to contracting for no more than 50 percent of the total amount of construction projects awarded in the previous fiscal year.

(g) Not later than 90 days after the end of the fiscal year, the department shall provide to the Governor, Lieutenant Governor, Speaker of the House of Representatives, and chairmen of the House and Senate Transportation Committees a summary containing all the

projects awarded during the fiscal year using the design-build contracting method. Included in the report shall be an explanation for projects awarded to other than the low bid proposal. This report shall be made available for public information. (Code 1981, § 32-2-81, enacted by Ga. L. 2004, p. 905, § 2; Ga. L. 2005, p. 950, § 1/HB 530; Ga. L. 2009, p. 8, § 32/SB 46; Ga. L. 2010, p. 396, § 1/SB 305; Ga. L. 2012, p. 1343, § 4/HB 817.)

The 2010 amendment, effective July 1, 2010, in subsection (f), substituted “30 percent” for “15 percent” in the first sentence and added the second sentence.

The 2012 amendment, effective July 1, 2012, in subsection (f), substituted “50 percent” for “30 percent” in the first sen-

tence and deleted the second sentence, which read: “After July 1, 2014, in contracting for design-build projects, the department shall be limited to contracting for no more than 15 percent of the total amount of construction projects awarded in the previous fiscal year.”

CHAPTER 3

ACQUISITION OF PROPERTY FOR TRANSPORTATION PURPOSES

Article 1

Sec.

General Provisions

- Sec.
- 32-3-1. Authority to acquire property for present or future public road or other transportation purposes.
- 32-3-2. Acquisition procedure generally; recording order and judgment or instrument of conveyance; filing order and judgment or instrument in records of department.
- 32-3-3. Acquisition of property by devise, exchange, prescription, or dedication; acquisition by county or municipality on behalf of department.
- 32-3-4. Authority to bring condemnation proceedings.
- 32-3-5. Contents of condemnation petition; notice.
- 32-3-6. Filing declaration of taking; contents of and attachments to declaration; conclusive nature of order of condemnation by condemning authority.
- 32-3-7. Deposit of estimated compensation; vesting of title in condemning authority; protection of due process rights.
- 32-3-8. Service of process in condemnation proceedings generally.
- 32-3-9. Service of nonresidents in condemnation proceedings.
- 32-3-10. Substantial compliance with Code Sections 32-3-8 and 32-3-9.
- 32-3-11. Power of judge to set aside, vacate, and annul declaration of taking; issuance and service on condemnor of rule nisi; hearing.
- 32-3-12. Orders of court for payment of award in condemnation proceedings, for surrender of property, and as to other charges.
- 32-3-13. Self-executing nature of declaration of taking; court costs; entry of judgment; transfer of case to closed docket; effect of Code section on condemnor's title.

- 32-3-14. Filing notice of appeal.
- 32-3-15. Interlocutory hearing on amount of compensation.
- 32-3-16. Appeal to jury; evidence to be heard on appeal; subsequent review of issues not brought before jury.
- 32-3-17. Right to intervene in proceedings; effect of subsequent proceedings on rights of condemnor.
- 32-3-17.1. Decisions upon questions of law; power of judge to give necessary orders and directions; jury trial in open court only.
- 32-3-18. Prevention or delay of vesting of title in condemnor.
- 32-3-19. Jury verdict; entry of judgment; interest on award; commissions and poundage; transfer of case to closed docket; effect of Code section on condemnor's title.
- 32-3-20. Effect of article on other methods of condemnation.

Article 2

Acquisition of Rights of Way and Easements for Federal Parkways

- 32-3-30. Power of department to acquire rights of way and easements.
- 32-3-31. Method of acquisition.
- 32-3-32. Acquisition of fee simple title; designation on official county map.
- 32-3-33. Inclusion of scenic easements in rights of way.
- 32-3-34. Amount of land to be acquired for rights of way.
- 32-3-35. Access for private roads.
- 32-3-36. Conveyance of title to rights of

| | way to United States govern- ment or its appropriate agency. | 32-3-39. | Concurrent jurisdiction con- ceded to United States govern- ment; taxing power of state re- served. |
| 32-3-37. | Use of property before final condemnation; enforcement of Code section. | | |
| 32-3-38. | Advertisement restrictions near parkways. | | |

Cross references. — Power of condem-
nation, Ga. Const. 1983, Art. III, Sec. VI,
Para. II. Exercise by Department of
Transportation of power of eminent do-
main to acquire property for construction
of welcome centers, § 50-7-12.

Law reviews. — For annual survey of
law of real property, see 38 Mercer L. Rev.
319 (1986).

JUDICIAL DECISIONS

**Effect of § 32-8-1 on relocation ex-
penses.** — Enactment of O.C.G.A.
§ 32-8-1 does not alter the fact that relo-
cation expenses, whether awarded judi-
cially or administratively, are still a part
of the “just and adequate compensation”
guaranteed to condemnees under the Con-
stitution. DOT v. Gibson, 251 Ga. 66, 303
S.E.2d 19 (1983).

**Relocation expenses may be recov-
ered by administrative proceeding.** —
Under O.C.G.A. § 32-8-1, a condemnee
whose property is being acquired for fed-

erally assisted highway projects may, but
is not required to, seek payment of reloca-
tion expenses directly from the Depart-
ment of Transportation in an administra-
tive action. DOT v. Gibson, 251 Ga. 66,
303 S.E.2d 19 (1983).

**Seeking administrative payment of
relocation expenses** precludes a sepa-
rate judicial determination of the same
relocation expenses in the statutorily au-
thorized condemnation proceedings. DOT
v. Gibson, 251 Ga. 66, 303 S.E.2d 19
(1983).

ARTICLE 1

GENERAL PROVISIONS

JUDICIAL DECISIONS

**Procedure for taking property com-
ports with due process.** — Procedure
for taking property under O.C.G.A. Art. 1,
Ch. 3, T. 32 does not offend the due process
guarantees of either the state or federal
constitutions; however, to ensure due pro-
cess to the property owner, the statute
must be strictly conformed to by the con-

demning body. Dorsey v. DOT, 248 Ga. 34,
279 S.E.2d 707 (1981).

**Notice pleading does not apply to
condemnation proceedings.** — Gen-
eral notion of notice pleading under
O.C.G.A. Ch. 11, T. 9 does not apply to
condemnation proceedings. Dorsey v.
DOT, 248 Ga. 34, 279 S.E.2d 707 (1981).

32-3-1. Authority to acquire property for present or future public road or other transportation purposes.

(a) Any property may be acquired in fee simple or in any lesser interest, including scenic easements, airspace, and rights of access, by a state agency or a county or municipality through gift, devise, exchange, purchase, prescription, dedication, eminent domain, or any other manner provided by law for present or future public road or other transportation purposes.

(b) Public road purposes shall include rights of way; detours; bridges; bridge approaches; ferries; ferry landings; overpasses; underpasses; viaducts; tunnels; fringe parking facilities; borrow pits; offices; shops; depots; storage yards; buildings and other necessary physical facilities of all types; roadside parks and recreational areas; the growth of trees and shrubbery along rights of way; scenic easements; construction for drainage, maintenance, safety, or esthetic purposes; the elimination of encroachments, private or public crossings, or intersections; the establishment of limited-access public roads; the relocation of utilities; and any and all other purposes which may be reasonably related to the development, growth, or enhancement of the public roads of Georgia.

(c) Property or interests shall not be acquired for "future public road purposes," as that term is used in this Code section, unless:

(1) Construction will be commenced on the property to be acquired within a period of not less than two years nor more than ten years following the end of the fiscal year in which the secretary of transportation of the United States approves an advance of all the necessary funds to the department for the acquisition of rights of way for such construction under authority of Title 23, Section 108, United States Code, as amended; and

(2) The intended acquisition is part of a specific plan of highway development, and the acquisition will assist in accomplishing one or more of the following:

(A) A substantial monetary savings;

(B) The enhancement of the integration of highways with public or private urban redevelopment; or

(C) The forestalling of the physical or functional obsolescence of highways.

(d) In the process of acquiring property or interests for any public road purpose, an entire lot, block, or tract of land may be acquired if by so doing the interest of the public will be best served. (Code 1933, § 95A-601, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1981, p. 878, § 1; Ga. L. 1982, p. 3, § 32; Ga. L. 1985, p. 149, § 32.)

General Consideration

Editor's notes. — In light of the similarity of the statutory provisions, decisions under former Civil Code 1910, § 640; former Code 1933, §§ 36-1001, 95-1701, 95-1710, 95-1715, 95-1721, 95-1724, and Chs. 23-6, 95-2, and 95-17; former Ga. L. 1955, p. 559, and former Ga. L. 1961, p. 517, which were subsequently repealed but were succeeded by provisions in this Code section, are included in the annotations for this Code section.

Condemnation Act requirements override all Civil Practice Act provisions. — Requirements of the Condemnation Act override all provisions of the Civil Practice Act, O.C.G.A. Ch. 11, T. 9, in conflict with the Condemnation Act's special purposes. *DOT v. Defoor*, 173 Ga. App. 218, 325 S.E.2d 863 (1984).

Service of process requirement. — Property owner's motion to dismiss for improper service of process was properly denied in a city's in rem forfeiture action because the service requirements of the Civil Procedure Act, O.C.G.A. § 9-11-4(a), did not apply and a property owner was informed of the owner's appellate rights as required by O.C.G.A. § 32-3-1 et seq., Acquisition of Property for Transportation Purposes. *Whigham v. City of Atlanta*, 262 Ga. App. 742, 586 S.E.2d 412 (2003).

No power to damage property without taking property interest. — People, in adopting the Constitution, and the General Assembly, in enacting O.C.G.A.

§ 32-3-1, did not intend to allow a public body to condemn the right to damage property without also taking a property interest. *Metropolitan Atlanta Rapid Transit Auth. v. Trussell*, 247 Ga. 148, 273 S.E.2d 859 (1981).

No statutory requirement for simultaneous land acquisition. — Because there is no statutory provision that all land for a project must be acquired simultaneously, the Department of Transportation did not abuse the department's condemnatory powers by taking appellant's property to construct an allegedly private roadway without acquiring the adjacent property necessary to complete the project. *Texaco, Inc. v. DOT*, 165 Ga. App. 338, 301 S.E.2d 59 (1983).

Property upon which construction will commence within two years is not acquired for "future" public road purposes and is not subject to the restrictions of O.C.G.A. § 32-3-1 upon acquisitions for "future" public road purposes. *Citizens Coalition for Planned Growth, Inc. v. Glynn County*, 249 Ga. 664, 292 S.E.2d 847 (1982).

For purposes of O.C.G.A. § 32-3-1, "present road purposes" refers to construction to begin in less than two years, while "future public road purposes" refers to construction that will commence within a period of not less than two nor more than ten years. *Fulton County v. Davidson*, 253 Ga. 734, 325 S.E.2d 135 (1985).

Subdivision lot owners have easement in roads. — Where the owners of a

General Consideration (Cont'd)

tract of land subdivide the tract into lots, record a map or plat showing such lots, with designated streets and a public park, and sell lots with reference to such map or plat, the owners are presumed to have irrevocably dedicated such streets and park for the use of all of the lot owners in the subdivision. The owners of lots in the subdivision have an easement in these public areas whether or not there has ever been an acceptance of the dedication by public authorities or the public generally. *Northpark Assocs. No. 2 v. Homard Dev. Co.*, 262 Ga. 138, 414 S.E.2d 214 (1992).

Dedication in plat transfers only easement. — There is a presumption that the dedication of roads to a county, whether express or implied, transfers only an easement. *Northpark Assocs. No. 2 v. Homard Dev. Co.*, 262 Ga. 138, 414 S.E.2d 214 (1992).

Governing authority can acquire fee-simple title to a county road only through condemnation or an express grant in a deed or other instrument. When a road is established by dedication and there is no express grant of fee-simple title, an easement results. *Northpark Assocs. No. 2 v. Homard Dev. Co.*, 262 Ga. 138, 414 S.E.2d 214 (1992).

An easement was a compensable property interest in a condemnation action. *Lee v. City of Atlanta*, 219 Ga. App. 264, 464 S.E.2d 879 (1995).

Municipally owned property. — Department of Transportation may not exercise eminent domain powers over municipally owned property as the legislature has not clearly granted such authority or created a procedure therefore, and as such grant may not be implied from statutory provisions generally establishing a procedure for state agencies to condemn "private property." *DOT v. City of Atlanta*, 255 Ga. 124, 337 S.E.2d 327 (1985).

Anticipated condemnation uncompensable. — Trial court correctly granted the Department of Transportation's motion for summary judgment as to restaurant owner's claim sounding in inverse condemnation since DOT was not even permitted to acquire property interests for future road building until the federal

agency had approved in advance all the requisite funding. *Thompson v. DOT*, 209 Ga. App. 353, 433 S.E.2d 623 (1993).

Compensation for interests. — Department of Transportation was required to compensate adjoining landowner in action in which the department sought to condemn a strip of land in order to widen a highway for interference with the landowner's access to a public road but not for the revocation of a license allowing the landowner to maintain a driveway over an existing right of way. *Harper Invs., Inc. v. DOT*, 251 Ga. App. 521, 554 S.E.2d 619 (2001).

Counterclaim. — After the Department of Transportation initiated condemnation proceedings against a property owner, the owner was not permitted to file a counterclaim to recover damages for unauthorized use of the remainder because the subject of the counterclaim was outside the bounds of this type of condemnation. *DOT v. Fina Oil & Chem. Co.*, 194 Ga. App. 185, 390 S.E.2d 99 (1990).

Striking valuation testimony proper. — Trial court did not manifestly abuse the court's discretion by striking certain testimony of the condemnee's expert witness regarding valuation on the ground that the testimony was without sufficient foundation since the testimony was based on an assumption of the value as if the subject property had already been subdivided, which it had not; in making the court's ruling, the trial court properly discerned that, even though a different use of the property was shown to have been reasonably probable, a jury cannot evaluate the property as though the new use were an accomplished fact. *Woodland Partners Ltd. P'ship v. DOT*, 286 Ga. App. 546, 650 S.E.2d 277 (2007), cert. denied, 2007 Ga. LEXIS 698 (Ga. 2007).

Cited in *DOT v. City of Atlanta*, 255 Ga. 124, 337 S.E.2d 327 (1985); *DOT v. Samuels*, 185 Ga. App. 871, 366 S.E.2d 181 (1988); *DOT v. Foster*, 262 Ga. App. 524, 586 S.E.2d 64 (2003); *Forest City Gun Club v. Chatham County*, 280 Ga. App. 219, 633 S.E.2d 623 (2006).

Authority to Condemn

Condemnation not required when no prior right of access. — Condemnor

creating a limited access highway does not have to condemn a purported “right of access” where none has previously existed. *DOT v. Hardin*, 231 Ga. 359, 201 S.E.2d 441 (1973) (decided under former Ga. L. 1955, p. 559).

Condemnation authorized when relocating gas line. — State Highway Department (now Department of Transportation) is authorized to take property for the relocation of a gas company’s interstate gas line since it was in the interest of safety and prevented inconvenience to the public using the gas line and since the acquisition was in furtherance of and reasonably for a public state highway use. *Benton v. State Hwy. Dep’t*, 111 Ga. App. 861, 143 S.E.2d 396 (1965) (decided under former Code 1933, §§ 36-1301, 95-1701, 95-1715, 95-1724).

Condemnation authorized in fee simple. — City was not attempting to acquire a greater interest in the property than that authorized by law by seeking to acquire the land in fee simple. *Marist Soc’y v. City of Atlanta*, 212 Ga. 115, 90 S.E.2d 564 (1955) (decided under former Ga. L. 1955, p. 559).

All interests may be condemned, whether acquired by easement or by fee simple title to the property. *Marist Soc’y v. City of Atlanta*, 212 Ga. 115, 90 S.E.2d 564 (1955) (decided under former Ga. L. 1955, p. 559).

Permanent construction easement. — Under the facts of this case, assertions that the condemnation of a permanent construction easement was an abuse and misuse of the Department of Transportation’s (DOT’s) powers of condemnation were without merit. *Skipper v. DOT*, 197 Ga. App. 634, 399 S.E.2d 538 (1990).

Legislative Intent

Section strictly construed. — In statutory proceedings, where persons may be deprived of property, this section must be strictly construed. *Marist Soc’y v. City of Atlanta*, 212 Ga. 115, 90 S.E.2d 564 (1955) (decided under former Ga. L. 1955, p. 559; see O.C.G.A. § 32-3-1).

Any agency in joint project can acquire land. — Under former Code 1933, § 95-1704a, it was the legislative intent that, when a limited access highway was

to be constructed by the joint action of several governmental agencies, the rights of way for the highway could be acquired, by purchase, condemnation, or otherwise, by any of the governmental authorities of this state cooperating in the project. *Martin v. Fulton County*, 213 Ga. 761, 101 S.E.2d 716 (1958) (decided under former Ga. L. 1955, p. 559; see O.C.G.A. § 32-3-1).

Trial

1. Preliminary Procedure

Ordinance needed to condemn where required by municipal charter.

— If the charter of a municipality requires the adoption of a valid ordinance as a prerequisite to the condemnation of private property, and such requirement is not complied with prior to the condemnation proceedings, the action will be enjoined. *Marist Soc’y v. City of Atlanta*, 212 Ga. 115, 90 S.E.2d 564 (1955) (decided under former Ga. L. 1955, p. 559).

Condemnation proceedings are in rem. — Citations of authority that a suitor cannot join in one action in personam a number of persons and causes of action have no application to a condemnation proceeding in rem against described lands. *Marist Soc’y v. City of Atlanta*, 212 Ga. 115, 90 S.E.2d 564 (1955) (decided under former Ga. L. 1955, p. 559).

Condemnor can join several tracts of land in proceeding. — Condemnor can, in one proceeding, condemn a right of way over several tracts of land owned by different persons. *Marist Soc’y v. City of Atlanta*, 212 Ga. 115, 90 S.E.2d 564 (1955) (decided under former Ga. L. 1955, p. 559).

Exhausting administrative remedies. — In an action in which the plaintiff landowners filed suit against the defendant county alleging a taking under the Fifth Amendment, and inverse condemnation under Ga. Const. 1983, Art. I, Sec. III, Para. I, in connection with the county’s recreational development of the county’s adjoining property, because the landowners failed to avail themselves of Georgia’s inverse condemnation procedure, the Fifth Amendment takings claim was pre-

Trial (Cont'd)**1. Preliminary Procedure (Cont'd)**

mature, and the county's motion for partial judgment on the pleadings was granted. *Carney v. Gordon County*, No. 4:06-CV-36-RLV, 2006 U.S. Dist. LEXIS 82634 (N.D. Ga. Sept. 12, 2006).

2. Burden of Proof

Condemnor cannot just abandon condemnation proceedings. *Marist Soc'y v. City of Atlanta*, 212 Ga. 115, 90 S.E.2d 564 (1955) (decided under former Ga. L. 1955, p. 559).

Condemnee's burden of proof in city condemnation proceeding. — In the absence of proof that the city is asserting a right to abandon the project, or that the condemnation proceedings were not in good faith, the condemnation of lands for highways will not be enjoined on the theory that the city is authorized by the city's charter to disapprove an award for the value of the land. *Marist Soc'y v. City of Atlanta*, 212 Ga. 115, 90 S.E.2d 564 (1955) (decided under former Ga. L. 1955, p. 559).

Burden of showing amount and property interest claimed. — It is the duty of persons claiming an interest in property sought to be condemned to establish the amount and character of the interest claimed. *Marist Soc'y v. City of Atlanta*, 212 Ga. 115, 90 S.E.2d 564 (1955) (decided under former Ga. L. 1955, p. 559).

Burden of showing how and what damage occurred. — In an action for damages to private property instituted under Ga. Const. 1976, Art. I, Sec. III, Para. I (see Ga. L. Const. 1983, Art. III, Sec. VI, Para. II) and former Code 1933, § 95-1710, allegations showing the nature of the cause, describing the property damaged, and relating the manner in which the property was damaged in the construction of a designated state highway were proper and necessary to set forth the plaintiff's case. *Bartow County v. Darnell*, 95 Ga. App. 193, 97 S.E.2d 610 (1957) (decided under former Code 1933, § 95-1710).

Trial court erred in denying an agency's motion for a directed verdict pursuant to

O.C.G.A. § 9-11-50 in a condemnation proceeding pursuant to O.C.G.A. § 32-3-1 et seq.; the property owner's appraiser failed to provide adequate evidence that the owner suffered consequential damages based on damage to a fence. *DOT v. Morris*, 263 Ga. App. 606, 588 S.E.2d 773 (2003).

Burden of showing taking for public purpose. — In order to recover from a county for a taking, the plaintiff must show that the taking was done for a public purpose of the county; however, nothing appearing to the contrary, the allegation that the county took the property as part of a right of way for a road and street within the municipality and while acting in the conduct of the county's business sufficiently alleged the right of the county to condemn the land in question. *McGhee v. Floyd County*, 95 Ga. App. 221, 97 S.E.2d 529 (1957) (decided under former Code 1933, Chs. 23-6, 95-2).

Taking need not be for public necessity. — It is not necessary to show that the proposed alteration in the road is a public necessity; it is sufficient to show that it is of public utility. *Barnard v. Durrence*, 22 Ga. App. 8, 95 S.E. 372 (1918) (decided under former Code 1910, § 640).

3. Verdict and Appeal

Proper to exclude evidence of price paid for nearby land. — It was not error to exclude from evidence a deed offered by the condemnee to show the price the condemnor paid for land located in alleged close proximity to that of the condemnee. *Garden Parks v. Fulton County*, 88 Ga. App. 97, 76 S.E.2d 31 (1953) (decided under former Code 1933, § 36-1001).

No instructions about condemnation benefits if evidence shows only damage. — When the condemnee introduced evidence to show that, because of the condemnation, the condemnee would be required to expend certain amounts on fences, screening hedges, and grading, and thus would be consequentially damaged, and there was no evidence as to any consequential benefits resulting from the improvement, the evidence did not authorize a charge on consequential benefits. *Garden Parks v. Fulton County*, 88 Ga.

App. 97, 76 S.E.2d 31 (1953) (decided under former Code 1933, § 36-1001).

No double award for taking and access loss. — When the state has specifically condemned access rights to a proposed highway, and when the highway will result in a loss of access to part of the condemnee's land, a charge which designates the condemnation of access rights as an element of compensation for the taking and the loss of access as an element of consequential damages, does not authorize a double award for the same thing. *State Hwy. Dep't v. Price*, 123 Ga. App. 655, 182 S.E.2d 175 (1971) (decided under former Ga. L. 1961, p. 517).

Equity court, not jury, determines legality of condemnation. — In condemnation proceedings, the only issue before the assessors or a jury on appeal is the amount of compensation to be paid, and neither the assessors nor a jury can determine whether the condemnor is proceeding legally; the remedy of the landowners is to apply to a court of equity to enjoin the illegal proceedings. *Garden Parks v. Fulton County*, 88 Ga. App. 97, 76 S.E.2d 31 (1953) (decided under former Ga. L. 1961, p. 517).

Prerequisites for vacating judgment for property value. — Affirmative action seeking to set aside judgment in favor of condemnor, and payment of all expenses and damages accrued to the condemnee, are essential to the vacating

and setting aside of a judgment for the value of property condemned. *Marist Soc'y v. City of Atlanta*, 212 Ga. 115, 90 S.E.2d 564 (1955) (decided under former Ga. L. 1955, p. 559).

Previous donation by condemnee. — Since previous donation by condemnee had no relevance to the determination of the amount of just and adequate compensation for the property taken, references by condemnee's president to that previous donation as having been "forced" and "coerced" implied that condemnor had acted in bad faith; thus, the testimony by condemnee's president was both irrelevant and prejudicial. *DOT v. Ultima-Trimble, Ltd.*, 204 Ga. App. 309, 418 S.E.2d 820 (1992).

Comparable sales properly considered. — Jury was authorized to determine that evidence of comparable sales in the area of a landowner's land, even though higher than the landowner's expert's opinion of the market value of the acreage, reasonably established the value of the land, and it could fix the market value of the land higher or lower than that amount asserted by an expert, provided that the jury's verdict was not so disparate as to justify an inference of gross mistake or undue bias; thus, when the evidence supported the jury's award, there was no inference that it was the result of gross mistake or undue bias. *DOT v. Brannan*, 278 Ga. App. 717, 629 S.E.2d 481 (2006).

OPINIONS OF THE ATTORNEY GENERAL

Editor's notes. — In light of the similarity of the statutory provisions, opinions under former Code 1933, §§ 95-2904 and 95-2907, which were subsequently repealed but were succeeded by provisions in this Code section, are included in the annotations for this Code section.

No expenditure of money on historic preservation if not for transportation. — Department of Transportation may expend federal and state funds on transportation enhancement activities as defined in 23 U.S.C. § 101(a) in those instances where the Code of Public Transportation gives the department the authority to expend such funds, but the Department of Transportation has no au-

thority to expend federal or state money on historic preservation, rehabilitation and operation of historic transportation buildings, structures, or facilities (including historic railroad facilities and canals) when such buildings, structures, or facilities are not being acquired for transportation purposes. 1993 Op. Att'y Gen. No. 93-3 (decided prior to 1993 amendment of § 32-1-3).

License for department to build retaining wall on slope easement. — Department of Transportation is responsible for acquiring the proper permission from a property owner in the form of a license to erect a retaining wall upon a slope easement; after permission is ac-

quired, a wall may be erected and the original license is converted into an easement by operation of law; permission for the erection of retaining walls should be in writing so that a court need not make a

factual determination as to whether permission was granted. 1971 Op. Att’y Gen. No. 71-165 (decided under former Code 1933, §§ 95-2904, 95-2907).

ALR. — Constitutionality of statute or ordinance denying right of property owners to defeat a proposed street improvement by protest, 52 ALR 883.

Eminent domain: possibility of overcoming specific obstacles to contemplated use as element in determining existence of necessary public use, 22 ALR4th 840.

32-3-2. Acquisition procedure generally; recording order and judgment or instrument of conveyance; filing order and judgment or instrument in records of department.

All acquisition of property or interests for public road and other transportation purposes shall proceed under the methods set out in this article and in Title 22. Any instrument which conveys such property or interest to or any order and judgment which vests such property or interest in a state agency, county, or municipality shall be recorded in the name of the agency, county, or municipality in each county wherein the property or interest may lie, notwithstanding Code Section 50-16-3. In the case of property or interests acquired by the department, the instrument or order and judgment shall also be kept in the records of the department. Article 1 of Chapter 6 of Title 48 shall not apply to property or interests acquired under the authority of this article. (Code 1933, § 95A-602, enacted by Ga. L. 1973, p. 947, § 1.)

RESEARCH REFERENCES

ALR. — Power of eminent domain as between state and subdivision or agency thereof, or as between different subdivisions or agencies themselves, 35 ALR3d 1293.

32-3-3. Acquisition of property by devise, exchange, prescription, or dedication; acquisition by county or municipality on behalf of department.

(a) The department or any county or municipality is authorized to accept donations, transfers, or devises of land from private persons, from the federal government, or from other state agencies, counties, or municipalities, provided that such land is suitable for present or future public road purposes. Any property may be so acquired in fee or any lesser interest, provided that the state agency, county, or municipality thereby obtains an interest sufficient to ensure reasonable protection of the public investment which it may thereafter make in such land. The instrument which conveys such property or interest shall be recorded in the county or counties where such property or interest lies and, in the case of property or interests acquired by the department, shall also be kept in the records of the department.

(b) Any state agency, county, or municipality is authorized, for public road purposes, to enter into agreements with other state agencies, counties, or municipalities, with the federal government, and with private persons for the exchange of real property or interests therein for public road purposes. Such exchange shall not be consummated unless the exchange serves the best interest of the public and unless the property or interest to be acquired in exchange is appraised as being of equal value to, or of greater value than, the property or interest to be exchanged.

(c) Notwithstanding Code Section 44-5-163, any state agency, county, or municipality is authorized to acquire by prescription and to incorporate into its system of public roads any road on private land which has come to be a public road by the exercise of unlimited public use for the preceding seven years or more.

(d) Any state agency, county, or municipality may acquire rights of way or other real property or interests therein by dedication, provided that the property or interests are adequate for public road purposes and serve the best interests of the public; provided, further, that the agency, county, or municipality receives a warranty deed, except where the property or interest is acquired from a state or federal agency, a county, or a municipality, in which case, where legally possible, a warranty deed shall be received; but, if it is not legally possible to receive a warranty deed, then a quitclaim deed shall be received.

(e) When a road is approved as part of the state highway system, it shall be the duty of the county or municipality through which the road will pass to assist the department in procuring the necessary rights of way as economically as possible; and all expenses thereof shall be paid as provided in Code Section 32-5-25, provided that, whenever the

county or municipality acquires property or interests for the department, title to such property or interest may be acquired in the name of the department. (Code 1933, § 95A-602, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1982, p. 3, § 32.)

JUDICIAL DECISIONS

ANALYSIS

GENERAL CONSIDERATION

PRESCRIPTION

DEDICATION

DIFFERENCES BETWEEN DEDICATION AND PRESCRIPTION

PROCURING RIGHTS OF WAY

General Consideration

Editor's notes. — In light of the similarity of the statutory provisions, decisions under former Civil Code 1895, § 509 and former Code 1933, §§ 85-410 and 95-1721, which were subsequently repealed but were succeeded by provisions in this Code section, are included in the annotations for this Code section.

Intergovernmental exchanges not governed by disposal provisions. — An exchange of condemned property between the Department of Transportation and a county did not require application of the notice requirements and repurchase rights of O.C.G.A. § 32-7-4. *Swims v. Fulton County*, 267 Ga. 94, 475 S.E.2d 597 (1996).

Construction. — Phrase “adequate for public road purposes” in O.C.G.A. § 32-3-3(d) did not mean that the property presently had to have a road constructed on it that met certain engineering standards, but that, in a general sense, the property to be acquired must have been suitable or adequate for accommodating a public road. *Rabun County v. Mt. Creek Estates, LLC*, 280 Ga. 855, 632 S.E.2d 140 (2006).

Cited in *DOT v. Ridley*, 149 Ga. App. 16, 253 S.E.2d 563 (1979); *Citizens Coalition for Planned Growth, Inc. v. Glynn County*, 249 Ga. 664, 292 S.E.2d 847 (1982); *DOT v. City of Atlanta*, 255 Ga. 124, 337 S.E.2d 327 (1985).

Prescription

Creation of public road. — Under the common law, a public road may come into

existence by prescription. *Southern Ry. v. Combs*, 124 Ga. 1004, 53 S.E. 508 (1906) (decided under former Civil Code 1895, § 509).

Since a private road had been blocked and impassable for more than 10 years, there could not have been continuous use of the road for 7 years and, therefore, there could be no prescriptive rights in the road. *Chandler v. Robinson*, 269 Ga. 881, 506 S.E.2d 121 (1998), overruled on other grounds, *Stinski v. State*, 281 Ga. 783, 642 S.E.2d 1 (2007).

Road obtained by prescription becomes public. — Public road can come into existence by public use and public work, and when such use and work are continuous for 20 years, it is certainly a public road, so far as the right of the people to use the road as a highway is concerned. *Dunaway v. Windsor*, 197 Ga. 705, 30 S.E.2d 627 (1944) (decided under former Code 1933, § 85-410).

Mandamus to require county to maintain road. — Group of landowners were properly granted mandamus relief requiring a county to maintain an adjacent road as the county acquired title to the road by prescriptive acquisition, abandonment was not an issue, and compliance with O.C.G.A. § 32-3-3(c) did not need to be shown when a roadway was otherwise acquired by prescription; moreover, urging that a county's failure to meet the county's obligation to maintain public roads was an acceptable method of abandoning a roadway would encourage counties to disregard their public duty. *Shearin v. Wayne Davis & Co., P.C.*, 281 Ga. 385, 637 S.E.2d 679 (2006).

Dedication

Highway may come into existence by dedication. Dunaway v. Windsor, 197 Ga. 705, 30 S.E.2d 627 (1944) (decided under former Code 1933, § 85-410).

Highway may under certain circumstances be implied. Dunaway v. Windsor, 197 Ga. 705, 30 S.E.2d 627 (1944) (decided under former Code 1933, § 85-410).

Owner's intention to dedicate property to public use must be shown, whether express or implied. Dunaway v. Windsor, 197 Ga. 705, 30 S.E.2d 627 (1944) (decided under former Code 1933, § 85-410).

Dedication may be written, by parol, inferred, or implied. — Dedication may be made in writing, or by parol; or dedication may be inferred from acts, or implied, in certain cases, from long use. Dunaway v. Windsor, 197 Ga. 705, 30 S.E.2d 627 (1944) (decided under former Code 1933, § 85-410).

Dedication by acts showing assent to public use. — Intention to dedicate property to public use is essential to a dedication, but this may be proved by acts showing an assent that property should be so used and enjoyed. Dunaway v. Windsor, 197 Ga. 705, 30 S.E.2d 627 (1944) (decided under former Code 1933, § 85-410).

Acts must show unambiguous intent to abandon. — When an established dedication is claimed, the acts relied on to establish the dedication must be such as to clearly and satisfactorily indicate a purpose on the part of the owner to abandon the owner's personal dominion over the property and to devote the property to a definite public use. Dunaway v. Windsor, 197 Ga. 705, 30 S.E.2d 627 (1944) (decided under former Code 1933, § 85-410).

In order to constitute a dedication of land to public uses, an intention on the part of the owner to abandon the use of the land to the public must be shown by proof of unequivocal and unambiguous words or acts of such owner; the circumstances must be such as to show a clear assent to such dedication. Dunaway v. Windsor, 197 Ga. 705, 30 S.E.2d 627 (1944) (decided under former Code 1933, § 85-410).

Inference from owner's acquiescence implies knowledge of public claim. — While an intention to dedicate need not be shown by an express declaration to that effect, but may be inferred under certain circumstances from an acquiescence by the owner in the use of the owner's property by the public, such acquiescence is in the nature of an estoppel in pais, and implies a knowledge on the part of the owner of the claim by the public to the right to appropriate the owner's property to the public use. Dunaway v. Windsor, 197 Ga. 705, 30 S.E.2d 627 (1944) (decided under former Code 1933, § 85-410).

Occasional public roadwork does not prove presumptive dedication. — Occasional road-working of property by public authorities, there being no other evidence of maintenance, is not of itself sufficient to create the presumption of an intention to dedicate; the use and maintenance must be of the character and for the length of time sufficient to create a presumptive right of the public therein. Dunaway v. Windsor, 197 Ga. 705, 30 S.E.2d 627 (1944) (decided under former Code 1933, § 85-410).

Retention of dominion despite public use. — Mere fact that the public uses the property of a private individual is not necessarily inconsistent with the retention of dominion by the owner. Dunaway v. Windsor, 197 Ga. 705, 30 S.E.2d 627 (1944) (decided under former Code 1933, § 85-410).

Mere use of one's property by a small portion of the public, even for an extended period of time, is not sufficient to authorize an inference that the property has been dedicated to a public use, unless it clearly appears that there was an intention to dedicate, and that this dedication was accepted by the public authorities, either in express terms or by implication resulting from the maintenance of a way public in its nature. Dunaway v. Windsor, 197 Ga. 705, 30 S.E.2d 627 (1944) (decided under former Code 1933, § 85-410).

Failure to act in isolated instances. — Acquiescence cannot be effective to deprive the owner of the owner's property when the claimed acquiescence amounts to no more than a failure to protest in

Dedication (Cont'd)

isolated instances when some members of the public travel over the owner's land. *Dunaway v. Windsor*, 197 Ga. 705, 30 S.E.2d 627 (1944) (decided under former Code 1933, § 85-410).

Period must be long enough to presume gift. — In every case of an implied dedication it must appear that the property has been in the exclusive control of the public for a period long enough to raise the presumption of a gift. *Dunaway v. Windsor*, 197 Ga. 705, 30 S.E.2d 627 (1944) (decided under former Code 1933, § 85-410).

Differences Between Dedication and Prescription

Dedication implies conveyance and acceptance, while prescription requires unbroken possession or use under claim of right. *Dunaway v. Windsor*, 197 Ga. 705, 30 S.E.2d 627 (1944) (decided under former Code 1933, § 85-410).

Prescription requires public use for 20 years. — Before a highway can be established by prescription, it must appear that the general public, under a claim of right, and not by mere permission of the owner, used some defined way without interruption or substantial change, for a period of 20 years or more; the use must not only be adverse, but the use must be continuous and uninterrupted, although it is not every slight or occasional use of the land by the owner that will constitute an interruption of the public use. *Dunaway v. Windsor*, 197 Ga. 705, 30 S.E.2d 627 (1944) (decided under former

Code 1933, § 85-410).

Uninterrupted adverse use under claim of right. — When there is no other evidence against the owner to support a dedication but the mere fact of such use, so that the right claimed by the public is purely prescriptive, it is essential, to maintain it, that the use or enjoyment should be adverse, that is with a claim of right, and uninterrupted and exclusive for the requisite length of time. *Dunaway v. Windsor*, 197 Ga. 705, 30 S.E.2d 627 (1944) (decided under former Code 1933, § 85-410).

Less use needed for dedication than for prescription. — Since there was no intention to dedicate, but the public has taken possession of the property of an individual, and used and maintained the property as a highway for a period of 20 years or more, a highway by prescription becomes complete; when there was an intention to dedicate, the maintenance of a way for a less time will bring into existence a completed highway by dedication. *Dunaway v. Windsor*, 197 Ga. 705, 30 S.E.2d 627 (1944) (decided under former Code 1933, § 85-410).

Procuring Rights of Way

County must negotiate with owner. — Negotiations by a county authority, procuring rights-of-way for roads in the name of the State Highway Department (now Department of Transportation) in an effort to agree with the owner of the property to be taken are not only authorized, but are required. *Miller v. State Hwy. Dep't*, 200 Ga. 485, 37 S.E.2d 365 (1946) (decided under former Code 1933, § 95-1721).

OPINIONS OF THE ATTORNEY GENERAL

No transfer tax on property acquired by Department of Transportation. — Tax on transfer of real property does not apply to property acquired by Department of Transportation. 1974 Op. Att'y Gen. No. U74-56.

What property may be exchanged. — DOT may only exchange real property for real property and may not include any exchange of money or other personal property in such an exchange. 1992 Op. Att'y Gen. No. 92-8.

Power of eminent domain as between state and subdivision or agency thereof, or as between different subdivisions or agencies themselves, 35 ALR3d 1293.

32-3-4. Authority to bring condemnation proceedings.

(a) Whenever any state agency, county, or municipality desires to take or damage private property, including scenic easements, air rights, rights of access, and other interests in land for public road purposes or for any other public transportation purposes and shall find or believe, concerning which the decision of the condemning authority shall be final and conclusive, that the title of the apparent or presumptive owner of such property is defective, doubtful, incomplete, or in controversy, or that there are or may be unknown persons or nonresidents who have or may have some claim or demand thereon or some actual or contingent interest or estate therein, or that there are minors or persons under disability who are or may be interested therein, or that there are taxes due or that should be paid thereon, or shall for any reason conclude that it is desirable to have a judicial ascertainment of any question connected with the matter, such state agency, county, or municipality, through any authorized representative, may file a proceeding in rem in the superior court of the county having jurisdiction condemning the property or interests to the use of the petitioner upon payment of just and adequate compensation therefor to the person or persons entitled to such payment.

(b) When the acquisition of public property or an interest therein is necessary for public road purposes, including limited-access roads provided for by Article 4 of Chapter 6 of this title, the department may acquire such public property or interest therein by condemnation and the power of eminent domain when such acquisition is approved by the State Commission on the Condemnation of Public Property as provided in Code Section 50-16-183. The procedures for the condemnation of property provided for in this Code section and Code Sections 32-3-5 through 32-3-19 of this article and the procedures provided for the condemnation of property in Article 3 of Chapter 2 of Title 22 and the procedures provided for the condemnation of property in Article 2 of

Chapter 2 of Title 22 when the property sought is a public cemetery shall apply to the condemnation of public property or an interest therein by the department. As used in this subsection, the term “public property” has the meaning provided for in Code Section 50-16-180. (Code 1933, § 95A-603, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1979, p. 973, § 4; Ga. L. 1982, p. 3, § 32; Ga. L. 1986, p. 1187, § 4.)

Mercer L. Rev. 11 (1987). For annual survey on real property law, see 61 Mercer L. Rev. 301 (2009).

JUDICIAL DECISIONS

Choice of condemnation procedures. — Even though the title to property to be condemned for transportation purposes was not in question, a city could choose to use procedures set forth in O.C.G.A. § 32-3-4 and, although the city could have done so, was not required to use the procedures set forth in O.C.G.A. § 22-2-1 et seq. *Back v. City of Warner Robins*, 217 Ga. App. 326, 457 S.E.2d 582 (1995).

Definition of “owners.” — Word “owners” as used in this statutory scheme means all parties having an interest in the subject land, whether their claims be based on a warranty deed, security deed, filed lis pendens notice, or other statutory lien. *DOT v. Olshan*, 237 Ga. 213, 227 S.E.2d 349 (1976).

Land condemnable in one proceeding. — If the ownership rights of any one with an interest in the land attaches to one tract of land in its entirety, regardless of the extent of the claims of the other “owners,” the tract of land can be condemned in a single in rem action. *DOT v. Olshan*, 237 Ga. 213, 227 S.E.2d 349 (1976); *DOT v. Kenney*, 238 Ga. 173, 231 S.E.2d 767 (1977).

No compensation for traffic pattern change. — Compensation for a change in the traffic pattern on the road adjacent to the condemnees’ property is not recoverable. *DOT v. Katz*, 169 Ga. App. 310, 312 S.E.2d 635 (1983).

Department of Transportation’s exercise of eminent domain powers. — Department of Transportation may not exercise eminent domain powers over municipally owned property as the legisla-

ture has not clearly granted such authority or created a procedure therefore, and as such grant may not be implied from statutory provisions generally establishing a procedure for state agencies to condemn “private property.” *DOT v. City of Atlanta*, 255 Ga. 124, 337 S.E.2d 327 (1985) (decided prior to the 1986 amendment, which added subsection (b)).

Admission of deeds of sale on other properties as direct evidence of valuation. — In a condemnation action wherein a county challenged the valuation placed on the landowner’s property, the trial court did not abuse the court’s discretion by allowing the admission of four deeds of sale on other properties as direct evidence of the condemned property’s value since a proper foundation was laid for the deeds and dissimilarities in the land went to the weight of the evidence of the deeds, not the admissibility of the deeds. *Henry County v. RJR Mgmt. One, LLC*, 290 Ga. App. 241, 659 S.E.2d 676 (2008).

Trial court erred in dismissing the Georgia Department of Transportation’s (DOT’s) condemnation petition for the department’s failure to submit a properly attested affidavit with the department’s petition as the condemnees were estopped from challenging the taking of the condemnees’ property because the condemnees withdrew the money deposited by DOT in the court registry. *Ga. DOT v. Bowles*, 292 Ga. App. 829, 666 S.E.2d 92 (2008).

Cited in *Chamlee v. DOT*, 189 Ga. App. 334, 375 S.E.2d 626 (1988).

C.J.S. — 29A C.J.S., Eminent Domain, §§ 32, 33, 100, 101, 107 et seq.

32-3-5. Contents of condemnation petition; notice.

(a) The petition referred to in Code Section 32-3-4 shall set forth:

- (1) The facts showing the right to condemn;
- (2) The property or interests to be taken or damaged;
- (3) The names and residences of the persons whose property or interests are to be taken or otherwise affected, so far as known;
- (4) Descriptions of the persons or classes of unknown persons whose rights therein are to be excluded or otherwise affected;
- (5) Such other facts as are necessary for a full understanding of the cause;
- (6) A prayer for the judgment of the court in accordance with Code Section 32-3-13 or 32-3-19; and
- (7) The date of the approval of the original location of the highway.

(b) If any of the persons referred to in the petition are, so far as may be known, minors or under disability, that fact shall be stated.

(c) It shall be the duty of the condemning authority, within 30 days from the date of the original approval and designation of said location as a highway, to cause the location of said highway in said county to be advertised once each week for four consecutive weeks in the newspaper of the county in which the sheriff's advertisements are carried; and said advertisement shall designate the land lots or land districts of said county through which such highway will be located. Said advertisement shall further show the date of the original location of such highway as provided for in this subsection. Said advertisement shall further state that a plat or map of the project showing the exact date of the original location is on file at the office of the Department of Transportation and that any interested party may obtain a copy of same by writing to the Department of Transportation and paying a nominal cost therefor. (Code 1933, § 95A-604, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1998, p. 1539, § 10.)

Law reviews. — For review of 1998 legislation relating to eminent domain, see 15 Ga. St. U.L. Rev. 115 (1998). For

annual survey on real property law, see 61 Mercer L. Rev. 301 (2009).

JUDICIAL DECISIONS

Necessity of taking is presumed. — O.C.G.A. § 32-3-5 does not require the condemnor in its condemnation to establish the necessity of condemning the particular property taken; necessity is presumed, and the presumption is rebutted only by a showing by the condemnee of fraud or bad faith by the condemnor in its decision to condemn the land. *West v. DOT*, 176 Ga. App. 806, 338 S.E.2d 45 (1985).

Descriptions sufficiently clear to allow proof of damages. — When the notice clearly described and depicted the easement areas and specified the permanent nature of the easements, the descriptions were sufficiently clear to allow proof of damages. *Skipper v. DOT*, 197 Ga. App. 634, 399 S.E.2d 538 (1990).

Property or interests to be taken or damaged. — Court did not abuse the court's discretion when the court directed the Department of Transportation as condemnor to recast the department's declaration of taking to include reasonably foreseeable personalty and fixtures. *DOT v. Whitfield*, 233 Ga. App. 747, 505 S.E.2d 247 (1998).

Cited in *DOT v. Olshan*, 237 Ga. 213, 227 S.E.2d 349 (1976); *Robinson v. DOT*, 185 Ga. App. 597, 364 S.E.2d 884 (1988); *DOT v. Morris*, 186 Ga. App. 673, 368 S.E.2d 155 (1988); *Bates & Assocs. v. Department of Transp.*, 186 Ga. App. 828, 368 S.E.2d 544 (1988); *DOT v. Whitfield*, 233 Ga. App. 747, 505 S.E.2d 247 (1998).

32-3-6. Filing declaration of taking; contents of and attachments to declaration; conclusive nature of order of condemnation by condemning authority.

(a) In addition to the petition filed pursuant to Code Section 32-3-4, the petitioner shall also file with the court a declaration of taking signed by:

(1) The commissioner or the deputy commissioner of the Department of Transportation if the petitioner is seeking to acquire property or interests on behalf of the department;

(2) The county governing authority if the petitioner is seeking to condemn for county road system purposes or any other public transportation purpose; or

(3) The municipal governing authority if the petitioner is seeking to condemn for municipal street system purposes or any other public transportation purpose.

(b) The declaration of taking shall declare that the lands are being taken for the use of the condemnor, subject to the order of the court provided for in Code Section 32-3-12. The declaration shall contain or have annexed thereto:

(1) A statement of the authority under which, and the public use for which, such lands are taken;

(2) A description of the lands taken sufficient for the identification thereof;

(3) A statement of the estate or interest in the lands taken for public use;

(4) A plat showing the lands taken;

(5) A statement of the sum of money estimated by the condemning authority to be just compensation for the land taken, including consequential damages to land not taken, accompanied by a sworn copy as an exhibit of the appraiser's statement justifying the sum; and

(6) A certified copy of an order by the commissioner if the property or interest is being condemned for the department or by the county or municipality if the property or interest is being condemned for a county or municipality, finding that the circumstances are such that it is necessary to proceed in the particular case under this article, and specifically authorizing condemnation under this article.

(c) Such an order of the commissioner or governing authority shall be conclusive as to the use of the property or interest condemned and as to the authority of the commissioner or governing authority to condemn under this article. (Code 1933, § 95A-605, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1974, p. 1422, § 15; Ga. L. 1975, p. 813, § 1; Ga. L. 1979, p. 973, § 5.)

Law reviews. — For annual survey on real property law, see 61 Mercer L. Rev. 301 (2009).

JUDICIAL DECISIONS

Condemnor must prove just and adequate compensation. — Condemnor has the burden of proving just and adequate compensation in condemnation cases, but once the condemnor has established a prima facie case, the burden is on the condemnee to produce overcoming evidence when the condemnor asserts greater value or damage. *West v. DOT*, 176 Ga. App. 806, 338 S.E.2d 45 (1985).

Condemnor must show declaration of taking method was necessary. — City's declaration of taking violated O.C.G.A. § 32-3-6(b)(6) and, consequently, could not vest title in the city; the declaration of taking method could not have been necessary or essential, as required by the statute, when the city council also contemplated and specifically authorized use of an alternative method. *City of Atlanta v. Yusen Air & Sea Serv.*

Holdings Inc., 263 Ga. App. 82, 587 S.E.2d 230 (2003).

Easement not adequately described. — When the Department of Transportation filed a declaration of taking pursuant to O.C.G.A. § 32-3-1 et seq., which included the taking of a temporary work easement to be used in the demolition of a building on condemned property, the department did not adequately describe the easement as the department's plat attached to the department's declaration did not describe the easement, and there was no description of the easement's width nor any limitation regarding a pathway which had to be used when traversing land not condemned; the issue was not rendered moot by the fact that the condemnees did not obtain a stay pending appeal and the work was completed during the appeal's pendency because

O.C.G.A. § 32-3-17.1 authorized a trial court to order a condemnor to amend a defective declaration of taking. *Ga. 400 Indus. Park, Inc. v. DOT*, 274 Ga. App. 153, 616 S.E.2d 903 (2005).

Affidavit as to just compensation not an admission of fact. — Department of Transportation's affidavit filed pursuant to paragraph (b)(5) of O.C.G.A. § 32-3-6 did not constitute an admission of fact which would be admissible against the Department of Transportation in the condemnee's appeal pursuant to O.C.G.A. § 32-3-14. *Aiken v. Department of Transp.*, 171 Ga. App. 154, 319 S.E.2d 58 (1984).

Failure to allow impeachment of state appraiser warrants new trial. — Condemnees were entitled to a new trial in a Georgia Department of Transportation (DOT) condemnation proceeding; the trial court erred in refusing to allow impeachment of the DOT expert with the disparity between the expert's pretrial estimate of just compensation (JC) and the higher estimate the expert gave at trial as impeachment might have convinced the jury to award JC closer to the higher JC estimate of the condemnees' expert. *Steele v. DOT*, 295 Ga. App. 244, 671 S.E.2d 275 (2008).

Condemnor not bound by original estimate upon condemnee's appeal. —

If a condemnee is dissatisfied with the compensation originally estimated by the condemnor and elects to appeal that issue to a jury, the condemnor is not bound by the condemnor's original estimate but can present evidence de novo as to fair market value and consequential damages. *Morrison v. DOT*, 166 Ga. App. 144, 303 S.E.2d 501 (1983); *Aiken v. Department of Transp.*, 171 Ga. App. 154, 319 S.E.2d 58 (1984).

Right to attorney fees in condemnation proceeding. — Party in condemnation proceeding acquired no vested right in attorney fees awarded to the attorney through the judgment of the trial court. *DOT v. Kendricks*, 244 Ga. 613, 261 S.E.2d 391 (1979).

Cited in *DOT v. Lurie*, 138 Ga. App. 9, 225 S.E.2d 687 (1976); *Coffee v. Atkinson County*, 236 Ga. 248, 223 S.E.2d 648 (1976); *Morgan v. Department of Transp.*, 239 Ga. 560, 238 S.E.2d 95 (1977); *DOT v. Worley*, 150 Ga. App. 768, 258 S.E.2d 595 (1979); *DOT v. Harrison*, 154 Ga. App. 118, 267 S.E.2d 651 (1980); *DOT v. Rudeseal*, 156 Ga. App. 712, 276 S.E.2d 52 (1980).

OPINIONS OF THE ATTORNEY GENERAL

Right to interest in condemnation proceeding. — Right to receive interest as part of just and adequate compensation vests on date of taking, which is the day

the declaration of taking, accompanied by the payment of just and adequate compensation, is filed in a superior court. 1980 Op. Att'y Gen. No. 80-100.

32-3-7. Deposit of estimated compensation; vesting of title in condemning authority; protection of due process rights.

(a) Upon the filing of the declaration of taking and the deposit into court, which deposit shall be made at the time the declaration of taking is filed to the use of the persons entitled thereto, of the sum of money estimated in the declaration by the condemning authority to be just compensation, title to the property in fee simple absolute or such lesser interest as is specified in the declaration shall vest in the condemnor; the land shall be deemed to be condemned and taken for the use of the condemnor; and the right to just compensation for the same shall vest in the persons entitled thereto.

(b) Nothing in this Code section shall be construed so as to deprive the owner of the property or interest of due process of law as guaranteed by the Constitutions of Georgia and of the United States. (Code 1933, § 95A-605, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1982, p. 3, § 32.)

JUDICIAL DECISIONS

Effect of petition. — Petition is not mere pleading but instrument which passes title when filed and just and adequate compensation is paid into the court under O.C.G.A. § 32-3-7. *Dorsey v. DOT*, 248 Ga. 34, 279 S.E.2d 707 (1981).

Standing. — Temporary administratrix, who was also the wife of the decedent landowner, had standing as a party to the action for the recovery of just compensation for land taken by the Department of Transportation in a condemnation proceeding. *DOT v. Foster*, 262 Ga. App. 524, 586 S.E.2d 64 (2003).

Open Records Law. — “Property has been acquired” for purposes of the Open Records Law, O.C.G.A. § 50-18-70 et seq., exemption only after condemnation proceedings, including any litigation, have been completed. *Black v. Georgia DOT*, 262 Ga. 342, 417 S.E.2d 655 (1992).

Effect of omission of commencement date. — Department of Transportation’s omission of the commencement date of the temporary construction easement the department sought to condemn did not render the declaration of taking invalid; as a matter of law, the commencement date for the temporary construction easement is the date of the taking. *Habersham Downs Homeowners’ Ass’n v. DOT*, 212 Ga. App. 686, 442 S.E.2d 868 (1994).

Nonconforming declaration of taking cannot vest title in condemnor. — Declaration of taking which does not conform to the dictates of O.C.G.A. § 32-3-7 cannot vest title to the land in the condemnor. *Dorsey v. DOT*, 248 Ga. 34, 279 S.E.2d 707 (1981).

Vesting of title by amended declaration. — Amended declaration can only vest title in condemnor at time of amendment, and does not relate vesting back to the time of the original declaration. *Dorsey v. DOT*, 248 Ga. 34, 279 S.E.2d 707 (1981).

Amendment to justification of just and adequate compensation. — Along

with amendment to declaration, amendment to justification of just and adequate compensation should be filed by condemnor. *Dorsey v. DOT*, 248 Ga. 34, 279 S.E.2d 707 (1981).

Date of taking for determining land value or consequential damages. — For the purpose of determining the value of the land taken or consequential damages to land not taken, the condemnee shall have the right to elect whether the date of taking is the date of the filing of the original declaration of taking or the date of the filing of the amendment. *Dorsey v. DOT*, 248 Ga. 34, 279 S.E.2d 707 (1981).

Condemnee has no vested right in attorney fees granted by court. — Party in condemnation proceeding acquired no vested right in the attorney fees awarded to the party through the judgment of the trial court. *DOT v. Kendricks*, 244 Ga. 613, 261 S.E.2d 391 (1979).

Trial court does not have authority, under O.C.G.A. § 32-3-7, to require payment of reasonable and necessary attorney fees and expenses of litigation for proceedings before an appellate court of this state. *DOT v. Franco’s Pizza & Delicatessen, Inc.*, 200 Ga. App. 723, 409 S.E.2d 281, cert. denied, 200 Ga. App. 895, 409 S.E.2d 281 (1991), overruled on other grounds, 264 Ga. 393, 444 S.E.2d 734 (1994).

Condemnation not required when no prior right of access. — Condemnor creating a limited access highway need not condemn a purported “right of access” where none has previously existed. *DOT v. Hardin*, 231 Ga. 359, 201 S.E.2d 441 (1973) (decided under former Ga. L. 1955, p. 559).

Cited in *DOT v. Lurie*, 138 Ga. App. 9, 225 S.E.2d 687 (1976); *Coffee v. Atkinson County*, 236 Ga. 248, 223 S.E.2d 648 (1976); *Morgan v. Department of Transp.*, 239 Ga. 560, 238 S.E.2d 95 (1977); *DOT v. Worley*, 150 Ga. App. 768, 258 S.E.2d 595

(1979); DOT v. Harrison, 154 Ga. App. 118, 267 S.E.2d 651 (1980); Blonder v. Department of Transp., 156 Ga. App. 711, 275 S.E.2d 762 (1980); DOT v. Delta Mach.

Prods. Co., 162 Ga. App. 252, 291 S.E.2d 104 (1982); Stephens v. Department of Transp., 170 Ga. App. 784, 318 S.E.2d 167 (1984).

OPINIONS OF THE ATTORNEY GENERAL

Right to interest in condemnation proceeding. — Right to receive interest as part of just and adequate compensation vests on date of taking, which is the day the declaration of taking, accompanied by the payment of just and adequate compensation, is filed in a superior court. 1980 Op. Att'y Gen. No. 80-100.

Surplus property, not to be placed in court registry. — Legislature intended that only money, and not surplus property, be placed into the court registry for satisfaction of any judgment resulting from a condemnation action. 1992 Op. Att'y Gen. No. 92-8.

ALR. — Constitutionality of statute or ordinance denying right of property own-

ers to defeat a proposed street improvement by protest, 52 ALR 883.

32-3-8. Service of process in condemnation proceedings generally.

(a) Upon the filing of the petition and declaration, where the owner or owners of the property sought to be condemned or any person having a claim against or interest in the same are residents of this state, the petition and declaration shall be served upon such persons personally. In cases where such persons are residents of this state but not of the county in which such property or interest is located, such service shall be by second original, as in other cases.

(b) If the owner, or any of the owners, or any person having a claim against or interest in the property is a minor or under any disability whatsoever, such notice shall be served:

(1) Upon his or her guardian; and, if such guardian is a nonresident of this state, upon the judge of the probate court of the county in which the property or interest is located, who shall appoint a guardian ad litem to represent such minors or persons under disability in the litigation, provided that, if the nonresident guardian intervenes, he or she shall serve in lieu of the guardian ad litem; or

(2) If there is no guardian, personally upon the minor, where such minor is a resident of this state. If such minor is not a resident of the county where the property or interest is located, service shall be by second original, as is provided by law in other cases, and upon the judge of the probate court of the county where the property or interest is located, who shall appoint a guardian ad litem to represent the minor in the litigation.

(c) In subsection (b) of this Code section, if the judge of the probate court is disqualified, for reason of interest or other cause, notice shall be served upon the clerk of the superior court of the county, who shall appoint a guardian ad litem to represent the minor or person under disability.

(d) If the property or interest sought to be condemned is held in trust or if the condemnation is directed toward property in which remainders have been created, notice shall be served upon the trustee and also upon such persons as have an interest under the conveyance and who are of age, provided that, where any of the persons to be served are not residents of the county, such service shall be by second original, as in other cases.

(e) A copy of the petition and declaration shall be served upon the tax collecting authority of any county or municipality in which the property or interest may be located, who shall make known in writing the taxes due on the property or interest; and the court shall give such direction as will satisfy the same and discharge the lien thereon.

(f) In all instances, and in addition to the service provided for in this Code section, the condemnor shall, at the time of filing the petition and declaration of taking, cause a copy of such proceedings to be posted on the bulletin board at the courthouse. In addition thereto, such advertisement shall be published in the official newspaper of the county in which the property or interest is located, which notice shall describe the property or interest taken so as to identify the same and shall give the name or names of the owner or owners of such property or interest or persons having claims against such property or interest so far as the same may be known. Such notice shall be published in such newspaper once each week for two weeks subsequent to the filing of such petition and declaration. (Code 1933, § 95A-606, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2004, p. 161, § 7.1.)

Cross references. — Service of process generally, § 9-11-4.

JUDICIAL DECISIONS

Editor's notes. — In light of the similarity of the statutory provisions, decisions under former Code 1882, § 606; former Civil Code 1895, § 520; and former Civil Code 1910, §§ 640 — 642, which were subsequently repealed but were succeeded by provisions in this Code section, are included in the annotations for this Code section.

Effect of section on other section's definition of personal service. — Ga.

L. 1973, p. 947, § 1 (see O.C.G.A. § 32-3-8) requires that the petition and declaration shall be served personally, but personal service as defined in Ga. L. 1972, p. 689, §§ 1-3 (see O.C.G.A. § 9-11-4) is not in conflict with this requirement. *DOT v. Ridley*, 244 Ga. 49, 257 S.E.2d 511 (1979).

Condemnee's right to proper service until voluntary waiver. — Condemnees have a perfect right to waive

service and come in, but until the condemnees are properly served, and unless the record shows this fact by a proper return of service, the right remains until the right is voluntarily waived. *Knight v. Department of Transp.*, 134 Ga. App. 332, 214 S.E.2d 418 (1975).

No presumption of compliance. — Order of the commissioner authorizing the widening of a public road and reciting “that notice of such widening had been published as required by law” furnishes no evidence by presumption or otherwise that persons or agents, residing on the land through which such road goes, were notified in writing as required. *Fulton County v. Amorous*, 89 Ga. 614, 16 S.E. 201 (1892) (decided under former Code 1882, § 606).

Notice mandatory in condemnation. — If no notice is given as required, a petition to enjoin the condemnation of the land for the road should be sustained. *Commissioners of Roads & Revenues v. Curry*, 154 Ga. 378, 114 S.E. 341 (1922) (decided under former Civil Code 1910, § 642).

Injunction proper if notice not given. — It is error for the court to refuse to enjoin the county authorities from proceeding to condemn the land, there having been no compliance with former Civil Code 1910, § 640 et seq. *Ainslee v. County of Morgan*, 151 Ga. 82, 105 S.E. 836 (1921); *Mitchell County v. Hudspeth*, 151 Ga. 767, 108 S.E. 305 (1921); *Commissioners of Roads & Revenues v. Curry*, 154 Ga. 378, 114 S.E. 341 (1922) (decided under former Civil Code 1910, § 640).

Notice to agent insufficient. — When one purporting to be an agent of the owner of lands signs the application for establishing a road with the letters “agt.” after the individual’s name, this is an individual signature and will not deprive the owner of the owner’s right to notice. *Commissioners of Roads & Revenues v. Curry*, 154 Ga. 378, 114 S.E. 341 (1922) (decided under former Code 1019, § 642).

Lessee entitled to notice. — Lessee of property which was subjected to a partial taking was entitled to notice from the condemnor, not the lessor. *Sims v. Foss*, 201 Ga. App. 345, 411 S.E.2d 59 (1991).

Widening condemned property requires notice. — Since the evidence was undisputed that the road through the plaintiff’s premises was originally marked and laid out by the road commissioners, 20 feet in width, and that the county authorities were attempting to widen the road so as to embrace land of the plaintiff without first acquiring, in the manner prescribed by law, the right to do so, the court erred in refusing to enjoin the taking of a strip of the plaintiff’s land so as to widen the road beyond the limits originally marked out. *Buchanan v. James*, 130 Ga. 546, 61 S.E. 125 (1908) (decided under former Civil Code 1895, § 520).

Clerical error in notice not ground for dismissal. — Words in a notice, “said road to be 50 feet in length,” clearly appeared to be a clerical error, and, the length of the road otherwise appearing therein, it was proper to overrule a motion to dismiss the proceeding, based on the ground that the notice showed that the road was to be only 50 feet long, and for that reason could not be of public utility. *Anderson v. Howard*, 34 Ga. App. 292, 129 S.E. 567 (1925) (decided under former Civil Code 1910, § 642).

Timeliness of appeal. — Since the appeal was filed more than 30 days from the date of personal service, although less than 30 days from the completion of advertising as provided for in subsection (f) of this section, the appeal was not timely. *DOT v. Brooks*, 143 Ga. App. 872, 240 S.E.2d 163 (1977); *DOT v. Massengale*, 141 Ga. App. 70, 232 S.E.2d 608 (1977); *DOT v. Harrison*, 154 Ga. App. 118, 267 S.E.2d 651 (1980); *Blonder v. Department of Transp.*, 156 Ga. App. 711, 275 S.E.2d 762 (1980) (see O.C.G.A. § 32-3-8).

Cited in *Robinson v. DOT*, 185 Ga. App. 597, 364 S.E.2d 884 (1988); *DOT v. Morris*, 186 Ga. App. 673, 368 S.E.2d 155 (1988).

32-3-9. Service of nonresidents in condemnation proceedings.

(a) If a nonresident of this state owns the property condemned or any interest therein, whether such interest is as the owner of the fee or

some lesser interest, or any easement, or as a guardian for a minor or a person non compos mentis, or as a trustee, or growing out of similar facts, such nonresident, in the event that his or her address is known, shall be served with a true and correct copy of the petition and declaration, together with any orders of the court thereon. It shall be the duty of the clerk of the superior court for the county wherein such condemnation proceeding is pending to enclose a copy of the petition and declaration in an envelope, properly addressed to the nonresident at his or her last known address, and to deposit the same in the United States mail, properly registered or certified and with a return receipt requested, or deliver the same by statutory overnight delivery; and the clerk shall make a return service, showing these facts, upon the original petition and declaration in such matter for which he or she shall be paid the fee he or she receives for like service for each service made, the same to be taxed against the costs in the case. Such certificate of service shall be final and conclusive as to service of the petition upon the nonresident and shall become a part of the record in the matter.

(b) Where the address of the nonresident is unknown, whether such nonresident is the owner of the property, a minor, or the trustee or guardian of such minor or has any other lawful interest in the property, the method of advertising the condemnation of the particular property, as provided for in subsection (c) of Code Section 32-3-5, shall be sufficient service upon such nonresidents and shall be final and conclusive; provided, however, that, in that event, it shall be the duty of the condemnor, in filing the petition for condemnation, to certify that the address of such person or persons is unknown to the condemnor; provided, further, that it shall be the duty of the sheriff of the county wherein the condemnation is pending to inquire into the truth of such allegation and to enter a certificate upon the condemnation proceeding, within three days from the filing of the same, verifying the truth of the allegation. This certificate, together with the method of advertising of such condemnation proceedings provided for in the laws and statutes described above, shall be final and conclusive as to lawful service of the petition for condemnation upon the nonresident. For each such certificate, the sheriff shall receive the fee the sheriff receives for like service for each such certificate, the same to be taxed as other costs in the case. (Code 1933, § 95A-606, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1998, p. 1539, § 11; Ga. L. 2000, p. 1589, § 7.)

Editor's notes. — Ga. L. 2000, p. 1589, § 16, not codified by the General Assembly, provided that the 2000 amendment was applicable to notices delivered on or after July 1, 2000.

Law reviews. — For review of 1998 legislation relating to eminent domain, see 15 Ga. St. U.L. Rev. 115 (1998).

JUDICIAL DECISIONS

Statutory construction. — Ga. L. 1973, p. 947, § 1 requires that the petition and declaration shall be served personally, but personal service as defined in Ga. L. 1972, p. 689, §§ 1-3 (see O.C.G.A. § 9-11-4) is not in conflict with this requirement. *DOT v. Ridley*, 244 Ga. 49, 257 S.E.2d 511 (1979).

Condemnee's right to proper service remains until waived. — Condemnees have a perfect right to waive service and come on in, but until the condemnees are properly served, and unless the record shows this fact by a proper return of service, the right remains until

the right is voluntarily waived. *Knight v. Department of Transp.*, 134 Ga. App. 332, 214 S.E.2d 418 (1975).

Timeliness of appeal. — When the appeal was filed more than 30 days from the date of personal service, although less than 30 days from the completion of advertising as provided for in O.C.G.A. § 32-3-8, the appeal was not timely. *DOT v. Brooks*, 143 Ga. App. 872, 240 S.E.2d 163 (1977).

Cited in *DOT v. Massengale*, 141 Ga. App. 70, 232 S.E.2d 608 (1977); *DOT v. Harrison*, 154 Ga. App. 118, 267 S.E.2d 651 (1980).

32-3-10. Substantial compliance with Code Sections 32-3-8 and 32-3-9.

(a) The proceeding described in this article being in rem, no provision in Code Sections 32-3-8 and 32-3-9 as to service shall be so construed as to invalidate the intent of the condemnor or as to delay the taking of the property or interest described in the declaration of taking and in the petition or in any manner as to delay the progress of the work for which the taking was made; and a substantial compliance with the provisions for service as heretofore set out in this article shall be deemed sufficient.

(b) At any stage of the cause before final verdict and judgment, the judge of the superior court may order such additional service to be made or such additional parties to be named as may be required by equity and justice; but this shall not be so construed as to invalidate the taking or delay the progress of the work. (Code 1933, § 95A-606, enacted by Ga. L. 1973, p. 947, § 1.)

JUDICIAL DECISIONS

Editor's notes. — In light of the similarity of the statutory provisions, decisions under former Civil Code 1985, § 520 and former Civil Code 1910, § 640, which were subsequently repealed but were succeeded by provisions in this Code section, are included in the annotations for this Code section.

Statutory construction. — Ga. L. 1973, p. 947, § 1 requires that the petition and declaration be served personally, but personal service as defined in Ga. L. 1972, p. 689, §§ 1-3 does not conflict with this

requirement. *DOT v. Ridley*, 244 Ga. 49, 257 S.E.2d 511 (1979).

No injunction in advance of hearing if ample legal remedy. — As the landowner's remedy at law was ample, it was not erroneous to refuse to enjoin the county from continuing a proceeding in advance of the hearing provided for in former Civil Code 1895, § 641. *Atlanta & W.P.R.R. v. Redwine*, 123 Ga. 736, 51 S.E. 724 (1905); *Hutchinson v. Lowndes County*, 131 Ga. 637, 62 S.E. 1048 (1908); *Ballard v. Jones*, 148 Ga. 513, 97 S.E. 443

(1918) (decided under former Civil Code 1895, § 520 and former Civil Code 1910, § 640).

Condemnee's right to service unless voluntarily waived. —

Condemnees have a perfect right to waive service and come in, but until the condemnees are properly served, and unless the record shows this fact by a proper return of service, the right remains until the right is voluntarily waived. *Knight v. Department of Transp.*, 134 Ga. App. 332, 214 S.E.2d 418 (1975).

Timeliness of appeal. — When the

appeal was filed more than 30 days from the date of personal service, although less than 30 days from the completion of advertising as provided for in Ga. L. 1973, p. 947, § 1, the appeal was not timely. *DOT v. Brooks*, 143 Ga. App. 872, 240 S.E.2d 163 (1977).

Cited in *DOT v. Massengale*, 141 Ga. App. 70, 232 S.E.2d 608 (1977); *DOT v. Harrison*, 154 Ga. App. 118, 267 S.E.2d 651 (1980); *Robinson v. DOT*, 185 Ga. App. 597, 364 S.E.2d 884 (1988); *DOT v. Morris*, 186 Ga. App. 673, 368 S.E.2d 155 (1988).

32-3-11. Power of judge to set aside, vacate, and annul declaration of taking; issuance and service on condemnor of rule nisi; hearing.

(a) Upon proper pleadings and evidence, under the applicable rules of law, the judge of the superior court shall have the authority to set aside, vacate, and annul the declaration of taking, together with any title acquired thereby, in the same way and manner and for the same reasons as are provided by Code Sections 23-2-60 and 9-11-60. The power of the court in this respect shall not be construed as extending to a determination of questions of necessity, but there shall be a prima-facie presumption that the property or interest condemned is taken for and is necessary to the public use provided for in this article.

(b) The power of the court as described in subsection (a) of this Code section shall be restricted to the following questions:

(1) Fraud or bad faith, as contemplated by Code Sections 23-2-60 and 9-11-60;

(2) The improper use of the powers of this article, such as are not contemplated by this article;

(3) The abuse or misuse of the powers of this article; and

(4) Such other questions as may properly be raised, including the question of whether or not this article has been invoked in some respect beyond the privileges conferred by this article or by an unauthorized agency, county, or municipality.

(c) If the condemnnee desires to raise such questions as are outlined in subsection (b) of this Code section, the same shall be done by proper pleadings, in the form of a petition addressed to the judge of the superior court having jurisdiction thereof, filed in the same proceedings not later than 30 days subsequent to the date of service upon the condemnnee of the declaration of taking. The presiding judge shall thereupon cause a rule nisi to be issued and served upon the condem-

nor, requiring him to show cause at a time and place designated by the judge why the title acquired by the declaration of taking should not be vacated and set aside in the same way and manner as is now provided for setting aside deeds acquired by fraud. Such hearing shall be had not earlier than 15 days from the time of service of the rule nisi upon the condemnor, nor later than 60 days from the date of filing of the declaration of taking, and with the right of appeal by either party, as in other cases. (Code 1933, § 95A-607, enacted by Ga. L. 1973, p. 947, § 1.)

Law reviews. — For annual survey of zoning and land use law, see 57 Mercer L. Rev. 447 (2005). For annual survey of

zoning and land use law, see 58 Mercer L. Rev. 477 (2006).

JUDICIAL DECISIONS

Issue must be raised within 30 days. — Condemnees waived any challenge to the legality of a condemnor's declaration of taking and any right to urge that the taking is ineffective in order to commence proceedings which are otherwise subject to the five-year dismissal rule under O.C.G.A. § 9-11-41(e) by failing to raise any issue of a defective declaration of taking within the 30-day period mandated under O.C.G.A. § 32-3-11. *Parker v. Department of Transp.*, 184 Ga. App. 882, 363 S.E.2d 156 (1987), cert. denied, 184 Ga. App. 910, 363 S.E.2d 156 (1988).

Subsection (c) hearing requirement. — Subsection (c) of O.C.G.A. § 32-3-11 requires that a hearing be held, not that a ruling be made, within the 60-day time period. *DOT v. City of Atlanta*, 259 Ga. 305, 380 S.E.2d 265 (1989).

Georgia legislature did not intend to deprive the trial court of jurisdiction to consider the motion to set aside if the hearing was not held within 60 days because, once the condemnee had fulfilled the obligation to file a timely motion to set aside, O.C.G.A. § 32-3-11(c) contemplates action by the court, not by the condemnee. As such, the trial court did not err when the court refused to dismiss the motion to set aside. *Cobb County v. Robertson*, No. A11A2270, 2012 Ga. App. LEXIS 212 (Feb. 29, 2012).

Transfer set aside. — When, in a proceeding to condemn property for highway purposes, the evidence was that the Department of Transportation by this tak-

ing would create a grave and unusual risk to the safety of the public, the transfer of defendant's property to the department was set aside unless or until the department became bound to implement a plan of construction that would provide adequate protection against ice falling from defendant's broadcasting tower and guy wires under which the property condemned lies. *Cox Communications, Inc. v. DOT*, 256 Ga. 455, 349 S.E.2d 450 (1986).

Remedy for bad faith finding. — Although the trial court properly found that Georgia Department of Transportation acted in bad faith in issuing the department's declaration of taking regarding the condemnees' land, the department erred in setting aside, on the condemnees' motion, only the limited access portion of the declarations of taking as the proper remedy was to set aside the declarations of taking in their entirety. *DOT v. Bunn*, 268 Ga. App. 712, 603 S.E.2d 2 (2004).

Association failed to prove that the proposed road was unsafe; thus, the taking was not an improper use of the Department of Transportation's condemnation powers. *Habersham Downs Homeowners' Ass'n v. DOT*, 212 Ga. App. 686, 442 S.E.2d 868 (1994).

Superior court erred by not setting aside a declaration of taking on the basis of a county's bad faith exercise of the county's power of eminent domain, since the condemnees' property was condemned to avoid inconveniencing a lumber com-

pany which was the owner of adjacent land. *Brannen v. Bulloch County*, 193 Ga. App. 151, 387 S.E.2d 395 (1989).

No abuse or misuse of powers found. — Under the facts of this case, assertions that the condemnation of a permanent construction easement was an abuse and misuse of the Department of Transportation's (DOT's) powers of condemnation were without merit. *Skipper v. DOT*, 197 Ga. App. 634, 399 S.E.2d 538 (1990).

Compensation limited. — Department of Transportation would not be required both to provide compensation for a diminution in the value of the amenities package and to construct a barrier so as to eliminate such diminution in value. *Habersham Downs Homeowners' Ass'n v. DOT*, 212 Ga. App. 686, 442 S.E.2d 868 (1994).

Recovery of attorney's fees and costs by condemnee. — Condemnee's claim for attorney's fees and litigation expenses based on the fraud and bad faith that condemnor allegedly exhibited during the condemnor's acquisition of the property in question could only be raised in a proceeding pursuant to O.C.G.A. § 32-3-11 and not in an action seeking to establish just and reasonable compensation only. *DOT v. Franco's Pizza & Delicatessen, Inc.*, 164 Ga. App. 497, 297 S.E.2d 72 (1982).

Action in which landowners sought to vacate a condemnation and requested attorney fees for litigation spawned from the misuse and improper use of the powers of the department of transportation was a "proper case" for the recovery of attorney fees. *DOT v. B & G Realty, Inc.*, 197 Ga. App. 613, 398 S.E.2d 762 (1990).

Requirement that a request for fees under O.C.G.A. § 13-6-11 be made in the complaint is consistent with subsection (c) of O.C.G.A. § 32-3-11. *DOT v. Georgia Television Co.*, 244 Ga. App. 750, 536 S.E.2d 773 (2000).

Error to apportion damages without evidence in support of claim. — Award for condemned land utilized for a road right-of-way was just and adequate compensation, but the trial court erred in

apportioning damages to one plaintiff without receiving evidence in support of the plaintiff's claim for damages. *Whitfield v. DOT*, 248 Ga. App. 172, 546 S.E.2d 308 (2001).

Pending valuation issue in trial court results in no appellate court jurisdiction. — Appellate court had to dismiss the company's appeal of the trial court's denial of the company's motion to set aside, vacate, and annul the county's declaration of taking in a condemnation action as the issue of the property's valuation was still pending before the trial court; accordingly, the appellate court did not have jurisdiction over the appeal because the record did not show that the company followed the procedures for bringing an interlocutory appeal and the trial court had not issued a final judgment from which the company could appeal. *TJW Enters. v. Henry County*, 261 Ga. App. 547, 583 S.E.2d 144 (2003).

Rule nisi. — Trial court erred in dismissing the Georgia Department of Transportation's (DOT's) condemnation petition for the department's failure to submit a properly attested affidavit with the department's petition as the condemnees were estopped from challenging the taking of their property because the condemnees withdrew the money deposited by DOT in the court registry. *Ga. DOT v. Bowles*, 292 Ga. App. 829, 666 S.E.2d 92 (2008).

32-3-12. Orders of court for payment of award in condemnation proceedings, for surrender of property, and as to other charges.

(a) Upon the application of the parties in interest, and not earlier than 15 days subsequent to the date of the last advertisement in the official newspaper of the county as provided for in subsection (f) of Code Section 32-3-8, the court shall order that the money deposited in the court, or any part thereof applied for, be paid forthwith to the parties found to be entitled thereto, for the just compensation to be awarded in the proceedings; provided, however, that, where the validity of the proceedings has been placed in issue as provided for in Code Section 32-3-11, the court shall not order the payment of the fund to the condemnee pending a final determination of such questions.

(b) Upon the filing of a declaration of taking, the court shall have power to fix the time, the same to be not later than 60 days from the date of the filing of the declaration of taking as provided in Code Section 32-3-6, within which and the terms upon which the parties in possession shall be required to surrender possession to the petitioner. The court shall have power to make such orders in respect of encumbrances, liens, rents, taxes, assessments, insurance, and other charges, if any, as shall be just and equitable. (Code 1933, § 95A-608, enacted by Ga. L. 1973, p. 947, § 1.)

JUDICIAL DECISIONS

Taking hearing distinguished from appeal from offered compensation. — Taking hearing, as provided in Ga. L. 1973, p. 947, § 1, is a right that is separate and apart from an appeal from the offered compensation, and does not in any way affect the right of appeal. *DOT v. Palmer*, 152 Ga. App. 630, 263 S.E.2d 514 (1979).

Ga. L. 1973, p. 947, § 1 applies only

to possession, while time for filing a notice of appeal is contained in Ga. L. 1973, p. 947, § 1 and is controlling in all cases where an appeal is desired. *DOT v. Harrison*, 154 Ga. App. 118, 267 S.E.2d 651, cert. denied, 449 U.S. 843, 101 S. Ct. 125, 66 L. Ed. 2d 51 (1980).

32-3-13. Self-executing nature of declaration of taking; court costs; entry of judgment; transfer of case to closed docket; effect of Code section on condemnor's title.

(a) No judgment of any court and no order or ruling of the judge thereof shall be necessary to give effect to the declaration of taking

provided for in Code Section 32-3-6; but the same shall be self-executing, subject, however, to the power of the court as provided for in Code Section 32-3-11.

(b) If no appeal is filed as provided for in Code Section 32-3-14, the condemnor shall, at the next term of the superior court convening not earlier than 30 days subsequent to the date of service, as provided for in Code Sections 32-3-8 and 32-3-9, or at any time thereafter, pay all accrued court costs in the case to the clerk of the superior court in which the same is pending, at which time the judge of the superior court shall enter judgment in favor of the condemnee and against the condemnor for the sum of money deposited by the condemnor with the declaration of taking. If such sum has been withdrawn from the court by the condemnee as provided for in Code Section 32-3-12, the clerk of the superior court shall mark such judgment satisfied; and if the condemnee has not withdrawn such sum the clerk shall immediately apply the same to the payment of the judgment and either transmit the same to the condemnee or cause the condemnee to be notified that he, the clerk, holds the same subject to the demand of the condemnee.

(c) In any event, the case shall be transferred, under the conditions set out in this Code section, to the closed docket.

(d) Nothing provided for in this Code section shall be construed as in any way affecting the title acquired by the condemnor by virtue of the declaration of taking, as provided for in Code Section 32-3-7. (Code 1933, § 95A-609, enacted by Ga. L. 1973, p. 947, § 1.)

JUDICIAL DECISIONS

Provision for opening default inapplicable. — Ga. L. 1967, p. 226, § 24 does not apply to a condemnation proceeding. DOT v. Forrester, 149 Ga. App. 647, 255 S.E.2d 115 (1979).

Cited in Stephens v. Department of Transp., 170 Ga. App. 784, 318 S.E.2d 167 (1984); DOT v. Samuels, 185 Ga. App. 871, 366 S.E.2d 181 (1988).

32-3-14. Filing notice of appeal.

If the owner, or any of the owners, or any person having a claim against or interest in the property is dissatisfied with the amount of compensation as estimated in the declaration of taking and deposited in court, as provided for in Code Section 32-3-7, such person or persons, or any of them, shall have the right, at any time subsequent to the filing of the declaration and the deposit of the fund into court, but not later than 30 days following the date of the service as provided for in Code Sections 32-3-8 and 32-3-9, to file with the court a notice of appeal, the same to be in writing and made a part of the record in the proceedings. (Code 1933, § 95A-610, enacted by Ga. L. 1973, p. 947, § 1.)

JUDICIAL DECISIONS

ANALYSIS

GENERAL CONSIDERATION

TIME LIMITATION ON APPEALS

PERSONAL SERVICE

JOINT OWNERS

ISSUES ON APPEAL

General Consideration

Taking hearing distinguished from appeal from offered compensation. — Taking hearing, as provided in Ga. L. 1973, p. 947, § 1, is a right that is separate and apart from an appeal from the offered compensation as provided in Ga. L. 1973, p. 947, § 1, and does not in any way affect the right of appeal under that section. *DOT v. Palmer*, 152 Ga. App. 630, 263 S.E.2d 514 (1979).

Automatic dismissal under § 9-11-41(e). — Automatic dismissal provision of O.C.G.A. § 9-11-41(e), whereby any action in which no written order is taken for five years is automatically dismissed, applies to condemnation proceedings. *Adams v. Cobb County*, 184 Ga. App. 879, 363 S.E.2d 260 (1987), *aff'd*, 258 Ga. 352, 370 S.E.2d 748 (1988).

Condemnee who appeals deemed “plaintiff”. — For every practical purpose and for every substantive issue, a condemnee who appeals a determination of value to a jury under O.C.G.A. § 32-3-14 is a “plaintiff.” *Adams v. Cobb County*, 258 Ga. 352, 370 S.E.2d 748 (1988).

Doctrine of equitable estoppel is unavailable to extend a property owner’s time for filing a notice of appeal under O.C.G.A. § 32-3-14; thus, a property owner could not rely on the doctrine. Moreover, the owner did not show that counsel for the state made intentional misstatements or was grossly negligent, and it was not shown that the owner exercised reasonable diligence. *Cedartown North P’ship, LLC v. Ga. DOT*, 296 Ga. App. 54, 673 S.E.2d 562 (2009).

Partial taking condemnation order not final judgment. — Because a partial taking condemnation order was not otherwise a final appealable judgment within the meaning of O.C.G.A. § 5-6-34(a), and the parties could have appealed by complying with the relevant interlocutory appeal requirements, but did not do so, the appeals court lacked jurisdiction to consider either the appeal or the cross-appeal; moreover, the superior court’s rulings on the admissibility of certain evidence constituted no judgment on the merits of any part of the appealing party’s claim for just and adequate compensation. *Forest City Gun Club v. Chatham County*, 280 Ga. App. 219, 633 S.E.2d 623 (2006).

Cited in *DOT v. Great S. Enters., Inc.*, 137 Ga. App. 710, 225 S.E.2d 80 (1976); *DOT v. Olshan*, 237 Ga. 213, 227 S.E.2d 349 (1976); *DOT v. Massengale*, 141 Ga. App. 70, 232 S.E.2d 608 (1977); *Morgan v. Department of Transp.*, 239 Ga. 560, 238 S.E.2d 95 (1977); *Department of Transp. v. Rudeseal*, 148 Ga. App. 179, 251 S.E.2d 11 (1978); *Blonder v. Department of Transp.*, 156 Ga. App. 711, 275 S.E.2d 762 (1980); *Morrison v. DOT*, 166 Ga. App. 144, 303 S.E.2d 501 (1983); *Department of Transp. v. Wright*, 169 Ga. App. 332, 312 S.E.2d 824 (1983); *Stephens v. Department of Transp.*, 170 Ga. App. 784, 318 S.E.2d 167 (1984); *Chambers v. DOT*, 172 Ga. App. 197, 322 S.E.2d 366 (1984); *Robinson v. DOT*, 185 Ga. App. 597, 364 S.E.2d 884 (1988); *Department of Transp. v. Morris*, 186 Ga. App. 673, 368 S.E.2d 155 (1988); *Lovell v. Department of Transp.*, 187 Ga. App. 259, 370 S.E.2d 27 (1988); *Whitfield v. DOT*, 248 Ga. App. 172, 546 S.E.2d 308 (2001).

Time Limitation on Appeals

Civil practice provisions inapplicable. — Provisions of the Civil Practice Act (O.C.G.A. Ch. 11, T. 9) which deal with time frames do not apply to periods of time which are definitely fixed by other statutes such as O.C.G.A. § 32-3-14. *Bates & Assocs. v. Department of Transp.*, 186 Ga. App. 828, 368 S.E.2d 544, cert. denied, 186 Ga. App. 917, 368 S.E.2d 544 (1988).

Period for appeal fixed by section. — Granting extensions of time as permitted under certain circumstances by the Civil Practice Act (O.C.G.A. Ch. 11, T. 9) does not apply to periods of time which are definitely fixed by other statutes. *McClure v. Department of Transp.*, 140 Ga. App. 564, 231 S.E.2d 532 (1976).

Ga. L. 1973, p. 947, § 1 applies only to possession, while time for filing a notice of appeal is contained in Ga. L. 1973, p. 947, § 1 and is controlling in all cases where an appeal is desired. *Department of Transp. v. Harrison*, 154 Ga. App. 118, 267 S.E.2d 651, cert. denied, 449 U.S. 843, 101 S. Ct. 125, 66 L. Ed. 2d 51 (1980) (see O.C.G.A. § 32-3-14).

Effect of failure to timely file. — When the lessee of a portion of property being condemned did not file a timely notice of appeal, the lessee was not entitled to a jury trial on the valuation of the lessee's interest in the property and could not raise the issue of business losses. *Lil Champ Food Stores, Inc. v. DOT*, 230 Ga. App. 715, 498 S.E.2d 94 (1998).

Thirty-day period under this section cannot be extended. *Department of Transp. v. Palmer*, 152 Ga. App. 630, 263 S.E.2d 514 (1979) (see O.C.G.A. § 32-3-14).

Time for appeal. — Trial court has no authority or discretion to extend the period of time for filing a notice of appeal. *McClure v. Department of Transp.*, 140 Ga. App. 564, 231 S.E.2d 532 (1976).

Right to appeal to a jury from a declaration of taking is absolutely conditional upon the filing of a timely notice of appeal in the superior court, and not even the trial court is empowered to extend the period of time for filing the notice of appeal. *Department of Transp. v. Rudeseal*,

156 Ga. App. 712, 276 S.E.2d 52 (1980).

Statute tolling filing time in cases of fraud not applicable. — O.C.G.A. § 32-3-14 sets forth a mandatory time period for filing an appeal in a condemnation action, not a statute of limitation for commencing a particular type of action; thus, O.C.G.A. § 9-3-96 did not apply to extend a property owner's time for filing an appeal. Moreover, the owner did not show that the Department of Transportation committed actual fraud involving moral turpitude or that the owner itself exercised reasonable diligence. *Cedartown North P'ship, LLC v. Ga. DOT*, 296 Ga. App. 54, 673 S.E.2d 562 (2009).

What constituted "service" for purposes of calculating 30 days. — "Personal service" required under Ga. L. 1973, p. 947, § 1 includes all the variations provided in the Civil Practice Act and does not mandate that the condemner be handed the petition individually. *Department of Transp. v. Ridley*, 244 Ga. 49, 257 S.E.2d 511 (1979).

Filing by cocondemnee. — Condemnee's notice of appeal is untimely despite the fact that the cocondemnee filed a timely answer because the cocondemnee's answer was not a notice of appeal where the answer did not express dissatisfaction with the proposed compensation but merely sought to clarify its name. *Howard v. Department of Transp.*, 184 Ga. App. 116, 361 S.E.2d 7 (1987).

Condemnee's statutory period for filing a notice of appeal is not extended by late service on a cocondemnee. *Howard v. Department of Transp.*, 184 Ga. App. 116, 361 S.E.2d 7 (1987).

Code Section 32-3-17, allowing intervention, inapplicable to named condemnee. — O.C.G.A. § 32-3-17 makes provision for parties whose claims were unknown at the time the petition was filed and who were not named therein, or for taxpayers seeking to intervene in a condemnation proceeding, and is inapplicable to the situation of a condemnee named in the petition who files an appeal more than 30 days after being served with the petition. *Bates & Assocs. v. Department of Transp.*, 186 Ga. App. 828, 368 S.E.2d 544, cert. denied, 186 Ga. App. 917, 368 S.E.2d 544 (1988).

Time Limitation on Appeals (Cont'd)

Appeals less than 30 days after advertising can still be untimely. — When the appeal was filed more than 30 days from the date of personal service, although less than 30 days from the completion of advertising as provided for in subsection (f) of Ga. L. 1973, p. 947, § 1, the appeal was not timely. *Department of Transp. v. Brooks*, 143 Ga. App. 872, 240 S.E.2d 163 (1977).

Personal Service

Applicability of thirty-day provision. — Thirty-day provision in this section refers only to period following personal service on condemnee as shown by the return of service. *Department of Transp. v. Brooks*, 143 Ga. App. 872, 240 S.E.2d 163 (1977) (see O.C.G.A. § 32-3-14).

Joint Owners

Appeal allowed where some joint owners not properly served. — Since the record failed to show service on some of the parties named as joint owners in each of several cases, a notice of appeal to a jury on the questions of value and consequential damages was not too late, although filed more than 30 days after the filing of the declaration of taking, since the condemnees were not properly served and did not waive service until the actual filing of the appeal. *Knight v. Department of Transp.*, 134 Ga. App. 332, 214 S.E.2d 418 (1975).

Issue of personal service to be disposed of as whole. — When a joint notice of appeal is filed by all condemnees, the court should not dismiss the appeal as

to some of the appellants who were served in the first instance while allowing it as to others, but the issue should be taken and disposed of as a whole. *Knight v. Department of Transp.*, 134 Ga. App. 332, 214 S.E.2d 418 (1975).

Issues on Appeal

Affidavit as to just compensation not an admission of fact. — Department of Transportation's affidavit filed pursuant to O.C.G.A. § 32-3-6(b)(5) did not constitute an admission of fact which would be admissible against the Department of Transportation in condemnee's appeal pursuant to O.C.G.A. § 32-3-14. *Aiken v. Department of Transp.*, 171 Ga. App. 154, 319 S.E.2d 58 (1984).

Original estimate not binding in jury appeal. — When a condemnee is dissatisfied with the compensation originally estimated and elects to appeal that issue to a jury, the condemnor is not bound by the condemnor's original estimate and can present evidence de novo as to fair market value and consequential damages. *Aiken v. Department of Transp.*, 171 Ga. App. 154, 319 S.E.2d 58 (1984).

Business loss damages need not be specifically pled in notice of appeal. — Because there was no legislative requirement that, in a condemnation proceeding, a party seeking business loss damages had to specifically and separately plead for such in the notice of appeal, in accordance with the consent judgment that the Georgia Department of Transportation was bound by, a lessee's appeal was to proceed to trial on the lessee's claims for business loss, damages to trade fixtures, and relocation expenses. *DOT v. Camvic Corp.*, 284 Ga. App. 321, 644 S.E.2d 171 (2007).

32-3-15. Interlocutory hearing on amount of compensation.

(a) An appeal having been filed as provided in Code Section 32-3-14, the appellant or appellants, at any time before the beginning of the trial of the issue formed on such appeal, but not later than 90 days after the date of service as provided in Code Sections 32-3-8 and 32-3-9, may file in the case a petition for an interlocutory hearing on the issue of whether the amount deposited in court as just and adequate compensation is sufficient. Such petition shall be served as may be directed by the court. The petition shall be verified and shall state the amount

which is claimed by the petitioner to represent just and adequate compensation, together with a sworn, written statement of the facts upon which the claim is based.

(b) Upon the presentation of the interlocutory petition to the judge of the court in which the case is pending, the court shall make such order as to the appointment of assessors as shall conform most nearly to Article 1 of Chapter 2 of Title 22 and shall give all interested persons equal rights in the selection thereof. If by reason of conflicting interests or otherwise such equality of right cannot be preserved, the judge shall make such order on the subject as shall secure a fair and impartial assessment. The board of assessors so appointed shall determine from all evidence offered by the parties, from personal inspection of the premises, and from its own professional judgment whether the condemnor should be required to deposit any additional amount as estimated compensation and shall, within 30 days of the date of reference to such board, make an interlocutory award based upon such determination.

(c) Upon approval of the interlocutory award by the court and service of a copy upon the condemnor, as may be directed by the court, the condemnor shall within 15 days pay into court any additional amount required to be paid pursuant to the interlocutory award.

(d) Upon the application of the party or parties in interest at any time before a jury verdict on the appeal, the court shall order that the additional money deposited in court be paid forthwith to the parties found to be entitled thereto; provided, however, that any party or parties receiving any payment of any amount paid into court pursuant to an interlocutory award shall, before receiving such payment, file in the case a bond in the amount of such payment conditioned for the repayment of any amount so received by such party which may be in excess of the amount awarded by the jury upon the trial of the appeal. Such bond shall be executed by a surety company authorized to do business in this state; and, in the event the amount awarded by the jury on final trial of the appeal is less than the total amount paid into court by the condemnor, judgment may be entered against the principal and surety on the bond for the amount by which the total amount paid into court exceeds the amount awarded by the jury; and, if the amount awarded by the jury is less than the original deposit, judgment may be entered against the condemnee for that part of the judgment not covered by the bond.

(e) The assessors shall be compensated as provided in Code Section 22-2-84.

(f) The interlocutory award provided for in this Code section shall not be subject to exceptions to any higher court.

(g) If the condemnee notifies the court in writing to dismiss the appeal filed by the condemnee pursuant to Code Section 32-3-14 within

15 days following the date the interlocutory award is approved by the court, that interlocutory award shall become the final judgment in the proceeding and shall not be vacated or modified, and that appeal shall be dismissed unless the condemnor files with the court a notice objecting to such dismissal within 15 days following the date the condemnnee notified the condemnor of the notice to dismiss such appeal. (Code 1933, § 95A-611, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1991, p. 332, § 1; Ga. L. 1998, p. 1539, § 12.)

Editor's notes. — Ga. L. 1991, p. 332, § 2, not codified by the General Assembly, provides that the amendment shall be applicable to those proceedings in which the declaration of taking is filed with the court on or after July 1, 1991.

Law reviews. — For review of 1998 legislation relating to eminent domain, see 15 Ga. St. U.L. Rev. 115 (1998).

JUDICIAL DECISIONS

For discussion of the constitutionality of section, see *Morgan v. Department of Transp.*, 239 Ga. 560, 238 S.E.2d 95 (1977) (see O.C.G.A. § 32-3-15).

Legislative intent to make interlocutory award available. — That the interlocutory award is not subject to being vacated or modified after 15 days indicates a legislative intent to make the interlocutory award quickly available to the condemnnee without further protracted dispute over the interlocutory amount. *Morgan v. Department of Transp.*, 239 Ga. 560, 238 S.E.2d 95 (1977).

No intent to make interlocutory award of estimated compensation unappealable. — Interpretation of this section which would allow interlocutory awards of estimated compensation to become nonappealable final judgments is contrary to the legislative scheme. *Morgan v. Department of Transp.*, 239 Ga. 560, 238 S.E.2d 95 (1977) (see O.C.G.A. § 32-3-15).

Court appointment of special mas-

ter to hear all issues improper. — Trial court's sua sponte appointment of a special master and the court's submission of all issues to that master was contrary to O.C.G.A. § 32-3-15, which contemplates that only the condemnnee can petition for an appointment of a special master and that such a master can consider only the issue of compensation. *Stephens v. Department of Transp.*, 170 Ga. App. 784, 318 S.E.2d 167 (1984).

Condemnee required to post bond. — Same requirements pertaining to a condemnnee's obligation to post bond apply to a condemnnee who seeks a greater award, whether the condemnnee pursues an interlocutory hearing before a special master, or appeals directly to a jury, the sum initially awarded by the court. *Kellett v. Department of Transp.*, 174 Ga. App. 214, 329 S.E.2d 514 (1985).

Cited in *Department of Transp. v. 0.144 Acres of Land*, 167 Ga. App. 59, 306 S.E.2d 59 (1983).

OPINIONS OF THE ATTORNEY GENERAL

Surplus property not to be placed in court registry. — Legislature intended that only money, and not surplus property, be placed into the court registry

for satisfaction of any judgment resulting from a condemnation action. 1992 Op. Att'y Gen. No. 92-8.

RESEARCH REFERENCES

ALR. — Referee's failure to file report within time specified by statute, court order, or stipulation as terminating reference, 71 ALR4th 889.

32-3-16. Appeal to jury; evidence to be heard on appeal; subsequent review of issues not brought before jury.

(a) After the notice of appeal has been filed as provided in Code Section 32-3-14, it shall be the duty of the court at the next term thereof, which shall convene not earlier than 30 days subsequent to the date of service, as provided for in Code Sections 32-3-8 and 32-3-9, to cause an issue to be made and tried by a jury as to the value of the property or interest taken and the consequential damages to property or interests not taken, with the same right to move for a new trial and file a notice of appeal as in other cases at law, provided that an interlocutory award has not become final pursuant to Code Section 32-3-15.

(b) When an appeal has been filed pursuant to Code Section 32-3-14, all subsequent proceedings thereon shall have the nature of a de novo investigation with the right of either party, under the rules of evidence as provided for in the general laws of this state, to introduce evidence concerning:

(1) The fair market value of the property or interest taken or other evidence of just and adequate compensation;

(2) The prospective and consequential damages to the remaining property or interests by reason of the taking and use of the property or interest for the purposes for which taken; and

(3) The consequential benefits accruing to such remaining property or interests by reason of such taking and use,

provided that such consequential benefits, if any, may be offset against such consequential damages, if any; but, in no event, shall consequential benefits be offset against the value of the property or interest actually taken.

(c) If, for any reason, the issues made by the filing of the notice of appeal provided for in this Code section are not tried by a jury as to the value of the property or interest taken and the consequential damages to the property or interests not taken, at the next term of the court after the filing of such appeal, such fact shall not be cause for dismissal of the appeal and the issues made by such appeal shall be subject to trial at any future term of the court. (Code 1933, § 95A-612, enacted by Ga. L. 1973, p. 947, § 1.)

Cross references. — Further provisions regarding evidence to be considered

in determining just and adequate compensation, §§ 22-2-109, 22-2-137.

JUDICIAL DECISIONS

Interlocutory awards of estimated compensation appealable. — Any interpretation of this section allowing interlocutory awards of estimated compensation to become nonappealable final judgments is contrary to the legislative scheme. *Morgan v. Department of Transp.*, 239 Ga. 560, 238 S.E.2d 95 (1977) (see O.C.G.A. § 32-3-16).

Failure to make issue at trial of alleged error. — If alleged error was never made an issue at trial, no question is presented for review on appeal. *DeKalb County v. Cowan*, 151 Ga. App. 753, 261 S.E.2d 478 (1979).

Issue of whether or not property is unique is a jury question. *DOT v. 19.646 Acres of Land*, 178 Ga. App. 287, 342 S.E.2d 760 (1986).

Condemnor not bound by original estimate upon condemnee's appeal to jury. — When a condemnee is dissatisfied with the compensation originally estimated by the condemnor and elects to appeal that issue to a jury, the condemnor is not bound by the condemnor's original estimate but can present evidence de novo as to the fair market value and consequential damages. *Morrison v. DOT*, 166 Ga. App. 144, 303 S.E.2d 501 (1983).

Evidence of sales of comparable property in condemnation proceedings which is not too remote in point of time could become relevant as the basis of an expert's explanation as to how the expert arrived at the valuation and, when such use is made of evidence of comparable sales, no foundation need be laid concerning the similarity of the property. *Panos v. Department of Transp.*, 162 Ga. App. 53, 290 S.E.2d 295 (1982).

Improper exclusion of expert opinion. — Expert's opinion as to what the expert would pay for condemned land was probative of the land's fair market value and improperly excluded by the trial court. *Jotin Realty Co. v. Department of Transp.*, 174 Ga. App. 809, 331 S.E.2d 605 (1985).

Expert appraiser previously employed by another condemning au-

thority. — In a condemnation action where the issue was just and adequate compensation, and the condemnees' expert appraiser testified to having previously been employed by another condemning authority to appraise the same property, but the Department of Transportation did not object to the witness at trial, the issue may not be raised on appeal. *DOT v. Bennett*, 194 Ga. App. 789, 391 S.E.2d 724 (1990).

Greater difficulty in ingress and egress which is occasioned by changing traffic patterns is not an appropriate item of damages in eminent domain proceedings. *Department of Transp. v. Coley*, 184 Ga. App. 206, 360 S.E.2d 924 (1987).

Consequential damages provable. — In condemnation proceedings, the condemnee is entitled to prove every element of consequential damage that is relevant. *Department of Transp. v. Coley*, 184 Ga. App. 206, 360 S.E.2d 924 (1987).

Because a condemnee did not claim lost profits or business losses, the trial court properly limited the condemnee's evidence to the value of the property taken and consequential damages to the remainder; because the jury's valuation was within the range of the evidence, the trial court properly denied the condemnee's motion for a new trial. *Thornton v. DOT*, 275 Ga. App. 401, 620 S.E.2d 621 (2005).

Business loss damages need not be specifically pled in notice of appeal. — Because there was no legislative requirement that, in a condemnation proceeding, a party seeking business loss damages had to specifically and separately plead for such in the notice of appeal, in accordance with the consent judgment that the Georgia Department of Transportation was bound by, a lessee's appeal was to proceed to trial on the lessee's claims for business loss, damages to trade fixtures, and relocation expenses. *DOT v. Camvic Corp.*, 284 Ga. App. 321, 644 S.E.2d 171 (2007).

Use of "condemnee" rather than "condemnor" in burden of proof in-

struction. — When, in a condemnation action, the use of “condemnees” rather than “condemnor” in the charge explaining the burden of proof is clearly inadvertent, a slip of the tongue, the error is not likely to confuse or mislead the jury and, thus, is not so substantial as to require reversal. *Morrison v. DOT*, 166 Ga. App. 144, 303 S.E.2d 501 (1983).

Jury charges constituting reversible error. — Jury charge that limited jury’s use of the replacement-cost-less-depreciation method for establishing fair market value to situations where the market or income approaches were not suitable was incorrect and constituted reversible error. *Jotin Realty Co. v. Department of Transp.*, 174 Ga. App. 809, 331 S.E.2d 605 (1985).

Attorney’s fees and costs recoverable only in § 32-3-11 action. —

Condemnee’s claim for attorney’s fees and litigation expenses based on the fraud and bad faith that the condemnor allegedly exhibited during the condemnor’s acquisition of the property in question could only be raised in a proceeding pursuant to O.C.G.A. § 32-3-11 and not in an action seeking to establish just and reasonable compensation only. *Department of Transp. v. Franco’s Pizza & Delicatessen, Inc.*, 164 Ga. App. 497, 297 S.E.2d 72 (1982).

Cited in *Stephens v. Department of Transp.*, 170 Ga. App. 784, 318 S.E.2d 167 (1984).

RESEARCH REFERENCES

ALR. — Eminent domain: unity or contiguity of separate properties sufficient to allow damages for diminished value of

parcel remaining after taking of other parcel, 59 ALR4th 308.

32-3-17. Right to intervene in proceedings; effect of subsequent proceedings on rights of condemnor.

(a) No provision of this article in reference to any rule or order, or time for responding thereto, shall be held or construed to exclude any person by way of default from making known his rights or claims in the property or interests or in the fund arising therefrom. Any such person claiming an interest or any rights therein may file appropriate pleadings or intervention at any time before verdict and be fully heard thereon. If any person, at any time during the pendency of such proceeding, desires to come in and be heard on any claim to the fund or interest therein, he shall be allowed to do so.

(b) After the filing of the declaration of taking and the payment of the fund into the registry of the court as provided for in Code Section 32-3-7, the petitioner shall not be concerned with or affected by any subsequent proceedings except as to the appeal and interlocutory petition provided for in Code Sections 32-3-14 and 32-3-15 respectively and concerning which the sole issue shall be as to the amount of just and adequate compensation. (Code 1933, § 95A-613, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1982, p. 3, § 32.)

JUDICIAL DECISIONS

All claimants to one piece of condemned property are to be joined in one action for resolution of all issues by trial. DOT v. McLaughlin, 163 Ga. App. 1, 292 S.E.2d 435 (1982), overruled on other grounds, 264 Ga. 393, 444 S.E.2d 734 (1994).

Public possesses “an interest” in public property and, therefore, taxpayers possess the right to intervene in condemnation actions against land owned by the entity to which the taxpayers pay their taxes. DOT v. City of Atlanta, 255 Ga. 124, 337 S.E.2d 327 (1985).

Code section inapplicable to named condemnee. — O.C.G.A. § 32-3-17 is inapplicable to the situation of a condemnee named in the petition who files an appeal more than 30 days after being served with

the petition. Bates & Assocs. v. Department of Transp., 186 Ga. App. 828, 368 S.E.2d 544, cert. denied, 186 Ga. App. 917, 368 S.E.2d 544 (1988).

Validity of taking not affected by dispute over funds. — Dispute between two condemnees over the ownership of the funds paid into the registry of the court and the manner in which the funds were paid out did not affect the validity of the taking itself. Brown v. Department of Transp., 191 Ga. App. 321, 381 S.E.2d 532, cert. denied, 191 Ga. App. 921, 381 S.E.2d 532 (1989).

Cited in Department of Transp. v. Olshan, 237 Ga. 213, 227 S.E.2d 349 (1976); Robinson v. DOT, 185 Ga. App. 597, 364 S.E.2d 884 (1988).

32-3-17.1. Decisions upon questions of law; power of judge to give necessary orders and directions; jury trial in open court only.

All questions of law arising upon the pleadings or in any other way arising from the cause, subsequent to the filing of the declaration of taking and the deposit of the fund, and subsequent to the filing of notice of appeal, if any, shall be passed on by the presiding judge who may, from time to time, make such orders and give such directions as are necessary to speed the cause, and as may be consistent with justice and due process of law; but no jury trial shall be had except in open court. (Code 1981, § 32-3-17.1, enacted by Ga. L. 1982, p. 3, § 32; Ga. L. 1985, p. 149, § 32.)

JUDICIAL DECISIONS

Consolidation of condemnation cases when entire property has common use. — Whether it is appropriate to consolidate two condemnation proceedings depends upon the use of the property, and when the entire property had a common use so as to entitle the landowners to the consequential damages calculated as resulting to the whole of the property rather than to separate parcels, the trial court's order consolidating the two cases was not in error — especially where to allow two different actions to be brought regarding the one property could have resulted in great harm and injustice to the

condemnees' substantive rights. Department of Transp. v. Defoor, 173 Ga. App. 218, 325 S.E.2d 863 (1984).

Restriction on court's power to appoint special master. — O.C.G.A. § 32-3-17.1 does not give the superior court the authority to make a sua sponte appointment of a special master to resolve all issues in the proceedings as if the issues had been brought under O.C.G.A. § 22-2-100 et seq. Stephens v. Department of Transp., 170 Ga. App. 784, 318 S.E.2d 167 (1984).

Evidentiary hearing required for mixed questions of law and fact. — In

a proceeding by a lessor for compensation for an easement on condemned property, the issue of the lessor's interest involved mixed questions of law and fact and could only be dealt with by the court on evidentiary hearing, trial on non-value issues, or summary judgment and not under O.C.G.A. § 32-3-17.1. *S & S Food Servs., Inc. v. DOT*, 222 Ga. App. 579, 475 S.E.2d 197 (1996).

Amendment of defective declaration of taking. — When the Department of Transportation filed a declaration of taking pursuant to O.C.G.A. § 32-3-1 et seq., which included the taking of a temporary work easement to be used in the demolition of a building on the condemned property, the department did not adequately describe the easement as the department's plat attached to the department's declaration did not describe the easement, and there was no description of the easement's width nor any limitation regarding a pathway which had to be used when traversing land not condemned; the issue was not rendered moot by the fact that the condemnees did not obtain a stay pending appeal and the work was completed during the appeal's pendency because O.C.G.A. § 32-3-17.1 authorized a

trial court to order a condemnor to amend a defective declaration of taking. *Ga. 400 Indus. Park, Inc. v. DOT*, 274 Ga. App. 153, 616 S.E.2d 903 (2005).

Business loss damages need not be specifically pled in notice of appeal.

— Because there was no legislative requirement that, in a condemnation proceeding, a party seeking business loss damages had to specifically and separately plead for such in the notice of appeal, in accordance with the consent judgment that the Georgia Department of Transportation was bound by, a lessee's appeal was to proceed to trial on the lessee's claims for business loss, damages to trade fixtures, and relocation expenses. *DOT v. Camvic Corp.*, 284 Ga. App. 321, 644 S.E.2d 171 (2007).

Condemnee has no vested right in attorney fees granted by court. —

Trial court does not have authority, under O.C.G.A. § 32-3-17.1, to require payment of reasonable and necessary attorney fees and expenses of litigation for proceedings before an appellate court of this state. *DOT v. Franco's Pizza & Delicatessen, Inc.*, 200 Ga. App. 723, 409 S.E.2d 281, cert. denied, 200 Ga. App. 895, 409 S.E.2d 281 (1991), overruled on other grounds, 264 Ga. 393, 444 S.E.2d 734 (1994).

32-3-18. Prevention or delay of vesting of title in condemnor.

No appeal in any cause under this article and no bond or undertaking given shall operate to prevent or delay the vesting of title to such lands in the condemnor, subject, however, to the power of the court as provided in Code Section 32-3-20. (Code 1933, § 95A-615, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1982, p. 3, § 32.)

32-3-19. Jury verdict; entry of judgment; interest on award; commissions and poundage; transfer of case to closed docket; effect of Code section on condemnor's title.

(a) The verdict of the jury shall have respect to the lands described in the declaration of taking as set forth in Code Section 32-3-6, or such interest therein as may be described in said declaration, or to any separate claim against the property or interest therein as may be ordered and may be molded under the direction of the court so as to do complete justice and avoid confusion of interest. The court shall give such direction as to the disposition of the fund as shall be proper according to the rights of the several respondents.

(b) After the verdict of the jury, the court shall, in instances where no motion for new trial or notice of appeal is filed within the time provided for by law or where such verdict has been affirmed by a proper appellate court and the remittitur from such court has been made the judgment of the superior court, enter judgment in favor of the condemnee and against the condemnor in the amount of such verdict, together with the accrued court costs, which judgment shall be immediately credited with the sum of money deposited by the condemnor with the declaration of taking and which shall bear interest as provided in subsection (c) of this Code section; and, upon the failure or refusal of the condemnor immediately to deposit such increase in such sum into the registry of the court, as well as the accrued court costs, it shall be the duty of said clerk to issue execution therefor.

(c) After just and adequate compensation has been ascertained and established by judgment, the judgment shall include, as part of the just and adequate compensation awarded, interest from the date of taking to the date of payment pursuant to final judgment at the rate of 7 percent per annum on the amount awarded by final judgment as the value of the property as of the date of taking; but interest shall not be allowed on so much thereof as shall have been paid into the court and was subject to withdrawal by the condemnee without the requirement of posting a bond as required by Code Section 32-3-15. However, if the condemnee posted the bond and withdrew the additional deposit made after the special master's award and is later awarded a sum greater than the original deposit but less than the special master's award, the condemnee shall not be entitled to interest on this additional deposit for the time he had use of the money; but he shall be entitled to receive the percentage of the reasonable cost of the bond that the sum awarded over the original deposit bears to the sum of the special master's award over the original deposit. If the condemnee is later awarded a sum that exceeds the special master's award and he has posted bond and withdrawn the additional deposit, he shall not be entitled to interest on this additional deposit for the time he had use of the money but he shall be entitled to the reasonable cost of the bond.

(d) No sum so paid into the court shall be charged with commissions or poundage.

(e) In any event, the case shall be transferred, under the conditions set out in this Code section, to the closed docket. Nothing in this Code section shall be construed as in any way affecting the title acquired by the condemnor by virtue of the declaration of taking as provided for in Code Section 32-3-7. (Code 1933, § 95A-616, enacted by Ga. L. 1973, p. 947, § 1.)

Cross references. — Interest on judgments generally, § 7-4-12.

JUDICIAL DECISIONS

Entry of judgment. — Language of subsection (b) of O.C.G.A. § 32-3-19, which explicitly directs the entry of judgment in three enumerated instances, is meaningless or mere surplusage, and that language does not implicitly prohibit the entry of judgment in unenumerated instances. *DOT v. Petkas*, 189 Ga. App. 633, 377 S.E.2d 166, cert. denied, 189 Ga. App. 911, 377 S.E.2d 166 (1988).

Legislative determination of pre-judgment interest rate constitutional. — Prejudgment interest rate specified by subsection (c) of O.C.G.A. § 32-3-19 compensates the condemnee for the use of funds generated in a condemnation action, not for the use of the property condemned; thus, this interest rate is not part of “just compensation,” and legislative determination of the rate does not involve improper exercise of a judicial function. *Brooks v. DOT*, 254 Ga. 60, 327 S.E.2d 175 (1985).

Different percentages for prejudgment and postjudgment interest. — If no suspect class of condemnees is involved, application of different statutory percentages to prejudgment and postjudgment interest in condemnation cases is not unconstitutional. *Brooks v. DOT*, 254 Ga. 60, 327 S.E.2d 175 (1985).

Interest on award. — O.C.G.A. §§ 7-4-12 and 32-3-19 are to be construed together so that interest to the condemnee payable under these eminent domain proceedings is 7 percent between the date of taking and the final judgment and 12 percent thereafter until paid. *Department of Transp. v. Cochran*, 160 Ga. App. 583, 287 S.E.2d 599 (1981); *DOT v. Delta Mach. Prods. Co.*, 162 Ga. App. 252, 291 S.E.2d 104 (1982).

Property owner was entitled to interest under the statute since the lump sum estimate of just and adequate compensation, when paid into the court by the defendant city, was not immediately subject to withdrawal by the property owner as the sum had not been apportioned among the property owner and the owner’s tenants. *Chouinard v. City of E. Point*, 237 Ga. App. 266, 514 S.E.2d 220 (1999).

In a condemnation action, the trial

court erred in denying a lessor’s motion in limine to exclude evidence of the lessor’s entitlement to statutory pre-judgment interest under O.C.G.A. § 32-3-19 because the fact that the trial court could later instruct the jury to disregard irrelevant evidence was not a reason to allow the jury to hear the irrelevant evidence; under the statutory framework of § 32-3-19, the amount of pre-judgment interest due a condemnee is determined after the jury enters a verdict. *CNLAPF Partners, LP v. DOT*, 307 Ga. App. 511, 705 S.E.2d 862 (2010).

Term “just and adequate compensation” in subsection (c) of O.C.G.A. § 32-3-19 does not include prejudgment interest as an integral part which would make prejudgment interest subject to postjudgment interest. *Department of Transp. v. Consolidated Equities Corp.*, 181 Ga. App. 672, 353 S.E.2d 603 (1987).

Post-judgment interest in condemnation actions is to be awarded in accordance with O.C.G.A. § 7-4-12 at 12 percent per annum rather than at 7 percent under O.C.G.A. § 32-3-19, as the former is the more recent of the statutes. *Department of Transp. v. Vest*, 160 Ga. App. 368, 287 S.E.2d 85 (1981).

Jury verdict establishes value. — Last word on value is the jury’s verdict; the jury establishes the value. If the jury finds as a fact that the condemnor underestimated the value of the land, the condemnor must pay more; if it finds as a fact that the condemnor overestimated the value, the condemnee is not entitled to the proceeds of the government agency’s mistake. *Kellett v. Department of Transp.*, 174 Ga. App. 214, 329 S.E.2d 514 (1985).

Appeals. — Mere filing of a timely motion for new trial or a notice of appeal, both of which contemplate the prior entry of a judgment on the jury’s verdict, do not destroy the underlying viability of that prior judgment as a final appealable order in the case. *DOT v. Petkas*, 189 Ga. App. 633, 377 S.E.2d 166, cert. denied, 189 Ga. App. 911, 377 S.E.2d 166 (1988).

Cited in *Department of Transp. v. Doss*, 238 Ga. 480, 233 S.E.2d 144 (1977).

OPINIONS OF THE ATTORNEY GENERAL

Just and adequate compensation interest vests on date of taking. — Right to receive interest as part of just and adequate compensation vests on date of taking, which is the day the declaration of taking, accompanied by the payment of just and adequate compensation, is filed in a superior court. 1980 Op. Att'y Gen. No. 80-100.

Interest on amount recovered in condemnation cases. — Condemnation cases filed before the effective date of O.C.G.A. § 7-4-12 bear interest at 7 percent on the amount recovered from the

date of taking. Cases filed on and after the effective date of O.C.G.A. § 7-4-12 bear interest at 7 percent from the date of taking to the date of final judgment and at 12 percent from the date of final judgment. 1980 Op. Att'y Gen. No. 80-100.

Surplus property not to be placed in court registry. — Legislature intended that only money, and not surplus property, be placed into the court registry for satisfaction of any judgment resulting from a condemnation action. 1992 Op. Att'y Gen. No. 92-8.

32-3-20. Effect of article on other methods of condemnation.

In cases involving condemnation of private property for public road purposes or any other public transportation purpose, this article shall be supplementary to and cumulative of the methods of procedure for condemnation of private property prescribed in Chapter 2 of Title 22. (Code 1933, § 95A-617, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1979, p. 973, § 6.)

ARTICLE 2

ACQUISITION OF RIGHTS OF WAY AND EASEMENTS FOR
FEDERAL PARKWAYS

Cross references. — Limited access roads generally, § 32-6-110 et seq.

32-3-30. Power of department to acquire rights of way and easements.

The department shall have the authority and is empowered to acquire, either by condemnation, purchase, gift, or other methods, rights of way and easements necessary to comply with the laws, rules, and regulations of the United States government for the construction of federal parkways in Georgia. (Ga. L. 1967, p. 604, § 1; Ga. L. 1969, p. 982, § 1.)

Cross references. — Easements generally, T. 44, C. 9.

32-3-34. Amount of land to be acquired for rights of way.

(a) The lands and interest in lands to be acquired in fee simple for federal parkway rights of way shall average not more than 125 acres per mile plus not more than 25 acres per mile in scenic easements; and in no case shall the width of the fee simple rights of way for federal parkway land be less than 300 feet. It is the intent of this Code section that in using the acreage per mile method there will be permitted the balancing of the total acreage over the entire length of the federal parkway project within the state and that such usage will provide for flexibility to narrow or widen the fee simple lands acquired for federal parkways to meet specific conditions.

(b) The variance of the width of the lands to be acquired by the department for federal parkways is to be dependent upon topographical conditions; requirements of federal parkway design; acquisition of acreage adjacent to the federal parkway at designated locations of scenic, historic, or recreational value or significance; simplicity and ease of rights of way acquisition; cost of rights of way acquisition; and other conditions considered by the department to be controlling; but in no case shall the width of the fee simple rights of way to be acquired for federal parkways be less than the 300 feet provided for in this Code section. (Ga. L. 1967, p. 604, § 4; Ga. L. 1969, p. 982, § 1.)

32-3-35. Access for private roads.

The acquisition of rights of way by the department for federal parkways shall permit no reservations or interests of access for private roads connecting to or crossing the federal parkways; and the depart-

ment shall acquire, as part of the rights of way for federal parkways, the rights and interests of access for private roads. (Ga. L. 1967, p. 604, § 7; Ga. L. 1969, p. 982, § 1.)

32-3-36. Conveyance of title to rights of way to United States government or its appropriate agency.

The department is authorized and empowered to convey such title or interest as is acquired for federal parkway rights of way to the United States government or its appropriate agency, free and clear of all claims for compensation. (Ga. L. 1967, p. 604, § 6; Ga. L. 1969, p. 982, § 1.)

RESEARCH REFERENCES

Am. Jur. 2d. — 26 Am. Jur. 2d, Eminent Domain, §§ 17, 88, 90, 112, 147, 173, 174, 271 et seq., 289, 318. 27 Am. Jur. 2d, Eminent Domain, §§ 414, 415, 430, 431 et seq.

C.J.S. — 29A C.J.S., Eminent Domain, §§ 20, 88, 100, 101, 115, 219 et seq.

32-3-37. Use of property before final condemnation; enforcement of Code section.

(a) When areas of land or interests in land have been tentatively designated by the United States government to be included within federal parkways but the final survey and plans necessary for the construction of federal parkways as provided by law have not yet been made, no person shall cut or remove any timber from such areas as so designated pending the completion and finalization of such survey and plans after receiving notice from the department that such area is under investigation. Any property owner who suffers loss or damage by reason of the restraint upon his right to use the timber upon his land pending such investigation and the finalization of survey and plans for the construction of federal parkways shall be entitled to recover compensation from the department for the temporary appropriation of his property and for any damage to his property caused by such temporary appropriation, in the event the same is not finally included within the area designated as a federal parkway.

(b) The provisions of this Code section may be enforced under the same law now applicable for the adjustment and payment of compensation in the acquisition of rights of way for present or future public road or other transportation purposes. (Ga. L. 1967, p. 604, § 9; Ga. L. 1969, p. 982, § 1.)

32-3-38. Advertisement restrictions near parkways.

(a) No advertisement or advertising structure shall be erected, constructed, installed, maintained, or operated within 500 feet of the boundary of any federal parkway rights of way acquired by the department under this article except as follows:

(1) Advertisements which are securely attached to a place of business or residence which does not exceed one advertising structure with a total area not to exceed 100 square feet may be erected or maintained or caused to be erected or maintained by the owner or lessee of such place of business or residence within 150 feet of such place of business or residence if and only if the advertisement or advertising structure relates solely to merchandise, services, or entertainment sold, produced, manufactured, or furnished at such place of business or residence;

(2) Signs may be erected or maintained or caused to be erected or maintained on any farm by the owner or lessee of such farm if and only if such signs relate solely to farm produce, merchandise, services, or entertainment sold, produced, manufactured, or furnished on such farm and when the signs so erected or maintained do not exceed two in number with a combined total area not to exceed 150 square feet;

(3) Signs may be posted or displayed upon real property by the owner, or by the authority of the owner, stating that the property upon which the sign is located, or a part of such property, is for sale or rent; and such signs, when so posted or displayed, may state any data pertaining to such property and its appurtenances and the name and address of the owner and the agent of such owner;

(4) Notice of any railroad, bridges, ferries, or other transportation or transmission company may be posted or displayed when found necessary in the discretion of the commissioner;

(5) A sign containing 16 square feet or less and bearing an announcement of any county, town, village, or city, or historic place or shrine, which is situated in this state, advertising itself or local industries, meetings, buildings, or attractions, may be posted or displayed, provided that the sign is maintained wholly at public expense or at the expense of such historic place or shrine;

(6) Historic markers erected by duly constituted and authorized public authorities may be posted or displayed; and

(7) Highway markers and signs erected or caused to be erected by the commissioner or other authorities, in accordance with the law, may be posted or displayed.

(b) Any person who violates the advertising restrictions of this Code section or any lawful regulation promulgated by the department under authority of this Code section shall be guilty of a misdemeanor and, upon conviction thereof, shall be punished as provided in Code Section 32-6-91. The department is authorized to use the remedies set forth in Code Sections 32-6-93, 32-6-94, and 32-6-96, in order to enforce the advertising restrictions set forth in this Code section. (Ga. L. 1967, p. 604, § 10; Ga. L. 1969, p. 982, § 1.)

32-3-39. Concurrent jurisdiction conceded to United States government; taxing power of state reserved.

The State of Georgia, by this article, does concede concurrent jurisdiction to the United States government or its appropriate agency for rights of way and the lands or interest in lands conveyed to the United States government for federal parkway purposes under this article. However, the State of Georgia expressly reserves the taxing power as applied to all persons, property, or operations within the federal parkway rights of way except as applied to the property of and the operations of the United States government and its agencies. ARTICLE 1

GENERAL PROVISIONS

32-4-1. Classification of public roads.

For purposes of jurisdiction and administration, the public roads of Georgia shall be divided and classified in accordance with the three types of classifications provided in this Code section:

- (1) **State highway system.** The state highway system shall consist of those public roads which on July 1, 1973, are shown by the records of the department to be "state-aid roads," those public roads thereafter designated by the department as part of the state highway system, and all of The Dwight D. Eisenhower System of Interstate and Defense Highways within the state;
- (2) **County road systems.** Each county road system shall consist of those public roads within that county, including county roads extending into any municipality within the county, which are shown to be part of that county road system by the department records on July 1, 1973, and any subsequent additions to such county road system made by the county;

(3) **Municipal street systems.** Each municipal street system shall consist of those public roads within the limits of that municipality which are not in any other classification under this Code section. (Code 1933, § 95A-201, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2000, p. 136, § 32.)

JUDICIAL DECISIONS

Editor's notes. — In light of the similarity of the statutory provisions, decisions under former Code 1933, § 69-301, which was subsequently repealed but was succeeded by provisions in this Code section, are included in the annotations for this Code section.

Road may become public without department recording road in county road system. — Failure of the Department of Transportation to record a particular road as being a part of the county road system does not determine whether such road becomes a public road by prescription. *Jordan v. Way*, 235 Ga. 496, 220 S.E.2d 258 (1975).

Circular airport roadway not street. — Roadway in the form of a circle, situated wholly within the limits of a municipal airport, is not a city "street." *Mayor of Savannah v. Lyons*, 54 Ga. App. 661, 189 S.E. 63 (1936) (decided under former Code 1933, § 69-301).

Cited in *Georgia DOT v. Smith*, 210 Ga. App. 741, 437 S.E.2d 811 (1993); *City of Social Circle v. Sims*, 228 Ga. App. 582, 492 S.E.2d 240 (1997); *DOT v. Carr*, 254 Ga. App. 781, 564 S.E.2d 14 (2002); *Murray v. Ga. DOT*, 284 Ga. App. 263, 644 S.E.2d 290 (2007).

OPINIONS OF THE ATTORNEY GENERAL

Deeding privately-owned road or driveway to county. — Merely deeding privately owned road or driveway to county will not necessarily turn that private property into a public road. 1980 Op. Att'y Gen. No. U80-37.

When county must maintain roads annexed into municipalities. — Because the county must maintain roads on the county road system and because public roads are not removed from the system by mere annexation into a municipality where the road lies, the county must continue to maintain roads on the county road system which are in areas annexed

into a municipality until the governing authority of the county removes the roads from the county road system by appropriate action. 1976 Op. Att'y Gen. No. U76-21.

Contract for improvement of county road located in municipality. — County may, by contract, obtain the cooperation of a municipality in the right-of-way acquisition for, and construction and maintenance of, a county road located within the municipality, but the county cannot require this of a municipality absent an appropriate contract. 1986 Op. Att'y Gen. No. U86-27.

Term "highway" in statutory provision

relative to vehicle traffic as including street, 54 ALR 1250.

Jurisdiction and power in respect of street road which is part of, or touches upon, a state or federal highway, 144 ALR 307.

32-4-2. Official map, list, and records; rules and regulations.

(a)(1) The department shall prepare an official map showing all public roads on the state highway system. Changes to the state highway system shall be recorded on this map as soon as is reasonably possible; and such map, as it is periodically revised, shall be filed with the Secretary of State and shall be open for public inspection. As often as reasonably possible but not less than once every five years, the department shall also prepare and distribute to each county a map showing all the public roads on its county road system including extensions into municipalities.

(2)(A) The department shall prepare an official list of all portions or features of the state highway system, including without limitation public roads, bridges, or interchanges, which have been named by Act or resolution of the General Assembly or by resolution of the State Transportation Board. The department shall update the list to reflect any additions or changes as soon as is reasonably possible; and such list, as periodically revised, shall be open for public inspection. For each such named portion or feature of the state highway system, the list shall specify without limitation the official name; the state highway system route number; the name of each county wherein the named portion or feature is located; a citation to the Act or resolution of the General Assembly or the resolution of the State Transportation Board officially naming such portion or feature; and a brief biographical, historical, or other relevant description of the person, place, event, or thing commemorated by such naming.

(B) The department may contract with a state historical society to make such list available in electronic format free of charge to Internet users, provided that any web page providing such list pursuant to this subparagraph shall be searchable without limitation by county name.

(b) The department shall keep written records of the mileage on all public roads on the state highway system and on all public roads on each of the county road systems. These written records shall be revised as soon as is reasonably possible after any changes to the above public road systems. They shall indicate whether roads are paved or unpaved and shall contain information as to the condition, status, type, and use of all such public roads and such other information as deemed necessary for sound, long-range planning of public road construction and maintenance. These records shall be made available to each county and to the public.

(c) The department may provide reasonable rules and regulations for keeping accurate and up-to-date, between official measurements, the

mileage record called for in this Code section. Each county shall comply with such rules and regulations.

(d) Not more often than every four years, a county may request an official measurement of its county road system under the rules and regulations of the department; and the department shall comply with such a request if properly made. Whenever a mileage measurement is to be made in any county, whether in response to a request or in the regular course of measurement for the records of the department, the county shall furnish a representative to accompany the representatives of the department in its measurement. In case of disagreement between the department representative and the county representative as to their findings, the matter shall be referred to the commissioner, whose decision as to the facts thereof shall be final and conclusive. The distribution of the county grants based on public road mileage of the county road system shall be made on the basis of the latest official mileage record for each county as shown by department records at the end of the preceding fiscal year.

(e) The official record of the state highway system shall consist of an official map, as provided for in subsection (a) of this Code section, and a written record, as provided for in subsection (b) of this Code section, the written record to have priority in case of conflict between the two. Resolutions of the board designating a road as part of the state highway system, as provided for in Code Section 32-4-21, and certifications of abandonment, as provided for in subsection (a) of Code Section 32-7-2, shall serve as the official record until such changes are recorded on the official map and in the written record.

(f) The official record of a county road system shall consist of an official map, as provided for in subsection (a) of this Code section, and a written record, as provided for in subsection (b) of this Code section, the written record to have priority in case of conflict between the two. The minutes of the county containing resolutions designating roads as a part of a county road system, as provided for in Code Section 32-4-40, and certifications of abandonment, as provided for in subsection (b) of Code Section 32-7-2, shall serve as the official record until such changes are recorded on the official map and in the written record.

(g) For purposes of this chapter, state maps and written records shall only be maintained on public roads which are open to public travel. (Orig. Code 1863, § 578; Code 1868, § 642; Code 1873, § 603; Code 1882, § 603; Ga. L. 1890-91, p. 134, § 1; Civil Code 1895, § 516; Civil Code 1910, § 636; Code 1933, § 95-108; Code 1933, § 95A-204, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2000, p. 1304, § 1; Ga. L. 2001, p. 4, § 32; Ga. L. 2009, p. 8, § 32/SB 46; Ga. L. 2011, p. 583, § 4/HB 137.)

The 2011 amendment, effective July 1, 2011, deleted “and the number of each five-digit postal ZIP Code area” following “each county” in the third sentence of

subparagraph (a)(2)(A); deleted “or five-digit postal ZIP Code” following “name” at the end of subparagraph (a)(2)(B); and added subsection (g).

JUDICIAL DECISIONS

Width of road determinations. — When the county has no road register, and the road at issue has never been laid out by the county, registered, or classified, the road’s width must be determined by the prescriptive use of the road. *Turner v. Brown*, 234 Ga. 605, 216 S.E.2d 853 (1975).

Removal of road from official map. — After the Department of Transporta-

tion removed a road from the official map for the state highway system and placed the road on the official map for the county road system and the county adopted a resolution accepting the road, the evidence established that the department had no obligation to maintain the road. *Georgia DOT v. Smith*, 210 Ga. App. 741, 437 S.E.2d 811 (1993).

OPINIONS OF THE ATTORNEY GENERAL

When county must maintain roads annexed into municipalities. — Because the county must maintain roads on the county road system and because public roads are not removed from the system by mere annexation into a municipality where the road lies, the county must con-

tinue to maintain roads on the county road system which are in areas annexed into a municipality until the governing authority of the county removes the roads from the county road system by appropriate action. 1976 Op. Att’y Gen. No. U76-21.

32-4-3. Naming state roads, bridges, or interchanges.

No state agency shall name or rename any state road, bridge, interchange, or any part of a road in honor of, or with the name of, any person unless such action is approved by a joint resolution or Act of the General Assembly which is approved by the Governor or becomes law without such approval. This Code section shall not apply to a political subdivision of the state naming any road which is under the jurisdiction of such political subdivision. (Code 1981, § 32-4-3, enacted by Ga. L. 2002, p. 415, § 32.)

Cross references. — Specific powers of General Assembly, Ga. Const. 1983, Art. III, Sec. VI, Para. II.

Editor’s notes. — The provisions of this Code section were previously enacted in substantially similar form by Ga. L. 2001, p. 1215, § 2.

Ga. L. 2006, p. 72, § 32A/SB 465, not

codified by the General Assembly, provided for the repeal of Ga. L. 2001, p. 1215, § 2, which section has been codified as and superceded by Code Section 32-4-3, relating to naming state roads, bridges, or interchanges, and which Code section shall remain effective.

32-4-4. Determination by entity on asbestos pipe; removal and disposal; status of facility.

(a) As used in this Code section, the term “entity” means a county, a municipality, a consolidated government, or a local authority.

(b) Whenever existing utility facilities owned and operated by an entity contain asbestos pipe and such facility exists in the public rights of way of any highway, road, or street authorized pursuant to this title, and the entity determines that such facility should no longer be utilized, the entity that owns and operates the utility facility shall file a notice of abandonment with the department if the facility is located upon the public rights of way under the authority of the department. Upon abandonment, the entity shall have the discretion to:

(1) Remove and dispose of the asbestos pipe in accordance with federal laws and regulations;

(2) Leave the asbestos pipe in place and fill it with grout or other similar substance designed to harden within the pipe; or

(3) Allow the pipe to remain undisturbed in the ground and take no further action.

(c) At the request of the department or entity, any asbestos pipe left in the right of way as authorized by subsection (b) of this Code section shall be marked so as to be locatable.

(d) The entity shall not relinquish the ownership of said facility as stated in subsection (h) of Code Section 25-9-7 and Code Section 32-6-174. The facility shall be deemed abandoned and out of service. (Code 1981, § 32-4-4, enacted by Ga. L. 2009, p. 302, § 1/HB 101; Ga. L. 2011, p. 583, § 5/HB 137.)

The 2011 amendment, effective July 1, 2011, in subsection (b), in the first sentence, substituted “such facility” for “such pipe” in two places, substituted “public rights of way of any highway, road, or street” for “rights of way of any road, bridge, or other transportation project”, added “file a notice of abandonment with the department if the facility is located upon the public rights of way under the authority of the department” at the end,

and added “Upon abandonment, the entity shall” at the beginning of the second sentence; and substituted the present provisions of subsection (d) for the former provisions, which read: “Any costs, claims, or other liability associated with the entity’s decision pursuant to subsection (b) of this Code section shall be borne by the entity and may be subject to offset by the department.”

ARTICLE 2

STATE HIGHWAY SYSTEM

32-4-20. Composition of state highway system.

The state highway system shall consist of an integrated network of arterials and of other public roads or bypasses serving as the major collectors therefor. No public road shall be designated as a part of the state highway system unless it meets at least one of the following requirements:

- (1) Serves trips of substantial length and duration indicative of regional, state-wide, or interstate importance;
- (2) Connects adjoining county seats;
- (3) Connects urban or regional areas with outlying areas, both intrastate and interstate;
- (4) Serves as part of the principal collector network for the state-wide and interstate arterial public road system; or
- (5) Serves as part of a programmed road improvement project plan in which the department will utilize state or federal funds for the acquisition of rights of way. (Code 1933, § 95A-202, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2012, p. 1343, § 5/HB 817.)

The 2012 amendment, effective July 1, 2012, deleted “or” at the end of paragraph (3); substituted “road system; or” for “roads” at the end of paragraph (4); and added paragraph (5).

Cross references. — Giving of notice of intention to condemn road constituting part of state highway system for purpose of constructing electric power plant, § 22-3-42.

JUDICIAL DECISIONS

Road not part of state highway system. — Trial court did not err in granting the Georgia Department of Transportation (DOT) summary judgment in a driver’s action alleging that the department negligently maintained a dirt road because the road was not a part of the state highway system since the road did not meet any of the four requirements of O.C.G.A. § 32-4-20, and the DOT had no

duty to maintain the road; the dirt road was a dead-end loop that led back to a county road and was part of a right-of-way that was fenced off from the travel lanes of an interstate, and at some point before the incident, access to the road had been restricted by a gate. *Barrett v. Ga. DOT*, 304 Ga. App. 667, 697 S.E.2d 217, cert. denied, No. S10C1813, 2010 Ga. LEXIS 918 (Ga. 2010).

32-4-21. Designation of roads as part of state highway system.

Whenever the board, or the commissioner when the board is not in session, deems it necessary and in the public interest to have a new or existing public road designated as part of the state highway system,

whether as additional mileage or as part of a substitution or relocation, the board, by resolution, or the commissioner, by written notice to the board, may designate such road to be a part of the state highway system. If the road proposed to be designated is a part of either a county road system or a municipal street system, the department shall give written notice to the county or municipality of the effective date that such road shall become part of the state highway system. Any change on the state highway system by designation shall be recorded on the official map and in the written records of the state highway system, as provided for in subsections (a) and (b) of Code Section 32-4-2. (Laws 1818, Cobb's 1851 Digest, p. 947; Code 1863, §§ 579, 580; Code 1868, §§ 643, 644; Code 1873, §§ 604, 605; Code 1882, §§ 604, 605; Civil Code 1895, §§ 520, 521; Civil Code 1910, §§ 640, 641; Code 1933, §§ 95-201, 95-202; Code 1933, § 95A-202, enacted by Ga. L. 1973, p. 947, § 1.)

JUDICIAL DECISIONS

Removal of road from official map. — After the Department of Transportation removed a road from the official map for the state highway system and placed the road on the official map for the county road system and the county adopted a resolution accepting the road, the evidence established that the department had no obligation to maintain the road. *Georgia DOT v. Smith*, 210 Ga. App. 741, 437 S.E.2d 811 (1993).

Liability for maintenance of road when written notice not given. — Georgia Department of Transportation was responsible for maintaining a bypass on a road because the department had taken over maintenance of the road even though the department had not yet given the statutory written notice of the road becoming a part of the state highway system. *DOT v. Carr*, 254 Ga. App. 781, 564 S.E.2d 14 (2002).

32-4-22. Creation of Developmental Highway System.

(a) There is created as a part of the state highway system a system of public roads to be known as the Developmental Highway System which shall consist of the following road corridors (not in order of priority):

- (1) Appalachian;
- (2) The South Georgia Parkway;
- (3) U.S. 27;
- (4) U.S. 82;
- (5) Golden Isles;
- (6) Savannah River;
- (7) U.S. 441;
- (8) Fall Line;

- (9) U.S. 319;
- (10) U.S. 19;
- (11) U.S. 84;
- (12) U.S. 1/SR 17;
- (13) SR 72;
- (14) Northern Arc further identified as the North Georgia Connector between the U.S. Highway 411 and U.S. Highway 41 interchange in Bartow County to State Highway 316 in Gwinnett County;
- (15) East-west Highway from I-59 North to I-85 North;
- (16) Truck access routes, including without limitation:
 - (A) SR 133 from Albany to Valdosta;
 - (B) SR 40 from Folkston to St. Marys; and
 - (C) SR 125 from Fitzgerald to I-75;
- (17) SR 32;
- (18) Power Alley, U.S. 280 from Columbus to Savannah;
- (19) SR 125 from its intersection with SR 107 in Ben Hill County (Fitzgerald Bypass) to its intersection with SR 32 in Irwin County; and
- (20) SR 15 from its intersection with US 441/SR 24 at Watkinsville to its intersection with US 1 in Toombs County.

Without limiting the foregoing, said system is further identified as including those roads and corridors referred to as “the Governor’s Road Improvement Program” in that resolution adopted by the State Transportation Board dated November 17, 1988.

(b) The location and mileage of the Developmental Highway System shall be as generally described in subsection (a) of this Code section, with the power of the State Transportation Board to make such variances therein as shall be dictated by sound engineering and construction practices.

(c) The Developmental Highway System shall be under the control and supervision of the board, subject to the provisions of this Code section or any other Act of the General Assembly; provided, however, that the State Road and Tollway Authority is authorized to construct all or any part of such system and to enter into agreements with the department, pursuant to Code Section 32-2-61, for such purpose. Any project the cost of which is paid from the proceeds of garvee bonds as defined in Code Section 32-10-90.1 shall be, pursuant to a contract or

agreement between the authority and the department, planned, designed, and constructed by the Department of Transportation or a contractor contracting with the Department of Transportation. (Code 1981, § 32-4-22, enacted by Ga. L. 1989, p. 221, § 1; Ga. L. 1994, p. 701, § 1; Ga. L. 2001, p. 1215, § 1; Ga. L. 2001, p. 1251, § 1-3; Ga. L. 2005, p. 320, § 1/SB 107.)

Code Commission notes. — Pursuant to Code Section 28-9-5, in 2009, a punctuation change was made at the beginning of paragraph (a)(2).

Law reviews. — For note on 1989 enactment of this Code section, see 6 Ga. St. U.L. Rev. 257 (1989).

32-4-23. Council on Rural Transportation and Economic Development; creation and membership; powers, duties, and authority; funding; expense allowances; repeal.

Reserved. Repealed by Ga. L. 1997, p. 976, § 1, effective March 31, 2000.

Code Commission notes. — Pursuant to Code Section 28-9-5, in 2007, this Code section number was designated as reserved.

Editor's notes. — This Code section was based on Code 1981, § 32-4-23, enacted by Ga. L. 1996, p. 1512, § 1; Ga. L. 1997, p. 976, § 1.

32-4-24. Alternative tourism routes; welcome centers authorized.

(a) The board shall designate as alternative tourism routes roads that are a part of the state highway system that traverse the state and pass through or in close proximity to historic sites or tourist attractions in the state. Interstate highways that traverse the state shall not be eligible for designation as an alternative tourism route. The initial alternative tourism routes shall be U.S. Highway 27 and U.S. Highway 441.

(b) The board shall consult with the Department of Economic Development, county governing authorities, and historical sites and tourist attractions located in this state in the selection of additional alternative tourism routes. The Department of Economic Development shall promote such routes and sites and attractions along such routes to the motoring public.

(c) Subject to the appropriation process, the department may within five years of the designation of an alternative tourism route construct within 20 miles of the state line on each end of such route a welcome center. Subject to the appropriation process, if the department decides to construct such a center, it shall negotiate and contract with the local governing authorities where the welcome center is located for the maintenance and operation of such center. (Code 1981, § 32-4-24, enacted by Ga. L. 2007, p. 291, § 1/SB 282.)

ARTICLE 3

COUNTY ROAD SYSTEMS

Cross references. — Application for and issuance of writ of mandamus against county board of commissioners or probate judge to compel building, repair, and maintenance of county roads, § 9-6-21. Grants to counties for road construction and maintenance, as such grants relate to relief of ad valorem taxation on tangible property in county, § 36-17-20 et seq.

PART 1

GENERAL POWERS AND DUTIES OF COUNTIES

32-4-40. Designation of roads as part of county road system; designation of system on maps and written records of county.

Each county shall, by resolution, designate roads to be a part of its county road system; and such resolutions shall be recorded in the minutes of the county. All such roads shall be laid out on the shortest and best route to their intended destination and with as little injury to private property as possible. When a road has been designated as a part of a county road system, this change shall be recorded on the official map of the county road system, as provided for in subsection (a) of Code Section 32-4-2, and in the written record of the county road system, as provided for in subsection (b) of Code Section 32-4-2. (Laws 1818, Cobb's 1851 Digest, p. 951; Code 1863, § 584; Code 1868, § 648; Code 1873, § 609; Code 1882, § 609; Civil Code 1895, § 529; Civil Code 1910, § 645; Code 1933, § 95-205; Code 1933, § 95A-203, enacted by Ga. L. 1973, p. 947, § 1.)

JUDICIAL DECISIONS

Acceptance of transfer of state road. — After the Department of Transportation removed a road from the official map for the state highway system and placed the road on the official map for the county road system and the county adopted a resolution accepting the road, the evidence established that the department had no obligation to maintain the road. Georgia DOT v. Smith, 210 Ga. App. 741, 437 S.E.2d 811 (1993).

32-4-41. Duties.

The duties of a county with respect to its county road system, unless otherwise expressly limited by law, shall include but not be limited to the following:

- (1) A county shall plan, designate, improve, manage, control, construct, and maintain an adequate county road system and shall have control of and responsibility for all construction, maintenance,

or other work related to the county road system. Such work may be accomplished through the use of county forces, including inmate labor, by contract as authorized in paragraph (5) of Code Section 32-4-42, or otherwise as permitted by law. Nothing in this paragraph shall be construed to prevent a county from entering into a contract providing for a municipality to maintain an extension of the county road system within the municipal limits;

(2) A county shall control, administer, and account for funds received for the county road system and activities incident thereto from any source whatsoever, whether federal, state, county, municipal, or any other; and it shall expend such funds for and on behalf of the county in connection with the county road system and for any purpose in connection therewith which may be authorized in this title or by any other law;

(3) A county shall inspect and determine the maximum load, weight, and other vehicular dimensions which can be safely transported over each bridge on the county road system and shall post on each bridge and on each approach thereto on the county road a sign containing a legible notice showing such maximum safe limits, each such sign to conform to the department regulations promulgated under authority of Code Section 32-6-50. However, the department is authorized to give technical assistance to counties, when so requested, in carrying out this paragraph. It shall be unlawful for any person to haul, drive, or bring on any bridge any vehicle, load, or weight which in any manner exceeds the maximum limits so ascertained and posted on such bridge; and any person hauling, driving, or otherwise bringing on such bridge any load or weight exceeding the maximum limits so ascertained and posted shall do so at his own risk; and the county shall not be liable for any damages to persons or property that may result therefrom;

(4) A county shall keep on file in the office of the county clerk, available for public inspection, the map of the county road system prepared by the department as provided for in subsection (a) of Code Section 32-4-2. In addition to keeping on file a map of the county road system, the county shall notify the department within three months after a county road is added to the local road or street system and shall further notify the department within three months after a local road or street has been abandoned. This notification shall be accompanied by an appropriate digital file, map, or plat depicting the location of the new or abandoned road;

(5) A county shall procure the necessary rights of way for public roads of the state highway system within the county in compliance with subsection (e) of Code Section 32-3-3 and Code Section 32-5-25; and

(6) In acquiring property for rights of way for federal-aid highway projects on its county road system, the county shall comply with the requirements of the applicable provisions of the Uniform Relocation Assistance and Real Property Acquisition Policy Act of 1970, as amended by the Uniform Relocation Act Amendments of 1987, Title IV of Public Law 100-17, and in general shall be guided by the policies applicable to the department as set forth in Code Section 32-8-1. (Code 1933, § 95A-401, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1980, p. 775, § 5; Ga. L. 1981, p. 953, § 1; Ga. L. 1988, p. 1737, § 1; Ga. L. 1998, p. 1206, § 1; Ga. L. 2011, p. 583, § 6/HB 137.)

The 2011 amendment, effective July 1, 2011, substituted “an appropriate digital file, map, or plat” for “a map or plat” in the last sentence of paragraph (4).

Cross references. — Weight of vehicle and load, § 32-6-26. Designated local truck route signs, § 32-6-50.

U.S. Code. — The Uniform Relocation System and Real Property Acquisition Policy Act of 1970, referred to in this Code section, is codified as 42 U.S.C. ch. 61.

JUDICIAL DECISIONS

Editor’s notes. — In light of the similarity of the statutory provisions, decisions under former Code 1933, Ch. 95-9 and § 95-1721, and former Ga. L. 1955, p. 124, as amended, which were subsequently repealed but were succeeded by provisions in this Code section, are included in the annotations for this Code section.

Constitutional to require county authorities to maintain roads. — Requiring county authorities to maintain roads did not violate state constitutional provisions dealing with the creation of debts since counties are granted authority to build and maintain roads and to levy taxes for such purposes. *State v. Georgia Rural Rds. Auth.*, 211 Ga. 808, 89 S.E.2d 204 (1955) (decided under former Ga. L. 1955, p. 124, as amended).

Constitutional to require county to build and maintain bridges. — It is the duty of county authorities to construct and maintain bridges across streams in a workmanlike and proper manner so that any person may use the bridges in safety in ordinary travel. *DeKalb County v. Brewer*, 107 Ga. App. 231, 129 S.E.2d 540 (1963), later appeal, 111 Ga. App. 269, 141 S.E.2d 234 (1965) (decided under former Code 1933, Ch. 95-9).

No liability for defective bridges. — There is no language in O.C.G.A.

§ 32-4-41 specific enough to waive sovereign immunity and make a county liable for the county’s defective bridges. *Kordares v. Gwinnett County*, 220 Ga. App. 848, 470 S.E.2d 479 (1996).

Duty to install signs. — In a personal injury action, contractor had no duty to protect the plaintiff from dangerous or defective conditions caused by others; the county, not the contractor, had the obligation to install the signs which the plaintiff claimed were necessary. *Purvis v. Virgil Barber Contractor*, 205 Ga. App. 13, 421 S.E.2d 303 (1992).

When an injured party sued the Georgia Department of Transportation (DOT) for injuries received in a single-car accident on a county road, the party could not maintain a negligent maintenance claim against DOT because the road on which the accident occurred was not part of the state highway system, nor did the road lead to a state park; thus, under O.C.G.A. § 32-4-41(1), the county was obligated to maintain the road and, under O.C.G.A. § 32-2-61(e), DOT’s contract with the county to improve the road did not relieve the county of this responsibility. *Ogles v. E.A. Mann & Co.*, 277 Ga. App. 22, 625 S.E.2d 425 (2005).

Constitutional to require county to secure rights of way. — In the construc-

tion of state-aid roads by the State Highway Board (now Transportation Board), it is the duty of the county authorities having control of county roads to assist in procuring the necessary rights of way. *Martin v. Fulton County*, 213 Ga. 761, 101 S.E.2d 716 (1958) (decided under former Code 1933, § 95-1721).

Extent of right-of-way. — County could only acquire by prescription a right-of-way over that which was actually used as a roadway, and the standard 30 foot width on which the county relied was applicable only to roads which were formally acquired by the county. *Clack v. Henry County*, 261 Ga. 623, 409 S.E.2d 647 (1991).

Only the right-of-way actually acquired could be included in the roadway. *Clack v. Henry County*, 261 Ga. 623, 409 S.E.2d 647 (1991).

Authority to develop asphalt facilities. — Given the general and broad powers of counties authorized by Ga. Const. 1976, Art. IX, Sec. V, Para. II (see now Ga. Const. 1983, Art. IX, Sec. IV) and this section to levy taxes and expend funds for the construction and maintenance of roads, it is reasonable to imply that the authority can develop facilities for the production of asphalt for use in the county

road system. *Ledbetter Bros. v. Floyd County*, 237 Ga. 22, 226 S.E.2d 730 (1976) (see O.C.G.A. § 32-4-41).

Historical use as public road. — County's right to the roadway depends on the historical use of the roadway as a public road, not on any express grant of the property to the county or on any express dedication of the property for use as a roadway. *Clack v. Henry County*, 261 Ga. 623, 409 S.E.2d 647 (1991).

Assumption of duty. — After the trial court correctly interpreted contract provisions as only requiring the defendant to install traffic control devices, or to take preventative or corrective action when traffic related problems were caused from preexisting hazards or by the defendant's construction activities, the defendant did not undertake to perform the duties under paragraph (1) of O.C.G.A. §§ 32-4-41 and 32-6-50(c). *Adams v. APAC-Georgia, Inc.*, 236 Ga. App. 215, 511 S.E.2d 581 (1999).

Cited in *Department of Transp. v. Doss*, 238 Ga. 480, 233 S.E.2d 144 (1977); *Peluso v. Central of Ga. R.R.*, 165 Ga. App. 215, 299 S.E.2d 51 (1983); *Hendrix v. Department of Transp.*, 188 Ga. App. 429, 373 S.E.2d 264 (1988); *Evans Timber Co. v. Central of Ga. R.R.*, 239 Ga. App. 262, 519 S.E.2d 706 (1999).

OPINIONS OF THE ATTORNEY GENERAL

Editor's notes. — In light of the similarity of the statutory provisions, opinions under former Code 1933, §§ 95-101, 95-102, and 95-801, which were subsequently repealed but were succeeded by provisions in this Code section, are included in the annotations for this Code section.

Board of education may not maintain roads. — Board of education may not use the board's funds for laying out, altering, maintaining, and improving a public, county-maintained road even though school transportation would be facilitated thereby; it is the sole duty and responsibility of the local officials in charge of county matters to lay out, alter, maintain, and improve the road in the manner the officials deem best suited to the needs of the county. 1962 Op. Att'y Gen. p. 189 (rendered under former Code 1933, §§ 95-101, 95-102, and 95-801).

When county must maintain roads annexed into municipalities. — Because the county must maintain roads on the county road system and because public roads are not removed from the system by mere annexation into a municipality where the road lies, the county must continue to maintain roads on the county road system which are in areas annexed into a municipality until the governing authority of the county removes the roads from the county road system by appropriate action. 1976 Op. Att'y Gen. No. U76-21.

Contract for improvement of county road located in municipality. — County may, by contract, obtain the cooperation of a municipality in the right-of-way acquisition for, and construction and maintenance of, a county road located within the municipality, but the

county cannot require this of a municipality absent an appropriate contract. 1986 Op. Att'y Gen. No. U86-27.

32-4-42. Powers.

The powers of a county with respect to its county road system, unless otherwise expressly limited by law, shall include but not be limited to the following:

(1) A county shall have the authority to negotiate, let, and enter into contracts with any person or any agency, county, or municipality of the state for the construction, maintenance, administration, or operation of any public road or activities incident thereto in such manner and subject to such express limitations as may be provided by Part 2 of this article or any other provision of law. A county shall also have the authority to perform such road work with its own forces or with a combination of its own forces and the work of a contractor, notwithstanding any contrary provisions of Chapter 91 of Title 36;

(2) A county shall have the authority to accept and use federal and state funds and to do all things necessary, proper, or expedient to achieve compliance with the provisions and requirements of all applicable federal-aid or state-aid acts and programs in connection with the county's public roads. Nothing in this title is intended to conflict with any federal law and, in case of such conflict, such portion as may be in conflict with such federal law is declared of no effect to the extent of the conflict;

(3)(A) A county shall have the authority to acquire and dispose of real property or any interest therein for public road purposes, as provided in Article 1 of Chapter 3 of this title and in Chapter 7 of this title. In any action to condemn property or interests therein for such purposes, notice thereof shall be signed by the condemning county; and such notice shall be deemed to be the official action of

the county in regard to the commencement of such condemnation proceedings. For good cause shown a county, at any time after commencement of condemnation proceedings and prior to final judgment therein, may dismiss its condemnation action, provided that (i) the condemnation proceedings have not been instituted under Article 1 of Chapter 3 of this title, and (ii) the condemnor has first paid to the condemnee all expenses and damages accrued to the condemnee up to the date of the filing of the motion for dismissal of the condemnation action.

(B) Pursuant to the requirements of Part 2 of this article, a county shall have the power to purchase, borrow, rent, lease, control, manage, receive, and make payment for all personal property, such as equipment, machinery, vehicles, supplies, material, and furniture, which may be needed in the operation of its county road system; to lease, rent, lend, or otherwise transfer temporarily county property used for road purposes, as authorized by law; to sell or otherwise dispose of all personal property owned by the county and used in the operation of the county road system which is unserviceable; and to execute such instruments as may be necessary in connection with the exercise of the powers described in this subparagraph;

(4) A county and its authorized agents and employees may enter upon any lands in the county for the purpose of making such surveys, soundings, drillings, and examinations as the county may deem necessary or desirable to accomplish the purposes of this title; and such entry shall not be deemed a trespass nor shall it be deemed an entry which would constitute a taking in a condemnation proceeding, provided that reasonable notice of such entry shall be given the owner or occupant of such property, such entry shall be done in a reasonable manner with as little inconvenience as possible to the owner or occupant of the property, and the county shall make reimbursement for any actual damages resulting from such entry;

(5) A county shall have the authority to employ, discharge, promote, set and pay the salaries and compensation of its personnel, and determine the duties, qualifications, and working conditions for all persons whose services are needed in the construction, maintenance, administration, operation, and development of its county road system; to work inmates maintained in the county correctional institution or inmates hired from the Department of Corrections and maintained by the latter; and to employ or contract with such engineers, surveyors, attorneys, consultants, and all other employees as independent contractors whose services may be required, subject to the limitations of existing law;

(6) A county may grant permits and establish reasonable regulations for the installation, construction, maintenance, renewal, re-

moval, and relocation of pipes, mains, conduits, cables, wires, poles, towers, traffic and other signals, and other equipment, facilities, or appliances of any utility in, on, along, over, or under the public roads of the county which are a part of the county road system lying outside the corporate limits of a municipality. However, such regulations shall not be more restrictive with respect to utilities affected thereby than are equivalent regulations promulgated by the department with respect to utilities on the state highway system under authority of Code Section 32-6-174. As a condition precedent to the granting of such permits, the county may require application in writing specifically describing the nature, extent, and location of the portion of the utility affected and may also require the applicant to furnish an indemnity bond or other acceptable security conditioned to pay any damages to any part of the county road system or to any member of the public caused by work of the utility performed under authority of such permit. At all times it shall be the duty of the county to ensure that the normal operation of the utility does not interfere with the use of the county road system. The county may also order the removal or discontinuance of the utility, equipment, facility, or appliances where such removal and relocation are made necessary by the construction or maintenance of any part of the county road system lying outside the corporate limits of a municipality. In so ordering the removal and relocation of a utility or in performing such work itself, the county shall conform to the procedure set forth for the department in Code Sections 32-6-171 and 32-6-173, except that when the removal and relocation have been performed by the county, it shall certify the expenses thereof for collection to its county attorney;

(7) A county shall have the power to purchase supplies for county road system purposes through the state as authorized by Code Sections 50-5-100 through 50-5-102;

(8) In addition to any taxes authorized by Article 4 of Chapter 5 of Title 48 to be levied and collected for the construction and maintenance of its county road system and activities incident thereto, a county is authorized to levy and collect any millage as may be necessary for such purposes;

(9) A county may provide for surveys, maps, specifications, and other things necessary in designating, supervising, locating, abandoning, relocating, improving, constructing, or maintaining the county road system, or any part thereof, or any activities incident thereto or necessary in doing such other work on public roads as the county may be given responsibility for or control of by law;

(10) In addition to the powers specifically delegated to it in this title and except as otherwise provided by Code Section 12-6-24, a county shall have the authority to adopt and enforce rules, regula-

tions, or ordinances; to require permits; and to perform all other acts which are necessary, proper, or incidental to the efficient operation and development of the county road system; and this title shall be liberally construed to that end. Any power vested in or duty placed on a county but not implemented by specific provisions for the exercise thereof may be executed and carried out by a county in a reasonable manner subject to such limitations as may be provided by law; and

(11) In all counties of this state having a population of 550,000 or more according to the United States decennial census of 1970 or any future such census, the county governing authority shall be empowered by ordinance or resolution to assess against any property the cost of reopening, repairing, or cleaning up from any public way, street, road, right of way, or highway any debris, dirt, sediment, soil, trash, building materials, and other physical materials originating on such property as a result of any private construction activity carried on by any developer, contractor, subcontractor, or owner of such property. Any assessment authorized under this paragraph, the interest thereon, and the expense of collection shall be a lien against the property so assessed coequal with the lien of other taxes and shall be enforced in the same manner as are state and county ad valorem property taxes by issuance of a fi. fa. and levy and sale as set forth in Title 48, known as the "Georgia Public Revenue Code." (Code 1933, § 95A-402, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1974, p. 1422, § 13; Ga. L. 1981, p. 3259, §§ 1, 2; Ga. L. 1982, p. 2107, § 28; Ga. L. 1983, p. 3, § 23; Ga. L. 1985, p. 283, § 1; Ga. L. 1991, p. 94, § 32; Ga. L. 2000, p. 498, § 8; Ga. L. 2002, p. 1126, § 2.)

Cross references. — Authority of counties to erect bridges across navigable streams, T. 36, C. 14. Use of parking meter receipts to pay principal, interest, and other expenses of revenue bonds issued to finance public parking areas or public parking buildings, § 36-82-62. Promulgation of rules and regulations governing hiring out of inmates to Department of Transportation, municipalities, counties, and others, § 42-5-60.

Code Commission notes. — Pursuant to Code Section 28-9-5, in 1982, "coequal" was substituted for "co-equal" in the last sentence of paragraph (11).

Law reviews. — For annual survey article on real property law, see 52 Mercer L. Rev. 383 (2000). For annual survey of administrative law, see 56 Mercer L. Rev. 31 (2004). For annual survey of local government law, see 56 Mercer L. Rev. 351 (2004).

JUDICIAL DECISIONS

Editor's notes. — In light of the similarity of the statutory provisions, decisions under former Civil Code 1895, § 602 and former Civil Code 1910, § 640, which were subsequently repealed but were succeeded by provisions in this Code section are included in the annotations for this Code section.

Utility right of way fee. — County was not entitled to extract from power company a tax, franchise fee, rental fee, or other charge in return for permission to use county road rights of way outside of municipalities for erection, maintenance, and use of power transmission lines. *DeKalb County v. Georgia Power Co.*, 249

Ga. 704, 292 S.E.2d 709 (1982).

County had authority to grant permits and establish reasonable regulations for the installation of pipes, conduits, cables, and wires on the county's public roads; thus, the county had the "necessarily implied authority" to charge companies, such as the telecommunication company, a permit fee for the company's application to use the county's public rights-of-way. Accordingly, the county had the authority to enforce the county's ordinance imposing that fee and furthermore the telecommunication company did not show that the ordinance was unconstitutional. *BellSouth Telecomms., Inc. v. Cobb County*, 277 Ga. 314, 588 S.E.2d 704 (2003).

Control over water mains. — There was nothing in the 1979 Act creating the Coweta County Water and Sewer Authority that extended the county's control over water mains not belonging to the county authority. The county's authority to regulate the City of Newnan's Water, Sewerage and Light Commission's progress into the county was limited only by paragraph (6) of O.C.G.A. § 32-4-42. *Coweta County v. City of Newnan*, 253 Ga. 457, 320 S.E.2d 747 (1984).

When privately built bridge is county bridge. — Bridge constructed by private citizens, part of the material being furnished by the citizens, in accordance

with an agreement with county officials, is a county bridge. *County of Tattnall v. Newton*, 112 Ga. 779, 38 S.E. 47 (1901) (decided under former Civil Code 1895, § 602).

County right to acquire land for state. — County authorities in charge of laying out and constructing public highways can accept lands dedicated by their owners for public roads, and can open and build new public roads therein in cooperation with the State Highway Department (now Department of Transportation) under contract with the federal government. *Lee County v. Mayor of Smithville*, 154 Ga. 550, 115 S.E. 107 (1922) (decided under former Civil Code 1910, § 640).

Authorization to enter arbitration. — O.C.G.A. § 32-4-42 is to be liberally construed to promulgate the efficient operation and development of the county road system; the county was authorized to consent to arbitration as a means of resolving road construction contract disputes. *Bryan County v. Yates Paving & Grading Co.*, 251 Ga. App. 441, 554 S.E.2d 584 (2001).

Cited in *Chatham County Comm'rs v. Seaboard Coast Line R.R.*, 169 Ga. App. 607, 314 S.E.2d 449 (1984); *Georgia Power Co. v. Collum*, 176 Ga. App. 61, 334 S.E.2d 922 (1985); *Bibb County v. Georgia Power Co.*, 241 Ga. App. 131, 525 S.E.2d 136 (1999).

OPINIONS OF THE ATTORNEY GENERAL

Contract for improvement of county road located in municipality.

— County may, by contract, obtain the cooperation of a municipality in the right-of-way acquisition for, and construction and maintenance of, a county road located within the municipality, but the county cannot require this of a municipality absent an appropriate contract. 1986 Op. Att'y Gen. No. U86-27.

Sheriff authorized to enforce traffic regulations. — Counties have authority to regulate amount of weight which may be carried over specific county roads by

ordinances which amount to establishment of truck routes. 1982 Op. Att'y Gen. No. 82-20.

Any city or county ordinances purporting to regulate vehicular weights must not exceed maximum weights permitted by O.C.G.A. § 32-6-26. 1982 Op. Att'y Gen. No. 82-20.

County sheriff's department may enforce ordinances prohibiting trucks over ten wheels from using residential roads within county except when making temporary deliveries. 1996 Op. Att'y Gen. No. U96-17.

PART 2

EXERCISE BY COUNTIES OF POWER TO CONTRACT GENERALLY

RESEARCH REFERENCES

ALR. — Construction and effect of “changed conditions” clause in public works or construction contract with state or its subdivision, 56 ALR4th 1042.

32-4-60. “Contract” defined.

As used in this part, the term “contract” means a contract or subcontract entered into by a county with any person, with the state or federal government or an agency of either, with another county or counties, with a municipality or municipalities, or with any combination of the foregoing entities for the construction, reconstruction, or maintenance of all or part of a public road, including but not limited to a contract for the purchase of materials, for the hiring of labor, for professional services, or for other things or services incident to such work. (Code 1933, § 95A-816, enacted by Ga. L. 1973, p. 947, § 1.)

Law reviews. — For survey article on construction law for the period from June 1, 2002 through May 31, 2003, see 55 Mercer L. Rev. 85 (2003).

32-4-61. Authority of county to contract; form of contracts; approval of contracts by resolution.

A county shall have the authority to contract as set forth in this part and in paragraph (1) of Code Section 32-4-42. Any contract for work on all or part of the county road system shall be in writing and shall be approved by resolution which shall be entered on the minutes of such county. (Code 1933, § 95A-817, enacted by Ga. L. 1973, p. 947, § 1.)

JUDICIAL DECISIONS

Editor’s notes. — In light of the similarity of the statutory provisions, decisions under former Ga. L. 1937, p. 912, which was subsequently repealed but was succeeded by provisions in this Code section, are included in the annotations for this Code section.

When petition for relief sufficient. — Petition alleging that county commis-

sioners had entered into contracts with one of the commissioner’s members for the construction of roads in the county without contracts being in writing and entered on the minutes of the board, and in violation of the contracts between the State Highway Department (now Department of Transportation) and the county was sufficient as against a general demurrer

(now motion to dismiss) to show that the plaintiffs were entitled to some of the substantial relief prayed for. *Ferguson v. Randolph County*, 211 Ga. 103, 84 S.E.2d

70 (1954) (decided under former Ga. L. 1937, p. 912).

Cited in *Faulk v. Twiggs County*, 269 Ga. 809, 504 S.E.2d 668 (1998).

32-4-62. Contracts with state, state agencies, adjoining counties, and incorporated municipalities of county.

(a) Subject to the limitations of this Code section, in addition to the authority to contract with a private contractor, a county may enter into a contract with the state, a state agency, another county or municipality, or with any combination or number of the foregoing entities for work on any public road system of Georgia.

(b) Such a contract with a state agency is subject to the limitations of Code Section 32-2-61, including the cost of the negotiated contract, and the right of the department to supervise performance of the contract.

(c) A county shall have authority to enter into a contract with adjoining counties for the joint work on a road constituting a part of the county road system of those counties which are parties to such contract.

(d) A county shall have the authority provided in subsection (b) of Code Section 32-4-112 to contract with a municipality and expend funds for work on public roads within a municipality in the county. (Code 1933, § 95A-818, enacted by Ga. L. 1973, p. 947, § 1.)

Cross references. — Provision that county treasurer or other county official shall not receive commission on funds received or disbursed in connection with

county contracts with Department of Transportation for construction or repair of roads, § 36-6-13.

OPINIONS OF THE ATTORNEY GENERAL

Contract for improvement of county road located in municipality.

— County may, by contract, obtain the cooperation of a municipality in the right-of-way acquisition for, and construc-

tion and maintenance of, a county road located within the municipality, but the county cannot require this of a municipality absent an appropriate contract. 1986 Op. Att'y Gen. No. U86-27.

32-4-63. Limitations on power to contract.

A county is prohibited from negotiating a contract except a contract:

(1) Involving the expenditure of less than \$20,000.00;

(2) With a state agency or county or municipality with which a county is authorized to contract in accordance with the provisions of Code Sections 32-4-61 and 32-4-62;

(3) For the purchase of those materials, supplies, and equipment necessary for the county's construction and maintenance of its public

roads and for the support and maintenance of the county's forces used in such work, as authorized by Chapter 91 of Title 36;

(4) Subject to Article 6 of Chapter 6 of this title, with a railroad or railway company or a publicly or privately owned utility concerning relocation of its line, tracks, or facilities where the same are not then located in a public road and such relocation or grade-crossing elimination is necessary as an incident to the construction of a new public road or to the reconstruction or maintenance of an existing public road. Nothing contained in this paragraph shall be construed as requiring a county to furnish a site or right of way for railroad or railway lines or tracks of public utility facilities required to be removed from a public road;

(5) For engineering or other kinds of professional or specialized services;

(6) For emergency maintenance requiring immediate repairs to a public road, including but not limited to bridge repairs, snow and ice removal, and repairs due to flood conditions; or

(7) Otherwise expressly authorized by law. (Code 1933, § 95A-819, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1989, p. 356, § 2; Ga. L. 2000, p. 498, § 9.)

Law reviews. — For annual survey of local government law, see 56 Mercer L. Rev. 351 (2004).

JUDICIAL DECISIONS

Specialized services. — Summary judgment pursuant to O.C.G.A. § 9-11-56 was properly granted in the county's action to recover money had and received by the contractor, since the contractor asserted that the contract, which was for road striping and which was not opened for public bidding, was for a specialized service under O.C.G.A. § 32-4-63(5), an exception to the public bidding requirements under O.C.G.A. § 32-4-64; however, O.C.G.A. § 32-1-3(6) expressly defined road striping as a form of road construction and not as a special service. *Howard v. Brantley County*, 260 Ga. App. 330, 579 S.E.2d 758 (2003).

No power to enter contract. — County was properly granted summary

judgment pursuant to O.C.G.A. § 9-11-56 in the county's action to recover money received by the contractor for applying stripes to the county's roads, where the county commissioner awarded the contract without public bidding, the contract was oral, and the contract was for over \$190,000; a belated objection under O.C.G.A. § 36-10-1 did not prevent the county from recovering the funds because the contract was beyond the county's authority to enter as O.C.G.A. § 32-4-63(1) barred counties from negotiating contracts in excess of \$20,000, and the contract was not exempt from competitive bidding under § 32-4-63(5). *Howard v. Brantley County*, 260 Ga. App. 330, 579 S.E.2d 758 (2003).

RESEARCH REFERENCES

ALR. — Contract for personal services bids as condition of public contract, 15 as within requirement of submission of ALR3d 733.

32-4-64. Required letting of contracts by public bid.

Except as authorized by Code Section 32-4-63, all contracts shall be let by public bid. (Code 1933, § 95A-820, enacted by Ga. L. 1973, p. 947, § 1.)

JUDICIAL DECISIONS

Editor's notes. — In light of the similarity of the statutory provisions, decisions under former Ga. L. 1937, p. 912, which was subsequently repealed but was succeeded by provisions in this Code section, are included in the annotations for this Code section.

Public bidding was required. — Summary judgment pursuant to O.C.G.A. § 9-11-56 was properly granted in the county's action to recover money had and received by the contractor, after the contractor asserted that the contract, which was for road striping and which was not opened for public bidding, was for a specialized service under O.C.G.A. § 32-4-63(5), an exception to the public bidding requirements under O.C.G.A. § 32-4-64; however, O.C.G.A. § 32-1-3(6) expressly defined road striping as a form

of road construction and not as a special service. *Howard v. Brantley County*, 260 Ga. App. 330, 579 S.E.2d 758 (2003).

Petition sufficient against motion to dismiss. — Petition alleging that the county commissioners had entered into contracts with one of the commissioner's members for the construction of roads in the county without the contracts being in writing and entered on the minutes of the board, and in violation of the contracts between the State Highway Department (now Department of Transportation) and the county, was sufficient as against a general demurrer (now motion to dismiss) to show that the plaintiffs were entitled to some of the substantial relief prayed for. *Ferguson v. Randolph County*, 211 Ga. 103, 84 S.E.2d 70 (1954) (decided under former Ga. L. 1937, p. 912).

RESEARCH REFERENCES

ALR. — Contract for personal services bids as condition of public contract, 15 as within requirement of submission of ALR3d 733.

32-4-65. Advertising for bids.

(a) Notwithstanding any provision of Chapter 91 of Title 36 and of any other provision of law to the contrary, on all contracts to be let by public bid a county shall advertise for competitive sealed bids for at least two weeks. The public advertisement shall be inserted once a week for two weeks in such newspaper wherein the county sheriff's sales are advertised or in such other newspapers or publications, or both, as will ensure adequate publicity, the first insertion to be two weeks prior to the opening of the sealed bids, the second to follow one week after the publication of the first insertion.

(b) Such advertisement shall include but not be limited to the following:

- (1) A description sufficient to enable the public to know the approximate extent and character of the work to be done;
- (2) The time allowed for performance;
- (3) The terms and time of payment;
- (4) Where and under what conditions and costs the detailed plans and specifications and proposal forms may be obtained;
- (5) The amount of the proposal guaranty, if one is required;
- (6) The time and place for submission and opening of bids;
- (7) The right of the county to reject any one or all bids; and
- (8) Such further notice as the county may deem advisable as in the public interest. (Code 1933, § 95A-821, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2000, p. 498, § 10.)

JUDICIAL DECISIONS

Cited in *Faulk v. Twiggs County*, 269 Ga. 809, 504 S.E.2d 668 (1998).

RESEARCH REFERENCES

ALR. — Right of public authorities to reject all bids for public work or contract, 52 ALR4th 186.

32-4-66. Payment by bidder to cover costs.

A county may require each bidder to pay a reasonable sum sufficient to cover the cost to the county, where applicable, of the bid proposal form, the contract, and its specifications. (Code 1933, § 95A-822, enacted by Ga. L. 1973, p. 947, § 1.)

32-4-67. Proposal guaranty by bidder.

(a) No bid, other than a bid solely for engineering or other kinds of professional services, will be considered by a county unless it is accompanied by a proposal guaranty in the form of a certified check or other acceptable security payable to the county for an amount deemed by the county in the public interest necessary to ensure that the successful bidder will execute the contract on which he bid.

(b) A proposal guaranty will be returned to a bidder upon receipt by the county of the bidder's written withdrawal of his bid if such receipt

is before the time scheduled for the opening of bids. Upon the determination by a county of the lowest reliable bidder, the county will return the proposal guaranties to all bidders except that of the lowest reliable bidder. If no contract award is made within 30 days after the date set for the opening of bids, all bids shall be rejected and all proposal guaranties shall be returned unless the county and the successful bidder agree in writing to a longer period of time. (Code 1933, § 95A-823, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2007, p. 167, § 3/HB 192.)

32-4-68. Award of contract to lowest reliable bidder; procedure upon rejection of bids.

Where a contract has been let for bid, the county, by resolution entered in its minutes, shall award the contract to the lowest reliable bidder, provided that the county shall have the right to reject any and all such bids whether such right is reserved in the public notice or not and, in such case, may readvertise, perform the work itself, or abandon the project. (Ga. L. 1922, p. 37, § 1c; Code 1933, § 95-1105; Code 1933, § 95A-824, enacted by Ga. L. 1973, p. 947, § 1.)

JUDICIAL DECISIONS

RESEARCH REFERENCES

ALR. — Right of public authorities to reject all bids for public work or contract, 52 ALR4th 186.

Public contracts: low bidder's monetary relief against state or local agency for nonaward of contract, 65 ALR4th 93.

32-4-69. Bonds of successful bidder generally.

Notwithstanding any provision of Chapter 91 of Title 36 to the contrary, when the price of a contract let to bid, other than a contract solely for engineering or other kinds of professional services, is \$5,000.00 or more, no contract of a county shall be valid unless the contractor first gives:

(1) A performance bond that meets the requirements established in Parts 1 and 3 of Article 3 of Chapter 91 of Title 36 in the amount of the bid, with one good and solvent surety, for the faithful performance of the contract and to indemnify the county for any damages occasioned by a failure to perform the same within the prescribed time;

(2) A payment bond that meets the requirements established in Parts 1 and 4 of Article 3 of Chapter 91 of Title 36; and

(3) Such other bonds required by the county in its advertisement for bids, including but not limited to public liability and property damage insurance bonds. (Ga. L. 1922, p. 37, § 1b; Code 1933, § 95-1104; Code 1933, § 95A-825, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2000, p. 498, § 11; Ga. L. 2001, p. 820, § 4; Ga. L. 2007, p. 167, § 4/HB 192.)

OPINIONS OF THE ATTORNEY GENERAL

Contract amount. — Performance bonds are required on all county contracts in the amount of \$5,000.00 or more for the construction, reconstruction, or maintenance of public roads. Payment bonds are

required on these type of contracts if the contract amount is in excess of \$20,000.00. 1988 Op. Att’y Gen. No. U88-32.

32-4-70. Bridge repair bonds.

(a) As used in this Code section, the term “bridge” shall include the approaches to such bridge within 50 feet of either end except when the bridge itself measures 100 feet or more, in which case the term “bridge” shall include the approaches within 100 feet of either end of the bridge.

(b) Where the contract relates to the construction or reconstruction of all or a part of a bridge, the county or counties affected may require the successful contractor to add to the conditions of the performance bond required under paragraph (1) of Code Section 32-4-69 the following condition: to keep the bridge in good condition for a period of not less than seven years. (Laws 1888, Cobb’s 1851 Digest, p. 39; Code 1863, § 649; Code 1868, § 711; Code 1873, § 671; Code 1882, § 671; Civil Code 1895, § 603; Civil Code 1910, § 748; Code 1933, § 95-1001; Code 1933, § 95A-826, enacted by Ga. L. 1973, p. 947, § 1.)

Cross references. — Authority of counties to erect bridges across navigable streams, T. 36, C. 14.

JUDICIAL DECISIONS

Bridge includes fill or embankment in road of approach. — Fill or an embankment in a road which constitutes the approach to a bridge and which is necessary to make access to the bridge is a part

of the bridge. *Havird v. Richmond County*, 47 Ga. App. 580, 171 S.E. 220 (1933).

Cited in *Sikes v. Candler County*, 247 Ga. 115, 274 S.E.2d 464 (1981).

OPINIONS OF THE ATTORNEY GENERAL

Editor’s notes. — In light of the similarity of the statutory provisions, opinions under former Code 1933, § 102-103, which was subsequently repealed but was

succeeded by provisions in this Code section, are included in the annotations for this Code section.

Bridges assumed to be part of con-

nected roads, streets, and highways.
— Bridges may be a part of city streets, county roads, or the state-aid highway system; in each case, the street or road is defined as including bridges, unless a dif-

ferent meaning is apparent from the context. 1972 Op. Att’y Gen. No. 72-64 (decided under former Code 1933, § 102-103).

32-4-71. Failure to take bonds; liability of county.

- (a) If the payment bond required by paragraph (2) of Code Section 32-4-69 is not taken, the county shall be liable to subcontractors, laborers, materialmen, and other persons, as provided in Part 4 of Article 3 of Chapter 91 of Title 36, for losses to them resulting from failure to take such bond.
- (b) If the condition of bridge repair authorized by Code Section 32-4-70 to be added to the performance bond is not taken, the contracting county or counties shall be primarily liable for all injuries caused by reason of any defective bridge for damages occurring within seven years of the contractor’s work on the bridge and its acceptance by the county or counties, provided that the county shall be discharged from all liability upon the inclusion in the performance bond of the aforesaid bridge repair condition.
- (c) Nothing in this Code section shall be construed so as to impose personal liability on the county governing authority. (Laws 1888, Cobb’s 1851 Digest, p. 39; Code 1863, § 669; Code 1868, § 731; Code 1873, § 691; Code 1882, § 691; Civil Code 1895, § 603; Civil Code 1910, § 748; Code 1933, § 95-1001; Code 1933, § 95A-827, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2000, p. 498, § 12; Ga. L. 2001, p. 820, § 5.)

JUDICIAL DECISIONS

| |
|-----------------------|
| ANALYSIS |
| GENERAL CONSIDERATION |
| DEFINITION OF BRIDGE |
| DEFINITION OF DEFECTS |
| LIABILITY |

General Consideration

Editor’s notes. — In light of the similarity of the statutory provisions, decisions under former Civil Code 1895, §§ 623, 748; former Civil Code 1910, §§ 757, 768; and former Code 1933, §§ 23-1901 through 23-1905, 95-1001, 95-1210, which were subsequently repealed but were succeeded by provisions in this Code section, are included in the annotations for this Code section.

Cited in *Sikes v. Candler County*, 247 Ga. 115, 274 S.E.2d 464 (1981).

Definition of Bridge

Definition of bridge. — Word “bridge” in this section, which gives a right of action against a county for defective construction, means a bridge used as an instrumentality for travel along a highway and for crossing streams or ravines. *Hubbard v. Fulton County*, 144 Ga. 363, 87 S.E. 281 (1915); *Ellis v. Floyd County*, 24 Ga. App. 717, 102 S.E. 181 (1920); *Berrien County v. Vickers*, 73 Ga. App. 863, 38 S.E.2d 619 (1946) (see O.C.G.A. § 32-4-71).

Definition of Bridge (Cont'd)

Bridge includes necessary approaches. — Term “bridge” includes all the appurtenances necessary to the bridge’s proper use, and embraces the bridge’s abutments and approaches; that which is necessary as an approach, to connect the bridge with the highway, is an essential part of the bridge itself. *Howington v. Madison County*, 126 Ga. 699, 55 S.E. 941 (1906); *Berrien County v. Vickers*, 73 Ga. App. 863, 38 S.E.2d 619 (1946).

Fill or embankment in road of approach to a bridge and which is necessary to make access to the bridge is a part of the bridge. *Havird v. Richmond County*, 47 Ga. App. 580, 171 S.E. 220 (1933).

Contiguous embankments necessary for access, which county must repair. — Contiguous embankment necessary to make access to a bridge, so as to pass teams and wagons over the bridge, is a part of the bridge, and title to the bridge covers such an embankment; but if the embankment is not a necessary part of the bridge, but a part of the streets of the municipality, the town, and not the county, would be bound to keep the bridge in repair. *Havird v. Richmond County*, 176 Ga. 722, 168 S.E. 897, answer conformed to, 47 Ga. App. 580, 171 S.E. 220 (1933).

Road leading to bridge. — While the word “bridge” does not include the public road leading thereto, or a drain or opening thereunder, it does include all the appurtenances necessary to the bridge’s proper use, and embraces the bridge’s abutments and approaches and that which is necessary as an approach to connect the bridge with the highway is an essential part of the bridge itself. *Warren County v. Battle*, 48 Ga. App. 240, 172 S.E. 673 (1934).

Culverts. — Culvert and a bridge are not the same, even though the culvert and bridge may serve the same purpose. *Hubbard v. Fulton County*, 144 Ga. 363, 87 S.E. 281 (1915); *Ellis v. Floyd County*, 24 Ga. App. 717, 102 S.E. 181 (1920); *Floyd County v. Stewart*, 97 Ga. App. 67, 101 S.E.2d 879 (1958).

Piping and water boxes. — Piping and water boxes for drainage purposes across the public roads are not “bridges”

within the meaning of the law. *Montgomery County v. Seaboard Air Line Ry.*, 41 Ga. App. 130, 152 S.E. 261 (1930).

Definition of Defects

Definition of defects in bridge. — Defect in a bridge, which serves as the basis for liability by a county for injuries received by reason thereof, includes any condition of the bridge which renders the bridge unsafe for travelers passing over the bridge. *Havird v. Richmond County*, 47 Ga. App. 580, 171 S.E. 220 (1933).

Includes approaches left during repairs. — When in action against a county for damages from the falling of a truck through an opening where a public bridge had been, into a ravine below, the petition was not demurrable (now motion to dismiss), and the verdict for the plaintiff was not contrary to law or without evidence to support the verdict since the petition and the evidence showed that at the time of the injury at least a part of the bridge, i.e., the sills constituting a portion of its “approaches,” still remained, and the rest of the bridge was being repaired. *Warren County v. Battle*, 48 Ga. App. 240, 172 S.E. 673 (1934).

Road machinery left on approaches. — When the county, or State Highway Department (now Department of Transportation) negligently leaves road machinery on the abutment or approach to a bridge which causes injuries to a person undertaking to cross the bridge in an automobile, such dangerous condition in the bridge is a defect in the bridge, which makes a county liable for injuries caused by a defective bridge. *Berrien County v. Vickers*, 73 Ga. App. 863, 38 S.E.2d 619 (1946).

Liability

County liability. — County is primarily liable for injuries caused by defective bridges, whether erected by contractors or county authorities. *Berrien County v. Vickers*, 73 Ga. App. 863, 38 S.E.2d 619 (1946).

County authorities are bound to exercise ordinary care; county authorities are not insurers of the safety of county bridges. *Warren County v. Evans*, 118 Ga.

200, 44 S.E. 986 (1903) (decided under former Civil Code 1895, § 623).

County liability for failure to take contractor's bond. — For a county to be liable for injuries resulting from defective bridge repairs there must have been a failure to take a bond from a contractor when such a bond was required, and the injury complained of must have occurred within the time which would have been covered by the contractor's bond, if such a bond had been given. *Wolf v. Upson County*, 44 F.2d 925 (5th Cir. 1930) (decided under former Civil Code 1910, §§ 757, 768).

Bridges adjoining county lines. — Since a public bridge was constructed under contract with the authorities of one county across a stream dividing that county from another (the authorities of the latter refusing to participate therein), it was the duty of the county authorities causing the construction of such bridge to take bond in accordance with this section. *Cook v. County of DeKalb*, 95 Ga. 218, 22 S.E. 151 (1894). See also *Laurens County v. McLendon*, 19 Ga. App. 246, 91 S.E. 283 (1917); *Wells v. Jefferson County*, 19 Ga. App. 455, 91 S.E. 943 (1917) (decided under former Code 1882, § 691 and former Civil Code 1910, § 768).

Either county or contractor may be sued. — Action may be brought either against the contractor or against the county; it is not necessary that the plaintiff should sue the contractor to insolvency before suing the county. *Arnold, Estes & Co. v. Henry County*, 81 Ga. 730, 8 S.E. 606 (1889) (decided under former Code 1882, § 691).

County not liable after seven years. — Liability of the contractor is to keep the

bridge in good repair for seven years, whether a bond is given for that purpose or not and the liability of the county does not extend beyond that. *Monroe County v. Flint*, 80 Ga. 489, 6 S.E. 173 (1888).

Built without bond. — After a county let out the contract for building a bridge to the lowest bidder, but took no bond from the contractor, and the injury complained of occurred ten years after the time of building the bridge, there was no legal liability on the part of the county because of such injury. *Monroe County v. Flint*, 80 Ga. 489, 6 S.E. 173 (1888).

Bond limited to three years. — When the bond and security required and taken limited the period to three years, this may be treated as a "sufficient guarantee" so as to exempt the county from liability for damages sustained within such period of three years. *Mappin v. County of Washington*, 92 Ga. 130, 17 S.E. 1009 (1893).

No county liability when bridge rebuilt without contract. — Liability for defects in a county-line bridge attaches only for failure of the county to take a sufficient bond from the contractor. Thus, since the petition showed that such a bridge was rebuilt by the county without a contract, and without taking a bond, no liability for injuries caused by defects in such a bridge attached against the county. *Jones v. Appling County*, 90 Ga. App. 386, 83 S.E.2d 53 (1954) (decided under former Code 1933, §§ 23-1901 through 23-1905, 95-1001, 95-1210).

When county itself undertakes bridge work, O.C.G.A. § 32-4-71 is inapplicable and provides for no county liability for defective bridges. *Kordares v. Gwinnett County*, 220 Ga. App. 848, 470 S.E.2d 479 (1996).

ALR. — Measure and elements of damages for injury to bridge, 31 ALR5th 171.

32-4-72. Failure of successful bidder to sign contract or furnish bonds.

If the successful bidder fails to sign the contract or furnish the bonds required under authority of Code Section 32-4-71, his proposal guaranty, if one had been required by the county, will become the property

of the county as liquidated damages. The contract then may be readvertised, performed with county forces, or the project abandoned. (Code 1933, § 95A-828, enacted by Ga. L. 1973, p. 947, § 1.)

32-4-73. Oath by successful bidder.

A successful bidder, before commencing the work, shall execute a written oath, as required by subsection (e) of Code Section 36-91-21, stating that he or she has not violated such Code section, which makes it unlawful to restrict competitive bidding. (Code 1933, § 95A-829, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2000, p. 498, § 13; Ga. L. 2001, p. 820, § 6.)

32-4-74. Applicability of other laws to this part.

Except as indicated to the contrary in this part, Chapter 91 of Title 36 shall not apply to this part. (Code 1933, § 95A-830, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2000, p. 498, § 14; Ga. L. 2001, p. 4, § 32; Ga. L. 2001, p. 820, § 7.)

Code Commission notes. — The with and was treated as superseded by amendment of this Code section by Ga. L. 2001, p. 820, § 7. See *County of Butts v. Strahan*, 151 Ga. 417 (1921).

ARTICLE 4

MUNICIPAL STREET SYSTEMS

PART 1

GENERAL POWERS AND DUTIES OF MUNICIPALITY

32-4-90. Acquisition of rights of way.

Acquisition of rights of way for public roads on the state highway system located within the corporate limits of a municipality shall be made in compliance with subsection (e) of Code Section 32-3-3 and Code Section 32-5-25. (Code 1933, § 95A-501, enacted by Ga. L. 1973, p. 947, § 1.)

RESEARCH REFERENCES

ALR. — Constitutionality of statutory provisions as to political corporations or divisions which shall bear cost of establishing or maintaining highways, 2 ALR 746; 123 ALR 1462.

32-4-91. Construction and maintenance of systems; acquisition of labor; maximum bridge weight; notification of department about new streets and abandoned streets.

(a) A municipality shall plan, designate, improve, manage, control, construct, and maintain an adequate municipal street system and shall have control of and responsibility for all construction, maintenance, or other work related to the municipal street system. Such work may be accomplished through the use of municipal forces, including inmate labor, by contract as authorized in paragraph (1) of subsection (a) of Code Section 32-4-92, or otherwise as permitted by law.

(a.1) A municipality shall post on each bridge on the municipal street system and on each approach thereto on the municipal street a sign containing a legible notice showing the maximum safe weight limit for such bridge, each such sign to conform to the department regulations promulgated under authority of Code Section 32-6-50.

(b) A municipality shall notify the department within three months after a municipal street is added to the municipal street system and shall further notify the department within three months after a municipal street is abandoned. This notification shall be accompanied by an appropriate digital file, map, or plat depicting the location of the new or abandoned street. (Code 1933, § 95A-502, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1981, p. 953, § 2; Ga. L. 1996, p. 6, § 32; Ga. L. 1998, p. 1206, § 2; Ga. L. 2011, p. 583, § 7/HB 137.)

The 2011 amendment, effective July 1, 2011, substituted “an appropriate digital file, map, or plat” for “a map or plat” in the last sentence of subsection (b).

Cross references. — Weight of vehicle and load, § 32-6-26. Promulgation of rules and regulations governing hiring out of inmates, § 42-5-60.

JUDICIAL DECISIONS

Editor’s notes. — In light of the similarity of the statutory provisions, decisions under former Code 1933, Ch. 95-15; and former Ga. L. 1953, Nov.-Dec. Sess., p. 556 (see O.C.G.A. § 40-6-20), which were subsequently repealed but were succeeded by provisions in this Code section, are included in the annotations for this Code section.

Municipal regulation and control of state highway use. — This section does not give municipalities power to regulate and control use of state highways. *Mayor of Woodbury v. State Hwy. Dep’t*, 225 Ga. 723, 171 S.E.2d 272 (1969) (decided under former Ga. L. 1953, Nov.-Dec. Sess., p. 556 (see O.C.G.A. §§ 32-4-91 and 40-6-20)).

Construction of state highway through municipality. — State Highway Department (now Department of Transportation) may construct public highway through municipality without the municipality’s consent. *City of Carrollton v. Walker*, 215 Ga. 505, 111 S.E.2d 79 (1959) (decided under former Code 1933, Ch. 95-15).

State Highway Department’s control of traffic signals on state highways. — State Highway Department (now Department of Transportation), instead of the municipalities of the state, has the power to place and operate traffic control devices on state highways within the limits of the municipalities. *Mayor of*

Woodbury v. State Hwy. Dep't, 225 Ga. 723, 171 S.E.2d 272 (1969) (decided under former Ga. L. 1953, Nov.-Dec. Sess., p. 556).

OPINIONS OF THE ATTORNEY GENERAL

County must maintain roads in county road system. — Because the county must maintain roads on the county road system and because public roads are not removed from the system by mere annexation into a municipality where the road lies, the county must continue to maintain roads on the county road system which are in areas annexed into a municipality until the governing authority of the county removes the roads from the county road system. 1976 Op. Att'y Gen. No. U76-21.

Truck routes. — By establishing truck routes, a city may effectively regulate the amount of weight which may be carried on designated streets on a municipal street system. 1982 Op. Att'y Gen. No. 82-20.

Any city or county ordinances purporting to regulate vehicular weights must not exceed maximum weights permitted by O.C.G.A. § 32-6-26. 1982 Op. Att'y Gen. No. 82-20.

Liability, in motor vehicle-related cases, of governmental entity for injury or death resulting from ice or snow on surface of highway or street, 97 ALR3d 11.

32-4-92. Powers.

(a) The powers of a municipality with respect to its municipal street system, unless otherwise expressly limited by law, shall include but not be limited to the following:

(1) Subject to the limitations of subparagraph (d)(1)(A) of Code Section 32-2-61, a municipality has the authority to contract with any person, the federal government or its agencies, the state or its agencies, other municipalities, a county in which the municipality lies, or any combination of the foregoing entities for the construction, reconstruction, or maintenance of any public road located within the municipality;

(2) A municipality may accept and use federal and state funds for municipal street purposes and do all things necessary, proper, or expedient to achieve compliance with the provisions and requirements of all applicable federal-aid acts and programs. Nothing in this title is intended to conflict with any such federal-aid law and, in case

of such conflict, such portion as may be in conflict with such federal law is declared of no effect to the extent of the conflict;

(3) A municipality may acquire, manage, and dispose of real property or any interests therein for public roads on its municipal street system under the procedures provided in Article 1 of Chapter 3 of this title and in Chapter 7 of this title. In acquiring property for rights of way for federal-aid highway projects on its system, the municipality shall comply with the requirements of the applicable provisions of the Uniform Relocation Assistance and Real Property Acquisition Policy Act of 1970, as amended by the Uniform Relocation Act Amendments of 1987, Title IV of Public Law 100-17, and in general be guided by the policies applicable to the department as set forth in Code Section 32-8-1. For good cause shown, a municipality, at any time after commencement of condemnation proceedings and prior to final judgment therein, may dismiss its condemnation action, provided that (A) the condemnation proceedings have not been instituted under Article 1 of Chapter 3 of this title and (B) the condemnor has first paid to the condemnee all expenses and damages accrued to the condemnee up to the date of the filing of the motion for dismissal of the condemnation action;

(4) Subject to the requirements of Part 2 of this article, a municipality may purchase, borrow, rent, lease, control, manage, receive, and make payment for all personal property such as equipment, machinery, vehicles, supplies, material, and furniture which may be needed in the operation of the municipal street system and may sell or otherwise dispose of all personal property owned by the municipality and used in the operation of said municipal street system which is no longer necessary or useful in connection with the operation of said system; and it may execute such instruments as may be necessary in connection with the exercise of the foregoing powers in this paragraph;

(5) A municipality and its authorized agents and employees shall have the authority to enter upon any lands in the municipality for the purpose of making such surveys, soundings, drillings, and examinations as the municipality may deem necessary or desirable to accomplish the purposes of this title; and such entry shall not be deemed a trespass, nor shall it be deemed an entry which would constitute a taking in a condemnation proceeding. However, reasonable notice shall be given the owner or occupant of the property to be entered; such entry shall be done in a reasonable manner with as little inconvenience as possible to the owner or occupant of the property; and the municipality shall make reimbursement for any actual damages resulting from such entry;

(6) A municipality may employ, discharge, promote, set and pay the salaries and compensation of its personnel, and determine the

duties, qualifications, and working conditions for all persons whose services are needed in the construction, maintenance, administration, operation, and development of its municipal street system; and may employ or contract as independent contractors with such engineers, surveyors, attorneys, consultants, and all other employees whose services may be required, subject to the limitations of existing law;

(7) Except as otherwise provided by Code Section 12-6-24, a municipality may regulate and control the use of the public roads on its municipal street system and on portions of the county road systems extending within the corporate limits of the municipality. Any municipality may regulate the parking of vehicles on any such roads in order to facilitate the flow of traffic and to this end may require and place parking meters on or immediately adjacent to any or all of such roads for the purpose of authorizing timed parking in designated spaces upon the payment of a charge for such privilege. A municipality also may place such parking meters on or adjacent to any public road on the state highway system located within the corporate limits of the municipality when authorized by the department pursuant to Code Section 32-6-2;

(8) A municipality may purchase supplies for municipal street system purposes through the state, as authorized by Code Sections 50-5-100 through 50-5-102;

(9) A municipality may provide lighting and maintenance thereof on any public road located within its limits;

(10) A municipality may grant permits and establish reasonable regulations for the installation, construction, maintenance, renewal, removal, and relocation of pipes, mains, conduits, cables, wires, poles, towers, traffic and other signals, and other equipment, facilities, or appliances of any utility in, on, along, over, or under any part of its municipal street system and of a county road system lying within its municipal limits. However, such regulations shall not be more restrictive with respect to utilities affected thereby than are equivalent regulations promulgated by the department with respect to utilities on the state highway system under authority of Code Section 32-6-174. As a condition precedent to the granting of such permits, the municipality may require application in writing specifically describing the nature, extent, and location of the portion of the utility affected. The municipality may also require the applicant to furnish an indemnity bond or other acceptable security conditioned to pay for any damage to any part of a public road or to any member of the public caused by the work of the utility performed under authority of such permit. However, it shall be the duty of the municipality to ensure that the normal operation of the utility does not interfere with

the use of any portion of the municipal street system or of a municipal extension of a county public road. The municipality may also order the removal and relocation of the utility, equipment, facilities, or appliances where such removal and relocation is made necessary by the construction and maintenance of any part of the municipal street system or municipal extension of a county public road. In so ordering the removal and relocation of a utility or in performing such work itself, the municipality shall conform to the procedure set forth for the department in Code Sections 32-6-171 and 32-6-173, except that when the removal and relocation have been performed by the municipality, it shall certify the expenses thereof for collection to its city attorney; and

(11) A municipality may provide for surveys, maps, specifications, and other things necessary in supervising, locating, abandoning, relocating, improving, constructing, or maintaining the municipal street system, or any part thereof, or any activities incident thereto or necessary in doing such other work on public roads as the municipality may be given responsibility for or control of by law.

(b) In addition to the powers specifically delegated to it in this title, a municipality shall have the authority to perform all acts which are necessary, proper, or incidental to the efficient operation and development of the municipal street system; and this title shall be liberally construed to that end. Any such power vested by law in a municipality, but not implemented by specific provisions for the exercise thereof, may be executed and carried out by a municipality in a reasonable manner pursuant to such rules, regulations, and procedures as a municipality may adopt and subject to such limitations as may be provided by law. (Code 1933, §§ 95A-503, 95A-504, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1980, p. 775, § 6; Ga. L. 1988, p. 1737, § 2; Ga. L. 2002, p. 1126, § 3.)

U.S. Code. — The Uniform Relocation

System and Real Property Acquisition Policy Act of 1970, referred to in this Code section, is codified as 42 U.S.C. Ch. 61.

Law reviews. — For annual survey of administrative law, see 56 Mercer L. Rev. 31 (2004). For annual survey of local government law, see 57 Mercer L. Rev. 289 (2005).

JUDICIAL DECISIONS

Police power of municipalities. — State law has not preempted police power authority of municipalities to regulate location and maintenance of outdoor advertising signs within their territorial jurisdictions. *City of Doraville v. Turner*

Communications Corp., 236 Ga. 385, 223 S.E.2d 798 (1976).

City's ordinances prohibiting the use of amphibious vehicles as tour vehicles in parts of the city were not preempted by the state law giving the

Public Service Commission the authority to issue certificates of public convenience and necessity; the ordinances fall within the constitutional exception to the doctrine of preemption since the General Assembly enacted general laws authorizing the local government to exercise its police powers and enact the local laws at issue. *Old S. Duck Tours, Inc. v. Mayor of Savannah*, 272 Ga. 869, 535 S.E.2d 751 (2000).

No municipal liability for lighting. — City's failure to add supplemental lighting to crossing was not actionable for negligence as O.C.G.A. § 32-4-92 provides that a municipality "may" provide lighting on any public road located within the municipality's limits, but is under no duty to provide lighting if the municipality does not choose to do so. *Biggers ex rel. Key v. Southern Ry.*, 820 F. Supp. 1409 (N.D. Ga. 1993). but see *CSX Transp., Inc. v. Trism Specialized Carriers, Inc.*, 9 F. Supp. 2d 1374 (N.D. Ga. 1998), *aff'd*, 182 F.3d 788 (11th Cir. 1999).

Court's authority to review. — Federal appellate court determined that whether an amendment to Macon, Ga., Code of Ordinances art. VII, § 18-153 that increased the annual permit fee that the City of Macon charged a telecommunications company for placement of the company's fiber optic cable on utility poles from \$2.00 to \$4.50 per linear foot was preempted by O.C.G.A. § 32-4-92(a)(10), or otherwise invalid because it exceeded the fees charged by the Georgia Department of Transportation for its rights of way, was an issue appropriate for resolution by the Supreme Court of Georgia through a certified question. *Alltel Communs., Inc. v. City of Macon*, 345 F.3d 1219 (11th Cir. 2003).

Cited in *Department of Transp. v. Doss*, 238 Ga. 480, 233 S.E.2d 144 (1977); *Georgia Power Co. v. Collum*, 176 Ga. App. 61, 334 S.E.2d 922 (1985); *Murray v. Ga. DOT*, 284 Ga. App. 263, 644 S.E.2d 290 (2007).

OPINIONS OF THE ATTORNEY GENERAL

Scope of municipal regulation of state highway system. — Municipality may not, by ordinance, seek to regulate streets which are a part of the state highway system, except when the municipality is placing parking meters on or adjacent to a road which is a part of the system, and has been first authorized by the department to place such parking meters; or the municipality may also erect or maintain a traffic-control device on a road which is a part of the system, if written approval has first been obtained from the department. 1974 Op. Att'y Gen. No. U74-94.

Contract for improvement of county road located in municipality. — County may, by contract, obtain the cooperation of a municipality in the right-of-way acquisition for, and construction and maintenance of, a county road

located within the municipality, but the county cannot require this of a municipality absent an appropriate contract. 1986 Op. Att'y Gen. No. U86-27.

Truck routes. — By establishing truck routes, a city may effectively regulate the amount of weight which may be carried on designated streets on the municipal street system. 1982 Op. Att'y Gen. No. 82-20.

Any city or county ordinances purporting to regulate vehicular weights must not exceed maximum weights permitted by O.C.G.A. § 32-6-26. 1982 Op. Att'y Gen. No. 82-20.

Use of cameras to enforce traffic laws. — Municipalities are not prohibited by Georgia's Constitution or laws from enacting ordinances regarding enforcement of traffic control devices by the use of cameras. 2000 Op. Att'y Gen. No. U2000-7.

32-4-93. Liability of municipalities for defects in public roads.

(a) A municipality is relieved of any and all liability resulting from or occasioned by defects in the public roads of its municipal street system when it has not been negligent in constructing or maintaining the same or when it has no actual notice thereof or when such defect has not existed for a sufficient length of time for notice thereof to be inferred.

(b) A municipality is relieved of any and all liability resulting from or occasioned by defective construction of those portions of the state highway system or county road system lying within its corporate limits or resulting from the failure of the department or the county to maintain such roads as required by law unless the municipality constructed or agreed to perform the necessary maintenance of such road. (Civil Code 1895, § 749; Civil Code 1910, § 898; Code 1933, § 69-303; Ga. L. 1961, p. 469, § 4; Code 1933, § 95A-505, enacted by Ga. L. 1973, p. 947, § 1.)

GENERAL CONSIDERATION
TRIAL PROCEDURE

General Consideration

Editor's notes. — In light of the similarity of the statutory provisions, decisions under former Ga. L. 1895, p. 306, which was subsequently repealed but was succeeded by provisions in this Code section, are included in the annotations for this Code section.

Recreational Property Act. — Applying the Recreational Property Act (RPA), O.C.G.A. § 51-3-20 et seq., to a municipal sidewalk does not place the RPA in conflict with O.C.G.A. § 32-4-93, which sets forth circumstances in which a city may be liable for defects in its streets and sidewalks; simply stated, the RPA will control when the sidewalk is used for a "recreational purpose" and the other requirements of the RPA are satisfied, and § 32-4-93 will apply in other cases. *City of Tybee Island v. Godinho*, 270 Ga. 567, 511 S.E.2d 517 (1999).

Ordinance denying liability unconstitutional. — Insofar as charter provisions relieve a city from liability for negligence in the maintenance of the city's streets, such provision is inconsistent with general law in this state, and the inhibition contained in Ga. Const. 1945, Art. I, Sec. IV, Para. I (see Ga. Const. 1983, Art. III, Sec. VI, Para. IV) against the passage of special laws conflicting with existing general law precluded raising such charter provisions as a defense to a personal injury action against the city. *City of Macon v. Harrison*, 98 Ga. App. 769, 106 S.E.2d 833 (1958).

When legal duty exists in favor of third persons, city may by ordinance regulate the matter of the duty's performance. *Ellis v. Southern Grocery Stores, Inc.*, 46 Ga. App. 254, 167 S.E. 324 (1933).

Duty to maintain streets and sidewalks. — Municipal corporation has the duty to exercise ordinary care in keeping the municipality's streets and sidewalks in a reasonably safe condition so that a person can pass along the streets and

sidewalks in the ordinary methods of travel with reasonable safety. *City of East Point v. Christian*, 40 Ga. App. 633, 151 S.E. 42 (1929); *City of Silvertown v. Harcourt*, 51 Ga. App. 160, 179 S.E. 772 (1935); *City of Barnesville v. Sappington*, 58 Ga. App. 27, 197 S.E. 342 (1938); *Harris v. City of Rome*, 59 Ga. App. 279, 200 S.E. 337 (1938).

Municipalities generally have a ministerial duty to keep their streets in repair, and municipalities are liable for injuries resulting from defects after actual notice, or after the defect has existed for a sufficient time to infer notice. *Bush v. City of Gainesville*, 105 Ga. App. 381, 124 S.E.2d 667 (1962).

Obligation of a city to maintain portions of the state highway system within the city's corporate limits if the city has "constructed or agreed to perform the necessary maintenance of such roads" applies to public sidewalks. *Williams v. City of Social Circle*, 225 Ga. App. 746, 484 S.E.2d 687 (1997).

City was liable for defect in sidewalk. — Since a victim was injured on the city's sidewalk, the trial court erred in granting summary judgment to the city as the pleadings were sufficient to raise the inference that the city, having repaired the sidewalk, had implied knowledge of the defect therein. *English v. City of Macon*, 259 Ga. App. 766, 577 S.E.2d 837 (2003).

City was not liable for injuries to plaintiff who stepped in a hole in a grassy area about nine feet from the edge of the paved street since the evidence showed that the hole was not located on a city street or sidewalk. *City of Vidalia v. Brown*, 237 Ga. App. 831, 516 S.E.2d 851 (1999).

City was relieved of liability for the injuries sustained by the injured parties when the parties were hit by a motor vehicle at an intersection that was dark due to a loose hinge on a streetlight, under O.C.G.A. § 32-4-93(a), as the city did not

have actual notice of the problem, and the problem had not existed for any appreciable length of time so as to give the city constructive notice of the problem. *Roquemore v. City of Forsyth*, 274 Ga. App. 420, 617 S.E.2d 644 (2005).

City had no notice or knowledge of drainage problem. — Motorist's failure to show a city's knowledge or notice of a roadway drainage problem, which caused a traffic accident, defeated the motorist's negligence and nuisance claims against the city. *Thompson v. City of Atlanta*, 274 Ga. App. 1, 616 S.E.2d 219 (2005).

City immune for operation of a fountain. — City was entitled to sovereign immunity under O.C.G.A. § 32-4-93 in a pedestrian's claim against the city for negligent maintenance of a fountain which the pedestrian argued resulted in ice forming on a sidewalk where the pedestrian slipped and fell. The pedestrian failed to point to specific evidence of the city's actual or constructive notice of any defect in the fountain. *Naraine v. City of Atlanta*, 306 Ga. App. 561, 703 S.E.2d 31 (2010).

Duty exists as to travel both by day and by night. — General rule of law is that a municipal corporation must keep the municipality's streets and sidewalks reasonably safe for travel in the ordinary mode by night as well as by day. If the municipality fails to do so, the municipality is liable in damages for injuries sustained in consequence. *Mayor of Buford v. Medley*, 58 Ga. App. 48, 197 S.E. 494 (1938).

City responsible for maintaining annexed highways. — Where a territory is lawfully annexed to a city, the new area becomes a part of the city for all municipal purposes, the public highways therein become streets of the city, and the city becomes chargeable with the duty of using reasonable diligence in seeing that the streets are placed and kept in such condition as will make passage thereon reasonably safe. *Bush v. City of Gainesville*, 105 Ga. App. 381, 124 S.E.2d 667 (1962).

Maintenance of portions of state highway system. — When the Department of Transportation fails to maintain those portions of the state highway system lying within a municipality's corpo-

rate limits as required by law, a municipality can be held liable for such failure where the municipality agreed to perform the necessary maintenance. *City of Fairburn v. Cook*, 188 Ga. App. 58, 372 S.E.2d 245, cert. denied, 188 Ga. App. 911, 372 S.E.2d 245 (1988).

Even though a city agreed to maintain a portion of a state highway, the city was not responsible for correcting design and construction deficiencies. *Duncan v. City of Macon*, 221 Ga. App. 710, 472 S.E.2d 455 (1996).

City was not responsible for maintenance of a traffic signal device at the intersection of a city street and a state highway, where the Department of Transportation engineered, constructed, maintained, and set the timing sequence for the device and the city had no discretion or decision-making power with regard to the device's location, sequencing, or timing. *McPherson v. City of Fort Oglethorpe*, 200 Ga. App. 129, 407 S.E.2d 99 (1991).

No authority to maintain overgrown area bordering intersection. — In a wrongful death action, the trial court did not err in finding the Georgia Department of Transportation immune from suit from liability to the decedent's estate and survivors for failing to maintain an overgrown area of shrubbery that bordered an intersection, as neither O.C.G.A. § 32-2-2, when read in concert with O.C.G.A. § 32-4-93, nor O.C.G.A. § 50-21-24(8) imposed liability on the department; hence, maintenance of the area did not constitute a "substantial" or "other major" maintenance activity. *Welch v. Ga. DOT*, 283 Ga. App. 903, 642 S.E.2d 913 (2007).

Failure of city to erect a stop sign at an intersection was not a "defect" which would exempt the city from claiming immunity under O.C.G.A. § 32-4-93. *McKinley v. City of Cartersville*, 232 Ga. App. 659, 503 S.E.2d 559 (1998).

Defects for which liability arises generally. — Defects in the municipality's streets for which a municipal corporation may be held liable have been held to include objects adjacent to, and suspended over, the municipality's streets and sidewalks, the presence of which renders the use of these thoroughfares more hazard-

General Consideration (Cont'd)

ous. *City of Bainbridge v. Cox*, 83 Ga. App. 453, 64 S.E.2d 192 (1951); *Richards v. Mayor of Americus*, 158 Ga. App. 693, 282 S.E.2d 122 (1981).

Municipal corporation is liable for defects which are gradually brought about by the forces of nature, and for defects or obstructions created in or placed on a public street by strangers which render such street unsafe for normal travel, where the municipality had notice of such defect or obstruction and failed to exercise ordinary care in remedying or removing the defect or obstruction, or where the defect or obstruction had existed for a sufficient length of time, and when taken in connection with the nature of the defect or obstruction, it could be reasonably said that the city should have known, and had reasonable time to repair or remove the defect or obstruction. *City of Barnesville v. Sappington*, 58 Ga. App. 27, 197 S.E. 342 (1938).

Municipality is bound to keep the municipality's streets in a reasonably safe condition for travel by night as well as by day, and is responsible if the municipality fails to exercise ordinary care to accomplish safety, where the municipality knows or should know that the street is in an unsafe condition. Where a defect in a street has existed for so long a time that the city in the exercise of ordinary diligence ought to have discovered and remedied the defect, actual notice is unnecessary. *Mayor of Buford v. Medley*, 58 Ga. App. 48, 197 S.E. 494 (1938); *Mason v. Crowe*, 88 Ga. App. 191, 76 S.E.2d 432 (1953).

Where the defective condition of a sidewalk is due to the failure to repair the sidewalk or due to the negligent acts of third persons, a city is not liable unless it had actual notice of the defect, or unless the city appears from the facts in the case that the defect could have been ascertained by the exercise of ordinary care, as when the defect existed for such a length of time that notice will be implied. *City of Rome v. Stone*, 46 Ga. App. 259, 167 S.E. 325 (1933).

Liability for minor defects. — Defect in a city sidewalk, as described in a peti-

tion suing a municipality for personal injuries, although of a size and nature ordinarily classed as a "minor defect," was not minor enough to require holding as a matter of law on demurrer (now motion to dismiss) that the defendant was not negligent in performing the defendant's legal duty to keep the defendant's public streets and sidewalks reasonably safe enough for passage, when it appeared that the defendant knew or should have known of the defect in time to repair the defect or set up warning signals. *City of Rome v. Richardson*, 62 Ga. App. 85, 7 S.E.2d 927 (1940).

Liability for acts of agents and employees. — Municipal corporation is liable for defects and obstructions existing in one of the municipality's public streets created in or placed thereon by the municipality's own agents or employees, which renders such street unsafe to persons passing along such street. *City of Barnesville v. Sappington*, 58 Ga. App. 27, 197 S.E. 342 (1938) (decided under former Code 1933, § 69-301).

Agency relationship between municipality and state. — Where a municipal corporation selected and paid a contractor to grade the municipality's streets although the State Highway Department (now Department of Transportation) agreed to pay part of the costs, and the work was to be performed under an engineer appointed by the municipality, whose selection, plans, and specifications had to be approved by the department, and the department was to inspect the work only in a general way to see that the plans and specifications were complied with, the municipality, in performing the work, was an independent contractor, and not the agent of the department, regardless of whether the portion of the street graded, within the municipality, had become a state-aid road. *Gaines v. City of Calhoun*, 42 Ga. App. 89, 155 S.E. 214 (1930) (decided under former Code 1910, § 828).

City liable although state prescribed specifications for grading. — When the owner of property abutting upon the street graded by a municipality sustained damage to the value of the owner's property because the municipality changed the grade of the street in accordance with plans and specifications pre-

scribed by the State Highway Department (now Department of Transportation) the municipality is not relieved of liability to the property owner merely because the State Highway Department (now Department of Transportation) prescribed the plans and specifications. *Gaines v. City of Calhoun*, 42 Ga. App. 89, 155 S.E. 214 (1930) (decided under former Code 1910, § 828).

Distinction between discretionary nonfeasance and negligent maintenance by city. — Clear line is drawn between discretionary nonfeasance and negligent maintenance of something erected by the city, in the city's discretion, in such manner as to create a dangerous nuisance, and which amounts to misfeasance. *Christensen v. Floyd County*, 158 Ga. App. 274, 279 S.E.2d 723 (1981).

Deciding whether to erect or not to erect a traffic control sign or to maintain the sign after installation is an exercise of a governmental function by a municipality, and the municipality is not liable for any negligent performance of this function. *Christensen v. Floyd County*, 158 Ga. App. 274, 279 S.E.2d 723 (1981).

Traffic controls which are government functions for safety. — Operation and maintenance of traffic lights and other traffic control devices is a governmental function conducted on behalf of the public safety and for the negligent performance of which municipal corporations are not liable. *Barnett v. City of Albany*, 149 Ga. App. 331, 254 S.E.2d 481 (1979).

Driver's allegations of negligence against a city for negligent maintenance of a stop sign, which was allegedly obscured by foliage, were subject to summary judgment based on the city's sovereign immunity pursuant to O.C.G.A. § 36-33-1(b). The driver's nuisance claim was barred because the driver failed to show the city's awareness of a problem with the stop sign. *Albertson v. City of Jesup*, 312 Ga. App. 246, 718 S.E.2d 4 (2011), cert. denied, 2012 Ga. LEXIS 245 (Ga. 2012).

Traffic controls which are unrelated to street maintenance. — Operation and maintenance of traffic lights and other traffic control devices are not related

to the maintenance of the streets as such, and liability of a municipality for the negligent failure to maintain a stop sign after the stop sign is once erected cannot be predicated on the theory that the stop sign is a part of street maintenance. *Barnett v. City of Albany*, 149 Ga. App. 331, 254 S.E.2d 481 (1979).

City liable for defect despite franchise granted to power company. — After a bus passenger is injured when the passenger's arm, which is propped in an open bus window, is wedged between the bus window frame and a power pole installed by an electric company under a franchise agreement with a city, and the city asserts that the city granted the franchise an exercise of the city's legislative powers for which the city cannot be held liable under O.C.G.A. § 36-33-1, the city's claim of governmental immunity is not the issue; the issue instead is the liability of the city under O.C.G.A. § 32-4-93 for the alleged defect in a public road in the city's municipal street system. *Kicklighter v. Savannah Transit Auth.*, 167 Ga. App. 528, 307 S.E.2d 47 (1983).

City not liable when railroad negligently placed warning device. — City was not liable in public nuisance action for injuries to plaintiff arising out of train and car collision allegedly due to negligent placement of warning device at railroad where the road and warning device in question were constructed and maintained by the county or railroad company and where there was no evidence that the city had assumed responsibility for maintenance of that section of the road in question. *Peluso v. Central of Ga. R.R.*, 165 Ga. App. 215, 299 S.E.2d 51 (1983).

Liability of owner whose property abuts street on highway. — Owner of property abutting upon a street or highway is not, by virtue thereof, liable for defects in the streets or highways. *Ellis v. Southern Grocery Stores, Inc.*, 46 Ga. App. 254, 167 S.E. 324 (1933).

If a city ordinance can be taken and construed as meaning that the owner of any improved or vacant premises of whatever character and size, within the limits of a city, becomes instantly liable for injuries to third persons from the moment any trash, banana peeling, ice, snow, or other

General Consideration (Cont'd)

object falls upon the abutting sidewalk, without fault or knowledge on the part of such owner, it would manifestly be a rule so harsh and unconscionable as would render such municipal ordinance unconstitutional and void as violative of Ga. Const. 1877, Art. I, Sec. I, Para. III (see Ga. Const. 1983, Art. I, Sec. I, Para. I). *Ellis v. Southern Grocery Stores, Inc.*, 46 Ga. App. 254, 167 S.E. 324 (1933).

When abutting property owner owes no duty to third person because of a defective condition of the sidewalk against which the property abuts, unless, the defect was brought about by such owner personally, the city could not by ordinance, under guise of police regulation, impose the city's own liability upon such property owner or make the owner liable to third persons for acts other than the owner's own. *Ellis v. Southern Grocery Stores, Inc.*, 46 Ga. App. 254, 167 S.E. 324 (1933).

Rule that an owner of property abutting upon a street or highway is not, because of ownership, liable for defects in the street or highway does not apply when the owner of abutting property creates a defect or nuisance in a street or highway. In this event the owner is liable, not because the owner owns the abutting property, but because the owner creates or maintains the things from which injury results. *Ellis v. Southern Grocery Stores, Inc.*, 46 Ga. App. 254, 167 S.E. 324 (1933).

Liability for injury sustained during punitive road work. — City is not liable in damages for an injury sustained by the plaintiff after the plaintiff had been convicted of a penal offense in the city's police court and sentenced to work on the city's public streets, although the plaintiff's injury occurred while the plaintiff was thus engaged in such work, and resulted solely from the city's negligence, as keep and maintenance of the convict and the work the convict was required to perform upon the city's public streets is a governmental function, for the negligent performance of which the city is not liable to the convict/plaintiff in damages for a resulting injury. *Hurley v. City of Atlanta*, 208 Ga. 457, 67 S.E.2d 571 (1951), cert. denied, 343 U.S. 917, 72 S. Ct. 650, 96 L. Ed. 1331 (1952).

Removal of warning devices by third persons. — If proper guards are erected or proper lights or signals are placed by city to give warning of danger caused by excavation or obstruction in a street, and such guards or signals are removed or rendered ineffective by third parties, or from causes over which the city has no control, the city is absolved from resultant damage unless the city fails, after notice of the removal of such warnings, to replace the warnings within a reasonable time. *City of Rome v. Alexander*, 63 Ga. App. 301, 11 S.E.2d 52 (1940).

Defect where street abuts state highway. — Notwithstanding that a city was not negligent in construction of an asphalt street, it would, if negligent in maintaining a dangerous hole or defect where the asphalt pavement joined cement state highway, be responsible for any injury sustained by an occupant of an automobile if the hole or defect caused the car to go out of control and to swerve along the asphalt street, although the street was reasonably safe for automobile travel in the usual and ordinary mode. *Mayor of Buford v. Medley*, 58 Ga. App. 48, 197 S.E. 494 (1938).

Lighting of streets. — In the absence of any statutory requirement, a municipal corporation need not light the municipality's streets with lamps, and no liability results from the municipality's decision whether or not to light the municipality's streets. *Lundy v. City Council*, 51 Ga. App. 655, 181 S.E. 237 (1935).

If a city performs the city's duty to keep the city's streets in a reasonably safe condition, the mere absence of an ordinary street light at a given point will not constitute such negligence as to render the city liable. *Lundy v. City Council*, 51 Ga. App. 655, 181 S.E. 237 (1935).

Operation of a traffic light conducted in behalf of the public safety is a governmental function in the exercise of the police power for the negligent performance of which a city is not liable. *Stanley v. City of Macon*, 95 Ga. App. 108, 97 S.E.2d 330 (1957).

Street used for school access only. — Street situated entirely on property owned by a municipal corporation and devoted entirely by the municipality to

school purposes, which street serves only as an entrance to the school buildings situated thereon, and which exists for the use of the general public only in the sense that any member of the general public desiring access to the school buildings and grounds could use the street, is not such a public street that the city will be held liable for the street's negligent construction and maintenance. *City of Atlanta v. Keiser*, 50 Ga. App. 600, 179 S.E. 192 (1935).

Planning and construction of safety zone. — In the planning and the construction of a safety zone on a city street, the city is engaged in a governmental function and could not be held liable for any error in judgment in such planning. *Beall v. City of Atlanta*, 72 Ga. App. 760, 34 S.E.2d 918 (1945).

For a discussion of liability for maintenance of safety zone, see *Beall v. City of Atlanta*, 72 Ga. App. 760, 34 S.E.2d 918 (1945).

Power lines. — When, in a city street about 80 feet wide, the city has authorized the erection and maintenance, longitudinally down the middle of the street, of a series of poles supporting electrical wires, and on either side of the poles there remains a driveway approximately 40 feet in width each, and the poles cause no substantial danger or interference with the lawful use of the road, the maintenance of the poles in the street is not negligence, either as a matter of law or in fact. *South Ga. Power Co. v. Smith*, 42 Ga. App. 100, 155 S.E. 80 (1930).

Because material fact questions remained regarding the quality of a utility company's inspection and whether the company had constructive knowledge of an electrical wiring defect outside of a homeowner's home, summary judgment was properly denied. *Schuessler v. Bennett*, 287 Ga. App. 880, 652 S.E.2d 884 (2007), cert. denied, 2008 Ga. LEXIS 230 (Ga. 2008).

Tree overhanging sidewalk. — Even if a tree actually grew in a park so that the tree's maintenance is a governmental function, if some of the tree's limbs overhung a sidewalk not part of a park so that the sidewalk was not in a reasonably safe condition, so that persons could pass along

the sidewalk in the ordinary methods of travel with reasonable safety, a municipality would be liable for any injuries caused by such unsafe condition, if other requirements of notice and negligence obtained. *Mayor of Savannah v. Harvey*, 87 Ga. App. 122, 73 S.E.2d 260 (1952) (decided under former Ga. L. 1895, p. 306).

City park and tree commission liability for negligently maintained trees. — Act creating a park and tree commission for a city does not relieve the city of the city's duty to keep the city's sidewalks in a reasonably safe condition so that persons could pass along the sidewalks in the ordinary methods of travel with reasonable safety, and a petition, alleging injuries due to the negligence of the city in performing such duty, states a cause of action as against a general demurrer (now motion to dismiss). *Mayor of Savannah v. Harvey*, 87 Ga. App. 122, 73 S.E.2d 260 (1952).

City maintenance of drainage culverts. — Summary judgment was granted in favor of a city upon a father's claim of negligence under O.C.G.A. § 32-4-93(a) because: (1) there was no showing that the city had a legal duty to expand the culvert pipe in which the child drowned, to widen the shoulder of the street, or to erect a guardrail, as no statute required the city to take these actions, and the city's construction code did not impose a duty with regard to the culvert; (2) there was no evidence that the city negligently maintained the culvert; and (3) the city had no actual or constructive notice of flooding problems near the culvert or of defects in the culvert. *Walden v. City of Hawkinsville*, No. 5:03-CV-0398 (DF), 2005 U.S. Dist. LEXIS 21694 (M.D. Ga. Sept. 21, 2005).

Cited in *Broadnax v. City of Atlanta*, 149 Ga. App. 611, 255 S.E.2d 86 (1979); *City of Social Circle v. Sims*, 228 Ga. App. 582, 492 S.E.2d 240 (1997).

Trial Procedure

Allegation that walkway is part of municipal streets and sidewalks. — When it is alleged that the walkway on which the plaintiff was injured is a part of the sidewalk and street system of a municipal corporation there must be some

Trial Procedure (Cont'd)

evidence that the walkway was intended and maintained by the city for such use. *Kesot v. City of Dalton*, 94 Ga. App. 194, 94 S.E.2d 90 (1956).

Evidence as to presence or character of city safeguard. — If the question is whether a city has performed the city's duty in regard to keeping a street in a reasonably safe condition, or whether the city has been negligent in that regard, and in respect to failing to erect proper safeguards or to placing proper lights at a dangerous place where an injury occurs, the character of the light at that point, or the light's absence, may be shown as a circumstance bearing on the question of negligence. *Lundy v. City Council*, 51 Ga. App. 655, 181 S.E. 237 (1935).

If a municipality obstructs a street or allows the street to remain obstructed, or out of repair, or in a dangerous condition, the fact of the absence of lights or safeguards of any character at the place or that a street light established at that point has been allowed to remain unlit for a number of nights before an injury occurred to a pedestrian may be considered, along with the other evidence, in determining whether there is negligence in failing to keep the street in a reasonably safe condition. *Lundy v. City Council*, 51 Ga. App. 655, 181 S.E. 237 (1935).

Evidence which raises fact question of implied notice to city. — Evidence that a power pole was maintained in the same location for many years and that the pole bore scrape marks from passing vehicles is sufficient to raise a fact question of implied notice to the city. *Kicklighter v. Savannah Transit Auth.*, 167 Ga. App. 528, 307 S.E.2d 47 (1983).

Evidence of notice required. — Because there was a lack of evidence that the city had actual or constructive knowledge of a defect created by a sewer overflow resulting in the absence of the manhole cover, the issue of negligence became a matter of law. *Quinn v. City of Cave Spring*, 243 Ga. App. 598, 532 S.E.2d 131 (2000).

Evidence needed to defeat summary judgment. — Once a city put forth evidence showing that the city had in-

stalled pipes in a culvert through which a creek ran under a street in compliance with municipal standards for culvert work, it was incumbent upon a resident claiming negligence to come forward with some evidence of negligent installation of the pipes in order to defeat summary judgment; as the resident had not done so, it was proper to grant summary judgment for the city. *Gilbert v. City of Jackson*, 287 Ga. App. 326, 651 S.E.2d 461 (2007).

Notice of defect. — County water and sewer authority was not liable to motorist injured when street pavement collapsed, since the authority had no duty to inspect water lines under the street in the absence of any actual or constructive notice of a defect. *Andrews v. City of Macon*, 191 Ga. App. 745, 382 S.E.2d 739 (1989).

Constructive notice. — While the question of constructive notice is ordinarily one for the jury, in the absence of any evidence as to constructive notice there is no reasonable ground for two opinions, and thus the issue of negligence is a matter of law, not a question of fact for the jury. *Andrews v. City of Macon*, 191 Ga. App. 745, 382 S.E.2d 739 (1989).

In an action for injuries sustained by plaintiff when plaintiff stepped in a hole on the right-of-way maintained by the city, the plaintiff's opinion that "the hole appeared to have been there for a significant period of time," without other evidence of how long the hole had been in existence, was insufficient to raise a factual question as to the city's constructive notice of the hole. *Brumbelow v. City of Rome*, 215 Ga. App. 321, 450 S.E.2d 345 (1994).

Even though the size of the depression in which the plaintiff tripped and the grass growing over the depression presented some evidence of age, the factors did not establish that the depression was so old as to provide a basis for concluding that the city had constructive knowledge of the hazard. *Rischack v. City of Perry*, 223 Ga. App. 856, 479 S.E.2d 163 (1996).

Summary of means of showing implied or constructive notice of a defect. — See *Crider v. City of Atlanta*, 184 Ga. App. 389, 361 S.E.2d 520, cert. denied, 184 Ga. App. 909, 361 S.E.2d 520 (1987).

When notice presumed. — If a defect has existed in a sidewalk for such a length

of time that by reasonable diligence in the performance of their duties the defect ought to have been known by the proper authorities, notice will be presumed, and proof of actual knowledge will not be necessary in order to render the municipality liable for injuries occasioned thereby. *Ellis v. Southern Grocery Stores, Inc.*, 46 Ga. App. 254, 167 S.E. 324 (1933).

Knowledge on the part of a city of a defect in one of the city's sidewalks will be presumed when the defect has continued for such a length of time that, by reasonable diligence in the performance of the city's duties, the defect's existence should have become known to the proper authorities. *City of Silvertown v. Harcourt*, 51 Ga. App. 160, 179 S.E. 772 (1935).

Time needed for implied notice depends on defect and location. — Length of time that must elapse from the creation or placing of an obstruction in the street or sidewalk of a municipality, in order to authorize a finding of negligence against the municipality, will vary according to the location and nature of the defect. *City of Barnesville v. Sappington*, 58 Ga. App. 27, 197 S.E. 342 (1938).

It was error to overrule the city's motion for judgment n.o.v. in the case of a bus passenger who was injured when a portion of street pavement collapsed, where a crack in the pavement which could have existed for three days prior to the collapse was not itself the defect, when three days was not a sufficient time for surface or rainwater entering the crack to have undermined the pavement, and when there was nothing to indicate that if the city had investigated the crack that the cavity which caused plaintiff's injuries would have been discovered. *City of Atlanta v. Hightower*, 177 Ga. App. 140, 338 S.E.2d 683 (1985).

Jury questions. — In an action against a municipal corporation for injuries sustained while running along a certain street in the city after dark, which street was alleged to have been in a defective and unsafe condition, questions of whether the city was negligent in failing to keep the street and walkway in question in a reasonably safe condition, whether the plaintiff was guilty of negli-

gence in running along the street and walkway on the occasion in question, and what negligence constituted the proximate cause of the injury, are questions which should have been submitted to a jury. *Harris v. City of Rome*, 59 Ga. App. 279, 200 S.E. 337 (1938).

When an action is brought against a municipality for injuries alleged to have been brought about by the existence of an obstruction in a public street of the municipality which was not shown to have been placed there by the city, when no actual notice of the obstruction is shown, the issue of whether or not the obstruction had existed for a sufficient length of time to charge the city with negligence in failing to discover and remove the obstruction should be generally left to the jury. *City of Barnesville v. Sappington*, 58 Ga. App. 27, 197 S.E. 342 (1938); *City of Bainbridge v. Cox*, 83 Ga. App. 453, 64 S.E.2d 192 (1951).

Whether a defect or hole in a city street gave a right of action to a person injured thereby is ordinarily a question for the jury, because it is a complicated question of fact, involving the depth of the hole or defect, the defect's appearance to travelers on the street, and the danger which might have been anticipated and guarded against by the city in the exercise of reasonable forethought. *Mayor of Buford v. Medley*, 58 Ga. App. 48, 197 S.E. 494 (1938).

When it appears that a city has permitted an excavation in a street, it becomes a question for the jury to determine as to the extent and character of the warnings or signals placed which are necessary and sufficient to give notice to members of the public using such street of the presence of such excavation or obstruction. *City of Rome v. Alexander*, 63 Ga. App. 301, 11 S.E.2d 52 (1940).

While it is true that a city would not be liable for the existence of a latent defect not discoverable by the exercise of ordinary care, whether the defect was such as the municipality should have discovered the defect in the exercise of ordinary care in keeping the streets and sidewalks in a reasonably safe condition is a question for the jury. *City of Bainbridge v. Cox*, 83 Ga. App. 453, 64 S.E.2d 192 (1951).

State and local government liability for injury or death of bicyclist due to defect or obstruction in public bicycle path, 68 ALR4th 204.

32-4-94. Standards for construction of curb ramps.

(a) The standard for construction of curbs on each side of any municipal street or of any connecting street or road for which curbs

have been prescribed by the governing body of the municipal corporation having jurisdiction thereover shall be not less than one ramp per lineal block giving on the crosswalks at intersections. Such ramps shall be at least 40 inches wide and shall be so constructed as to allow reasonable access to the crosswalk for physically disabled persons.

(b) Standards set for curb ramping under subsection (a) of this Code section shall not apply to any curb existing on July 1, 1974, but shall apply to all new curb construction and to all replacement curbs constructed at any point in a block which gives reasonable access to a crosswalk; provided, however, that the standards set for curb ramping under subsection (a) of this Code section shall apply to curbs on each side of the street circling the state capitol; provided, further, that the standard for construction of curbs on each side of the street circling the state capitol shall be not less than two ramps per lineal block giving on the crosswalks at intersections. (Ga. L. 1974, p. 514, § 1; Ga. L. 1995, p. 1302, § 14.)

PART 2

EXERCISE BY MUNICIPALITIES OF POWER TO CONTRACT GENERALLY

RESEARCH REFERENCES

ALR. — Construction and effect of “changed conditions” clause in public works or construction contract with state or its subdivision, 56 ALR4th 1042.

32-4-110. “Contract” defined.

As used in this part, the term “contract” means a contract or subcontract entered into by a municipality with any person, the state or federal government or an agency of either, with another municipality or municipalities, with a county or counties, or with any combination of any of the foregoing entities, for the construction, reconstruction, or maintenance of all or part of a public road in said municipality, including but not limited to a contract or subcontract for the purchase

of materials, for the hiring of labor, for professional services, or for other things or services incident to such work. (Code 1933, § 95A-831, enacted by Ga. L. 1973, p. 947, § 1.)

32-4-111. Authority of municipality to contract; form of contracts; approval of contracts by resolution.

A municipality shall have the authority to contract as set forth in this part and in Part 1 of this article. Any contract for work on all or part of the municipal road system shall be in writing and be approved by resolution which shall be entered on the minutes of such municipality. (Code 1933, § 95A-832, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1991, p. 94, § 32.)

32-4-112. Contracts with state agencies and adjoining counties.

(a) A contract with a state agency is subject to those limitations of subparagraph (d)(1)(A) and paragraph (2) of subsection (d) of Code Section 32-2-61.

(b)(1) A municipality may contract with any county in which part of the municipality lies for the construction and maintenance of a public road within the limits of such municipality.

(2) In such contract, the county may agree to use any county funds available for the construction and maintenance of roads in such county, including funds derived from general obligation bonds issued after approval in a county-wide election, to pay the costs, in whole or in part, of the construction or maintenance of such public road.

(3) In such contract, the municipality may agree to use any funds available for the construction and maintenance of roads in such municipality, together with any funds the municipality may collect pursuant to its power to assess any part of its share of the cost of such contract against abutting and adjoining property and the owners thereof according to the provisions of Chapter 39 of Title 36, as if the municipality were performing the work alone, unless the terms of such assessment shall be in violation of the municipality's charter, an ordinance of the municipality, or a general law of the state.

(4) The work under such contract may be performed either by county or municipal forces or by a contractor employed by either or jointly. (Code 1933, § 95A-833, enacted by Ga. L. 1973, p. 947, § 1.)

OPINIONS OF THE ATTORNEY GENERAL

Contract for improvement of county road located in municipality. — County may, by contract, obtain the cooperation of a municipality in the right-of-way acquisition for, and construction and maintenance of, a county road

located within the municipality, but the county cannot require this of a municipal-

ity absent an appropriate contract. 1986 Op. Att'y Gen. No. U86-27.

32-4-113. Limitations on power to contract.

A municipality is prohibited from negotiating a contract except a contract:

- (1) Involving the expenditure of less than \$20,000.00;
- (2) With a state agency or political subdivision as authorized by Code Sections 32-4-111 and 32-4-112;
- (3) With a railroad or railway company or a publicly or privately owned utility as authorized by Article 6 of Chapter 6 of this title;
- (4) For engineering or other kinds of professional or specialized services;
- (5) For emergency maintenance requiring immediate repairs to a public road, including but not limited to bridge repairs, snow and ice removal, and repairs due to flood conditions; or
- (6) Otherwise expressly authorized by law. (Code 1933, § 95A-834, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1989, p. 356, § 3.)

ALR. — Contract for personal services bids and condition of public contract, 15 as within requirement of submission of ALR3d 733.

32-4-114. Required letting of contracts by public bid.

Except as authorized by Code Section 32-4-113, all contracts shall be let by public bid. (Code 1933, § 95A-835, enacted by Ga. L. 1973, p. 947, § 1.)

RESEARCH REFERENCES

ALR. — Contract for personal services bids as condition of public contract, 15 as within requirement of submission of ALR3d 733.

32-4-115. Advertising for bids.

(a) Notwithstanding any provision of Code Section 36-39-10 to the contrary, on all contracts to be let by public bid a municipality shall advertise for competitive sealed bids for at least two weeks. The public advertisement shall be inserted once a week in such newspapers wherein the county sheriff's sales are advertised or in such newspapers or other publications, or both, as will ensure adequate publicity, the first insertion to be at least two weeks prior to the opening of the sealed

bids, the second to follow one week after the publication of the first insertion.

(b) Such advertisement shall include but not be limited to the following:

- (1) A description sufficient to enable the public to know the approximate extent and character of the work to be done;
- (2) The time allowed for performance;
- (3) The terms and time of payment;
- (4) Where and under what conditions and costs the detailed plans and specifications and proposal forms may be obtained;
- (5) The amount of the proposal guaranty, if one is required;
- (6) The time and place for submission and opening of bids;
- (7) The right of the municipality to reject any one or all bids; and
- (8) Such further notice as the municipality may deem advisable as in the public interest. (Ga. L. 1922, p. 37, § 1a; Code 1933, § 95-1103; Code 1933, § 95A-836, enacted by Ga. L. 1973, p. 947, § 1.)

RESEARCH REFERENCES

ALR. — Right of public authorities to reject all bids for public work or contract, 52 ALR4th 186.

32-4-116. Payment by bidder to cover costs.

A municipality may require each bidder to pay a reasonable sum sufficient to cover the cost to the municipality, where applicable, of the bid proposal form, the contract, and its specifications. (Code 1933, § 95A-837, enacted by Ga. L. 1973, p. 947, § 1.)

32-4-117. Proposal guaranty by bidder.

(a) A municipality may require that each bid on a particular contract, as a prerequisite to the bid being considered, be accompanied by a proposal guaranty in the form of a certified check or other acceptable security payable to the municipality for an amount deemed by the municipality in the public interest necessary to ensure that the successful bidder will execute the contract on which he bid.

(b) Such proposal guaranty will be returned to a bidder upon receipt by the municipality of the bidder's written withdrawal of his bid if such receipt is before the time scheduled for the opening of bids. Upon the determination by the municipality of the lowest reliable bidder, the

municipality will return proposal guaranties to all bidders except the proposal guaranty of the lowest reliable bidder. If no contract award is made within 30 days after the date set for the opening of bids, all bids shall be rejected and all proposal guaranties shall be returned unless the municipality and the successful bidder agree in writing to a longer period of time. (Code 1933, § 95A-838, enacted by Ga. L. 1973, p. 947, § 1.)

RESEARCH REFERENCES

ALR. — Right of bidder for state or municipal contract to rescind bid on ground that bid was based upon his own mistake of fact or that of his employee, 2 ALR4th 991.

32-4-118. Award of contract to lowest reliable bidder; procedure upon rejection of bids.

Notwithstanding any provisions of Code Section 36-39-11 to the contrary, where a contract has been let for bid, the municipality, by resolution entered in its minutes, shall award the contract to the lowest reliable bidder, provided that the municipality shall have the right to reject any and all such bids whether such right is reserved in the public notice or not and, in such case, may readvertise, perform the work itself, or abandon the project. (Ga. L. 1922, p. 37, § 1c; Code 1933, § 95-1005; Code 1933, § 95A-839, enacted by Ga. L. 1973, p. 947, § 1.)

RESEARCH REFERENCES

ALR. — Public contracts: authority of state or its subdivision to reject all bids, 52 ALR4th 186. Encroachment of trees, shrubbery, or other vegetation across boundary line, 65 ALR4th 603.

Public contracts: low bidder's monetary relief against state or local agency for nonaward of contract, 65 ALR4th 93.

32-4-119. Bonds of successful bidder.

Notwithstanding any provision of Chapter 91 of Title 36 to the contrary, where the contract price is \$5,000.00 or more, no construction contract of a municipality, other than a contract solely for engineering or other professional services, shall be valid unless the contractor first gives:

(1) A performance and payment bond which meets the requirements of Parts 1, 3, and 4 of Article 3 of Chapter 91 of Title 36; and

(2) Such other bonds or insurance policies required by the municipality in its proposal forms, including but not limited to public liability and property damage insurance bonds or policies and bonds

to maintain in good condition such completed construction for a period of not less than five years. (Ga. L. 1922, p. 37, § 1b; Code 1933, § 95-1104; Code 1933, § 95A-840, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2001, p. 820, § 8; Ga. L. 2007, p. 167, § 5/HB 192.)

32-4-120. Failure to take bonds; liability of municipality.

If the payment bond required by Code Section 32-4-119 is not taken, the municipality then shall be liable to subcontractors, laborers, materialmen, and other persons, as provided in Part 4 of Article 3 of Chapter 91 of Title 36, for losses to them resulting from failure to take such bond. (Code 1933, § 95A-841, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2000, p. 498, § 15; Ga. L. 2001, p. 820, § 9.)

32-4-121. Failure of successful bidder to sign contract or furnish bonds.

If the successful bidder fails to sign the contract or furnish the bonds required under authority of Code Section 32-4-119, his proposal guaranty, if one had been required by the municipality, will become the property of the municipality as liquidated damages. The contract then may be readvertised, or the project may be abandoned. (Code 1933, § 95A-842, enacted by Ga. L. 1973, p. 947, § 1.)

- 32-5-22. Other expenditures from fund.

Sec.

- 32-5-23. Limitations on expenditures from fund.
- 32-5-24. Authorization of expenditure for public roads serving planned communities.
- 32-5-25. Use of fund in regard to acquisition of rights of way.
- 32-5-26. Reimbursement of counties and municipalities in regard to acquisition of rights of way.
- 32-5-27. Allocation formula development and implementation.

Article 3

Allocation of Funds

- 32-5-30. Allocation of state and federal funds; budgeting periods; authorization of reduction of funds allocated.
- 32-5-31. Duty of board to submit yearly report; requirements of report.

Editor's notes. — By resolution (Ga. L. 2007, p. 352), the General Assembly created the Joint Study Committee on Transportation Funding to undertake a study of the conditions, needs, issues, and prob-

lems with the funding of Georgia's transportation system. The Committee made a report to the General Assembly and was abolished on December 31, 2007.

ARTICLE 1

FEDERAL FUNDS

32-5-1. Receipt of funds by state; effect of inconsistency between chapter and requirements of United States Department of Transportation or other federal agencies.

(a) The state treasurer is designated a proper authority to receive any of the federal-aid funds apportioned by the federal government under 23 U.S.C. and to receive any other federal funds apportioned to the State of Georgia for public road and other public transportation purposes, unless designated otherwise by the federal government and except as such funds may be directed by the federal government to the State Road and Tollway Authority.

(b) If any provisions of this chapter are inconsistent with or contrary to any laws, rules, regulations, or other requirements of the United States Department of Transportation or other federal agencies, the Georgia Department of Transportation is authorized and empowered to waive such provisions of this chapter in order to resolve any such inconsistency or conflict, it being the purpose of this chapter to enable the department to comply with any requirement of the federal government in order to procure all possible federal aid and assistance for the construction or maintenance of the public roads of Georgia and other public transportation purposes. (Code 1933, § 95A-701, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1982, p. 3, § 32; Ga. L. 1991, p. 94, § 32; Ga. L. 1993, p. 1402, § 18; Ga. L. 1999, p. 112, § 1; Ga. L. 2001, p. 1251, § 1-4; Ga. L. 2010, p. 863, § 3/SB 296.)

The 2010 amendment, effective July 1, 2010, substituted “state treasurer” for “director of the Office of Treasury and Fiscal Services” near the beginning of subsection (a).

Law reviews. — For article, “Standards for Smart Growth: Searching for

Limits on Agency Discretion and the Georgia Regional Transportation Authority,” see 36 Georgia L. Rev. 247 (2001).

For note on 1999 amendment to this Code section, see 16 Ga. St. U.L. Rev. 233 (1999).

JUDICIAL DECISIONS

Cited in *Campbell v. State Rd. & Tollway Auth.*, 276 Ga. 714, 583 S.E.2d 32 (2003).

OPINIONS OF THE ATTORNEY GENERAL

No expenditure of money on historic preservation if not for transportation. — Department of Transportation may expend federal and state funds on transportation enhancement activities as defined in 23 U.S.C. § 101(a) in those instances when the Code of Public Transportation gives the department the authority to expend such funds, but the Department of Transportation has no au-

thority to expend federal or state money on historic preservation, rehabilitation, and operation of historic transportation buildings, structures, or facilities (including historic railroad facilities and canals) when such buildings, structures, or facilities are not being acquired for transportation purposes. 1993 Op. Att’y Gen. No. 93-3 (decided prior to 1993 amendment of O.C.G.A. § 32-1-3).

32-5-2. Appropriation of funds to department.

All federal funds received by the state treasurer under Code Section 32-5-1 are continually appropriated to the department for the purpose specified in the grants of such funds except as such funds may be directed by the federal government to the State Road and Tollway Authority, provided that no federal funds or funds appropriated to the department shall be expended for procurement of rights of way for a road to be constructed on a county road system except as otherwise

provided by law or by agreement between the federal government and the department. (Code 1933, § 95A-702, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1993, p. 1402, § 18; Ga. L. 2001, p. 1251, § 1-5; Ga. L. 2010, p. 863, § 3/SB 296.)

The 2010 amendment, effective July 1, 2010, substituted “state treasurer” for “director of the Office of Treasury and Fiscal Services” near the beginning.

JUDICIAL DECISIONS

ARTICLE 2

STATE PUBLIC TRANSPORTATION FUND

Administrative rules and regulations. — Grant programs, Official Compilation of the Rules and Regulations of the

State of Georgia, State Department of Transportation, Chapter 672-12.

OPINIONS OF THE ATTORNEY GENERAL

Replacement of public facilities. — Department of Transportation may presently make payments to effectuate the federal purpose of functional replacement of publicly owned facilities; while the department may not pay for the functional replacement of improvements without

considering the value of the improvement, the department may, in appropriate cases, make payments which reflect special values approximating the replacement costs of the improvement. 1973 Op. Att’y Gen. No. 73-186.

32-5-20. “State Public Transportation Fund” defined.

As used in this article, the term “State Public Transportation Fund” means that money the expenditures of which are controlled and supervised by the department by virtue of paragraph (2) of subsection (a) of Code Section 32-2-2. (Code 1933, § 95A-703, enacted by Ga. L. 1973, p. 947, § 1.)

Cross references. — Motor fuel and road taxes, T. 48, C. 9.

32-5-21. Priority of expenditures from fund.

Subject to the restrictions on expenditures imposed by Code Section 32-5-23, the State Public Transportation Fund shall be expended by the department in the following order:

(1) To pay the rentals on lease contracts entered into pursuant to the authority of the Constitution of Georgia;

(2) To pay into the State of Georgia Guaranteed Revenue Debt Common Reserve Fund the amount of the highest annual debt service requirements for an issue of guaranteed revenue debt for public road projects initiated pursuant to Code Section 32-10-67, upon its issuance, when the guarantee of the specific issue has been authorized by an appropriation of moneys governed by Article III, Section IX, Paragraph VI(b) of the Constitution and the appropriation meets the requirements for such debt as provided by Article VII, Section IV, Paragraph III(b) of the Constitution;

(3) To pay the costs of operating the department and for any emergencies or unusual situations;

(4) To pay the costs necessary to comply with the conditions of federal-aid apportionments to the state for the planning, surveying, constructing, paving, and improving of the public roads in Georgia;

(5) As directed from time to time by appropriations Acts; and

(6) After the requirements set out in the foregoing provisions of this Code section have been met, the remainder of the State Public Transportation Fund to be expended to pay the costs of maintaining, improving, constructing, and reconstructing the public roads of the state highway system, for maintaining roads within and leading to state parks, and for constructing public roads by department forces. (Code 1933, § 95A-704, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1982, p. 3, § 32; Ga. L. 1983, p. 3, § 56; Ga. L. 1991, p. 1355, § 2; Ga. L. 2009, p. 976, § 11/SB 200.)

RESEARCH REFERENCES

ALR. — Constitutionality of statutory provisions as to political corporations or divisions which shall bear cost of establishing or maintaining highways, 2 ALR 746; 123 ALR 1462.

32-5-22. Other expenditures from fund.

Expenditures from the State Public Transportation Fund may be made, under such conditions as the department may provide, for streets, driveways, and parking areas located upon the property of and serving:

(1) Public schools;

(2) Colleges of the university system;

(3) State agencies and governments of political subdivisions; and

(4) Hospitals constructed with the assistance of financial grants from the federal government, authorized by Title 42, Chapter 6A,

Subchapter IV, United States Code, as amended. (Code 1933, § 95A-705, enacted by Ga. L. 1973, p. 947, § 1.)

32-5-23. Limitations on expenditures from fund.

Notwithstanding Code Section 32-5-22 and except as expressly authorized elsewhere in this title, no funds from the State Public Transportation Fund shall be expended for the construction or maintenance of:

- (1) Private driveways, roads, or bridges; or
- (2) Public roads that have since been abandoned. (Code 1933, § 95A-706, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1982, p. 3, § 32.)

Cross references. — Abandonment of public roads, T. 32, C. 7.

32-5-24. Authorization of expenditure for public roads serving planned communities.

The Department of Transportation is authorized to expend funds appropriated or available to the department for the acquisition, construction, development, extension, enlargement, or improvement of public roads to serve planned communities which have been certified as eligible for state development assistance under Code Section 45-12-170. Such funds may come from appropriations of the General Assembly for such purpose or general obligation bonds may be issued for funds for such purpose. The department may require as a condition of such development assistance that provision be made for the purchase by the appropriate local government of such public roads or improvements for an amount up to the amount of such funds expended by the department for such public roads or improvements, plus accrued interest. The department and local governments may enter into agreements whereby such projects are leased to the appropriate local government, provided that such lease payments, exclusive of payments for maintenance costs, shall be included in the total amounts necessary to purchase such public roads or improvements. (Code 1933, § 95A-706.1, enacted by Ga. L. 1974, p. 1215, § 3; Ga. L. 1982, p. 3, § 32.)

32-5-25. Use of fund in regard to acquisition of rights of way.

Whenever property is acquired under subsection (e) of Code Section 32-3-3, all expenses of the acquisition thereof, including the purchase price and all direct and consequential damages awarded in any proceeding brought to condemn any such right of way, shall be paid by the county in which such right of way or portion thereof is situated. When

such right of way or portion thereof lies within the limits of a municipality, acquisition expenses shall be paid by such municipality unless the county concerned agrees to procure such right of way on behalf of the municipality. However, nothing contained in this Code section shall prevent the department from using the State Public Transportation Fund to acquire such right of way, to pay any damage awarded on account of the location of any road that is a part of the state highway system, or to assist a county or municipality in so doing. Furthermore, nothing in this Code section shall be construed to authorize an expenditure from the State Public Transportation Fund for the procurement of a right of way for a road to be constructed on a county road system or municipal street system except as otherwise provided by law or by agreement between the federal government and the department. (Code 1933, § 95-1721, enacted by Ga. L. 1935, p. 160, § 1; Code 1933, § 95A-707, enacted by Ga. L. 1973, p. 947, § 1.)

Cross references. — Acquisition of rights of way within municipalities for state highway system, § 32-4-90.

OPINIONS OF THE ATTORNEY GENERAL

No conflict of interest was created by a special assistant Attorney General representing the owner of property condemned by a county for road purposes. 1983 Op. Att'y Gen. No. U83-64.

RESEARCH REFERENCES

ALR. — Constitutionality of state legislation to reimburse public utilities for cost of relocating their facilities because of highway construction, conditioned upon federal reimbursement of the state under the terms of Federal-Aid Highway Act (23 U.S.C. § 123), 75 ALR2d 419.

32-5-26. Reimbursement of counties and municipalities in regard to acquisition of rights of way.

The department shall be required to reimburse any county or municipality of this state the sums actually expended by it in accordance with subsection (e) of Code Section 32-3-3 where construction on the right of way so acquired by the county or municipality has not been begun within ten years from the date title to such right of way was acquired in the name of the department. (Ga. L. 1947, p. 1186, § 1; Code 1933, § 95A-708, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1974, p. 1422, § 18.)

32-5-27. Allocation formula development and implementation.

(a) The Planning Division of the department and the director of planning shall develop an allocation formula for:

- (1) A state-wide transportation asset management program;
- (2) A state-wide transportation asset improvement program; and
- (3) A local maintenance and improvement grant program.

Funds from the State Public Transportation Fund shall be allocated by the department pursuant to such formula as further defined in subsections (b) through (d) of this Code section and as appropriated by the General Assembly. Every four years, concurrent with the renewal of the state-wide strategic transportation plan, the division and the director shall update the data used in the allocation formula and shall review the distributional components of the formula and at such time may amend the formula as necessary to support implementation of the plans provided for in Code Section 32-2-22.

(b) Funds appropriated for the state-wide transportation asset management program shall be allocated pursuant to the long-range state-wide strategic transportation plan and shall be available for administration, maintenance, operations, and rehabilitation of infrastructure.

(c)(1) Funds allocated for the state-wide transportation asset improvement program shall be allocated for capital construction projects, which may include new capacity, expansion of current infrastructure, safety improvements, or completion of, additions to, and capital improvement of state strategic corridors and economic development highways, including but not limited to those identified pursuant to Code Section 32-4-22. Recommendations for appropriation to the state-wide transportation asset improvement program shall include consideration of current and future regional population and regional employment. Local funding matches may be required.

(2) A portion of this allocation shall be a specific itemized and prioritized project list and such portion shall be not less than 10 percent nor more than 20 percent of the aggregate allocation from the State Public Transportation Fund, subject to and consistent with the provisions of the state-wide transportation improvement program, for such fiscal year. In developing such project list the division and the director may accept project recommendations from the Transportation Committees of the Senate and the House of Representatives, the Governor, metropolitan planning organizations, and nonmetropolitan areas. Such projects shall be prioritized in accordance with the state-wide strategic transportation plan. The division and the director shall submit such prioritized capital construction projects to the Governor for consideration in advance of the legislative session each year. The Governor shall submit all or a portion of such capital construction project requests as part of the Governor's budget recommendations to the General Assembly. The General

Assembly may appropriate funds to any project on the prioritized project list.

(3) In addition to the portion of the state-wide transportation asset improvement program subject to the 10 percent limitation in paragraph (2) of this subsection, additional funds from the State Public Transportation Fund may be allocated to the state-wide transportation asset improvement program that are not subject to specific project selection.

(d) Funds allocated for the local maintenance and improvement grant program shall replace funds formerly available under the local assistance road program and state-aid program and shall be allocated by the Local Grants Division of the department to local governing authorities as grants or otherwise according to a funding formula developed by the division and the director. Such formula shall include considerations of paved and unpaved lane miles and vehicle miles traveled and may include population, employment, and local funding matches available, as well as other factors as may be determined by the division and the director. Funds allocated each fiscal year for the local maintenance and improvement grant program shall be not less than 10 percent nor more than 20 percent of the money derived from motor fuel taxes received by the state in the immediately preceding fiscal year, less the amount of refunds, rebates, and collection costs authorized by law and shall be used only for the purposes available for the proceeds of such taxes. Grants of such funds shall include provisions requiring adherence to adequate roadway standards, accounting practices, and applicable transportation plans. Additional allocations to this program from other funding sources shall be allocated subject to the requirements for usage attached to such funds.

(e) Funds allocated or appropriated pursuant to the provisions of this Code section shall not be subject to redirection or reservation pursuant to Chapter 12 of Title 45 or to budgetary reduction except as provided by subparagraph (b) of Paragraph VI of Section IX of Article III of the Constitution.

(f) Information pertaining to all funds received and expended by, through, or from the department, including but not limited to project numbers, let dates, estimated costs, actual costs, estimated completion date, status, priority ranking, congressional, House, and Senate districts, vendor names, contract amounts, and other pertinent contract information, shall be published on the website of the department as data in structured format. As used in this subsection, 'structured format' means data that is presented in machine readable format. (Code 1981, § 32-5-27, enacted by Ga. L. 2009, p. 976, § 12/SB 200.)

Code Commission notes. — Pursuant to Code Section 28-9-5, in 2009, a comma was deleted following “the division” in the last sentence of subsection (a).

ARTICLE 3

ALLOCATION OF FUNDS

32-5-30. Allocation of state and federal funds; budgeting periods; authorization of reduction of funds allocated.

(a)(1) The total of expenditures from the State Public Transportation Fund under paragraphs (4), (5), and (6) of Code Section 32-5-21 plus expenditures of federal funds appropriated to the department, not including any federal funds specifically designated for projects that have been earmarked by a member of Congress in excess of appropriated funds, shall be budgeted by the department over two successive budgeting periods every decade.

(2) The first budgeting period shall commence immediately following redistricting of congressional districts and shall be for a duration of five years. The second budgeting period shall continue until the beginning of the budgeting period following the next redistricting of congressional districts after each decennial census; provided, however, if the congressional districts have been redrawn prior to a new decennial census, but after the approval of an existing map based on the last decennial census, the budgeting period shall include two successive budgeting periods. The first budgeting period shall end upon approval of the new redistricting and the second budgeting period shall commence from the date such redrawn congressional districts have been approved and shall continue until the next budgeting period following the next redistricting of congressional districts. The department shall budget such expenditures such that at the end of such budgeting period funding obligations equivalent to at least 80 percent of such total for such budgeting period shall have been divided equally among the congressional districts in this state, as those districts existed at the commencement of such budgeting period, for public road and other public transportation purposes in such districts.

(b)(1) The board may upon approval by two-thirds of its membership authorize a reduction in the share of funds allocated pursuant to this Code section to any such congressional district if such supermajority of the board determines that such district does not have sufficient projects available for expenditure of funds within that district to avoid lapsing of appropriated funds.

(2) In the event that funding becomes available to the department which could not otherwise be allocated among congressional districts

due to the allocation requirements of this Code section, the board may upon approval by a majority of its membership authorize a waiver of such allocation requirements to the extent necessary to allow the expenditure of such funding, and any project, projects, or portion thereof undertaken with such additional funding shall be in addition to those projects funded in accordance with the allocation requirements of this Code section in the fiscal year in which the additional funds became available or any subsequent year; provided, however, that any such waiver shall be valid only for the fiscal year in which it is granted, and any funds budgeted pursuant to a waiver granted by this paragraph which were not obligated by the end of such fiscal year shall not be obligated in violation of the allocation requirements of this Code section in a subsequent fiscal year unless a majority of the board again authorizes a waiver of the allocation requirements in such subsequent fiscal year.

(c) Provisions of this Code section may be waived pursuant to subsection (b) of Code Section 32-5-1 only upon approval by two-thirds of the membership of the board. (Code 1981, § 32-5-30, enacted by Ga. L. 1999, p. 112, § 2; Ga. L. 2000, p. 1483, § 1; Ga. L. 2001, p. 4, § 32; Ga. L. 2002, p. 1490, § 1; Ga. L. 2005, p. 724, § 1/SB 4; Ga. L. 2006, p. 72, § 32/SB 465; Ga. L. 2009, p. 8, § 32/SB 46.)

For note on 1999 enactment of this Code section, see 16 Ga. St. U.L. Rev. 233 (1999).

32-5-31. Duty of board to submit yearly report; requirements of report.

In each calendar year, the board shall provide to the Governor, Lieutenant Governor, and Speaker of the House of Representatives a written report detailing the allocation of funding obligations among congressional districts pursuant to Code Section 32-5-30 for the fiscal year ending June 30 of that same calendar year. Such report shall include without limitation the annual funding obligations and the projected expenditures of funds for the five-year period and any and all documents or information indicating how the department intends to allocate the applicable state and federal funds among congressional districts as required by Code Section 32-5-30 or a detailed explanation of why the department is unable to allocate such funds as required. (Code 1981, § 32-5-31, enacted by Ga. L. 1999, p. 112, § 2; Ga. L. 2000, p. 1483, § 1.)

Law reviews. — For article, “Standards for Smart Growth: Searching for Limits on Agency Discretion and the Geor-

gia Regional Transportation Authority,” see 36 Ga. L. Rev. 247 (2001).

CHAPTER 6

REGULATION OF MAINTENANCE AND USE OF
PUBLIC ROADS GENERALLY

| Article 1 | |
|--------------------|---|
| General Provisions | |
| Sec. | |
| 32-6-1. | Obstructing, encroaching on, or injuring public roads; leasing of property by department. |
| 32-6-2. | Authority of department, counties, and municipalities to regulate parking; parking vehicles or leaving vehicles unattended on right of way of public road on state highway system. |
| 32-6-3. | Deposit of driver's license with arresting officer in lieu of bail or incarceration; driver's failure to appear before proper judicial officer; applicability of Code section to foreign licenses [Repealed]. |
| 32-6-4. | Removal of natural or manmade obstructions, cargo, or personal property during state of emergency. |
| 32-6-5. | Closure of or limiting access to roads due to inclement weather; exception for certain vehicle operators. |

| Article 2 | |

ARTICLE 1

GENERAL PROVISIONS

32-6-1. Obstructing, encroaching on, or injuring public roads; leasing of property by department.

(a) It shall be unlawful for any person to obstruct, encroach upon, solicit the sale of any merchandise on, or injure materially any part of any public road. For purposes of this Code section, the term "obstruct" shall include without limitation the causing of any buildup of rock, gravel, mud, dirt, chemicals, or other materials by continued ingress or egress of vehicles or of any natural waters dammed or redirected by diversion to an extent which presents a hazard to the traveling public.

(b) Any person who unlawfully obstructs, encroaches upon, or injures said public road shall be responsible for reimbursing the Department of Transportation or the applicable local governing authority in the case of a road which is part of a county road system or municipal street system for the costs of removal of said obstructions or encroachments and the costs of repairs to the public road incurred by such department or local governing authority, including any costs associated with traffic management; provided, however, that such costs shall be limited to those costs which are directly incurred from such damages. Costs incurred for traffic management may include, but not be limited to, costs incurred for flagging, signing, or provision of detours, provided that these activities are directly caused by the obstruction, encroachment, or injury to the public road system. The court may, in addition to any other sentence authorized by law, order a person convicted of violating this Code section to make such restitution for the offense.

(c) Nothing in this Code section shall abridge or limit any authority provided by law for the installation and operation of vending machines at welcome centers, tourist centers, and safety rest areas. Nothing in this Code section shall limit in any way the department's authority to lease property to state or federal agencies, counties, or municipalities as provided for in Code Section 32-7-5, or limit the Department of Transportation's ability to grant a license to any utility or railroad corporation as defined in Code Section 46-1-1. (Code 1933, § 95A-903, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1979, p. 132, § 4; Ga. L. 1988, p. 1431, § 1; Ga. L. 1993, p. 315, § 1; Ga. L. 2002, p. 1126, § 4.)

JUDICIAL DECISIONS

Section's applicability to structures on private property. — O.C.G.A. § 32-6-1 does not apply to structures which are on private property adjacent to public roads. *Smith v. Hiawassee Hdwe. Co.*, 167 Ga. App. 70, 305 S.E.2d 805 (1983).

Applicability to operation of and parking vehicles. — O.C.G.A. § 32-6-1 does not in any way regulate vehicles used upon state highways, and therefore does not authorize the conviction of a person for obstructing and encroaching upon a public road resulting from operating and parking vehicles. *Cartwright v. State*, 197 Ga. App. 868, 399 S.E.2d 736 (1990).

O.C.G.A. § 32-6-1 does not apply to improperly parked tractor-trailer, which is a parked vehicle rather than a structure. *Southern Intermodal Logistics, Inc. v. Coleman*, 175 Ga. App. 853, 334 S.E.2d 888 (1985).

Department can require removal of obstructions. — Management and control of the right of way of the state's system of roads is vested in the Department of Transportation, and the department can require the removal of any obstruction placed thereon without express permission. *Crider v. Kelley*, 232 Ga. 616, 208 S.E.2d 444 (1974).

Bridge partially blocking traffic lights. — Railroad's bridge, which partially blocked traffic lights at a nearby intersection, did not infringe on the public right-of-way, when the space provided by the bridge for the public right-of-way adequately allowed for the safe and unimpeded flow of traffic thereunder and the traffic lights were not part of the bridge's structure. *City of Fairburn v. Cook*, 188 Ga. App. 58, 372 S.E.2d 245, cert. denied, 188 Ga. App. 911, 372 S.E.2d 245 (1988).

OPINIONS OF THE ATTORNEY GENERAL

Authority to issue license for rail line. — Department of Transportation has authority to issue a revocable license to a company constructing and operating a rapid rail passenger service line to cross

the rights-of-way of several state routes so long as consideration is received which represents a substantial benefit to the public. 1995 Op. Att'y Gen. No. 95-45.

32-6-2. Authority of department, counties, and municipalities to regulate parking; parking vehicles or leaving vehicles unattended on right of way of public road on state highway system.

Notwithstanding Code Section 40-6-200 and Code Sections 40-6-202 through 40-6-204:

(1) The department may regulate and prohibit the parking of any type of vehicle on any public road on the state highway system, including extensions thereof into or through municipalities. Whenever any state or local law enforcement officer finds a vehicle parked in violation of law or the department's regulations, such officer or employee is authorized to move such vehicle or require the driver or other person in charge of the vehicle to move the same. If the vehicle is unattended, such officer is authorized to remove or provide for the removal of such vehicle to the nearest garage or other place of safety at the owner's expense. State or local law enforcement officers and the department are further authorized, with or without the consent of the owner, to remove or have removed any obstruction, cargo, or personal property which is abandoned, unattended, or damaged as a result of a vehicle accident which the department determines to be a threat to public health or safety or to mitigate traffic congestion, and any person or towing service that is removing an obstruction, cargo, or personal property at the location of such obstruction, cargo, or personal property upon instruction by a law enforcement officer, an official of a fire department acting under the authority of paragraph (1) of Code Section 25-3-1 or paragraph (3) of Code Section 25-3-2, or an official of the department shall be liable only for gross negligence;

(2) A county may regulate and control the parking of vehicles on the county road system and to this end the county may place parking meters on or immediately adjacent to any or all such roads, except extensions into a municipality, for the purpose of authorizing timed parking in designated spaces upon the payment of a charge for such privilege. A county may also place such parking meters on or adjacent to any public road on the state highway system located within the county and outside the corporate limits of a municipality when authorized by the department pursuant to paragraph (1) of this Code section;

(3) A municipality may regulate and control the parking of vehicles on its municipal street system and on extensions of a county road system within its corporate limits and to this end may place parking meters on or immediately adjacent to any or all of such roads for the purpose of authorizing timed parking in designated spaces upon the payment of a charge for such privilege. A municipality also may place

such parking meters on or adjacent to any public road on the state highway system located within the corporate limits of the municipality when authorized by the department pursuant to paragraph (1) of this Code section; and

(4) It shall be unlawful for any person to park or leave unattended any vehicle upon the right of way of any public road on the state highway system for over 48 hours. (Code 1933, § 95A-904, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1982, p. 3, § 32; Ga. L. 1985, p. 149, § 32; Ga. L. 1993, p. 370, § 1; Ga. L. 2000, p. 951, § 2-3; Ga. 32-6-3. Deposit of driver’s license with arresting officer in lieu of bail or incarceration; driver’s failure to appear before proper judicial officer; applicability of Code section to foreign licenses.

Reserved. Repealed by Ga. L. 1999, p. 81, § 32, effective April 5, 1999.

Editor's notes. — This Code section present provisions, see Code Section was based on Code 1933, § 95A-1101, 17-6-11. enacted by Ga. L. 1978, p. 1989, § 4. For

32-6-4. Removal of natural or manmade obstructions, cargo, or personal property during state of emergency.

State or local law enforcement officers, including fire department officials, and the department are authorized, upon the issuance of an executive order by the Governor declaring a state of emergency, with or without the consent of the owner, to remove or have removed any natural or manmade obstruction, cargo, or other personal property which is abandoned, unattended, or damaged and the law enforcement officer or the department determines such object to be a threat to public health or safety or to be contributing to traffic congestion. Any person, contractor, towing service, or other entity that is removing an obstruction, cargo, or other personal property pursuant to the instruction of a law enforcement officer, an official of a fire department acting under the authority of paragraph (1) of Code Section 25-3-1 or paragraph (3) of Code Section 25-3-2, or the department, and under the provisions of this Code section, shall be liable for damage or harm at the location where the obstruction, cargo, or other personal property was left abandoned or unattended, only when the person, contractor, towing service, or other entity was grossly negligent in the performance of his or her assigned duties; provided, however, nothing in this Code section shall limit liability for any damage or harm caused at a location different from the location where the obstruction, cargo, or other personal property was left abandoned or unattended. (Code 1981, § 32-6-4, enacted by Ga. L. 2011, p. 583, § 8/HB 137.)

Effective date. — This Code section became effective July 1, 2011.

32-6-5. Closure of or limiting access to roads due to inclement weather; exception for certain vehicle operators.

(a) The department may close or limit access to any portion of road on the state highway system due to inclement weather that results in dangerous driving conditions. There shall be erected or posted signage of adequate size indicating that a portion of the state highway system has been closed or access has been limited. When the department determines a road shall have limited access due to inclement winter weather conditions, notice shall be given to motorists through posted signage that motor vehicles must be equipped with tire chains, four-wheel drive with adequate tires for existing conditions, or snow tires with a manufacturer's all weather rating in order to proceed. Such signage shall inform motorists that it shall be unlawful to proceed on

such road without such equipment. With the exception of buses, operators of commercial vehicles with four or more drive wheels traveling on a road declared as limited access due to inclement winter weather conditions shall affix tire chains to at least four of the drive wheel tires. Bus operators shall affix tire chains to at least two of the drive wheel tires before proceeding on a road with limited access due to inclement winter weather conditions. For purposes of this Code section, the term “tire chains” means metal chains which consist of two circular metal loops, positioned on each side of a tire, connected by not less than nine evenly spaced chains across the tire tread or any other traction devices capable of providing traction equal to or exceeding that of such metal chains under similar conditions.

(b) This Code section shall not apply to a tow operator towing a motor vehicle or traveling to a site from which a motor vehicle shall be towed or to emergency responders traveling the roadway in order to fulfill their duties. (Code 1981, § 32-6-5, enacted by Ga. L. 2012, p. 1343, § 6/HB 817.)

Effective date. — This Code section became effective July 1, 2012.

OPINIONS OF THE ATTORNEY GENERAL

Promotion of safety and protection of public investment. — O.C.G.A. §§ 32-1-10, 32-6-23, 32-6-24, 46-7-61 (now repealed) and 46-7-78 (now repealed) are intended to promote the safety of the traveling public and protect the public’s investment in the public’s roads and high-ways. 1981 Op. Att’y Gen. No. U81-17.

Traffic regulation. — This section qualifies as a statute relating to traffic upon the public roads, streets, and high-ways, violation of which is punishable as a misdemeanor offense. 1979 Op. Att’y Gen. No. U79-14 (see O.C.G.A. § 32-6-23).

RESEARCH REFERENCES

ALR. — Validity and applicability of statutes relating to use of highway by private motor carriers and contract motor carriers for hire, 175 ALR 1333.

Liability for injury or damage caused by collision with portion of load projecting beyond rear or side of motor vehicle or trailer, 21 ALR3d 371.

Violation of regulation governing size or weight of motor vehicles, or combinations of vehicles and loads, on the highway as basis of liability for personal injury, death,

or damage to private property, 21 ALR3d 989.

32-6-24. Length of vehicles and loads.

(a) As used in this article, the term:

(1) "Bimodal semitrailer" means a detachable load-carrying unit designed to be attached to a coupling on the rear of a truck tractor by which it is partly supported during movement over the highway and designed either with retractable flanged wheels or to attach to a detachable flanged wheel assembly for movement on the rails.

(2) "Combination of vehicles" means a semitrailer pulled by a truck tractor or a semitrailer and trailer pulled by a truck tractor operating in a truck tractor-semitrailer-trailer combination.

(3) "Extendable semitrailer" means a semitrailer that has been manufactured for the purpose of extending the frame to increase the overall length for the purpose of transporting single-piece loads.

(4) "NHS" means the National Highway System.

(5) "Semitrailer" means a detachable load-carrying unit designed to be attached to a coupling on the rear of a truck tractor by which it is partly supported.

(6) "Trailer" means a detachable load-carrying unit designed to be attached to a coupling at the rear of a semitrailer and capable of support in operation without the truck tractor.

(7) "Truck tractor" means the noncargo-carrying power unit that operates in combination with a semitrailer or trailer, except that a truck tractor and semitrailer engaged in the transportation of automobiles may transport motor vehicles on part of the power unit.

(b) Unless exempted in Code Section 32-6-25 or so authorized by a permit issued pursuant to Code Section 32-6-28, the following length limits shall apply:

(1) Trailer and semitrailer lengths:

(A) Truck tractor-semitrailer-trailer combinations shall have trailers and semitrailers that do not exceed 28 feet in length;

(B) Truck tractor-semitrailer combinations shall have semitrailers that do not exceed 53 feet in length, unless signs are posted that indicate semitrailer length restrictions;

(C) On interstate and NHS routes, single-piece loads may be transported on an extendable semitrailer that exceeds 53 feet, provided that no pieces will be loaded end to end and the semi-

trailer does not exceed 75 feet in length; on roads other than the interstate and NHS routes, the foregoing provisions of this subparagraph shall also apply, except that the overall length shall not exceed 100 feet. Empty extendable semitrailers or extendable semitrailers transporting a single-piece load of 53 feet or less shall be required to maintain a semitrailer length of 53 feet or less. When the semitrailer is extended as described in this subparagraph, the rear extremity of each extendable semitrailer or load shall be marked with a four-inch multidirectional amber strobe light and with 18 inch bright red or orange warning flags on the rearmost of the load or semitrailer;

(D) Maxi-cube combinations shall have a cargo box that does not exceed 34 feet, provided that the pair of cargo boxes together does not exceed 60 feet and the overall length, including the power unit, does not exceed 65 feet; and

(E) Trailer and semitrailer length requirements in this paragraph shall not apply to automobile and boat transporters; however, no unit of the vehicle shall exceed 56 feet in length; and

(2) Overall truck tractor-semi-trailer or truck tractor-semi-trailer-trailer lengths:

(A) Maxi-cube combinations shall have an overall length that does not exceed 65 feet;

(B) Saddlemount and saddlemount with fullmount combinations shall have an overall length that does not exceed 97 feet; and

(C) All other combinations of truck tractor-semi-trailer or truck tractor-semi-trailer-trailer operated on roads other than interstate or the NHS shall have an overall length that does not exceed 100 feet, unless signs are posted that indicate length restrictions. This maximum length shall include the federal allowance for automobile and boat transporter loads to overhang up to three feet over the front of the vehicle and overhang up to four feet over the rear of the vehicle. (Ga. L. 1927, p. 226, § 15; Code 1933, § 68-401; Ga. L. 1956, p. 83, § 2; Ga. L. 1959, p. 27, § 1; Ga. L. 1964, p. 83, § 1; Ga. L. 1968, p. 30, § 1; Code 1933, § 95A-958, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1974, p. 1422, §§ 35, 36; Ga. L. 1979, p. 439, § 2; Ga. L. 1980, p. 576, §§ 1-3; Ga. L. 1981, p. 133, § 1; Ga. L. 1983, p. 1798, § 2; Ga. L. 1985, p. 1002, § 1; Ga. L. 1987, p. 414, § 1; Ga. L. 1987, p. 1030, § 1; Ga. L. 1989, p. 1569, § 1; Ga. L. 1989, p. 693, § 1; Ga. L. 1990, p. 255, § 1; Ga. L. 1991, p. 94, § 32; Ga. L. 1992, p. 2467, § 1; Ga. L. 1993, p. 786, § 1; Ga. L. 1995, p. 990, § 1; Ga. L. 1996, p. 1010, § 2; Ga. L. 1999, p. 567, § 2; Ga. L. 1999, p. 828, § 1; Ga. L. 2000, p. 136, § 32; Ga. L. 2000, p. 1654, § 1; Ga. L. 2001, p. 4, § 32; Ga. L. 2010, p. 442, § 1/HB 1174.)

The 2010 amendment, effective July 1, 2010, added paragraph (a)(4); redesignated former paragraph (a)(4) as present paragraph (a)(5); deleted former paragraph (a)(5), which read: “‘STAA system’ means the National Network and the Access Routes to the National Network as allowed under the federal Surface Transportation Assistance Act (STAA), as amended.”; in subparagraph (b)(1)(C), substituted “NHS” for “STAA system” twice and substituted “18 inch” for “12 inch” in the last sentence; and, in para-

graph (b)(2), substituted “97 feet” for “75 feet” at the end of subparagraph (b)(2)(B), and substituted “NHS” for “STAA system of roads” in the first sentence of subparagraph (b)(2)(C).

Cross references. — Light, flag, or strobe lamp on projecting load, § 40-8-27.

Code Commission notes. — Pursuant to Code Section 28-9-5, in 1988, “term” was substituted for “terms” at the end of the introductory language of subsection (a).

JUDICIAL DECISIONS

Delegation of authority constitutional. — Delegation of authority to the Department of Transportation to determine which of the thousands of miles of state highways are suitable for the types of truck traffic governed by the statute is not unconstitutional. *State v. Moore*, 259 Ga. 139, 376 S.E.2d 877 (1989).

Enforcement of different limits violates equal protection clause. — En-

forcement of total length limits — i.e., combination of vehicle and load — for general freight transport that are different from those total length limits enforced as to live poultry transport violates the equal protection clause of the Georgia Constitution. *State v. Moore*, 259 Ga. 139, 376 S.E.2d 877 (1989).

Cited in *Seabolt v. State*, 174 Ga. App. 572, 330 S.E.2d 789 (1985).

OPINIONS OF THE ATTORNEY GENERAL

Preemption. — 49 U.S.C. § 2311, which establishes certain minimum vehicle lengths, without reference to loads, did not preempt O.C.G.A. § 32-6-24 with regard to load lengths of automobile transporters on federally assisted highways. 1985 Op. Att’y Gen. No. U85-1.

Promotion of safety and protection of public investment. — O.C.G.A. §§ 32-1-10, 32-6-23, 32-6-24, 46-7-61 (now repealed) and 46-7-78 (now repealed) are

intended to promote the safety of the traveling public and protect the public’s investment in the public’s roads and highways. 1981 Op. Att’y Gen. No. U81-17.

Traffic regulation. — This section qualifies as a statute relating to traffic upon the public roads, streets, and highways, violation of which is punishable as a misdemeanor offense. 1979 Op. Att’y Gen. No. U79-14 (see O.C.G.A. § 32-6-24).

weight of motor vehicles, or combinations of vehicles and loads, on the highway as basis of liability for personal injury, death, or damage to private property, 21 ALR3d 989.

32-6-25. Exemptions for farming, agricultural, and forest management equipment.

The limitations of Code Section 32-6-23 as to width and of Code Section 32-6-24 as to length shall not apply to the following loads and

vehicles, which may exceed such limitation without a permit: farming or agricultural equipment or forest management equipment, whether self-propelled or being hauled, when such vehicle or equipment is being operated during daylight hours upon a public road not part of The Dwight D. Eisenhower System of Interstate and Defense Highways by dealers or by the owner thereof or his agent within a radius of 40 miles of the property of the dealer or owner. The foregoing exemptions do not apply to vehicles hauling or transporting forest products. (Ga. L. 1965, p. 206, § 1; Ga. L. 1968, p. 30, § 1; Code 1933, § 95A-954, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1974, p. 532, § 1; Ga. L. 2000, p. 136, § 32.)

32-6-25.1. Exemptions for port vehicles used to transport cargo or containers.

The limitations of Code Section 32-6-23 as to width and of Code Section 32-6-24 as to length shall not apply to the following loads and vehicles, which may exceed such limitation without a permit: Any vehicle or equipment used for transporting cargo or containers between and within wharves, storage areas, or terminals within the facilities of any port under the jurisdiction of the Georgia Ports Authority when such vehicle or equipment is being operated upon any public road not part of The Dwight D. Eisenhower System of Interstate and Defense Highways by the owner thereof or his or her agent within a radius of ten miles of the port facility of origin and accompanied by an escort vehicle equipped with one or more operating amber flashing lights that are visible from a distance of 500 feet. (Code 1981, § 32-6-25.1, enacted by Ga. L. 1999, p. 784, § 2; Ga. L. 2000, p. 136, § 32.)

32-6-26. Weight of vehicle and load.

(a) As used in this Code section, the term:

(1) “Federal bridge formula” means:

$$W = 500 \left(\frac{LN}{N-1} + 12N + 36 \right)$$

Where W = the overall gross weight on any group of two or more consecutive axles to the nearest 500 pounds, L = the distance in feet between the extreme of any group of two or more consecutive axles, and N = the number of axles in the group under consideration.

(2) “Lift axle” means any axle on any vehicle manufactured after July 1, 1978, which axle may be raised or lowered with respect to the horizontal plane of the vehicle.

(3) "Single axle" means all the wheels whose centers may be included between two parallel transverse vertical planes 40 inches apart.

(4) "State bridge formula" means:

$$W = 500 \left(\frac{LN}{N-1} + 12N + 36 \right)$$

Where W = the maximum allowable gross weight of the vehicle or combination of vehicles to the nearest 500 pounds, L = the distance in feet between the first and last axles of the vehicle or combination of vehicles, and N = the number of axles on the vehicle or combination of vehicles.

(5) "Tandem axle" means two or more consecutive axles, excluding the steering axle, which extend across the full width of the vehicle and whose centers may be included between parallel vertical planes spaced more than 40 inches apart but not more than 216 inches apart.

(b) Except when authorized by a permit issued pursuant to Code Section 32-6-28 and except as otherwise provided in this Code section:

(1) No vehicle equipped with high pressure pneumatic, solid rubber, or cushion tires and operated upon any public road of this state shall carry a load on any wheel which exceeds 8,000 pounds by more than 13 percent or a load on any single axle which exceeds 16,000 pounds by more than 13 percent; and

(2) No vehicle equipped with low pressure pneumatic tires and operated upon any public road of this state shall carry a load on any wheel which exceeds 9,000 pounds by more than 13 percent or a load on any single axle which exceeds 18,000 pounds by more than 13 percent.

(c)(1)(A) On all highways within this state which are not interstate highways, the maximum total gross weight authorized for any vehicle and load shall not exceed 80,000 pounds; the maximum load authorized on any single axle shall be as provided in subsection (b) of this Code section; the maximum load on any tandem axle shall be 40,680 pounds; and subject to subparagraph (B) and subparagraph (C) of this paragraph, the maximum total gross weight authorized for any vehicle and load shall be the maximum load authorized on any single axle multiplied by the number of axles with which the vehicle is equipped.

(B) For vehicles and loads with an actual total gross weight between 73,280 pounds and 80,000 pounds, the maximum total

gross weight authorized for the vehicle and load shall be determined by applying the state bridge formula.

(C) For any vehicle equipped with four axles, the maximum total gross weight authorized for the vehicle and load shall be 70,000 pounds.

(2) Reserved.

(3) No lift axle may be used in computing the maximum total gross weight authorized for any vehicle or load.

(d)(1)(A) On all highways within this state which are interstate highways, the maximum total gross weight authorized for any vehicle and load shall not exceed 80,000 pounds; the maximum load authorized on any single axle shall be as provided in subsection (b) of this Code section; and, except as provided in subparagraph (B) of this paragraph, the maximum overall gross weight in pounds on a group of two or more consecutive axles shall be determined by applying the federal bridge formula. In applying the formula, no lift axle shall be counted as an individual or additional axle when determining the maximum overall gross weight.

(B) Notwithstanding the provisions of subparagraph (A) of this paragraph, the maximum load authorized on any tandem axle shall be 34,000 pounds, and any two consecutive sets of tandem axles may carry a gross load of 34,000 pounds each if the overall distance between the first and last axles of such consecutive sets of tandem axles is 36 feet or more; however, except for vehicles and combinations of vehicles exceeding 55 feet in length, the maximum gross weight authorized on a tandem axle for a vehicle or combination of vehicles carrying a gross weight of less than 73,280 pounds shall be 40,680 pounds.

(2) If at any time federal law authorizes any weight greater than that authorized by this subsection, such greater weight under federal law shall be authorized on the interstate highways within this state.

(e) Subject to the provisions of this article, the department shall be authorized, on behalf of the state, to enter into agreements with the United States Secretary of Transportation as provided in Section 127 of Title 23 of the United States Code, relating to the control of vehicle weight and width limitations, which agreements shall exempt certain vehicles from the requirements of subsection (d) of this Code section. The department shall be authorized to take action in the name of the state to comply with the terms of any such agreement and to promulgate any rules and regulations necessary to ensure the department's compliance with federal laws and to provide for the issuance of the special permits required by this Code section.

(f) On any public road of a county road system, the maximum total gross weight of a vehicle and load shall not exceed 56,000 pounds unless the vehicle is making a pickup or delivery on such road; except that if a county road is constructed to the same standards as those highways of this state which are interstate highways and is authorized as a designated local truck route pursuant to official resolution of the county, the maximum weight limits for such designated local truck route shall be the same as those for highways in this state which are not interstate highways as provided by paragraph (1) of subsection (c) of this Code section. The county shall notify the department of any roads designated by the county as a local truck route within 90 days of such designation.

(g)(1) The weight limitations provided for in this Code section, except the limitation in subsections (f) and (h) of this Code section, may be exceeded on any public road within this state which is not an interstate highway, or when making a pickup or delivery on any public road of a county road system, without a permit only when the load on any single axle does not exceed 23,000 pounds, the load on any tandem axle does not exceed 46,000 pounds, and the maximum total gross weight of the vehicle and load does not exceed 80,000 pounds when:

(A) Hauling forest products from the forest where cut to the first point of marketing or processing;

(B) Hauling live poultry or cotton from a farm to a processing plant;

(C) Hauling feed from a feed mill to a farm;

(D) Hauling granite, either block or sawed, or any other naturally occurring raw ore or mineral for further processing, from the quarry or stockpile area to a processing plant located in the same or an adjoining county and construction aggregates hauled to any point, unless otherwise prohibited;

(E) Hauling solid waste or recovered materials from points of generation to a solid waste handling facility or other processing facility;

(F) Hauling concrete that is in a freshly mixed and unhardened state for delivery to a customer; or

(G) Hauling poultry waste from the point of origin to a farm.

No lift axle may be used in computing the maximum total gross weight authorized for any vehicle or load under this paragraph.

(2) A vehicle which is hauling the products listed in subparagraphs (A) through (F) of paragraph (1) of this subsection or which is hauling any other agricultural or farm product from a farm to the first point

of marketing or processing shall be permitted a 5 percent variance from the weight limitations in paragraph (1) of this subsection within a 100 mile radius of the farm or point of origin. Any person who violates the load limitations provided for in this paragraph by exceeding the 5 percent variance per single axle, tandem axle, or maximum total gross weight shall be fined on the basis of the weight limitations of paragraph (1) of this subsection, including the variance allowed by this paragraph.

(3) A vehicle which is hauling the products listed in subparagraph (G) of paragraph (1) of this subsection shall be permitted a 5 percent variance from the weight limitations in paragraph (1) of this subsection within a 250 mile radius of the farm or point of origin. Any person who violates the load limitations provided for in this paragraph by exceeding the 5 percent variance per single axle, tandem axle, or maximum total gross weight shall be fined on the basis of the weight limitations of paragraph (1) of this subsection and not on the basis of the variance allowed by this paragraph.

(4) Any vehicle carrying a load as authorized in this subsection at night shall be equipped with lights clearly visible for a distance of not less than 300 feet from the front and rear of the vehicle.

(h) Notwithstanding any provision of this Code section to the contrary, no vehicle or combination of vehicles shall be operated over any bridge with a posted limit which is less than the total gross weight of the vehicle and its load.

(i)(1) Any vehicle which can be made to comply with the requirements of this Code section by shifting the load and which is then loaded to comply with this Code section shall not be held to be in violation of this Code section.

(2) On all highways within this state which are not interstate highways:

(A) Except as provided in subparagraph (B) of this paragraph, for all vehicles, fines for violations of the total gross weight limitations provided for in subsection (c) of this Code section shall be based on the amount by which the actual weight of the vehicle and load exceeds the allowable maximum weight determined under subsection (c) of this Code section.

(B) For vehicles equipped with four axles, fines for violations of the total gross weight limitations provided for in subsection (c) of this Code section shall be based on the amount by which the actual weight of the vehicle and load exceeds 70,000 pounds.

(j) Except as provided in subsections (f) and (h) of this Code section, weight limits and axle definitions for any bimodal semitrailer, semi-

trailers, and trailers operated on highways and public roads within this state shall be weight limits and axle definitions authorized by federal law governing interstate highways. (Ga. L. 1927, p. 226, § 16; Ga. L. 1931, Ex. Sess., p. 114, § 2; Code 1933, §§ 68-402, 68-702; Ga. L. 1941, p. 449, §§ 1-3; Ga. L. 1955, p. 392, §§ 1, 2; Ga. L. 1956, p. 83, § 2; Ga. L. 1964, p. 83, § 1; Ga. L. 1968, p. 30, §§ 1, 2; Code 1933, § 95A-959, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1974, p. 1111, § 1; Ga. L. 1975, p. 68, § 1; Ga. L. 1978, p. 1965, § 1; Ga. L. 1978, p. 1989, § 1; Ga. L. 1980, p. 576, § 4; Ga. L. 1983, p. 3, § 23; Ga. L. 1983, p. 1798, §§ 3, 4; Ga. L. 1984, p. 621, § 2; Ga. L. 1987, p. 414, § 2; Ga. L. 1989, p. 693, §§ 2, 3; Ga. L. 1995, p. 862, § 1; Ga. L. 1996, p. 1512, §§ 2, 3; Ga. L. 1998, p. 1206, § 3; Ga. L. 2000, p. 136, § 32; Ga. L. 2002, p. 1484, § 1; Ga. L. 2004, p. 366, § 22; Ga. L. 2005, p. 601, § 2/SB 160; Ga. L. 2005, p. 822, § 1/HB 279; Ga. L. 2006, p. 72, § 32/SB 465; Ga. L. 2006, p. 292, § 1/HB 1106; Ga. L. 2007, p. 237, § 1/HB 536; Ga. L. 2008, p. 155, § 1/HB 981; Ga. L. 2011, p. 548, § 1/SB 54; Ga. L. 2012, p. 775, § 32/HB 942; Ga. L. 2012, p. 1343, § 7/HB 817.)

The 2011 amendment, effective July 1, 2011, deleted “or” from the end of subparagraph (g)(1)(E); substituted “; or” for a period at the end of subparagraph (g)(1)(F); added subparagraph (g)(1)(G); substituted “subparagraph (A) through (F)” for “subparagraph (A) or (B)” in the first sentence of paragraph (g)(2); and, in the first sentence of paragraph (g)(3), substituted “subparagraph (G)” for “subparagraph (C), (D), or (F)” and substituted “250 mile radius” for “100 mile radius” near the end.

The 2012 amendments. — The first

2012 amendment, effective May 1, 2012, part of an Act to revise, modernize, and correct the Code, revised language in paragraph (g)(2). The second 2012 amendment, effective July 1, 2012, in subsection (f), deleted “and approval of the commissioner” following “resolution of the county” near the middle of the first sentence and added the second sentence.

Cross references. — Posting of bridge weight limit on county road, § 32-4-41. Posting of bridge weight limit on municipal street, § 32-4-91. Designated local truck route signs, § 32-6-50.

JUDICIAL DECISIONS

Conclusive presumption of road damage by overweight vehicles is constitutional. — The conclusive presumption under O.C.G.A. § 32-6-27 of damage to the public roads caused by overweight vehicles does not deprive the person accused of violating O.C.G.A. § 32-6-26 of any constitutional right. *DOT v. Del-Cook Timber Co.*, 248 Ga. 734, 285 S.E.2d 913 (1982).

It is constitutionally permissible for the state to enact a statute providing that any person who operates an overweight motor vehicle on the public roads shall be conclusively presumed to have damaged the roads, and requiring such person to recompense the state for such damage in

accordance with a schedule pegging the amount of the damages to the poundage of excess weight. *DOT v. Del-Cook Timber Co.*, 248 Ga. 734, 285 S.E.2d 913 (1982).

Section’s failure to differentiate between timber and other freight haulers. — Failure of O.C.G.A. § 32-6-26 to differentiate between timber haulers and other freight haulers does not render statute unconstitutional. *DOT v. Del-Cook Timber Co.*, 248 Ga. 734, 285 S.E.2d 913 (1982) (decided prior to 1984 amendment).

Limited application exception not unconstitutional. — When a limited exemption to highway weight requirements was granted for certain industries which could not take advantage of other statu-

tory exceptions, there was no arbitrary decision violative of equal protection of those industries which were not granted the same limited exemptions since overall gross weights and axle load requirements still had to be met and the exemptions applied to short hauls on state roads. *Department of Transp. v. Georgia Mining Ass'n*, 252 Ga. 128, 311 S.E.2d 443 (1984).

“Tag axle,” which permits the amount of weight borne by the axle to be adjusted by the driver from inside the truck through the manipulation of a switch which causes an air bag located between the axle and the frame of the trailer to inflate or deflate, is not a “lift axle” within the contemplation of paragraph (c)(3) of O.C.G.A. § 32-6-26. *Anchor Motor Freight, Inc. v. Department of Transp.*, 199 Ga. App. 108, 404 S.E.2d 148, cert. denied, 199 Ga. App. 905, 404 S.E.2d 148 (1991).

Constitutional right to jury trial in administrative proceedings. — There is no constitutional right to a jury trial in administrative proceedings when a driver is issued with an overweight citation. *DOT v. Del-Cook Timber Co.*, 248 Ga. 734, 285 S.E.2d 913 (1982).

Person assessed can prosecute action for judicial review in superior court. — Person issued an overweight vehicle assessment does have at least the statutory right to prosecute the action for judicial review of the administrative decision in the superior court of the county of his or her residence. *DOT v. Del-Cook Timber Co.*, 248 Ga. 734, 285 S.E.2d 913 (1982).

Cited in *Firestone Tire & Rubber Co. v. Hall*, 152 Ga. App. 560, 263 S.E.2d 449 (1979).

OPINIONS OF THE ATTORNEY GENERAL

Municipalities are authorized to regulate weight of vehicles using municipal streets as long as such regulations are reasonable and do not violate general maximum weight limits contained in O.C.G.A. § 32-6-26. 1982 Op. Att’y Gen. No. 82-20.

Equalization of load must be by physically shifting load. — O.C.G.A.

§ 32-6-26 does not allow equalization by changing the position of the truck’s “sliding tandem” or by changing the fifth wheel setting. Subsection (i) of O.C.G.A. § 32-6-26 requires the truck driver to physically shift the load so as to bring the load into compliance with Georgia’s truck weight laws. 1992 Op. Att’y Gen. No. U92-21.

32-6-27. Enforcement of load limitations.

(a) Any person who violates the load limitation provisions of Code Section 32-6-26 shall be conclusively presumed to have damaged the public roads, including bridges, of this state by reason of such overloading and shall recompense the state for such damage in accordance with the following schedule:

(1) Five cents per pound for all excess weight over the allowed weight limitations, including any applicable variances;

(2) For the following vehicles, damages for excess weight shall be assessed at 125 percent times the rate imposed on offending vehicles operating without a permit:

(A) Where a vehicle is authorized to exceed the weight limitations of Code Section 32-6-26 by a permit issued pursuant to Code Section 32-6-28, the term "excess weight" means that weight which exceeds the weight allowed by such permit; and

(B) Where a vehicle is authorized to exceed the weight limitations of Code Section 32-6-26 by a permit issued pursuant to Code Section 32-6-28 as a superload permit or superload plus permit, the term "excess weight" means:

(i) Any single axle weight which exceeds any single axle weight allowed by such permit; and

(ii) All weight greater than 150,000 pounds when the gross weight of the vehicle and load exceeds the gross weight allowed by such permit or when any axle spacing is less than that specified by such permit; or

(3) Any vehicle that utilizes idle reduction technology shall have any penalty for violating Code Section 32-6-26, except for subsections (f) and (h), calculated by reducing from the actual gross weight, single axle weight, tandem axle weight, or the allowed weight on any group of two or more axles the manufacturer's certified weight of the idle reducing technology or 400 pounds, whichever is less. The operator of the vehicle shall present written certification from the manufacturer specifying the weight of the idle reducing technology and demonstrate that the idle reducing technology is fully functional at all times when so requested by any law enforcement officer or employee of the Department of Public Safety.

(a.1)(1)(A) The Department of Public Safety is authorized to issue a citation to the owner or operator of any vehicle in violation of a maximum weight limit on a county road which is a designated local truck route under subsection (f) of Code Section 32-6-26 and for which signs have been placed and maintained as required under paragraph (2) of subsection (c) of Code Section 32-6-50.

(B) The Department of Public Safety is authorized to issue a warning to the owner or operator of any vehicle in violation of a maximum weight limit on a county road which is a designated local truck route under subsection (f) of Code Section 32-6-26 but for which signs have not been placed or maintained as required under paragraph (2) of subsection (c) of Code Section 32-6-50 upon the

first such violation and to issue a citation to such owner or operator for a subsequent such violation.

(2)(A) The Department of Public Safety is authorized to issue a citation to the owner or operator of any vehicle in violation of a maximum weight limit on a bridge for which signs have been placed and maintained as required under paragraph (3) of Code Section 32-4-41 or subsection (a.1) of Code Section 32-4-91.

(B) The Department of Public Safety is authorized to issue a warning to the owner or operator of any vehicle in violation of a maximum weight limit on a bridge but for which signs have not been placed or maintained as required under paragraph (3) of Code Section 32-4-41 or subsection (a.1) of Code Section 32-4-91 upon the first such violation and to issue a citation to such owner or operator for a subsequent such violation.

(b) The schedules listed in paragraphs (1) and (2) of subsection (a) of this Code section shall apply separately to:

(1) The excess weight of the gross load; and

(2) The sum of the excess weight or weights of any axle or axles;

provided, however, that where both gross load and axle weight limits are exceeded, the owner or operator shall be required to recompense the state only for the largest of the money damages imposed under paragraphs (1) and (2) of this subsection.

(c)(1) Within 30 days after the issuance of the citation, the owner or operator of any offending vehicle shall pay the amount of the assessment to the Department of Public Safety or request an administrative determination of the amount and validity of the assessment.

(2) The right to an administrative determination of the amount and validity of the assessment shall be granted only to the owner or operator of an offending vehicle.

(3) The party requesting an administrative determination of the amount and validity of the assessment shall deposit the amount of the assessment with the Department of Public Safety, within the time permitted to request such determination, before the determination will be granted. In the event the assessment is determined to be erroneous, the Department of Public Safety shall make prompt refund of any overpayment after receipt of a final decision making such determination.

(4) If an administrative hearing is requested, it shall be held in accordance with Chapter 13 of Title 50, the "Georgia Administrative Procedure Act," and the rules and regulations of the Department of

Public Safety. The scope of any such hearing shall be limited to a determination of:

(A) The weight of the offending vehicle;

(B) The maximum weight allowed by law on the roadway upon which the offending vehicle was operated; and

(C) Whether the operator had in his or her actual possession a valid oversize or overweight permit issued by the Department of Transportation allowing the vehicle to operate in excess of the maximum weight otherwise allowed by law on the roadway upon which the offending vehicle was operated.

(5) Any person who has exhausted all administrative remedies available within the Department of Public Safety and who is aggrieved by a final order of the Department of Public Safety is entitled to judicial review in accordance with Chapter 13 of Title 50.

(6) If a party requests an administrative determination of the amount and validity of the assessment and fails to appear without first obtaining permission from the administrative law judge or does not withdraw the request in writing no less than five days in advance of a scheduled hearing, the party shall be deemed in default and the citation shall be affirmed by operation of law. The party shall be deemed to owe the sum of \$75.00 in addition to the amount due on the citation, which sum shall represent hearing costs.

(d) All moneys collected in accordance with this Code section shall be disposed of as follows:

(1) All moneys collected for violations of the weight limitations imposed by this article shall be remitted to the general fund of the state treasury;

(2) All moneys collected for violations of the height, width, or length limitations imposed by this article, after the appropriate statutory deductions, shall be retained by the governing authority of the county wherein the violation occurred for deposit in the general treasury of said county;

(3) Hearing costs imposed pursuant to paragraph (6) of subsection (c) of this Code section shall be retained by the Department of Public Safety;

(4) Reissuance fees imposed pursuant to paragraph (4) of subsection (g) of this Code section shall be retained by the Department of Revenue; and

(5) Restoration fees imposed pursuant to paragraph (1) of subsection (i) of this Code section shall be retained by the Department of Revenue.

(e) Any owner or operator of a vehicle which is operated on the public roads of this state in violation of the weight limitations provided in this article shall be required, in addition to paying the moneys provided in subsection (a) of this Code section, to unload all gross weight in excess of 6,000 pounds over the legal weight limit at the closest reasonable location.

(f) Any person authorized by law to enforce this article may seize the offending vehicle of an owner who fails or whose operator fails to pay the moneys prescribed in subsection (a) of this Code section and hold such vehicle until the prescribed moneys are paid. If the offending vehicle is not registered in this state, any person authorized by law to enforce this article may seize any vehicle owned or operated by an owner who fails or whose operator fails to pay the moneys prescribed in subsection (a) of this Code section and hold such vehicle until the prescribed moneys are paid. Any person seizing a vehicle under this subsection or subsection (e) of this Code section may, when necessary, store the vehicle; and the owner thereof shall be responsible for all reasonable storage charges thereon. When any vehicle is seized, held, unloaded, or partially unloaded under these subsections, the load or any part thereof shall be removed or cared for by the owner or operator of the vehicle without any liability on the part of the authorized person or of the state or any political subdivision because of damage to or loss of such load or any part thereof.

(g)(1) Whenever any person, firm, or corporation violates this article and becomes indebted to the Department of Public Safety because of such violations and fails within 30 days of the date of issuance of the overweight assessment citation either to pay the assessment or appeal to the Department of Public Safety for administrative review, as provided for in subsection (c) of this Code section, such assessment shall become a lien upon the overweight motor vehicle so found to be in violation, which lien shall be superior to all liens except liens for taxes or perfected security interests established before the debt to the Department of Public Safety was created.

(2) Whenever any person, firm, or corporation requests an administrative review, it shall be held in accordance with Chapter 13 of Title 50, the "Georgia Administrative Procedure Act." In the event that the administrative law judge finds in favor of the Department of Public Safety, the person, firm, or corporation shall pay the assessment within 30 days after that decision becomes final or, if judicial review is had in accordance with Chapter 13 of Title 50, then within 30 days after final judicial review is terminated. If the person, firm, or corporation fails to pay the assessment within 30 days, such assessment shall become a lien as provided for under paragraph (1) of this subsection.

(3) The Department of Public Safety shall perfect the lien created under this subsection by sending notice thereof on a notice designated by the commissioner of public safety, by first-class mail or by statutory overnight delivery, to the owner and all holders of liens and security interests shown on the records of the Department of Revenue maintained pursuant to Chapter 3 of Title 40. Upon receipt of notice from the Department of Public Safety, the holder of the certificate of title shall surrender same to the state revenue commissioner for issuance of a replacement certificate of title bearing the lien of the department unless the assessment is paid within 30 days of the receipt of notice. The Department of Revenue may append the lien to its records, notwithstanding the failure of the holder of the certificate of title to surrender said certificate as required by this paragraph.

(4) Upon issuance of a title bearing the lien of the Department of Public Safety, or the appending of the lien to the records of the Department of Revenue, the owner of the vehicle or the holder of any security interest or lien shown in the records of the Department of Revenue may satisfy such lien by payment of the amount of the assessment, including hearing costs, if any, and payment of a reissuance fee of \$100.00. Upon receipt of such amount, the Department of Public Safety shall release its lien and the Department of Revenue shall issue a new title without the lien.

(h)(1) The Department of Public Safety, in seeking to foreclose its lien on the motor vehicle arising out of an overweight motor vehicle citation assessed under this article, may seek an immediate writ of possession from the court before whom the petition is filed, if the petition contains a statement of facts, under oath, by the Department of Public Safety, its agents, its officers, or attorney setting forth the basis of the petitioner's claim and sufficient grounds for issuance of an immediate writ of possession.

(2) The Department of Public Safety shall allege under oath specific facts sufficient to show that it is within the power of the defendant to conceal, encumber, convert, convey, or remove from the jurisdiction of the court the property which is the subject matter of the petition.

(3) The court before whom the petition is pending shall issue a writ for immediate possession, upon finding that the petitioner has complied with paragraphs (1) and (2) of this subsection. If the petitioner is found not to have made sufficient showing to obtain an immediate writ of possession, the court may, nevertheless, treat the petition as one being filed under Code Section 44-14-231 and proceed accordingly.

(4) When an immediate writ of possession has been granted, the Department of Public Safety shall proceed against the defendant in

the same manner as provided for in Code Sections 44-14-265 through 44-14-269.

(i)(1) Whenever any person, firm, or corporation violates this article and fails within 30 days of the date of issuance of the overweight assessment citation either to pay the assessment or appeal to the Department of Public Safety for an administrative review as provided for under Chapter 13 of Title 50, the "Georgia Administrative Procedure Act," the Department of Revenue may act to suspend the motor vehicle registration of the vehicle involved. However, if the person, firm, or corporation requests an administrative review, the Department of Revenue shall act to suspend the registration only after the issuance of a final decision favorable to the Department of Public Safety and the requisite failure of the person, firm, or corporation to pay the assessment. Upon such failure to pay the assessment, the Department of Revenue shall send a letter to the owner of such motor vehicle notifying the owner of the suspension of the motor vehicle registration issued to the motor vehicle involved in the overweight assessment citation. Upon complying with this subsection by paying the overdue assessment and upon submitting proof of compliance and paying a \$10.00 restoration fee to the Department of Revenue, the state revenue commissioner shall reinstate any motor vehicle registration suspended under this subsection. In cases where the motor vehicle registration has been suspended under this subsection for a second or subsequent time during any two-year period, the Department of Revenue shall suspend the motor vehicle registration for a period of 60 days and thereafter until the owner submits proof of compliance with this subsection and pays the \$150.00 restoration fee to the Department of Revenue.

(2) Unless otherwise provided for in this Code section, notice of the effective date of the suspension of a motor vehicle registration occurs when the owner has actual knowledge or legal notice thereof, whichever first occurs. For the purposes of making any determination relating to the restoration of a suspended motor vehicle registration, no period of suspension shall be deemed to have begun until ten days after the mailing of the notice required in paragraph (1) of this subsection.

(3) For the purposes of this subsection, except where otherwise provided, the mailing of a notice to a person at the name and address shown in records of the Department of Revenue maintained under Chapter 3 of Title 40 shall, with respect to the holders of liens and security interests, be presumptive evidence that such person received the required notice.

(4) For the purposes of this subsection, except where otherwise provided, the mailing of a notice to a person or firm at the name and

address shown on the overweight assessment citation shall, with respect to owners and operators of vehicles involved in an overweight assessment, be presumptive evidence that such person received the required notice.

(5) The state revenue commissioner may suspend the motor vehicle registration of any offending vehicle for which payment of an overweight assessment is made by a check that is returned for any reason.

(6) For the purposes of this subsection, where any provisions require the Department of Public Safety or the Department of Revenue to give notice to a person, which notice affects such person's motor vehicle license plate, the mailing of such notice and the name and address shown on the notice of overdue assessment citation supplied by the Department of Public Safety, as required by this subsection, shall be presumptive evidence that such person received the required notice. (Ga. L. 1956, p. 83, § 3; Code 1933, § 95A-960, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1974, p. 1422, § 37; Ga. L. 1978, p. 1989, § 2; Ga. L. 1981, p. 998, § 1; Ga. L. 1982, p. 3, § 32; Ga. L. 1983, p. 3, § 23; Ga. L. 1985, p. 149, § 32; Ga. L. 1992, p. 1236, § 2; Ga. L. 1998, p. 1206, § 4; Ga. L. 2000, p. 951, §§ 2-4, 2-5; Ga. L. 2002, p. 415, § 32; Ga. L. 2003, p. 450, § 1; Ga. L. 2005, p. 334, § 12-2/HB 501; Ga. L. 2005, p. 822, § 2/HB 279; Ga. L. 2006, p. 72, § 32/SB 465; Ga. L. 2007, p. 237, § 2/HB 536; Ga. L. 2010, p. 442, § 2/HB 1174; Ga. L. 2011, p. 548, § 2/SB 54.)

The 2010 amendment, effective July 1, 2010, rewrote subsection (a).

The 2011 amendment, effective July 1, 2011, substituted "over the legal weight limit at the closest reasonable location" for "over the legal weight limit before being allowed to move the vehicle" at the end of subsection (e).

Administrative rules and regulations. — Overweight assessment citation, Official Compilation of the Rules and Regulations of the State of Georgia, Department of Driver Services, Administration, Chapter 375-1-3.

JUDICIAL DECISIONS

Conclusive presumption of road damage by overweight vehicles is constitutional. — Conclusive presumption of damage to the public roads caused by overweight vehicles pursuant to O.C.G.A. § 32-6-27 does not deprive the person accused of violating O.C.G.A. § 32-6-26 of any constitutional right. DOT v. Del-Cook Timber Co., 248 Ga. 734, 285 S.E.2d 913 (1982).

It is constitutionally permissible for the state to enact a statute providing that any person who operates an overweight motor

vehicle on the public roads shall be conclusively presumed to have damaged the roads, and requiring such person to recompense the state for such damage in accordance with a schedule pegging the amount of the damages to the poundage of excess weight. DOT v. Del-Cook Timber Co., 248 Ga. 734, 285 S.E.2d 913 (1982).

No opportunity to prove damages. There is certainly no constitutional requirement that the person accused of operating an overweight vehicle be given an opportunity to avoid the penalty or fine by

proving that no perceptible damage to the roads in fact occurred in the driver's case. DOT v. Del-Cook Timber Co., 248 Ga. 734, 285 S.E.2d 913 (1982).

32-6-28. Permits for excess weight and dimensions.

(a) Generally.

(1)(A) The commissioner or an official of the department designated by the commissioner may, in his or her discretion, upon application in writing and good cause being shown therefor, issue a permit in writing authorizing the applicant to operate or move upon the state's public roads a motor vehicle or combination of vehicles and loads whose weight, width, length, or height, or combination thereof, exceeds the maximum limit specified by law, provided that the load transported by such vehicle or vehicles is of such nature that it is a unit which cannot be readily dismantled or separated; and provided, further, that no permit shall be issued to any vehicle whose operation upon the public roads of this state threatens to unduly damage a road or any appurtenance thereto, except that the dismantling limitation specified in this Code section shall not apply to loads which consist of cotton, tobacco, concrete pipe, and plywood that do not exceed a width of nine feet or of round bales of hay that do not exceed a width of 11 feet and which are not moved on part of The Dwight D. Eisenhower System of Interstate and Defense Highways. However, vehicles transporting portable buildings and vehicles not exceeding 65 feet in length transporting boats on roads not a part of The Dwight D. Eisenhower System of Interstate and Defense Highways, regardless of whether the nature of such buildings or boats is such that they can be readily dismantled or separated, may exceed the lengths and widths established in this article, provided that a special permit for such purposes has been issued as provided in this Code section, but no such special permit shall be issued for a load exceeding 12 feet in width when such load may be readily dismantled or separated. A truck tractor and low boy type trailer may, after depositing its

permitted load, return to its point of origin on the authorization of its original permit.

(B) Notwithstanding the provisions of subparagraph (A) of this paragraph, the commissioner or an official of the department designated by the commissioner may, in his or her discretion, upon application in writing and good cause being shown therefor, issue to a specific tow vehicle a permit in writing authorizing the applicant to operate or move upon the state's public roads a motor vehicle or combination of vehicles and loads for transporting not more than two modular housing units or sectional housing units if the total weight, width, length, and height of the vehicle or combination of vehicles, including the load, does not exceed the limits specified in Code Sections 32-6-22 and 32-6-26. Permission to transport two modular housing units is only authorized when the modular unit transporter meets the minimum specifications contained in subparagraph (C) of this paragraph. No permit shall be issued to any vehicle or combination of vehicles whose operation upon the public roads of this state threatens the safety of others or threatens to damage unduly a road or any appurtenance thereto.

(C) A modular unit transporter shall meet all requirements of the Federal Motor Carrier Safety Administration and all state safety requirements, rules, and regulations. The modular unit transporter shall be properly registered and have a proper, current license plate. At a minimum, the modular unit transporter shall:

- (i) Be constructed of 12 inch steel I beams doubled and welded together;
- (ii) Have all axles equipped with brakes;
- (iii) Have every floor joist on each modular section securely attached to the beams with lag bolts and washers, or lag bolts, washers, and cable winches; and
- (iv) Have an overall length not to exceed 80 feet including the hitch.

(2) Permits may be issued, on application to the department, to persons, firms, or corporations without specifying license plate numbers in order that such permits which are issued on an annual basis may be interchanged from vehicle to vehicle. The department is authorized to promulgate reasonable rules and regulations which are necessary or desirable to govern the issuance of such permits, provided that such rules and regulations are not in conflict with this title or other provisions of law.

(3) Every such permit shall be carried in the vehicle or combination of vehicles to which it refers and shall be open to inspection by

any police officer, state trooper, or authorized agent of the department.

(4) The application for any such permit shall describe the type of permit applied for, as said types of permits are described in subsection (c) of this Code section. In addition, the application for a single-trip permit shall describe the points of departure and destination.

(5) The commissioner or an official of the department designated by the commissioner is authorized to withhold such permit or, if such permit is issued, to establish seasonal or other time limitations within which the vehicles described may be operated on the public road indicated, or otherwise to limit or prescribe conditions of operation of such vehicles when necessary to ensure against undue damage to the road foundation, surfaces, or bridge structures, and to require such undertaking or other security as may be deemed necessary to compensate the state for any injury to any roadway or bridge structure.

(6) For just cause, including, but not limited to, repeated and consistent past violations, the commissioner or an official of the department designated by the commissioner may refuse to issue or may cancel, suspend, or revoke the permit and any permit privileges of an applicant or permittee. The specific period of time of any suspension shall be determined by the department. In addition, any time the restrictions or conditions within which a permitted vehicle must be operated are violated, the permit may be immediately declared null and void.

(7) The department is authorized to promulgate rules and regulations necessary to enforce the suspension of permits authorized in this Code section.

(8) The department shall issue rules to establish a driver training and certification program for drivers of vehicles escorting oversize/overweight loads. Any driver operating a vehicle escorting an oversize/overweight load shall meet the training requirements and obtain certification under the rules issued by the department pursuant to this Code section. The rules may provide for reciprocity with other states having a similar program for escort certification. Certification credentials of the driver of an escort vehicle shall be carried in the escort vehicle and be readily available for inspection by law enforcement personnel or an authorized employee of the department. The department shall implement the vehicle escort driver training and certification program on or before July 1, 2010, and the requirements for training and certification shall be enforced beginning on January 1, 2011.

(9) Permit holders shall be required to meet the following minimum insurance standards:

(A) For loads where the gross vehicle weight is less than or equal to 10,000 pounds:

(i) For bodily injury a limit of \$50,000.00 per person for injury or death as a result of any one occurrence; and

(ii) For property damage a limit of \$50,000.00 for damage to property of others in any one occurrence; or

(B) For commercial motor carriers where the gross vehicle weight is greater than 10,000 pounds:

(i) For bodily injury a minimum of \$300,000.00 for each person and \$1 million for multiple persons for injury or death as a result of any one occurrence; and

(ii) For property damage a minimum of \$1 million for damage to property of others in any one occurrence.

(b) Duration and limits of permits.

(1) **Annual permit.** The commissioner or an official of the department designated by the commissioner may, pursuant to this Code section, issue an annual permit which shall permit a vehicle to be operated on the public roads of this state for 12 months from the date the permit is issued even though the vehicle or its load exceeds the maximum limits specified in this article. However, except as specified in paragraph (2) of this subsection, an annual permit shall not authorize the operation of a vehicle:

(A) Whose total gross weight exceeds 100,000 pounds;

(B) Whose single axle weight exceeds 25,000 pounds;

(C) Whose total load length exceeds 100 feet;

(D) Whose total width exceeds 102 inches or whose load width exceeds 144 inches; or

(E) Whose height exceeds 14 feet and six inches.

(2) **Annual permit plus.** Vehicles and loads that meet the requirements for an annual permit may apply for a special annual permit to carry wider loads on the NHS. The wider load limits shall be a maximum of 14 feet wide from the base of the load to a point 10 feet above the pavement and 14 feet and eight inches for the upper portion of the load.

(3) **Annual commercial wrecker emergency tow permit.** Pursuant to this Code section, the commissioner may issue an annual

permit for vehicles towing disabled, damaged, or wrecked commercial vehicles even though such wrecker or its load exceeds the maximum limits specified in this article. However, an annual commercial wrecker emergency tow permit shall not authorize the operation of a vehicle:

- (A) Whose single axle weight exceeds 21,000 pounds;
- (B) Whose load on any tandem axle exceeds 40,000 pounds; or
- (C) Whose total load length exceeds 125 feet.

(4) **Six-month permit.** Six-month permits may be issued for loads of tobacco or unginned cotton the widths of which do not exceed nine feet, provided that such loads shall not be operated on The Dwight D. Eisenhower System of Interstate and Defense Highways.

(5) **Single trip.** Pursuant to this Code section, the commissioner may issue a single-trip permit to any vehicle or load allowed by federal law.

(6) **Multitrip.** Pursuant to this Code section, the commissioner may issue a multitrip permit to any vehicle or load allowed by federal law. A multitrip permit authorizes the permitted load to return to its original destination on the same permit, if done so within ten days, with the same vehicle configuration, and following the same route, unless otherwise specified by the department. A multitrip permit authorizes unlimited permitted loads on the same permit, if done so within the allowable ten days, with the same vehicle configuration, and following the same route.

(c) **Fees.** The department may promulgate rules and regulations concerning the issuance of permits and charge a fee for the issuance thereof as follows:

(1) **Annual.** Charges for the issuance of annual permits shall be \$150.00 per permit.

(2) **Annual permit plus.** Charges for the issuance of annual permits plus shall be \$500.00 per permit.

(3) **Annual commercial wrecker emergency tow permit.** Charges for the issuance of annual commercial wrecker emergency tow permits shall be \$500.00 per permit.

(4) **Six months.** The charges for the issuance of six-month permits for loads of tobacco or unginned cotton shall be \$25.00 per permit.

(5) **Single trip.** Charges for the issuance of single-trip permits shall be as follows:

- (A) Any load not greater than 16 feet wide, not greater than 16 feet high, and not weighing more than 150,000 pounds or any load

greater than 100 feet long which does not exceed the maximum width, height, and weight limits specified by this subparagraph . \$ 30.00

(B) **Superload permit.** Any load having a width, height, or weight exceeding the maximum limit therefor specified in subparagraph (A) of this paragraph and not weighing more than 180,000 pounds 125.00

(C) **Superload plus permit.** Any load having a weight exceeding the maximum limit therefor specified in subparagraph (B) of this paragraph 500.00

(6) **Multitrip.** Charges for the issuance of multitrip permits shall be \$100.00 for any load not greater than 16 feet wide, not greater than 16 feet high, and not weighing more than 150,000 pounds or any load greater than 100 feet long which does not exceed the maximum width, height, and weight limits specified by this paragraph.

(d) Notwithstanding any provision of Code Section 48-2-17 to the contrary, all fees collected in accordance with this Code section shall be paid to the treasurer of the department to help defray the expenses of enforcing the limitations set forth in this article and may also be used for public road maintenance purposes in addition to any sums appropriated therefor to the department. (Ga. L. 1968, p. 30, § 1; Ga. L. 1969, p. 637, § 1; Ga. L. 1971, p. 43, § 1; Ga. L. 1971, p. 462, §§ 2, 3; Ga. L. 1972, p. 356, §§ 1, 2; Code 1933, § 95A-961, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1974, p. 1422, § 38; Ga. L. 1975, p. 400, § 1; Ga. L. 1979, p. 439, § 4; Ga. L. 1980, p. 576, § 7; Ga. L. 1982, p. 3, § 32; Ga. L. 1983, p. 1798, § 5; Ga. L. 1986, p. 471, §§ 1-3; Ga. L. 1986, p. 655, § 1; Ga. L. 1987, p. 846, § 1; Ga. L. 1992, p. 987, § 1; Ga. L. 1992, p. 2467, §§ 2-4; Ga. L. 1993, p. 348, § 1; Ga. L. 1995, p. 10, § 32; Ga. L. 1995, p. 155, § 1; Ga. L. 1996, p. 1010, § 3; Ga. L. 1996, p. 1512, § 3A; Ga. L. 1999, p. 567, § 3; Ga. L. 2000, p. 136, § 32; Ga. L. 2000, p. 1654, § 2; Ga. L. 2002, p. 1126, §§ 5, 6; Ga. L. 2010, p. 442, § 3/HB 1174; Ga. L. 2011, p. 548, §§ 3, 4/SB 54; Ga. L. 2012, p. 732, § 1/HB 835; Ga. L. 2012, p. 775, § 32/HB 942.)

The 2010 amendment, effective July 1, 2010, added the second sentence in subparagraph (a)(1)(B); added subparagraph (a)(1)(C); added paragraphs (a)(8) and (a)(9); deleted the former undesignated ending paragraph in paragraph (b)(1), which read: “Furthermore, an annual permit to operate a vehicle which exceeds the height limitations set forth in Code Section 32-6-22 shall be issued only on condition of payment of an indemnity bond or proof of insurance pro-

tection for \$300,000.00. Such bond or insurance protection, conditioned for payment to the department, shall be held in trust for the benefit of the owners of bridges and appurtenances thereto, traffic signals, signs, or other highway structures damaged by a vehicle operating under authority of such overheight permit. The liability under the bond or insurance certificate shall be absolute and shall not depend on proof of negligence or fault on the part of the permittee, his or her

agents, or operators.”; in paragraph (b)(2), substituted “ANNUAL PERMIT PLUS” for “STAA ANNUAL PERMIT” at the beginning and substituted “NHS” for “STAA system of roads” at the end of the first sentence; in paragraph (c)(2), substituted “ANNUAL PERMIT PLUS” for “STAA ANNUAL PERMIT” at the beginning, deleted “STAA” preceding “annual” and inserted “plus”; and, in subparagraphs (c)(4)(B) and (c)(4)(C), added the subparagraph catchlines at the beginning.

The 2011 amendment, effective July 1, 2011, deleted “specifically” preceding “describe” in the first sentence of paragraph (a)(4); and added paragraphs (b)(4) and (c)(5).

The 2012 amendments. — The first 2012 amendment, effective July 1, 2012, added paragraph (b)(3); redesignated former paragraphs (b)(2.1) through (b)(4) as present paragraphs (b)(4) through (b)(6),

respectively; added paragraph (c)(3); and redesignated former paragraphs (c)(3) through (c)(5) as present paragraphs (c)(4) through (c)(6), respectively. The second 2012 amendment, effective May 1, 2012, part of an Act to revise, modernize, and correct the Code, substituted “Code Sections 32-6-22 and 32-6-26” for “Code Section 32-6-22 and Code Section 32-6-26” in subparagraph (a)(1)(B) and made punctuation changes in subparagraphs (c)(4)(B) and (c)(4)(C) (now (c)(5)(B) and (c)(5)(C)).

JUDICIAL DECISIONS

Cited in DOT v. Del-Cook Timber Co., 248 Ga. 734, 285 S.E.2d 913 (1982).

OPINIONS OF THE ATTORNEY GENERAL

Issuance of permits. — Commissioner or the commissioner’s designee is empowered to issue annual permits which authorize the operation of vehicles which do not exceed a height of 14’6” for hauling automobiles when the conditions specified in this section have been met. 1973 Op. Att’y Gen. No. 73-110 (see O.C.G.A. § 32-6-28).

When considering issuance of permits for vehicles exceeding maximum weight or dimensions allowed by law, discretion of the commissioner of transportation or the commissioner’s designee is limited to consideration of whether good cause for issuance of the permit has been shown by the applicant, whether the loads transported

may be readily dismantled or separated, and whether the vehicle and load threatens to unduly damage the roads of the state. 1982 Op. Att’y Gen. No. 82-84.

Permits for moving houses. — Municipal corporation, which has the authority to control the streets and highways within the municipality’s corporate limits, may enact an ordinance requiring that permits be obtained prior to moving houses on streets and highways lying within the corporate limits and charging a fee reasonably related to the expenses incurred by a municipality during the course of moving a house. 1974 Op. Att’y Gen. No. U74-23.

the moving of buildings on highways, 83 ALR2d 464.

Violation of regulation governing size or weight of motor vehicles, or combinations of vehicles and loads, on the highway as basis of liability for personal injury, death,

or damage to private property, 21 ALR3d 989.

Automobiles: construction and operation of statutes or regulations restricting the weight of motor vehicles or their loads, 45 ALR3d 503.

32-6-29. Responsibility of the Department of Transportation; responsibility of the Department of Public Safety.

(a) The Department of Transportation shall be responsible for rules and regulations relating to size and weight limits and issuance of permits under this article.

(b) The Department of Transportation shall not, however, employ any law enforcement officers or agents except as may be specifically authorized by other laws. Law enforcement responsibility for enforcement of this article shall be in the Department of Public Safety. (Ga. L. 1960, p. 1122, § 1; Ga. L. 1968, p. 193, § 2; Code 1933, § 95A-962, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1974, p. 1422, § 40; Ga. L. 1976, p. 1500, § 1; Ga. L. 1978, p. 1989, § 3; Ga. L. 1979, p. 814, § 1; Ga. L. 1982, p. 3, § 32; Ga. L. 1993, p. 91, § 32; Ga. L. 1993, p. 366, § 1; Ga. L. 2000, p. 951, § 2-6; Ga. L. 2000, p. 1199, § 1; Ga. L. 2005, p. 334, § 12-3/HB 501.)

JUDICIAL DECISIONS

Department of Transportation enforcement officer had authority to enforce travel restrictions in high occupancy vehicle lanes. *Edge v. State*, 226 Ga. App. 559, 487 S.E.2d 117 (1997).

OPINIONS OF THE ATTORNEY GENERAL

Arrest powers of Department of Transportation enforcement officers extend only to arrests for commission of

crimes specifically enumerated by statute conferring powers. 1978 Op. Att'y Gen. No. 78-73.

RESEARCH REFERENCES

ALR. — Authority of public official, whose duties or functions generally do not

entail traffic stops, to effectuate traffic stop of vehicle, 18 ALR6th 519.

32-6-30. Stopping vehicles for purposes of weighing, measuring, or inspecting; reports of violations; refusal to stop.

(a) Any law enforcement officer or employee of the Department of Public Safety to whom law enforcement authority has been designated who observes a motor vehicle being operated upon a public road of the

state and who has reason to believe that: (1) Any provision of this article is being violated; (2) The vehicle is improperly licensed in violation of Code Sections 40-2-150 through 40-2-162; or (3) A fuel tax registration card is not being carried or that a proper distinguishing identification marker is not affixed to the vehicle in violation of Code Section 48-9-39 is authorized to stop such vehicle and weigh, measure, or inspect the same. Violations of such licensing or fuel tax registration and identification requirements shall be reported to the Department of Revenue.

(b)(1) If the operator of the vehicle shall refuse to stop upon proper order as directed by a person authorized by subsection (a) of this Code section to stop, weigh, measure, or inspect the vehicle or its load, the operator shall be guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine not to exceed \$200.00. The operator shall have the right to post an appropriate bond, which shall not exceed \$400.00, when any law enforcement officer or employee of the Department of Public Safety authorized to enforce this article apprehends said operator for any violation of this article.

(2) In addition, the operator's driver's license or nonresident's driving privilege may be suspended for a period of not more than 90 days by the Department of Driver Services upon satisfactory proof of said refusal to stop or drive the vehicle upon the scales. Each person who shall apply for a Georgia driver's license, or for nonresident driving privileges, or for a renewal of same thereby consents to stop such vehicle for inspection or to drive such vehicle upon scales whenever so ordered by a law enforcement official or authorized employee of the Department of Public Safety. (Ga. L. 1960, p. 1122, § 2; Ga. L. 1968, p. 193, §§ 1, 3; Code 1933, § 95A-963, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1982, p. 3, § 32; Ga. L. 2000, p. 951, § 2-7; Ga. OPINIONS OF THE ATTORNEY GENERAL

O.C.G.A. § 32-6-30 is a traffic law since the statute provides for criminal liability for refusing to stop and permit vehicles to be weighed, measured, and inspected. 1981 Op. Att'y Gen. No. U81-17.

Classification of traffic offenses includes violations of O.C.G.A. §§ 32-6-30 and 46-7-61 (now repealed). 1981 Op. Att'y Gen. No. U81-17.

Cases may be tried upon uniform traffic citation. — Since violations of O.C.G.A. §§ 32-6-30 and 46-7-61 (now repealed) constitute misdemeanor traffic offenses, cases arising from these sections may be tried upon a uniform traffic citation, and any cash appearance bonds posted may be forfeited as provided by O.C.G.A. § 17-6-8. 1981 Op. Att'y Gen. No. U81-17.

32-6-31. Construction of Code Sections 32-1-10, 32-6-26, 32-6-27, and 32-6-29.

The provisions of Code Sections 32-1-10, 32-6-26, 32-6-27, and 32-6-29 shall not, and shall not be construed to, modify, change, or diminish any power or duty held by any other law enforcement unit, enforcement officer, or peace officer. (Ga. L. 1978, p. 1989, § 5; Ga. L. 1982, p. 3, § 32; Ga. L. 2000, p. 136, § 32; Ga. L. 2002, p. 415, § 32.)

ARTICLE 3

CONTROL OF SIGNS AND SIGNALS

Cross references. — Regulation of advertisements and advertising structures along federal parkway rights of way, § 32-3-38.

PART 1

PUBLIC ROADS GENERALLY

32-6-50. Uniform regulations governing erection and maintenance of traffic-control devices; placement, removal, defacement, damaging, or sale of devices.

(a) The department shall promulgate uniform regulations governing the erection and maintenance on the public roads of Georgia of signs, signals, markings, or other traffic-control devices, such uniform regulations to supplement and be consistent with the laws of this state. Insofar as practical, with due regard to the needs of the public roads of Georgia, such uniform regulations shall conform to the recommended regulations as approved by the American Association of State Highway and Transportation Officials.

(b) In conformity with its uniform regulations, the department shall place and maintain, or cause to be placed and maintained, such traffic-control devices upon the public roads of the state highway system as it shall deem necessary to regulate, warn, or guide traffic,

except that the department shall place and maintain a sign for each railroad crossing at grade on the state highway system, warning motorists of such crossing, provided that each railroad company shall also erect and maintain a railroad crossbuck sign on its right of way at every such crossing. The department may remove or direct removal of all traffic-control devices and signs which are erected on the state highway system by any governing authority without the permission of the department.

(c) In conformity with the uniform regulations of the department:

(1) Counties and municipalities shall place and maintain upon the public roads of their respective public road systems such traffic-control devices as are necessary to regulate, warn, or guide traffic except that counties and municipalities also shall erect and maintain a sign for each railroad crossing at grade on their respective county road or municipal street systems, warning motorists of such crossing. Furthermore, each railroad company shall erect and maintain a railroad crossbuck sign on its right of way at all such crossings; and

(2) Counties, on their respective road systems, shall place and maintain on each county road which is authorized as a designated local truck route, pursuant to official resolution of the county, at each intersection of such road with a state highway signs identifying such county road as a designated local truck route and giving notice of the maximum weight limits for such designated local truck route in accordance with subsection (f) of Code Section 32-6-26.

(d) It shall be unlawful for any person to remove, deface, or damage in any way any official traffic-control device lawfully erected or maintained pursuant to this Code section or any other law.

(e) No person, firm, corporation, or other entity shall offer for sale any sign, signal, marking, or other device intended to regulate, warn, or guide traffic upon the public roads of this state, unless it conforms with the uniform regulations promulgated under subsection (a) of this Code section. Any person, firm, corporation, or other entity who sells any sign, signal, marking, or other device intended to regulate, warn, or guide traffic upon the public roads of this state in violation of this Code section shall make restitution to the purchaser in an amount equal to the entire sum, plus interest, originally paid for the sign, signal, marking, or other device. Any person, firm, corporation, or other entity who knowingly sells any sign, signal, marking, or other device intended to regulate, warn, or guide traffic upon the public roads of this state in violation of subsection (a) of this Code section shall be guilty of a misdemeanor. (Ga. L. 1931, p. 221, § 3; Code 1933, § 95-2003; Ga. L. 1953, Nov.-Dec. Sess., p. 556, §§ 31-33, 39; Ga. L. 1968, p. 1427, § 1;

Code 1933, § 95A-901, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1981, p. 1826, § 1; Ga. L. 1998, p. 1206, § 5; Ga. L. 2012, p. 1343, § 8/HB 817.)

The 2012 amendment, effective July 1, 2012, deleted “and approval of the commissioner” following “of the county” in the middle of paragraph (c)(2).

Cross references. — Required obser-

vance of traffic signs, signals, and markings, § 40-6-20 et seq. Erection and maintenance of crossbuck signs at highway grade crossings generally, § 46-8-194 et seq.

JUDICIAL DECISIONS

Department’s duty to design, manage, and improve state highway system. — When the charge in question does in fact state that the Department of Transportation (DOT) has “general responsibility to design, manage and improve the state highway system,” it seems to capture the essence of the sections the defendant relies upon, which are in fact very broad, general descriptions of the duties of the DOT. The additional material used by the court is drawn from the more specific statutory description of the respective duties of the DOT and municipalities. Thus, O.C.G.A. § 32-2-2 does indeed mention the general duty of the DOT to “designate, improve, manage, control, construct, and maintain.” *Banks v. City of Brunswick*, 529 F. Supp. 695 (S.D. Ga. 1981), *aff’d*, 667 F.2d 97 (11th Cir. 1982).

Proof of department liability insufficient. — Since the trial court did not have before the court evidence of proof that Department of Transportation regulations designated specific acts or omissions to be negligence per se, that the collision forming the basis of the suit was the harm intended to guard against, and that the plaintiffs fell within the class of persons to be protected by the regulations, the court did not err in denying the plaintiffs’ motion for directed verdict. *Donaldson v. DOT*, 236 Ga. App. 411, 511 S.E.2d 210 (1999).

Department is responsible for traffic-control devices. — Once a general contractor completes the work on a public road called for under a contract with the Department of Transportation (DOT), the DOT is responsible for traffic-control devices on the road. *Baker v. Reynolds Trucking Co.*, 181 Ga. App. 242, 351 S.E.2d 657 (1986).

When the trial court correctly interpreted contract provisions as only requiring the defendant to install traffic control devices, or to take preventative or corrective action when traffic related problems were caused from preexisting hazards or by the defendant’s construction activities, the defendant did not undertake to perform the duties under O.C.G.A. § 32-4-41(1) and subsection (c) of O.C.G.A. § 32-6-50. *Adams v. APAC-Georgia, Inc.*, 236 Ga. App. 215, 511 S.E.2d 581 (1999).

Nothing in O.C.G.A. § 32-6-50 or O.C.G.A. § 32-6-51 prohibits the Georgia Department of Transportation (DOT) from delegating responsibility to erect and maintain traffic control signs to a private contractor through a construction contract; § 32-6-50 does not saddle DOT with ultimate responsibility for installing and maintaining traffic control devices on all county and municipal road systems. *Comanche Constr., Inc. v. DOT*, 272 Ga. App. 766, 613 S.E.2d 158 (2005).

Contractors were not liable for negligently controlling traffic as the Georgia Department of Transportation (DOT) was required to place and maintain, or cause to be placed and maintained, traffic control devices and the DOT was responsible for approving all traffic control plans before implementation by a contractor; the injured party failed to show that the contractor failed to implement the traffic control devices pursuant to the DOT’s directives, even though the injured party’s accident reconstruction expert and drivers involved in the accident found the traffic control measures inadequate or improper. *Fraker v. C.W. Matthews Contr. Co.*, 272 Ga. App. 807, 614 S.E.2d 94 (2005), *aff’d*,

2007 U.S. App. LEXIS 28793 (11th Cir. 2007).

Common law action against railroad precluded. — Georgia Code of Public Transportation, O.C.G.A. § 32-1-1 et seq., precluded a common-law cause of action against a railroad for the failure to install adequate protective devices at a grade crossing on a public road since the railroad had not been requested to do so by the appropriate governmental entity. *Southern Ry. v. Georgia Kraft Co.*, 188 Ga. App. 623, 373 S.E.2d 774 (1988).

Because the Georgia Code of Public Transportation, O.C.G.A. § 32-1-1 et seq., abrogated any common law duty on the part of defendant railroad to install adequate signal equipment at a railroad crossing where the driver's car was struck by a train, the common law negligence claim asserted by plaintiffs, the driver's survivors, was dismissed for failure to state a claim; under O.C.G.A. § 32-6-51, the railroad company would have acted in violation of Georgia law if the company erected traffic signals on the public road unless the company was required or authorized to do so by O.C.G.A. §§ 32-6-50 and 32-6-51(d), or some "other law," and O.C.G.A. § 32-6-200 delegated responsibility for the installation of protective devices on public roads to the appropriate governmental entity. *Bentley v. CSX Transp., Inc.*, 437 F. Supp. 2d 1327 (N.D. Ga. 2006).

Common law duty to install warnings at grade crossings abrogated. — O.C.G.A. §§ 32-6-50 and 32-6-51 work in conjunction to abrogate a railroad's common law duty to install devices to warn of approaching trains at grade crossings. *CSX Transp., Inc. v. Trism Specialized Carriers, Inc.*, 182 F.3d 788 (11th Cir. 1999).

Even though the defendant railroad determined that a crossing might need additional warning signals, when the Department of Transportation inspected the crossing and determined that active warning signals were not needed, the railroad could not be held liable for not installing signals. *Crockett v. Norfolk S. Ry.*, 95 F. Supp. 2d 1353 (N.D. Ga. 2000), *aff'd*, 239 F.3d 370, (11th Cir. 2000).

No penalty for non-compliance. — Non-compliance with O.C.G.A. § 32-6-50

by the Department of Transportation (DOT) does not exact a penalty and produces no injury to individual rights. *Donaldson v. DOT*, 236 Ga. App. 411, 511 S.E.2d 210 (1999).

Responsibility of private owner. — Trial court correctly concluded that an apartment complex owner had no responsibility for installing or maintaining traffic signal device as that duty was officially vested in the city by virtue of subsection (c) of O.C.G.A. § 32-6-50. *Zumbado v. Lincoln Property Co.*, 209 Ga. App. 163, 433 S.E.2d 301 (1993).

County and municipal obligation. — When an injured party sued the Georgia Department of Transportation (DOT) for injuries received in a single-car accident on a county road, the party could not maintain a negligent maintenance claim against DOT for not maintaining adequate warning devices on the road because the road on which the accident occurred was not part of the state highway system, nor did the road lead to a state park, so, under O.C.G.A. § 32-6-50(c)(1), the county was obligated to maintain such devices. *Ogles v. E.A. Mann & Co.*, 277 Ga. App. 22, 625 S.E.2d 425 (2005).

Jury instructions. — In a wrongful death action, the district court did not err by instructing the jury concerning the railroad's duty to maintain traffic control devices because taking all of the instructions together, the jury was properly informed that the railroad could not be held liable for the decision about which warning device to put in place or continue in place, but the railroad could be held liable for any failure to repair an existing warning light. *Wright v. CSX Transp., Inc.*, 375 F.3d 1252 (11th Cir. 2004).

Cited in *Peluso v. Central of Ga. R.R.*, 165 Ga. App. 215, 299 S.E.2d 51 (1983); *DOT v. Brown*, 218 Ga. App. 178, 460 S.E.2d 812 (1995); *DOT v. Brown*, 267 Ga. 6, 471 S.E.2d 849 (1996); *Ballenger Paving Co. v. Gaines*, 231 Ga. App. 565, 499 S.E.2d 722 (1998); *CSX Transp., Inc. v. Trism Specialized Carriers, Inc.*, 9 F. Supp. 2d 1374 (N.D. Ga. 1998); *DOT v. Cushway*, 240 Ga. App. 464, 523 S.E.2d 340 (1999); *Hubbard v. DOT*, 256 Ga. App. 342, 568 S.E.2d 559 (2002); *DOT v. Dupree*, 256 Ga. App. 668, 570 S.E.2d 1

(2002); *CSX Transp., Inc. v. Deen*, 269 Ga. App. 641, 605 S.E.2d 50 (2004); *Murray v. Ga. DOT*, 284 Ga. App. 263, 644 S.E.2d 290 (2007).

OPINIONS OF THE ATTORNEY GENERAL

Department of Transportation's authority over public highways. — Authority to control, manage, and close public highways is vested in the Department of Transportation, not the Department of Public Safety. 1973 Op. Att'y Gen. No. 73-184.

Municipal control of traffic. — Traffic on city streets which is not part of the

State Highway System is under municipal control. 1977 Op. Att'y Gen. No. U77-45.

Cameras used for enforcement of traffic control devices may be erected by counties at the intersection of roads within the state highway system with the approval of the Department of Transportation. 2000 Op. Att'y Gen. No. U2000-12.

32-6-51. Erection, placement, or maintenance of unlawful or unauthorized structure; removal thereof; penalty for violation; authorization of placement, erection, and maintenance of commercial advertisements by transit agency.

(a)(1) It shall be unlawful for any person to erect, place, or maintain within the dedicated right of way of any public road any sign, signal, or other device except as authorized by this subsection or subsection (d) of this Code section or as required or authorized by Code Section 32-6-50 or any other law.

(2) The erection, placement, and maintenance of signs within the dedicated rights of way of county roads or municipal streets may be authorized and governed by ordinances adopted by governing authorities of counties and municipalities having jurisdiction over such roads or streets, which ordinances as to such dedicated rights of way of county roads or municipal streets may be as or less restrictive than the provisions of paragraph (1) of this subsection.

(b) It shall be unlawful for any person to erect, place, or maintain in a place or position visible from any public road any unauthorized sign, signal, device, or other structure which:

(1) Imitates, resembles, or purports to be an official traffic-control device;

(2) Hides from view or interferes with the effectiveness of any official traffic-control device;

(3) Obstructs a clear view from any public road to any other portion of such public road, to intersecting or adjoining public roads, or to property abutting such public road in such a manner as to constitute a hazard to traffic on such roads; or

(4) Because of its nature, construction, or operation, constitutes a dangerous distraction to or interferes with the vision of drivers of motor vehicles.

(c) Any sign, signal, device, or other structure erected, placed, or maintained on the dedicated right of way of any public road in violation of subsection (a) or (b) of this Code section or in violation of any ordinance adopted pursuant to subsection (a) of this Code section is declared to be a public nuisance, and the officials having jurisdiction of the public road affected may remove or direct the removal of the same. Where any sign, signal, device, or other structure is erected, placed, or maintained in violation of subsection (b) of this Code section, but not on the dedicated right of way of any public road, the officials having jurisdiction of the public road affected may order the removal of such structure by written notice to the owner of the structure or the owner of the land on which the structure is located. If such structure is not removed within 30 days after the giving of such order of removal, such officials are authorized to remove or cause to be removed such structure and to submit a statement of expenses incurred in the removal to the owner of the structure or to the owner of the land on which the structure is located. If payment or arrangement to make payment is not made within 60 days after the receipt of said statement, the department shall certify the amount thereof for collection to the Attorney General.

(d)(1) As used in this subsection, the term:

(A) "Bus shelter" means a shelter or bench located at bus stops for the convenience of passengers of public transportation systems owned and operated by governmental units or public authorities or located on county or municipality rights of way for the convenience of residents.

(B) "Commercial advertisements" means any printed or painted signs on a bus shelter for which space has been rented or leased from the owner of such shelter.

(2) Bus shelters, including those on which commercial advertisements are placed, may be erected and maintained on the rights of

way of public roads subject to the following conditions and requirements:

(A) Any public transit system wishing to erect and maintain a bus shelter on the right of way of a state road shall apply to the department for a permit, and as a condition of the issuance of the permit, the department must approve the bus shelter building plans and the location of the bus shelter on the right of way; provided, however, that such approval is subject to any and all restrictions imposed by Title 23, U.S.C., and Title 23, Code of Federal Regulations relating to the federal-aid system. This paragraph shall entitle only public transit systems or their designated agents the right to be issued permits under this paragraph;

(B) If the bus shelter is to be located on the right of way of a public road other than a state road within a county or municipality, application for permission to erect and maintain such shelter shall be made to the respective county or municipality. Such application shall conform to the county's and municipality's regulations governing the erection and maintenance of such structures. When the county or municipality is served by a public transit agency or authority, the applications for all bus shelters on routes of such agency or authority shall also be forwarded by the applicant to such transit agency or authority and subject to the approval of such agency or authority; and

(C) As a condition of issuing a permit for the erection of a bus shelter on the right of way of a state road, the department shall require that the bus shelter shall be properly maintained and that its location shall meet minimum setback requirements as follows:

(i) Where a curb and gutter are present, there shall be a minimum of four feet clearance from the face of the curb to any portion of the bus shelter or the bus shelter shall be placed at the back of the existing concrete sidewalk; or

(ii) Where no curb or gutter is present, the front of the bus shelter shall be at least ten feet from the edge of the main traveled roadway.

(3) Any bus shelter erected and maintained on the right of way of a public road in violation of paragraph (2) of this subsection or in violation of the conditions of the permit issued by the department or in violation of the conditions of the consent of the county or municipality is declared to be a public nuisance and if it is determined to be a hazard to public safety by the department, county, or municipality, it may be removed or its removal may be ordered by the department or the governing authority of the respective county or municipality. In every case of removal of a bus shelter as a hazard to public safety by

the department, a county, or a municipality, a good faith attempt shall be made to notify the owner of its removal. In such cases where the department, county, or municipality orders the removal of the bus shelter as a public nuisance, if such a bus shelter is not removed by its owner within 30 days after its owner has been issued a written order of removal by the department or the governing authority of the respective county or municipality, the department or the governing authority of the respective county or municipality may cause the bus shelter to be removed and submit a statement of expenses incurred in the removal to the owner of the bus shelter. In the case of a statement of expenses for removal of a shelter on a state road, if payment or arrangement to make payment is not made within 60 days after the receipt of such statement, the department shall certify the amount thereof to the Attorney General for collection.

(4) The person to whom a permit has been issued for the erection and maintenance of a bus shelter on the right of way of a public road or who places such shelter on a public road other than a state road shall at all times assume all risks for the bus shelter and shall indemnify and hold harmless the State of Georgia, the department, and any county or municipality against all losses or damages resulting solely from the existence of the bus shelter.

(5) Permits for shelters on state roads shall be issued under this subsection only to cities, counties, or public transportation authorities owning or operating public transportation systems or their designated agents.

(e) Each sign erected, placed, or maintained in violation of paragraph (1) of subsection (a) of this Code section shall constitute a separate offense.

(f) Any person who violates paragraph (1) of subsection (a) of this Code section shall be punished the same as for littering under Code Section 16-7-43. Any person who violates subsection (b) of this Code section shall be guilty of a misdemeanor.

(g)(1) As used in this subsection, the term:

(A) "Commercial advertisements" means any printed or painted signs or multiple message signs on or in transit vehicles or facilities for which space has been rented or leased from the owner of such transit vehicles or facilities.

(B) "Transit agency" means any public agency, public corporation, or public authority existing under the laws of this state that is authorized by any general, special, or local law to provide any type of transit services within any area of this state including, but not limited to, the Department of Transportation, the Georgia

Regional Transportation Authority, and the Georgia Rail Passenger Authority.

(C) “Transit vehicles or facilities” means everything necessary and appropriate for the conveyance and convenience of passengers who utilize transit services.

(2) A transit agency may authorize the placement, erection, and maintenance of commercial advertisements on or in transit vehicles or facilities owned or operated by that transit agency and said placement of commercial advertisements shall not be considered conducting commercial enterprises or activities in violation of Code Section 32-6-115. (Ga. L. 1931, p. 221, §§ 1, 2, 4, 5; Code 1933, §§ 95-2002, 95-2004, 95-2005, 95-2006; Ga. L. 1953, Nov.-Dec. Sess., p. 556, § 38; Code 1933, § 95A-902, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1991, p. 1861, § 1; Ga. L. 1992, p. 1504, § 1; Ga. L. 1993, p. 1732, § 1; Ga. L. 2001, Ex. Sess., p. 335, § 5; Ga. L. 2005, p. 601, § 3/SB 160; Ga. L. 2006, p. 275, § 3-10/HB 1320; Ga. L. 2009, p. 302, § 2/HB 101.)

Cross references. — Placement of election campaign posters, signs, and advertisements within right of way of public roads, § 21-1-1. Further provisions regarding display of unauthorized traffic signs, signals, or other markings, § 40-6-25.

Code Commission notes. — Pursuant to Code Section 28-9-5, in 1991, “federal-aid system” was substituted for “Federal-aid system” at the end of the first sentence in subparagraph (d)(2)(A).

Editor’s notes. — Ga. L. 2006, p. 275, § 1-1/HB 1320, not codified by the General Assembly, provides that: “This Act shall be known and may be cited as the ‘Comprehensive Litter Prevention and Abatement Act of 2006.’”

Ga. L. 2006, p. 275, § 5-1/HB 1320, not codified by the General Assembly, provides that the Act shall become effective April 21, 2006, for purposes of adopting local ordinances to become effective on or after July 1, 2006.

Law reviews. — For article, “Recommendations Regarding Control of Outdoor Advertising Along the Interstate Highway System in Georgia,” see 14 Mercer L. Rev. 308 (1963). For annual survey of trial practice and procedure, see 57 Mercer L. Rev. 381 (2005). For annual survey of trial practice and procedure, see 57 Mercer L. Rev. 381 (2005).

JUDICIAL DECISIONS

Department’s duty to design, manage, and improve state highway system. — When the charge in question does in fact state that the Department of Transportation (DOT) has “general responsibility to design, manage and improve the state highway system,” it seems to capture the essence of the sections the defendant relies upon, which are in fact very broad, general descriptions of the duties of the DOT. The additional mate-

rial used by the court is drawn from the more specific statutory description of the respective duties of the DOT and municipalities. Thus, O.C.G.A. § 32-2-2 does indeed mention the general duty of the DOT to “designate, improve, manage, control, construct, and maintain.” *Banks v. City of Brunswick*, 529 F. Supp. 695 (S.D. Ga. 1981), *aff’d*, 667 F.2d 97 (11th Cir. 1982).

Nothing in O.C.G.A. § 32-6-50 or O.C.G.A. § 32-6-51 prohibits the Georgia

Department of Transportation (DOT) from delegating responsibility to erect and maintain traffic control signs to a private contractor through a construction contract; § 32-6-50 does not saddle DOT with ultimate responsibility for installing and maintaining traffic control devices on all county and municipal road systems. *Comanche Constr., Inc. v. DOT*, 272 Ga. App. 766, 613 S.E.2d 158 (2005).

Bridge partially blocking traffic lights. — Railroad's bridge, which partially blocked traffic lights at a nearby intersection, did not infringe on the public right-of-way, where the space provided by the bridge for the public right-of-way adequately allowed for the safe and unimpeded flow of traffic thereunder and the traffic lights were not part of the bridge's structure. *City of Fairburn v. Cook*, 188 Ga. App. 58, 372 S.E.2d 245, cert. denied, 188 Ga. App. 911, 372 S.E.2d 245 (1988).

Contractor can design and establish detour route with department approval and inspection. — O.C.G.A. § 32-6-51 did not prohibit a contractor from designing and establishing a detour route under a contract with the Georgia Department of Transportation (DOT), subject to DOT's approval and inspection. *Comanche Constr., Inc. v. DOT*, 272 Ga. App. 766, 613 S.E.2d 158 (2005).

Party asserting that structure on private property is unauthorized must establish this fact by showing that the structure was erected or maintained in violation of some statute, code, or local ordinance. *Smith v. Hiawassee Hdwe. Co.*, 167 Ga. App. 70, 305 S.E.2d 805 (1983); *Whidby v. Mr. B's Food Mart*, 182 Ga. App. 408, 356 S.E.2d 78 (1987).

Common law duty to install warnings at grade crossings abrogated. — O.C.G.A. §§ 32-6-50 and 32-6-51 work in conjunction to abrogate a railroad's common law duty to install devices to warn of approaching trains at grade crossings. *CSX Transp., Inc. v. Trism Specialized Carriers, Inc.*, 182 F.3d 788 (11th Cir. 1999).

Because the Georgia Code of Public Transportation, O.C.G.A. § 32-1-1 et seq., abrogated any common law duty on the part of defendant railroad to install adequate signal equipment at a railroad

crossing where the driver's car was struck by a train, the common law negligence claim asserted by plaintiffs, the driver's survivors, was dismissed for failure to state a claim; under O.C.G.A. § 32-6-51, the railroad company would have acted in violation of Georgia law if the company erected traffic signals on the public road unless the company was required or authorized to do so by O.C.G.A. §§ 32-6-50 and 32-6-51(d), or some "other law," and O.C.G.A. § 32-6-200 delegated responsibility for the installation of protective devices on public roads to the appropriate governmental entity. *Bentley v. CSX Transp., Inc.*, 437 F. Supp. 2d 1327 (N.D. Ga. 2006).

Private property structures only unlawful when road view obstructed.

— Structures on private property adjoining road rights-of-way only become unlawful if the structures both obstruct a clear view of roads in such a manner as to constitute a traffic hazard and are unauthorized. *Smith v. Hiawassee Hdwe. Co.*, 167 Ga. App. 70, 305 S.E.2d 805 (1983).

Obstruction was not linked to causation. — While the greenery may have caused some obstruction of vision, there existed no competent evidence that any possible obstruction in visibility did, in fact, cause or contribute to the collision; whereas, the evidence presented created a strong probability that a jury could find that the negligence of the driver was the sole proximate cause of the collision. *Howard v. Gourmet Concepts Int'l, Inc.*, 242 Ga. App. 521, 529 S.E.2d 406 (2000).

Trial court properly granted summary judgment in favor of a landowner in a negligence suit brought by a parent, who asserted that overgrowth on the landowner's property at an intersection obscured the view of the parent's child and caused the accident that killed the child as the parent failed to establish that the landowner violated O.C.G.A. § 32-6-51(b) with regard to having overgrown foliage on the property at the intersection and, otherwise, failed to show any breach of duty on the landowner's part. *Rachels v. Thompson*, 290 Ga. App. 115, 658 S.E.2d 890 (2008), cert. denied, 2008 Ga. LEXIS 778 (Ga. 2008).

Applicability to trees on property abutting railroad crossing. — Cases

involving a landowner's liability for vision-obstructing objects on property abutting a railroad crossing are governed by O.C.G.A. § 32-6-51 and the statute applies to allegedly unauthorized vision-obstructing trees. *United Refrigerated Servs., Inc. v. Emmer*, 218 Ga. App. 865, 463 S.E.2d 535 (1995).

Government entity's liability for vegetation near railroad crossing. — Town was entitled to summary judgment in a survivor's action claiming damages from the survivor's decedent's fatal collision with a train because the allegedly vision-obstructing vegetation was located on the railroad's property, and, further, it was undisputed that the survivor failed to show that the vegetation was planted or maintained in violation of any statute, code, or local ordinance. Furthermore, although railroads could be liable under common law negligence principles, the failure to maintain a railroad right of way was addressed by the Georgia Code of Public Transportation, specifically by O.C.G.A. § 32-6-51. *Town of Register v. Fortner*, 262 Ga. App. 507, 586 S.E.2d 54 (2003).

Town was not entitled to summary judgment on a decedent's nuisance claim as correspondence between the town and the railway indicated that in the months preceding a train-truck accident, the defendants were aware that the overgrown shrubbery needed to be cut back to prevent interference with the line of sight at a railroad crossing; further, photographs were also submitted from which a jury might conclude that the shrubs obscured visibility. *Town of Register v. Fortner*, 274 Ga. App. 586, 618 S.E.2d 26 (2005).

Genuine issue of material fact existed about whether there was an absence of governmental authorization for vegetation that allegedly obscured the decedent's view as the decedent drove a tractor-trailer across the town's railroad crossing and was struck by the railway's train and that issue precluded the appellate court's ruling that reversed the trial court's summary judgment to the town and the railway. *Fortner v. Town of Register*, 278 Ga. 625, 604 S.E.2d 175 (2004).

Cited in *Zumbado v. Lincoln Property Co.*, 209 Ga. App. 163, 433 S.E.2d 301 (1993); *Murray v. Ga. DOT*, 284 Ga. App. 263, 644 S.E.2d 290 (2007).

OPINIONS OF THE ATTORNEY GENERAL

Municipal control of traffic — Traffic on city streets which is not part of the State Highway System is under municipal control. 1977 Op. Att'y Gen. No. U77-45.

Fingerprinting of offenders not re-

quired. — An offense under O.C.G.A. § 32-6-51 is not one for which those charged with a violation are to be fingerprinted. 2007 Op. Att'y Gen. No. 2007-1.

32-6-52. Displays of nudity or sexual conduct on outdoor advertising visible from roadway prohibited; penalty.

(a) As used in this Code section, the term:

(1) "Nudity" means the displaying of any portion of the human female breast below the top of the areola or the displaying of any portion of any human's pubic hair, anus, vulva, or genitals.

(2) "Outdoor advertising" means any commercial advertisement displayed outdoors by means of billboards or signs.

(3) "Sexual conduct" means acts of sexual intercourse, masturbation, sodomy, or fondling of a human's clothed or unclothed genitals, pubic area, buttocks, or, if the human is female, breast.

(b) The General Assembly finds and declares that outdoor advertising containing depictions of nudity or sexual conduct which are visible from the roadways of public roads may be startling or provocative and thereby divert the attention of motor vehicle drivers, thus causing real and substantial hazards to traffic safety. The General Assembly further declares that the purpose of this Code section is to protect the public welfare and safety against such hazards.

(c) No person shall display any outdoor advertising containing any depiction of nudity or sexual conduct when such depiction is visible from the roadway of any public road in the state highway system as defined in Code Section 32-4-1.

(d)(1) Any person who violates subsection (c) of this Code section shall be guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine not exceeding \$1,000.00.

(2) Each day during which outdoor advertising is displayed in violation of subsection (c) of this Code section shall constitute a separate offense. (Code 1981, § 32-6-52, enacted by Ga. L. 2006, p. 691, § 2/HB 1097.)

Editor's notes. — Ga. L. 2006, p. 691, § 7/HB 1097, not codified by the General Assembly, provides for severability.

OPINIONS OF THE ATTORNEY GENERAL

Fingerprinting required for violators. — Those charged with offenses under O.C.G.A. § 32-6-52 are to be fingerprinted. 2007 Op. Att'y Gen. No. 2007-1.

PART 2

STATE HIGHWAY SYSTEM

Cross references. — Control and regulation of outdoor advertising in relation to federal highways, Ga. Const. 1983, Art. III, Sec. VI, Para. II.

Law reviews. — For comment, "The Federal Highway Beautification Act After Metromedia," see 35 Emory L.J. 419 (1986).

Administrative rules and regulations. — Granting, renewal, and revocation of permits for outdoor advertising,

Official Compilation of the Rules and Regulations of the State of Georgia, State Department of Transportation, Chapter 672-6.

Granting, renewal, and revocation of vegetation management permits for outdoor advertising, Official Compilation of the Rules and Regulations of the State of Georgia, State Department of Transportation, Chapter 672-14.

JUDICIAL DECISIONS

O.C.G.A. Pt. 2, Ch. 6, T. 32 does not violate the right of freedom of expression by restricting outdoor advertising in

areas adjacent to the rights-of-way of interstate and primary systems of highways in this state. Department of Transp. v.

Shiflett, 251 Ga. 873, 310 S.E.2d 509 (1984).

O.C.G.A. Pt. 2, Ch. 6, T. 32 is a proper exercise of the police powers, as the statute provides for compensation for

property rights in signs which were lawfully in existence on the statute's effective date. Department of Transp. v. Shiflett, 251 Ga. 873, 310 S.E.2d 509 (1984).

OPINIONS OF THE ATTORNEY GENERAL

Issuance and renewal of permits for outdoor advertising devices. — Department of Transportation may issue permits for outdoor advertising devices, and renew such permits, within districts zoned "Forest-Agricultural" in Glynn County if the activities permitted in the

district without further action of the zoning authority are commonly and generally recognized as commercial by the department in the department's uniform application of the law. 1975 Op. Att'y Gen. No. 75-24.

32-6-70. Declaration of policy.

(a) The General Assembly declares it to be the policy of this state that the erection or maintenance of outdoor advertising in areas adjacent to the rights of way of roads of the state highway system, which roads are also a part of the interstate and primary systems of highways within the state, shall be regulated in accordance with the terms of this part and the regulations promulgated by the commissioner pursuant thereto and that all outdoor advertising which does not conform to the requirements of this part is a public nuisance. The General Assembly recognizes that the outdoor advertising industry is a bona fide commercial function. However, in no manner shall any outdoor advertising sign be defined as a commercial or industrial activity or be used for the purposes of administering this part. It is the intention of the General Assembly to provide a statutory basis for the regulation of outdoor advertising, such basis to be consistent with the public policy relating to areas adjacent to roads of the state highway system which also form a part of the interstate and primary systems of highways declared by the Congress in Title 23, Section 103, United States Code.

(b) The General Assembly further declares it to be the policy of this state to avert substantial economic hardship by the retention, in specific areas defined by the board, upon request made by the Department of Transportation and approved by the United States Secretary of Transportation, of directional signs, displays, and devices which were lawfully erected under state law in force at the time of their erection, which were in existence on May 5, 1976, and which do not conform to the requirements of paragraphs (1) through (5) of Code Section 32-6-72 and paragraphs (1) through (3) of Code Section 32-6-73, where it can be demonstrated that such signs, displays, and devices (1) provide directional information about goods and services in the specific interest of the traveling public and (2) are such that removal would work a

substantial economic hardship in such defined area. (Ga. L. 1967, p. 423, § 1; Ga. L. 1971, Ex. Sess., p. 5, § 1; Code 1933, § 95A-913, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1979, p. 1086, § 1; Ga. L. 1980, p. 1017, § 1; Ga. L. 1996, p. 6, § 32.)

Law reviews. — For article, “Recommendations Regarding Control of Outdoor Advertising Along the Interstate Highway System in Georgia,” see 14 Mercer L. Rev. 308 (1963).

For note, “Regulation and Ownership of the Marshlands: The Georgia Marshlands Act,” see 5 Ga. L. Rev. 563 (1971).

For comment on *State Hwy. Dep’t v. Branch*, 222 Ga. 770, 152 S.E.2d 372 (1966), discussing regulation of outdoor advertising and billboards as a constitutional “taking,” see 18 Mercer L. Rev. 499 (1967).

JUDICIAL DECISIONS

Constitutionality. — The 1983 Constitution carried forward power exclusively in the counties and municipalities from former constitutional provisions; the Outdoor Advertising Act, O.C.G.A. § 32-6-70, does not conflict with Ga. Const. 1983, Art. IX, Sec. II, Para. IV. *Patrick v. Head*, 262 Ga. 654, 424 S.E.2d 615 (1993).

Owner had to be in compliance with then-existing ordinance. — Property owner did not have a vested right to erect a sign because the sign had not been erected in accordance with zoning regulations in force when the owner applied for the permit; accordingly, the owner’s failure to comply with the permit rendered the owner outside of the scope of protection afforded by Ga. Const. 1983, Art. IX, Sec. II, Para. IV. Although the Outdoor Advertising Control Act, O.C.G.A. § 32-6-70, also afforded protections, such protection was again not applicable to the property owner because the owner had not erected the owner’s sign in compliance with the legal requirements of the exist-

ing ordinances; accordingly, the owner had no property rights in the sign. *DeKalb County v. DRS Invs., Inc.*, 260 Ga. App. 225, 581 S.E.2d 573 (2003).

Outdoor advertising. — O.C.G.A. § 32-6-70, in no uncertain terms, delegated the regulation of outdoor advertising to the Georgia Department of Transportation (DOT) as the statute provided in part that it was the intention of the General Assembly to provide a statutory basis for the regulation of outdoor advertising, such basis to be consistent with the public policy relating to areas adjacent to roads of the state highway system, under § 32-6-70(a), and O.C.G.A. § 32-6-90 further authorized the DOT to promulgate regulations governing permits for outdoor advertising. *Walker v. DOT*, 279 Ga. App. 287, 630 S.E.2d 878 (2006).

Cited in *Moreton Rolleston, Jr. Living Trust v. DOT*, 242 Ga. App. 835, 531 S.E.2d 719 (2000); *Fulton County v. Action Outdoor Adver., JV, LLC*, 289 Ga. 347, 711 S.E.2d 682 (2011).

32-6-71. Definitions.

As used in this part, the term:

(1) "Defined area" means any area or areas within the state defined by the board, upon request made by the State Department of Transportation and approved by the United States Secretary of Transportation, to be an area where the removal of directional signs, displays, and devices which were lawfully erected under state law in force at the time of their erection, which were in existence on May 5, 1976, and which do not conform to the requirements of paragraphs (1) through (5) of Code Section 32-6-72 and paragraphs (1) through (3) of Code Section 32-6-73 would deprive the traveling public of directional information about goods and services in the specific interest of the traveling public and would work a substantial economic hardship in such defined area or areas.

(2) "Directional and other official signs and notices" means only official signs and notices, public utility signs, service club and religious notices, public service signs, and directional signs.

(3) "Directional signs" means signs containing directional information deemed to be in the interest of the traveling public, including information about public places owned or operated by state, federal, or local governments or their agencies; publicly or privately owned natural phenomena; historic, cultural, scientific, educational, and religious sites; and areas of natural scenic beauty or areas naturally suited for outdoor recreation.

(4) "Directional signs, displays, and devices in the specific interest of the traveling public" means any directional sign, display, or device which was lawfully erected under state law in force at the time of its erection, which was in existence on May 5, 1976, and which provides directional information about goods and services in the specific interest of the traveling public but does not conform to the requirements of paragraphs (1) through (5) of Code Section 32-6-72 and paragraphs (1) through (3) of Code Section 32-6-73.

(5) "Erect" means to construct, build, raise, assemble, place, affix, attach, create, paint, draw, or in any other way bring into being or establish, but it shall not include any of the foregoing activities when performed as an incident to the change of advertising message or the normal maintenance or repair of a sign structure.

(6) "Illegal sign" means:

(A) A sign for the maintenance of which a permit is required under this part, or any amendment thereof, which sign is being maintained without a permit;

(B) A sign presently being maintained without a required permit even though it could have been permitted under any outdoor advertising control law in effect at the time of its erection;

(C) A sign presently being maintained without a permit, which sign could not have been permitted under the law in effect at the time of its erection even though the sign may meet the requirements of this part for the issuance of a permit;

(D) A sign on which the permit has been revoked pursuant to this part;

(E) A sign on which a nonconforming application for permit was denied and the denial has become final; and

(F) A nonconforming sign for which no permit was sought as required by Code Section 32-6-79.

(7) "Industrial or commercial activity" means those activities commonly or generally recognized as commercial or industrial except that none of the following activities shall be considered commercial or industrial:

(A) Outdoor advertising structures;

(B) Agricultural, forestry, ranching, grazing, farming, and related activities, including but not limited to wayside fresh produce stands;

(C) Transient or temporary activities;

(D) Activities within 660 feet of the nearest edge of the right of way which from the main traveled way are not visible and are not recognizable as being commercial or industrial activities;

(E) Activities more than 660 feet from the nearest edge of the right of way;

(F) Activities conducted in a building principally used as a residence; and

(G) Railroad tracks and minor sidings.

(8) "Information center" means an area or site established and maintained at a safety rest area for the purpose of informing the public of places of interest within the state and providing such other information as the department may consider desirable.

(9) "Interstate system" or "interstate highway" means any road of the state highway system which is a portion of The Dwight D.

Eisenhower System of Interstate and Defense Highways located within this state, as officially designated or as may hereafter be so designated by the department and approved by the United States Secretary of Transportation pursuant to the provisions of Title 23, Section 103, United States Code, or any limited-access highway as officially designated or as may hereafter be so designated by the department and approved by the United States Secretary of Transportation pursuant to the provisions of Title 23, Section 103, United States Code.

(10) "Maintain" means to allow to exist.

(11) "Main traveled way" means the traveled way of a highway on which through traffic is carried; and, in the case of a divided highway, it means the traveled way of each of the separated roadways for traffic traveling in opposite directions. It does not include such facilities as frontage roads, turning roadways, or parking areas.

(11.1) "Multiple message sign" means a sign, display, or device which changes the message or copy on the sign electronically by movement or rotation of panels or slats.

(12) "Nonconforming sign" means a sign which was lawfully erected but which does not comply with state law or state regulations due to changes in state law or changes in rules and regulations since the date of erection of the sign.

(13) "Official signs and notices" means signs and notices erected and maintained by public officers or public agencies within their territorial or zoning jurisdiction and pursuant to and in accordance with direction or authorization contained in state, federal, or local law for the purpose of carrying out an official duty or responsibility. Historical markers authorized by state law and erected by state or local government agencies or nonprofit historical societies shall be considered official signs.

(14) "Outdoor advertising" or "sign" means any outdoor sign, light, display, device, figure, painting, drawing, message, placard, poster, billboard, or other thing which is designed, intended, or used to advertise or inform, any part of the advertising or information contents of which are visible from any place on the main traveled way of the interstate or primary highway systems.

(15) "Parkland" means any publicly owned land which is designated or used as a public park, recreation area, wildlife or waterfowl refuge, or historic site.

(16) "Primary system" or "primary highway" means the federal-aid primary system in existence on June 1, 1991, and any highway which is not on such system, but which is on the National Highway System,

as officially designated or as may hereafter be so designated by the department and approved by the United States Secretary of Transportation pursuant to the provisions of Title 23, Section 103, United States Code.

(17) "Private" shall not mean, through the effect of this part, publicly owned property leased to others.

(18) "Public service signs" means signs located on school bus stop shelters, which signs identify the donor, sponsor, or contributor of said shelters and which contain safety slogans or messages which occupy not less than 60 percent of the sign area.

(19) "Public utility signs" means warning signs, informational signs, notices, or markers which are customarily erected and maintained by publicly or privately owned public utilities as essential to their operations.

(20) "Safety rest area" or "rest area" means an area or site established and maintained within or adjacent to the highway right of way, by or under public supervision or control, for the convenience of the traveling public.

(21) "Scenic area" means any area of particular scenic beauty or historical significance, as determined by the state, federal, or local officials having jurisdiction thereof, and includes interests in land which have been acquired for the restoration, preservation, and enhancement of scenic beauty.

(22) "Service club and religious notices" means signs or notices, whose erection is authorized by law, relating to religious services or to meetings of nonprofit service clubs or charitable associations, which signs do not exceed eight square feet in area.

(23) "Specific interest of the traveling public" means information regarding places offering lodging, food, motor vehicle fuels and lubricants, motor vehicle service and repair facilities, or any other service or product available to the general public, including, but not limited to, publicly or privately owned natural phenomena; historic, cultural, scientific, educational, or religious sites; and areas of natural scenic beauty or areas naturally suited for outdoor recreation.

(24) "Traveled way" means the portion of a roadway used for the movement of vehicles, exclusive of shoulders.

(25) "Unzoned commercial or industrial areas" means those areas which are not zoned by state law or local ordinance and on which there is located one or more permanent structures devoted to an industrial or commercial activity or on which an industrial or

commercial activity is actually conducted, whether or not a permanent structure is located thereon, and the area along the highway extending outward 600 feet from and beyond the edge of the activity in each direction and a corresponding zone directly across a primary highway which is not also a limited-access highway, when the same is not a public park, public playground, public recreational area, public forest, parkland, scenic area, cemetery, primarily residential, or locally zoned. All measurements shall be from the outer edges of the regularly used buildings, parking lots, or storage, processing, or landscaped areas of the commercial or industrial activity and not from the property lines of the activity and shall be along or parallel to the edge of the pavement of the highway.

(26) "Urban area" means an area included within the boundaries of an incorporated municipality having a population of 5,000 or more as determined by the latest available federal census and any area adjacent to such municipality, provided that such adjacent area is included within boundaries presently designated and fixed by the outdoor advertising urban area boundary maps and written records attached thereto on file in the office of the treasurer of the Department of Transportation.

(27) "Visible" means capable of being seen (whether or not legible) without visual aid by a person of normal visual acuity.

(28) "Would work a substantial economic hardship" means having the potential to cause a substantial negative economic effect in a defined area or areas, as may be demonstrated by a projected reduction in gross business sales, state and local sales taxes, and employment opportunities within the defined area or areas.

(29) "Zoned commercial or industrial areas" means those areas which are zoned for industrial or commercial activities pursuant to state or local zoning laws or ordinances as part of a comprehensive zoning plan. Strip zoning shall not be considered as a bona fide comprehensive zoning plan. Comprehensive zoning plans for the purposes of outdoor advertising only shall be approved by the board when an application for a permit has been made. (Ga. L. 1967, p. 423, § 2; Ga. L. 1971, Ex. Sess., p. 5, § 2; Code 1933, § 95A-914, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1974, p. 1422, §§ 22, 23; Ga. L. 1977, p. 263, § 1; Ga. L. 1979, p. 1086, § 2; Ga. L. 1980, p. 1017, §§ 2, 3; Ga. L. 1982, p. 3, § 32; Ga. L. 1996, p. 1052, §§ 1, 2; Ga. L. 2000, p. 136, § 32; Ga. L. 2005, p. 601, § 4/SB 160.)

Law reviews. — For annual survey of administrative law, see 38 Mercer L. Rev. 17 (1986).

JUDICIAL DECISIONS

Sign restriction at freeway entrance ramps. — Freeway has one “main traveled way” and signs may not be permitted within 500 feet of an entrance ramp even though such ramp is on the other side of a divided four-lane highway. *Department of Transp. v. Spells Sign Co.*, 141 Ga. App. 350, 233 S.E.2d 435 (1977).

Rest areas. — Recreational Property Act (RPA), O.C.G.A. § 51-3-20 et seq., applies to rest areas maintained by the Georgia Department of Transportation (DOT), and the DOT was entitled to summary judgment as a matter of law with regard to a visitor’s premises liability and negligence suit against the DOT resulting from the visitor’s trip and fall while attempting to place garbage in a trash can at a rest area because the DOT was immune from liability as a result of the application of the RPA and the visitor failed to show that the DOT was wilful or wanton in DOT’s placement of DOT’s trash can or that DOT charged money for the use of DOT rest areas. *Ga. DOT v. Thompson*, 270 Ga. App. 265, 606 S.E.2d 323 (2004).

Welcome center where a traveler was injured was recreational and was a rest area, and thus the department which owned the welcome center was immune from liability. *Matheson v. Ga. DOT*, 280 Ga. App. 192, 633 S.E.2d 569 (2006).

Strip zoning. — Denial of the request of landowners and a sign company for permits to erect outdoor advertising did not violate statutory authority, under O.C.G.A. §§ 32-6-71(29) and 32-6-72(4), which allowed such advertising on commercially zoned property but provided that strip zoned property was not properly considered commercially zoned, or Ga. Comp. R. & Regs. 672-6-.01(q) (1988), defining strip zoning, because: (1) the land on which the advertising would be erected was small in comparison to the owners’ total property; (2) was rezoned to commercial use, a use less restrictive than surrounding property; (3) rezoning did not regard the neighborhood’s character, as there was no commercial activity in the immediate vicinity; and (4) rezoning a small parcel to a less restrictive use out of character with surrounding land benefited only the parcel’s owners. *Walker v. DOT*, 279 Ga. App. 287, 630 S.E.2d 878 (2006).

Cited in *Department of Transp. v. Sapp Outdoor Adv. Co.*, 171 Ga. App. 228, 319 S.E.2d 87 (1984); *Ledford v. Department of Transp.*, 253 Ga. 717, 324 S.E.2d 470 (1985); *Moreton Rolleston, Jr. Living Trust v. DOT*, 242 Ga. App. 835, 531 S.E.2d 719 (2000).

OPINIONS OF THE ATTORNEY GENERAL

Issuance of permits for outdoor advertising devices. — Outdoor advertising devices located in areas zoned by local governments and subject to regulation by the department can be lawfully erected and maintained only in areas zoned, without further action of the local governing body, for commercial or industrial activities. 1975 Op. Att’y Gen. No. 75-24.

Renewal of permits. — If there are activities permitted in the district which are commonly and generally recognized as commercial, then the permits for outdoor advertising devices may be renewed provided the criteria for renewal established elsewhere are met. 1975 Op. Att’y Gen. No. 75-24.

Validity and construction of zoning regulations relating to illuminated signs, 30 ALR5th 549.

32-6-72. Designation of outdoor advertising which may be erected or maintained within 660 feet of nearest edge of right of way.

No outdoor advertising shall be erected or maintained within 660 feet of the nearest edge of the right of way and visible from the main traveled way of the interstate or primary highways in this state, except the following:

- (1) Directional and other official signs and notices;
- (2) Signs advertising the sale or lease of the property upon which they are located;
- (3) Signs advertising activities conducted or maintained within 100 feet of the nearest part of the activity as the dimensions of said activity are determined by department regulations, which regulations need not take into consideration the property lines of said activity;
- (4) Signs located in areas zoned commercial or industrial, which signs provide information in the specific interest of the traveling public;
- (5) Signs located in unzoned commercial or industrial areas, which signs provide information in the specific interest of the traveling public; and
- (6) Directional signs, displays, and devices about goods and services in the specific interest of the traveling public located in a defined area or areas approved by the United States Secretary of Transportation. (Ga. L. 1967, p. 423, § 3; Ga. L. 1971, Ex. Sess., p. 5, § 3; Code 1933, § 95A-915, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1979, p. 1086, § 3.)

Code Commission notes. — Pursuant to Code Section 28-9-5, a comma was deleted between “public” and “located” in paragraph (6).

JUDICIAL DECISIONS

Editor’s notes. — In light of the similarity of the statutory provisions, decisions under former Code 1933, § 95-2003(a), which was subsequently repealed but was succeeded by provisions in this Code section, are included in the annotations for this Code section.

Signs prohibited near interstate even if primary roads intervene. — This clear legislative proscription cannot be thwarted by the mere fact that other roads, even “primary roads,” intervene be-

tween the sign and the interstate highway. *Turner Communications Corp. v. Georgia Dep’t of Transp.*, 139 Ga. App. 436, 228 S.E.2d 399 (1976).

State’s police power to zone against future use without compensation. — Police power of the state to zone property to prevent the property’s use for certain purposes in the future, as distinguished from the taking or damaging in respect to a use already in existence, is not open to question, and does not require the pay-

ment of any compensation. *National Adv. Co. v. State Hwy. Dep't*, 230 Ga. 119, 195 S.E.2d 895 (1973).

Strip zoning. — Denial of the request of landowners and a sign company for permits to erect outdoor advertising did not violate statutory authority, under O.C.G.A. §§ 32-6-71(29) and 32-6-72(4), which allowed such advertising on commercially zoned property but provided that strip zoned property was not properly considered commercially zoned, or Ga. Comp. R. & Regs. 672-6-.01(q) (1988), defining strip zoning, because: (1) the land on which the advertising would be erected was small in comparison to the owners' total property; (2) was rezoned to commer-

cial use, a use less restrictive than surrounding property; (3) rezoning did not regard the neighborhood's character, as there was no commercial activity in the immediate vicinity; and (4) rezoning a small parcel to a less restrictive use out of character with surrounding land benefited only the parcel's owners. *Walker v. DOT*, 279 Ga. App. 287, 630 S.E.2d 878 (2006).

32-6-74. Applications for permits generally; fees; renewals; transfer of permits.

(a) Applications for permits authorized by subsections (a) through (d) of Code Section 32-6-79 shall be made to the department upon forms prescribed by the department. The applications shall contain the signature of the applicant and such other information as may be required by the department and shall be verified under oath by the person, firm, or corporation making the application. Permits and renewals thereof shall be issued for and shall be valid only if the sign is erected and maintained in accordance with this part during the 12 month period next following the date of issuance. As to permits for the initial erection of an outdoor advertising sign, one 12 month extension may be granted so long as a written request is submitted to the department at least 30 days prior to expiration along with a fee of \$35.00. Any denial of an extension request shall be sent to the applicant before the expiration date and shall state the basis for denial. Multiple extensions shall not be granted as to the same permit, and the applicant shall not be allowed to reapply for the same site until the extension has expired; however, modifications to the application which do not extend the term of the permit shall be allowed. There shall be an initial outdoor advertising permit fee and an annual renewal fee. On and after July 1, 2011, the outdoor advertising application fee shall be \$300.00, and the

renewal fee for each sign shall be \$85.00. The department may adjust future application and renewal fees through the formal rule making process so long as notice of any proposed increase is sent to the House and Senate Transportation Committees at least 30 days prior to final adoption by the department. Such fees shall be limited to amounts sufficient to offset the administrative costs to the department. An annual report on the expenditures and revenues of the department related to the outdoor advertising program shall be sent to the House and Senate Transportation Committees no later than October 31 of each year. Upon receipt of a properly executed application and the appropriate fee for the erection or maintenance of a sign which may be lawfully erected or maintained pursuant to this part, the department shall, within 60 days, issue a permit authorizing the erection or maintenance, or both, of the sign for which application was made except when a person, firm, or corporation is maintaining or allowing the maintenance of an illegal sign as provided for in subsection (f) of Code Section 32-6-79. All outdoor advertising permits and renewals shall expire on the first day of April in the year following issuance. Renewal of such permits shall be made to the department between January 1 and April 1 of each calendar year. Notice of such renewal period shall be mailed to each outdoor advertising permit holder along with an itemized list of all permits maintained by such person or entity in the month of December. In response, each permit holder should clearly indicate any permits not being renewed and return a copy to the department along with payment for all permits being renewed. If a permit holder believes the itemized list is incomplete or inaccurate, such permit holder shall clearly note such discrepancies on the list and return a copy to the department with supporting documentation. The permit holder shall submit the renewal and any suggested corrections within 60 days of the date of the department notice or by April 1, whichever occurs last. If the department fails to receive the renewal before the expiration date, the department shall notify the permit holder by certified mail that the renewal is overdue and shall give the permit holder 45 days from the date of the postmark on such notice to send the department the renewal. If the applicant does not send the permit renewal and fee within 45 days after the postmark date on such notice, the permit shall expire and the sign shall then become an illegal sign. Signs shall become illegal by operation of law after the expiration of the permit followed by notice to the permit holder and a failure to submit for the renewal within 45 days. Any illegal sign may be removed without any administrative proceeding before the department. Vegetation permits or renewals issued pursuant to Code Section 32-6-75.3 shall expire on the first day of September in the year following issuance. If a vegetation permit renewal application and fee is not timely submitted and such deficiency is not cured within 45 days of the postmark date of notice via certified mail from the department, the

vegetation permit shall be canceled, but the sign shall not be deemed illegal. No permit shall be renewed if the renewal thereof has not been made in accordance with this Code section.

(b) Permits shall be transferable. An application to have the permit specified in subsection (a) of this Code section transferred shall be made within 30 days of the change in ownership of the sign; shall be made to the department upon forms prescribed by the department; shall contain the signature of the applicant and such other information as may be required by the department; and shall be verified under oath by the person, firm, or corporation making application for transfer. Failure to comply in a timely and proper manner with this subsection shall be grounds for revocation of the permit. (Ga. L. 1971, Ex. Sess., p. 5, § 10; Code 1933, § 95A-922, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1974, p. 1422, § 32; Ga. L. 1976, p. 1508, § 1; Ga. L. 1980, p. 1017, § 6; Ga. L. 2011, p. 601, § 1/HB 179.)

The 2011 amendment, effective July 1, 2011, substituted the present provisions of subsection (a) for the former provisions, which read: "Applications for permits and the renewal thereof authorized by subsections (a) through (d) of Code Section 32-6-79 shall be made to the department upon forms prescribed by the department. The applications shall contain the signature of the applicant and such other information as may be required by the department and shall be verified under oath by the person, firm, or corporation making the application. Permits and renewals thereof shall be issued for and shall be valid only if the sign is erected and maintained in accordance with this part during the 12 month period next following the date of issuance. The fee for the initial issuance of a permit shall be \$50.00. The fee for the renewal of a permit shall be \$25.00. The money received from permit fees shall be used to help defray the expenses of administering this part, Code Section 48-2-17 to the contrary notwithstanding. Upon receipt of a properly executed application and the appropriate fee for the erection or maintenance of a sign which may be lawfully erected or maintained pursuant to this part, the department shall, within 60 days, issue a permit or renewal authorizing the erection or maintenance, or both, of the sign for which application was made except when a person, firm, or corporation is maintaining or allowing the mainte-

nance of an illegal sign as provided for in subsection (f) of Code Section 32-6-79. Application for the renewal of a permit shall be made to the department not more than 90 nor less than 60 days before the expiration date of the permit for which renewal is sought. If the department fails to receive the renewal application before the expiration date of the permit, the department will notify the applicant that the renewal application is overdue when the applicant's address is known or reasonably available to the department and shall give the applicant 30 days after the expiration date to send the department the renewal application. If the applicant does not send the properly executed application and the appropriate fee within the specified 30 day period, the sign shall then become an illegal sign. No permit shall be renewed if the application for the renewal thereof has not been made in accordance with this Code section."

Editor's notes. — Ga. L. 2011, p. 601, § 4/HB 179, not codified by the General Assembly, provides: "The Department of Transportation shall have 120 days from the effective date to promulgate any forms or policies necessary to implement this Act. Those applications submitted before any necessary forms and policies are in place shall be processed in accordance with the regulations in place prior to the effective date. Those holding vegetation maintenance permits or renewals issued at any time prior to the promulgation of

the necessary forms and policies shall, upon written request to the department, be able to trim or remove vegetation in accordance with the terms of this Act.” This Act became effective July 1, 2011.

Law reviews. — For article on the

2011 amendment of this Code section, see 28 Ga. St. U.L. Rev. 91 (2011). For article, “Highways, Bridges, and Ferries: Regulation of Maintenance and Use of Public Roads Generally,” see 28 Ga. St. U.L. Rev. 91 (2011).

JUDICIAL DECISIONS

Denial of sign permits. — Although ground had not been broken on a proposed interchange as of the date an applicant submitted applications for permits for outdoor advertising signs, the Georgia Department of Transportation’s denial of the applications comported with O.C.G.A. §§ 32-1-2, 32-6-74(a), and 32-6-75(a)(18)

because the interchange project had progressed to a point such that it constituted an interchange for purposes of § 32-6-75(a)(18) and the proposed sign locations were within the 500-foot blocked out zone established by § 32-6-75(a)(18). *Eagle West, LLC v. Ga. DOT*, 312 Ga. App. 882, 720 S.E.2d 317 (2011).

OPINIONS OF THE ATTORNEY GENERAL

Issuance of permits for outdoor advertising devices. — Outdoor advertising devices located in areas zoned by local governments and subject to regulation by the department can be lawfully erected and maintained only in areas zoned, without further action of the local governing body, for commercial or industrial activities. 1975 Op. Att’y Gen. No. 75-24.

When issuing permits for outdoor advertising devices, the Department of Transportation must be guided by Ga. L.

1973, p. 947, § 1 et seq., notwithstanding the local zoning ordinances. 1975 Op. Att’y Gen. No. 75-24.

Department of Transportation may issue permits for outdoor advertising devices, and renew such permits, within “Forest-Agricultural” Districts of Glynn County if the department commonly and generally recognizes the activities permitted therein as commercial or industrial. 1975 Op. Att’y Gen. No. 75-24.

32-6-75. Restrictions on outdoor advertising authorized by Code Sections 32-6-72 and 32-6-73; multiple message signs on interstate system, primary highways, and other highways.

(a) No sign authorized by paragraphs (4) through (6) of Code Section 32-6-72 and paragraph (4) of Code Section 32-6-73 shall be erected or maintained which:

(1) Advertises an activity that is illegal under Georgia or federal laws or regulations in effect at the location of such sign or at the location of such activity;

(2) Is obsolete;

(3) Is not structurally safe, clean, and in good repair;

(4) Is not securely affixed to a substantial structure which is permanently attached to the ground;

(5) Is attached to, drawn, or painted upon trees, rocks, or other natural features;

(6) Moves or has any moving or animated parts, except as expressly allowed under subsection (c) of this Code section;

(7) Emits or utilizes in any manner any sound capable of being detected on the main traveled way by a person with normal hearing;

(8) If illuminated, contains, includes, or is illuminated by any flashing, intermittent, or moving light or lights except those giving public service information such as time, date, temperature, weather, or other similar information except as expressly permitted under subsection (c) of this Code section. The illumination of mechanical multiple message signs is not illumination by flashing, intermittent, or moving light or lights, except that no multiple message sign may include any illumination which is flashing, intermittent, or moving when the sign is in a fixed position;

(9) If illuminated, is not effectively shielded so as to prevent beams or rays of light from being directed at any portion of the traveled way, which beams or rays are of such intensity or brilliance as to cause glare or to impair the vision of the driver of any motor vehicle or which otherwise interfere with the operation of a motor vehicle;

(10) If illuminated, is illuminated so that it obscures or interferes with the effectiveness of an official traffic sign, device, or signal;

(11) Contains an area, to be measured by the smallest square, rectangle, triangle, circle, or combination thereof, which encompasses the entire sign, in excess of 1,200 square feet or exceeding 30 feet in height or 60 feet in length, inclusive of any border and trim but excluding the base, apron, supports, and other structural members; provided, however, that, in counties having a population greater than 500,000 according to the United States decennial census for 1970 or any such future census, the maximum size of 1,200 square feet, the maximum height of 30 feet, and the maximum length of 60 feet may be exceeded, but in no event shall any such sign exceed 3,000 square feet; provided, further, that no such oversize signs shall be erected after July 1, 1973;

(12) Contains more than two faces visible from the same direction on the main traveled way; provided, however, that after July 1, 2006, no sign shall be erected that contains more than one face vertically stacked visible from the same direction on the main traveled way. Double-faced, back-to-back, and V-type constructed signs shall, for the purpose of determining compliance with size and spacing limitations, be considered as one sign;

(13) Is in an area not zoned for commercial or industrial activity and within 300 feet of a residence without the written consent of the owner;

(14) Is within 500 feet in any direction of a public park, public playground, public recreation area, public forest, scenic area, or cemetery; provided, however, that such sign may be located within 500 feet of a public park, public playground, public recreation area, public forest, scenic area, or cemetery when the sign is separated by buildings or other obstructions so that the sign located within the 500 foot zone is not visible from the public park, public playground, public recreation area, public forest, scenic area, or cemetery;

(15) Is located so as to obscure or otherwise interfere with the effectiveness of an official traffic sign, signal, or device;

(16) Is located so as to obscure or otherwise interfere with a motor vehicle operator's view of approaching, merging, or intersecting traffic;

(17) Is located adjacent to an interstate highway and which is within 500 feet of another sign on the same side of the highway; provided, however, that such sign may be located within 500 feet of another sign when the signs are separated by buildings or other obstructions so that only one sign face located within the 500 foot zone is visible from the interstate highway at any time;

(18) Is located outside of the corporate limits of a municipality and adjacent to an interstate highway within 500 feet of an interchange, intersection at grade, or safety rest area. The foregoing 500 foot zone shall be measured along the interstate highway from the point at which the pavement commences or ceases to widen at exits from or entrances to the main traveled way. In circumstances where both the exit and entrance ramps on one side of an interchange constitute continuous lanes of travel to the exit and entrance ramps of the adjacent interchange, this side of the interchange shall be treated as if no ramps exist and the foregoing 500 foot zone on this side of the interchange shall be measured from the survey centerline of the main traveled way and crossroad forming the interchange or intersecting road. In all circumstances where this definition conflicts with any agreement with the United States secretary of transportation pursuant to Code Section 32-6-87, said agreement shall be deemed to control for purposes of this Code section;

(19) Is located outside of the corporate limits of a municipality and adjacent to a highway on the primary system and which is within 300 feet of another sign on the same side of the highway; provided, however, that such sign may be located within 300 feet of another sign when the signs are separated by buildings or other obstructions

so that only one sign face located within the 300 foot zone is visible from the primary system highway at any one time;

(20) Is located within the corporate limits of a municipality and adjacent to a highway on the primary system and which is within 100 feet of another sign on the same side of the highway; provided, however, that such sign may be located within 100 feet of another sign when the signs are separated by buildings or other obstructions so that only one sign face located within the 100 foot zone is visible from the primary system highway at any one time; or

(21) Depicts any material which is obscene as such term is defined in Code Section 16-12-80.

(b) Reserved.

(c)(1) Multiple message signs shall be permitted on the interstate system, primary highways, and other highways under the following conditions:

(A) Each multiple message sign shall remain fixed for at least ten seconds;

(B) When a message is changed mechanically, it shall be accomplished in three seconds or less;

(C) No such multiple message sign shall be placed within 5,000 feet of another mechanical multiple message sign on the same side of the highway;

(D) Any such sign shall contain a default design that will freeze the sign in one position if a malfunction occurs;

(E) Any maximum size limitations shall apply independently to each side of a multiple message sign; and

(F) Nonmechanical electronic multiple message signs that are otherwise in compliance with this subsection and are illuminated entirely by the use of light emitting diodes, back lighting, or any other light source shall be permitted under the following circumstances:

(i) Each transitional change occurs within two seconds;

(ii) If the department finds an electronic sign or any display or effect thereon to cause glare or to impair the vision of the driver of any motor vehicle or to otherwise interfere with the safe operation of a motor vehicle, then, upon the department's request, the owner of the sign shall promptly and within not more than 48 hours reduce the intensity of the sign to a level acceptable to the department; and

(iii) The owner of any existing or nonconforming electronic sign shall have until October 31, 2006, to bring the electronic sign in compliance with this subparagraph and to request a permit from the department.

(2) If a multiple message sign on a primary highway or other highway is in violation of any of the above conditions, its permit shall be revoked and the sign shall be removed. During the appeal of any violations of paragraph (1) of this subsection, the sign shall remain fixed until the matter is resolved. The commissioner may allow the continued operation of a multiple message sign during part or all of the appeals process.

(3) After April 15, 1996, all persons, firms, or corporations who have signs that were illegal signs under previous law, but which are legal signs under the provisions of this subsection, shall have a one-year period during which time they shall be required to file an application for a permit issued by the department. Applications for such permits shall be made upon forms prescribed and provided by the department and shall contain the signature of the applicant and such other information as may be required by the department rules and regulations. The department shall have a period of 60 days from the date such an application is received to process it. If, at the end of this 60 day period, the department has failed to approve or deny an application in proper form, it shall be conclusively presumed for all purposes that the sign can be permitted and the department must issue the permit within a reasonable time. Should the department deny the application, the applicant may seek relief in accordance with Chapter 13 of Title 50, the "Georgia Administrative Procedure Act." In cases where the applicant fails to exhaust the procedures prescribed by Chapter 13 of Title 50, the "Georgia Administrative Procedure Act," the department's denial of the permit request will be final and the sign shall then become an illegal sign as defined by paragraph (6) of Code Section 32-6-71 and shall be subject to removal under the terms of this part. If the owner of the sign fails to apply properly for a permit and it is conclusively presumed that the sign has been abandoned, the sign shall remain an illegal sign as defined by paragraph (6) of Code Section 32-6-71 and the sign shall be subject to removal under the terms of this part. (Ga. L. 1967, p. 423, §§ 3, 4, 6; Ga. L. 1971, Ex. Sess., p. 5, § 4; Code 1933, § 95A-916, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1974, p. 1422, §§ 25, 26, 27, 28, 30; Ga. L. 1980, p. 1017, § 4; Ga. L. 1996, p. 6, § 32; Ga. L. 1996, p. 831, § 1; Ga. L. 1996, p. 1052, § 3; Ga. L. 1998, p. 1132, § 1; Ga. L. 2006, p. 691, §§ 3-6/HB 1097.)

Cross references. — False advertising, § 10-1-420 et seq.

Code Commission notes. — Pursuant to Code Section 28-9-5, in 1991, a comma

was inserted following “flashing” in paragraph (a)(8).

Pursuant to Code Section 28-9-5, in 1996, subsection (b), which was added by Ga. L. 1996, p. 1052, § 3, was redesignated as subsection (c) in view of the fact that Ga. L. 1996, p. 831 also enacted a subsection (b). As a result, the reference in paragraph (a)(6) to “subsection (b)” was changed to be a reference to “subsection (c)”.

Pursuant to Code Section 28-9-5, in 1996, “April 15, 1996” was substituted for “the effective date of this subsection” in the first sentence of paragraph (c)(3).

Pursuant to Code Section 28-9-5, in 2006, “until October 31, 2006,” was substituted for “180 days from the effective date of this subparagraph” in division (c)(1)(F)(iii).

Editor’s notes. — Ga. L. 2006, p. 691, § 7/HB 1097, not codified by the General Assembly, provides for severability.

Law reviews. — For annual survey of law on administrative law, see 62 Mercer L. Rev. 1 (2010).

For review of 1996 highways, bridges, and ferries legislation, see 13 Ga. St. U.L. Rev. 180 (1996).

JUDICIAL DECISIONS

Constitutionality. — Subsection (b) of O.C.G.A. § 32-6-75 is an unconstitutional infringement on free speech as the statute’s absolute proscription against any form of off-site advertising impedes the free flow of information and far exceeds the state’s legitimate interest in preventing hazards to the traveling public. *State v. Cafe Erotica, Inc.*, 270 Ga. 97, 507 S.E.2d 732 (1998).

Proscription in subsection (b) of O.C.G.A. § 32-6-75 of “any outdoor advertising of a commercial establishment where nudity is exhibited” is not narrowly tailored to achieve the statute’s purpose of preventing hazards to the safety of the traveling public since the statute is not directed solely at provocative images, but prohibits even a worded sign advertising the location of a business. *State v. Cafe Erotica, Inc.*, 270 Ga. 97, 507 S.E.2d 732 (1998).

Purpose. — Purpose of this section is to regulate the impact of the signs on the driver along the interstate. *Turner Communications Corp. v. Georgia Dep’t of Transp.*, 139 Ga. App. 436, 228 S.E.2d 399 (1976) (see O.C.G.A. § 32-6-75).

Intent of the General Assembly is to protect the public traveling along the highway from distractions, aesthetic desecration, and nuisances, all associated with the proliferation of signs in a concentrated area along the highway. *Turner Communications Corp. v. Georgia Dep’t of Transp.*, 139 Ga. App. 436, 228 S.E.2d 399 (1976).

Minimization of distractions by signs in the area of an interchange is precisely the intent and purpose behind the blocked-out zone contemplated in paragraph (a)(18) of this section. *Department of Transp. v. Spells Sign Co.*, 141 Ga. App. 350, 233 S.E.2d 435 (1977); *National Adv. Co. v. Department of Transp.*, 149 Ga. App. 334, 254 S.E.2d 571 (1979) (see O.C.G.A. § 32-6-75).

Measurement of distances under paragraph (a)(18). — In requiring that all signs be located at least 500 feet apart, the legislative intent would require that the measurement be made along the highway. *Turner Communications Corp. v. Georgia Dep’t of Transp.*, 139 Ga. App. 436, 228 S.E.2d 399 (1976).

“Crow flies” method of measurement is not intended to apply to every statute omitting the method of measuring. Rather, each statute is to be construed individually in order to ascertain the method of measurement which best fulfills the legislative intent. *Turner Communications Corp. v. Georgia Dep’t of Transp.*, 139 Ga. App. 436, 228 S.E.2d 399 (1976).

Impact on motorist more important than exact interval between signs. — Distance requirement in this section for separation of signs is aimed at the impact on the traveling motorist, not at the literal distance between each sign. *Turner Communications Corp. v. Georgia Dep’t of Transp.*, 139 Ga. App. 436, 228 S.E.2d 399 (1976) (see O.C.G.A. § 32-6-75).

Paragraph (a)(18) applicable to “Y” and “half-diamond” interchanges. — Prohibition on signs within 500 feet of intersecting highways also applies in cases where the interchange is a “Y” or “half-diamond” type and the sign is to be located on the “no ramp” side of the interchange. *National Adv. Co. v. Department of Transp.*, 149 Ga. App. 334, 254 S.E.2d 571 (1979).

Proposed interchange project constituted an interchange. — Although ground had not been broken on a proposed interchange as of the date an applicant submitted applications for permits for outdoor advertising signs, the Georgia Department of Transportation’s denial of the applications comported with O.C.G.A. §§ 32-1-2, 32-6-74(a), and 32-6-75(a)(18) because the interchange project had progressed to a point such that it constituted an interchange for purposes of § 32-6-75(a)(18) and the proposed sign locations were within the 500-foot blocked out zone established by § 32-6-75(a)(18). *Eagle West, LLC v. Ga. DOT*, 312 Ga. App. 882, 720 S.E.2d 317 (2011).

Superior court failed to address basis for conclusions of the Georgia Department of Transportation. — Judgment reversing a decision of the Georgia

Department of Transportation overruling an administrative law judge’s finding that one owner had a valid multiple message permit for its sign and that a second owner’s application for a permit was properly denied was remanded because the superior court ignored the basis for the GDOT’s conclusion and reviewed the ALJ’s decision instead, and the findings and conclusions of the Deputy Commissioner of the GDOT pertaining to governmental restrictions on commercial speech did not properly address and resolve the issues; in its final agency decision, the Deputy Commissioner essentially side-stepped the issues the ALJ addressed and resolved and did not directly address the issue of whether, applying the applicable provisions and regulations, the first owner failed to make the necessary revisions to its sign, and the GDOT’s conclusion that allowing the first owner to keep its permit would be unduly restrictive was arbitrary and capricious. *Lamar Co., LLC v. Whiteway Neon-Ad*, 303 Ga. App. 495, 693 S.E.2d 848 (2010).

Cited in *Moreton Rolleston, Jr. Living Trust v. DOT*, 242 Ga. App. 835, 531 S.E.2d 719 (2000); *Lamar Co., L.L.C. v. City of Marietta*, 538 F. Supp. 2d 1366 (N.D. Ga. 2008).

OPINIONS OF THE ATTORNEY GENERAL

Abandonment of outdoor advertising device. — No outdoor advertising device in this state may be considered abandoned until there is an expression, either by judicial determination or some affirmative act on the part of the owner, that the owner of the device has relinquished all intent of ever again using the device. 1974 Op. Att’y Gen. No. 74-134.

Compensation for prohibited outdoor advertising device. — Lawfully erected outdoor advertising device which could not be permitted on March 28, 1974, or a device which cannot now be permitted because of changed conditions beyond the control of the owner, is due compensation. However, this rule applies only in the situation wherein there was a lawfully

erected outdoor advertising device and a second device was later erected and permitted in such proximity to the first that the first cannot now receive a permit because of the spacing requirements of this section. 1974 Op. Att’y Gen. No. 74-134 (see O.C.G.A. § 32-6-75).

Outdoor advertising sign facings. — Four outdoor advertising sign facings can be permitted at a given location. 1973 Op. Att’y Gen. No. 73-124.

Consent required for erection and maintenance of outdoor advertising sign. — Owners of all residences within 300 feet of outdoor advertising sign must first consent to the sign’s erection and maintenance. 1973 Op. Att’y Gen. No. 73-124.

32-6-75.1. Roadside Enhancement and Beautification Council; membership; purpose; compensation.

(a)(1) The Governor shall appoint a Roadside Enhancement and Beautification Council composed of 12 members. The council shall include the chairperson of the Senate Transportation Committee; the chairperson of the House Transportation Committee; a member from the Georgia Conservancy; a member from the Garden Clubs of Georgia, Inc.; a member of the faculty of the School of Environmental Design at the University of Georgia; a member from the Sierra Club; a member from the Georgia Wildlife Federation; four members of the Outdoor Advertising Association of Georgia, Inc.; and the deputy commissioner of the Georgia Department of Transportation or the designee thereof. The commissioner shall submit recommendations to the Governor for purposes of selecting members to the council.

(2)(A) Terms of those members representing the Georgia Conservancy, the Garden Clubs of Georgia, and the School of Environmental Design and of two of those members representing the Outdoor Advertising Association shall expire on January 1, 2001, and quadrennially thereafter. Such members may be appointed to successive terms.

(B) Terms of those members representing the Sierra Club and the Georgia Wildlife Federation and of two of those members representing the Outdoor Advertising Association shall expire on January 1, 2003, and quadrennially thereafter. Such members may be appointed to successive terms.

(3) A landscape architect employed by the department and designated by the commissioner shall serve as an adviser to the council.

(b) The council shall aid the commissioner in formulating policies and discussing problems related to the administration of this article. In addition, the council shall:

(1) Review, comment upon, and make recommendations to the commissioner on the standards and policies to be used in the

trimming and removal of vegetation on state rights of way in front of legally erected and maintained outdoor advertising signs;

(2) Make recommendations to the department regarding standards for vegetation removal and landscape and maintenance plans submitted by permittees including without limitation the use of viewing zones under Code Section 32-6-75.3;

(3) Review the performance of permittees holding current tree and vegetation trimming permits issued under Code Section 32-6-75.3 for compliance with the requirements of such permits including without limitation the implementation of landscaping plans;

(4) Encourage the contribution of funds from appropriate sources to support roadside enhancement and beautification;

(5) Submit to the commissioner annually not later than 30 days after the date of its fourth quarter meeting a written report of findings based upon its reviews of permittees' performances and recommendations including without limitation any recommendations for expenditures for roadside enhancement and beautification; and

(6) Perform such other functions as may be specified for the council by the department.

The council shall have full and complete access to all department records necessary for the performance of its duties.

(c) The council shall meet to elect a chairperson and vice chairperson and to establish the rules governing its operation. The advisory council shall meet at the call of the chairperson and shall meet not less than quarterly.

(d) Each councilmember shall be compensated at a rate per day the same as that rate per day provided by law for members of the General Assembly serving on interim committees and shall be reimbursed for any necessary expenses; provided, however, that any full-time state employee on the council shall draw no compensation but shall receive necessary expenses. The commissioner is authorized to pay such compensation and expenses from department funds. (Code 1933, § 95A-934.3, enacted by Ga. L. 1981, p. 955, § 2; Ga. L. 1985, p. 149, § 32; Ga. L. 1998, p. 1313, § 1; Ga. L. 2001, p. 4, § 32.)

legislation relating to highways, bridges, and ferries, see 15 Ga. St. U.L. Rev. 136 (1998). For article, "Highways, Bridges, and Ferries: Regulation of Maintenance and Use of Public Roads Generally," see 28 Ga. St. U.L. Rev. 91 (2011).

JUDICIAL DECISIONS

Regulations invalid. — Regulations adopted by the Department of Transportation to implement the program allowing the owners of private outdoor advertising to trim vegetation on public property blocking the owners' advertising did not comply with the statutory mandate that the Roadside Enhancement and Beautifi-

cation Council was to review and recommend such standards so the regulations were invalid. *Garden Club of Ga. v. Shackelford*, 274 Ga. 653, 560 S.E.2d 522 (2002).

OPINIONS OF THE ATTORNEY GENERAL

Commissioner is authorized to initiate issuance of permits. — Commissioner is authorized, but not required, to initiate a program under which permits

may be issued for trimming trees and vegetation in connection with administration of laws regulating billboards. 1981 Op. Att'y Gen. No. 81-75.

32-6-75.2. Roadside Enhancement and Beautification Fund; dedication of certain revenues.

There is established a special fund to be known as the "Roadside Enhancement and Beautification Fund." This fund shall consist of all moneys collected under Code Section 32-6-75.3, any appropriations by the General Assembly to the fund, revenues derived from the sale of any special and distinctive wildflower motor vehicle license plates issued pursuant to paragraph (5) of subsection (1) of Code Section 40-2-86, any contributions to the fund from any other source, and all interest thereon. All moneys collected under Code Section 32-6-75.3 and fees for any special and distinctive wildflower motor vehicle license plates shall be paid into the fund. All balances in the fund shall be deposited in an interest-bearing account identifying the fund and shall be carried forward each year so that no part thereof may be deposited in the general treasury. The department shall administer the fund and expend moneys held in the fund in furtherance of roadside enhancement and beautification projects along public roads in this state and administration of the tree and vegetation trimming permit program under Code Section 32-6-75.3. In addition to the foregoing, the department may, without limitation, promote and solicit voluntary contributions, promote the sale of motor vehicle license tags authorized under paragraph (5) of subsection (1) of Code Section 40-2-86, and develop any fund raising or other promotional techniques deemed appropriate by the department. Contributions to the fund shall be deemed supplemental to and shall in no way supplant funding that would otherwise be appropriated for these purposes. The department shall prepare, by February 1 of each year, an accounting of the funds received and expended from the fund. The report shall be made available to the members of the State Transportation Board, the Senate Transportation Committee, the Transportation Committee of the House of Represen-

tatives, and to members of the public on request. (Code 1933, § 95A-934.4, enacted by Ga. L. 1981, p. 955, § 3; Ga. L. 1998, p. 1313, § 2; Ga. L. 1999, p. 81, § 32; Ga. L. 2001, p. 1021, § 1; Ga. L. 2010, p. 9, § 1-60/HB 1055.)

The 2010 amendment, effective May 12, 2010, substituted “paragraph (5) of subsection (1) of Code Section 40-2-86” for “Code Section 40-2-49.2” in the second and sixth sentences, and deleted “manufacturing” preceding “fees” in the third sentence.

Cross references. — Roadside enhancement and beautification fund, Ga. Const. 1983, Art. III, Sec. IX, Para. VI.

Editor’s notes. — The constitutional amendment (Ga. L. 1998, p. 1688) which authorized provisions of this Code section was approved by a majority of the qualified voters voting at the 1998 November general election.

OPINIONS OF THE ATTORNEY GENERAL

Commissioner is authorized to initiate issuance of permits. — Commissioner is authorized, but not required, to initiate a program under which permits may be issued for trimming trees and vegetation in connection with administration of laws regulating billboards. 1981 Op. Att’y Gen. No. 81-75.

Direct economic benefit from material severed from rights-of-way. — Neither O.C.G.A. § 32-6-75.2 nor O.C.G.A. § 32-6-75.3 authorizes any private person to derive any economic benefit

directly from disposition of material severed from rights-of-way. 1981 Op. Att’y Gen. No. 81-75.

No donation of constitutionally forbidden gratuity. — Cutting of trees and vegetation on rights-of-way, without cost or expense to taxpayers and to the extent no more than minimally necessary to facilitate reasonably adequate public viewing of privately owned billboards, does not itself amount to donation of constitutionally forbidden gratuity. 1981 Op. Att’y Gen. No. 81-75.

RESEARCH REFERENCES

ALR. — Governmental liability for compensation or damages to advertiser arising from obstruction of public view of

sign or billboard on account of growth of vegetation in public way, 21 ALR4th 1309.

32-6-75.3. Application for tree trimming permit and annual renewal; forms; application fees; evaluation; criteria for trimming trees or vegetation.

(a)(1) For purposes of this Code section, the term:

(A) “Removal” or “removed” means the elimination of trees or other vegetation from a viewing zone.

(B) “Target view zone” means an area of the viewing zone extending from the sign to the roadway to which the sign is permitted which shall be angled as requested by the applicant to maximize the visibility of the sign to passing motorists but not to exceed:

(i) Two-hundred and fifty feet along the right of way fence or boundary; and

(ii) Three-hundred and fifty feet along the pavement edge, to include any emergency lane or paved shoulder.

(C) "Trimming" or "trimmed" means the pruning of excess limbs or branches from trees or other vegetation which are not removed from a viewing zone.

(D) "Viewing zone" means a continuous 500 foot horizontal distance parallel to a state right of way and adjacent to or otherwise within the line of sight of an outdoor advertising sign.

(2) The General Assembly finds and declares that outdoor advertising provides a substantial service and benefit to Georgia and Georgia's citizens as well as the traveling public. Therefore, the General Assembly declares it to be in the public interest that provisions be made for the visibility of outdoor advertising signs legally erected and maintained along the highways in this state to provide information regarding places offering lodging, food, motor vehicle fuels and lubricants, motor service and repairs, or any other services or products available to the general public. Recognizing, however, that the beautification of this state and the health of its environment are absolutely essential and equally as important to the traveling public, the General Assembly finds and declares that these needs must be balanced.

(b)(1) So as to promote these objectives and in accordance with the provisions of this Code section, the commissioner shall provide by rule or regulation for the issuance and annual renewal of permits for the trimming and removal of trees and other vegetation on the state rights of way within viewing zones with respect to outdoor advertising signs legally erected and legally maintained adjacent to said rights of way. Such rules and regulations shall include, without limitation, standards for survival of vegetation trimmed or planted.

(2) So as to ensure that no vegetation maintenance permits are issued for the purpose of creating new outdoor advertising signs, no owner of outdoor advertising signs permitted or assigned a working number by the department after December 31, 2010, or such owner's agent, shall be eligible to make application for vegetation maintenance for a period of five years from the date a new sign is permitted.

(c) Application for a tree or vegetation trimming or removal permit and the annual renewal thereof shall be made upon the forms prescribed and provided by the department and shall contain the signature of the applicant and such other information as may be required by the department's rules and regulations.

(d) An application fee shall accompany the application for each vegetation maintenance permit, and both the application and fee shall be submitted to the department. There shall be an annual renewal of the permit for activities in the original scope of the permit. The department shall promulgate rules and regulations setting forth the application fees and renewal fees. Such application and renewal fees shall be established by the department in reasonable amounts in order to fully recover the costs of administering the vegetation maintenance program.

(e)(1) The department shall evaluate each application for a permit under this Code section and require as a condition of granting any permit under this Code section that the value of the landscaping to be either provided or paid for by the applicant is not less than the department's appraised value of the benefit to be conferred by the state upon the applicant by allowing the trimming or removing of trees or other vegetation as requested, which shall be the value of the trees or vegetation to be trimmed or removed; provided, however, that a permit may be granted to an otherwise qualified applicant in a case where the value of the landscaping to be either provided or paid for by the applicant is less than the department's appraised value of the trees or other vegetation to be trimmed or removed if, in addition, the applicant pays to the department an amount equal to the amount of the difference between the value of the landscaping to be either provided or paid for by the applicant and the department's appraised value of the trees or other vegetation to be trimmed or removed.

(2) Any measurement of vegetation to be removed for valuation purposes shall be made at diameter breast height as shown in the section entitled "Height of Measurement" in the *Guide for Plant Appraisal (9th Edition)* as published by the International Society of Arboriculture. Based on the substantial benefit to the state where dead or diseased trees are removed from the right of way, and the negligible value of dead or diseased trees, such vegetation shall not be measured or valued in determining the appraised value. Trees shall be only deemed dead or diseased if listed as such in the report of a certified forester or arborist, subject to review and approval by the department. Upon receipt of a properly completed application, the department shall, within 60 days, issue the permit for vegetation maintenance.

(3)(A) For purposes of this paragraph, the term "historic tree" means a tree or group of trees that are reasonably determined by the department to be:

(i) Identified by a unit of government to recognize an individual or group;

(ii) Located at the site of a historic event and significantly impact an individual's perception of the event;

(iii) Dated to the time of a historic event at the location of the tree, as identified by a unit of government; or

(iv) Confirmed as the progeny of a tree that meets any of the criteria contained in this division.

(B) For purposes of this paragraph, the term “landmark tree” means a tree or group of trees that:

(i) Have been planted and maintained for educational purposes for more than 75 years;

(ii) Were planted as a memorial to an individual, group, event, or cause and are more than 75 years old; or

(iii) Symbolize a historically significant individual, place, event, or contribution, as recognized by a unit of government prior to July 1, 2010.

(C) For purposes of this paragraph, the term “specimen tree” means a hardwood tree or group of hardwood trees that is determined to be in excess of 75 years of age as determined by a registered forester or arborist.

(D) The applicant shall be allowed to remove all trees and vegetation from the target view zone so long as the sign was permitted or assigned a working number by the department on or before December 31, 2010. Vegetation removal shall be prohibited in all areas of the viewing zone outside of the target view zone except that portions of vegetation, such as tree limbs, which extend into the target view zone from outside the target view zone may be trimmed as necessary to preserve the clear target view zone. The only vegetation which cannot be removed from the target view zone pursuant to this paragraph shall be landmark trees, historic trees, and specimen trees, as defined in subparagraphs (A) through (C) of this paragraph, and any tree planted as part of a permitted local, state, or federal government beautification project. After July 1, 2011, however, no beautification project in this state shall include the planting of trees in the right of way within 500 feet of an outdoor advertising sign such that the visibility of a permitted outdoor advertising sign is obscured or could later be obscured by the growth of such vegetation.

(E) Pruning or trimming of trees under a permit shall conform to industry standards as defined by the National Arborist Association, International Society of Arboriculture or ANSI A300 pruning standards as of January 1, 2011, or such later edition as may be adopted by rule or regulation of the department.

(4) An applicant’s record of conduct regarding disturbance of trees or other vegetation on state rights of way shall be considered by the

department as part of the evaluation process for any permit or permit renewal application.

(5) Prior to approving any permit application to remove allegedly diseased trees, the department shall verify that such trees are in fact diseased. Such determination shall be made by the department's landscape architect.

(6) A performance bond in an amount adequate for the requirements of the permit as determined by the department shall be required of each permittee.

(f)(1) No trees or other vegetation on state rights of way shall be trimmed, killed, or removed by any person other than in accordance with a permit issued under this Code section by any person other than the department or an authorized agent or contractor thereof.

(2) No outdoor advertising sign to which a permit under this Code section is applicable shall be unused for advertising for a period of six consecutive months or more.

(3) On and after July 1, 1999, no outdoor advertising sign to which a permit under this Code section is applicable shall be maintained in such a condition of disrepair as to be unusable for advertising.

(4)(A) In cases where the department has reasonable cause to believe that a violation of this subsection has been committed by any person, the procedures provided under Code Section 32-6-95 shall apply the same as in cases wherein the department believes that a sign is being maintained in violation of this part.

(B) Following notice, hearing, and a finding that a person has committed a violation of paragraph (1) of this subsection, a civil fine of not less than \$10,000.00 nor more than \$20,000.00, and restitution in an amount equal to the appraised value of the trees or vegetation, or both, which were unlawfully trimmed or removed, shall be imposed on such person.

(C) Following notice, hearing, and a finding that a permittee under this Code section has committed a violation of paragraph (2) of this subsection, an order directing the removal of such unused sign, at the expense of the permittee, shall be issued.

(D) Following notice, hearing, and a finding that a permittee under this Code section has committed a violation of paragraph (3) of this subsection, an order directing the removal of such unusable sign shall be issued.

(E) The department or its authorized agents shall be authorized to enter upon private lands and disassemble and remove signs without civil or criminal liability therefor pursuant to an order

issued in accordance with this paragraph and as provided by Code Section 32-6-96 for disassembly and removal of illegal outdoor advertising signs.

(g) In order to obtain a vegetation maintenance permit for signs which exceed 75 feet in height, as measured from the base of the sign or crown of the adjacent roadway to which the sign is permitted, whichever is higher, the owner of the sign shall agree to reduce the sign to 75 feet in height or less, as measured from the base of the sign or crown of the adjacent roadway to which the sign is permitted, whichever is higher, unless lowering is precluded by local government code or regulation. Work to lower the sign shall be concluded within 60 days of completion of the vegetation removal. If the terms of the work plan are not complied with and all work satisfactorily completed within the allowed time, the performance bond shall be forfeited, and the department shall be authorized to collect the bond and lower the sign. Upon completion of any project which reduces sign height by use of a new support mechanism, such as a new pole, the sign owner shall provide the department with a written footer inspection from the applicable local government or a professional engineer prior to the release of the bond.

(h) The department shall have the right to refuse to issue any vegetation permits to any person, firm, or entity which the department determines is maintaining or is allowing to be maintained any abandoned sign or signs, until all such abandoned signs are removed or brought into compliance with the provisions of this Code section. For purposes of this subsection, the term "abandoned sign" means any sign adjacent to a state-controlled route that has not contained a message for six consecutive months and which has not had a message displayed within 30 days after receipt of notice by certified mail from the department. The addition of a "for rent" panel or a phone number shall not qualify as a message for purposes of this subsection, but self-promotional copy covering at least one entire sign face or advertising copy benefiting charitable, nonprofit, religious, or other noncommercial groups shall qualify as a message.

(i) The department shall have the right to refuse to issue any vegetation permits to any person, firm, or entity which the department determines is maintaining or is allowing to be maintained in their inventory of signs in this state any sign which depicts any material which is obscene as such term is defined in Code Section 16-12-80, or material that is in conflict with the applicable local government's obscenity ordinance. Upon conviction of depiction of any material as obscene the person, firm, or entity shall be punishable by a fine of not less than \$5,000.00 for the first conviction and \$10,000.00 for any subsequent conviction and shall also be guilty of a misdemeanor of a high and aggravated nature.

(j) The removal of signs with lapsed outdoor advertising permits is of benefit to this state but is often too costly for the department to undertake. In order to encourage the removal of such signs and permitted signs that do not conform to the state's current requirements for outdoor advertising signs without the expenditure of state funds, a credit which may be used as an offset toward the total appraised value of the vegetation to be removed in accordance with a vegetation maintenance permit shall be awarded for each qualifying sign removal as follows:

(1) On or before March 1, 2012, the department shall prepare a list of signs which once held a valid outdoor advertising permit but for which the permit has been allowed to lapse. Notification of a sign's inclusion on such list shall be sent to the last known address for the sign's owner as listed on department records and to any other person or entity which the department reasonably finds to have an interest in such sign. Within 30 days of receipt of such notice or 60 days of publication of the list, whichever comes later, any person or entity claiming to be the owner of a sign that they do not believe has been properly included on the list shall be allowed to submit written notice to the department of their objection. Such objection may include a statement of the relevant facts and any supporting documents. On or before July 1, 2012, the department shall publish the final list. Signs which are the subject of any current objections, administrative appeals, or legal disputes shall not be included on such list. This list shall be updated annually and provided to the chairpersons of the House and Senate Transportation Committees on or before the first day of March;

(2) The department shall, on or before January 1, 2012, prepare a schedule or formula to determine the credit to be received for the removal of lapsed-permit signs and permitted nonconforming outdoor advertising signs. Such schedule shall provide a valuation of the credit based on four factors: material used in sign structure, height of sign, size of sign, and terrain and topography. The department shall also prepare a form to be submitted by any person or entity seeking a credit under this subsection. Such form shall require a description of the material used in the sign structure, the height of the sign, the size of the sign, and the terrain and topography where the sign is situated and a calculation of the anticipated credit in accordance with the department's schedule or formula;

(3) At such time as any lapsed-permit sign from the department's updated list or a nonconforming outdoor advertising sign is removed, the person or entity responsible for such removal shall submit to the department the completed removal form and photographic evidence of the removal. For purposes of this subsection, the term "removal"

means removal of all structural elements above ground level; removal of footers or foundation elements shall not be required. Within 60 days of such submission, the department shall certify and return the form. No credit shall be allowed for the removal of a lapsed-permit sign by the owner of such sign. The certified form shall serve as a credit voucher. Credit vouchers may be transferred to another party via notarized statement signed by both parties;

(4) Where a lapsed-permit sign from the department's updated list or a nonconforming sign is to be removed in conjunction with a specific application for a vegetation maintenance permit, the sign to be removed shall be designated by department permit number. If the vegetation permit is approved, then the sign designated for removal shall be removed at least 15 days prior to initiation of work pursuant to the vegetation permit. Removal shall be deemed complete when the removal form and photographic evidence of the removal are submitted to the department. The sign designated for removal need not be owned by the vegetation permit applicant. As such, nothing herein shall be interpreted to require that the removed sign be owned or controlled by the vegetation permit applicant. All work hereunder shall be performed by licensed and bonded entities or individuals, where required by law, and the department shall not be liable for the actions of any nondepartment personnel; and

(5) A credit voucher may be used by an applicant for a vegetation maintenance permit as an offset against the total appraised value of the vegetation to be removed on a dollar-for-dollar basis, except that the total payment shall not be reduced below \$4,000.00. Any unused portion of a credit voucher may be used in conjunction with a subsequent vegetation maintenance application.

(k) Nothing contained in this Code section shall render any sign existing on July 1, 2011, nonconforming. Nothing in this Code section shall supersede any applicable local rules or ordinances. The department shall not deny an applicant a vegetation maintenance permit for complying with applicable local rules or ordinances. (Code 1933, § 95A-934.3, enacted by Ga. L. 1981, p. 955, § 2; Ga. L. 1998, p. 1313, § 3; Ga. L. 2011, p. 601, § 2/HB 179; Ga. L. 2012, p. 775, § 32/HB 942.)

The 2011 amendment, effective July 1, 2011, added subparagraph (a)(1)(B); redesignated former subparagraphs (a)(1)(B) and (a)(1)(C) as present subparagraphs (a)(1)(C) and (a)(1)(D), respectively; substituted "signs permitted or assigned a working number by the department after December 31, 2010, or such owner's agent, shall" for "signs erected after January 1, 1999, or such

owner's agent, will" in paragraph (b)(2); inserted a comma in the first sentence of subsection (d); substituted the present provisions of paragraph (e)(2) for the former provisions, which read: "(2)(A)(i) No trees or vegetation shall be trimmed or removed under this Code section other than within a viewing zone.

"(ii) No removal of any hardwood tree having a diameter outside bark of more

than 8 inches at a height of 6 inches above ground level or any historic or endangered species tree or any tree planted as part of any local, state, or federal government project shall be permitted under this Code section.

“(iii) All hardwood trees having a diameter outside bark of 8 inches or less at a height of 6 inches above ground level may be removed from within a viewing zone.

“(iv) All nonhardwood trees may be removed from within a viewing zone for a combined total of 250 feet horizontal distance parallel to the right of way.

“(v) All nonhardwood trees having a diameter outside bark of less than 12 inches at a height of 6 inches above ground level may be removed from within a viewing zone.

“(vi) Pine trees having a diameter outside bark of 12 inches or more at a height of 6 inches above ground level shall not be removed from a viewing zone in such numbers as to reduce stocking to less than the minimum standard for full stocking for such trees, as determined by the Georgia Forestry Commission, over an area having a combined total of not less than 250 feet horizontal distance parallel to the right of way.

“(vii) The provisions of divisions (iv) and (vi) of this subparagraph notwithstanding, in the case of any outdoor advertising sign erected on or before April 20, 1998, and which is less than 35 feet in height as measured from the top of the sign to the ground directly beneath or to the road level, whichever distance results in the best view or the greatest elevation, or which is subsequently lowered to such a height, the horizontal distance of the area within the viewing zone from which all trees, other than hardwoods having a diameter outside the bark of more than 8 inches at a height of 6 inches above

ground level, may be removed shall be increased to 350 feet.”; added paragraph (e)(3); redesignated former subparagraph (e)(2)(B) as present subparagraph (e)(3)(D); substituted “2011” for “1999” in the middle of subparagraph (e)(3)(D); redesignated former paragraphs (e)(3) through (e)(5) as present paragraphs (e)(4) through (e)(6), respectively; and added subsections (g) through (k).

The 2012 amendment, effective May 1, 2012, part of an Act to revise, modernize, and correct the Code, redesignated the former introductory language of paragraph (e)(3) as present subparagraph (e)(3)(D) and redesignated former subparagraph (e)(3)(D) as present subparagraph (e)(3)(E); revised punctuation and language in the last sentence of subsection (h); and substituted “\$5,000.00” for “\$5000.00” in subsection (i).

Editor’s notes. — Ga. L. 2011, p. 601, § 4/HB 179, not codified by the General Assembly, provides: “The Department of Transportation shall have 120 days from the effective date to promulgate any forms or policies necessary to implement this Act. Those applications submitted before any necessary forms and policies are in place shall be processed in accordance with the regulations in place prior to the effective date. Those holding vegetation maintenance permits or renewals issued at any time prior to the promulgation of the necessary forms and policies shall, upon written request to the department, be able to trim or remove vegetation in accordance with the terms of this Act.” This Act became effective July 1, 2011.

Law reviews. — For article on the 2011 amendment of this Code section, see 28 Ga. St. U.L. Rev. 91 (2011). For article, “Highways, Bridges, and Ferries: Regulation of Maintenance and Use of Public Roads Generally,” see 28 Ga. St. U.L. Rev. 91 (2011).

JUDICIAL DECISIONS

No donation of constitutionality forbidden gratuity. — Legislative scheme allowing the owners of private outdoor advertising to trim vegetation on public property blocking the view of the owners’ advertising was not an unconsti-

tutional donation, prohibited by Ga. Const. 1983, Art. III, Sec. VI, Para. VI, because the legislature declared that outdoor advertising benefits the state, and the private individuals were required to pay the state for the privilege of allowing

the public to have an unimpeded view of the owners' signs. *Garden Club of Ga. v. Shackelford*, 274 Ga. 653, 560 S.E.2d 522 (2002).

OPINIONS OF THE ATTORNEY GENERAL

Direct economic benefit from material severed from rights-of-way. — Neither O.C.G.A. § 32-6-75.2 nor O.C.G.A. § 32-6-75.3 authorizes any private person to derive any economic benefit directly from disposition of material severed from rights-of-way. 1981 Op. Att'y Gen. No. 81-75.

No donation of constitutionally for-

bidden gratuity. — Cutting of trees and vegetation on rights-of-way, without cost or expense to taxpayers and to extent no more than minimally necessary to facilitate reasonably adequate public viewing of privately owned billboards, does not itself amount to donation of constitutionally forbidden gratuity. 1981 Op. Att'y Gen. No. 81-75.

ALR. — Governmental liability for compensation or damages to advertiser arising from obstruction of public view of sign or billboard on account of growth of vegetation in public way, 21 ALR4th 1309.

32-6-76. Restrictions on directional signs generally.

Paragraphs (1) through (7), (9), (10), (13) through (17), (19), and (20) of subsection (a) of Code Section 32-6-75 are applicable to directional signs authorized by paragraph (1) of Code Section 32-6-72 and paragraph (1) of Code Section 32-6-73; and, in addition thereto, no directional sign shall be erected or maintained which:

- (1) Is located in a rest area, parkland, or scenic area;
- (2) Contains an area, to be measured by the smallest square, rectangle, triangle, circle, or combination thereof, which encompasses the entire sign, in excess of 150 square feet or exceeding 20 feet in height or 20 feet in length, inclusive of any border and trim but excluding the base, apron, supports, and other structural members;
- (3) Contains, includes, or is illuminated by any flashing, intermittent, or moving light or lights;
- (4) Is located adjacent to an interstate highway and which is within 2,000 feet of an interchange or intersection at grade. The foregoing 2,000 foot zone shall be measured along the interstate highway from the point at which the pavement commences or ceases to widen at exits from or entrances to the main traveled way;
- (5) Is located within 2,000 feet of a rest area, parkland, or scenic area;
- (6) Is located within one mile of another directional sign facing the same direction of travel;

(7) Creates the existence of more than three directional signs pertaining to the same activity facing the same direction of travel along a single route approaching the activity;

(8) Is located along the interstate system at a point more than 75 air miles from the advertised activity;

(9) Is located along the primary system at a point more than 50 air miles from the advertised activity;

(10) Contains information other than the identification of the attraction or activity and directional information useful to the traveler in locating the attraction, such as mileage, route numbers, or exit numbers. The sign shall not contain descriptive words, phrases, or pictorial or photographic representations of the activity or its environs; or

(11) Advertises privately owned activities or attractions other than natural phenomena, scenic attractions, historic, educational, cultural, scientific, and religious sites, agricultural tourist attractions designated by the Department of Agriculture, and outdoor recreational areas and which are nationally or regionally known and are of outstanding interest to the traveling public, as determined by the State Transportation Board. (Ga. L. 1971, Ex. Sess., p. 5, § 5; Code 1933, § 95A-917, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1974, p. 1422, §§ 28A, 29; Ga. L. 1977, p. 263, § 3; Ga. L. 1985, p. 149, § 32; Ga. L. 1996, p. 1052, § 4; Ga. L. 2008, p. 314, § 2/HB 1088.)

ALR. — Building regulations as applicable to billboards and similar structures, 60 ALR 1158.

32-6-78. Restrictions on public service signs.

No public service sign authorized by paragraph (1) of Code Section 32-6-72 or paragraph (1) of Code Section 32-6-73 shall be erected or maintained which:

- (1) Is attached to a school bus shelter, the construction of which is not authorized by state law or local ordinance;
- (2) Is attached to a school bus shelter located at a place not approved by the governmental agency having jurisdiction of the highway along which said shelter is located;
- (3) Contains an area, to be measured by the smallest square, rectangle, triangle, circle, or combination thereof, which encompasses the entire sign, in excess of 32 square feet; or
- (4) Creates a situation in which there is more than one sign facing in any one direction on each shelter. (Ga. L. 1971, Ex. Sess., p. 5, § 7; Code 1933, § 95A-919, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1977, p. 263, § 5.)

ALR. — Building regulations as applicable to billboards and similar structures, 60 ALR 1158.

Validity and construction of state or local regulation prohibiting off-premises advertising structures, 81 ALR3d 486.

32-6-79. Permits for nonconforming signs; right of department to refuse to issue additional permits to persons maintaining illegal sign; appeal from department's decision.

(a) On and after October 6, 1971, no person, firm, or corporation shall erect or maintain a sign authorized by paragraph (1), (4), or (5) of Code Section 32-6-72 without a permit issued by the department.

(b) On and after January 1, 1972, no person, firm, or corporation shall maintain a sign lawfully in existence on October 6, 1971, and

which is authorized by this part without a permit issued by the department.

(c) On and after March 4, 1977, no person, firm, or corporation shall erect or maintain a sign authorized by paragraph (1) of Code Section 32-6-73 without a permit issued by the department.

(d) On and after July 1, 1977, no person, firm, or corporation shall maintain a sign lawfully in existence on March 4, 1977, and which sign is authorized by paragraph (1) of Code Section 32-6-73 without a permit issued by the department.

(e)(1) It is the intent of this Code section to provide for a system of cataloguing and registering nonconforming signs in order to administer this part more adequately. The department is authorized to promulgate rules and regulations consistent with this Code section requiring the registration of nonconforming signs; and such rules and regulations shall inform the applicants of the procedures to make application for nonconforming sign permits.

(2) From March 24, 1980, all persons, firms, or corporations who own nonconforming signs as defined in paragraph (12) of Code Section 32-6-71 shall have a period of one year during which time they shall be required to file application for nonconforming sign permits. Applications for nonconforming sign permits shall be made upon forms prescribed and provided by the department and shall contain the signature of the applicant and such other information as may be required by the department's rules and regulations. If the applicant files the application for a nonconforming sign permit upon the forms and according to the procedures provided by the department and within the specified time period of one year, the application shall be considered to have been filed timely and properly. An application fee of \$50.00 shall accompany the application for each nonconforming sign and both the application and the fee shall be submitted to the department. The money received from permit fees shall be used to help defray the expenses of administering this part, Code Section 48-2-17 to the contrary notwithstanding. The department shall have a period of two years from March 24, 1980, to process applications for nonconforming sign permits. If at the end of this two-year period the department has failed to approve or deny a proper and completed application, it shall be conclusively presumed for all purposes that the sign can be permitted as a nonconforming sign and the department must issue the permit within a reasonable time. Should the department deny the application for a nonconforming sign permit, the applicant may seek relief in accordance with Code Sections 50-13-13 through 50-13-18. In cases where the applicant fails to exhaust the procedures prescribed by Code Sections 50-13-13 through 50-13-18, the department's denial of the permit

request will be final and the sign shall then become an illegal sign as defined by paragraph (6) of Code Section 32-6-71 and shall be subject to removal under the terms of this part.

(3) If the owner of the nonconforming sign fails to apply properly for a permit, it is conclusively presumed that the sign has been abandoned, and the sign shall then become an illegal sign as defined by paragraph (6) of Code Section 32-6-71, and the sign shall be subject to removal under the terms of this part.

(f) On or after March 24, 1980, the department shall have the right to refuse to issue any additional permits to any person, firm, or corporation who the department determines is maintaining or is allowing to be maintained an illegal sign or signs as defined by paragraph (6) of Code Section 32-6-71 on the interstate or primary highways in this state until such illegal sign or signs are removed. The refusal by the department to issue any additional permits shall not be considered a final denial. If the applicant does not believe the sign or signs designated by the department are illegal, the applicant may seek relief in accordance with Code Sections 50-13-13 through 50-13-18. Unless, within 120 days after the applicant has requested an administrative hearing, the department has issued a final agency decision that the sign or signs are illegal, the department may no longer refuse to issue permits because of a contention that an illegal sign or signs are being maintained. (Ga. L. 1971, Ex. Sess., p. 5, § 9; Code 1933, § 95A-921, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1977, p. 263, § 7; Ga. L. 1980, p. 1017, § 5; Ga. L. 1985, p. 149, § 32.)

Code Commission notes. — Pursuant to Code Section 28-9-5, “cataloguing” was substituted for “cataloging” in the first sentence of paragraph (e)(1).

JUDICIAL DECISIONS

Cited in *Ledford v. Department of Transp.*, 253 Ga. 717, 324 S.E.2d 470 (1985).

OPINIONS OF THE ATTORNEY GENERAL

Zoned commercial or industrial areas. — Department of Transportation may issue permits for outdoor advertising devices, and renew such permits, within “forest-agricultural” districts of Glynn County if the department commonly and generally recognizes the activities permitted therein as commercial or industrial. 1975 Op. Att’y Gen. No. 75-24.

32-6-80. Renewal of permits for nonconforming signs; transfer of permits for nonconforming signs.

(a) After March 24, 1980, renewal of permits for nonconforming signs as defined in paragraph (12) of Code Section 32-6-71 and as authorized

in subsection (e) of Code Section 32-6-79 shall be made to the department upon forms prescribed by the department; shall contain the signature of the applicant and such other information as may be required by the department's rules and regulations; and shall be verified under oath by the person, firm, or corporation making the application. Permit renewals shall be issued and shall be valid only if the sign is maintained in accordance with this part during the 12 month period next following the date of issuance. The fee for the renewal of a permit shall be \$25.00. The money received from permit fees shall be used to help defray the expenses of administering this part. Upon receipt of a properly executed application and the appropriate fee for the maintenance of a sign which may be lawfully maintained pursuant to this part, the department shall, within 60 days, issue a permit renewal authorizing the maintenance of the sign for which application is made. Application for the renewal of a permit shall be made to the department not more than 90 days nor less than 60 days before the expiration date of the permit for which renewal is sought. If the department fails to receive the renewal application before the expiration date of the permit, the department will notify the applicant that the renewal application is overdue when the applicant's address is known or reasonably available to the department and shall give the applicant 30 days after the expiration date to send the department the renewal application. If the applicant does not send the properly executed application and the appropriate fee within the specified 30 day period, the sign shall then become an illegal sign. No permit shall be renewed if the application for the renewal thereof has not been made in accordance with this Code section.

(b) Permits shall be transferable. An application to have the permit transferred shall be made within 30 days of the change in ownership of the sign; shall be made to the department upon forms prescribed by the department; shall contain the signature of the applicant and such other information as may be required by the department; and shall be verified under oath by the person, firm, or corporation making application for transfer. Failure to comply in a timely and proper manner with this subsection shall be grounds for revocation of the permit. (Code 1933, § 95A-922, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1980, p. 1017, § 6; Ga. L. 1982, p. 3, § 32.)

OPINIONS OF THE ATTORNEY GENERAL

Zoned commercial or industrial areas. — Department of Transportation may issue permits for outdoor advertising devices, and renew such permits, within "forest-agricultural" districts of Glynn County if the department commonly and generally recognizes the activities permit-

ted therein as commercial or industrial. 1975 Op. Att'y Gen. No. 75-24.

If there are activities permitted in the district which are commonly and generally recognized as commercial, then the permits for outdoor advertising devices may be renewed, provided criteria for re-

newal established elsewhere in the law are met. 1975 Op. Att'y Gen. No. 75-24.

32-6-81. Revocation or withholding of permits for illegal or unauthorized actions against the department's property.

(a) It shall be cause for the department to revoke a sign permit or refuse to issue a sign permit if any of the department's property on the rights of way, including but not limited to trees, vegetation, or fences, is destroyed, damaged, converted, or altered by or on behalf of a person, firm, or corporation who owns, erects, maintains, leases, or uses any sign which is controlled by this part. When the department believes that any of the aforesaid property has been destroyed, damaged, converted, or altered, the department shall make a preliminary investigation and based on its findings may:

(1) Revoke the permit or permits of any owner of a sign or signs if the department determines that the person, firm, or corporation who owns the land or who owns, erects, maintains, leases, or uses the sign or signs caused, hired, procured, or consciously or by design consented to any of the illegal acts described in this paragraph at or near the sign site, thereby depriving the sign owner of the permit to use that site; or

(2) Refuse to issue a permit or permits for a sign site or sites for a period not to exceed five years if the department determines that the applicant has caused, hired, procured, or consciously or by design consented to any of the illegal acts described in this subsection on the department's rights of way within 500 feet on either side of that sign site or sites.

(b) Before the actions listed in paragraph (1) of subsection (a) of this Code section may be taken, the department shall give 30 days' written notice via certified mail or statutory overnight delivery to the permit holder; and this notice shall apprise the permit holder of a hearing that will be held in accordance with Code Sections 50-13-13 through 50-13-18. If the action described in paragraph (2) of subsection (a) of this Code section is taken, the department shall state this in its refusal to issue a permit, and the applicant shall have the right to an administrative review of this action as provided by Code Sections 50-13-13 through 50-13-18. (Code 1933, § 95A-930.2, enacted by Ga. L. 1980, p. 1017, § 8; Ga. L. 1982, p. 3, § 32; Ga. L. 2000, p. 1589, § 3.)

Editor's notes. — Ga. L. 2000, p. 1589, § 16, not codified by the General Assembly, provided that the 2000 amendment was applicable to notices delivered on or after July 1, 2000.

32-6-82. Acquisition by department of property rights in outdoor advertising which does not comply with requirements of part.

The department is authorized to acquire by purchase, gift, or condemnation and to pay just compensation for any property rights in outdoor advertising signs, displays, and devices which were lawfully erected in compliance with the applicable laws in effect at the time of erection but which do not conform to this part or which fail to comply with this part due to changed conditions beyond the control of the sign owner. The department shall be limited to an expenditure of \$5 million for the state's portion of just compensation. The department shall be prohibited from paying more than 25 percent of any award for just compensation. (Ga. L. 1971, Ex. Sess., p. 5, § 11; Code 1933, § 95A-923, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1974, p. 1422, § 33.)

RESEARCH REFERENCES

ALR. — Eminent domain: determination of just compensation for condemnation of billboards or other advertising signs, 73 ALR3d 1122.

32-6-83. Acquisition by municipal corporation or county of outdoor advertising which does not comply with requirements of applicable ordinances, regulations, or resolutions.

Any municipal corporation or county is authorized to acquire by purchase, gift, or condemnation and to pay just compensation for any property rights in outdoor advertising signs, displays, and devices which were lawfully erected but which do not conform with the provisions of any lawful ordinance, regulation, or resolution or which at a later date fail to comply with the provisions of any lawful ordinance, regulation, or resolution due to changed conditions beyond the control of the sign owner. No municipal corporation or county shall remove or cause to be removed any such nonconforming outdoor advertising sign, display, or device without paying just compensation. Such compensation shall be paid in accordance with the conditions stated in Code Section 32-6-84. For the purposes of this Code section, the term "devices" means light, lighting fixtures, or other fixtures which are permanently attached to an advertising sign or display. (Ga. L. 1967, p. 423, § 8; Code 1933, § 95A-923.1, enacted by Ga. L. 1979, p. 803, § 1.)

Law reviews. — For article surveying legislative and judicial developments in Georgia local government law for 1978-79, see 31 Mercer L. Rev. 155 (1979).

JUDICIAL DECISIONS

County ordinance violated O.C.G.A. § 32-6-83 since the ordinance provided that a nonconforming sign damaged by weather or an act of God could not be repaired or reerected. *State v. Hartrampf*, 273 Ga. 522, 544 S.E.2d 130 (2001).

Just compensation. — County sign ordinance was unconstitutional since the ordinance conflicted with O.C.G.A. § 32-6-83 requiring the payment of just compensation after the county acquired

an owner's property rights when an advertiser attempted to repair a nonconforming outdoor advertising sign damaged by a tornado and the ordinance contained no provision for paying compensation. Thus, the trial court's grant of summary judgment for the county was erroneous when the county failed to pay the advertiser just compensation for taking of the advertiser's sign. *Outdoor Sys. v. Cobb County*, 274 Ga. 611, 555 S.E.2d 435 (2001).

RESEARCH REFERENCES

ALR. — Municipal power as to billboards and outdoor advertising, 58 ALR2d 1314.

Municipality's power to permit private

owner to construct building or structure overhanging or crossing the air space above public street or sidewalk, 76 ALR2d 896.

32-6-84. Interests and losses which may be compensable under Code Sections 32-6-82 and 32-6-83.

The compensation provided for in Code Sections 32-6-82 and 32-6-83 is authorized to be paid only for the following:

- (1) The taking from the owner of such sign, display, or device of all right, title, leasehold, and interest in such sign, display, or device;
- (2) The taking from the owner of the real property on which the sign, display, or device is located of the right to erect and maintain such signs, displays, and devices thereon;
- (3) The actual financial loss suffered by the lessee under a written lease expressly and solely permitting the erection and maintenance of a sign, display, or device (which was lawful on the date such lease was executed) because of the refusal by the department to issue a permit for the erection of such sign, display, or device, provided that the amount of compensation paid may not exceed the pro rata part of the entire rental paid and to be paid under such lease for the unelapsed portion thereof remaining on July 1, 1973; or
- (4) The actual financial loss suffered by the lessor under a written lease expressly and solely permitting the erection and maintenance of a sign, display, or device (which was lawful on the date such lease was executed) because of the refusal by the department to issue a permit for the erection of such sign, display, or device, provided that the amount of compensation paid may not exceed the pro rata part of the entire rental paid and to be paid under such lease for the unelapsed portion thereof remaining on July 1, 1973. (Ga. L. 1967, p.

423, § 8; Ga. L. 1971, Ex. Sess., p. 5, § 12; Code 1933, § 95A-924, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2001, p. 4, § 32.)

ALR. — Eminent domain: determination of just compensation for condemnation of billboards or other advertising signs, 73 ALR3d 1122.

32-6-85. Department's exercise of eminent domain power to acquire interests specified in Code Section 32-6-84.

Whenever it is necessary, in the judgment of the commissioner, to acquire those interests specified in Code Section 32-6-84, the department may exercise the power of eminent domain in the manner provided in Article 1 of Chapter 3 of this title for the acquisition of real property needed for the construction of highways. (Ga. L. 1967, p. 423, § 9; Ga. L. 1971, Ex. Sess., p. 5, § 13; Code 1933, § 95A-925, enacted by Ga. L. 1973, p. 947, § 1.)

32-6-86. Compensation contingent upon federal matching funds.

The department shall not acquire any sign by purchase or condemnation, any portion of the cost of which is eligible for federal participation, until such time as federal matching funds have been apportioned to and made available to the department for such acquisition. No sign shall be acquired by condemnation, except after three months' written notice has been given to the owner thereof of the intention to so acquire the same, during which time the penalties provided by this part shall not apply. (Ga. L. 1971, Ex. Sess., p. 5, § 14; Code 1933, § 95A-926, enacted by Ga. L. 1973, p. 947, § 1.)

U.S. Code. — For provisions regarding referred to in this Code section, see 23 authorization of federal matching funds, U.S.C. § 131(m).

32-6-87. Agreements with United States Secretary of Transportation.

Subject to the provisions of this part, the department is authorized, on behalf of the state, to enter into agreements with the United States Secretary of Transportation (as provided in Section 131 of Title 23 of the United States Code) relating to the control of outdoor advertising in areas adjacent to the interstate and primary systems, including the establishment of information centers at safety rest areas. The department is also authorized to take action in the name of the state to comply with the terms of such agreements. (Ga. L. 1971, Ex. Sess., p. 5, § 22; Code 1933, § 95A-934, enacted by Ga. L. 1973, p. 947, § 1.)

32-6-87.1. “RV friendly” markers.

(a) Subject to the prior approval of the Federal Highway Administration, the department is directed to incorporate the use of “RV friendly” markers on specific service signs for business establishments that cater to the needs of persons driving recreational vehicles. A business establishment that qualifies for participation in the specific service sign program and that also qualifies as “RV friendly” may request that an “RV friendly” marker be displayed immediately adjacent to such establishment’s business logo sign on the appropriate background sign panel. For purposes of this Code section, the “RV friendly” marker to be displayed shall be such marker as may be approved by the Federal Highway Administration in the Manual on Uniform Traffic Control Devices.

(b) In accordance with Chapter 13 of Title 50, the “Georgia Administrative Procedure Act,” and subject to the approval of the Federal Highway Administration, the department shall promulgate such rules and regulations as are necessary to implement the provisions of this Code section, including the promulgation of rules and regulations setting forth the minimum requirements that business establishments must meet in order to qualify as “RV friendly.” Such requirements shall include, but shall not be limited to, the availability at each qualifying business establishment of parking spaces, entrances and exits in sufficient number and of sufficient size and dimensions to easily accommodate recreational vehicles, and the presence of appropriate overhang clearances at all facilities, if applicable.

(c) For the purposes of assisting the Federal Highway Administration in considering the approval of an “RV friendly” marker for incorporation into the Manual on Uniform Traffic Control Devices, the department is directed to submit a request to the Federal Highway Administration for permission to experiment with the use of an “RV friendly” marker on specific service signs in accordance with this Code section. (Code 1981, § 32-6-87.1, enacted by Ga. L. 2007, p. 45, § 1/SB 87; Ga. L. 2008, p. 324, § 32/SB 455.)

32-6-88. Designation of defined areas.

Upon written request made by any county, city, corporation, partnership, association, person, or persons, the board is authorized to consider and to designate a specific area or areas as a defined area or areas, upon a showing having been made that the area in question contains directional signs, displays, or devices which were lawfully erected under state law in force at the time of erection and in existence on May 5, 1976, and which do not conform to the requirements of paragraphs (1) through (6) of Code Section 32-6-72 and paragraphs (1) through (4)

of Code Section 32-6-73, and upon a further showing that such directional signs, displays, and devices provide directional information about goods and services in the specific interest of the traveling public and that their removal would work a substantial economic hardship in such defined area or areas. (Code 1933, § 95A-934.1, enacted by Ga. L. 1979, p. 1086, § 5.)

32-6-89. Retention of directional signs, displays, and devices in defined areas.

Upon designation made by the board of an area or areas as a defined area or areas for purposes of requesting the approval of the United States Secretary of Transportation for the retention of directional signs, displays, and devices in the specific interest of the traveling public, the Georgia Department of Transportation is authorized to request the approval of the United States Secretary of Transportation. (Code 1933, § 95A-934.2, enacted by Ga. L. 1979, p. 1086, § 5; Ga. L. 1991, p. 94, § 32.)

32-6-90. Promulgation of rules and regulations by department.

The department is authorized to promulgate rules and regulations governing the issuance and revocation of permits for the erection and maintenance of outdoor advertising which is authorized by Code Sections 32-6-72 and 32-6-73 and which is not prohibited by this part. The department is further authorized to promulgate rules and regulations governing the issuance, revocation, and renewal of permits for the trimming of trees and vegetation on the state's rights of way authorized by and in accordance with Code Section 32-6-75.3. Such rules and regulations shall be consistent with the safety and welfare of the traveling public, and as may be necessary to carry out the policy of the state declared in this part, and consistent with the purposes of the Highway Beautification Act of 1965, Public Law 89-285, as amended, and contained in Title 23, United States Code. The department is further authorized to promulgate such rules and regulations as are necessary to carry out this part. (Ga. L. 1967, p. 423, § 5; Ga. L. 1971, Ex. Sess., p. 5, § 8; Code 1933, § 95A-920, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1974, p. 1422, § 31; Ga. L. 1977, p. 263, § 6; Ga. L. 1981, p. 955, § 1; Ga. L. 1998, p. 1313, § 4.)

Law reviews. — For review of 1998 and ferries, see 15 Ga. St. U.L. Rev. 136 legislation relating to highways, bridges, (1998).

JUDICIAL DECISIONS

Outdoor advertising. — Since former paragraph (a)(4) of O.C.G.A. § 32-2-41 expressly forbade the commissioner from exercising the board's power concerning

the approval of "long-range plans and programs of the department," and the adoption, amendment, or repeal of departmental rules and regulations concerning outdoor advertising in Georgia was a long-range program, the commissioner was not empowered to adopt proposed amendments to such rules and regulations sua sponte. *Outdoor Adv. Ass'n v. DOT*, 186 Ga. App. 550, 367 S.E.2d 827, cert. denied, 186 Ga. App. 918, 367 S.E.2d 827 (1988).

O.C.G.A. § 32-6-70, in no uncertain terms, delegated the regulation of outdoor

advertising to the Georgia Department of Transportation (DOT), as the statute provided in part that it was the intention of the General Assembly to provide a statutory basis for the regulation of outdoor advertising, such basis to be consistent with the public policy relating to areas adjacent to roads of the state highway system, under § 32-6-70(a), and O.C.G.A. § 32-6-90 further authorized the DOT to promulgate regulations governing permits for outdoor advertising. *Walker v. DOT*, 279 Ga. App. 287, 630 S.E.2d 878 (2006).

OPINIONS OF THE ATTORNEY GENERAL

Department must maintain control over contemplated tree cutting operations. — Given the Department of Transportation's authority and obligation to control the state highway system, it seems imperative that the department maintain rigid and absolute control over any contemplated tree cutting operations, particularly if those operations are undertaken by private individuals on rights-of-way. 1981 Op. Att'y Gen. No. 81-75.

Authorization to regulate cutting of trees and vegetation on rights-of-way. — Authorization to formulate rules related to, and issuance of permits for, cutting of trees and vegetation on rights-of-way does not impinge upon the Department of Transportation's authority and legal obligation to control the state highway system. 1981 Op. Att'y Gen. No. 81-75.

ALR. — Building regulations as applicable to billboards and similar structures, 60 ALR 1158.

Power of highway officer in respect of

billboards or other conditions on adjoining property which are deemed dangerous to travel or offensive esthetically to travelers, 81 ALR 1547.

32-6-91. Erection or maintenance of sign without permit as constituting misdemeanor.

Any person who erects or maintains any sign for which a permit is required by this part without a valid permit or renewal of such permit issued by the department shall be guilty of a misdemeanor. Each day or fraction thereof during which a sign is unlawfully maintained shall constitute a separate offense. The commissioner and officials or employees of said department designated by the commissioner are authorized to take such actions as may be necessary or appropriate to procure the prosecution and conviction of any person, firm, or corporation violating this Code section. (Ga. L. 1971, Ex. Sess., p. 5, § 15; Code 1933, § 95A-927, enacted by Ga. L. 1973, p. 947, § 1.)

32-6-92. Maintenance of unauthorized sign as constituting misdemeanor.

Any person who maintains any sign not authorized by this part and which was not lawfully in existence on October 6, 1971, shall be guilty of a misdemeanor. Each day or fraction thereof during which a sign is unlawfully maintained shall constitute a separate offense. The commissioner and officials or employees of the department designated by the commissioner are authorized to take such actions as may be necessary or appropriate to procure the prosecution and conviction of any person, firm, or corporation violating this Code section. (Ga. L. 1971, Ex. Sess., p. 5, § 16; Code 1933, § 95A-928, enacted by Ga. L. 1973, p. 947, § 1.)

RESEARCH REFERENCES

ALR. — Municipal power as to billboards and outdoor advertising, 58 ALR2d 1314.

32-6-93. Erection or maintenance of sign without a permit as constituting a public nuisance; enjoining erection or maintenance of such sign.

The erection or maintenance by any person, firm, or corporation of any sign for which a permit is required by this part without a valid permit or renewal thereof issued by the department is declared to be a public nuisance. In addition to the remedies provided for in this part or which may otherwise exist under the laws of Georgia, the department is authorized to bring an equitable proceeding to enjoin any person, firm, or corporation from erecting or maintaining, without a valid permit or renewal thereof, any sign for which a permit or renewal thereof is required by this part. It shall not be necessary for the department to allege and prove that there is no adequate remedy at law in order to obtain the equitable relief provided for in this Code section. (Ga. L. 1971, Ex. Sess., p. 5, § 17; Code 1933, § 95A-929, enacted by Ga. L. 1973, p. 947, § 1.)

ALR. — Municipal power as to billboards and outdoor advertising, 58 ALR2d 1314. Billboards and other outdoor advertising signs as civil nuisance, 38 ALR3d 647.

32-6-94. Maintenance of unauthorized sign as constituting a public nuisance; enjoining maintenance of such sign.

The maintenance by any person, firm, or corporation of any sign which is not authorized by this part and which was not lawfully in

existence on October 6, 1971, is declared to be a public nuisance. In addition to the remedies provided for in this part or which may otherwise exist under the laws of Georgia, the department is authorized to bring an equitable proceeding to enjoin any person, firm, or corporation from maintaining any sign which is not in compliance with this Code section. It shall not be necessary for the department to allege and prove that there is no adequate remedy at law in order to obtain the equitable relief provided for in this Code section. (Ga. L. 1971, Ex. Sess., p. 5, § 18; Code 1933, § 95A-930, enacted by Ga. L. 1973, p. 947, § 1.)

RESEARCH REFERENCES

ALR. — Municipal power as to billboards and outdoor advertising, 58 ALR2d 1314. Billboards and other outdoor advertising signs as civil nuisance, 38 ALR3d 647.

32-6-95. Applicability of Chapter 13 of Title 50, the “Georgia Administrative Procedure Act,” to part generally; affirmation of agency decision by operation of law.

(a) In addition to the procedures and remedies afforded by this part, any person, firm, or corporation who owns, uses, leases, or subleases any outdoor advertising sign which is controlled by this part or who owns property on which a sign is located shall be subject to Chapter 13 of Title 50, the “Georgia Administrative Procedure Act,” with respect to the erection, maintenance, or use of outdoor advertising signs.

(b) It is specifically declared that the procedures provided in Code Sections 50-13-13 through 50-13-22 may be employed in cases wherein the department believes that a sign has been erected or is being maintained or used in violation of this part. After conducting the hearing required by Code Section 50-13-13, the commissioner or the commissioner’s designee, hearing officer, or others are authorized to issue an order requiring the disassembly and removal of any sign which has been administratively determined to be illegal as defined by paragraph (6) of Code Section 32-6-71. In the event that the commissioner or the commissioner’s designee, hearing officer, or others find that a sign is illegal and order its disassembly and removal, the party or parties against whom the order is directed shall be given 120 days from the date of the order in which to disassemble and remove the sign. In the event the party or parties against whom the order is directed fail to comply with the order, the department may disassemble and remove the sign in accordance with Code Section 32-6-96.

(c) Notwithstanding any other law to the contrary, when a petition for judicial review of a final decision of the commissioner or the commissioner’s designee, hearing officer, or others in any matter arising under this title is filed pursuant to Chapter 13 of Title 50, the

“Georgia Administrative Procedure Act,” if the superior court in which the petition for review is filed does not hear the case within 120 days from the date the petition for review is filed with the court, the final agency decision shall be considered affirmed by operation of law unless a hearing originally scheduled to be heard within 120 days has been continued to a date certain by order of the court. In the event a hearing is held later than 120 days after the date the petition for review is filed with the superior court because a hearing originally scheduled to be heard within the 120 days has been continued to a date certain by order of the court, the final agency decision shall be considered affirmed by operation of law if no order of the court disposing of the issues presented for review has been entered within 60 days after the date of the continued hearing. If a case is heard within 120 days from the date the petition for review is filed, the final agency decision shall be considered affirmed by operation of law if no order of the court dispositive of the issues presented for review has been entered within 60 days of the date of the hearing.

(d) A decision of the agency affirmed by operation of law under subsection (c) of this Code section shall be subject to appellate review in the same manner as a decision of the superior court. The date of entry of judgment for purposes of appeal pursuant to Code Section 5-6-35 of a decision affirmed by operation of law without action of the superior court shall be the last date on which the superior court could have taken action under subsection (c) of this Code section. (Code 1933, § 95A-930.1, enacted by Ga. L. 1980, p. 1017, § 7; Ga. L. 1993, p. 969, § 1.)

JUDICIAL DECISIONS

Affirmed by operation of law. — When landowners and a sign company sought judicial review of the Georgia Department of Transportation’s denial of their request for permits to erect outdoor advertising on the owners’ property, an affirmance of the denial was affirmed by operation of law, under O.C.G.A. § 32-6-95(c), because the owners and the company did not schedule a hearing on their petition for judicial review to occur within 120 days of the petition being filed. *Walker v. DOT*, 279 Ga. App. 287, 630 S.E.2d 878 (2006).

Construction with § 34-9-105. — In light of the fact that O.C.G.A. § 32-6-95(c) is worded nearly identically to O.C.G.A. § 34-9-105(b) and that both statutes concern trial court review of agency decisions, there is no reason to interpret the “affirmed by operation of law” provision in § 32-6-95(c) differently from the interpretation of the similar provision in § 34-9-105(b). *Walker v. DOT*, 279 Ga. App. 287, 630 S.E.2d 878 (2006).

32-6-96. Authority of department to enter upon private lands to implement administrative decisions; reimbursement of department for expenses; return or disposition of stored sign remnants.

(a) After notifying the landowner by registered or certified mail or statutory overnight delivery, in cases where an administrative order has been issued by the commissioner or his designee, hearing officer, or others requiring the removal of an illegal outdoor advertising sign and the order has become a final decision, the department shall be authorized to enter upon privately owned lands for the purposes of effectuating the administrative order requiring disassembly and removal of illegal signs, provided the order issued authorizes this action by the department.

(b) The disassembly and removal of any illegal sign by the department shall begin only after an inspection of the sign site has been made by an employee of the department and it is found that the sign has not been removed and an affidavit of the employee reflecting this finding has been filed by the department in the closed administrative record in the case. When the department disassembles and removes a sign, it shall be done as expeditiously as reasonably possible during daylight hours of regular working days, and it shall be done in a manner so as to cause as little inconvenience to the property owner as is possible under the circumstances. The outdoor advertising sign shall be removed to the nearest convenient field or district office of the department which is suitable for storage of the sign.

(c) An itemization of the expenses incurred by the department for the disassembly, removal, transportation, and storage may be kept and a statement for the expenses incurred may be sent via certified mail or statutory overnight delivery to the party or parties against whom the order requiring the disassembly and removal is directed. It shall be the duty of the party or parties to reimburse the department for the expenses incurred by the department for the disassembly, removal, transportation, and storage of the sign. In the event the expenses are not paid in full within 30 days of receipt of the itemized statement, the department in its discretion may:

- (1) Institute a civil action to recover these unpaid expenses;
- (2) Utilize any other collection procedures authorized by law; or
- (3) Refuse to issue a permit or permits to the party or parties from whom the expenses are due for any outdoor advertising site until such expenses are paid.

However, if the party or parties dispute the itemized amount or dispute that the expenses are due, the party or parties may deposit the sum

claimed due with the department or post a bond with good security in an amount equal to the sum claimed due, such bond to be approved by the department, and the party or parties shall then request a hearing and the controversy shall be decided in accordance with Code Sections 50-13-13 through 50-13-18. Until such a final determination is made, the department shall not refuse to issue a permit or permits.

(d) If the party or parties against whom the order is directed pay the itemized expenses within 30 days from the receipt of the statement and requests the right to retrieve the stored remains of the sign at the time of payment, the department shall allow the party or parties to retrieve the sign remains within a reasonable period of time. If the party or parties against whom the order is directed fail to pay the itemized expenses within 30 days of the receipt of the statement, or if they timely pay the expenses but fail to request the right to retrieve the sign remains within a timely period or, if after making a timely request they fail to retrieve the sign remains within a timely period, then the department is authorized to dispose of the stored signs, or remnants thereof, in any lawful manner the department deems appropriate. Any other provisions of this or any other law to the contrary notwithstanding, any party or parties against whom any order is issued shall have the right to seek relief directly in the superior court. (Ga. L. 1971, Ex. Sess., p. 5, § 19; Code 1933, § 95A-931, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1980, p. 1017, § 9; Ga. L. 1982, p. 3, § 32; Ga. L. 1996, p. 6, § 32; Ga. L. 2000, p. 1589, § 3.)

Editor's notes. — Ga. L. 2000, p. 1589, § 16, not codified by the General Assembly, provided that the 2000 amendment

was applicable to notices delivered on or after July 1, 2000.

OPINIONS OF THE ATTORNEY GENERAL

Editor's notes. — In light of the similarity of the statutory provisions, opinions under former Code 1933, § 95-2006 and former Ga. L. 1967, p. 423, which were subsequently repealed but were succeeded by provisions in this Code section, are included in the annotations for this Code section.

Procedures for disposal of confiscated signs. — When advertising signs are removed from state highway property, the Department of Transportation must

first send a 30 day notice to the owner of the signs, and then store the signs for a reasonable length of time, during which time the owner may claim the signs; if the signs are unclaimed after a reasonable length of time such signs may be treated as abandoned property and disposed of in any manner, within the law, the department deems appropriate. 1971 Op. Att'y Gen. No. 71-24 (decided under former Ga. L. 1967, p. 423).

32-6-97. Construction of part.

Nothing in this part shall be construed to abrogate or affect any lawful ordinance, regulation, or resolution which is more restrictive

than this part. (Ga. L. 1971, Ex. Sess., p. 5, § 20; Code 1933, § 95A-932, enacted by Ga. L. 1973, p. 947, § 1.)

JUDICIAL DECISIONS

State law has not preempted police power authority of municipalities to regulate the location and maintenance of outdoor advertising signs within the municipalities' territorial jurisdictions. *City*

of Doraville v. Turner Communications Corp., 236 Ga. 385, 223 S.E.2d 798 (1976).

Cited in Lamar Co., L.L.C. v. City of Marietta, 538 F. Supp. 2d 1366 (N.D. Ga. 2008).

OPINIONS OF THE ATTORNEY GENERAL

General statutes control over local ordinances. — When issuing permits for outdoor advertising devices, the Department of Transportation must be guided by the law, notwithstanding the local zoning ordinances. 1975 Op. Att'y Gen. No. 75-24.

When permit may issue for advertising in forest-agricultural district. — If, in the Department of Transportation's uniform application of the law, one

or more of the following activities, that is, animal hospitals, golf courses, dredging, land fill, or the excavation of natural materials, boat marinas, bait houses, swimming beaches, and radio and television stations, are commonly or generally recognized as commercial, the department may issue permits for outdoor advertising devices in the forest-agricultural district. 1975 Op. Att'y Gen. No. 75-24.

Municipality's power to permit private

owner to construct building or structure overhanging or crossing the air space above public street or sidewalk, 76 ALR2d 896.

ARTICLE 4

LIMITED-ACCESS ROADS

32-6-110. "Local service road" defined.

As used in this article, the term "local service road" means any public road, whether existing at the time of the designation of a limited-access road or established thereafter, which serves the owner or occupant of any land or improvements abutting a limited-access road and which gives a means of ingress to and egress from any such lands or improvements. (Ga. L. 1955, p. 559, § 2; Code 1933, § 95A-935, enacted by Ga. L. 1973, p. 947, § 1.)

JUDICIAL DECISIONS

Cited in Dept. of Transp. v. Worley, 150 Ga. App. 768, 258 S.E.2d 595 (1979).

RESEARCH REFERENCES

ALR. — Abutting owner's right to damages for limitation of access caused by conversion of conventional road into limited-access highway, 42 ALR3d 13.

Measure and elements of damage for limitation of access caused by conversion of conventional road into limited-access highway, 42 ALR3d 148.

32-6-111. Establishment and maintenance of limited-access roads.

(a) The department or a county or a municipality in this state, acting alone or in cooperation with each other or with any federal, state, or local agency, is authorized and empowered to plan, designate, establish, regulate, abandon, alter, improve, maintain, and provide limited-access public roads wherever the department or such authorities consider that traffic conditions, present or future, justify such special facilities, provided that the term "traffic conditions, present or future, justifying such special facilities" shall be construed to mean a road having present traffic volumes requiring a minimum of four lanes of road or traffic volumes estimated to be accommodated by the road within a period not to exceed 20 years from the date of such consideration that will require a minimum of four lanes of road; provided, further, that within municipalities such authorization for limited-access public roads shall be subject to such municipal consent as may be provided by law, except that such municipal consent is not necessary for any limited-access road if the limited-access road includes space or other provisions for the construction of a heavy rail line as a part of a public transportation system or a rapid busway operating on a designated lane as a part of a public transportation system and such public transportation system is a part of a regional transportation plan developed by the metropolitan planning organization or other such similar body.

(b) The department or a county or a municipality, in addition to the specific powers granted in this article, also shall have and may exercise, relative to limited-access facilities, any and all additional authority vested in them relative to other public roads in their jurisdiction. (Ga. L. 1955, p. 559, § 3; Code 1933, § 95A-936, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1989, p. 163, § 1.)

Cross references. — Manner of operation of motor vehicles on divided high-

ways and controlled-access roadways, § 40-6-50 et seq.

JUDICIAL DECISIONS

Resolution and ordinance authorizing land transfer constituted "municipal consent" as well as "cooperation" between city and the Department of Transportation and thus estopped city from revoking

the department's consent to construction of parkway. DOT v. City of Atlanta, 255 Ga. 124, 337 S.E.2d 327 (1985).

No need to condemn "right of access" not existing previously. — Con-

demnor creating a limited access highway does not have to condemn a purported "right of access" where none has previously existed. *DOT v. Hardin*, 231 Ga. 359, 201 S.E.2d 441 (1973).

Political subdivisions not liable for each others' torts in joint project. — While the law authorizes the cooperation of counties and municipal corporations with the Department of Transportation for the purpose of establishing limited access highways, there is nothing in the statute or in the law generally which expressly or by implication makes one of the cooperating governmental entities liable for the unilateral tortious acts of an-

other cooperating governmental entity in a project of this type. *Madden v. Fulton County*, 102 Ga. App. 19, 115 S.E.2d 406 (1960).

Courts may, and the Court of Appeals does, take judicial cognizance that municipalities and counties are separately created and possess divergent powers; accordingly, the unilateral action of one may not be construed as imposing liability upon the other even though the action taken by the one may be under a statute authorizing a cooperative effort. *Madden v. Fulton County*, 102 Ga. App. 19, 115 S.E.2d 406 (1960).

Abutting owner's right to damages or other relief for loss of access because of limited-access highway or street, 43 ALR2d 1072; 42 ALR3d 13; 42 ALR3d 148.

32-6-112. Acquisition of property and property rights.

The department, a county, or a municipality may acquire private property and property rights for limited-access facilities and service roads, including rights of access, of view, of air, and of light through gift, devise, purchase, or condemnation in the same manner as such governmental units are authorized by law to acquire such property or property rights in connection with public roads within their respective jurisdictions. Public property or an interest therein may be acquired for such purposes by the department or by a county or municipality by any method authorized by law for such acquisition other than condemnation. The acquisition of public property or an interest therein for such purposes by condemnation may be accomplished by the department pursuant to the provisions of subsection (b) of Code Section 32-3-4 when such acquisition is approved by the State Commission on the Condemnation of Public Property as provided in Code Section 50-16-183. As used in this Code section, the term "public property" has the meaning provided for in Code Section 50-16-180. In the process of acquiring property or property rights for any limited-access facility, the department or the county or municipality, in its discretion, may acquire an entire lot, block, or tract of land if, by so doing, the interest of the public will best be served. (Ga. L. 1955, p. 559, § 5; Code 1933, § 95A-938, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1986, p. 1187, § 5.)

Law reviews. — For annual survey of local government law, see 38 Mercer L. Rev. 289 (1986).

JUDICIAL DECISIONS

Department lacks power to condemn public property. — O.C.G.A. § 32-6-112 does not confer on the Department of Transportation the power to condemn public property as the law only authorizes the department to acquire

property “in the same manner” as the department is otherwise authorized by law to acquire property. *DOT v. City of Atlanta*, 255 Ga. 124, 337 S.E.2d 327 (1985).

ALR. — Abutting owner’s right to damages or limitation of access caused by conversion of conventional road into limited-access highway, 42 ALR3d 13.

Measure and elements of damage for limitation of access caused by conversion of conventional road into limited-access highway, 52 ALR3d 148.

32-6-113. Design of limited-access roads.

Limited-access roads may be so designed as to regulate, restrict, or prohibit access thereto so as to best serve the traffic for which such facility is intended. The authority designating and establishing any limited-access road is authorized to divide and separate such highway into separate roadways by the construction of raised curbs, central dividing sections, or other physical separations or by designating such separate roadways by signs, markers, or stripes; to designate the proper lanes for traffic moving in opposite directions; and to prohibit the making of turns at specified points. The designating authority may recommend to the commissioner of public safety or, if the roads in question are in a municipality, to the municipality that there be fixed on such roads and on the separate lanes thereof such rates of speed as are deemed in the public interest. No person shall have any right of ingress to or egress from or passage across any limited-access road to or from abutting lands except at the designated points to which access may be permitted and under such arrangements and conditions as may be specified from time to time. (Ga. L. 1955, p. 559, § 4; Code 1933, § 95A-937, enacted by Ga. L. 1973, p. 947, § 1.)

JUDICIAL DECISIONS

Property condemned for limited access highway. — In view of this section and the ruling in *Department of Transp. v. Hardin*, 231 Ga. 359, 201 S.E.2d 441 (1973), no right of access to the limited-access highway exists in one whose property is condemned for a high-

way. *State Hwy. Dep’t v. Kinsey*, 131 Ga. App. 770, 206 S.E.2d 835 (1974) (see O.C.G.A. § 32-6-113).

Contiguous landowners have no right of access to limited access highways. — This provision has effect of preventing a property right of access from

arising for benefit of contiguous landowners in newly created limited access highway. DOT v. Hardin, 231 Ga. 359, 201 S.E.2d 441 (1973) (see O.C.G.A. § 32-6-113).

No condemnation necessary when

no prior right of access. — Condemnor creating limited access highway does not have to condemn a purported “right of access” when none has previously existed. DOT v. Hardin, 231 Ga. 359, 201 S.E.2d 441 (1973).

Laws of road or traffic regulation as

affected by closing of street or highway to general public or restriction of its use to special class of persons, 157 ALR 1164.

32-6-114. Designation of limited-access roads; elimination of intersections at grade.

The department, a county, or a municipality may designate and establish limited-access roads as new or additional facilities or may designate or establish existing public roads to be limited-access roads. The department or the counties or municipalities shall have authority to provide for the elimination of intersections at grade of limited-access highways with existing state, county, or municipal public roads or railroad rights of way by grade separation or local service roads or by closing off such roads or streets at the right of way boundary line of such limited-access road. After the establishment of any limited-access road, no public road which is not a part of such facility shall intersect the same at grade. No public road shall be opened into or connected with any established limited-access road without the consent of the governmental authority having jurisdiction of such limited-access road, in the same manner as such governmental units are authorized by law. (Ga. L. 1955, p. 559, § 6; Code 1933, § 95A-939, enacted by Ga. L. 1973, p. 947, § 1.)

Cross references. — Elimination of railroad grade crossings, § 32-6-193 et seq.

JUDICIAL DECISIONS

No condemnation necessary when no prior right of access. — Condemnor creating limited access highway need not

condemn purported “right of access” when none previously existed. DOT v. Hardin, 231 Ga. 359, 201 S.E.2d 441 (1973).

its use to special class of persons, 157 ALR 1164.

32-6-115. Conducting commercial enterprises or activities on property on which limited-access roads have been constructed.

Except as otherwise provided in this Code section and Code Section 32-6-116, no commercial enterprise or activities shall be authorized or conducted by the department or any other agency or by a county or municipality of the state, within or on the property on which have been constructed limited-access roads as defined in this article, provided that the term “commercial enterprise or activities” shall not be so construed as to prevent the installation of public utility facilities, to the extent that it is authorized by law, or as to prevent the proper management of property acquired for future construction of public roads, including limited-access roads, as such acquisition is authorized in Article 1 of Chapter 3 of this title. (Ga. L. 1955, p. 559, § 3; Code 1933, § 95A-936, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1973, p. 1401, § 1.)

JUDICIAL DECISIONS

Cooperating governmental entities not liable for each other’s torts. — While the law authorizes cooperation of counties and municipal corporations with the State Highway Department (now Department of Transportation) for the purpose of establishing limited access highways, there is nothing in statute or in the

law generally which expressly or by implication makes one of the cooperating governmental entities liable for unilateral tortious acts of another cooperating governmental entity in a project of this type. *Madden v. Fulton County*, 102 Ga. App. 19, 115 S.E.2d 406 (1960).

OPINIONS OF THE ATTORNEY GENERAL

Authority to issue license for rail line. — Department of Transportation has authority to issue a revocable license to a company constructing and operating a rapid rail passenger service line to cross

the rights-of-way of several state routes so long as consideration is received which represents a substantial benefit to the public. 1995 Op. Att’y Gen. No. 95-45.

other relief for loss of access because of limited-access highway or street, 43 ALR2d 1072; 42 ALR3d 13; 42 ALR3d 148.

32-6-116. Installation and operation of vending machines in safety rest areas on rights of way of state highway system.

The department is authorized to install or provide for the installation of and to operate or provide for the operation of vending machines in safety rest areas constructed on or located on the rights of way of the

state highway system. The vending machines may dispense nonalcoholic beverages, snacks, candy, cigarettes, and other articles as determined by the department to be necessary or desirable for the traveling public at reasonable prices. The prices charged for these products shall approximate the prevailing rate within the area for similar items so as not to compete unfairly with private enterprise, such prices to be set by the department. (Code 1933, § 95A-936.1, enacted by Ga. L. 1979, p. 132, § 3.)

Cross references. — Authority of department to provide information to traveling public at safety rest areas, § 32-2-4.

ALR. — Effect of expiration of charter of turnpike or tollroad company on title to road, 30 ALR 206.

32-6-117. Lease of air rights.

The department is authorized to lease by negotiation air rights over existing or proposed limited-access highways for development as commercial enterprises or activities. Prior to entering into any negotiations for the lease of such air rights, the department shall advertise its intent to negotiate the lease of such air rights at least once a week for four consecutive weeks in one or more newspapers of general circulation in the county or counties where the air rights to be leased are situated and in one or more legal organs in Fulton County. Any person, firm, or corporation leasing such air rights shall reimburse the department for all costs, including administrative costs, incurred by the department in connection with the negotiation of said lease. Furthermore, when two or more offers are received by the department for a lease of air rights, the highest responsible offer shall be accepted by the department. The department shall establish a minimum negotiated price, based upon competent appraisal; and the final negotiated amount shall not be less than this appraisal. (Code 1933, § 95A-936, enacted by Ga. L. 1973, p. 1401, § 1.)

135 Ga. App. 377, 218 S.E.2d 41 (1975).

32-6-119. Effect of article on Coastal Highway District and Coastal Scenic Highway Authority.

This article shall in no way take away from, impair, or infringe upon the authority, duty, power, or obligations of the Coastal Highway District or the Coastal Scenic Highway Authority. (Ga. L. 1955, p. 559, § 9; Code 1933, § 95A-941, enacted by Ga. L. 1973, p. 947, § 1.)

ARTICLE 5**COMMERCIAL PROPERTY AND SUBDIVISIONS****PART 1****COMMERCIAL PROPERTY****32-6-130. “Commercial driveway” defined.**

As used in this part, the term “commercial driveway” means any private entrance, exit, ramp, tunnel, bridge, side road, or other vehicular passageway to any property used for commercial purposes, except a farm or a dwelling house not exceeding a four-family capacity, and leading to or from any public road on the state highway system. (Code 1933, § 95A-942, enacted by Ga. L. 1973, p. 947, § 1.)

32-6-131. Permit requirement as to construction or improvement of commercial driveways; authority of department to close driveways for violations.

It shall be unlawful for any person to construct a new commercial driveway or to reconstruct, alter, or improve any existing commercial driveway without first obtaining a permit from the department therefor and complying with the department regulations authorized by Code Section 32-6-133. A violation of this Code section, in addition to being unlawful, shall entitle the department to barricade, displace, or otherwise close such driveway and to collect the costs therefor from the violator as provided in Code Section 32-6-134. (Code 1933, § 95A-943, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1974, p. 1422, § 34.)

JUDICIAL DECISIONS

Purpose of section. — By requiring permits for commercial access to state roads, the legislative intent was to promote public safety by mandating Department of Transportation oversight as to whether, among other things, every new or changed commercial driveway is, in fact, safe to the public. *Keith v. Beard*, 219 Ga. App. 190, 464 S.E.2d 633 (1995).

Construction of unpermitted driveway negligence per se. — Motorcyclist who was injured in a collision with a vehicle that pulled out from an unpermitted commercial driveway into the motorcyclist's path was within the category of persons protected by O.C.G.A. § 32-6-131 and, from the evidence, the jury could determine that the construction or maintenance of the driveway in violation of that section would be negligence per se. *Keith v. Beard*, 219 Ga. App. 190, 464 S.E.2d 633 (1995).

Exclusion of evidence proper. — In a wrongful death action, the trial court did not err by granting the defendants' motion in limine to exclude evidence related to an alleged violation of O.C.G.A. § 32-6-131 with regard to the plaintiff's allegation that the defendants violated § 32-6-131 or were negligent per se in failing to get a permit for a speed bump in which the decedent collided as the trial court properly reasoned that the relationship between the permitting process, the speed-bump, and the accident involving the decedent was too tenuous, making the evidence irrelevant; the plaintiff failed to include the theory of the alleged statutory and regulatory violation in the pretrial order; and the plaintiff failed to provide the defendants' counsel with notice of the regulations until the day before trial. *Land v. Ricks*, 288 Ga. App. 497, 654 S.E.2d 643 (2007).

32-6-132. Change or substitution of existing commercial driveways.

Any commercial driveway constructed prior to July 1, 1973, and adjudged by the department to be unsafe for the traveling public or in violation of department regulations promulgated pursuant to Code Section 32-6-133 may be changed or caused to be changed by the department so as to eliminate any unsafe features; or it may be closed or displaced by substitution therefor of another driveway at such place or of such design as may be deemed safe. Liability for the expense of such change or substitution will be determined in accordance with Code

Section 32-6-134. (Code 1933, § 95A-944, enacted by Ga. L. 1973, p. 947, § 1.)

32-6-133. Promulgation of regulations; charges for permits for commercial driveways.

(a) The department is granted the authority to promulgate uniform and reasonable regulations to carry out the provisions of this part. In making such regulations the department shall specify among other things the circumstances under which commercial driveway permits may be issued or revoked, provided that such regulations shall not deprive the landowner of reasonable access to the public road on the state highway system.

(b)(1) Where a person seeks a permit to construct, reconstruct, alter, or improve a commercial driveway and the commercial driveway will lie in whole or in part upon a parcel of land acquired for the state highway system from such person or the immediately preceding owner of such property from whom such person acquired title to such property, the total amount of money charged to such person as a condition of obtaining the permit shall not exceed the compensation received by such person or the immediately preceding owner of such property from whom such person acquired title to such property for such parcel of land upon its acquisition for the state highway system. This limitation shall apply to the total of all amounts of money of whatever character charged to such person as a condition of obtaining the permit, including without limitation any and all amounts charged for title to or use of land and any and all fees or other costs of any nature whatsoever. This subsection shall constitute only a maximum limitation upon the total amount of money charged under such circumstances and shall not in any manner be construed to establish a minimum amount of money to be charged under such circumstances.

(2) Except in the case of heirs and assigns, the limitation of the department to require a payment of more than the maximum amount received for such property as provided in paragraph (1) of this subsection shall last for only a ten-year period from the date of the initial acquisition of property by the department.

(3) This subsection shall apply with respect to land acquired for the state highway system prior to April 15, 1996, as well as land so acquired on or after April 15, 1996. (Code 1933, § 95A-946, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1996, p. 1010, § 4.)

Code Commission notes. — Pursuant to Code Section 28-9-5, in 1996, in subsection (b), “ten-year” was substituted for “ten year” in paragraph (b)(2) and, in paragraph (b)(3), “April 15, 1996,” was substituted for “its effective date” and

“April 15, 1996” was substituted for “the effective date of this subsection” at the end.

JUDICIAL DECISIONS

Cited in DOT v. Worley, 150 Ga. App. 768, 258 S.E.2d 595 (1979).

32-6-134. Procedure by department upon discovery of violation of Code Section 32-6-131; liability for expenses incurred in connection with changes made in commercial driveways.

(a) Upon discovery of a violation of Code Section 32-6-131, the department shall give written notice by certified mail or statutory overnight delivery to the offender to commence removing any offending condition within ten days of receipt of such notice. Upon failure to comply with such notice or to complete such work within a reasonable time after such notice, the department may remove, prevent, or rectify any offending condition by barricading or closing the commercial driveway or a portion thereof, or by other methods, and certify the expenses thereof for collection to the Attorney General.

(b) Where, in accordance with Code Section 32-6-132, a change is made in a commercial driveway in existence on July 1, 1973, the department shall be liable for the expenses thereof, provided that the commercial driveway so changed did not, before such change, provide an unsafe and unreasonable access from the abutting property, considering that there exists in the owner of the abutting property a private property right to have a reasonable access from such property to the public road as the same was and would have continued to be according to the mode of its original use. Before making any change or substitution in a commercial driveway in existence on July 1, 1973, when the department has determined that it shall not bear the expenses thereof, the department first shall give written notice to the abutting property owner to begin within 90 days the necessary change in or substitution of the driveway, provided that in the case of a nuisance such notice need be given only ten days in advance. Upon failure of the abutting property owner to complete the necessary change or substitution, the department may perform the necessary work and certify the expenses thereof to the Attorney General for collection. (Code 1933, § 95A-945, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2000, p. 1589, § 3.)

Editor's notes. — Ga. L. 2000, p. 1589, § 16, not codified by the General Assembly, provided that the 2000 amendment was applicable to notices delivered on or after July 1, 2000.

32-6-135. Effect of part on authority of counties and municipalities to regulate highways, roads, and streets.

Nothing in this part is intended to limit the authority of a county or a municipality to regulate highways, roads, or streets under their exclusive jurisdiction. (Code 1933, § 95A-947, enacted by Ga. L. 1973, p. 947, § 1.)

PART 2**SUBDIVISIONS**

Cross references. — Regulation of sale of subdivided lands generally, § 44-3-1 et seq.

32-6-150. “Subdivision” defined.

As used in this part, the term “subdivision” means all divisions of a tract or parcel of land into two or more lots, buildings, sites, or other divisions for the purpose, whether immediate or future, of sale, legacy, or building development; includes all division of land involving a new public road or a change in existing public roads or new drives, driveways, access ways, or changes that require access to the state right of way; includes resubdivision; and, where appropriate to the context, relates to the process of subdividing or to the land or area subdivided; provided, however, that the following are not included within this definition:

(1) The combination or recombination of portions of previously platted lots where the total number of lots is not increased and the resultant lots are equal to the standards of the municipality; and

(2) The division of land into parcels of five acres or more where no new street is involved. (Code 1933, § 95A-948, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2003, p. 613, § 1.)

32-6-151. Department recommendation as to approval or rejection of plat submitted by planning commission.

A planning commission shall submit two copies of the proposed subdivision plat to the department if such proposed subdivision includes or abuts on any part of the state highway system or where the proposed subdivision requires access to the state highway system. The department, within 30 days of receipt of the plat, shall recommend approval and note its recommendation on the copy to be returned to the planning commission or recommend rejection. Failure of the department to act within this 30 day period shall constitute approval. If the

plat is recommended for rejection, the reasons for rejection and requirements for approval shall be given the commission in writing; such rejection shall be binding on the planning commission unless the planning commission, by official action recorded in its minutes, overrules such department action. (Code 1933, § 95A-949, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2003, p. 613, § 2.)

Cross references. — Regulation of sale of subdivided lands generally, § 44-3-1 et seq.

32-6-152. Department approval or rejection of plat submitted by proprietor of subdivision.

The proprietor of a subdivision to be developed within a county or municipality which has not created a planning commission shall submit three copies of the plat to the department if such a proposed subdivision includes or abuts on any part of the state highway system or where the proposed subdivision requires access to the state highway system. The department, within 30 days of receipt of the plan, shall approve or reject it, with written reasons for such rejection and requirements for approval, and note such action on the copy to be returned to the proprietor as well as on the copy to be returned to the county or municipal governing authority concerned. Such rejection shall be binding on the county or municipality concerned unless the county or municipal governing authority concerned, by official action recorded in its minutes, overrules such department action. Failure of the department to act within the 30 day period provided in this Code section shall constitute approval. (Code 1933, § 95A-950, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2003, p. 613, § 3.)

Cross references. — Regulation of sale of subdivided lands generally, § 44-3-1 et seq.

32-6-153. Factors to be considered by department in making recommendations to planning commissions and in approving or rejecting plats.

Where the department is required to make recommendations to a planning commission under Code Section 32-6-151 or to approve a proposed plat under Code Section 32-6-152, the department, in addition to considering other factors, shall base its recommendation or approval on the following being provided for in the plat:

- (1) Dedication to the department in fee simple of any portion of the subdivision which includes any part of the state highway system,

such dedication to include land necessary for future widening of the state highway system; and

(2) An adequate provision for traffic safety in laying out public roads, drives, driveways, or access ways which enter the state highway system. (Code 1933, § 95A-951, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2003, p. 613, § 4.)

32-6-154. Effect of part on requirement as to commercial driveway permit.

Nothing in this part shall dispense with the requirement of obtaining a commercial driveway permit as set forth in Part 1 of this article. (Code 1933, § 95A-952, enacted by Ga. L. 1973, p. 947, § 1.)

ARTICLE 6 PUBLIC UTILITIES

PART 1

IN GENERAL

Administrative rules and regulations. — Maintenance, relocation, etc., of facilities of public utilities, Official Compilation of the Rules and Regulations of the State of Georgia, State Department of Transportation, Chapter 672-11.

32-6-170. Payment by Department of Transportation of costs of removal, relocation and adjustment of utility facilities necessitated by construction of public roads.

(a) The department is authorized to pay or participate in the payment of the costs of removing, relocating, or adjusting any of the following facilities or any component part thereof if they are owned by a municipal corporation, county, state agency, or by an authority created under the laws of Georgia pertaining to public utilities, without regard to whether such facilities were originally installed upon rights of way of the state highway system, a county road system, or a municipal street system, where such removal, relocation, or adjustment is made necessary by the construction or maintenance of any public road by the department: water distribution and sanitary sewer facilities and systems for producing, transmitting, or distributing communications, power, electricity, light, heat, gas, steam, waste, and storm water not connected with highway drainage, including fire and police signals, traffic-control devices, and street lighting systems.

(b) The department is authorized to pay or participate in the payment of the costs of removing, relocating, or making necessary adjustments to any of the following facilities or any component part thereof if

they are owned by a public utility that is publicly, privately, or cooperatively owned, without regard to whether such facilities were originally installed upon rights of way of the state highway system, a county road system, or a municipal street system, where the department has made the determination that (i) such payments are in the best interest of the public and necessary in order to expedite the staging of the project; and (ii) the costs of the removal, relocation, or adjustment of such facilities are included as part of the contract between the department and the department's roadway contractor for the project, provided that such removal, relocation, or adjustment is made necessary by the construction or maintenance of a public road by the department: water distribution and sanitary sewer facilities and systems for producing, transmitting, or distributing communications, power, electricity, light, heat, gas, steam, waste, and storm water not connected with highway drainage, including fire and police signals, traffic-control devices, and street lighting systems.

(c) As to municipal corporations, counties, state agencies, authorities controlled by such municipal corporations, counties, or other state agencies, and public utilities that are publicly, privately, or cooperatively owned, the department is authorized to waive provisions in existing permits and agreements in conflict with this article.

(d) The costs of removing, relocating, or adjusting the facilities listed in subsection (a) of this Code section, which costs the department is authorized to pay or participate in by this Code section, shall be limited to the costs of removing, relocating, or adjusting those facilities which are physically in place and in conflict with proposed construction and, where replacement is necessary, to the costs of replacement in kind. That proportion of the costs representing improvement or betterment in a facility shall be excluded from the costs eligible for payment or participation by the department under this Code section, except to the extent that such improvement or betterment is made necessary by the public road construction or maintenance.

(e) All costs incurred by the department under this Code section shall be deemed to be a part of the costs of the project requiring removal, relocation, or adjustment of any of the facilities listed in subsections (a) and (b) of this Code section. (Ga. L. 1961, p. 453, §§ 1-4; Ga. L. 1968, p. 345, §§ 1-3; Code 1933, § 95A-1001, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2007, p. 30, § 1/SB 19.)

JUDICIAL DECISIONS

Editor's notes. — In light of the similarity of the statutory provisions, decisions under former Code 1933, §§ 95-1701, 95-1715, 95-1724, which were subsequently repealed but were succeeded by provisions in this Code section, are included in the annotations for this Code section.

Department's authority to take property for relocation of gas line. — State Highway Department (now Department of Transportation) is authorized to take property for relocation of gas company's interstate gas line when it is in the interest of safety, and prevents inconve-

nience to the public using gas line and where acquisition is in furtherance of and reasonable for public state highway use. *Benton v. State Hwy. Dep't*, 111 Ga. App. 861, 143 S.E.2d 396 (1965) (decided under former Code 1933, §§ 95-1701, 95-1715, and 95-1724).

RESEARCH REFERENCES

ALR. — Constitutionality of state legislation to reimburse public utilities for cost of relocating their facilities because of highway construction, conditioned upon

federal reimbursement of the state under the terms of Federal-Aid Highway Act (23 U.S.C. § 123), 75 ALR2d 419.

32-6-171. Authority of department to order removal, relocation, or adjustment of utility facilities; giving notice to utility; relocation procedures; procedure by department upon failure of utility to remove facility; damages; mediation.

(a) Any utility using, occupying, or adjacent to any part of a public road which the department has undertaken to improve or intends to improve shall remove, relocate, or make the necessary adjustments to its facility when, in the reasonable opinion of the department, the facility constitutes an obstruction or interference with the use or safe operation of such road by the traveling public or when, in the reasonable opinion of the department, the facility will interfere with such contemplated construction or maintenance. In undertaking such removal, relocation, or adjustment, if the department has notified the utility in writing that the facility constitutes an obstruction or interference with the construction, use, or safe operation of the roadway, then the utility shall be exempt from the requirements of Code Sections 22-1-10 and 22-1-10.1. Nothing in this Code section shall be construed so as to deprive any utility relocated from a location in which it owned a property interest of compensation for such interest.

(b) Whenever the department reasonably determines it necessary to have a utility facility removed, relocated, or adjusted, the department shall give to the utility at least 60 days' written notice directing it to begin the physical removal, or relocation, or adjustment of such utility obstruction or interference. If such notice is part of a highway improvement project, it is normally provided at the date of advertisement or award. However, prior to the notice directing the physical removal, relocation, or adjustment of a utility facility, the utility and the department shall adhere to the department's utility relocation procedures for public road improvements which shall include but not be limited to the following:

(1) The submission by the department to the utility of a letter and set of preliminary plans for the proposed highway improvement project and the utility's submission to the department of written confirmation acknowledging receipt of the plans;

(2) The utility's submission to the department of plans showing existing and proposed locations of facilities within a reasonable time as specified by the department in the letter required under paragraph (1) of this subsection; provided, however, that the time specified by the department shall not be sooner than 30 days and shall not be greater than 120 days. If the utility fails to submit to the department the plans within the allotted 120 days, the department may no longer be required to pay the costs of removal, relocation, or adjustment as prescribed in subsection (b) of Code Section 32-6-170 even if those costs had previously been included in the contract between the department and the department's contractor; instead, such costs shall be borne by the utility; and

(3) The utility's submission shall include with the plans a work plan in a manner and time frame established by the department's written procedures and instructions.

If the utility does not thereafter begin removal, relocation, or adjustment within the time specified in the work plan, the department may give the utility a final notice directing that such removal, relocation, or adjustment shall commence not later than ten days from the receipt of such final notice. If such utility does not, within ten days from receipt of such final notice, begin to remove, relocate, or adjust the facility or, having so begun removal, relocation, or adjustment, thereafter fails to complete the removal, relocation, or adjustment within the time specified in the work plan, the department may exercise its right to obtain injunctive relief as provided in Code Section 32-6-175. If utility removal, relocation, or adjustment work is found necessary after the letting date of the highway improvement project, the utility shall provide a revised work plan within 30 calendar days after becoming aware of such additional work or upon receipt of the department's written notification advising of such additional work. The utility's revised work plan shall be reviewed by the department to ensure compliance with additional work.

(c) In addition to the foregoing, the owner of the utility may be responsible for and liable to the department or its contractors for documented damages resulting solely from failure on the part of the utility to comply with requirements of the submitted and approved work plan under the control of the utility. If the utility owner fails to provide a work plan or fails to complete the removal, relocation, or adjustment of its facilities in accordance with the work plan approved by the department, then the utility owner may be liable to the

contractor for delay costs incurred by the contractor and approved by the department which are caused by or which grow out of the failure of the utility owner to carry out and complete its work in accordance with the approved work plan or in a timely and reasonable manner if a work plan or revised work plan was not submitted. Upon notification in writing by the department or its contractors that the utility is liable for damages or delay costs, the utility company shall have 45 days from receipt of such letter to either pay the amount of the damages or delay costs to the department or its contractors or to request mediation as provided in subsection (d) of this Code section.

(d) The department's utility relocation procedures shall include, in addition to the provisions set forth in subsection (b) of this Code section, provisions for the establishment of mediation boards to hear and decide disputes that may arise between the department and the utility concerning (i) a work plan or revised work plan that has been submitted by the utility but not approved by the department; (ii) a contractor's claim for delay costs or other damages related to the utility's removal, relocation, or adjustment of its facilities; and (iii) any other matter related to the removal, relocation, or adjustment of the utility's facilities pursuant to this Code section. Such procedures shall include but not be limited to the following:

(1) Each mediation board shall consist of one mediator who shall be designated by the department, one mediator who shall be designated by the utility, and an independent mediator who shall be mutually selected by the department's designee and the utility's designee and shall serve as the presiding officer of the mediation board;

(2) The mediators shall hold a hearing with regard to each dispute that is submitted to the mediation board for resolution, shall provide notice of the hearing to each party involved in the dispute, and shall afford each party an opportunity to present evidence at the hearing; provided, however, that unless the parties otherwise agree, the provisions of Code Sections 50-13-13, 50-13-14, and 50-13-15, relating to proceedings in a contested case under the Georgia Administrative Procedure Act, shall not apply to the hearing before the mediation board;

(3) The mediators shall decide each issue presented to the mediation board by a majority vote of the mediators;

(4) The mediators shall issue a final decision in writing with regard to each dispute that is submitted to the mediation board for resolution and shall serve a copy of the final decision on each party involved in the dispute; and

(5) All final decisions of the mediation board shall be subject to de novo review in the Superior Court of Fulton County by way of a

petition for judicial review filed by the department or the utility within 30 days after service of the final decision.

(e) The department shall promulgate reasonable regulations governing the mediation board, including the procedural rules governing the mediation of a contested case and the creation of a list of qualified mediators. The department shall consult with the Georgia Utilities Coordinating Council in the development of these regulations, and these regulations shall be adopted by the department on or before January 1, 2008. (Code 1933, § 95A-1002, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2007, p. 30, § 2/SB 19; Ga. L. 2008, p. 922, § 1/HB 1026.)

ALR. — Constitutionality of state legislation to reimburse public utilities for cost of relocating their facilities because of highway construction, conditioned upon federal reimbursement of the state under the terms of Federal-Aid Highway Act (23 U.S.C. § 123), 75 ALR2d 419.

32-6-172. Authority of department to obtain replacement right of way for relocated utility.

(a) Whenever a public road improvement necessitates the acquisition by the department of a utility's privately owned rights of way and the relocation of such utility's facilities, the department may, with the written consent of the utility, provide a replacement right of way.

(b) Whenever a public road improvement requires the relocation of a utility occupying public road rights of way, the department may, at the written request of such utility, provide to the utility a right of way which is not on a public road right of way. In this event, the utility shall reimburse the department for the acquisition costs.

(c) Title to property acquired for utility relocations under subsection (a) or (b) of this Code section and as authorized by Code Section 32-3-1 may be transferred to such utility as authorized in Code Section 32-7-3. However, the procedures for sale of property as set forth in Code Section 32-7-4 shall not be applicable to the transfer of property acquired for utility relocation. Any such property transfer to the utility shall be

conveyed by the execution of a quitclaim deed by the commissioner. (Code 1933, § 95A-1003, enacted by Ga. L. 1973, p. 947, § 1.)

JUDICIAL DECISIONS

Editor's notes. — In light of the similarity of the statutory provisions, decisions under Ga. L. 1961, p. 517, as amended, which was subsequently repealed but was succeeded by provisions in this Code section, are included in the annotations for this Code section.

Property appropriation for location of gas company's interstate gas line. — State Highway Department (now

Department of Transportation) may take property for relocation of gas company's interstate gas line when it was in interest of safety and prevents inconvenience to public using gas line and when acquisition is in furtherance of and reasonably for a public state highway use. *Benton v. State Hwy. Dep't*, 111 Ga. App. 861, 143 S.E.2d 396 (1965) (decided under Ga. L. 1961, p. 517).

ALR. — Constitutionality of state legislation to reimburse public utilities for cost of relocating their facilities because of highway construction, conditioned upon

federal reimbursement of the state under the terms of Federal-Aid Highway Act (23 U.S.C. § 123), 75 ALR2d 419.

32-6-173. Payment of expenses of removal and relocation of utility facilities.

The expenses incurred by the department as a result of utility removal and relocation pursuant to subsection (b) of Code Section 32-6-171, including the cost of acquiring new land or interests therein pursuant to subsection (b) of Code Section 32-6-172, shall be paid out of the available appropriations of the department for the construction or maintenance of public roads. A statement of such expenses shall be submitted to the utility, which shall make payment to the department. In the event the utility does not make payment or arrange to make payment to the department within 60 days after the receipt of said statement, the department shall certify the amount for collection to the Attorney General. However, nothing in this Code section shall restrict the authority of the department pursuant to Code Section 32-6-170 to pay any or all of the expenses of removal and relocation of government owned utilities; and, furthermore, nothing in this article shall be construed so as to deprive any utility, relocated from a location in which it owned a property interest, of compensation for such property interest. (Code 1933, § 95A-1004, enacted by Ga. L. 1973, p. 947, § 1.)

JUDICIAL DECISIONS

Utility's right to compensation for loss of easement. — County may require a utility, at the utility's expense, to relocate the utility's equipment, even if the

county's right-of-way was obtained after the utility had obtained an easement for the equipment. But in turn the utility may seek just and adequate compensation for

the loss of the use of the utility's old easement, which loss would include the costs necessary to relocate to the new

easement. *Bibb County v. Georgia Power Co.*, 241 Ga. App. 131, 525 S.E.2d 136 (1999).

federal reimbursement of the state under the terms of Federal-Aid Highway Act (23 U.S.C. § 123), 75 ALR2d 419.

32-6-174. Promulgation of regulations by department.

The department may promulgate reasonable regulations governing the installation, construction, maintenance, renewal, removal, and relocation of pipes, mains, conduits, cables, wires, poles, towers, tracks, traffic and other such signals, and other equipment and appliances of any utility in, on, along, over, or under any part of the state highway system or any public road project which the department has undertaken or agreed to undertake or which has been completed by the department pursuant to its authority. In addition to the requirements of such department regulations, it shall be the responsibility of the utility to obtain whatever franchise is required by law. (Code 1933, § 95A-1005, enacted by Ga. L. 1973, p. 947, § 1.)

PART 2

RAILROADS

32-6-190. Duty to maintain grade crossings.

Any railroad whose track or tracks cross a public road at grade shall have a duty to maintain such grade crossings in such condition as to permit the safe and reasonable passage of public traffic. Such duty of maintenance shall include that portion of the public road lying between the track or tracks and for two feet beyond the ends of the crossties on each side and extending four feet beyond the traveled way or flush with the edge of a paved shoulder, whichever is greater, of such crossing. (Code 1933, § 95A-1006, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2002, p. 1050, § 1.)

Administrative rules and regulations. — Criteria for elimination of highway-rail grade crossings, Official Compilation of the Rules and Regulations of the State of Georgia, State Department of Transportation, Chapter 672-16.

Law reviews. — For note on the 2002 amendment of this Code section, see 19 Ga. St. U.L. Rev. 213 (2002).

JUDICIAL DECISIONS

Editor's notes. — In light of the similarity of the statutory provisions, decisions under former Code 1895, § 2220, former Code 1910, § 2673, and former Code 1933, § 94-503, which were subsequently repealed but were succeeded by provisions in this Code section, are included in the annotations for this Code section.

Section applies to road crossings, not to roads running parallel to railroads. *Collier v. Georgia R.R.*, 76 Ga. 611 (1886) (decided under former Code 1895, § 2220).

Section's applicability to excavation made for purpose of laying track. — Provisions of section apply to railroad company where public road is crossed only

by an excavation made for purpose of laying therein, across such public road, a railroad track of the company, and before any railroad track has been laid and before work of constructing railroad is completed across such public road. *Mixon v. Savannah & A. Ry.*, 152 Ga. 670, 111 S.E. 197 (1922) (decided under former Code 1910, § 2673).

Duty may extend beyond two feet. — O.C.G.A. § 32-6-190 strongly implies that the railroad's duty may extend beyond the two feet mentioned in the statute. *Easterwood v. CSX Transp., Inc.*, 933 F.2d 1548 (11th Cir. 1991), aff'd, 507 U.S. 658, 113 S. Ct. 1732, 123 L. Ed. 2d 387 (1993).

Effect of federal highway aid provi-

sions. — In the absence of a decision by a federally designated policymaker, state common law liabilities relating to the adequacy of railroad grade crossings are not affected by the federal highway aid provisions of the United States Code. *Easterwood v. CSX Transp., Inc.*, 933 F.2d 1548 (11th Cir. 1991), *aff'd*, 507 U.S. 658, 113 S. Ct. 1732, 123 L. Ed. 2d 387 (1993).

No compensation to railroad for mere enlargement of crossing. — When crossing of railroad track and public road is partially shifted in one direction and is more in nature of an enlargement than an entire change, railroad company is not entitled to compensation for cost of making structural change of the company's right of way at the crossing. *State Hwy. Bd. v. Georgia R.R. & Banking Co.*, 47 Ga. App. 652, 171 S.E. 176 (1933) (decided under former Code 1910, § 2673).

Common law action against railroad precluded. — Georgia Code of Public Transportation precluded a common law cause of action against a railroad for the failure to install adequate protective devices at a grade crossing on a public road since the railroad had not been requested to do so by the appropriate governmental entity. *Southern Ry. v. Georgia Kraft Co.*, 188 Ga. App. 623, 373 S.E.2d 774 (1988).

Railroad must maintain prescriptive public crossings. — When a crossing becomes a public crossing, by implication through being used by public and worked or treated by public authorities as part of a system of public highways in place where passageway is claimed and continuously used for a period of over 20 years, the crossing or passageway is considered the same as other public streets and highways intersecting railroads within a city's limits, and provisions of this section prevail. *Atlantic Coast Line R.R. v. Layne*, 88 Ga. App. 674, 77 S.E.2d 565 (1953) (decided under former Code 1933, § 94-503).

Liability where tracks of two railroad companies cross on same street.

— When there is a crossing of tracks of two railroad companies in a city street, it is ordinarily, as between the companies, the duty of the crossing company, at whose instance and for whose benefit the crossing was made, to keep the crossing in repair. *Macon Ry. & Light Co. v. Southern Ry.*, 28 Ga. App. 339, 110 S.E. 912, *cert. denied*, 28 Ga. App. 819 (1922) (decided under former Code 1910, § 2673).

When track of a railroad company crosses track of another railroad company in a city street, the duty of keeping the crossing in repair rests upon both companies, and either may and should make all necessary repairs, but the company making the repairs may recover the expense of such repairs from other company, if, as between the companies, the duty of making repairs was upon the latter. *Macon Ry. & Light Co. v. Southern Ry.*, 23 Ga. App. 339, 110 S.E. 912, *cert. denied*, 28 Ga. App. 819 (1922) (decided under former Code 1910, § 2673).

Railroad company's failure to comply with the company's duties under the law is negligence as a matter of law. *Southern Ry. v. Brooks*, 112 Ga. App. 324, 145 S.E.2d 76 (1965) (decided under former Code 1933, § 94-503).

Railroad liability for employee's or independent contractor's negligence.

— Wrongful act or negligence of employee or independent contractor in failing to keep public road in good order where crossed by an excavation made for purpose of constructing a railroad therein, being an act in violation of this section, the railroad is not absolved from liability upon ground that alleged tort was committed by employee or independent contractor. *Mixon v. Savannah & A. Ry.*, 28 Ga. App. 390, 111 S.E. 690 (1922) (decided under former Code 1910, § 2673).

Cited in *Central of Ga. R.R. v. Schnadig Corp.*, 139 Ga. App. 193, 228 S.E.2d 165 (1976); *Peluso v. Central of Ga. R.R.*, 165 Ga. App. 215, 299 S.E.2d 51 (1983).

ALR. — Customary or statutory signal from train as measure of railroad's duty as to warning at highway crossing, 5 ALR2d 112.

Duty of railroad company to maintain flagman at crossing, 24 ALR2d 1161.

32-6-191. Responsibility for construction of new grade crossings and relocation of existing grade crossings.

(a) Where a new grade crossing results from the construction of a new or relocated railroad line, the railroad shall be responsible for and bear all expenses of the construction of such grade crossing. The department, when such a grade crossing is on the state highway system, a county, when such a grade crossing is on its county road system, or a municipality, when such a grade crossing is on its municipal street system, may impose such terms and conditions on the nature and manner of construction of such a grade crossing, including the installation of protective devices, as may be necessary for the safe and reasonable passage of public traffic.

(b) Where a new grade crossing results from the construction of a new or relocated public road, the department, when such road is on the state highway system, a county, when such road is on its county road system, or a municipality, when such road is on its municipal street system, shall be responsible for and bear all expenses of the construction of such grade crossing. The railroad may impose such terms and conditions on the nature and manner of construction of such a grade crossing, including the installation of protective devices, as may be reasonably necessary for the safety and convenience of the traveling public. While on the right of way of any railroad during the construction of any such grade crossing, employees or contractors of the department or any county or municipality shall be subject to such rules and regulations of the railroad as may be reasonably necessary for the protection of its traffic, passengers, property, and its safe operation.

(c) Notwithstanding subsection (b) of this Code section, the department, in respect to a grade crossing on the state highway system, a county, in respect to a grade crossing on its county road system, or a municipality, in respect to a grade crossing on its municipal street system, may close and relocate an existing grade crossing by relocation of a part of the public road involved, whenever such closing and relocation is reasonably necessary in the interest of public safety; and the procedure for such closing and relocation and the division of the costs of construction shall be the same as provided in Code Sections 32-6-194 and 32-6-195 for elimination of a grade crossing by construction of an underpass or overpass.

(d) Where there is disagreement as to the terms and conditions imposed on the nature and manner of construction by the department, county, or municipality pursuant to subsection (a) of this Code section or by the railroad pursuant to subsection (b) of this Code section, the

department shall make such determination after reasonable opportunity for a hearing is given to all parties concerned. (Code 1933, § 95A-1007, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1982, p. 3, § 32; Ga. L. 2002, p. 1050, § 3.)

Law reviews. — For note on the 2002 amendment of this Code section, see 19 Ga. St. U.L. Rev. 213 (2002).

JUDICIAL DECISIONS

Section applicable to new grade crossings only. — O.C.G.A. § 32-6-191 by the statute's plain language applies only to a new grade crossing and is inapplicable if there is neither a new nor relocated railroad line. *Chatham County Comm'rs v. Seaboard Coast Line R.R.*, 169 Ga. App. 607, 314 S.E.2d 449 (1984).

RESEARCH REFERENCES

ALR. — Customary or statutory signal from train as measure of railroad's duty as to warning at highway crossing, 5 ALR2d 112.

32-6-192. Construction of underpass or overpass in lieu of grade crossing; procedure; costs; maintenance.

When the department, the county, or the municipality having jurisdiction of a public road determines that it is reasonably necessary and in the public interest to use an underpass or overpass instead of a grade crossing at a new or relocated railroad track or tracks or at a new or relocated public road, the procedure to be followed, the division of costs, and the maintenance responsibilities shall be the same as are provided in Code Sections 32-6-194 through 32-6-198. (Ga. L. 1927, p. 299, § 3; Code 1933, § 95-1903; Code 1933, § 95A-1015, enacted by Ga. L. 1973, p. 947, § 1.)

32-6-193. Authority of department, counties, and municipalities to eliminate grade crossings.

When it is reasonably necessary in the interest of public safety, the department, in respect to the state highway system, a county, in respect to its county road system, or a municipality, in respect to its municipal street system, may authorize and direct the elimination of a grade crossing by construction of an underpass or overpass or by physical removal of the grade crossing and barricading or removing the approaches thereto without construction of an underpass or overpass, provided that any grade crossing elimination shall be in accordance with this part and that no grade crossing on a county road system or municipal street system shall be eliminated by construction of an underpass or overpass upon order of the county or municipality until

and unless the department shall approve the plans and specifications of the proposed construction. No grade crossing on a public road shall be permanently closed except by elimination in accordance with this part. (Ga. L. 1927, p. 299, § 1; Code 1933, § 95-1902; Code 1933, § 95A-1008, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2002, p. 1050, § 2.)

Law reviews. — For note on the 2002 amendment of this Code section, see 19 Ga. St. U.L. Rev. 213 (2002).

32-6-193.1. Elimination of grade crossings by physical removal; procedures.

(a) The department shall by rule or regulation prescribe uniform criteria for its own use and that of local governing authorities in assessing whether elimination of a grade crossing on a public road by physical removal of the grade crossing and barricading or removing the approaches thereto without construction of an underpass or overpass is reasonably necessary in the interest of public safety. For purposes of this Code section, “reasonably necessary in the interest of public safety” means that the enhancement of public safety resulting from such elimination of the grade crossing will outweigh any inconvenience to the reasonable passage of public traffic, specifically including without limitation emergency vehicle traffic, caused by such rerouting of traffic. Such criteria shall include consideration of each of the following factors:

(1) Number and timetable speeds of passenger trains operated through the crossing;

(2) Number and timetable speeds of freight trains operated through the crossing;

(3) Distance to alternate crossings;

(4) Accident history of the crossing for the immediately preceding five-year period;

(5) Type of warning device present at the crossing, if any;

(6) The alignments, horizontal and vertical, of the roadway and the railroad and the angle of the intersection of those alignments;

(7) The average daily traffic volume in proportion to the population of the municipality if the crossing is located within a municipality or the population of the county if the crossing is located within an unincorporated area of a county;

(8) The posted speed limit over the crossing;

(9) The effect of closing the crossing upon access by persons utilizing:

(A) Hospital or medical facilities and public health departments, specifically including without limitation utilization by medical personnel;

(B) Facilities of federal, state, or local government, specifically including without limitation court, postal, library, sanitation, and park facilities; and

(C) Commercial, industrial, and other areas of public commerce;

(10) Any use of the crossing by:

(A) Trucks carrying hazardous material;

(B) Vehicles carrying passengers for hire;

(C) School buses;

(D) Emergency vehicles; or

(E) Public or private utility vehicles, specifically including without limitation water, sewer, natural gas, and electric utility maintenance and repair vehicles; and

(11) Any other relevant factors as prescribed by the department.

(b)(1) Any railroad may file a written petition requesting an order to eliminate a grade crossing on a public road by physical removal of the grade crossing and barricading or removing the approaches thereto without construction of an underpass or overpass. Any such petition shall be filed by certified mail or statutory overnight delivery, return receipt requested, with the department in respect to the state highway system, a county governing authority in respect to its county road system, or a municipal governing authority in respect to its municipal street system.

(2) Any petition by a railroad under this subsection shall include without limitation information as to each of the factors set forth in paragraphs (1) through (5) of subsection (a) of this Code section.

(3) The department or the local governing authority, whichever is applicable, shall conduct a public hearing on the matter prior to deciding whether to grant or deny such a petition.

(4)(A) No railroad shall have a duty to file a petition for elimination of a grade crossing as authorized by this subsection.

(B) Neither the failure of a railroad to file such a petition nor any decision by the department or any local governing authority regarding such a petition shall give rise to a cause of action against the railroad, the department, or a local governing authority by a person for injuries or damages arising from the existence or use of such crossing.

(c)(1) If the department in respect to the state highway system, a county governing authority in respect to its county road system, or a municipal governing authority in respect to its municipal street system determines that elimination of a grade crossing in accordance with this Code section is reasonably necessary in the interest of public safety, the department or the local governing authority may issue an order to eliminate the crossing. Such order shall be in writing, and a copy shall be served upon the railroad. If a local governing authority issues such an order, it shall make a record of its findings and transmit a copy of the same along with the order to the department.

(2) If the department in respect to the state highway system, a county governing authority in respect to its county road system, or a municipal governing authority in respect to its municipal street system determines that elimination of a grade crossing in accordance with this Code section is not reasonably necessary in the interest of public safety, the department or the local governing authority may issue an order denying a petition to eliminate the crossing. Such order shall be in writing, and a copy shall be served upon the railroad. If a local governing authority denies a petition, it shall make a written record of its findings and transmit a copy of the same along with the order and petition to the department.

(3)(A) Any railroad aggrieved by an order of a local governing authority under this subsection may make a written request to the department for review of such order. Such request shall be accompanied by a \$500.00 filing fee. The department shall within 60 days after the filing of such request review the matter.

(B) Upon review of the order and findings of the local governing authority and any filings by the railroad, if the department determines that elimination of a grade crossing in accordance with this Code section is not reasonably necessary in the interest of public safety, the department shall order that the crossing shall remain open.

(C) Upon review of the order and findings of the local governing authority and any filings by the railroad, if the department determines that elimination of a grade crossing in accordance with this Code section is reasonably necessary in the interest of public safety, the department shall issue an order to eliminate the crossing.

(D) Any such order of the department shall be in writing, and a copy of the order shall be served upon the railroad and the local governing authority. As part of such order, the department shall assess all its costs of investigating and reviewing the matter

against the railroad if an order for the crossing to remain open is issued or against the county or municipality if an order to eliminate the crossing is issued, and the party so assessed shall be liable therefor to the department; provided, however, that any filing fee paid to the department by a railroad shall be applied to any such amount assessed against the railroad, and the balance of such filing fee, if any, shall be refunded to the railroad. The department shall keep detailed records of its costs of investigation and review for purposes of this subparagraph, and such records shall be subject to public inspection as provided by Article 4 of Chapter 18 of Title 50.

(d) If an order to close a grade crossing is issued, the railroad shall at its expense physically remove the crossing from the tracks and for two feet beyond the ends of the crossties on each side and extending four feet beyond the traveled way or flush with the edge of a paved shoulder, whichever is greater, of such crossing and erect a department approved barricade; and the department in respect to the state highway system, the county in respect to its county road system, or the municipality in respect to its municipal street system may at its expense remove approaches to the crossing. The provisions of Code Section 32-6-195 for division of costs of elimination of a grade crossing by construction of an underpass or overpass shall not apply to elimination of any grade crossing under this Code section. (Code 1981, § 32-6-193.1, enacted by Ga. L. 2002, p. 1050, § 4; Ga. L. 2004, p. 376, § 1.)

Administrative rules and regulations. — Criteria for elimination of highway-rail grade crossings, Official Compilation of the Rules and Regulations of the State of Georgia, State Department of Transportation, Chapter 672-16.

Law reviews. — For note on the 2002 enactment of this Code section, see 19 Ga. St. U.L. Rev. 213 (2002).

32-6-194. Procedure for grade crossing elimination.

(a) Whenever the department, a county, or a municipality shall decide to eliminate any grade crossing on its respective public road system by means of an underpass or overpass, prompt notice of such decision shall be given to the railroad or railroads involved; and within 30 days thereafter the representatives of the department, the county, or the municipality and of the railroads involved shall meet and, within 90 days, agree to a plan and specifications for the construction of a grade separation structure. Any such agreement between a county or municipality and a railroad shall be submitted to the department for its approval; and work leading to the elimination of the grade crossing pursuant to the agreement shall not commence until and unless the department approves the same. The department, county, or municipality, by agreement with the railroad or railroads involved, may apportion

the work to be done in the construction of such grade separation structure between the railroad or railroads and the department or the county or the municipality.

(b) If agreement is not reached within 90 days, the department, county, or municipality may proceed with construction of a grade separation structure or may by written order direct the railroad or railroads involved to proceed with the construction of a grade separation structure according to the plan and specifications accompanying such order, provided that no work shall be begun on any grade separation structure on a county or municipal public road system until and unless the department approves the plan and specifications of such structure. It shall be the duty of said railroad to begin work on any such grade separation structure within four months after receipt of an order to that effect and to complete that structure within a reasonable time, provided that the railroad shall not be required to do the actual physical work of providing approaches by fill to an overpass or the excavating beneath an underpass or the approaches thereto, although the cost of such work shall be considered as part of the costs of the grade crossing elimination, whether actually performed by the railroad, the department, the county, or the municipality; and such costs shall be apportioned as provided in Code Section 32-6-195. If the railroad does not begin work within four months after receipt of an order to that effect, the department, county, or municipality may proceed with the construction of the proposed grade separation structure. If the railroad begins work within four months after receipt of an order to that effect but thereafter fails to complete such work within a reasonable time, the department, county, or municipality may proceed to complete the unfinished work.

(c) In any case where the construction of all or part of a grade separation structure is done by the department, a county, or a municipality, a statement of any railroad's share of the costs of the project, as determined pursuant to Code Section 32-6-195, plus 8 percent per annum interest on each expenditure of the cost of such project shall be submitted to the railroad upon completion of the project. In the event that the railroad does not make payment or arrange to make payment to the department, county, or municipality within 60 days of receipt of the statement, the department shall certify the amount for collection to the Attorney General; or, in the case of a project on a county or municipal public road system, the county or municipality shall take appropriate action for the collection of the amount thereof. In the event said share is not paid within the time specified in this Code section, said share or any unpaid portion thereof shall bear interest at a rate of 8 percent per annum from the date due.

(d) The department, a county, or a municipality shall not construct or require any railroad to construct an underpass of a plan, specification,

or design, the strength of which, in the judgment of the railroad, shall not be sufficient to meet the requirements of its traffic thereover. In a plan providing for an overpass or underpass, the department, a county, or a municipality shall not interfere with or change the grade or alignment of the track or tracks of any railroad or relocate the line of the railroad without its consent. (Ga. L. 1927, p. 299, §§ 3, 4, 10; Code 1933, §§ 95-1903, 95-1906, 95-1910; Code 1933, § 95A-1009, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1985, p. 149, § 32.)

32-6-195. Division of costs of grade crossing elimination projects.

(a) The costs of the grade crossing elimination project in which the railroad or railroads shall be required to share shall include the costs of surveys, preparation of plans and specifications, the securing of estimates or bids, if any, and the total cost of construction of the grade separation structures involved, including the establishment of drainage and any excavation and other expenses involved in constructing public roadways or railroad lines under any grade separation structure. However, the railroad or railroads shall not be required to participate in the cost of any construction outside the limits of grade or alignment change required for the public road to go over or under the track or tracks of the railroad or railroads nor in any costs apportionable to purposes other than the elimination of the grade crossing. Where additional lanes are added to the public road, the railroad's share of the cost, if any, shall be based on the cost of a grade elimination project having the same number of lanes as the public road prior to the construction of said grade elimination project.

(b)(1) The costs of the project shall be shared by the parties involved in such manner as may be agreed upon by the railroad or railroads involved and the department, county, or municipality. Such agreement shall have precedence over any existing agreement on the same subject matter and shall give consideration to the following factors: the benefits accruing to the railroad or railroads and to the public, respectively, from the elimination of the grade crossing; the circumstances under which the grade crossing was created; any preexisting rights of the railroad or railroads as result of being first in position; comparison of the degree of danger caused by the railroad or railroads and by quantity and character of traffic upon the public road; and what is generally, under comparable circumstances, considered to be reasonable, provided that in no event shall the railroad be required to pay more than 50 percent of the cost of a grade crossing elimination project on a county road system or on a municipal street system. In the event agreement cannot be reached, the determination of what portion of the costs shall be the fair and reasonable share of the

railroads involved shall be made by the department after reasonable opportunity for hearing to all parties concerned. In making such determination, the department shall give due regard to the considerations heretofore enumerated. The agreed value or, in the absence of agreement, the independently appraised value of the fee or any lesser interest in the right of way of the railroad used for such project shall be determined and such value credited to the railroad as a part of its participation in the cost of the project, provided that nothing in this Code section shall prevent the department, county, or municipality from exercising its rights of eminent domain as now or hereafter provided by law.

(2) As used in this subsection, the term “costs of the project” means:

(A) In the case of a project for part of a county road or municipal street system, the total costs of such project less the sum of any funds for such project furnished by the federal and state governments; and

(B) In the case of a project for part of the state highway system, the total costs of such project less any funds furnished by the federal government. (Ga. L. 1927, p. 299, § 6; Code 1933, § 95-1905; Code 1933, § 95A-1010, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1996, p. 6, § 32.)

OPINIONS OF THE ATTORNEY GENERAL

Editor’s notes. — In light of the similarity of the statutory provisions, opinions under former Code 1933, § 95-1912, which was subsequently repealed but was succeeded by provisions in this Code section, are included in the annotations for this Code section.

Railroad may be required to contribute 50 percent of cost of eliminating grade crossing when provisions of section are followed. 1945-47 Op. Att’y Gen.

p. 616 (decided under former Code 1933, § 95-1905).

Railroads may agree with department to pay less than half of costs. — Railroad and the State Highway Department (now Department of Transportation) may agree for joint participation in cost of elimination of grade crossing on a basis of less than 50 percent to railroad. 1945-47 Op. Att’y Gen. p. 616.

32-6-196. Temporary use of railroad rights of way during construction or maintenance of grade separation structures or grade crossing or protective devices.

All railroads shall permit the temporary use, free of cost, of so much of their rights of way as may be necessary during the construction or maintenance of any grade separation structures or any grade crossing or protective devices, provided that, whenever any employees or contractors of the department or of any county or municipality shall enter the right of way of any railroad, they shall be subject to any reasonable

rules and regulations such railroad may make for the protection of its traffic, employees, passengers, and operations. (Ga. L. 1927, p. 299, §§ 4, 13; Code 1933, §§ 95-1906, 95-1913; Code 1933, § 95A-1010, enacted by Ga. L. 1973, p. 947, § 1.)

32-6-197. Responsibility for maintenance of overpasses and underpasses.

(a) It shall be the duty of the department to maintain all overpasses involving railroads on the state highway system.

(b) It shall be the duty of the county or the municipality to maintain at its own expense the drainage, surface, pavement, approaches, and guardrails of all overpasses involving railroads on its respective public road system. It shall be the duty of the railroad involved to maintain at its own expense any floors constructed of wood and the foundations, piers, abutments, and superstructures of all overpasses on the county or municipal public road system.

(c) It shall be the duty of the railroad or railroads involved to maintain all underpasses except the lighting, drainage, and pavement of the public roads thereunder, which shall be maintained by the department, counties, or municipalities on their respective public road systems.

(d) All maintenance required by this Code section of the department shall be at the expense of the department, and all maintenance required by this Code section of the railroad shall be at the expense of such railroad, provided that the duty of maintenance imposed upon the department by this Code section shall not operate to subject the department to liability for damages resulting from any failure to maintain properly.

(e) Except as provided in subsection (b) of Code Section 32-6-195, nothing in this article shall be construed as voiding agreements executed prior to July 1, 1973. (Ga. L. 1927, p. 299, § 9; Code 1933, § 95-1909; Ga. L. 1950, p. 419, § 1; Code 1933, § 95A-1011, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1985, p. 149, § 32.)

JUDICIAL DECISIONS

Traffic control devices. — Nothing in O.C.G.A. § 32-6-197 places any duty on a railroad regarding the installation or maintenance of traffic control devices in the area around a railroad overpass. *City of Fairburn v. Cook*, 188 Ga. App. 58, 372 S.E.2d 245, cert. denied, 188 Ga. App. 911, 372 S.E.2d 245 (1988).

Exclusive duty of county to main-

tain road and warning devices. — Statutory duty to maintain a public road and warning devices thereon leading to the former site of a timber bridge spanning a railroad track was exclusively that of the county, both at the time the bridge was removed and at the time of the accident giving rise to a negligence action against the railroad. *Kitchen v. CSX*

Transp., Inc., 265 Ga. 206, 453 S.E.2d 712 (1995).

32-6-198. Agreements as to grade crossing elimination.

Nothing in this part shall be construed to prevent the department, a county, or a municipality from reaching special agreements with a railroad company providing for grade crossing elimination by means of relocation of either the railroad or public road involved or by other means not expressly provided for in this part and from arranging joint participation in the cost of such elimination in accordance with the procedures in Code Section 32-6-195. (Ga. L. 1927, p. 299, § 12; Code 1933, § 95-1912; Code 1933, § 95A-1012, enacted by Ga. L. 1973, p. 947, § 1.)

OPINIONS OF THE ATTORNEY GENERAL

Railroad may enter agreement to pay less than half of costs. — Railroad and the State Highway Department (now Department of Transportation) may agree for joint participation in the cost of elimination of a grade crossing on the basis of less than 50 percent to the railroad. 1945-47 Op. Att’y Gen. p. 616.

32-6-199. Improvement of existing underpass or overpass.

Whenever an existing underpass or overpass involving railroads is unsafe or inadequate to serve reasonably the traffic for which it was constructed, the department, the county, or the municipality may proceed to bring about improvement of said existing structure. In such event the procedure, division of the costs of construction, and maintenance responsibilities in regard to such improvement shall be as provided in Code Sections 32-6-194 through 32-6-198. (Ga. L. 1927, p. 299, § 8; Code 1933, § 95-1908; Code 1933, § 95A-1013, enacted by Ga. L. 1973, p. 947, § 1.)

Cross references. — Restriction on authority of Public Service Commission to require railroad to reconstruct underpass, trestle, or grade crossing to accommodate motor vehicle exceeding 12 feet, six inches in height, § 46-8-133.

JUDICIAL DECISIONS

Specific defects within county’s responsibility. — Trial court did not err in granting summary judgment to the builder of a one-lane railroad overpass since the builder indisputably established that the specific defects alleged by the injured driver’s expert were within the county’s statutory responsibility. *Crouch v. CSX Transp., Inc.*, 203 Ga. App. 618, 417 S.E.2d 216 (1992).

OPINIONS OF THE ATTORNEY GENERAL

When department may expend funds for new overpasses. — Department of Transportation may expend the department's funds for reconstruction of overpasses which the department has determined to be obsolete, inadequate, and unsafe to accommodate current highway traffic, or which have become so costly to maintain as to warrant replacement or

reconstruction. 1971 Op. Att'y Gen. No. 71-125.

Department expenditure of funds to construct new overpasses. — Department can expend the department's funds to construct new overpasses on same or new locations for purpose of replacing existing inadequate overpasses. 1971 Op. Att'y Gen. No. 71-125.

32-6-200. Installation of protective devices at grade crossings.

(a) Whenever, in the judgment of the department in respect to the state highway system, a county in respect to its county road system, or a municipality in respect to its municipal street system, such protection is reasonably necessary for the safety of the traveling public, the department or the county or the municipality may order the protection of a grade crossing by the installation of protective devices. Prompt notice of such order shall be given to the railroad or railroads involved; and within 30 days thereafter the representatives of the department, the county, or the municipality and of the railroad or railroads involved shall meet and, within 90 days, agree to a plan and specifications for the acquisition and installation of protective devices. If an agreement is not reached within 90 days, the department, the county, or the municipality may order the railroad company or companies involved to proceed with the acquisition and installation of protective devices, as indicated in the plan and specifications accompanying its order. However, no work leading to the installation of protective devices at a grade crossing on a county or municipal public road system shall commence until and unless the plan and specifications for such device are approved by the department. It shall be the duty of the railroad or railroads to proceed with acquisition and installation of protective devices within 60 days after receipt of an order to that effect and to complete such acquisition and installation within six months thereafter.

(b)(1) The expense of acquiring and installing a protective device shall be shared between:

(A) The department and the railroad involved, in such portions as may be determined by the negotiation procedures set forth in subsection (b) of Code Section 32-6-195, including consideration of all pertinent factors included in said subsection to be weighed in determining a reasonable division of costs and including the right of the department after a hearing to make the determination of the fair and reasonable costs to be shared by the railroad in the event that agreement as to such division of costs cannot be reached; and

(B) The county or municipality and the railroad involved, equally.

However, if such device shall be required as a result of a new road being constructed over an existing railroad, 100 percent of such cost shall be the responsibility of the department, county, or municipality involved; and, if such device shall be required as the result of a new railroad, 100 percent of such cost shall be the responsibility of the railroad.

(2) As used in this subsection, the term “expense of acquiring and installing a protective device” means:

(A) In the case of a protective device for part of a county road or municipal street system, the total cost of such project less the sum of any funds for such project furnished by the federal and state governments; and

(B) In the case of a protective device for part of the state highway system, the total cost of such project less any funds furnished by the federal government.

(3) The railroad or railroads shall maintain all protective devices at its or their own expense; and nothing in this subsection shall be construed to impose any public liability on the department or any county or municipality in any manner regarding such devices. However, nothing in this subsection shall prevent an agreement between the railroad or railroads and an industry or industries, which agreement assesses the cost of construction or maintenance of such devices against the industry or industries to be served by such track.

(c) In any case where the protective devices are acquired and installed by agreement or by order of the department, a county, or a municipality, a statement of such public agency’s share of the costs of the project, as determined by such agreement or pursuant to subsection (b) of this Code section, shall be submitted by the railroad involved to the public agency involved upon completion of the project and upon nonpayment may be collected as provided by law.

(d)(1) As used in this subsection, the term “active warning devices” means automated control gates, lights, and warning bells, used singly or in any combination.

(2) Each local school district in this state shall survey its established school bus routes annually and submit to the Department of Transportation a list identifying each rail crossing that does not have active warning devices on an established bus route. Each local school district shall be required to submit this information to the department each year by no later than September 1.

(3) Each local school district shall exercise best efforts to minimize the number of established school bus routes that cross rail crossings that do not have active warning devices.

(4) The department shall use the information about school bus routes as an important factor in selecting rail crossings to upgrade with active warning devices. (Ga. L. 1927, p. 299, §§ 3, 7; Code 1933, §§ 95-1903, 95-1907; Code 1933, § 95-1907.1, enacted by Ga. L. 1967, p. 458, § 1; Code 1933, § 95A-1014, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2008, p. 497, § 2/HB 426.)

Cross references. — Further provisions regarding installation of protective devices at grade crossings, § 46-8-194 et seq.

Editor's notes. — Ga. L. 2008, p. 497, § 1/HB 426, not codified by the General

Assembly, provides that: "The General Assembly is interested in increasing safety at railroad crossings, especially crossings used by school buses, and therefore finds that certain legislation may enhance such safety."

JUDICIAL DECISIONS

Editor's notes. — In light of the similarity of the statutory provisions, decisions under Ga. L. 1967, p. 433, which was subsequently repealed but was succeeded by provisions in this Code section, are included in the annotations for this Code section.

Common law action against railroad precluded. — Georgia Code of Public Transportation, O.C.G.A. § 32-1-1 et seq., precluded a common law cause of action against a railroad for the failure to install adequate protective devices at a grade crossing on a public road since the railroad had not been requested to do so by the appropriate governmental entity. *Southern Ry. v. Georgia Kraft Co.*, 188 Ga. App. 623, 373 S.E.2d 774 (1988).

Because the Georgia Code of Public Transportation, O.C.G.A. § 32-1-1 et seq., abrogated any common law duty on the part of defendant railroad to install adequate signal equipment at a railroad crossing where the driver's car was struck by a train, the common law negligence claim asserted by plaintiffs, the driver's survivors, was dismissed for failure to state a claim; under O.C.G.A. § 32-6-51, the railroad company would have acted in violation of Georgia law if the company erected traffic signals on the public road unless the company was required or authorized to do so by § 32-6-51(d), O.C.G.A. § 32-6-50, or some "other law," and

O.C.G.A. § 32-6-200 delegated responsibility for the installation of protective devices on public roads to the appropriate governmental entity. *Bentley v. CSX Transp., Inc.*, 437 F. Supp. 2d 1327 (N.D. Ga. 2006).

Applicability to private crossings. — O.C.G.A. § 32-6-200 relates to the installation of protective devices at grade crossings on the state highway system, the county road systems, and the municipal street systems, but, by the statute's terms, not to the installation of protective devices at private crossings. *Central of Ga. R.R. v. Markert*, 200 Ga. App. 851, 410 S.E.2d 437 (1991), cert. denied, 200 Ga. App. 895, 410 S.E.2d 437 (1991), but see *CSX Transp., Inc. v. Trism Specialized Carriers, Inc.*, 9 F. Supp. 2d 1374 (N.D. Ga. 1998), aff'd, 182 F.3d 788 (11th Cir. 1999).

Absence of private crossings from the ambit of O.C.G.A. § 32-6-200 merely shows that there is no statutory duty as to the installation of protective devices at such crossings, and that railroads may not be held negligent per se as to the installation of protective devices at such crossings. It does not establish that there is no common law duty as to the installation of protective devices at such crossings so that railroads may not be held liable for common law negligence with regard to the installation of protective devices at such

crossings. *Central of Ga. R.R. v. Markert*, 200 Ga. App. 851, 410 S.E.2d 437 (1991), cert. denied, 200 Ga. App. 895, 410 S.E.2d 437 (1991), but see *CSX Transp., Inc. v. Trism Specialized Carriers, Inc.*, 9 F. Supp. 2d 1374 (N.D. Ga. 1998), aff'd, 182 F.3d 788 (11th Cir. 1999).

Municipal traffic protection requirements. — Section provides sole and exclusive method whereby a municipality may require traffic protection at a grade crossing. *Georgia S. & Fla. Ry. v. Odom*, 242 Ga. 169, 249 S.E.2d 545 (1978).

Constitutionality of municipal ordinance. — Municipal ordinance requiring flag person to be placed at grade crossing violates the Georgia Constitution. *Georgia S. & Fla. Ry. v. Odom*, 242 Ga. 169, 249 S.E.2d 545 (1978).

Unsafe conditions. — Authority of a railroad to initiate certain curative action for a potentially unsafe condition was affirmatively redelegated in O.C.G.A. § 32-6-200, and, thus, the common-law duties the railroad owed to motorists regarding unsafe conditions was not contradicted or placed exclusively on governmental entities. *Fortner v. Town of Register*, 278 Ga. 625, 604 S.E.2d 175 (2004).

City has no duty of care with regard to automatic signals at railroad crossings except, in the city's judgment, to require installation of the signals. *Hancock v. City of Dalton*, 131 Ga. App. 178, 205 S.E.2d 470 (1974) (decided under Ga. L. 1967, p. 433).

O.C.G.A. § 32-6-200 creates no affirmative duty on behalf of a municipality to install protective devices, and when the city had provided a cross buck and stop sign in the exercise of the city's discretionary judgment, the city was not liable for the city's failure to install additional

signs. *Biggers ex rel. Key v. Southern Ry.*, 820 F. Supp. 1409 (N.D. Ga. 1993), but see *CSX Transp., Inc. v. Trism Specialized Carriers, Inc.*, 9 F. Supp. 2d 1374 (N.D. Ga. 1998), aff'd, 182 F.3d 788 (11th Cir. 1999).

City's failure to enforce ordinance does not constitute nuisance. — Failure of city to enforce the city's ordinance requiring signals at all railroad crossings or terms of contract to pay for installation of signals does not involve maintenance of a nuisance. *Hancock v. City of Dalton*, 131 Ga. App. 178, 205 S.E.2d 470 (1974) (decided under Ga. L. 1967, p. 433).

Condition of zoning ordinance upheld. — Condition of a zoning ordinance requiring an auction company to pay for traffic signals at a railroad crossing on a road leading to the company's property did not violate O.C.G.A. § 32-6-200; the statute does not prevent a county from requiring, as a condition of zoning, that a landowner reimburse the county for the county's share of the costs associated with the acquisition and installation of protective devices. *Combs v. Atlanta Auto Auction, Inc.*, 287 Ga. App. 9, 650 S.E.2d 709 (2007), cert. denied, 2008 Ga. LEXIS 156 (Ga. 2008).

Jury instructions. — In a wrongful death action, the district court did not err by instructing the jury concerning the railroad's duty to maintain traffic control devices because taking all of the instructions together, the jury was properly informed that the railroad could not be held liable for the decision about which warning device to put in place or continue in place, but the railroad could be held liable for any failure to repair an existing warning light. *Wright v. CSX Transp., Inc.*, 375 F.3d 1252 (11th Cir. 2004).

Cited in *Murray v. Ga. DOT*, 284 Ga. App. 263, 644 S.E.2d 290 (2007).

ALR. — Customary or statutory signal from train as measure of railroad's duty as

to warning at highway crossing, 5 ALR2d 112.

32-6-201. Regulation of traffic when necessary to perform maintenance.

(a) Whenever it is necessary for the department, a county, or a municipality to perform any maintenance in regard to a grade separation structure, protective devices, or grade crossing, responsibility for which is imposed on such department, county, or municipality by this part, and the regulation and control of railroad traffic is necessary for the performance of such maintenance, it shall be the duty of the railroad or railroads involved, after receiving notice, to assist the department, county, or municipality by providing reasonable regulation and control of railroad traffic, having due regard to the needs of such traffic and to the public welfare.

(b) Whenever it is necessary for a railroad to perform any maintenance in regard to a grade separation structure, protective devices, or grade crossing, responsibility for which is imposed on such railroad by this part, and the regulation and control of pedestrian and vehicular traffic is necessary for the performance of such maintenance, it shall be the duty of the department, the county, or the municipality, after having received notice, to assist the railroad by providing reasonable regulation and control of pedestrian and vehicular traffic, having due regard to the needs of such traffic and to the public welfare. (Code 1933, § 95A-1016, enacted by Ga. L. 1973, p. 947, § 1.)

32-6-202. Procedure to obtain maintenance of grade separation structures, protective devices, and grade crossings.

(a)(1) Whenever any maintenance of a grade separation structure, protective devices, or a grade crossing is necessary for the safe and reasonable passage of public traffic and such maintenance is the responsibility of a railroad under this part, the department in respect to the state highway system, the governing authority of the county in respect to its county road system, or the governing authority of the municipality in respect to its municipal street system may give written notice to the railroad of the necessity of such maintenance and order the railroad to comply with the maintenance requirements of this part. Such order shall be in writing and, as applicable, shall include the United States Department of Transportation inventory number and railroad milepost number, as well as the highway, street, or roadway name and number as identified on a general highway map prepared by the department. Such order shall be served upon the railroad by certified mail or statutory overnight delivery, return receipt requested.

(2)(A) If any railroad fails to comply with such an order of a county or municipality within 30 days after receipt of such notice and

order, the county or municipal governing authority may file with the department a written request for review of the matter. Any such request for review shall be accompanied by a filing fee of \$500.00 per grade crossing and shall include a copy of the order of the county or municipality. A copy of such request for review shall be served on the railroad by the county or municipality by certified mail or statutory overnight delivery, return receipt requested. The department shall within 30 days after the filing of such request investigate the matter, including undertaking consideration of any statement of position filed by the railroad within ten days after the filing of the request for review, and issue an order either requiring the railroad to take such action as is necessary for purposes of compliance with the maintenance requirements of this part or nullifying the order of the local governing authority. As part of such order, the department shall assess all its costs of investigating and reviewing the matter against the railroad if a compliance order is issued or against the county or municipality if the order of the local governing authority is nullified, and the party so assessed shall be liable therefor to the department; provided, however, that any filing fee paid to the department by a county or municipality shall be applied to any such amount assessed against the county or municipality, and the balance of such filing fee, if any, shall be refunded to the county or municipality. Copies of any such order of the department shall be served upon the railroad and the local governing authority by certified mail or statutory overnight delivery, return receipt requested. The department shall keep detailed records of its costs of investigation and review for purposes of this subparagraph, and such records shall be subject to public inspection as provided by Article 4 of Chapter 18 of Title 50.

(B) If any railroad fails to comply with any order of the department under paragraph (1) of this subsection or subparagraph (A) of this paragraph within 30 days after receipt of such order, then after notice and opportunity for a hearing, the railroad shall be subject to a civil penalty in the amount of \$500.00 per day from 30 days after the date of receipt of the order of the department until the railroad has complied with the order of the department; provided, however, that the department may grant an extension of time for compliance without penalty upon a showing that the railroad's failure to timely comply was due to force majeure. The provisions of this subparagraph are in addition to the provisions of Code Sections 32-1-10 and 32-6-1, if applicable. Any fine under this subparagraph shall be tolled for the period from the filing of a petition for a judicial review under Code Section 32-6-203 until the rendering of a final decision.

(3) Each railroad whose track or tracks cross a public road in this state shall identify in writing to the department, by job title and with

contact information, the appropriate office responsible for the maintenance of grade separation structures, protective devices, and grade crossings and upon which the notices and orders provided for in this subsection shall be served. Such information shall be kept current by the railroad and shall be made publicly available and accessible by the department.

(4) Nothing in this subsection shall be construed so as to prevent the department, a county, or a municipality from performing any emergency maintenance which is necessary for the safe and reasonable passage of public traffic, provided reasonable notice is given to the railroad involved, and from collecting the expenses of such maintenance.

(b) Whenever any maintenance of a grade separation structure, protective devices, or a grade crossing is reasonably necessary for the safe passage of railroad traffic and such maintenance is the responsibility of the department, a county, or a municipality, the railroad concerned may give written notice to the department, county, or municipality of the necessity of such maintenance. If the department, county, or municipality does not proceed with the performance of such maintenance within 30 days after receipt of such notice, the railroad may proceed to enforce performance of such maintenance as provided in Code Section 32-6-175. Nothing in this subsection shall be construed so as to prevent a railroad from performing any emergency maintenance which is necessary for the safe passage of railroad traffic, provided reasonable notice is given to the department, county, or municipality involved, and from collecting the expenses of such maintenance. (Code 1933, § 95A-1017, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1982, p. 3, § 32; Ga. L. 2002, p. 1050, § 5.)

regarding installation of protective devices at grade crossings, § 46-8-194 et seq.

Law reviews. — For note on the 2002 amendment of this Code section, see 19 Ga. St. U.L. Rev. 213 (2002).

32-6-203. Judicial review.

Any judgment, decision, or order of the department upon any question involving the advisability or necessity of eliminating any grade crossing, of installing any protective device, of improving any grade crossing structure, or involving any other question concerning the public roads arising under this part shall be subject to judicial review in such manner as is provided by law for judicial review of contested cases under Chapter 13 of Title 50, the “Georgia Administrative Procedure Act.” Pending the final determination of any judicial proceedings so instituted, the department, without prejudice to it or the railroad

involved and at its own risk, may proceed with the work involved in such litigation, subject to final judgment of the court as to all questions involved in such litigation. (Ga. L. 1927, p. 299, § 11; Code 1933, § 95-1911; Code 1933, § 95A-1018, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2002, p. 1050, § 6.)

Law reviews. — For note on the 2002 amendment of this Code section, see 19 Ga. St. U.L. Rev. 213 (2002).

ARTICLE 7

TRANSPORTATION OF HAZARDOUS MATERIALS

32-6-220 through 32-6-225.

Repealed by Ga. L. 1985, p. 469, § 1, effective July 1, 1985, and by Ga. L. 1985, p. 1499, § 1, effective July 1, 1985.

Editor’s notes. — The provisions of this article were transferred to new Chapter 11 of Title 46 by Ga. L. 1985, p. 469 and by Ga. L. 1985, p. 1499.

ARTICLE 8

CONTROL OF JUNKYARDS

Cross references. — Waste management generally, T. 12, C. 8. Junk dealers, T. 43, C. 22. Scrap metal processors, T. 43, C. 43.

Administrative rules and regulations. — Rules and regulations governing the control of junkyards, Official Compilation of the Rules and Regulations of the State of Georgia, State Department of Transportation, Chapter 672-8.

32-6-240. Definitions.

As used in this article, the term:

- (1) “Automobile graveyard” means any establishment which is maintained or used for storing, buying, or selling wrecked, scrapped, ruined, or dismantled motor vehicles or motor vehicle parts.

(2) “Junk” means old or scrap copper, brass, rope, rags, batteries, paper, trash, rubber, debris, or waste; junked, dismantled, or wrecked automobiles, or parts thereof; or iron, steel, and other old scrap ferrous or nonferrous material.

(3) “Junkyard” means any establishment which is maintained or used for storing, buying, or selling junk or for an automobile graveyard; and the term shall include garbage dumps, sanitary fills, and scrap processor establishments.

(4) “Primary system” or “primary highway” means the federal-aid primary system in existence on June 1, 1991, and any highway which

is not on such system, but which is on the National Highway System, as officially designated or as may hereafter be so designated by the department and approved by the United States Secretary of Transportation pursuant to the provisions of Title 23, Section 103, United States Code.

(5) "Scrap processor" means any person, firm, or corporation engaged only in the business of buying scrap iron and metals, including but not limited to old automobiles, for the specific purpose of processing into raw material for remelting purposes only, and whose principal product is ferrous and nonferrous scrap for shipment to steel mills, foundries, smelters, and refineries, and who maintains an established place of business in this state and has facilities and machinery designed for such processing. (Ga. L. 1967, p. 433, § 3; Code 1933, § 95A-905, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2005, p. 601, § 5/SB 160.)

Law reviews. — For article, "Recommendations Regarding Control of Outdoor Advertising Along the Interstate Highway

System in Georgia," see 14 Mercer L. Rev. 308 (1963).

32-6-241. Restrictions on location of junkyards in relation to location of rights of way of interstate or federal-aid primary highways.

The department is responsible for the control of junkyards only on those primary highways that are state roads. For all primary highways it shall be unlawful for any person to establish, operate, or maintain any junkyard, any portion of which is within 1,000 feet of the nearest edge of the right of way of any interstate or federal-aid primary highway, except:

(1) Those which are screened by natural objects, plantings, fences, or other appropriate means or which are otherwise removed from sight so as not to be visible from the main traveled way of such highway systems;

(2) Those located within areas which are zoned for industrial use under authority of law;

(3) Those located within unzoned industrial areas, which areas shall be determined from actual land uses and defined by regulations promulgated by the commissioner; and

(4) Those which are not visible from the main traveled way of the systems. (Ga. L. 1967, p. 433, § 4; Code 1933, § 95A-906, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2005, p. 601, § 6/SB 160.)

Law reviews. — For article, "Recommendations Regarding Control of Outdoor Advertising Along the Interstate Highway

System in Georgia," see 14 Mercer L. Rev. 308 (1963).

JUDICIAL DECISIONS

Section has effect of zoning and authorizes actions for violations. — Provisions declaring that junkyards established in contravention of law are subject to being removed and destroyed has effect of zoning such areas adjacent to

designated highways, and confers upon the Highway Department (now Department of Transportation) sufficient authority to bring an action. *Burnham v. State Hwy. Dep't*, 224 Ga. 543, 163 S.E.2d 698 (1968).

operation of junkyard or scrap metal processing plant, 50 ALR3d 837.

32-6-242. Screening junkyards in existence on April 6, 1967.

Any junkyard lawfully in existence on April 6, 1967, which is within 1,000 feet of the nearest edge of the right of way and visible from the main traveled way of any public road on the interstate or primary system, shall, whenever feasible, be screened by the department if such road is on the state highway system, otherwise by the county or municipal government having jurisdiction, so as not to be visible from such public road. Such junkyards may be screened at locations either on the right of way of such public road or on property acquired by the department for that purpose outside such right of way. Whenever the commissioner determines that it is in the best interest of the state, the department may acquire, pursuant to any of the procedures for property acquisition set forth in Article 1 of Chapter 3 of this title, such property or interests therein outside existing public road rights of way as may be necessary to provide adequate screening of such junkyards. (Ga. L. 1967, p. 433, § 5; Code 1933, § 95A-907, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2005, p. 601, § 7/SB 160.)

Law reviews. — For article, "Recommendations Regarding Control of Outdoor Advertising Along the Interstate Highway

System in Georgia," see 14 Mercer L. Rev. 308 (1963).

32-6-243. Promulgation by department of regulations governing the screening and fencing of junkyards.

For any interstate or primary highway on the state highway system, the department may promulgate uniform and reasonable regulations governing the screening or fencing of junkyards, including the materials used in such screening or fencing and the location, construction, and

maintenance thereof. (Ga. L. 1967, p. 433, § 7; Code 1933, § 95A-908, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2005, p. 601, § 8/SB 160.)

ALR. — Regulation of junk dealers, 45 ALR2d 1391.

32-6-244. Authority of commissioner or local officials to acquire land and remove junkyards.

(a) For state roads on the primary system, when the commissioner or, with regard to nonstate roads on the primary system, the principal elected officials of the county or municipality having jurisdiction determines that the topography of the land adjoining such a road will not permit adequate screening of any junkyard lawfully in existence on April 6, 1967, or that such screening would not be economically feasible, the department or the local officials shall have the authority to acquire, pursuant to any of the procedures for property acquisition authorized in Article 1 of Chapter 3 of this title, such interests in lands as may be necessary to secure the relocation, removal, or disposal of such junkyard. The commissioner or the local officials shall determine whether it would be more feasible to relocate, remove, or dispose of the junkyards which cannot be screened, and such determination shall be final and conclusive.

(b) All junkyards lawfully in existence on April 6, 1967, which do not conform to the requirements of Code Section 32-6-241 and which, in the determination of the commissioner or the principal elected officials of the county or municipality having jurisdiction, cannot be made to conform by screening, shall be required to be removed under this Code section as soon as funds are available for that purpose, provided that the department or the county or municipality having jurisdiction shall not be required to expend any funds for screening or removal under this article unless and until federal-aid matching funds are made available for this purpose. (Ga. L. 1967, p. 433, §§ 8, 10, 14; Code 1933, § 95A-909, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2005, p. 601, § 9/SB 160.)

Law reviews. — For article, “Recommendations Regarding Control of Outdoor Advertising Along the Interstate Highway

System in Georgia,” see 14 Mercer L. Rev. 308 (1963).

32-6-245. Agreements with United States Secretary of Transportation.

The Georgia Department of Transportation is authorized to enter into agreements with the United States Secretary of Transportation, as provided by Title 23 of the United States Code, relating to the control of junkyards in areas adjacent to the interstate system and state routes on the primary systems; and the department may take action in the name of the state to comply with the terms of such agreements. (Ga. L. 1967, p. 433, § 13; Code 1933, § 95A-911, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2005, p. 601, § 10/SB 160.)

U.S. Code. — Provision in Title 23 of the United States Code, relating to the control of junkyards in areas adjacent to interstate and federal-aid primary systems, referred to in this Code section, are found in 23 U.S.C. § 136.

Law reviews. — For article, “Recommendations Regarding Control of Outdoor Advertising Along the Interstate Highway System in Georgia,” see 14 Mercer L. Rev. 308 (1963).

32-6-246. Abatement of nuisances.

Any junkyard which comes into existence after April 6, 1967, the establishment, operation, or maintenance of which is made unlawful by Code Section 32-6-241, is declared to be a public and private nuisance and may be forthwith removed, obliterated, or abated at the order of the commissioner. The department may then submit by registered or certified mail or statutory overnight delivery a statement of the expenses of such removal, obliteration, or abatement to the person owning or operating such junkyard; and, if payment is not made to the department within 60 days of receipt thereof, the department shall certify the amount for collection to the Attorney General. (Ga. L. 1967, p. 433, § 11; Code 1933, § 95A-910, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2000, p. 1589, § 3.)

Editor’s notes. — Ga. L. 2000, p. 1589, § 16, not codified by the General Assembly, provided that the 2000 amendment was applicable to notices delivered on or after July 1, 2000.

32-6-247. Penalty.

(a) Any person who violates any provision of this article or any lawful regulation promulgated pursuant to this article shall be guilty of a

misdemeanor. Each day's presence of the offending junkyard shall be a separate offense.

(b) State and local law enforcement officers shall assist department employees in enforcing this article or any lawful regulation promulgated pursuant thereto. (Ga. L. 1967, p. 433, § 15; Code 1933, § 95A-912, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1991, p. 94, § 32.)

Law reviews. — For article, "Recommendations Regarding Control of Outdoor Advertising Along the Interstate Highway System in Georgia," see 14 Mercer L. Rev. 308 (1963).

32-6-248. Construction of article.

Nothing in this article shall be construed as to abrogate or affect the provisions of any lawful ordinance, regulation, resolution, or other law which are more restrictive than the provisions of this article. (Ga. L. 1967, p. 433, § 12; Code 1933, § 95A-912, enacted by Ga. L. 1973, p. 947, § 1.)

Law reviews. — For article, "Recommendations Regarding Control of Outdoor Advertising Along the Interstate Highway System in Georgia," see 14 Mercer L. Rev. 308 (1963).

CHAPTER 7

ABANDONMENT, DISPOSAL, OR LEASING OF
PROPERTY NOT NEEDED FOR PUBLIC
ROAD PURPOSES

| Sec. | | Sec. | |
|---------|---|---------|---|
| 32-7-1. | Authority of department, counties, and municipalities to substitute for, relocate, or abandon public roads. | | pose of property no longer needed for public road purposes. |
| 32-7-2. | Procedure for abandonment. | 32-7-4. | Procedure for disposition of property. |
| 32-7-3. | Authority of department, counties, and municipalities to dis- | 32-7-5. | Leasing property not needed for public road purposes. |

Cross references. — Condemnation of public and private roads for purposes of constructing electric power plants, § 22-3-20 et seq.

32-7-1. Authority of department, counties, and municipalities to substitute for, relocate, or abandon public roads.

Whenever deemed in the public interest, the department or a county or a municipality may substitute for, relocate, or abandon any public road that is under its respective jurisdiction, provided that a county or municipality shall first obtain the approval of the department if any expenditure of federal or state funds is required. (Code 1933, § 95A-618, enacted by Ga. L. 1973, p. 947, § 1.)

JUDICIAL DECISIONS

Editor’s notes. — In light of the similarity of the statutory provisions, decisions under former Code 1933, Ch. 95-17, which was subsequently repealed but was succeeded by provisions in this Code section, are included in the annotations for this Code section.

Authority of department and political subdivisions to vacate roads. — General Assembly has delegated to the Department of Transportation, and to counties and municipalities throughout the state, authority to relocate or abandon public roads within their respective jurisdictions. *McIntosh County v. Fisher*, 242 Ga. 66, 247 S.E.2d 863 (1978).

Vacating of street must benefit public in general. — Neither General As-

sembly nor subordinate public corporation acting under its authority can lawfully vacate a public street or highway for benefit of a private individual. The street or highway cannot be vacated unless it is for the benefit of the public that such action should be taken. *McIntosh County v. Fisher*, 242 Ga. 66, 247 S.E.2d 863 (1978).

Public benefits justifying vacating of public street or highway. — General Assembly or a subordinate public corporation acting under its authority may lawfully vacate a public street or highway in order to relieve the public from the charge of maintaining a street or highway that is no longer useful or convenient to the public, or to lay out a new street or road in its place which will be more useful and con-

venient to the public in general. *McIntosh County v. Fisher*, 242 Ga. 66, 247 S.E.2d 863 (1978).

Abandonment only to benefit private individual constitutes abuse of power. — If public interest is not the motive which prompts vacating of a street, whether partial or entire, the act of vacating is an abuse of power, and a gross abuse of power if it is authorized without reference to the rights of the public and merely for the convenience of a private individual. *McIntosh County v. Fisher*, 242 Ga. 66, 247 S.E.2d 863 (1978).

Public nonuse of road's full width is not abandonment. — If highway is legally laid out and established, the mere fact that the public does not use the highway to the highway's entire width will not of itself constitute an abandonment of any portion thereof. *State Hwy. Dep't v. Strickland*, 214 Ga. 467, 105 S.E.2d 299 (1958) (decided under former Code 1933, Ch. 95-17).

Encroachments on highway continually used cannot be legalized by mere lapse of time. *State Hwy. Dep't v. Strickland*, 214 Ga. 467, 105 S.E.2d 299 (1958) (decided under former Code 1933, Ch. 95-17).

Counties and citizens may establish easements over abandoned roads. — Power and authority conferred upon State Highway Board (now State Transportation Board) to change or relocate state-aid roads, and thus to abandon portions of those roads, does not specifically or by necessary implication include power to foreclose rights of counties or general public to establish easements over abandoned portions of such roads. *Southern Ry. v. Wages*, 203 Ga. 502, 47 S.E.2d 501 (1948) (decided under former Code 1933, Ch. 95-17).

Cited in *Stein v. Maddox*, 234 Ga. 164, 215 S.E.2d 231 (1975); *Hall County Historical Soc'y, Inc. v. Georgia DOT*, 447 F. Supp. 741 (N.D. Ga. 1978).

ALR. — Reversion of title upon abandonment or vacation of public street or highway, 70 ALR 564.

Right of private citizen to complain of rerouting of highway or removal or change of route or directional signs, 97 ALR 192.

Necessity for adhering to statutory procedure prescribed for vacation, discontinuance, or change of route of street or highway, 175 ALR 760.

32-7-2. Procedure for abandonment.

(a)(1) Before abandoning any public road on the state highway system, the department shall confer with the governing authority of the counties or municipalities concerned and give due consideration to their wishes in such abandonment; but in case of disagreement the judgment of the department shall prevail.

(2) When it is determined that a section of the state highway system has for any reason ceased to be used by the public to the extent that no substantial public purpose is served by it and after having conferred with the counties and municipalities, the department, by certification signed by the commissioner and accompanied by a plat or sketch, may declare that section of the state highway system abandoned. Thereafter, that section of road shall no longer be a part of the state highway system and the rights of the public in and to the section of road as a public road shall cease.

(3) Prior to certifying the abandonment of a road or section thereof, the department shall give notice of its intentions to the counties or municipalities through which such road passes.

(4) If such county or municipality, by proper resolution, indicates its willingness and desire to take over the road that is proposed to be abandoned and to maintain such road, the certificate of abandonment shall so state; and thereafter the abandoned road shall form part of the county road or municipal street system of the particular county or municipality. Whenever the department abandons a road and a county or a municipality takes over the road, the department shall convey, by quitclaim deed executed by the commissioner, such road to the county or municipality. If the appropriate county or municipality is unwilling to take over the road and maintain it, the property may be disposed of by the department as provided in Code Section 32-7-4, provided that, if the county or municipality has not indicated its desire to take over the road within 30 days after receiving notice, it shall be conclusively presumed that the county or municipality is unwilling to take over the road; and provided, further, that before the department disposes of the abandoned road it shall give 15 days' notice to the county or municipality, during which time such county or municipality may reconsider its decision and take over the road.

(b)(1) When it is determined that a section of the county road system has for any reason ceased to be used by the public to the extent that no substantial public purpose is served by it or that its removal from the county road system is otherwise in the best public interest, the county, by certification recorded in its minutes, accompanied by a plat or sketch, and, after notice to property owners located thereon, after notice of such determination is published in the newspaper in which the sheriff's advertisements for the county are published once a week for a period of two weeks, and after a public hearing on such issue, may declare that section of the county road system abandoned. Thereafter, that section of road shall no longer be part of the county road system and the rights of the public in and to the section of road as a public road shall cease.

(2) Prior to certifying the abandonment of a road or section thereof, the county shall give notice of its intention to the municipality into which or through which any part of such road passes.

(3) If such municipality, by proper resolution, indicates its willingness and desire to take over the road that is proposed to be abandoned and to maintain such road, the certification of abandonment shall so state; and thereafter that part of the abandoned road within the municipality shall form part of the municipal street system of the particular municipality. Whenever a county abandons a road and a municipality takes over the road, the county, by quitclaim

deed executed by the chairman or presiding officer, shall convey such road to the municipality. If such municipality is unwilling to take over the road and maintain it, the property may be disposed of by the county as provided for in Code Section 32-7-4, provided that, if the municipality has not indicated its desire to take over the road within 30 days after receiving notice, it shall be conclusively presumed the municipality is unwilling to take over the road; and provided, further, that before the county disposes of the abandoned road it shall give 15 days' notice to the municipality during which time such municipality may reconsider its decision and take over the road.

(c) When it is determined that a section of the municipal street system has for any reason ceased to be used by the public to the extent that no substantial public purpose is served by it or that its removal from the municipal street system is otherwise in the best public interest, the municipality, by certification recorded in its minutes, accompanied by a plat or sketch, and after notice to property owners located thereon, may declare that section of the municipal street system abandoned. Thereafter, that section of road shall no longer be a part of the municipal street system and the rights of the public in and to that section of street as a public road shall cease. The property may be disposed of by the municipality as provided in Code Section 32-7-4. (Code 1933, § 95A-619, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1974, p. 1422, § 16; Ga. L. 1994, p. 294, § 1; Ga. L. 2010, p. 399, § 1/SB 354.)

The 2010 amendment, effective May 24, 2010, inserted “or that its removal from the county road system is otherwise in the best public interest” in the middle of the first sentence of paragraph (b)(1); and inserted “or that its removal from the municipal street system is otherwise in the best public interest” in the middle of the first sentence of subsection (c).

JUDICIAL DECISIONS

Editor's notes. — In light of the similarity of the statutory provisions, decisions under former Code 1873, § 608, former Code 1910, § 644, and former Code 1933, Ch. 95-17, which were subsequently repealed but were succeeded by provisions in this Code section, are included in the annotations for this Code section.

The 1994 amendment to O.C.G.A. § 32-7-2 demonstrates that notice by publication does not satisfy the requirement of notice to adjoining landowners. The

1994 amendment added a provision requiring a county to publish notice of the determination to abandon a road in the legal organ of the county, but also retained the language requiring “notice to property owners located thereon.” By adding a notice by publication requirement, the legislature must have intended to add a requirement different from the requirement of notice to adjoining property owners. *Talbot County Bd. of Comm'rs v. Woodall*, 275 Ga. 281, 565 S.E.2d 465 (2002).

Duty of county to repair and maintain road. — When the public has ceased to use a road for reasons other than the road's state of disrepair, a county is not required to undertake to repair and maintain the road as a prerequisite to abandoning the road in accordance with O.C.G.A. § 32-7-2. *Smith v. Board of Comm'rs*, 264 Ga. 316, 444 S.E.2d 775 (1994).

Group of landowners were properly granted a writ of mandamus requiring a county to maintain an adjacent road, as the county acquired title to the road by prescriptive acquisition, abandonment was not an issue, and compliance with O.C.G.A. § 32-3-3(c) did not need to be shown when a roadway was otherwise acquired by prescription; moreover, urging that a county's failure to meet the county's obligation to maintain public roads was an acceptable method of abandoning a roadway would encourage counties to disregard their public duty. *Shearin v. Wayne Davis & Co., P.C.*, 281 Ga. 385, 637 S.E.2d 679 (2006).

Source of authority to abandon roads. — Through enactment of Ga. L. 1973, p. 947, § 1 (see O.C.G.A. §§ 32-7-1), the General Assembly delegated to the Department of Transportation, and to counties and municipalities throughout the state, authority to relocate or abandon public roads within their respective jurisdictions. *McIntosh County v. Fisher*, 242 Ga. 66, 247 S.E.2d 863 (1978).

When abandonment of road is justified. — When there is evidence that an abandoned road has ceased to be used by the public to the extent that the road serves no substantial public purpose, as specified by subsection (b) of this section, the action of a governmental authority in abandoning a road cannot be declared an abuse of discretion, at least on the ground that the governmental authority was erroneous in the government's determination that abandoning the road would be in the public interest. *McIntosh County v. Fisher*, 242 Ga. 66, 247 S.E.2d 863 (1978) (see O.C.G.A. § 32-7-2).

Abandonment not justified. — Fact that no substantial public purpose was served by a road due to the county's failure to comply with the county's duty to

repair and maintain the road did not authorize the county to abandon the road pursuant to O.C.G.A. § 32-7-2. *Cherokee County v. McBride*, 262 Ga. 460, 421 S.E.2d 530 (1992).

Subsection (b) not applicable to relocation of county road. — Subsection (b) of this section does not apply to the relocation of a portion of the county road still in use by the public to such an extent that a substantial public purpose is served by the road, but only when the county abandons all or part of a county road which has for any reason ceased to be used by the public to the extent that no substantial public purpose is served by the road. *Miller v. Lanier County*, 243 Ga. 58, 252 S.E.2d 909 (1979) (see O.C.G.A. § 32-7-2).

County commission's consideration of economic factors involved in the decision whether to abandon a road was proper and did not constitute an abuse of discretion. *Torbett v. Butts County*, 271 Ga. 521, 520 S.E.2d 684 (1999).

Abandonment must be for benefit of public in general. — Neither the General Assembly nor a subordinate public corporation acting under its authority can lawfully vacate a public street or highway for the benefit of a private individual, but only for the benefit of the public; the benefit may be either in relieving the public from the charge of maintaining a street or highway that is no longer useful or convenient to the public or by laying out a new street or road in its place which will be more useful and convenient to the public in general. *McIntosh County v. Fisher*, 242 Ga. 66, 247 S.E.2d 863 (1978).

Abandonment for individual's benefit constitutes abuse of power. — If public interest is not partial or entire motive which prompts vacating of street, the act of vacating is an abuse of power, a gross abuse if it is authorized without reference to the rights of the public and merely to serve the convenience of a private individual. *McIntosh County v. Fisher*, 242 Ga. 66, 247 S.E.2d 863 (1978).

Abandonment not found. — Public road was not abandoned when the board of county commissioners had not taken official action, but had simply had several discussions concerning the road, and had

received, but not finally acted on, requests to close the road. *McDilda v. Board of Comm'rs*, 230 Ga. App. 530, 497 S.E.2d 25 (1998).

Trial court's denial of a property owner's motions for a directed verdict and for judgment notwithstanding the verdict under O.C.G.A. § 9-11-50 was proper because the county failed to follow all of the statutory steps needed to properly close a road that bordered on an adjoining landowner's properties, pursuant to O.C.G.A. § 32-7-2(b)(1), and the evidence did not demand a verdict that the road was still public. *Lovell v. Rea*, 278 Ga. App. 740, 629 S.E.2d 459 (2006).

Notice. — Paragraph (b)(1) of O.C.G.A. § 32-7-2 requires merely that notice be given before a road is declared abandoned. Lack of proper notice is not a ground for granting a petitioner in mandamus the ultimate relief of ordering a road reopened. *Carnes v. Charlock Invs. (USA), Inc.*, 258 Ga. 771, 373 S.E.2d 742 (1988).

When the county sought to abandon two roads, notice by publication was insufficient to meet the requirement of notice to adjoining property owners; thus, the showing of such notice by the owners who claimed title to the roads did not entitle them to summary judgment. *Talbot County Bd. of Comm'rs v. Woodall*, 275 Ga. 281, 565 S.E.2d 465 (2002).

Board may not foreclose public or county acquisition of easements. — Authority conferred upon the State Highway Board (now State Transportation Board) to change or relocate state-aid roads, and thus to abandon portions of those roads, does not specifically or by necessary implication include the power to foreclose rights of counties or general

public to establish easements over abandoned portions of such roads. *Southern Ry. v. Wages*, 203 Ga. 502, 47 S.E.2d 501 (1948) (decided under former Code 1933, Ch. 95-17).

Alteration of old road involves discontinuance of that part which is altered, and it is lawful to provide for both alteration and discontinuance in the same proceedings, and under citation which refers merely to alteration. *Ponder v. Shannon*, 54 Ga. 187 (1875); *Barnard v. Durrence*, 22 Ga. App. 8, 95 S.E. 372 (1918) (decided under former Code 1910, § 644).

Nonuse of full width of roads does not constitute abandonment. — If a highway is legally laid out and established, the mere fact that the public does not use the highway to the highway's entire width will not of itself constitute an abandonment of any portion thereof. *State Hwy. Dep't v. Strickland*, 214 Ga. 467, 105 S.E.2d 299 (1958) (decided under former Code 1933, Ch. 95-17).

Encroachments on a highway continually used cannot be legalized by mere lapse of time; limited use will not lessen the right of the public to use the entire width of the road whenever increased travel and exigencies of the public render this desirable. *State Hwy. Dep't v. Strickland*, 214 Ga. 467, 105 S.E.2d 299 (1958) (decided under former Code 1933, Ch. 95-17).

Cited in *Stein v. Maddox*, 234 Ga. 164, 215 S.E.2d 231 (1975); *Hall County Historical Soc'y, Inc. v. Georgia DOT*, 447 F. Supp. 741 (N.D. Ga. 1978); *Edmund v. Odum*, 245 Ga. 358, 265 S.E.2d 53 (1980); *Peppers v. Elder*, 248 Ga. 136, 281 S.E.2d 582 (1981); *Glass v. Carnes*, 260 Ga. 627, 398 S.E.2d 7 (1990).

OPINIONS OF THE ATTORNEY GENERAL

County must maintain roads on county road system located within municipality. — Because the county must maintain roads on the county road system and because public roads are not removed from the system by mere annexation into a municipality where the road

lies, the county must continue to maintain the roads on the county road system which are in areas annexed into a municipality until the governing authority of the county removes the roads from the county road system by appropriate action. 1976 Op. Att'y Gen. No. U76-21.

32-7-3. Authority of department, counties, and municipalities to dispose of property no longer needed for public road purposes.

Whenever any property has been acquired in any manner by the department, a county, or a municipality for public road purposes and thereafter the department, county, or municipality determines that all or any part of the property or any interest therein is no longer needed for such purposes because of changed conditions, the department or the county or municipality is authorized to dispose of such property or such interest therein in accordance with Code Section 32-7-4. Any disposition of property acquired for utility relocation, as provided for in Code Section 32-6-172, or on which utilities are located shall not be subject to Code Section 32-7-4; and no provision of this title shall be construed to prevent the department from conveying to the federal government land or interests in land acquired for federal parkways in Georgia, as provided in Article 2 of Chapter 3 of this title. (Code 1933, § 95A-620, enacted by Ga. L. 1973, p. 947, § 1.)

JUDICIAL DECISIONS

Offer to original owner of property acquired, then rezoned. — If a county or municipality acquires land for public road purposes, rezones the land in a manner increasing the land's value, and then decides to sell the property, the county or municipality has decided that the property was no longer needed for public road purposes at the time of the rezoning and,

thus, the property must be offered to the original owner based on the land's value under the land's pre-rezoning classification. *DeWolff v. Fulton County*, 253 Ga. 744, 325 S.E.2d 140 (1985).

Cited in *Hall County Historical Soc'y, Inc. v. Georgia DOT*, 447 F. Supp. 741 (N.D. Ga. 1978); *Swims v. Fulton County*, 267 Ga. 94, 475 S.E.2d 597 (1996).

32-7-4. Procedure for disposition of property.

(a)(1) In disposing of property, as authorized under Code Section 32-7-3, the department, a county, or a municipality shall notify the owner of such property at the time of its acquisition or, if the tract

from which the department, a county, or a municipality acquired its property has been subsequently sold, shall notify the owner of abutting land holding title through the owner from whom the department, a county, or a municipality acquired its property. The notice shall be in writing delivered to the appropriate owner or by publication if his or her address is unknown; and he or she shall have the right to acquire, as provided in this subsection, the property with respect to which the notice is given. Publication, if necessary, shall be in a newspaper of general circulation in the county where the property is located. If, after a search of the land and probate records, the address of any interested party cannot be found, an affidavit stating such facts and reciting the steps taken to establish the address of any such person shall be placed in the department, county, or municipal records and shall be accepted in lieu of service of notice by mailing the same to the last known address of such person. After properly completing and filing such affidavit, the department, county, or municipality may dispose of the property in accordance with the provisions of subsection (b) of this Code section.

(2)(A) When an entire parcel acquired by the department, a county, or a municipality, or any interest therein, is being disposed of, it may be acquired under the right created in paragraph (1) of this subsection at such price as may be agreed upon, but in no event less than the price paid for its acquisition. When only remnants or portions of the original acquisition are being disposed of, they may be acquired for the market value thereof at the time the department, county, or municipality decides the property is no longer needed. The department shall use a real estate appraiser with knowledge of the local real estate market who is licensed in Georgia and not an employee of the department to establish the fair market value of the property prior to listing such property.

(B) The provisions of subparagraph (A) of this paragraph notwithstanding, if the value of the property is \$30,000.00 or less as determined by department estimate, the department, county, or municipality may negotiate the sale.

(3) If the right of acquisition is not exercised within 60 days after due notice, the department, county, or municipality may proceed to sell such property as provided in subsection (b) of this Code section.

(4) When the department, county, or municipality in good faith and with reasonable diligence attempted to ascertain the identity of persons entitled to notice under this Code section and mailed such notice to the last known address of record of those persons or otherwise complied with the notification requirements of this Code section, the failure to in fact notify those persons entitled thereto shall not invalidate any subsequent disposition of property pursuant to this Code section.

(b)(1)(A) Unless a sale of the property is made pursuant to paragraph (2) or (3) of this subsection, such sale shall be made to the bidder submitting the highest of the sealed bids received after public advertisement for such bids for two weeks. If the highest of the sealed bids received is less than but within 15 percent of the established market value, the department may accept that bid and convey the property in accordance with the provisions of subsection (c) of this Code section. The department or the county or municipality shall have the right to reject any and all bids, in its discretion, to readvertise, or to abandon the sale.

(B) Such public advertisement shall be inserted once a week in such newspapers or other publication, or both, as will ensure adequate publicity, the first insertion to be at least two weeks prior to the opening of bids, the second to follow one week after the first publication. Such advertisement shall include but not be limited to the following items:

(i) A description sufficient to enable the public to identify the property;

(ii) The time and place for submission and opening of sealed bids;

(iii) The right of the department or the county or municipality to reject any one or all of the bids;

(iv) All the conditions of sale; and

(v) Such further information as the department or the county or municipality may deem advisable as in the public interest.

(2)(A) Such sale of property may be made by a county or municipality by listing the property through a real estate broker licensed under Chapter 40 of Title 43 who has a place of business located in the county where the property is located or outside the county if no such business is located in the county where the property is located. Property shall be listed for a period of at least three months. Such property shall not be sold at less than its fair market value. The department shall use a real estate appraiser with knowledge of the local real estate market who is licensed in Georgia and not an employee of the department to establish the fair market value of the property prior to listing such property. All sales shall be approved by the governing authority of the county or municipality at a regular meeting and shall be open to the public at which meeting public comments shall be allowed regarding such sale.

(B) Commencing at the time of the listing of the property as provided in subparagraph (A) of this paragraph, the county or municipality shall provide for a notice to be inserted once a week

for two weeks in the legal organ of the county indicating the names of real estate brokers listing the property for the political subdivision. The county or municipality may advertise in magazines relating to the sale of real estate or similar publications.

(C) The county or municipality shall have the right to reject any and all offers, in its discretion, and to sell such property pursuant to the provisions of paragraph (1) of this subsection.

(3)(A) Such sale of property may be made by a county or municipality to the highest bidder at a public auction conducted by an auctioneer licensed under Chapter 6 of Title 43. Such property shall not be sold at less than its fair market value.

(B) The county or municipality shall provide for a notice to be inserted once a week for the two weeks immediately preceding the auction in the legal organ of the county including, at a minimum, the following items:

- (i) A description sufficient to enable the public to identify the property;
- (ii) The time and place of the public auction;
- (iii) The right of the department or the county or municipality to reject any one or all of the bids;
- (iv) All the conditions of sale; and
- (v) Such further information as the department or the county or municipality may deem advisable as in the public interest.

The county or municipality may advertise in magazines relating to the sale of real estate or similar publications.

(C) The county or municipality shall have the right to reject any and all offers, in its discretion, and to sell such property pursuant to the provisions of paragraph (1) of this subsection.

(c) Any conveyance of property shall require the approval of the department, county, or municipality, by order of the commissioner on behalf of the department and, in the case of a county or municipality, by resolution, to be recorded in the minutes of its meeting. If the department or the county or municipality approves a sale of property, the commissioner, chairperson, or presiding officer may execute a quitclaim deed conveying such property to the purchaser. All proceeds arising from such sales shall be paid into and constitute a part of the funds of the seller. (Code 1933, § 95A-621, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1974, p. 1422, § 16A; Ga. L. 1995, p. 1195, § 1; Ga. L. 2008, p. 726, § 1/SB 444; Ga. L. 2009, p. 8, § 32/SB 46.)

Code Commission notes. — Pursuant to Code Section 28-9-5, in 1995, “paragraph” was substituted for “paragraphs” in subparagraph (b)(1)(A).

Pursuant to Code Section 28-9-5, “paragraph (1) of this subsection” was substituted for “the preceding paragraph” in the first sentence of paragraph (a)(2).

JUDICIAL DECISIONS

Intergovernmental exchanges not governed by disposal provisions. — Exchange of condemned property between the Department of Transportation and a county did not require application of the notice requirements and repurchase rights of O.C.G.A. § 32-7-4. *Swims v. Fulton County*, 267 Ga. 94, 475 S.E.2d 597 (1996).

Offer to original owner of property acquired, then rezoned. — If a county or municipality acquires land for public road purposes, rezones the land in a manner increasing the land’s value, and then decides to sell the property, the county or municipality has decided that the property was no longer needed for public road purposes at the time of the rezoning and, thus, the property must be offered to the

original owner based on the land’s value under the land’s pre-rezoning classification. *DeWolff v. Fulton County*, 253 Ga. 744, 325 S.E.2d 140 (1985).

Landowner’s dismissal of claim against county barred claim that county failed to comply with § 32-7-4. — Because a landowner dismissed all the claims alleged against a county, a claim that the county improperly abandoned a public road due to the county’s failure to comply with O.C.G.A. § 32-7-4 had also been relinquished. *McRae v. SSI Dev., LLC*, 283 Ga. 92, 656 S.E.2d 138 (2008).

Cited in *Hall County Historical Soc’y, Inc. v. Georgia DOT*, 447 F. Supp. 741 (N.D. Ga. 1978); *Turner v. City of Tallapoosa*, 289 Ga. 138, 709 S.E.2d 211 (2011).

32-7-5. Leasing property not needed for public road purposes.

(a) In order that any interest in real property acquired for public road or other transportation purposes may be used most economically, the department, counties, or municipalities, in addition to the authority granted in Code Section 32-7-3 to dispose of property no longer needed and in subsection (b) of Code Section 32-3-3 to exchange property, may, notwithstanding Article 2 of Chapter 16 of Title 50, the “State Properties Code,” improve, use, maintain, or lease any interest in property acquired for public road or other transportation purposes that is not presently needed for such purposes.

(b) If the department, a county, or municipality decides to lease any such property or interest therein, the owner of such property at the time of its acquisition or his successor in interest shall have the right to lease such property at an appraised fair market value to be determined by the department, county, or municipality for such period of time until the property is needed for public road or other transportation purposes. However, if at the time of acquisition such property was leased to a tenant, the tenant, instead of the owner or his successor in interest, shall have the first right to lease such property at the appraised fair market value. If the owner, his successor in interest, or the tenant of the property does not lease such property, the department, county, or municipality shall have the right to lease such property at a price equal

to the highest sealed public bid, if the bid is acceptable to the department, county, or municipality, for such period of time until the property is needed for public road or other transportation purposes. If no bids or bids which are insufficient are received, the department, county, or municipality may readvertise for new public bids. The department, county, or municipality may negotiate a lease with any state or federal agency, county, or municipality without the aforesaid requirement of sealed bids or leasing to the former owner. The department, county, or municipality shall have the right to impose reasonable restrictions, terms, or conditions on the use of such leased property.

(c) Separate and distinct from the department's authority to lease property in subsection (b) of this Code section, the department has the authority to negotiate a lease of any property contained within the rights of way of any nonlimited-access public road and not presently needed for public road purposes or rights of way under bridges or viaducts on limited-access public roads and not presently needed for public road purposes. If the department decides to lease any such property, the property shall be leased, at an appraised fair market value to be determined by the department, to the owner or the lessee of the property adjacent to the department's rights of way for the purposes of parking. Such property shall only be used for the purposes of providing parking and shall not be subleased without the department's prior approval. Plans for the use of said property must be submitted to and approved by the department prior to any construction. Regardless of any financial expenditures by the lessee, no lease granted under this subsection shall merge into and become a property interest of the lessee or a sublessee. The department shall reserve the right to terminate any lease without cause upon 30 days' written notice to the lessee. Notwithstanding any provisions of Code Section 48-2-17, all net revenues derived from the lease of any of the department's property used for the purposes of providing parking shall be utilized by the department to offset the cost of maintaining the public roads of the state.

(d) Unless said property or interest therein is leased to a tax-exempt person or body, it shall be subject to all applicable taxes, both real and personal.

(e) The department or any county or municipality may negotiate a lease with any state or federal agency, county, or municipality for the use of the property for any purpose for which the agency, county, or municipality may put property it owns in fee and without complying with the requirement for sealed bids or leasing to the former owner contained in this Code section. (Code 1933, § 95A-622, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1980, p. 775, § 1; Ga. L. 1988, p. 1431, § 2.)

ALR. — Validity, construction, and application of state relocation assistance laws, 49 ALR4th 491.

32-8-1. Relocation assistance in accordance with Uniform Act; real property acquisition.

(a) As used in this chapter, the term “Uniform Act” means the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended by the Uniform Relocation Act Amendments of 1987, Title IV of Public Law 100-17. The department, as required by the Uniform Act:

(1) Shall make or approve payments, in accordance with Section 210 of the Uniform Act, for relocation expenses and replacement housing expenses and shall provide relocation assistance advisory services outlined in Section 205 of the Uniform Act; and

(2) Shall make or approve payments, in accordance with Section 305(2) of the Uniform Act, to any person, family, business, farm operation, or nonprofit organization whose real property has been acquired by the department or is subject to a condemnation proceeding brought by the department for any federal-aid project in the state, the costs of which are now or hereafter financed in whole or in part from federal funds allocated to the department:

(A) For expenses incident to the transfer of real property acquired by the department, prepayment of mortgage penalties, and a pro rata portion of real property taxes on real property acquired by the department;

(B) For litigation expenses actually incurred by the condemnee in any condemnation proceeding brought by the department if the final judgment is that the department cannot acquire the real property by condemnation or the condemnation proceeding is formally abandoned by the department; or

(C) For litigation expenses incurred by the plaintiff in any inverse condemnation proceeding brought against the department in which judgment is rendered in favor of the plaintiff.

(b) In acquiring real property for any federal-aid project, the costs of which are financed in whole or in part from federal funds allocated to the department, the department shall be guided to the greatest extent practicable under state law by the land acquisition policies in Section 301 of the Uniform Act and the provisions of Section 302 of the Uniform Act.

(c) Nothing contained in this Code section shall be construed as creating in any condemnation proceeding brought under the power of eminent domain any element of value or of damage. (Ga. L. 1966, p. 588, § 1; Ga. L. 1969, p. 495, §§ 3, 6; Ga. L. 1972, p. 931, §§ 3-10; Code 1933, § 95A-623, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1982, p. 3, § 32; Ga. L. 1988, p. 1737, § 3.)

U.S. Code. — The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, referred to in this

Code section, is codified as 42 U.S.C. § 4601 et seq.

JUDICIAL DECISIONS

Department need not abide by federal prohibition of compensation for enhancement. — By requiring the Department of Transportation to be guided by federal law “to the greatest extent practicable” in the department’s condemnation procedures, subsection (b) of O.C.G.A. § 32-8-1 does not thereby require the department to abide by the federal law’s prohibition of compensation for enhancement by reason of taking and does not affect the judiciary’s power to determine what constitutes just and adequate compensation. DOT v. White, 173 Ga. App. 68, 325 S.E.2d 397 (1984).

Relocation expenses part of “just

and adequate compensation.” — Enactment of O.C.G.A. § 32-8-1 does not alter the fact that relocation expenses, whether awarded judicially or administratively, are still a part of the “just and adequate compensation” guaranteed to condemnees under the Constitution. DOT v. Gibson, 251 Ga. 66, 303 S.E.2d 19 (1983).

Relocation expenses may be recovered by administrative proceeding. — Under O.C.G.A. § 32-8-1, a condemnee whose property is being acquired for federally assisted highway projects may, but is not required to, seek payment of relocation expenses directly from the Depart-

ment of Transportation in an administrative action. DOT v. Gibson, 251 Ga. 66, 303 S.E.2d 19 (1983).

Relocation expenses may be recovered in condemnation proceeding. — When the case does not involve payments under O.C.G.A. § 32-8-1, the condemnee would be able to litigate the question of the condemnee's business relocation expenses as an element of "just and adequate compensation" in the condemnation proceedings under O.C.G.A. § 32-3-1 et seq. DOT v. Gibson, 251 Ga. 66, 303 S.E.2d 19 (1983).

Seeking administrative payment of relocation expenses precludes a separate judicial determination of the same relocation expenses in the statutorily authorized condemnation proceedings. DOT v. Gibson, 251 Ga. 66, 303 S.E.2d 19 (1983).

Appeal of relocation expenses award under the Administrative Procedure Act. — If a condemnee is dissatisfied with an award of relocation expenses under O.C.G.A. § 32-8-1, the award may be appealed under the Administrative Procedure Act, O.C.G.A. Ch. 13, T. 50. DOT v. Gibson, 251 Ga. 66, 303 S.E.2d 19 (1983).

Attorney fees. — O.C.G.A. § 32-8-1 provides a remedy to recover attorney fees separate and apart from a condemnation proceeding where just and adequate compensation is at issue. DOT v. B & G Realty, Inc., 197 Ga. App. 613, 398 S.E.2d 762 (1990).

Cited in DOT v. Doss, 238 Ga. 480, 233 S.E.2d 144 (1977); DOT v. Rushing, 143 Ga. App. 235, 237 S.E.2d 722 (1977).

32-8-2. Last resort replacement housing for persons displaced by federal-aid projects.

The department shall have the authority, as a last resort, to provide replacement housing when a federal-aid project financed in whole or in part with federal aid cannot proceed to actual construction because no comparable replacement sale or rental housing is available. In carrying out the relocation assistance activities, the department, with prior concurrence of the board, shall be authorized to make payments, construct or reconstruct with its own forces, cause to be constructed or reconstructed, and purchase by deed or condemnation any real property for the purposes of providing replacement housing. The department may exchange, lease, or sell to the displaced person such replacement housing. Whenever any real property has been acquired under this Code section and thereafter the department determines that all or any part of such property or any interest therein is no longer needed for such purposes because of changed conditions, the department is authorized to dispose of such property or interest therein in accordance with subsection (b) of Code Section 32-7-4. (Code 1933, § 95A-623.2, enacted by Ga. L. 1980, p. 775, § 2; Ga. L. 1988, p. 1737, § 3.)

32-8-3. Relocation assistance to persons displaced by federal-aid river and harbor improvement projects; real property acquisition.

Reserved. Repealed by Ga. L. 1988, p. 1737, § 3, effective April 12, 1988.

Editor's notes. — This Code section enacted by Ga. L. 1979, p. 973, § 7; Ga. L. was based on Code 1933, § 95A-623.1, 1982, p. 3, § 31.

32-8-4. Persons displaced by state-aid projects on the state highway system.

The department is authorized to make or approve payments for all necessary relocation expenses, replacement housing expenses, relocation advisory services, expenses incident to the transfer of real property, and litigation expenses as provided for in subparagraphs (a)(2)(A), (a)(2)(B), and (a)(2)(C) of Code Section 32-8-1 of any individual, family, business, farm operation, or nonprofit organization displaced by a state-aid highway project on the state highway system, the cost of which is now or hereafter financed in whole or in part from state funds. The department shall be guided by the policies, provisions, and limitations of the Uniform Act. The department shall not implement any relocation assistance on any state-aid projects on the state highway system without the prior concurrence of the board. (Code 1933, § 95A-623.3, enacted by Ga. L. 1980, p. 775, § 3; Ga. L. 1988, p. 1737, § 3.)

U.S. Code. — The Uniform Act, referred to in this Code section, is known as the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 and is codified as 42 U.S.C. § 4601 et seq.

32-8-5. Last resort replacement housing for persons displaced by state-aid projects on the state highway system.

The department shall have the authority, as a last resort, to provide replacement housing when a state-aid project on the state highway system cannot proceed to actual construction because no comparable replacement sale or rental housing is available. In carrying out the relocation assistance activities, the department, with prior concurrence of the board, shall be authorized to make payments, construct or reconstruct with its own forces, cause to be constructed or reconstructed, and purchase by deed or condemnation any real property for the purposes of relocating or constructing replacement housing. The department may exchange, lease, or sell to the displaced person such replacement housing. Whenever any real property has been acquired under this Code section and thereafter the department determines that all or any part of said property or any interest therein is no longer needed for such purposes because of changed conditions, the department is authorized to dispose of such property or interest therein in accordance with subsection (b) of Code Section 32-7-4. (Code 1933, § 95A-623.4, enacted by Ga. L. 1980, p. 775, § 4; Ga. L. 1988, p. 1737, § 3.)

32-8-6. Construction of chapter; power of department to take action necessary to secure benefit of federal-aid programs.

(a) Nothing in this chapter is intended to conflict with any federal law, and in case of such conflict such portion as may be in conflict with such federal law is declared of no effect to the extent of the conflict.

(b) The department is authorized to take the necessary steps to secure the full benefit of any federal-aid program and to meet any contingencies not provided for in this chapter, abiding at all times by a fundamental purpose to plan, construct, reconstruct, and maintain, as economically as possible, the public roads and other major transportation facilities of Georgia which will best promote the interest, welfare, and progress of the citizens of Georgia. (Code 1933, § 95A-624, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1979, p. 973, § 8; Ga. L. 1988, p. 1737, § 3.)

CHAPTER 9

MASS TRANSPORTATION

| Sec. | | Sec. | |
|-----------|--|----------|--|
| 32-9-1. | Financial support and project grants for research, programs, and purchases. | 32-9-8. | Licensing airports. |
| 32-9-2. | Operation by department of facilities or systems; financial assistance to systems. | 32-9-9. | Creation of transit authority by special legislation; authority's attributes and powers. |
| 32-9-3. | Financial assistance for transportation services for elderly and handicapped persons [Repealed]. | 32-9-10. | Implementation of federal Intermodal Surface Transportation Efficiency Act of 1991. |
| 32-9-4. | Designation of travel lanes; use of such lanes. | 32-9-11. | Transit services with local governments. |
| 32-9-4.1. | FlexAuto lanes. | 32-9-12. | Pilot program for funding streetcar projects. |
| 32-9-5. | Ride-sharing programs. | 32-9-13. | Suspension of restrictions on use of annual proceeds from local sales and use taxes by public transit authorities. |
| 32-9-6. | Financial assistance for rail service. | 32-9-14. | Board of directors of Metropolitan Atlanta Rapid Transit Authority. |
| 32-9-7. | Financial assistance for airport development. | | |

Editor's notes. — Ga. L. 2004, p. 898, § 2, not codified by the General Assembly, provides that: "The department will form a pilot program that will provide a state level flow through point for any available federal funding or other forms of financial and development sources and assistance for local, regional, and public-private streetcar projects. Any funding through bonds for such pilot and grant program shall be administered by the State Road

and Tollway Authority." Ga. L. 2006, p. 498, § 5/SB 150, not codified by the General Assembly, provides for the repeal of Ga. L. 2004, p. 898, § 2, effective April 27, 2006.

Administrative rules and regulations. — Grant programs, Official Compilation of the Rules and Regulations of the State of Georgia, State Department of Transportation, Chapter 672-12.

32-9-1. Financial support and project grants for research, programs, and purchases.

(a) As used in this Code section, the term:

(1) "Mass transportation" means all modes of transportation serving the general public which are appropriate, in the judgment of the department, to transport people, commodities, or freight by highways, rail, air, water, or other conveyance, exclusive of wires and pipelines.

(2) "Mass transportation facilities" means everything necessary for the conveyance and convenience of passengers and the safe and prompt transportation of freight on those modes of transportation serving the general public which are appropriate, in the judgment of

the department, to transport people, commodities, or freight by highways, rail, air, water, or other conveyance, exclusive of wires and pipelines.

(3) "Project grant" means the state's share of the cost of carrying out a particular project authorized by this Code section. This share may be provided in direct financial support, goods or products, personnel services, or any combination thereof.

(b) Subject to general fund appropriations for such purposes and any provisions of Chapter 5 of this title to the contrary notwithstanding, the department is authorized, within the limitations provided in paragraphs (1) and (2) of this subsection, to provide to municipalities, counties, regional commissions, authorities, state agencies, and public and private mass transportation operators:

(1) Financial support for research concerning mass transportation, by contract or otherwise; and

(2) Project grants to supplement federal, local, or federal and local funds for use:

(A) In providing for studies, analyses, and planning and development of programs for mass transportation service and facilities;

(B) In providing for research, development, and demonstration projects in all phases of mass transportation;

(C) In providing for programs designed solely to advertise, promote, and stimulate the development and use of mass transportation facilities; and

(D) In providing for the purchase of facilities and equipment, including rolling stock, used or to be used for the purpose of mass transportation.

(c)(1) The governing bodies of municipalities, counties, regional commissions, authorities, state agencies, and public and private mass transportation operators may, by formal resolution, apply to the department for financial support and project grants provided by this Code section.

(2) The use of funds or grants shall be for the purposes set forth in this Code section and, without limiting the generality of the foregoing, may be used for local contributions required by the federal Urban Mass Transportation Act of 1964, as amended, or any other federal law concerning mass transportation.

(3) The department shall review the proposal and, if satisfied that the proposal is in accordance with the purposes of this Code section, may, with the approval of the commissioner, enter into a financial

support or project grant agreement subject to the condition that the financial support or project grant be used in accordance with the terms of the proposal.

(4) The time of payment of the financial support or project grant and any conditions concerning such payment shall be set forth in the financial support or project grant agreement.

(d) In order to effectuate and enforce this Code section, the department is authorized to promulgate necessary rules and regulations and to prescribe conditions and procedures in order to assure compliance in carrying out the purposes for which financial support and project grants may be made in accordance with this Code section.

(e) The department is directed to administer this program with such flexibility as to permit full cooperation between federal, state, and local governments, agencies, and instrumentalities so as to result in an effective and economical program.

(f) Funds appropriated to the department pursuant to Article III, Section IX, Paragraph VI(b) of the Constitution of Georgia may not be utilized for any of the purposes set out in this Code section.

(g) No financial support or project grant provided for in this Code section may be made to any private mass transportation operator without prior concurrence of the State Transportation Board. (Code 1933, § 95A-1301, enacted by Ga. L. 1977, p. 817, § 2; Ga. L. 1982, p. 3, § 32; Ga. L. 1983, p. 3, § 56; Ga. L. 1989, p. 1317, § 6.17; Ga. L. 2008, p. 181, § 20/HB 1216.)

Code Commission notes. — Pursuant to Code Section 28-9-5, in 1989, “transportation” was substituted for “transportaion” in subsection (g).

Pursuant to Code Section 28-9-5, in 2008, “commissions” was substituted for “commission” in subsection (b) and paragraph (c)(1), as the original language was “development centers”.

U.S. Code. — The federal Urban Mass Transportation Act of 1964, referred to in paragraph (c)(2) of this Code section, is codified at 49 U.S.C. § 5301 et seq.

Law reviews. — For article surveying recent legislative and judicial developments in zoning, planning and environmental law, see 31 Mercer L. Rev. 89 (1979).

32-9-2. Operation by department of facilities or systems; financial assistance to systems.

(a) As used in this Code section, the term:

(1) “Capital project” has the same meaning as in 49 U.S.C.A. Section 5302(a)(1).

(2) “Construction” means the supervising, inspecting, actual building, and all expenses incidental to the acquisition, actual building, or reconstruction of facilities and equipment for use in mass transpor-

tation, including designing, engineering, locating, surveying, mapping, and acquisition of rights of way.

(3) "Mass transportation" means all modes of transportation serving the general public which are appropriate, in the judgment of the department, to transport people, commodities, or freight by highways, rail, air, water, or other conveyance, exclusive of wires and pipelines.

(b) Subject to general appropriations for such purposes, the department may, alone or in cooperation with counties, municipalities, authorities, state agencies, or private or public transit companies, plan, develop, supervise, support, own, lease, maintain, and operate mass transportation facilities or systems.

(c)(1) The department may, when funds are available from the United States government for such purposes, provide assistance to the operators of mass transportation systems or to the owners of facilities used in connection therewith for the payment of operating expenses to improve or to continue such mass transportation service by operation, lease, contract, or otherwise.

(2) The department may, when funds are available from the United States government for such purposes, participate in the acquisition, construction, and improvement of facilities and equipment, including capital projects, for use, by operation or lease or otherwise, in mass transportation service.

(3) The department's participation with state funds in those programs specified in paragraphs (1) and (2) of this subsection may be in either cash, products, or in-kind services. The department's participation with state funds shall be limited to the minimum nonfederal share of the program. The remainder shall be provided from sources other than department funds or from revenues from the operation of public mass transportation systems.

(d) The department shall not enter into any contract with any private entity for the purposes set out in subsections (b) and (c) of this Code section without the prior concurrence of the State Transportation Board.

(e) Funds appropriated to the department pursuant to Article III, Section IX, Paragraph VI(b) of the Constitution of Georgia may not be utilized for any of the purposes set out in this Code section.

(f) In order to effectuate and enforce this Code section, the department is authorized to promulgate necessary rules and regulations and to prescribe conditions and procedures in order to assure compliance in carrying out the purposes of this Code section.

(g) The department shall not be authorized, without the concurrence of the Metropolitan Atlanta Rapid Transit Authority, to receive federal financial assistance to provide mass transportation services or facilities that will duplicate those mass transportation services or facilities provided or to be provided by the Metropolitan Atlanta Rapid Transit Authority, within the City of Atlanta and Fulton and DeKalb counties, as a part of its rapid transit system, including the use of buses as well as a rail system, as that system is described in an engineering report, dated September 1971, prepared for the Metropolitan Atlanta Rapid Transit Authority by Parsons-Brinckerhoff-Tudor-Bechtel, general engineering consultants, and adopted as part of the Rapid Transit Contract and Assistance Agreement, dated September 1, 1971, between the Metropolitan Atlanta Rapid Transit Authority, the City of Atlanta, Fulton County, Georgia, and DeKalb County, Georgia. (Code 1933, § 95A-1302, enacted by Ga. L. 1977, p. 817, § 2; Ga. L. 1983, p. 3, § 56; Ga. L. 1999, p. 112, § 3; Ga. L. 2003, p. 905, § 4; Ga. L. 2012, p. 1343, § 9/HB 817.)

The 2012 amendment, effective July 1, 2012, substituted “limited to the minimum nonfederal share of the program” for “limited to a maximum of 15 percent of the cost of the program” near the end of the second sentence of paragraph (c)(3).

Cross references. — Powers and duties of department relating to Metropolitan Atlanta Rapid Transit Authority, § 32-2-2(a)(14).

Law reviews. — For article, “Standards for Smart Growth: Searching for Limits on Agency Discretion and the Georgia Regional Transportation Authority,” see 36 Ga. L. Rev. 247 (2001).

For note on 1999 amendment to this Code section, see 16 Ga. St. U.L. Rev. 233 (1999). For note on the 2003 amendment to this Code section, see 20 Ga. St. U.L. Rev. 170 (2003).

OPINIONS OF THE ATTORNEY GENERAL

State funds may be used to match federal funds for transportation services. — State funds, provided under Ga. Const. 1976, Art. IV, Sec. VIII, Para. III (see Ga. Const. 1983, Art. III, Sec. VI, Para. II) may be used to match federal funds to provide operating subsidies for intercity bus service and Amtrak passen-

ger rail service. 1980 Op. Att’y Gen. No. 80-143.

Administration of railroad safety program. — Georgia Department of Transportation lacks statutory authority necessary to engage in the administration of railroad safety program. 1978 Op. Att’y Gen. No. 78-64.

32-9-3. Financial assistance for transportation services for elderly and handicapped persons.

Reserved. Repealed by Ga. L. 1990, p. 915, § 1, effective July 1, 1990.

Editor’s notes. — This Code section was based on Ga. L. 1990, p. 915, § 1. For present similar provisions relating to financial assistance for transportation services for elderly and disabled persons, see Code Section 49-2-13.1.

Ga. L. 1995, p. 1302, § 14(24), purported to amend this Code section by substituting “disabled” for “handicapped”; however, this Code section was repealed in 1990.

32-9-4. Designation of travel lanes; use of such lanes.

(a) The department is authorized to designate travel lanes in each direction of travel on any road in the state highway system for the exclusive or preferential use of:

- (1) Buses;
- (2) Motorcycles;
- (3) Passenger vehicles occupied by two persons or more;
- (4) Vehicles bearing alternative fueled vehicle license plates issued under paragraph (7) of subsection (l) of Code Section 40-2-86.1; or
- (5) Other vehicles as designated by the department.

Where such designation has been made, the road shall be appropriately marked with such signs or other roadway markers and markings to inform the traveling public of the lane restrictions imposed.

(a.1) Upon approval through either legislative action in the United States Congress or regulatory action by the United States Department of Transportation to permit hybrid vehicles with fewer than two occupants to operate in a high occupancy vehicle lane, the department shall authorize hybrid vehicles, as defined in Code Section 40-2-76, to use the travel lanes designated for such vehicles as provided in paragraph (4) of subsection (a) of this Code section.

(b) No driver of any vehicle not authorized to be operated in a lane designated and signed for exclusive use shall operate such vehicle in such lane except to execute turning movements or in an emergency situation. Any person who violates this subsection shall be guilty of a misdemeanor, punishable as provided for in Code Section 40-6-54.

(c) No traffic lane shall be designated and signed for exclusive use pursuant to subsection (a) of this Code section without the approval of the State Transportation Board.

(d) The department is authorized to promulgate necessary rules and regulations in order to carry out the purposes of this Code section. (Code 1933, § 95A-1304, enacted by Ga. L. 1977, p. 817, § 2; Ga. L. 1993, p. 363, § 1; Ga. L. 1997, p. 1589, § 1; Ga. L. 2003, p. 450, § 2; Ga. L. 2010, p. 9, § 1-61/HB 1055.)

The 2010 amendment, effective May 12, 2010, substituted “paragraph (7) of subsection (l) of Code Section 40-2-86.1” for “Code Section 40-2-76” at the end of paragraph (a)(4).

Cross references. — Further provisions regarding designation of travel lanes and operation of vehicles within lanes, §§ 40-6-24, 40-6-48.

Validity and applicability of statutes

32-9-4.1. FlexAuto lanes.

(a) As used in this Code section, the term “FlexAuto lane” means an area designated as a special lane of travel created by converting emergency lane and hard shoulder areas on the left or right side of an interstate highway or other road into a rush hour traffic lane for use by automobiles during certain hours.

(b) The department, with the approval of the board, is authorized to designate FlexAuto lanes on the state highway system for the purpose of improving traffic flow in and around areas with a history of traffic congestion.

(c) Any FlexAuto lane shall be appropriately striped and marked and shall have signage appropriate to indicate its nature, as determined by the department. The department may incorporate emergency havens, emergency ramps, or emergency parking pads into the design and creation of FlexAuto lanes, as determined appropriate by the department.

(d) The hours of usage of a FlexAuto lane shall be determined by the department, not to exceed eight hours per day.

(e) It shall be unlawful for any person operating any motor vehicle to use a FlexAuto lane for purposes of travel other than emergency use outside the permitted hours of travel use, as determined and posted by the department. It shall be unlawful for any person operating any motor vehicle other than an automobile, motorcycle, or light truck to use a FlexAuto lane for purposes of travel other than emergency use at any time.

(f) Prior to implementing this Code section, the department shall, if necessary, seek to secure and implement any federal approvals, waivers, or other actions necessary or appropriate in order to implement this Code section without any loss or impairment of federal funding.

(g) FlexAuto lanes shall not be implemented at more than 80 separate locations in the state until such time as the department has completed a one-year test use of such lanes. (Code 1981, § 32-9-4.1, enacted by Ga. L. 2005, p. 684, § 2/HB 273.)

Editor's notes. — Ga. L. 2005, p. 684, § 1/HB 273, not codified by the General Assembly, provides that: "The General Assembly finds and determines and recommends as follows:

"(1) The Georgia Department of Transportation has a job of overwhelming proportions and addresses the ever-increasing transportation needs of the state through the hard work and dedication of outstanding leaders and staff;

"(2) There is a need in this state to reduce emissions and improve air quality by increasing traffic flow and reducing traffic congestion and decreasing drive times;

"(3) The Department of Transportation is urged to use creative and innovative methods to deal with gridlock and traffic congestion in Georgia and especially in the metropolitan areas;

"(4) Upon passage of this enabling legislation, the department is urged to imple-

ment FlexAuto lanes where applicable and to commence the implementation of such lanes in as timely a manner as is practicable;

"(5) The Department of Transportation is requested specifically to identify 20 major areas with a history of traffic congestion in and around our state that will derive the most benefit from the use of FlexAuto lanes and, after identifying these areas, to create and rapidly implement a plan for use of such lanes in such areas;

"(6) Studies and construction models used successfully in other areas within this country and others should be used as models where traffic flow was improved and emissions reduced by using creative and innovative methods to deal with gridlock and traffic congestion; and

"(7) The model used in Virginia is being studied by Israel, France, Japan, Germany, and England."

32-9-5. Ride-sharing programs.

Subject to general appropriations for such purposes, the department, pursuant to its rules and regulations, is authorized, alone or in cooperation with counties, municipalities, authorities, state agencies, or private or public entities, to participate in the establishment and operation of ride-sharing programs. A ride-sharing program is an undertaking designed to encourage safe and adequate transportation by increasing the number of person-trips per vehicle, regardless of the type of vehicle. (Code 1933, § 95A-1307, enacted by Ga. L. 1978, p. 1473, § 1; Ga. L. 1993, p. 373, § 1.)

32-9-6. Financial assistance for rail service.

(a) The department is designated as the state agency to offer financial assistance, in the form of a rail service continuation payment, to enable rail service, for which the Interstate Commerce Commission has determined a certificate of abandonment should be issued, to be continued.

(b) The department is authorized to receive and administer federal financial assistance and to distribute, by contract or otherwise, such federal financial assistance, alone or together with state, local, or private funds available for such purposes, for the implementation of railroad assistance programs that are designed to provide for:

- (1) The cost of rail service continuation payments;

(2) The cost of purchasing a line of railroad or other rail properties to maintain existing rail services or to provide for future rail services;

(3) The cost of rehabilitating and improving rail properties on a line of railroad to the extent necessary to permit adequate and efficient rail service on such line; or

(4) The cost of reducing the cost of the lost rail service in a manner less expensive than continuing rail service.

Subject to general fund appropriations for these purposes, the department is authorized to expend state funds to the extent necessary to pay the state's share of such payments.

(c) The department shall provide to the Georgia Public Service Commission the pertinent information it may possess regarding a proposed abandonment of a railroad line and shall assist the Public Service Commission, as required, in developing the state's position on the abandonment. The Public Service Commission shall provide to the department the pertinent information it may possess concerning any railroad line for which abandonment has been requested in order to assist the department in preparing an economic and operational analysis of the line.

(d) Should the department decide to implement a railroad assistance program in accordance with paragraph (4) of subsection (b) of this Code section, the Public Service Commission will use its best efforts, within the scope of its powers and responsibilities, to assist the department in implementing such a program.

(e) The department is authorized to promulgate reasonable rules and regulations for the implementation and administration of this Code section.

(f) The department shall not implement or propose to implement any railroad assistance program without the prior concurrence of the State Transportation Board.

(g) Funds appropriated to the department pursuant to Article III, Section IX, Paragraph VI(b) of the Constitution of Georgia may not be utilized for any of the purposes set out in this Code section. (Code 1933, § 95A-1305, enacted by Ga. L. 1977, p. 870, § 1; Ga. L. 1982, p. 3, § 32; Ga. L. 1983, p. 3, § 56.)

Cross references. — Railroads and rail service generally, T. 46, C. 8 and T. 46, C. 9.

32-9-7. Financial assistance for airport development.

(a) So that the State of Georgia may effectively and responsibly implement its state airport system plan, after September 30, 1977, all applications to an agency of the United States for funds to improve or develop an airport not regularly served by an air carrier operating under a certificate of public convenience and necessity issued by the Civil Aeronautics Board or any successor agency of the United States government or owned and operated by the United States government shall be submitted to the department for review and comment prior to being submitted to the federal agency. No such application shall be submitted to the federal agency without first having been reviewed and commented on by the department. The department shall act on each application within 90 days after the receipt of the application. Applications submitted to the Federal Aviation Agency prior to September 30, 1977, shall not be subject to the provisions of this Code section.

(b) The department is authorized, when requested by the owner or operator of any airport for which federal funds are or will be sought for the improvement or development of the airport, to provide such assistance to the owner or operator of the airport as may be necessary to prepare the application for such funds and to complete the project for which such funds are requested.

(c) In order to effectuate and enforce this Code section, the department is authorized to promulgate necessary rules and regulations and to prescribe conditions and procedures in order to assure compliance in carrying out the purposes of this Code section.

(d) Funds appropriated to the department pursuant to Article III, Section IX, Paragraph VI(b) of the Constitution of Georgia may not be utilized for any of the purposes set out in this Code section. (Code 1933, § 95A-1306, enacted by Ga. L. 1977, p. 868, § 1; Ga. L. 1983, p. 3, § 56.)

Cross references. — Powers of local governments as to air facilities, T. 6, C. 3.

ALR. — Power to establish or maintain public airport, or to create separate public airport authority, 161 ALR 733.

Airport operations or flight of aircraft as nuisance, 79 ALR3d 253.

32-9-8. Licensing airports.

(a) As used in this Code section, the term:

(1) “Aircraft” means any machine, whether heavier or lighter than air, used or designed for navigation of or flight in the air.

(2) "Airport" means any area of land, water, or mechanical structure which is used for the landing and takeoff of aircraft and is open to the general public for such use without prior permission or restrictions and includes any appurtenant structures and areas which are used or intended to be used for airport buildings, other airport facilities, rights of way, or easements, provided that the term "airport" shall not include the following facilities used as airports:

(A) Facilities owned or operated by the United States government or an agency thereof;

(B) Privately owned facilities not open to the general public when such airports do not interfere with the safe and efficient use of air space of an airport for which a license or an airport operating certificate issued under Part 139 of the regulations of the Federal Aviation Administration or any successor regulation has been granted;

(C) Facilities being operated pursuant to a current airport operating certificate issued by the Federal Aviation Administration or any successor agency of the United States government; and

(D) Any facility served by a scheduled air carrier operating under a certificate of public convenience and necessity issued by the Civil Aeronautics Board or any successor agency of the United States government.

(3) "Person" means an individual, firm, corporation, partnership, company, association, joint-stock association, municipality, county, or state agency, authority, or political subdivision and includes any trustee, receiver, assignee, or other similar representative thereof.

(b) It is declared that the operation of airports used by the public for general aviation purposes but which are operated without regulation as to minimum and uniform safety requirements endangers the lives and property of persons operating aircraft at these facilities, the passengers of aircraft operated by such persons, and the occupants of lands in the vicinity of such facilities. For the purpose of establishing and improving a system of safer airports and to foster safer operating conditions at these airports, the department is authorized and directed to provide for the licensing of airports. The department may charge a license fee of \$100.00 per runway, up to a maximum of \$400.00, for each original license and each renewal thereof. All licenses shall be renewed biennially. In promulgating the rules and regulations establishing minimum standards, the department shall consult with the Georgia Aviation Trades Association.

(c) The department shall issue a permit or renewal thereof to any owner of an airport who applies for a permit or renewal thereof, if, upon

investigation, the department determines that the airport meets minimum standards, prescribed by the department in its rules and regulations, in the areas of geometric layout, navigational aids, lighting, approach surfaces, landing surfaces, runway markings, and separation between airport sites, provided that no permit shall be denied the owner or operator of an airport in existence on July 1, 1978, because of the failure to meet minimum standards prescribed with regard to geometric layout and separation between airport sites.

(d) Within nine months after July 1, 1978, the department shall promulgate and publish reasonable rules and regulations establishing the minimum standards provided for in subsection (c) of this Code section, the procedure for obtaining, renewing, and revoking a license, and such other procedures and conditions as are reasonable and necessary to carry out this Code section.

(e) Within six months after the effective date of the rules and regulations adopted by the department, the owner of each airport in this state shall apply, on forms prescribed by the department, for a license to operate the airport. Within 60 days after the receipt of a properly filled out application for a license, with appropriate fee, the department shall act upon the application.

(f) All applications for renewal of a license shall be made to the department no later than 60 days prior to the expiration of the existing license.

(g) Applications for a license or renewal thereof may be denied, or a license may be revoked, by the department, after notice and opportunity for hearing to the licensee, when the department shall reasonably determine:

(1) That the licensee has failed to comply with the conditions of the license or renewal thereof;

(2) That the licensee has failed to comply with the minimum standards prescribed by the department pursuant to this Code section; or

(3) That because of changed physical or legal conditions or circumstances the airport has become either unsafe or unusable for the purposes for which the license or renewal was issued.

(h) The decision of the department to deny or revoke any license or renewal thereof shall be subject to review in the manner prescribed for the review of contested cases as prescribed by Chapter 13 of Title 50, the "Georgia Administrative Procedure Act."

(i) After September 30, 1979, it shall be unlawful for any person to own or operate an airport without a valid license as required by this

Code section. Any person owning or operating an airport without a valid license as prescribed by this Code section shall be subject to a civil penalty in an amount not to exceed \$100.00, to be imposed by the commissioner. (Code 1933, § 95A-1307, enacted by Ga. L. 1978, p. 1932, § 1; Ga. L. 2010, p. 9, § 1-62/HB 1055.)

The 2010 amendment, effective May 12, 2010, substituted “\$100.00 per runway, up to a maximum of \$400.00,” for “\$10.00” in the third sentence of subsection (b).

32-9-9. Creation of transit authority by special legislation; authority’s attributes and powers.

(a) This Code section shall be known and may be cited as the “Transit Authority Act.”

(b) It is declared to be the policy of the state to foster and to assure the development of mass rapid transit systems within the metropolitan areas of this state.

(c) As used in this Code section, the term “metropolitan area” means (1) the area of any city within the state whose population, as determined by the federal census of 1950 or any later federal census, shall have exceeded 43,617 persons (such a city being hereinafter referred to as a central city), together with (2) the area suburban to such a central city as each such suburban area shall be more specifically delimited by special Act of the General Assembly.

(d) The General Assembly may, by special Act, create a transit authority charged with the duty of acquiring, constructing, owning, operating, and maintaining a mass rapid transit system within a metropolitan area as defined in this Code section. The General Assembly, in the special Act creating such an authority, shall delimit the territory to be served by such authority; and the General Assembly may, in such special Act, provide that the property of and the securities issued by such authority shall be exempt from taxation and that such authority may, in addition to the rights, powers, privileges, exemptions, and immunities which are customarily possessed by public corporations, have such other and further rights, powers, privileges, exemptions, and immunities as the General Assembly shall deem appropriate to the accomplishment of its purposes, provided that such authority shall not be empowered to obligate the State of Georgia or any county, municipality, political subdivision, or public body of the state to pay any of its debts; provided, further, that the central city served by such mass rapid transit system and any county or counties whose territory or any

part thereof lies within the territorial limits of such authority, as the same may be delimited in the special Act creating such authority, shall have the right to appoint the members of such authority, or a majority thereof, subject to such qualifications for membership and such apportionment of the right of appointment as the special Act creating such authority may provide. (Ga. L. 1960, p. 1025; Ga. L. 1982, p. 3, § 32; Ga. L. 1996, p. 6, § 32.)

Validity of statute or ordinance relating

to taxicab or bus service as against objection based upon monopolistic tendency or effect, 159 ALR 821.

32-9-10. Implementation of federal Intermodal Surface Transportation Efficiency Act of 1991.

(a) The purpose of this Code section is to implement Section 3029 of Public Law 102-240, the federal Intermodal Surface Transportation Efficiency Act of 1991, referred to in this Code section as the act.

(b) For purposes of this Code section, the term “system” means a public transportation system having vehicles operated on a fixed guideway on steel rails, the steel of the wheels of such vehicles coming directly into contact with such rails, but excluding such systems that are subject to regulation by the Federal Railroad Administration. In addition, a “system” shall include all other public transportation systems that, under regulations issued pursuant to subsection (e) of the act, are subject to the act.

(c) The department is designated as the agency of this state responsible for implementation of the act.

(d) Each system operating in this state shall adopt and carry out a safety program plan that provides for the following:

(1) The plan shall establish safety requirements with respect to the design, manufacture, and construction of the equipment, structures, and fixtures of the system; the maintenance of equipment, structures, and fixtures; operating methods and procedures and the training of personnel; compliance with federal, state, and local laws and regulations applicable to the safety of persons and property;

protection from fire and other casualties; and the security of passengers and employees and of property;

(2) The plan shall provide for measures reasonably adequate to implement the requirements established pursuant to paragraph (1) of this subsection; and

(3) The plan shall establish lines of authority, levels of responsibility and accountability, and methods of documentation adequate to ensure that it is implemented.

(e) The department shall have the following powers and duties:

(1) It shall review the safety program plan of each system and all revisions and amendments thereof and if it finds that the plan conforms to subsection (d) of this Code section shall approve it;

(2) It shall monitor the implementation of each system's plan;

(3) It shall have the power to require any system to revise or amend its safety program plan as may be necessary in order to comply with any regulations issued pursuant to subsection (e) of the act and any amendments or revisions thereof; and

(4) It shall investigate hazardous conditions and accidents on each system and, as appropriate, require that hazardous conditions be corrected or eliminated.

(f) If any system fails to comply with an order of the department to correct or to eliminate a hazardous condition, the department may apply for an order requiring such system to show cause why it should not do so. Such application shall be made to the superior court of the most populous county in which such system operates, as such population is determined according to the United States decennial census of 1990 or any future such census. If at the hearing upon such an order to show cause the court finds that the condition that is the subject of the order in fact creates an unreasonable risk to the safety of persons, property, or both, the court may order the system to comply with the department's order or to take such other corrective action as the court finds appropriate. (Code 1981, § 32-9-10, enacted by Ga. L. 1993, p. 1362, § 1.)

Code Commission notes. — Pursuant to Code Section 28-9-5, in 1996, a comma was deleted following "Code section" near the end of paragraph (e)(1).

U.S. Code. — The federal Intermodal Surface Transportation Efficiency Act of 1991, referred to in this Code section, is codified at 49 U.S.C. § 5501.

32-9-11. Transit services with local governments.

(a) As used in this Code section, the term:

(1) "Local government" means any county, municipality, or political subdivision of this state, or any combination thereof.

(2) "Transit agency" means any public agency, public corporation, or public authority existing under the laws of this state that is authorized by any general, special, or local law to provide any type of transit services within any area of this state but shall not include the Department of Transportation, the Georgia Regional Transportation Authority, or the Georgia Rail Passenger Authority.

(3) "Transit facilities" means everything necessary and appropriate for the conveyance and convenience of passengers who utilize transit services.

(4) "Transit services" means all modes of transportation serving the general public which are appropriate to transport people and their personal effects by highway or other ground conveyance but does not include rail conveyance.

(b) Any transit agency may, by contract with any local government for any period not exceeding 50 years, provide transit services or transit facilities for, to, or within that local government or between that local government and any area in which such transit agency provides transit services or transit facilities, except that if such services or facilities are to be funded wholly or partially by fees, assessments, or taxes levied and collected within a special district created pursuant to Article IX, Section II, Paragraph VI of the Constitution, such contract may only become effective if it is approved by a majority of the qualified voters voting in such local government in a special election which shall be called and conducted for that purpose by the election superintendent of such local government. Any services provided by a transit agency pursuant to a contract authorized by this subsection shall be conditioned upon such services being included in a plan for transit services adopted or approved by the governing authority of the county and by the governing authorities of any municipalities within which transit services are to be provided as provided in the plan.

(c) The purpose of this Code section is to facilitate the exercise of the power to provide public transportation services conferred by Article IX, Section II, Paragraph III of the Constitution. This Code section does not repeal any other law conferring the power to provide public transportation services or prescribing the manner in which such power is to be exercised. This Code section does not restrict the power of the Department of Transportation, the Georgia Regional Transportation Authority, or the Georgia Rail Passenger Authority to contract with any local government to provide transit services or transit facilities, including but not limited to rail transit services and facilities, pursuant to Article IX, Section III, Paragraph I of the Constitution. (Code 1981, § 32-9-11, enacted by Ga. L. 1998, p. 888, § 1; Ga. L. 1999, p. 112, § 4.)

Law reviews. — For article, “Standards for Smart Growth: Searching for Limits on Agency Discretion and the Georgia Regional Transportation Authority,” see 36 Ga. L. Rev. 247 (2001).

For note on 1999 amendment to this Code section, see 16 Ga. St. U.L. Rev. 233 (1999).

32-9-12. Pilot program for funding streetcar projects.

The department will form a pilot program that will provide a state level flow through point for any available federal funding or other forms of financial and development sources and assistance for local, regional, and public-private streetcar projects. Any funding through bonds for such pilot and grant program shall be administered by the State Road and Tollway Authority. (Code 1981, § 32-9-12, enacted by Ga. L. 2005, p. 60, § 32/HB 95.)

32-9-13. Suspension of restrictions on use of annual proceeds from local sales and use taxes by public transit authorities.

Provisions in all laws, whether general or local, including but not limited to the Metropolitan Atlanta Rapid Transit Authority Act of 1965 approved March 10, 1965 (Ga. L. 1965, p. 2243), as amended, that set forth restrictions on the use by public transit authorities of annual proceeds from local sales and use taxes shall be suspended for the period beginning on June 2, 2010, and continuing for three years. The greater discretion over such funds shall not abrogate the obligation of the public transit authority to comply with federal and state safety regulations and guidelines. Newly unrestricted funds shall be utilized, subject to total funding, to maintain the level of service for the transit system as it existed on January 1, 2010. Furthermore, except as had been previously contracted to by the public transit authority prior to January 1, 2010, no funds newly unrestricted during this suspended period shall be used by a public transit authority to benefit any person or other entity for any of the following: annual cost-of-living or merit based salary raises or increases in hourly wages; increased overtime due to such wage increases; payment of bonuses; or to increase the level of benefits of any kind. (Code 1981, § 32-9-13, enacted by Ga. L. 2010, p. 778, § 3/HB 277.)

Effective date. — This Code section became effective June 2, 2010.

Code Commission notes. — Pursuant to Code Section 28-9-5, in 2010, “beginning on June 2, 2010,” was substituted for “beginning on the effective date of this Code section” near the end of the first sentence.

Editor’s notes. — Ga. L. 2010, p. 778, § 1/HB 277, not codified by the General Assembly, provides: “This Act shall be known and may be cited as the ‘Transportation Investment Act of 2010.’”

32-9-14. Board of directors of Metropolitan Atlanta Rapid Transit Authority.

(a) Any provisions to the contrary in the Metropolitan Atlanta Rapid Transit Authority Act of 1965, approved March 10, 1965 (Ga. L. 1965, p. 2243), as amended, notwithstanding, the terms of all members of the board of directors of the Metropolitan Atlanta Rapid Transit Authority shall terminate on December 31, 2010, and the board shall be reconstituted according to the provisions of this Code section.

(b) Effective January 1, 2011, the board of directors of the authority shall be composed of 11 voting members and one nonvoting member. Of the voting members: three members shall be residents of the City of Atlanta to be nominated by the mayor and elected by the city council; four members shall be residents of DeKalb County to be appointed by the DeKalb County Board of Commissioners and at least one of such appointees shall be a resident of that portion of DeKalb County lying south of the southernmost corporate boundaries of the City of Decatur and at least one of such appointees shall be a resident of that portion of DeKalb County lying north of the southernmost corporate boundaries of the City of Decatur; three members shall be residents of Fulton County to be appointed by the local governing body thereof, and one of such appointees shall be a resident of that portion of Fulton County lying south of the corporate limits of the City of Atlanta and two of such appointees shall be residents of that portion of Fulton County lying north of the corporate limits of the City of Atlanta. The commissioner of transportation shall be a voting member of the board and the executive director of the Georgia Regional Transportation Authority shall be a nonvoting member of the board. The governing body that appoints a member shall appoint successors thereto for terms of office of four years in the same manner that such governing body makes its other appointments to the board.

(c) All appointments shall be for terms of four years except that a vacancy caused otherwise than by expiration of term shall be filled for the unexpired portion thereof by the local governing body that made the original appointment to the vacant position, or its successor in office. A member of the board may be appointed to succeed himself or herself for one four-year term. Appointments to fill expiring terms shall be made by the local governing body prior to the expiration of the term, but such appointments shall not be made more than 30 days prior to the expiration of the term. Members appointed to the board shall serve for the terms of office specified in this Code section and until their respective successors are appointed and qualified.

(d) The local governing bodies of Clayton, Cobb, and Gwinnett Counties may, any other provision of this Code section to the contrary

notwithstanding, negotiate, enter into, and submit to the qualified voters of their respective counties the question of approval of a rapid transit contract between the county submitting the question and the authority. The local governing bodies of these counties shall be authorized to execute such rapid transit contracts prior to the holding of a referendum provided for in Section 24 of the Metropolitan Atlanta Rapid Transit Authority Act of 1965, approved March 10, 1965 (Ga. L. 1965, p. 2243), as amended; provided, however, that any such rapid transit contract shall not become valid and binding unless the same is approved by a majority of those voting in said referendum, which approval shall also be deemed approval of further participation in the authority. Upon approval of such rapid transit contract, the county entering into such contract shall be a participant in the authority, and its rights and responsibilities shall, insofar as possible, be the same as those belonging to Fulton and DeKalb Counties, and the local governing body of the county may then appoint two residents of the county to the board of directors of the authority, to serve a term ending on the thirty-first day of December in the fourth full year after the year in which the referendum approving said rapid transit contract was held, in which event the board of directors of the authority shall, be composed also of such additional members.

(e) No person shall be appointed as a member of the board who holds any other public office or public employment except an office in the reserves of the armed forces of the United States or the National Guard; any member who accepts or enters upon any other public office or public employment shall be disqualified thereby to serve as a member.

(f) A local governing body may remove any member of the board appointed by it for cause. No member shall be thus removed unless the member has been given a copy of the allegations against him or her and an opportunity to be publicly heard in his or her own defense in person with or by counsel with at least ten days' written notice to the member. A member thus removed from office shall have the right to a judicial review of the member's removal by an appeal to the superior court of the county of the local governing body which appointed the member, but only on the ground of error of law or abuse of discretion. In case of abandonment of the member's office, conviction of a crime involving moral turpitude or a plea of nolo contendere thereto, removal from office, or disqualification under subsection (e) of this Code section, the office of a member shall be vacant upon the declaration of the board. A member shall be deemed to have abandoned the member's office upon failure to attend any regular or special meeting of the board for a period of four months without excuse approved by a resolution of the board, or upon removal of the member's residence from the territory of the local governing body that appointed the member.

(g) Each appointed member of the board, except the chairperson, shall be paid by the authority a per diem allowance, in an amount equal

to that provided by Code Section 45-7-21 for each day on which that member attends an official meeting of the board, of any committee of the board, or of the authority's Pension Committee, Board of Ethics, or Arts Council; provided, however, that said per diem allowance shall not be paid to any such member for more than 130 days in any one calendar year. If the chairperson of the board is an appointed member of the board, the chairperson shall be paid by the authority a per diem allowance in the same amount for each day in which the chairperson engages in official business of the authority, including but not limited to attendance of any of the aforesaid meetings. A member of the board shall also be reimbursed for actual expenses incurred by that member in the performance of that member's duties as authorized by the board. A board member shall not be allowed employee benefits.

(h) The board shall elect one of its members as chairperson and another as vice chairperson for terms to expire on December 31 of each year to preside at meetings and perform such other duties as the board may prescribe. The presiding officer of the board may continue to vote as any other member, notwithstanding the member's duties as presiding officer, if the member so desires. The board shall also elect from its membership a secretary and a treasurer who shall serve terms expiring on December 31 of each year. A member of the board may hold only one office on the board at any one time.

(i) The board shall hold at least one meeting each month. The secretary of the board shall give written notice to each member of the board at least two days prior to any called meeting that may be scheduled, and said secretary shall be informed of the call of such meeting sufficiently in advance so as to provide for the giving of notice as above. A majority of the total membership of the board, as it may exist at the time, shall constitute a quorum. On any question presented, the number of members present shall be recorded. By affirmative vote of a majority of the members present, the board may exercise all the powers and perform all the duties of the board, except as otherwise hereinafter provided or as limited by its bylaws, and no vacancy on the original membership of the board, or thereafter, shall impair the power of the board to act. All meetings of the board, its executive committee, or any committee appointed by the board shall be subject to Chapter 14 of Title 50.

(j) Notwithstanding any other provisions of this Code section, the following actions by the board shall require the affirmative vote of one more than a majority of the total membership of the board as it may exist at the time:

(1) The issuance and sale of revenue bonds or equipment trust certificates;

(2) The purchase or lease of any privately owned system of transportation of passengers for hire in its entirety, or any substan-

tial part thereof. Prior to the purchase or lease of any such privately owned system a public hearing pertaining thereto shall have been held and notice of such public hearing shall have been advertised; provided, however, that no sum shall be paid for such privately owned system of transportation in excess of the fair market value thereof determined by a minimum of two appraisers qualified to appraise privately owned systems of transportation and approved by a majority of the local governments participating in the financing of such purchase;

(3) The award of any contract involving \$100,000.00 or more for construction, alterations, supplies, equipment, repairs, maintenance, or services other than professional services or for the purchase, sale, or lease of any property. The board by appropriate resolution may delegate to the general manager the general or specific authority to enter into contracts involving less than \$100,000.00;

(4) The grant of any concession; and

(5) The award of any contract for the management of any authority owned property or facility.

(k) The board shall appoint and employ, as needed, a general manager and a general counsel, none of whom may be members of the board or a relative of a member of the board, and delegate to them such authority as it may deem appropriate. It may make such bylaws or rules and regulations as it may deem appropriate for its own government, not inconsistent with this Code section, including the establishment of an executive committee to exercise such authority as its bylaws may prescribe.

(l) The treasurer of the authority and such other members of the board and such other officers and employees of the authority as the board may determine shall execute corporate surety bonds, conditioned upon the faithful performance of their respective duties. A blanket form of surety bond may be used for this purpose. Neither the obligation of the principal or the surety shall extend to any loss sustained by the insolvency, failure, or closing of any depository which has been approved as a depository for public funds.

(m)(1) In addition to the requirements of subsection (i) of this Code section, each member of the board shall hold a meeting once each 12 months with the local governing body that appointed such member. The secretary of the board shall give written notice to each member of the board, to each local governing body, and to the governing authority of each municipality in the county in which there is an existing or proposed rail line at least two days prior to any meeting that may be scheduled, and said secretary shall be informed of the call of such meeting sufficiently in advance so as to provide for giving

such notice. These meetings shall be for the purpose of reporting to the local governing bodies on the operations of the authority and on the activities of the board and making such information available to the general public. No activity that requires action by the board shall be initiated or undertaken at any meeting conducted under this subsection.

(2) The board shall submit once each three months a written report on the operations of the authority and on the activities of the board to each local governing body that appoints a member of the board. (Code 1981, § 32-9-14, enacted by Ga. L. 2010, p. 778, § 3/HB 277; Ga. L. 2012, p. 775, § 32/HB 942.)

Effective date. — This Code section became effective June 2, 2010.

The 2012 amendment, effective May 1, 2012, part of an Act to revise, modernize, and correct the Code, revised punctuation in the second sentence of subsection (g).

Editor's notes. — Ga. L. 2010, p. 778, § 1/HB 277, not codified by the General Assembly, provides: "This Act shall be known and may be cited as the 'Transportation Investment Act of 2010.'"

CHAPTER 10

PUBLIC AUTHORITIES

| Article 1 | | Sec. | |
|---------------------------|---|-----------|---|
| Georgia Highway Authority | | | |
| PART 1 | | | |
| GENERAL PROVISIONS | | | |
| Sec. | | | |
| 32-10-1. | Definitions. | | bonds generally; attributes of bonds generally. |
| 32-10-2. | Continuation of Georgia Highway Authority; preservation of authority's powers; protection of rights of bondholders generally. | 32-10-31. | Sale of bonds by public competitive bidding; determination of sale price and interest rate. |
| 32-10-3. | Members; compensation; officers; quorum; record of proceedings. | 32-10-32. | Determining form of bonds; fixing denominations; determination of place of payment; issuance of bonds in coupon or registered form. |
| 32-10-4. | Powers of authority generally. | 32-10-33. | Signing bonds; affixing authority's seal to bonds. |
| 32-10-5. | Conveyance of property to authority. | 32-10-34. | Status of bonds as negotiable instruments; tax exemption for bonds, their transfer, and income therefrom. |
| 32-10-6. | Reimbursement of counties and municipalities for property, interests, and rights of way conveyed to authority. | 32-10-35. | Utilization of bond proceeds; procedure in cases where proceeds are less than or greater than cost of project or combined projects. |
| 32-10-7. | Letting of construction contracts by competitive bids. | 32-10-36. | Issuance of interim receipts, interim certificates, and temporary bonds. |
| 32-10-8. | Initiation of projects; preliminary expenses; selection of projects. | 32-10-37. | Replacement of lost or mutilated bonds. |
| 32-10-9. | Leasing of projects. | 32-10-38. | Conditions precedent to taking effect of resolutions for bond issuance; issuance of bonds of a single issue for purpose of paying cost of one or more projects. |
| 32-10-10. | Payment of rentals by lessees; enforcement of covenants and obligations; assignment of rentals by authority. | 32-10-39. | Effect of bond issuance on state debt; recitals on face of bonds regarding such effect. |
| 32-10-11. | Cessation of rentals; transfer of projects. | 32-10-40. | Trust indentures as security for bonds. |
| 32-10-12. | Designation of projects as part of county and municipal public road systems and as part of state highway system. | 32-10-41. | Payment of bond proceeds to trustee. |
| 32-10-13. | Composition of authority's fund; purposes for which fund may be pledged or utilized. | 32-10-42. | Pledges of revenues, rents, and earnings; creation and disposition of sinking funds. |
| 32-10-14. | Designation of moneys received pursuant to article as trust funds. | 32-10-43. | Rights and remedies of holders of bonds or interest coupons, of receivers for such holders, and of indenture trustees. |
| 32-10-15. | Effect of article. | | |
| 32-10-16. | Construction of article. | | |
| PART 2 | | | |
| REVENUE BONDS | | | |
| 32-10-30. | Power of authority to issue | 32-10-44. | Refunding bonds. |

| Sec. | | Sec. | |
|-----------|---|-----------|---|
| 32-10-45. | Investment of funds in bonds; deposit of bonds as securities. | | quire and expend funds for property interests. |
| 32-10-46. | Protection of interests and rights of bondholders. | 32-10-70. | Transfer of real and personal property to authority by public bodies and officers. |
| 32-10-47. | Confirmation and validation of bonds. | 32-10-71. | Acquisition, maintenance, and operation of tollway projects. |
| 32-10-48. | Right of authority to declaratory adjudication of validity and binding effect of lease contracts the rental income of which is pledged to benefit of bonds being validated. | 32-10-72. | Authority fund. |
| | | 32-10-73. | Designation of moneys received pursuant to article as trust funds. |

ARTICLE 1

GEORGIA HIGHWAY AUTHORITY

PART 1

GENERAL PROVISIONS

32-10-1. Definitions.

As used in this article, the term:

- (1) “Approach” means not more than three miles of the traffic artery on either end of the bridge and within that limit shall mean so

much of the traffic arteries on either end of the bridge as shall be required to develop the maximum traffic capacity of the bridge, including necessary grading, paving, drainage structures or facilities, and other construction necessary to the approach.

(2) "Authority" means the public corporation created by the "Georgia Highway Authority Act," Ga. L. 1967, p. 385, as amended by Ga. L. 1971, p. 385, and by Ga. L. 1972, p. 826, which 1967 Act merged the public corporation known as the Georgia Rural Roads Authority created by the "Georgia Rural Roads Authority Act," Ga. L. 1955, p. 124, as amended, with the Georgia State Highway Authority, created by the "Georgia State Highway Authority Act," Ga. L. 1953, Jan.-Feb. Sess., p. 626, as amended particularly by Ga. L. 1961, p. 3, and which 1967 Act provided that all property, assets, choses in action, or other things of value of both of the constituent public corporations shall be vested in and be the property of the Georgia Highway Authority (the continuing and surviving public corporation); all the rights, powers, and duties, including their perpetual existence, previously legally granted to both constituent public corporations, shall be vested in the Georgia Highway Authority, subject, however, to all debts, obligations, liabilities, and duties incurred by the two constituent public corporations; the purpose and intention of such merger was that the Georgia Highway Authority as the successor and continuing corporation would be for the continuation of all the purposes of both constituent public corporations and would be vested with the rights, powers, duties, and obligations of both constituent public corporations, together with the additional powers and rights granted by the aforesaid "Georgia Highway Authority Act" of 1967.

(3) "Board" means the State Transportation Board or the commissioner of transportation acting as the chief executive officer of the Department of Transportation; and, whenever any action is required to be taken, any power is permitted to be exercised, any approval is to be granted, or any contract is to be executed by the State Transportation Board, pursuant to any provision of this article, the same may be taken, exercised, granted, or executed by the commissioner to the extent permitted by law.

(4) "Bonds and revenue bonds" means any bonds issued by the authority or either of the constituent public corporations, whether issued under this article or otherwise, including refunding bonds.

(5) "Bridge" means a structure, including the approaches thereto, erected in order:

(A) To afford unrestricted vehicular passage over obstructions in any public road, including but not limited to rivers, streams, ponds, lakes, bays, ravines, gullies, railroads, public highways, and canals; or

(B) To afford unrestricted vehicular passage under or over existing railroads and public roads.

(6) "Cost of project or projects" means the cost of construction; the cost of all lands, properties, franchises, and rights in property; the cost of all machinery and equipment necessary for the operation of a project; financing charges; interest prior to and during construction; cost of engineering, plans and specifications, surveys, and supervision; legal expenses; expenses necessary or incident to determining the feasibility or practicability of the project; administrative expenses; fiscal expense; such other expense as may be necessary or incident to the financing authorized by this article; the expense of construction or any action permitted by this article with respect to a particular project and the placing of the same in operation; and any other expense authorized by this article to be incurred by the authority with respect to any action with regard to a particular project or projects. Any obligation or expense incurred for any of the foregoing purposes shall be regarded as a cost of the project and may be paid or reimbursed as such out of the proceeds of bonds issued under this article for such project or group of projects.

(7) "County road" means any public road or portion thereof, not located wholly within the boundaries of an incorporated municipality and not now, or as of the particular time of inquiry in the future, part of a state road or urban road as defined in paragraphs (12) and (15), respectively, of this Code section. The term shall include not only such roads as come within this definition on July 1, 1973, but also such roads, as defined in this Code section, which may from time to time be planned, laid out, and constructed by the authority pursuant to this article. The fact that a road owned by the authority and leased to the state may, as provided by this article, be declared part of the state highway system shall not destroy its identity as a county road for the purposes of this article, provided that nothing in the definition of "county road" shall in any manner alter the legal effect of said term which is intended to be synonymous with "rural road" as used in the "Georgia Highway Authority Act," Ga. L. 1967, p. 385, as amended.

(8) "Governing authority of a county" means the commissioner, board of commissioners, commission, or other person or body of persons at the time entrusted by law with the administration of the fiscal affairs of any county.

(9) "Governing authority of any incorporated municipality" means the mayor, board of aldermen, city council, board, council, commission, or other person or body of persons at the time entrusted by law with the administration of the fiscal affairs of any incorporated municipality.

(10) "Project" means:

(A) A continuous length or stretch of state road, including bridges thereon, as to which the authority has undertaken or agreed to undertake any action permitted by the terms of this article or as to which any such action has been completed by the authority;

(B) A continuous length or stretch of county road, including bridges thereon, as to which the authority has undertaken or agreed to undertake any action permitted by the terms of this article or as to which any such action has been completed by the authority;

(C) A continuous length or stretch of urban road, including bridges thereon, as to which the authority has undertaken or agreed to undertake any action permitted by the terms of this article or as to which any such action has been completed by the authority;

(D) One or more bridges, as defined in paragraph (5) of this Code section, together with the approaches thereto, as defined in paragraph (1) of this Code section; and

(E) A project undertaken pursuant to a public-private initiative as authorized pursuant to Code Section 32-2-78.

(11) "Self-liquidating" means a project or group of projects whose revenues, rents, and earnings derived by the authority therefrom will be sufficient to pay, in the judgment of the authority, the principal of and interest on bonds which may be issued for the cost of such project or group of projects and to pay the cost of maintaining, repairing, and operating the projects or combination of projects and other lawful expenses of the authority.

(12) "State road" means any public road or portion thereof which is part of the state highway system or The Dwight D. Eisenhower System of Interstate and Defense Highways.

(13) "Urban county" means any county with a population of more than 50,000 according to the most recent official United States census.

(14) "Urban incorporated municipality" means a municipal corporation incorporated and chartered pursuant to an Act of the General Assembly and which has a population of 5,000 or more according to the most recent official United States census.

(15) "Urban road" means any public road or portion thereof located:

(A) Anywhere wholly within the boundaries of an urban county; or

(B) Wholly or partly within an urban incorporated municipality within the boundaries of a county with a population under 50,000 according to the most recent official United States census and extending no more than two miles outside of such urban incorporated municipality.

The term shall include not only such roads as come within this definition on or after July 1, 1973, but also such roads as defined in this Code section which may from time to time be planned, laid out, and constructed by the authority pursuant to this article. The fact that a road owned by the authority and leased to the state may be declared part of the state highway system, as provided by this article, shall not destroy its identity as an urban road for the purposes of this article. (Ga. L. 1953, Jan.-Feb. Sess., p. 626, § 3; Ga. L. 1955, p. 124, § 2; Ga. L. 1961, p. 3, § 3; Ga. L. 1967, p. 385, § 3; Ga. L. 1971, p. 385, § 1; Ga. L. 1972, p. 826, § 1; Code 1933, § 95A-1201, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1982, p. 3, § 32; Ga. L. 1985, p. 149, § 32; Ga. L. 2000, p. 136, § 32; Ga. L. 2005, p. 601, § 11/SB 160; Ga. L. 2005, p. 902, § 4/SB 270.)

Code Commission notes. — Pursuant to Code Section 28-9-5, in 1991, commas were inserted following “(15)” and “respectively” in the first sentence of paragraph (7).

32-10-2. Continuation of Georgia Highway Authority; preservation of authority’s powers; protection of rights of bondholders generally.

(a) The Georgia Highway Authority shall continue to be a body corporate and politic and an instrumentality and public corporation of this state known as the “Georgia Highway Authority.” It shall continue to have perpetual existence. In this name it may contract and be contracted with, sue and be sued, implead and be impleaded, and complain and defend in all courts subject to the limitations of Code Section 32-10-50.

(b) Except as provided in this article, the powers granted by law prior to July 1, 1973, to the Georgia Highway Authority to carry out the purpose for which it was originally created shall not be impaired or diminished. Furthermore, no provision of this article is intended to diminish or impair, nor shall any provision be construed as diminishing or impairing, the rights of the holders of any bonds issued by the Georgia Rural Roads Authority or the Georgia Highway Authority or of the holders of any bonds issued by the Georgia Highway Authority outstanding before July 1, 1973; and should it be determined that any provision of this article does diminish or impair any such right in any manner, such provision is declared to be ineffective to that extent but shall be effective for all other purposes. (Ga. L. 1953, Jan.-Feb. Sess., p.

626, § 2; Ga. L. 1959, p. 11, § 2; Ga. L. 1961, p. 3, § 2; Ga. L. 1967, p. 385, § 2; Code 1933, § 95A-1202, enacted by Ga. L. 1973, p. 947, § 1.)

32-10-3. Members; compensation; officers; quorum; record of proceedings.

(a) The members of the Georgia Highway Authority shall be ex officio the Governor, the commissioner of transportation, and the director of the Office of Planning and Budget; and membership on the authority shall be a separate and distinct duty for which they shall receive no additional compensation. All members of the authority shall be entitled to all actual expenses necessarily incurred while in the performance of their duties on behalf of the authority.

(b) The authority shall elect one of its members as chairman. It shall also elect a secretary and a treasurer, who need not necessarily be members of the authority. The authority may make such bylaws for its government as is deemed necessary but it is under no duty to do so. A majority of the members of the authority shall constitute a quorum necessary for the transaction of business, and a majority vote of those present at any meeting at which there is a quorum shall be sufficient to do and perform any action permitted to the authority by this article.

(c) No vacancy on the authority shall impair the right of the quorum to transact any and all business as stated in this Code section. Members of the authority shall be accountable as trustees. They shall cause to be kept adequate books and records of all transactions of the authority, including books of income and disbursements of every nature. The books and records shall be inspected and audited by the state auditor at least once a year. (Ga. L. 1953, Jan.-Feb. Sess., p. 626, § 2; Ga. L. 1955, p. 124, § 4; Ga. L. 1959, p. 13, § 2; Ga. L. 1961, p. 3, § 2; Ga. L. 1963, p. 284, § 1; Ga. L. 1967, p. 385, § 2; Code 1933, § 95A-1203, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1982, p. 3, § 32.)

32-10-4. Powers of authority generally.

The authority shall have, in addition to any other powers conferred in this article, the following powers:

- (1) To have a seal and alter the same at its pleasure;
- (2) To acquire by purchase, exchange, lease, or otherwise and to hold, lease, and dispose of, in any manner, real and personal property of every kind and character for its corporate purposes;
- (3) To appoint such additional officers, who need not be members of the authority, as the authority deems advisable; to employ such experts, agents, and employees as may be in its judgment necessary

to carry on properly the business of the authority; to fix the compensation for such officers, experts, agents, and employees and to promote and discharge same; provided, however, that the total compensation paid such persons shall not exceed the sum of \$100,000.00 per year;

(4) To make such contracts and agreements as the legitimate and necessary purposes of this article shall require, to execute and perform lease contracts for projects as permitted by this article, and to make all other contracts and agreements as may be necessary to the proper performance of any action permitted by this article;

(5) To build, rebuild, relocate, construct, reconstruct, surface, resurface, lay out, grade, repair, improve, widen, straighten, operate, own, maintain, lease, and manage projects located on property conveyed to the authority as authorized in Code Section 32-10-5, and to pay the cost in whole or in part of any such action or actions from the proceeds of bonds;

(6) To borrow money for any of its corporate purposes and to issue bonds for such purposes as provided in Code Section 32-10-30;

(7) To exercise any power granted to private corporations not in conflict with the Constitution and laws of Georgia nor with other provisions of this article;

(8) By or through its agents or employees, to enter upon any lands, waters, and premises in the state for the purpose of making surveys, soundings, drillings, and examinations as the authority may deem necessary or convenient for the purposes of this article; and such entry shall not be deemed a trespass. The authority shall, however, make reimbursement for any actual damage resulting from such activities;

(9) To make reasonable regulations for the installation, construction, maintenance, repair, renewal, removal, and relocation of pipes, mains, conduits, cables, wires, poles, towers, tracts, and other equipment and appliances of any public utility in, on, along, over, and under any project;

(10) To do and perform all things necessary or convenient to carry out the powers conferred upon the authority by this article;

(11) To prescribe rules and regulations as approved by the department for the operation of each project constructed under this article, including rules and regulations to ensure maximum use of each such project; and

(12) To incorporate one or more nonprofit corporations as subsidiary corporations of the authority for the purpose of carrying out any

of the powers of the authority and to accomplish any of the purposes of the authority. Any such subsidiary corporation shall be a nonprofit corporation, a body corporate and politic, and an instrumentality and public corporation of the state and shall exercise essential governmental functions. Any subsidiary corporations created pursuant to this power shall be created pursuant to Chapter 3 of Title 14, the "Georgia Nonprofit Corporation Code," and shall be filed with the Secretary of State, who shall be authorized to accept such filings. The commissioner and two individuals appointed by the members of the authority shall constitute the members of and shall serve as directors of any subsidiary corporation, and such appointment shall not constitute a conflict of interest, provided that the provisions of subsection (a) of Code Section 45-10-23 or any other law shall not prevent full-time employees of the authority or the Department of Transportation from serving as members of the governing board of such subsidiary corporation. Upon dissolution of any subsidiary corporation of the authority, any assets shall revert to the authority or to any successor to the authority or, failing such succession, to the state, provided that any toll collection or other tollway operations remain under the authority of the State Road and Tollway Authority. The authority shall not be liable for the debts, obligations, or bonds of any subsidiary corporation or for the actions or omissions to act of any subsidiary corporation unless the authority in writing expressly so consents. (Ga. L. 1953, Jan.-Feb. Sess., p. 626, § 4; Ga. L. 1955, p. 124, § 5; Ga. L. 1961, p. 3, § 4; Ga. L. 1967, p. 385, § 4; Ga. L. 1971, p. 385, § 6; Code 1933, § 95A-1204, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1974, p. 1215, § 4; Ga. L. 2005, p. 902, § 5/SB 270.)

Cross references. — Prohibition against authorizing construction or maintenance of private road, § 32-1-8.

Editor's notes. — Ga. L. 1974, p. 1215, which enacted Code Sections 12-5-41,

32-5-24, and 45-12-170, and amended Code Sections 20-2-553 and 32-10-4, provided that it shall be known and may be cited as the "Planned Growth and Development Act of 1974."

32-10-5. Conveyance of property to authority.

(a) The Governor is authorized and empowered to convey to the authority, on behalf of the state, any real property or interest therein or any rights of way owned by the state, including property or rights of way acquired in the name of the department or board, which is used at the time, or may be used upon completion of any action committed to the authority by this article, as a state road, a county road, or an urban road. The consideration for such conveyance shall be determined by the Governor and expressed in the deed of conveyance; however, such consideration shall be nominal, the benefits flowing to the state and its citizens constituting full and adequate actual consideration.

(b) The governing authority of any political subdivision of this state, which for the purpose of this title is a county or an incorporated municipality of this state, is authorized and empowered on behalf of such political subdivision to convey to the authority any real property or interest therein for any rights of way owned by such political subdivision, which is used at the time or may, upon completion of any action committed to the authority by this article, be used as a county road or an urban road if conveyed by a county or as an urban road if conveyed by an incorporated municipality. The consideration for such conveyance shall be determined by the governing authority of such political subdivision and expressed in the deed of conveyance. Such consideration, however, shall be nominal, the benefits flowing to the political subdivision and its citizens constituting full and adequate actual consideration. However, nothing in this subsection shall prevent the authority from reimbursing a political subdivision, as authorized in Code Section 32-10-6.

(c) The board or its successors and the department are empowered to acquire, in any manner now permitted to them by law, and to expend funds available to them for such acquisition, real property, interests therein, or rights of way which upon acquisition may be conveyed by the Governor as above-provided to the authority. (Ga. L. 1955, p. 124, § 6; Ga. L. 1967, p. 385, § 6; Code 1933, § 95A-1206, enacted by Ga. L. 1973, p. 947, § 1.)

Code Commission notes. — Pursuant to Code Section 28-9-5, in 1991, in subsection (b) “subdivision” was substituted for “subdivisions” in the next-to-last sentence

and a comma was inserted following “However” in the last sentence; and, in subsection (c), “above-provided” was substituted for “above provided”.

ALR. — Power of eminent domain as between state and subdivision or agency thereof, or as between different subdivisions or agencies themselves, 35 ALR3d 1293.

32-10-6. Reimbursement of counties and municipalities for property, interests, and rights of way conveyed to authority.

Notwithstanding any provisions of this article to the contrary, the authority is authorized to reimburse counties or incorporated municipalities, as a part of the construction cost of a project, for any real property or interest therein or any rights of way conveyed to the authority pursuant to this article, when such real property or interest therein or any rights of way are used as an urban road. (Ga. L. 1972, p. 826, § 2; Code 1933, § 95A-1207, enacted by Ga. L. 1973, p. 947, § 1.)

32-10-7. Letting of construction contracts by competitive bids.

All contracts of the authority for the construction of any project authorized by this article shall be let to the reliable bidder submitting the lowest sealed bid upon plans and specifications approved by the department, as set forth in Code Sections 32-2-64 through 32-2-72. However, subject to the restriction on the subletting of negotiated contracts as contained in Code Section 32-2-61, the authority may contract with any county or other political subdivision of the state for the construction of any project situated wholly or partly within such subdivision, upon agreed terms; but the work provided for by such contract shall be at unit prices which shall not exceed the average of the unit prices submitted in the immediately preceding 60 days by competitive bidders for similar work to the department or the authority, whichever may be lower, as determined and averaged by the chief engineer or his or her designated subordinate. (Ga. L. 1955, p. 124, § 9; Ga. L. 1961, p. 3, § 5; Ga. L. 1967, p. 385, § 5; Code 1933, § 95A-1205, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1982, p. 3, § 32; Ga. L. 1994, p. 591, § 9.)

Right of public authorities to reject all bids for public work or contract, 52 ALR4th 186.

32-10-8. Initiation of projects; preliminary expenses; selection of projects.

(a) Action by the authority with respect to any project or combination of projects shall be initiated as follows: The board, after investigation, shall by resolution recommend the undertaking to the authority with respect to a specific project or a group of projects of any action permitted by this article and deemed by the board to be desirable, in the public interest, and consistent with the purposes provided in subsection (b) of this Code section. The authority shall consider such request and may by resolution provide for undertaking and financing of all or any part of such recommended actions but it shall be under no duty to undertake or finance any of them.

(b) The board is authorized to make and to expend any funds available to it for the purpose of making surveys, studies, and estimates in connection with formulating its recommendations to the authority; and it is further authorized to prepare, furnish, and expend its funds for the purpose of preparing all necessary plans and specifications and furnishing all engineering skill and supervision for any project or projects with respect to which the authority has undertaken or contemplates undertaking any action permitted by this article. The department shall keep an accurate record of such expenses which, if not reimbursed or paid for by the authority as permitted in subsection (d) of this Code section, shall be deemed proper and legitimate expenses of the board and department.

(c) The surveys, plans, and specifications for any action taken by the authority with respect to any project shall be prepared by the department, and the engineering and construction supervision shall be performed by the department unless the board specifically authorizes the authority to do so with its own employees and agents. In any event, all such plans and specifications shall be approved by the chief engineer before work is entered upon pursuant to this subsection.

(d) The authority may contract to reimburse the department for surveys, studies, estimates, plans, specifications, furnishing engineering skill and supervision, and for any other services permitted by this article from the proceeds of any issue of revenue bonds secured by the rentals of the project or group of projects with respect to which the services were rendered; and the same shall be considered as part of the cost of the project.

(e) In selecting projects pursuant to this Code section, the board shall locate urban road projects according to a formula which will allocate to each urban incorporated municipality or urban county, as the case may be, a project or projects estimated to cost an amount approximately equal to the percentage of \$100 million which 110 percent of the population of such urban incorporated municipality or which 100 percent of the population of such urban county, as the case may be, bears to the sum of the total population of all urban counties plus 110 percent of the total population of all urban incorporated municipalities except those in urban counties. As used in this subsection, the term "population" means the population figures according to the most recent official United States census. If any urban incorporated municipality or urban county fails to qualify for one or more of its projects, the board shall have full authority to substitute other projects; but such substituted project shall count in the formula allocation and the urban incorporated municipality or urban county which failed to qualify shall have a cumulative credit for the amount of such forfeited project. (Ga. L. 1953, Jan.-Feb. Sess., p. 626, § 7; Ga. L. 1955, p. 124, § 7; Ga. L.

1961, p. 3, § 6; Ga. L. 1967, p. 385, § 7; Ga. L. 1971, p. 385, § 8; Code 1933, § 95A-1208, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1994, p. 591, § 10.)

32-10-9. Leasing of projects.

The authority, as lessor, is authorized to lease any project or group of projects to the state and the department as lessees; and the Governor on behalf of the state and the commissioner on behalf of the department are authorized to execute and enter upon such leases for the use of a project or group of projects by the state, the department, and the general public; and such leases may contain such of the terms and conditions hereinafter set forth in this Code section as may be applicable to the undertaking:

(1) Said leases shall be for a term not in excess of 50 years;

(2) The rental to be paid for the use of the project or projects shall be fixed by the authority and shall be calculated so as to enable the authority:

(A) To pay the principal of and interest on the bonds, the proceeds of which have been or will be spent on the cost of the project or projects thus leased, including premiums, if any;

(B) To comply with any sinking fund requirement contained in the indenture of trust securing such bonds;

(C) To pay the cost of constructing, reconstructing, maintaining, repairing, and operating such project or projects;

(D) To perform fully all of the provisions of the trust indenture securing the bonds to the payment of which such rental is pledged;

(E) To pay the pro rata share of the reasonable and necessary administrative and operating expense of the authority, including any sum or sums that may be owed to the department as a result of expenditure made by the department under this article;

(F) To accumulate any excess income which may be required by the bond purchasers or dictated by the requirements of achieving ready marketability and low interest rates of the bonds;

(G) To pay any expenses in connection with the bond issue or project or group of projects, such as trustees' fees, counsel fees, fiscal fees, and the like;

(3) The rental shall be payable at such intervals as may be agreed upon and set forth in such lease, and any lease may provide for the commencement of rental payments to the authority prior to the completion of the undertaking of the authority with respect to any

project or projects; and it may also provide for payment of rental during such times as the leased project or group of projects may be partially or wholly untenable;

(4) The lease may obligate the lessees to maintain and keep in good repair (including complete reconstruction, if necessary) the leased projects, regardless of the cause of the necessity for such maintenance, repair, or reconstruction. If such provision is included in any lease, the maintenance, repair, upkeep, and reconstruction, if necessary, shall be performed by the department, which is authorized to expend any sums legally available to it in carrying out such obligations. However, as to any project which is a county road, urban road, or state road, as defined in Code Section 32-10-1, which is not part of the state highway system, the duty of maintenance and repair shall rest upon the incorporated municipality within the limits of which lie any part of the project and upon the county for the remaining part of such project lying outside such limits, as in the case of other public roads of the county or of the municipality. Furthermore, if the entire project lies within the limits of the incorporated municipality, such municipality then shall have the duty of maintenance and repair of the entire project; and furthermore, if no part of said project lies within the limits of an incorporated municipality, the county shall have the duty of maintenance and repair of the entire project; and

(5) The lease may obligate the lessees to indemnify and save harmless the authority from any and all injury and damage to persons or property occurring on or by reason of the leased premises and improvements thereon and to undertake at state expense the defense of any actions brought against the authority by reason of injury or damages to persons or property occurring on or by reason of the leased premises; and a lease may contain a similar obligation on the part of the county through which runs a project covered by the lease. (Ga. L. 1953, Jan.-Feb. Sess., p. 626, § 8; Ga. L. 1955, p. 124, § 10; Ga. L. 1961, p. 3, § 7; Ga. L. 1967, p. 385, § 8; Ga. L. 1971, p. 385, § 3; Code 1933, § 95A-1209, enacted by Ga. L. 1973, p. 947, § 1.)

32-10-10. Payment of rentals by lessees; enforcement of covenants and obligations; assignment of rentals by authority.

(a) The rentals contracted to be paid by lessees to the authority under leases entered upon pursuant to this article shall constitute obligations of the state for the payment of which the good faith of the state is pledged. Such rentals shall be paid as provided in the lease contracts from funds appropriated for such purposes by the terms of the

Constitution of Georgia. It shall be the duty of the Governor and the board to see to the punctual payment of all such rentals. In the event of any failure or refusal on the part of lessees punctually to perform any covenant or obligation contained in any lease entered upon pursuant to this article, the authority may enforce performance by any legal or equitable process against lessees; and consent is given for the institution of any such action.

(b) The authority shall be permitted to assign to a trustee or paying agent any rental due it by the lessees, as may be required by the terms of any trust indenture entered into by the authority. (Ga. L. 1955, p. 124, § 13; Ga. L. 1961, p. 3, § 9; Ga. L. 1967, p. 385, § 11; Code 1933, § 95A-1212, enacted by Ga. L. 1973, p. 947, § 1.)

32-10-11. Cessation of rentals; transfer of projects.

When each and all of the bonds, interest coupons, and obligations of every nature whatsoever, for the payment of which the revenues of any given project or projects have been pledged, in whole or in part, either originally or subsequently, either primarily or secondarily, directly or indirectly, or otherwise, have been paid in full, or a sufficient amount for the payment of all such bonds and other obligations and the interest thereon to the maturity thereof shall have been set aside in trust for the benefit of such bondholders or other obligees, such project or projects shall henceforth be maintained, free from any and all rental consideration, by the department, if part of the state highway system; and, if a county road or an urban road, then by the political subdivision which under paragraph (4) of Code Section 32-10-9 had the duty to maintain the project prior to the cessation of rentals, provided that, upon the cessation of rentals upon any given project, the authority may convey by deed all right, title, and interest in and to such project to the department as part of the state highway system; and, if not part of the state highway system, then to the political subdivision having maintenance responsibility for the project under this Code section; and provided, further, that the department shall maintain and keep in repair such free project or projects as are a part of the state highway system. (Ga. L. 1953, Jan.-Feb. Sess., p. 626, § 10; Ga. L. 1955, p. 124, § 11; Ga. L. 1967, p. 385, § 10; Ga. L. 1971, p. 385, § 5; Code 1933, § 95A-1211, enacted by Ga. L. 1973, p. 947, § 1.)

OPINIONS OF THE ATTORNEY GENERAL

Authority may reconvey right of way to governmental body. — Once bonds issued by an authority on a project or projects have been liquidated in accor-

dance with this section, the authority is authorized to reconvey by quitclaim deed the rights of way on the particular project to the governmental body which has

maintenance responsibility for the project. 1973 Op. Att'y Gen. No. 73-119 (see O.C.G.A. § 32-10-11).

32-10-12. Designation of projects as part of county and municipal public road systems and as part of state highway system.

Each county or urban road project leased by the authority to the state and the department, upon completion of the action with respect thereto undertaken by the authority, shall be a part of the system of public roads of the state and of the county or counties or incorporated municipality or municipalities wherein the project is located; but no such project shall become a part of the state highway system until designated as such as provided by law. (Ga. L. 1955, p. 124, § 12; Ga. L. 1967, p. 385, § 9; Ga. L. 1971, p. 385, § 9; Code 1933, § 95A-1210, enacted by Ga. L. 1973, p. 947, § 1.)

32-10-13. Composition of authority's fund; purposes for which fund may be pledged or utilized.

All revenues in excess of all obligations of the authority, of every nature, which are not otherwise pledged or restricted as to disposition and use by the terms of any trust indenture entered into by the authority for the security of bonds issued under this article, together with all receipts and gifts of every kind and nature whatsoever, shall be and become the authority fund. The authority, in its discretion, shall pledge or utilize the authority fund for any one or more of the following purposes:

(1) Pledges to the payment of any bond issue requirements, sinking or reserve funds, as may be provided for under the terms of this article;

(2) Payment of any outstanding unpaid bond obligations or administrative expenses;

(3) The construction of any project requested by the board, the cost of which may amount to a sum less than the accumulated balance of such fund;

(4) The most advantageous obtainable purchase redemption and retirement of the authority's bonds pursuant to privileges accorded to the authority in the various issues of bonds outstanding;

(5) The most advantageous open market purchase of the authority's bonds that it may accomplish; or

(6) Investment in obligations of the United States government or obligations of agencies of the United States government, the payment

of which is guaranteed by the United States government, of guaranteed convertibility or maturity not in excess of two years, provided that funds so invested and income from such investments shall always be available to and ultimately expended for other purposes set forth in this Code section. (Ga. L. 1953, Jan.-Feb. Sess., p. 626, § 12; Ga. L. 1955, p. 124, § 14; Ga. L. 1961, p. 3, § 10; Ga. L. 1967, p. 385, § 12; Code 1933, § 95A-1213, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1991, p. 94, § 32.)

32-10-14. Designation of moneys received pursuant to article as trust funds.

All moneys received pursuant to this article, whether as proceeds from the sale of bonds or as revenues, tolls, and earnings, shall be deemed trust funds to be held and applied solely as provided in this article; and the bondholders paying or entitled to receive the benefit of such funds shall have a lien on all such funds until applied as provided for in any resolution or trust indentures of the authority. (Ga. L. 1953, Jan.-Feb. Sess., p. 626, § 35; Ga. L. 1955, p. 124, § 36; Ga. L. 1967, p. 385, § 35; Code 1933, § 95A-1235, enacted by Ga. L. 1973, p. 947, § 1.)

32-10-15. Effect of article.

This article shall be deemed to provide an additional and alternative method for the doing of the things authorized in this article, shall be regarded as supplemental and additional to powers conferred by other laws, and shall not be regarded as in derogation of any powers now existing. (Ga. L. 1953, Jan.-Feb. Sess., p. 626, § 36; Ga. L. 1955, p. 124, § 37; Ga. L. 1967, p. 385, § 36; Code 1933, § 95A-1236, enacted by Ga. L. 1973, p. 947, § 1.)

32-10-16. Construction of article.

This article, being for the welfare of the state and its inhabitants, shall be liberally construed to effect the purposes of this article. (Ga. L. 1953, Jan.-Feb. Sess., p. 626, § 37; Ga. L. 1955, p. 124, § 38; Ga. L. 1967, p. 385, § 37; Code 1933, § 95A-1237, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1991, p. 94, § 32.)

PART 2

REVENUE BONDS

32-10-30. Power of authority to issue bonds generally; attributes of bonds generally.

The authority shall have the power and is authorized, at one time or from time to time, to provide by resolution for the issuance of negotiable

bonds in a sum not to exceed \$484 million in principal amount outstanding at any one time for the purpose of paying all or any part of the cost of any one or a combination of projects; provided, however, that of such authorized amount not more than \$150 million of bonds may be issued to finance county road projects, not more than \$234 million of bonds may be issued to finance state road projects, and not more than \$100 million of bonds may be issued to finance urban road projects. The bonds of each issue shall be dated, shall bear interest as provided for in Code Section 32-10-31, shall be payable in such manner of payment as to both principal and interest as may be determined by the authority from the special funds provided in this article for such payment, shall mature not later than 30 years from the date of issuance, and may be made redeemable before maturity, at the option of the authority, at such price or prices and under such terms and conditions as may be fixed by the authority in the resolution providing for the issuance of the bonds. For the purpose of this Code section, bonds shall not be considered to be outstanding if there shall have been deposited into the sinking fund created for the payment of such bonds amounts sufficient to pay the same, together with the interest thereon as the bonds mature. (Ga. L. 1953, Jan.-Feb. Sess., p. 626, § 14; Ga. L. 1955, p. 124, § 15; Ga. L. 1961, p. 3, § 11; Ga. L. 1962, p. 91, § 1; Ga. L. 1967, p. 385, § 14; Ga. L. 1971, p. 385, § 7; Ga. L. 1972, p. 826, § 3; Code 1933, § 95A-1214, enacted by Ga. L. 1973, p. 947, § 1.)

Cross references. — Revenue bonds generally, § 36-82-60 et seq.

32-10-31. Sale of bonds by public competitive bidding; determination of sale price and interest rate.

All bonds of the authority shall be sold by public competitive bidding at not less than par plus accrued interest to the date of delivery. However, the authority may obligate itself to deliver any given issue of bonds to the purchasers thereof within any reasonable period of time after the date of sale and may pay as a penalty for delay in such delivery such reasonable sums as may be agreed upon in advance in writing with the purchaser or purchasers of such bonds. All bonds of the authority shall be advertised and offered prior to the fixing of the interest rates thereon, and bids thereon shall be competitive as to the interest rate offered by each bidder, provided that on any issue the authority may make rules limiting the number of divisions into which the bonds of various maturity dates may be divided and limiting the number and percentage spreads of the different interest rates which may be bid to apply to such divisions of the bonds; and provided, further, that the authority may require reasonable security for the performance of the contract of purchase of any successful bidder at any public bidding held. (Ga. L. 1953, Jan.-Feb. Sess., p. 626, § 15; Ga. L.

1955, p. 124, § 16; Ga. L. 1961, p. 3, § 5; Ga. L. 1967, p. 385, § 15; Code 1933, § 95A-1215, enacted by Ga. L. 1973, p. 947, § 1.)

32-10-32. Determining form of bonds; fixing denominations; determination of place of payment; issuance of bonds in coupon or registered form.

The authority shall determine the form of the bonds, including any interest coupons to be attached thereto, and shall fix the denomination or denominations of the bonds and the place or places of payment of principal and interest thereof, which may be at any bank or trust company inside or outside of the state. The bonds may be issued in coupon or registered form, or both, as the authority may determine; and provision may be made for the registration of any coupon bond as to principal alone and also as to both principal and interest. (Ga. L. 1953, Jan.-Feb. Sess., p. 626, § 16; Ga. L. 1955, p. 124, § 17; Ga. L. 1967, p. 385, § 16; Code 1933, § 95A-1216, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1985, p. 149, § 32.)

32-10-33. Signing bonds; affixing authority's seal to bonds.

In case any officer whose signature shall appear on any bonds or whose facsimile signature shall appear on any coupon shall cease to be such officer before the delivery of such bonds, such signature shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery. All such bonds shall be signed by the chairman of the authority and the official seal of the authority shall be affixed thereto and attested by the secretary of the authority, and any coupons attached thereto shall bear the signature or facsimile signature of the chairman of the authority. Any coupon may bear the facsimile signature of such person and any bond may be signed, sealed, and attested on behalf of the authority by such persons as at the actual time of the execution of such bonds shall be duly authorized to hold the proper office although at the date of such bonds such persons may not have been so authorized or shall not have held such office. (Ga. L. 1953, Jan.-Feb. Sess., p. 626, § 17; Ga. L. 1955, p. 124, § 18; Ga. L. 1967, p. 385, § 17; Code 1933, § 95A-1217, enacted by Ga. L. 1973, p. 947, § 1.)

32-10-34. Status of bonds as negotiable instruments; tax exemption for bonds, their transfer, and income therefrom.

All bonds issued under this article shall have and are declared to have all the qualities and incidents of negotiable instruments under the laws of this state. Such bonds, their transfer, and the income therefrom shall be exempt from all taxation within this state. (Ga. L. 1953,

Jan.-Feb. Sess., p. 626, § 18; Ga. L. 1955, p. 124, § 19; Ga. L. 1967, p. 385, § 18; Code 1933, § 95A-1218, enacted by Ga. L. 1973, p. 947, § 1.)

RESEARCH REFERENCES

ALR. — Bond or warrant of governmental subdivision as subject of taxation or exemption, 44 ALR 510.

32-10-35. Utilization of bond proceeds; procedure in cases where proceeds are less than or greater than cost of project or combined projects.

The proceeds of the bonds shall be used solely for the payment of the cost of the project or combined projects and shall be disbursed upon requisition or order of the chairman of the authority or its duly bonded agents under such restrictions, if any, as the resolution authorizing the issuance of the bonds or the trust indenture may provide. If the proceeds of such bonds, by error of calculation, or otherwise, shall be less than the cost of the project or combined projects, unless otherwise provided in the resolution authorizing the issuance of the bonds or in the trust indenture, additional bonds may in like manner be issued to provide the amount of such deficit which, unless otherwise provided in the resolution authorizing the issuance of the bonds or in the trust indenture, shall be deemed to be of the same issue and shall be entitled to payment from the same fund without preference or priority of the bonds first issued for the same purpose. If the proceeds of the bonds of any issue shall exceed the amount required for the purpose for which such bonds were issued, all surplus shall be paid into the sinking fund provided for the payment of principal and interest of such bonds or shall be used for construction of additional projects as the resolution creating such bonds and the trust indenture securing them may provide. (Ga. L. 1953, Jan.-Feb. Sess., p. 626, § 19; Ga. L. 1955, p. 124, § 20; Ga. L. 1961, p. 3, § 12; Ga. L. 1967, p. 385, § 19; Code 1933, § 95A-1219, enacted by Ga. L. 1973, p. 947, § 1.)

32-10-36. Issuance of interim receipts, interim certificates, and temporary bonds.

Prior to the preparation of definitive bonds, the authority, under like restrictions, may issue interim receipts, interim certificates, or temporary bonds with or without coupons exchangeable for definitive bonds upon the issuance of the latter. (Ga. L. 1953, Jan.-Feb. Sess., p. 626, § 20; Ga. L. 1955, p. 124, § 21; Ga. L. 1967, p. 385, § 20; Code 1933, § 95A-1220, enacted by Ga. L. 1973, p. 947, § 1.)

32-10-37. Replacement of lost or mutilated bonds.

The authority may also provide for the replacement of any bond which becomes mutilated or which is destroyed or lost. (Ga. L. 1953, Jan.-Feb. Sess., p. 626, § 21; Ga. L. 1955, p. 124, § 22; Ga. L. 1967, p. 385, § 21; Code 1933, § 95A-1221, enacted by Ga. L. 1973, p. 947, § 1.)

32-10-38. Conditions precedent to taking effect of resolutions for bond issuance; issuance of bonds of a single issue for purpose of paying cost of one or more projects.

Resolutions for the issuance of bonds may be adopted without any other proceedings or the happening of any other conditions or things than those proceedings, conditions, and things which are specified or required by this article. In the discretion of the authority, bonds of a single issue may be issued for the purpose of paying the cost of any one or more, including a combination of, projects at any one location or any number of locations. Any resolution providing for the issuance of bonds under this article shall become effective immediately upon its passage and need not be published or posted, and any such resolution may be passed at any regular or special or adjourned meeting of the authority by a majority of its members. (Ga. L. 1953, Jan.-Feb. Sess., p. 626, § 22; Ga. L. 1955, p. 124, § 23; Ga. L. 1967, p. 385, § 22; Code 1933, § 95A-1222, enacted by Ga. L. 1973, p. 947, § 1.)

32-10-39. Effect of bond issuance on state debt; recitals on face of bonds regarding such effect.

Bonds issued under this article shall not be deemed to constitute a debt of the State of Georgia or a pledge of the credit of the state, but such bonds shall be payable solely from the fund provided for in Code Section 32-10-42; and the issuance of such bonds shall not directly, indirectly, or contingently obligate the state to levy or to pledge any form of taxation whatsoever therefor or to make any appropriation for the payment; and all such bonds shall contain recitals on their face covering substantially the foregoing provisions of this Code section. (Ga. L. 1953, Jan.-Feb. Sess., p. 626, § 23; Ga. L. 1955, p. 124, § 24; Ga. L. 1967, p. 385, § 23; Code 1933, § 95A-1223, enacted by Ga. L. 1973, p. 947, § 1.)

32-10-40. Trust indentures as security for bonds.

(a) In the discretion of the authority, any issue of such bonds may be secured by a trust indenture by and between the authority and a corporate trustee, which may be any trust company or bank having the powers of a trust company inside or outside of the state.

(b) Resolutions providing for the issuance of bonds and trust indentures may contain such provisions for protecting and enforcing the rights and remedies of the bondholders, including the right to the appointment of a receiver for any project or projects upon the default of any principal or interest payment upon the bonds thereof, and the right of any receiver or indenture trustee to enforce collections of rents, revenues, or other charges for the use of the project or projects necessary to pay all costs of operation, the principal and interest on the issue, and cost of collection, and all things reasonably necessary to accomplish the collection of such sums in the event of any default of the authority.

(c) Such resolutions or trust indentures may include covenants setting forth the duties of the authority in relation to the acquisition of the property; the construction of the project; the maintenance, operation, repair, and insurance of the project; and the custody, safeguarding, and application of all moneys; may also provide that any project shall be constructed and paid for under the supervision of department engineers or others satisfactory to the original purchasers of the bonds issued for such project or projects. Such resolution or trust indenture may also require that the security given by contractors and by any depository of the proceeds of the bonds or revenues or other moneys be satisfactory to such purchasers and may also contain provisions concerning the conditions, if any, upon which additional revenue bonds may be issued.

(d) It shall be lawful for any bank or trust company incorporated under the laws of this state to act as such depository and to furnish such indemnifying bonds or pledge such securities as may be required by the authority. The trust indenture may set forth the rights and remedies of the bondholders and of the trustee and may restrict the individual right of action of bondholders as is customary in trust indentures securing bonds and debentures of corporations.

(e) In addition to the foregoing, such trust indenture may contain such other provisions as the authority may deem advisable, reasonable, and proper for the security of the bondholders. All expenses incurred in carrying out such trust indenture may be treated as a part of the cost of maintenance, operation, and repair of the project affected by such indenture or as an administrative expense of the authority. (Ga. L. 1953, Jan.-Feb. Sess., p. 626, § 24; Ga. L. 1955, p. 124, § 25; Ga. L. 1967, p. 385, § 24; Code 1933, § 95A-1224, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1985, p. 149, § 32.)

Code Commission notes. — Pursuant to Code Section 28-9-5, in 1985, “rights” was substituted for “right” in the second sentence of subsection (d).

32-10-41. Payment of bond proceeds to trustee.

The authority shall, in the resolution providing for issuance of bonds or in the trust indenture, provide for the payment of the proceeds of the sale of the bonds to any officer or person who or any agency, bank, or trust company which shall act as trustee of such funds and shall hold and apply such funds as provided in this article, subject to such regulations as this article and such resolution or trust indenture may provide. (Ga. L. 1953, Jan.-Feb. Sess., p. 626, § 25; Ga. L. 1955, p. 124, § 26; Ga. L. 1967, p. 385, § 25; Code 1933, § 95A-1225, enacted by Ga. L. 1973, p. 947, § 1.)

32-10-42. Pledges of revenues, rents, and earnings; creation and disposition of sinking funds.

(a) The revenues, rents, and earnings derived from any particular project or combined projects or any and all funds from any source received by the department and pledged and allocated by it to the authority as security for the performance of any lease or leases or any and all revenues, rents, and earnings received by the authority, regardless of whether or not such rents, earnings, and revenues were produced by a particular project for which bonds have been issued, unless otherwise pledged and allocated, may be pledged by the authority to payment of principal and interest on bonds of the authority as any resolution authorizing the issuance of the bonds or trust instrument may provide; and such funds so pledged, from whatever source received, may include funds received from one or more or all sources and may be set aside into sinking funds at regular intervals which may be provided in any resolution or trust indenture. All such sinking funds shall be pledged to and charged with the payment of (1) the interest upon such bonds as such interest shall fall due, (2) the principal of the bonds as the same shall fall due, (3) the necessary charges of paying agents for paying principal and interest, and (4) any premium upon bonds retired by call or purchase as provided in this Code section.

(b) The use and disposition of such sinking funds shall be subject to such regulations as may be provided for in the resolution authorizing the issuance of the bonds or in the trust indenture, but, except as may otherwise be provided in such resolutions or trust indentures, such sinking funds individually shall be funds for the benefit of all bonds without distinction or priority of one over another. Subject to the resolution authorizing the issuance of the bonds or the trust indenture of any given bond issue, any moneys in all sinking funds, after all bonds and the interest thereon for which such sinking funds were pledged have been paid, may be paid into the authority fund provided for in Code Section 32-10-13. (Ga. L. 1953, Jan.-Feb. Sess., p. 626, § 26; Ga.

L. 1955, p. 124, § 27; Ga. L. 1967, p. 385, § 26; Code 1933, § 95A-1226, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1974, p. 1422, § 43; Ga. L. 1991, p. 94, § 32.)

32-10-43. Rights and remedies of holders of bonds or interest coupons, of receivers for such holders, and of indenture trustees.

Any holder of bonds or interest coupons issued under this article, any receiver for such holders, or indenture trustee, if any there be, except to the extent the rights given in this Code section may be restricted by resolution passed before the issuance of the bonds or by the trust indenture, may either at law or in equity, by action, mandamus, or other proceedings protect and enforce any and all rights under the laws of Georgia or granted in this Code section or under such resolution or trust indenture. Also, any holder of bonds or interest coupons issued under this article, any receiver for such holders, or any indentured trustee may enforce and compel performance of all duties required by this article or by resolution or trust indenture to be performed by the authority or any officer thereof, including the fixing, charging, and collecting of revenues, rents, and other charges for the use of the project or projects; and, in the event of default of the authority upon the principal and interest obligations of any bond issue, the individual, receiver, or trustee specified in this Code section shall be subrogated to each and every right, specifically including the contract rights of collecting rentals, which the authority may possess against the board and the department or either of them or their respective successors; and, in the pursuit of their remedies as subrogee, such individual, receiver, or trustee may proceed, either at law or in equity, by action, mandamus, or other proceedings to collect any sums by such proceedings due and owing to the authority and pledged or partially pledged directly or indirectly to the benefit of the bond issue of which said individual, receiver, or trustee is representative. No holder of any such bond or receiver or indenture trustee thereof shall have the right to compel any exercise of the taxing power of the state to pay any such bond or the interest thereon or to enforce the payment thereof against any property of the state; nor shall any such bond constitute a charge, lien, or encumbrance, legal or equitable, upon the property of the state. However, any provision of this article or any other law to the contrary notwithstanding, any such bondholder or receiver or indenture trustee shall have the right by appropriate legal or equitable proceedings, including without being limited to mandamus, to enforce compliance by the appropriate public officials with Article VII, Section IV and Article III, Section IX, Paragraph VI(b) of the Constitution of Georgia; and permission is given for the institution of any such proceedings to compel the payment of lease obligations. (Ga. L. 1953, Jan.-Feb. Sess., p. 626,

§ 27; Ga. L. 1955, p. 124, § 28; Ga. L. 1961, p. 3, § 13; Ga. L. 1967, p. 385, § 27; Code 1933, § 95A-1227, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1982, p. 3, § 32; Ga. L. 1983, p. 3, § 56.)

Code Commission notes. — Pursuant to Code Section 28-9-5, in 1985, in the second sentence “rentals” was substituted for “rental”.

32-10-44. Refunding bonds.

The authority is authorized, subject to any prior resolution or trust indenture, to provide by resolution for the issuance of refunding bonds of the authority for the purpose of refunding any bonds issued under this article and then outstanding, together with accrued interest thereon. The issuance of such refunding bonds, the maturities and all other details thereof, the rights of the holders thereof, and the duties of the authority in respect to the same shall be governed by this article insofar as it may be applicable. (Ga. L. 1953, Jan.-Feb. Sess., p. 626, § 28; Ga. L. 1955, p. 124, § 29; Ga. L. 1967, p. 385, § 28; Code 1933, § 95A-1228, enacted by Ga. L. 1973, p. 947, § 1.)

Code Commission notes. — Pursuant to Code Section 28-9-5, in 1985, in the second sentence “holders” was substituted for “holder”.

ALR. — Power of municipal corporation to refund special assessment bonds, 102 ALR 202.

Power of municipality or other governmental body to issue refunding bonds to retire obligation in respect of which the creation and maintenance of a sinking

fund by taxation is required by constitutional or statutory provision, 157 ALR 794.

Power of governmental unit to issue bonds as implying power to refund them, 1 ALR2d 134.

32-10-45. Investment of funds in bonds; deposit of bonds as securities.

The bonds authorized in Code Section 32-10-30 are deemed securities in which (1) all public officers and bodies of the state and all municipalities and all municipal subdivisions, (2) all insurance companies and associations and other persons carrying on an insurance business, (3) all banks, bankers, trust companies, savings banks and savings associations, including savings and loan associations, building and loan associations, investment companies, and other persons carrying on a banking business, (4) all administrators, guardians, executors, trustees, and other fiduciaries, and (5) all other persons whatsoever who are now or hereafter may be authorized to invest in bonds or other obligations of the state may properly and legally invest funds, including capital in their control or belonging to them. The bonds are also deemed securities which may be deposited with and shall be received by all

public officers and bodies of this state and all municipalities and municipal subdivisions for any purpose for which the deposit of the bonds or other obligations of this state is now or hereafter may be authorized. (Ga. L. 1953, Jan.-Feb. Sess., p. 626, § 29; Ga. L. 1955, p. 124, § 30; Ga. L. 1967, p. 385, § 29; Code 1933, § 95A-1229, enacted by Ga. L. 1973, p. 947, § 1.)

32-10-46. Protection of interests and rights of bondholders.

While any of the bonds issued by the authority remain outstanding, the powers, duties, or existence of the authority or of its officers, employees, or agents shall not be diminished or impaired in any manner that will affect adversely the interests and rights of the holders of such bonds; nor will the state itself in any way obstruct, prevent, impair, or render impossible the due and faithful performance by its board and department, or either of them, or their successors, of all project rental and lease contracts and all the covenants thereof entered into under this article. This article shall be for the benefit of the state, the authority, and each and every holder of the authority's bonds and upon and after the issuance of bonds under this article shall constitute an irrevocable contract with the holders of such bonds. (Ga. L. 1953, Jan.-Feb. Sess., p. 626, § 34; Ga. L. 1955, p. 124, § 35; Ga. L. 1961, p. 3, § 15; Ga. L. 1967, p. 385, § 34; Code 1933, § 95A-1234, enacted by Ga. L. 1973, p. 947, § 1.)

32-10-47. Confirmation and validation of bonds.

Bonds of the authority shall be confirmed and validated in accordance with the procedure of Article 3 of Chapter 82 of Title 36, the "Revenue Bond Law." (Ga. L. 1955, p. 124, § 33; Ga. L. 1961, p. 3, § 14; Ga. L. 1967, p. 385, § 32; Code 1933, § 95A-1232, enacted by Ga. L. 1973, p. 947, § 1.)

32-10-48. Right of authority to declaratory adjudication of validity and binding effect of lease contracts the rental income of which is pledged to benefit of bonds being validated.

In and as an integral but independent part of the bond validation proceedings under this article, or separately, the authority is given the right to and privilege of a simultaneous or separate right of action or equitable bill against the state, the board, and the department for a declaratory adjudication of the validity and binding effect of all lease contracts whose rental income may be pledged or partially pledged to the benefit of any bonds being validated. In each instance of the exercise of this right the actual controversy shall be whether or not the

purported contracts contested are in all respects good and sufficient, valid, and binding obligations of the board and department. Any citizens of the state may intervene in such actions and assert any ground of objection. It shall be incumbent upon the board and department to defend against an adjudication of such validity or be forever bound unto the authority and all succeeding to the rights of the authority thereafter. Such adjudications may be rendered as an integral but independent part of the judgment upon the validation issue with which they are contested or may be rendered separately. (Ga. L. 1953, Jan.-Feb. Sess., p. 626, § 33; Ga. L. 1955, p. 124, § 34; Ga. L. 1967, p. 385, § 33; Code 1933, § 95A-1233, enacted by Ga. L. 1973, p. 947, § 1.)

32-10-49. Covenant with holders of bonds as to tax-exempt status of authority property and bonds.

It is found, determined, and declared that the creation of the authority and the carrying out of its corporate purposes are in all respects for the benefit of the people of this state and that the authority is an institution of purely public charity and will be performing an essential governmental function in the exercise of the power conferred upon it by this article; and this state covenants with the holders of the bonds that the authority shall be required to pay no taxes or assessments upon any of the property acquired or leased by it under its jurisdiction, control, possession, or supervision or upon its activities in the operation or maintenance of the projects erected by it or upon any fees, rental, or other charges for the use of such projects or upon other income received by the authority and that the bonds of the authority, their transfer, and the income therefrom shall at all times be exempt from taxation from within the state. (Ga. L. 1953, Jan.-Feb. Sess., p. 626, § 30; Ga. L. 1955, p. 124, § 31; Ga. L. 1967, p. 385, § 30; Code 1933, § 95A-1230, enacted by Ga. L. 1973, p. 947, § 1.)

Code Commission notes. — Pursuant to Code Section 28-9-5, “are” was substituted for “is” following “corporate purposes” near the beginning.

ALR. — Bond or warrant of governmental subdivision as subject of taxation or exemption, 44 ALR 510.

32-10-50. Venue and jurisdiction of actions.

Any action to protect or enforce any rights under this article and any action pertaining to validation of any bonds issued under this article brought in the courts of this state shall be brought in the Superior Court of Fulton County, which shall have exclusive original jurisdiction

of such actions. (Ga. L. 1953, Jan.-Feb. Sess., p. 626, § 31; Ga. L. 1955, p. 124, § 32; Ga. L. 1967, p. 385, § 31; Code 1933, § 95A-1231, enacted by Ga. L. 1973, p. 947, § 1.)

ARTICLE 2

STATE ROAD AND TOLLWAY AUTHORITY

PART 1

GENERAL PROVISIONS

32-10-60. Definitions.

As used in this article, the term:

(1) "Approach" means that distance on either end of a bridge as shall be required to develop the maximum traffic capacity of a bridge, including but not limited to necessary rights of way, grading, paving, minor drainage structures, and such other construction necessary to the approach.

(2) "Authority" means the State Tollway Authority created by the "State Tollway Authority Act," Ga. L. 1953, Jan.-Feb. Sess., p. 302, as amended particularly by Ga. L. 1972, p. 179, and on and after April 30, 2001, also means the State Road and Tollway Authority.

(3) "Bridge" means a structure, including the approaches thereto, erected in order to afford unrestricted vehicular passage over any obstruction in any public road, including but not limited to rivers, streams, ponds, lakes, bays, ravines, gullies, railroads, public highways, and canals.

(4) "Cost of project" means the cost of construction, including relocation or adjustments of utilities; the cost of all lands, properties, rights, easements, and franchises acquired; relocation expenses; the cost of all machinery and equipment necessary for the operation of the project; financing charges; interest prior to and during construction and for such a period of time after completion of construction as shall be deemed necessary to allow the earnings of the project to become sufficient to meet the requirements of the bond issue; the cost of engineering, legal expenses, plans and specifications, and other expenses necessary or incident to determining the feasibility or practicability of the project; administrative expenses; and such other

expenses as may be necessary or incident to the financing authorized in this article, the construction of any project, and the placing of the same in operation. Any obligation or expense incurred for any of the foregoing purposes shall be regarded as a part of the cost of the project and may be paid or reimbursed as such out of the proceeds of revenue bonds issued for such project under this article.

(5) "Project" means land public transportation systems, including: (A) one or more roads or bridges or a system of roads, bridges, and tunnels or improvements thereto included on an approved state-wide transportation improvement program on the Developmental Highway System as set forth in Code Section 32-4-22, as now or hereafter amended, or a comprehensive transportation plan pursuant to Code Section 32-2-3 or which are toll access roads, bridges, or tunnels, with access limited or unlimited as determined by the authority, and such buildings, structures, parking areas, appurtenances, and facilities related thereto, including but not limited to approaches, cross streets, roads, bridges, tunnels, and avenues of access for such system; and (B) any program for mass transportation or mass transportation facilities as approved by the authority and the department and such buildings, structures, parking areas, appurtenances, and facilities related thereto, including, but not limited to, approaches, cross streets, roads, bridges, tunnels, and avenues of access for such facilities.

(6) "Relocation expenses" means all necessary relocation expenses, replacement housing expenses, relocation advisory services, expenses incident to the transfer of real property, and litigation expenses of any individual, family, business, farm operation, or nonprofit organization displaced by authority projects to the extent authorized by the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended by the Uniform Relocation Act Amendments of 1987, Title IV of Public Law 100-17.

(6.1) "Revenue" or "revenues" shall mean any and all moneys received from the collection of tolls authorized by Code Sections 32-10-64 and 32-10-65, any federal highway or transit funds and reimbursements, any other federal highway or transit assistance received from time to time by the authority, any other moneys of the authority pledged for such purpose, and any other moneys received by the authority pursuant to the Georgia Transportation Infrastructure Bank.

(7) "Revenue bonds," "revenue bond," "bonds," or "bond" means any bonds, notes, interim certificates, reimbursement anticipation notes, or other evidences of indebtedness of the authority authorized by Part 2 of this article, including without limitation obligations issued to refund any of the foregoing.

(8) “Self-liquidating” means that, in the judgment of the authority, the revenues and earnings to be derived by the authority from any project or combination of projects or from any other revenues available to the authority, together with any maintenance, repair, operational services, funds, rights of way, engineering services, and any other in-kind services to be received by the authority from appropriations of the General Assembly, the department, other state agencies or authorities, the United States government, or any county or municipality, shall be sufficient to provide for the maintenance, repair, and operation and to pay the principal and interest of revenue bonds which may be issued for the cost of such project, projects, or combination of projects.

(9) “Utility” means any publicly, privately, or cooperatively owned line, facility, or system for producing, transmitting, transporting, or distributing communications, power, electricity, light, heat, gas, oil products, passengers, water, steam, clay, waste, storm water not connected with highway drainage, and other similar services and commodities, including publicly owned fire and police, and traffic signals and street lighting systems, which directly or indirectly serve the public. This term also means a person, municipal corporation, county, state agency, or public authority which owns or manages a utility as defined in this paragraph. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 3; Ga. L. 1972, p. 179, § 3; Code 1933, § 95A-1238, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1974, p. 1422, § 44; Ga. L. 1976, p. 775, § 3; Ga. L. 1977, p. 1285, § 1; Ga. L. 1982, p. 3, § 32; Ga. L. 1986, p. 1241, § 1; Ga. L. 1988, p. 227, § 1; Ga. L. 2001, p. 1251, § 1-6; Ga. L. 2008, p. 73, § 1/HB 1019.)

Code Commission notes. — Pursuant to Code Section 28-9-5, in 2001, “April 30, 2001,” was substituted for “the date of the year 2001 change of the authority’s name” in paragraph (2).

U.S. Code. — The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, referred to in this Code section, is codified as 42 U.S.C. § 4601 et seq.

JUDICIAL DECISIONS

Cited in *Campbell v. State Rd. & Tollway Auth.*, 276 Ga. 714, 583 S.E.2d 32 (2003).

OPINIONS OF THE ATTORNEY GENERAL

Tollway Authority may include part of State Highway System. — It is lawful, under certain circumstances, for portions of the State Highway System to be included in a State Tollway Authority project and for such portions of highways to be improved with funds of the State

Tollway Authority; further, such portions of tollway projects need not necessarily be included in that portion of a project which can be used by the public only upon payment of a toll. 1974 Op. Att’y Gen. No. 74-5.

“Feeder route” may be avenue of

access. — Existing highway facility which would be a “feeder route” into a tollway can be considered as an avenue of access to a tollway system within the meaning of the definition of the term “project”; provided, of course, that the “feeder route” bears an actual and legitimate relationship to the tollway as an avenue of access to the tollway. 1974 Op. Att’y Gen. No. 74-5.

Am. Jur. 2d. — 40 Am. Jur. 2d, Highways, Streets, and Bridges, § 685.

32-10-61. Continuation of State Tollway Authority as State Road and Tollway Authority.

The State Tollway Authority shall continue to be a body corporate and politic and an instrumentality and public corporation of the state known as the “State Road and Tollway Authority.” It shall have perpetual existence. In said name it may contract and be contracted with, sue and be sued, implead and be impleaded, and complain and defend in all courts of this state, subject to the limitations of Code Section 32-10-110. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 2; Ga. L. 1962, Sept.-Oct. Ex. Sess., p. 31, § 1; Ga. L. 1972, p. 179, § 2; Code 1933, § 95A-1239, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2001, p. 1251, § 1-7.)

32-10-62. Membership; compensation; officers; bylaws; quorum; record of proceedings.

(a) The members of the authority shall be ex officio the Governor, the commissioner of transportation, the director of the Office of Planning and Budget, one member to be appointed by the Lieutenant Governor and to serve during the term of office of the Lieutenant Governor and until a successor is duly appointed and qualified, and one member to be appointed by the Speaker of the House of Representatives and to serve during the term of office of the Speaker of the House of Representatives and until a successor is duly appointed and qualified; and membership shall be a separate and distinct duty for which they shall receive no additional compensation. All members of the authority shall be entitled to all actual expenses necessarily incurred while in the performance of duties on behalf of the authority. The authority shall elect one of its members as chairman. It shall also elect a secretary and a treasurer, who need not necessarily be members of the authority. The authority may make such bylaws for its government as is deemed necessary but it is under no duty to do so. A majority of the members of the authority shall constitute a quorum necessary for the transaction of business, and a majority vote of those present at any meeting at which there is a quorum shall be sufficient to do and perform any action permitted to the authority by this article.

(b) No vacancy on the authority shall impair the right of the quorum to transact any and all business as stated in this Code section. Members of the authority shall be accountable as trustees. They shall cause to be kept adequate books and records of all transactions of the authority, including books of income and disbursements of every nature. The books and records shall be inspected and audited by the state auditor at least once a year. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 2; Ga. L. 1962, Ex. Sess., p. 31, § 1; Ga. L. 1963, p. 283, § 1; Ga. L. 1972, p. 179, § 2; Code 1933, § 95A-1240, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1982, p. 3, § 32; Ga. L. 2001, p. 1251, § 1-8.)

Code Commission notes. — Pursuant to Code Section 28-9-5, in 2001, “term of office” was substituted for “term in office” in the first sentence of subsection (a).

JUDICIAL DECISIONS

Cited in *Campbell v. State Rd. & Tollway Auth.*, 276 Ga. 714, 583 S.E.2d 32 (2003).

32-10-63. Powers of authority generally.

The authority shall have, in addition to any other powers conferred in this article, the following powers:

- (1) To have a seal and alter the same at its pleasure;
- (2) To acquire by purchase, lease, exchange, or otherwise and to hold, lease, and dispose of real and personal property of every kind and character for its corporate purposes;
- (3) To appoint such additional officers, who need not be members of the authority, as the authority deems advisable and to employ such experts, employees, and agents as may be necessary, in its judgment, to carry on properly the business of the authority; to fix their compensation; and to promote and discharge same;
- (4) To acquire in its own name by purchase, on such terms and conditions and in such manner as it may deem proper, or by condemnation in accordance with any and all existing laws applicable to the condemnation of property for public use, including but not limited to those procedures in Article 1 of Chapter 3 of this title, real property or rights or easements therein or franchises necessary or convenient for its corporate purposes; and to use the same so long as its corporate existence shall continue and to lease or make contracts with respect to the use of or to dispose of the same in any manner it deems to the best advantage of the authority, the authority being under no obligation to accept and pay for any property condemned under this article except from the funds provided under the authority

of this article; and, in any proceedings to condemn, such order may be made by the court having jurisdiction of the action or proceedings as may be just to the authority and to the owners of the property to be condemned; and no property shall be acquired under this article upon which any lien or other encumbrance exists unless at the time such property is so acquired a sufficient sum of money be deposited in trust to pay and redeem such lien or encumbrance in full;

(5) To make such contracts, leases, or conveyances as the legitimate and necessary purposes of this article shall require, including but not limited to contracts for construction or maintenance of projects, provided that the authority shall consider the possible economic, social, and environmental effects of each project, and the authority shall assure that possible adverse economic, social, and environmental effects relating to any proposed project have been fully considered in developing such project and that the final decision on the project is made in the best overall public interest, taking into consideration the need for fast, safe, and efficient transportation, public services, and the cost of eliminating or minimizing adverse economic, social, and environmental effects. Furthermore, in order to assure that adequate consideration is given to economic, social, and environmental effects of any tollway project under consideration, the authority shall:

(A) Follow the processes required for federal-aid highway projects, as determined by the National Environmental Policy Act of 1969, as amended, except that final approval of the adequacy of such consideration shall rest with the Governor, as provided in subparagraph (C) of this paragraph, acting as the chief executive of the state, upon recommendation of the commissioner, acting as chief administrative officer of the Department of Transportation;

(B) In the location and design of any project, avoid the taking of or disruption of existing public parkland or public recreation areas unless there are no prudent or feasible project location alternates. The determination of prudence and feasibility shall be the responsibility of the authority as part of the consideration of the overall public interest;

(C) Not approve and proceed with acquisition of rights of way and construction of a project until: (i) there has been held, or there has been offered an opportunity to hold, a public hearing or public hearings on such project in compliance with requirements of the Federal-aid Highway Act of 1970, as amended, except that neither acquisition of right of way nor construction shall be required to cease on any federal-aid project which has received federal approval pursuant to the National Environmental Policy Act of 1969, as amended, and is subsequently determined to be eligible for

construction as an authority project utilizing, in whole or in part, a mix of federal funds and authority funds; and (ii) the adequacy of environmental considerations has been approved by the Governor, for which said approval of the environmental considerations may come in the form of the Governor's acceptance of a federally approved environmental document; and

(D) Let by public competitive bid upon plans and specifications approved by the chief engineer or his or her successors all contracts for the construction of projects;

(6) To construct, erect, acquire, own, repair, maintain, add to, extend, improve, operate, and manage projects, as defined in paragraph (5) of Code Section 32-10-60, the cost of any such project to be paid in whole or in part from the proceeds of revenue bonds of the authority, from other funds available to the authority, or from any combination of such sources;

(7) To accept and administer any federal highway or federal transit funds and any other federal highway or transit assistance received from time to time for the State of Georgia and to accept, with the approval of the Governor, loans and grants, either or both, of money or materials or property of any kind from the United States government or the State of Georgia or any political subdivision, authority, agency, or instrumentality of either of them, upon such terms and conditions as the United States government or the State of Georgia or such political subdivision, authority, agency, or instrumentality of either of them shall impose;

(8) To borrow money for any of its corporate purposes, to issue negotiable revenue bonds payable from revenues of such projects, and to provide for the payment of the same and for the rights of the holders thereof;

(9) To exercise any power usually possessed by private corporations performing similar functions, which power is not in conflict with the Constitution and laws of Georgia;

(10) To covenant with bondholders for the preparation of annual budgets for each project and for approval thereof by engineers or other representatives designated by the bondholders of each project, as may be provided for in any bond issue resolutions or trust indentures, and to covenant for the employment of experts or traffic engineers;

(11) To lease its property to the United States government, the State of Georgia, or its political subdivisions, including any agency, authority, or instrumentality of the foregoing governments or political subdivisions, as well as to persons, public or private, for the construction or operation of facilities of benefit to the general public;

(12) By or through its authorized agents or employees, to enter upon any lands, waters, and premises in the state for the purpose of making surveys, soundings, drillings, and examinations as the authority may deem necessary or convenient for the purposes of this article; and such entry shall not be deemed a trespass. The authority shall, however, make reimbursement for any actual damages resulting from such activities;

(13) To make reasonable regulations for the installation, construction, maintenance, repairs, renewal, and relocation of pipes, mains, conduits, cables, wires, towers, poles, and other equipment and appliances of any public utility in, on, along, over, or under any project;

(14) To pledge, mortgage, convey, assign, hypothecate, or otherwise encumber any property of the authority, including but not limited to real property, fixtures, personal property, intangible property, revenues, income, charges, fees, or other funds and to execute any lease, trust indenture, trust agreement, resolution, agreement for the sale of the authority's bonds, loan agreement, mortgage, deed to secure debt, trust deed, security agreement, assignment, or other agreement or instrument as may be necessary or desirable, in the judgment of the authority, to secure such bonds; and

(15) To do all things necessary or convenient to carry out the powers expressly given in this article. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 4; Ga. L. 1972, p. 179, §§ 9-13; Code 1933, § 95A-1241, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1974, p. 1422, § 45; Ga. L. 1988, p. 227, §§ 2-4; Ga. L. 1994, p. 591, § 11; Ga. L. 2001, p. 1251, § 1-9; Ga. L. 2009, p. 8, § 32/SB 46.)

Code Commission notes. — Pursuant to Code Section 28-9-5, in 1988, a comma was inserted following "agency" in two places in paragraph (7).

U.S. Code. — The Federal-aid Highway Act of 1970, referred to in this Code section, is codified as various sections throughout 23 U.S.C. Ch. 1.

The National Environmental Policy Act of 1969, referred to in this Code section, is codified as 42 U.S.C. Ch. 55, § 4321 et seq.

Cross references. — Prohibition against authorizing construction or maintenance of private road, § 32-1-8.

JUDICIAL DECISIONS

General Assembly's power to direct federal funds to state authority. — Under the Georgia Constitution, the General Assembly had the power to enact O.C.G.A. § 32-10-63(7) and related statutes that authorized the State Road and Tollway Authority (SRTA) to receive

federal-aid highway funds; thus, the trial court did not err in denying the challenge of the taxpayers to the trial court's validation and approval of the bonds the SRTA was empowered to issue for highway construction projects which were to be retired using future federal-aid highway funds

the state would receive. *Campbell v. State Rd. & Tollway Auth.*, 276 Ga. 714, 583 S.E.2d 32 (2003).

OPINIONS OF THE ATTORNEY GENERAL

Department of Transportation may enter into transportation construction contracts with financial backing from State Road and Tollway Authority. — Department of Transportation may enter into transportation construction contracts with all or a portion of the

financial backing for the contracts coming from a contractual promise from the State Road and Tollway Authority to borrow and provide money to DOT as and when needed to expend on projects that are the subjects of the construction contracts. 2001 Op. Att’y Gen. No. 2001-10.

32-10-64. General toll powers; police powers; rules and regulations.

(a) For the purpose of earning sufficient revenue to make possible, in conjunction with other funds available to the authority, the financing of the construction or acquisition of projects of the authority with revenue bonds, the authority is authorized and empowered to collect tolls on each and every project which it shall cause to be constructed or acquired. It is found, determined, and declared that the necessities of revenue bond financing are such that the authority’s toll earnings on each project or projects, in conjunction with other funds available to the authority, must exceed the actual maintenance, repair, and normal reserve requirements of such projects, together with monthly or yearly sums needed for the sinking fund payments upon the principal and interest obligations of financing such project or projects; however, within the framework of these legitimate necessities of the authority and subject to all bond resolutions, trust indentures, and all other contractual obligations of the authority, the authority is charged with the duty of the operation of all projects in the aggregate at the most reasonable possible level of toll charges; and, furthermore, the authority is charged with the responsibility of a reasonable and equitable adjustment of such toll charges as between the various classes of users of any given project.

(b) In the exercise of the authority’s toll powers, the authority is authorized to exercise so much of the police powers of the state as shall be necessary to maintain the peace and accomplish the orderly handling of the traffic and the collection of tolls on all projects operated by the authority; and the authority shall prescribe such rules and regulations for the method of taking tolls and the employment and conduct of toll takers and other operating employees as the authority, in its discretion, may deem necessary.

(c)(1) No motor vehicle shall be driven or towed through a toll collection facility, where appropriate signs have been erected to notify

traffic that it is subject to the payment of tolls beyond such sign, without payment of the proper toll. In the event of nonpayment of the proper toll, as evidenced by video or electronic recording, the registered owner of such vehicle shall be liable to make prompt payment to the authority of the proper toll and an administrative fee of \$25.00 per violation to recover the cost of collecting the toll. The authority or its authorized agent shall provide notice to the registered owner of a vehicle, and a reasonable time to respond to such notice, of the authority's finding of a violation of this subsection. Upon failure of the registered owner of a vehicle to pay the proper toll and administrative fee to the authority after notice thereof and within the time designated in such notice, the authority may proceed to seek collection of the proper toll and the administrative fee as debts owing to the authority, in such manner as the authority deems appropriate and as permitted under law. If the authority finds multiple failures by a registered owner of a vehicle to pay the proper toll and administrative fee after notice thereof and within the time designated in such notice, the authority may refer the matter to the Office of State Administrative Hearings. The scope of any hearing held by the Office of State Administrative Hearings shall be limited to consideration of evidence relevant to a determination of whether the registered owner has failed to pay, after notice thereof and within the time designated in such notice, the proper toll and administrative fee. The only affirmative defense that may be presented by the registered owner of a vehicle at such a hearing is theft of the vehicle, as evidenced by presentation at the hearing of a copy of a police report showing that the vehicle has been reported to the police as stolen prior to the time of the alleged violation. A determination by the Office of State Administrative Hearings of multiple failures to pay by a registered owner of a vehicle shall subject such registered owner to imposition of, in addition to any unpaid tolls and administrative fees, a civil monetary penalty payable to the authority of not more than \$70.00 per violation. Upon failure by a registered owner to pay to the authority, within 30 days of the date of notice thereof, the amount determined by the Office of State Administrative Hearings as due and payable for multiple violations of this subsection, the motor vehicle registration of such registered owner shall be immediately suspended by operation of law. The authority shall give notice to the Department of Revenue of such suspension. Such suspension shall continue until the proper toll, administrative fee, and civil monetary penalty as have been determined by the Office of State Administrative Hearings are paid to the authority. Actions taken by the authority under this subsection shall be made in accordance with policies and procedures approved by the members of the authority.

(2) The registered owner of a vehicle which is observed being driven or towed through a toll collection facility without payment of

the proper toll may avoid liability under this subsection by presenting to the authority a copy of a police report showing that the vehicle had been reported to the police as stolen prior to the time of the alleged violation.

(3) For purposes of this subsection, for any vehicle which is registered to an entity other than a natural person, the term "registered owner" shall be deemed to refer to the natural person who is the operator of such motor vehicle at the time of the violation of this subsection, but only if the entity to which the vehicle is registered has supplied to the authority, within 60 days following notice from the authority or its authorized agent, information in the possession of such entity which is sufficient to identify and give notice to the natural person who was the operator of the motor vehicle at the time of the violation of this subsection.

(d) Any person who shall use or attempt to use any currency or coins other than legal tender of the United States of America or tokens issued by the authority or who shall use or attempt to use any electronic device or equipment not authorized by the authority in lieu of or to avoid payment of a toll shall be guilty of a misdemeanor.

(e) Any person, except an authorized agent or employee of the authority, who removes any coin from the pavement or ground surface within 15 feet of a toll collection booth or toll collection machine, except to retrieve coins the person dropped while attempting payment of that person's toll, shall be guilty of a misdemeanor.

(f) Any person who enters without authorization or who willfully, maliciously, and forcibly breaks into any mechanical or electronic toll collection device of the authority or appurtenance thereto shall be guilty of a misdemeanor.

(g) Any law enforcement officer shall have the authority to issue citations for toll evasions if such officer is a witness to any of the following violations:

(1) A person forcibly or fraudulently passes a toll collection device without payment or refuses to pay, evades, or attempts to evade the payment of such tolls;

(2) A person turns, or attempts to turn, a vehicle around on a bridge, approach, or toll plaza where signs have been erected forbidding such turning; or

(3) A person refuses to pass through the toll collection facility after having come within the area where signs have been erected notifying traffic that it is entering the area where a toll is collectable or where vehicles may not turn around and where vehicles are required to pass through the toll gates for the purposes of collecting tolls.

(h) The authority may in its discretion use such technology, including but not limited to automatic vehicle license tag identification photography and video surveillance, either by electronic imaging or photographic copy, that it deems necessary to aid in the collection of tolls and enforcement of toll violations. Such technology shall not be used to produce any photograph, microphotograph, electronic image, or videotape showing the identity of any person in a motor vehicle except that such technology may be utilized for general surveillance of a toll collection facility for the security of toll collection facility employees.

(i) State and local law enforcement entities are authorized to enter into traffic and toll enforcement agreements with the authority. Any funds received by a state law enforcement entity pursuant to such toll enforcement agreement shall be subject to annual appropriations by the General Assembly to such law enforcement entity for the purpose of performing its duties pursuant to such agreement. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 8; Ga. L. 1972, p. 179, § 15; Code 1933, § 95A-1245, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1979, p. 1091, § 2; Ga. L. 1988, p. 227, § 5; Ga. L. 1993, p. 366, § 2; Ga. L. 2001, p. 1251, § 1-10; Ga. L. 2004, p. 498, § 1; Ga. L. 2006, p. 308, § 1/HB 1190.)

OPINIONS OF THE ATTORNEY GENERAL

Inclusion of portions of State Highway System in tollway projects. — It is lawful, under certain circumstances, for portions of State Highway System to be included in a State Tollway Authority project and for such portions of highways to be improved with funds of State Tollway Authority; further, such portions of tollway projects need not necessarily be

included in that portion of project which can be used by public only upon payment of a toll. 1974 Op. Att’y Gen. No. 74-5.

Phrase “is authorized and empowered” means that act may or may not be done within the discretion of the State Tollway Authority, which is the body authorized to make the decision. 1974 Op. Att’y Gen. No. 74-5.

ALR. — Tolls as taxes within constitutional provisions respecting taxes, 167 ALR 1356.

32-10-65. Fixing, revising, charging, and collecting tolls; use and disposition of tolls generally.

The authority is authorized to fix, revise, charge, and collect tolls for the use of each project. Such tolls shall be so fixed and adjusted as to carry out and perform the terms and provisions of any resolution, trust indenture, or contract with or for the benefit of bondholders; and such tolls shall not be subject to supervision or regulation by any other commission, board, bureau, or agency of the state. The use and

disposition of tolls and revenues shall be subject to the provisions of the resolution authorizing the issuance of such bonds or of the trust indenture securing the same, if there are any. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 33; Code 1933, § 95A-1270, enacted by Ga. L. 1973, p. 947, § 1.)

Am. Jur. 2d. — 40 Am. Jur. 2d, Highways, Streets, and Bridges, § 692 et seq.

32-10-65.1. Expiration of tolls established under article.

Every toll established under this article must expire after a specified period of time and may be extended beyond said time by approval of the State Road and Tollway Authority. (Code 1981, § 32-10-65.1, enacted by Ga. L. 1990, p. 8, § 32; Ga. L. 2001, p. 1251, § 2-1.)

32-10-66. Duty of authority to prescribe rules and regulations for projects generally.

It shall be the duty of the authority to prescribe rules and regulations as approved by the department for the operation of each project constructed under this article, including rules and regulations to ensure maximum use of such project. The authority is authorized to promulgate such rules and regulations for the use and occupancy of the project as may be necessary and proper for the public's safety and convenience, for the preservation of its property, and for the collection of tolls. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 11; Ga. L. 1972, p. 179, § 18; Code 1933, § 95A-1248, enacted by Ga. L. 1973, p. 947, § 1.)

32-10-67. Study, financing, construction, and operation of new projects; cooperation and assistance of Department of Transportation.

(a) The Governor, in his discretion or upon the recommendation of the State Transportation Board, is authorized and empowered to call a joint meeting of the authority and the board for the purpose of initiating all projects which may be considered under the authority of this article. Upon the concurrence of the Governor, a majority of the board, and the authority, the board or the authority is authorized and empowered to commence the study of any given project or projects and to provide for their construction. An appropriate resolution of such joint meeting shall provide for divisions of duties and responsibilities between the authority and the board in connection with such studies. In keeping with such resolution or resolutions, the authority and the board are authorized, in the performance of their assigned duties, to expend from any sums

available such sums as may be necessary for the survey and study and completion of any project or projects; and such expenditures may include those necessary for all traffic surveys, expert studies, and all other expense reasonably necessary in establishing the feasibility of any given project and in the execution of all plans, specifications, and all other things necessary for revenue bond financing and construction, including all supervision of every kind required in its completion. If such expenditures, or any part of them, shall be undertaken by the board, the board shall keep proper records which shall reflect the amounts spent on each and every project study. Upon completion of any given project or projects financed by any given revenue bond issued, so long as there shall be funds available in the hands of the authority from the issue of revenue bonds to finance such project or projects, the board may demand the reimbursement of such expenditures; however, if not reimbursed, said expenditures shall be legitimate expenses of operation of the board. The authority, upon the completion or receipt of such studies or plans and specifications or other aids, shall proceed, if such project or projects are possible, to finance, acquire rights of way, construct, and operate such projects pursuant to its purposes, powers, and duties.

(b) Upon the concurrence of the board, the Department of Transportation shall have the right to provide maintenance and operational assistance to the authority as may be necessary to effectuate the purposes of this article, including but not limited to authorizing employees of the department to assist the authority in the collection of tolls on authority projects. The authority shall reimburse the department for such assistance. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 6; Code 1933, § 95A-1243, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1983, p. 635, § 1.)

32-10-68. Letting of contracts by competitive bids.

All contracts of the authority for the construction of any project authorized by this article shall be let to the reliable bidder submitting the lowest sealed bid upon plans and specifications approved by the department. The procedures for letting such bids shall conform to those prescribed for the department in Code Sections 32-2-64 through 32-2-72. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 13; Code 1933, § 95A-1242, enacted by Ga. L. 1973, p. 947, § 1.)

32-10-69. Conveyance by Governor of real property; power to acquire and expend funds for property interests.

(a) The Governor is authorized and empowered to convey to the authority, on behalf of the state, any real property or interest therein or any rights of way owned by the state, including property or rights of way acquired in the name of the department or board, which is used at the time or may, upon completion of any action committed to the authority by this article, be used as a project. The consideration for such conveyance shall be determined by the Governor and expressed in the deed of conveyance; however, such consideration shall be nominal, the benefits flowing to the state and its citizens constituting full and adequate actual consideration, provided that in the event of the inability of the authority to issue or sell the revenue bonds required for financing the completion of any given project or projects, then, subject to the intervening rights of any innocent party, all rights, titles, and interests so conveyed shall forever revert to the department or agency from which it came.

(b) The governing authority of any county or incorporated municipality of this state is authorized and empowered on behalf of such political subdivision to convey to the authority any real property or interest therein or any rights of way owned by such political subdivision, which is used at the time or may, upon completion of any action committed to the authority by this article, be used as a project if conveyed by a county or incorporated municipality. The consideration for such conveyance shall be determined by the governing authority of such political subdivision and expressed in the deed of conveyance. Such consideration, however, shall be nominal, the benefits flowing to the political subdivisions and its citizens constituting full and adequate actual consideration. However, nothing in this subsection shall prevent the authority from reimbursing a political subdivision, as authorized in Code Section 32-10-70.

(c) The board or its successors and the department are empowered to acquire, in any manner now permitted to them by law, and to expend

funds available to them for such acquisition, real property, interests therein, or rights of way which upon acquisition may be conveyed by the Governor as provided in this Code section to the authority. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 7; Ga. L. 1972, p. 179, § 14; Code 1933, § 95A-1244, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1988, p. 227, § 6; Ga. L. 1989, p. 14, § 32; Ga. L. 2001, p. 1251, § 1-10.1.)

Code Commission notes. — Pursuant to Code Section 28-9-5, in 1988, a comma was substituted for a semicolon following “actual consideration” in subsection (a).

Editor’s notes. — Ga. L. 1988, p. 227, § 8, not codified by the General Assembly, provides: “Every toll established under this Act must expire at a specified period of time, and may be extended beyond said

time by approval of the State Tollway Authority.”

Ga. L. 1990, p. 8, § 55, part of an Act to correct errors and omissions in the Code, repealed Ga. L. 1988, p. 227, § 8, which provided for the expiration and extension of tolls, and enacted those provisions as Code Section 32-10-65.1.

32-10-70. Transfer of real and personal property to authority by public bodies and officers.

All counties, municipalities, and other political subdivisions of the state and all public agencies and officers of the state, notwithstanding any contrary provisions of the law, are authorized and empowered to lease, lend, grant, or convey to the authority, upon its request and upon such terms and conditions as the authority and the proper officials of such counties, cities, other political subdivisions, or public agencies or officials may agree upon as reasonable and fair, and without necessity for any advertisement, order of court, or other action or formality other than the regular execution of the proper instrument, any real or personal property which may be necessary or convenient to the effectuation of the purpose of this article, including real or personal property devoted to public use. (Code 1933, § 95A-1244.1, enacted by Ga. L. 1979, p. 1091, § 1.)

Code Commission notes. — Pursuant to Code Section 28-9-5, in 1991, a comma

was inserted following “municipalities” near the beginning of this Code section.

32-10-71. Acquisition, maintenance, and operation of tollway projects.

(a) The authority is authorized and empowered to acquire, maintain, repair, improve, and operate a tollway project whose status at the time of acquisition is a toll facility or which was operated as a toll facility at some point in its existence. For the purpose of earning sufficient revenue to make possible the maintenance, repair, and improvement of the acquired project, the authority is authorized to collect tolls on each and every project it acquires.

(b) When an existing state tollway facility has been acquired from a local government by the authority or the department, and the state tollway facility provides access to an island with public beaches that are in need of maintenance, repair, or restoration, the State Road and Tollway Authority may assist the local government in the collection of a parking fee for each vehicle entering the island. The local government is authorized to set a fee on roads, streets, and parking facilities owned by the local government for such purposes and may contract with the authority to collect the fee. The department is authorized to assist the authority in the collection of the fee. The local government shall reimburse the department and the authority for any costs associated with executing the terms of the contract.

(c) When a state highway provides access to an island with public beaches that are in need of maintenance, repair, or restoration, the Department of Transportation may, if consistent with federal law and regulations, authorize the local government to set and collect a parking fee for the purpose of providing funding for such maintenance, repair, or restoration. The department is authorized to allow the authority to collect such parking fee on the state highway system, provided that the collection point shall lie within the corporate limits of the local government setting the parking fee. The authority is authorized to contract with the local government for the collection of the fee. The local government shall reimburse the authority for any costs associated with executing the terms of the contract. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 8; Ga. L. 1972, p. 179, § 8; Code 1933, § 95A-1245.1, enacted by Ga. L. 1979, p. 1091, § 3; Ga. L. 1991, p. 1409, § 1; Ga. L. 2001, p. 1251, § 2-1.)

32-10-72. Authority fund.

All revenue in excess of all obligations of the authority of any nature, together with all unused receipts and gifts of every kind and nature whatsoever, shall be and become the authority fund. The authority, in its discretion, is charged with the duty of pledging, utilizing, or expending the authority fund for the following purposes:

(1) Pledges to the payment of any revenue bond issue requirements, sinking or reserve funds, as may be provided for under Code Section 32-10-102;

(2) The payment of any outstanding unpaid revenue bond obligations or administrative expenses;

(3) The construction of all or any part of projects, the need for which is concurred in by the Governor and the board;

(4) The most advantageous obtainable redemptions and retirements of the authority's bonds pursuant to the prepayment redemp-

tion privileges accorded to the authority upon the various issues of bonds outstanding;

(5) The most advantageous open market purchase of the authority's bonds that the authority may accomplish;

(6) Investment in such securities and in such manner as it determines to be in its best interest; and

(7) Subject to the terms of any resolution or trust indenture authorizing the issuance of revenue bonds, the transfer of funds to the department to be used by the department for department purposes. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 10; Ga. L. 1972, p. 179, § 17; Code 1933, § 95A-1247, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2001, p. 1251, § 1-11.)

JUDICIAL DECISIONS

Cited in *Campbell v. State Rd. & Tollway Auth.*, 276 Ga. 714, 583 S.E.2d 32 (2003).

32-10-73. Designation of moneys received pursuant to article as trust funds.

All moneys received pursuant to the authority of this article, whether as proceeds from the sale of revenue bonds or as revenues, tolls, and earnings, shall be deemed to be trust funds to be held and applied solely as provided in this article. The bondholders paying or entitled to receive the benefits of such bonds shall have a lien on all such funds until applied as provided for in any resolution or trust indenture of the authority. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 32; Code 1933, § 95A-1269, enacted by Ga. L. 1973, p. 947, § 1.)

JUDICIAL DECISIONS

Cited in *Campbell v. State Rd. & Tollway Auth.*, 276 Ga. 714, 583 S.E.2d 32 (2003).

32-10-74. Effect of article.

This article shall be deemed to provide an additional and alternative method for the doing of the things authorized thereby and shall be regarded as supplemental and additional to powers conferred by other laws and shall not be regarded as in derogation of any powers now existing. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 34; Code 1933, § 95A-1271, enacted by Ga. L. 1973, p. 947, § 1.)

32-10-75. Construction of article.

This article, being for the welfare of the state and its inhabitants, shall be liberally construed to effect the purposes of this article. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 35; Code 1933, § 95A-1272, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1991, p. 94, § 32.)

32-10-76. Grant programs; pilot program formation; factors to be considered in selecting pilot projects; procedures; eligible projects.

(a) As used in this Code section, the term:

(1) “Local government authority” and “state” mean the same as under 49 U.S.C. Section 5302.

(2) “Public-private project initiative” means a local or regional streetcar project which is proposed and advanced by a cooperative entity or sponsor that involves a combined public and private sector financing and development structure which includes not for profit entities.

(3) “Streetcar” includes, but is not limited to, a rail transit vehicle, including a modern, antique, or reproduction vehicle, that is designed to fit the scale and traffic patterns of the neighborhoods through which it travels and operates at lower speeds generally in existing rights of way through mixed traffic, with frequent stops.

(b) The authority shall establish and implement a five-year grant program to provide assistance to local governmental authorities as well as a public-private project initiative for the capital, technical, and start-up costs of development and expansion of streetcar transportation and attendant economic and community development opportunities. The five-year grant program shall begin when funding becomes available for such purposes. The five-year grant program may be renewed at the end of each five-year period, consistent with the provisions of this Code section.

(c) The authority will work closely with the formation of a pilot program and will provide a state-level flow through point for any available federal funding or other forms of financial and development sources and assistance for local, regional, and public-private streetcar projects.

(d) The authority shall consider the following factors in its selection of projects that will be implemented by this pilot program:

(1) The project is ripe for development, construction, and operation;

(2) The project application demonstrates strong local and private sector financial participation in the project;

(3) The project will foster redevelopment opportunities adjacent to the streetcar line for which assistance is being sought;

(4) The project includes the financial participation of the private owners of real property abutting the streetcar line, with the exception of owner occupied residential properties, for some of the capital costs of the project;

(5) The project application demonstrates that development or redevelopment agreements are in place with respect to the project and land planning policies complimentary to the project have been adopted for land in close proximity to the streetcar line, including the availability of property zoned to accommodate mixed use development adjacent to the streetcar line;

(6) The project application demonstrates either how redeveloping or new neighborhoods on vacant or underutilized land will be connected by the project to each other or to major attractors in the central city where the project will be carried out or how circulator or connector lines under the project will connect developed neighborhoods with one another or with the business district in the central city;

(7) The project has demonstrated desirable levels of local financial and linking resources commitment; and

(8) The project may include, and is encouraged to include, a public-private project initiative and organizational structure or sponsor.

(e) The authority will coordinate with all appropriate metropolitan, regional, and municipal planning and development agencies where projects may be pursued and will coordinate with the Georgia Regional Transportation Authority and appropriate local transit agencies in the development, funding, and implementation of various streetcar projects.

(f) In order to receive grant assistance under this Code section, a sponsor of a project must submit to the authority an application that includes a detailed operating plan for the streetcar line for which such assistance is being sought, including the frequency of service, hours of operation, stop locations, and demonstration of the financial capacity of the sponsor to operate the streetcar line.

(g) A project for which grant assistance may be provided under this Code section may include streetscaping, signalization modifications, and other modifications to the road system or other public rights of way

on which the project is to be carried out; acquisition of streetcars; and project construction, design, and engineering. (Code 1981, § 32-10-76, enacted by Ga. L. 2006, p. 498, § 2/SB 150.)

Editor's notes. — Ga. L. 2006, p. 498, § 1/SB 150, not codified by the General Assembly, provides that: "This Act shall be known and may be cited as the 'Georgia Community Streetcar Development and Revitalization Act.'"

32-10-77. General Assembly approval of funding.

No funding by issuing bonds, any other state funds, or federal funds administered by the Department of Transportation shall be allowed for streetcar projects by any state entity or authority, including, but not limited to, the Department of Transportation or the State Road and Tollway Authority, or any other subsidiary of the state, without specific prior approval by passage of a general Act by the General Assembly. (Code 1981, § 32-10-77, enacted by Ga. L. 2006, p. 498, § 3/SB 150.)

Editor's notes. — Ga. L. 2006, p. 498, § 1/SB 150, not codified by the General Assembly, provides that: "This Act shall be known and may be cited as the 'Georgia Community Streetcar Development and Revitalization Act.'"

PART 2

REVENUE BONDS

32-10-90. Power of authority to issue bonds generally; pledging of tolls and other project revenues for payment of principal and interest of bonds; attributes of bonds generally.

The authority shall have the power and is authorized, at one time or from time to time, to provide by resolution for the issuance of negotiable revenue bonds of the authority for the purpose of paying all or any part of the cost, as defined in paragraph (4) of Code Section 32-10-60, of any one or a combination of projects. The principal and interest of such revenue bonds shall be payable from and may be secured by a pledge of tolls and other revenues of all or any part of the project financed in whole or in part with the proceeds of such issue or with the proceeds of bonds refunded or to be refunded by such issue or by a pledge of any other revenues of the authority that are legally available for such purpose. The bonds of each issue shall be dated, shall bear interest as provided for in Code Section 32-10-91, shall mature not later than 40 years from the date of issue, shall be payable in such media of payments as to both principal and interest as may be determined by the authority, and may be made redeemable before maturity, at the option of the authority, at such price or prices and under such terms and conditions as may be fixed by the authority in the resolution providing for the

issuance of the bonds. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 12; Ga. L. 1972, p. 179, § 19; Code 1933, § 95A-1249, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2001, p. 1251, § 1-12.)

Cross references. — Revenue bonds generally, § 36-82-60 et seq.

32-10-90.1. Garvee bond provisions.

(a) As used in this Code section, the term “grant anticipation revenue vehicle” or “garvee bond” means any bond issued by the authority which is an eligible debt financing instrument within the scope of 23 U.S.C. Section 122 or which is otherwise to be repaid or reimbursed in whole or in part, directly or indirectly, from federal funds.

(b) With respect to garvee bonds and projects financed by garvee bonds, the provisions and limitations of this Code section shall control over any other conflicting provisions of this article, it being the intention of the General Assembly that grant anticipation revenue vehicles and projects funded thereby be fully subject to the terms expressed in this Code section.

(c) For the purpose of issuance and use of the proceeds of garvee bonds, the authority and the department shall give priority, as far as reasonably practicable in the judgment of the department, to the completion of those portions of the Developmental Highway System as set out in paragraphs (1) through (13) and paragraphs (15) and (16) of subsection (a) of Code Section 32-4-22 and such further paragraphs as may be added to such subsection from time to time, with due regard to the timely and economical completion of the portion set out in paragraph (14) thereof.

(d) Any project the cost of which is paid from the proceeds of garvee bonds shall be, pursuant to a contract or agreement between the authority and the department, planned, designed, and constructed by the Department of Transportation or a contractor contracting with the Department of Transportation.

(e) If during any state fiscal year the amount of federal reimbursement available to the State of Georgia under 23 U.S.C. Section 122 is or will be reduced below 90 percent of the amount available during Fiscal Year 2000-2001, the authority shall not thereafter issue any garvee bond.

(f) If cost effective as determined by the authority, garvee bonds shall be insured. (Code 1981, § 32-10-90.1, enacted by Ga. L. 2001, p. 1251, § 1-12.1.)

Code Commission notes. — Pursuant to Code Section 28-9-5, in 2001, a comma was inserted following “garvee bonds” in subsection (c).

U.S. Code. — Payments to states for bond and other debt instrument financing, 23 U.S.C. § 122.

JUDICIAL DECISIONS

Cited in *Campbell v. State Rd. & Tollway Auth.*, 276 Ga. 714, 583 S.E.2d 32 (2003).

32-10-91. Obtaining of loans and issuance and sale of notes and bonds; sale of obligations.

The authority may authorize by resolution the following: the obtaining of loans; the issuance and sale of notes; and the issuance and sale of bonds. The foregoing obligations may be offered at public or private sale in such manner and for such interest rate and at such price as the authority may determine to be in the best interests of the authority and the state, provided that any offering is subject to the review and approval of the Georgia State Financing and Investment Commission pursuant to the provisions of Article 2 of Chapter 17 of Title 50. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 13; Code 1933, § 95A-1250, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1989, p. 489, § 1.)

32-10-92. Bonds authorized by resolution; specification of terms; public or private sale.

Bonds issued by the authority shall be authorized by resolution of the authority, be in such denominations, bear such date or dates, and mature at such time or times within 40 years from the issuance thereof as the authority determines to be appropriate. Such bonds shall be subject to such terms of redemption, bear interest at such rate or rates payable at such times, be in registered form or book-entry form through a securities depository, or both, as to principal or interest or both principal and interest, carry such registration privileges, be executed in such manner, be payable in such medium of payment at such place or places, and be subject to such terms and conditions as such resolution of the authority may provide; provided, however, in lieu of specifying the rate or rates of interest which the bonds to be issued by an authority are to bear, the resolution of the authority may provide that the bonds when issued will bear interest at a rate not exceeding a maximum per annum rate of interest which may be fixed or may fluctuate or otherwise change from time to time as specified in the resolution or may state that, in the event the bonds are to bear different rates of interest for different maturity dates, none of such rates will exceed the maximum rate, which rate may be fixed or may fluctuate or otherwise change from time to time, as specified. Bonds may be sold at public or

private sale for such price or prices as the authority shall determine. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 14; Code 1933, § 95A-1251, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1985, p. 149, § 32; Ga. L. 2001, p. 1251, § 1-13.)

32-10-93. Execution, seal, and signing of bonds.

All bonds issued by the authority shall be executed in the name of the authority by the chairperson and secretary of the authority and shall be sealed with the official seal of the authority or a facsimile thereof. The facsimile signatures of the chairperson and secretary of the authority may be imprinted thereon in lieu of the manual signatures of such officers if the authority so directs in the resolution authorizing such bonds or otherwise. In case any officer whose manual or facsimile signature shall appear on any bonds shall cease to be such officer before the delivery of such bonds, such signature shall nevertheless be valid and sufficient for all purposes the same as if he or she had remained in office until such delivery. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 15; Code 1933, § 95A-1252, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2001, p. 1251, § 1-13.1.)

32-10-94. Status of bonds as negotiable instruments; tax exemption for bonds, their transfer, and income therefrom.

All revenue bonds issued under this article shall have and are declared to have all the qualities and incidents of negotiable instruments under the negotiable instruments law of the state. Such bonds, their transfer, and the income therefrom shall be exempt from all taxation in this state. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 16; Code 1933, § 95A-1253, enacted by Ga. L. 1973, p. 947, § 1.)

32-10-95. Utilization of bond proceeds; procedure in cases where proceeds are less than or greater than cost of project or combined projects.

The proceeds of the bonds shall be used solely for the payment of the cost of the project or combined projects and shall be disbursed upon requisition or order of the chairman of the authority or its duly bonded agents under such restrictions, if any, as the resolution authorizing the issuance of the bonds or the trust indenture may provide. If the proceeds of such bonds, by error of calculation or otherwise, shall be less than the cost of the project or combined projects, unless otherwise provided in the resolution authorizing the issuance of the bonds or in the trust indenture, additional bonds may in like manner be issued to provide the amount of such deficit, which bonds, unless otherwise provided in the resolution authorizing the issuance of the bonds or in

the trust indenture, shall be deemed to be of the same issue and shall be entitled to payment from the same fund without preference or priority of the bonds first issued for the same purpose. If the proceeds of the bonds of any issue shall exceed the amount required for the purpose for which such bonds are issued, all surplus shall be paid into the sinking fund provided for the payment of principal and interest of such bonds. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 17; Code 1933, § 95A-1254, enacted by Ga. L. 1973, p. 947, § 1.)

32-10-96. Issuance of interim receipts, interim certificates, and temporary bonds.

Prior to the preparation of definitive bonds, the authority may, under like restrictions, issue interim receipts, interim certificates, or temporary bonds, with or without coupons exchangeable for definitive bonds upon the issuance of the latter. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 18; Code 1933, § 95A-1255, enacted by Ga. L. 1973, p. 947, § 1.)

32-10-97. Replacement of lost or mutilated bonds.

The authority may also provide for the replacement of any bond which becomes mutilated or which is destroyed or lost. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 19; Code 1933, § 95A-1256, enacted by Ga. L. 1973, p. 947, § 1.)

RESEARCH REFERENCES

ALR. — Construction and effect of statutes in relation to duplication of lost or destroyed securities issued by state or other public body, 63 ALR 388.

32-10-98. Conditions precedent to taking effect of resolutions for bond issuance; issuance of bonds of a single issue for purpose of paying cost of one or more projects.

Resolutions for the issuance of revenue bonds may be adopted without any other proceedings or the happening of any other conditions or things than those proceedings, conditions, and things which are specified or required by this article. In the discretion of the authority, revenue bonds of a single issue may be issued for the purpose of paying the cost of any one or more, including a combination of, projects at any one location or any number of locations. Any resolution providing for the issuance of revenue bonds under this article shall become effective immediately upon its passage and need not be published or posted; and any such resolution may be passed at any regular or special or adjourned meeting of the authority by a majority of its members. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 20; Code 1933, § 95A-1257, enacted by Ga. L. 1973, p. 947, § 1.)

32-10-99. Credit of state not pledged.

Revenue bonds issued under this article shall not be deemed to constitute a debt of the State of Georgia or a pledge of the faith and credit of the state, but such bonds shall be payable from the revenues and funds of the authority as provided for in the resolutions or trust indentures authorizing or securing such bond issues; and the issuance of such revenue bonds shall not directly, indirectly, or contingently obligate the state to levy or to pledge any form of taxation whatsoever therefor or to make any appropriation for the payment thereof; and all such bonds shall contain recitals on their face covering substantially the foregoing provisions of this Code section. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 21; Code 1933, § 95A-1258, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1991, p. 94, § 32; Ga. L. 2001, p. 1251, § 1-13.2.)

32-10-100. Trust indenture as security for bonds.

(a) In the discretion of the authority, any issue of such revenue bonds may be secured by a trust indenture by and between the authority and a corporate trustee, which may be any trust company or bank having the powers of a trust company, inside or outside of the state. Such trust indenture may pledge or assign tolls, revenues, and earnings to be received by the authority.

(b) Either the resolution providing for the issuance of revenue bonds or such trust indenture may contain provisions for protecting and enforcing the rights and remedies of the bondholder, including the right of the appointment of a receiver upon default in the payment of any principal or interest obligation and the right of any receiver or indenture trustee to enforce collection of tolls, revenues, or other charges for the use of the project or projects, necessary to pay all costs of operation, all reserves provided for, the principal and interest on all bonds in the given issue, all cost of collection, and all other costs reasonably necessary to accomplish the collection of such sums, in the event of any default by the authority.

(c) Such resolution or trust indenture may include covenants setting forth the duties of the authority in relation to the acquisition of property; the construction of the project; the custody, safeguarding, and application of all moneys; and the operation and maintenance of the project or projects; and may also provide that any project shall be constructed and paid for under the supervision of department engineers or others satisfactory to the original purchasers of the bonds issued for such project or projects. Such resolution or trust indenture may also require that the security given by contractors and by any depository of the proceeds of the bonds or revenues or other moneys be satisfactory to such purchasers and may also contain provisions concerning the conditions, if any, upon which additional revenue bonds may be issued.

(d) It shall be lawful for any bank or trust company incorporated under the laws of this state to act as such depository and to furnish such indemnifying bonds or pledge such securities as may be required by the authority. Such indenture may set forth the rights and remedies of the bondholders and of the trustee and may restrict the individual right of action of bondholders as is customary in trust indentures securing bonds and debentures of corporations.

(e) In addition to the foregoing, such trust indenture may contain such other provisions as the authority may deem reasonable and proper for the security of the bondholders. All expenses incurred in carrying out such trust indenture may be treated as a part of the cost of maintenance, operation, and repair of the project affected by such indenture. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 22; Ga. L. 1972, p. 179, § 20; Code 1933, § 95A-1259, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1985, p. 149, § 32.)

32-10-101. Payment of bond proceeds to trustee.

The authority shall, in the resolution providing for issuance of revenue bonds or in the trust indenture, provide for the payment of the proceeds of the sale of the bonds to any officer or person who or any agency, bank, or trust company which shall act as trustee of such funds and shall hold and apply such funds as provided in this article, subject to such regulations as this article and such resolution or trust indenture may provide. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 23; Code 1933, § 95A-1260, enacted by Ga. L. 1973, p. 947, § 1.)

32-10-102. Pledges of revenues, tolls, and earnings; creation and disposition of sinking funds.

(a) The revenues, tolls, and earnings derived from any particular project or projects and all or any part of the revenues, tolls, and earnings received by the authority, regardless of whether or not such tolls, earnings, and revenues were produced by a particular project for which bonds have been issued, unless otherwise pledged or allocated, may be pledged by the authority to the payment of the principal and interest obligations of any revenue bond issues of the authority. All funds so pledged, from whatever source received, which may include funds received from one or more of all sources of the authority's income, shall be set aside at regular intervals, as may be provided in the resolutions or trust indentures, into sinking funds which shall be pledged to and charged with the payment of (1) the interest upon such revenue bonds as such interest shall fall due, (2) the principal of the bonds as the same shall mature, (3) the necessary charges of paying agents for paying principal and interest, and (4) any premium required

upon bonds retired by call or purchase as may be provided in the resolutions or trust indentures.

(b) The use and disposition of such sinking funds shall be subject to such regulations as may be provided in the resolutions authorizing the issuance of the revenue bonds or in the trust indentures; but, except as may otherwise be provided in such resolutions or trust indentures, such sinking funds, individually, shall be funds for the benefit of all revenue bonds of the given issue for which they are created without distinction or priority of one over another. Subject to the resolution or trust indenture of any given bond issue, any moneys in such sinking funds, after all bonds and the interest thereon for which such sinking funds were pledged have been paid, may be paid into the authority fund provided for in Code Section 32-10-72. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 24; Code 1933, § 95A-1261, enacted by Ga. L. 1973, p. 947, § 1.)

32-10-103. Rights and remedies of holders of bonds or interest coupons and of indenture trustees.

Any holders of revenue bonds issued under this article or any of the coupons appertaining thereto, any duly appointed receiver of such bonds or coupons, and any indenture trustee for bondholders, except to the extent the rights given in this Code section may be restricted by resolution passed before the issuance of the bonds or by the trust indenture, may, either at law or in equity, by action, mandamus, or other proceedings, protect and enforce any and all rights under the laws of Georgia or granted in this Code section or under such resolution or trust indentures and may enforce and compel performance of all duties required by this article or by such resolution or trust indenture to be performed by the authority or any officer thereof, including the fixing, charging, and collection of revenues, tolls, and other charges for the use of the project or projects. No holder of any such bond or receiver or indenture trustee thereof shall have the right to compel any exercise of the taxing power of the state to pay any such bond or the interest thereon or to enforce the payment thereof against any property of the state; nor shall any such bond constitute a charge, lien, or encumbrance, legal or equitable, upon any property of the state. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 25; Code 1933, § 95A-1262, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1982, p. 3, § 32.)

32-10-104. Refunding bonds.

The authority is authorized, subject to any prior resolution or trust indenture, to provide by resolution for the issuance of revenue refunding bonds of the authority for the purpose of refunding any revenue bonds issued under this article and then outstanding, together with

accrued interest thereon. The issuance of such revenue refunding bonds, the maturities and all other details thereof, the rights of the holders thereof, and the duties of the authority in respect to the same shall be governed by this article insofar as the same may be applicable. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 26; Code 1933, § 95A-1263, enacted by Ga. L. 1973, p. 947, § 1.)

fund by taxation is required by constitutional or statutory provision, 157 ALR 794.

Power of governmental unit to issue bonds as implying power to refund them, 1 ALR2d 134.

32-10-105. Investment of funds in bonds; deposit of bonds as securities.

The bonds authorized in paragraph (8) of Code Section 32-10-63 and in Code Section 32-10-90 are deemed securities in which (1) all public officers and bodies of this state and all municipalities and all municipal subdivisions, (2) all insurance companies and associations and other persons carrying on an insurance business, (3) all banks, bankers, trust companies, savings banks and savings associations, including savings and loan associations, building and loan associations, investment companies, and other persons carrying on a banking business, (4) all administrators, guardians, executors, trustees, and other fiduciaries, and (5) all other persons whatsoever who are now or may hereafter be authorized to invest in bonds or other obligations of the state may properly and legally invest funds, including capital in their control or belonging to them. The bonds are also deemed securities which may be deposited with and shall be received by all public officers and bodies of this state and all municipalities and municipal subdivisions for any purpose for which the deposit of the bonds or other obligations of this state is now or may hereafter be authorized. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 27; Code 1933, § 95A-1264, enacted by Ga. L. 1973, p. 947, § 1.)

32-10-106. Protection of interests and rights of bondholders.

While any of the bonds issued by the authority remain outstanding, the powers, duties, or existence of the authority or of its officers, employees, or agents shall not be diminished or impaired in any manner that will affect adversely the interests and rights of the holders of such bonds. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 31; Ga. L. 1972,

p. 179, § 21; Code 1933, § 95A-1268, enacted by Ga. L. 1973, p. 947, § 1.)

32-10-107. Confirmation and validation of bonds.

Bonds of the authority shall be confirmed and validated in accordance with Article 3 of Chapter 82 of Title 36, the "Revenue Bond Law." The bonds, when validated, and the judgment of validation shall be final and conclusive with respect to such bonds and against the authority issuing the same. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 30; Code 1933, § 95A-1267, enacted by Ga. L. 1973, p. 947, § 1.)

32-10-108. Transfer of projects to state highway system free from tolls.

Upon payment in full of all bonds and the interest thereon and obligations of every nature whatsoever for the payment of which the revenues of any given project or projects have been pledged, in whole or in part, either originally or subsequently, either primarily or secondarily, directly or indirectly or otherwise, or upon the setting aside in trust, for the benefit of bondholders or other obligees, of a sufficient amount for the payment of all such bonds and other obligations and the interest thereon to the maturity thereof, such project or projects, if deemed by the department to be in a safe and satisfactory condition of repair and traffic capacity, may become part of the state highway system and thereafter shall be maintained by the department free of tolls. In the event such project or projects to be transferred are not in good condition, in the judgment of the department, the department shall be charged with the duty of immediately advising the authority in writing what will be necessary to accomplish such safe and satisfactory condition of repair and traffic capacity; and the authority thereafter shall apply sufficient revenue from such project or projects to the accomplishment of such safe condition of repair and traffic capacity; and, upon its accomplishment, such project or projects shall become toll free as provided in this Code section. Upon the fulfillment of all conditions necessary to the cessation of tolls upon any such project, the authority shall convey by deed all right, title, and interest in and to such project to the department for and in consideration of \$1.00, which the treasurer of the department is authorized to pay from any department funds available to him for any department expenditure. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 9; Ga. L. 1972, p. 179, § 16; Code 1933, § 95A-1246, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2001, p. 1251, § 1-14.)

Code Commission notes. — Pursuant to Code Section 28-9-5, in 2001, “Upon payment in full” was substituted for “Upon payment if full” at the beginning of the Code section.

32-10-109. Covenant with holders as to tax-exempt status of authority property and bonds.

It is found, determined, and declared that the creation of the authority and the carrying out of its corporate purpose are in all respects for the benefit of the people of this state and that the authority is an institution of purely public charity and will be performing an essential governmental function in the exercise of the power conferred upon it by this article; and this state covenants with the holders of the bonds that the authority shall not be required to pay any taxes or assessments upon any of the property acquired or leased by it or under its jurisdiction, control, possession, or supervision or upon its activities in the operation or maintenance of the projects erected by it or upon any fees, tolls, or other charges for the use of such projects or upon other income received by the authority. The bonds of the authority, their transfer, and the income therefrom shall at all times be exempt from taxation within this state. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 28; Code 1933, § 95A-1265, enacted by Ga. L. 1973, p. 947, § 1.)

Code Commission notes. — Pursuant to Code Section 28-9-5, in 1991, “are” was substituted for “is” near the beginning of this Code section.

32-10-110. Venue and jurisdiction of actions.

Any action to protect or enforce any rights under this article and any action pertaining to validation of any bonds issued under this article brought in the courts of this state shall be brought in the Superior Court of Fulton County, which shall have exclusive original jurisdiction of such actions. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 29; Code 1933, § 95A-1266, enacted by Ga. L. 1973, p. 947, § 1.)

JUDICIAL DECISIONS

Cited in *M.A.R.T.A. v. McCain*, 135 Ga. App. 460, 218 S.E.2d 122 (1975).

PART 3**TRANSPORTATION INFRASTRUCTURE BANK****32-10-120. Short title.**

This part shall be known and may be cited as the “Georgia Transportation Infrastructure Bank Act.” (Code 1981, § 32-10-120, enacted by Ga. L. 2008, p. 73, § 2/HB 1019.)

32-10-121. Creation; governance; corporate purpose; types of accounts.

(a) There shall be created within the State Road and Tollway Authority an instrumentality of the state to be known as the Georgia Transportation Infrastructure Bank.

(b) The bank shall be governed by the board of the State Road and Tollway Authority as provided in this chapter.

(c) The corporate purpose of the bank is to assist in financing qualified projects by providing loans and other financial assistance to government units for constructing and improving highway and transportation facilities necessary for public purposes, including economic development. The exercise by the bank of a power conferred in this part is an essential public function.

(d) The bank shall establish and maintain at least the four following accounts in the authority fund:

- (1) State and local roadway account;
- (2) State and local nonroadway account;
- (3) Federal roadway account; and
- (4) Federal nonroadway account. (Code 1981, § 32-10-121, enacted by Ga. L. 2008, p. 73, § 2/HB 1019.)

32-10-122. Definitions.

As used in this part, the term:

- (1) “Bank” means the Georgia Transportation Infrastructure Bank.
- (2) “Board” means the board of the State Road and Tollway Authority.
- (3) “Department of Transportation” means the Georgia Department of Transportation and its successors.

(4) "Eligible costs" means, as applied to a qualified project to be financed from the federal roadway account, the costs that are permitted under applicable federal laws, requirements, procedures, and guidelines in regard to establishing, operating, and providing assistance from the bank. As applied to a qualified project to be financed from the state and local roadway account, these costs include the costs of preliminary engineering, traffic and revenue studies, environmental studies, right of way acquisition, legal and financial services associated with the development of the qualified project, construction, construction management, facilities, and other costs necessary for the qualified project. As applied to any qualified project to be financed from the federal nonroadway account, these costs include the costs of preliminary engineering, traffic and revenue studies, environmental studies, right of way acquisition, legal and financial services associated with the development of the qualified project, construction, construction management, equipment, facilities, and other nonoperating costs necessary for the qualified project. As applied to any qualified project to be financed from the state and local nonroadway account, these costs include the costs of preliminary engineering, traffic and revenue studies, environmental studies, right of way acquisition, legal and financial services associated with the development of the qualified project, construction, construction management, equipment, facilities, and other nonoperating costs necessary for the qualified project.

(5) "Eligible project" means a highway, including bridges, air transport and airport facilities, and rail, or transit or bicycle facility project which provides public benefits by either enhancing mobility and safety, promoting economic development, or increasing the quality of life and general welfare of the public. The term "eligible project" also includes mass transit systems including, but not limited to, monorail and monobeam mass transit systems. There may be included as part of any such project all improvements necessary to the full utilization thereof, including site preparation, roads and streets, sidewalks, water supply, outdoor lighting, belt line railroad sidings and lead tracks, bridges, causeways, terminals for railroad, automotive, and air transportation, transportation facilities incidental to the project, and the dredging and improving of harbors and waterways, none of which foregoing descriptive words shall be construed to constitute a limitation.

(6) "Federal accounts" means, collectively, the separate accounts for federal roadway funds and federal nonroadway funds.

(7) "Financing agreement" means any agreement entered into between the bank and a qualified borrower pertaining to a loan or other financial assistance. This agreement may contain, in addition

to financial terms, provisions relating to the regulation and supervision of a qualified project, or other provisions as the board may determine. The term "financing agreement" includes, without limitation, a loan agreement, trust indenture, security agreement, reimbursement agreement, guarantee agreement, bond or note, ordinance or resolution, or similar instrument.

(8) "Government unit" means a municipal corporation, county, community improvement district, or any public operator of transit, including combinations of two or more of these entities, acting jointly to construct, own, or operate a qualified project, or any other state authority, board, commission, agency, or department which may construct, own, or operate a qualified project.

(9) "Loan" means an obligation subject to repayment which is provided by the bank to a qualified borrower for all or a part of the eligible costs of a qualified project. A loan may be disbursed in anticipation of reimbursement for or direct payment of the eligible costs of a qualified project.

(10) "Loan obligation" means a bond, note, or other evidence of an obligation issued by a qualified borrower.

(11) "Other financial assistance" includes, but shall not be limited to, grants, contributions, credit enhancement, capital or debt reserves for bonds or debt instrument financing, interest rate subsidies, provision of letters of credit and credit instruments, provision of bond or other debt financing instrument security, and other lawful forms of financing and methods of leveraging funds that are approved by the board, and, in the case of federal funds, as allowed by federal law.

(12) "Project revenues" or "revenues" means all rates, rents, fees, assessments, charges, and other receipts derived or to be derived by a qualified borrower from a qualified project or made available from a special source, and, as provided in the applicable financing agreement, derived from any system of which the qualified project is a part or from any other revenue producing facility under the ownership or control of the qualified borrower including, without limitation, proceeds of grants, gifts, appropriations and loans, including the proceeds of loans made by the bank, investment earnings, reserves for capital and current expenses, proceeds of insurance or condemnation and proceeds from the sale or other disposition of property and from any other special source as may be provided by the qualified borrower.

(13) "Qualified borrower" means any government unit authorized to construct, operate, or own a qualified project.

(14) "Qualified project" means an eligible project which has been selected by the bank to receive a loan or other financial assistance from the bank to defray an eligible cost.

(15) “State and local accounts” means, collectively, the separate accounts for state and local roadway funds and state and local nonroadway funds. (Code 1981, § 32-10-122, enacted by Ga. L. 2008, p. 73, § 2/HB 1019.)

Code Commission notes. — Pursuant to Code Section 28-9-5, in 2008, in paragraphs (6) and (15), “accounts” was substituted for “account”, and, in paragraph (11), a comma was inserted following “the board, and” near the end.

32-10-123. Authority of the board.

In administering the affairs of the bank, the board may exercise any or all of the powers granted to the authority under Parts 1 and 2 of this article, as well as the powers granted in this part. Without limiting the generality of the foregoing, the board is specifically authorized to issue bonds for the purposes of the bank, in the same general manner provided in Part 2 of this article. (Code 1981, § 32-10-123, enacted by Ga. L. 2008, p. 73, § 2/HB 1019.)

32-10-124. Power of board; meaning of use of word “bank” for purposes of this article.

(a) In addition to the powers contained elsewhere in this article, the board has all power necessary, useful, or appropriate to fund, operate, and administer the bank, and to perform its other functions including, but not limited to, the power to:

- (1) Have perpetual succession;
- (2) Adopt, promulgate, amend, and repeal bylaws, not inconsistent with provisions in this part for the administration of the bank’s affairs and the implementation of its functions, including the right of the board to select qualifying projects and to provide loans and other financial assistance;
- (3) Sue and be sued in the name of the bank;
- (4) Have a seal and alter it at its pleasure, although the failure to affix the seal does not affect the validity of an instrument executed on behalf of the bank;
- (5) Make loans to qualified borrowers to finance the eligible costs of qualified projects and to acquire, hold, and sell loan obligations at prices and in a manner as the board determines advisable;
- (6) Provide qualified borrowers with other financial assistance necessary to defray eligible costs of a qualified project;
- (7) Enter into contracts, arrangements, and agreements with qualified borrowers and other persons and execute and deliver all

financing agreements and other instruments necessary or convenient to the exercise of the powers granted in this part;

(8) Enter into agreements with a department, agency, or instrumentality of the United States or of this state or another state for the purpose of providing for the financing of qualified projects;

(9) Establish:

(A) Policies and procedures for the making and administering of loans and other financial assistance; and

(B) Fiscal controls and accounting procedures to ensure proper accounting and reporting by the bank and government units;

(10) Acquire by purchase, lease, donation, or other lawful means and sell, convey, pledge, lease, exchange, transfer, and dispose of all or any part of its properties and assets of every kind and character or any interest in it to further the public purpose of the bank;

(11) Procure insurance, guarantees, letters of credit, and other forms of collateral or security or credit support from any public or private entity or instrumentality of the United States for the payment of any bonds issued by it, including the power to pay premiums or fees on any insurance, guarantees, letters of credit, and other forms of collateral or security or credit support;

(12) Collect or authorize the trustee under any trust indenture securing any bonds to collect amounts due under any loan obligations owned by it, including taking the action required to obtain payment of any sums in default;

(13) Unless restricted under any agreement with holders of bonds, consent to any modification with respect to the rate of interest, time, and payment of any installment of principal or interest, or any other term of any loan obligations owned by it;

(14) Borrow money through the issuance of bonds and other forms of indebtedness as provided in this article;

(15) Expend funds to obtain accounting, management, legal, financial consulting, and other professional services necessary to the operations of the bank;

(16) Expend funds credited to the bank as the board determines necessary for the costs of administering the operations of the bank;

(17) Establish advisory committees as the board determines appropriate, which may include individuals from the private sector with banking and financial expertise, including the requirement that the bank shall consult with the Department of Transportation for the

purpose of implementing the project accounting procedures required by subparagraph (B) of paragraph (9) of this subsection;

(18) Procure insurance against losses in connection with its property, assets, or activities including insurance against liability for its acts or the acts of its employees or agents or to establish cash reserves to enable it to act as a self-insurer against any and all such losses;

(19) Collect fees and charges in connection with its loans or other financial assistance;

(20) Apply for, receive, and accept from any source, aid, grants, or contributions of money, property, labor, or other things of value to be used to carry out the purposes of this part subject to the conditions upon which the aid, grants, or contributions are made;

(21) Enter into contracts or agreements for the servicing and processing of financial agreements;

(22) Accept and hold, with or without payment of interest, funds deposited with the bank by government units and private entities; and

(23) Do all other things necessary or convenient to exercise powers granted or reasonably implied by this part.

(b) The bank shall not be authorized or empowered to be or to constitute a bank or trust company within the jurisdiction or under the control of this state or an agency of it or the Comptroller of the Currency or the Treasury Department of the United States, or a bank, banker, or dealer in securities within the meaning of, or subject to the provisions of, any securities, securities exchange, or securities dealers' law of the United States or of this state. The use of the word "bank" in the "Georgia Transportation Infrastructure Bank" is required by federal law. For the express purposes of this part, the use of the word "bank" in the "Georgia Transportation Infrastructure Bank Act" does not violate Code Section 7-1-243. In addition, all deposits taken by the Georgia Transportation Infrastructure Bank shall contain a notice stating that the deposits are not insured by the Federal Deposit Insurance Corporation. (Code 1981, § 32-10-124, enacted by Ga. L. 2008, p. 73, § 2/HB 1019; Ga. L. 2009, p. 8, § 32/SB 46.)

32-10-125. Revenue sources.

(a) The following sources may be used to capitalize the bank and for the bank to carry out its purposes:

(1) Appropriations by the General Assembly;

(2) Federal funds available to the state, as approved by the Department of Transportation;

(3) Contributions, donations, and deposits from government units, private entities, and any other source as may become available to the bank;

(4) All moneys paid or credited to the bank, by contract or otherwise, payments of principal and interest on loans or other financial assistance made from the bank, and interest earnings which may accrue from the investment or reinvestment of the bank's moneys;

(5) Proceeds from the issuance of bonds as provided in this part; and

(6) Other lawful sources not already dedicated for another purpose as determined appropriate by the board.

(b) Without limiting the provisions of subsection (a) of this Code section, it shall be specifically provided that any local government may use the proceeds of any local funds which may be hereafter made available by law for the purposes of this part, including without limitation the funding of eligible projects and contributions, donations, and deposits to the bank. (Code 1981, § 32-10-125, enacted by Ga. L. 2008, p. 73, § 2/HB 1019.)

32-10-126. Earnings; establishment of accounts and subaccounts; commingling of funds.

(a) Earnings on balances in the federal accounts must be credited and invested according to federal law. Earnings on state and local accounts must be credited to the state and local roadway account or state and local nonroadway account that generates the earnings. The bank may establish accounts and subaccounts within the state and local accounts and federal accounts as considered desirable to effectuate the purposes of this part, or to meet the requirements of any state or federal programs.

(b) For necessary and convenient administration of the bank, the board shall establish federal and state and local accounts and subaccounts within the bank necessary to meet any applicable federal law requirements or as the bank shall determine necessary or desirable in order to implement the provisions of this part.

(c) The bank shall comply with all applicable federal laws and regulations prohibiting the commingling of certain federal funds deposited in the bank. (Code 1981, § 32-10-126, enacted by Ga. L. 2008, p. 73, § 2/HB 1019.)

32-10-127. Loans and other financial assistance; determination of eligible projects.

(a) The bank may provide loans and other financial assistance to a government unit to pay for all or part of the eligible costs of a qualified project. The term of the loan or other financial assistance shall not exceed the useful life of the project. The bank may require the government unit to enter into a financing agreement in connection with its loan obligation or other financial assistance. The board shall determine the form and content of loan applications, financing agreements, and loan obligations including the term and rate or rates of interest on a financing agreement. The terms and conditions of a loan or other financial assistance from federal accounts shall comply with applicable federal requirements.

(b) The board shall determine which projects are eligible projects and then select from among the eligible projects qualified projects. Preference may be given to eligible projects which have local financial support. (Code 1981, § 32-10-127, enacted by Ga. L. 2008, p. 73, § 2/HB 1019.)

32-10-128. Authority of qualified borrowers.

(a) Qualified borrowers are authorized to obtain loans or other financial assistance from the bank through financing agreements. Qualified borrowers entering into financing agreements and issuing loan obligations to the bank may perform any acts, take any action, adopt any proceedings, and make and carry out any contracts or agreements with the bank as may be agreed to by the bank and any qualified borrower for the carrying out of the purposes contemplated by this part.

(b) In addition to the authorizations contained in this part, all other statutes or provisions permitting government units to borrow money and issue obligations, including, but not limited to Article 3 of Chapter 82 of Title 36, the "Revenue Bond Law," may be utilized by any government unit in obtaining a loan or other financial assistance from the bank to the extent determined necessary or useful by the government unit in connection with any financing agreement and the issuance, securing, or sale of loan obligations to the bank.

(c) A qualified borrower may receive, apply, pledge, assign, and grant security interests in project revenues to secure its obligations as provided in this part. A qualified borrower may fix, revise, charge, and collect fees, rates, rents, assessments, and other charges of general or special application for the operation or services of a qualified project, the system of which it is a part, and any other revenue producing

facilities from which the qualified borrower derives project revenues to meet its obligations under a financing agreement or to provide for the construction and improving of a qualified project. (Code 1981, § 32-10-128, enacted by Ga. L. 2008, p. 73, § 2/HB 1019.)

32-10-129. Bank exempted from taxes and assessments.

The bank is performing an essential governmental function in the exercise of the powers conferred upon it and shall not be required to pay taxes or assessments upon property or upon its operations or the income therefrom, or taxes or assessments upon property or loan obligations acquired or used by the bank or upon the income therefrom. (Code 1981, § 32-10-129, enacted by Ga. L. 2008, p. 73, § 2/HB 1019.)

32-10-130. Withholding of funds.

(a) If a government unit fails to collect and remit in full all amounts due to the bank on the date these amounts are due under the terms of any note or other obligation of the government unit, the bank shall notify the appropriate state officials who shall withhold all or a portion of the funds of the state and all funds administered by the state and its agencies, boards, and instrumentalities allotted or appropriated to the government unit and apply an amount necessary to the payment of the amount due.

(b) Nothing contained in this Code section mandates the withholding of funds allocated to a government unit which would violate contracts to which the state is a party, the requirements of federal law imposed on the state, or judgments of a court binding on the state. (Code 1981, § 32-10-130, enacted by Ga. L. 2008, p. 73, § 2/HB 1019.)

32-10-131. Liability of officer, employee, or committee of bank.

Neither the board nor any officer, employee, or committee of the bank acting on behalf of it, while acting within the scope of this authority, is subject to any liability resulting from carrying out any of the powers given in this part. (Code 1981, § 32-10-131, enacted by Ga. L. 2008, p. 73, § 2/HB 1019.)

32-10-132. Notice prior to action or referendum not required.

Notice, proceeding, or publication, except those required in this part, shall not be necessary to the performance of any act authorized in this part nor shall any act of the bank be subject to any referendum. (Code 1981, § 32-10-132, enacted by Ga. L. 2008, p. 73, § 2/HB 1019.)

32-10-133. Annual report.

Following the close of each state fiscal year, the bank shall submit an annual report of its activities for the preceding year to the Governor, the Lieutenant Governor, and the Speaker of the House of Representatives and make such report available to the General Assembly. The bank also shall submit an annual report to the appropriate federal agency in accordance with requirements of any federal program. (Code 1981, § 32-10-133, enacted by Ga. L. 2008, p. 73, § 2/HB 1019.)

CHAPTER 11

INTERSTATE RAIL PASSENGER NETWORK COMPACT

| | | | |
|----------|--|----------|---|
| Sec. | | Sec. | |
| 32-11-1. | Ratification, enactment, and entry of compact. | 32-11-5. | Creation of advisory council; membership. |
| 32-11-2. | Policy. | 32-11-6. | Duties of council. |
| 32-11-3. | Economic impact study. | 32-11-7. | Effective date. |
| 32-11-4. | Assistance by participating states. | 32-11-8. | Repeal. |
| | | 32-11-9. | Construction of compact. |

32-11-1. Ratification, enactment, and entry of compact.

The interstate rail passenger network compact is ratified, enacted, and entered into by the State of Georgia with all other states joining the compact in the form substantially as this chapter. (Code 1981, § 32-11-1, enacted by Ga. L. 1993, p. 419, § 1.)

32-11-2. Policy.

It is the policy of the states party to this compact to cooperate and share the administrative and financial responsibilities concerning the planning of an interstate rail passenger network system connecting major cities in Illinois, Indiana, Kentucky, Tennessee, Georgia, and Florida. The participating states agree that a rail passenger system would provide a beneficial service and would be enhanced if operated across state lines. (Code 1981, § 32-11-2, enacted by Ga. L. 1993, p. 419, § 1.)

32-11-3. Economic impact study.

(a) The states of Illinois, Indiana, Kentucky, Tennessee, Georgia, and Florida (referred to in this chapter as “participating states”) agree, upon adoption of this compact by the respective states, to jointly conduct and participate in a rail passenger network financial and economic impact study. The study must do the following:

- (1) Carry forward research previously performed by the national railroad passenger corporation (Amtrak) (report issued December 1990) for purposes of evaluating a representative service schedule, train running times, and associated costs.
- (2) Include consideration of the following:

(A) The purchase of railroad equipment by a participating state and the lease of the railroad equipment to Amtrak.

(B) The recommendation that a member of the council serve on the Amtrak board of directors.

(C) The periodic review of projected passenger traffic estimates.

(D) Any other matter related to the financial and economic impact of a rail passenger network between the cities of Chicago, Illinois, and Jacksonville, Florida.

(b) Information and data collected during the study under subsection (a) of this Code section that is requested by a participating state or a consulting firm representing a participating state or the compact may be made available to the state or firm. However, the information may not include matters not of public record or of a nature considered to be privileged and confidential unless the state providing the information agrees to waive the confidentiality. (Code 1981, § 32-11-3, enacted by Ga. L. 1993, p. 419, § 1.)

32-11-4. Assistance by participating states.

The participating states agree to do the following:

(1) Make available to each other and to a consulting firm representing a participating state or the compact assistance that is available, including personnel, equipment, office space, machinery, computers, engineering, and technical advice and services.

(2) Provide financial assistance for the implementation of the feasibility study that is available. (Code 1981, § 32-11-4, enacted by Ga. L. 1993, p. 419, § 1.)

32-11-5. Creation of advisory council; membership.

The interstate rail passenger advisory council (referred to in this compact as the “council”) is created. The membership of the council consists of three individuals from each participating state. The Governor, President of the Senate, and Speaker of the House of Representatives shall each appoint one member of the council. (Code 1981, § 32-11-5, enacted by Ga. L. 1993, p. 419, § 1.)

32-11-6. Duties of council.

The council shall do the following:

(1) Meet within 30 days after ratification of this agreement by at least two participating states.

(2) Establish rules for the conduct of the council’s business, including the payment of the reasonable and necessary travel expenses of council members.

(3) Coordinate all aspects of the rail passenger financial and economic impact study under Code Section 32-11-3.

(4) Contract with persons, including institutions of higher education, for performance of any part of the study under Code Section 32-11-3.

(5) Upon approval of the study, negotiate the proportionate share that each state will contribute toward the implementation and management of the proposed restoration of the interstate rail passenger system.

(6) Make recommendations to each participating state legislature concerning the results of the study required by this chapter. (Code 1981, § 32-11-6, enacted by Ga. L. 1993, p. 419, § 1.)

32-11-7. Effective date.

This compact becomes effective upon the adoption of the compact into law by at least two of the participating states. Thereafter, the compact becomes effective for another participating state upon the enactment of the compact by the state. (Code 1981, § 32-11-7, enacted by Ga. L. 1993, p. 419, § 1.)

32-11-8. Repeal.

This compact continues in force with respect to a participating state and remains binding upon the state until six months after the state has given notice to each other participating state of the repeal of this chapter. The withdrawal may not be construed to relieve a participating state from an obligation incurred before the end of the state's participation in the compact. (Code 1981, § 32-11-8, enacted by Ga. L. 1993, p. 419, § 1.)

32-11-9. Construction of compact.

(a) This compact shall be liberally construed to effectuate the compact's purposes.

(b) The provisions of this compact are severable. If:

(1) A phrase, clause, sentence, or provision of this compact is declared to be contrary to the Constitution of a participating state or of the United States; or

(2) The applicability of this compact to a government, an agency, a person, or a circumstance is held invalid,

the validity of the remainder of this compact and the compact's applicability to any government, agency, person, or circumstance is not affected.

(c) If this compact is held contrary to the Constitution of a participating state, the compact remains in effect for the remaining participating states and in effect for the state affected for all severable matters. (Code 1981, § 32-11-9, enacted by Ga. L. 1993, p. 419, § 1.)

CHAPTER 12

GEORGIA COORDINATING COMMITTEE FOR RURAL AND HUMAN SERVICES TRANSPORTATION

| Sec. | | Sec. | |
|----------|--|----------|---|
| 32-12-1. | Legislative findings. | | Transportation; composition; chairperson; compensation. |
| 32-12-2. | Creation. | | |
| 32-12-3. | Meetings; administrative expenses; compensation. | 32-12-5. | Evaluation, analysis and review. |
| 32-12-4. | State Advisory Subcommittee for Rural and Human Services | 32-12-6. | Reports; recommendations. |

Effective date. — This chapter became effective June 2, 2010.

Cross references. — Transit Governance Study Commission; creation; members; report; funds, § 50-32-5.

Editor’s notes. — Ga. L. 2010, p. 778, § 1/HB 277, not codified by the General Assembly, provides that: “This Act shall be known and may be cited as the ‘Transportation Investment Act of 2010.’”

32-12-1. Legislative findings.

The General Assembly finds that there exist a number of programs designed to provide rural and human services transportation and that frequently these services are provided over large geographic areas through various funding sources which are frequently targeted to narrowly defined client bases. The sheer number of such programs lends itself to a need for coordination among the programs and agencies which implement them so as to best assist economies in purchasing equipment and operating these many programs, to better serve the taxpayers of the state in ensuring the most cost-effective delivery of these services, and to best serve the clients utilizing the transportation services provided through these programs. (Code 1981, § 32-12-1, enacted by Ga. L. 2010, p. 778, § 4/HB 277.)

Law reviews. — For annual survey of law on administrative law, see 62 Mercer L. Rev. 1 (2010).

32-12-2. Creation.

There is created the Georgia Coordinating Committee for Rural and Human Services Transportation of the Governor’s Development Council. (Code 1981, § 32-12-2, enacted by Ga. L. 2010, p. 778, § 4/HB 277.)

32-12-3. Meetings; administrative expenses; compensation.

The Georgia Coordinating Committee for Rural and Human Services Transportation and its advisory subcommittees shall meet not less often than quarterly. Administrative expenses of the committee shall be borne by the Governor's Development Council. The members of the committee shall receive no extra compensation or reimbursement of expenses from the state for their services as members of the committee. (Code 1981, § 32-12-3, enacted by Ga. L. 2010, p. 778, § 4/HB 277.)

32-12-4. State Advisory Subcommittee for Rural and Human Services Transportation; composition; chairperson; compensation.

The Georgia Coordinating Committee for Rural and Human Services Transportation shall establish the State Advisory Subcommittee for Rural and Human Services Transportation which shall consist of the State School Superintendent and the commissioners of the Department of Transportation, Department of Human Services, Department of Behavioral Health and Developmental Disabilities, Department of Community Health, Department of Public Health, Department of Labor, the Governor's Development Council, and the Department of Community Affairs or their respective designees. The commissioner of transportation or his or her designee shall serve as chairperson of the State Advisory Subcommittee for Rural and Human Services Transportation. The Georgia Coordinating Committee for Rural and Human Services Transportation may also establish such additional advisory subcommittees as it deems appropriate to fulfill its mission which shall consist of a representative of each metropolitan planning organization and representatives from each regional commission in this state and may include other local government representatives; private and public sector transportation providers, both for profit and nonprofit; voluntary transportation programs representatives; public transit system representatives, both rural and urban; and representatives of the clients served by the various programs administered by the agencies represented on the State Advisory Subcommittee for Rural and Human Services Transportation. Members of advisory committees shall be responsible for their own expenses and shall receive no compensation or reimbursement of expenses from the Georgia Coordinating Committee for Rural and Human Services Transportation, the State Advisory Subcommittee for Rural and Human Services Transportation, or the state for their services as members of an advisory committee. (Code 1981, § 32-12-4, enacted by Ga. L. 2010, p. 778, § 4/HB 277; Ga. L. 2011, p. 705, § 5-19/HB 214.)

The 2011 amendment, effective July 1, 2011, inserted “Department of Public Health,” in the first sentence of this Code section.

Law reviews. — For article on the 2011 amendment of this Code section, see 28 Ga. St. U.L. Rev. 147 (2011).

32-12-5. Evaluation, analysis and review.

The Georgia Coordinating Committee for Rural and Human Services Transportation shall examine the manner in which transportation services are provided by the participating agencies represented on the committee. Such examination shall include but not be limited to:

(1) An analysis of all programs administered by participating agencies, including capital and operating costs, and overlapping or duplication of services among such programs, with emphasis on how to overcome such overlapping or duplication;

(2) The means by which transportation services are coordinated among state, local, and federal funding source programs;

(3) The means by which both capital and operating costs for transportation could be combined or shared among agencies, including at a minimum shared purchase of vehicles and maintenance of such vehicles;

(4) An analysis of those areas which might appropriately be consolidated to lower the costs of program delivery without sacrificing program quality to clients, including shared use of vehicles for client trips regardless of the funding source which pays for their trips;

(5) An analysis of state of the art efforts to coordinate rural and human services transportation elsewhere in the nation, including at a minimum route scheduling so as to avoid duplicative trips in a given locality;

(6) A review of any limitations which may be imposed by various federally funded programs and how the state can manage within those limitations as it reviews possible sharing opportunities;

(7) An analysis of how agency programs interact with and impact state, local, or regional transportation services performed on behalf of the general public through state, local, or regional transit systems;

(8) An evaluation of potential cost sharing opportunities available for clients served by committee agencies so as to maximize service delivery efficiencies and to obtain the maximum benefit on their behalf with the limited amount of funds available; and

(9) An analysis of possible methods to reduce costs, including, but not limited to, greater use of privatization. (Code 1981, § 32-12-5, enacted by Ga. L. 2010, p. 778, § 4/HB 277.)

32-12-6. Reports; recommendations.

No later than July 1 of each year, the Governor's Development Council shall submit the preliminary report of the Georgia Coordinating Committee for Rural and Human Services Transportation to the members of the State Advisory Subcommittee for Rural and Human Services Transportation. Comments and recommendations may be submitted to the Governor's Development Council for a period of 30 days. No later than September 1 of each year, the Governor's Development Council shall submit a final report to the Governor's Office of Planning and Budget for review and consideration. The report shall address each of the specific duties enumerated in Code Section 32-12-5 and such other subject areas within its purview as the Governor's Development Council shall deem appropriate. Each report shall focus on existing conditions in coordination of rural and human services transportation within the state and shall make specific recommendations for means to improve such current practices. Such recommendations shall address at a minimum both their cost implications and impact on client service. No later than January 15 of each year, the Governor's Office of Planning and Budget shall submit the final report of the Governor's Development Council and any affiliated budget recommendations to the presiding officers of the General Assembly, with copies of said report sent to the chairpersons of the transportation committees, the appropriations committees, and the health and human services committees of each chamber of the General Assembly. (Code 1981, § 32-12-6, enacted by Ga. L. 2010, p. 778, § 4/HB 277.)

32-6-134.

BARS.

Smokefree air act.

Bar defined, §31-12A-2.

General provisions, §§31-12A-1 to
31-12A-13.

INDEX

BARS —Cont'd

Smokefree air act —Cont'd

Smoking prohibited in public places,
§31-12A-4.

Exemption, requirements,
§31-12A-6.

BATHHOUSES.

Abating operation of bathhouses,
§31-12-11.

BATHTUB WATER.

Gray water.

Defined, private residential reuse,
§31-3-5.2.

BEREAVEMENT SERVICES.

Hospices, §§31-7-171, 31-7-172.

BIDS AND BIDDING.

Georgia highway authority.

Sale of bonds by public competitive
bidding, §32-10-31.

State road and tollway authority.

Letting of contracts by competitive
bids, §32-10-68.

BILLBOARDS.

Outdoor advertising generally,
§§32-6-70 to 32-6-97.

BILL OF RIGHTS FOR RESIDENTS OF LONG-TERM CARE FACILITIES.

General provisions, §§31-8-100 to
31-8-127.

Short title, §31-8-100.

BIOTERRORISM.

**Control of hazardous conditions,
preventable disease and
metabolic disorders generally,**
§§31-12-1 to 31-12-14.

Defined, §31-12-1.1.

Department's duties, §31-12-2.1.

Reporting requirements.

Deaths or illnesses potentially caused
by bioterrorism, §31-12-2.

**Vaccinations for emergency
responders,** §§31-35-10, 31-35-11.

BIRDS.

**Importation, sale and breeding as
pets,** §31-12-9.

BIRTH.

Midwives, §§31-26-1 to 31-26-7.

Stillbirth.

Birth certificate, §31-10-33.

BIRTH CERTIFICATES.

Stillbirth, §31-10-33.

BIRTH CERTIFICATES —Cont'd

Vital records generally, §§31-10-1 to
31-10-32.

BIRTH CONTROL.

Sterilization generally, §§31-20-1 to
31-20-6.

BIRTHING CENTERS.

Freestanding centers.

Service-specific need methodologies.

Establishment by department of
community health, §31-6-21.

BLACK PERSONS.

Hospitals.

Certificates of need.

Special considerations regarding
minority administered hospitals,
§31-6-42.

BLIND AND VISUALLY IMPAIRED PERSONS.

**Blindness education, screening and
treatment program,** §31-1-23.

BLOOD AND BLOOD PRODUCTS.

Bloodborne pathogens.

Control of hazardous conditions,
preventable diseases and
metabolic disorders, §31-12-13.

Blood donors.

Eligibility requirements, §31-24-3.

Methods for selection, §31-22-5.

Qualification requirements, §31-24-3.

Requirement of qualification of blood
donors, §31-24-3.

Blood donor storage programs.

Health care facilities, §31-7-14.

Blood supplies.

Health care facilities, §31-7-14.

Clinical laboratories.

General provisions, §§31-22-1 to
31-22-13.

Collection of human blood.

Methods for selection, §31-22-5.

Containers of blood.

Labeling, §31-24-4.

Definitions.

Blood labeling, §31-24-2.

Industrial use of blood and blood components.

Transfer of components, §31-24-6.

Labeling blood, §§31-24-1 to 31-24-8.

Administration of chapter, §31-24-7.

Citation of title, §31-24-1.

Containers of blood, §31-24-4.

Definitions, §31-24-2.

INDEX

BLOOD AND BLOOD PRODUCTS

—Cont'd

Labeling blood —Cont'd

Enforcement of chapter, §31-24-7.

Penalty for chapter violation, §31-24-8.

Short title.

Blood labeling act, §31-24-1.

Transfer of blood and blood
components for industrial use,
§31-24-6.

Transfusion of unlabeled blood,
§31-24-5.

Medical laboratories, §§31-22-1 to
31-22-13.

Newborn umbilical cord blood bank,
§§31-46-1 to 31-46-5.

Processing of human blood.

Methods for selection, §31-22-5.

Storage of human blood.

Methods for selection, §31-22-5.

Transfusion of unlabeled blood,
§31-24-5.

BLOOD BANKS.

Newborn umbilical cord blood bank,
§§31-46-1 to 31-46-5.

BLOOD LABELING ACT.

Labeling blood, §§31-24-1 to 31-24-8.

Short title, §31-24-1.

BLOOD TESTS.

Bloodborne pathogens.

Control of hazardous conditions,
preventable diseases and
metabolic disorders, §31-12-13.

Pregnant women.

Venereal disease test, §31-17-4.

BOARDS.

County boards of health.

General provisions, §§31-3-1 to
31-3-16.

Hemophilia advisory board, §31-1-13.

Public health, §31-2A-1.

BODIES.

Corpses generally, §§31-21-1 to
31-21-45.

BOND ISSUES.

Georgia highway authority.

Revenue bonds, §§32-10-30 to
32-10-50.

Highways, roads and streets.

Georgia highway authority.
Revenue bonds, §§32-10-30 to
32-10-50.

BOND ISSUES —Cont'd

Highways, roads and streets —Cont'd

State road and tollway authority,
§§32-10-90 to 32-10-110.

Hospital authorities.

Revenue certificates generally,
§§31-7-78 to 31-7-83.

Residential care facilities for the elderly authorities.

Generally, §§31-7-116 to 31-7-120.

State road and tollway authority,
§§32-10-90 to 32-10-110.

Transportation infrastructure bank.

Authority of governing board to issue,
§32-10-123.

BONDS, SURETY.

Department of transportation.

Construction contracts.

Bonds of successful bidder, §32-2-70.

Failure of successful bidder to
furnish bonds, §32-2-71.

Liability of state to contractor or
surety, §32-2-77.

Disposition of unclaimed corpses.

Bonding requirement, §31-21-25.

Georgia highway authority.

Trust indentures as security for bonds,
§32-10-40.

Highways, roads and streets.

Construction contracts.

Bond requirements, §32-2-60.

Public bidding.

Municipal construction contracts,
§§32-4-119 to 32-4-121.

BONE MASS MEASUREMENT COVERAGE ACT.

General provisions, §§31-15A-1 to
31-15A-3.

Short title, §31-15A-1.

BONES.

American Indians.

Human remains and burial objects.

Public display or exhibit of dead
human bodies or human
remains, §31-21-45.

Unclaimed human remains,
§§31-21-20 to 31-21-26.

BORROWING MONEY.

Physicians for rural areas assistance.

Loan program generally, §§31-34-1 to
31-34-9.

INDEX

BOXING AND WRESTLING.

Do not resuscitate orders.

Generally, §§31-39-1 to 31-39-9.

BRAIN AND SPINAL INJURY TRUST FUND.

Commission.

Duties, §31-18-4.

Reports to commission.

Persons identified as being spinal cord disabled or brain injured, §31-18-3.

Reports to commission.

Persons identified as being spinal cord disabled or brain injured, §31-18-3.

BRAIN INJURIES.

Advance directives for health care, §§31-32-1 to 31-32-14.

Registry for traumatic brain and spinal cord injuries, §§31-18-1 to 31-18-4.

Declaration of public policy, §31-18-1.

Definitions, §31-18-2.

Registration procedures, §31-18-3.

Reporting procedures, §31-18-3.

Sterilization of mentally incompetent persons, §31-20-3.

BRAINSTEM FUNCTIONS.

Death determinations, §31-10-6.

BREAST-FEEDING.

Public policy, §31-1-9.

BRIDGES.

Commercial driveways generally, §§32-6-130 to 32-6-135.

Maximum weight limit violations.

Issuance of citations or warning to operators of vehicles, §32-6-27.

Municipal street systems.

Posting of sign showing safe weight limit, §32-4-91.

Naming state roads, bridges or interchanges.

Joint resolution or act of General Assembly required, §32-4-3.

Safe weight limit for bridges.

Signs posted on municipal street system, §32-4-91.

Transportation infrastructure bank, §§32-10-120 to 32-10-133.

BROCHURES.

AIDS brochures, §31-22-9.1.

BUILDING CODES.

Swimming pools.

Public pools.

Michelle's Law, §§31-45-1 to 31-45-13.

BUILDINGS AND HOUSING.

Highways, roads and streets.

Construction contracts generally, §§32-2-60 to 32-2-81.

County road systems.

Construction contracts, §§32-4-60 to 32-4-74.

Municipal construction contracts, §§32-4-110 to 32-4-123.

BURDEN OF PROOF.

Abortion.

Woman's right to know act.

Negligence of physician in determining probable gestational age of fetus, §31-9A-6.1.

BURIAL.

Cremation, §31-21-4.

Sea burials, §31-21-4.

BURN INJURIES.

Nonresident burn victim.

Death certificate upon death, §31-10-15.

BUSES.

Travel lanes designated for use of, §32-9-4.

BUSINESSES.

Licenses.

Nursing home administrators, §31-7-12.

Midwives.

General provisions, §§31-26-1 to 31-26-7.

Psychologists.

Health service provider psychologists, §§31-7-160 to 31-7-165.

C

CADAVERS.

Corpses generally, §§31-21-1 to 31-21-45.

CALIBRATION.

Clinical laboratories.

Examination of human specimens, §31-22-4.

INDEX

CANCELLATION.

Cardiopulmonary resuscitation.

- Cancellation of order not to resuscitate, §31-39-5.
- Revocation of consent to order not to resuscitate, §31-39-6.

Physicians for rural areas assistance.

- Contract, §31-34-7.

CANCER.

Cancer advisory committee.

- Duties, §31-15-5.
- Functions, §31-15-3.

Cancer control officer, §31-15-4.

Legislative findings.

- Patient care and treatment program, §31-15-1.

Patient care and treatment

program, §§31-15-1 to 31-15-6.

- Cancer advisory committee.
 - Generally, §§31-15-3, 31-15-5.
- Cancer control officer.
 - Appointment, §31-15-4.
- Construction of rights.
 - Rights to benefits under other programs, §31-15-6.
- Creation, §31-15-2.
- Duties of commissioner, §31-15-5.
- Establishment, §31-15-2.
- Legislative findings, §31-15-1.
- Public policy, §31-15-1.
- Rights to benefits under other programs, §31-15-6.

Public policy.

- Patient care and treatment program, §31-15-1.

Research program fund, §31-12-14.

Tanning facilities.

- Warning sign to be posted, §31-38-4.

CANCER HOSPITALS.

Destination cancer hospitals.

- Certificate of need.
 - Annual patient base of certain percentage of patients residing out of state.
 - Annual statement.
 - Affirming requirement met, §31-6-40.1.
 - Fine, revocation of certificate. Failure to meet, §31-6-40.1.
 - Authorization, §31-6-40.
 - Need for service, considerations, §31-6-42.
- Defined, §31-6-2.

CAPITOL OF STATE.

Curb construction standards for streets circling state capitol, §32-4-94.

State transportation board.

- Caucuses to elect members at state capitol, §32-2-20.

CARDIAC ARREST.

Automatic defibrillator program, §31-11-53.1.

- Guidelines, §31-11-53.2.
- Lay rescuers, §31-11-53.2.

CARDIAC CATHETERIZATION.

Certificate of need program.

- Exemption, §31-6-47.

Clinical health services defined, §31-6-2.

Pediatric cardiac catheterization.

- Defined, §31-6-2.

Service-specific need methodologies.

- Establishment by department of community health, §31-6-21.

CARDIAC DYSRHYTHMIA.

Automated external defibrillator program.

- Automated defibrillator defined, §31-11-53.1.

CARDIAC RHYTHM ANALYSIS.

Automated external defibrillator program, §31-11-53.1.

Automatic defibrillator program.

- Guidelines, §31-11-53.2.
- Lay rescuers, §31-11-53.2.

CARDIOPULMONARY RESUSCITATION.

Defibrillators, §31-11-53.1.

- Guidelines, §31-11-53.2.
- Lay rescuers, §31-11-53.2.

Do not resuscitate orders, §§31-39-1 to 31-39-9.

- Bracelet, §31-39-6.1.
- Cancellation, §31-39-5.
- Court approval, §31-39-9.
- Definitions, §31-39-2.
- Form, §31-39-6.1.
- Legal right to withhold or withdraw CPR, §31-39-9.
- Liability of good faith compliance, §31-39-7.
- Life insurance policies.
 - Effect of order on policies, §31-39-8.
- Necklace, §31-39-6.1.
- Notice posted in person's home, §31-39-6.1.

INDEX

CARDIOPULMONARY

RESUSCITATION —Cont'd

Do not resuscitate orders —Cont'd

Order not to resuscitate.

Defined, §31-39-2.

Patient presumed to consent to administration of CPR, §31-39-3.

Persons authorized to issue, §31-39-4.

Physician refusing to comply with order.

Notification of next of kin or authorized person of patient, §31-39-7.

Public policy, §31-39-1.

Revocation of consent, §31-39-6.

Health care facilities.

Expansion of existing equipment in facilities to provide CPR not required, §31-39-3.

Lay rescuers, §31-11-53.2.

CAR-POOLS.

Ride-sharing.

Establishment of programs, §32-9-5.

CATARACTS.

Tanning facilities.

Warning sign to be posted, §31-38-4.

CATS.

Rabies.

Control of rabies generally, §§31-19-1 to 31-19-10.

Inoculation of felines, §31-19-5.

CEMETERIES.

Highways and roads.

Authority to bring condemnation proceedings, §32-3-4.

Outdoor advertising near.

Restrictions on, §32-6-75.

Removal of dead body from grave or disturbance of contents.

Receipt, retention, disposal or possession of unlawfully removed body, §31-21-44.

Wanton or malicious removal, §31-21-44.

CERTIFICATES OF COMPLIANCE.

Childhood lead exposure control, §31-41-16.

CERTIFICATES OF NEED.

Health facilities and services.

General provisions, §§31-6-40 to 31-6-50.

CESAREAN SECTION.

Health care provider.

Annual reports, §31-7-280.

CHAINS.

Tire chains.

Use for safety because of snow, ice or other conditions.

Limited access to roads due to inclement weather, requirements, §32-6-5.

CHANCROID.

Disease deemed dangerous to public health, §31-17-1.

Venereal disease control generally, §§31-17-1 to 31-17-8.

CHARITIES.

New perinatal services, §31-6-40.2.

CHEST X-RAYS.

Hospitalization for tuberculosis.

Provision of physical examination, §31-14-3.

Hospital service charge rates.

Written summary, §31-7-11.

CHILD ABUSE AND NEGLECT.

Aggravated child molestation.

AIDS transmitting crimes, §31-22-9.1.

AIDS transmitting crime.

Aggravated child molestation, §31-22-9.1.

CHILDBIRTH.

Birth certificates generally, §§31-10-1 to 31-10-32.

Midwives generally, §§31-26-1 to 31-26-7.

Prophylactic treatment, §31-17-5.

CHILDHOOD LEAD EXPOSURE CONTROL ACT.

General provisions, §§31-41-10 to 31-41-19.

Short title, §31-41-10.

CHILDHOOD VACCINATION REGISTRY, §31-12-3.1.

CHILD MOLESTATION.

AIDS transmitting crimes, §31-22-9.1.

CHILD RAPE.

Statutory rape.

AIDS transmitting crimes, §31-22-9.1.

CHILDREN.

Baby breast-feeding, §31-1-9.

Highway condemnation proceedings.

Minor or person under disability owner of property.

Service of notice upon, §32-3-8.

INDEX

CHILDREN —Cont'd

Lead poisoning prevention.

Childhood lead exposure control,
§§31-41-10 to 31-41-19.

Midwives generally, §§31-26-1 to
31-26-7.

Names.

Surname of child, §31-10-9.

CHIROPRACTORS.

Health care services to low-income recipients.

Health share volunteers in medicine
act, §§31-8-190 to 31-8-201.

Medical review committees

generally, §§31-7-140 to 31-7-143.

Peer review groups generally,

§§31-7-130 to 31-7-133.

Smokefree air act.

General provisions, §§31-12A-1 to
31-12A-13.

Health care facility defined, §31-12A-2.

Smoking prohibited in public places,
§31-12A-4.

CHLAMYDIA SCREENING TEST.

Accident and sickness insurance coverage for women, §31-17-4.1.

CHRONIC RENAL DISEASE.

Legislative findings.

Patient care and treatment program,
§31-16-1.

Patient care and treatment

program, §§31-16-1 to 31-16-7.

Construction of rights.

Reuse of kidney dialyzer, §31-16-7.

Rights to benefits under other
programs, §31-16-6.

Creation, §31-16-2.

Duties of commissioner, §31-16-5.

Establishment, §31-16-2.

Kidney disease advisory committee.

Generally, §§31-16-3, 31-16-5.

Legislative findings, §31-16-1.

Personnel, §31-16-4.

Public policy, §31-16-1.

Reuse of kidney dialyzer, §31-16-7.

Rights to benefits under other
programs, §31-16-6.

Staff, §31-16-4.

Public policy.

Patient care and treatment program,
§31-16-1.

CIGARS AND CIGARETTES.

Smokefree air act of 2005, §§31-12A-1
to 31-12A-13.

CIVIC LEAGUES OR ORGANIZATIONS.

Physicians and surgeons.

Rural areas assistance program.

Grants to civic organizations.

Authorized, §§31-34-4.1, 31-34-5.

Cancellation of contract, §31-34-7.

Service cancelable contract as
condition of grant, §31-34-6.

CIVIL DISTURBANCES.

Crowd control, §§31-27-1 to 31-27-12.

CLEAN AIR ACTS.

Georgia smokefree air act of 2005,
§§31-12A-1 to 31-12A-13.

CLEAR AND CONVINCING EVIDENCE.

Abortion.

Woman's right to know act.

Negligence of physician in
determining probable
gestational age of fetus,
§31-9A-6.1.

**HIV tests of infected persons or
persons suspected of being
infected.**

Refusal to consent, §31-17A-3.

Sterilization of mentally

incompetent persons, §31-20-3.

CLEAR VIEW.

Road signs, signals or other devices,
§32-6-51.

CLERKS OF COURT.

**Legitimation, annulment of
legitimation or amendment of
legitimation order.**

Duty to forward copy of order to state
registrar, §31-10-13.1.

Paternity determinations.

Copy forwarded to state registrar,
§31-10-13.2.

CLINICAL LABORATORIES,

§§31-22-1 to 31-22-13.

Anatomical gifts, §31-22-10.

Applicability of chapter, §31-22-9.

Eye banks, §31-22-10.

Physicians, §31-22-11.

Construction of chapter, §31-22-9.

Effect of anatomical gift provisions,
§31-22-11.

Effect of eye bank provisions,
§31-22-10.

Effect on physicians, §31-22-10.

INDEX

Infectious diseases, §31-22-7.

Rulemaking authority, §31-22-6.

Shipping requirements.

Examination of human specimens,
§31-22-4.

Venereal diseases.

Regulation of laboratories, §31-17-6.

CLINICS.

Cancer advisory committee.

Appointment of members from cancer
clinics, §31-15-3.

Cancer clinics.

Certification, §31-15-5.

State-wide registry support, §31-15-5.

Hospital authorities.

Projects defined, §31-7-71.

Rabies.

Inoculation of canines and felines
against, §31-19-5.

CLOTHING.

Health employees.

Compensation for damage to wearing
apparel caused by patients,
§31-1-5.

CLOTHING —Cont'd

Hospital residents' bill of rights.

Right to retain and use clothing,
§31-8-113.

Institutions operated by department of human services.

Employees.

Damages to wearing apparel caused
by patients.

Compensation, §31-1-5.

CLUBS.

Bathhouses.

Abating operation, §31-12-11.

State highway system.

Service club and religious notices.
Defined, §32-6-71.

Tanning facilities.

General provisions, §§31-38-1 to
31-38-12.

COAL SLURRY PIPELINE.

Public transportation code.

Other transportation purposes defined,
§32-1-3.

COBB COUNTY.

Gateway center.

Safety rest area and information
center, §32-2-4.1.

COCAINE.

HIV tests.

Offenses involving, §31-22-9.1.

CODE OF PUBLIC TRANSPORTATION.

General provisions, §§32-1-1 to
32-10-110.

Short title, §32-1-1.

COERCION AND DURESS.

Long-term care facility bill of rights for residents.

Freedom from interference and
exercise of rights, §31-8-118.

Obtaining contributions by coercion,
§31-8-119.

COLISEUMS.

Mass gathering control.

Applicability of chapter, §31-27-10.

COLOR OF SKIN.

Registration of live born infants of unknown parentage.

Information included in registration,
§31-10-10.

COMA.

Advance directives for health care,
§§31-32-1 to 31-32-14.

INDEX

COMATOSE.

HIV tests.

- Reporting of positive results.
- Counsel, counseling, etc.
- Inapplicability of provisions to comatose persons, §31-22-9.2.

COMMERCIAL DRIVEWAYS, §§32-6-130 to 32-6-135.

- Change of existing commercial driveway,** §32-6-132.
- Liability for expenses incurred, §32-6-134.

Closing.

- Authority of department to close for violations, §32-6-131.
- Procedure upon discovery of violation, §32-6-134.

Construction or improvement.

- Effect of plat submission requirements, §32-6-154.

County regulation of highways.

- Effect of part on county authority to regulate, §32-6-135.

Defined, §32-6-130.

Municipal regulation of highways.

- Effect of part on municipal authority to regulate, §32-6-135.

Permit requirements.

- Construction or improvement, §32-6-131.

Permits, §32-6-133.

Rulemaking authority, §32-6-133.

Substitution of existing commercial driveway, §32-6-132.

COMMISSIONERS.

Commissioner of community public health, §31-2-6.

Commissioner of public health, §31-2A-2.

COMMISSION ON MEN'S HEALTH, §§31-43-1 to 31-43-13.

COMMISSIONS.

Georgia trauma care network commission, §§31-11-100 to 31-11-103.

Saving for the cure, commission for. Newborn umbilical cord blood bank, §§31-46-3, 31-46-4.

Trauma care network commission, §§31-11-100 to 31-11-103.

COMMON LAW.

Public transportation code.

- Common law right of state to punish persons or corporations for violations, §32-1-6.

Dedication.

- Defined, §32-1-3.

COMMON-LAW MARRIAGES.

Surgical or medical treatment consent.

- Relationships set forth in chapter to include, §31-9-6.

COMMUNICABLE DISEASES.

Venereal diseases, §§31-17-1 to 31-17-8.

COMMUNITY HEALTH,

DEPARTMENT OF, §§31-2-1 to 31-2-20.

Acquisition of health care facilities.

- Notification requirements, fine, violation, §31-6-40.1.

Administration and enforcement.

- General provisions, §§31-5-1 to 31-5-10.
- Inspection warrants, §§31-5-20 to 31-5-24.

Biotechnology, biopharmaceutical or pharmaceutical companies located in state.

- Drugs or health care products produced by Georgia companies.

government.

Transit agency contracting with
local government to provide,
§32-9-11.

Transit services with local government.

Transit agency contracting with local
government to provide, §32-9-11.

Vital records.

Notification of adult deaths, §31-10-29.

Purging voter registration list,
§31-10-15.

ELECTROCARDIOGRAM.

Hospital service charge rates.

Written summary.

Charges for certain special tests,
§31-7-11.

ELECTROENCEPHALOGRAM.

Hospital service charge rates.

Written summary.

Charges for certain special tests,
§31-7-11.

ELECTROMAGNETIC RADIATION.

Radiation control.

General provisions, §§31-13-1 to
31-13-25.

ELECTRONIC RECORDINGS.

Nonpayment of tolls, §32-10-64.

ELECTRONIC TRANSACTIONS.

Medical records.

Provider maintaining records in
electronic format, §31-33-8.

EMERGENCIES.

Bioterrorism.

Control of hazardous conditions,
preventable disease and metabolic
disorders generally, §§31-12-1 to
31-12-14.

Defined, §31-12-1.1.

Department's duties, §31-12-2.1.

EMERGENCIES —Cont'd

Bioterrorism —Cont'd

Reporting requirements.

Deaths or illnesses potentially
caused by bioterrorism,
§31-12-2.

Health.

Bioterrorism.

Control of hazardous conditions,
preventable disease and
metabolic disorders generally,
§§31-12-1 to 31-12-14.

Defined, §31-12-1.1.

Department's duties, §31-12-2.1.

Reporting requirements.

Deaths or illnesses potentially
caused by bioterrorism,
§31-12-2.

Public health emergency.

Control of hazardous conditions,
preventable diseases and
metabolic disorders, §31-12-1.1.

Health care facilities.

Certificate of need program.

Emergency approval.

State of emergency declared in
region, §31-6-43.

Highways.

Closure of or limiting access to roads
due to inclement weather, §32-6-5.

Removal of obstructions or property
during state of emergency,
§32-6-4.

Public health emergencies.

Bioterrorism, §31-12-1.1.

Control of hazardous conditions,
preventable disease and
metabolic disorders generally,
§§31-12-1 to 31-12-14.

Department's duties, §31-12-2.1.

Reporting requirements.

Deaths or illnesses potentially
caused by bioterrorism,
§31-12-2.

EMERGENCY MEDICAL SERVICES,

§§31-11-1 to 31-11-82.

Advanced cardiac life support.

Evidence of current certification,
§31-11-58.

Ambulance drivers.

Emergency vehicle privileges.

Exercise of privileges by drivers,
§31-11-7.

Records of ambulance trips, §31-11-6.

Ambulance standards, §31-11-34.

§32-6-27.

Home health agencies.

Unlicensed operation, §31-7-158.

Hospital acquisition.

Disposition or acquisition in violation
of requirements, §31-7-412.

Long-term health care facilities.

Rights of residents in facilities.

Violations of rights under article,
§31-8-126.

Personal care homes.

Employee records checks.

Misuse or attempted misuse of
information, §31-7-260.

Licensing violations, §31-7-12.1.

Prohibited acts, §31-10-31.

Radiation control.

Violation of licensing or registration
provisions, §31-13-13.

Tolls, nonpayment, §32-10-64.

Vital records.

Prohibited acts, §31-10-31.

FINGERPRINTS.

Emergency medical technicians.

Criminal background checks,
§31-11-51.

Health care facilities.

Employees' background checks,
§31-7-259.

Personal care homes.

Employees' background checks,
§31-7-259.

INDEX

FIREFIGHTERS.

Bioterrorism.

Vaccinations for emergency responders, §§31-35-10, 31-35-11.

Hepatitis.

Vaccinations, §§31-35-1 to 31-35-3.

Vaccinations.

Bioterrorism, emergency responders, §§31-35-10, 31-35-11.

Hepatitis, §§31-35-1 to 31-35-3.

FIRES.

Smoke inhalation victims.

Do not resuscitate orders.

Generally, §§31-39-1 to 31-39-9.

FIRST AID.

Ambulance attendants training, §31-11-5.

EMT services, §31-11-53.

FISCAL YEAR.

Hospital care for nonresident indigents.

Fiscal year defined, §31-8-31.

FLAGS.

Interstate highway rest areas. POW/MIA flag.

Flying at rest areas, §32-2-8.

POW/MIA flag.

Interstate highway rest areas.

Flying at rest areas, §32-2-8.

FLAMMABLE MATERIALS.

Eyeglasses.

Prescription glass frames.

Use of flammable materials in frames, §31-1-2.

Health.

Eyeglass or sunglass frames.

Use of flammable materials in frames, §31-1-2.

Penalty for violation of provisions, §31-1-2.

Penalties.

Eyeglass or sunglass frames.

Use of flammable materials in frames, §31-1-2.

Sunglasses.

Prescription sunglass frames.

Use of flammable materials in frames, §31-1-2.

FLEXAUTO LANES.

Defined, rush hour traffic, §32-9-4.1.

FLU VACCINE.

Hospitals.

Inpatient vaccinations to patients 65 years of age or older prior to discharge, §31-7-18.

Nursing homes to offer patients.

Rules and regulations to require, §31-7-2.1.

FOOD SERVICE

ESTABLISHMENTS.

Tourist courts, §§31-28-1 to 31-28-7.

FOREST RESOURCES.

Forest management equipment.

Exemption from weight and size requirements, §32-6-25.

FORFEITURES.

Hospital inspection warrants.

Seizure of property authorized, §31-5-21.

FORMS.

Advance directives for health care, §31-32-4.

Agent Orange veteran's exposure report, §31-30-2.

FRAUD AND DECEIT.

Abortion.

False representation of age or name by woman soliciting abortion.

Loss of standing to pursue claims, §31-9A-6.1.

Advance directives for health care.

Falsification or forgery of document, §31-32-13.

Emergency medical services.

False representation as certified technician, §31-11-61.

Health care employee records checks.

Misuse or attempted misuse of information, §31-7-260.

Health care personnel.

False representation or impersonation, §31-1-4.

Personal care homes.

Employee records checks.

Misuse or attempted misuse of information, §31-7-260.

INDEX

FREE QUALITY MEDICAL CARE TO UNDERSERVED POPULATIONS.

Health care services to low-income recipients.

Health share volunteers in medicine
act, §§31-8-190 to 31-8-201.

FRIENDS.

Medical consent.

Persons authorized to consent to
surgical or medical treatment,
§31-9-2.

FUNDS.

Georgia trauma trust fund, §31-11-103.

Hospitals.

Indigent care for pregnant women,
§31-8-46.

Indigent care trust fund, §§31-8-150 to 31-8-160.

Roadside enhancement and beautification fund, §32-6-75.2.

Transportation.

State public transportation fund,
§§32-5-20 to 32-5-27.

Trauma trust fund, §31-11-103.

FUNERAL DIRECTORS AND EMBALMERS.

Abuse of dead body prior to interment, §31-21-44.1.

Dead bodies.

General provisions, §§31-21-1 to
31-21-45.

Death certificates.

Funeral director to file, §31-10-15.

Disinfectant approval, §31-21-1.

Embalming defined, §31-21-1.

Throwing away or abandonment of dead bodies, §31-21-44.2.

Vital records.

Death certificates.

Funeral director to file, §31-10-15.

FUNERAL ESTABLISHMENTS.

Preneed contracts as to disposition of dead bodies.

Liability of funeral home, §31-21-7.

G

GALACTOSEMIA.

Genetic testing.

Rulemaking authority, §31-12-6.

GAME AND FISH CODE.

Rabies.

Control of rabies generally, §§31-19-1
to 31-19-10.

GAMMA RAYS.

Radiation control.

Generally, §§31-13-1 to 31-13-25.

GARAGES.

Service station.

Unattended vehicles parked in
violation of law.

Removal to nearest garage
authorized, §32-6-2.

GARDENS.

Watering.

Gray water.

Defined, private residential reuse,
§31-3-5.2.

GARVEE BONDS.

State road and tollway authority.

Revenue bonds, §32-10-90.1.

GATES.

Defined.

Protective as including gates, §32-1-3.

GATEWAY CENTER.

Safety rest area and information center in Cobb county, §32-2-4.1.

GENERAL ASSEMBLY.

Bridges.

Naming state roads, bridges or
interchanges.

Joint resolution or act of General
Assembly required, §32-4-3.

Highways, roads and streets.

Naming state roads, bridges or
interchanges.

Joint resolution or act of general
assembly required, §32-4-3.

House of representatives.

Speaker.

State transportation board.

Duties concerning election of
members, §32-2-20.

Senate.

President.

State transportation board.

Duties concerning election of
members, §32-2-20.

INDEX

GENETIC TESTING.

Inherited metabolic and genetic disorders.

Prevention of serious illness, severe physical or developmental disabilities, and death, §31-12-6.

State-wide network for medical genetics services, §31-12-5.

GENITALS.

Illegal sexual activity.

Defined as conduct involving human sexual organs, §31-12-11.

GEORGIA ADVANCE DIRECTIVE FOR HEALTH CARE ACT.

General provisions, §§31-32-1 to 31-32-14.

Short title, §31-32-1.

GEORGIA ARTHRITIS PREVENTION AND CONTROL ACT, §§31-47-1 to 31-47-3.

GEORGIA CODE OF PUBLIC TRANSPORTATION.

Abandonment, disposal or leasing highways, roads and streets, §§32-7-1 to 32-7-5.

Commercial driveways, §§32-6-130 to 32-6-135.

County road systems, §§32-4-40 to 32-4-74.

Department of transportation.

General provisions, §§32-2-1 to 32-2-81.

Eminent domain.

Highways, roads and streets, §§32-3-1 to 32-3-39.

Federal funds, §§32-5-1, 32-5-2.

Federal parkways.

Acquisition of rights of ways and easements, §§32-3-30 to 32-3-39.

General provisions, §§32-1-1 to 32-10-110.

Georgia highway authority, §§32-10-1 to 32-10-50.

Junkyard control.

Generally, §§32-6-240 to 32-6-248.

Limited-access roads, §§32-6-110 to 32-6-119.

Mass transportation.

Generally, §§32-9-1 to 32-9-14.

Municipal street systems, §§32-4-90 to 32-4-123.

Public utilities.

Removal and relocation of utility facilities.

Generally, §§32-6-170 to 32-6-175.

GEORGIA CODE OF PUBLIC TRANSPORTATION —Cont'd

Railroad grade crossings.

Generally, §§32-6-190 to 32-6-203.

Relocation assistance, §§32-8-1 to 32-8-6.

Short title, §32-1-1.

Signs and signals.

Control generally, §§32-6-50 to 32-6-52.

Size of vehicles and loads.

General provisions, §§32-6-20 to 32-6-31.

State highway systems.

Generally, §§32-4-20 to 32-4-24.

Outdoor advertising, §§32-6-70 to 32-6-97.

State public transportation fund, §§32-5-20 to 32-5-27.

State road and tollway authority, §§32-10-60 to 32-10-110.

Subdivisions.

Generally, §§32-6-150 to 32-6-154.

Traffic control devices.

Control of signs and signals.

Generally, §§32-6-50 to 32-6-52.

Weight and size of vehicles and loads.

General provisions, §§32-6-20 to 32-6-31.

GEORGIA COMMISSION FOR SAVING THE CURE.

Newborn umbilical cord blood bank.

Creation of commission, §31-46-4.

Education program, §31-46-3.

Responsibilities, §31-46-4.

GEORGIA COMMUNITY STREETCAR DEVELOPMENT AND REVITALIZATION ACT, §32-10-76.

General assembly approval of funding, §32-10-77.

Grant programs, §32-10-76.

GEORGIA COORDINATING COMMITTEE FOR RURAL AND HUMAN SERVICES TRANSPORTATION, §§32-12-1 to 32-12-6.

GEORGIA HIGHWAY AUTHORITY.

Authority fund.

Composition, §32-10-13.

Designation as trust funds, §32-10-14.

Purposes for which pledged or utilized, §32-10-13.

INDEX

GEORGIA HIGHWAY AUTHORITY

INDEX

GOOD FAITH —Cont'd

Personal care homes.

- Employees' records checks.
- Claims in connection with dissemination of information, §31-7-261.

Psychologists.

- Health service provider psychologist.
- Limitation or revocation of staff privileges, §31-7-164.

Vital records.

- Issuance of certified copies, §31-10-26.

GOOD SAMARITANS.

Automated external defibrillator care or treatment.

- First responder gratuitously and in good faith rendering, §31-11-53.1.

GOVERNOR.

Appointments.

- Cancer advisory committee, §31-15-3.
- Men's health commission, §31-43-5.

Board of community health.

- Appointment of members, §31-2-3.

Mass gatherings.

- Emergency powers of governor, §31-27-7.

GOVERNOR'S DEVELOPMENT COUNCIL.

Coordinating committee for rural and human services transportation.

- Creation of committee, §32-12-2.

GRADUATE CERTIFICATION.

Physicians and surgeons.

- Rural areas assistance program.
- Loan applicant qualifications, §31-34-4.

GRADUATED MATCHING FORMULA.

Hospital care for indigent persons.

- County disbursement of state funds, §31-8-3.
- County qualifications for participation in program, §31-8-4.

GRANDCHILDREN.

Medical consent.

- Persons authorized to consent to surgical or medical treatment, §31-9-2.

GRANDPARENTS.

Medical consent.

- Persons authorized to consent to surgical or medical treatment, §31-9-2.

GRANITE.

Motor vehicles.

- Weight of vehicle and load, §32-6-26.

GRANTS.

Diabetes control grant program.

- Public health department, §31-2A-14.

Health care facilities.

- Construction and modernization of medical facilities, §§31-7-50 to 31-7-57.

Hospital authorities.

- State grants to hospital authorities, §31-7-94.

Physicians and surgeons.

- Rural areas assistance program.
- Grants to hospitals, health care entities, local governments or civic organizations.
- Authorized, §§31-34-4.1, 31-34-5.
- Cancellation of contract, §31-34-7.
- Service cancelable contract as condition of grant, §31-34-6.

Rural hospital assistance act, §31-7-94.1.

State road and tollway authority.

- Streetcar development and revitalization.
- Grant programs, §32-10-76.

GRASS.

Watering lawn and garden.

- Gray water.
- Defined, private residential reuse, §31-3-5.2.

GRAVEL.

Highways, roads and streets.

- Borrow pit defined, §32-1-3.

GRAVE ROBBERING.

Dead bodies, §§31-21-43, 31-21-44.

Rights of residents in facilities, §31-8-127.

Short titles.

Bill of rights for residents of long-term care facilities, §31-8-100.

Long-term care facility resident abuse reporting act, §31-8-80.

Residential care facilities for the elderly authorities act, §31-7-110.

Smokefree air act.

Exemptions to smoking prohibitions.

Long-term health care facilities, §31-12A-5.

Generally, §§31-12A-1 to 31-12A-13.

Title of act.

Bill of rights for residents of long-term care facilities, §31-8-100.

Long-term care facility resident abuse reporting act, §31-8-80.

Residential care facilities for the elderly authorities act, §31-7-110.

Tobacco and alcoholic beverage use, §31-8-112.

Suspension, §31-8-117.

Tuberculosis.

Hospitalization of persons with active tuberculosis, §§31-14-1 to 31-14-14.

Visitors.

Rights of residents in facilities, §31-8-120.

LOOTING.

Riot crowd control, §§31-27-1 to 31-27-12.

M

MAGNETIC RESONANCE IMAGING. Clinical health services.

Defined as including, §31-6-2.

MALLS.

Smokefree air act.

General provisions, §§31-12A-1 to 31-12A-13.

INDEX

MALLS —Cont'd

Smokefree air act —Cont'd

- Public place defined, §31-12A-2.
- Smoking prohibited in public places, §31-12A-4.

MANDAMUS.

Personal care homes.

- Remedies for residents, §31-8-139.

MANDATED HEALTH INSURANCE.

Compelling participation in health care plan or system, prohibited, §31-1-11.

MANUFACTURED HOMES.

New homes in transit.

- Permits for excess weight and dimensions, §32-6-28.

MAPLE SYRUP URINE DISEASE.

Developmental disabilities caused by.

- System for prevention, §31-12-6.

MAPS AND PLATS.

Highways, roads and streets.

- Department of transportation authorized to provide information to traveling public, §32-2-4.
- Official maps and records, §32-4-2.

MARRIAGE.

Advance directives for health care.

- Revocation, §31-32-6.

Fees.

- License.
- Filing fee, §31-10-21.

Licenses.

- Fees.
- Filing fee, §31-10-21.
- Vital records generally, §§31-10-1 to 31-10-32.

MASS GATHERINGS, §§31-27-1 to 31-27-12.

Applicability of chapter, §31-27-10.

Bonding requirement, §31-27-5.

- Cash deposit in lieu of bond, §31-27-5.

Civil defense division.

- Powers generally, §31-27-7.

Civil penalty, §31-27-11.

Criminal penalty, §31-27-12.

Definitions, §31-27-1.

Emergency powers of governor, §31-27-7.

Permit requirement.

- Application form, §31-27-3.
- Assignability of permit, §31-27-2.

MASS GATHERINGS —Cont'd

Permit requirement —Cont'd

- Attendance beyond number specified.
- Assessment rate, §31-27-6.
- Contents of permit, §31-27-3.
- Denial of permit, §31-27-4.
- Disciplinary actions against permittees, §31-27-4.
- Duration of permit, §31-27-2.
- Issuance of permit, §31-27-2.
- Additional requirements, §31-27-4.
- Rulemaking authority, §31-27-9.
- State recovery of costs and damages, §31-27-8.

MASS TRANSPORTATION, §§32-9-1 to 32-9-14.

Airport development, §32-9-7.

Financial assistance, §§32-9-1 to 32-9-14.

- Airport development, §32-9-7.
- Designation of travel lanes, §32-9-4.
- Operation of facilities or systems, §32-9-2.
- Programs, §32-9-1.
- Purchases, §32-9-1.
- Rail service, §32-9-6.
- Research, §32-9-1.
- Ride-sharing programs, §32-9-5.
- Use of annual proceeds from local sales and use taxes.
- Suspension of restrictions on use, §32-9-13.

Metropolitan Atlanta rapid transit authority.

- Board of directors, §32-9-14.
- Rail service programs, §32-9-6.
- Ride-sharing programs, §32-9-5.

MATERNAL HEALTH CARE.

Hospital care for indigent pregnant women.

- Generally, §§31-8-40 to 31-8-46.

Midwives.

- Generally, §§31-26-1 to 31-26-7.

MAYOR.

Public authorities.

- Governing authority of any incorporated municipality.
- Defined as including, §32-10-1.

MEDIATION.

Public utilities.

- Removal and relocation of facilities for public roads.
- Mediation of disputes between department and utility, §32-6-171.

INDEX

MEDICAID.

Health care facilities.

Participation as provider of medical assistance.

Required to obtain certificate of need, termination, monetary penalty, §31-6-45.2.

Indigent care trust fund.

Quality assessment fees on care management organizations, §§31-8-170 to 31-8-177.

Nursing facilities.

Nursing home provider fee act.

Application of medical assistance act, §31-8-169.

Providers.

Provider payment agreement act.

Applicability of provisions, §31-8-179.7.

MEDICAL CONSENT.

Abortion and sterilization procedures.

Applicability of chapter, §31-9-5.

Advance directives for health care, §§31-32-1 to 31-32-14.

Construction of chapter.

Abortion and sterilization procedures, §31-9-5.

Liberal construction, §31-9-6.

Mentally ill persons, §31-9-5.

Refusal to consent to treatment, §31-9-7.

Disclosure requirements.

Exceptions, §31-9-6.1.

Failure to comply, §31-9-6.1.

Persons undergoing certain surgical or diagnostic procedures, §31-9-6.1.

Emergencies.

Persons authorized to consent to surgical or medical treatment, §31-9-3.

Husband and wife.

Persons authorized to consent to surgical or medical treatment, §31-9-2.

In loco parentis.

Persons authorized to consent to surgical or medical treatment, §31-9-2.

Mentally ill persons.

Applicability of chapter provisions, §31-9-4.

Persons authorized to consent to surgical or medical treatment, §31-9-2.

Emergencies, §31-9-3.

MEDICAL CONSENT —Cont'd **Pregnant women.**

Persons authorized to consent to surgical or medical treatment, §31-9-2.

Prudent person rule.

Surgical or diagnostic procedures.

Disclosure of certain information, §31-9-6.1.

Refusal to consent to treatment, §31-9-7.

Requirements of valid consent, §31-9-6.

Rulemaking authority.

Disclosure requirements.

Regulations establishing standards for implementation, §31-9-6.1.

Short title, §31-9-1.

Temporary adult admission/discharge from health care facilities.

General provisions, §§31-36A-1 to 31-36A-7.

Title of act, §31-9-1.

Venereal diseases.

Consent of minor to medical or surgical care or services, §31-17-7.

MEDICAL CONSENT LAW.

General provisions, §§31-9-1 to 31-9-7.

Short title, §31-9-1.

MEDICAL EXAMINERS.

Bioterrorism.

Reporting requirements.

Deaths or illnesses potentially caused by bioterrorism, §31-12-2.

Corpses.

Disinterment by coroner without good grounds, §31-21-42.

General provisions, §§31-21-1 to 31-21-45.

Long-term health care.

Reporting abuse or exploitation of facility residents, §31-8-82.

MEDICAL LABORATORIES.

Clinical laboratories, §§31-22-1 to 31-22-13.

MEDICAL RECORDS, §§31-33-1 to 31-33-8.

Agent Orange veteran's exposure report.

Action for release of records, §31-30-6.

Confidential or privileged matter, §31-33-6.

INDEX

MEDICAL RECORDS —Cont'd

Definitions, §31-33-1.

Electronic records, §31-33-8.

Evidence.

Confidential or privileged matter,
§31-33-6.

**Law enforcement officer submitting
to mental examination.**

Assessing fitness, employment status
or assignment to duties.

Evaluation report, disclosure to
officer, immunity of person
making report, §31-33-7.

Mental health records.

Inapplicability of chapter provisions,
§31-33-4.

Patient's rights as to records.

Copies of records.

Furnishing to patient or provider,
§31-33-2.

Costs of copying and mailing, §31-33-3.

Furnishing copy of records to patient
or provider, §31-33-2.

Immunity from liability for releasing
information, §31-33-5.

No right of ownership granted,
§31-33-3.

Privileged matter, §31-33-6.

MEDICAL REVIEW COMMITTEES.

Actions.

Proceedings and records of
committees.

Immunity from discovery or use as
evidence in civil actions,
§31-7-143.

Defined, §31-7-140.

Discovery.

Proceedings and records of committee
immune from discovery,
§31-7-143.

Evidence.

Proceedings and records of committee
immune from use as evidence in
civil actions, §31-7-143.

Immunity.

Members immune from liability,
§31-7-141.

No immunity conferred on those
providing health care facilities
or services, §31-7-142.

Proceedings and records of committee.

Immune from discovery or use as
evidence in civil actions,
§31-7-143.

MEDICAL REVIEW COMMITTEES

—Cont'd

Liability.

Immunity of members, §31-7-141.

No immunity conferred on those
providing health care facilities
or services, §31-7-142.

Records.

Immunity of records from discovery or
use as evidence in civil actions,
§31-7-143.

MEDICAL SCHOOLS.

Dead bodies.

Disposition of unclaimed dead bodies.

Bond required of medical school,
§31-21-25.

Eye banks.

Operation of eye bank by hospital or
medical school, §31-23-3.

MEDICAL STUDENTS.

Eye banks.

Methods of treatment or instruction
concerning eyes.

Chapter concerning eye banks shall
not affect instruction concerning
eyes, §31-23-8.

MEDICARE.

Indigent care trust fund.

Applicability of medicare provisions,
§31-8-160.

General provisions, §§31-8-150 to
31-8-160.

MEDICATION AIDES.

Assisted living communities.

Employment of certified medication
aides, §31-7-12.2.

MENINGITIS.

Vaccinations, §31-12-3.2.

MEN'S HEALTH COMMISSION.

Appointments, conditions of,
§31-43-5.

Compensation, §31-43-9.

Composition of membership,
§31-43-4.

Creation, §31-43-3.

Definition, §31-43-1.

Department of public health.

Administration and staff for
commission, §31-43-3.

Donations, §31-43-13.

Duties and responsibilities,
§31-43-12.

INDEX

MEN'S HEALTH COMMISSION

—Cont'd

Election of presiding officer,
§31-43-8.

Exclusion and removal, §31-43-6.

Expenses, §31-43-9.

Findings of general assembly,
§31-43-2.

Governor.

Appointments, §31-43-5.

Legislative findings, §31-43-2.

Lobbyists.

Excluded from membership, §31-43-6.

Meetings, §31-43-10.

Membership composition, §31-43-4.

Notification.

Grounds of removal, §31-43-6.

Policy implementation, §31-43-10.

Presiding officer, §31-43-8.

Sterilization of mentally incompetent
persons, §31-20-3.

Definitions, §31-20-1.

Mentally incompetent person,
§31-20-3.

Exemptions from chapter requirements, §31-20-6.

Compliance where other medical
treatment may result in
sterilization, §31-20-5.

Sterilization of mentally incompetent
persons.

Prerequisites to performing a
sterilization procedure,
§31-20-3.

Medical consent law.

Applicability of chapter to abortion
and sterilization procedures,
§31-9-5.

General provisions, §§31-9-1 to 31-9-7.

Mentally incompetent persons.

Prerequisites to performing a
sterilization procedure, §31-20-3.

Performance of sterilization procedure.

Mentally incompetent persons,
§31-20-3.

Restricted to duly licensed physician,
§31-20-4.

When performance upon request
unlawful, §31-20-2.

Prohibited.

When prohibited upon request,
§31-20-2.

Restrictions on performance.

Mentally incompetent persons,
§31-20-3.

Performance by duly licensed
physician only, §31-20-4.

Where procedure upon request
unlawful, §31-20-3.

STILLBORN INFANTS.

Birth certificate, §31-10-33.

Stillbirth or stillborn.

Defined, §31-10-1.

STRAY ANIMALS.

Rabies.

Generally, §§31-19-1 to 31-19-10.

STREETCARS.

**Pilot program for funding streetcar
projects,** §32-9-12.

STREETS.

Abandoned property generally,
§§32-7-1 to 32-7-5.

Commercial driveways generally,
§§32-6-130 to 32-6-135.

Disposal generally, §§32-7-1 to 32-7-5.

Leases generally, §§32-7-1 to 32-7-5.

Outdoor advertising.

General provisions, §§32-6-70 to
32-6-97.

Size of vehicles and loads.

Generally, §§32-6-20 to 32-6-31.

Weight and size of vehicles and loads.

General provisions, §§32-6-20 to
32-6-31.

STROKE CENTERS, §§31-11-110 to
31-11-119.

Advertising by hospital, §31-11-118.

Agency or board regulating EMS personnel.

Department defined, §31-11-111.

Certification, §31-11-113.

Construction of article, §31-11-117.

Department defined, §31-11-111.

Grants to establish, §31-11-114.

Identification of hospitals meeting criteria.

Certification, §31-11-113.

Duty of department, application,
revocation, §31-11-112.

List of identified centers.

Distribution to EMS providers,
§31-11-115.

Legislative findings, §31-11-110.

List of identified centers.

Distribution EMS providers,
§31-11-115.

Medical practice guideline.

Article construed as, §31-11-117.

Primary stroke centers.

Certification, §31-11-113.

Identification, §31-11-112.

INDEX

STROKE CENTERS —Cont'd

Primary stroke centers —Cont'd

List of identified centers.

Distribution, §31-11-115.

Purpose for establishing, §31-11-110.

Reports, §31-11-116.

Promulgation of rules and regulations, §31-11-119.

Remote treatment stroke centers.

Certification, §31-11-113.

Purpose for establishing, §31-11-110.

Reports, §31-11-116.

Reports, §31-11-116.

Rules and regulations, §31-11-119.

Stroke triage assessment tool.

Department to develop, §31-11-115.

STROKES.

Assessment, treatment, transportation of stroke patients.

Protocols, establishment, §31-11-115.

Stroke triage assessment tool.

Department to develop, §31-11-115.

SUBCONTRACTORS.

Public works, §§32-2-61, 32-2-66.

SUBDIVISIONS, §§32-6-150 to 32-6-154.

Highway zoning, §§32-6-150 to 32-6-154.

Commercial driveway permits.

Effect of part on requirement, §32-6-154.

Planning commission.

Department approval or rejection of submitted plat, §32-6-151.

Factors for consideration, §32-6-153.

Plat approval or rejection.

Department factors to be considered, §32-6-153.

Planning commission, §32-6-151.

Proprietor of subdivision, §32-6-152.

Proprietor of subdivision.

Department approval or rejection of submitted plat, §32-6-152.

Factors for consideration, §32-6-153.

Subdivision defined, §32-6-150.

SUBPOENAS.

Hospital acquisition.

Powers of attorney general, §31-7-411.

SUBPOENAS —Cont'd

Medical records, §§31-33-1 to 31-33-8.

SUBSTANCE ABUSE.

Special facilities.

Defined, §31-1-8.

Notice of proposed special facility, §31-1-8.

SUICIDE.

Advance directives for health care.

Instrument does not constitute suicide, §31-32-11.

SUNBATHING.

Tanning facilities.

General provisions, §§31-38-1 to 31-38-12.

SUNGLASSES.

Flammable materials.

Prescription sunglass frames.

Use of flammable materials in frames, §31-1-2.

Frames.

Use of flammable materials in sunglass frames, §31-1-2.

Lenses.

Delivery of completed work by optical offices, laboratories or manufacturers, §31-1-2.

SUNSET LAW.

Hospitals.

Provider payment agreement act.

Termination of provisions, §31-8-179.8.

SUPERIOR COURTS.

Birth certificates.

Judicial procedure to establish facts of birth.

Delayed certificate rejected, §31-10-12.

Vital records.

Birth certificates.

Judicial procedure to establish facts of birth.

Delayed certificate rejected, §31-10-12.

SUPERSEDEAS.

Health violations and public nuisances.

Appeal not to operate supersedeas, §31-5-9.

SURGERY.

Venereal diseases, §31-17-7.

INDEX

SWIMMING.

Drowning victims.

Do not resuscitate orders generally,
§§31-39-1 to 31-39-9.

SWIMMING POOLS.

Public pools.

Health and safety.

Michelle's Law, §§31-45-1 to
31-45-13.

SYPHILIS.

Public health hazard, §31-17-1.

SYSTEM OF CERTIFIED STROKE

CENTERS, §§31-11-110 to
31-11-119.

T

TANDEM AXLES.

Defined, §32-6-26.

Maximum load on, §32-6-26.

TANNING FACILITIES, §§31-38-1 to
31-38-12.

Administrator's immunity from
liability, §31-38-12.

Advertising prohibitions, §31-38-8.

Applicability of chapter.

Effect on administrator, §31-38-12.

Exemptions, §31-38-2.

Construction of chapter.

Effect on administrator, §31-38-12.

Exemptions from applicability,
§31-38-2.

Construction requirements, §31-38-3.

Danger signs.

Ultraviolet radiation, §31-38-4.

Definitions, §31-38-1.

Electrical code.

Compliance with national electrical
code, §31-38-5.

Equipment maintenance
requirements, §31-38-8.

Equipment use by minors restricted,
§31-38-8.

Eyeglasses.

Protective goggles requirement,
§31-38-7.

Posting of warning sign, §31-38-4.

Variance permitted, §31-38-11.

Federal regulation compliance,
§31-38-5.

Fees for registration, §31-38-4.1.

Handrails and nonslip floors.

Stand-up tanning booths, §31-38-6.

TANNING FACILITIES —Cont'd

Injury.

Written report of injury requirement,
§31-38-8.

Maintenance requirements, §31-38-3.

Maximum exposure.

Posting of warning sign, §31-38-4.

Minors.

Use of tanning equipment restricted,
§31-38-8.

Noncompliance with chapter,
§31-38-9.

Operation requirements, §31-38-3.

Physical barriers requirements,
§31-38-5.

Posting requirements.

Warning signs, §31-38-4.

Private right of action authorized,
§31-38-10.

Protective eye wear requirement.

Generally, §31-38-7.

Posting of warning sign, §31-38-4.

Variance permitted, §31-38-11.

Warning sign to be posted, §31-38-4.

Registration requirements,
§31-38-4.1.

Stand-up tanning booth
requirements, §31-38-6.

Tanning booths.

Building and structure.

Stand-up tanning booths, §31-38-6.

Variance permitted, §31-38-11.

Misdemeanors, §31-40-7.

Section 16-12-5 not repealed,
§31-40-10.

Permits.

Denial, suspension and revocation,
§31-40-3.

Administrative review, §31-40-4.

Issuance, §31-40-2.

INDEX

TATTOOING —Cont'd

Tattoo studios —Cont'd

- Rules and regulations, §31-40-5.
- Enforcement, §31-40-6.

TAXATION.

Exemptions from taxation.

- Georgia highway authority.
- Revenue bonds, §32-10-34.
- Hospital authorities.
 - Revenue certificates, §31-7-79.
- Residential care facilities for the elderly authorities, §31-7-118.
- State road and tollway authority.
 - Revenue bonds, §32-10-94.
- Transportation infrastructure bank, §32-10-129.

Federal parkways.

- Acquisition of rights of way and easements.
- Taxing power of state reserved, §32-3-39.

Georgia highway authority.

- Revenue bonds.
 - Tax exemption for bonds, their transfer and income, §32-10-34.
 - Covenant with bondholders as to tax-exempt status, §32-10-49.

Hospital authorities.

- Payment for authority's services and facilities.
- Levy of tax by political subdivisions, §31-7-84.
- Revenue certificates.
 - Exemption from taxation, §31-7-79.

Residential care facilities for the elderly authorities.

- Exemption from taxation, §31-7-118.

State road and tollway authority.

- Revenue bonds.
 - Covenant with bondholders as to tax-exempt status, §32-10-109.
 - Tax exemption for bonds, their transfer and income, §32-10-94.

T-CELL LYMPHOTROPIC VIRUS.

HIV defined as including, §31-22-9.1.

TEACHING HOSPITALS.

Hospital authorities operating, funding, §31-7-95.

TEMPORARY CONSENT FOR

HEALTH CARE, §§31-36A-1 to 31-36A-7.

Absence of a person authorized to consent.

- Defined, §31-36A-3.

TEMPORARY CONSENT FOR HEALTH CARE —Cont'd

Authority to consent.

- Limitation on, §31-36A-6.
- Petition for order, §31-36A-7.

Citation of act, §31-36A-1.

Conflict of laws, §31-36A-6.

Construction of act, §31-36A-4.

Disciplinary action against physician, §§31-36A-6, 31-36A-7.

Immunity from liability, §§31-36A-6, 31-36A-7.

Involuntary mental illness hospitalization.

- Inapplicability of act, §31-36A-4.

Legislative intent, §31-36A-2.

Limited authorization order, §31-36A-7.

Persons authorized to consent.

- Expiration of limited authorization order, §31-36A-7.

- Priority consideration, §31-36A-6.

Physician's certification, §31-36A-5.

Public policy, §31-36A-2.

Title of act, §31-36A-1.

Unable to consent.

- Certification by physician, §31-36A-5.
- Defined, §31-36A-3.

TERMINALLY ILL PERSONS.

Advance directives for health care, §§31-32-1 to 31-32-14.

Hospice care.

- General provisions, §§31-7-170 to 31-7-179.

TERRORISM.

Bioterrorism.

- Control of hazardous conditions, preventable disease and metabolic disorders generally, §§31-12-1 to 31-12-14.

- Defined, §31-12-1.1.

- Department's duties, §31-12-2.1.

- Reporting requirements.

- Deaths or illnesses potentially caused by bioterrorism, §31-12-2.

- Vaccinations for emergency responders, §§31-35-10, 31-35-11.

Public health emergencies.

- Bioterrorism, §31-12-1.1.

- Control of hazardous conditions, preventable disease and metabolic disorders generally, §§31-12-1 to 31-12-14.

INDEX

TERRORISM —Cont'd

Public health emergencies —Cont'd

Bioterrorism —Cont'd

Department's duties, §31-12-2.1.

Reporting requirements.

Smallpox vaccination and treatment program, §31-12-4.1.

THEATERS.

Smokefree air act.

General provisions, §§31-12A-1 to 31-12A-13.

Public place defined, §31-12A-2.

Smoking prohibited in public places, §31-12A-4.

THE BLOOD LABELING ACT.

Labeling blood generally, §§31-24-1 to 31-24-8.

Short title, §31-24-1.

TIME.

Birth certificates.

Filing after live birth, time, §31-10-9.

Death.

Determination of time of death, §31-10-15.

Death certificates.

Filing with local registrars, §31-10-15.

Vital records.

Birth certificates.

Filing after live birth, time, §31-10-9.

Death certificates.

Filing with local registrars, §31-10-15.

TINTED CONTACT LENSES.

Prescription specifying.

Instructions to be observed, §31-12-12.

TIRE CHAINS.

Use for safety because of snow, ice or other conditions.

Limited access to roads due to inclement weather, requirements, §32-6-5.

TIRES.

Motor vehicles.

Chains.

Limited access to roads due to inclement weather, requirements, §32-6-5.

TIRES —Cont'd

Pneumatic tires.

Vehicle weight and load, §32-6-26.

TISSUE BANKS.

Clinical laboratories.

General provisions, §§31-22-1 to 31-22-13.

Newborn umbilical cord blood bank, §§31-46-1 to 31-46-5.

TOBACCO.

Smokefree air act of 2005, §§31-12A-1 to 31-12A-13.

TOILET WATER.

Gray water.

Defined, private residential reuse, §31-3-5.2.

TOLL CHARGES.

Responsibility of state road and tollway authority, §32-10-64.

TOLL ROADS AND TOLL BRIDGES.

State road and tollway authority.

General provisions, §§32-10-60 to 32-10-110.

TOLLS, FAILURE TO PAY, §32-10-64.

TOLL TAKERS.

Employment by state road and tollway authority, §32-10-64.

TOLLWAY AUTHORITY.

State road and tollway authority, §§32-10-60 to 32-10-110.

TOMOGRAPHY.

Positron emission tomography.

Clinical health services defined as including, §31-6-2.

TOPOGRAPHIC FACTORS.

Federal parkways.

Acquisition of rights of way and easements.

Amount of land to be acquired for rights of way.

Variance to be dependent upon topographical conditions, §32-3-34.

TORTS.

Active tuberculosis.

Involuntary confinement of patient.

Immunity from liability, §31-14-14.

INDEX

TORTS —Cont'd

Tort claims act.

- Health share volunteers in medicine.
- State officer or employee.
 - Health care provider executing contract with governmental contractor considered, §31-8-193.
 - Notice to patient or legal representative, §31-8-194.
- Volunteers providing services considered, §§31-8-195, 31-8-195.1.
- State's rights not reduced by act, §31-8-201.

TOURISM.

State highway system.

- Alternative tourism routes, §32-4-24.

TOURIST CENTERS.

- Gateway center, Cobb county,** §32-2-4.1.

TOURIST COURTS, §§31-28-1 to 31-28-7.

Defined, §31-28-1.

Health, sanitation and safety standards, §31-28-5.

Inspection of premises, §31-28-6.

Local government orders.

- Administrative review, §31-28-4.

Permits.

- Denial, §31-28-3.
- Disciplinary actions against permittees, §31-28-3.
 - Administrative review, §31-28-4.
- Duration, §31-28-2.
- Issuance, §31-28-2.
- Operation without permit prohibited, §31-28-7.

Sanitation and safety standards, §31-28-5.

- Inspection of premises, §31-28-6.

TOWERS.

Commercial wrecker emergency tow permits, §32-6-28.

Limited access to roads due to inclement weather, requirements.

- Tire chains, exemption from requirement, §32-6-5.

TOWNS.

Gray water.

- Reuse violations.
 - Authority to punish, §31-3-5.2.

TRAFFICKING.

Human body parts.

- Corpses, §31-21-41.

TRAFFIC LAWS.

Criminal offenses.

- Erection or maintenance of unlawful or unauthorized signs or structures, §32-6-51.

Parked vehicles.

- Leaving unattended on right of way of public road, §32-6-2.

Signs and signals.

- Erection, placement or maintenance.
 - Uniform regulations governing, §32-6-50.
 - Unlawful or unauthorized structure, §32-6-51.
- Nudity or sexual conduct, display on outdoor advertising visible from roadway, §32-6-52.

- Sale of devices, §32-6-50.

- Uniform regulations governing traffic-control devices, §32-6-50.

Stopping.

- Purposes of weighing, measuring or inspecting, §32-6-30.

Unattended motor vehicles.

- Leaving on right of way of public road, §32-6-2.

TRAILER PARKS OR COURTS.

Tourist courts, §§31-28-1 to 31-28-7.

TRANSFUSIONS.

Blood labeling.

- Administration of blood by transfusion, §31-24-5.
- Identification of blood, §31-24-5.
- Defined, §31-24-2.

TRANSIT AUTHORITY ACT, §32-9-9.

TRANSPORTATION.

Code of public transportation generally, §§32-9-1 to 32-9-14.

Coordinating committee for rural and human services transportation, §§32-12-1 to 32-12-6.

Department of transportation.

- General provisions, §§32-2-1 to 32-2-81.

Eminent domain.

- Road construction and other transportation purposes.
 - General provisions, §§32-3-1 to 32-3-39.

INDEX

TRANSPORTATION —Cont'd Funds.

State public transportation fund,
§§32-5-20 to 32-5-27.

**Georgia transportation
infrastructure bank, §§32-10-120
to 32-10-133.**

**Mass transportation generally,

THIS SUPPLEMENT CONTAINS

Statutes:

All laws specifically codified by the General Assembly of the State of Georgia through the 2018 Regular Session of the General Assembly.

Annotations of Judicial Decisions:

Case annotations reflecting decisions posted to LexisNexis® through May 12, 2018. These annotations will appear in the following traditional reporter sources: Georgia Reports; Georgia Appeals Reports; Southeastern Reporter; Supreme Court Reporter; Federal Reporter; Federal Supplement; Federal Rules Decisions; Lawyers' Edition; United States Reports; and Bankruptcy Reporter.

Annotations of Attorney General Opinions:

Constructions of the Official Code of Georgia Annotated, prior Codes of Georgia, Georgia Laws, the Constitution of Georgia, and the Constitution of the United States by the Attorney General of the State of Georgia posted to LexisNexis® through May 12, 2018.

Other Annotations:

| 31-1-15. | Storage, maintenance, control, and oversight of auto-injectable epinephrine by certain authorized entities. | | |

ARTICLE 1

GENERAL PROVISIONS

31-1-10. State health officer; duties.

(a) The position of state health officer is created. The Governor may appoint the commissioner of public health to serve simultaneously as the state health officer or may appoint another individual to serve as

state health officer. Such officer shall serve at the pleasure of the Governor. An individual appointed to serve as state health officer shall be licensed to practice medicine in this state.

(b) The state health officer shall:

(1) Perform such health emergency preparedness and response duties as assigned by the Governor; and

(2) Be authorized to issue a standing order prescribing an opioid antagonist, as such term is defined in Code Section 26-4-116.2, on a state-wide basis under conditions that he or she determines to be in the best interest of this state. (Code 1981, § 31-1-10, enacted by Ga. L. 2009, p. 453, § 1-3/HB 228; Ga. L. 2011, p. 705, § 3-6/HB 214; Ga. L. 2017, p. 22, § 5/SB 121; Ga. L. 2017, p. 319, § 3-2/HB 249.)

The 2017 amendments. — The first 2017 amendment, effective May 18, 2017, added the fourth sentence of subsection (a), and substituted the present provisions of subsection (b) for the former provisions, which read: “The state health officer shall perform such health emergency preparedness and response duties as assigned by the Governor.” The second 2017 amendment, effective July 1, 2017, made identical changes.

Editor’s notes. — Ga. L. 2017, p. 22, § 1/SB 121, not codified by the General Assembly, provides that: “This Act shall be known and may be cited as the ‘Jeffrey Dallas Gay, Jr., Act.’”

Law reviews. — For article on the 2017 amendment of this Code section, see 34 Ga. St. U. L. Rev. 143 (2017).

31-1-14. Physician Orders for Life-Sustaining Treatment (POLST) forms.

(a) As used in this Code section, the term:

(1) “Attending physician” means the physician who has primary responsibility at the time of reference for the treatment and care of the patient.

(2) “Authorized person” shall have the same meaning as in Code Section 31-39-2.

(3) “Decision-making capacity” means the ability to understand and appreciate the nature and consequences of an order regarding end of life care decisions, including the benefits and disadvantages of such an order, and to reach an informed decision regarding the order.

(4) “Health care facility” shall have the same meaning as in Code Section 31-32-2.

(5) “Health care provider” shall have the same meaning as in Code Section 31-32-2.

(6) “Life-sustaining procedures” means medications, machines, or other medical procedures or interventions which, when applied to a

patient in a terminal condition or in a state of permanent unconsciousness, could in reasonable medical judgment keep the patient alive but cannot cure the patient and where, in the judgment of the attending physician and a second physician, death will occur without such procedures or interventions. The term “life-sustaining procedures” shall not include the provision of nourishment or hydration, but a patient may direct the withholding or withdrawal of the provision of nourishment or hydration in a POLST form. The term “life-sustaining procedures” shall not include the administration of medication to alleviate pain or the performance of any medical procedure deemed necessary to alleviate pain.

(7) “Physician Orders for Life-Sustaining Treatment form” or “POLST form” means a form executed pursuant to this Code section which provides directions regarding the patient’s end of life care.

(8) “Provision of nourishment or hydration” means the provision of nutrition or fluids by tube or other medical means.

(9) “State of permanent unconsciousness” means an incurable or irreversible condition in which the patient is not aware of himself or herself or his or her environment and in which the patient is showing no behavioral response to his or her environment.

(10) “Terminal condition” means an incurable or irreversible condition which would result in the patient’s death in a relatively short period of time.

(b) The department shall develop and make available a Physician Orders for Life-Sustaining Treatment form. On and after July 1, 2016, the department shall notify the chairpersons and each member of the House Committee on Health and Human Services and the Senate Health and Human Services Committee at least 60 days prior to implementing any modification of the POLST form. Such form shall provide directions regarding the patient’s end of life care and may be voluntarily executed by either a patient who has decision-making capacity and an attending physician or, if the patient does not have decision-making capacity, by the patient’s authorized person and an attending physician; provided, however, that this shall not prevent a health care facility from imposing additional administrative or procedural requirements regarding a patient’s end of life care decisions. A POLST form may be executed when a patient has a serious illness or condition and the attending physician’s reasoned judgment is that the patient will die within the next 365 days; provided, however, that a POLST form may be executed at any time if a person has been diagnosed with dementia or another progressive, degenerative disease or condition that attacks the brain and results in impaired memory, thinking, and behavior. A POLST form, if signed by an authorized

person, shall indicate the relationship of the authorized person to the patient pursuant to paragraph (3) of Code Section 31-39-2.

(c)(1) A POLST form shall constitute a legally sufficient order that may be utilized by a health care provider or health care facility in accordance with its policies and procedures regarding end of life care. Such an order shall remain effective unless the order is revoked by the attending physician upon the consent of the patient or the patient's authorized person. An attending physician who has issued such an order and who transfers care of the patient to another physician shall inform the receiving physician and the health care facility, if applicable, of the order. Review of the POLST form is recommended at care transitions, and such review should be specified on the form.

(2) A POLST form signed by the patient and attending physician and indicating "allow natural death" or "do not resuscitate" or the equivalent may be implemented without restriction. If the POLST form (i) is signed by the attending physician and an authorized person instead of the patient and (ii) indicates "allow natural death" or "do not resuscitate" or the equivalent, in compliance with subsection (c) of Code Section 31-39-4, the POLST form may be implemented or become effective when the patient is a candidate for nonresuscitation, and such consent shall be based in good faith upon what such authorized person determines such candidate for nonresuscitation would have wanted had such candidate for nonresuscitation understood the circumstances under which such order is being considered.

(3) A POLST form addressing interventions other than resuscitation and signed by the patient and attending physician may be implemented without restriction. If the POLST form is signed by an authorized person who is the health care agent named by the patient in an advance directive for health care and the attending physician, in compliance with paragraph (1) of subsection (e) of Code Section 31-32-7, all treatment indications on the POLST form may be implemented. If the POLST form is signed by an authorized person who is not the health care agent named by the patient in an advance directive for health care, treatment indications on the POLST form may be implemented or become effective only when the patient is in a terminal condition or a state of permanent unconsciousness; provided, however, that a POLST form may become effective at any time if a person has been diagnosed with dementia or another progressive, degenerative disease or condition that attacks the brain and results in impaired memory, thinking, and behavior.

(4) A POLST form shall be portable with the patient across care settings and shall be valid in any health care facility in which the

patient who is the subject of such form is being treated; provided, however, that this shall not prevent a health care facility from imposing additional requirements regarding a patient's end of life care decisions. A health care facility and a health care provider, in its discretion, may rely upon a POLST form as legally valid consent by the patient to the terms therein.

(5) A copy of a POLST form shall be valid and have the same meaning and effect as the original document.

(6) A physician orders for life-sustaining treatment form which was executed in another state, which is valid under the laws of such state and which is substantially similar to the Georgia POLST form, and contains signatures of (i) either the patient or an authorized person and (ii) the attending physician, shall be treated as a POLST form which complies with this Code section.

(d)(1) Each health care provider, health care facility, and any other person who acts in good faith reliance on a POLST form shall be protected and released to the same extent as though such provider, facility, or other person had interacted directly with the patient as a fully competent person. Without limiting the generality of the foregoing, the following specific provisions shall also govern, protect, and validate the acts of an authorized person and each such health care provider, health care facility, and any other person acting in good faith reliance on such POLST form:

(A) No such health care provider, health care facility, or person shall be subject to civil or criminal liability or discipline for unprofessional conduct solely for complying with a patient's end of life care decisions as provided in a POLST form, even if death or injury to the patient ensues;

(B) No such health care provider, health care facility, or person shall be subject to civil or criminal liability or discipline for unprofessional conduct solely for failure to comply with a patient's end of life care decisions in a POLST form, so long as such health care provider, health care facility, or person promptly informs the patient or the patient's authorized person of such health care provider's, health care facility's, or person's refusal or failure to comply with such patient's end of life care decisions in a POLST form. The authorized person shall then be responsible for arranging the patient's transfer to another health care provider or health care facility. A health care provider, health care facility, or person who is unwilling to comply with a patient's end of life care decisions in a POLST form shall continue to provide reasonably necessary consultation and care in connection with the pending transfer;

(C) If the actions of a health care provider, health care facility, or person who fails to comply with a patient's end of life care decisions

in a POLST form are substantially in accord with reasonable medical standards at the time of reference and such provider, facility, or person cooperates in the transfer of the patient, then the health care provider, health care facility, or person shall not be subject to civil or criminal liability or discipline for unprofessional conduct for failure to comply with such patient's end of life care decisions in a POLST form;

(D) No authorized person who, in good faith, acts with due care for the benefit of the patient and in accordance with a patient's end of life care decisions in a POLST form, or who fails to act, shall be subject to civil or criminal liability for such action or inaction; and

(E) If a POLST form is revoked, a person shall not be subject to criminal prosecution or civil liability for acting in good faith reliance upon a patient's end of life care decisions in a POLST form unless such person had actual knowledge of the revocation.

(2) No person shall be civilly liable for failing or refusing in good faith to effectuate a patient's end of life care decisions in a POLST form regarding the withholding or withdrawal of life-sustaining procedures or the withholding or withdrawal of the provision of nourishment or hydration.

(3) No physician or any person acting under a physician's direction and no health care facility or any agent or employee thereof who, acting in good faith in accordance with the requirements of this Code section, causes the withholding or withdrawal of life-sustaining procedures or the withholding or withdrawal of the provision of nourishment or hydration from a patient or who otherwise participates in good faith therein shall be subject to any civil or criminal liability or guilty of unprofessional conduct therefor.

(4) Any person who participates in the withholding or withdrawal of life-sustaining procedures or the withholding or withdrawal of the provision of nourishment or hydration pursuant to a patient's end of life care decisions in a POLST form and who has actual knowledge that such POLST form has been properly revoked shall not have any civil or criminal immunity otherwise granted under this subsection for such conduct.

(e) In the event there are any directions in a patient's previously executed living will, advance directive for health care, durable power of attorney for health care, do not resuscitate order, or other legally authorized instrument that conflict with the directions in a POLST form, the most recent instrument will take precedence to the extent of the conflict.

(f) Nothing in this Code section shall be construed to authorize any act prohibited by Code Section 16-5-5. Any health care provider, health

care facility, or any other person who violates Code Section 16-5-5 shall not be entitled to any civil immunity provided pursuant to this Code section. (Code 1981, § 31-1-14, enacted by Ga. L. 2015, p. 305, § 1/SB 109; Ga. L. 2016, p. 757, § 1/SB 305; Ga. L. 2016, p. 864, § 31/HB 737.)

Effective date. — This Code section became effective July 1, 2015.

The 2016 amendments. — The first 2016 amendment, effective July 1, 2016, added the second sentence in subsection (b). The second 2016 amendment, effective May 3, 2016, part of an Act to revise, modernize, and correct the Code, revised punctuation in paragraph (a)(6) and subparagraph (d)(1)(C).

Code Commission notes. — Pursuant to Code Section 28-9-5, in 2015, Code Section 31-1-14, as enacted by Ga. L. 2015, p. 312, § 2/SB 126, was redesignated as Code Section 31-1-15.

Law reviews. — For annual survey on wills, trusts, guardianships, and fiduciary administration, see 67 Mercer L. Rev. 273 (2015).

31-1-15. Storage, maintenance, control, and oversight of auto-injectable epinephrine by certain authorized entities.

(a) As used in this Code section, the term:

(1) “Authorized entity” means any entity or organization, other than a school subject to Code Section 20-2-776.2, in connection with or at which allergens capable of causing anaphylaxis may be present, as identified by the department. The department shall, through rule or other guidance, identify the types of entities and organizations that are considered authorized entities no later than January 1, 2016, and shall review and update such rule or guidance at least annually thereafter. For purposes of illustration only, such entities may include, but are not limited to, restaurants, recreation camps, youth sports leagues, theme parks and resorts, and sports arenas.

(2) “Auto-injectable epinephrine” means a single-use device used for the automatic injection of a premeasured dose of epinephrine into the human body.

(3) “Health care practitioner” means a physician licensed to practice medicine in this state, an advanced practice registered nurse acting pursuant to the authority of Code Section 43-34-25, and a physician assistant acting pursuant to the authority of subsection (e.1) of Code Section 43-34-103.

(b) An authorized entity may acquire and stock a supply of auto-injectable epinephrine pursuant to a prescription issued in accordance with Code Section 26-4-116.1. Such auto-injectable epinephrine shall be stored in a location readily accessible in an emergency and in accordance with the auto-injectable epinephrine’s instructions for use and any additional requirements that may be established by the department. An authorized entity shall designate employees or agents

who have completed the training required by subsection (d) of this Code section to be responsible for the storage, maintenance, control, and general oversight of auto-injectable epinephrine acquired by the authorized entity.

(c) An employee or agent of an authorized entity, or any other individual, who has completed the training required by subsection (d) of this Code section may use auto-injectable epinephrine prescribed pursuant to Code Section 26-4-116.1 to:

(1) Provide auto-injectable epinephrine to any individual who the employee, agent, or other individual believes in good faith is experiencing anaphylaxis, or to the parent, guardian, or caregiver of such individual, for immediate administration, regardless of whether the individual has a prescription for auto-injectable epinephrine or has previously been diagnosed with an allergy; and

(2) Administer auto-injectable epinephrine to any individual who the employee, agent, or other individual believes in good faith is experiencing anaphylaxis, regardless of whether the individual has a prescription for auto-injectable epinephrine or has previously been diagnosed with an allergy.

(d) An employee, agent, or other individual described in subsection (b) or (c) of this Code section shall complete an anaphylaxis training program and repeat such training at least every two years following completion of the initial anaphylaxis training program. Such training shall be conducted by a nationally recognized organization experienced in training laypersons in emergency health treatment or an entity or individual approved by the department. Training may be conducted online or in person and, at a minimum, shall cover:

(1) How to recognize signs and symptoms of severe allergic reactions, including anaphylaxis;

(2) Standards and procedures for the storage and administration of auto-injectable epinephrine; and

(3) Emergency follow-up procedures.

(e) An authorized entity that possesses and makes available auto-injectable epinephrine and its employees, agents, and other individuals; a health care practitioner that prescribes or dispenses auto-injectable epinephrine to an authorized entity; a pharmacist or health care practitioner that dispenses auto-injectable epinephrine to an authorized entity; and an individual or entity that conducts the training described in subsection (d) of this Code section shall not be liable for any injuries or related damages that result from any act or omission taken pursuant to this Code section; provided, however, that this immunity does not apply to acts or omissions constituting willful or

wanton misconduct. The administration of auto-injectable epinephrine in accordance with this Code section is not the practice of medicine or any other profession that otherwise requires licensure. This Code section does not eliminate, limit, or reduce any other immunity or defense that may be available under state law, including that provided under Code Section 51-1-29. An entity located in this state shall not be liable for any injuries or related damages that result from the provision or administration of auto-injectable epinephrine outside of this state if the entity:

- (1) Would not have been liable for such injuries or related damages had the provision or administration occurred within this state; or
- (2) Is not liable for such injuries or related damages under the law of the state in which such provision or administration occurred.

(f) An authorized entity that possesses and makes available auto-injectable epinephrine shall submit to the department, on a form developed by the department, a report including each incident on the authorized entity’s premises that involves the administration of auto-injectable epinephrine pursuant to subsection (c) of this Code section and any other information deemed relevant by the department. The department shall annually publish a report that summarizes and analyzes all reports submitted to it under this subsection.

(g) The department shall establish requirements regarding the storage, maintenance, control, and oversight of the auto-injectable epinephrine, including but not limited to any temperature limitations and expiration of such auto-injectable epinephrine. (Code 1981, § 31-1-15, enacted by Ga. L. 2015, p. 312, § 2/SB 126.)

Effective date. — This Code section became effective July 1, 2015.

Code Commission notes. — Pursuant to Code Section 28-9-5, in 2015, Code

Section 31-1-14, as enacted by Ga. L. 2015, p. 312, § 2/SB 126, was redesignated as Code Section 31-1-15.

ARTICLE 3

GEORGIA HEALTH CARE FREEDOM

Effective date. — This article became effective April 15, 2014.

Law reviews. — For note, “Charting the Middle Course: An Argument for Ro-

bust But Well-Tailored Health Care Discrimination Protection for the Transgender Community,” see 52 Ga. L. Rev. 225 (2017).

31-1-40. Prohibition on expenditure or use of state resources to advocate for or intended to influence citizens in support of federal Affordable Care Act.

(a) Neither the state nor any department, agency, bureau, authority, office, or other unit of the state nor any political subdivision of the state shall expend or use moneys, human resources, or assets to advocate or intended to influence the citizens of this state in support of the voluntary expansion by the State of Georgia of eligibility for medical assistance in furtherance of the federal “Patient Protection and Affordable Care Act,” Public Law 111-148, beyond the eligibility criteria in effect on April 15, 2014, under the provisions of 42 U.S.C. Section 1396a(a)(10)(A)(i)(VIII) of the federal Social Security Act, as amended.

(b) The Attorney General shall enforce the provisions of this Code section in accordance with Article V, Section III, Paragraph IV of the Constitution of the State of Georgia.

(c) Nothing in this Code section shall be construed to prevent an officer or employee of the State of Georgia or of any department, agency, bureau, authority, office, unit, or political subdivision thereof from advocating or attempting to influence public policy:

(1) As part of such person’s official duties;

(2) When acting on personal time without using state resources; or

(3) When providing bona fide educational instruction about the federal Patient Protection and Affordable Care Act of 2010 in institutions of higher learning or otherwise.

(d) Nothing in this Code section shall be construed to preclude the state from participating in any MEDICAID program. (Code 1981, § 31-1-40, enacted by Ga. L. 2014, p. 243, § 1-2/HB 943.)

Effective date. — This Code section became effective April 15, 2014.

Code Commission notes. — Pursuant to Code Section 28-9-5, in 2014, “April 15, 2014,” was substituted for “the effective date of this Code section” near the end of subsection (a).

Editor’s notes. — Ga. L. 2014, p. 243, § 1-1/HB 943, not codified by the General Assembly, provides: “This Act shall be known and may be cited as the ‘Georgia Health Care Freedom Act.’”

31-2-1. Legislative intent; grant of authority.

Given the growing concern and complexities of health issues in this state, it is the intent of the General Assembly to create a Department of Community Health dedicated to health issues. Illustrating, without limiting, the foregoing grant of authority, the department is empowered to:

- (1) Serve as the lead planning agency for all health issues in the state to remedy the current situation wherein the responsibility for health care policy, purchasing, planning, and regulation is spread among many different agencies and achieve determinations of Medicaid eligibility for inmates to attain services at long-term care facilities when he or she is being considered for parole;
- (2) Permit the state to maximize its purchasing power and to administer its operations in a manner so as to receive the maximum amount of federal financial participation available in expenditures of the department;

(3) Minimize duplication and maximize administrative efficiency in the state's health care systems by removing overlapping functions and streamlining uncoordinated programs;

(4) Allow the state to develop a better health care infrastructure that is more responsive to the consumers it serves while improving access to and coverage for health care;

(5) Focus more attention and departmental procedures on the issue of wellness, including diet, exercise, and personal responsibility;

(6) Enter into or upon public or private property at reasonable times for the purpose of inspecting same to determine the presence of conditions deleterious to health or to determine compliance with applicable laws and rules, regulations, and standards thereunder; and

(7) Promulgate and enforce rules and regulations for the licensing of medical facilities wherein abortion procedures under subsections (b) and (c) of Code Section 16-12-141 are to be performed. (Code 1981, § 31-5A-1, enacted by Ga. L. 1999, p. 296, § 1; Code 1981, § 31-2-1, as redesignated by Ga. L. 2009, p. 453, § 1-1/HB 228; Ga. L. 2011, p. 705, § 4-1/HB 214; Ga. L. 2018, p. 550, § 3-1/SB 407.)

The 2018 amendment, effective July 1, 2018, added “and achieve determinations of Medicaid eligibility for inmates to

attain services at long-term care facilities when he or she is being considered for parole” at the end of paragraph (1).

JUDICIAL DECISIONS

Cited in *Tanner Med. Ctr., Inc. v. Vest Newnan, LLC*, 337 Ga. App. 884, 789 S.E.2d 258 (2016).

31-2-4. Department's powers, duties, functions, and responsibilities; divisions; directors; contracts for health benefits.

(a)(1)(A) The Department of Community Health is re-created and established to perform the functions and assume the duties and powers exercised on June 30, 2009, by the Department of Community Health, the Division of Public Health of the Department of Human Resources, and the Office of Regulatory Services of the Department of Human Resources, unless specifically transferred to the Department of Human Services, and such department, division, and office shall be reconstituted as the Department of Community Health effective July 1, 2009. The department shall retain powers and responsibility with respect to the expenditure of any funds appropriated to the department including, without being limited to, funds received by the state pursuant to the settlement of

the lawsuit filed by the state against certain tobacco companies, *State of Georgia, et al. v. Philip Morris, Inc., et al.*, Civil Action #E-61692, V19/246 (Fulton County Superior Court, December 9, 1998).

(B) On and after July 1, 2011, the functions, duties, and powers of the Department of Community Health relating to the former Division of Public Health of the Department of Human Resources shall be performed and exercised by the Department of Public Health pursuant to Code Section 31-2A-2. No power, function, responsibility, duty, or similar authority held by the Department of Community Health as of June 30, 2009, shall be diminished or lost due to the creation of the Department of Public Health.

(2) The director of the Division of Public Health in office on June 30, 2009, and the director of the Office of Regulatory Services in office on June 30, 2009, shall become directors of the respective division or office which those predecessor agencies or units have become on and after July 1, 2009, and until such time as the commissioner appoints other directors of such divisions or units. The position of director of the Division of Public Health shall be abolished effective July 1, 2011.

(b) Reserved.

(c) The Board of Regents of the University System of Georgia is authorized to contract with the department for health benefits for members, employees, and retirees of the board of regents and the dependents of such members, employees, and retirees and for the administration of such health benefits. The department is also authorized to contract with the board of regents for such purposes.

(d) In addition to its other powers, duties, and functions, the department:

(1) Shall be the lead agency in coordinating and purchasing health care benefit plans for state and public employees, dependents, and retirees and may also coordinate with the board of regents for the purchase and administration of such health care benefit plans for its members, employees, dependents, and retirees;

(2) Is authorized to plan and coordinate medical education and physician work force issues;

(3) Shall investigate the lack of availability of health insurance coverage and the issues associated with the uninsured population of this state. In particular, the department is authorized to investigate the feasibility of creating and administering insurance programs for small businesses and political subdivisions of the state and to propose cost-effective solutions to reducing the numbers of uninsured in this state;

(4) Is authorized to appoint a health care work force policy advisory committee to oversee and coordinate work force planning activities;

(5) Is authorized to solicit and accept donations, contributions, and gifts and receive, hold, and use grants, devises, and bequests of real, personal, and mixed property on behalf of the state to enable the department to carry out its functions and purposes;

(6) Is authorized to award grants, as funds are available, to hospital authorities, hospitals, and medical-legal partnerships for public health purposes, pursuant to Code Sections 31-7-94 and 31-7-94.1 and paragraph (11) of this subsection;

(7) Shall make provision for meeting the cost of hospital care of persons eligible for public assistance to the extent that federal matching funds are available for such expenditures for hospital care. To accomplish this purpose, the department is authorized to pay from funds appropriated for such purposes the amount required under this paragraph into a trust fund account which shall be available for disbursement for the cost of hospital care of public assistance recipients. The commissioner, subject to the approval of the Office of Planning and Budget, on the basis of the funds appropriated in any year, shall estimate the scope of hospital care available to public assistance recipients and the approximate per capita cost of such care. Monthly payments into the trust fund for hospital care shall be made on behalf of each public assistance recipient and such payments shall be deemed encumbered for assistance payable. Ledger accounts reflecting payments into and out of the hospital care fund shall be maintained for each of the categories of public assistance established under Code Section 49-4-3. The balance of state funds in such trust fund for the payment of hospital costs in an amount not to exceed the amount of federal funds held in the trust fund by the department available for expenditure under this paragraph shall be deemed encumbered and held in trust for the payment of the costs of hospital care and shall be rebudgeted for this purpose on each quarterly budget required under the laws governing the expenditure of state funds. The state auditor shall audit the funds in the trust fund established under this paragraph in the same manner that any other funds disbursed by the department are audited;

(8) Shall classify and license community living arrangements in accordance with the rules and regulations promulgated by the department for the licensing and enforcement of licensing requirements for persons whose services are financially supported, in whole or in part, by funds authorized through the Department of Behavioral Health and Developmental Disabilities. To be eligible for licensing as a community living arrangement, the residence and services provided

must be integrated within the local community. All community living arrangements licensed by the department shall be subject to the provisions of Code Sections 31-2-8 and 31-7-2.2. No person, business entity, corporation, or association, whether operated for profit or not for profit, may operate a community living arrangement without first obtaining a license or provisional license from the department. A license issued pursuant to this paragraph is not assignable or transferable. As used in this paragraph, the term “community living arrangement” means any residence, whether operated for profit or not, which undertakes through its ownership or management to provide or arrange for the provision of housing, food, one or more personal services, support, care, or treatment exclusively for two or more persons who are not related to the owner or administrator of the residence by blood or marriage;

(9) Shall establish, by rule adopted pursuant to Chapter 13 of Title 50, the “Georgia Administrative Procedure Act,” a schedule of fees for licensure activities for institutions and other health care related entities required to be licensed, permitted, registered, or commissioned by the department pursuant to Chapter 7, 13, 23, or 44 of this title, Chapter 5 of Title 26, paragraph (8) of this subsection, or Article 7 of Chapter 6 of Title 49. Such schedules shall be determined in a manner so as to help defray the costs incurred by the department, but in no event to exceed such costs, both direct and indirect, in providing such licensure activities. Such fees may be annually adjusted by the department but shall not be increased by more than the annual rate of inflation as measured by the Consumer Price Index, as reported by the Bureau of Labor Statistics of the United States Department of Labor. All fees paid thereunder shall be paid into the general funds of the State of Georgia. It is the intent of the General Assembly that the proceeds from all fees imposed pursuant to this paragraph be used to support and improve the quality of licensing services provided by the department;

(10)(A) May accept the certification or accreditation of an entity or program by a certification or accreditation body, in accordance with specific standards, as evidence of compliance by the entity or program with the substantially equivalent departmental requirements for issuance or renewal of a permit or provisional permit, provided that such certification or accreditation is established prior to the issuance or renewal of such permits. The department may not require an additional departmental inspection of any entity or program whose certification or accreditation has been accepted by the department, except to the extent that such specific standards are less rigorous or less comprehensive than departmental requirements. Nothing in this Code section shall prohibit either departmental inspections for violations of such standards or require-

ments or the revocation of or refusal to issue or renew permits, as authorized by applicable law, or for violation of any other applicable law or regulation pursuant thereto.

(B) For purposes of this paragraph, the term:

(i) “Entity or program” means an agency, center, facility, institution, community living arrangement, drug abuse treatment and education program, or entity subject to regulation by the department under Chapters 7, 13, 22, 23, and 44 of this title; Chapter 5 of Title 26; paragraph (8) of this subsection; and Article 7 of Chapter 6 of Title 49.

(ii) “Permit” means any license, permit, registration, or commission issued by the department pursuant to the provisions of the law cited in division (i) of this subparagraph;

(11)(A) Is authorized to approve medical-legal partnerships that comply with standards and guidelines established for such programs for purposes of determining eligibility for grants. The department shall seek input from legal services organizations, community health advocacy organizations, hospitals, diagnostic and treatment centers, and other primary and specialty health care providers in establishing such standards and guidelines.

(B) For purposes of this paragraph, the term “medical-legal partnership” means a program conducted or established by a nonprofit entity through a collaboration pursuant to a written agreement between one or more medical service providers and one or more legal services programs, including those based within a law school, to provide legal services without charge to assist income-eligible individuals and their families in resolving legal matters or other needs that have an impact on the health of such individuals and families. Written agreements may include a memorandum of understanding or other agreement relating to the operations of the partnership and encompassing the rights and responsibilities of each party thereto. The medical service provider or providers may provide referrals of its patients to the legal services program or programs on matters that may potentially impact the health, health care, or the health care costs of a patient.

(C) A medical-legal partnership that complies with the standards and guidelines established pursuant to this paragraph and has demonstrated the ability and experience to provide high quality patient centered legal services regarding legal matters or other needs that have an impact on the health of individuals and families shall be approved by the department.

(D) This paragraph shall not be construed to require any medical-legal partnership or similar entity to seek or attain approval pursuant to this paragraph in order to operate; and

(12) In cooperation with the Department of Corrections and the State Board of Pardons and Paroles, shall establish and implement a Medicaid eligibility determination procedure so that inmates being considered for parole who are eligible for long-term care services may apply for Medicaid; and

(13) Shall request federal approval for and facilitate the application of certificates of need for facilities capable of providing long-term care services, with Medicaid as the primary funding source, to inmates who are eligible for such services and funding upon his or her release from a public institution, as such term is defined in Code Section 49-4-31. (Code 1981, § 31-5A-4, enacted by Ga. L. 1999, p. 296, § 1; Ga. L. 2001, p. 1240, § 1; Ga. L. 2002, p. 1132, § 1; Ga. L. 2002, p. 1324, § 1-4; Code 1981 § 31-2-4, as redesignated by Ga. L. 2009, p. 453, § 1-1/HB 228; Ga. L. 2009, p. 745, § 2/SB 97; Ga. L. 2010, p. 1014, § 1/HB 994; Ga. L. 2011, p. 705, § 4-2/HB 214; Ga. L. 2014, p. 397, § 1/SB 352; Ga. L. 2018, p. 550, § 3-2/SB 407.)

The 2014 amendment, effective July 1, 2014, in paragraph (d)(6), substituted “hospital authorities, hospitals, and medical-legal partnerships” for “hospital authorities and hospitals” and added “and paragraph (11) of this subsection”; deleted “and” at the end of paragraph (d)(9); added “and” at the end of division (d)(10)(B)(ii); and added paragraph (d)(11).

The 2018 amendment, effective July 1, 2018, deleted “and” at the end of division (d)(10)(B)(ii), substituted “; and” for the period at the end of subparagraph (d)(11)(D), and added paragraphs (d)(12) and (d)(13).

31-2-9. (Repealed effective October 1, 2019) Records check requirement for certain health care facilities; definitions; use of information gathered in investigation; penalties for unauthorized release or disclosure; rules and regulations; retention of fingerprints.

(a) As used in this Code section, the term:

(1) “Conviction” means a finding or verdict of guilty or a plea of guilty regardless of whether an appeal of the conviction has been sought.

(2) “Crime” means commission of the following offenses:

- (A) A violation of Code Section 16-5-1;
- (B) A violation of Code Section 16-5-21;
- (C) A violation of Code Section 16-5-24;
- (D) A violation of Code Section 16-5-70;
- (E) A violation of Article 8 of Chapter 5 of Title 16;
- (F) A violation of Code Section 16-6-1;

- (G) A violation of Code Section 16-6-2;
- (H) A violation of Code Section 16-6-4;
- (I) A violation of Code Section 16-6-5;
- (J) A violation of Code Section 16-6-5.1;
- (K) A violation of Code Section 16-6-22.2;
- (L) A violation of Code Section 16-8-41;
- (M) A felony violation of Code Section 31-7-12.1;

(N) Any other offense committed in another jurisdiction that, if committed in this state, would be deemed to be a crime listed in this paragraph without regard to its designation elsewhere; or

(O) Any other criminal offense as determined by the department and established by rule adopted pursuant to Chapter 13 of Title 50, the “Georgia Administrative Procedure Act,” that would indicate the unfitness of an individual to provide care to or be in contact with persons residing in a facility.

(3) “Criminal record” means any of the following:

(A) Conviction of a crime;

(B) Arrest, charge, and sentencing for a crime where:

(i) A plea of nolo contendere was entered to the charge;

(ii) First offender treatment without adjudication of guilt pursuant to the charge was granted; or

(iii) Adjudication or sentence was otherwise withheld or not entered on the charge; or

(C) Arrest and being charged for a crime if the charge is pending, unless the time for prosecuting such crime has expired pursuant to Chapter 3 of Title 17.

(4) “Facility” means a:

(A) Personal care home required to be licensed or permitted under Code Section 31-7-12;

(B) Assisted living community required to be licensed under Code Section 31-7-12.2;

(C) Private home care provider required to be licensed under Article 13 of Chapter 7 of this title; or

(D) Community living arrangement subject to licensure under paragraph (8) of subsection (d) of Code Section 31-2-4.

(5) "GCIC" means the Georgia Crime Information Center established under Article 2 of Chapter 3 of Title 35.

(6) "GCIC information" means criminal history record information as defined in Code Section 35-3-30.

(7) "License" means the document issued by the department to authorize the facility to operate.

(8) "Owner" means any individual or any person affiliated with a corporation, partnership, or association with 10 percent or greater ownership interest in a facility providing care to persons under the license of the facility in this state and who:

(A) Purports to or exercises authority of the owner in a facility;

(B) Applies to operate or operates a facility;

(C) Maintains an office on the premises of a facility;

(D) Resides at a facility;

(E) Has direct access to persons receiving care at a facility;

(F) Provides direct personal supervision of facility personnel by being immediately available to provide assistance and direction during the time such facility services are being provided; or

(G) Enters into a contract to acquire ownership of a facility.

(9) "Records check application" means fingerprints in such form and of such quality as prescribed by the Georgia Crime Information Center and under standards adopted by the Federal Bureau of Investigation and a records search fee to be established by the department by rule and regulation, payable in such form as the department may direct to cover the cost of obtaining criminal background information pursuant to this Code section.

(b) An owner with a criminal record shall not operate or hold a license to operate a facility, and the department shall revoke the license of any owner operating a facility or refuse to issue a license to any owner operating a facility if it determines that such owner has a criminal record; provided, however, that an owner who holds a license to operate a facility on or before June 30, 2007, shall not have his or her license revoked prior to a hearing being held before a hearing officer pursuant to Chapter 13 of Title 50, the "Georgia Administrative Procedure Act."

(c)(1) Prior to approving any license for a new facility and periodically as established by the department by rule and regulation, the department shall require an owner to submit a records check application. The department shall establish a uniform method of obtaining an owner's records check application.

(2)(A) Unless the department contracts pursuant to subparagraph (B) of this paragraph, the department shall transmit to the GCIC the fingerprints and records search fee from each fingerprint records check application in accordance with Code Section 35-3-35. Upon receipt thereof, the GCIC shall promptly transmit the fingerprints to the Federal Bureau of Investigation for a search of bureau records and an appropriate report and shall promptly conduct a search of its records and records to which it has access. Within ten days after receiving fingerprints acceptable to the GCIC and the fee, the GCIC shall notify the department in writing of any criminal record or if there is no such finding. After a search of Federal Bureau of Investigation records and fingerprints and upon receipt of the bureau's report, the department shall make a determination about an owner's criminal record and shall notify the owner in writing as to the department's determination as to whether the owner has or does not have a criminal record.

(B) The department may either perform criminal background checks under agreement with the GCIC or contract with the GCIC and appropriate law enforcement agencies which have access to GCIC and Federal Bureau of Investigation information to have those agencies perform for the department criminal background checks for owners. The department or the appropriate law enforcement agencies may charge reasonable fees for performing criminal background checks.

(3)(A) The department's determination regarding an owner's criminal record, or any action by the department revoking or refusing to grant a license based on such determination, shall constitute a contested case for purposes of Chapter 13 of Title 50, the "Georgia Administrative Procedure Act," except that any hearing required to be held pursuant thereto may be held reasonably expeditiously after such determination or action by the department.

(B) In a hearing held pursuant to subparagraph (A) of this paragraph or subsection (b) of this Code section, the hearing officer shall consider in mitigation the length of time since the crime was committed, the absence of additional criminal charges, the circumstances surrounding the commission of the crime, other indicia of rehabilitation, the facility's history of compliance with the regulations, and the owner's involvement with the licensed facility in arriving at a decision as to whether the criminal record requires the denial or revocation of the license to operate the facility. Where a hearing is required, at least 30 days prior to such hearing, the hearing officer shall notify the office of the prosecuting attorney who initiated the prosecution of the crime in question in order to allow the prosecutor to object to a possible determination that the

conviction would not be a bar for the grant or continuation of a license as contemplated within this Code section. If objections are made, the hearing officer shall take such objections into consideration in considering the case.

(4) Neither the GCIC, the department, any law enforcement agency, nor the employees of any such entities shall be responsible for the accuracy of information nor have any liability for defamation, invasion of privacy, negligence, or any other claim in connection with any dissemination of information or determination based thereon pursuant to this Code section.

(d) All information received from the Federal Bureau of Investigation or the GCIC shall be for the exclusive purpose of approving or denying the granting of a license to a new facility or the revision of a license of an existing facility when a new owner is proposed and shall not be released or otherwise disclosed to any other person or agency. All such information collected by the department shall be maintained by the department pursuant to laws regarding and the rules or regulations of the Federal Bureau of Investigation and the GCIC, as is applicable. Penalties for the unauthorized release or disclosure of any such information shall be as prescribed pursuant to laws regarding and rules or regulations of the Federal Bureau of Investigation and the GCIC, as is applicable.

(e) The requirements of this Code section are supplemental to any requirements for a license imposed by Article 3 of Chapter 5 of Title 49 or Article 11 of Chapter 7 of this title.

(f) The department shall promulgate written rules and regulations to implement the provisions of this Code section.

(g) If the department is participating in the program described in subparagraph (a)(1)(F) of Code Section 35-3-33, the Georgia Bureau of Investigation and the Federal Bureau of Investigation shall be authorized to retain fingerprints obtained pursuant to this Code section for such program and the department shall notify the individual whose fingerprints were taken of the parameters of such retention. (Code 1981, § 31-2-14, enacted by Ga. L. 2009, p. 453, § 1-1/HB 228; Ga. L. 2010, p. 878, § 31/HB 1387; Ga. L. 2011, p. 227, § 10/SB 178; Code 1981, § 31-2-9, as redesignated by Ga. L. 2011, p. 705, § 4-4/HB 214; Ga. L. 2012, p. 351, § 2/HB 1110; Ga. L. 2013, p. 524, § 3-2/HB 78; Ga. L. 2014, p. 444, § 2-8/HB 271; Ga. L. 2015, p. 598, § 1-8/HB 72; Ga. L. 2018, p. 507, § 2-6/SB 336.)

The 2013 amendment, effective July 1, 2013, rewrote subparagraph (a)(2)(E); substituted “or” for “, relating to armed robbery” at the end of subparagraph

(a)(2)(L); deleted former subparagraph (a)(2)(M), which read: “A violation of Code Section 30-5-8, relating to abuse, neglect, or exploitation of a disabled adult or elder

person;” and redesignated former subparagraph (a)(2)(N) as present subparagraph (a)(2)(M).

The 2014 amendment, effective July 1, 2014, deleted “, relating to murder and felony murder” following “Code Section 16-5-1” at the end of subparagraph (a)(2)(A).

The 2015 amendment, effective July 1, 2015, deleted “, relating to aggravated assault” following “Code Section 16-5-21” in subparagraph (a)(2)(B); deleted “, relating to aggravated battery” following “Code Section 16-5-24” in subparagraph (a)(2)(C); deleted “, relating to cruelty to children” following “Code Section 16-5-70” in subparagraph (a)(2)(D); deleted “, relating to rape” following “Code Section 16-6-1” in subparagraph (a)(2)(F); deleted “, relating to aggravated sodomy” following “Code Section 16-6-2” in subparagraph (a)(2)(G); deleted “, relating to child molestation” following “Code Section 16-6-4” in subparagraph (a)(2)(H); deleted “, relating to enticing a child for indecent purposes” following “Code Section 16-6-5” in subparagraph (a)(2)(I); deleted “, relating

to sexual assault against persons in custody, detained persons, or patients in hospitals or other institutions” following “Code Section 16-6-5.1” in subparagraph (a)(2)(J); deleted “, relating to aggravated sexual battery” following “Code Section 16-6-22.2” in subparagraph (a)(2)(K); added present subparagraph (a)(2)(M); and redesignated former subparagraphs (a)(2)(M) and (a)(2)(N) as present subparagraphs (a)(2)(N) and (a)(2)(O), respectively.

The 2018 amendment, effective July 1, 2018, added subsection (g).

Code Commission notes. — Pursuant to Code Section 28-9-5, in 2013, “or” was deleted at the end of subparagraph (a)(2)(L); “; or” was substituted for a period at the end of subparagraph (a)(2)(M); and subparagraph (a)(2)(O) was redesignated as subparagraph (a)(2)(N).

Editor’s notes. — Ga. L. 2018, p. 611, § 1-1/SB 406 provides for the repeal of this Code section effective October 1, 2019.

Law reviews. — For article on the 2015 amendment of this Code section, see 32 Ga. St. U.L. Rev. 63 (2015).

31-2-12. Pilot program to provide coverage for bariatric surgical procedures for treatment of obesity and related conditions; definitions; eligibility; requirements; evaluation report on two-year pilot program.

(a) As used in this Code section, the term “state health insurance plan” means:

(1) The state employees’ health insurance plan established pursuant to Article 1 of Chapter 18 of Title 45;

(2) The health insurance plan for public school teachers established pursuant to Subpart 2 of Part 6 of Article 17 of Chapter 2 of Title 20; and

(3) The health insurance plan for public school employees established pursuant to Subpart 3 of Part 6 of Article 17 of Chapter 2 of Title 20.

(b) Beginning January 1, 2016, the department shall conduct a two-year pilot program to provide coverage for the treatment and management of obesity and related conditions under a state health insurance plan. The pilot program will provide benefits for medically necessary bariatric procedures for participants selected for inclusion in the pilot program.

(c) Participation in the pilot program shall be limited to no more than 75 individuals per year, to be selected in a manner determined by the department. Any person who has elected coverage under a state health insurance plan shall be eligible to be selected to participate in the pilot program in accordance with criteria established by the department which shall include, but not be limited to:

(1) Participation in a state health insurance plan for at least 12 months;

(2) Completion of a health risk assessment through a state health insurance plan;

(3) A body mass index of:

(A) Greater than 40; or

(B) Greater than 35 with one or more co-morbidities such as diabetes, hypertension, gastro-esophageal reflux disease, sleep apnea, or asthma;

(4) Consent to provide personal and medical information to a state health insurance plan;

(5) Non-tobacco user;

(6) No other primary group health coverage or primary coverage with Medicare; and

(7) Must have been covered under a state health insurance plan for two years immediately prior to the pilot program and must express an intent to continue coverage under such state health insurance plan for two years following the approved surgical procedure date.

(d) Eligible individuals must apply to participate in the pilot program. The individual and his or her physician shall complete and submit an obesity treatment program application to the department no later than February 1 for each year of the pilot program. The department's contracted health insurance carrier shall review the criteria contained in subsection (c) of this Code section to determine qualified applicants for the pilot program.

(e) The selected participants shall be eligible to receive a multi-disciplinary health evaluation at a facility located within the State of Georgia which is designated by the American Society for Metabolic and Bariatric Surgery as a Bariatric Surgery Center of Excellence. The bariatric surgical procedures covered in the pilot program are:

(1) Gastric band;

(2) Laparoscopic sleeve gastrectomy; and

(3) Rouen-Y gastric bypass.

The participants shall use the department's contracted health insurance carrier to enroll in a case management program and to receive prior authorization for a surgical procedure provided pursuant to the pilot program. The health insurance carrier shall provide case management and patient follow-up services. Benefits for a bariatric surgical procedure under the pilot program shall be provided only when the surgical procedure is performed at a Center of Excellence within the State of Georgia.

(f) All health care services provided pursuant to the pilot program shall be subject to the health insurance carrier's plan of benefits and policy provisions. Complications that arise after the discharge date are subject to the health insurance carrier's plan of benefits and policy provisions.

(g) Participants must agree to comply with any and all terms and conditions of the pilot program including, but not limited to, participation and reporting requirements. Participation requirements shall include a 12 month postsurgery case management program. Each participant must also agree to comply with any and all requests by the department for postsurgical medical and productivity information, and such agreement shall survive his or her participation in a state health insurance plan.

(h) A panel shall review the results and outcomes of the pilot program beginning six months after program initiation and shall conduct subsequent reviews every six months for the remainder of the pilot program. The panel shall be composed of the following members, appointed by the Governor:

(1) A representative of a state health insurance plan;

(2) A representative of the state contracted health insurance carrier or carriers providing coverage under the pilot program; and

(3) At least two physicians who carry a certification by the American Society for Metabolic and Bariatric Surgery.

(i) The department shall provide a final report by December 15 of the last year of the pilot program to the chairpersons of the House Committee on Health and Human Services, the Senate Health and Human Services Committee, the House Committee on Appropriations, and the Senate Appropriations Committee. The report shall include, at a minimum:

(1) Whether patients in the pilot have experienced:

(A) A reduction in body mass index, and if so, the average amount of reduction; or

(B) The reduction or elimination of co-morbidities, and if so, which co-morbidities were reduced or eliminated;

(2) The total number of individuals who applied to participate in the pilot program;

(3) The total number of participants who enrolled in the pilot program;

(4) The average cost of each procedure conducted under the pilot program, including gastric band, laparoscopic sleeve gastrectomy, and Rouen-Y gastric bypass;

(5) The total cost of each participant's annual health care costs prior to the surgical procedure and for each of the subsequent post-procedure years for the three years following the surgical procedure; and

(6) The percentage of participants still employed by the state 12 months following the surgical procedure and 24 months following the surgical procedure, respectively.

(j) This Code section shall stand repealed on December 31, 2018. (Code 1981, § 31-2-12, enacted by Ga. L. 2014, p. 172, § 1/HB 511.)

Effective date. — This Code section became effective July 1, 2015.

Code Commission notes. — Pursuant to Code Section 28-9-5, in 2017, “January 1, 2016” was substituted for “six months after the effective date of this Code section” in the first sentence of subsection (b), and “on December 31, 2018” was substituted for “42 months after the effective date of such Code section” in subsection (j).

Editor's notes. — Ga. L. 2014, p. 172, § 2/HB 511, not codified by the General Assembly, provided that this Code section

shall become effective only upon the effective date of a specific appropriation of funds for purposes of this Act as expressed in a line item making specific reference to such Act in a General Appropriations Act enacted by the General Assembly. Funds were appropriated at the 2015 session of the General Assembly.

This Code section formerly pertained to standards for sewage management systems and was redesignated as Code Section 31-2A-11 by Ga. L. 2011, p. 705, § 3-2/HB 214, effective July 1, 2011.

31-2-13. Inspection warrant.

(a) As used in this Code section, the term “commissioner” means the commissioner of community health or his or her designee.

(b) Nothing in this Code section shall be construed to require an inspection warrant when a warrantless inspection is authorized by law or pursuant to a rule or regulation enacted pursuant to this title.

(c) An inspection warrant is an order, in writing, signed by a judicial officer, directed to the commissioner or any person authorized to make inspections for such commissioner and commanding him or her to conduct an inspection required or authorized by:

- (1) This title;
- (2) Any other law administered by the commissioner;
- (3) Rules or regulations promulgated pursuant to this title; or
- (4) Rules or regulations promulgated pursuant to any other law administered by the commissioner.

(d) The commissioner or any person authorized to make inspections for such commissioner shall make application for an inspection warrant to a person who is a judicial officer within the meaning of Code Section 17-5-21.

(e)(1) An inspection warrant shall be issued only upon cause and when supported by an affidavit which:

(A) Particularly describes the place, dwelling, structure, premises, or vehicle to be inspected;

(B) Particularly describes the purpose for which the inspection is to be made; and

(C) Contains either a statement that consent to inspect has been sought and refused or facts or circumstances reasonably justifying the failure to seek such consent.

(2) Cause to support the issuance of an inspection warrant shall be deemed to exist if:

(A) Reasonable legislative or administrative standards for conducting a routine or area inspection are satisfied with respect to the particular place, dwelling, structure, premises, or vehicle; or

(B) There is reason to believe that a condition of nonconformity exists with respect to the particular place, dwelling, structure, premises, or vehicle.

(f) An inspection warrant shall be effective for the time specified therein, but not for a period of more than 14 days, unless extended or renewed by the judicial officer who signed and issued the original warrant, upon satisfaction that such extension or renewal is in the public interest. Such inspection warrant shall be executed and returned to the judicial officer by whom it was issued within the time specified in such warrant or within the extended or renewed time. After the expiration of such time, the inspection warrant, unless executed, shall be void.

(g) An inspection pursuant to an inspection warrant:

(1) May be executed at any time as deemed appropriate by the individual executing such warrant but whenever possible shall be made at any time during operating or regular business hours;

(2) Should not be performed in the absence of an owner or occupant of the particular place, dwelling, structure, premises, or vehicle being inspected unless specifically authorized by the judicial officer upon a showing that such authority is reasonably necessary to effectuate the purpose of the law, rule, or regulation being enforced; and

(3) Shall not be made by means of forcible entry, except that the judicial officer may expressly authorize a forcible entry when facts are shown:

(A) Which are sufficient to create a reasonable suspicion of a violation of this title or any other law, rule, or regulation administered by the commissioner or the department, which, if such violation existed, would be an immediate threat to health or safety; or

(B) Establishing that a reasonable attempt to serve a previous inspection warrant has been unsuccessful.

(h) When prior consent for an inspection has been sought and refused and an investigation warrant has been issued, an inspection warrant may be executed without further notice to the owner or occupant of the particular place, dwelling, structure, premises, or vehicle being inspected.

(i) It shall be unlawful for any owner, operator, or employee of the particular place, dwelling, structure, premises, or vehicle being inspected to refuse to allow an inspection pursuant to an inspection warrant issued as provided in this Code section. Any person violating this Code section shall be guilty of a misdemeanor. (Code 1981, § 31-2-13, enacted by Ga. L. 2015, p. 598, § 1-9/HB 72.)

Effective date. — This Code section became effective July 1, 2015.

31-2-14. Nurse aide registry; complaint filing; public access.

(a) The nurse aide registry established and maintained by the department as required by 42 C.F.R. Section 483.156 shall include, in addition to nurse aides who work in licensed facilities, nurse aides who provide services in this state in temporary or permanent private residences.

(b) The registry shall provide a method for an inquiry or complaint to be submitted by the public regarding a nurse aide providing services in private residences. Any such inquiries or complaints shall be handled in the same manner as required for nurse aides who work in licensed facilities.

(c) The department shall ensure that the registry is posted or a link to it is provided in a prominent location on the department's website. (Code 1981, § 31-2-14, enacted by Ga. L. 2016, p. 201, § 1/HB 1037.)

Effective date. — This Code section § 4-4/HB 214, effective July 1, 2011, redesignated former Code Section 31-2-14 became effective July 1, 2016.

Editor's notes. — Ga. L. 2011, p. 705, as present Code Section 31-2-9.

31-2-15. Streamlining and expediting credentialing and billing processes.

(a) As used in this Code section, the term “state medical plan” means the state health benefit plan under Article 1 of Chapter 18 of Title 45, the medical assistance program under Article 7 of Chapter 4 of Title 49, the PeachCare for Kids Program under Article 13 of Chapter 5 of Title 49, and any other health benefit plan or policy administered by or on behalf of the state.

(b) The department shall take all reasonable steps to streamline and expedite the credentialing and billing processes for state medical plans, including but not limited to examining the potential for a uniform billing platform or portal; examining the potential for the standardization of billing codes among providers; posting billing criteria and codes on the department's website; enabling a dual track process for credentialing and contract negotiation for new providers; allowing billing for telehealth delivered care and allowing payment for both the on-site provider and off-site provider; and maximizing billing for multiple specialists and multiple encounters with one provider at a single visit in safety net settings, critical access settings, federally qualified health centers, and general practitioner settings.

(c) This Code section shall not be construed to require the department to act in violation of any federal law, rule, or regulation. (Code 1981, § 31-2-15, enacted by Ga. L. 2018, p. 132, § 3B/HB 769.)

Effective date. — This Code section became effective July 1, 2018.

Editor's notes. — Ga. L. 2011, p. 705, § 4-4/HB 214, effective July 1, 2011, redesignated former Code Section 31-2-15 as present Code Section 31-2-10.

Ga. L. 2018, p. 132, § 8(c)/HB 769, not codified by the General Assembly, provided: “(c)(1) Section 3A of this Act shall become effective on July 1, 2018, only if SB 357 or another Act creating the Health Coordination and Innovation Council is enacted by the General Assembly and be-

comes law in 2018, in which event Section 3B of this Act shall not become effective and shall stand repealed on July 1, 2018.

“(2) If SB 357 or another Act creating the Health Coordination and Innovation Council does not become law in 2018, then Section 3B of this Act shall become effective on July 1, 2018, and Section 3A of this Act shall not become effective and shall stand repealed on July 1, 2018.” SB 357 was passed by the General Assembly but was vetoed by the Governor on May 8, 2018, and did not become law.

31-2-16. Rural Health System Innovation Center created; purposes and duties; reporting.

(a) There is created and established the Rural Health System Innovation Center within the department's State Office of Rural Health to serve as a research organization that utilizes Georgia's academic, public health policy, data, and workforce resources to develop new approaches for financing and delivering health care in this state. The department shall release a request for proposals, no later than December 1, 2018, to identify a postsecondary institution within the state in which the center shall be located. Such postsecondary institution shall have a health program or college that focuses on rural and underserved areas of the state. The department shall reissue a request for proposal after seven years and every five years thereafter.

(b) The purposes and duties of the Rural Health System Innovation Center shall be to:

(1) Develop a research program to identify and analyze significant health system problems and to propose solutions and best practices to such problems;

(2) Focus on access improvement to affordable health care in rural Georgia;

(3) Synthesize existing studies, reports, and data to provide a baseline assessment and set measurable goals as part of Georgia's strategic reform plan;

(4) Incorporate recommendations from state reform efforts to build the state's reform plan;

(5) Evaluate and make recommendations for the fiscal stabilization of rural health care delivery systems and ensure their design is appropriate for the community served by such systems;

(6) Provide technical assistance and expertise to address immediate needs of rural communities;

(7) Develop state-wide pilot projects, identify innovative approaches to funding these projects, and track and evaluate the projects' performance;

(8) Connect to a central health data repository for collection and dissemination of health data and serve as a clearinghouse for data integration and analysis;

(9) Produce studies that address cost-drivers and duplication to eliminate barriers to health care and reduce costs;

(10) Monitor current and future health care workforce needs and advise the Georgia Board for Physician Workforce of significant changes in need or demand;

(11) Participate in other state-wide health initiatives or programs affecting the entire state and nonrural areas of Georgia. The center shall cooperate with other health related state entities, including, but not limited to, the department, the Department of Public Health, the Department of Human Services, and the Department of Behavioral Health and Developmental Disabilities, and all other health related state boards, commissions, committees, councils, offices, and other entities on state-wide health initiatives or programs; and

(12)(A) In conjunction with the State Office of Rural Health, develop standards for education curriculum no later than January 1, 2019, which will be provided to leadership, including, but not limited to, hospital executive leadership, hospital board members, and hospital authority members of rural hospital organizations, as defined in Code Section 31-8-9.1, and to other rural health care facilities upon request. The curriculum shall include, at a minimum, legal, fiduciary, grant management, planning, and compliance training. The center shall approve education programs by any entity that the center determines to meet such standards.

(B) The chief executive officer, the chief financial officer, every board member, and every hospital authority member, if operated by a hospital authority pursuant to Article 4 of Chapter 7 of this title, of a rural hospital organization as defined in Code Section 31-8-9.1 shall be required to complete an education program approved by the center pursuant to this paragraph no later than December 31, 2020, or within 12 months of initial hiring or appointment and every two years thereafter.

(C) Any board member or hospital authority member who does not complete the education program as required pursuant to subparagraph (B) of this paragraph shall be ineligible to continue serving as a board member or hospital authority member. The center may provide for notice and a grace period for board members and hospital authority members to come into compliance with such requirement. A vacancy created pursuant to this subparagraph on the board of a hospital authority shall be filled in the same manner as provided in subsection (c) of Code Section 31-7-72 for the initial appointment of members of the hospital authority.

(D) At the discretion of the department, any rural hospital organization that fails to ensure compliance by the chief executive officer, the chief financial officer, every board member, and every hospital authority member with the education requirements contained in subparagraph (B) of this paragraph shall be deemed:

(i) Ineligible to receive contributions from the tax credit provided pursuant to Code Section 48-7-29.20;

(ii) Ineligible to participate in any grant programs offered by the state; and

(iii) Subject to a fine of \$10,000.00 per violation.

(c) The center is authorized to make application for and receive funds and grants as may be necessary to, and utilize and disburse such funds for such purposes and projects as will, carry out the purposes of the center.

(d) The center is authorized to enter into contracts, agreements, and arrangements with colleges and universities to advance the work of the center. The center shall also be authorized to enter into contracts and agreements with the federal government; political subdivisions of this state; private firms, foundations, or institutions; or individuals for specific research on any aspects of rural health care as may be related to the purposes of this Code section. The center shall contract with a school of medicine in this state to provide clinical health care expertise to the center.

(e) On or before October 1 of each year, the center shall file a report to the Governor, the President of the Senate, the Speaker of the House of Representatives, and the chairpersons of the House Committee on Health and Human Services, the Senate Health and Human Services Committee, the House Committee on Appropriations, and the Senate Appropriations Committee. The report shall include a summary of the activities of the center during the calendar year, including, but not limited to, the total number of hospital executives, hospital board members, and hospital authority members who received training from the center; the status of rural health care in the state; and recommendations, if any, for legislation as may be necessary to improve the programs and services offered by the center. (Code 1981, § 31-2-16, enacted by Ga. L. 2018, p. 132, § 3B/HB 769.)

Effective date. — This Code section became effective July 1, 2018.

Editor's notes. — Ga. L. 2011, p. 705, § 4-4/HB 214, effective July 1, 2011, redesignated former Code Section 31-2-16 as present Code Section 31-2-11.

Ga. L. 2018, p. 132, § 8(c)/HB 769, not codified by the General Assembly, provided: “(c)(1) Section 3A of this Act shall become effective on July 1, 2018, only if SB 357 or another Act creating the Health Coordination and Innovation Council is enacted by the General Assembly and be-

comes law in 2018, in which event Section 3B of this Act shall not become effective and shall stand repealed on July 1, 2018.

“(2) If SB 357 or another Act creating the Health Coordination and Innovation Council does not become law in 2018, then Section 3B of this Act shall become effective on July 1, 2018, and Section 3A of this Act shall not become effective and shall stand repealed on July 1, 2018.” SB 357 was passed by the General Assembly but was vetoed by the Governor on May 8, 2018, and did not become law.

CHAPTER 2A

DEPARTMENT OF PUBLIC HEALTH

Article 1
General Provisions

Sec.
31-2A-4. Obligation to safeguard and promote health of people of the state.

31-2A-7. “Conviction data” defined; department authorized to receive data from law enforcement relevant to employment decisions; criminal history information; retention of fingerprints.

31-2A-12. Rules and regulations governing operation of land disposal sites for septic tank waste from one business [Repealed].

31-2A-16. Maternal Mortality Review Committee established.

31-2A-17. Alzheimer’s Disease Registry established; purpose; procedures; rules and regulations; confidentiality of data.

31-2A-18. Establishment of the Low THC Oil Patient Registry; definitions; purpose; registration cards; semiannual reports; waiver forms; annual review and recommendations.

31-2A-19. (Repealed effective December 31, 2018) Creation of Joint Study Commission on Low THC Medical Oil Access; membership; operation; reporting; abolishment.

Article 2
Positive Alternatives for Pregnancy and Parenting Grant Program

31-2A-30. Legislative authority [Repealed].

Sec.
31-2A-31. Definitions.

31-2A-32. Positive Alternatives for Pregnancy and Parenting Grant Program.

31-2A-33. Administration and duties.

31-2A-34. Services funded by program.

31-2A-35. Grants.

31-2A-36. Criteria for grant consideration.

31-2A-37. Record maintenance and reporting.

31-2A-38. Confidentiality.

31-2A-39. Annual audit.

31-2A-40. Reports to the General Assembly.

31-2A-41. Acceptance of donations, contributions, and gifts.

Article 3
Perinatal Facilities

31-2A-50. Legislative findings.

31-2A-51. Definitions.

31-2A-52. Approval as designated perinatal facility; establishing criteria for levels of maternal and neonatal care.

31-2A-53. Application process; review and redesignation of facilities; failure to comply with criteria.

31-2A-54. Listing of designated facilities; self-assessment tool.

31-2A-55. Provisions are not medical care; individualized care and treatment.

31-2A-56. Advertisement prohibited unless designated by department.

31-2A-57. Regulatory authority.

Law reviews. — For article, “Do State Lines Make Public Health Emergencies Worse? Federal Versus State Control of

Quarantine,” see 67 Emory L.J. 491 (2018).

ARTICLE 1

GENERAL PROVISIONS

Editor's notes. — The existing provisions of Chapter 2A were designated as Article 1 of Chapter 2A by Ga. L. 2016, p. 214, § 1/SB 308, effective July 1, 2016.

31-2A-4. Obligation to safeguard and promote health of people of the state.

The Department of Public Health shall safeguard and promote the health of the people of this state and is empowered to employ all legal means appropriate to that end. Illustrating, without limiting, the foregoing grant of authority, the department is empowered to:

(1) Provide epidemiological investigations and laboratory facilities and services in the detection and control of disease, disorders, and disabilities and to provide research, conduct investigations, and disseminate information concerning reduction in the incidence and proper control of disease, disorders, and disabilities;

(2) Forestall and correct physical, chemical, and biological conditions that, if left to run their course, could be injurious to health;

(3) Regulate and require the use of sanitary facilities at construction sites and places of public assembly and to regulate persons, firms, and corporations engaged in the rental and service of portable chemical toilets;

(4) Isolate and treat persons afflicted with a communicable disease who are either unable or unwilling to observe the department's rules and regulations for the suppression of such disease and to establish, to that end, complete or modified quarantine, surveillance, or isolation of persons and animals exposed to a disease communicable to man;

(5) Procure and distribute drugs and biologicals and purchase services from clinics, laboratories, hospitals, and other health facilities and, when authorized by law, to acquire and operate such facilities;

(6) Cooperate with agencies and departments of the federal government and of the state by supplying consultant services in medical and hospital programs and in the health aspects of civil defense, emergency preparedness, and emergency response;

(7) Prevent, detect, and relieve physical defects and deformities;

(8) Promote the prevention, early detection, and control of problems affecting the dental and oral health of the citizens of Georgia;

(9) Contract with county boards of health to assist in the performance of services incumbent upon them under Chapter 3 of this title and, in the event of grave emergencies of more than local peril, to employ whatever means may be at its disposal to overcome such emergencies;

(10) Contract and execute releases for assistance in the performance of its functions and the exercise of its powers and to supply services which are within its purview to perform;

(11) Enter into or upon public or private property at reasonable times for the purpose of inspecting same to determine the presence of disease and conditions deleterious to health or to determine compliance with health laws and rules, regulations, and standards thereunder;

(12) Establish, by rule adopted pursuant to Chapter 13 of Title 50, the "Georgia Administrative Procedure Act," a schedule of fees for laboratory services provided, schedules to be determined in a manner so as to help defray the costs incurred by the department, but in no event to exceed such costs, both direct and indirect, in providing such laboratory services, provided no person shall be denied services on the basis of his or her inability to pay. All fees paid thereunder shall be paid into the general funds of the State of Georgia. The individual who requests the services authorized in this paragraph, or the individual for whom the laboratory services authorized in this paragraph are performed, shall be responsible for payment of the service fees. As used in this paragraph, the term "individual" means a natural person or his or her responsible health benefit policy or Title XVIII, XIX, or XXI of the federal Social Security Act of 1935;

(13) Exchange data with the Department of Community Health for purposes of health improvement and fraud prevention for programs operated by the Department of Community Health pursuant to mutually agreed upon data sharing agreements and in accordance with federal confidentiality laws relating to health care;

(14) Provide The Council of Superior Court Clerks of Georgia the data set forth in Code Section 15-12-40.1, without charge and in the electronic format requested; and

(15) Maintain and administer the electronic prescription drug monitoring program data base established under Code Section 16-13-57. (Code 1981, § 31-2A-4, enacted by Ga. L. 2011, p. 705, § 3-1/HB 214; Ga. L. 2014, p. 451, § 10/HB 776; Ga. L. 2017, p. 319, § 1-5/HB 249.)

The 2014 amendment, effective July 1, 2014, deleted “and” at the end of paragraph (12); substituted “; and” for a period at the end of paragraph (13); and added paragraph (14).

The 2017 amendment, effective July 1, 2017, deleted “and” at the end of para-

graph (13), substituted “; and” for the period at the end of paragraph (14), and added paragraph (15).

Law reviews. — For note, “Don’t Let the Bed Bugs Bill: Landlord Liability for Bed Bug Infestations,” see 34 Ga. St. U.L. Rev. 479 (2018).

31-2A-7. “Conviction data” defined; department authorized to receive data from law enforcement relevant to employment decisions; criminal history information; retention of fingerprints.

(a) As used in this Code section, the term “conviction data” means a record of a finding or verdict of guilty or a plea of guilty or a plea of nolo contendere with regard to any crime, regardless of whether an appeal of the conviction has been sought.

(b) The department may receive from any law enforcement agency conviction data that is relevant to a person whom the department, its contractors, or a district or county health agency is considering as a final selectee for employment in a position the duties of which involve direct care, treatment, custodial responsibilities, or any combination thereof for its clients. The department may also receive conviction data which is relevant to a person whom the department, its contractors, or a district or county health agency is considering as a final selectee for employment in a position if, in the judgment of the department, a final employment decision regarding the selectee can only be made by a review of conviction data in relation to the particular duties of the position and the security and safety of clients, the general public, or other employees.

(c) The department shall establish a uniform method of obtaining conviction data under subsection (b) of this Code section which shall be applicable to the department and its contractors. Such uniform method shall require the submission to the Georgia Crime Information Center of fingerprints and the records search fee in accordance with Code Section 35-3-35. Upon receipt thereof, the Georgia Crime Information Center shall promptly transmit fingerprints to the Federal Bureau of Investigation for a search of bureau records and an appropriate report and shall promptly conduct a search of its own records and records to which it has access. After receiving the fingerprints and fee, the Georgia Crime Information Center shall notify the department in writing of any derogatory finding, including, but not limited to, any conviction data regarding the fingerprint records check or if there is no such finding.

(d) All conviction data received shall be for the exclusive purpose of making employment decisions or decisions concerning individuals in the care of the department and shall be privileged and shall not be

released or otherwise disclosed to any other person or agency. Immediately following the employment decisions or upon receipt of the conviction data, all such conviction data collected by the department or its agent shall be maintained by the department or agent pursuant to laws regarding and the rules or regulations of the Federal Bureau of Investigation and the Georgia Crime Information Center, as is applicable. Penalties for the unauthorized release or disclosure of any conviction data shall be as prescribed pursuant to laws regarding and rules or regulations of the Federal Bureau of Investigation and the Georgia Crime Information Center, as is applicable. Nothing in this Code section shall be construed to allow criminal history information, including arrest and conviction data, to be released or disclosed to any individual, including members of county boards of health, who is not directly involved in the hiring process.

(e) The department may promulgate written rules and regulations to implement the provisions of this Code section.

(f) The department may receive from any law enforcement agency criminal history information, including arrest and conviction data, and any and all other information which it may be provided pursuant to state or federal law which is relevant to any person in the care of the department. The department shall establish a uniform method of obtaining criminal history information under this subsection. Such method shall require the submission to the Georgia Crime Information Center of fingerprints together with any required records search fee in accordance with Code Section 35-3-35. Upon receipt thereof, the Georgia Crime Information Center shall promptly transmit the fingerprints submitted by the department to the Federal Bureau of Investigation for a search of bureau records and an appropriate report and shall promptly conduct a search of its own records and records to which it has access. Such method shall also permit the submission of the names alone of such persons to the proper law enforcement agency for a name based check of such person's criminal history information as maintained by the Georgia Crime Information Center and the Federal Bureau of Investigation. In such circumstances, the department shall submit fingerprints of those persons together with any required records search fee to the Federal Bureau of Investigation within 15 calendar days of the date of the name based check on that person. The fingerprints shall be forwarded to the Federal Bureau of Investigation through the Georgia Crime Information Center in accordance with Code Section 35-3-35. Following the submission of such fingerprints, the department may receive the criminal history information, including arrest and conviction data, relevant to such person.

(g) The department shall be authorized to conduct a name or descriptor based check of any person's criminal history information,

including arrest and conviction data, and other information from the Georgia Crime Information Center regarding any adult person who provides care or is in contact with persons under the care of the department without the consent of such person and without fingerprint comparison to the fullest extent permissible by federal and state law.

(h) If the department is participating in the program described in subparagraph (a)(1)(F) of Code Section 35-3-33, the Georgia Bureau of Investigation and the Federal Bureau of Investigation shall be authorized to retain fingerprints obtained pursuant to this Code section for such program and the department shall notify the individual whose fingerprints were taken of the parameters of such retention. (Code 1981, § 31-2A-7, enacted by Ga. L. 2011, p. 705, § 3-1/HB 214; Ga. L. 2018, p. 507, § 2-7/SB 336.)

The 2018 amendment, effective July 1, 2018, added subsection (h).

31-2A-12. Rules and regulations governing operation of land disposal sites for septic tank waste from one business.

Reserved. Repealed by Ga. L. 2012, p. 843, § 1B/HB 1102, effective July 1, 2014.

The 2016 amendment, effective May 3, 2016, part of an Act to revise, modernize, and correct the Code, reserved the designation of this Code section.

Editor's notes. — This Code section was based on Code 1981, § 31-2-8, enacted by Ga. L. 2002, p. 927, § 6A; Ga. L.

2007, p. 127, § 5/HB 463; Code 1981, § 31-2-13, as redesignated by Ga. L. 2009, p. 453, § 1-1/HB 228; Code 1981, § 31-2A-12, as redesignated by Ga. L. 2011, p. 705, § 3-2/HB 214; Ga. L. 2012, p. 843, § 1B/HB 1102 and was repealed by its own terms effective July 1, 2014.

31-2A-14. Georgia Diabetes Control Grant Program; advisory committee; administration of authorized grant programs; grant criteria.

Editor's notes. — Pursuant to the terms of subsection (f), funds were not appropriated at the 2010, 2011, 2012,

2013, 2014, 2015, 2016, 2017, or 2018 sessions of the General Assembly.

31-2A-16. Maternal Mortality Review Committee established.

(a) The General Assembly finds that:

(1) Georgia currently ranks fiftieth in maternal deaths in the United States;

(2) Maternal deaths are a serious public health concern and have a tremendous family and societal impact;

(3) Maternal deaths are significantly underestimated and inadequately documented, preventing efforts to identify and reduce or eliminate the causes of death;

(4) No processes exist in this state for the confidential identification, investigation, or dissemination of findings regarding maternal deaths;

(5) The federal Centers for Disease Control and Prevention has determined that maternal deaths should be investigated through state based maternal mortality reviews in order to institute the systemic changes needed to decrease maternal mortality; and

(6) There is a need to establish a program to review maternal deaths and to develop strategies for the prevention of maternal deaths in Georgia.

(b) The Department of Public Health shall establish a Maternal Mortality Review Committee to review maternal deaths and to develop strategies for the prevention of maternal deaths. The committee shall be multidisciplinary and composed of members as deemed appropriate by the department. The department may contract with an external organization to assist in collecting, analyzing, and disseminating maternal mortality information, organizing and convening meetings of the committee, and other tasks as may be incident to these activities, including providing the necessary data, information, and resources to ensure successful completion of the ongoing review required by this Code section.

(c) The committee shall:

(1) Identify maternal death cases;

(2) Review medical records and other relevant data;

(3) Contact family members and other affected or involved persons to collect additional relevant data;

(4) Consult with relevant experts to evaluate the records and data;

(5) Make determinations regarding the preventability of maternal deaths;

(6) Develop recommendations for the prevention of maternal deaths; and

(7) Disseminate findings and recommendations to policy makers, health care providers, health care facilities, and the general public.

(d)(1) Health care providers licensed pursuant to Title 43, health care facilities licensed pursuant to Chapter 7 of Title 31, and pharmacies licensed pursuant to Chapter 4 of Title 26 shall provide

reasonable access to the committee to all relevant medical records associated with a case under review by the committee.

(2) A health care provider, health care facility, or pharmacy providing access to medical records pursuant to this Code section shall not be held liable for civil damages or be subject to any criminal or disciplinary action for good faith efforts in providing such records.

(e)(1) Information, records, reports, statements, notes, memoranda, or other data collected pursuant to this Code section shall not be admissible as evidence in any action of any kind in any court or before any other tribunal, board, agency, or person. Such information, records, reports, statements, notes, memoranda, or other data shall not be exhibited nor their contents disclosed in any way, in whole or in part, by any officer or representative of the department or any other person, except as may be necessary for the purpose of furthering the review of the committee of the case to which they relate. No person participating in such review shall disclose, in any manner, the information so obtained except in strict conformity with such review project.

(2) All information, records of interviews, written reports, statements, notes, memoranda, or other data obtained by the department, the committee, and other persons, agencies, or organizations so authorized by the department pursuant to this Code section shall be confidential.

(f)(1) All proceedings and activities of the committee under this Code section, opinions of members of such committee formed as a result of such proceedings and activities, and records obtained, created, or maintained pursuant to this Code section, including records of interviews, written reports, and statements procured by the department or any other person, agency, or organization acting jointly or under contract with the department in connection with the requirements of this Code section, shall be confidential and shall not be subject to Chapter 14 of Title 50, relating to open meetings, or Article 4 of Chapter 18 of Title 50, relating to open records, or subject to subpoena, discovery, or introduction into evidence in any civil or criminal proceeding; provided, however, that nothing in this Code section shall be construed to limit or restrict the right to discover or use in any civil or criminal proceeding anything that is available from another source and entirely independent of the committee's proceedings.

(2) Members of the committee shall not be questioned in any civil or criminal proceeding regarding the information presented in or opinions formed as a result of a meeting or communication of the committee; provided, however, that nothing in this Code section shall

be construed to prevent a member of the committee from testifying to information obtained independently of the committee or which is public information.

(g) Reports of aggregated nonindividually identifiable data shall be compiled on a routine basis for distribution in an effort to further study the causes and problems associated with maternal deaths. Reports shall be distributed to the General Assembly, health care providers and facilities, key government agencies, and others necessary to reduce the maternal death rate. (Code 1981, § 31-2A-16, enacted by Ga. L. 2014, p. 337, § 1/SB 273.)

Effective date. — This Code section became effective July 1, 2014.

Code Commission notes. — Pursuant to Code Section 28-9-5, in 2014, Code Section 31-2A-16, as enacted by Ga. L.

2014, p. 822, § 1/HB 966, was redesignated as Code Section 31-2A-17.

Law reviews. — For annual survey on administrative law, see 66 Mercer L. Rev. 1 (2014).

31-2A-17. Alzheimer’s Disease Registry established; purpose; procedures; rules and regulations; confidentiality of data.

(a) There is established within the Department of Public Health the Alzheimer’s Disease Registry.

(b) The purpose of the registry shall be to assist in the development of public policy and planning relative to Alzheimer’s disease and related disorders. The registry shall provide a central data base of individuals with Alzheimer’s disease or related disorders.

(c) The department shall establish procedures and promulgate rules and regulations for the establishment and operation of the registry. Such procedures, rules, and regulations shall provide for:

- (1) Collecting and evaluating data regarding the prevalence of Alzheimer’s disease and related disorders in Georgia, including who shall report the data to the registry;
- (2) Determining what information shall be maintained in the registry and the length of time such data shall be available;
- (3) Sharing of data for policy planning purposes;
- (4) Disclosing nonidentifying data to support Alzheimer’s and related disorder research;
- (5) The methodology by which families and physicians of persons who are reported to the registry shall be contacted to gather additional data; and
- (6) Information about public and private resources.

(d) The collected data in the registry shall be confidential, and all persons to whom the data is released shall maintain patient confidentiality. No publication of information, biotechnical research, or medical data shall be made that identifies any patient by name. The registry shall be established and regulated pursuant to the requirements of 42 U.S.C. Section 1301, et seq., and P.L. 104-191, the federal Health Insurance Portability and Accountability Act of 1996. (Code 1981, § 31-2A-17, enacted by Ga. L. 2014, p. 822, § 1/HB 966.)

Effective date. — This Code section became effective July 1, 2014.

Cross references. — Alzheimer's and Related Dementias State Plan, § T. 49, C. 6, Art. 8.

Code Commission notes. — Pursuant to Code Section 28-9-5, in 2014, Code Section 31-2A-16, as enacted by Ga. L.

2014, p. 822, § 1/HB 966, was redesignated as Code Section 31-2A-17.

Law reviews. — For annual survey on administrative law, see 66 Mercer L. Rev. 1 (2014). For article on the 2014 enactment of this Code section, see 31 Ga. St. U.L. Rev. 129 (2014).

31-2A-18. Establishment of the Low THC Oil Patient Registry; definitions; purpose; registration cards; semiannual reports; waiver forms; annual review and recommendations.

(a) As used in this Code section, the term:

(1) “Board” means the Georgia Composite Medical Board.

(2) “Caregiver” means the parent, guardian, or legal custodian of an individual who is less than 18 years of age or the legal guardian of an adult.

(3) “Condition” means:

(A) Cancer, when such disease is diagnosed as end stage or the treatment produces related wasting illness or recalcitrant nausea and vomiting;

(B) Amyotrophic lateral sclerosis, when such disease is diagnosed as severe or end stage;

(C) Seizure disorders related to a diagnosis of epilepsy or trauma related head injuries;

(D) Multiple sclerosis, when such disease is diagnosed as severe or end stage;

(E) Crohn's disease;

(F) Mitochondrial disease;

(G) Parkinson's disease, when such disease is diagnosed as severe or end stage;

(H) Sickle cell disease, when such disease is diagnosed as severe or end stage;

(I) Tourette's syndrome, when such syndrome is diagnosed as severe;

(J) Autism spectrum disorder, when such disorder is diagnosed for a patient who is at least 18 years of age, or severe autism, when diagnosed for a patient who is less than 18 years of age;

(K) Epidermolysis bullosa;

(L) Alzheimer's disease, when such disease is diagnosed as severe or end stage;

(M) Acquired immune deficiency syndrome, when such syndrome is diagnosed as severe or end stage;

(N) Peripheral neuropathy, when such symptoms are diagnosed as severe or end stage;

(O) Post-traumatic stress disorder resulting from direct exposure to or the witnessing of a trauma for a patient who is at least 18 years of age; or

(P) Intractable pain.

(4) "Department" means the Department of Public Health.

(5) "Intractable pain" means pain that has a cause that cannot be removed and for which, according to generally accepted medical practice, the full range of pain management modalities appropriate for the patient has been used for a period of at least six months without adequate results or with intolerable side effects.

(6) "Low THC oil" shall have the same meaning as set forth in Code Section 16-12-190.

(7) "Physician" means an individual licensed to practice medicine pursuant to Article 2 of Chapter 34 of Title 43.

(8) "Registry" means the Low THC Oil Patient Registry.

(b) There is established within the department the Low THC Oil Patient Registry.

(c) The purpose of the registry is to provide a registration of individuals and caregivers who have been issued registration cards. The department shall establish procedures and promulgate rules and regulations for the establishment and operation of the registration process and dispensing of registry cards to individuals and caregivers.

(d) The department shall issue a registration card to individuals who have been certified to the department by his or her physician as being

diagnosed with a condition or is an inpatient or outpatient in a hospice program and have been authorized by such physician to use low THC oil as treatment. The department shall issue a registration card to a caregiver when the circumstances warrant the issuance of such card. The board shall establish procedures and promulgate rules and regulations to assist physicians in providing required uniform information relating to certification and any other matter relating to the issuance of certifications. In promulgating such rules and regulations, the board shall require that physicians have a doctor-patient relationship when certifying an individual as needing low THC oil and physicians shall be required to be treating such individual for the specific condition requiring such treatment or be treating such individual in a hospice program.

(e) The board shall require physicians to issue semiannual reports to the board. Such reports shall require physicians to provide information, including, but not limited to, dosages recommended for a particular condition, patient clinical responses, levels of tetrahydrocannabinol or tetrahydrocannabinolic acid present in test results, compliance, responses to treatment, side effects, and drug interactions.

(f) Information received and records kept by the department for purposes of administering this Code section shall be confidential; provided, however, that such information shall be disclosed:

(1) Upon written request of an individual or caregiver registered pursuant to this Code section; and

(2) To peace officers and prosecuting attorneys for the purpose of:

(A) Verifying that an individual in possession of a registration card is registered pursuant to this Code section; or

(B) Determining that an individual in possession of low THC oil is registered pursuant to this Code section.

(g) The board shall develop a waiver form that will advise that the use of cannabinoids and THC containing products have not been approved by the FDA and the clinical benefits are unknown and may cause harm. Any patient or caregiver shall sign such waiver prior to his or her approval for registration.

(h) The board shall annually review the conditions included in paragraph (3) of subsection (a) of this Code section and recommend additional conditions that have been shown through medical research to be effectively treated with low THC oil. Such recommendations shall include recommended dosages for a particular condition, patient responses to treatment with respect to the particular condition, and drug interactions with other drugs commonly taken by patients with the particular condition. Such recommendations shall be made to the

General Assembly no later than December 1 of each year. (Code 1981, § 31-2A-18, enacted by Ga. L. 2015, p. 49, § 2-1/HB 1; Ga. L. 2017, p. 611, § 2/SB 16; Ga. L. 2017, p. 774, § 31/HB 323; Ga. L. 2018, p. 148, § 2/HB 65.)

Effective date. — This Code section became effective April 16, 2015.

The 2017 amendments. — The first 2017 amendment, effective July 1, 2017, substituted “disease is diagnosed as” for “diagnosis is” throughout paragraph (a)(3); substituted “illness or” for “illness,” in subparagraph (a)(3)(A); inserted “a” in subparagraph (a)(3)(C); deleted “or” at the end of subparagraph (a)(3)(G); substituted a semicolon for a period at the end of subparagraph (a)(3)(H); added subparagraphs (a)(3)(I) through (a)(3)(N); deleted the former third and fourth sentences in subsection (c), which read: “Only individuals residing in this state for at least one year or a child born in this state less than one year old shall be eligible for registration under this Code section. Nothing in this Code section shall apply to any Georgia residents living temporarily in another state for the purpose of securing THC oil for treatment of any condition under this Code section.”; in subsection (d), in the first sentence, substituted “individuals who have” for “individuals and caregivers as soon as practicable but no later than September 1, 2015, when an individual has” near the beginning, inserted “or is an inpatient or outpatient in a hospice program”, substituted “have been authorized” for “has been authorized” near the middle, and deleted “for such condition” following “as treatment” at the end, added the second sentence, and, in the fourth sentence, substituted

“treating such individual” for “treating an individual” near the middle, and added “or be treating such individual in a hospice program” at the end; in subsection (e), substituted “semiannual” for “quarterly” in the first sentence, in the second sentence, inserted “patient” and inserted “levels of tetrahydrocannabinol or tetrahydrocannabinolic acid present in test results,”. The second 2017 amendment, effective May 9, 2017, part of an Act to revise, modernize, and correct the Code, revised punctuation in subparagraph (a)(3)(A).

The 2018 amendment, effective July 1, 2018, in subsection (a), deleted “or” at the end of subparagraph (a)(3)(M), substituted a semicolon for a period at the end of subparagraph (a)(3)(N), added subparagraphs (a)(3)(O) and (a)(3)(P), added paragraph (a)(5), redesignated former paragraphs (a)(5) through (a)(7) as present paragraphs (a)(6) through (a)(8), respectively; and added subsection (h).

Code Commission notes. — Pursuant to Code Section 28-9-5, in 2017, a comma was deleted following “nausea” in subparagraph (a)(3)(A).

Editor’s notes. — Ga. L. 2015, p. 49, § 1-1/HB 1, not codified by the General Assembly, provides that: “This Act shall be known and may be cited as the ‘Haleigh’s Hope Act.’”

Law reviews. — For article on the 2015 enactment of this Code section, see 32 Ga. St. U.L. Rev. 153 (2015).

31-2A-19. (Repealed effective December 31, 2018) Creation of Joint Study Commission on Low THC Medical Oil Access; membership; operation; reporting; abolishment.

(a) The Joint Study Commission on Low THC Medical Oil Access is hereby created. The commission shall study the in-state access of medical cannabis and low THC oil, including, but not limited to, the security and control of all aspects of the process from acquisition and planting of seeds to final destruction of any unused portion of the plant; quality control of all aspects of the manufacturing process, including, but not limited to, product labeling and independent testing for purity and safety; and all aspects of dispensing the final product, including, but not limited to, security, competency of the dispensing staff, training on dosing, and proper delivery methods. The commission shall study and identify how to ensure proper security safeguards and systems for evaluating qualifications of potential licensees and implement a plan to ensure that low THC oil is readily available in all parts of the state at an affordable price to patients and caregivers who are properly registered in the state.

(b) The commission shall be composed of ten members as follows:

(1) The President of the Senate shall appoint three members of the Senate as members of the commission and shall designate one of such members as cochairperson. The President of the Senate shall also appoint two citizens of this state to serve as members; and

(2) The Speaker of the House of Representatives shall appoint three members of the House of Representatives as members of the commission and shall designate one of such members as cochairperson. The Speaker of the House of Representatives shall also appoint two citizens of this state to serve as members.

(c) The cochairpersons shall call all meetings of the commission. The commission may conduct such meetings at such places and at such times as it may deem necessary or convenient to enable it to exercise fully and effectively its powers, perform its duties, and accomplish the objectives and purposes of this Code section.

(d) The legislative members of the commission shall receive the allowances provided for in Code Section 28-1-8. Any members of the commission who are not legislators shall receive a daily expense allowance in an amount the same as that specified in subsection (b) of Code Section 45-7-21, as well as the mileage or transportation allowance authorized for state employees. The allowances and expenses authorized by this Code section shall not be received by any member of the commission for more than five days unless additional days are

authorized. Funds necessary to carry out the provisions of this Code section shall come from funds appropriated to the Senate and the House of Representatives.

(e) The commission shall report its findings and recommendations, including any proposed legislation, no later than December 31, 2018, to the Governor, Lieutenant Governor, Speaker of the House of Representatives, and chairpersons of the Senate Health and Human Services Committee and the House Committee on Health and Human Services.

(f) The commission shall stand abolished and this Code section shall stand repealed by operation of law on December 31, 2018. (Code 1981, § 31-2A-19, enacted by Ga. L. 2018, p. 148, § 1/HB 65.)

ARTICLE 2

POSITIVE ALTERNATIVES FOR PREGNANCY AND PARENTING
GRANT PROGRAM

Effective date. — This article became effective July 1, 2016.

31-2A-30. Legislative authority.

Reserved. Repealed by Ga. L. 2017, p. 764, § 2-1/SB 193, effective July 1, 2017.

Editor’s notes. — This Code section was based on Ga. L. 2016, p. 214, § 2/SB 308.

Ga. L. 2017, p. 764, § 1-1/SB 193, not codified by the General Assembly, provides that: “The General Assembly finds that:

“(1) Untreated chlamydial infection has been linked to problems during pregnancy, including preterm labor, premature rupture of membranes, and low birth weight. The newborn may also become infected during delivery as the baby

passes through the birth canal. Exposed newborns can develop eye and lung infections; and

“(2) Untreated gonococcal infection in pregnancy has been linked to miscarriages, premature birth and low birth weight, premature rupture of membranes, and chorioamnionitis. Gonorrhea can also infect an infant during delivery as the infant passes through the birth canal. If untreated, infants can develop eye infections.”

31-2A-31. Definitions.

As used in this article, the term:

(1) “Attending physician” means the physician who has primary responsibility at the time of reference for the treatment and care of the client.

(2) “Client” means a person seeking or receiving pregnancy support services.

(3) “Contract management agency” or “agency” means a nongovernmental charitable organization in this state which is a 501(c)(3) tax-exempt organization under the Internal Revenue Code of 1986 and whose mission and practice is to promote alternatives to abortion services at no cost.

(4) “Direct client service providers” or “providers” means nonprofit organizations with a contractual relationship with the contract management agency and that provide direct pregnancy support services to clients at no cost.

(5) Reserved.

(6) “Pregnancy support services” means those services that encourage childbirth instead of voluntary termination of pregnancy and which assist pregnant women or women who believe they may be pregnant to choose childbirth whether they intend to parent or select adoption for the child.

(7) “Program” means the Positive Alternatives for Pregnancy and Parenting Grant Program. (Code 1981, § 31-2A-31, enacted by Ga. L. 2016, p. 214, § 2/SB 308; Ga. L. 2017, p. 764, § 2-2/SB 193; Ga. L. 2018, p. 1112, § 31/SB 365.)

The 2017 amendment, effective July 1, 2017, near the end of paragraph (3), substituted “promote” for “provide” and deleted “to medically indigent women” following “services” near the end; substituted the present provisions of paragraph (5) for the former provisions, which read: “‘Medically indigent’ means a person who is without health insurance or who has health insurance that does not cover pregnancy or related conditions for which treatment and services are sought and whose family income does not exceed 200 percent of the federal poverty level as defined annually by the federal Office of Management and Budget.”; and substituted the present provisions of paragraph (8) for the former provisions, which read: “‘Trust fund’ means the Indigent Care Trust Fund created by Code Section 31-8-152.”.

The 2018 amendment, effective May 8, 2018, part of an Act to revise, modern-

ize, and correct the Code, repealed the reservation of paragraph (8).

Editor’s notes. — Ga. L. 2017, p. 764, § 1-1/SB 193, not codified by the General Assembly, provides that: “The General Assembly finds that:

“(1) Untreated chlamydial infection has been linked to problems during pregnancy, including preterm labor, premature rupture of membranes, and low birth weight. The newborn may also become infected during delivery as the baby passes through the birth canal. Exposed newborns can develop eye and lung infections; and

“(2) Untreated gonococcal infection in pregnancy has been linked to miscarriages, premature birth and low birth weight, premature rupture of membranes, and chorioamnionitis. Gonorrhea can also infect an infant during delivery as the infant passes through the birth canal. If untreated, infants can develop eye infections.”

31-2A-32. Positive Alternatives for Pregnancy and Parenting Grant Program.

There is established within the department the Positive Alternatives for Pregnancy and Parenting Grant Program. The purpose of the program shall be to develop a state-wide effort that promotes healthy pregnancies and childbirth by awarding grants to nonprofit organizations that provide pregnancy support services. (Code 1981, § 31-2A-32, enacted by Ga. L. 2016, p. 214, § 2/SB 308; Ga. L. 2017, p. 764, § 2-3/SB 193; Ga. L. 2017, p. 774, § 31/HB 323.)

The 2017 amendments. — The first 2017 amendment, effective July 1, 2017, in the second sentence, deleted “grant” preceding “program” and substituted “develop a state-wide effort that promotes healthy pregnancies and childbirth” for “promote healthy pregnancies and childbirth”. The second 2017 amendment, effective May 9, 2017, part of an Act to revise, modernize, and correct the Code, deleted “grant” preceding “program” at the beginning of the second sentence.

Editor’s notes. — Ga. L. 2017, p. 764, § 1-1/SB 193, not codified by the General Assembly, provides that: “The General Assembly finds that:

“(1) Untreated chlamydial infection has

been linked to problems during pregnancy, including preterm labor, premature rupture of membranes, and low birth weight. The newborn may also become infected during delivery as the baby passes through the birth canal. Exposed newborns can develop eye and lung infections; and

“(2) Untreated gonococcal infection in pregnancy has been linked to miscarriages, premature birth and low birth weight, premature rupture of membranes, and chorioamnionitis. Gonorrhea can also infect an infant during delivery as the infant passes through the birth canal. If untreated, infants can develop eye infections.”

31-2A-33. Administration and duties.

(a) The department shall oversee the program and is authorized to contract with a contract management agency to administer the program.

(b) The contract management agency selected by the department shall meet the definition of a contract management agency as defined in paragraph (3) of Code Section 31-2A-31 and shall:

- (1) Create a grant application process;
- (2) Evaluate grant applications and make recommendations to the department;
- (3) Communicate acceptance or denial of grant applications to direct client service providers;
- (4) Monitor compliance with the terms and conditions of the grant;
- (5) Maintain records for each grant applicant and award; and
- (6) Coordinate activities and correspondence between the department and direct client service providers. (Code 1981, § 31-2A-33,

enacted by Ga. L. 2016, p. 214, § 2/SB 308; Ga. L. 2017, p. 764, § 2-4/SB 193.)

The 2017 amendment, effective July 1, 2017, added “meet the definition of a contract management agency as defined in paragraph (3) of Code Section 31-2A-31 and shall” at the end of subsection (b).

Editor’s notes. — Ga. L. 2017, p. 764, § 1-1/SB 193, not codified by the General Assembly, provides that: “The General Assembly finds that:

“(1) Untreated chlamydial infection has been linked to problems during pregnancy, including preterm labor, premature rupture of membranes, and low birth weight. The newborn may also become

infected during delivery as the baby passes through the birth canal. Exposed newborns can develop eye and lung infections; and

“(2) Untreated gonococcal infection in pregnancy has been linked to miscarriages, premature birth and low birth weight, premature rupture of membranes, and chorioamnionitis. Gonorrhea can also infect an infant during delivery as the infant passes through the birth canal. If untreated, infants can develop eye infections.”

31-2A-34. Services funded by program.

The services which shall be funded by the program include:

(1) Medical care and information, including but not limited to pregnancy tests, sexually transmitted infection tests, other health screenings, ultrasound service, prenatal care, and birth classes and planning;

(2) Nutritional services and education;

(3) Housing, education, and employment assistance during pregnancy and up to one year following a birth;

(4) Adoption education, planning, and services;

(5) Child care assistance if necessary for the client to receive pregnancy support services;

(6) Parenting education and support services for up to one year following a birth;

(7) Material items which are supportive of pregnancy and childbirth, including but not limited to cribs, car seats, clothing, formula, or other safety devices; and

(8) Information regarding health care benefits, including but not limited to available Medicaid coverage for the client for pregnancy care that provides health coverage for the client’s child upon his or her birth. (Code 1981, § 31-2A-34, enacted by Ga. L. 2016, p. 214, § 2/SB 308; Ga. L. 2017, p. 774, § 31/HB 323.)

The 2017 amendment, effective May 9, 2017, part of an Act to revise, modernize, and correct the Code, revised lan-

guage and punctuation throughout this Code section.

31-2A-35. Grants.

(a) Grants shall be awarded annually on a competitive basis to direct client service providers who display competent experience in providing any of the services included in Code Section 31-2A-34 pursuant to guidelines and criteria established pursuant to this article.

(b) The department shall, with input from the agency, determine the maximum grant amount to be awarded to each direct client service provider, and such grant amount shall not exceed 85 percent of the annual revenue for the prior year of any provider.

(c) The grant agreement entered into between the agency and a direct client service provider shall stipulate that the grant shall be used to provide any or all pregnancy support services at the discretion of the service provider pursuant to Code Section 31-2A-34. The agreement shall further stipulate that a direct client service provider shall not perform, promote, or act as a referral for an abortion, except as otherwise provided in paragraph (9) of subsection (a) of Code Section 31-2A-36, and that grant funds shall not be used to promote or be otherwise expended for political or religious purposes, including, but not limited to, counseling or written material. Nothing in this article shall be construed to prohibit any direct client service provider from promoting or expending nongrant funds for a political or religious purpose. (Code 1981, § 31-2A-35, enacted by Ga. L. 2016, p. 214, § 2/SB 308; Ga. L. 2017, p. 764, § 2-5/SB 193.)

The 2017 amendment, effective July 1, 2017, inserted “any of” in the middle of subsection (a); and, in subsection (c), in the first sentence, inserted “any or all” and inserted “at the discretion of the service provider”, and added the third sentence.

Editor’s notes. — Ga. L. 2017, p. 764, § 1-1/SB 193, not codified by the General Assembly, provides that: “The General Assembly finds that:

“(1) Untreated chlamydial infection has been linked to problems during pregnancy, including preterm labor, premature rupture of membranes, and low birth

weight. The newborn may also become infected during delivery as the baby passes through the birth canal. Exposed newborns can develop eye and lung infections; and

“(2) Untreated gonococcal infection in pregnancy has been linked to miscarriages, premature birth and low birth weight, premature rupture of membranes, and chorioamnionitis. Gonorrhea can also infect an infant during delivery as the infant passes through the birth canal. If untreated, infants can develop eye infections.”

31-2A-36. Criteria for grant consideration.

(a) In order to be considered for a grant under this article, each direct client service provider shall:

(1) Be a nonprofit organization incorporated in this state with a tax-exempt status pursuant to Section 501(c)(3) of the Internal Revenue Code of 1986;

(2) Have a primary mission of promoting healthy pregnancy and childbirth;

(3) Have a system of financial accountability consistent with generally accepted accounting principles, including an annual budget;

(4) Have a board that hires and supervises a director who manages the organization's operations;

(5) Have provided pregnancy support services for a minimum of one year;

(6) Offer, at a minimum, pregnancy tests and counseling for women who are or may be experiencing unplanned pregnancies;

(7) Provide confidential and free pregnancy support services;

(8) Provide each pregnant client with accurate information on the developmental characteristics of babies and of unborn children, including offering the printed materials described in Code Section 31-9A-4 on fetal development and assistance available following a birth;

(9) Ensure that grant money is not used to encourage or affirmatively counsel a client to have an abortion unless the client's attending physician diagnoses a condition which makes such abortion necessary to prevent her death; to provide her an abortion; or to directly refer her to an abortion provider for an abortion; and

(10) Maintain confidentiality of all data, files, and records of clients related to the services provided and in compliance with state and federal laws.

(b) The department shall publish the direct client service provider criteria on its website. (Code 1981, § 31-2A-36, enacted by Ga. L. 2016, p. 214, § 2/SB 308.)

31-2A-37. Record maintenance and reporting.

Each direct client service provider shall maintain accurate records and report data to the agency annually on forms and in the manner required by the department. Reports shall include the number of clients who:

(1) Utilized pregnancy support services;

(2) Are pregnant;

- (3) Chose childbirth after receiving pregnancy support services;
- (4) Chose adoption after receiving pregnancy support services; and
- (5) Chose abortion after receiving pregnancy support services.

Each provider may be required to provide other information and data at the discretion of the department. (Code 1981, § 31-2A-37, enacted by Ga. L. 2016, p. 214, § 2/SB 308.)

31-2A-38. Confidentiality.

Confidentiality of all data, files, and records of clients related to the services provided under this article shall be maintained by the department, contract management agency, and direct client service providers pursuant to federal and state laws related to privacy of medical records, including requirements under the federal Health Insurance Portability and Accountability Act of 1996, P.L. 104-191. (Code 1981, § 31-2A-38, enacted by Ga. L. 2016, p. 214, § 2/SB 308.)

31-2A-39. Annual audit.

The agency shall conduct an annual audit of each direct client service provider by an independent certified public accountant within 120 days of the completion of its fiscal year verifying that it has complied with all requirements of this article and any other requirements of the department. (Code 1981, § 31-2A-39, enacted by Ga. L. 2016, p. 214, § 2/SB 308.)

31-2A-40. Reports to the General Assembly.

(a) The department shall annually report to the General Assembly on its use of trust funds appropriated to the department pursuant to this article.

(b) The department shall also provide an annual report no later than September 30 of each year beginning September 30, 2017, which shall provide the following information for the immediately preceding fiscal year:

- (1) The amount of any contributions or other funding received;
- (2) The total amount of expenses; and
- (3) The amount of trust funds disbursed through the agency to direct client service providers.

(c) The reports required by this Code section shall be made available to the public free of charge by electronic means and in such other

manner as the department deems appropriate. (Code 1981, § 31-2A-40, enacted by Ga. L. 2016, p. 214, § 2/SB 308.)

31-2A-41. Acceptance of donations, contributions, and gifts.

The department is authorized to accept donations, contributions, and gifts and receive, hold, and use grants, devises, and bequests of real, personal, and mixed property on behalf of the state to enable the department to carry out the functions and purposes of this article. (Code 1981, § 31-2A-41, enacted by Ga. L. 2016, p. 214, § 2/SB 308.)

ARTICLE 3

PERINATAL FACILITIES

Effective date. — This article became effective July 1, 2018.

31-2A-50. Legislative findings.

The General Assembly finds and declares that:

(1) Georgia ranks as the forty-ninth worst in the nation for the numbers of maternal deaths occurring during and one year after pregnancy;

(2) Georgia ranks as the thirty-second worst in the nation for the number of infant deaths occurring before the first birthday;

(3) Georgia ranks as the forty-fifth worst in the nation for the percentage of premature births, a leading cause of infant deaths;

(4) Low birth weight or premature infants are more likely to survive if the birth takes place in a facility which is prepared to handle the risks associated with such deliveries;

(5) Several states have established programs to inspect and designate facilities that have developed the capacity to provide expanded levels of neonatal and maternal care; and

(6) Therefore, it is in the best interest of the residents of this state to establish a program that encourages the improvement of quality of care to create better maternal and neonatal outcomes. (Code 1981, § 31-2A-50, enacted by Ga. L. 2018, p. 344, § 1/HB 909.)

31-2A-51. Definitions.

As used in this article, the term:

(1) “Designated facility” means a perinatal facility that has been inspected and approved by the department pursuant to this article as

meeting its established criteria for a particular maternal or neonatal level of care.

(2) “Perinatal facility” means a hospital, clinic, or birthing center that provides maternal or neonatal health care services. (Code 1981, § 31-2A-51, enacted by Ga. L. 2018, p. 344, § 1/HB 909.)

31-2A-52. Approval as designated perinatal facility; establishing criteria for levels of maternal and neonatal care.

(a) The department shall establish a procedure by which a perinatal facility may request approval as a designated facility which has achieved a particular maternal or neonatal level of care.

(b)(1) The department shall establish through rulemaking the criteria for levels of maternal and neonatal care, ranging from basic care to such additional levels of care as may be deemed appropriate for the protection of mothers and infants at elevated risk.

(2) The department shall establish separate criteria for levels of maternal care and neonatal care. Such criteria may include, without limitation, data collection and reporting, arrangements for patient transportation, and protocols for coordination with and referral of patients to and from other health care facilities.

(3) In establishing or revising the criteria for maternal and neonatal levels of care, the department shall conduct public comment hearings; solicit the views of hospitals, birthing centers, health care providers, and related professional associations; and give due consideration to the current recommendations of medical and scientific organizations in the field of perinatal medicine. (Code 1981, § 31-2A-52, enacted by Ga. L. 2018, p. 344, § 1/HB 909.)

31-2A-53. Application process; review and redesignation of facilities; failure to comply with criteria.

(a) A perinatal facility may apply to the department for designation through an application process to be determined by the department. The facility shall demonstrate to the satisfaction of the department that it meets the applicable criteria for the requested level of care. The application process may include an on-site inspection of the facility at the discretion of the department.

(b) The department may establish requirements for the periodic review and redesignation of designated facilities.

(c) The department may suspend or revoke the designation of a designated facility, after notice and hearing, if the department determines that the facility is no longer in compliance with the criteria

established pursuant to this article. (Code 1981, § 31-2A-53, enacted by Ga. L. 2018, p. 344, § 1/HB 909.)

31-2A-54. Listing of designated facilities; self-assessment tool.

(a) On or before December 31, 2019, the department shall post and annually update a list of designated facilities on its website.

(b) The department shall adopt or develop a self-assessment tool for use by perinatal facilities that includes separate, minimum requirements for neonatal and maternal levels of care. The department shall post this assessment tool on its website no later than July 1, 2019. (Code 1981, § 31-2A-54, enacted by Ga. L. 2018, p. 344, § 1/HB 909.)

31-2A-55. Provisions are not medical care; individualized care and treatment.

This article, and any criteria developed by the department pursuant to this article, shall not be construed to be a medical practice guideline or to establish a standard of care for treatment and shall not be used to restrict or expand the authority of a hospital or other health care facility to provide services for which it has received a license under state law. The General Assembly intends that all patients be treated individually based on each patient's needs and circumstances. (Code 1981, § 31-2A-55, enacted by Ga. L. 2018, p. 344, § 1/HB 909.)

31-2A-56. Advertisement prohibited unless designated by department.

No person or facility may advertise to the public, by way of any medium whatsoever, that it is a designated facility or has achieved a particular level of maternal or neonatal care according to the criteria established pursuant to this article, unless it has been designated as such by the department. (Code 1981, § 31-2A-56, enacted by Ga. L. 2018, p. 344, § 1/HB 909.)

31-2A-57. Regulatory authority.

The department shall be authorized to promulgate rules and regulations to carry out the purposes of this article. (Code 1981, § 31-2A-57, enacted by Ga. L. 2018, p. 344, § 1/HB 909.)

CHAPTER 3

COUNTY BOARDS OF HEALTH

Sec.

31-3-2.1. Option for certain counties to create board of health and

wellness by ordinance [Repealed].

31-3-2.1. Option for certain counties to create board of health and wellness by ordinance.

Repealed by Ga. L. 2016, p. 520, § 1/HB 885, effective April 27, 2016.

Editor’s notes. — This Code section was based on Code 1981, § 31-3-2.1, enacted by Ga. L. 1985, p. 384, § 1; Ga. L. 1987, p. 169, § 1; Ga. L. 1991, p. 94, § 31; Ga. L. 1998, p. 916, § 1; Ga. L. 2002, p. 1473, § 1.

Ga. L. 2016, p. 520, § 2/HB 885, not codified by the General Assembly, provides: “This Act shall become effective upon its approval by the Governor or upon its becoming law without such approval; provided, however, that for any county

board of health and wellness which was established by county ordinance pursuant to the former provisions of Code Section 31-3-2.1 and which is still in existence as of the effective date of this Act, the members of such board shall remain in office and such board shall remain in existence until a county board of health is constituted pursuant to Code Section 31-3-2 for such county or until June 30, 2017, whichever occurs first.”

CHAPTER 5

ADMINISTRATION AND ENFORCEMENT

| Article 1 | | Article 2 | |
|--------------------|--|---------------------|--|
| General Provisions | | Inspection Warrants | |
| Sec. | 31-5-10. Notifying department or board of health of conditions on private property which are injurious to the public; inspection warrant; notice to owner and occupant; abatement. | Sec. | |
| | | 31-5-20. | “Inspection warrant” defined. |
| | | 31-5-21. | Persons who may obtain inspection warrants; authorization of searches and inspections of property. |
| | | 31-5-24. | Exclusion of evidence obtained [Repealed]. |

ARTICLE 1

GENERAL PROVISIONS

31-5-10. Notifying department or board of health of conditions on private property which are injurious to the public; inspection warrant; notice to owner and occupant; abatement.

(a) The provisions of this Code section shall apply only in those counties of this state having a population of 450,000 or more according to the United States decennial census of 1980 or any future such census.

(b) Any person who knows or suspects that a condition exists on private property, which condition is injurious to the public health, safety, or comfort, shall immediately notify the Department of Public Health or the county board of health. Upon receiving such notice, the department or the county board of health shall be authorized to obtain an inspection warrant as provided in Code Section 31-5-21. If the department or the county board of health determines that there exists a condition which is injurious to the public health, safety, or comfort, the department or county board of health shall, by registered or certified mail or statutory overnight delivery with return receipt requested, notify the occupants of the property and, if different from the occupant, the person, firm, or corporation which owns the property. Notice to the owner shall be sent to the address shown on the county or municipal property tax records.

(c) If the department or the county board of health brings an action for injunction to abate a public nuisance which is injurious to the public health, safety, or comfort, process shall be served on the occupants of the property and on any person, firm, or corporation having any interest in the property according to the county property records. Service shall be made in accordance with Code Section 9-11-4; and, if any person, firm, or corporation to be served resides outside the state, has departed the state, cannot, after due diligence, be found within the state, or conceals himself to avoid the service of summons, the judge or clerk may make an order that the service be made by publication of summons as provided in Code Section 9-11-4.

(d) In addition to any form of relief ordered by the court, the superior court may, as a part of its order, authorize the department or the county board of health to take appropriate action to abate such public nuisance. Any cost incurred by the department or the county board of health to abate such nuisance shall constitute a lien against the property, and such lien shall have the same status and priority as a lien

for taxes. (Code 1981, § 31-5-10, enacted by Ga. L. 1985, p. 388, § 1; Ga. L. 2000, p. 1589, § 3; Ga. L. 2015, p. 598, § 1-10/HB 72.)

The 2015 amendment, effective July 1, 2015, substituted “Department of Public Health” for “department” in the first sentence of subsection (b).

Law reviews. — For article on the 2015 amendment of this Code section, see 32 Ga. St. U.L. Rev. 63 (2015).

ARTICLE 2

INSPECTION WARRANTS

31-5-20. “Inspection warrant” defined.

As used in this article, the term “inspection warrant” means a warrant authorizing a search or inspection of private property where such a search or inspection is one that is necessary for the enforcement of any of the provisions of laws authorizing licensure, inspection, or regulation by the Department of Public Health or a local agency thereof. (Code 1933, § 88-301A, enacted by Ga. L. 1975, p. 693, § 1; Ga. L. 1982, p. 1667, §§ 1, 2; Ga. L. 2009, p. 453, § 1-4/HB 228; Ga. L. 2011, p. 705, § 5-11/HB 214; Ga. L. 2015, p. 598, § 1-11/HB 72.)

The 2015 amendment, effective July 1, 2015, in this Code section, substituted “article” for “chapter” near the beginning, and deleted “or by the Department of Community Health” following “agency thereof” at the end.

Law reviews. — For article on the 2015 amendment of this Code section, see 32 Ga. St. U.L. Rev. 63 (2015).

31-5-21. Persons who may obtain inspection warrants; authorization of searches and inspections of property.

The commissioner of public health or his or her delegate or the director of any county board of health, in addition to other procedures now or hereafter provided, may obtain an inspection warrant under the conditions specified in this chapter. Such warrant shall authorize the commissioner of public health or the director of any county board of health, or the agents of any, or the Department of Agriculture, as appropriate, to conduct a search or inspection of property, either with or without the consent of the person whose property is to be searched or inspected, if such search or inspection is one that is elsewhere authorized under the rules and regulations duly promulgated under this title or any provision of law which authorizes licensure, inspection, or regulation by the Department of Public Health or a local agency thereof. (Code 1933, § 88-302A, enacted by Ga. L. 1975, p. 693, § 1; Ga. L. 1982, p. 1667, §§ 1, 2; Ga. L. 1998, p. 128, § 31; Ga. L. 2009, p. 453, § 1-4/HB 228; Ga. L. 2011, p. 705, § 5-12/HB 214; Ga. L. 2015, p. 598, § 1-12/HB 72.)

The 2015 amendment, effective July 1, 2015, in this Code section, substituted “of public health” for “or the commissioner of community health” in the first and second sentences, and deleted “or by the Department of Community Health” fol-

lowing “agency thereof” in the last sentence.

Law reviews. — For article on the 2015 amendment of this Code section, see 32 Ga. St. U.L. Rev. 63 (2015).

31-5-24. Exclusion of evidence obtained.

Repealed by Ga. L. 2015, p. 598, § 1-13/HB 72, effective July 1, 2015.

Editor’s notes. — This Code section was based on Code 1933, § 88-306A, enacted by Ga. L. 1975, p. 693, § 1.

Law reviews. — For article on the 2015 amendment of this Code section, see 32 Ga. St. U.L. Rev. 63 (2015).

ARTICLE 1

GENERAL PROVISIONS

31-6-1. Declaration of policy.

JUDICIAL DECISIONS

Constitutionality. — By its plain terms, O.C.G.A. § 31-6-40(a)(7)(C) does not authorize monopolistic contracts relating to providers of new institutional health services and only requires that all such providers obtain a Certificate of Need (CON) before adding new services; thus, it did not implicate the Anti-Competitive Contracts Clause in any way as the requirement did not authorize

contracts between service providers or anyone else that would encourage a monopoly. *Women’s Surgical Ctr., LLC v. Berry*, 302 Ga. 349, 806 S.E.2d 606 (2017).

Statute serves legitimate legislative purpose. — Georgia Supreme Court held the availability of quality health care services was certainly a legitimate legislative purpose and that the government objectives with respect to Georgia’s certif-

icate of need laws were indeed legitimate. *Women's Surgical Ctr., LLC v. Berry*, 302 Ga. 349, 806 S.E.2d 606 (2017).

Certificate of need. — Reversal of the agency and denial of a Certificate of Need (CON) was affirmed because the atypical barrier exception did not support the agency's grant of the CON as the agency's interpretation of the atypical barrier exception in the rule was inconsistent with

the plain language of the rule, clearly erroneous, and prejudiced the substantial rights of the challenging hospitals who already provided the same services. *ASMC, LLC v. Northside Hosp., Inc.*, 344 Ga. App. 576, 810 S.E.2d 663 (2018).

Cited in *Tanner Med. Ctr., Inc. v. Vest Newnan, LLC*, 337 Ga. App. 884, 789 S.E.2d 258 (2016).

31-6-2. Definitions.

As used in this chapter, the term:

(1) "Ambulatory surgical center or obstetrical facility" means a public or private facility, not a part of a hospital, which provides surgical or obstetrical treatment performed under general or regional anesthesia in an operating room environment to patients not requiring hospitalization.

(2) "Application" means a written request for a certificate of need made to the department, containing such documentation and information as the department may require.

(3) "Basic perinatal services" means providing basic inpatient care for pregnant women and newborns without complications; managing perinatal emergencies; consulting with and referring to specialty and subspecialty hospitals; identifying high-risk pregnancies; providing follow-up care for new mothers and infants; and providing public/community education on perinatal health.

(4) "Bed capacity" means space used exclusively for inpatient care, including space designed or remodeled for inpatient beds even though temporarily not used for such purposes. The number of beds to be counted in any patient room shall be the maximum number for which adequate square footage is provided as established by rules of the department, except that single beds in single rooms shall be counted even if the room contains inadequate square footage.

(5) "Board" means the Board of Community Health.

(6) "Certificate of need" means an official determination by the department, evidenced by certification issued pursuant to an application, that the action proposed in the application satisfies and complies with the criteria contained in this chapter and rules promulgated pursuant hereto.

(7) "Certificate of Need Appeal Panel" or "appeal panel" means the panel of independent hearing officers created pursuant to Code Section 31-6-44 to conduct appeal hearings.

(8) “Clinical health services” means diagnostic, treatment, or rehabilitative services provided in a health care facility, or parts of the physical plant where such services are located in a health care facility, and includes, but is not limited to, the following: radiology and diagnostic imaging, such as magnetic resonance imaging and positron emission tomography; radiation therapy; biliary lithotripsy; surgery; intensive care; coronary care; pediatrics; gynecology; obstetrics; general medical care; medical/surgical care; inpatient nursing care, whether intermediate, skilled, or extended care; cardiac catheterization; open-heart surgery; inpatient rehabilitation; and alcohol, drug abuse, and mental health services.

(9) “Commissioner” means the commissioner of community health.

(10) “Consumer” means a person who is not employed by any health care facility or provider and who has no financial or fiduciary interest in any health care facility or provider.

(11) “Continuing care retirement community” means an organization, whether operated for profit or not, whose owner or operator undertakes to provide shelter, food, and either nursing care or personal services, whether such nursing care or personal services are provided in the facility or in another setting, and other services, as designated by agreement, to an individual not related by consanguinity or affinity to such owner or operator providing such care pursuant to an agreement for a fixed or variable fee, or for any other remuneration of any type, whether fixed or variable, for the period of care, payable in a lump sum or lump sum and monthly maintenance charges or in installments. Agreements to provide continuing care include agreements to provide care for any duration, including agreements that are terminable by either party.

(12) “Department” means the Department of Community Health established under Chapter 2 of this title.

(13) “Destination cancer hospital” means an institution with a licensed bed capacity of 50 or less which provides diagnostic, therapeutic, treatment, and rehabilitative care services to cancer inpatients and outpatients, by or under the supervision of physicians, and whose proposed annual patient base is composed of a minimum of 65 percent of patients who reside outside of the State of Georgia.

(14) “Develop,” with reference to a project, means:

(A) Constructing, remodeling, installing, or proceeding with a project, or any part of a project, or a capital expenditure project, the cost estimate for which exceeds \$2.5 million; or

(B) The expenditure or commitment of funds exceeding \$1 million for orders, purchases, leases, or acquisitions through other

comparable arrangements of major medical equipment; provided, however, that this shall not include build-out costs, as defined by the department, but shall include all functionally related equipment, software, and any warranty and services contract costs for the first five years.

Notwithstanding subparagraphs (A) and (B) of this paragraph, the expenditure or commitment or incurring an obligation for the expenditure of funds to develop certificate of need applications, studies, reports, schematics, preliminary plans and specifications, or working drawings or to acquire, develop, or prepare sites shall not be considered to be the developing of a project.

(15) "Diagnostic imaging" means magnetic resonance imaging, computed tomography (CT) scanning, positron emission tomography (PET) scanning, positron emission tomography/computed tomography, and other advanced imaging services as defined by the department by rule, but such term shall not include X-rays, fluoroscopy, or ultrasound services.

(16) "Diagnostic, treatment, or rehabilitation center" means any professional or business undertaking, whether for profit or not for profit, which offers or proposes to offer any clinical health service in a setting which is not part of a hospital; provided, however, that any such diagnostic, treatment, or rehabilitation center that offers or proposes to offer surgery in an operating room environment and to allow patients to remain more than 23 hours shall be considered a hospital for purposes of this chapter.

(17) "Health care facility" means hospitals; destination cancer hospitals; other special care units, including but not limited to podiatric facilities; skilled nursing facilities; intermediate care facilities; personal care homes; ambulatory surgical centers or obstetrical facilities; health maintenance organizations; home health agencies; and diagnostic, treatment, or rehabilitation centers, but only to the extent paragraph (3) or (7), or both paragraphs (3) and (7), of subsection (a) of Code Section 31-6-40 are applicable thereto.

(18) "Health maintenance organization" means a public or private organization organized under the laws of this state which:

(A) Provides or otherwise makes available to enrolled participants health care services, including at least the following basic health care services: usual physicians' services, hospitalization, laboratory, X-ray, emergency and preventive services, and out-of-area coverage;

(B) Is compensated, except for copayments, for the provision of the basic health care services listed in subparagraph (A) of this

paragraph to enrolled participants on a predetermined periodic rate basis; and

(C) Provides physicians' services primarily:

(i) Directly through physicians who are either employees or partners of such organization; or

(ii) Through arrangements with individual physicians organized on a group practice or individual practice basis.

(19) "Health Strategies Council" or "council" means the body created by this chapter to advise the department.

(20) "Home health agency" means a public agency or private organization, or a subdivision of such an agency or organization, which is primarily engaged in providing to individuals who are under a written plan of care of a physician, on a visiting basis in the places of residence used as such individuals' homes, part-time or intermittent nursing care provided by or under the supervision of a registered professional nurse, and one or more of the following services:

(A) Physical therapy;

(B) Occupational therapy;

(C) Speech therapy;

(D) Medical social services under the direction of a physician; or

(E) Part-time or intermittent services of a home health aide.

(21) "Hospital" means an institution which is primarily engaged in providing to inpatients, by or under the supervision of physicians, diagnostic services and therapeutic services for medical diagnosis, treatment, and care of injured, disabled, or sick persons or rehabilitation services for the rehabilitation of injured, disabled, or sick persons. Such term includes public, private, psychiatric, rehabilitative, geriatric, osteopathic, micro-hospitals, and other specialty hospitals.

(22) "Intermediate care facility" means an institution which provides, on a regular basis, health related care and services to individuals who do not require the degree of care and treatment which a hospital or skilled nursing facility is designed to provide but who, because of their mental or physical condition, require health related care and services beyond the provision of room and board.

(23) "Joint venture ambulatory surgical center" means a free-standing ambulatory surgical center that is jointly owned by a hospital in the same county as the center or a hospital in a contiguous county if there is no hospital in the same county as the center and a

single group of physicians practicing in the center and that provides surgery in a single specialty as defined by the department; provided, however, that general surgery, a group practice which includes one or more physiatrists who perform services that are reasonably related to the surgical procedures performed in the center, and a group practice in orthopedics which includes plastic hand surgeons with a certificate of added qualifications in Surgery of the Hand from the American Board of Plastic and Reconstructive Surgery shall be considered a single specialty. The ownership interest of the hospital shall be no less than 30 percent and the collective ownership of the physicians or group of physicians shall be no less than 30 percent.

(23.1) "Micro-hospital" means a hospital in a rural county which has at least two and not more than seven inpatient beds and which provides emergency services seven days per week and 24 hours per day.

(24) "New and emerging health care service" means a health care service or utilization of medical equipment which has been developed and has become acceptable or available for implementation or use but which has not yet been addressed under the rules and regulations promulgated by the department pursuant to this chapter.

(25) "Nonclinical health services" means services or functions provided or performed by a health care facility, and the parts of the physical plant where they are located in a health care facility that are not diagnostic, therapeutic, or rehabilitative services to patients and are not clinical health services defined in this chapter.

(26) "Offer" means that the health care facility is open for the acceptance of patients or performance of services and has qualified personnel, equipment, and supplies necessary to provide specified clinical health services.

(27) "Operating room environment" means an environment which meets the minimum physical plant and operational standards specified in the rules of the department which shall consider and use the design and construction specifications as set forth in the *Guidelines for Design and Construction of Health Care Facilities* published by the American Institute of Architects.

(28) "Pediatric cardiac catheterization" means the performance of angiographic, physiologic, and, as appropriate, therapeutic cardiac catheterization on children 14 years of age or younger.

(29) "Person" means any individual, trust or estate, partnership, limited liability company or partnership, corporation (including associations, joint-stock companies, and insurance companies), state, political subdivision, hospital authority, or instrumentality (includ-

ing a municipal corporation) of a state as defined in the laws of this state. This term shall include all related parties, including individuals, business corporations, general partnerships, limited partnerships, limited liability companies, limited liability partnerships, joint ventures, nonprofit corporations, or any other for profit or not for profit entity that owns or controls, is owned or controlled by, or operates under common ownership or control with a person.

(30) "Personal care home" means a residential facility that is certified as a provider of medical assistance for Medicaid purposes pursuant to Article 7 of Chapter 4 of Title 49 having at least 25 beds and providing, for compensation, protective care and oversight of ambulatory, nonrelated persons who need a monitored environment but who do not have injuries or disabilities which require chronic or convalescent care, including medical, nursing, or intermediate care. Personal care homes include those facilities which monitor daily residents' functioning and location, have the capability for crisis intervention, and provide supervision in areas of nutrition, medication, and provision of transient medical care. Such term does not include:

(A) Old age residences which are devoted to independent living units with kitchen facilities in which residents have the option of preparing and serving some or all of their own meals; or

(B) Boarding facilities which do not provide personal care.

(31) "Project" means a proposal to take an action for which a certificate of need is required under this chapter. A project or proposed project may refer to the proposal from its earliest planning stages up through the point at which the new institutional health service is offered.

(32) "Rural county" means a county having a population of less than 50,000 according to the United States decennial census of 2010 or any future such census.

(33) "Single specialty ambulatory surgical center" means an ambulatory surgical center where surgery is performed in the offices of an individual private physician or single group practice of private physicians if such surgery is performed in a facility that is owned, operated, and utilized by such physicians who also are of a single specialty; provided, however, that general surgery, a group practice which includes one or more physiatrists who perform services that are reasonably related to the surgical procedures performed in the center, and a group practice in orthopedics which includes plastic hand surgeons with a certificate of added qualifications in Surgery of the Hand from the American Board of Plastic and Reconstructive Surgery shall be considered a single specialty.

(34) “Skilled nursing facility” means a public or private institution or a distinct part of an institution which is primarily engaged in providing inpatient skilled nursing care and related services for patients who require medical or nursing care or rehabilitation services for the rehabilitation of injured, disabled, or sick persons.

(35) “Specialty hospital” means a hospital that is primarily or exclusively engaged in the care and treatment of one of the following: patients with a cardiac condition, patients with an orthopedic condition, patients receiving a surgical procedure, or patients receiving any other specialized category of services defined by the department. A “specialty hospital” does not include a destination cancer hospital.

(36) “State health plan” means a comprehensive program based on recommendations by the Health Strategies Council and the board, approved by the Governor, and implemented by the State of Georgia for the purpose of providing adequate health care services and facilities throughout the state.

(37) “Uncompensated indigent or charity care” means the dollar amount of “net uncompensated indigent or charity care after direct and indirect (all) compensation” as defined by, and calculated in accordance with, the department’s Hospital Financial Survey and related instructions.

(38) “Urban county” means a county having a population equal to or greater than 50,000 according to the United States decennial census of 2010 or any future such census. (Code 1981, § 31-6-2, enacted by Ga. L. 1983, p. 1566, § 1; Ga. L. 1984, p. 22, § 31; Ga. L. 1989, p. 1566, § 1; Ga. L. 1989, p. 1685, § 1; Ga. L. 1991, p. 94, § 31; Ga. L. 1991, p. 1871, §§ 1-5.1; Ga. L. 1991, p. 1880, § 1; Ga. L. 1999, p. 296, §§ 3, 4, 22; Ga. L. 2007, p. 173, § 2A/HB 429; Ga. L. 2008, p. 12, § 1-1/SB 433; Ga. L. 2009, p. 8, § 31/SB 46; Ga. L. 2009, p. 453, § 1-8/HB 228; Ga. L. 2018, p. 132, § 4/HB 769.)

The 2018 amendment, effective July 1, 2018, inserted “micro-hospitals,” near the end of paragraph (21); added para-

graph (23.1); and substituted “50,000” for “35,000” and “2010” for “2000” in paragraphs (32) and (38).

JUDICIAL DECISIONS

Certificate of need.

Ga. Comp. R. Regs. 111-2-2-.40, which provided that an ambulatory surgical center (ASC) that was part of a hospital was not subject to more stringent certificate of need (CON) specifications, was not unconstitutionally vague because it stated two

clear examples of when an ASC was part of a hospital and provided that other situations would be considered under case-by-case review by the Department of Community Health. *Ga. Dep’t of Cmty. Health v. Northside Hosp., Inc.*, 295 Ga. 446, 761 S.E.2d 74 (2014).

ORGANIZATION

31-6-21. Department of Community Health generally.

JUDICIAL DECISIONS

Criteria used by Review Board.
Reversal of the agency and denial of a Certificate of Need (CON) was affirmed because the atypical barrier exception did not support the agency’s grant of the CON as the agency’s interpretation of the atypical barrier exception in the rule was

inconsistent with the plain language of the rule, clearly erroneous, and prejudiced the substantial rights of the challenging hospitals who already provided the same services. *ASMC, LLC v. Northside Hosp., Inc.*, 344 Ga. App. 576, 810 S.E.2d 663 (2018).

31-6-21.1. Procedures for rule making by Department of Community Health.

JUDICIAL DECISIONS

Definition of “part of a hospital” not unconstitutionally vague. — Ga. Comp. R. Regs. 111-2-2-.40, which provided that an ambulatory surgical center (ASC) that was part of a hospital was not subject to more stringent certificate of need (CON) specifications, was not unconstitutionally vague because it stated two

clear examples of when an ASC was part of a hospital and provided that other situations would be considered under a case-by-case review by the Department of Community Health. *Ga. Dep’t of Cmty. Health v. Northside Hosp., Inc.*, 295 Ga. 446, 761 S.E.2d 74 (2014).

ARTICLE 3

CERTIFICATE OF NEED PROGRAM

31-6-40. Certificate of need required for new institutional health services; exemption.

Law reviews. — For annual survey on administrative law, see 69 Mercer L. Rev. 15 (2017).

JUDICIAL DECISIONS

Constitutionality. — By the statute’s plain terms, O.C.G.A. § 31-6-40(a)(7)(C) does not authorize monopolistic contracts relating to providers of new institutional health services and only requires that all such providers obtain a Certificate of Need (CON) before adding new services; thus, it did not implicate the Anti-Competitive Contracts Clause in any

way as the requirement did not authorize contracts between service providers or anyone else that would encourage a monopoly. *Women’s Surgical Ctr., LLC v. Berry*, 302 Ga. 349, 806 S.E.2d 606 (2017).

Venue of action. — Trial court did not err in the court’s denial of the motion to transfer venue in a case involving an application for a Certificate of Need

(CON) because the company began the process of purchasing property and applied for a CON to develop a psychiatric hospital in Coweta County, Georgia; therefore, the company engaged in business activities such that venue was proper there. *Tanner Med. Ctr., Inc. v. Vest Newnan, LLC*, 337 Ga. App. 884, 789 S.E.2d 258 (2016).

Health care. — Georgia Supreme Court held the availability of quality health care services was certainly a legitimate legislative purpose and that the government objectives with respect to Georgia's certificate of need laws were indeed legitimate. *Women's Surgical Ctr., LLC v. Berry*, 302 Ga. 349, 806 S.E.2d 606 (2017).

“Offered in a hospital.” — Trial court erred in determining that the Georgia Department of Community Health's interpretation of the phrase “offered in a hospital” violated the equipment threshold provision in O.C.G.A. § 31-6-40. *Medical Ctr. of Cent. Ga. v. Hosp. Auth.*, 340 Ga. App. 499, 798 S.E.2d 42 (2017).

Exhaustion of administrative remedies.

Because the Georgia Society of Ambulatory Surgical Centers represented the interests of members that had adequate administrative remedies, and those members had not exhausted those remedies, the trial court was required to dismiss its case alleging that an annual survey the

Georgia Department of Community Health (DCH) issued to ambulatory surgery centers (ASC) sought information beyond the scope of O.C.G.A. § 31-6-70. Furthermore, the procedures set forth in the Georgia Administrative Procedure Act, O.C.G.A. § 50-13-19 and O.C.G.A. §§ 31-6-40(c), and 31-6-47(18), and Ga. Comp. R. & Regs. 111-2-2-.05(2)(e) were available to ACSs before DCH took any final adverse action against them for failing to provide the required survey information, the procedures afforded adequate administrative remedies to aggrieved ACSs. *Ga. Soc'y of Ambulatory Surgery Ctrs. v. Ga. Dep't of Cmty. Health*, 316 Ga. App. 433, 729 S.E.2d 565 (2012).

Certificate of need properly denied.

Appellate court reinstated the agency denial of a Certificate of Need to establish an inpatient psychiatric hospital because the agency's conclusion that the applicant did not meet the applicant's burden of establishing no adverse impact on similar existing programs was supported by substantial evidence, in particular, expert testimony and exhibits regarding the applicant's unrealistic projections, overinflated market share, and failure to account for an existing facility's additional 30 pediatric beds. *Tanner Med. Ctr., Inc. v. Vest Newnan, LLC*, 337 Ga. App. 884, 789 S.E.2d 258 (2016).

31-6-44.1. Judicial review.

Law reviews. — For annual survey on administrative law, see 65 *Mercer L. Rev.* 41 (2013). For annual survey on adminis-

trative law, see 69 *Mercer L. Rev.* 15 (2017).

JUDICIAL DECISIONS

Construction. — Georgia Court of Appeals finds that the Georgia legislature uses the term “jurisdiction” under O.C.G.A. § 31-6-44.1(c) with regard to attorney fees because the legislature intends to refer to something other than a challenge asserting that the Georgia Department of Community Health (DCH) exceeded the department’s statutory authority or acted ultra vires in issuing a particular decision with regard to a Certificate of Need; rather, the Court of Appeals concludes that the legislature intends the second exception to encompass challenges to the DCH’s jurisdiction as a whole. *Lakeview Behavioral Health Sys., LLC v. UHS Peachford, LP*, 321 Ga. App. 820, 743 S.E.2d 492 (2013).

Georgia Court of Appeals concludes that the Georgia legislature uses the term “ju-

risdiction” in O.C.G.A. § 31-6-44.1(c) to refer to the Georgia Department of Community Health’s general power to act and not to the department’s authority to act with regard to a particular Certificate of Need. *Lakeview Behavioral Health Sys., LLC v. UHS Peachford, LP*, 321 Ga. App. 820, 743 S.E.2d 492 (2013).

DCH order affirmed by operation of law. — In an appeal from a decision of the Georgia Department of Community Health (DCH) granting a certificate of need to a surgical facility, when the trial court failed to enter the court’s order until 48 days after the hearing, under O.C.G.A. § 31-6-44.1, the final decision of the DCH was affirmed by operation of law, making the trial court’s order void. *Kennestone Hosp., Inc. v. Cartersville Med. Ctr., Inc.*, 341 Ga. App. 28, 798 S.E.2d 381 (2017).

Attorney's fees. — In a case in which the Department of Community Health's denial of a certificate of need was affirmed, the appellants' motion for attorney fees was improperly denied because the superior court's order on remand denied the appellee's petition, thus establishing that the appellants were the prevailing parties of the appeal to the superior court as decided by a final order of that court; the appellate court's previous order noted that a fee award in favor of the appellants would be issued following the return of the remittitur to the trial court; and the appellate court's previous decision affirmed the denial of the certificate on grounds independent of the appellee's constitutional challenge to the need rule, thus mooted those issues. *Tanner Medical Center, Inc. v. Vest Newnan, LLC*, 344 Ga. App. 901, No. A17A2125, 2018 Ga. App. LEXIS 157 (2018).

Requirements met. — In a dispute by a hospital challenging the grant of a certificate of need to a competitor, because the trial court held a hearing on the Department of Community Health's and the competitor's motion to dismiss within 120 days and its order granting dismissal was entered less than 30 days later, the requirements of O.C.G.A. § 31-6-44.1(b) were fulfilled. *Doctors Hosp. of Augusta,*

LLC v. Dep't of Cmty. Health, 344 Ga. App. 583, No. A17A1902, 2018 Ga. App. LEXIS 69 (2018).

Judicial review of agency decisions. — Reversal of the agency and denial of a Certificate of Need (CON) was affirmed because the atypical barrier exception did not support the agency's grant of the CON as the agency's interpretation of the atypical barrier exception in the rule was inconsistent with the plain language of the rule, clearly erroneous, and prejudiced the substantial rights of the challenging hospitals who already provided the same services. *ASMC, LLC v. Northside Hosp., Inc.*, 344 Ga. App. 576, 810 S.E.2d 663 (2018).

Application. — Trial court erred by denying a health system's motion for attorney fees pursuant to O.C.G.A. § 31-6-44.1(c) with regard to its successful defense to a certificate of need challenge determination of the Georgia Department of Community Health (DCH) because the challenging hospital did not assert a jurisdictional challenge to the DCH's determination, thus, the challenge did not fall into the exception to fees under § 31-6-44.1(c). *Lakeview Behavioral Health Sys., LLC v. UHS Peachford, LP*, 321 Ga. App. 820, 743 S.E.2d 492 (2013).

31-6-45. Revocation of certificate of need; enforcement of chapter; regulatory investigations and examinations.

Law reviews. — For annual survey on administrative law, see 69 Mercer L. Rev. 15 (2017).

JUDICIAL DECISIONS

Cited in *Lakeview Behavioral Health Sys., LLC v. UHS Peachford, LP*, 321 Ga. App. 820, 743 S.E.2d 492 (2013).

31-6-47. Exemptions from chapter.

(a) Notwithstanding the other provisions of this chapter, this chapter shall not apply to:

(1) Infirmaries operated by educational institutions for the sole and exclusive benefit of students, faculty members, officers, or employees thereof;

(2) Infirmaries or facilities operated by businesses for the sole and exclusive benefit of officers or employees thereof, provided that such infirmaries or facilities make no provision for overnight stay by persons receiving their services;

(3) Institutions operated exclusively by the federal government or by any of its agencies;

(4) Offices of private physicians or dentists whether for individual or group practice, except as otherwise provided in paragraph (3) or (7) of subsection (a) of Code Section 31-6-40;

(5) Religious, nonmedical health care institutions as defined in 42 U.S.C. § 1395x(ss)(1), listed and certified by a national accrediting organization;

(6) Site acquisitions for health care facilities or preparation or development costs for such sites prior to the decision to file a certificate of need application;

(7) Expenditures related to adequate preparation and development of an application for a certificate of need;

(8) The commitment of funds conditioned upon the obtaining of a certificate of need;

(9) Expenditures for the acquisition of existing health care facilities by stock or asset purchase, merger, consolidation, or other lawful means unless the facilities are owned or operated by or on behalf of a:

(A) Political subdivision of this state;

(B) Combination of such political subdivisions; or

(C) Hospital authority, as defined in Article 4 of Chapter 7 of this title;

(9.1) Expenditures for the restructuring of or for the acquisition by stock or asset purchase, merger, consolidation, or other lawful means of an existing health care facility which is owned or operated by or on behalf of any entity described in subparagraph (A), (B), or (C) of paragraph (9) of this subsection only if such restructuring or acquisition is made by any entity described in subparagraph (A), (B), or (C) of paragraph (9) of this subsection;

(9.2) The purchase of a closing hospital or of a hospital that has been closed for no more than 12 months by a hospital in a contiguous county to repurpose the facility as a micro-hospital;

(10) Expenditures of less than \$870,000.00 for any minor or major repair or replacement of equipment by a health care facility that is not owned by a group practice of physicians or a hospital and that

provides diagnostic imaging services if such facility received a letter of nonreviewability from the department prior to July 1, 2008. This paragraph shall not apply to such facilities in rural counties;

(10.1) Except as provided in paragraph (10) of this subsection, expenditures for the minor or major repair of a health care facility or a facility that is exempt from the requirements of this chapter, parts thereof or services provided or equipment used therein; or the replacement of equipment, including but not limited to CT scanners previously approved for a certificate of need;

(11) Capital expenditures otherwise covered by this chapter required solely to eliminate or prevent safety hazards as defined by federal, state, or local fire, building, environmental, occupational health, or life safety codes or regulations, to comply with licensing requirements of the department, or to comply with accreditation standards of a nationally recognized health care accreditation body;

(12) Cost overruns whose percentage of the cost of a project is equal to or less than the cumulative annual rate of increase in the composite construction index, published by the Bureau of the Census of the Department of Commerce, of the United States government, calculated from the date of approval of the project;

(13) Transfers from one health care facility to another such facility of major medical equipment previously approved under or exempted from certificate of need review, except where such transfer results in the institution of a new clinical health service for which a certificate of need is required in the facility acquiring said equipment, provided that such transfers are recorded at net book value of the medical equipment as recorded on the books of the transferring facility;

(14) New institutional health services provided by or on behalf of health maintenance organizations or related health care facilities in circumstances defined by the department pursuant to federal law;

(15) Increases in the bed capacity of a hospital up to ten beds or 10 percent of capacity, whichever is greater, in any consecutive two-year period, in a hospital that has maintained an overall occupancy rate greater than 75 percent for the previous 12 month period;

(16) Expenditures for nonclinical projects, including parking lots, parking decks, and other parking facilities; computer systems, software, and other information technology; medical office buildings; and state mental health facilities;

(17) Continuing care retirement communities, provided that the skilled nursing component of the facility is for the exclusive use of residents of the continuing care retirement community and that a written exemption is obtained from the department; provided, how-

ever, that new sheltered nursing home beds may be used on a limited basis by persons who are not residents of the continuing care retirement community for a period up to five years after the date of issuance of the initial nursing home license, but such beds shall not be eligible for Medicaid reimbursement. For the first year, the continuing care retirement community sheltered nursing facility may utilize not more than 50 percent of its licensed beds for patients who are not residents of the continuing care retirement community. In the second year of operation, the continuing care retirement community shall allow not more than 40 percent of its licensed beds for new patients who are not residents of the continuing care retirement community. In the third year of operation, the continuing care retirement community shall allow not more than 30 percent of its licensed beds for new patients who are not residents of the continuing care retirement community. In the fourth year of operation, the continuing care retirement community shall allow not more than 20 percent of its licensed beds for new patients who are not residents of the continuing care retirement community. In the fifth year of operation, the continuing care retirement community shall allow not more than 10 percent of its licensed beds for new patients who are not residents of the continuing care retirement community. At no time during the first five years shall the continuing care retirement community sheltered nursing facility occupy more than 50 percent of its licensed beds with patients who are not residents under contract with the continuing care retirement community. At the end of the five-year period, the continuing care retirement community sheltered nursing facility shall be utilized exclusively by residents of the continuing care retirement community, and at no time shall a resident of a continuing care retirement community be denied access to the sheltered nursing facility. At no time shall any existing patient be forced to leave the continuing care retirement community to comply with this paragraph. The department is authorized to promulgate rules and regulations regarding the use and definition of "sheltered nursing facility" in a manner consistent with this Code section. Agreements to provide continuing care include agreements to provide care for any duration, including agreements that are terminable by either party;

(18) Any single specialty ambulatory surgical center that:

(A)(i) Has capital expenditures associated with the construction, development, or other establishment of the clinical health service which do not exceed \$2.5 million; or

(ii) Is the only single specialty ambulatory surgical center in the county owned by the group practice and has two or fewer operating rooms; provided, however, that a center exempt pur-

suant to this division shall be required to obtain a certificate of need in order to add any additional operating rooms;

(B) Has a hospital affiliation agreement with a hospital within a reasonable distance from the facility or the medical staff at the center has admitting privileges or other acceptable documented arrangements with such hospital to ensure the necessary backup for the center for medical complications. The center shall have the capability to transfer a patient immediately to a hospital within a reasonable distance from the facility with adequate emergency room services. Hospitals shall not unreasonably deny a transfer agreement or affiliation agreement to the center;

(C)(i) Provides care to Medicaid beneficiaries and, if the facility provides medical care and treatment to children, to PeachCare for Kids beneficiaries and provides uncompensated indigent and charity care in an amount equal to or greater than 2 percent of its adjusted gross revenue; or

(ii) If the center is not a participant in Medicaid or the PeachCare for Kids Program, provides uncompensated care to Medicaid beneficiaries and, if the facility provides medical care and treatment to children, to PeachCare for Kids beneficiaries, uncompensated indigent and charity care, or both in an amount equal to or greater than 4 percent of its adjusted gross revenue;

provided, however, single specialty ambulatory surgical centers owned by physicians in the practice of ophthalmology shall not be required to comply with this subparagraph; and

(D) Provides annual reports in the same manner and in accordance with Code Section 31-6-70.

Noncompliance with any condition of this paragraph shall result in a monetary penalty in the amount of the difference between the services which the center is required to provide and the amount actually provided and may be subject to revocation of its exemption status by the department for repeated failure to pay any fines or moneys due to the department or for repeated failure to produce data as required by Code Section 31-6-70 after notice to the exemption holder and a fair hearing pursuant to Chapter 13 of Title 50, the "Georgia Administrative Procedure Act." The dollar amount specified in this paragraph shall be adjusted annually by an amount calculated by multiplying such dollar amount (as adjusted for the preceding year) by the annual percentage of change in the composite index of construction material prices, or its successor or appropriate replacement index, if any, published by the United States Department of Commerce for the preceding calendar year, commencing on July 1, 2009, and on each anniversary thereafter of publication of the index.

The department shall immediately institute rule-making procedures to adopt such adjusted dollar amounts. In calculating the dollar amounts of a proposed project for purposes of this paragraph, the costs of all items subject to review by this chapter and items not subject to review by this chapter associated with and simultaneously developed or proposed with the project shall be counted, except for the expenditure or commitment of or incurring an obligation for the expenditure of funds to develop certificate of need applications, studies, reports, schematics, preliminary plans and specifications or working drawings, or to acquire sites;

(19) Any joint venture ambulatory surgical center that:

(A) Has capital expenditures associated with the construction, development, or other establishment of the clinical health service which do not exceed \$5 million;

(B)(i) Provides care to Medicaid beneficiaries and, if the facility provides medical care and treatment to children, to PeachCare for Kids beneficiaries and provides uncompensated indigent and charity care in an amount equal to or greater than 2 percent of its adjusted gross revenue; or

(ii) If the center is not a participant in Medicaid or the PeachCare for Kids Program, provides uncompensated care to Medicaid beneficiaries and, if the facility provides medical care and treatment to children, to PeachCare for Kids beneficiaries, uncompensated indigent and charity care, or both in an amount equal to or greater than 4 percent of its adjusted gross revenue; and

(C) Provides annual reports in the same manner and in accordance with Code Section 31-6-70.

Noncompliance with any condition of this paragraph shall result in a monetary penalty in the amount of the difference between the services which the center is required to provide and the amount actually provided and may be subject to revocation of its exemption status by the department for repeated failure to pay any fines or moneys due to the department or for repeated failure to produce data as required by Code Section 31-6-70 after notice to the exemption holder and a fair hearing pursuant to Chapter 13 of Title 50, the "Georgia Administrative Procedure Act." The dollar amount specified in this paragraph shall be adjusted annually by an amount calculated by multiplying such dollar amount (as adjusted for the preceding year) by the annual percentage of change in the composite index of construction material prices, or its successor or appropriate replacement index, if any, published by the United States Department of Commerce for the preceding calendar year, commencing on July 1,

2009, and on each anniversary thereafter of publication of the index. The department shall immediately institute rule-making procedures to adopt such adjusted dollar amounts. In calculating the dollar amounts of a proposed project for purposes of this paragraph, the costs of all items subject to review by this chapter and items not subject to review by this chapter associated with and simultaneously developed or proposed with the project shall be counted, except for the expenditure or commitment of or incurring an obligation for the expenditure of funds to develop certificate of need applications, studies, reports, schematics, preliminary plans and specifications or working drawings, or to acquire sites;

(20) Expansion of services by an imaging center based on a population needs methodology taking into consideration whether the population residing in the area served by the imaging center has a need for expanded services, as determined by the department in accordance with its rules and regulations, if such imaging center:

(A) Was in existence and operational in this state on January 1, 2008;

(B) Is owned by a hospital or by a physician or a group of physicians comprising at least 80 percent ownership who are currently board certified in radiology;

(C) Provides three or more diagnostic and other imaging services;

(D) Accepts all patients regardless of ability to pay; and

(E) Provides uncompensated indigent and charity care in an amount equal to or greater than the amount of such care provided by the geographically closest general acute care hospital; provided, however, this paragraph shall not apply to an imaging center in a rural county;

(21) Diagnostic cardiac catheterization in a hospital setting on patients 15 years of age and older;

(22) Therapeutic cardiac catheterization in hospitals selected by the department prior to July 1, 2008, to participate in the Atlantic Cardiovascular Patient Outcomes Research Team (C-PORT) Study and therapeutic cardiac catheterization in hospitals that, as determined by the department on an annual basis, meet the criteria to participate in the C-PORT Study but have not been selected for participation; provided, however, that if the criteria requires a transfer agreement to another hospital, no hospital shall unreasonably deny a transfer agreement to another hospital;

(23) Infirmaries or facilities operated by, on behalf of, or under contract with the Department of Corrections or the Department of

Juvenile Justice for the sole and exclusive purpose of providing health care services in a secure environment to prisoners within a penal institution, penitentiary, prison, detention center, or other secure correctional institution, including correctional institutions operated by private entities in this state which house inmates under the Department of Corrections or the Department of Juvenile Justice;

(24) The relocation of any skilled nursing facility, intermediate care facility, or micro-hospital within the same county, any other health care facility in a rural county within the same county, and any other health care facility in an urban county within a three-mile radius of the existing facility so long as the facility does not propose to offer any new or expanded clinical health services at the new location;

(25) Facilities which are devoted to the provision of treatment and rehabilitative care for periods continuing for 24 hours or longer for persons who have traumatic brain injury, as defined in Code Section 37-3-1; and

(26) Capital expenditures for a project otherwise requiring a certificate of need if those expenditures are for a project to remodel, renovate, replace, or any combination thereof, a medical-surgical hospital and:

(A) That hospital:

- (i) Has a bed capacity of not more than 50 beds;
- (ii) Is located in a county in which no other medical-surgical hospital is located;
- (iii) Has at any time been designated as a disproportionate share hospital by the department; and
- (iv) Has at least 45 percent of its patient revenues derived from medicare, Medicaid, or any combination thereof, for the immediately preceding three years; and

(B) That project:

- (i) Does not result in any of the following:
 - (I) The offering of any new clinical health services;
 - (II) Any increase in bed capacity;
 - (III) Any redistribution of existing beds among existing clinical health services; or
 - (IV) Any increase in capacity of existing clinical health services;

(ii) Has at least 80 percent of its capital expenditures financed by the proceeds of a special purpose county sales and use tax imposed pursuant to Article 3 of Chapter 8 of Title 48; and

(iii) Is located within a three-mile radius of and within the same county as the hospital's existing facility.

(b) By rule, the department shall establish a procedure for expediting or waiving reviews of certain projects the nonreview of which it deems compatible with the purposes of this chapter, in addition to expenditures exempted from review by this Code section. (Code 1981, § 31-6-47, enacted by Ga. L. 1983, p. 1566, § 1; Ga. L. 1984, p. 22, § 31; Ga. L. 1989, p. 393, § 1; Ga. L. 1991, p. 1419, § 2; Ga. L. 1991, p. 1871, § 8; Ga. L. 1999, p. 296, §§ 22, 24; Ga. L. 2008, p. 9, § 2/HB 967; Ga. L. 2008, p. 12, § 1-1/SB 433; Ga. L. 2009, p. 8, § 31/SB 46; Ga. L. 2009, p. 453, § 1-24/HB 228; Ga. L. 2012, p. 337, § 1/SB 361; Ga. L. 2018, p. 132, § 5/HB 769.)

The 2018 amendment, effective July 1, 2018, added paragraph (a)(9.2); and

inserted “, or micro-hospital” near the middle of paragraph (a)(24).

JUDICIAL DECISIONS

Exhaustion of administrative remedies.

Because the Georgia Society of Ambulatory Surgical Centers represented the interests of members that had adequate administrative remedies, and those members had not exhausted those remedies, the trial court was required to dismiss its case alleging that an annual survey the Georgia Department of Community Health (DCH) issued to ambulatory surgery centers (ASC) sought information beyond the scope of O.C.G.A. § 31-6-70. Furthermore, the procedures set forth in the Georgia Administrative Procedure

Act, O.C.G.A. § 50-13-19 and O.C.G.A. §§ 31-6-40(c), and 31-6-47(18), and Ga. Comp. R. & Regs. 111-2-2-.05(2)(e) were available to ASCs before DCH took any final adverse action against them for failing to provide the required survey information, the procedures afforded adequate administrative remedies to aggrieved ASCs. *Ga. Soc’y of Ambulatory Surgery Ctrs. v. Ga. Dep’t of Cmty. Health*, 316 Ga. App. 433, 729 S.E.2d 565 (2012).

ARTICLE 1

REGULATION OF HOSPITALS AND RELATED INSTITUTIONS

31-7-3.2. Notice of cited deficiency and imposition of sanction.

(a) A nursing home or intermediate care home licensed under this article shall give notice in the event that such facility has been cited by the department for any deficiency for which the facility has received notice of the imposition of any sanction available under federal or state laws or regulations, except where a plan of correction is the only sanction to be imposed.

(b) A notice required under subsection (a) of this Code section shall be of a size and format prescribed by the department and shall contain the following:

(1) A list of each cited deficiency which has resulted in the notice being required;

(2) A description of any actions taken by or of any notices of intent to take action issued by federal or state entities as a result of such cited deficiencies;

(3) The telephone numbers of the state and community long-term care ombudsman programs; and

(4) A statement that a copy of the notice may be obtained upon written request accompanied by a self-addressed stamped envelope.

(c) A notice required by subsection (a) of this Code section shall be posted at the facility giving the notice:

(1) In an area readily accessible and continuously visible to the facility's residents and their representatives;

(2) Within 14 days after the facility receives notification of imposition of a sanction for a cited deficiency which requires the notice; and

(3) Until the department has determined such cited deficiencies no longer exist, at which time the notice may be removed.

(d) In addition to the posted notice required by subsection (c) of this Code section, a notice, containing the information set forth in subsection (b) of this Code section, shall also be provided by the facility upon written request. The facility shall be responsible for mailing a copy of such notice when the written request is accompanied by a postage paid self-addressed envelope.

(e) Each applicant to a facility shall receive upon written request with his application a copy of the most recent notice which has been distributed pursuant to this subsection. The facility may inform the applicant of any corrective actions taken in response to the cited deficiencies contained in such notice.

(f) In the event that the facility previously has been required to have posted or provided notice of the same cited deficiency arising from the same act, occurrence, or omission, this Code section should not be construed to require the facility to post or provide duplicate notice of such cited deficiency so long as the notice is made in a manner consistent with subsections (b) and (c) of this Code section.

(g) In the case of a violation of this Code section, the department may impose administrative sanctions as otherwise provided by law in

accordance with Chapter 13 of Title 50, the “Georgia Administrative Procedure Act.”

(h) The department may promulgate rules and regulations to implement the provisions of this Code section.

(i) No violation of any regulation promulgated pursuant to the federal Nursing Home Reform Act, 42 U.S.C. Sections 1396r and 1395i-3, or any regulation included in Ga. Comp. R. & Regs. 111-8-50 or 111-8-56 or the successor of such regulations as they existed on May 12, 2015, shall constitute negligence per se; provided, however, that the court in any civil action shall take judicial notice of these regulations and admit them into evidence if found to be relevant to the harm alleged in the complaint. Nothing in this subsection shall abrogate any express cause of action authorized under law or be construed to amend or repeal any provision of the “Bill of Rights for Residents of Long-term Care Facilities” in Article 5 of Chapter 8 of this title.

(j)(1) The results or findings of a federal or state survey or inspection of a nursing home facility, including any statement of deficiencies or reports, shall not be used or referenced in an advertisement or solicitation by any person or any entity, unless the advertisement or solicitation includes all of the following:

(A) The date the survey was conducted;

(B) A statement that the Department of Community Health conducts a survey of all nursing home facilities at least once every 15 months;

(C) If a finding or deficiency cited in the statement of deficiencies has been substantially corrected, a statement that the finding or deficiency has been substantially corrected and the date that the finding or deficiency was substantially corrected;

(D) The number of findings and deficiencies cited in the statement of deficiencies on the basis of the survey and a disclosure of the severity level for each finding and deficiency;

(E) The average number of findings and deficiencies cited in statements of deficiencies on the basis of surveys conducted by the department during the same calendar year as the survey used in the advertisement;

(F) A disclosure of whether each finding or deficiency caused actual bodily harm to any residents and the number of residents harmed thereby; and

(G) A statement that the advertisement is neither authorized nor endorsed by any government agency.

(2) In addition to any other remedies and damages allowed by law, a party found to have violated paragraph (1) of this subsection shall be liable for attorney fees and expenses of litigation incurred in an action to restrain or enjoin such violation; provided, however, that damages, attorney fees, and expenses of litigation shall not be recoverable against any newspaper, news outlet, or broadcaster publishing an advertisement or solicitation submitted by a third party for a fee. (Code 1981, § 31-7-3.2, enacted by Ga. L. 1991, p. 1603, § 2; Ga. L. 2015, p. 1315, § 1/HB 342; Ga. L. 2016, p. 864, § 31/HB 737.)

The 2015 amendment, effective May 12, 2015, added subsections (i) and (j). See Editor's notes for applicability.

The 2016 amendment, effective May 3, 2016, part of an Act to revise, modernize, and correct the Code, substituted "this title" for "Title 31" at the end of subsection (i).

Code Commission notes. — Pursuant to Code Section 28-9-5, in 2015, "May 12, 2015" was substituted for "the effective date of this subsection" in subsection (i).

Editor's notes. — Ga. L. 2015, p. 1315, § 2/HB 342, not codified by the General Assembly, provides: "This Act shall become effective upon its approval by the Governor or upon its becoming law without such approval and shall apply to all causes of actions arising on and after such date."

Law reviews. — For annual survey on trial practice and procedure, see 67 Mercer L. Rev. 257 (2015).

31-7-3.3. "Excluded party" defined; liability; notice; dismissal; other procedural factors.

(a) As used in this Code section, the term "excluded party" means a person or entity that neither performs, has the duty to perform, nor controls the performance of any of the following functions at or on behalf of a nursing home or intermediate care home where alleged injuries occurred:

- (1) Providing management, operation, or administrative services for such home;
- (2) Hiring or firing of the administrator, director of nursing, or other staff working at such home;
- (3) Setting or controlling the budget of such home;
- (4) Staffing or determining the level of staff at such home;
- (5) Providing direct care, treatment, or services to the residents of such home;
- (6) Making decisions regarding the care, treatment, or services provided to residents at such home; or
- (7) Adopting, implementing, or enforcing the policies and procedures for such home.

(b) Except as otherwise provided by law, the mere ownership of an entity shall not, by itself, create the duty to perform the functions listed in subsection (a) of this Code section.

(c) An excluded party shall not be named in a civil action that alleges its direct or vicarious liability for the personal injury or death of one or more residents of a nursing home or intermediate care home or a violation of residents' rights at such home under Article 5 of Chapter 8 of this title.

(d) Any person or entity named as a defendant in a civil action or arbitration, that claims to be an excluded party, may serve a notice of such claim upon the plaintiff. Such notice shall be sent to counsel for the plaintiff by certified mail, return receipt requested, or, if the plaintiff does not have an attorney, to the plaintiff personally via certified mail, return receipt requested. Such notice shall be served after the discovery period begins under applicable law for the case but not later than 30 days after such discovery period begins.

(e) If, after the expiration of 90 days from the date the notice described in subsection (d) of this Code section is received, the plaintiff does not agree to a dismissal without prejudice of such defendant claiming to be an excluded party, and:

(1) The court later determines that there is no genuine issue of material fact as to whether such defendant is an excluded party, grants summary judgment to such defendant as to this issue, and such order becomes final after any appeal; or

(2) If an arbitrator enters judgment for such defendant as to this issue and determines that there was not a good faith basis in law and fact for the plaintiff's claim that such defendant was not an excluded party and such order becomes final after any appeal,

then such finding by an arbitrator or final judgment by a court shall be deemed a finding that the plaintiff's claim against such defendant was substantially frivolous, substantially groundless, or substantially vexatious. Upon such a final judgment or finding, such excluded party shall be entitled to an award of reasonable and necessary attorneys' fees and expenses of litigation upon the filing of a motion. The court or arbitrator shall award only such reasonable and necessary attorneys' fees and expenses of litigation as the court or arbitrator determines were related to the defense of only such excluded party and not to the defense of other defendants in such action, unless otherwise authorized by law. Such attorneys' fees and expenses so awarded shall be assessed against the party asserting such claim, against such party's attorney, or against both in such manner as is just.

(f) In the event that the plaintiff prevails on any claim against a defendant claiming to be an excluded party and if the court or an

arbitrator determines that there was not a good faith basis in law and fact for the defendant's claim that such defendant was an excluded party, and such order becomes final after appeal, then such judgment by a court or arbitrator shall be deemed a finding that the contention by such defendant that it was an excluded party was substantially frivolous, substantially groundless, or substantially vexatious. Upon such a final judgment or finding, the plaintiff shall be entitled to an award of reasonable and necessary attorneys' fees and expenses of litigation upon the filing of a motion. The court or arbitrator shall award only such reasonable and necessary attorneys' fees and expenses of litigation that were incurred in the pursuit of the action against the defendant claiming to be an excluded party, and the plaintiff shall not be entitled to an award of reasonable and necessary attorneys' fees and expenses of litigation that were incurred in the pursuit of the action against other defendants, unless otherwise authorized by law. Such attorneys' fees and expenses so awarded shall be assessed against the party asserting such claim, against such party's attorney, or against both in such manner as is just.

(g) Notwithstanding Code Section 51-7-85, subsections (e) and (f) of this Code section shall be in addition to and shall not limit a party's right to pursue a recovery pursuant to Code Section 9-15-14 or Article 5 of Chapter 7 of Title 51.

(h) The time period set forth in subsection (e) of this Code section may be extended by agreement of the parties or by order of the court; provided, however, that if during such time period any party files a motion to stay the case or a motion to compel arbitration, such time period shall be extended for 30 days following the date the court rules on such motion; and provided, further, that if any party files a motion to compel discovery, such period shall be extended until 30 days following the date that the party complies with the court's order to produce discovery, whichever is later.

(i) A defendant which is a licensee shall not identify an excluded party as a potentially at-fault nonparty for purposes of apportionment under Code Section 51-12-33, unless such nonparty has entered into a settlement agreement with the plaintiff or claimant. (Code 1981, § 31-7-3.3, enacted by Ga. L. 2016, p. 550, § 1/HB 920; Ga. L. 2017, p. 774, § 31/HB 323.)

Effective date. — This Code section became effective July 1, 2016. See Editor's notes for applicability.

The 2017 amendment, effective May 9, 2017, part of an Act to revise, modernize, and correct the Code, substituted "its direct" for "their direct" near the beginning of subsection (c); substituted "that

claims" for "who claims" in the first sentence of subsection (d); and substituted "such claim," for "such claim, or" near the end of the last sentence of the ending undesignated paragraph in subsection (e) and near the middle of the last sentence of subsection (f).

Editor's notes. — Ga. L. 2016, p. 550,

§ 2/HB 920, not codified by the General Assembly, makes this Code section applicable to any claim filed on or after July 1, 2016.

31-7-3.4. Carrying of liability insurance or establishment of self-insurance trust as condition precedent to obtaining or maintaining permit.

(a) As used in this Code section, the term “nursing home claim” means a claim alleging direct or vicarious liability for the personal injury or death of one or more residents of a nursing home or intermediate care home or a violation of residents’ rights at such home under Article 5 of Chapter 8 of this title.

(b)(1) As a condition precedent to obtaining or maintaining a permit under this article to operate a nursing home or intermediate care home, a licensee shall carry or be covered by liability insurance coverages or establish or have established for its benefit a self-insurance trust for a nursing home claim.

(2) If a licensee fails to carry or be covered by liability insurance coverages or establish or have established for its benefit a self-insurance trust for a nursing home claim, the department shall provide notice to such licensee of its noncompliance and allow such licensee 60 days in which to comply. A licensee’s failure to maintain such coverage or establish such trust shall result in the department:

- (A) Revoking such licensee’s permit issued pursuant to this article to operate the nursing home or intermediate care home;
- (B) Denying any application to renew such permit; and
- (C) Denying any application for a change of ownership of the nursing home or intermediate care home. (Code 1981, § 31-7-3.4, enacted by Ga. L. 2016, p. 550, § 1/HB 920.)

Effective date. — This Code section became effective July 1, 2016. See Editor’s notes for applicability.
Editor’s notes. — Ga. L. 2016, p. 550, § 2/HB 920, not codified by the General Assembly, makes this Code section applicable to any claim filed on or after July 1, 2016.

31-7-11. Written summary of hospital service charge rates.

Law reviews. — For article, “Price Transparency and Incomplete Contracts in Health Care,” see 67 Emory L.J. 1 (2017).

31-7-12.1. Unlicensed personal care home; civil penalties; negligence per se for certain legal claims; declared nuisance dangerous to public health, safety, and welfare; criminal sanctions.

(a) A facility shall be deemed to be an “unlicensed personal care home” if it is unlicensed and not exempt from licensure and:

(1) The facility is providing personal services and is operating as a personal care home as those terms are defined in Code Section 31-7-12;

(2) The facility is held out as or represented as providing personal services and operating as a personal care home as those terms are defined in Code Section 31-7-12; or

(3) The facility represents itself as a licensed personal care home.

(b) Any unlicensed personal care home shall be assessed by the department, after opportunity for hearing in accordance with the provisions of Chapter 13 of Title 50, the “Georgia Administrative Procedure Act,” a civil penalty in the amount of \$100.00 per bed per day for each day of violation of subsection (b) of Code Section 31-7-12. The department shall send a notice by certified mail or statutory overnight delivery stating that licensure is required and the department’s intent to impose a civil penalty. Such notice shall be deemed to be constructively received on the date of the first attempt to deliver such notice by the United States Postal Service. The department shall take no action to collect such civil penalty until after opportunity for a hearing.

(c) In addition to other remedies available to the department, the civil penalty authorized by subsection (b) of this Code section shall be doubled if the owner or operator continues to operate the unlicensed personal care home, after receipt of notice pursuant to subsection (b) of this Code section.

(d) The owner or operator of a personal care home who is assessed a civil penalty in accordance with this Code section may have review of such civil penalty by appeal to the superior court in the county in which the action arose or to the Superior Court of Fulton County in accordance with the provisions of Code Section 31-5-3.

(e) In addition to the sanctions authorized herein, an unlicensed personal care home shall be deemed to be negligent per se in the event of any claim for personal injury or wrongful death of a resident.

(f) It is declared that the owning or operating of an unlicensed personal care home in this state constitutes a nuisance dangerous to the public health, safety, and welfare. The commissioner or the district attorney of the judicial circuit in which such unlicensed personal care

home is located may file a petition to abate such nuisance as provided in Chapter 2 of Title 41.

(g) Any person who owns or operates a personal care home in violation of subsection (b) of Code Section 31-7-12 shall be guilty of a misdemeanor for a first violation, unless such violation is in conjunction with abuse, neglect, or exploitation as defined in Code Section 30-5-3, in which case such person shall be guilty of a felony and, upon conviction, shall be punished by imprisonment for not less than one nor more than five years. Upon conviction for a second or subsequent such violation, such person shall be guilty of a felony and, upon conviction, shall be punished by imprisonment for not less than one nor more than ten years. (Code 1981, § 31-7-12.1, enacted by Ga. L. 1994, p. 461, § 1; Ga. L. 2000, p. 1589, § 3; Ga. L. 2011, p. 227, § 13A/SB 178; Ga. L. 2012, p. 351, § 3/HB 1110; Ga. L. 2014, p. 682, § 1/HB 899.)

The 2014 amendment, effective July 1, 2014, added the second sentence in subsection (f); redesignated the former second and third sentences of subsection (f) as present subsection (g); and rewrote subsection (g).

31-7-12.3. (Effective until October 1, 2019. See note.) Adoption of rules and regulations to implement Code Sections 31-7-12 and 31-7-12.2.

The department shall adopt rules and regulations to implement Code Sections 31-7-12 and 31-7-12.2. Such rules and regulations shall establish meaningful distinctions between the levels of care provided by personal care homes, assisted living communities, and nursing homes but shall not curtail the scope or levels of services provided by personal care homes or nursing homes as of June 30, 2011; provided, however, that nothing in this chapter shall preclude the department from issuing waivers or variances to personal care homes of the rules and regulations established pursuant to this Code section. Notwithstanding Code Section 31-2-9 or 31-7-12.2, the department shall not grant a waiver or variance unless:

(1) There are adequate standards affording protection for the health and safety of residents of the personal care home;

(2) The resident of the personal care home provides a medical assessment conducted by a licensed health care professional who is unaffiliated with the personal care home which identifies the needs of the resident; and

(3) The department finds that the personal care home can provide or arrange for the appropriate level of care for the resident. (Code 1981, § 31-7-12.3, enacted by Ga. L. 2011, p. 227, § 1/SB 178.)

Editor's notes. — Code Section 2019, and the second version becomes 31-7-12.3 is set out twice in this Code. The effective on that date.
first version is effective until October 1,

31-7-12.3. (Effective October 1, 2019. See note.) Adoption of rules and regulations to implement Code Sections 31-7-12 and 31-7-12.2.

The department shall adopt rules and regulations to implement Code Sections 31-7-12 and 31-7-12.2. Such rules and regulations shall establish meaningful distinctions between the levels of care provided by personal care homes, assisted living communities, and nursing homes but shall not curtail the scope or levels of services provided by personal care homes or nursing homes as of June 30, 2011; provided, however, that nothing in this chapter shall preclude the department from issuing waivers or variances to personal care homes of the rules and regulations established pursuant to this Code section. Notwithstanding Code Section 31-7-12.2, the department shall not grant a waiver or variance unless:

(1) There are adequate standards affording protection for the health and safety of residents of the personal care home;

(2) The resident of the personal care home provides a medical assessment conducted by a licensed health care professional who is unaffiliated with the personal care home which identifies the needs of the resident; and

(3) The department finds that the personal care home can provide or arrange for the appropriate level of care for the resident. (Code 1981, § 31-7-12.3, enacted by Ga. L. 2011, p. 227, § 1/SB 178; Ga. L. 2018, p. 611, § 1-2/SB 406.)

The 2018 amendment, effective October 1, 2019, deleted “31-2-9 or” preceding “31-7-12.2” near the end of the introductory paragraph of this Code section.

31-7-12.3 is set out twice in this Code. The first version is effective until October 1, 2019, and the second version becomes effective on that date.

Editor's notes. — Code Section

31-7-16. Determination or pronouncement of death of patient who died in facility classified as nursing home.

When a patient dies in any facility classified as a nursing home by the department and operating under a permit issued by the department, a physician assistant, a nurse practitioner, or a registered professional nurse licensed in this state and employed by such nursing home at the time of apparent death of such person, in the absence of a physician, may make the determination and pronouncement of the death of said patient; provided, however, that when it appears that a patient died

from other than natural causes, only a physician may make the determination or pronouncement of death. Such determination or pronouncement shall be made in writing on a form approved by the department. (Code 1981, § 31-7-16, enacted by Ga. L. 1996, p. 1243, § 1; Ga. L. 2009, p. 859, § 3/HB 509; Ga. L. 2017, p. 625, § 1/SB 96.)

The 2017 amendment, effective July 1, 2017, in the first sentence, inserted “, a nurse practitioner,” near the beginning and deleted “that, when said patient is a registered organ donor, only a physician may make the determination or pronouncement of death; provided, further,” preceding “that when it” near the end.

31-7-19. Nursing homes to annually offer influenza vaccinations to health care workers and other employees; immunity from liability.

(a) Each nursing home shall annually offer on site to its health care workers and other employees who have direct contact with patients, at no cost, vaccinations for the influenza virus in accordance with the recommendations of the Centers for Disease Control and Prevention, subject to availability of the vaccine. Each nursing home shall keep on record a signed statement from each such health care worker and employee stating that he or she has been offered vaccination against the influenza virus and has either accepted or declined such vaccination. A nursing home may offer to its health care workers and other employees who have direct contact with patients any other vaccination required or recommended by, and in accordance with the recommendations of, the Centers for Disease Control and Prevention, which may be offered or administered pursuant to standing orders approved by the nursing home’s medical staff to ensure the safety of employees, patients, visitors, and contractors.

(b) A nursing home or health care provider acting in good faith and in accordance with generally accepted health care standards applicable to such nursing home or health care provider shall not be subject to administrative, civil, or criminal liability or to discipline for unprofessional conduct for complying with the requirements of this Code section. (Code 1981, § 31-7-19, enacted by Ga. L. 2013, p. 783, § 1/HB 208.)

Effective date. — This Code section became effective July 1, 2013.

31-7-20. Medical facilities to make good faith application to southern regional TRICARE managed care support coordinator for certification in the TRICARE program.

(a) Each medical facility in this state shall, not later than July 1, 2015, make a good faith application to the southern regional TRICARE

managed care support contractor for certification in the TRICARE program.

(b) If any medical facility fails to qualify for certification in the TRICARE program, such medical facility shall implement a plan to upgrade the facility, equipment, personnel, or such other cause for the disqualification within one year of notice of such deficiency.

(c) Each medical facility shall submit reports to the commissioner detailing its efforts to join the TRICARE program and shall submit copies of applications, acceptances or rejections, correspondences, and any other information the commissioner deems necessary.

(d) The commissioner shall maintain files on each medical facility in this state and shall monitor each medical facility's efforts to join the TRICARE program.

(e) Nothing in this Code section shall require a medical facility to enter into a contract with the southern regional managed care support contractor or to participate in TRICARE as a network provider or as a participating non-network provider, as such terms are defined in the federal TRICARE regulations. (Code 1981, § 31-7-20, enacted by Ga. L. 2014, p. 83, § 1-1/SB 391.)

Effective date. — This Code section became effective July 1, 2014.

Editor's notes. — Ga. L. 2008, p. 224, § 2, effective July 1, 2008, repealed this Code section. Former Code Section

31-7-20 was part of former Article 2 of this chapter, relating to the Georgia Building Authority (Hospital), and was based on Ga. L. 1939, p. 144, § 1; Ga. L. 1967, p. 860, § 1; Ga. L. 1996, p. 6, § 31.

31-7-21. Provision of influenza education information to assisted living community residents.

(a) Each assisted living community shall annually provide to each of its residents, no later than September 1 of each year, educational information on influenza disease. Such information shall include, but is not limited to, the risks associated with influenza disease; the availability, effectiveness, and known contraindications of the influenza immunization; causes and symptoms of influenza; and the means in which it is spread. Provision of the appropriate and current Vaccine Information Statement as provided by the Centers for Disease Control and Prevention shall be deemed to comply with this subsection.

(b) Nothing in this Code section shall be construed to require an assisted living community to provide or pay for any vaccination against influenza for its residents.

(c) No person shall have a cause of action for any loss or damage caused by any act or omission resulting from providing, or the lack of providing, educational information pursuant to this Code section. (Code 1981, § 31-7-21, enacted by Ga. L. 2016, p. 544, § 1/HB 902.)

Effective date. — This Code section became effective July 1, 2016.

Editor’s notes. — Ga. L. 2008, p. 224, § 2, effective July 1, 2008, repealed this Code section. Former Code Section

31-7-21 was part of former Article 2 of this chapter, relating to the Georgia Building Authority (Hospital), and was based on Ga. L. 1939, p. 144, § 3; Ga. L. 1964, p. 95, § 1; Ga. L. 1967, p. 860, § 2.

ARTICLE 2

GEORGIA BUILDING AUTHORITY (HOSPITAL)

31-7-22 through 31-7-40.

Reserved. Repealed by Ga. L. 2008, p. 224, § 2/SB 130, effective July 1, 2008.

Editor’s notes. — This article consisted of Code Sections 31-7-20 through 31-7-40, relating to the Georgia Building Authority (Hospital), and was based on Ga. L. 1939, p. 144, §§ 1-17, 19; Ga. L. 1941, p. 250, §§ 1, 4; Ga. L. 1946, p. 56, § 1; Ga. L. 1951, p. 22, § 1; Ga. L. 1953, p. 357, § 1; Ga. L. 1960, p. 48, § 1; Ga. L. 1964, p. 95, §§ 1-3; Ga. L. 1964, p. 666, § 1; Ga. L. 1966, p. 302, § 1; Ga. L. 1967, p. 852, § 1; Ga. L. 1967, p. 860, §§ 1-4; Ga. L. 1967, p. 862, § 1; Ga. L. 1970, p. 159, § 1; Ga. L. 1972, p. 1015, § 417; Ga. L. 1983, p. 3, § 55; Ga. L. 1985, p. 149, § 31; Ga. L. 1988, p. 426, § 1; Ga. L. 1991, p. 94, § 31; Ga. L. 1993, p. 1402, § 18; Ga. L. 1996, p. 6, § 31; Ga. L. 2001, p. 4, § 31.

ARTICLE 3

GRANTS FOR CONSTRUCTION AND MODERNIZATION OF MEDICAL FACILITIES

31-7-50. Authorization of grants-in-aid.

The state is authorized to make grants to any county, municipality, or any combination thereof or to any hospital authority to assist in the construction and modernization of publicly owned and publicly operated medical facilities, auxiliary medical facilities, and mental health centers as defined in Code Section 31-7-51. The amount of the grant shall be determined in accordance with Code Sections 31-7-52 and 31-7-53. (Ga. L. 1949, p. 263, § 1; Ga. L. 1953, Jan.-Feb. Sess., p. 214, § 1; Ga. L. 1955, p. 410, § 1; Code 1933, § 88-2101, enacted by Ga. L. 1964, p. 499, § 1; Ga. L. 1966, p. 716, § 1; Ga. L. 2015, p. 385, § 4-2/HB 252.)

The 2015 amendment, effective July 1, 2015, deleted “mental retardation centers,” following “auxiliary medical facilities,” in this Code section.

Editor’s notes. — Ga. L. 2015, p. 385,

§ 1-1/HB 252, not codified by the General Assembly, provides that: “This Act shall be known and may be cited as the ‘J. Calvin Hill, Jr., Act.’”

31-7-51. Definitions.

(a) As used in this article, the term:

(1) “Auxiliary medical facilities” means diagnostic and treatment facilities, nursing homes, chronic illness hospitals, and rehabilitation centers.

(2) “Construction project” means a program for the construction of any medical facility or auxiliary medical facility or mental health center, as evidenced by the approval of a project under Title VI or Title VII of the federal Public Health Service Act, as now or hereafter amended.

(3) “Hospital authority” means any hospital authority created under the “Hospital Authorities Law,” Article 4 of this chapter, as now or hereafter amended.

(4) “Medical facilities” means general hospitals, psychiatric hospitals, nurse training facilities, tuberculosis hospitals, and public health centers.

(5) “Mental health center” means a facility providing services for the prevention or diagnosis of mental illness, or care and treatment of mentally ill patients, or rehabilitation of such persons, which services are provided principally for persons residing in a particular community or communities in or near which the facility is situated.

(6) Reserved.

(7) “Modernization project” means the alteration, major repair, remodeling, replacement, and renovation of existing buildings (including original equipment thereof) and replacement of obsolete, built-in equipment of existing buildings, as evidenced by the approval of a project under Title VI or Title VII of the federal Public Health Service Act, as now or hereafter amended.

(8) “Publicly operated” means operated by a county, municipality, hospital authority, or any combination thereof.

(9) “Publicly owned” means that a county, municipality, hospital authority, or any combination thereof holds title to or has a long-term lease acceptable to the state agency on the property on which the construction or modernization is proposed.

(10) “State agency” means the State Health Planning and Development Agency or any successor designated as the agency of state government to administer the state construction and modernization plan and receive funds pursuant to Titles VI and VII of the federal Public Health Service Act, as amended.

(b) The terms “hospital,” “psychiatric hospital,” “nurse training facilities,” “public health center,” “rehabilitation facility,” “nursing home,” “chronic illness hospital,” “long-term care facility,” “mental health center,” “construction,” “cost of construction,” “modernization,” and “cost of modernization” shall have meanings consistent with those respectively ascribed to them in Titles VI and VII of the federal Public Health Service Act, as now or hereafter amended. (Code 1933, § 88-2102, enacted by Ga. L. 1966, p. 716, § 1; Ga. L. 1996, p. 6, § 31; Ga. L. 2015, p. 385, § 4-3/HB 252.)

The 2015 amendment, effective July 1, 2015, in paragraph (a)(2), deleted “, mental retardation center,” following “auxiliary medical facility” near the middle, and substituted “Title VII of the federal Public Health Service Act” for “Title VII, Public Health Service Act; and substituted “Reserved.” for the former provisions of paragraph (a)(6), which read: “‘Mental retardation center’ means a facility specially designed for the diagnosis, treatment, education, training, or custodial care of the mentally retarded, including facilities for training specialists and

sheltered workshops for the mentally retarded but only if such workshops are part of the facilities which provide or will provide comprehensive services for the mentally retarded.”; in paragraphs (a)(7) and (a)(10), inserted “federal”; and, in subsection (b), deleted “‘mental retardation center,’” following “‘long-term care facility,’” near the middle, and inserted “federal”.

Editor’s notes. — Ga. L. 2015, p. 385, § 1-1/HB 252, not codified by the General Assembly, provides that: “This Act shall be known and may be cited as the ‘J. Calvin Hill, Jr., Act.’”

31-7-53. Matching formula; priority system; use of earnings; approval of federal grant.

(a) The state agency shall establish a matching formula for each construction and modernization category by fiscal year. Any change in a matching formula shall apply in the same manner to each construction and modernization project within the category approved during the fiscal year.

(b) Grants made pursuant to this article shall be in accordance with the priority system as approved by the state agency and the United States secretary of health and human services.

(c) No part of the net earnings of publicly owned and publicly operated medical facilities, auxiliary medical facilities, and mental health centers constructed with the assistance of a grant under this article shall inure to the benefit of any private corporation or individual.

(d) Any grant made pursuant to this article shall be contingent upon the approval for that project of a federal grant approved by the United States secretary of health and human services under either Title VI or Title VII of the federal Public Health Service Act, as now or hereafter amended. (Ga. L. 1949, p. 263, § 1; Ga. L. 1953, Jan.-Feb. Sess., p. 214, § 1; Ga. L. 1955, p. 410, § 1; Code 1933, § 88-2105, enacted by Ga. L.

1964, p. 499, § 1; Code 1933, § 88-2104, enacted by Ga. L. 1966, p. 716, § 1; Ga. L. 1982, p. 3, § 31; Ga. L. 1992, p. 6, § 31; Ga. L. 2015, p. 385, § 4-4/HB 252; Ga. L. 2017, p. 774, § 31/HB 323.)

The 2015 amendment, effective July 1, 2015, deleted “mental retardation centers,” following “auxiliary medical facilities,” in subsection (c).

The 2017 amendment, effective May 9, 2017, part of an Act to revise, modernize, and correct the Code, substituted “the federal Public Health Service Act” for “the

Public Health Service Act” near the end of subsection (d).

Editor’s notes. — Ga. L. 2015, p. 385, § 1-1/HB 252, not codified by the General Assembly, provides that: “This Act shall be known and may be cited as the ‘J. Calvin Hill, Jr., Act.’”

31-7-54. Manner of expenditure of construction funds.

In order to assist the several counties, municipalities, or any combination thereof or any hospital authorities created under the “Hospital Authorities Law,” Article 4 of this chapter, such funds as are appropriated for each fiscal year for the construction of publicly owned and publicly operated medical facilities, auxiliary medical facilities, and mental health centers shall be expended in accordance with the provisions of this article. (Ga. L. 1949, p. 263, § 2; Ga. L. 1955, p. 410, § 2; Code 1933, § 88-2106, enacted by Ga. L. 1964, p. 499, § 1; Code 1933, § 88-2105, enacted by Ga. L. 1966, p. 716, § 1; Ga. L. 2015, p. 385, § 4-5/HB 252.)

The 2015 amendment, effective July 1, 2015, deleted “mental retardation centers,” following “auxiliary medical facilities,” in this Code section.

Editor’s notes. — Ga. L. 2015, p. 385,

§ 1-1/HB 252, not codified by the General Assembly, provides that: “This Act shall be known and may be cited as the ‘J. Calvin Hill, Jr., Act.’”

31-7-57. Procedure for grants to sponsors of construction projects; injunction of operation by transferee in violation of article.

(a) For each construction project, there shall be submitted to the state agency an application for state funds.

(b) Upon approving an application under this Code section, the state agency shall submit a budget request to the Office of Planning and Budget, based upon such application. Approval by the Office of Planning and Budget shall constitute an obligation of the state.

(c) Payments to the sponsor of a construction project shall be made in installments as construction progresses at intervals to be determined at the discretion of the state agency; and the state agency shall have the right to inspect and audit records and accounts of the sponsor as a condition precedent to making payments.

(d) If any publicly owned and publicly operated medical facility, auxiliary medical facility, or mental health center for which funds have been paid under this Code section shall be leased to any corporation, person, organization, or body other than one eligible to receive a grant under this article or shall be sold or used for any purpose contrary to the provision under which the grant was made, at any time within 20 years after completion of construction, and such change in lease, sale, or use is not approved by the state agency, such agency may bring an equitable proceeding for writ of injunction against any person, firm, corporation, or organization operating in violation of this article. The proceedings shall be filed in the county in which such persons reside or, in the case of a firm or corporation, where such firm or corporation maintains its principal office; and, unless it is shown that such person, firm, or corporation which has leased such medical facility, auxiliary medical facility, or mental health center would have been eligible to accept the grant-in-aid from the state in the first instance and the lease has been approved by the state agency or the sale or use has been approved by such agency, the writ of injunction shall issue and such person, firm, or corporation shall be perpetually enjoined throughout the state from operating in violation of the provisions of this subsection. It shall not be necessary in order to obtain the equitable relief provided in this subsection that the state agency show that such person, firm, or corporation is ineligible nor to prove that there is no adequate remedy at law. In addition, the state agency shall be entitled to bring an action and recover from the transferor and transferee of any facility specified in this subsection such percentage of the value of the facility as the state grant bore toward the total construction cost of that facility as determined by agreement of the parties or by action brought in court. (Ga. L. 1949, p. 263, § 7; Ga. L. 1955, p. 410, § 6; Code 1933, § 88-2109, enacted by Ga. L. 1964, p. 499, § 1; Code 1933, § 88-2108, enacted by Ga. L. 1966, p. 716, § 1; Ga. L. 1985, p. 149, § 31; Ga. L. 2015, p. 385, § 4-6/HB 252.)

The 2015 amendment, effective July 1, 2015, in subsection (d), deleted “mental retardation center,” following “auxiliary medical facility,” in the first and second sentences, substituted “provisions of this subsection” for “provisions set out above” at the end of the second sentence, and substituted “specified in this subsection”

for “specified above” in the middle of the last sentence.

Editor’s notes. — Ga. L. 2015, p. 385, § 1-1/HB 252, not codified by the General Assembly, provides that: “This Act shall be known and may be cited as the ‘J. Calvin Hill, Jr., Act.’”

JUDICIAL DECISIONS

ANALYSIS

GENERAL CONSIDERATION
EXEMPTION FROM TAXATION

General Consideration

Cited in United States v. Hosp. Auth. of Charlton County (In re Hosp. Auth. of Charlton County), 56 Bankr. Ct. Dec. (LRP) 220 (Bankr. S.D. Ga. July 3, 2012).

Exemption From Taxation

Hospital property properly found exempt. — Trial court did not err in finding that the eight parcels owned by the Hospital Authority were exempt from ad valorem taxation because no evidence in the record created an issue of fact regarding the usage of the properties, but rather the evidence established that all of the parcels at issue, including those con-

taining parking areas, furthered the legitimate function of the Hospital Authority. Columbus Board of Tax Assessors v. Medical Center Hospital Authority, 336 Ga. App. 746, 783 S.E.2d 182 (2016).

Trial court did not err in finding that the parcel in which the hospital and the clinic, which was for-profit, were located was exempt from ad valorem property taxes as the parcel contained both facilities when the Hospital Authority purchased the property and the square footage of the clinic was less than half of the hospital’s square footage. Columbus Board of Tax Assessors v. Medical Center Hospital Authority, 336 Ga. App. 746, 783 S.E.2d 182 (2016).

31-7-74. Residency requirement; officers; compensation; rules and regulations.

JUDICIAL DECISIONS

31-7-75. Functions and powers.

JUDICIAL DECISIONS

Private corporation’s records were public. — Private corporation’s operation of a hospital and other facilities leased from a county hospital authority under O.C.G.A. § 31-7-75(7) was a service it performed “on behalf of” a county agency, so records related to that operation were public records under O.C.G.A.

§ 50-18-70(b)(2) of the Open Records Act, O.C.G.A. § 50-18-70 et seq.; whether other records were public required a factual determination as to how closely the records were related to this operation. Smith v. Northside Hosp., Inc., 302 Ga. 517, 807 S.E.2d 909 (2017).

Cited in United States v. Hosp. Auth. of

Charlton County (In re Hosp. Auth. of Charlton County), 56 Bankr. Ct. Dec. (LRP) 220 (Bankr. S.D. Ga. July 3, 2012).

31-7-77. Prohibition on for-profit projects; rates and charges; utilization of revenues to pay certain obligations.

(a) No authority shall operate or construct any project for profit. It shall fix rates and charges consistent with this declaration of policy and such as will produce revenues only in amounts sufficient, together with all other funds of the authority, to pay principal and interest on certificates and obligations of the authority, to provide for maintenance and operation of the project, and to create and maintain a reserve sufficient to meet principal and interest payments due on any certificates in any one year after the issuance thereof. The authority may provide reasonable reserves for the improvement, replacement, or expansion of its facilities or services.

(b) Notwithstanding subsection (a) of this Code section or any other provisions to the contrary, a joint hospital authority established pursuant to Code Section 31-7-72 which operates a hospital containing more than 900 licensed beds shall only utilize revenues to pay principal and interest on certificates and obligations of the authority, to pay pension plan obligations of the authority existing as of January 1, 2013, and for funding projects leased by the authority to a lessee pursuant to a contract entered into in accordance with paragraph (7) of Code Section 31-7-75; provided, however, that no more than 1 percent of revenues shall be utilized to pay for personnel costs for employees or contractors of the authority. (Ga. L. 1941, p. 241, § 6; Code 1933, § 88-1806, enacted by Ga. L. 1964, p. 499, § 1; Ga. L. 2013, p. 1037, § 1/SB 62.)

The 2013 amendment, effective May 7, 2013, designated the existing provisions as subsection (a); and added subsection (b).

JUDICIAL DECISIONS

31-7-94. Grants to hospital authorities and rural hospital organizations.

The state is authorized to make grants, as funds are available, to hospital authorities and rural hospital organizations for public health purposes, provided that any funds so granted shall be distributed to and among the various public hospital authorities and rural hospital organizations in the state in proportion to the number of hospital beds operated by each such hospital authority or rural hospital organization at the end of the calendar year preceding the grant. Funds shall be distributed to public hospitals and rural hospital organizations operated by consolidated governments in the same manner as to authority hospitals prescribed in this Code section and rural hospital organizations. Grants made by the state pursuant to this Code section shall be administered by the Department of Community Health in accordance with Code Section 31-7-94.1 and such rules, regulations, and procedures as it shall deem necessary for effective administration of such grants. (Code 1933, § 88-1824, enacted by Ga. L. 1975, p. 777, § 1; Ga. L. 1985, p. 149, § 31; Ga. L. 2002, p. 1132, § 2; Ga. L. 2017, p. 411, § 1/SB 14.)

The 2017 amendment, effective May 8, 2017, throughout this Code section, inserted “and rural hospital organizations”; inserted “or rural hospital organization” near the end of the first sentence; and inserted “Code Section 31-7-94.1 and” in the middle of the third sentence.

31-7-94.1. Rural Hospital Organization Assistance Act; legislative findings; certification of rural hospitals for grant eligibility; rules and regulations.

(a) This Code section shall be known and may be cited as the “Rural Hospital Organization Assistance Act of 2017.”

(b) The General Assembly finds that hospital authorities and rural hospital organizations are essential in order to promote public health goals of the state. The General Assembly further finds that many rural hospital organizations are in desperate financial straits. In order to preserve the availability of primary health care services provided by such hospitals to residents of rural counties, the General Assembly has determined that a program of state grants is necessary and recommends funds be made available to such hospitals. These grants will be conditioned upon those hospitals continuing to furnish essential health care services to residents in their areas of operation as well as engaging in the long-range planning and any restructuring which may be required for those hospitals to survive by devising cost-effective and efficient health care systems for meeting local health care needs.

(c) As used in this Code section, the term:

(1) “Hospital” means an institution which has a permit as a hospital issued under this chapter.

(2) “Rural county” means a county having a population of less than 50,000 according to the United States decennial census of 2010 or any future such census; provided, however, that for counties which contain a military base or installation, the military personnel and their dependents living in such county shall be excluded from the total population of such county for purposes of this definition.

(3) “Rural hospital organization” means an acute care hospital licensed by the department pursuant to Article 1 of this chapter that:

(A) Provides inpatient hospital services at a facility located in a rural county or is a critical access hospital;

(B) Participates in both Medicaid and medicare and accepts both Medicaid and medicare patients;

(C) Provides health care services to indigent patients;

(D) Has at least 10 percent of its annual net revenue categorized as indigent care, charity care, or bad debt;

(E) Annually files IRS Form 990, Return of Organization Exempt From Income Tax, with the department, or for any hospital not required to file IRS Form 990, the department will provide a

form that collects the same information to be submitted to the department on an annual basis;

(F) Is operated by a county or municipal authority pursuant to this article or is designated as a tax-exempt organization under Section 501(c)(3) of the Internal Revenue Code; and

(G) Is current with all audits and reports required by law.

(d) A rural hospital organization may apply for a grant available under subsection (e) of this Code section if it has been certified by the department as:

(1) A rural hospital organization; and

(2) Having submitted a grant application which includes:

(A) A problem statement indicating the problem the rural hospital organization proposes to solve with the grant funds;

(B) The goals of the proposed solution;

(C) The organizational structure, financial system, and facilities that are essential to the proposed solution;

(D) The projected longevity of the proposed solution after the grant funds are expended;

(E) Evidence of collaboration with other community health care providers in achieving the proposed solution;

(F) Evidence that funds for the proposed solution are not available from another source;

(G) Evidence that the grant funds would assist in returning the rural hospital organization to an economically stable condition or that any plan for closure or realignment of services involves development of innovative alternatives for the discontinued services;

(H) Evidence of a satisfactory record-keeping system to account for grant fund expenditures within the rural hospital organization and the rural county;

(I) A community health survival plan describing how the plan was developed, the goals of the plan, the links with existing health care providers under the plan, the implementation process including quantification of indicators of the hospital's financial well-being, measurable outcome targets, and the current condition of such hospital; and

(J) Such additional evidence as the department may require to demonstrate the feasibility of the proposed solution for which grant funds are sought.

(e) The department is authorized to make grants to rural hospital organizations certified as meeting the requirements of subsection (d) of this Code section. Grants to rural hospitals owned or operated by hospital authorities or rural hospital organizations may be for any of the following purposes:

(1) Infrastructure development, including, without being limited to, health information technology, facility renovation, or equipment acquisition; provided, however, that the amount granted to any qualified hospital may not exceed the expenditure thresholds that would constitute a new institutional health service requiring a certificate of need under Chapter 6 of this title and the grant award may be conditioned upon obtaining local matching funds;

(2) Strategic planning, including, without being limited to, strategies for personnel retention or recruitment, development of an emergency medical network, or the development of a collaborative and integrated health care delivery system with other health care providers, and the grant award may be conditioned upon obtaining local matching funds for items such as telemedicine, billing systems, and medical records. For the purposes of this paragraph, the maximum grant to any grantee shall be \$500,000.00;

(3) Nontraditional health care delivery systems, excluding operational funds and purposes for which grants may be made under paragraph (1) or (2) of this subsection. For the purposes of this paragraph, the maximum grant to any grantee shall be \$2.5 million; or

(4) The provision of 24 hour emergency room services open to the general public.

(f) In awarding grants under this Code section, the department may give priority to any otherwise eligible rural hospital organization which meets the definition of a necessary provider as specified in the state's "Rural Healthcare Plan" of May, 1998.

(g) The maximum grant to any hospital authority or rural hospital organization shall be \$4 million per calendar year.

(h) The department shall be authorized to certify rural hospital organizations as provided in subsection (d) of this Code section and shall adopt regulations to implement its powers and duties under this Code section. (Code 1981, § 31-7-94.1, enacted by Ga. L. 2017, p. 411, § 2/SB 14; Ga. L. 2018, p. 1112, § 31/SB 365.)

Effective date. — This Code section became effective May 8, 2017.

The 2018 amendment, effective May 8, 2018, part of an Act to revise, modern-

ize, and correct the Code, substituted "Having" for "Has" at the beginning of paragraph (d)(2).

Editor's notes. — This Code section

formerly pertained to the Rural Hospital Assistance Act. The former Code section was based on Code 1981, § 31-7-94.1, enacted by Ga. L. 1999, p. 469, § 1; Ga. L. 2000, p. 136, § 31; Ga. L. 2002, p. 1132,

§ 3; Ga. L. 2006, p. 152, § 2D/HB 1178; Ga. L. 2009, p. 453, § 1-8/HB 228 and was repealed by Ga. L. 2017, p. 411, § 2/SB 14, effective May 8, 2017.

ARTICLE 6

PEER REVIEW GROUPS

31-7-131. Definitions.

JUDICIAL DECISIONS

Cited in *Sewell v. Cancel*, 331 Ga. App. 687, 771 S.E.2d 388 (2015).

31-7-132. Immunity from liability for peer review activities; immunity from liability of persons providing information.

JUDICIAL DECISIONS

Hospital's immunity following suit by physician. — Grant of summary judgment in favor of the hospital was affirmed because 42 U.S.C. § 11101 et seq. provided the hospital immunity, as a matter of law, from suit brought by a physician suspended of medical staff privileges as the physician failed to overcome, by a preponderance of the evidence, the presumption that the hospital summarily suspended clinical privileges only after a reasonable effort to obtain the facts of the matter occurred, as required under 42 U.S.C. § 11112(a)(2). *Kolb v. Northside Hospital*, 342 Ga. App. 192, 802 S.E.2d 413 (2017).

Evaluation of anesthesiologists for working relationships rather than medical care was not peer review. — In an action by anesthesiologists who were not rehired by a hospital after their group contract was terminated, the hospital defendants were not entitled to immunity under O.C.G.A. § 31-7-132 because the panel was not evaluating the quality and efficiency of actual medical care services by the anesthesiologists but was evaluating their ability to work harmoniously; however, remand was required to

determine whether the trial court had concluded that peer review immunity was appropriate. *Sewell v. Cancel*, 331 Ga. App. 687, 771 S.E.2d 388 (2015).

Hospital immune from liability because malice not established.

Superior court erred in denying a hospital's motion for summary judgment in a doctor's action contending that the denial of an application for renewal of clinical privileges was void because the hospital was entitled to immunity from the doctor's equitable claims pursuant to O.C.G.A. § 31-7-132(a); the superior court erred in finding that there was evidence from which the jury could infer that the peer review process was motivated by malice. *DeKalb Med. Ctr. v. Obekpa*, 315 Ga. App. 739, 728 S.E.2d 265 (2012).

In a suit by doctors against a hospital where the doctors had served as anesthesiologists alleging that the hospital's failure to rehire the doctors was motivated by malice, summary judgment to the hospital was proper based on peer review immunity under O.C.G.A. § 31-7-132(a); the doctors failed to show malice. *Cancel v. Medical Ctr. of Cent. Ga.*, No. A17A1709, 2018 Ga. App. LEXIS 197 (Mar. 15, 2018).

Cross references. — Privileges generally, § 24-5-501 et seq.

JUDICIAL DECISIONS

Doctors had access to notes. — In a suit by doctors against a hospital where the doctors had served as anesthesiologists, any error by the trial court in limiting discovery of notes of an investigating psychologist’s interviews with the anesthesiologists and nurses under O.C.G.A. § 31-7-133 was not harmful because the doctors had access to the notes and deposed the psychologist regarding the notes. *Cancel v. Medical Ctr. of Cent. Ga.*, No. A17A1709, 2018 Ga. App. LEXIS 197 (Mar. 15, 2018).

ARTICLE 6A
MEDICAL REVIEW COMMITTEES

31-7-141. Committee members immune from liability.

JUDICIAL DECISIONS

Preemption.
To the extent that peer review and medical review immunity under O.C.G.A. §§ 31-7-132(a) and 31-7-141 are conditioned upon the absence of malice and deception, the statutes are preempted by the federal Health Care Quality Improvement Act of 1986 (HCQIA), 42 U.S.C. § 11101 et seq., under which bias is irrelevant. *Cancel v. Medical Ctr. of Cent. Ga.*, No. A17A1709, 2018 Ga. App. LEXIS 197 (Mar. 15, 2018).

ARTICLE 9
HOSPICE CARE

31-7-176.1. Determination or pronouncement of death.

When a patient who is terminally ill or whose death is anticipated and who is receiving hospice care from a licensed hospice dies, a physician assistant, a nurse practitioner, or a registered professional nurse licensed in this state and employed by such hospice at the time of apparent death of such person, in the absence of an attending physician, may make the determination and pronouncement of the death of said patient. Such determination or pronouncement shall be made in writing on a form approved by the commissioner of community health. (Code 1981, § 31-7-176.1, enacted by Ga. L. 1992, p. 1392, § 2; Ga. L. 2009, p. 453, § 1-6/HB 228; Ga. L. 2017, p. 625, § 2/SB 96.)

The 2017 amendment, effective July 1, 2017, in the first sentence, inserted “a physician assistant, a nurse practitioner, or” near the beginning and deleted “; provided, however, that, when a hospice patient is a registered organ donor, only a

physician may make the determination or pronouncement of death” following “said patient” at the end.

ARTICLE 10

PATIENT CENTERED AND FAMILY FOCUSED PALLIATIVE CARE

Effective date. — This article became effective July 1, 2016.

Editor’s notes. — Ga. L. 1993, p. 738, § 19, effective April 9, 1993, repealed the Code sections formerly codified at this article. The former article consisted of Code Sections 31-7-190 through 31-7-208,

relating to the Hospital Financing Authority, and was based on Ga. L. 1984, p. 1654, § 1; Ga. L. 1985, p. 149, § 31; Ga. L. 1986, p. 1519, §§ 1-5; Ga. L. 1987, p. 3, § 31; Ga. L. 1990, p. 894, §§ 1-11; Ga. L. 1991, p. 94, § 31; and Ga. L. 1992, p. 1323, §§ 1, 1.5, 2.

31-7-190. Legislative intent.

The intent of the General Assembly in enacting this article is to improve quality and delivery of patient centered and family focused palliative care in this state. (Code 1981, § 31-7-190, enacted by Ga. L. 2016, p. 155, § 1/HB 509.)

31-7-191. Definitions.

As used in this article, the term:

- (1) “Commissioner” means the commissioner of community health.
- (2) “Department” means the Department of Community Health.
- (3) “Georgia Palliative Care and Quality of Life Advisory Council” or “council” means the advisory council created pursuant to Code Section 31-7-192.
- (4) “Health care facility” means hospitals; other special care units, including but not limited to podiatric facilities; skilled nursing facilities; intermediate care facilities; assisted living communities; personal care homes; ambulatory surgical or obstetrical facilities; health maintenance organizations; home health agencies; and diagnostic, treatment, or rehabilitation centers.
- (5) “Palliative care” means those interventions which are intended to alleviate suffering and to achieve relief from, reduction of, or elimination of pain and of other physical, emotional, social, or spiritual symptoms of distress to achieve the best quality of life for the patients and their families. (Code 1981, § 31-7-191, enacted by Ga. L. 2016, p. 155, § 1/HB 509.)

31-7-192. Georgia Palliative Care and Quality of Life Advisory Council.

(a) There is hereby created the Georgia Palliative Care and Quality of Life Advisory Council within the department. The council shall be composed of nine members, as follows:

(1) The chairperson of the House Committee on Health and Human Services, or his or her designee;

(2) The chairperson of the Senate Health and Human Services Committee, or his or her designee;

(3) Two members appointed by the Speaker of the House of Representatives;

(4) Two members appointed by the President of the Senate; and

(5) Three members appointed by the Governor.

The appointing authorities are encouraged to coordinate their appointments so that the council includes interdisciplinary palliative care medical, nursing, social work, pharmacy, and spiritual professional expertise; patient and family caregiver advocate representation; and any relevant appointees from the department or other state entities or councils. Membership should include health professionals who have palliative care work experience or expertise in palliative care delivery models in a variety of inpatient, outpatient, and community settings, such as acute care, long-term care, or hospice, and with a variety of populations, including pediatric, youth, and adult patients. It is preferable that at least two councilmembers are board certified hospice and palliative medicine physicians or nurses.

(b) Appointed councilmembers shall serve for a period of three years. The members shall elect a chairperson and vice chairperson from among their membership whose duties shall be established by the council.

(c) The department shall fix a time and place for regular meetings of the council, which shall meet at least twice yearly.

(d) Councilmembers shall receive no compensation for their services but shall be allowed actual and necessary expenses in the performance of their duties. Any legislative members of the council shall receive the allowances provided for in Code Section 28-1-8. Citizen members shall receive a daily expense allowance in the amount specified in subsection (b) of Code Section 45-7-21 as well as the mileage or transportation allowance authorized for state employees. If any members selected to serve on the council are state officials, other than legislative members, or are state employees, they shall receive no compensation for their

services on the council but shall be reimbursed for expenses incurred in the performance of their duties as members of the council in the same manner as reimbursements are made in their capacity as state officials or state employees. The funds necessary for the reimbursement of the expenses of state officials, other than legislative members, and state employees shall come from funds appropriated to or otherwise available to their respective departments.

(e) The council shall consult with and advise the department on matters related to the establishment, maintenance, operation, and outcomes evaluation of palliative care initiatives in this state.

(f) The council, no later than June 30, 2017, and annually thereafter, shall submit to the Governor and the General Assembly a report of its findings and recommendations. (Code 1981, § 31-7-192, enacted by Ga. L. 2016, p. 155, § 1/HB 509; Ga. L. 2017, p. 774, § 31/HB 323.)

The 2017 amendment, effective May 9, 2017, part of an Act to revise, modernize, and correct the Code, revised punctuation in the fourth sentence of subsection (d).

31-7-193. Palliative Care Consumer and Professional Information and Education Program.

(a) There is established a state-wide Palliative Care Consumer and Professional Information and Education Program within the department.

(b) The purpose of the Palliative Care Consumer and Professional Information and Education Program shall be to maximize the effectiveness of palliative care initiatives in this state by ensuring that comprehensive and accurate information and education about palliative care is available to the public, health care providers, and health care facilities.

(c) The department shall publish on its website information and resources, including links to external resources, about palliative care for the public, health care providers, and health care facilities. This shall include, but not be limited to, continuing educational opportunities for health care providers; information about palliative care delivery in the home, primary, secondary, and tertiary environments; best practices for palliative care delivery; and consumer educational materials and referral information for palliative care, including hospice.

(d) The department shall consult with the Georgia Palliative Care and Quality of Life Advisory Council in implementing this Code section. (Code 1981, § 31-7-193, enacted by Ga. L. 2016, p. 155, § 1/HB 509.)

ARTICLE 11

FACILITY LICENSING AND EMPLOYEE RECORDS CHECKS

Editor's notes. — Ga. L. 2018, p. 611, § 1-3/SB 406 provides for the repeal of this article effective October 1, 2019. For provisions of this article effective until that date and not set out in this supplement, see the bound volume.

31-7-250. (Repealed effective October 1, 2019) Definitions.

As used in this article, the term:

(1) "Conviction" means a finding or verdict of guilty or a plea of guilty regardless of whether an appeal of the conviction has been sought.

(2) "Crime" means commission of any of the following offenses:

(A) A violation of Code Section 16-5-21, relating to aggravated assault;

(B) A violation of Code Section 16-5-24, relating to aggravated battery;

(C) A violation of Code Section 16-6-1, relating to rape;

(D) A felony violation of Code Section 16-8-2, relating to theft by taking;

(E) A felony violation of Code Section 16-8-3, relating to theft by deception;

(F) A felony violation of Code Section 16-8-4, relating to theft by conversion;

(G) A felony violation of Code Section 16-9-1;

(H) A violation of Code Section 16-5-1;

(I) A violation of Code Section 16-4-1, relating to criminal attempt as it concerns attempted murder;

(J) A violation of Code Section 16-8-40, relating to robbery;

(K) A violation of Code Section 16-8-41, relating to armed robbery;

(L) A violation of Chapter 13 of Title 16, relating to controlled substances;

(M) A violation of Code Section 16-5-23.1, relating to battery;

(N) A violation of Code Section 16-6-5.1;

(O) A violation of Article 8 of Chapter 5 of Title 16;

(P) Any other offense committed in another jurisdiction which, if committed in this state, would be deemed to be such a crime without regard to its designation elsewhere; or

(Q) Any other criminal offense as determined by the department and established by rule adopted pursuant to Chapter 13 of Title 50, the "Georgia Administrative Procedure Act," that would indicate the unfitness of an individual to provide care to or be in contact with persons residing in a facility.

(3) "Criminal record" means any of the following:

(A) Conviction of a crime;

(B) Arrest, charge, and sentencing for a crime where:

(i) A plea of nolo contendere was entered to the charge;

(ii) First offender treatment without adjudication of guilt pursuant to the charge was granted; or

(iii) Adjudication or sentence was otherwise withheld or not entered on the charge; or

(C) Arrest and being charged for a crime if the charge is pending, unless the time for prosecuting such crime has expired pursuant to Chapter 3 of Title 17.

(3.1) "Department" means the Department of Community Health.

(4) "Director" means the chief administrative or executive officer or manager.

(5) "Employee" means any person, other than a director, utilized by a personal care home to provide personal services to any resident on behalf of the personal care home or to perform at any facilities of the personal care home any duties which involve personal contact between that person and any paying resident of the personal care home.

(6) "Facility" means real property of a personal care home where residents reside.

(7) "Fingerprint records check determination" means a satisfactory or unsatisfactory determination by the department based upon a records check comparison of GCIC information with fingerprints and other information in a records check application.

(8) "GCIC" means the Georgia Crime Information Center established under Article 2 of Chapter 3 of Title 35.

(9) "GCIC information" means criminal history record information as defined in Code Section 35-3-30.

(10) “License” means the permit or document issued by the department to authorize the personal care home to which it is issued to operate a facility under this chapter.

(11) “Personal care home” or “home” means a home required to be licensed or permitted under Code Section 31-7-12 or an assisted living community as defined in Code Section 31-7-12.2.

(11.1) “Personal services” includes, but is not limited to, individual assistance with or supervision of self-administered medication and essential activities of daily living such as eating, bathing, grooming, dressing, and toileting.

(12) “Preliminary records check application” means an application for a preliminary records check determination on forms provided by the department.

(13) “Preliminary records check determination” means a satisfactory or unsatisfactory determination by the department based only upon a comparison of GCIC information with other than fingerprint information regarding the person upon whom the records check is being performed.

(14) “Records check application” means two sets of classifiable fingerprints, a records search fee to be established by the department by rule and regulation, payable in such form as the department may direct to cover the cost of a fingerprint records check under this article, and an affidavit by the applicant disclosing the nature and date of any arrest, charge, or conviction of the applicant for the violation of any law, except for motor vehicle parking violations, whether or not the violation occurred in this state, and such additional information as the department may require.

(15) “Regular license” means a permit which will remain in effect for the personal care home, until and unless the facility ceases to operate or revocation proceedings are commenced.

(16) “Satisfactory determination” means a written determination that a person for whom a records check was performed was found to have no criminal record.

(17) “Temporary license” means a provisional permit which expires six months or 12 months from the date of issuance, unless extended for good cause by the department.

(18) “Unsatisfactory determination” means a written determination that a person for whom a records check was performed has a criminal record. (Code 1981, § 31-7-250, enacted by Ga. L. 1985, p. 952, § 2; Ga. L. 1986, p. 822, § 1; Ga. L. 1994, p. 1359, § 1; Ga. L. 2002, p. 942, § 1; Ga. L. 2008, p. 12, § 2-19/SB 433; Ga. L. 2011, p.

227, § 17/SB 178; Ga. L. 2012, p. 351, § 4/HB 1110; Ga. L. 2012, p. 899, § 8-12/HB 1176; Ga. L. 2013, p. 524, § 3-3/HB 78; Ga. L. 2014, p. 444, § 2-9/HB 271.)

The 2013 amendment, effective July 1, 2013, deleted “, relating to sexual assault against a person in custody” following “Code Section 16-6-5.1” at the end of subparagraph (2)(N), and substituted “Article 8 of Chapter 5 of Title 16” for “Code Section 30-5-8, relating to abuse, neglect, or exploitation of a disabled adult or elder person” in subparagraph (2)(O).

The 2014 amendment, effective July 1, 2014, deleted “, relating to murder and felony murder” following “Code Section 16-5-1” at the end of subparagraph (2)(H).

Editor’s notes. — See the Editor’s note following the article heading as to the repeal of this Code section.

Law reviews. — For article on the 2012 amendment of this Code section, see 29 Ga. St. U.L. Rev. 290 (2012).

For note, “Give It to Me, I’m Worth It: The Need to Amend Georgia’s Record Restriction Statute to Provide Ex-Offenders with a Second Chance in the Employment Sector,” see 52 Ga. L. Rev. 267 (2017).

31-7-254. (Repealed effective October 1, 2019) Transmission of director’s fingerprints to Georgia Crime Information Center for review; notification to department of findings; retention of fingerprints.

After issuing a temporary license based upon a preliminary records check determination of the director that is satisfactory under Code Section 31-7-253, the department shall transmit to GCIC both sets of fingerprints and the records search fee from that director’s records check application. Upon receipt thereof, GCIC shall promptly transmit one set of fingerprints to the Federal Bureau of Investigation for a search of bureau records and an appropriate report and shall retain the other set and promptly conduct a search of its records and records to which it has access. Within 75 days after receiving fingerprints acceptable to GCIC, the application, and fee, GCIC shall notify the department in writing of any derogatory finding, including but not limited to any criminal record, of the fingerprint records check or if there is no such finding. If the department is participating in the program described in subparagraph (a)(1)(F) of Code Section 35-3-33, the Georgia Bureau of Investigation and the Federal Bureau of Investigation shall be authorized to retain fingerprints obtained pursuant to this Code section for such program and the department shall notify the individual whose fingerprints were taken of the parameters of such retention. (Code 1981, § 31-7-254, enacted by Ga. L. 1985, p. 952, § 2; Ga. L. 2002, p. 942, § 4; Ga. L. 2018, p. 507, § 2-8/SB 336.)

The 2018 amendment, effective July 1, 2018, in this Code section, in the first sentence, deleted “satisfactory” preceding “preliminary records check” near the middle and inserted “that is satisfactory” in

the middle; and added the fourth sentence.

Editor’s notes. — See the Editor’s note following the article heading as to the repeal of this Code section.

31-7-258. (Repealed effective October 1, 2019) Change of facility director; notification to department; effect of department determination.

(a) If the director of a facility which has been issued a regular license ceases to be the director of that facility, the licensee shall thereupon designate a new director. After such change, the licensee of that facility shall notify the department of such change and of any additional information the department may require regarding the newly designated director of that facility. Such information shall include but not be limited to any information the licensee may have regarding preliminary or fingerprint records check determinations regarding that director. After receiving a change of director notification, the department shall make a written determination from the information furnished with such notification and the department's own records as to whether a satisfactory or unsatisfactory preliminary or fingerprint records check determination has ever been made for the newly designated director. If the department determines that such director within 12 months prior thereto has had a fingerprint records check determination that is satisfactory, such determination shall be deemed to be a satisfactory fingerprint records check determination as to that director. The license of that facility shall not be adversely affected by that change in director and the licensee shall be so notified. The time frames set forth in this subsection shall not apply when fingerprints have been retained by the department due to its participation in the program described in subparagraph (a)(1)(F) of Code Section 35-3-33.

(b) If the department determines under subsection (a) of this Code section that there has ever been a preliminary or fingerprint records check determination of the newly designated director that was unsatisfactory, the personal care home and that director shall be notified thereof. The license for that director's facility shall be indefinitely suspended unless the personal care home designates another director for whom it has not received or made an unsatisfactory determination and proceeds pursuant to the provisions of this Code section relating to a change of director.

(c) If the department determines under subsection (a) of this Code section that there has been no fingerprint records check determination regarding the newly designated director within the immediately preceding 12 months, the department shall so notify the personal care home. The personal care home shall furnish to the department the records check application of the newly designated director or the license of that facility shall be indefinitely suspended. If that records check application is so received, unless the department has within the immediately preceding 12 months made a preliminary records check determination that is satisfactory regarding the newly designated

director, the department shall perform a preliminary records check and determination of the newly designated director; and the applicant and that director shall be notified thereof. If that determination is unsatisfactory, the provisions of subsection (b) of this Code section regarding procedures after notification shall apply. If that determination is satisfactory, the department shall perform a fingerprint records check and determination for that director as provided in Code Sections 31-7-254 and 31-7-255. If that determination is satisfactory, the personal care home and director for whom the determination was made shall be so notified, and the license for the facility at which that person is the newly designated director shall not be adversely affected by that change of director. If that determination is unsatisfactory, the provisions of subsection (b) of this Code section shall apply. The time frames set forth in this subsection shall not apply when fingerprints have been retained by the department due to its participation in the program described in subparagraph (a)(1)(F) of Code Section 35-3-33. (Code 1981, § 31-7-258, enacted by Ga. L. 1985, p. 952, § 2; Ga. L. 2018, p. 507, § 2-9/SB 336.)

The 2018 amendment, effective July 1, 2018, in subsection (a), deleted “satisfactory” preceding “fingerprint records” and inserted “that is satisfactory” in the fifth sentence and added the last sentence in subsection (b), substituted “a preliminary” for “an unsatisfactory preliminary” and inserted “that was unsatisfactory” in the first sentence and deleted “preliminary or fingerprint records check” follow-

ing “unsatisfactory” in the middle of the second sentence; and in subsection (c), deleted “satisfaction” preceding “preliminary records” and inserted “that is satisfactory” preceding “regarding” in the third sentence and added the last sentence.

Editor’s notes. — See the Editor’s note following the article heading as to the repeal of this Code section.

31-7-259. (Repealed effective October 1, 2019) Preliminary records check determination; suspension or revocation of license; refusal to issue regular license; fingerprint check; employment history; director’s criminal liability; exempt employees; mitigating factors in criminal records check; civil penalty.

(a) Before a person may become a director of any facility that has received either a temporary or regular license, that facility shall require that person to furnish to the department a preliminary records check application and a records check application and the department shall, under the procedures of Code Sections 31-7-252 and 31-7-253, make a preliminary records check determination and send notice thereof to the facility and director prior to the director beginning work. If the preliminary records check is unsatisfactory, the facility shall not hire the director. If the subsequent fingerprint records check determination is unsatisfactory, the facility shall take such steps as are necessary so that such person is no longer the director of the facility.

(b) Before a person may become an employee of a facility, each potential employee of a facility shall request a criminal record check from a local law enforcement agency and submit the results of the criminal record check to the facility. The personal care home shall be authorized to rely on written information received from a local law enforcement agency, GCIC, or other official agency to determine whether the applicant for employment has a criminal record. A personal care home shall not employ a person with an unsatisfactory determination.

(c) In addition, where an applicant for employment at a personal care home has not been a resident of the state for a period of three years preceding the date of application for employment, the personal care home shall attempt to obtain a criminal record check from the local law enforcement agency of the applicant's previous state of residence. If the local criminal record check from either the applicant's previous state of residence or this state indicates multistate offender status, the personal care home shall not employ the applicant until a determination is made as to whether the applicant has a criminal record. If the personal care home elects to determine the nature of the criminal activity, the personal care home shall transmit the preliminary records check application and the records check application on behalf of the potential employee to the department for processing through the GCIC. A personal care home shall not employ a person with an unsatisfactory determination.

(d) If the personal care home is unable to obtain a criminal record check from the local law enforcement agency of the applicant's previous state of residence, it shall transmit a records check application to the department which shall process the application through the GCIC. A personal care home shall not employ a person with an unsatisfactory determination.

(e) The fee for a criminal records check under this Code section shall be no greater than the actual cost of processing the request and shall be paid by the personal care home or by the applicant for employment. The law enforcement agency of this state receiving the request shall perform a criminal record check for a personal care home within a reasonable time but in any event within a period not to exceed three days of receiving the request.

(f) Each application form provided by the employer to the applicant for employment shall conspicuously state the following: "FOR THIS TYPE OF EMPLOYMENT, STATE LAW REQUIRES A CRIMINAL RECORD CHECK AS A CONDITION OF EMPLOYMENT."

(g) Both temporary and regular licenses are subject to suspension or revocation or the department may refuse to issue a regular license if a

person becomes a director or employee subsequent to the granting of a license and that person does not undergo the records checks applicable to that director or employee and receive a satisfactory determination.

(h) After the issuance of a regular or temporary license, the department may require a fingerprint records check on any director or employee to confirm identification for records search purposes, or when subsequent to a preliminary records check, the department has reason to believe that the director or employee has a criminal record. The department may require a fingerprints record check on any director or employee during the course of an abuse investigation involving the director or employee. In such instances, the department shall require the director or employee to furnish two full sets of fingerprints which the department shall submit to the GCIC together with appropriate fees collected from the director or employee or personal care home. Upon receipt thereof, the GCIC shall promptly transmit one set of fingerprints to the Federal Bureau of Investigation for a search of bureau records and an appropriate report and retain the other set and promptly conduct a search of its records and records to which it has access. The GCIC shall notify the department in writing of any derogatory finding, including but not limited to any criminal record obtained through the fingerprint record check or if there is no such finding. Where the department determines that the director or employee has a criminal record, the department shall notify the facility of the unsatisfactory determination and the facility shall take such steps as are necessary so that such person is no longer the director or an employee of the facility.

(i) No personal care home may have any person as an employee after July 1, 2002, unless there is on file in the personal care home an employment history for that person and a satisfactory determination that the person does not have a criminal record.

(j) Except as provided in subsection (l) of this Code section, a director of a facility having an employee whom that director knows or should reasonably know to have a criminal record, as defined in Code Section 31-7-250, shall be guilty of a misdemeanor.

(k) The provisions of this Code section shall not apply to a member of the administrative staff or an applicant for an administrative staff position of a personal care home whose duties do not include management of resident funds or personal contact between that person and any paying resident of the home.

(l) Where a personal care home determines that an applicant for employment has a criminal record but there are matters in mitigation of the criminal record, no physical harm was done to the victim, and the personal care home would like to hire the applicant, the personal care

home may submit an application for a preliminary records check to the department on behalf of the potential employee on forms provided by the department. The personal care home shall not hire the potential employee to work in the home until the personal care home receives notification from the department that the applicant either has a satisfactory criminal record check or an administrative law judge has determined that the applicant is authorized to work in a personal care home.

(m) Except as provided in subsection (l) of this Code section, a personal care home that hires an applicant for employment with a criminal record is in violation of licensing requirements and the department is authorized to impose a civil penalty pursuant to the authority granted it under the rules and regulations for the enforcement of licensing requirements.

(n) If the department is participating in the program described in subparagraph (a)(1)(F) of Code Section 35-3-33, the Georgia Bureau of Investigation and the Federal Bureau of Investigation shall be authorized to retain fingerprints obtained pursuant to this Code section for such program and the department shall notify the individual whose fingerprints were taken of the parameters of such retention. (Code 1981, § 31-7-259, enacted by Ga. L. 1985, p. 952, § 2; Ga. L. 2002, p. 942, § 8; Ga. L. 2018, p. 507, § 2-10/SB 336.)

The 2018 amendment, effective July 1, 2018, added subsection (n). following the article heading as to the repeal of this Code section.

Editor's notes. — See the Editor's note

ARTICLE 12

HEALTH CARE DATA COLLECTION

31-7-280. Health care provider annual reports; form.

(a) As used in this article, the term:

(1) "Department" means the Department of Community Health.

(2) "Health care provider" means any hospital or ambulatory surgical or obstetrical facility having a license or permit issued by the department under Article 1 of this chapter.

(3) "Indigent person" means any person having as a maximum allowable income level an amount corresponding to 125 percent of the federal poverty guideline.

(4) "Third-party payor" means any entity which provides health care insurance or a health care service plan, including but not limited to providers of major medical or comprehensive accident or health

insurance, whether or not through a self-insurance plan, Medicaid, or health care plans, but does not mean a specified disease or supplemental hospital indemnity payor.

(b) There shall be required from each health care provider in this state an annual report of certain health care information to be submitted to the department. The report shall be due on the last day of January and shall cover the 12 month period preceding each such calendar year.

(c) The report required under subsection (b) of this Code section shall contain the following information:

- (1) Total gross revenues;
- (2) Bad debts;
- (3) Amounts of free care extended, excluding bad debts;
- (4) Amounts of contractual adjustments;
- (5) Amounts of care provided under a Hill-Burton commitment;
- (6) Amounts of charity care provided to indigent persons;
- (7) Amounts of outside sources of funding from governmental entities, philanthropic groups, or any other sources, including the proportion of any such funding dedicated to the care of indigent persons;
- (8) For cases involving indigent persons:
 - (A) The number of persons treated;
 - (B) The number of inpatients and outpatients;
 - (C) Total patient days;
 - (D) The total number of patients categorized by county of residence;
 - (E) The indigent care costs incurred by the health care provider by county of residence;
- (9) The public, profit, or nonprofit status of the health care provider and whether or not the provider is a teaching hospital;
- (10) The number of board certified physicians, by specialty, on the staff of the health care provider;
- (11) The number of nursing hours per day for each hospital and per patient visit for each ambulatory surgical or obstetrical facility;
- (12) For ambulatory surgical or obstetrical facilities, the types of surgery performed and emergency back-up systems available for that surgery;

(13) For hospitals:

(A) The availability of emergency services, trauma centers, intensive care units, and neonatal intensive care units;

(B) Procedures hospitals specialize in and the number of such procedures performed annually; and

(C) Cesarean section rates by number and as a percentage of deliveries; and

(14) Data available on a recognized uniform billing statement or substantially similar form generally used by health care providers which reflect, but are not limited to, the following type of data obtained during a 12 month period during each reporting period: unique longitudinal nonidentifying patient code, the patient's birth date, sex, race, geopolitical subdivision code, ZIP Code, county of residence, type of bill, beginning and ending service dates, date of admission, discharge date, disposition of the patient, medical or health record number, principal and secondary diagnoses, principal and secondary procedures and procedure dates, external cause of injury codes, diagnostic related group number (DRG), DRG procedure coding used, revenue codes, total charges and summary of charges by revenue code, payor or plan identification, or both, place of service code such as the uniform hospital identification number and hospital name, attending physician and other ordering, referring, or performing physician identification number, and specialty code.

(d) The department shall provide a form for the report required by subsection (b) of this Code section and may provide in such form for further categorical divisions of the information listed in subsection (c) of this Code section.

(e) The department shall, within a period of one year following July 1, 1989, in cooperation with representatives of such consumer groups and associations and health care providers as it shall designate, study and determine such quality indicators and such additional or alternative information related to the intent and purpose of this article as the department shall determine are in the best interests of the residents of this state.

(f) In the event that the department does not receive from a health care provider an annual report containing the data and information required by this article within 30 days following the date such report was due or receives a timely but incomplete report, the department shall notify the health care provider regarding the deficiencies, by certified mail or statutory overnight delivery, return receipt requested. In the event such deficiency continues for 15 days after said notification has been given, the health care provider shall be liable for a penalty in

the amount of \$1,000.00 for such violation and an additional penalty of \$500.00 for each day during which such violation continues and be subject to appropriate sanctions otherwise authorized by law, including, but not limited to, suspension or revocation of that provider's permit or license. (Code 1981, § 31-7-280, enacted by Ga. L. 1988, p. 991, § 1; Ga. L. 1991, p. 94, § 31; Ga. L. 1995, p. 745, § 2.1; Ga. L. 1996, p. 1201, § 2.1; Ga. L. 2000, p. 1589, § 3; Ga. L. 2006, p. 72, § 31/SB 465; Ga. L. 2008, p. 12, § 2-21/SB 433; Ga. L. 2017, p. 164, § 55/HB 127.)

The 2017 amendment, effective July 1, 2017, substituted “or health care plans,” for “hospital service nonprofit corporation plans, health care plans, or nonprofit medical service corporation plans,” in the middle of paragraph (a)(4).

ARTICLE 13

PRIVATE HOME CARE PROVIDERS

31-7-300. Definitions.

As used in this article, the term:

(1) “Companion or sitter tasks” means the following tasks which are provided to elderly, handicapped, or convalescing individuals: transport and escort services; meal preparation and serving; and household tasks essential to cleanliness and safety. These tasks do not include assistance with bathing, toileting, grooming, shaving, dental care, dressing, and eating.

(2) “Department” means the Department of Community Health.

(3) “Personal care tasks” means assistance with bathing, toileting, grooming, shaving, dental care, dressing, and eating; and may include but are not limited to proper nutrition, home management, housekeeping tasks, ambulation and transfer, and medically related activities, including the taking of vital signs only in conjunction with the above tasks.

(4) “Private home care provider” means any person, business entity, corporation, or association, whether operated for profit or not for profit, that directly provides or makes provision for private home care services through:

(A) Its own employees who provide nursing services, personal care tasks, or companion or sitter tasks;

(B) Contractual arrangements with independent contractors who are health care professionals licensed pursuant to Title 43; or

(C) Referral of other persons to render home care services, when the individual making the referral has ownership or financial

interest in the delivery of those services by those other persons who would deliver those services.

(5) “Private home care services” means those items and services provided at a patient’s residence that involve direct care to that patient and includes, without limitation, any or all of the following:

(A) Nursing services, provided that such services can only be provided by a person licensed under Chapter 26 of Title 43;

(B) Personal care tasks; and

(C) Companion or sitter tasks.

Private home care services shall not include physical, speech, or occupational therapy; medical nutrition therapy; medical social services; or home health aide services provided by a home health agency.

(6) “Residence” means the place where an individual makes that person’s permanent or temporary home, whether that person’s own apartment or house, a friend or relative’s home, or a personal care home, but shall not include a hospital, nursing home, hospice, or other health care facility licensed under Article 1 of this chapter. (Code 1981, § 31-7-300, enacted by Ga. L. 1994, p. 959, § 1; Ga. L. 2008, p. 12, § 2-23/SB 433; Ga. L. 2015, p. 336, § 2/HB 183.)

The 2015 amendment, effective July 1, 2015, in paragraph (4), substituted “who provide nursing services, personal care tasks, or companion or sitter tasks” for “or agents” at the end of subparagraph (4)(A), and inserted “who are health care professionals licensed pursuant to Title 43” in subparagraph (4)(B).

Editor’s notes. — Ga. L. 2015, p. 336, § 1/HB 183, not codified by the General Assembly, provides that: “This Act shall be known and may be cited as the ‘Home Care Patient Protection Act.’”

ARTICLE 14

NURSING HOMES EMPLOYEE RECORDS CHECKS

Editor’s notes. — Article 14 is set out twice in this Code. The first version is effective until October 1, 2019, and the second version becomes effective on that

date. For provisions of this article effective until that date and not set out in this supplement, see the bound volume.

31-7-350. (Effective until October 1, 2019) Definitions.

As used in this article, the term:

(1) “Conviction” means a finding or verdict of guilty or a plea of guilty regardless of whether an appeal of the conviction has been sought.

(2) "Crime" means commission of an offense which constitutes a felony with respect to the following:

- (A) A violation of Code Section 16-5-21;
- (B) A violation of Code Section 16-5-24;
- (C) A violation of Code Section 16-6-1;
- (D) A violation of Code Section 16-8-2;
- (E) A violation of Code Section 16-8-3;
- (F) A violation of Code Section 16-8-4;
- (G) A violation of Code Section 16-5-1;
- (H) A violation of Code Section 16-4-1;
- (I) A violation of Code Section 16-8-40;
- (J) A violation of Code Section 16-8-41;
- (K) A felony violation of Code Section 16-9-1;
- (L) A violation of Article 8 of Chapter 5 of Title 16;
- (M) A violation of Chapter 13 of Title 16; or

(N) Any other offense committed in another jurisdiction which, if committed in this state, would be deemed to be such a crime without regard to its designation elsewhere.

(3) "Criminal record" means any of the following which have reached final disposition within ten years of the date the criminal record check is conducted:

- (A) Conviction of a crime;
- (B) Arrest, charge, and sentencing for a crime where:
 - (i) A plea of nolo contendere was entered to the charge;
 - (ii) First offender treatment without adjudication of guilt pursuant to the charge was granted; or
 - (iii) Adjudication or sentence was otherwise withheld or not entered on the charge; or
- (C) Arrest and charges for a crime if the charge is pending, unless the time for prosecuting such crime has expired pursuant to Chapter 3 of Title 17.

(4) "Employment applicant" means any person seeking employment by a nursing home. This term shall not include persons employed by the nursing home prior to July 1, 1995.

(5) “GCIC” means the Georgia Crime Information Center established under Article 2 of Chapter 3 of Title 35.

(6) “Nursing home” or “home” means a home required to be licensed or permitted as a nursing home under the provisions of this chapter.

(7) “Satisfactory determination” means a written determination by a nursing home that a person for whom a record check was performed was found to have no criminal record.

(8) “Unsatisfactory determination” means a written determination by a nursing home that a person for whom a record check was performed was found to have a criminal record. (Code 1981, § 31-7-350, enacted by Ga. L. 1995, p. 570, § 1; Ga. L. 2001, p. 806, § 1; Ga. L. 2012, p. 899, § 8-13/HB 1176; Ga. L. 2013, p. 524, § 3-4/HB 78.)

The 2013 amendment, effective July 1, 2013, deleted “, relating to aggravated assault” following “Code Section 16-5-21” at the end of subparagraph (2)(A); deleted “, relating to aggravated battery” following “Code Section 16-5-24” at the end of subparagraph (2)(B); deleted “, relating to rape” following “Code Section 16-6-1” at the end of subparagraph (2)(C); deleted “, relating to theft by taking” following “Code Section 16-8-2” at the end of subparagraph (2)(D); deleted “, relating to theft by deception” following “Code Section 16-8-3” at the end of subparagraph (2)(E); deleted “, relating to theft by conversion” following “Code Section 16-8-4” at the end of subparagraph (2)(F); deleted “, relating to murder and felony murder” following “Code Section 16-5-1” at the end of subparagraph (2)(G); deleted “, relating to criminal attempt as it concerns at-

tempted murder” following “Code Section 16-4-1” at the end of subparagraph (2)(H); deleted “, relating to robbery” following “Code Section 16-8-40” at the end of subparagraph (2)(I); deleted “, relating to armed robbery” following “Code Section 16-8-41” at the end of subparagraph (2)(J); added subparagraph (2)(L); redesignated former subparagraphs (2)(L) and (2)(M) as present subparagraphs (2)(M) and (2)(N), respectively; and deleted “, relating to controlled substances” following “Title 16” at the end of subparagraph (2)(M).

Law reviews. — For article on the 2012 amendment of this Code section, see 29 Ga. St. U.L. Rev. 290 (2012).

ARTICLE 14

GEORGIA LONG-TERM CARE BACKGROUND CHECK PROGRAM

Editor’s notes. — Article 14 is set out twice in this Code. The first version is effective until October 1, 2019, and the second version becomes effective on that

date. For provisions of this article effective until that date and not set out in this supplement, see the bound volume.

31-7-350. (Effective October 1, 2019) Short title; purpose.

(a) This article shall be known and may be cited as the “Georgia Long-term Care Background Check Program.”

(b) The purpose of this article is to establish the minimum standards for the Georgia Long-term Care Background Check Program for conducting criminal background checks of owners, applicants for employment, and direct access employees at certain facilities. (Code 1981, § 31-7-350, enacted by Ga. L. 2018, p. 611, § 1-4/SB 406.)

Effective date. — This Code section becomes effective October 1, 2019.

31-7-351. (Effective October 1, 2019) Definitions.

As used in this article, the term:

(1) “Applicant” means an individual applying to be a direct access employee at a facility.

(2) “Conviction” means a finding or verdict of guilty or a plea of guilty regardless of whether an appeal of the conviction has been sought.

(3) “Crime” means commission of:

(A) Any of the following offenses:

- (i) A violation of Code Section 16-5-70;
- (ii) A violation of Code Section 16-5-101;
- (iii) A violation of Code Section 16-5-102;
- (iv) A violation of Code Section 16-6-4;
- (v) A violation of Code Section 16-6-5;
- (vi) A violation of Code Section 16-6-5.1; or
- (vii) A violation of Code Section 30-5-8;

(B) A felony violation of:

- (i) Chapter 5, 6, 8, 9, or 13 of Title 16;
- (ii) Code Section 16-4-1;
- (iii) Code Section 16-7-2; or
- (iv) Subsection (f) of Code Section 31-7-12.1; or

(C) Any other offense committed in another jurisdiction which, if committed in this state, would be deemed to constitute an offense

identified in this paragraph without regard to its designation elsewhere.

(4) “Criminal background check” means a search of the criminal records maintained by GCIC and the Federal Bureau of Investigation to determine whether an owner, applicant, or employee has a criminal record.

(5)(A) “Criminal record” means any of the following:

- (i) Conviction of a crime;
- (ii) Arrest, charge, and sentencing for a crime when:
 - (I) A plea of nolo contendere was entered to the crime;
 - (II) First offender treatment without adjudication of guilt was granted to the crime; or
 - (III) Adjudication or sentence was otherwise withheld or not entered for the crime; or
- (iii) Arrest and charges for a crime if the charge is pending, unless the time for prosecuting such crime has expired pursuant to Chapter 3 of Title 17.

(B) Such term shall not include an owner, applicant, or employee for which at least ten years have elapsed from the date of his or her criminal background check since the completion of all of the terms of his or her sentence; provided, however, that such ten-year period or exemption shall never apply to any crime identified in subsection (j) of Code Section 42-8-60.

(6) “Direct access” means having, or expecting to have, duties that involve routine personal contact with a patient, resident, or client, including face-to-face contact, hands-on physical assistance, verbal cuing, reminding, standing by or monitoring or activities that require the person to be routinely alone with the patient’s, resident’s, or client’s property or access to such property or financial information such as the patient’s, resident’s, or client’s checkbook, debit and credit cards, resident trust funds, banking records, stock accounts, or brokerage accounts.

(7) “Employee” means any individual who has direct access and who is hired by a facility through employment, or through a contract with such facility, including, but not limited to, housekeepers, maintenance personnel, dieticians, and any volunteer who has duties that are equivalent to the duties of an employee providing such services. Such term shall not include an individual who contracts with the facility, whether personally or through a company, to provide utility, construction, communications, accounting, quality assurance, human

resource management, information technology, legal, or other services if the contracted services are not directly related to providing services to a patient, resident, or client of the facility. Such term shall not include any health care provider, including, but not limited to, physicians, dentists, nurses, and pharmacists who are licensed by the Georgia Composite Medical Board, the Georgia Board of Dentistry, the Georgia Board of Nursing, or the State Board of Pharmacy.

(8) “Facility” means:

(A) A personal care home required to be licensed or permitted under Code Section 31-7-12;

(B) An assisted living community required to be licensed under Code Section 31-7-12.2;

(C) A private home care provider required to be licensed under Article 13 of this chapter;

(D) A home health agency as licensed pursuant to Code Section 31-7-151;

(E) A provider of hospice care as licensed pursuant to Code Section 31-7-173;

(F) A nursing home, skilled nursing facility, or intermediate care home licensed pursuant to rules of the department; or

(G) An adult day care facility licensed pursuant to rules of the department.

(9) “Fingerprint records check determination” means a satisfactory or unsatisfactory determination by the department based upon fingerprint based national criminal history information.

(10) “GCIC” means the Georgia Crime Information Center established under Article 2 of Chapter 3 of Title 35.

(11) “License” means the document issued by the department to authorize a facility to operate.

(12) “Owner” in the context of a nursing home or intermediate care home means an individual who is not an “excluded party” as such term is defined in Code Section 31-7-3.3, otherwise such term means an individual or any person affiliated with a corporation, partnership, or association with 10 percent or greater ownership interest in a facility who performs one or more of the following:

(A) Purports to or exercises authority of a facility;

(B) Applies to operate or operates a facility;

(C) Maintains an office on the premises of a facility;

(D) Resides at a facility;

(E) Has direct access at a facility;

(F) Provides direct personal supervision of facility personnel by being immediately available to provide assistance and direction when such facility services are being provided; or

(G) Enters into a contract to acquire ownership of a facility.

(13) “Records check application” means fingerprints in such form and of such quality as prescribed by GCIC under standards adopted by the Federal Bureau of Investigation and a records search fee to be established by the department by rule and regulation, payable in such form as the department may direct to cover the cost of obtaining a criminal background check.

(14) “Registry check” means a review of the nurse aide registry provided for in Code Section 31-2-14, the state sexual offender registry, and the List of Excluded Individuals and Entities as authorized in Sections 1128 and 1156 of the federal Social Security Act, as it existed on February 1, 2018, or any other registry useful for the administration of this article as specified by rules of the department.

(15) “Satisfactory determination” means a written determination that an individual for whom a criminal background check was performed was found to have no criminal record.

(16) “Unsatisfactory determination” means a written determination that an individual for whom a criminal background check was performed was found to have a criminal record. (Code 1981, § 31-7-350, enacted by Ga. L. 1995, p. 570, § 1; Ga. L. 2001, p. 806, § 1; Ga. L. 2012, p. 899, § 8-13/HB 1176; Ga. L. 2013, p. 524, § 3-4/HB 78; Code 1981, § 31-7-351, as redesignated by Ga. L. 2018, p. 611, § 1-4/SB 406.)

The 2013 amendment, effective July 1, 2013, deleted “, relating to aggravated assault” following “Code Section 16-5-21” at the end of subparagraph (2)(A); deleted “, relating to aggravated battery” following “Code Section 16-5-24” at the end of subparagraph (2)(B); deleted “, relating to rape” following “Code Section 16-6-1” at the end of subparagraph (2)(C); deleted “, relating to theft by taking” following “Code Section 16-8-2” at the end of subparagraph (2)(D); deleted “, relating to theft by deception” following “Code Section 16-8-3” at the end of subparagraph (2)(E); deleted “, relating to theft by conversion” following “Code Section 16-8-4” at

the end of subparagraph (2)(F); deleted “, relating to murder and felony murder” following “Code Section 16-5-1” at the end of subparagraph (2)(G); deleted “, relating to criminal attempt as it concerns attempted murder” following “Code Section 16-4-1” at the end of subparagraph (2)(H); deleted “, relating to robbery” following “Code Section 16-8-40” at the end of subparagraph (2)(I); deleted “, relating to armed robbery” following “Code Section 16-8-41” at the end of subparagraph (2)(J); added subparagraph (2)(L); redesignated former subparagraphs (2)(L) and (2)(M) as present subparagraphs (2)(M) and (2)(N), respectively; and deleted “,

relating to controlled substances” following “Title 16” at the end of subparagraph (2)(M).

The 2018 amendment, effective October 1, 2019, redesignated former Code Section 31-7-350 as present Code Section 31-7-351, and rewrote this Code section.

Editor’s notes. — This Code section formerly pertained to a request for criminal record check and employment application form notice. This Code section was based on Ga. L. 1995, p. 570, § 1; Ga. L.

2001, p. 806, § 2 and was repealed by Ga. L. 2018, p. 611, § 1-4/SB 406, effective October 1, 2019.

Law reviews. — For article on the 2012 amendment of this Code section, see 29 Ga. St. U.L. Rev. 290 (2012).

For note, “Give It to Me, I’m Worth It: The Need to Amend Georgia’s Record Restriction Statute to Provide Ex-Offenders with a Second Chance in the Employment Sector,” see 52 Ga. L. Rev. 267 (2017).

31-7-352. (Effective October 1, 2019) Registry check required; validation of licensing.

(a) A registry check of an owner, applicant, or employee shall be required prior to a criminal background check and shall be initiated by the applicable facility. A registry check shall be performed by such facility and may include reviewing registries of any other states in which the applicant previously resided. If an applicant has not resided in this state for at least two years, the facility shall conduct registry checks of each state in which the applicant resided for the previous two years, as represented by such applicant or as otherwise determined by the applicable facility.

(b) If applicable to an owner, applicant, or employee, a query of available information maintained by the Georgia Composite Medical Board, the Secretary of State, or other applicable licensing boards shall be conducted prior to a criminal background check to validate that such individual’s professional license is in good standing.

(c) Except as provided in subsection (c) of Code Section 31-7-359, nothing in this Code section shall be construed to limit the responsibility or ability of a facility to screen owners, applicants, or employees through additional methods. (Code 1981, § 31-7-352, enacted by Ga. L. 1995, p. 570, § 1; Ga. L. 2018, p. 611, § 1-4/SB 406.)

The 2018 amendment, effective October 1, 2019, rewrote this Code section.

Editor’s notes. — This Code section formerly pertained to a request for criminal record check and employment applica-

tion form notice. This Code section was based on Ga. L. 1995, p. 570, § 1 and was repealed by Ga. L. 2018, p. 611, § 1-4/SB 406, effective October 1, 2019.

31-7-353. (Effective October 1, 2019) Records check application; transmittal of fingerprints; penalties for unauthorized release or disclosure of information.

(a) Accompanying any application for a new license, the candidate facility shall furnish to the department a records check application for

each owner and each applicant and employee. In lieu of such records check application, such facility may submit evidence, satisfactory to the department, that within the immediately preceding 12 months each owner, applicant, or employee received a satisfactory determination that includes a records check clearance date that is no more than 12 months old, or that any owner, applicant, or employee whose fingerprint records check determination revealed a criminal record of any kind has subsequently received a satisfactory determination.

(b) On or before January 1, 2021, each owner and employee of a currently licensed facility shall furnish to the department a records check application. In lieu of such records check application, a facility may submit evidence, satisfactory to the department, that within the immediately preceding 12 months each owner and employee received a satisfactory determination.

(c) Upon receipt of fingerprints submitted pursuant to a record check application, GCIC shall promptly transmit the fingerprints to the Federal Bureau of Investigation for a search of bureau records and shall promptly conduct a search of its own records and records to which it has access. Within ten days after receiving fingerprints acceptable to GCIC, it shall notify the department in writing of any criminal record or if there is no such finding. After a search of Federal Bureau of Investigation records and fingerprints and upon receipt of the bureau's report, the department shall make a determination about an owner's, applicant's, or employee's criminal record.

(d) Neither GCIC, the department, any law enforcement agency, nor the employees of any such entities shall be responsible for the accuracy of information nor have any liability for defamation, invasion of privacy, negligence, or any other claim in connection with any dissemination of information or determination based thereon pursuant to this Code section.

(e) All information received from the Federal Bureau of Investigation or GCIC shall be used exclusively for employment or licensure purposes and shall not be released or otherwise disclosed to any other person or agency. All such information collected by the department shall be maintained by the department pursuant to laws regarding and rules or regulations of the Federal Bureau of Investigation and GCIC, as is applicable. Penalties for the unauthorized release or disclosure of any such information shall be as prescribed pursuant to laws regarding and rules or regulations of the Federal Bureau of Investigation and GCIC, as is applicable. (Code 1981, § 31-7-353, enacted by Ga. L. 2001, p. 806, § 3; Ga. L. 2018, p. 611, § 1-4/SB 406.)

The 2018 amendment, effective October 1, 2019, rewrote this Code section.

Editor's notes. — This Code section formerly pertained to a request for crimi-

nal record check and employment application form notice. This Code section was based on Ga. L. 1995, p. 570, § 1 and was

repealed by Ga. L. 2018, p. 611, § 1-4/SB 406, effective October 1, 2019.

31-7-354. (Effective October 1, 2019) Consent to background checks; certain results of background check barring employment; rights of owner, applicant, or employee.

(a) An applicant seeking employment with a facility or a current employee at such facility shall consent to a national and state background check that includes a registry check, a check of information maintained by a professional licensing board, if applicable, and a criminal background check.

(b)(1) An individual required to submit to a registry check and criminal background check shall not be employed by, contracted with, or allowed to work as an employee at a facility if:

(A) The individual appears on a registry check;

(B) There is a substantiated finding of neglect, abuse, or misappropriation of property by a state or federal agency pursuant to an investigation conducted in accordance with 42 U.S.C. Section 1395i-3 or 1396r as it existed on February 1, 2018;

(C) The individual's professional license, if applicable, is not in good standing; or

(D) The facility receives notice from the department that the individual has been found to have an unsatisfactory determination.

(2) An individual whose professional license is not in good standing may be employed by a facility in a position wherein his or her duties do not require professional licensure, provided that he or she provides a fingerprint record check determination in the same manner as an applicant.

(c) An owner, applicant, or employee may:

(1) Obtain information concerning the accuracy of his or her criminal record, and the department shall refer such individual to the appropriate state or federal law enforcement agency that was involved in the arrest or conviction;

(2) Challenge the finding that he or she is the true subject of the results from a registry check, and the department shall refer such individual to the agency responsible for maintaining such registry; and

(3) Appeal his or her disqualifying unsatisfactory determination pursuant to Code Section 31-7-358. (Code 1981, § 31-7-354, enacted by Ga. L. 2018, p. 611, § 1-4/SB 406.)

Effective date. — This Code section becomes effective October 1, 2019.

31-7-355. (Effective October 1, 2019) Personnel files; when department may require background check; result of unsatisfactory determination.

(a) A personnel file for each employee shall be maintained by the applicable facility. Such files shall be available for inspection by the appropriate enforcement authorities but shall otherwise be maintained to protect the confidentiality of the information contained therein and shall include, but not be limited to, evidence of each employee's satisfactory determination, registry check, and licensure check, if applicable.

(b)(1) As used in this paragraph, the term:

(A) "Abuse" means the willful infliction of injury, unreasonable confinement, intimidation, or punishment with resulting physical harm, pain, or mental anguish. Such term includes the deprivation by an individual of goods or services that are necessary to attain or maintain physical, mental, and psychosocial well-being. Such term includes verbal abuse, sexual abuse, physical abuse, and mental abuse, including abuse, facilitated or enabled through the use of technology.

(B) "Willful" means acting deliberately, not that there is an intention to inflict injury or harm.

(2) The department may require a criminal background check on any owner of or employee at a facility during the course of an abuse investigation involving such owner or employee or if the department receives information that such owner or employee was arrested for a crime. In such instances, the department shall require the owner or employee to furnish two full sets of fingerprints which the department shall submit to GCIC together with appropriate fees collected from the owner or employee. Upon receipt thereof, GCIC shall promptly transmit one set of fingerprints to the Federal Bureau of Investigation for a search of bureau records and an appropriate report and shall retain the other set and promptly conduct a search of its own records and records to which it has access. GCIC shall notify the department in writing of any unsatisfactory finding, including but not limited to any criminal record obtained through the fingerprint records check determination or if there is no such finding.

(3) When the department determines that an applicant or employee has an unsatisfactory determination, the department shall notify the facility that such applicant or employee is ineligible to hire or employ and the facility shall take the necessary steps so that such

employee is no longer employed at the facility; provided, however, that a facility may retain a current employee during the period of his or her administrative appeal.

(4) When the department determines that an owner has an unsatisfactory determination, the department shall notify such owner of the ineligible status for ownership and shall take the necessary steps to revoke the facility's license.

(5) An owner, applicant, or employee may appeal their disqualifying unsatisfactory determination pursuant to Code Section 31-7-358. (Code 1981, § 31-7-355, enacted by Ga. L. 2018, p. 611, § 1-4/SB 406.)

Effective date. — This Code section becomes effective October 1, 2019.

31-7-356. (Effective October 1, 2019) Facility's failure to comply with provisions; penalty.

A facility that does not terminate an employee who has been found to have an unsatisfactory determination or failed a registry check shall be liable for a civil monetary penalty in the amount of the lesser of \$10,000.00 or \$500.00 for each day that a violation occurs. The daily civil monetary penalty shall be imposed only from the time the facility knew or should have known that it employed an individual with a criminal record and until the date such individual's employment is terminated. (Code 1981, § 31-7-356, enacted by Ga. L. 2018, p. 611, § 1-4/SB 406.)

Effective date. — This Code section becomes effective October 1, 2019.

31-7-357. (Effective October 1, 2019) Required notice on application form.

Each application form provided by a facility to an applicant shall conspicuously state the following: "FOR THIS TYPE OF EMPLOYMENT, STATE LAW REQUIRES A NATIONAL AND STATE BACKGROUND CHECK AS A CONDITION OF EMPLOYMENT." (Code 1981, § 31-7-357, enacted by Ga. L. 2018, p. 611, § 1-4/SB 406.)

Effective date. — This Code section becomes effective October 1, 2019.

31-7-358. (Effective October 1, 2019) License revocation or withholding; additional requirements.

(a)(1) An owner of a facility with an unsatisfactory determination or whose name appears on a registry check shall not operate or hold a license, and the department shall revoke the license of any owner operating such facility or refuse to issue a license to any owner operating such facility if such owner has an unsatisfactory determination or is on a registry check.

(2) Prior to approving any license for a facility and periodically as established by the department by rule, the department shall require each owner and employee to submit to a registry check and criminal background check pursuant to Code Sections 31-7-352 and 31-7-353.

(3)(A) An employee or applicant who received an unsatisfactory determination or whose name appears on a registry check shall be eligible to appeal such determination pursuant to Chapter 13 of Title 50, the "Georgia Administrative Procedure Act."

(B) In a hearing held pursuant to subparagraph (A) of this paragraph, the hearing officer shall consider in mitigation the length of time since the crime was committed, the absence of additional criminal charges, the circumstances surrounding the commission of the crime, and other indicia of rehabilitation.

(4)(A) The department's determination regarding an owner's unsatisfactory criminal background check, or any action by the department revoking or refusing to grant a license based on such determination, shall constitute a contested case for purposes of Chapter 13 of Title 50, the "Georgia Administrative Procedure Act," except that any hearing required to be held pursuant thereto may be held reasonably expeditiously after such determination or action by the department.

(B) In a hearing held pursuant to subparagraph (A) of this paragraph, the hearing officer shall consider in mitigation the length of time since the crime was committed, the absence of additional criminal charges, the circumstances surrounding the commission of the crime, other indicia of rehabilitation, the facility's history of compliance with the regulations, and the owner's involvement with the licensed facility in arriving at a decision as to whether the criminal record requires the denial or revocation of the license to operate the facility. When a hearing is required, at least 30 days prior to such hearing, the hearing officer shall notify the office of the prosecuting attorney who initiated the prosecution of the crime in question in order to allow the prosecuting attorney to object to a possible determination that the conviction would not be

a bar for the grant or continuation of a license as contemplated within this Code section. If objections are made, the hearing officer shall take such objections into consideration.

(b) The requirements of this Code section are supplemental to any requirements for a license imposed by Article 1 of this chapter. (Code 1981, § 31-7-358, enacted by Ga. L. 2018, p. 611, § 1-4/SB 406.)

Effective date. — This Code section becomes effective October 1, 2019.

31-7-359. (Effective October 1, 2019) Liability for civil damages; sovereign immunity not waived.

(a) No person, including the department, a facility, or an individual acting on behalf of such entities, shall be liable for civil damages or be subject to any claim, demand, cause of action, or proceeding of any nature as a result of actions taken in good faith to comply with this article, including the disqualification of an applicant from employment on the basis of a disqualifying crime.

(b)(1) A facility that has obtained a satisfactory determination on an owner, applicant, or employee in accordance with this article, or confirmation that such owner, applicant, or employee has obtained a favorable final appeal decision under Code Section 31-7-358, shall be immune from liability for claims of negligent hiring when such claims are based upon the criminal record of such owner, applicant, or employee, even when the information contained in the criminal background check used by the department is later determined to have been incomplete or inaccurate; provided, however, that such immunity shall not preclude the liability of a facility concerning claims based on information beyond the scope of the criminal record and satisfactory determination about the owner, applicant, or employee which the facility knew or should have known.

(2) When a facility has obtained a satisfactory determination on an owner, applicant, or employee, there shall be a rebuttable presumption of due care for claims of negligent hiring, negligent retention, or other similar claims to the extent such claims are based upon an owner's, applicant's, or employee's criminal record.

(c) Nothing in this article shall require a facility to conduct any other type of criminal history check of an owner, applicant, or employee, and a facility shall not be held liable for claims of negligent hiring, negligent retention, or other similar claims based solely or in part on its failure to conduct other types of criminal history checks.

(d) Nothing in this article shall be construed to waive the sovereign immunity of the state, the department, or any other entity of the state. (Code 1981, § 31-7-359, enacted by Ga. L. 2018, p. 611, § 1-4/SB 406.)

Effective date. — This Code section becomes effective October 1, 2019.

31-7-360. (Effective October 1, 2019) Rules and regulations.

The department shall promulgate written rules and regulations related to the requirements and implementation of this article. (Code 1981, § 31-7-354, enacted by Ga. L. 2008, p. 12, § 2-25/SB 433; Code 1981, § 31-7-360, as redesignated by Ga. L. 2018, p. 611, § 1-4/SB 406.)

The 2018 amendment, effective October 1, 2019, redesignated former Code Section 31-7-354 as present Code Section 31-7-360; substituted “department shall promulgate written rules” for “Depart-

ment of Community Health shall be authorized to enforce this article and to promulgate rules” near the beginning; and inserted “and implementation” near the end.

31-7-361. (Effective October 1, 2019) Transfer of responsibilities, rights, and personnel between departments.

(a) Effective July 1, 2009, all matters relating to facility licensing and employee criminal background checks for personal care homes pursuant to Article 11 of this chapter as it existed on June 30, 2009, shall be transferred from the Department of Human Services to the department.

(b) The rights, privileges, entitlements, and duties of parties to contracts, leases, agreements, and other transactions entered into before July 1, 2009, by the Department of Human Resources which relate to the functions transferred to the department pursuant to this Code section shall continue to exist; and none of these rights, privileges, entitlements, and duties are impaired or diminished by reason of the transfer of the functions to the department. In all such instances, the department shall be substituted for the Department of Human Resources, and the department shall succeed to the rights and duties under such contracts, leases, agreements, and other transactions.

(c) All persons employed by the Department of Human Resources in capacities which relate to the functions transferred to the department pursuant to this Code section on June 30, 2009, shall, on July 1, 2009, become employees of the department in similar capacities, as determined by the commissioner of community health. Such employees shall be subject to the employment practices and policies of the department on and after July 1, 2009, but the compensation and benefits of such transferred employees shall not be reduced as a result of such transfer. Employees who are subject to the rules of the State Personnel Board and who are transferred to the department shall retain all existing rights under such rules. Retirement rights of such transferred employees existing under the Employees’ Retirement System of Georgia or

other public retirement systems on June 30, 2009, shall not be impaired or interrupted by the transfer of such employees and membership in any such retirement system shall continue in the same status possessed by the transferred employees on June 30, 2009. Accrued annual and sick leave possessed by said employees on June 30, 2009, shall be retained by said employees as employees of the department. (Code 1981, § 31-7-361, enacted by Ga. L. 2018, p. 611, § 1-4/SB 406.)

Effective date. — This Code section becomes effective October 1, 2019.

ARTICLE 14A

CENTRAL CAREGIVER REGISTRY

Effective date. — This article becomes effective October 1, 2019.

31-7-380. (Effective October 1, 2019) Purpose and intent.

The purpose of this article is to enable employers who are family members or guardians of elderly persons to obtain an employment eligibility determination from the department for applicants who are seeking to provide and employees who are providing personal care services to their family members or wards. It is the intent of the General Assembly to allow the department to establish and maintain a caregiver registry so as to provide such employers with access to employment eligibility determinations conducted by the department in a similar manner as licensed facilities receive employment determinations as provided in Article 14 of this chapter. (Code 1981, § 31-7-380, enacted by Ga. L. 2018, p. 611, § 1-5/SB 406.)

31-7-381. (Effective October 1, 2019) Definitions.

As used in this article, the term:

(1) “Applicant” means an individual applying to provide personal care services to an elderly person in a residence or location not licensed by the department.

(2) “Criminal background check” means a search of the criminal records maintained by Georgia Crime Information Center and the Federal Bureau of Investigation to determine whether an applicant or employee has a criminal record.

(3) “Elderly person” means an individual who is 65 years of age or older.

(4) “Employee” means any individual who is providing personal care services to an elderly person in a residence or location not licensed by the department.

(5) “Employer” means an individual who is considering an applicant or has hired an employee for a family member or ward.

(6) “Family member” means an individual with a close familial relationship, including, but not limited to, a spouse, parent, sibling, or grandparent.

(7) “Personal care services” means home care, health care, companionship, or transportation and includes, but is not limited to, providing assistance with bathing, eating, dressing, walking, shopping, fixing meals, and housework.

(8) “Registry check” means a review of the nurse aide registry provided for in Code Section 31-2-14, the state sexual offender registry, and the List of Excluded Individuals and Entities as authorized in Sections 1128 and 1156 of the federal Social Security Act, as it existed on February 1, 2018, or any other registry useful for the administration of this article as specified by rules of the department.

(9) “Ward” means an elder person for whom a guardian has been appointed pursuant to Title 29. (Code 1981, § 31-7-381, enacted by Ga. L. 2018, p. 611, § 1-5/SB 406.)

31-7-382. (Effective October 1, 2019) Establishment of central caregiver registry.

The department may establish and maintain a central caregiver registry which shall be accessible to employers as a data base operated by the department that contains information on eligible and ineligible applicants and employees as determined by the department from criminal background checks and registry checks conducted on behalf of facilities as provided in Article 14 of this chapter and criminal background checks and registry checks conducted on behalf of employers as provided in this article. (Code 1981, § 31-7-382, enacted by Ga. L. 2018, p. 611, § 1-5/SB 406.)

31-7-383. (Effective October 1, 2019) Private employer’s inquiry with department on eligibility of employee; employer responsible for decisions.

(a) The department shall allow an employer to inquire with the department about the eligibility or ineligibility for employment as if the applicant or employee were applying to work or working in one of the facilities licensed under Article 14 of this chapter so long as the applicant or employee agrees to such request, provides his or her fingerprints as set forth in Article 14 of this chapter, and consents to the inclusion of the results in the caregiver registry. Any fees associated with such check shall be paid by the employer, applicant, or employee.

(b) An employer shall be responsible for all employment decisions made based on the eligible or ineligible employment determination provided to the employer from the department. (Code 1981, § 31-7-383, enacted by Ga. L. 2018, p. 611, § 1-5/SB 406.)

31-7-384. (Effective October 1, 2019) Appeal of ineligibility determination.

An applicant or employee who receives a determination of ineligibility for employment from the department shall be eligible to appeal such determination by requesting, in writing, an administrative review by the department. The department shall promulgate rules and regulations in order to implement this Code section. The department shall maintain the specifics of the employment determination in the same manner as required by subsection (e) of Code Section 31-7-353. (Code 1981, § 31-7-384, enacted by Ga. L. 2018, p. 611, § 1-5/SB 406.)

31-7-385. (Effective October 1, 2019) Immunity from liability.

No person, including the department, an employer, or an individual acting on behalf of such entities, shall be liable for civil damages or be subject to any claim, demand, cause of action, or proceeding of any nature as a result of actions taken in good faith to comply with this article, including the disqualification of an applicant or employee from employment on the basis of the results of a criminal background check or registry check. (Code 1981, § 31-7-385, enacted by Ga. L. 2018, p. 611, § 1-5/SB 406.)

31-7-386. (Effective October 1, 2019) Rules and regulations.

Except as provided in Code Section 31-7-384, the department shall promulgate rules and regulations related to the requirements and implementation of this article. (Code 1981, § 31-7-386, enacted by Ga. L. 2018, p. 611, § 1-5/SB 406.)

ARTICLE 15

HOSPITAL ACQUISITION

31-7-401. Notice to Attorney General of acquisition.

JUDICIAL DECISIONS

Promissory estoppel did not apply. — When a facilities owner did not sign an asset sale agreement, a hospital's promissory estoppel claim failed because the parties' letter of intent coupled with the hospital's representation in a premerger notification that the parties would not execute a "binding asset sale agreement"

until the Georgia Attorney General approved the agreement established as a matter of law that the hospital could not reasonably rely on the facilities owner's "promise" to purchase the hospital assets. *St. Joseph Hosp., Augusta, Ga., Inc. v. Health Mgmt. Assocs.*, 705 F.3d 1289 (11th Cir. 2013).

Breach of contract. — When a facilities owner did not sign an asset sale agreement, a hospital's breach of contract claim failed because, *inter alia*, the parties' letter of intent did not incorporate the terms of the asset sale agreement and

made clear that those terms were provisional, there was no evidence that the parties agreed to be bound by the terms of the asset sale agreement and, by filing premerger notifications, the parties represented as true that the asset sale agreement would not become a binding, enforceable contract until signed by the parties, and that the letter of intent superseded any written or oral agreements that may have existed. *St. Joseph Hosp., Augusta, Ga., Inc. v. Health Mgmt. Assocs.*, 705 F.3d 1289 (11th Cir. 2013).

31-7-402. Content and form of notice to Attorney General; retention of experts; payment of costs and expenses.

Law reviews. — For article on the 2012 amendment of this Code section, see 29 Ga. St. U.L. Rev. 139 (2012).

31-7-405. Public hearing; expert or consultant required to testify; testimony; representative of acquiring entity to testify.

Law reviews. — For article on the 2012 amendment of this Code section, see 29 Ga. St. U.L. Rev. 139 (2012).

JUDICIAL DECISIONS

ARTICLE 1

HOSPITAL CARE FOR THE INDIGENT GENERALLY

31-8-9.1. Eligibility to receive tax credits; obligations of rural hospitals after receipt of funds.

- (a) As used in this Code section, the term:
- (1) “Critical access hospital” means a hospital that meets the requirements of the federal Centers for Medicare and Medicaid Services to be designated as a critical access hospital and that is recognized by the department as a critical access hospital for purposes of Medicaid.
 - (2) “Rural county” means a county having a population of less than 50,000 according to the United States decennial census of 2010 or any future such census; provided, however, that for counties which contain a military base or installation, the military personnel and their dependents living in such county shall be excluded from the total population of such county for purposes of this definition.
 - (3) “Rural hospital organization” means an acute care hospital licensed by the department pursuant to Article 1 of Chapter 7 of this title that:
 - (A) Provides inpatient hospital services at a facility located in a rural county or is a critical access hospital;
 - (B) Participates in both Medicaid and medicare and accepts both Medicaid and medicare patients;
 - (C) Provides health care services to indigent patients;
 - (D) Has at least 10 percent of its annual net revenue categorized as indigent care, charity care, or bad debt;
 - (E) Annually files IRS Form 990, Return of Organization Exempt From Income Tax, with the department, or for any hospital not required to file IRS Form 990, the department will provide a form that collects the same information to be submitted to the department on an annual basis;
 - (F) Is operated by a county or municipal authority pursuant to Article 4 of Chapter 7 of this title or is designated as a tax-exempt

organization under Section 501(c)(3) of the Internal Revenue Code; and

(G) Is current with all audits and reports required by law.

(b)(1) By December 1 of each year, the department shall approve a list of rural hospital organizations eligible to receive contributions from the tax credit provided pursuant to Code Section 48-7-29.20 and transmit such list to the Department of Revenue.

(2) Before any rural hospital organization is included on the list as eligible to receive contributions from the tax credit provided pursuant to Code Section 48-7-29.20, it shall submit to the department a five-year plan detailing the financial viability and stability of the rural hospital organization. The criteria to be included in the five-year plan shall be established by the department.

(c)(1) A rural hospital organization that receives donations pursuant to Code Section 48-7-29.20 shall:

(A) Utilize such donations for the provision of health care related services for residents of a rural county or for residents of the area served by a critical access hospital; and

(B) Report on a form provided by the department:

(i) All contributions received from individual and corporate donors pursuant to Code Section 48-7-29.20 detailing the manner in which the contributions received were expended by the rural hospital organization; and

(ii) Any payments made to a third party to solicit, administer, or manage the donations received by the rural hospital organization pursuant to this Code section or Code Section 48-7-29.20. In no event shall payments made to a third party to solicit, administer, or manage the donations received pursuant to this Code section exceed 3 percent of the total amount of the donations.

(2) The department shall annually prepare a report compiling the information received pursuant to paragraph (1) of this subsection for the chairpersons of the House Committee on Ways and Means and the Senate Health and Human Services Committee. (Code 1981, § 31-8-9.1, enacted by Ga. L. 2017, p. 511, § 1/SB 180; Ga. L. 2017, p. 774, § 31/HB 323.)

Effective date. — This Code section became effective May 8, 2017.

Editor's notes. — Ga. L. 2017, p. 774, § 54(e), not codified by the General Assembly, provides: "In the event of a conflict between a provision in Sections 1 through

53 of this Act and a provision of another Act enacted at the 2017 regular session of the General Assembly, the provision of such other Act shall control over the conflicting provision in Sections 1 through 53 of this Act to the extent of the conflict."

Accordingly, the amendment to subparagraph (c)(1)(A) of this Code section by Ga. L. 2017, p. 774, § 31(7), was not given effect.

Ga. L. 2017, p. 511, § 1/SB 180, repealed former Code Section 31-8-9.1, pertaining to eligibility to receive tax credits and obligations of rural hospitals after receipt of those funds, and enacted the present Code section. The former Code section was based on Code 1981, § 31-8-9.1, enacted by Ga. L. 2016, p. 166, § 1/SB 258.

Ga. L. 2017, p. 511, § 3/SB 180, not codified by the General Assembly, provides that this Code section “shall be applicable to all taxable years beginning on or after January 1, 2017.”

ARTICLE 3

LONG-TERM CARE OMBUDSMAN PROGRAM

31-8-51. Definitions.

- As used in this article, the term:
- (1) “Community ombudsman” means a person certified as a community ombudsman pursuant to Code Section 31-8-52.
 - (1.1) “Department” means the Department of Human Services.
 - (2) “Long-term care facility” means any skilled nursing home, intermediate care home, private home care provider, assisted living community, or personal care home now or hereafter subject to regulation and licensure by the Department of Community Health.
 - (3) “Resident” means any person who is receiving treatment or care in any long-term care facility who seeks admission to such facility or who has been discharged or transferred from such facility.
 - (4) “State ombudsman” means the state ombudsman established under Code Section 31-8-52. (Code 1933, § 88-1901a, enacted by Ga. L. 1979, p. 1240, § 1; Ga. L. 2009, p. 453, § 2-16/HB 228; Ga. L. 2011, p. 227, § 18/SB 178; Ga. L. 2014, p. 477, § 1/SB 207.)

The 2014 amendment, effective July 1, 2014, inserted “private home care provider,” in paragraph (2).

ARTICLE 4

REPORTING ABUSE OR EXPLOITATION OF RESIDENTS IN
LONG-TERM CARE FACILITIES

31-8-81. Definitions.

- As used in this article, the term:
- (1) “Abuse” means any intentional or grossly negligent act or series of acts or intentional or grossly negligent omission to act which

causes injury to a resident, including, but not limited to, assault or battery, failure to provide treatment or care, or sexual harassment of the resident.

(1.1) “Department” means the Department of Community Health.

(2) “Exploitation” means the illegal or improper use of a resident or the resident’s resources through undue influence, coercion, harassment, duress, deception, false representation, false pretense, or other similar means for one’s own or another’s profit or advantage.

(3) “Long-term care facility” or “facility” means any skilled nursing home, intermediate care home, assisted living community, personal care home, or community living arrangement now or hereafter subject to regulation and licensure by the department.

(4) “Resident” means any person receiving treatment or care in a long-term care facility. (Code 1933, § 88-1902c, enacted by Ga. L. 1980, p. 1261, § 1; Ga. L. 2003, p. 558, § 4; Ga. L. 2007, p. 219, § 3/HB 233; Ga. L. 2011, p. 227, § 19/SB 178; Ga. L. 2011, p. 705, § 4-11/HB 214; Ga. L. 2013, p. 524, § 1-11/HB 78.)

The 2013 amendment, effective July 1, 2013, in paragraph (2), substituted “the illegal or improper use of a resident or the resident’s resources” for “an unjust or im-

proper use of another person or the person’s property”; and inserted “or another’s” near the end.

31-8-82. Persons required to report abuse or exploitation; time for making report; contents of report; records; privileged communications.

(a) Any of the following people who have reasonable cause to believe that any resident or former resident has been abused or exploited while residing in a long-term care facility shall immediately make a report as described in subsection (d) of this Code section by telephone or in person to the department and shall make the report to the appropriate law enforcement agency or prosecuting attorney:

(1) Any person required to report child abuse as provided in subsection (c) of Code Section 19-7-5;

(2) Administrators, managers, or other employees of hospitals or long-term care facilities;

(3) Physical therapists;

(4) Occupational therapists;

(5) Day-care personnel;

(6) Coroners;

(7) Medical examiners;

(8) Emergency medical services personnel, as defined in Code Section 31-11-49;

(9) Any person who has been certified as an emergency medical technician, cardiac technician, paramedic, or first responder pursuant to Chapter 11 of Title 31;

(10) Employees of a public or private agency engaged in professional health related services to residents; and

(11) Clergy members.

(b) Persons required to make a report pursuant to subsection (a) of this Code section shall also make a written report to the department within 24 hours after making the initial report.

(c) Any other person who has knowledge that a resident or former resident has been abused or exploited while residing in a long-term care facility may report or cause a report to be made to the department or the appropriate law enforcement agency.

(d) A report of suspected abuse or exploitation shall include the following:

(1) The name and address of the person making the report unless such person is not required to make a report;

(2) The name and address of the resident or former resident;

(3) The name and address of the long-term care facility;

(4) The nature and extent of any injuries or the condition resulting from the suspected abuse or exploitation;

(5) The suspected cause of the abuse or exploitation; and

(6) Any other information which the reporter believes might be helpful in determining the cause of the resident's injuries or condition and in determining the identity of the person or persons responsible for the abuse or exploitation.

(e) The department shall maintain accurate records which shall include all reports of abuse or exploitation, the results of all investigations and administrative or judicial proceedings, and a summary of actions taken to assist the resident.

(f) Any suspected abuse or exploitation which is required to be reported by any person pursuant to this Code section shall be reported notwithstanding that the reasonable cause to believe such abuse or exploitation has occurred or is occurring is based in whole or in part upon any communication to that person which is otherwise made privileged or confidential by law; provided, however, that a member of the clergy shall not be required to report such matters confided to him

or her solely within the context of confession or other similar communication required to be kept confidential under church doctrine or practice. When a clergy member receives information about abuse or exploitation from any other source, the clergy member shall comply with the reporting requirements of this Code section, even though the clergy member may have also received a report of such matters from the confession of the perpetrator. (Code 1933, § 88-1903c, enacted by Ga. L. 1980, p. 1261, § 1; Ga. L. 2009, p. 453, § 1-33/HB 228; Ga. L. 2013, p. 524, § 1-12/HB 78.)

The 2013 amendment, effective July 1, 2013, rewrote this Code section.

31-8-86. Confidentiality.

The identities of the resident, the alleged perpetrator, and persons making a report or providing information or evidence shall not be disclosed to the public unless required to be revealed in court proceedings or upon the written consent of the person whose identity is to be revealed or as otherwise required by law. Upon the resident's or his or her representative's request, the department shall make information obtained in an abuse report or complaint and an investigation available to an allegedly abused or exploited resident or his or her representative for inspection or duplication, except that such disclosure shall be made without revealing the identity of any other resident, the person making the report, or persons providing information by name or inference. For the purpose of this Code section, the term "representative" shall include any person authorized in writing by the resident or appointed by an appropriate court to act upon the resident's behalf. The term "representative" also shall include a family member of a deceased or physically or mentally impaired resident unable to grant authorization; provided, however, that such family members who do not have written or court authorization shall not be authorized by this Code section to receive the resident's health records as defined in Code Section 31-33-1. Nothing in this Code section shall be construed to deny agencies participating in joint investigations at the request of and with the department, or conducting separate investigations of abuse or exploitation within an agency's scope of authority, or law enforcement personnel who are conducting an investigation into any criminal offense in which a resident is a victim from having access to such records. (Code 1933, § 88-1908c, enacted by Ga. L. 1980, p. 1261, § 1; Ga. L. 1991, p. 1601, § 2; Ga. L. 2013, p. 524, § 1-13/HB 78.)

The 2013 amendment, effective July 1, 2013, twice inserted "or her" in the second sentence; inserted "that" in the fourth sentence; and added the last sentence.

ARTICLE 5

BILL OF RIGHTS FOR RESIDENTS OF LONG-TERM
CARE FACILITIES

31-8-100. Short title.

JUDICIAL DECISIONS

Long-arm personal jurisdiction over out-of-state parent company not established. — Trial court erred by denying an out-of-state company's motion to dismiss based on lack of personal jurisdiction because the company met the company's burden of showing a lack of minimum contacts needed to support the exercise of personal jurisdiction, and that conclusion

was consistent with other jurisdictional authority holding that ownership of a resident nursing home subsidiary by an out-of-state parent corporation without more is insufficient to obtain jurisdiction of the parent corporation. *Drumm Corp. v. Wright*, 326 Ga. App. 41, 755 S.E.2d 850 (2014).

ARTICLE 6

INDIGENT CARE TRUST FUND

31-8-152.1. State sales and use taxation of certain health care services.

Repealed by Ga. L. 2011, p. 674, § 1-1/HB 117, effective June 30, 2014.

Editor's notes. — This Code section was based on Code 1981, § 31-8-152.1, enacted by Ga. L. 2011, p. 674, § 1-1/HB

117 and was repealed by its own terms effective June 30, 2014.

31-8-154. Authorized expenditure of contributed funds.

All moneys contributed and revenues deposited and transferred to the trust fund pursuant to this article and any interest earned on such moneys shall be appropriated to the department for only the following purposes:

- (1) To expand Medicaid eligibility and services;
- (2) For programs to support rural and other health care providers, primarily hospitals, who serve the medically indigent;
- (3) For primary health care programs for medically indigent citizens and children of this state; or
- (4) Any combination of purposes specified in paragraphs (1) through (3) of this Code section. (Code 1981, § 31-8-154, enacted by Ga. L. 1990, p. 139, § 1; Ga. L. 1993, p. 1014, § 1; Ga. L. 2016, p. 214, § 3/SB 308; Ga. L. 2017, p. 764, § 2-6/SB 193.)

The 2016 amendment, effective July 1, 2016, deleted “or” at the end of paragraph (3), added present paragraph (4), redesignated former paragraph (4) as paragraph (5), and substituted “(1) through (4)” for “(1) through (3)” near the end of paragraph (5).

The 2017 amendment, effective July 1, 2017, added “or” at the end of para-

graph (3); deleted former paragraph (4), which read: “For the Positive Alternatives for Pregnancy and Parenting Grant Program established under Article 2 of Chapter 2A of this title; or”; redesignated former paragraph (5) as present paragraph (4); and substituted “(3)” for “(4)” near the end of present paragraph (4).

31-8-156. Appropriation of state funds by General Assembly.

(a) The General Assembly is authorized to appropriate as state funds to the department for use in any fiscal year not less than all of the moneys contributed and revenues deposited and transferred to the fund and interest earned thereon. Such appropriation shall be made only for those purposes specified in Code Section 31-8-154, and any other appropriation from the trust fund shall be void.

(b) An appropriation pursuant to subsection (a) of this Code section shall specify each purpose, if any, as specified in paragraphs (1) through (4) of Code Section 31-8-154, for which the trust funds are appropriated thereby.

(c) Funds appropriated to the department pursuant to this Code section shall be used to match federal funds or any other funds from a public source or charitable organization which are available for the purposes for which those trust funds have been appropriated.

(d) Appropriations from the trust fund to the department shall be used to supplement and not replace any other state funds appropriated to the department.

(e) Appropriations from the trust fund to the department, except as provided in Code Sections 31-8-157 and 31-8-158, shall not lapse to the general fund at the end of the fiscal year. (Code 1981, § 31-8-156, enacted by Ga. L. 1990, p. 139, § 1; Ga. L. 1993, p. 1014, § 1; Ga. L. 2001, p. 1240, § 4; Ga. L. 2016, p. 214, § 4/SB 308; Ga. L. 2017, p. 764, § 2-7/SB 193.)

The 2016 amendment, effective July 1, 2016, substituted “(1) through (5)” for “(1) through (4)” near the middle of subsection (b).

The 2017 amendment, effective July 1, 2017, substituted “(4)” for “(5)” in the middle of subsection (b).

ARTICLE 6C

HOSPITAL MEDICAID FINANCING PROGRAM

Effective date. — This article became effective February 13, 2013, for purposes of proposing rules and regulations and effective for all other purposes on July 1, 2013.

Editor’s notes. — Ga. L. 2010, p. 9, § 2-1/HB 1055, effective June 30, 2013, repealed the Code sections formerly codified at this article. The former article consisted of Code Sections 31-8-179 and

31-8-179.1 through 31-8-179.8, relating to provider payment agreements, and was based on Code 1981, §§ 31-8-179—31-8-179.8, enacted by Ga. L. 2010, p. 9, § 2-1/HB 1055; Ga. L. 2011, p. 752, § 31/HB 142.

Code Section 31-8-179.6 provides for the repeal of this chapter effective July 1, 2020.

31-8-179. (Repealed effective June 30, 2020) Short title.

This article is enacted pursuant to the authority of Article III, Section IX, Paragraph VI(i) of the Constitution and shall be known and may be cited as the “Hospital Medicaid Financing Program Act.” (Code 1981, § 31-8-179, enacted by Ga. L. 2013, p. 1, § 1/SB 24.)

Editor’s notes. — Code Section 31-8-179.6 provides for the repeal of this Code section effective June 30, 2020.

Law reviews. — For article on the 2013 enactment of this Code section, see 30 Ga. St. U.L. Rev. 153 (2013).

31-8-179.1. (Repealed effective June 30, 2020) Definitions.

As used in this article, the term:

- (1) “Board” means the Board of Community Health.
- (2) “Department” means the Department of Community Health.
- (3) “Hospital” means an institution licensed pursuant to Chapter 7 of this title which is primarily engaged in providing to inpatients, by or under the supervision of physicians, diagnostic services and therapeutic services for medical diagnosis, treatment, and care of injured, disabled, or sick persons or rehabilitation services for the rehabilitation of injured, disabled, or sick persons. Such term includes public, private, rehabilitative, geriatric, osteopathic, and other specialty hospitals but shall not include psychiatric hospitals which shall have the same meaning as facilities as defined in paragraph (7) of Code Section 37-3-1, critical access hospitals as defined in paragraph (3) of Code Section 33-21A-2, or any state owned or state operated hospitals.
- (4) “Provider payment” means a payment assessed by the department pursuant to this article for the privilege of operating a hospital. (Code 1981, § 31-8-179.1, enacted by Ga. L. 2013, p. 1, § 1/SB 24.)

Editor's notes. — Code Section 31-8-179.6 provides for the repeal of this Code section effective June 30, 2020.

Law reviews. — For article on the 2013 enactment of this Code section, see 30 Ga. St. U.L. Rev. 153 (2013).

31-8-179.2. (Repealed effective June 30, 2020) Department of Community Health authorized to assess one or more provider payments on hospitals for the purpose of obtaining federal financial participation for Medicaid.

(a) The board shall be authorized to establish and assess, by board rule, one or more provider payments on hospitals, or a subclass of hospitals, as defined by the board; provided, however, that if any such provider payment is established and assessed, the provider payment shall comply with the requirements of 42 C.F.R. 433.68. Any provider payment assessed pursuant to this article shall not exceed the amount necessary to obtain federal financial participation allowable under Title XIX of the federal Social Security Act. The aggregate amount of any fees established and assessed pursuant to this subsection shall not exceed those percentages of net patient revenues set forth in the General Appropriations Act. The board shall be authorized to discontinue any provider payment assessed pursuant to this article. The board shall cease to impose any such provider payment if:

(1) The provider payments are not eligible for federal matching funds under Title XIX of the federal Social Security Act; or

(2) The department reduces Medicaid payment rates to hospitals as are in effect on June 30, 2012, or reduces the provider payment rate adjustment factors utilized in developing the state Fiscal Year 2013 capitated rates for Medicaid managed care organizations.

(a.1) The General Assembly shall have the authority to override any provider payment assessed by the board pursuant to this Code section in accordance with the procedures contained in subsection (f) of Code Section 50-13-4.

(b) The board shall be authorized to establish rules and regulations to assess and collect any such provider payments, including, but not limited to, payment frequency and schedules, required information to be submitted, record retention, and whether any such provider payment shall be credited toward any indigent or charity care requirements or considered a community benefit. (Code 1981, § 31-8-179.2, enacted by Ga. L. 2013, p. 1, § 1/SB 24; Ga. L. 2013, p. 1037, § 2/SB 62; Ga. L. 2014, p. 866, § 31/SB 340.)

The 2013 amendment, effective May 7, 2013, in paragraph (a)(2), substituted “2012 or reduces” for “2012; reduces”, and

deleted “; or alters any payment methodology, administrative rule, or payment policy as are in effect on June 30, 2012, or

creates any new methodology, rule, or policy that has the effect of reducing Medicaid payments to hospitals” following “organizations” at the end.

The 2014 amendment, effective April 29, 2014, part of an Act to revise, modernize, and correct the Code, substituted “42 C.F.R. 433.68” for “42 CFR 433.68” in the introductory language of subsection (a) and revised punctuation in paragraph (a)(2).

Editor’s notes. — Code Section 31-8-179.6 provides for the repeal of this Code section effective June 30, 2020.

U.S. Code. — Title XIX of the federal Social Security Act, referred to in this Code section, is codified at 42 U.S.C. § 1396 et seq.

Law reviews. — For article on the 2013 enactment of this Code section, see 30 Ga. St. U.L. Rev. 153 (2013).

31-8-179.3. (Repealed effective June 30, 2020) Provider payments assessed to be deposited in segregated accounts within Indigent Care Trust Fund; sole purpose of funds to obtain federal financial participation for medical assistance payments for Medicaid recipients; retention and inspection of records; penalties.

(a) Any provider payments assessed pursuant to this article shall be deposited into a segregated account for each payment program within the Indigent Care Trust Fund created pursuant to Code Section 31-8-152. No other funds shall be deposited into any such segregated account or accounts. All funds in any such segregated account or accounts shall be invested in the same manner as authorized for investing other moneys in the state treasury. Any funds deposited into a segregated account pursuant to this article shall be subject to appropriation by the General Assembly.

(b) Any provider payments assessed pursuant to this article shall be dedicated and used for the sole purpose of obtaining federal financial participation for medical assistance payments to providers on behalf of Medicaid recipients pursuant to Article 7 of Chapter 4 of Title 49.

(c) Each hospital shall keep and preserve for a period of seven years such books and records as may be necessary to determine the amount for which it is liable under this article. The department shall have the authority to inspect and copy the records of a hospital for purposes of auditing the calculation of the provider payment. All information obtained by the department pursuant to this article shall be confidential and shall not constitute a public record.

(d) The department shall be authorized to impose a penalty of up to 6 percent for any hospital that fails to pay a provider payment within the time required by the department for each month or fraction thereof that the provider payment is overdue. If a required provider payment has not been received by the department in accordance with department timelines, the department shall withhold an amount equal to the

provider payment and penalty owed from any medical assistance payment due such hospital under the Medicaid program. Any provider payment assessed pursuant to this article shall constitute a debt due the state and may be collected by civil action and the filing of tax liens in addition to such methods provided for in this article. Any penalty that accrues pursuant to this subsection shall be credited to the applicable segregated account. (Code 1981, § 31-8-179.3, enacted by Ga. L. 2013, p. 1, § 1/SB 24.)

Editor's notes. — Code Section 31-8-179.6 provides for the repeal of this Code section effective June 30, 2020.

Law reviews. — For article on the 2013 enactment of this Code section, see 30 Ga. St. U.L. Rev. 153 (2013).

31-8-179.4. (Repealed effective June 30, 2020) Authorized use of appropriated funds.

(a) Notwithstanding any other provision of this chapter, the General Assembly is authorized to appropriate as state funds to the department for use in any fiscal year all revenues dedicated and deposited into one or more segregated accounts. Such appropriations shall be authorized to be made for the sole purpose of obtaining federal financial participation for medical assistance payments to providers on behalf of Medicaid recipients pursuant to Article 7 of Chapter 4 of Title 49. Any appropriation from a segregated account for any purpose other than such medical assistance payments shall be void.

(b) Revenues appropriated to the department pursuant to this Code section shall be used to match federal funds that are available for the purpose for which such funds have been appropriated.

(c) Appropriations from a segregated account to the department shall not lapse to the general fund at the end of the fiscal year. (Code 1981, § 31-8-179.4, enacted by Ga. L. 2013, p. 1, § 1/SB 24.)

Editor's notes. — Code Section 31-8-179.6 provides for the repeal of this Code section effective June 30, 2020.

Law reviews. — For article on the 2013 enactment of this Code section, see 30 Ga. St. U.L. Rev. 153 (2013).

31-8-179.5. (Repealed effective June 30, 2020) Applicability of Georgia Medical Assistance Act.

Except where inconsistent with this article, the provisions of Article 7 of Chapter 4 of Title 49, the "Georgia Medical Assistance Act of 1977," shall apply to the department in carrying out the purposes of this article. (Code 1981, § 31-8-179.5, enacted by Ga. L. 2013, p. 1, § 1/SB 24.)

Editor’s notes. — Code Section 31-8-179.6 provides for the repeal of this Code section effective June 30, 2020.

Law reviews. — For article on the 2013 enactment of this Code section, see 30 Ga. St. U.L. Rev. 153 (2013).

31-8-179.6. (Repealed effective June 30, 2020) Automatic repeal.

This article shall stand repealed on June 30, 2020, unless reauthorized by the General Assembly prior to that date. (Code 1981, § 31-8-179.6, enacted by Ga. L. 2013, p. 1, § 1/SB 24; Ga. L. 2017, p. 1, § 1/SB 70.)

The 2017 amendment, effective February 13, 2017, substituted “June 30, 2020” for “June 30, 2017”.

ARTICLE 7

DISCLOSURE OF TREATMENT OF ALZHEIMER’S DISEASE OR
ALZHEIMER’S RELATED DEMENTIA

31-8-180. Definitions.

Cross references. — Alzheimer’s and Related Dementias State Plan, § T. 49, C. 6, Art. 8.

ARTICLE 9

FEDERAL AND STATE FUNDED HEALTH CARE FINANCING
PROGRAMS OVERVIEW COMMITTEE

Effective date. — This article became effective May 7, 2013.

Code Commission notes. — Pursuant to Code Section 28-9-5, in 2013, Article 9

of Chapter 8 of Title 31 as enacted by Ga. L. 2013, p. 586, § 1/SB 14, was redesignated as Article 10 of Chapter 8 of Title 31.

31-8-210. Committee established; composition; officers; terms of office; duties and responsibilities; assistance from other state officers and agencies; compensation, per diem, and expense allowances; funding.

(a) There is created as a joint committee of the General Assembly the Federal and State Funded Health Care Financing Programs Overview Committee to be composed of one member of the House of Representatives appointed by the Speaker of the House; one member of the Senate appointed by the President of the Senate; the chairperson of the House Committee on Appropriations or his or her designee; the chairperson of the House Committee on Health and Human Services or his or her designee; the chairperson of the House Committee on Ways and Means or his or her designee; the chairperson of the Senate Appropriations

Committee or his or her designee; the chairperson of the Senate Health and Human Services Committee or his or her designee; the chairperson of the Senate Finance Committee; and the minority leaders of the Senate and House of Representatives or their designees. The members of the committee shall serve two-year terms concurrent with their terms as members of the General Assembly. Beginning in 2013, and every four years thereafter, the chairperson of the committee shall be appointed by the President of the Senate from the membership of the committee, and the vice chairperson of the committee shall be appointed by the Speaker of the House of Representatives from the membership of the committee. Beginning in 2015, and every four years thereafter, the chairperson of the committee shall be appointed by the Speaker of the House of Representatives from the membership of the committee, and the vice chairperson of the committee shall be appointed by the President of the Senate from the membership of the committee. The chairperson and vice chairperson shall serve terms of two years concurrent with their terms as members of the General Assembly. Vacancies in an appointed member's position or in the offices of chairperson or vice chairperson of the committee shall be filled for the unexpired term in the same manner as the original appointment. The committee shall periodically inquire into and review the actions of the board and the department under this article to evaluate the success with which the board and the department are accomplishing the statutory duties and functions as provided in this article.

(b) The board and the department shall cooperate with the committee, its authorized personnel, the Attorney General, the state auditor, the state accounting officer, and other state agencies in order that the charges of the committee set forth in this Code section may be timely and efficiently discharged. The committee shall, on or before the first day of January of each year, and at such other times as it deems necessary, submit to the General Assembly a report of its findings and recommendations based upon the review of the board and the department as set forth in this Code section.

(c)(1) The members of the committee shall receive the same compensation, per diem, expenses, and allowances for their service on the committee as is authorized by law for members of interim legislative study committees.

(2) The funds necessary for the purposes of the committee shall come from the funds appropriated to and available to the legislative branch of government. (Code 1981, § 31-8-210, enacted by Ga. L. 2013, p. 1037, § 3/SB 62.)

ARTICLE 10
DRUG REPOSITORY PROGRAM

Effective date. — This article became effective July 1, 2016.

Editor's notes. — Ga. L. 2014, p. 866, § 31/SB 340, effective April 29, 2014, repealed the Code sections formerly codified at this article. The former article con-

sisted of Code Sections 31-8-301 through 31-8-306, relating to the Georgia Alzheimer's and Related Dementias State Plan Task Force, and was based on Ga. L. 2013, p. 586, § 1/SB 14.

31-8-300. Definitions.

As used in this article, the term:

(1) "Controlled substance" means a drug, substance, or immediate precursor in Schedules I through V of Code Sections 16-13-25 through 16-13-29 and Schedules I through V of 21 C.F.R. Part 1308.

(2) "Eligible patient" means an individual who is indigent, uninsured, underinsured, or enrolled in a public assistance health benefits program, in accordance with criteria established by the Department of Public Health pursuant to Code Section 31-8-304. Other individuals may be considered eligible patients if the need for donated drugs for indigent, uninsured, underinsured, and public assistance health benefits program patients is less than the supply of donated drugs.

(3) "Eligible recipient" means a pharmacy, hospital, federally qualified health center, nonprofit clinic, or other entity meeting the criteria established by the Department of Public Health pursuant to Code Section 31-8-304.

(4) "Health care facility" means a:

(A) Nursing home licensed pursuant to Article 1 of Chapter 7 of this title;

(B) Personal care home licensed pursuant to Code Section 31-7-12;

(C) Assisted living community licensed pursuant to Code Section 31-7-12.2;

(D) Hospice licensed pursuant to Article 9 of Chapter 7 of this title; and

(E) Home health agency licensed pursuant to Article 7 of Chapter 7 of this title.

(5) "Health care professional" means any of the following who provide medical, dental, or other health related diagnosis, care, or treatment:

(A) Physicians licensed to practice medicine under Chapter 34 of Title 43;

(B) Registered nurses and licensed practical nurses licensed under Chapter 26 of Title 43;

(C) Physician assistants licensed under Chapter 34 of Title 43;

(D) Dentists and dental hygienists licensed under Chapter 11 of Title 43;

(E) Optometrists licensed under Chapter 30 of Title 43; and

(F) Pharmacists licensed under Chapter 4 of Title 26.

(6) “Hospital” means a facility licensed pursuant to Chapter 7 of this title.

(7) “Program” means the drug repository program established pursuant to Code Section 31-8-301. (Code 1981, § 31-8-300, enacted by Ga. L. 2016, p. 524, § 1/HB 897.)

31-8-301. Drug repository program established; criteria and requirements for unused over-the-counter and prescription drugs.

(a) The Department of Public Health shall establish a drug repository program to accept and dispense over-the-counter and prescription drugs donated for the purpose of being dispensed to eligible patients.

(b) Drugs shall only be dispensed pursuant to the program if:

(1) For prescription drugs, they do not expire before the completion of the medication by the eligible patient based on the prescribing health care professional’s directions for use and, for over-the-counter drugs, they do not expire before use by the eligible patient based on the directions for use on the manufacturer’s label; and

(2) The drugs were donated in unopened tamper-evident packaging as defined by United States Pharmacopeia General Chapter 659, Packaging and Storage Requirements, including but not limited to unopened unit-dose and multiple-dose packaging.

(c) The following drugs shall not be donated to the program:

(1) Controlled substances;

(2) Drugs subject to a federal Food and Drug Administration managed risk evaluation and mitigation strategy pursuant to Section 355-1 of Title 21 of the United States Code if inventory transfer is prohibited by such strategy; or

(3) Drugs that there is reason to believe are adulterated pursuant to Code Section 26-3-7. (Code 1981, § 31-8-301, enacted by Ga. L. 2016, p. 524, § 1/HB 897.)

31-8-302. Procedures for donation and dispensing of unused over-the-counter and prescription drugs.

(a) Any person, including a drug manufacturer, wholesaler, reverse distributor pharmacy, third-party logistics provider, government entity, hospital, or health care facility, may donate over-the-counter and prescription drugs to the program. The drugs shall be donated to an eligible recipient that voluntarily elects to participate in the program. Nothing in this or any other Code section shall require an eligible recipient to participate in the program.

(b) An eligible recipient may do any of the following:

(1) Accept and dispense donated drugs to eligible patients. Prescription drugs shall only be dispensed pursuant to a valid prescription drug order. Eligible patients who are indigent, uninsured, underinsured, or enrolled in a public assistance health benefits program in accordance with criteria established by the Department of Public Health pursuant to Code Section 31-8-304 shall be prioritized over other individuals;

(2) Transfer donated drugs to another eligible recipient participating in the program or to a drug repository program operated by another state;

(3) Repackage donated drugs as necessary for dispensing, administration, or transfers; and

(4) Replenish drugs previously dispensed or administered to eligible patients.

(c) An eligible recipient that accepts donated drugs shall comply with all applicable federal laws and laws of this state dealing with storage and distribution of dangerous drugs and shall inspect all drugs prior to dispensing them to determine that they are not adulterated.

(d) An eligible recipient may charge a handling fee established in accordance with rules and regulations adopted by the Department of Public Health pursuant to Code Section 31-8-304; provided, however, that any such fee shall not exceed the reasonable costs of participating in the program.

(e) Drugs donated to the program shall not be resold; provided, however, that reimbursement for any fee charged as authorized pursuant to this article by a health plan or pharmacy benefits manager for donated drugs shall not constitute reselling. Nothing in this article

shall require a health plan or pharmacy benefits manager to be reimbursed for donated drugs. (Code 1981, § 31-8-302, enacted by Ga. L. 2016, p. 524, § 1/HB 897.)

31-8-303. Limited liability.

When complying with the provisions of this article and the rules and regulations adopted pursuant to this chapter, unless an action or omission constitutes willful or wanton misconduct, the following persons or entities shall not be subject to criminal or civil prosecution, criminal or civil liability for injury, death, or loss to person or property, other criminal or civil action, or disciplinary actions by licensing, professional, or regulatory agencies:

(1) A person that donates or gives drugs to an eligible recipient, including a drug manufacturer, wholesaler, reverse distributor pharmacy, third-party logistics provider, government entity, hospital, or health care facility;

(2) An eligible recipient;

(3) A health care professional who prescribes or dispenses a donated drug;

(4) The Department of Public Health and State Board of Pharmacy;

(5) An intermediary that helps administer the program by facilitating the donation or transfer of drugs to eligible recipients;

(6) A manufacturer or repackager of a donated drug; and

(7) Any employee, volunteer, trainee, or other staff of individuals and entities listed in paragraphs (1) through (6) of this Code section. (Code 1981, § 31-8-303, enacted by Ga. L. 2016, p. 524, § 1/HB 897.)

31-8-304. Rules and regulations; waiver.

(a) No later than January 1, 2017, the Department of Public Health shall establish rules and regulations to implement the program according to the provisions of this article for criteria for eligible recipients; standards and procedures for safely storing and dispensing donated drugs; criteria for eligible patients to receive donated drugs, including priority for patients who are indigent, uninsured, underinsured, or enrolled in a public assistance health benefits program; and handling fees that may be charged by eligible recipients to eligible patients to cover restocking, marketing, administrative, and dispensing costs.

(b) The Department of Public Health may waive any provision of this article if it determines that the waiver is in the interest of public health

and safety. (Code 1981, § 31-8-304, enacted by Ga. L. 2016, p. 524, § 1/HB 897.)

CHAPTER 9

CONSENT FOR SURGICAL OR MEDICAL TREATMENT

Cross references. — Adult’s reliance on prayer or religious nonmedical means of treatment of dependent, § 15-11-107.

31-9-2. Persons authorized to consent to surgical or medical treatment.

Law reviews. — For article, “Marriage, Death and Taxes: The Estate Planning Impact of Windsor and Obergefell on

Georgia’s Same Sex Spouses,” see 21 Ga. St. Bar. J. 9 (Oct. 2015).

JUDICIAL DECISIONS

Parent signed as agent for adult son, not in personal capacity. — Trial court erred in granting summary judgment to a medical center and denying it to a patient’s parent because the parent signed the form on behalf of the adult son

as an agent, not in a personal capacity; thus, the parent was not personally liable for any unpaid medical bills. *Winterboer v. Floyd Healthcare Mgmt.*, 334 Ga. App. 97, 778 S.E.2d 354 (2015).

31-9-6.1. Disclosure of certain information to persons undergoing certain surgical or diagnostic procedures; failure to comply; exceptions; regulations establishing standards for implementation.

Law reviews. — For annual survey on trial practice and procedure, see 64 Mercer L. Rev. 305 (2012).
For note, “An Advance Directive: The

Elective, Effective Way to Be Protective of Your Rights,” 68 Mercer L. Rev. 521 (2017).

JUDICIAL DECISIONS

Cause of action.
Strictly construing O.C.G.A. § 31-9-6.1(d) of Georgia’s informed consent statute, the statute contemplates a cause of action based on an injury resulting from an undisclosed material risk of the procedure. This is apparent from reading § 31-9-6.1(d)(2), requiring an injury resulting from information that was not disclosed, with the requirement that an expert testify that such injury was caused

by a material risk required to be disclosed pursuant to § 31-9-6.1(a)(3). *Callaway v. O’Connell*, 44 F. Supp. 3d 1316 (M.D. Ga. Aug. 29, 2014).
No battery claim. — Trial court erred in denying summary judgment to the medical defendant on the plaintiff’s battery claim based on the surgical procedure because the uncontroverted evidence of record reflected that there was basic consent for the surgical procedure and allega-

tions that the doctor did not fully disclose the nature of the procedure reflected on an informed consent, not a battery, claim. Doctors Hosp. of Augusta, LLC v. Alicea, 332 Ga. App. 529, 774 S.E.2d 114 (2015), aff'd, 299 Ga. 315, 788 S.E.2d 392 (Ga. 2016).

31-9-7. Right of persons who are at least 18 years of age to refuse to consent to treatment.

JUDICIAL DECISIONS

No battery claim. — Trial court erred in denying summary judgment to the medical defendant on the plaintiff’s battery claim based on the surgical procedure because the uncontroverted evidence of record reflected that there was basic consent for the surgical procedure and allegations that the doctor did not fully disclose the nature of the procedure reflected on an informed consent, not a battery, claim. Doctors Hosp. of Augusta, LLC v. Alicea, 332 Ga. App. 529, 774 S.E.2d 114 (2015), aff’d, 299 Ga. 315, 788 S.E.2d 392 (Ga. 2016).

CHAPTER 9A

WOMAN’S RIGHT TO KNOW

31-9A-2. Definitions.

Cross references. — Coverage of certain abortions through certain qualified health plans prohibited, § 33-24-59.17.

Law reviews. — For article on the 2012 amendment of this Code section, see 29 Ga. St. U.L. Rev. 253 (2012).

31-9A-6.1. Civil and professional penalties for violations; prerequisites for seeking penalties.

Law reviews. — For article on the 2012 amendment of this Code section, see 29 Ga. St. U.L. Rev. 253 (2012).

CHAPTER 9B

PHYSICIAN’S OBLIGATION IN PERFORMANCE OF ABORTIONS

Law reviews. — For article on the 2012 enactment of this chapter, see 29 Ga. St. U.L. Rev. 253 (2012).

31-9B-1. Definitions.

JUDICIAL DECISIONS

Sovereign immunity barred suit. — Suit by physicians against state officials alleging that O.C.G.A. § 31-9B-1 et seq., regulating abortions, violated the state constitution in several respects, was barred by sovereign immunity under Ga.

Const. 1983, Art. I, Sec. II, Para. IX, because there was no consent to such a suit in any statute or in the state constitution. *Lathrop v. Deal*, 301 Ga. 408, 801 S.E.2d 867 (2017).

31-9B-2. Requirement to determine probable gestational age of unborn child.

JUDICIAL DECISIONS

31-9B-3. Required reporting of physicians and departments; confidentiality; failure to comply.

JUDICIAL DECISIONS

Cited in *Lathrop v. Deal*, 301 Ga. 408, 801 S.E.2d 867 (2017).

CHAPTER 10

VITAL RECORDS

- Sec.

31-10-9.1. Social security account information of parents.

31-10-16. Criteria for pronouncing death; immunity from liability.

31-10-25. Disclosure of information contained in vital records; transfer of records to State Archives.

31-10-26. Issuance of certified copies of
- vital records, voluntary acknowledgments of paternity, voluntary acknowledgments of legitimation; certificates; use for statistical purposes; transmittal of records out of state; use for commercial or speculative purposes.

31-10-9. Registration of births.

Law reviews. — For annual survey on domestic relations, see 69 *Mercer L. Rev.* 83 (2017).

JUDICIAL DECISIONS

Cited in Ray v. Hann, 323 Ga. App. 45, 746 S.E.2d 600 (2013).

31-10-9.1. Social security account information of parents.

(a) Social security account information of the mother and father, if paternity is acknowledged by the father, of a child born within this state shall be entered in the medical and health statistics section of the certificate of live birth at the time of filing the certificate of birth as provided in Code Section 31-10-9.

(b) The state registrar shall make available the records of an individual's name and social security number to the entity within the Department of Human Services authorized to enforce support orders for its use in the establishment of paternity or the enforcement of child support orders.

(c) Information obtained pursuant to this Code section by the entity within the Department of Human Services authorized to enforce support orders may be used in an action or proceeding before any court, administrative tribunal, or other body for the purpose of establishing a child support obligation, collecting child support, or locating individuals owing the obligation. (Code 1981, § 31-10-9.1, enacted by Ga. L. 1992, p. 1270, § 1; Ga. L. 1997, p. 1613, § 35; Ga. L. 2009, p. 453, § 2-2/HB 228; Ga. L. 2017, p. 646, § 2-4/SB 137.)

The 2017 amendment, effective July 1, 2017, substituted “entity within” for “Child Support Enforcement Agency of” in subsections (b) and (c); in subsection (b), substituted “an individual’s” for “parent” near the beginning and inserted “autho-

rized to enforce support orders” in the middle; and, in subsection (c), inserted “pursuant to this Code section” in the beginning and substituted “authorized to enforce support orders” for “pursuant to this Code section” in the middle.

31-10-16. Criteria for pronouncing death; immunity from liability.

(a) A person may be pronounced dead by a qualified physician, by a registered professional nurse or nurse practitioner authorized to make a pronouncement of death under Code Section 31-7-16 or 31-7-176.1, by an advanced practice registered nurse authorized to make a pronouncement of death under subsection (o) of Code Section 43-34-25, or by a physician assistant authorized to make a pronouncement of death under Code Section 31-7-16 or 31-7-176.1 or subsection (j) of Code Section 43-34-103, if it is determined that the individual has sustained either (1) irreversible cessation of circulatory and respiratory function or (2) irreversible cessation of all functions of the entire brain, including the brain stem.

(b) A person who acts in good faith in accordance with the provisions of subsection (a) of this Code section shall not be liable for damages in any civil action or subject to prosecution in any criminal proceeding for such act.

(c) The criteria for determining death authorized in subsection (a) of this Code section shall be cumulative to and shall not prohibit the use of other medically recognized criteria for determining death. (Code 1933, § 88-1715.1, enacted by Ga. L. 1975, p. 1629, § 1; Code 1933, § 88-1716, enacted by Ga. L. 1982, p. 723, § 1; Code 1981, § 31-10-70; Code 1981, § 31-10-16, enacted by Ga. L. 1982, p. 723, § 2; Ga. L. 1992, p. 1392, § 3; Ga. L. 2009, p. 859, § 9/HB 509; Ga. L. 2017, p. 625, § 3/SB 96.)

The 2017 amendment, effective July 1, 2017, in subsection (a), inserted “or nurse practitioner”, inserted “31-7-16 or”, inserted “by an advanced practice registered nurse authorized to make a pronouncement of death under subsection (o) of Code Section 43-34-25,”, and inserted “Code Section 31-7-16 or 31-7-176.1 or”.

31-10-25. Disclosure of information contained in vital records; transfer of records to State Archives.

(a) To protect the integrity of vital records, to ensure their proper use, and to ensure the efficient and proper administration of the system of vital records, it shall be unlawful for any person to permit inspection of, or to disclose information contained in, vital records or to copy or issue a copy of all or part of any such record except as authorized by this chapter, Code Section 19-7-46.1, and regulation or by order of a court of competent jurisdiction. Regulations adopted under this Code section shall provide for adequate standards of security and confidentiality of vital records. The provisions of this subsection shall not apply to court records or indexes of marriage licenses, divorces, and annulments of marriages filed as provided by law.

(b) The department shall authorize by regulation the disclosure of information contained in vital records for research purposes.

(c) Appeals from decisions of custodians of vital records, as designated under authority of Code Section 31-10-6, who refuse to disclose information or to permit inspection or copying of records as prescribed by this Code section and regulations issued under this Code section shall be made to the state registrar whose decisions shall be binding upon such custodians.

(d) Information in vital records indicating that a birth occurred out of wedlock shall not be disclosed except as authorized by this chapter, Code Section 19-7-46.1, and regulation or by order of a court of competent jurisdiction.

(e) When 100 years have elapsed after the date of birth or 75 years have elapsed after the date of death or application for marriage, or divorce, dissolution of marriage, or annulment, the records of these events in the custody of the state registrar shall be transferred to the State Archives and such information shall be made available in accordance with regulations which shall provide for the continued safekeeping of the records.

(f) Official copies of records of deaths, applications for marriages and marriage certificates, divorces, dissolutions of marriages, and annulments located in the counties shall remain accessible to the public. While in the temporary custody of the probate court before transmission to the state registrar or confirmation of transmission or receipt, application supplement-marriage report forms shall not be available for public inspection or copying or admissible in any court of law. (Ga. L. 1945, p. 236, § 24; Ga. L. 1953, Jan.-Feb. Sess., p. 140, § 12; Code 1933, § 88-1723, enacted by Ga. L. 1964, p. 499, § 1; Ga. L. 1965, p. 651, § 2; Code 1933, § 88-1725, enacted by Ga. L. 1982, p. 723, § 1; Code 1981, § 31-10-13; Code 1981, § 31-10-25, enacted by Ga. L. 1982, p. 723, § 2; Ga. L. 1997, p. 1592, § 6; Ga. L. 2016, p. 304, § 16/SB 64.)

The 2016 amendment, effective July 1, 2016, in subsection (a), inserted a comma following “information contained in” and, near the middle, substituted “chapter, Code Section 19-7-46.1, and” for “chapter and by”; and, in subsection (d), substituted “authorized by this chapter, Code Section 19-7-46.1, and regulation or by” for “provided by regulation or upon the”. See Editor’s notes for applicability.

Editor’s notes. — Ga. L. 2016, p. 304, § 18/SB 64, not codified by the General Assembly, provides that: “This Act shall not be construed to affect a voluntary acknowledgment of legitimation that was valid under the former provisions of Code Section 19-7-21.1, nor any of the rights or responsibilities flowing therefrom, if it was executed on or before June 30, 2016.”

31-10-26. Issuance of certified copies of vital records, voluntary acknowledgments of paternity, voluntary acknowledgments of legitimation; certificates; use for statistical purposes; transmittal of records out of state; use for commercial or speculative purposes.

(a) In accordance with Code Section 31-10-25 and the regulations adopted pursuant thereto:

(1) The state registrar or local custodian, upon receipt of a written application, shall issue:

(A) A certified copy of a vital record in that registrar’s or custodian’s custody or abstract thereof to any applicant having a direct and tangible interest in the vital record;

(B) Certified copies of voluntary acknowledgments of paternity as provided in subsection (e) of Code Section 19-7-46.1;

(C) Certified copies of voluntary acknowledgments of legitimation executed on or before June 30, 2015, to the same individuals and entities specified in subsection (e) of Code Section 19-7-46.1; and

(D) Certified copies of certificates to:

- (i) The person whose record of birth is registered;
- (ii) Either parent, guardian, or temporary guardian of the person whose record of birth or death is registered;
- (iii) The living legal spouse or next of kin, the legal representative, or the person who in good faith has applied and produced a record of such application to become the legal representative of the person whose record of birth or death is registered;
- (iv) A court of competent jurisdiction upon its order or subpoena; or
- (v) Any governmental agency, state or federal, provided that such certificate shall be needed for official purposes; and

(2) Each certified copy issued shall show the date of registration and duplicates issued from records marked “delayed” or “amended” shall be similarly marked and show the effective date. The documentary evidence used to establish a delayed certificate of birth shall be shown on all duplicates issued. All forms and procedures used in the issuance of certified copies of vital records in this state shall be provided or approved by the state registrar.

(b) The federal agency responsible for national vital statistics may be furnished such duplicates or data from the system of vital records as it may require for national statistics, provided such federal agency shares in the cost of collecting, processing, and transmitting such data and provided further that such data shall not be used for other than statistical purposes by the federal agency unless so authorized by the state registrar.

(c) The state registrar may, by agreement, transmit duplicates of records and other reports required by this chapter to offices of vital records outside this state when such records or other reports relate to residents of those jurisdictions or persons born in those jurisdictions. The agreement shall require that the duplicates be used for statistical and administrative purposes only and the agreement shall further provide for the retention and disposition of such duplicates. Duplicates received by the department from offices of vital statistics in other states shall be handled in the same manner as prescribed in this Code section.

(d) No person shall prepare or issue any certificate which purports to be an original, certified copy or duplicate of a vital record except as authorized in this chapter or regulations adopted under this chapter.

(e) No duplicates or parts thereof of a vital record shall be reproduced or information copied for commercial or speculative purposes. This subsection shall not apply to published results of research. (Ga. L. 1914, p. 157, § 20; Ga. L. 1927, p. 353, § 20; Ga. L. 1931, p. 7, §§ 16, 17; Ga. L. 1933, p. 7, § 1; Code 1933, § 88-1212; Code 1933, § 88-1724, enacted by Ga. L. 1964, p. 499, § 1; Ga. L. 1965, p. 651, § 3; Ga. L. 1969, p. 715, § 2; Code 1933, § 88-1726, enacted by Ga. L. 1982, p. 723, § 1; Code 1981, § 31-10-14; Code 1981, § 31-10-26, enacted by Ga. L. 1982, p. 723, § 2; Ga. L. 1991, p. 94, § 31; Ga. L. 2004, p. 477, § 9; Ga. L. 2011, p. 99, § 43/HB 24; Ga. L. 2016, p. 304, § 17/SB 64.)

The 2016 amendment, effective July 1, 2016, rewrote subsection (a). See Editor’s notes for applicability.

Editor’s notes. — Ga. L. 2016, p. 304, § 18/SB 64, not codified by the General Assembly, provides that: “This Act shall

not be construed to affect a voluntary acknowledgment of legitimation that was valid under the former provisions of Code Section 19-7-21.1, nor any of the rights or responsibilities flowing therefrom, if it was executed on or before June 30, 2016.”

GENERAL PROVISIONS

31-11-8. Liability of persons rendering emergency care; liability of physicians advising ambulance service pursuant to Code Section 31-11-50; limitation to gratuitous services.

Law reviews. — For annual survey on local government law, see 65 Mercer L. Rev. 205 (2013).

JUDICIAL DECISIONS

County and ambulance crew members entitled to immunity.

In a case in which a plaintiff sued a county to recover for injuries that the plaintiff allegedly sustained when a county-operated ambulance was involved in a collision while transporting the plaintiff to a local hospital, the trial court correctly ruled that O.C.G.A. § 31-11-8 was controlling in the case and that the county was entitled to statutory immunity

thereunder; the undisputed evidence showed that the emergency medical technicians did not have access to an X-ray machine at the scene and could not accurately exclude the possibility that the plaintiff had internal injuries or fractures that required immediate care. *Anderson v. Tattnall County*, 318 Ga. App. 877, 734 S.E.2d 843 (2012).

ARTICLE 3

PERSONNEL

31-11-51. Certification and recertification of emergency medical technicians; rules and regulations; use of conviction data in licensing decisions.

(a) As used in this Code section, the term “conviction data” means a record of a finding or verdict of guilty or plea of guilty or plea of nolo contendere with regard to any crime, regardless of whether an appeal of the conviction has been sought.

(b) The board shall, by regulation, authorize the department to establish procedures and standards for the licensing of emergency medical services personnel. The department shall succeed to all rules and regulations, policies, procedures, and administrative orders of the composite board which were in effect on December 31, 2001, and which relate to the functions transferred to the department by this chapter. Such rules, regulations, policies, procedures, and administrative orders shall remain in effect until amended, repealed, superseded, or nullified by proper authority or as otherwise provided by law.

(c) In reviewing applicants for initial licensure of emergency medical services personnel, the department shall be authorized pursuant to this Code section to obtain conviction data with respect to such applicants for the purposes of determining the suitability of the applicant for licensure.

(d) The department shall by rule or regulation, consistent with the requirements of this subsection, establish a procedure for requesting a fingerprint based criminal history records check from the center and the Federal Bureau of Investigation. Fingerprints shall be in such form and of such quality as prescribed by the center and under standards adopted by the Federal Bureau of Investigation. Fees may be charged as necessary to cover the cost of the records search. An applicant may request that a criminal history records check be conducted by a state or local law enforcement agency or by a private vendor approved by the department. Fees for criminal history records checks shall be paid by the applicant to the entity processing the request at the time such request is made. The state or local law enforcement agency or private vendor shall remit payment to the center in such amount as required by the center for conducting a criminal history records check. The department shall accept a criminal history records check whether such request is made through a state or local law enforcement agency or through a private vendor approved by the department. Upon receipt of an authorized request, the center shall promptly cause such criminal records search to be conducted. The center shall notify the department in writing of any finding of disqualifying information, including, but not limited to, any conviction data regarding the fingerprint records check, or if there is no such finding.

(e) Conviction data received by the department or a state or local law enforcement agency shall be privileged and shall not be a public record or disclosed to any person. Conviction data shall be maintained by the department and the state or local law enforcement pursuant to laws regarding such records and the rules and regulations of the center and the Federal Bureau of Investigation. Penalties for the unauthorized release or disclosure of conviction data shall be as prescribed by law or rule or regulation of the center or Federal Bureau of Investigation.

(f) The center, the department, or any law enforcement agency, or the employees of any such entities, shall neither be responsible for the accuracy of information provided pursuant to this Code section nor be liable for defamation, invasion of privacy, negligence, or any other claim relating to or arising from the dissemination of information pursuant to this Code section. (Code 1933, § 88-3112.1, enacted by Ga. L. 1977, p. 281, § 2; Ga. L. 2001, p. 1145, § 2; Ga. L. 2011, p. 539, § 2/SB 76; Ga. L. 2012, p. 83, § 4/HB 247; Ga. L. 2013, p. 141, § 31/HB 79.)

The 2013 amendment, effective April 24, 2013, part of an Act to revise, modernize, and correct the Code, substituted “this

subsection” for “this paragraph” in the first sentence of subsection (d).

31-11-53. Services which may be rendered by certified emergency medical technicians and trainees.

(a) Upon certification by the department, emergency medical technicians may do any of the following:

(1) Render first-aid and resuscitation services as taught in the United States Department of Transportation basic training courses for emergency medical technicians or an equivalent course approved by the department; and

(2) Upon the order of a duly licensed physician, administer approved intravenous solutions and opioid antagonists.

(b) While in training preparatory to becoming certified, emergency medical technician trainees may perform any of the functions specified in this Code section under the direct supervision of a duly licensed physician or a registered nurse. (Code 1933, § 88-3112.3, enacted by Ga. L. 1977, p. 281, § 4; Ga. L. 2014, p. 683, § 2-3/HB 965.)

The 2014 amendment, effective April 24, 2014, added “and opioid antagonists” at the end of paragraph (a)(2). See Editor’s notes for applicability.

Editor’s notes. — Ga. L. 2014, p. 683, § 2-1/HB 965, not codified by the General Assembly, provides:

“WHEREAS, Naloxone is an opioid antagonist developed to counter the effects of opiate overdose, specifically the life threatening depression of the central nervous and respiratory systems; and

“WHEREAS, Naloxone is clinically administered via intramuscular, intravenous, or subcutaneous injection; and

“WHEREAS, Naloxone is administered outside of a clinical setting or facility intranasally via nasal atomizer; and

“WHEREAS, the American Medical As-

sociation supported the lay administration of this life saving drug in 2012; and

“WHEREAS, similar Naloxone access laws have reversed more than 10,000 opioid overdoses by lay people in other states; and

“WHEREAS, the American Medical Association acknowledged that ‘fatalities caused by opioid overdose can devastate families and communities, and we must do more to prevent these unnecessary deaths’; and

“WHEREAS, the National Institutes of Health found that Naloxone ‘lacks any psychoactive or addictive qualities ... without any potential for abuse ... [and] medical side effects or other problematic unintended consequences associated with Naloxone have not been reported’; and

“WHEREAS, any administration of Naloxone to an individual experiencing an opioid overdose must be followed by professional medical attention and treatment.”

Ga. L. 2014, p. 683, § 3-1/HB 965, not codified by the General Assembly, provides, in part, that Parts I and II of this Act shall apply to all acts committed on or after April 24, 2014.

31-11-53.1. Automated external defibrillator program; establishment; regulations; liability.

RESEARCH REFERENCES

ALR. — Liability arising out of availability or use of automated external defibrillator or other defibrillator device, 2 A.L.R.7th 5.

31-11-54. Services which may be rendered by paramedics and paramedic trainees.

(a) Upon certification by the department, paramedics may perform any service that a cardiac technician is permitted to perform. In addition, upon the order of a duly licensed physician and subject to the conditions set forth in paragraph (2) of subsection (a) of Code Section 31-11-55, paramedics may perform any other procedures which they have been both trained and certified to perform, including, but not limited to:

(1) Administration of parenteral injections of diuretics, anticonvulsants, hypertonic glucose, antihistamines, bronchodilators, emetics, narcotic antagonists, and others, and administration of opioid antagonists;

(2) Cardioversion; and

(3) Endotracheal suction.

(b) While in training preparatory to becoming certified, paramedic trainees may perform any of the functions specified in this Code section under the direct supervision of a duly licensed physician, a registered nurse, or an approved paramedic clinical preceptor. (Code 1933, § 88-3112.5, enacted by Ga. L. 1977, p. 281, § 6; Ga. L. 1988, p. 1923, § 4; Ga. L. 1989, p. 1782, § 2; Ga. L. 2001, p. 1145, § 4; Ga. L. 2014, p. 683, § 2-4/HB 965.)

The 2014 amendment, effective April 24, 2014, added “, and administration of opioid antagonists” at the end of paragraph (a)(1) and substituted “Endotracheal suction” for “Gastric suction by intubation” in paragraph (a)(3). See Editor’s notes for applicability.

Editor’s notes. — Ga. L. 2014, p. 683,

§ 2-1/HB 965, not codified by the General Assembly, provides:

“WHEREAS, Naloxone is an opioid antagonist developed to counter the effects of opiate overdose, specifically the life threatening depression of the central nervous and respiratory systems; and

“WHEREAS, Naloxone is clinically ad-

ministered via intramuscular, intravenous, or subcutaneous injection; and

“WHEREAS, Naloxone is administered outside of a clinical setting or facility intranasally via nasal atomizer; and

“WHEREAS, the American Medical Association supported the lay administration of this life saving drug in 2012; and

“WHEREAS, similar Naloxone access laws have reversed more than 10,000 opioid overdoses by lay people in other states; and

“WHEREAS, the American Medical Association acknowledged that ‘fatalities caused by opioid overdose can devastate families and communities, and we must do more to prevent these unnecessary deaths’; and

“WHEREAS, the National Institutes of Health found that Naloxone ‘lacks any psychoactive or addictive qualities ... without any potential for abuse ... [and] medical side effects or other problematic unintended consequences associated with Naloxone have not been reported’; and

“WHEREAS, any administration of Naloxone to an individual experiencing an opioid overdose must be followed by professional medical attention and treatment.”

Ga. L. 2014, p. 683, § 3-1/HB 965, not codified by the General Assembly, provides, in part, that Parts I and II of this Act shall apply to all acts committed on or after April 24, 2014.

31-11-55. Services which may be rendered by certified cardiac technicians and trainees.

(a) Upon certification by the department, cardiac technicians may do any of the following:

(1) Render first-aid and resuscitation services;

(2) Upon the order of a duly licensed physician and as recommended by the Georgia Emergency Medical Services Advisory Council and approved by the department:

(A) Perform cardiopulmonary resuscitation and defibrillation in a hemodynamically unstable patient;

(B) Administer approved intravenous solutions;

(C) Administer parenteral injections of antiarrhythmic agents, vagolytic agents, chronotropic agents, alkalizing agents, analgesic agents, and vasopressor agents or administer opioid antagonists; and

(D) Perform pulmonary ventilation by esophageal airway and endotracheal intubation.

(b) While in training preparatory to becoming certified, cardiac technician trainees may perform any of the functions specified in this Code section under the direct supervision of a duly licensed physician or a registered nurse. (Code 1933, § 88-3112.4, enacted by Ga. L. 1977, p. 281, § 5; Ga. L. 2001, p. 1145, § 5; Ga. L. 2014, p. 683, § 2-5/HB 965.)

The 2014 amendment, effective April 24, 2014, substituted “Georgia Emergency Medical Services” for “Emergency Health

Services” in paragraph (a)(2); substituted “hemodynamically unstable” for “pulseless, nonbreathing” in subpara-

graph (a)(2)(A); and added “or administer opioid antagonists” in subparagraph (a)(2)(C). See Editor’s notes for applicability.

Editor’s notes. — Ga. L. 2014, p. 683, § 2-1/HB 965, not codified by the General Assembly, provides:

“WHEREAS, Naloxone is an opioid antagonist developed to counter the effects of opiate overdose, specifically the life threatening depression of the central nervous and respiratory systems; and

“WHEREAS, Naloxone is clinically administered via intramuscular, intravenous, or subcutaneous injection; and

“WHEREAS, Naloxone is administered outside of a clinical setting or facility intranasally via nasal atomizer; and

“WHEREAS, the American Medical Association supported the lay administration of this life saving drug in 2012; and

“WHEREAS, similar Naloxone access laws have reversed more than 10,000 opioid overdoses by lay people in other states; and

“WHEREAS, the American Medical Association acknowledged that ‘fatalities caused by opioid overdose can devastate families and communities, and we must do more to prevent these unnecessary deaths’; and

“WHEREAS, the National Institutes of Health found that Naloxone ‘lacks any psychoactive or addictive qualities ... without any potential for abuse ... [and] medical side effects or other problematic unintended consequences associated with Naloxone have not been reported’; and

“WHEREAS, any administration of Naloxone to an individual experiencing an opioid overdose must be followed by professional medical attention and treatment.”

Ga. L. 2014, p. 683, § 3-1/HB 965, not codified by the General Assembly, provides, in part, that Parts I and II of this Act shall apply to all acts committed on or after April 24, 2014.

31-11-55.1. Opioid antagonists administered by first responder to save life of person experiencing opioid related overdose.

(a) As used in this Code section, the term:

(1) “First responder” means any person or agency who provides on-site care until the arrival of a duly licensed ambulance service. This shall include, but not be limited to, persons who routinely respond to calls for assistance through an affiliation with law enforcement agencies, fire departments, and rescue agencies.

(2) “Opioid antagonist” means any drug that binds to opioid receptors and blocks or inhibits the effects of opioids acting on those receptors and that is approved by the federal Food and Drug Administration for the treatment of an opioid related overdose.

(3) “Opioid related overdose” means an acute condition, including, but not limited to, extreme physical illness, decreased level of consciousness, respiratory depression, coma, mania, or death, resulting from the consumption or use of an opioid or another substance with which an opioid was combined or that a layperson would reasonably believe to be resulting from the consumption or use of an opioid or another substance with which an opioid was combined.

(b) An opioid antagonist may be administered or provided by any first responder for the purpose of saving the life of a person experienc-

ing an opioid related overdose. In order to ensure public health and safety:

(1) All first responders who have access to or maintain an opioid antagonist obtain appropriate training as set forth in the rules and regulations of the Department of Public Health;

(2) All law enforcement agencies, fire departments, rescue agencies, and other similar entities shall notify the appropriate emergency medical services system of the possession and maintenance of opioid antagonists by its personnel; and

(3) Within a reasonable period of time, all first responders who administer or provide an opioid antagonist shall make available a printed or electronically stored report to the licensed ambulance service which transports the patient.

(c) A pharmacy licensed in this state may issue opioid antagonists to first responders for use pursuant to this Code section in the same manner and subject to the same requirements as provided in Code Section 26-4-116.

(d) Any first responder who gratuitously and in good faith renders emergency care or treatment by administering or providing an opioid antagonist shall not be held liable for any civil damages as a result of such care or treatment or as a result of any act or failure to act in providing or arranging further medical treatment where the person acts without gross negligence or intent to harm or as an ordinary reasonably prudent person would have acted under the same or similar circumstances, even if such individual does so without benefit of the appropriate training. This subsection includes paid persons who extend care or treatment without expectation of remuneration from the patient or victim for receiving the opioid antagonist. (Code 1981, § 31-11-55.1, enacted by Ga. L. 2014, p. 683, § 2-6/HB 965.)

Effective date. — This Code section became effective April 24, 2014. See Editor's notes for applicability.

Editor's notes. — Ga. L. 2014, p. 683, § 2-1/HB 965, not codified by the General Assembly, provides:

“WHEREAS, Naloxone is an opioid antagonist developed to counter the effects of opiate overdose, specifically the life threatening depression of the central nervous and respiratory systems; and

“WHEREAS, Naloxone is clinically administered via intramuscular, intravenous, or subcutaneous injection; and

“WHEREAS, Naloxone is administered outside of a clinical setting or facility intranasally via nasal atomizer; and

“WHEREAS, the American Medical Association supported the lay administration of this life saving drug in 2012; and

“WHEREAS, similar Naloxone access laws have reversed more than 10,000 opioid overdoses by lay people in other states; and

“WHEREAS, the American Medical Association acknowledged that ‘fatalities caused by opioid overdose can devastate families and communities, and we must do more to prevent these unnecessary deaths’; and

“WHEREAS, the National Institutes of Health found that Naloxone ‘lacks any psychoactive or addictive qualities ... without any potential for abuse ... [and]

medical side effects or other problematic unintended consequences associated with Naloxone have not been reported'; and

"WHEREAS, any administration of Naloxone to an individual experiencing an opioid overdose must be followed by professional medical attention and treatment."

Ga. L. 2014, p. 683, § 3-1/HB 965, not codified by the General Assembly, provides, in part, that Parts I and II of this Act shall apply to all acts committed on or after April 24, 2014.

ARTICLE 6

SYSTEM OF CERTIFIED STROKE CENTERS

31-11-110. Legislative findings.

The General Assembly finds and declares that:

(1) The rapid identification, diagnosis, and treatment of stroke can save the lives of stroke patients and in some cases can reverse neurological damage such as paralysis and speech and language impairments, leaving stroke patients with few or no neurological deficits;

(2) Despite significant advances in diagnosis, treatment, and prevention, stroke is the fifth leading cause of death and the number one cause of disability in this country; an estimated 800,000 new and recurrent strokes occur each year in this country, and with the aging of the population, the number of persons who have strokes is projected to increase;

(3) Although new treatments are available to improve the clinical outcomes of stroke, many acute care hospitals often face challenges in obtaining staff and equipment required to optimally triage and treat stroke patients, including the provision of optimal, safe, and effective emergency care for these patients;

(4) Although the Georgia Coverdell Acute Stroke Registry currently exists within the Department of Public Health as a program whose purpose is to increase improvement of the quality of acute stroke care through collaborative efforts with participating hospitals in this state, less than one-third of Georgia's hospitals are currently enrolled in the program. Therefore, increased participation in and funding of this program in conjunction with the adherence to the tenets of this article would have profound effects on the quality of care for acute stroke patients in this state;

(5) An effective system to support stroke survival is needed in our communities in order to treat stroke patients in a timely manner and to improve the overall treatment of stroke patients in order to increase survival and decrease the disabilities associated with stroke.

There is a public health need for acute care hospitals in this state to establish stroke centers to ensure the rapid triage, diagnostic evaluation, and treatment of patients suffering a stroke;

(6) At least three levels of stroke centers should be established for the treatment of acute stroke:

(A) Comprehensive stroke centers should be established in hospitals to provide complete and specialized care to patients who experience the most complex strokes, which require specialized testing, highly technical procedures, and other interventions, and to provide education and guidance to primary and remote treatment stroke centers;

(B) Primary stroke centers should be established in as many acute care hospitals as possible to evaluate, stabilize, and provide or arrange for treatment, care, and rehabilitative services to patients diagnosed with acute stroke; and

(C) Remote treatment stroke centers should be established to evaluate, stabilize, and provide treatment to patients diagnosed with acute stroke in rural and other underserved areas of the state, because access to stroke care is limited in these areas due to the limited availability of professional specialists, high-tech imaging equipment, and transportation services;

(7) Coordination between stroke centers should be encouraged through the establishment of coordinated stroke care agreements; and

(8) Therefore, it is in the best interest of the residents of this state to establish a program to identify certified stroke centers throughout the state, to provide specific patient care and support services criteria that stroke centers must meet in order to ensure that stroke patients receive safe and effective care, and to provide financial support to acute care hospitals to encourage them to develop stroke centers in all areas of the state. Further, it is in the best interest of the people of this state to modify the state's emergency medical response system to assure that stroke patients may be quickly identified and transported to and treated in facilities that have specialized programs for providing timely and effective treatment for stroke patients. (Code 1981, § 31-11-110, enacted by Ga. L. 2008, p. 1102, § 2/SB 549; Ga. L. 2009, p. 453, § 1-4/HB 228; Ga. L. 2011, p. 705, § 6-3/HB 214; Ga. L. 2016, p. 438, § 1/HB 853; Ga. L. 2017, p. 774, § 31/HB 323.)

The 2016 amendment, effective April 26, 2016, substituted "patients" for "victims" throughout this Code section; in paragraph (2), inserted a comma following "treatment" and substituted "fifth leading

cause of death and the number one cause of disability in this country; an estimated 800,000" for "third leading cause of death and the biggest cause of disability in this country; an estimated 700,000 to

750,000”; in paragraph (6), substituted “At least three levels” for “Two levels” in the introductory language, added present subparagraph (6)(A), redesignated former subparagraphs (6)(A) and (6)(B) as present subparagraphs (6)(B) and (6)(C), respectively, and rewrote subparagraph (6)(C); and, in paragraph (7), deleted “primary stroke centers and remote treatment” following “Coordination between”, and deleted “between primary stroke centers and remote treatment stroke centers” following “stroke care agreements”.

31-11-111. “Department” defined.

Editor’s notes. — Ga. L. 2016, p. 438, § 1/HB 853, effective April 26, 2016, reenacted this Code section without change. Refer to the bound volume for text of this Code section.

Ga. L. 2016, p. 438, § 2/HB 853, not

The 2017 amendment, effective May 9, 2017, part of an Act to revise, modernize, and correct the Code, revised punctuation in paragraphs (2) and (4) and subparagraph (6)(A).

Editor’s notes. — Ga. L. 2016, p. 438, § 2/HB 853, not codified by the General Assembly, provides: “The department shall begin the rulemaking process to effect the provisions of this Act no later than June 30, 2016.”

codified by the General Assembly, provides: “The department shall begin the rulemaking process to effect the provisions of this Act no later than June 30, 2016.”

31-11-112. Identification of stroke centers.

(a) The department shall identify hospitals that meet the criteria set forth in this article as comprehensive, primary, or remote treatment stroke centers. In addition, the department shall be authorized to establish one or more additional levels of stroke centers, in consultation with the Georgia Coverdell Acute Stroke Registry, as necessary based on advancements in medicine and patient care.

(b) A hospital shall apply to the department for such identification and shall demonstrate to the satisfaction of the department that the hospital meets the applicable criteria set forth in or established in accordance with Code Section 31-11-113.

(c) The department shall identify as many hospitals as stroke centers as apply for the identification, provided that each applicant meets the applicable criteria set forth in Code Section 31-11-113 or established by the department.

(d) The department may suspend or revoke a hospital’s identification as a stroke center, after notice and hearing, if the department determines that the hospital is not in compliance with the requirements of this article. (Code 1981, § 31-11-112, enacted by Ga. L. 2008, p. 1102, § 2/SB 549; Ga. L. 2016, p. 438, § 1/HB 853.)

The 2016 amendment, effective April 26, 2016, in subsection (a), in the first sentence, inserted “comprehensive,” inserted a comma following “primary”, and

added the second sentence; inserted “or established in accordance with” near the end of subsection (b); in subsection (c), deleted “primary or remote treatment”

following “many hospitals as” near the middle, and added “or established by the department” at the end; and deleted “primary or remote treatment” following “identification as a” in subsection (d).

Editor’s notes. — Ga. L. 2016, p. 438,

§ 2/HB 853, not codified by the General Assembly, provides: “The department shall begin the rulemaking process to effect the provisions of this Act no later than June 30, 2016.”

31-11-113. Certification; application process; inspections.

(a) A hospital identified as a comprehensive or primary stroke center shall be certified as such by a national health care accreditation body recognized by the department. Any hospital wishing to receive official identification under this subsection shall submit a written application to the department, providing adequate documentation of the hospital’s valid certification as a comprehensive or primary stroke center by any such national health care accreditation body.

(b) Remote treatment stroke centers shall be certified and identified by the department either by certification as an acute stroke-ready hospital by a national health care accreditation body recognized by the department or through an application process to be determined by the department. Said application process shall contain, at minimum, the following requirements:

(1) Remote treatment stroke center certifications and identifications by the department are limited to those hospitals that utilize current and acceptable telemedicine protocols relative to acute stroke treatment as defined by the department;

(2) Upon receipt of complete and proper application for certification as a remote treatment stroke center, the department shall schedule and conduct an inspection of the applicant’s facility no later than 90 days after receipt of application; and

(3) Any hospital, upon certification by the department as a remote treatment stroke center, shall automatically be identified as a remote treatment stroke center and shall be added to the list of such hospitals maintained pursuant to subsection (a) of Code Section 31-11-115.

(c) Any additional levels of stroke centers established by the department pursuant to subsection (a) of Code Section 31-11-112 shall be certified by the department in accordance with any criteria and guidelines established by the department in rules and regulations.

(d) Comprehensive and primary stroke centers are encouraged to coordinate, through agreement, with remote treatment stroke centers throughout the state to provide appropriate access to care for acute stroke patients. The coordinating stroke care agreements shall be in writing and include at minimum:

(1) Transfer agreements for the transport and acceptance of all stroke patients seen by the remote treatment stroke center for stroke treatment therapies which the remote treatment stroke center is not capable of providing; and

(2) Communication criteria and protocols with the remote treatment stroke centers. (Code 1981, § 31-11-113, enacted by Ga. L. 2008, p. 1102, § 2/SB 549; Ga. L. 2012, p. 337, § 6/SB 361; Ga. L. 2016, p. 438, § 1/HB 853.)

The 2016 amendment, effective April 26, 2016, in subsection (a), inserted “comprehensive or” in the first and second sentences, in the first sentence, substituted “national health” for “nationally recognized health” in the middle, and added “recognized by the department” at the end, in the second sentence, substituted “this subsection shall” for “this Code section must” near the middle, and substituted “any such national health care accreditation body” for “the commission” at the end; in the introductory paragraph of subsection (b), inserted “either by certification as an acute stroke-ready hospital by a national health care accreditation body recognized by the department or” in

the first sentence, and inserted “application” in the second sentence; substituted “maintained pursuant to” for “as defined in” near the end of paragraph (b)(3); added subsection (c); redesignated former subsection (c) as present subsection (d); and, in subsection (d), substituted “Comprehensive and primary” for “Primary” in the first sentence of the introductory paragraph.

Editor’s notes. — Ga. L. 2016, p. 438, § 2/HB 853, not codified by the General Assembly, provides: “The department shall begin the rulemaking process to effect the provisions of this Act no later than June 30, 2016.”

31-11-114. Grants; report.

(a) In order to encourage and ensure the establishment of stroke centers throughout the state, the department shall award grants, subject to appropriations from the General Assembly, to hospitals that seek identification as remote treatment stroke centers and demonstrate a need for financial assistance to develop the necessary infrastructure, including personnel and equipment, in order to satisfy the criteria for identification as a remote treatment stroke center pursuant to subsection (b) of Code Section 31-11-113.

(b) A hospital seeking identification as a remote treatment stroke center pursuant to this article may apply to the department for a grant, in a manner and on a form required by the department, and provide such information as the department deems necessary to determine if the hospital is eligible for the grant.

(c) The department may provide grants to as many hospitals as it deems appropriate, subject to appropriations, taking into consideration adequate geographic diversity with respect to locations.

(d) The department shall annually prepare and submit to the Governor, the President of the Senate, the Speaker of the House of

Representatives, and the chairpersons of the House Committee on Health and Human Services and the Senate Health and Human Services Committee for distribution to its committee members a report indicating the total number of hospitals that have applied for grants pursuant to this Code section, the number of applicants that have been determined by the department to be eligible for such grants, the total number of grants to be awarded, the name and address of each grantee hospital, the amount of the award to each grantee, and the amount of each award to be disbursed to the grantee. (Code 1981, § 31-11-114, enacted by Ga. L. 2008, p. 1102, § 2/SB 549; Ga. L. 2016, p. 438, § 1/HB 853.)

The 2016 amendment, effective April 26, 2016, substituted the present provisions of subsection (d) for the former provisions, which read: “The department shall, not later than September 1, 2009, prepare and submit to the Governor, the President of the Senate, and the Speaker of the House of Representatives a report indicating, as of June 30, 2009, the total number of hospitals that have applied for grants pursuant to this Code section, the number of applicants that have been determined by the department to be eligible for such grants, the total number of grants to be awarded, the name and address of

each grantee hospital, the amount of the award to each grantee, the amount of each award to be disbursed to the grantee, and whether or not, in the opinion of the department, each grantee would be able to attain identification as a remote treatment stroke center pursuant to subsection (b) of Code Section 31-11-113.”

Editor’s notes. — Ga. L. 2016, p. 438, § 2/HB 853, not codified by the General Assembly, provides: “The department shall begin the rulemaking process to effect the provisions of this Act no later than June 30, 2016.”

31-11-115. Distribution of list of state identified stroke centers to emergency medical services providers; development of a model stroke triage assessment tool; assessment, treatment, and transport of stroke patients.

(a) Beginning June 1, 2009, and each year thereafter, the department shall send a list of comprehensive, primary, remote treatment, and other level stroke centers identified pursuant to Code Section 31-11-113 to the medical director of each licensed emergency medical services provider in this state, shall maintain a copy of the list in the office designated with the department to oversee emergency medical services, and shall post a list of comprehensive, primary, remote treatment, and other level stroke centers on the department’s website.

(b) The department shall adopt or develop a sample stroke triage assessment tool. The department shall post this sample assessment tool on its website and distribute a copy of the sample assessment tool to each licensed emergency medical services provider no later than December 31, 2008. Each licensed emergency medical services provider shall use a stroke triage assessment tool that is substantially similar to the sample stroke triage assessment tool provided by the department.

(c) The office designated within the department to oversee emergency medical services shall establish protocols related to the assessment, treatment, triage, and transport of stroke patients, including transport to the appropriate level stroke centers, by licensed emergency medical services providers in this state. (Code 1981, § 31-11-115, enacted by Ga. L. 2008, p. 1102, § 2/SB 549; Ga. L. 2016, p. 438, § 1/HB 853.)

The 2016 amendment, effective April 26, 2016, in subsection (a), substituted “a list of comprehensive, primary, remote treatment, and other level stroke centers” for “the list of primary and remote treatment stroke centers” near the beginning, and substituted “list of comprehensive primary, remote treatment, and other level stroke centers” for “list of primary and remote treatment stroke centers”

near the end; and, in subsection (c), inserted “triage,” and inserted “, including transport to the appropriate level stroke centers,”.

Editor’s notes. — Ga. L. 2016, p. 438, § 2/HB 853, not codified by the General Assembly, provides: “The department shall begin the rulemaking process to effect the provisions of this Act no later than June 30, 2016.”

31-11-116. Annual reports.

(a) In order to assure that the patients are receiving the appropriate level of care and treatment at each level of stroke center in the state, each hospital identified as a stroke center shall annually report information, as specified by the department in its rules and regulations, to the department.

(b) The department shall collect the information reported pursuant to subsection (a) of this Code section and shall post such information in the form of a report card annually on the department’s website and present such report to the Governor, the President of the Senate, and the Speaker of the House of Representatives. The results of this report card may be used by the department to conduct training with the identified facilities regarding best practices in the treatment of stroke.

(c) In no way shall this article be construed to require disclosure of any confidential information or other data in violation of the federal Health Insurance Portability and Accountability Act of 1996, P.L. 104-191. (Code 1981, § 31-11-116, enacted by Ga. L. 2008, p. 1102, § 2/SB 549; Ga. L. 2016, p. 438, § 1/HB 853.)

The 2016 amendment, effective April 26, 2016, rewrote this Code section.

Editor’s notes. — Ga. L. 2016, p. 438, § 2/HB 853, not codified by the General

Assembly, provides: “The department shall begin the rulemaking process to effect the provisions of this Act no later than June 30, 2016.”

31-11-117. Statutory construction.

Editor’s notes. — Ga. L. 2016, p. 438, § 1/HB 853, effective April 26, 2016, reenacted this Code section without change. Refer to the bound volume for text of this Code section.

Ga. L. 2016, p. 438, § 2/HB 853, not

codified by the General Assembly, provides: “The department shall begin the rulemaking process to effect the provisions of this Act no later than June 30, 2016.”

31-11-118. Advertising.

A hospital may not advertise to the public, by way of any medium whatsoever, that it is identified by the state as a comprehensive, primary, remote treatment, or other level stroke center unless the hospital has been identified as such by the department pursuant to this article. (Code 1981, § 31-11-118, enacted by Ga. L. 2008, p. 1102, § 2/SB 549; Ga. L. 2016, p. 438, § 1/HB 853.)

The 2016 amendment, effective April 26, 2016, substituted “a comprehensive, primary, remote treatment, or other level” for “a primary or remote treatment” in this Code section.

Editor’s notes. — Ga. L. 2016, p. 438,

§ 2/HB 853, not codified by the General Assembly, provides: “The department shall begin the rulemaking process to effect the provisions of this Act no later than June 30, 2016.”

31-11-119. Rules and regulations.

Editor’s notes. — Ga. L. 2016, p. 438, § 1/HB 853, effective April 26, 2016, reenacted this Code section without change. Refer to the bound volume for text of this Code section.

Ga. L. 2016, p. 438, § 2/HB 853, not

codified by the General Assembly, provides: “The department shall begin the rulemaking process to effect the provisions of this Act no later than June 30, 2016.”

ARTICLE 7

EMERGENCY CARDIAC CARE CENTERS

Effective date. — This article became effective July 1, 2017.

31-11-130. Legislative findings.

The General Assembly finds and declares that:

(1) Cardiovascular disease is the number one cause of death in the United States and in Georgia;

(2) Georgia ranks as the thirty-eighth worst in the nation for numbers of deaths from cardiovascular disease;

(3) There were 79,901 deaths in Georgia in 2015, and cardiovascular disease (excluding stroke) accounted for 23.6 percent of such deaths;

(4) Approximately 40 percent of cardiac deaths occur suddenly, the result of a heart attack that is manifested by an out-of-hospital cardiac arrest;

(5) As of 2016, several states, but notably Arizona and Washington, have designated hospitals that are expert in cardiovascular disease care, much in the way that Georgia has stroke and trauma centers; Arizona and Washington have some of the lowest death rates for patients who have heart attacks, in part due to their designated cardiac centers; and

(6) Therefore, it is in the best interest of the residents of this state to establish a program to identify emergency cardiac care centers throughout the state to ensure the rapid triage, assessment, treatment, and transport of patients experiencing out-of-hospital cardiac arrest or heart attack or its complications. (Code 1981, § 31-11-130, enacted by Ga. L. 2017, p. 302, § 1/SB 102.)

31-11-131. Definitions.

As used in this article, the term:

(1) “Emergency cardiac care center” means a hospital that has been designated by the office pursuant to this article as meeting the criteria set forth in this article.

(2) “Office” means the Office of Cardiac Care established pursuant to this article. (Code 1981, § 31-11-131, enacted by Ga. L. 2017, p. 302, § 1/SB 102.)

31-11-132. Office of Cardiac Care; level designations and requirements.

(a) There shall be established the Office of Cardiac Care within the Department of Public Health. The office shall administer the designation process provided for in this article, including, but not limited to, data collection, analysis and reporting, and site visits.

(b) The office shall designate hospitals that meet the criteria set forth in this article as emergency cardiac care centers. Each emergency cardiac care center shall be further designated as Level I, Level II, or Level III by the office. The criteria for each level designation shall be established by the office and shall include, at a minimum, the following:

(1) Level I shall have:

(A) Cardiac catheterization and angioplasty facilities available 24 hours, seven days per week, 365 days per year;

(B) On-site cardiothoracic surgery capability available 24 hours, seven days per week, 365 days per year;

(C) Established protocols for therapeutic hypothermia for out-of-hospital cardiac arrest patients;

(D) The ability to implant percutaneous left ventricular assist devices for support of hemodynamically unstable patients experiencing out-of-hospital cardiac arrest or heart attack;

(E) Neurologic protocols to measure functional status at hospital discharge; and

(F) The ability to implant automatic implantable cardioverter defibrillators;

(2) Level II shall have:

(A) Cardiac catheterization and angioplasty facilities available 24 hours, seven days per week, 365 days per year, but no on-site cardiothoracic surgery capability;

(B) Established protocols for therapeutic hypothermia for out-of-hospital cardiac arrest patients;

(C) Neurologic protocols to measure functional status at hospital discharge; and

(D) A written transfer plan with one or more Level I emergency cardiac care centers for patients who need left ventricular assist devices or cardiothoracic surgery;

(3) Level III shall have:

(A) Established protocols for therapeutic hypothermia for out-of-hospital cardiac arrest patients; and

(B) A written plan for systematic transfer to a Level I or Level II facility; and

(4) The department shall be authorized to establish one or more additional levels of cardiac care centers as necessary based upon advancements in medicine and patient care.

(c) Emergency cardiac care centers are encouraged to coordinate, through agreement, with other level emergency cardiac care centers throughout the state to provide appropriate access to care for cardiac patients. The coordinating agreements shall be in writing and include at a minimum:

(1) Transfer agreements for the transport and acceptance of:

(A) Cardiac patients seen by a Level I emergency cardiac care center which a Level II or III emergency cardiac care center is not capable of providing; or

(B) Cardiac patients seen by a Level II emergency cardiac care center which a Level III emergency cardiac care center is not capable of providing; and

(2) Communication criteria and protocols between the emergency cardiac care centers. (Code 1981, § 31-11-132, enacted by Ga. L. 2017, p. 302, § 1/SB 102.)

31-11-133. Designation as emergency cardiac care center; suspension or revocation.

(a) A hospital shall apply to the office for designation as an emergency cardiac care center through an application process to be determined by the office. A hospital shall demonstrate to the satisfaction of the office that the hospital meets the applicable criteria set forth in this article. The application process may include an on-site inspection of the hospital at the discretion of the office.

(b) The office shall establish requirements for the periodic redesignation of emergency cardiac care centers.

(c) The office may suspend or revoke a hospital's identification as an emergency cardiac care center, after notice and hearing, if the office determines that the hospital is not in compliance with the requirements or criteria of this article. (Code 1981, § 31-11-133, enacted by Ga. L. 2017, p. 302, § 1/SB 102.)

31-11-134. Data reporting system.

(a) The office shall establish a data reporting system which may be composed of one or more data bases for the reporting of data on all out-of-hospital cardiac arrest patients and all heart attack patients. The data reporting system may be composed of data bases established or designated by the office, including, but not limited to, data bases newly created and managed by or on behalf of the office, existing state data bases modified to include such additional reporting, existing regional or national data bases, or any combination thereof.

(b) Each emergency cardiac care center shall:

(1) Report to the data base specified by the office data on all out-of-hospital cardiac arrest patients and data on all heart attack patients in accordance with time frame requirements established by the office; and

(2) Have a written system included in the protocols for the hospital for timely submission of all such data required to be submitted pursuant to this Code section and office guidelines.

(c) The office shall, on an ongoing basis, analyze state-wide data collected pursuant to this Code section for out-of-hospital cardiac arrest patients and heart attack patients, with the goal of improving survival rates over the initial three years of the program, and shall improve any processes or adjust any protocols as necessary to implement best practices to improve the cardiac care of patients through emergency cardiac care centers in this state.

(d) The office shall collect the data reported pursuant to this Code section and shall post such information in the form of an annual report card on the office's website and present such report to the Governor, the President of the Senate, and the Speaker of the House of Representatives. The results of this report card may be used by the office to conduct training with the identified hospitals regarding best practices in the treatment of emergency cardiac care patients.

(e) In no way shall this article be construed to require disclosure of any confidential information or other data in violation of the federal Health Insurance Portability and Accountability Act of 1996, P.L. 104-191. (Code 1981, § 31-11-134, enacted by Ga. L. 2017, p. 302, § 1/SB 102.)

31-11-135. Grants to hospitals; reporting.

(a) In order to encourage and ensure the establishment of emergency cardiac care centers throughout the state, the office shall award grants, subject to appropriations from the General Assembly, to hospitals that seek designation as emergency cardiac care centers and demonstrate a need for financial assistance to develop the necessary infrastructure, including personnel and equipment, in order to satisfy the criteria for designation as an emergency cardiac care center pursuant to this article.

(b) A hospital seeking designation as an emergency cardiac care center pursuant to this article may apply to the office for a grant, in a manner and on a form required by the office, and provide such information as the office deems necessary to determine if the hospital is eligible for such grant.

(c) The office may provide grants to as many hospitals as it deems appropriate, subject to appropriations from the General Assembly, taking into consideration adequate geographic diversity with respect to locations.

(d) The office shall annually prepare and submit to the Governor, the President of the Senate, the Speaker of the House of Representatives,

and the chairpersons of the House Committee on Health and Human Services and the Senate Health and Human Services Committee for distribution to its committee members a report indicating the total number of hospitals that have applied for grants pursuant to this Code section, the number of applicants that have been determined by the office to be eligible for such grants, the total number of grants to be awarded, the name and address of each grantee, and the amount of the award to each grantee. (Code 1981, § 31-11-135, enacted by Ga. L. 2017, p. 302, § 1/SB 102.)

31-11-136. Listing of emergency cardiac care centers; emergency cardiac care triage assessment tool; protocols.

(a) Beginning June 1, 2018, and each year thereafter, the office shall provide a list of emergency cardiac care centers designated pursuant to this article to the medical director of each licensed emergency medical services provider in this state, shall maintain a copy of such list in the office, and shall post such list on the office's website.

(b) The office shall adopt or develop a sample emergency cardiac care triage assessment tool. The office shall post this sample assessment tool on its website and distribute a copy of the sample assessment tool to each licensed emergency medical services provider no later than December 31, 2017. Each licensed emergency medical services provider shall use an emergency cardiac care triage assessment tool that is substantially similar to the sample emergency cardiac care triage assessment tool provided by the office.

(c) The office shall establish protocols related to the triage, assessment, treatment, and transport of emergency cardiac care patients by licensed emergency medical services providers in this state. (Code 1981, § 31-11-136, enacted by Ga. L. 2017, p. 302, § 1/SB 102.)

31-11-137. Statutory construction.

This article shall not be construed to be a medical practice guideline or to establish a standard of care for treatment and shall not be used to restrict the authority of a hospital to provide services for which it has received a license under state law. The General Assembly intends that all patients be treated individually based on each patient's needs and circumstances. (Code 1981, § 31-11-137, enacted by Ga. L. 2017, p. 302, § 1/SB 102.)

31-11-138. Advertisement as emergency cardiac care center.

A hospital may not advertise to the public, by way of any medium whatsoever, that it is identified by the state as an emergency cardiac

care center unless the hospital has been designated as such by the office pursuant to this article. (Code 1981, § 31-11-138, enacted by Ga. L. 2017, p. 302, § 1/SB 102.)

31-11-139. Rules and regulations.

The office shall be authorized to promulgate rules and regulations to carry out the purposes of this article. (Code 1981, § 31-11-139, enacted by Ga. L. 2017, p. 302, § 1/SB 102.)

CHAPTER 12

CONTROL OF HAZARDOUS CONDITIONS,
PREVENTABLE DISEASES, AND
METABOLIC DISORDERS

- | | | | |

| Sec. | | Sec. | |
| 31-12-2. | Reporting certain diseases and neonatal abstinence syndrome; confidentiality; reporting required of pharmacists; immunity from liability as to information supplied; notification of potential bioterrorism. | 31-12-6. | System for prevention of serious illness, severe physical or developmental disability, and death resulting from inherited metabolic and genetic disorders. |
| 31-12-2.1. | Investigation of potential bioterrorism activity; regulations and planning for public health emergencies. | 31-12-12. | Restrictions on sale or dispensing of contact lenses and spectacles; definitions; responsibilities relating to prescriptions; criminal violation; enforcement. |
| 31-12-3.2. | Meningococcal disease; vaccinations; disclosures. | | |

Law reviews. — For article, “Lurching from Complacency to Panic in the Fight Against Dangerous Microbes: A Blueprint for a Common Secure Future,” see 67 Emory L.J. 337 (2018). For article, “Liability for Vaccine Injury: The United States, the European Union, and the Developing World,” see 67 Emory L.J. 415

(2018). For article, “Do State Lines Make Public Health Emergencies Worse? Federal Versus State Control of Quarantine,” see 67 Emory L.J. 491 (2018).
For comment, “Closing the Gap: Protecting Predictive Neuroscience Information from Health Insurance Discrimination,” see 64 Emory L.J. 1433 (2015).

31-12-2. Reporting certain diseases and neonatal abstinence syndrome; confidentiality; reporting required of pharmacists; immunity from liability as to information supplied; notification of potential bioterrorism.

(a) The department is empowered to declare certain diseases, injuries, and conditions to be diseases requiring notice and to require the reporting thereof to the county board of health and the department in a manner and at such times as may be prescribed. The department shall require that such data be supplied as are deemed necessary and appropriate for the prevention of certain diseases, injuries, and conditions as are determined by the department. All such reports and data shall be deemed confidential and shall not be open to inspection by the public; provided, however, the department may release such reports and data in statistical form or for valid research purposes.

(a.1)(1) As used in this subsection, the term “neonatal abstinence syndrome” means a group of physical problems that occur in a newborn infant who was exposed to addictive illegal or prescription drugs while in the mother’s womb.

(2) The department shall require notice and reporting of incidents of neonatal abstinence syndrome. A health care provider, coroner, or medical examiner, or any other person or entity the department determines has knowledge of diagnosis or health outcomes related, directly or indirectly, to neonatal abstinence syndrome shall report incidents of neonatal abstinence syndrome to the department. The department shall provide an annual report to the President of the Senate, the Speaker of the House of Representatives, the chairperson of the House Committee on Health and Human Services, and the chairperson of the Senate Health and Human Services Committee. Such annual report shall include any department findings and recommendations on how to reduce the number of infants born with neonatal abstinence syndrome.

(b) A health care provider, coroner, or medical examiner shall report to the department and the county board of health all known or presumptively diagnosed cases of persons harboring any illness or health condition that may be caused by bioterrorism, epidemic or pandemic disease, or novel and highly fatal infectious agents or toxins and that may pose a substantial risk of a public health emergency. Reportable illnesses and conditions include, without limitation, diseases caused by biological agents listed at 42 C.F.R. Part 72, app. A (2000) and any illnesses or conditions identified by the department as potential causes of a public health emergency.

(c) A pharmacist shall report to the department and the county board of health any unusual or increased prescription rates, unusual types of

prescriptions, or unusual trends in pharmacy visits that may reasonably be believed to be caused by bioterrorism, epidemic or pandemic disease, or novel and highly fatal infectious agents or toxins and that may pose a substantial risk of a public health emergency.

(d) Any person, including but not limited to practitioners of the healing arts, submitting in good faith reports or data to the department or county boards of health in compliance with the provisions of this Code section shall not be liable for any civil damages therefor.

(e) Whenever the department learns of any case of an unusual illness, health condition, or death, or an unusual cluster of such events, or any other suspicious health related event that it reasonably believes has the potential to be caused by bioterrorism, it shall immediately notify the Department of Public Safety and other appropriate public safety authorities. (Code 1933, § 88-1202, enacted by Ga. L. 1964, p. 499, § 1; Ga. L. 1982, p. 1077, §§ 2, 4; Ga. L. 2002, p. 1386, § 6; Ga. L. 2017, p. 319, § 4-1/HB 249.)

The 2017 amendment, effective July 1, 2017, added subsection (a.1). 2017 amendment of this Code section, see 34 Ga. St. U. L. Rev. 143 (2017).

Law reviews. — For article on the

31-12-2.1. Investigation of potential bioterrorism activity; regulations and planning for public health emergencies.

(a) The department shall ascertain the existence of any illness or health condition that may be caused by bioterrorism, epidemic or pandemic disease, or novel and highly fatal infectious agents or toxins and that may pose a substantial risk of a public health emergency; investigate all such cases to determine sources of infection and to provide for proper control measures; and define the distribution of the illness or health condition. The department shall:

(1) Identify, interview, and counsel, as appropriate, all individuals reasonably believed to have been exposed to risk;

(2) Develop information relating to the source and spread of the risk; and

(3) Close, evacuate, or decontaminate, as appropriate, any facility and decontaminate or destroy any contaminated materials when the department reasonably suspects that such material or facility may endanger the public health.

(b) The department shall promulgate rules and regulations appropriate for management of any public health emergency declared pursuant to the provisions of Code Section 38-3-51, with particular regard to coordination of the public health emergency response of the state pursuant to subsection (i) of said Code section. Such rules and regula-

tions shall be applicable to the activities of all entities created pursuant to Chapter 3 of this title in such circumstances, notwithstanding any other provisions of law. In developing such rules and regulations, the department shall consult and coordinate as appropriate with the Georgia Emergency Management and Homeland Security Agency, the Federal Emergency Management Agency, the Georgia Department of Public Safety, the Georgia Department of Agriculture, and the federal Centers for Disease Control and Prevention. The department is authorized, in the course of management of a declared public health emergency, to adopt and implement emergency rules and regulations pursuant to the provisions of subsection (b) of Code Section 50-13-4. Such rules and regulations shall be adopted pursuant to Chapter 13 of Title 50, the “Georgia Administrative Procedure Act,” but shall be automatically referred by the Office of Legislative Counsel to the House of Representatives and Senate Committees on Judiciary.

(c) The department shall promulgate, prepare, and maintain a public health emergency plan and draft executive order for the declaration of a public health emergency pursuant to Code Section 38-3-51 and Chapter 13 of Title 50. In preparation of such public health emergency plan and draft executive order, the department shall consult and coordinate as appropriate with the Georgia Emergency Management and Homeland Security Agency, the Federal Emergency Management Agency, the Georgia Department of Public Safety, the Georgia Department of Agriculture, and the federal Centers for Disease Control and Prevention. (Code 1981, § 31-12-2.1, enacted by Ga. L. 2002, p. 1386, § 7; Ga. L. 2016, p. 91, § 4/SB 416.)

The 2016 amendment, effective July 1, 2016, inserted “and Homeland Security” following “Georgia Emergency Management” in subsections (b) and (c).

31-12-3.2. Meningococcal disease; vaccinations; disclosures.

(a) Every public and nonpublic postsecondary educational institution shall provide to each newly admitted freshman or matriculated student residing in campus housing as defined by the postsecondary educational institution or to the student’s parent or guardian if the student is a minor, the following information:

(1) Meningococcal disease is a serious disease that can lead to death within only a few hours of onset; one in ten cases is fatal; and one in seven survivors of the disease is left with a severe disability, such as the loss of a limb, developmental disability, paralysis, deafness, or seizures;

(2) Meningococcal disease is contagious but a largely preventable infection of the spinal cord fluid and the fluid that surrounds the brain;

(3) Scientific evidence suggests that college students living in dormitory facilities are at a moderately increased risk of contracting meningococcal disease; and

(4) Immunization against meningococcal disease will decrease the risk of the disease.

(b) In accordance with the recommendations of the Advisory Committee on Immunization Practices of the Centers for Disease Control and Prevention, newly admitted students who are 18 years of age or older residing in campus housing as defined by the postsecondary educational institution or residing in sorority or fraternity houses shall be required to sign a document provided by the postsecondary educational institution stating that he or she has received vaccination against meningococcal disease not more than five years prior to such admittance or reviewed the information provided as required by subsection (a) of this Code section. If a student is a minor, only a parent or guardian may sign such document.

(c) Nothing in this Code section shall be construed to require any postsecondary educational institution to provide or pay for vaccinations of students against meningococcal disease.

(d) Any postsecondary educational institution that has made a reasonable effort to comply with this Code section shall not be liable for damages or injuries sustained by a student by reason of such student's contracting meningococcal disease. (Code 1981, § 31-12-3.2, enacted by Ga. L. 2003, p. 292, § 1; Ga. L. 2009, p. 453, § 3-6/HB 228; Ga. L. 2015, p. 297, § 1/HB 504.)

The 2015 amendment, effective July 1, 2015, in subsection (b), in the first sentence, substituted "In accordance with the recommendations of the Advisory Committee on Immunization Practices of the Centers for Disease Control and Prevention, newly admitted students" for "Students" at the beginning, inserted "re-

siding in campus housing as defined by the postsecondary educational institution or residing in sorority or fraternity houses", deleted "a" following "she has received", and inserted "not more than five years prior to such admittance" near the end.

31-12-6. System for prevention of serious illness, severe physical or developmental disability, and death resulting from inherited metabolic and genetic disorders.

(a) The department shall promulgate rules and regulations creating a system for the prevention of serious illness, severe physical or developmental disability, and death caused by genetic conditions, such as phenylketonuria, galactosemia, homocystinuria, maple syrup urine disease, hypothyroidism, congenital adrenal hyperplasia, Krabbe disease, and such other inherited metabolic and genetic disorders as may be identified in the future to result in serious illness, severe physical or

developmental disability, and death if undiagnosed and untreated. The system shall have five components: screening newborns for the disorders; retrieving potentially affected screenees back into the health care system; accomplishing specific diagnoses; initiating and continuing therapy; and assessing the program.

(b) The entire process for screening, retrieval, and diagnosis must occur within time frames established by the department pursuant to rules and regulations, and the system shall be structured to meet this critical need.

(c) The department shall be responsible for the screening of all newborns for the disorders enumerated and in a manner determined by the department pursuant to rules and regulations and shall be responsible for assessment of the program; provided, however, that screening for Krabbe disease shall be conducted separately at the option of the parent or parents.

(d) The department shall, to the extent state or federal funds are available for such purposes, including but not limited to funds provided under Title V of the Social Security Act, the Maternal and Child Health Services Block Grant, provide for retrieving potentially affected screenees back into the health care system; accomplishing specific diagnoses; initiating and continuing therapy; and assessing the program.

(e) The department shall utilize appropriate existing resources whenever possible and shall cause the coordination and cooperation of agencies and organizations having resources necessary for the creation of an effective system.

(f) The department shall be authorized to establish and periodically adjust, by rule and regulation, fees associated with the screening, retrieval, and diagnosis conducted pursuant to this Code section to help defray or meet the costs incurred by the department; provided, however, that the fees for screening for Krabbe disease shall be paid directly by the parents to the laboratory. In no event shall the fees exceed such costs, both direct and indirect, in providing such screenings and related services, provided that no services shall be denied on the basis of inability to pay. All fees paid thereunder shall be paid into the general fund of the State of Georgia.

(g) The department shall allow any laboratory licensed in Georgia and authorized to perform screening testing of newborn infants in any state using normal pediatric reference ranges to conduct the analysis required pursuant to this Code section; provided, however, that the screening for Krabbe disease may be conducted by a laboratory located outside of Georgia if approved by the board. The testing performed by such laboratory must include testing for newborn diseases as required

by law or regulation, except for Krabbe disease, and shall provide test results and reports consistent with law and with policies, procedures, and regulations of the department.

(h) No later than January 1, 2007, the Georgia Department of Audits and Accounts shall conduct an assessment evaluating the efficiency and effectiveness of the newborn screenings conducted by the Georgia Public Health Laboratory pursuant to this Code section. If it is determined that private laboratories can provide testing at a lower cost than the Georgia Public Health Laboratory, the department shall issue a request for proposals to qualified vendors including any private laboratory licensed in Georgia as established in subsection (g) of this Code section. The Georgia Public Health Laboratory shall be eligible to respond to such request for proposals.

(i) The requirements of this Code section with regard to screening, retrieval, and diagnosis shall not apply to any infant whose parents object in writing thereto on the grounds that such tests and treatment conflict with their religious tenets and practices. (Code 1933, § 88-1202, enacted by Ga. L. 1978, p. 2262, § 1; Ga. L. 1989, p. 369, § 1; Ga. L. 1990, p. 8, § 31; Ga. L. 2006, p. 416, § 1/HB 1066; Ga. L. 2017, p. 479, § 2/HB 241.)

The 2017 amendment, effective July 1, 2017, inserted “Krabbe disease,” in the middle of the first sentence of subsection (a); added “; provided, however, that screening for Krabbe disease shall be conducted separately at the option of the parent or parents” at the end of subsection (c); added “; provided, however, that the fees for screening for Krabbe disease shall be paid directly by the parents to the laboratory” at the end of the first sentence of subsection (f); and, in subsection (g),

added “; provided, however, that the screening for Krabbe disease may be conducted by a laboratory located outside of Georgia if approved by the board” at the end of the first sentence, and inserted “, except for Krabbe disease,” in the second sentence.

Editor’s notes. — Ga. L. 2017, p. 479, § 1/HB 241, not codified by the General Assembly, provides that: “This Act shall be known and may be cited as ‘Cove’s Law.’”.

31-12-12. Restrictions on sale or dispensing of contact lenses and spectacles; definitions; responsibilities relating to prescriptions; criminal violation; enforcement.

(a) As used in this Code section, the term:

(1) “Contact lens” means any lens placed directly on the surface of the eye, regardless of whether or not it is intended to correct a visual defect. Contact lens includes, but is not limited to, any cosmetic, therapeutic, or corrective lens.

(2) “Dispense” means the act of furnishing spectacles or contact lenses to an individual.

(3) “Eye examination” means an in-person assessment, which includes telemedicine at a physician’s office or optometrist’s office or

in a hospital setting or hospital health system setting in accordance with the applicable standard of care, of the ocular health and visual status of an individual that does not consist of solely objective refractive data or information generated by an automated testing device, including an autorefractor or kiosk, in order to establish a medical diagnosis or for the establishment of refractive error.

(4) “Kiosk” means automatic equipment or application designed to be used on a telephone, a computer, or an Internet based device that can be used either in person or remotely to conduct an eye examination.

(5) “Over-the-counter spectacles” means eyeglasses or lenses in a frame for the correction of vision that may be sold by any person, firm, or corporation at retail without a prescription; these spectacles shall not exceed +3.25 diopters.

(6) “Prescription” means an optometrist’s or ophthalmologist’s handwritten or electronic order based on an eye examination that corrects refractive error.

(7) “Spectacles” means an optical instrument or device worn or used by an individual that has one or more lenses designed to correct or enhance vision addressing the visual needs of the individual wearer, commonly known as glasses or eyeglasses, including spectacles that may be adjusted by the wearer to achieve different types of visual correction or enhancement. Spectacles does not include an optical instrument or device that is not intended to correct or enhance vision or that is sold without consideration of the visual status of the individual who will use the optical instrument or device. Spectacles does not include over-the-counter spectacles.

(b)(1)(A) No person in this state shall sell, dispense, or serve as a conduit for the sale or dispensing of contact lenses or spectacles to the ultimate user of such contact lenses or spectacles except persons licensed and regulated by Chapter 29, 30, or 34 of Title 43.

(B) No person in this state shall write a prescription for contact lenses or spectacles except persons licensed and regulated by Chapter 30 or 34 of Title 43.

(C) No person in this state shall write a prescription for contact lenses or spectacles unless an eye examination is performed. The prescription shall take into consideration any medical findings and any refractive error discovered during the eye examination.

(2) Any person who violates a subparagraph of paragraph (1) of this subsection one or two times shall upon conviction be guilty of a misdemeanor and punished by imprisonment for up to one year or by a fine not to exceed \$1,000.00 or by both such fine and imprisonment.

Any person who violates a subparagraph of paragraph (1) of this subsection three or more times shall upon conviction be guilty of a felony and punished by imprisonment for one to five years or by a fine not to exceed \$10,000.00 or by both such fine and imprisonment.

(c) All contact lenses used in the determination of a contact lens prescription are considered to be diagnostic lenses. After the diagnostic period and the contact lenses have been adequately fitted and the patient released from immediate follow-up care by persons licensed and regulated by Chapter 29, 30, or 34 of Title 43, the prescribing optometrist or ophthalmologist shall, upon the request of the patient, at no cost, provide a prescription in writing for replacement contact lenses. A person shall not dispense or adapt contact lenses or spectacles without first receiving authorization to do so by a written prescription, except when authorized orally to do so by a person licensed and regulated by Chapter 30 or 34 of Title 43.

(d) Patients who comply with such fitting and follow-up requirements as may be established by the prescribing optometrist or ophthalmologist may obtain replacement contact lenses until the expiration date listed on the prescription from a person who may lawfully dispense contact lenses under subsection (b) of this Code section.

(e) A prescriber may refuse to give the patient a copy of the patient's prescription until the patient has paid for all services rendered in connection with the prescription.

(f) No replacement contact lenses may be sold or dispensed except pursuant to a prescription which:

(1) Conforms to state and federal regulations governing such forms and includes the name, address, and state licensure number of a prescribing practitioner;

(2) Explicitly states an expiration date of not more than 12 months from the date of the last prescribing contact lens examination, unless a medical or refractive problem affecting vision requires an earlier expiration date;

(3) Explicitly states the number of refills;

(4) Explicitly states that it is for contact lenses and indicates the lens brand name and type, including all specifications necessary for the ordering or fabrication of lenses; and

(5) Is kept on file by the person selling or dispensing the replacement contact lenses for at least 24 months after the prescription is filled.

(g) Anyone who fills a prescription bears the full responsibility of the accuracy of the contact lenses or spectacles provided under the prescrip-

tion. At no time, without the direction of a prescriber, shall any changes or substitutions be made in the brand or type of lenses the prescription calls for with the exceptions of tint change if requested by the patient. However, if a prescription specifies “only” a specific color or tinted lens, those instructions shall be observed.

(h) All sales of and prescriptions for contact lenses in this state shall conform to the federal Fairness to Contact Lens Consumers Act, P.L. 108-164, 15 U.S.C.A. Section 7601, et seq. The provisions of this Code section shall be construed in aid of and in conformity with said federal act.

(i) Civil proceedings to enforce the provisions of this Code section may be brought by any board created under Chapter 29, 30, or 34 of Title 43 or by any other interested person through injunction or other appropriate remedy. (Code 1981, § 31-12-12, enacted by Ga. L. 1991, p. 1003, § 1; Ga. L. 1992, p. 1475, § 1; Ga. L. 1995, p. 328, § 1; Ga. L. 2004, p. 903, § 1; Ga. L. 2016, p. 846, § 1/HB 775.)

The 2016 amendment, effective July 1, 2016, redesignated former subsections (a) through (h) as present subsections (b) through (i), respectively; added subsection (a); rewrote subsection (b); inserted “or spectacles” in the middle of the last sen-

tence of subsection (c); substituted “subsection (b)” for “subsection (a)” in the last sentence of subsection (d); and inserted “or spectacles” in the first sentence of subsection (g).

OPINIONS OF THE ATTORNEY GENERAL

Fingerprinting required. — Offenses arising under O.C.G.A. § 31-12-12 are designated as offenses for which those

charged are to be fingerprinted. 2017 Op. Att’y Gen. No. 17-1.

CHAPTER 14

HOSPITALIZATION FOR TUBERCULOSIS

Sec.
31-14-8.2. Appeal from orders of superior

court or hearing examiner;
costs; right to counsel.

31-14-8.2. Appeal from orders of superior court or hearing examiner; costs; right to counsel.

Either party may appeal any order of the superior court or hearing examiner in a proceeding under this chapter. An order of the superior court may be appealed to the Court of Appeals or the Supreme Court as provided by law but shall be heard as expeditiously as possible. The

appeal of an order of a hearing examiner shall be to the superior court of the county in which the proceeding was held. The review shall be conducted by the superior court without a jury and shall be confined to the record. The court, upon request, may hear oral argument and receive written briefs. The patient must pay his or her costs upon filing any appeal authorized under this Code section or must make an affidavit that he or she is unable to pay costs. The parties shall retain all rights of review of any order of the superior court, the Court of Appeals, and the Supreme Court, as provided by law. The patient shall have a right to counsel on appeal or, if unable to afford counsel, shall have counsel appointed for the patient by the court. The appeal rights provided in this Code section are in addition to any other appeal rights which the parties may have. (Code 1981, § 31-14-8.2, enacted by Ga. L. 1995, p. 1231, § 2; Ga. L. 2005, p. 1513, § 1/SB 56; Ga. L. 2016, p. 883, § 3-13/HB 927.)

The 2016 amendment, effective January 1, 2017, substituted “Court of Appeals or the Supreme Court” for “Court of Appeals and the Supreme Court” in the second sentence of this Code section. See Editor’s notes for applicability.

Editor’s notes. — Ga. L. 2016, p. 883, § 1-1/HB 927, not codified by the General Assembly, provides that: “This Act shall be known and may be cited as the ‘Appellate Jurisdiction Reform Act of 2016.’”

Ga. L. 2016, p. 883, § 6-1(c)/HB 927, not codified by the General Assembly, provides that: “Part III of this Act shall become effective on January 1, 2017, and shall apply to cases in which a notice of appeal or application to appeal is filed on or after such date.”

Law reviews. — For article on the 2016 amendment of this Code section, see 33 Georgia St. U.L. Rev. 205 (2016).

Law reviews. — For comment, “The Pursuit of Happiness (and Sexual Freedom): Lawrence v. Texas, Morality Legis-

lation & the Sandy Springs Obscenity Statute,” see 66 Mercer L. Rev. 1087 (2015).

31-17-4.1. Chlamydia screening test.

(a) As used in this Code section, the term:

(1) "Chlamydia screening test" means any laboratory test of the urogenital tract which specifically detects for infection by one or more agents of chlamydia trachomatis and which test is approved for such purposes by the federal Food and Drug Administration.

(2) "Policy" means any benefit plan, contract, or policy except a disability income policy, specified disease policy, or hospital indemnity policy.

(b)(1) Every insurer authorized to issue an individual or group accident and sickness insurance policy in this state which includes coverage for any female shall include as part of or as a required endorsement to each such policy which is issued, delivered, issued for delivery, or renewed on or after July 1, 1998, coverage for one annual chlamydia screening test for those covered females who are not more than 29 years old.

(2) The coverage required under paragraph (1) of this subsection may be subject to such exclusions, reductions, or other limitations as to coverages, deductibles, or coinsurance provisions as may be approved by the Commissioner of Insurance.

(3) Nothing in this subsection shall be construed to prohibit the issuance of accident and sickness insurance policies which provide benefits greater than or more favorable to the insured than those required by paragraph (1) of this subsection.

(4) The provisions of this subsection shall apply to accident and sickness insurance policies issued by a fraternal benefit society, a health care plan, a health maintenance organization, or any similar entity.

(5) Nothing contained in this Code section shall be deemed to prohibit the payment of different levels of benefits or having differences in coinsurance percentages applicable to benefit levels for services provided by preferred and nonpreferred providers as otherwise authorized under the provisions of Article 2 of Chapter 30 of Title 33, relating to preferred provider arrangements.

(c)(1) A contract executed or renewed on or after July 1, 1998, which provides for financing and delivery of health care services through a managed care plan, other than a dental plan, shall provide coverage for one annual chlamydia screening test for each female who is covered under such contract and who is not more than 29 years of age. Such coverage may be subject to such exclusions, reductions, or other limitations as to coverages, deductibles, or copayment provisions as may be approved by the Commissioner of Insurance.

(2) Nothing in this subsection shall be construed to prohibit any managed care plan contract from providing benefits greater than or

more favorable to the covered females than those required by paragraph (1) of this subsection.

(d) Code Section 31-17-8 shall not apply to this Code section.

(e) This Code section shall be subject to rules and regulations which shall be promulgated by the Commissioner of Insurance regarding notice and enforcement. (Code 1981, § 31-17-4.1, enacted by Ga. L. 1998, p. 867, § 2; Ga. L. 2017, p. 164, § 56/HB 127.)

The 2017 amendment, effective July 1, 2017, in paragraph (b)(4), substituted “this subsection” for “subsection (b) of this Code section” near the beginning and deleted “a nonprofit hospital service corporation, a nonprofit medical service corporation,” preceding “a health care” near the end.

31-17-4.2. HIV and Syphilis Pregnancy Screening.

(a) This Code section shall be known and may be cited as the “Georgia HIV/Syphilis Pregnancy Screening Act of 2015.”

(b) Every physician and health care provider who assumes responsibility for the prenatal care of a pregnant woman during gestation and at delivery shall be required to test such pregnant woman for HIV and syphilis except in cases where the woman refuses the testing. Additionally, every physician and health care provider who provides prenatal care of a pregnant woman during the third trimester of gestation shall offer to test such pregnant woman for HIV and syphilis at the time of first examination during that trimester or as soon as possible thereafter, regardless of whether such testing was performed during the first two trimesters of her pregnancy.

(c) If at the time of delivery there is no written evidence that an HIV test or a syphilis test has been performed, the physician or other health care provider in attendance at the delivery shall order that a test for HIV, syphilis, or both be administered at the time of the delivery except in cases where the woman refuses the testing; provided, however, that if available documentation indicates that a test for HIV and syphilis was already performed during the third trimester of her pregnancy in accordance with subsection (b) of this Code section, and the woman does not disclose when questioned any activities posing a risk for infection with HIV or syphilis occurring more recently than would have been detected by such test, the physician or health care provider in attendance at the delivery is not required to order such additional test.

(d) The woman shall be notified of the test to be conducted and shall have the opportunity to refuse the test. A pregnant woman shall submit to an HIV test and a syphilis test pursuant to this Code section unless she specifically refuses. If the woman tests positive for HIV or syphilis, counseling services provided by the Department of Public Health shall

be made available to her and she shall be referred to appropriate medical care providers for herself and her child.

(e) If for any reason the pregnant woman is not tested for HIV and syphilis, that fact shall be recorded in the patient's records, which, if based upon the refusal of the patient, shall relieve the physician or other health care provider of any other responsibility under this Code section.

(f) The Department of Public Health shall be authorized to promulgate rules and regulations for the purpose of administering the requirements under this Code section. (Code 1981, § 31-17-4.2, enacted by Ga. L. 2007, p. 173, § 1/HB 429; Ga. L. 2009, p. 453, § 1-4/HB 228; Ga. L. 2011, p. 705, § 6-3/HB 214; Ga. L. 2015, p. 1346, § 1/HB 436; Ga. L. 2016, p. 752, § 1/HB 1058.)

The 2015 amendment, effective July 1, 2015, substituted “Georgia HIV/Syphilis Pregnancy Screening Act of 2015” for “Georgia HIV Pregnancy Screening Act of 2007” in subsection (a); in subsection (b), in the first sentence, substituted “care of a pregnant woman” for “care of pregnant women” near the middle, substituted “test such pregnant woman for HIV and syphilis” for “test pregnant women for HIV” in the middle, and added the second sentence; in subsection (c), inserted “or a syphilis test”, substituted “test for HIV, syphilis, or both be administered” for “sample of the woman’s blood be taken or

a rapid oral test administered”, and added the proviso; in subsection (d), inserted “and a syphilis test” in the first sentence, and inserted “for HIV or syphilis” in the second sentence; and inserted “and syphilis” in subsection (e).

The 2016 amendment, effective July 1, 2016, in the first sentence of subsection (d), substituted “notified of the test to be conducted and shall have the opportunity to refuse the test” for “informed of the test to be conducted and her right to refuse”, and, at the end of the second sentence, substituted “refuses” for “declines”.

31-17-7. Consent of minor to medical or surgical care or services; informing spouse, parent, custodian, or guardian.

(a) The consent to the provision of medical or surgical care or services by a hospital or public clinic or to the performance of medical or surgical care or services by a physician licensed to practice medicine and surgery, when such consent is given by a minor who is or professes to be afflicted with a venereal disease or at risk for HIV, shall be as valid and binding as if the minor had achieved his or her majority, provided that any such treatment shall involve procedures and therapy related to conditions or illnesses arising out of the venereal disease or HIV diagnosis which gave rise to the consent authorized under this Code section. Any such consent shall not be subject to later disaffirmation by reason of minority. The consent of no other person or persons, including but not limited to a spouse, parent, custodian, or guardian, shall be necessary in order to authorize the provision to such minor of such medical or surgical care or services as are described in this subsection.

(b) Upon the advice and direction of a treating physician or, if more than one, of any one of them, a member of the medical staff of a hospital or public clinic or a physician licensed to practice medicine and surgery may, but shall not be obligated to, inform the spouse, parent, custodian, or guardian of any such minor as to the treatment given or needed. Such information may be given to or withheld from the spouse, parent, custodian, or guardian without the consent of the minor patient and even over the express refusal of the minor patient to the providing of such information. (Ga. L. 1971, p. 337, §§ 2, 3; Ga. L. 2016, p. 752, § 2/HB 1058.)

The 2016 amendment, effective July 1, 2016, in the first sentence of subsection (a), inserted “or at risk for HIV”, inserted “or her”, and inserted “or HIV diagnosis”.

31-17-7.1. Expedited partner therapy.

(a) As used in this Code section, the term:

(1) “Expedited partner therapy” means the practice of prescribing, ordering, or dispensing antibiotic drugs to the sexual partner or partners of a patient clinically diagnosed with chlamydia or gonorrhea without physical examination of such partner or partners.

(2) “Licensed practitioner” means a physician licensed to practice medicine in this state, an advanced practice registered nurse or physician assistant acting pursuant to delegated authority by a physician in accordance with Code Section 43-34-23 or 43-34-25 or subsection (e.1) of Code Section 43-34-103, or a registered professional nurse employed by the department or a county board of health.

(b) A licensed practitioner who diagnoses a patient to be infected with chlamydia or gonorrhea may utilize expedited partner therapy in accordance with any rules and regulations established by the department for the management of the health of such patient’s sexual partner or partners.

(c) Any licensed practitioner who, reasonably and in good faith, prescribes antibiotic drugs for expedited partner therapy in accordance with this Code section and any rules and regulations established by the department shall not be subject to civil or criminal liability and shall not be deemed to have engaged in unprofessional conduct by such practitioner’s licensing board.

(d) Any pharmacist licensed in this state who, reasonably and in good faith, dispenses antibiotic drugs pursuant to a prescription for expedited partner therapy in accordance with this Code section and any rules and regulations established by the department shall not be subject to civil or criminal liability and shall not be deemed to have engaged in unprofessional conduct by the State Board of Pharmacy.

(e) The department shall be authorized to promulgate rules and regulations to implement the provisions of this Code section. (Code 1981, § 31-17-7.1, enacted by Ga. L. 2017, p. 764, § 3-2/SB 193.)

Effective date. — This Code section became effective July 1, 2017.

Editor’s notes. — Ga. L. 2017, p. 764, § 1-1/SB 193, not codified by the General Assembly, provides that: “The General Assembly finds that:

“(1) Untreated chlamydial infection has been linked to problems during pregnancy, including preterm labor, premature rupture of membranes, and low birth weight. The newborn may also become infected during delivery as the baby

passes through the birth canal. Exposed newborns can develop eye and lung infections; and

“(2) Untreated gonococcal infection in pregnancy has been linked to miscarriages, premature birth and low birth weight, premature rupture of membranes, and chorioamnionitis. Gonorrhea can also infect an infant during delivery as the infant passes through the birth canal. If untreated, infants can develop eye infections.”

CHAPTER 22

CLINICAL LABORATORIES

Sec.

- 31-22-1. Definitions.
- 31-22-9. Applicability of chapter.
- 31-22-9.1. HIV tests — Who may perform test.
- 31-22-9.2. HIV tests — Report of positive

results; notification; counseling; violations; exception for insurance coverage; exposure of health care provider.

31-22-1. Definitions.

As used in this chapter, the term:

- (1) “Board” means the Board of Community Health.
- (2) “Clinical laboratory” means a facility for the biological, microbiological, serological, chemical, immunohematological, hemato-

logical, biophysical, cytological, pathological, or other examination of materials derived from the human body for the diagnosis of, recommendation of treatment of, or for the purposes of providing information for the diagnosis, prevention, or treatment of any disease or impairment of, or the assessment of the health of human beings; the term “clinical laboratory” shall include specimen collection stations and blood banks which provide through their ownership or operation a system for the collection, processing, or storage of human blood and its component parts unless such human blood and its component parts are intended as source material for the manufacture of biological products and regulated by the Center for Biologics Evaluation and Research (CBER) within the federal Food and Drug Administration; the term “clinical laboratory” shall include tissue banks which procure, store, or process human or animal tissues designed to be used for medical purposes in human beings. The term “clinical laboratory” shall not include laboratories which are nondiagnostic only and regulated pursuant to the federal Clinical Laboratory Improvement Amendments (CLIA) whose sole function is to perform examination of human blood or blood components intended as source material for the manufacture of biological products.

(2.1) “Commissioner” means the commissioner of community health.

(2.2) “Department” means the Department of Community Health.

(3) “Director” means a person who is responsible for the administration of the technical and scientific operation of a clinical laboratory, including supervision of procedures for testing and the reporting of results.

(4) “Person” means any individual, firm, partnership, association, corporation, the state or any municipality or other subdivision thereof, or any other entity whether organized for profit or not.

(5) “Specimen collection station” means a place having the primary purpose of either collecting specimens directly from patients or bringing specimens together after collection for the purpose of forwarding them either intrastate or interstate to a clinical laboratory for examination.

(6) “Supervisor” means an assistant director and a person who, under the general supervision of a clinical laboratory director, supervises technical personnel and performs tests requiring special scientific skills.

(7) “Technician” means any person other than the clinical laboratory director, supervisor, technologist, or trainee who functions under the supervision of a clinical laboratory director, supervisor, or tech-

nologist and performs only those clinical laboratory procedures which require limited skill and responsibility and a minimal exercise of independent judgment. The degree of supervision by the clinical laboratory director, supervisor, or technologist of a technician shall be determined by the director, supervisor, or technologist based on:

- (A) The complexity of the procedure to be performed;
- (B) The training and capability of the technician; and
- (C) The demonstrated competence of the technician in the procedure being performed.

(8) “Technologist” means a person who performs tests which require the exercise of independent judgment and responsibility, with minimal supervision by the director or supervisor, in only those specialties or subspecialties in which he is qualified by education, training, and experience. (Ga. L. 1970, p. 531, § 2; Ga. L. 1971, p. 247, § 1; Ga. L. 1982, p. 1081, §§ 1, 2, 6, 7; Ga. L. 1991, p. 94, § 31; Ga. L. 1991, p. 349, § 1; Ga. L. 2005, p. 1190, § 1/SB 51; Ga. L. 2009, p. 453, § 1-5/HB 228; Ga. L. 2011, p. 705, § 4-16/HB 214; Ga. L. 2016, p. 318, § 1/SB 273; Ga. L. 2017, p. 547, § 1/HB 210.)

The 2016 amendment, effective July 1, 2016, added the last sentence in paragraph (2).

The 2017 amendment, effective July 1, 2017, in the middle of the first sentence of paragraph (2), deleted “shall include” preceding “blood banks”, and substituted “unless such human blood and its compo-

nent parts are intended as source material for the manufacture of biological products and regulated by the Center for Biologics Evaluation and Research (CBER) within the federal Food and Drug Administration; the term ‘clinical laboratory’ shall include” for “as well as”.

31-22-9. Applicability of chapter.

(a) This chapter shall not apply to clinical laboratories which are:

(1) Operated by the Georgia Health Sciences University, the Emory University School of Medicine, any other medical schools in Georgia, or the United States government;

(2) Operated and maintained exclusively for research and teaching purposes, involving no patient or public health services;

(3) Operated and maintained as part of a hospital regulated and licensed by the department at any period of time during which the department, as part of its licensure and regulation of such hospital, imposes upon the medical laboratory involved the same standards of administration, performance, and operation as are imposed by this chapter upon medical laboratories covered in this chapter. In such cases and under such conditions, licensure of the hospital involved constitutes licensure of the hospital laboratory; or

(4) Operated by duly licensed physicians exclusively in connection with the diagnosis and treatment of their own patients.

(b) This chapter shall not apply to pharmacists licensed pursuant to Chapter 4 of Title 26, who shall be considered practicing within their scope of practice, when they are performing tests and interpreting the results as a means to screen for or monitor disease risk factors or drug use and facilitate patient education, so long as such tests are available to and for use by the public without licensure of the user of such tests. Pharmacists performing such tests shall make reasonable efforts to report the results obtained from such tests to the patient's physician of choice. (Ga. L. 1970, p. 531, § 1; Ga. L. 1972, p. 1247, § 1; Ga. L. 1972, p. 1257, § 1; Ga. L. 1975, p. 737, § 1; Ga. L. 1976, p. 1362, § 1; Ga. L. 1985, p. 149, § 31; Ga. L. 2000, p. 226, § 1; Ga. L. 2011, p. 752, § 31/HB 142; Ga. L. 2018, p. 355, § 1/SB 422.)

The 2018 amendment, effective July 1, 2018, substituted the present provisions of subsection (b) for the former provisions, which read: "This chapter shall not apply to pharmacists licensed pursuant to Chapter 4 of Title 26 practicing in accordance with the provisions thereof who are performing capillary blood tests

and interpreting the results as a means to screen for or monitor disease risk factors and facilitate patient education as authorized in Code Section 26-4-4, so long as such capillary blood tests are available to and for use by the public without licensure of the user of the test."

31-22-9.1. HIV tests — Who may perform test.

(a) As used in this Code section, the term:

(1) "AIDS" means Acquired Immunodeficiency Syndrome or AIDS Related Complex within the reporting criteria of the department.

(2) "AIDS confidential information" means information which discloses that a person:

(A) Has been diagnosed as having AIDS;

(B) Has been or is being treated for AIDS;

(C) Has been determined to be infected with HIV;

(D) Has submitted to an HIV test;

(E) Has had a positive or negative result from an HIV test;

(F) Has sought and received counseling regarding AIDS; or

(G) Has been determined to be a person at risk of being infected with AIDS,

and which permits the identification of that person.

(3) "AIDS transmitting crime" means any of the following offenses specified in Title 16:

- (A) Rape;
- (B) Sodomy;
- (C) Aggravated sodomy;
- (D) Child molestation;
- (E) Aggravated child molestation;
- (F) Prostitution;
- (G) Solicitation of sodomy;
- (H) Incest;
- (I) Statutory rape; or

(J) Any offense involving a violation of Article 2 of Chapter 13 of Title 16, regarding controlled substances, if that offense involves heroin, cocaine, derivatives of either, or any other controlled substance in Schedule I, II, III, IV, or V and that other substance is commonly intravenously injected, as determined by the regulations of the department.

(4) "Body fluids" means blood, semen, or vaginal secretions.

(5) "Confirmed positive HIV test" means the results of at least two separate types of HIV tests, both of which indicate the presence of HIV in the substance tested thereby.

(6) "Counseling" means providing the person with information and explanations medically appropriate for that person which may include all or part of the following: accurate information regarding AIDS and HIV; an explanation of behaviors that reduce the risk of transmitting AIDS and HIV; an explanation of the confidentiality of information relating to AIDS diagnoses and HIV tests; an explanation of information regarding both social and medical implications of HIV tests; and disclosure of commonly recognized treatment or treatments for AIDS and HIV.

(7) "Determined to be infected with HIV" means having a confirmed positive HIV test or having been clinically diagnosed as having AIDS.

(8) "Health care facility" means any:

(A) Institution or medical facility, as defined in Code Section 31-7-1;

(B) Facility for mentally ill persons or persons with developmental disabilities, as such terms are defined in Code Section 37-1-1, or alcoholic or drug dependent persons, as defined in Code Section 37-7-1;

(C) Medical, dental, osteopathic, or podiatric clinic;

(D) Hospice, as defined in Code Section 31-7-172;

(E) Clinical laboratory, as defined in Code Section 31-22-1; or

(F) Administrative, clerical, or support personnel of any legal entity specified in subparagraphs (A) through (E) of this paragraph.

(9) "Health care provider" means any of the following persons licensed or regulated by the state:

(A) Physician or physician assistant;

(B) Osteopath;

(C) Podiatrist;

(D) Midwife;

(E) Dentist, dental technician, or dental hygienist;

(F) Respiratory care professional, certified respiratory therapy technician, or registered respiratory therapist;

(G) Registered nurse;

(H) Licensed practical nurse;

(I) Emergency medical technician, paramedic, or cardiac technician;

(J) Clinical laboratory director, supervisor, technician, or technologist;

(K) Funeral director or embalmer;

(L) Member of a hospice team, as defined in Code Section 31-7-172;

(M) Nursing home administrator;

(N) Professional counselor, social worker, or marriage and family therapist;

(O) Psychologist;

(P) Administrative, clerical, or support personnel, whether or not they are licensed or regulated by the state, of any person specified in subparagraphs (A) through (O) of this paragraph;

(Q) Trainee, student, or intern, whether or not they are licensed or regulated by the state, of any persons listed in subparagraphs (A) through (O) of this paragraph; or

(R) First responder, as defined in Chapter 11 of this title, although such person is not licensed or regulated by the state.

(10) "HIV" means any type of Human Immunodeficiency Virus, Human T-Cell Lymphotropic Virus Types III or IV, Lymphadenopathy Associated Virus Types I or II, AIDS Related Virus, or any other identified causative agent of AIDS.

(11) "HIV infected person" means a person who has been determined to be infected with HIV, whether or not that person has AIDS, or who has been clinically diagnosed as having AIDS.

(12) "HIV test" means any antibody, antigen, viral particle, viral culture, or other test to indicate the presence of HIV in the human body, which test has been approved for such purposes by the regulations of the department.

(13) "Institutional care facility" means any:

- (A) Health care facility;
- (B) Child welfare agency, as defined in Code Section 49-5-12;
- (C) Group care facility, as defined in Code Section 49-5-3;
- (D) Penal institution; or
- (E) Military unit.

(14) "Knowledge of being infected with HIV" means actual knowledge of:

- (A) A confirmed positive HIV test; or
- (B) A clinical diagnosis of AIDS.

(15) "Law" means federal or state law.

(16) "Legal entity" means a partnership, association, joint venture, trust, governmental entity, public or private corporation, health care facility, institutional care facility, or any other similar entity.

(17) "Military unit" means the smallest organizational unit of the organized militia of the state, as defined in Code Section 38-2-2, or of any branch of the armed forces of the United States, which unit is commanded by a commissioned officer.

(18) "Penal institution" means any jail, correctional institution, or similar facility for the detention of violators of state laws or local ordinances.

(19) "Person" means a natural person.

(20) "Person at risk of being infected with HIV" means any person who may have already come in contact with or who may in the future

reasonably be expected to come in contact with the body fluids of an HIV infected person.

(21) “Physician” means any person licensed to practice medicine under Chapter 34 of Title 43.

(22) “Public safety agency” means that governmental unit which directly employs a public safety employee.

(23) “Public safety employee” means an emergency medical technician, firefighter, law enforcement officer, or prison guard, as such terms are defined in Code Section 45-9-81, relating to indemnification of such personnel for death or disability.

(b) Notwithstanding the provisions of Code Section 31-21-10 and Code Section 31-22-11, no person or legal entity, other than an insurer authorized to transact business in this state, shall submit for an HIV test any human body fluid or tissue to any person or legal entity except to:

- (1) A clinical laboratory licensed under this chapter;
- (2) A clinical laboratory exempt from licensure under Code Section 31-22-9; or
- (3) A clinical laboratory licensed as such pursuant to the laws of any other state.

(c) No person or legal entity may sell or offer for sale any HIV test that permits any person or legal entity, including the person whose body fluids are to be tested, to perform that test other than a person or legal entity specified in paragraphs (1) through (3) of subsection (b) of this Code section. (Code 1981, § 31-22-9.1, enacted by Ga. L. 1988, p. 1799, § 8; Ga. L. 1989, p. 14, § 31; Ga. L. 2002, p. 660, § 4; Ga. L. 2002, p. 1259, § 11; Ga. L. 2009, p. 453, §§ 1-4, 3-5/HB 228; Ga. L. 2009, p. 859, § 3/HB 509; Ga. L. 2011, p. 337, § 10/HB 324; Ga. L. 2011, p. 705, § 6-3/HB 214; Ga. L. 2016, p. 752, § 3/HB 1058.)

The 2016 amendment, effective July 1, 2016, deleted the former last sentence of paragraph (a)(6), which read: “The Department of Public Health shall develop brochures or other documents which meet the requirements of this paragraph and, upon delivery of such a brochure or document or of another brochure or document approved by the Department of Public

Health to the person and referral of that person to the Department of Public Health for further information and explanations, counseling shall be deemed to have been provided within the meaning of this paragraph.”

Cross references. — Confidential nature of AIDS information, § 24-12-20.

JUDICIAL DECISIONS

Cited in *Rodriguez v. State*, 343 Ga. App. 526, 806 S.E.2d 916 (2017).

31-22-9.2. HIV tests — Report of positive results; notification; counseling; violations; exception for insurance coverage; exposure of health care provider.

(a) Any term used in this Code section and defined in Code Section 31-22-9.1 shall have the meaning provided for that term in Code Section 31-22-9.1.

(b) Reserved.

(c) Unless exempted under this Code section, each health care provider who orders an HIV test for any person shall do so only after notifying the person to be tested. Unless exempted under this subsection, the person to be tested shall have the opportunity to refuse the test. The provisions of this subsection shall not be required if the person is required to submit to an HIV test pursuant to Code Section 15-11-603, 17-10-15, 31-17A-3, 42-5-52.1, or 42-9-42.1. The provisions of this subsection shall not be required if the person is a minor or incompetent and the parent or guardian thereof permits the test after compliance with this subsection. The provisions of this subsection shall not be required if the person is unconscious, temporarily incompetent, or comatose and the next of kin permits the test after compliance with this subsection. The provisions of this subsection shall not apply to emergency or life-threatening situations. The provisions of this subsection shall not apply if the physician ordering the test is of the opinion that the person to be tested is in such a medical or emotional state that disclosure of the test would be injurious to the person's health. The provisions of this subsection shall only be required prior to drawing the body fluids required for the HIV test and shall not be required for each test performed upon that fluid sample.

(d) The health care provider ordering an HIV test shall provide medically appropriate counseling to the person tested with regard to the test results. Such medically appropriate counseling shall only be required when the last confirmatory test has been completed.

(e) The criminal penalty provided in Code Section 31-22-13 shall not apply to a violation of subsection (c), (d), or (g) of this Code section. The statute of limitations for any action alleging a violation of this Code section shall be two years from the date of the alleged violation.

(f) The provisions of this Code section shall not apply to situations in which an HIV test is ordered or required in connection with insurance coverage, provided that the person to be tested or the appropriate representative of that person has agreed to have the test administered under such procedures as may be established by the Commissioner of Insurance after consultation with the Department of Community Health.

(g) Notwithstanding the other provisions of this Code section, when exposure of a health care provider to any body fluids of a patient occurs in such a manner as to create any risk that such provider might become an HIV infected person if the patient were an HIV infected person, according to current infectious disease guidelines of the Centers for Disease Control and Prevention or according to infectious disease standards of the health care facility where the exposure occurred, a health care provider otherwise authorized to order an HIV test shall be authorized to order any HIV test on such patient and obtain the results thereof:

(1) If the patient or the patient's representative, if the patient is a minor, otherwise incompetent, or unconscious, does not refuse the test after being notified that the test is to be ordered; or

(2) If the patient or the patient's representative refuses the test, following compliance with paragraph (1) of this subsection, when at least one other health care provider who is otherwise authorized to order an HIV test concurs in writing to the testing and the patient is informed of the results of the test and is provided counseling with regard to those results. (Code 1981, § 31-22-9.2, enacted by Ga. L. 1988, p. 1799, § 8; Ga. L. 1990, p. 705, §§ 2, 3; Ga. L. 2000, p. 20, § 20; Ga. L. 2006, p. 72, § 31/SB 465; Ga. L. 2007, p. 173, § 2/HB 429; Ga. L. 2009, p. 453, § 1-4/HB 228; Ga. L. 2013, p. 294, § 4-43/HB 242; Ga. L. 2015, p. 1346, § 2/HB 436; Ga. L. 2016, p. 752, § 4/HB 1058; Ga. L. 2018, p. 1112, § 31/SB 365.)

The 2013 amendment, effective January 1, 2014, substituted "Code Section 15-11-603" for "Code Section 15-11-66.1" in the third sentence of subsection (c). See Editor's notes for applicability.

The 2015 amendment, effective July 1, 2015, substituted "notifying the person" for "counseling the person" in the first sentence of subsection (c); and substituted "provided an opportunity" for "provided counseling and an opportunity" near the end of paragraph (g)(1).

The 2016 amendment, effective July 1, 2016, at the end of paragraph (g)(1), deleted "and after having been provided an opportunity to refuse the test" following "be ordered"; and, in paragraph (g)(2), inserted "the patient's" near the beginning, substituted "testing and" for "testing," and deleted ", and the occurrence of that test is not made a part of the patient's medical records, where the test results are negative, without the patient's consent" following "those results" at the end.

The 2018 amendment, effective May 8, 2018, part of an Act to revise, modernize, and correct the Code, deleted "31-17-4.2," following "17-10-15," in the third sentence of subsection (c).

Editor's notes. — Ga. L. 2013, p. 294, § 5-1/HB 242, not codified by the General Assembly, provides that: "This Act shall become effective on January 1, 2014, and shall apply to all offenses which occur and juvenile proceedings commenced on and after such date. Any offense occurring before January 1, 2014, shall be governed by the statute in effect at the time of such offense and shall be considered a prior adjudication for the purpose of imposing a disposition that provides for a different penalty for subsequent adjudications, of whatever class, pursuant to this Act. The enactment of this Act shall not affect any prosecutions for acts occurring before January 1, 2014, and shall not act as an abatement of any such prosecutions."

JUDICIAL DECISIONS

Failure to inform patient. — Patient’s claim against a doctor and hospital for failure to report the positive results of the patient’s HIV test to the patient as required under O.C.G.A. § 31-22-9.2 was a classic medical malpractice claim, despite the patient’s claim that it was ordinary negligence; because the claim was brought eight years after the test, the claim was barred by the five-year statute of repose, O.C.G.A. § 9-3-71(b). *Piedmont Hospital, Inc. v. D. M.*, 335 Ga. App. 442, 779 S.E.2d 36 (2015).

CHAPTER 30

REPORTS ON VETERANS EXPOSED TO AGENT ORANGE

Delayed effective date. — Code Section 31-30-9 provides that this chapter shall become effective when and to the extent that funds are appropriated and available to the Department of Human Resources (now Department of Community Health) under an appropriation which specifically refers to this chapter and provides that it is intended for the implementation of this chapter. Funds were not appropriated at the 1983, 1984, 1985, 1986, 1987, 1988, 1989, 1990, 1991, 1992, 1993, 1994, 1995, 1996, 1997, 1998, 1999, 2000, 2001, 2002, 2003, 2004, 2005, 2006, 2007, 2008, 2009, 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017, or 2018 sessions of the General Assembly.

CHAPTER 32

ADVANCE DIRECTIVES FOR HEALTH CARE

Sec. 31-32-12. Restriction on requiring and preparing advance directives for health care.

Way to Be Protective of Your Rights,” 68 Mercer L. Rev. 521 (2017).

JUDICIAL DECISIONS

Genuine issues of material fact as to whether medical defendants made good faith effort. — Trial court properly denied summary judgment to the medical defendants on the immunity question under the Georgia Advance Directive for Health Care Act, O.C.G.A. § 31-32-10(a)(2), because genuine issues of material fact existed regarding whether

the defendants made a good faith effort to rely on the directions and decisions of the patient’s health care agent under the Advance Directive in carrying out the March 7 intubation. Doctors Hosp. of Augusta, LLC v. Alicea, 332 Ga. App. 529, 774 S.E.2d 114 (2015), aff’d, 299 Ga. 315, 788 S.E.2d 392 (Ga. 2016).

31-32-4. Form.

JUDICIAL DECISIONS

Genuine issues of material fact as to whether medical defendants made a good faith effort. — Trial court properly denied summary judgment to the medical defendants on the immunity question under the Georgia Advance Directive for Health Care Act, O.C.G.A. § 31-32-10(a)(2), because genuine issues of material fact existed regarding whether

the defendants made a good faith effort to rely on the directions and decisions of the patient’s health care agent under the Advance Directive in carrying out the March 7 intubation. Doctors Hosp. of Augusta, LLC v. Alicea, 332 Ga. App. 529, 774 S.E.2d 114 (2015), aff’d, 299 Ga. 315, 788 S.E.2d 392 (Ga. 2016).

31-32-5. Execution; use of form or other forms; witnesses; copies; amendment.

JUDICIAL DECISIONS

Genuine issues of material fact as to whether medical defendants made a good faith effort. — Trial court properly denied summary judgment to the medical defendants on the immunity

question under the Georgia Advance Directive for Health Care Act, O.C.G.A. § 31-32-10(a)(2), because genuine issues of material fact existed regarding whether the defendants made a good faith effort to

rely on the directions and decisions of the patient's health care agent under the Advance Directive in carrying out the March 7 intubation. *Doctors Hosp. of Augusta,*

LLC v. Alicea, 332 Ga. App. 529, 774 S.E.2d 114 (2015), *aff'd*, 299 Ga. 315, 788 S.E.2d 392 (Ga. 2016).

31-32-7. Duties and responsibilities of health care agents.

JUDICIAL DECISIONS

Genuine issues of material fact as to whether medical defendants made a good faith effort. — Trial court properly denied summary judgment to the medical defendants on the immunity question under the Georgia Advance Directive for Health Care Act, O.C.G.A. § 31-32-10(a)(2), because genuine issues of material fact existed regarding whether

the defendants made a good faith effort to rely on the directions and decisions of the patient's health care agent under the Advance Directive in carrying out the March 7 intubation. *Doctors Hosp. of Augusta, LLC v. Alicea*, 332 Ga. App. 529, 774 S.E.2d 114 (2015), *aff'd*, 299 Ga. 315, 788 S.E.2d 392 (Ga. 2016).

31-32-8. Duties and responsibilities of health care providers.

Law reviews. — For note, "An Advance Directive: The Elective, Effective

Way to Be Protective of Your Rights," 68 *Mercer L. Rev.* 521 (2017).

JUDICIAL DECISIONS

Genuine issues of material fact as to whether medical defendants made a good faith effort. — Trial court properly denied summary judgment to the medical defendants on the immunity question under the Georgia Advance Directive for Health Care Act, O.C.G.A. § 31-32-10(a)(2), because genuine issues of material fact existed regarding whether the defendants made a good faith effort to rely on the directions and decisions of the patient's health care agent under the Advance Directive in carrying out the March 7 intubation. *Doctors Hosp. of Augusta, LLC v. Alicea*, 332 Ga. App. 529, 774 S.E.2d 114 (2015), *aff'd*, 299 Ga. 315, 788 S.E.2d 392 (Ga. 2016).

Under advanced directive, will of patient or patient's agent controls. — Under the Georgia Advance Directive for Health Care Act, O.C.G.A. § 31-32-1 et seq., it is the will of the patient or the patient's designated health care agent, rather than the will of the health care provider, that controls; and O.C.G.A. § 31-32-8(1) enforces that purpose by declaring that a health care provider who believes a declarant is unable to under-

stand the general nature of the health care procedure which the provider deems necessary shall consult with any available health care agent known to the health care provider who then has power to act for the declarant under an advance directive for health care. *Doctors Hospital of Augusta, LLC v. Alicea*, 299 Ga. 315, 788 S.E.2d 392 (2016).

No immunity for health care provider. — After the designated health care agent sued a hospital and a doctor for intubating and putting the agent's grandmother on a mechanical ventilator, contrary to the grandmother's advance directive for health care, the trial court properly rejected the doctor's immunity argument under the Georgia Advance Directive for Health Care Act, O.C.G.A. § 31-32-1 et seq., and properly denied summary judgment on that ground because there was a clear factual dispute about whether the doctor relied at all on any directive from the agent in acting to order the intubation; and there was apparently undisputed evidence that the doctor did not tell the agent that the doctor was unwilling to comply with the

agent’s decision, or promptly inform the agent of the doctor’s decision. *Doctors Hospital of Augusta, LLC v. Alicea*, 299 Ga. 315, 788 S.E.2d 392 (2016).

31-32-10. Immunity from liability or disciplinary action.

Law reviews. — For note, “An Advance Directive: The Elective, Effective Way to Be Protective of Your Rights,” 68 Mercer L. Rev. 521 (2017).

JUDICIAL DECISIONS

Genuine issues of material fact as to whether medical defendants made a good faith effort. — Trial court properly denied summary judgment to the medical defendants on the immunity question under the Georgia Advance Directive for Health Care Act, O.C.G.A. § 31-32-10(a)(2), because genuine issues of material fact existed regarding whether the defendants made a good faith effort to rely on the directions and decisions of the patient’s health care agent under the Advance Directive in carrying out the March 7 intubation. *Doctors Hosp. of Augusta, LLC v. Alicea*, 332 Ga. App. 529, 774 S.E.2d 114 (2015), *aff’d*, 299 Ga. 315, 788 S.E.2d 392 (Ga. 2016).

No immunity for health care provider. — When the health care provider makes the patient’s health care decisions based on the provider’s own judgment, without relying in good faith on what the patient’s designated health care agent directed, the provider must defend those actions without the immunity given in

O.C.G.A. § 31-32-10(a). *Doctors Hospital of Augusta, LLC v. Alicea*, 299 Ga. 315, 788 S.E.2d 392 (2016).

After the designated health care agent sued a hospital and a doctor for intubating and putting the agent’s grandmother on a mechanical ventilator, contrary to the grandmother’s advance directive for health care, the trial court properly rejected the doctor’s immunity argument under the Georgia Advance Directive for Health Care Act, O.C.G.A. § 31-32-1 et seq., and properly denied summary judgment on that ground because there was a clear factual dispute about whether the doctor relied at all on any directive from the agent in acting to order the intubation; and there was apparently undisputed evidence that the doctor did not tell the agent that the doctor was unwilling to comply with the agent’s decision, or promptly inform the agent of the doctor’s decision. *Doctors Hospital of Augusta, LLC v. Alicea*, 299 Ga. 315, 788 S.E.2d 392 (2016).

31-32-12. Restriction on requiring and preparing advance directives for health care.

(a) No physician, health care facility, or health care provider and no health care service plan, insurer issuing disability insurance, or self-insured employee welfare benefit plan shall require any person to execute an advance directive for health care as a condition for being insured for or receiving health care services.

(b) No health care facility shall prepare or offer to prepare an advance directive for health care unless specifically requested to do so by a person desiring to execute an advance directive for health care. For purposes of this subsection, the Department of Corrections shall not be deemed to be a health care facility. (Code 1981, § 31-32-12, enacted by Ga. L. 2007, p. 133, § 2/HB 24; Ga. L. 2017, p. 164, § 57/HB 127.)

The 2017 amendment, effective July 1, 2017, substituted “or self-insured employee welfare benefit plan” for “self-insured employee welfare benefit plan, or nonprofit hospital service plan” near the middle of subsection (a).

31-32-14. Effect of chapter on other legal rights and duties.

JUDICIAL DECISIONS

Cited in Doctors Hosp. of Augusta, LLC v. Alicea, 332 Ga. App. 529, 774 S.E.2d 114 (2015).

CHAPTER 33

HEALTH RECORDS

| | | | |
|----------|---|----------|---|
| Sec. | | Sec. | |
| 31-33-3. | Costs of copying and mailing; patient’s rights as to records; applicability to psychiatric, | | psychological, and other mental health records. |
| | | 31-33-4. | Mental health records. |

31-33-2. Furnishing copy of records to patient, provider, or other authorized person.

JUDICIAL DECISIONS

Patient’s authorization required. — Trial court did not abuse the court’s discretion in denying the doctors’ copies of records of former patients in the absence of patient authorizations as the new practice owned the records. Gerguis v. Statesboro HMA Medical Group, LLC, 331 Ga. App. 867, 772 S.E.2d 227 (2015).

31-33-3. Costs of copying and mailing; patient’s rights as to records; applicability to psychiatric, psychological, and other mental health records.

(a) The party requesting the patient’s records shall be responsible to the provider for the costs of copying and mailing the patient’s record. A charge of up to \$20.00 may be collected for search, retrieval, and other direct administrative costs related to compliance with the request under this chapter. A fee for certifying the medical records may also be charged not to exceed \$7.50 for each record certified. The actual cost of postage incurred in mailing the requested records may also be charged. In addition, copying costs for a record which is in paper form shall not exceed \$.75 per page for the first 20 pages of the patient’s records which are copied; \$.65 per page for pages 21 through 100; and \$.50 for each page copied in excess of 100 pages. All of the fees allowed by this Code section may be adjusted annually in accordance with the medical

component of the consumer price index. The Department of Community Health shall be responsible for calculating this annual adjustment, which will become effective on July 1 of each year. To the extent the request for medical records includes portions of records which are not in paper form, including but not limited to radiology films, models, or fetal monitoring strips, the provider shall be entitled to recover the full reasonable cost of such reproduction. Payment of such costs may be required by the provider prior to the records being furnished. This subsection shall not apply to records requested in order to make or complete an application for a disability benefits program.

(b) The rights granted to a patient or other person under this chapter are in addition to any other rights such patient or person may have relating to access to a patient's records; however, nothing in this chapter shall be construed as granting to a patient or person any right of ownership in the records, as such records are owned by and are the property of the provider.

(c) This Code section shall apply to psychiatric, psychological, and other mental health records of a patient. (Code 1981, § 31-32-3, enacted by Ga. L. 1984, p. 1680, § 1; Code 1981, § 31-33-3, as redesignated by Ga. L. 1985, p. 149, § 31; Ga. L. 2001, p. 1157, § 2; Ga. L. 2015, p. 949, § 1/HB 385; Ga. L. 2016, p. 549, § 1/HB 910.)

The 2015 amendment, effective July 1, 2015, substituted "Department of Community Health" for "Office of Planning and Budget" in the seventh sentence of subsection (a).

The 2016 amendment, effective July 1, 2016, added subsection (c).

JUDICIAL DECISIONS

31-33-4. Mental health records.

The provisions of this chapter, except as otherwise provided in Code Sections 31-33-3, 31-33-7, and 31-33-8, shall not apply to psychiatric, psychological, or other mental health records of a patient. (Code 1981, § 31-32-4, enacted by Ga. L. 1984, p. 1680, § 1; Code 1981, § 31-33-4, as redesignated by Ga. L. 1985, p. 149, § 31; Ga. L. 2010, p. 286, § 18/SB 244; Ga. L. 2016, p. 549, § 2/HB 910.)

The 2016 amendment, effective July 1, 2016, in this Code section, inserted

"31-33-3," and inserted a comma following "31-33-7".

Article 2

Grant Program

31-34-20. Grant program for physicians serving underserved rural areas; eligibility qualifications; time of practice; rules and regulations.

ARTICLE 1

GENERAL PROVISIONS

Editor’s notes. — The existing provisions of Chapter 34 were designated as Article 1 by Ga. L. 2018, p. 132, § 6/HB769, effective July 1, 2018.

31-34-1. Short title.

This article shall be known and may be cited as the “Physicians, Dentists, Physician Assistants, and Advanced Practice Registered Nurses for Rural Areas Assistance Act.” (Code 1981, § 31-34-1, enacted by Ga. L. 1989, p. 1234, § 1; Ga. L. 2010, p. 322, § 1/HB 866; Ga. L. 2017, p. 397, § 1/HB 427; Ga. L. 2018, p. 132, § 6/HB 769.)

The 2017 amendment, effective July 1, 2017, inserted “, Dentists, Physician Assistants, and Advanced Practice Registered Nurses” in the middle of this Code section.

The 2018 amendment, effective July 1, 2018, substituted “This article” for “This chapter” at the beginning of this Code section.

31-34-2. Purpose and intent of article.

It is the purpose of this article to increase the number of physicians, dentists, physician assistants, and advanced practice registered nurses in underserved rural areas of Georgia by making loans to physicians, dentists, physician assistants, and advanced practice registered nurses who have completed their medical or health care education and

allowing such loans to be repaid by such physicians, dentists, physician assistants, and advanced practice registered nurses agreeing to practice medicine or provide health care services in such rural areas and by making grants to hospitals and, as determined by the Georgia Board for Physician Workforce, other health care entities, local governments, and civic organizations in underserved rural areas of Georgia that agree to provide matching funds to the grant, with the intent to enhance recruitment efforts in bringing physicians, dentists, physician assistants, and advanced practice registered nurses to such areas. It is the intent of the General Assembly that if funds are available to the Georgia Board for Physician Workforce to make loans, grants, or scholarships under this article or under other applicable state law, the Georgia Board for Physician Workforce shall give priority to loans and scholarships under Part 6 of Article 7 of Chapter 3 of Title 20 and to loans under Code Section 31-34-4. (Code 1981, § 31-34-2, enacted by Ga. L. 1989, p. 1234, § 1; Ga. L. 2006, p. 152, § 2B/HB 1178; Ga. L. 2009, p. 8, § 31/SB 46; Ga. L. 2010, p. 322, § 1/HB 866; Ga. L. 2011, p. 459, § 2/HB 509; Ga. L. 2017, p. 397, § 2/HB 427; Ga. L. 2018, p. 132, § 6/HB 769.)

The 2017 amendment, effective July 1, 2017, in the first sentence, inserted “, dentists, physician assistants, and advanced practice registered nurses” four times, deleted “physician” preceding “underserved” twice, inserted “or health

care”, and inserted “or provide health care services”.

The 2018 amendment, effective July 1, 2018, substituted “this article” for “this chapter” twice in this Code section.

31-34-3. Administration by Georgia Board for Physician Workforce.

This article shall be administered by the Georgia Board for Physician Workforce, and, as used in this article, the word “board” means the Georgia Board for Physician Workforce created in Code Section 49-10-1. (Code 1981, § 31-34-3, enacted by Ga. L. 1989, p. 1234, § 1; Ga. L. 2010, p. 322, § 1/HB 866; Ga. L. 2011, p. 459, § 2/HB 509; Ga. L. 2018, p. 132, § 6/HB 769.)

The 2018 amendment, effective July 1, 2018, substituted “This article” for “This chapter” near the beginning and

substituted “this article” for “this chapter” near the middle of this Code section.

31-34-4. Loan applicant qualifications; rules and regulations.

(a) A physician, dentist, physician assistant, or advanced practice registered nurse who receives a loan under the program provided for in this article shall be a citizen or national of the United States licensed to practice his or her health care profession within the State of Georgia at the time the loan is made, and shall be a graduate of an accredited

graduate medical education program or other applicable accredited health care education program located in the United States which has received accreditation or provisional accreditation by the Accreditation Council for Graduate Medical Education or the American Osteopathic Association or such other applicable accreditation for other health care education programs, as determined by the board.

(b) The board shall make a full investigation of the qualifications of an applicant for a loan under the provisions of this article to determine the applicant's fitness for participation in such loan program, and for such purposes, the board may propound such examinations to applicants as the board deems proper. The board's investigation shall include a determination of the outstanding medical or health care education loans incurred by the applicant while completing his or her medical or health care education and training.

(c) The board is authorized to consider among other criteria for granting loans under the provisions of this article the state residency status and home area of the applying physician, dentist, physician assistant, or advanced practice registered nurse and to give priority to those applicants who are physicians, dentists, physician assistants, and advanced practice registered nurses actively practicing or beginning active practice in specialties experiencing shortages or distribution problems in rural areas of this state as determined by the board pursuant to rules and regulations adopted by it in accordance with this article.

(d) The board may adopt and prescribe such rules and regulations as it deems necessary or appropriate to administer and carry out the loan program provided for in this article. Such rules and regulations shall provide for fixing the rate of regular interest to accrue on loans granted under the provisions of this article. Such regular rate of interest shall not exceed by more than 2 percent the prime rate published from time to time by the Board of Governors of the Federal Reserve System. Within such limitation, the regular rate of interest may be increased for new recipients of loans under this article. (Code 1981, § 31-34-4, enacted by Ga. L. 1989, p. 1234, § 1; Ga. L. 2006, p. 152, § 2C/HB 1178; Ga. L. 2009, p. 859, § 2/HB 509; Ga. L. 2010, p. 322, § 1/HB 866; Ga. L. 2017, p. 397, § 3/HB 427; Ga. L. 2018, p. 132, § 6/HB 769.)

The 2017 amendment, effective July 1, 2017, in subsection (a), inserted “, dentist, physician assistant, or advanced practice registered nurse”, substituted “his or her health care profession” for “medicine”, inserted “or other applicable accredited health care education program”, and added “or such other applicable accreditation for other health care

education programs, as determined by the board.”; in subsection (b), in the second sentence, inserted “or health care” twice; and, in subsection (c), near the middle, inserted “, dentist, physician assistant, or advanced practice registered nurse”, and inserted “, dentists, physician assistants, and advanced practice registered nurses”.

The 2018 amendment, effective July

1, 2018, substituted “this article” for “this chapter” throughout this Code section.

31-34-4.1. Grants to hospitals and other entities; use of funds; rules and regulations authorized.

(a) After providing priority consideration to granting loans pursuant to Code Section 31-34-4, the board is authorized to make grants to hospitals and, as determined by the board, other health care entities, local governments, and civic organizations in underserved rural areas of Georgia, provided that any such hospital, health care entity, local government, or civic organization matches such grant in an amount not less than such grant. Such grants shall be for the purpose of enhancing recruitment efforts in bringing physicians, dentists, physician assistants, and advanced practice registered nurses to such areas.

(b) Acceptable expenditures of grant funds by a hospital or other health care entity, local government, or civic organization include, but are not limited to, medical or health care education loan repayment, salary supplements for physicians, dentists, physician assistants, and advanced practice registered nurses, and additional support staff for a physician’s, dentist’s, physician assistant’s, or advanced practice registered nurse’s office. Grant funds shall not be used for hiring or paying a recruiting firm or individual recruiter.

(c) The board is authorized to give priority over other grant applicants to applicant hospitals and other health care entities, local governments, and civic organizations in rural areas of this state experiencing shortages or distribution problems of certain specialties as determined by the board pursuant to rules and regulations adopted by the board in accordance with this article.

(d) The board may adopt and prescribe such rules and regulations as it deems necessary or appropriate to administer and carry out the grant program provided for in this article. Such rules and regulations shall provide for the criteria that must be met by an applicant and the penalties that shall be incurred for failure to comply with the grant requirements. (Code 1981, § 31-34-4.1, enacted by Ga. L. 2010, p. 322, § 1/HB 866; Ga. L. 2017, p. 397, § 4/HB 427; Ga. L. 2018, p. 132, § 6/HB 769.)

The 2017 amendment, effective July 1, 2017, in subsection (a), deleted “physician” preceding “underserved” in the first sentence, and inserted “, dentists, physician assistants, and advanced practice registered nurses” near the end of the second sentence; and, in the first sentence of subsection (b), inserted “or health care”, inserted “, dentists, physician assistants,

and advanced practice registered nurses”, and inserted “, dentist’s, physician assistant’s, or advanced practice registered nurse’s” near the end.

The 2018 amendment, effective July 1, 2018, substituted “this article” for “this chapter” at the end of subsection (c) and at the end of the first sentence of subsection (d).

31-34-5. Service cancelable loan; amount; repayment; determination of underserved rural areas.

(a)(1) The board shall have the authority to grant to each applicant approved by the board on a one-year renewable basis a service cancelable loan for a period not exceeding four years. The amount of the loan shall be determined by the board, but such amount shall be related to the applicant's outstanding obligations incurred as a direct result of completing medical or health care education and training.

(2) A loan or loans to each approved applicant shall be granted on the condition that the full amount of the loan or loans shall be repaid to the State of Georgia in services to be rendered by the applicant's practicing his or her profession in a board approved physician, dentist, physician assistant, or advanced practice registered nurse underserved rural area of Georgia. For each full year of practicing his or her profession in such underserved rural area, the physician, dentist, physician assistant, or advanced practice registered nurse who obtained the loan shall receive credit for the full amount of one year's loan plus regular interest which accrued on such amount.

(b)(1) The board shall have the authority to make grants to each applicant hospital or other health care entity, local government, or civic organization approved by the board on a yearly basis, renewable each year at the discretion of the board. The amount of the grant shall be determined by the board, but such amount shall be related to and shall not exceed the applicant's proposed expenditures to enhance recruitment efforts in bringing one or more physicians, dentists, physician assistants, or advanced practice registered nurses to the underserved rural area.

(2) A grant to an approved applicant shall be made on any condition or conditions determined by the board, which may include, but not be limited to, that one or more physicians, dentists, physician assistants, or advanced practice registered nurses are employed and retained in the underserved rural area for a prescribed minimum length of time.

(c) In making a determination of physician, dentist, physician assistant, or advanced practice registered nurse underserved rural areas of Georgia, the board shall seek the advice and assistance of the Department of Public Health, the University of Georgia Cooperative Extension Service, the Department of Community Affairs, and such other public or private associations or organizations as the board determines to be of assistance in making such determinations. Criteria to determine physician, dentist, physician assistant, or advanced practice registered nurse underserved rural areas shall include, but shall not be limited to, relevant statistical data related to the following:

- (1) The ratio of physicians, dentists, physician assistants, or advanced practice registered nurses to population in the area;
- (2) Indications of the health status of the population in the area;
- (3) The poverty level and dependent age groups of the population in the area;
- (4) Indications of community support for more physicians, dentists, physician assistants, or advanced practice registered nurses in the area; and
- (5) Indications that access to the physician's, dentist's, physician assistant's, or advanced practice registered nurse's services is available to every person in the underserved area regardless of ability to pay. (Code 1981, § 31-34-5, enacted by Ga. L. 1989, p. 1234, § 1; Ga. L. 2009, p. 453, § 1-4/HB 228; Ga. L. 2010, p. 322, § 1/HB 866; Ga. L. 2011, p. 459, § 3/HB 509; Ga. L. 2011, p. 705, § 6-3/HB 214; Ga. L. 2017, p. 397, § 5/HB 427.)

The 2017 amendment, effective July 1, 2017, throughout this Code section, inserted “, dentist, physician assistant, or advanced practice registered nurse” and inserted “, dentists, physician assistants, or advanced practice registered nurses”; inserted “or health care” near the end of the last sentence of paragraph (a)(1); de-

leted “a physician” preceding “underserved” in the last sentence of paragraph (a)(2); deleted “physician” preceding “underserved” throughout subsection (b); and substituted “, dentist's, physician assistant's, or advanced practice registered nurse's” in the middle of paragraph (c)(5).

31-34-6. Contract between applicant and state agreeing to terms and conditions of loan; breach of contract; service cancelable contracts.

(a)(1) Before being granted a service cancelable loan provided for in this article, each applicant therefor shall enter into a contract with the State of Georgia agreeing to the terms and conditions upon which the loan is granted, which contract shall include such terms and conditions as will carry out the purposes and intent of this article. The chairperson of the board and the executive director of the board, acting for and on behalf of the State of Georgia, shall execute the contract for the board. The contract shall also be properly executed by the applicant. The board is vested with full and complete authority to bring an action in its own name against any recipient of a loan under the provisions of this article for the performance of the contract and to collect any amount that may be due under the contract.

(2) Any recipient of a loan under the provisions of this article who breaches the contract for such loan by either failing to begin or failing to complete the rural practice service obligation under the contract shall be immediately liable to the board for twice the total uncredited

amount of all loans contracted for with the recipient, such uncredited amount to be prorated on a monthly basis respecting the recipient's actual service rendered and the total service obligation. For compelling reasons provided for in rules or regulations of the board, the board may agree to and accept a lesser measure of damages for the breach of a contract.

(b)(1) Before receiving a grant under this article, each approved applicant hospital or other health care entity, local government, or civic organization shall enter into a service cancelable contract with the State of Georgia agreeing to the terms and conditions upon which the grant is made, which contract shall include such terms and conditions as will carry out the purposes and intent of this article. The chairperson of the board and the executive director of the board, acting for and on behalf of the State of Georgia, shall execute the contract for the board. The contract shall also be properly executed by the applicant. The board is vested with full and complete authority to bring an action in its own name against any recipient of a grant under the provisions of this article for the performance of the contract and to collect any amount that may be due under the contract.

(2) Any recipient of a grant under the provisions of this article who breaches the contract for such grant shall be liable for the measure of damages specified in the contract for the breach of such contract. (Code 1981, § 31-34-6, enacted by Ga. L. 1989, p. 1234, § 1; Ga. L. 2010, p. 322, § 1/HB 866; Ga. L. 2018, p. 132, § 6/HB 769.)

The 2018 amendment, effective July 1, 2018, substituted "this article" for "this chapter" throughout this Code section.

31-34-7. Cancellation of contract.

(a) The board shall have the authority to cancel the contract of any recipient of a loan under this article for cause deemed sufficient by the board, provided that such authority shall not be arbitrarily or unreasonably exercised. Upon such cancellation, the total uncredited amount paid to the recipient shall at once become due and payable to the board in cash, and interest at the rate of 12 percent per annum shall accrue on such total uncredited amount from the date of cancellation to the date of payment.

(b) The board shall have the authority to cancel the contract of any recipient of a grant under this article for cause deemed sufficient by the board, provided that such authority shall not be arbitrarily or unreasonably exercised. Upon such cancellation, the grant recipient shall not

be eligible to receive further grant funds pursuant to this article. (Code 1981, § 31-34-7, enacted by Ga. L. 1989, p. 1234, § 1; Ga. L. 2010, p. 322, § 1/HB 866; Ga. L. 2018, p. 132, § 6/HB 769.)

The 2018 amendment, effective July 1, 2018, substituted “this article” for “this chapter” throughout this Code section.

31-34-8. Funding.

The funds necessary to carry out the loan and grant program authorized by this article may come from funds made available to the board from private, federal, state, or local sources. Funds appropriated by the General Assembly for the purposes of this article shall be appropriated to the Department of Community Health for the specific purpose of the cancelable loan and grant program authorized by this article. The board shall be assigned to the Department of Community Health for administrative purposes only, except that such department shall prepare and submit the budget for that board in concurrence with that board. (Code 1981, § 31-34-8, enacted by Ga. L. 1989, p. 1234, § 1; Ga. L. 1999, p. 296, § 10; Ga. L. 2010, p. 322, § 1/HB 866; Ga. L. 2018, p. 132, § 6/HB 769.)

The 2018 amendment, effective July 1, 2018, substituted “this article” for “this chapter” throughout this Code section.

31-34-9. Biennial report to General Assembly.

The board shall make a biennial report to the General Assembly of its activities under the provisions of this article. Such report shall include the name of each recipient of a loan made under the provisions of this article, the amount of each such loan, and the rural area in which the recipient is practicing medicine. Such report shall include the name of each recipient of a grant made under the provisions of this article, the amount of each such grant, and the rural area in which the recipient is located. Such report shall also report the amount of administrative expenses incurred by the board in carrying out the provisions of this article. (Code 1981, § 31-34-9, enacted by Ga. L. 1989, p. 1234, § 1; Ga. L. 2010, p. 322, § 1/HB 866; Ga. L. 2018, p. 132, § 6/HB 769.)

The 2018 amendment, effective July 1, 2018, substituted “this article” for “this chapter” throughout this Code section.

ARTICLE 2

GRANT PROGRAM

Effective date. — This article became effective July 1, 2018.

31-34-20. Grant program for physicians serving underserved rural areas; eligibility qualifications; time of practice; rules and regulations.

(a) Subject to appropriations, the Georgia Board for Physician Workforce shall establish a grant program for the purpose of increasing the number of physicians who remain in Georgia to practice in medically underserved rural areas of the state. The grant program shall provide medical malpractice insurance premium assistance for physicians practicing in such medically underserved rural areas of the state, as identified by the Georgia Board for Physician Workforce pursuant to Code Section 49-10-3.

(b) To be eligible to receive a grant under the grant program, a physician shall meet the following qualifications:

- (1) Maintain a practice in a medically underserved rural area of the state;
- (2) Be licensed to practice in this state and board certified;
- (3) Complete a minimum of 100 hours of continuing medical education as approved by the Georgia Composite Medical Board;
- (4) Provide weekend or extended hours; and
- (5) Accept Medicaid and medicare patients.

(c) A physician receiving a grant pursuant to the grant program shall agree to practice medicine in such medically underserved rural areas of the state for a period of time determined by the Georgia Board for Physician Workforce.

(d) The Georgia Board for Physician Workforce may adopt and prescribe such rules and regulations as it deems necessary or appropriate to administer and carry out the grant program provided for in this chapter. In establishing the amount of grants, the Georgia Board for Physician Workforce shall determine the average insurance premium rates for physicians in rural areas of this state. (Code 1981, § 31-34-20, enacted by Ga. L. 2018, p. 132, § 6/HB 769.)

CHAPTER 36A

TEMPORARY HEALTH CARE PLACEMENT DECISION
MAKER FOR AN ADULT

**31-36A-6. Persons authorized to consent; expiration of authori-
zation; limitations on authority to consent; effect on
other laws; immunity from liability or disciplinary
action.**

Law reviews. — For article, “Mar-
riage, Death and Taxes: The Estate Plan-
ning Impact of Windsor and Obergefell on

Georgia’s Same Sex Spouses,” see 21 Ga.
St. Bar. J. 9 (Oct. 2015).

CHAPTER 38

TANNING FACILITIES

Sec.
31-38-11. Variance permitted.
31-38-12. Effect of chapter on adminis-

trator; administrator’s immu-
nity from liability.

31-38-11. Variance permitted.

Any tanning facility which finds that it is not possible to comply with Code Section 31-38-4 may apply to the Attorney General for a variance from the requirements of Code Section 31-38-4. Any such variance granted by the Attorney General shall be in writing and shall be drawn as narrowly as possible. (Code 1981, § 31-38-11, enacted by Ga. L. 1991, p. 1411, § 2; Ga. L. 2015, p. 1088, § 19/SB 148.)

The 2015 amendment, effective July
1, 2015, in this Code section, substituted
“Attorney General” for “administrator ap-
pointed pursuant to subsection (a) of Code

Section 10-1-395” in the first sentence and
substituted “Attorney General” for “ad-
ministrator” in the second sentence.

**31-38-12. Effect of chapter on administrator; administrator’s
immunity from liability.**

Nothing contained in this chapter shall be construed as imposing any duty, requirement, or enforcement authority upon the Attorney General except as described in Code Section 31-38-11, provided that nothing contained in this chapter shall be construed in any manner as limiting the Attorney General from exercising any of his or her duties, powers, or authority under any other law. The Attorney General shall not be liable to any person for any reason as a result of granting or failing to

grant any variance under Code Section 31-38-11. (Code 1981, § 31-38-12, enacted by Ga. L. 1991, p. 1411, § 2; Ga. L. 2015, p. 1088, § 20/SB 148.)

The 2015 amendment, effective July 1, 2015, in this Code section, substituted “Attorney General” for “administrator appointed pursuant to Code Section 10-1-395” and substituted “his or her du-

ties” for “his duties” in the first sentence and substituted “Attorney General” for “administrator” in the first and second sentences.

CHAPTER 39

CARDIOPULMONARY RESUSCITATION

Sec.

31-39-4. Persons authorized to issue order not to resuscitate.

31-39-4. Persons authorized to issue order not to resuscitate.

(a) It shall be lawful for the attending physician to issue an order not to resuscitate pursuant to the requirements of this chapter. Any written order issued by the attending physician using the term “do not resuscitate,” “DNR,” “order not to resuscitate,” “do not attempt resuscitation,” “DNAR,” “no code,” “allow natural death,” “AND,” “order to allow natural death,” or substantially similar language in the patient’s chart shall constitute a legally sufficient order and shall authorize a physician, health care professional, nurse, physician assistant, caregiver, or emergency medical technician to withhold or withdraw cardiopulmonary resuscitation. Such an order shall remain effective, whether or not the patient is receiving treatment from or is a resident of a health care facility, until the order is canceled as provided in Code Section 31-39-5 or until consent for such order is revoked as provided in Code Section 31-39-6, whichever occurs earlier. An attending physician who has issued such an order and who transfers care of the patient to another physician shall inform the receiving physician and the health care facility, if applicable, of the order.

(b) An adult person with decision-making capacity may consent orally or in writing to an order not to resuscitate and its implementation at a present or future date, regardless of that person’s mental or physical condition on such future date. If the attending physician determines at any time that an order not to resuscitate issued at the request of the patient is no longer appropriate because the patient’s medical condition has improved, the physician shall immediately notify the patient.

(c) The appropriate authorized person may, after being informed of the provisions of this Code section, consent orally or in writing to an order not to resuscitate for an adult candidate for nonresuscitation; provided, however, that such consent is based in good faith upon what such authorized person determines such candidate for nonresuscitation would have wanted had such candidate for nonresuscitation understood the circumstances under which such order is being considered. Where such authorized person is an agent under a durable power of attorney for health care or a health care agent under an advance directive for health care appointed pursuant to Chapter 32 of this title or where a Physician Orders for Life-Sustaining Treatment form with a code status of “do not resuscitate” or its equivalent has been executed in accordance with Code Section 31-1-14 by an authorized person who is an agent under a durable power of attorney for health care or a health care agent under an advance directive for health care appointed pursuant to Chapter 32 of this title, the attending physician may issue an order not to resuscitate a candidate for nonresuscitation pursuant to the requirements of this chapter without the concurrence of another physician, notwithstanding the provisions of paragraph (4) of Code Section 31-39-2.

(d) Any parent may consent orally or in writing to an order not to resuscitate for his or her minor child when such child is a candidate for nonresuscitation. If in the opinion of the attending physician the minor is of sufficient maturity to understand the nature and effect of an order not to resuscitate, then no such order shall be valid without the assent of such minor.

(e) If none of the persons specified in subsections (b), (c), and (d) of this Code section is reasonably available or competent to make a decision regarding an order not to resuscitate, an attending physician may issue an order not to resuscitate for a patient, provided that:

(1) Such physician determines with the concurrence of a second physician, in writing in the patient’s medical record, that such patient is a candidate for nonresuscitation;

(2) An ethics committee or similar panel, as designated by the health care facility, concurs in the opinion of the attending physician and the concurring physician that the patient is a candidate for nonresuscitation; and

(3) The patient is receiving inpatient or outpatient treatment from or is a resident of a health care facility other than a hospice or a home health agency. (Code 1981, § 31-39-4, enacted by Ga. L. 1991, p. 1853, § 1; Ga. L. 1994, p. 672, § 1; Ga. L. 1995, p. 10, § 31; Ga. L. 1995, p. 722, §§ 2, 2.1; Ga. L. 2009, p. 298, § 1/HB 69; Ga. L. 2011, p. 379, § 2/HB 275; Ga. L. 2015, p. 305, § 2/SB 109.)

The 2015 amendment, effective July 1, 2015, in subsection (a), in the second sentence, inserted “do not attempt resuscitation,” “DNAR,” and inserted “allow natural death,” “AND,” “order to allow natural death,”; and in subsection (c), in the

second sentence, inserted “a” following “health care or” and inserted the language beginning with “or where a Physician Orders for” and ending with “pursuant to Chapter 32 of this title”.

CHAPTER 40
TATTOO STUDIOS

Sec.
31-40-1. Definitions.

Sec.
31-40-10. Criminal law not repealed.

31-40-1. Definitions.

As used in this chapter, the term:

(1) “Microblading of the eyebrow” means a form of cosmetic tattoo artistry where ink is deposited superficially in the upper three layers of the epidermis using a handheld tool made up of needles known as a microblade to improve or create eyebrow definition, to cover gaps of lost or missing hair, to extend the natural eyebrow pattern, or to create a full construction if the eyebrows have little to no hair.

(2) “Tattoo” means to mark or color the skin by pricking in, piercing, or implanting indelible pigments or dyes under the skin. Such term includes microblading of the eyebrow.

(3) “Tattoo artist” means any person who performs tattooing, except that the term tattoo artist shall not include in its meaning any physician or osteopath licensed under Chapter 34 of Title 43, nor shall it include any technician acting under the direct supervision of such licensed physician or osteopath, pursuant to subsection (a) of Code Section 16-5-71.

(4) “Tattoo studio” means any facility or building on a fixed foundation wherein a tattoo artist performs tattooing. (Code 1981, § 31-40-1, enacted by Ga. L. 1994, p. 446, § 2; Ga. L. 2018, p. 996, § 1/SB 461.)

The 2018 amendment, effective July 1, 2018, added paragraph (1); redesignated former paragraphs (1) through (3)

as present paragraphs (2) through (4), respectively; and added the second sentence in present paragraph (2).

31-40-5. Rules and regulations.

RESEARCH REFERENCES

ALR. — Regulation of business of tattooing, 67 A.L.R.6th 395.

31-40-10. Criminal law not repealed.

Nothing in this chapter shall be construed to repeal the provisions of Code Section 16-12-5; provided, however, that Code Section 16-12-5 shall not apply to microblading of the eyebrow. (Code 1981, § 31-40-10, enacted by Ga. L. 1994, p. 446, § 2; Ga. L. 2018, p. 996, § 2/SB 461.)

The 2018 amendment, effective July 1, 2018, added the proviso at the end of this Code section.

CHAPTER 41

LEAD POISONING PREVENTION

Article 1
General Provisions

Sec.
31-41-3. Definitions.

ARTICLE 1
GENERAL PROVISIONS

31-41-2. Legislative findings.

JUDICIAL DECISIONS

Lead is pollutant. — Personal injury claims arising from a child’s lead poisoning due to lead-based paint ingestion were excluded from coverage pursuant to an absolute pollution exclusion in a landlord’s commercial general liability (CGL) insurance policy covering residential rental property where the child lived. There was no ambiguity as to whether lead in paint was a “pollutant.” Ga. Farm Bureau Mut. Ins. Co. v. Smith, 298 Ga. 716, 784 S.E.2d 422 (2016).

31-41-3. Definitions.

As used in this chapter, the term:

(1) “Abatement” means any set of measures designed to eliminate lead-based paint hazards, in accordance with standards developed by the board, including:

(A) Removal of lead-based paint and lead contaminated dust, the permanent containment or encapsulation of lead-based paint, the replacement of lead-painted surfaces or fixtures, and the removal or covering of lead contaminated soil; and

(B) All preparation, cleanup, disposal, and postabatement clearance testing activities associated with such measures.

(2) “Accessible surface” means an interior or exterior surface painted with lead-based paint that is accessible for a young child to mouth or chew.

(2.1) “Board” means the Board of Natural Resources of the State of Georgia.

(2.2) “Child-occupied facility” means a building or portion of a building constructed prior to 1978, visited by the same child, six years of age or under, on at least two different days within the same week (Sunday through Saturday period), provided that each day’s visit lasts at least three hours and the combined weekly visit lasts at least six hours. Child-occupied facilities include, but are not limited to, child care learning centers, preschools, and kindergarten facilities.

(3) “Department” means the Department of Natural Resources.

(4) “Friction surface” means an interior or exterior surface that is subject to abrasion or friction, including certain window, floor, and stair surfaces.

(5) “Impact surface” means an interior or exterior surface or fixture that is subject to damage by repeated impacts, for example, certain parts of door frames.

(6) “Inspection” means a surface by surface investigation to determine the presence of lead-based paint and the provision of a report explaining the results of the investigation.

(7) “Interim controls” means a measure or set of measures as specified by the board taken by the owner of a structure that are designed to control temporarily human exposure or likely exposure to lead-based paint hazards.

(8) “Lead-based paint” means paint or other surface coatings that contain lead in excess of limits established by board regulation.

(9) “Lead-based paint activities” means the inspection and assessment of lead hazards and the planning, implementation, and inspection of interim controls, renovation, and abatement activities at target housing and child-occupied facilities.

(10) “Lead-based paint hazard” means any condition that causes exposure to lead from lead contaminated dust, lead contaminated soil, or lead contaminated paint that is deteriorated or present in accessible surfaces, friction surfaces, or impact surfaces that would result in adverse human health effects as established pursuant to Section 403 of the Toxic Substances Control Act.

(11) “Lead contaminated dust” means surface dust in residential dwellings or in other facilities occupied or regularly used by children that contains an area or mass concentration of lead in excess of levels determined pursuant to Section 403 of the Toxic Substances Control Act.

(12) “Lead contaminated soil” means bare soil on residential real property or on other sites frequented by children that contains lead at or in excess of levels determined to be hazardous to human health pursuant to Section 403 of the Toxic Substances Control Act.

(13) “Lead contaminated waste” means any discarded material resulting from an abatement activity that fails the toxicity characteristics determined by the department.

(13.1) “Lead dust sampling technician” means an individual employed to perform lead dust clearance sampling for renovation as determined by the department.

(14) “Lead firm” means a company, partnership, corporation, sole proprietorship, association, or other business entity that employs or contracts with persons to perform lead-based paint activities.

(15) “Lead inspector” means a person who conducts inspections to determine the presence of lead-based paint or lead-based paint hazards.

(16) “Lead project designer” means a person who plans or designs abatement activities and interim controls.

(17) “Lead risk assessor” means a person who conducts on-site risk assessments of lead hazards.

(18) “Lead supervisor” means a person who supervises and conducts abatement of lead-based paint hazards.

(19) “Lead worker” means any person performing lead hazard reduction activities.

(19.1) “Minor repair and maintenance activities” means activities that disrupt six square feet or less of painted surface per room for

interior activities or 20 square feet or less of painted surface for exterior activities where none of the work practices prohibited or restricted as determined by the department are used or where the work does not involve window replacement or demolition of painted surface areas. Jobs performed in the same room within 30 days are considered the same job for purposes of this definition.

(19.2) “Renovation” means the modification of any target housing or child-occupied facility structure or portion thereof, that results in the disturbance of painted surfaces unless that activity is performed as part of an abatement activity. Renovation includes but is not limited to the removal, modification, re-coating, or repair of painted surfaces or painted components; the removal of building components; weatherization projects; and interim controls that disturb painted surfaces. A renovation performed for the purpose of converting a building, or part of a building into target housing or a child-occupied facility is a renovation. Such term shall not include minor repair and maintenance activities.

(19.3) “Renovation firm” means a company, partnership, corporation, sole proprietorship or individual doing business, association, or other business entity that employs or contracts with persons to perform lead-based paint renovations as determined by the department.

(19.4) “Renovator” means an individual who either performs or directs workers who perform renovations.

(20) “Risk assessment” means an on-site investigation to determine and report the existence, nature, severity, and location of lead-based paint hazards in or on any structure or site, including:

(A) Information gathering regarding the age and history of the structure and the occupancy or other use by young children;

(B) Visual inspection;

(C) Limited wipe sampling or other environmental sampling techniques;

(D) Other activity as may be appropriate; and

(E) Provision of a report explaining the results of the investigation.

(21) “Target housing” means any housing constructed prior to 1978, except housing for the elderly or persons with disabilities (unless any child or children age six years or under resides or is expected to reside in such housing for the elderly or persons with disabilities) or any zero-bedroom dwelling. (Code 1981, § 31-41-3,

enacted by Ga. L. 1994, p. 1617, § 1; Ga. L. 1998, p. 248, § 1; Ga. L. 2010, p. 531, § 6/SB 78; Ga. L. 2013, p. 135, § 12/HB 354.)

The 2013 amendment, effective July 1, 2013, substituted “child care learning centers” for “day-care centers” in the second sentence of paragraph (2.2).

CHAPTER 49

GEORGIA COUNCIL ON LUPUS EDUCATION AND AWARENESS

| Sec. | | Sec. | |
|----------|---|----------|------------------------------|
| 31-49-1. | Legislative findings. | 31-49-4. | Distribution of information. |
| 31-49-2. | Creation of Council on Lupus Education and Awareness; membership; organization. | 31-49-5. | Annual report. |
| 31-49-3. | Duties and responsibilities of council. | 31-49-6. | Donations. |

Effective date. — This chapter became effective July 1, 2014.

31-49-1. Legislative findings.

The General Assembly finds and declares that it is estimated that as many as 55,000 Georgia residents suffer from lupus, a life-long autoimmune disease in which the immune system becomes unbalanced, causing inflammation, tissue damage, seizures, strokes, heart attacks, miscarriages, and organ failure. Although anyone can develop lupus, it strikes mostly women of childbearing age; African American, Hispanic, Asian, and Native American women are two to three times more likely than Caucasians to develop lupus. Lupus can be difficult to diagnose and often is misdiagnosed because the symptoms are similar to those of other illnesses. It is in the public interest for this state to establish an entity to develop and implement a comprehensive program to improve education and awareness about lupus for health care providers and the general public. (Code 1981, § 31-49-1, enacted by Ga. L. 2014, p. 397, § 2/SB 352.)

31-49-2. Creation of Council on Lupus Education and Awareness; membership; organization.

(a) There is created the Georgia Council on Lupus Education and Awareness within the Department of Community Health.

(b) The council shall consist of six members as follows:

(1) The commissioner of community health, or the commissioner's designee, as an ex officio member;

(2) Three members to be appointed by the Governor. The Governor shall appoint two members to serve for one year and one to serve for two years. Thereafter, successors to such initial appointees shall serve for two years. Of these three members, one shall be a physician who treats patients with lupus and one shall be a lupus patient;

(3) One member to be appointed by the Speaker of the House of Representatives to serve for two years; and

(4) One member to be appointed by the Lieutenant Governor to serve for two years;

(c) All vacancies on the council shall be filled for the balance of the unexpired term in the same manner as the original appointment. A member of the council shall be eligible for reappointment.

(d) The members of the council shall serve without compensation but may be reimbursed for any expenses incurred by them in the performance of their duties, subject to the availability of funds.

(e) The council shall organize as soon as practicable after the appointment of its members and shall select a chairperson from among its members. (Code 1981, § 31-49-2, enacted by Ga. L. 2014, p. 397, § 2/SB 352.)

31-49-3. Duties and responsibilities of council.

(a) The council shall have the following duties and responsibilities:

(1) To initially investigate the level of education concerning lupus in this state; and

(2) Based on the results of its initial investigation pursuant to paragraph (1) of this Code section, to develop information on lupus endorsed by government agencies, including, but not limited to, the National Institutes of Health and the Centers for Disease Control and Prevention.

(b) The council shall develop a directory of lupus related health care services, which shall be made available on the department's website and shall include a list of health care providers specializing in the diagnosis and treatment of lupus. (Code 1981, § 31-49-3, enacted by Ga. L. 2014, p. 397, § 2/SB 352.)

31-49-4. Distribution of information.

(a) The department shall post the information developed by the council pursuant to paragraph (2) of subsection (a) of Code Section 31-49-3 on its website.

(b) Subject to appropriations or access to other private or public funds, the department may distribute such information to individuals with lupus, their family members, health care professionals, hospitals, local health departments, schools, agencies on aging, employers, health plans, women's health groups, and nonprofit and community based organizations. (Code 1981, § 31-49-4, enacted by Ga. L. 2014, p. 397, § 2/SB 352.)

31-49-5. Annual report.

The council shall prepare annually a complete and detailed report to be submitted to the Governor, the chairperson of the House Committee on Health and Human Services, and the chairperson of the Senate Health and Human Services Committee detailing the activities of the council and may include any recommendations for legislative action it deems appropriate. (Code 1981, § 31-49-5, enacted by Ga. L. 2014, p. 397, § 2/SB 352.)

31-49-6. Donations.

The council may solicit and accept donations, gifts, grants, property, or matching funds from any public or private source for the use of the council in performing its functions under this chapter. (Code 1981, § 31-49-6, enacted by Ga. L. 2014, p. 397, § 2/SB 352.)

CHAPTER 50**COMMISSION ON MEDICAL CANNABIS**

Sec.
31-50-1 through 31-50-5 [Repealed].

31-50-1 through 31-50-5.

Repealed by Ga. L. 2015, p. 49, § 3-1/HB 1, effective June 30, 2016.

Editor’s notes. — This chapter, consisting of Code Sections 31-50-1 through 31-50-5, and relating to the Commission on Medical Cannabis, was based on Ga. L. 2015, p. 49, § 3-1/HB 1; Ga. L. 2016, p. 864, § 31/HB 737.

Law reviews. — For article on the 2015 enactment of this chapter, see 32 Ga. St. U.L. Rev. 153 (2015).

CHAPTER 51

CREATION OF LOW THC OIL RESEARCH PROGRAM

| | | | |
|----------|---|-----------|--|
| Sec. | | Sec. | |
| 31-51-1. | (Repealed effective July 1, 2020) Creation of program. | 31-51-6. | (Repealed effective July 1, 2020) Funds. |
| 31-51-2. | (Repealed effective July 1, 2020) Voluntary enrollment; residency. | 31-51-7. | (Repealed effective July 1, 2020) Immunity. |
| 31-51-3. | (Repealed effective July 1, 2020) Authorized agents. | 31-51-8. | (Repealed effective July 1, 2020) Fees. |
| 31-51-4. | (Repealed effective July 1, 2020) Suppliers of low THC oil. | 31-51-9. | (Repealed effective July 1, 2020) Rules and regulations. |
| 31-51-5. | (Repealed effective July 1, 2020) Public record exempt from disclosure. | 31-51-10. | Sunset. |

Effective date. — This chapter became effective April 16, 2015.

Editor’s notes. — Ga. L. 2015, p. 49, § 1-1/HB 1, not codified by the General Assembly, provides that: “This Act shall be

known and may be cited as the ‘Haleigh’s Hope Act.’”

Code Section 31-51-10 provides for the repeal of this chapter effective July 1, 2020.

31-51-1. (Repealed effective July 1, 2020) Creation of program.

- (a) As used in this chapter, the term “low THC oil” shall have the same meaning as set forth in Code Section 16-12-190.

(b) The Board of Regents of the University System of Georgia may cause to be designed, developed, implemented, and administered a low THC oil research program to develop rigorous data that will inform and expand the scientific community’s understanding of potential treatments for individuals under 18 years of age with medication-resistant epilepsies.

(c) Any such program shall adhere to the regulatory process established by the federal Food, Drug, and Cosmetic Act, as well as other federal laws and regulations governing the development of new medications containing controlled substances.

(d) Any universities and nonprofit institutions of higher education that conduct research may continue any research that is permitted under federal law as well as any additional research that is permitted under this chapter. (Code 1981, § 31-51-1, enacted by Ga. L. 2015, p. 49, § 4-1/HB 1; Ga. L. 2016, p. 864, § 31/HB 737.)

The 2016 amendment, effective May 3, 2016, part of an Act to revise, modernize, and correct the Code, substituted “that is permitted under this chapter” for “is permitted under this chapter” in subsection (d).

Editor’s notes. — Code Section 31-51-10 provides for the repeal of this Code section effective July 1, 2020.

31-51-2. (Repealed effective July 1, 2020) Voluntary enrollment; residency.

To the extent permissible under this chapter, any research program developed pursuant to this chapter shall be designed to permit the voluntary enrollment of all individuals under 18 years of age having medication-resistant epilepsies who are residents of this state and who:

- (1) Have been residents of this state for the 24 month period immediately preceding their entry into the program; or
- (2) Have been residents of this state continuously since birth if they are less than 24 months old at the time of their entry into the program. (Code 1981, § 31-51-2, enacted by Ga. L. 2015, p. 49, § 4-1/HB 1.)

Editor’s notes. — Code Section 31-51-10 provides for the repeal of this Code section effective July 1, 2020.

31-51-3. (Repealed effective July 1, 2020) Authorized agents.

(a) For purposes of this chapter, the board of regents may act through a unit of the University System of Georgia, a nonprofit corporation research institute, or a nonprofit institution of higher education that conducts research, or any combination thereof.

(b) Any nonprofit corporation research institute approved by the board of regents to participate in the research program established under this chapter shall be required to have the necessary experience, expertise, industry standards and security procedures, and infrastructure to implement such research in accordance with accepted scientific and regulatory standards.

(c) The board of regents and its authorized agent may enter into such agreements, among themselves and with other parties, as are reasonable and necessary to implement the provisions of this chapter. (Code 1981, § 31-51-3, enacted by Ga. L. 2015, p. 49, § 4-1/HB 1.)

Editor's notes. — Code Section 31-51-10 provides for the repeal of this Code section effective July 1, 2020.

31-51-4. (Repealed effective July 1, 2020) Suppliers of low THC oil.

(a) The board of regents or its authorized agent may designate an FDA approved supplier of low THC oil and collaborate with a designated supplier to develop a clinical trial or research study protocol to study the use of low THC oil in the treatment of individuals under 18 years of age with medication-resistant epilepsies, which trial or research study shall be conducted at one or more locations in this state. Such supplier shall be required to supply a source of low THC oil that has been standardized and tested in keeping with such standards.

(b) The board of regents or its authorized agent shall work with any supplier of low THC oil to commit personnel and other resources to such collaboration and to supply low THC oil for a collaborative study under reasonable terms and conditions to be agreed upon mutually. (Code 1981, § 31-51-4, enacted by Ga. L. 2015, p. 49, § 4-1/HB 1.)

Editor's notes. — Code Section 31-51-10 provides for the repeal of this Code section effective July 1, 2020.

31-51-5. (Repealed effective July 1, 2020) Public record exempt from disclosure.

Any public record, as defined by Code Section 50-18-70, produced pursuant to this chapter shall be exempt from disclosure to the extent provided by Code Section 50-18-72. (Code 1981, § 31-51-5, enacted by Ga. L. 2015, p. 49, § 4-1/HB 1.)

Editor's notes. — Code Section 31-51-10 provides for the repeal of this Code section effective July 1, 2020.

31-51-6. (Repealed effective July 1, 2020) Funds.

All activities undertaken pursuant to this chapter shall be subject to availability of funds appropriated to the board of regents or to any other academic or research institution or otherwise made available for purposes of this chapter. (Code 1981, § 31-51-6, enacted by Ga. L. 2015, p. 49, § 4-1/HB 1.)

Editor's notes. — Code Section 31-51-10 provides for the repeal of this Code section effective July 1, 2020.

31-51-7. (Repealed effective July 1, 2020) Immunity.

(a)(1) Research program participants and their parents, guardian, or legal custodian, employees of the board of regents designated to participate in the research program, program agents and collaborators and their designated employees, and program suppliers of low THC oil and their designated employees shall be immune from state prosecution as provided in Code Section 16-12-191.

(2) Physicians, clinical researchers, pharmacy personnel, and all medical personnel in the research program authorized by this chapter shall be immune from state prosecution as provided in Code Section 16-12-191.

(b) For purposes of providing proof of research program participation, the board of regents or its agent which administers the research program authorized by this chapter shall provide appropriate permits, suitable for carrying on their persons or display, as applicable, to research program participants and their parents, guardian, or legal custodian, employees of the board of regents designated to participate in the research program, program agents and collaborators and their designated employees, program suppliers of low THC oil and their designated employees, physicians, clinical researchers, pharmacy personnel, and all medical personnel in the program. (Code 1981, § 31-51-7, enacted by Ga. L. 2015, p. 49, § 4-1/HB 1.)

Editor's notes. — Code Section 31-51-10 provides for the repeal of this Code section effective July 1, 2020.

31-51-8. (Repealed effective July 1, 2020) Fees.

The board of regents may establish fees for program participants in such amounts as are reasonable to offset program costs. (Code 1981, § 31-51-8, enacted by Ga. L. 2015, p. 49, § 4-1/HB 1.)

Editor's notes. — Code Section 31-51-10 provides for the repeal of this Code section effective July 1, 2020.

31-51-9. (Repealed effective July 1, 2020) Rules and regulations.

The board of regents may adopt such rules and regulations as are reasonable and necessary for purposes of this chapter. (Code 1981, § 31-51-9, enacted by Ga. L. 2015, p. 49, § 4-1/HB 1.)

Editor's notes. — Code Section 31-51-10 provides for the repeal of this Code section effective July 1, 2020.

31-51-10. Sunset.

This chapter shall stand repealed on July 1, 2020. (Code 1981, § 31-51-10, enacted by Ga. L. 2015, p. 49, § 4-1/HB 1.)

CHAPTER 52

TERMINALLY ILL PATIENT’S RIGHT TO TRY
INVESTIGATIONAL DRUGS, BIOLOGICAL PRODUCTS,
AND DEVICES

| Sec. | | Sec. | |
|----------|--|-----------|--|
| 31-52-1. | Short title. | | plan permitted but not re- quired. |
| 31-52-2. | Legislative findings. | | |
| 31-52-3. | Definitions. | 31-52-8. | Physician immunity from sanc- tion for recommending, pre- scribing, or treating with in- vestigational drugs, biological products, or devices. |
| 31-52-4. | Eligibility criteria. | | |
| 31-52-5. | Written informed consent. | 31-52-9. | State prohibited from blocking eligible patient access. |
| 31-52-6. | Manufacturers permitted to make investigational drugs, bi- ological products, or devices available. | 31-52-10. | Statutory construction. |
| 31-52-7. | Coverage under health benefit | | |

Effective date. — This chapter became effective July 1, 2016.

31-52-1. Short title.

This chapter shall be known and may be cited as the “Georgia Right to Try Act.” (Code 1981, § 31-52-1, enacted by Ga. L. 2016, p. 345, § 1/HB 34.)

31-52-2. Legislative findings.

(a) The General Assembly finds and declares that:

- (1) The process of approval for investigational drugs, biological products, and devices in the United States protects future patients from premature, ineffective, and unsafe medications and treatments over the long run, but the process often takes many years;
- (2) Patients who have terminal illnesses do not have the luxury of waiting until an investigational drug, biological product, or device receives final approval from the federal Food and Drug Administra-
tion;

(3) Patients who have terminal illnesses have a fundamental right to pursue the preservation of their own lives by accessing available investigational drugs, biological products, and devices;

(4) The use of available investigational drugs, biological products, and devices is a decision that should be made by a patient with a terminal illness in consultation with the patient's health care provider; and

(5) The decision to use an investigational drug, biological product, or device should be made with full awareness by the patient and the patient's family of the potential risks, benefits, and consequences.

(b) It is the intent of the General Assembly to allow for patients with terminal illnesses to use potentially life-saving investigational drugs, biological products, and devices. (Code 1981, § 31-52-2, enacted by Ga. L. 2016, p. 345, § 1/HB 34.)

31-52-3. Definitions.

As used in this chapter, the term:

(1) "Eligible patient" means a person who meets the requirements of Code Section 31-52-4.

(2) "Investigational drug, biological product, or device" means a drug, biological product, or device which has successfully completed Phase I of a federal Food and Drug Administration approved clinical trial but has not yet been approved for general use by the federal Food and Drug Administration and currently remains under investigation in a federal Food and Drug Administration approved clinical trial.

(3) "Physician" means a person licensed to practice medicine pursuant to Article 2 of Chapter 34 of Title 43.

(4) "Terminal illness" means a disease that, without life-sustaining procedures, will result in death in the near future and is not considered by a treating physician to be reversible even with administration of current federal Food and Drug Administration approved and available treatments.

(5) "Written informed consent" means a written document that:

(A) Is signed by the patient; parent, if the patient is a minor; legal guardian; or health care agent designated by the patient in an advance directive for health care executed pursuant to Chapter 32 of Title 31;

(B) Is attested to by the patient's physician and a witness; and

(C) Meets the requirements of Code Section 31-52-5. (Code 1981, § 31-52-3, enacted by Ga. L. 2016, p. 345, § 1/HB 34.)

31-52-4. Eligibility criteria.

In order for a person to be considered an eligible patient to access an investigational drug, biological product, or device pursuant to this chapter, a physician must document in writing that the person:

(1) Has a terminal illness;

(2) Has, in consultation with the physician, considered all other treatment options currently approved by the federal Food and Drug Administration;

(3) Has been given a recommendation by the physician for an investigational drug, biological product, or device; and

(4) Has given written informed consent for the use of the investigational drug, biological product, or device. (Code 1981, § 31-52-4, enacted by Ga. L. 2016, p. 345, § 1/HB 34.)

31-52-5. Written informed consent.

Written informed consent shall, at a minimum, include the following:

(1) A description of the currently approved products and treatments for the terminal illness from which the patient suffers;

(2) An attestation that the patient concurs with his or her physician in believing that all currently approved and conventionally recognized treatments are unlikely to prolong the patient's life; and the known risks of the investigational drug, biological product, or device are not greater than the probable outcome of the patient's terminal illness;

(3) Clear identification of the specific proposed investigational drug, biological product, or device that the patient is seeking to use;

(4) A description of the potential best and worst outcomes of using the investigational drug, biological product, or device and a realistic description of the most likely outcome. The description shall include the possibility that new, unanticipated, different, or worse symptoms might result and that death could be hastened by the proposed treatment. The description shall be based on the physician's knowledge of the proposed treatment in conjunction with an awareness of the patient's condition;

(5) A statement that the patient understands that his or her health benefit plan is not obligated to pay for the investigational drug,

biological product, or device, or any care or treatment consequent to the use of such drug, product, or device, unless such health benefit plan is specifically required to do so by law or contract;

(6) A statement that the patient understands that his or her eligibility for hospice care may be withdrawn if he or she begins treatment with the investigational drug, biological product, or device but that such hospice care may be reinstated if such treatment ends and he or she meets hospice eligibility requirements; and

(7) A statement that the patient understands that he or she is liable for all expenses consequent to the use of the investigational drug, biological product, or device and that such liability extends to the patient's estate, unless a contract between the patient and the manufacturer of the investigational drug, biological product, or device states otherwise. (Code 1981, § 31-52-5, enacted by Ga. L. 2016, p. 345, § 1/HB 34.)

31-52-6. Manufacturers permitted to make investigational drugs, biological products, or devices available.

(a) A manufacturer of an investigational drug, biological product, or device may make available and an eligible patient may request access to the manufacturer's investigational drug, biological product, or device pursuant to this chapter; provided, however, that nothing in this chapter shall be construed to require that a manufacturer make available an investigational drug, biological product, or device to an eligible patient.

(b) A manufacturer may provide an investigational drug, biological product, or device to an eligible patient:

(1) Without receiving compensation; or

(2) With the requirement that the eligible patient pays the costs of, or the costs associated with, the manufacture of the investigational drug, biological product, or device. (Code 1981, § 31-52-6, enacted by Ga. L. 2016, p. 345, § 1/HB 34.)

31-52-7. Coverage under health benefit plan permitted but not required.

A health benefit plan or governmental agency may provide coverage for the cost of any investigational drug, biological product, or device pursuant to this chapter; provided, however, that nothing in this chapter shall be construed to require a health benefit plan or governmental agency to provide coverage for the cost of any investigational drug, biological product, or device pursuant to this chapter. (Code 1981, § 31-52-7, enacted by Ga. L. 2016, p. 345, § 1/HB 34.)

31-52-8. Physician immunity from sanction for recommending, prescribing, or treating with investigational drugs, biological products, or devices.

The Georgia Composite Medical Board shall not revoke, suspend, sanction, fail to renew, or take any other action against a physician's license solely based on such physician's recommendation, prescription, or treatment of an eligible patient with an investigational drug, biological product, or device pursuant to this chapter. (Code 1981, § 31-52-8, enacted by Ga. L. 2016, p. 345, § 1/HB 34.)

31-52-9. State prohibited from blocking eligible patient access.

No official, employee, or agent of the state shall block or attempt to block an eligible patient's access to an investigational drug, biological product, or device. Counseling, advice, or a recommendation for treatment consistent with medical standards of care shall not be construed as a violation of this Code section. (Code 1981, § 31-52-9, enacted by Ga. L. 2016, p. 345, § 1/HB 34.)

31-52-10. Statutory construction.

(a) This chapter shall not be construed to create a private cause of action against a manufacturer of an investigational drug, biological product, or device or against any other person or entity involved in the care of an eligible patient using an investigational drug, biological product, or device for any harm done to the eligible patient resulting from the investigational drug, biological product, or device if the manufacturer or other person or entity is complying in good faith with the terms of this chapter and has exercised reasonable care.

(a.1) This chapter shall not be construed to create a private cause of action against a physician who refuses to recommend an investigational drug, biological product, or device for any otherwise eligible patient.

(b) Any person or entity providing treatment to an eligible patient using an investigational drug, biological product, or device shall not be liable for injury or death to such eligible patient as a result of the investigational drug, biological product, or device under Code Section 51-1-27 or 51-4-1, et seq., unless it is shown that the person or entity failed to obtain written informed consent in compliance with Code Section 31-52-5.

(c) This chapter shall not be construed to affect any required health care coverage under Title 33 for patients in clinical trials. (Code 1981, § 31-52-10, enacted by Ga. L. 2016, p. 345, § 1/HB 34.)

TITLE 32

HIGHWAYS, BRIDGES, AND FERRIES

Chap.

2. Department of Transportation, 32-2-1 through 32-2-81.
3. Acquisition of Property for Transportation Purposes, 32-3-1 through 32-3-39.
4. State, County, and Municipal Road Systems, 32-4-1 through 32-4-123.
5. Funds for Public Roads, 32-5-1 through 32-5-31.
6. Regulation of Maintenance and Use of Public Roads Generally, 32-6-1 through 32-6-248.
7. Abandonment, Disposal, or Leasing of Property Not Needed for Public Road Purposes, 32-7-1 through 32-7-5.
9. Mass Transportation, 32-9-1 through 32-9-24.
10. Public Authorities, 32-10-1 through 32-10-133.
12. Georgia Coordinating Committee for Rural and Human Services Transportation, 32-12-1 through 32-12-6. [Repealed]

CHAPTER 1

GENERAL PROVISIONS

32-1-2. Purpose and legislative intent.

JUDICIAL DECISIONS

State DOT not liable for failing to erect road closure signs on county road. — Because an accident occurred on a county-owned road and did not occur on a part of the state highway system upon which the DOT owed a duty to motorists, and the couple's expert's affidavit could not establish a legal duty to erect signs or to take other steps to inform drivers of the closure of the county-owned road, summary judgment for the DOT was proper. *Diamond v. DOT*, 326 Ga. App. 189, 756 S.E.2d 277 (2014).

County's duty to maintain dedi-

cated roads in subdivision. — Trial court erred by granting mandamus relief under O.C.G.A. § 9-6-20 with regard to a property owner seeking to compel a county to maintain roads in a subdivision because while the county had accepted dedication of the streets, the county still was vested with the discretion to decide whether to open all of the roads or close any of the roads, and the trial court was required to determine whether the county's decisions were arbitrary, capricious, and unreasonable or a gross abuse of discretion as nowhere in the judgment

was that standard articulated. *Burke County v. Askin*, 291 Ga. 697, 732 S.E.2d 416 (2012).

32-1-3. Definitions.

JUDICIAL DECISIONS

Unopened, undeveloped, proposed roads, etc.
County, which had accepted dedication of a subdivision road in 1962 but had not completed the road or maintained it for 50 years, due to the county’s mistaken belief that the road was private, was ordered to complete and maintain the road; the county’s failure to complete the road was arbitrary and capricious, given the county’s acceptance of subdivision plats requiring the road. As to unopened roads in the subdivision, the roads were not public under O.C.G.A. § 9-6-21(b), and the county had no obligation to maintain those unopened roads. *Burke County v. Askin*, 294 Ga. 634, 755 S.E.2d 747 (2014).
County’s duty to maintain dedi-

cated roads in subdivision. — Trial court erred by granting mandamus relief under O.C.G.A. § 9-6-20 with regard to a property owner seeking to compel a county to maintain roads in a subdivision because while the county had accepted dedication of the streets, the county still was vested with the discretion to decide whether to open all of the roads or close any of the roads, and the trial court was required to determine whether the county’s decisions were arbitrary, capricious, and unreasonable or a gross abuse of discretion as nowhere in the judgment was that standard articulated. *Burke County v. Askin*, 291 Ga. 697, 732 S.E.2d 416 (2012).

ARTICLE 1

GENERAL PROVISIONS

32-2-2. Powers and duties of department generally.

(a) The powers and duties of the department, unless otherwise expressly limited by law, shall include but not be limited to the following:

(1) The department shall plan, designate, improve, manage, control, construct, and maintain a state highway system and shall have control of and responsibility for all construction, maintenance, or any other work upon the state highway system and all other work which may be designated to be done by the department by this title or any other law. However, on those portions of the state highway system lying within the corporate limits of any municipality, the department shall be required to provide only substantial maintenance activities and operations, including but not limited to reconstruction and major resurfacing, reconstruction of bridges, erection and maintenance of official department signs, painting of striping and pavement delineators, furnishing of guardrails and bridge rails, and other major maintenance activities; and, furthermore, the department may by contract authorize and require any rapid transit authority created by the General Assembly to plan, design, and construct, at no cost to the department and subject to the department's review and approval of design and construction, segments of the state highway system necessary to replace those portions of the system which the rapid transit authority and the department agree must be relocated in order to avoid conflicts between the rapid transit authority's facilities and the state highway system;

(2) Except for appropriations to authorize the issuance of general obligation debt for public road work, or to pay such debt, the department shall be the state agency to receive and shall have control and supervision of all funds appropriated for public road work by the state and activities incident thereto from the net proceeds of motor fuel tax, as provided in Article III, Section IX, Paragraph VI(b) of the Constitution of Georgia and any other funds appropriated or provided for by law for such purposes or for performing other functions of the department. If the General Assembly fails to appropriate all of the net proceeds of the motor fuel tax to the department, to the State of Georgia General Obligation Debt Sinking Fund, and to counties for public road work and activities incident thereto, any such unappropriated part of such funds, exclusive of those proceeds required by law to be provided as grants to counties for the construction and maintenance of county roads, shall be made available to the depart-

ment by the state treasurer, notwithstanding any provisions to the contrary in Part 1 of Article 4 of Chapter 12 of Title 45, the "Budget Act";

(3) The department shall provide for surveys, plans, maps, specifications, and other things necessary in designating, supervising, locating, abandoning, relocating, improving, constructing, or maintaining the state highway system or any part thereof, or any activities incident thereto, or in doing such other work on public roads as the department may be given responsibility for or control of by law;

(4) The department shall reimburse the Department of Law for expenses incurred when the Attorney General of Georgia assigns any assistant attorney general or any deputy assistant attorney general to perform specific legal services in connection with the validation of any bonds as authorized by Code Section 45-15-16 or in connection with contract lawsuits and the acquisition of rights of way for any project on the state highway system constructed or to be constructed by the department and when such services are designated by the Attorney General to include specific items of legal services involving the trial or preparation for trial of individual condemnation cases, contract lawsuits, and related matters on such project or projects, or a group or series of condemnation cases, contract lawsuits, and related matters in connection with a specific project or projects; provided, however, that no such reimbursement shall be made until the Attorney General has submitted a statement of the expenses of such legal services to the department, which statement shall include the name of the assistant attorney general performing such services, the items of legal services performed and the cost thereof, and, further, that no reimbursement shall be made for the expenses of legal services for contract lawsuits unless such services had the advance approval of the commissioner;

(5) The department shall have the authority to negotiate, let, and enter into contracts with the Georgia Highway Authority, the State Road and Tollway Authority, any person, any state agency, or any county or municipality of the state for the construction or maintenance of any public road or any other mode of transportation or for the benefit of or pertaining to the department or its employees in such manner and subject to such express limitations as may be provided by law;

(6) The department shall have the authority to negotiate and enter into reciprocal agreements and contracts with other states or agencies or subdivisions thereof concerning public roads and other modes of transportation and activities incident thereto;

(7) The department and the State Road and Tollway Authority shall be the proper agencies of the state to discharge all duties

imposed on the state by any act of Congress allotting federal funds to be expended for public road and other transportation purposes in this state. The department shall have the authority to accept and use federal funds; to enter into any contracts or agreements with the United States or its agencies or subdivisions relating to the planning, financing, construction, improvement, operation, and maintenance of any public road or other mode or system of transportation; and to do all things necessary, proper, or expedient to achieve compliance with the provisions and requirements of all applicable federal-aid acts and programs. Nothing in this title is intended to conflict with any federal law; and, in case of such conflict, such portion as may be in conflict with such federal law is declared of no effect to the extent of the conflict;

(8) The department shall have the authority to exercise the right and power of eminent domain and to purchase, exchange, sell, lease, or otherwise acquire or dispose of any property or any rights or interests therein for public road and other transportation purposes or for any activities incident thereto, subject to such express limitations as are provided by law;

(9) The department and its authorized agents and employees shall have the authority to enter upon any lands in the state for the purpose of making such surveys, soundings, drillings, and examinations as the department may deem necessary or desirable to accomplish the purposes of this title; and such entry shall not be deemed a trespass, nor shall it be deemed an entry which would constitute a taking in a condemnation proceeding, provided that reasonable notice is given the owner or occupant of the property to be entered and that such entry shall be done in a reasonable manner with as little inconvenience as possible to the owner or occupant of the property;

(10) In locating, relocating, constructing, improving, or maintaining any road on the state highway system, the department shall have the authority to control or limit access thereto, including the authority to close off or regulate access from any part of any public road on a county road system or municipal street system to the extent necessary in the public interest;

(11) The department shall have the authority to construct and to perform substantial maintenance of public roads within the boundaries of state parks and on main access roads leading into such parks;

(12)(A) The department shall have the authority to formulate, promulgate, and enforce rules and regulations setting minimum safety standards for bridges on federal-aid public roads and to inspect and close any bridge on any such public road which does not

comply with the minimum standards set by the department and which the department determines is unsafe for public travel. No new bridge shall be constructed on any such public road without there first having been obtained a permit for its construction from the department, such permit to be issued only where the proposed bridge will meet the minimum standards set by the department.

(B) The department may inspect and determine the maximum load, weight, and other vehicular dimensions which can be safely transported over each bridge on the state highway system and may post on each such bridge a legible notice showing such maximum safe limits. It shall be unlawful for any person to haul, drive, or bring onto any bridge any vehicle, load, or weight which in any manner exceeds the maximum limits so ascertained and posted on such bridge;

(13) The department shall have the authority to establish, maintain, and operate ferries as part of a public road and to authorize and issue permits for any state agency, any county or municipality, or any private person to establish, maintain, and operate ferries as part of a public road whenever, in the discretion of the department, such ferries are reasonably necessary and in the best interest of the public. All such ferries shall be operated subject to such rules and regulations as the department may adopt to protect the public interest, and the authorization of any such ferry may be revoked whenever, in the discretion of the department, its continued operation is no longer necessary or in the best interest of the public;

(14) The department shall have those duties and powers in regard to programs relating to the Metropolitan Atlanta Rapid Transit Authority established by subsection (i) of Section 8 of an Act approved March 10, 1965 (Ga. L. 1965, p. 2243), particularly as amended by Section 5 of an Act approved March 16, 1971 (Ga. L. 1971, p. 2092);

(15) Reserved;

(16) Reserved;

(17)(A) Subject to general appropriations for such purposes, the department is authorized to plan for and establish a long-term policy in regard to the establishment, development, and maintenance of aviation and aviation facilities in the state; to promote and encourage the use of aviation facilities of the state for air commerce in the state, between the state and other states, and between the state and foreign countries; to cooperate with, counsel, and advise political subdivisions of the state and other departments, boards, bureaus, commissions, agencies, or establishments, whether federal, state, local, public, or private, for the purpose of promoting and obtaining coordination in the planning for and in the estab-

lishment, development, construction, maintenance, and protection of a system of air routes, airports, landing fields, and other aviation facilities in the state.

(B) Subject to general appropriations for such purposes, the department is authorized to construct or to contract with any state agency, political subdivision, authority, or person for the construction of airports and of facilities and appurtenances incident to their operation. The authority and limitations of Article 4 of this chapter pertaining to department contracts and subcontracts for construction of public roads shall likewise apply to such airport construction contracts; provided, however, that such a contract when negotiated with a political subdivision shall not be subject to the limitation of subparagraph (d)(1)(A) of Code Section 32-2-61 pertaining to the average bid price for the 60 day period preceding the making of the contract. Article 1 of Chapter 3 and Chapter 7 of this title shall apply to the acquisition or disposition of land or interests therein for such airport construction.

(C) Subject to general appropriations for such purposes, the department is authorized to establish air markers at appropriate locations throughout the state to facilitate air navigation within the state. Said markers shall consist of painting on appropriately located roofs of buildings the names of towns or cities within which such buildings are located, such names to be painted in sufficient size to be legible under good visibility conditions from a height of at least 3,000 feet. The department is authorized to obtain roof releases from the owners of buildings upon which air markers are to be painted or otherwise to obtain permission from such owners to use such roofs for such purposes and to pay the owners reasonable and nominal rentals therefor if such payment is necessary in order to obtain the appropriate permission for the use of such roofs for such purposes.

(D) Subject to general appropriations for such purposes, the department is authorized to maintain or to control for the maintenance of department owned or department leased airports, their facilities, and appurtenances incident to their operation. The authority and limitations of Article 4 of this chapter pertaining to contracts and subcontracts for maintenance of public roads shall likewise apply to such contracts for the maintenance of such department owned or department leased airports, provided that such a contract when negotiated with a political subdivision shall not be subject to the limitation of subparagraph (d)(1)(A) of Code Section 32-2-61 pertaining to the average bid price for the 60 day period preceding the making of the contract;

(18)(A) Subject to general appropriations and any provisions of Chapter 5 of this title to the contrary notwithstanding, the depart-

ment is authorized within the limitations provided in subparagraph (B) of this paragraph to provide to municipalities, counties, authorities, and state agencies financial support by contract for clearing, dredging, or maintaining free from obstructions and for the widening, deepening, and improvement of the ports, seaports, or harbors of this state.

(B)(i) Municipalities, counties, authorities, or state agencies may, by formal resolution, apply to the department for financial assistance provided by this paragraph.

(ii) The department shall review the proposal and, if satisfied that the proposal is in accordance with the purposes of this paragraph, may enter into a contract for expenditure of funds.

(iii) The time of payment and any conditions concerning such funds shall be set forth in the contract.

(C) In addition to subparagraph (A) of this paragraph and subject to general appropriations for such purposes, the department with its own forces or by contract may clear, dredge, or maintain free from obstruction and may widen, deepen, and improve the ports, seaports, or harbors of this state;

(19) Code Sections 32-3-1 and 32-6-115 notwithstanding, the department may by contract grant to any rapid transit authority created by the General Assembly, under such terms and conditions as the department may deem appropriate, the right to occupy or traverse a portion of the right of way of any road on the state highway system by or with its mass transportation facilities. Furthermore, the department may by contract lease to the rapid transit authority, under such terms and conditions as the department may deem appropriate, the right to occupy, operate, maintain, or traverse by or with its mass transportation facilities any parking facility constructed by the department. Notwithstanding Code Section 48-2-17, all net revenue derived from the lease shall be utilized by the department to offset the cost of constructing any parking facility. Regardless of any financial expenditures by the rapid transit authority, no right of use or lease granted under this paragraph shall merge into or become a property interest of the rapid transit authority. Upon the transfer of the title of the mass transportation facilities to private ownership or upon the operation of the rapid transportation facilities for the financial gain of private persons, such rights granted by the department shall automatically terminate and all rapid transportation facilities shall be removed from the rights of way of the state highway system; and

(20) The department, in consultation with the Georgia Technology Authority, shall have the authority to plan for, establish, and imple-

ment a long-term policy with regard to the use of the rights of way of the interstate highways and state owned roads for the establishment, development, and maintenance of the deployment of broadband services and other emerging communications technologies throughout the state by public or private providers, or both. The department shall be authorized to promote and encourage the use of such rights of way of the interstate highways and state owned roads for such purposes to the extent feasible and prudent. All net revenues from the use, lease, or other activities in such rights of way in excess of any project costs, that are not subject to the jurisdiction of the Federal Highway Administration or that are not otherwise restricted by any federal laws, rules, or regulations, shall be paid into the general fund of the state treasury subject to any restrictions imposed by the Federal Highway Administration. It is the intention of the General Assembly, subject to the appropriation process, that a portion of the amount so deposited into the general fund of the state treasury be appropriated each year to programs to be administered by the Georgia Technology Authority, the Department of Community Affairs, and other state agencies as provided in Chapter 40 of Title 50 to be used to promote and provide broadband services throughout the state.

(b) In addition to the powers specifically delegated to it in this title, the department shall have the authority to perform all acts which are necessary, proper, or incidental to the efficient operation and development of the department and of the state highway system and of other modes and systems of transportation; and this title shall be liberally construed to that end. Any power vested by law in the department but not implemented by specific provisions for the exercise thereof may be executed and carried out by the department in a reasonable manner pursuant to such rules, regulations, and procedures as the department may adopt and subject to such limitations as may be provided by law. (Ga. L. 1919, p. 242, art. 3, §§ 3, 5; Ga. L. 1919, p. 242, art. 4, §§ 1-3; Ga. L. 1919, p. 242, art. 6, § 3; Ga. L. 1922, p. 176, § 1; Ga. L. 1929, p. 260, § 2; Code 1933, §§ 95-1502, 95-1504, 95-1701, 95-1702, 95-1703, 95-1710, 95-1715, 95-1724; Code 1933, §§ 95A-302, 95A-303, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1974, p. 1422, §§ 6-9; Ga. L. 1975, p. 98, §§ 1, 2; Ga. L. 1976, p. 416, § 1; Ga. L. 1976, p. 775, § 2; Ga. L. 1979, p. 973, §§ 2, 3; Ga. L. 1980, p. 773, § 1; Ga. L. 1982, p. 3, § 32; Ga. L. 1983, p. 3, § 56; Ga. L. 1986, p. 10, § 32; Ga. L. 1991, p. 1355, § 1; Ga. L. 1993, p. 1402, § 18; Ga. L. 2000, p. 951, § 2-2; Ga. L. 2001, p. 1251, § 1-1; Ga. L. 2009, p. 848, § 2/SB 85; Ga. L. 2010, p. 863, § 3/SB 296; Ga. L. 2018, p. 629, § 2-1/SB 402.)

The 2018 amendment, effective May 7, 2018, deleted “and” at the end of subparagraph (a)(18)(C), substituted “; and” for the period at the end of paragraph (a)(19), and added paragraph (a)(20)

Code Commission notes. — Pursuant to Code Section 28-9-5, in 2018, “Chapter

40” was substituted for “Chapter 39” near the end of paragraph (a)(20).

Editor’s notes. — Ga. L. 2018, p. 629, § 1-1/SB 402, not codified by the General Assembly, provides that: “This Act shall be known and may be cited as the ‘Achieving Connectivity Everywhere (ACE) Act.’”

JUDICIAL DECISIONS

ANALYSIS

GENERAL CONSIDERATION

General Consideration

Negligence suit involving paving company. — Trial court erred by granting a paving company summary judgment in a negligence suit based on the affidavit of the company’s president because the business records referred to and relied upon by the paving company’s president were not attached to the president’s affidavit; thus, the affidavit could not be used to support the company’s motion for summary judgment. *Brown v. Seaboard Constr. Co.*, 317 Ga. App. 667, 732 S.E.2d 325 (2012).

Department failed to properly ap-

ply for discretionary review. — In a case involving a white supremacist organization being denied a permit for the Adopt-A-Highway program administered by the Georgia Department of Transportation (Department), the court dismissed the Department’s appeal for lack of jurisdiction because the Department sought review of a decision of a state administrative agency and was required under O.C.G.A. § 5-6-35(a)(1) to bring the Department’s appeal by way of an application for discretionary review, but failed to do so. *State of Ga. v. International Keystone Knights of the Ku Klux Klan, Inc.*, 299 Ga. 392, 788 S.E.2d 455 (2016).

JUDICIAL DECISIONS

Cited in *State of Ga. v. International Keystone Knights of the Ku Klux Klan, Inc.*, 299 Ga. 392, 788 S.E.2d 455 (2016).

32-2-41.1. Progress report and Strategic Transportation Plan.

(a) On or before October 15, 2009, the director shall prepare a report for the Governor, the Lieutenant Governor, the Speaker of the House of

Representatives, and the chairpersons of the Senate Transportation Committee and the House Committee on Transportation, respectively, detailing the progress the division has made on preparing a State-wide Strategic Transportation Plan. The director shall deliver a draft of the plan for comments and suggestions by members of the General Assembly and the Governor on or before December 31, 2009. Comments and suggestions by the House and Senate Transportation Committees of the General Assembly and the Governor shall be submitted to the director no later than February 15, 2010. This plan shall include a list of projects realistically expected to begin construction within the next four years, the cost of such projects, and the source of funds for such projects. The plan shall be developed with consideration of investment policies addressing:

- (1) Growth in private-sector employment, development of work force, and improved access to jobs;
- (2) Reduction in traffic congestion;
- (3) Improved efficiency and reliability of commutes in major metropolitan areas;
- (4) Efficiency of freight, cargo, and goods movement;
- (5) Coordination of transportation investment with development patterns in major metropolitan areas;
- (6) Market driven travel demand management;
- (7) Optimized capital asset management;
- (8) Reduction in accidents resulting in injury and loss of life;
- (9) Border-to-border and interregional connectivity; and
- (10) Support for local connectivity to the state-wide transportation network.

The investment policies provided for in paragraphs (1) through (10) of this subsection shall also guide the development of the allocation formula provided for under Code Section 32-5-27 and shall expire on April 15, 2012, and every four years thereafter unless amended or renewed. The final version of the State-wide Strategic Transportation Plan shall be completed by April 10, 2010, and shall be delivered to the Governor, the Lieutenant Governor, the Speaker of the House of Representatives, and the chairpersons of the Senate Transportation Committee and the House Committee on Transportation. A report detailing the progress of projects and programs in the State-wide Strategic Transportation Plan shall be prepared and delivered annually thereafter, and a revised version shall be prepared and delivered at least biennially thereafter.

(b) The report and plan prepared under subsection (a) of this Code section shall also be published on the website of the department. (Code

1981, § 32-2-41.1, enacted by Ga. L. 2008, p. 528, § 1/HB 1189; Ga. L. 2009, p. 976, § 6/SB 200; Ga. L. 2014, p. 851, § 1/HB 774.)

The 2014 amendment, effective July 1, 2014, substituted “annually” for “semi-annually” in the last sentence of the ending paragraph of subsection (a).

32-2-41.2. Development of benchmarks; reports; value engineering studies.

(a) The commissioner shall develop and publish in print or electronically benchmarks, based upon the type and scope of a construction project, that detail a realistic time frame for completion of each stage of a construction project, including preliminary engineering and design, environmental permitting and review, and right of way acquisition.

(b) The director shall submit an annual report to the Governor, the Lieutenant Governor, the Speaker of the House of Representatives, and the chairpersons of the House and Senate Transportation Committees detailing the progress of every construction project valued at \$10 million or more against the benchmarks. This report shall include an analysis explaining the discrepancies between the benchmarks and actual performance on each project as well as an explanation for delays. This report shall also be published on the website of the department.

(c) The department shall create and maintain on its website a detailed status report on each project under planning or construction. This status report shall include, but not be limited to, the name and contact information of the project manager, if applicable.

(d) Value engineering studies shall be performed on all projects whose costs exceed \$50 million, except for any project procured in accordance with Code Sections 32-2-79, 32-2-80, and 32-2-81, and the director shall submit an annual report to the Governor, the Lieutenant Governor, the Speaker of the House of Representatives, and the chairpersons of the House and Senate Transportation Committees detailing the amount saved due to the value engineering studies. This report shall also be published on the website of the department. (Code 1981, § 32-2-41.2, enacted by Ga. L. 2008, p. 806, § 1/SB 417; Ga. L. 2009, p. 976, § 7/SB 200; Ga. L. 2010, p. 838, § 10/SB 388; Ga. L. 2013, p. 67, § 1/HB 202; Ga. L. 2014, p. 851, § 2/HB 774.)

The 2013 amendment, effective July 1, 2013, in the first sentence of subsection (d), substituted “\$50 million” for “\$10 million” and inserted “except for any project procured in accordance with Code Sections 32-2-79, 32-2-80, and 32-2-81.”

The 2014 amendment, effective July 1, 2014, substituted “submit an annual” for “submit a semiannual” near the beginning of the first sentence of subsection (b).

ARTICLE 4

EXERCISE OF POWER TO CONTRACT GENERALLY

32-2-60. Authority to contract; form and content of construction contracts; bonds.

(a) The department shall have the authority to contract as set forth in this article and in Code Section 32-2-2. All department construction contracts shall be in writing. Any contract entered into by the department for the construction of a public road shall include, as a cost of the project, provisions for sowing vegetation, if appropriate, on all banks, fills, cuts, ditches, and other places where soil erosion is likely to result from the necessary incidents to road work along the right of way of the road project.

(b) Persons, firms, or corporations submitting bids on department construction contracts are required to examine the site of the proposed work and determine for themselves the anticipated subsurface and latent physical conditions at the site prior to submitting a bid on the project. The submission of a bid shall be prima-facie evidence that the bidder has made such examination and is satisfied as to the conditions to be encountered in performing the work. The department does not in any way guarantee the amount or nature of subsurface materials which may be encountered and which must be excavated, graded, or driven through in performing the work on the project. The contractor shall not plead deception or misunderstanding because of variations from quantities of work to be performed or materials to be furnished as shown on the plans or minor variations from the locations or character of the work. Payment will be made only for actual quantities of work performed in accordance with the plans and specifications. The department shall not provide compensation above the amount bid on such project solely due to the encountering of subsurface or latent physical conditions at the site which are different from those anticipated by the bidder.

(c)(1) Notwithstanding the provisions of subsection (b) of this Code section, the department reserves the right to make, at any time during the progress of work, such increases or decreases in quantities and such alterations in the details of construction as necessary or desirable to satisfactorily complete the work. Such increases or decreases shall not invalidate the contract nor release the surety and the contractor agrees to perform the work as altered.

(2) Whenever an alteration materially increases or decreases the scope of the work specified in the contract, a supplemental agreement acceptable to both parties shall be made. In the absence of a supplemental agreement acceptable to both parties, the department

may direct that the work be done either by force account or at existing contract prices. Any force account agreement shall be in writing, specifying the terms of payment signed by the chief engineer, and agreed to in writing by the contractor.

(3) Changes made by the engineer will not be considered to waive any of the provisions of the contract, nor may the contractor make any claim for loss of anticipated profits because of the changes, or by reason of any variation between the approximate quantities and the quantities of work as done.

(d)(1) When the estimated amount of any department construction contract exceeds \$300 million, performance and payment bonds shall be required in the amount of at least the total amount payable by the terms of the contract unless the department, after public notice, makes a written determination supported by specific findings that single bonds in such amount are not reasonably available, and the board approves such determination in a public meeting. In such event, the estimated value of the construction portion of the contract, excluding right of way acquisition and engineering, shall be guaranteed by a combination of security including, but not limited to, the following:

(A) Payment, performance, surety, cosurety, or excess layer surety bonds;

(B) Letters of credit;

(C) Guarantees of the contractor or its parent companies;

(D) Obligations of the United States and of its agencies and instrumentalities; or

(E) Cash collateral;

provided, however, that the aggregate total guarantee of the project may not use a corporate guarantee of more than 35 percent. The combination of such guarantees shall be determined at the discretion of the department, subject to the approval of the board; provided, however, that such aggregate guarantees shall include not less than \$300 million of performance and payment bonds and shall equal not less than 100 percent of the contractor's obligation under the construction portion of the contract.

(2) Payment guarantees approved pursuant to this subsection shall be deemed to satisfy the requirements of Code Section 13-10-61. Contractors requesting payment under construction contracts guaranteed pursuant to this subsection shall provide the following certification under oath with each such request: "All payments due to subcontractors and suppliers from previous payment received under

the contract have been made, and timely payments will be made from the proceeds of the payment covered by this certification.” (Ga. L. 1965, p. 628, § 1; Code 1933, § 95A-801, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1988, p. 1908, § 1; Ga. L. 1994, p. 591, § 5; Ga. L. 2006, p. 663, § 1/HB 1177; Ga. L. 2007, p. 47, § 32/SB 103; Ga. L. 2018, p. 372, § 1/SB 445.)

The 2018 amendment, effective July 1, 2018, deleted former subsection (d), which read: “The provisions of subsections (b) and (c) of this Code section shall be applicable only to federal-aid highway contracts.”; and redesignated former subsection (e) as present subsection (d).

32-2-61. Limitations on power to contract.

JUDICIAL DECISIONS

State DOT not liable for failing to erect road closure signs on county road. — Because an accident occurred on a county-owned road and did not occur on a part of the state highway system upon which the DOT owed a duty to motorists, and the couple’s expert’s affidavit could not establish a legal duty to erect signs or to take other steps to inform drivers of the closure of the county-owned road, summary judgment for the DOT was proper. *Diamond v. DOT*, 326 Ga. App. 189, 756 S.E.2d 277 (2014).

32-2-65. Advertising for bids.

(a) On all contracts required to be let by public bid, the commissioner shall advertise for competitive bids for at least two weeks; the public advertisement shall be inserted once a week in such newspapers or other publications, or both, as will ensure adequate publicity, the first insertion to be at least two weeks prior to the opening of bids, the second to follow one week after the publication of the first insertion; provided, however, that the advertisement requirement provided in this Code section shall be satisfied by posting the required information on the department’s website for the required time period.

(b) Such advertisement shall include but not be limited to the following items:

(1) A description sufficient to enable the public to know the approximate extent and character of the work to be done;

(2) The time allowed for performance;

(3) The terms and time of payment, including a statement that final payment of amounts withheld or deposited in escrow need not be made until the issuance of the chief engineer’s certification of satisfactory completion of work and acceptance thereof, as provided in Code Sections 32-2-75 through 32-2-77;

(4) Where and under what conditions and costs the detailed plans and specifications and proposal forms may be obtained;

- (5) The amount of the required proposal guaranty;
- (6) The time and place for submission and opening of bids;
- (7) The right of the department to reject any one or all bids; and
- (8) Such further notice as the department may deem advisable as in the public interest. (Ga. L. 1949, p. 373, § 3; Code 1933, § 95A-806, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1994, p. 591, § 6; Ga. L. 2018, p. 372, § 2/SB 445.)

The 2018 amendment, effective July 1, 2018, added the proviso at the end of subsection (a).

32-2-69. Bidding process and award of contract.

(a) Except as authorized by Code Sections 32-2-79 and 32-2-80, the department shall award the contract to the lowest reliable bidder, provided that the department shall have the right to reject any and all such bids whether such right is reserved in the public notice or not and, in such case, the department may readvertise, perform the work itself, or abandon the project.

(b) If only one bid is received, the department shall open and read the bid. If the bid is at or below the department's cost estimate for the project as certified by the chief engineer, such cost estimate shall be read immediately and publicly. If the bid exceeds the department's cost estimate for the project, the department may negotiate with the bidder to establish a fair and reasonable price for the contract, provided that the resulting negotiated contract price is not greater than the bid and that the department's cost estimate is disclosed to the bidder prior to the beginning of the negotiations.

(c) If the department made errors in the bidding documents which resulted in an unbalanced bid, the department may negotiate with the lowest reliable bidder to correct such errors, provided that the lowest reliable bidder is not changed.

(d) If the lowest reliable bidder is released by the department because of an obvious error or if the lowest reliable bidder refuses to accept the contract and thereby forfeits the bid bond, the department may award the contract to the next lowest reliable bidder, readvertise, perform the work itself, or abandon the project.

(e) For purposes of this Code section, posting of a bid on the department's website shall be equivalent to having read the bid.

(f) The signed, notarized affidavit required in subsection (b) of Code Section 13-10-91 shall be submitted to the department prior to the award of any contract. (Code 1933, § 95A-810, enacted by Ga. L. 1973,

p. 947, § 1; Ga. L. 1986, p. 153, § 1; Ga. L. 1994, p. 591, § 7; Ga. L. 2003, p. 905, § 3; Ga. L. 2012, p. 1343, § 3/HB 817; Ga. L. 2018, p. 372, § 3/SB 445.)

The 2018 amendment, effective July 1, 2018, added subsection (f).

32-2-81. “Design-build procedure” defined; procedures for utilization; limitation on contracting; summary projects.

(a) As used in this Code section, the term “design-build procedure” means a method of contracting under which the department contracts with another party for the party to both design and build the structures, facilities, systems, and other items specified in the contract.

(b) The department may use the design-build procedure for buildings, bridges and approaches, rail corridors, technology deployments, and limited or controlled access projects or projects that may be constructed within existing rights of way where the scope of work can be clearly defined or when a significant savings in project delivery time can be attained.

(c) When the department determines that it is in the best interests of the public, the department may combine any or all of the environmental services, utility relocation services, right of way services, design services, and construction phases of a public road or other transportation purpose project into a single contract using a design-build procedure. Design-build contracts may be advertised and awarded notwithstanding the requirements of paragraph (1) of subsection (d) of Code Section 32-2-61. However, construction activities shall not begin on any portion of such projects until title to the necessary rights of way and easements for the construction of that portion of the project has vested in the state or a local governmental entity and all railroad crossing and utility agreements have been executed.

(d) The department shall adopt by rule procedures for administering design-build contracts. Such procedures shall include, but not be limited to:

- (1) Prequalification requirements;
- (2) Public advertisement procedures;
- (3) Request for qualification requirements;
- (4) Request for proposal requirements;
- (5) Criteria for evaluating technical information and project costs;
- (6) Criteria for selection and award process, provided that the rules shall specify that the criteria for selection shall consist of the

following minimum two components for any two-step procurement process:

(A) A statement of qualifications from which the department will determine a list of qualified firms for the project, provided that, if the department determines it is in the state's best interest, it may omit this requirement and move directly to a one-step procurement process through the issuance of a request for proposal from which the department may select the lowest qualified bidder; and

(B) From the list of qualified firms as provided in subparagraph (A) of this paragraph, a technical proposal and a price proposal from each firm from which the department shall select the lowest qualified bidder or, in the event the department uses the best value procurement process, the request for proposal shall specify the requirements necessary for the selection of the best value proposer which shall include, at a minimum, a weighted cost component and a technical component. A proposal shall only be considered nonresponsive if it does not contain all the information and level of detail requested in the request for proposal. A proposal shall not be deemed to be nonresponsive solely on the basis of minor irregularities in the proposal that do not directly affect the ability to fairly evaluate the merits of the proposal. Notwithstanding the requirements of Code Section 36-91-21, under no circumstances shall the department use a "best and final offer" standard in awarding a contract in order to induce one proposer to bid against an offer of another proposer. The department may provide for a stipulated fee to be awarded to the short list of qualified proposers who provide a responsive, successful proposal. In consideration for paying the stipulated fee, the department may use any ideas or information contained in the proposals in connection with the contract awarded for the project, or in connection with a subsequent procurement, without obligation to pay any additional compensation to the unsuccessful proposers;

(7) Identification of those projects that the department believes are candidates for design-build contracting; and

(8) Criteria for resolution of contract issues. The department may adopt a method for resolving issues and disputes through negotiations at the project level by the program manager up to and including a dispute review board procedure with final review by the commissioner or his or her designee. Regardless of the status or disposition of the issue or dispute, the design-builder and the department shall

continue to perform their contractual responsibilities. The department shall have the authority to suspend or provide for the suspension of Section 108 of the department's standard specifications pending final resolution of such contract issues and disputes. This paragraph shall not prevent an aggrieved party from seeking judicial review.

(e) In contracting for design-build projects, the department shall be limited to contracting for no more than 50 percent of the total amount of construction projects awarded in the previous fiscal year.

(f) Not later than 90 days after the end of the fiscal year, the department shall provide to the Governor, Lieutenant Governor, Speaker of the House of Representatives, and chairpersons of the House and Senate Transportation Committees a summary containing all the projects awarded during the fiscal year using the design-build contracting method. Included in the report shall be an explanation for projects awarded to other than the low bid proposal. This report shall be made available for public information. (Code 1981, § 32-2-81, enacted by Ga. L. 2004, p. 905, § 2; Ga. L. 2005, p. 950, § 1/HB 530; Ga. L. 2009, p. 8, § 32/SB 46; Ga. L. 2010, p. 396, § 1/SB 305; Ga. L. 2012, p. 1343, § 4/HB 817; Ga. L. 2013, p. 68, § 1/SB 70.)

The 2013 amendment, effective July 1, 2013, in subsection (a), inserted "systems," near the end; in subsection (b), inserted "technology deployments," near the middle; in subsection (c), inserted "utility relocation services," in the first sentence and substituted "activities shall" for "activities may" in the third sentence; deleted former paragraph (d)(3), which read: "Scope of service requirements;"; redesignated former paragraphs (d)(4) through (d)(9) as present paragraphs (d)(3) through (d)(8), respectively; in paragraph (d)(3), substituted "Request for qualification requirements" for "Letters of interest requirements"; rewrote paragraph (d)(4); added "for any two-step procurement process" at the end of paragraph (d)(6); added the proviso in subparagraph (d)(6)(A); rewrote subparagraph (d)(6)(B);

in paragraph (d)(7), deleted " , with the understanding that in general this type of contract should have minimal right of way or utility issues which are unresolved; provided, however, the failure of the department to identify such projects does not prevent the department from using design-build contracting in extraordinary circumstances including emergency work, unscheduled projects, or where loss of funding might occur" following "contracting"; in paragraph (d)(8), substituted "paragraph shall" for "paragraph does" in the last sentence; deleted former subsection (e); redesignated former subsections (f) and (g) as present subsections (e) and (f), respectively; and substituted "chairpersons" for "chairmen" in the first sentence of subsection (f).

JUDICIAL DECISIONS

ANALYSIS

AUTHORITY TO CONDEMN

| | |
|---|---|
| Authority to Condemn | |
| So long as general public not excluded from road, power of eminent domain could be exercised. — Trial court properly denied a condemnee’s petition to set aside a declaration of taking filed by a county under O.C.G.A. § 32-3-1 | because the road at issue was open for use by the general public despite only a few private citizens most likely using the road; but, so long as the general public was not excluded, the power of eminent domain could be exercised. <i>Emery v. Chattooga County</i> , 325 Ga. App. 587, 753 S.E.2d 149 (2014). |

32-3-3.1. Relocation or reconstruction of outdoor advertising sign; requirements.

- (a) When rights of way or real property or interests therein are acquired by a state agency, county, or municipality for public road purposes and an outdoor advertising sign permitted by the state in accordance with Part 2 of Article 3 of Chapter 6 of this title and a local county or municipal ordinance, which has not lapsed and is in good standing, is located upon such property, the outdoor advertising sign may be relocated or reconstructed and relocated through agreement of the owner of the property and owner of the outdoor advertising sign, if such owners do not refer to the same person, so long as the new location:
- (1) Is within 250 feet of its original location, provided that the new location meets the requirements for an outdoor advertising sign provided in Part 2 of Article 3 of Chapter 6 of this title;

(2) Is available to the owner of the outdoor advertising sign and is comparable to the original location, as agreed upon by the owner of the outdoor advertising sign and the department;

(3) Does not result in a violation of federal or state law; and

(4) Is within zoned commercial or industrial areas or unzoned commercial or industrial areas as defined in Code Section 32-6-71.

(b) An outdoor advertising sign relocated as provided for in subsection (a) of this Code section may be adjusted in height or angle or both in order to restore the visibility of the sign to the same or a comparable visibility which existed prior to acquisition by a state agency, county, or municipality, provided that the height of such relocated sign shall not exceed the greater of the height of the existing sign or 75 feet, as measured from the base of the sign or the crown of the adjacent roadway to which the sign is permitted, whichever is greater.

(c) For any federal aid project or any project financed in whole or in part with federal funds, the actual costs of relocation or reconstruction and relocation of an outdoor advertising sign relocated as provided for in subsection (a) of this Code section shall be paid by the department. For any project not financed in whole or in part with federal funds, the actual costs of relocation or reconstruction and relocation shall be paid by the owner of the outdoor advertising sign.

(d) If no relocation site that meets the requirements of paragraphs (1) through (4) of subsection (a) of this Code section exists, just and adequate compensation shall be paid by the department to the owner of the outdoor advertising sign.

(e) If a sign is eligible to be relocated as provided for in subsection (a) of this Code section but such new location would result in a conflict with local ordinances in the city or county of applicable jurisdiction and no variance or other exception is granted to allow relocation as requested by the owner of the outdoor advertising sign, just and adequate compensation shall be paid by the local governing authority to the owner of the outdoor advertising sign. However, no compensation resulting from the denial of a variance or exception by a local governing authority for an outdoor advertising sign eligible for relocation under this Code section shall be paid either directly or indirectly by the department. (Code 1981, § 32-3-3.1, enacted by Ga. L. 2015, p. 1072, § 5/SB 169.)

Effective date. — This Code section became effective July 1, 2015.

32-3-4. Authority to bring condemnation proceedings.**JUDICIAL DECISIONS**

Consideration of other factors impacting deprivation. — In a condemnation case, the jury instructions as a whole were correct in informing the jury that when the owner's access to a public road was taken, the deprivation should be com-

pensated, but the jury could consider whether the owner had any alternative access when determining the amount of damages due to the deprivation of access. *Curry v. DOT*, 341 Ga. App. 482, 801 S.E.2d 95 (2017).

32-3-11. Power of judge to set aside, vacate, and annul declaration of taking; issuance and service on condemnor of rule nisi; hearing.

Law reviews. — For annual survey on real property, see 64 Mercer L. Rev. 255

(2012). For annual survey on real property, see 69 Mercer L. Rev. 251 (2017).

JUDICIAL DECISIONS

Application of 60-day requirement. — Pursuant to the clear language of O.C.G.A. § 32-3-11(c), it is the duty of the court, not the condemnee, to issue a rule nisi and schedule the required hearing. The Supreme Court of Georgia disapproves of the portion of *Lopez-Aponte v. City of Columbus*, 267 Ga. App. 65 (2004), which places the burden of issuing a rule nisi and obtaining a timely hearing upon the condemnee. *Adkins v. Cobb County*, 291 Ga. 521, 731 S.E.2d 665 (2012).

Petition to set aside properly denied. — Trial court properly denied a condemnee's petition to set aside a declaration of taking filed by a county under O.C.G.A. § 32-3-1 because the road at issue was open for use by the general public despite only a few private citizens most likely using the road, but so long as the general public was not excluded, the power of eminent domain could be exercised. *Emery v. Chattooga County*, 325 Ga. App. 587, 753 S.E.2d 149 (2014).

32-3-19. Jury verdict; entry of judgment; interest on award; commissions and poundage; transfer of case to closed docket; effect of Code section on condemnor's title.

Law reviews. — For annual survey on local government law, see 68 Mercer L.

Rev. 199 (2016). For annual survey on real property, see 69 Mercer L. Rev. 251 (2017).

JUDICIAL DECISIONS**Interest on award.**

Trial court erred by failing to award prejudgment interest on \$1.27 million from the date of the taking through the date that amount was deposited into court as that amount was not initially deposited by the Department of Transportation. *Shiv Aban, Inc. v. Ga. DOT*, 336 Ga. App. 804, 784 S.E.2d 134 (2016).

When jury's award is less than condemnor's deposit. — In a condemnation case in which the jury awarded the property owner \$86,000, because the DOT had initially paid \$118,250 into the court's registry, the trial court properly entered judgment against the owner in the amount of \$32,250. *Curry v. DOT*, 341 Ga. App. 482, 801 S.E.2d 95 (2017).

CHAPTER 4

STATE, COUNTY, AND MUNICIPAL ROAD SYSTEMS

ARTICLE 2

STATE HIGHWAY SYSTEM

32-4-20. Composition of state highway system.

The state highway system shall consist of an integrated network of arterials and of other public roads or bypasses serving as the major collectors therefor. No public road shall be designated as a part of the state highway system unless it meets at least one of the following requirements:

- (1) Serves trips of substantial length and duration indicative of regional, state-wide, or interstate importance;

(2) Connects adjoining county seats;

(3) Connects urban or regional areas with outlying areas, both intrastate and interstate; or

(4) Serves as part of the principal collector network for the state-wide and interstate arterial public road system. (Code 1933, § 95A-202, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2012, p. 1343, § 5/HB 817; Ga. L. 2015, p. 1072, § 1/SB 169.)

The 2015 amendment, effective July 1, 2015, inserted “or” at the end of paragraph (3); deleted “; or” at the end of

paragraph (4); and deleted former paragraph (5), which read: “Serves as part of a programmed road improvement project

plan in which the department will utilize state or federal funds for the acquisition of rights of way”.

ARTICLE 3

COUNTY ROAD SYSTEMS

PART 1

GENERAL POWERS AND DUTIES OF COUNTIES

32-4-41. Duties.

Law reviews. — For annual survey on local government law, see 66 Mercer L. Rev. 135 (2014).

JUDICIAL DECISIONS

Judicial review of abandonment decision. — In a mandamus action, a trial court erred by reversing a decision of a county board of commissioners to abandon a road as the trial court failed to give proper deference to the board’s decision to abandon the road and substituted the court’s own judgment for that of the board. *Scarborough v. Hunter*, 293 Ga. 431, 746 S.E.2d 119 (2013).

State DOT not liable for failing to erect road closure signs on county road. — Because an accident occurred on a county-owned road and did not occur on a part of the state highway system upon which the DOT owed a duty to motorists, and the couple’s expert’s affidavit could not establish a legal duty to erect signs or to take other steps to inform drivers of the closure of the county-owned road, summary judgment for the DOT was proper. *Diamond v. DOT*, 326 Ga. App. 189, 756 S.E.2d 277 (2014).

Duty to maintain dedicated roads in subdivision. — Trial court erred by granting mandamus relief under O.C.G.A. § 9-6-20 with regard to a property owner

seeking to compel a county to maintain roads in a subdivision because while the county had accepted dedication of the streets, the county still was vested with the discretion to decide whether to open all of the roads or close any of the roads, and the trial court was required to determine whether the county’s decisions were arbitrary, capricious, and unreasonable or a gross abuse of discretion as nowhere in the judgment was that standard articulated. *Burke County v. Askin*, 291 Ga. 697, 732 S.E.2d 416 (2012).

County, which had accepted dedication of a subdivision road in 1962 but had not completed the road or maintained the road for 50 years, due to the county’s mistaken belief that the road was private, was ordered to complete and maintain the road; the county’s failure to complete the road was arbitrary and capricious, given the county’s acceptance of subdivision plats requiring the road. As to unopened roads in the subdivision, the roads were not public under O.C.G.A. § 9-6-21(b), and the county had no obligation to maintain those roads. *Burke County v. Askin*, 294 Ga. 634, 755 S.E.2d 747 (2014).

32-4-42. Powers.

The powers of a county with respect to its county road system, unless otherwise expressly limited by law, shall include but not be limited to the following:

(1) A county shall have the authority to negotiate, let, and enter into contracts with any person or any agency, county, or municipality of the state for the construction, maintenance, administration, or operation of any public road or activities incident thereto in such manner and subject to such express limitations as may be provided by Part 2 of this article or any other provision of law. A county shall also have the authority to perform such road work with its own forces or with a combination of its own forces and the work of a contractor, notwithstanding any contrary provisions of Chapter 91 of Title 36;

(2) A county shall have the authority to accept and use federal and state funds and to do all things necessary, proper, or expedient to achieve compliance with the provisions and requirements of all applicable federal-aid or state-aid acts and programs in connection with the county's public roads. Nothing in this title is intended to conflict with any federal law and, in case of such conflict, such portion as may be in conflict with such federal law is declared of no effect to the extent of the conflict;

(3)(A) A county shall have the authority to acquire and dispose of real property or any interest therein for public road purposes, as provided in Article 1 of Chapter 3 of this title and in Chapter 7 of this title. In any action to condemn property or interests therein for such purposes, notice thereof shall be signed by the condemning county; and such notice shall be deemed to be the official action of the county in regard to the commencement of such condemnation proceedings. For good cause shown a county, at any time after commencement of condemnation proceedings and prior to final judgment therein, may dismiss its condemnation action, provided that (i) the condemnation proceedings have not been instituted under Article 1 of Chapter 3 of this title, and (ii) the condemnor has first paid to the condemnee all expenses and damages accrued to the condemnee up to the date of the filing of the motion for dismissal of the condemnation action.

(B) Pursuant to the requirements of Part 2 of this article, a county shall have the power to purchase, borrow, rent, lease, control, manage, receive, and make payment for all personal property, such as equipment, machinery, vehicles, supplies, material, and furniture, which may be needed in the operation of its county road system; to lease, rent, lend, or otherwise transfer temporarily county property used for road purposes, as authorized

by law; to sell or otherwise dispose of all personal property owned by the county and used in the operation of the county road system which is unserviceable; and to execute such instruments as may be necessary in connection with the exercise of the powers described in this subparagraph;

(4) A county and its authorized agents and employees may enter upon any lands in the county for the purpose of making such surveys, soundings, drillings, and examinations as the county may deem necessary or desirable to accomplish the purposes of this title; and such entry shall not be deemed a trespass nor shall it be deemed an entry which would constitute a taking in a condemnation proceeding, provided that reasonable notice of such entry shall be given the owner or occupant of such property, such entry shall be done in a reasonable manner with as little inconvenience as possible to the owner or occupant of the property, and the county shall make reimbursement for any actual damages resulting from such entry;

(5) A county shall have the authority to employ, discharge, promote, set and pay the salaries and compensation of its personnel, and determine the duties, qualifications, and working conditions for all persons whose services are needed in the construction, maintenance, administration, operation, and development of its county road system; to work inmates maintained in the county correctional institution or inmates hired from the Department of Corrections and maintained by the latter; and to employ or contract with such engineers, surveyors, attorneys, consultants, and all other employees as independent contractors whose services may be required, subject to the limitations of existing law;

(6) A county may grant permits and establish reasonable regulations for the installation, construction, maintenance, renewal, removal, and relocation of pipes, mains, conduits, cables, wires, poles, towers, traffic and other signals, and other equipment, facilities, or appliances of any utility in, on, along, over, or under the public roads of the county which are a part of the county road system lying outside the corporate limits of a municipality. However, such regulations shall not be more restrictive with respect to utilities affected thereby than are equivalent regulations promulgated by the department with respect to utilities on the state highway system under authority of Code Section 32-6-174. As a condition precedent to the granting of such permits, the county may require application in writing specifically describing the nature, extent, and location of the portion of the utility affected and may also require the applicant to furnish an

indemnity bond or other acceptable security conditioned to pay any damages to any part of the county road system or to any member of the public caused by work of the utility performed under authority of such permit. At all times it shall be the duty of the county to ensure that the normal operation of the utility does not interfere with the use of the county road system. The county may also order the removal or discontinuance of the utility, equipment, facility, or appliances where such removal and relocation are made necessary by the construction or maintenance of any part of the county road system lying outside the corporate limits of a municipality. In so ordering the removal and relocation of a utility or in performing such work itself, the county shall conform to the procedure set forth for the department in Code Sections 32-6-171 and 32-6-173, except that when the removal and relocation have been performed by the county, it shall certify the expenses thereof for collection to its county attorney;

(7) A county shall have the power to purchase supplies for county road system purposes through the state as authorized by Code Sections 50-5-100 through 50-5-102;

(8) In addition to any taxes authorized by Article 4 of Chapter 5 of Title 48 to be levied and collected for the construction and maintenance of its county road system and activities incident thereto, a county is authorized to levy and collect any millage as may be necessary for such purposes;

(9) A county may provide for surveys, maps, specifications, and other things necessary in designating, supervising, locating, abandoning, relocating, improving, constructing, or maintaining the county road system, or any part thereof, or any activities incident thereto or necessary in doing such other work on public roads as the county may be given responsibility for or control of by law;

(10) In addition to the powers specifically delegated to it in this title and except as otherwise provided by Code Section 12-6-24, a county shall have the authority to adopt and enforce rules, regulations, or ordinances; to require permits; and to perform all other acts which are necessary, proper, or incidental to the efficient operation and development of the county road system; and this title shall be liberally construed to that end. Any power vested in or duty placed on a county but not implemented by specific provisions for the exercise thereof may be executed and carried out by a county in a reasonable manner subject to such limitations as may be provided by law;

(11) In all counties of this state having a population of 550,000 or more according to the United States decennial census of 1970 or any

future such census, the county governing authority shall be empowered by ordinance or resolution to assess against any property the cost of reopening, repairing, or cleaning up from any public way, street, road, right of way, or highway any debris, dirt, sediment, soil, trash, building materials, and other physical materials originating on such property as a result of any private construction activity carried on by any developer, contractor, subcontractor, or owner of such property. Any assessment authorized under this paragraph, the interest thereon, and the expense of collection shall be a lien against the property so assessed coequal with the lien of other taxes and shall be enforced in the same manner as are state and county ad valorem property taxes by issuance of a fi. fa. and levy and sale as set forth in Title 48, known as the “Georgia Public Revenue Code”; and

(12) Municipalities whose incorporating Acts became of full force and effect on or after May 1, 2017, but prior to January 1, 2019, shall not establish or maintain restrictions on access by commercial motor vehicles as defined in paragraph (8.3) of Code Section 40-1-1 to portions of the road system providing access to commercial driveways as defined in Code Section 32-6-130, except as to the applicable road system, exceeding any county restrictions in effect on such portions on the date of incorporation unless such county by ordinance or resolution concurs on such restriction. (Code 1933, § 95A-402, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1974, p. 1422, § 13; Ga. L. 1981, p. 3259, §§ 1, 2; Ga. L. 1982, p. 2107, § 28; Ga. L. 1983, p. 3, § 23; Ga. L. 1985, p. 283, § 1; Ga. L. 1991, p. 94, § 32; Ga. L. 2000, p. 498, § 8; Ga. L. 2002, p. 1126, § 2; Ga. L. 2018, p. 372, § 4/SB 445.)

The 2018 amendment, effective July 1, 2018, deleted “and” at the end of paragraph (10); substituted “Code; and” for

“Code.” at the end of paragraph (11); and added paragraph (12).

JUDICIAL DECISIONS

County liable to power company for movement of power lines from private property easement. — Trial court properly found that a power company was entitled to compensation from a county for the taking of the company’s private property easements, including the costs of relocating the electrical power and distribution poles, when the county widened a

road because a 1929 franchise agreement did not apply to situations where the power company was forced by the county to relocate power transmission lines and poles that the company originally erected on private property easements. *Clayton County v. Ga. Power Co.*, 340 Ga. App. 60, 796 S.E.2d 16 (2017).

PART 2

EXERCISE BY COUNTIES OF POWER TO CONTRACT GENERALLY

32-4-63. Limitations on power to contract; at least two estimates required for certain expenditures.

(a) A county is prohibited from negotiating a contract except a contract:

(1) Involving the expenditure of less than \$200,000.00;

(2) With a state agency or county or municipality with which a county is authorized to contract in accordance with the provisions of Code Sections 32-4-61 and 32-4-62;

(3) For the purchase of those materials, supplies, and equipment necessary for the county's construction and maintenance of its public roads and for the support and maintenance of the county's forces used in such work, as authorized by Chapter 91 of Title 36;

(4) Subject to Article 6 of Chapter 6 of this title, with a railroad or railway company or a publicly or privately owned utility concerning relocation of its line, tracks, or facilities where the same are not then located in a public road and such relocation or grade-crossing elimination is necessary as an incident to the construction of a new public road or to the reconstruction or maintenance of an existing public road. Nothing contained in this paragraph shall be construed as requiring a county to furnish a site or right of way for railroad or railway lines or tracks of public utility facilities required to be removed from a public road;

(5) For engineering or other kinds of professional or specialized services;

(6) For emergency maintenance requiring immediate repairs to a public road, including but not limited to bridge repairs, snow and ice removal, and repairs due to flood conditions; or

(7) Otherwise expressly authorized by law.

(b) No contract involving an expenditure of more than \$20,000.00 but less than \$200,000.00 shall be awarded under this Code section without the submission of at least two estimates. (Code 1933, § 95A-819, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1989, p. 356, § 2; Ga. L. 2000, p. 498, § 9; Ga. L. 2014, p. 851, § 3/HB 774.)

The 2014 amendment, effective July 1, 2014, designated the existing provisions of this Code section as subsection (a); substituted “\$200,000.00” for “\$20,000.00” in paragraph (a)(1); and added subsection (b).

ARTICLE 4

MUNICIPAL STREET SYSTEMS

PART 1

GENERAL POWERS AND DUTIES OF MUNICIPALITY

32-4-91. Construction and maintenance of systems; acquisition of labor; maximum bridge weight; notification of department about new streets and abandoned streets.

JUDICIAL DECISIONS

State DOT not liable for failing to erect road closure signs on county road. — Because an accident occurred on a county-owned road and did not occur on a part of the state highway system upon which the DOT owed a duty to motorists, and the couple’s expert’s affidavit could not establish a legal duty to erect signs or to take other steps to inform drivers of the closure of the county-owned road, summary judgment for the DOT was proper. *Diamond v. DOT*, 326 Ga. App. 189, 756 S.E.2d 277 (2014).

Photographs of roadway taken after accident insufficient to show city’s notice of defect. — In a driver’s action against a city under O.C.G.A. § 32-4-91, alleging that an accident occurred because an area of broken pavement around a manhole caused the driver’s vehicle to veer into oncoming traffic, photographs of the area taken two weeks after the accident did not constitute evidence of the city’s notice of the defect under O.C.G.A. § 32-4-93(a). *City of Macon v. Brown*, 343 Ga. App. 262, 807 S.E.2d 34 (2017).

32-4-93. Liability of municipalities for defects in public roads.

JUDICIAL DECISIONS

ANALYSIS

GENERAL CONSIDERATION
TRIAL PROCEDURE

General Consideration

O.C.G.A. § 32-4-93(a) applies to sidewalks and constructive notice of a defect may be imputed through the knowledge of the city’s employees or agents, or may be shown by testimony as to how long the defect existed prior to the injury, objective evidence that the defect existed over time, or evidence that others were injured as a result of the same condition over a period of years. *Clark v. City of Atlanta*, 322 Ga. App. 151, 744 S.E.2d 122 (2013).

Constructive notice of uneven sidewalk pavers. — Trial court erred by granting a city summary judgment in a

pedestrian’s negligence suit seeking damages for a slip and fall on uneven sidewalk pavers because the evidence showed that the uneven and defective condition existed at least seven months prior to the fall; thus, a genuine issue of fact existed as to whether the city had constructive notice. *Clark v. City of Atlanta*, 322 Ga. App. 151, 744 S.E.2d 122 (2013).

City was liable for defect in sidewalk.

City was not entitled to summary judgment on the pedestrian’s claims for injuries suffered when a tree limb crashed on the pedestrian as the pedestrian walked on a city street because maintenance of the streets was a ministerial duty,

O.C.G.A. § 36-33-1(b), required by O.C.G.A. § 32-4-93(a), and there was evidence that the tree was visibly decayed or dying. *City of Fitzgerald v. Caruthers*, 332 Ga. App. 731, 774 S.E.2d 777 (2015).

No evidence of city liability. — Trial court did not err by dismissing a pedestrian’s slip and fall claims against a city because there was no evidence that the city owned any part of the sidewalk and no evidence that the city performed any maintenance, repairs, or renovations to the sidewalk; thus, the pedestrian presented no evidence to support the contention that the city had or breached a duty to maintain the sidewalk. *Hagan v. Ga. DOT*, 321 Ga. App. 472, 739 S.E.2d 123 (2013).

Photographs of roadway taken after accident insufficient to show city’s notice of defect. — In a driver’s action against a city under O.C.G.A. § 32-4-91, alleging that an accident occurred because an area of broken pavement around a

manhole caused the driver’s vehicle to veer into oncoming traffic, photographs of the area taken two weeks after the accident did not constitute evidence of the city’s notice of the defect under O.C.G.A. § 32-4-93(a). *City of Macon v. Brown*, 343 Ga. App. 262, 807 S.E.2d 34 (2017).

Cited in *City of Atlanta v. Mitcham*, 296 Ga. 576, 769 S.E.2d 320 (2015).

Trial Procedure

Jury questions.

In a wrongful death case, the trial court properly denied a city summary judgment on the plaintiffs’ negligence and nuisance claims based on the obstruction in the line of sight caused by a tree as a jury had to determine whether the tree located on the city’s right of way obstructed the view of oncoming traffic such that the tree was a defect within the meaning of O.C.G.A. § 32-4-93. *Mayor & Aldermen of Savannah v. Herrera*, 343 Ga. App. 424, 808 S.E.2d 416 (2017).

PART 2

EXERCISE BY MUNICIPALITIES OF POWER TO CONTRACT GENERALLY

32-4-112. Contracts with state agencies and adjoining counties.

(a) A contract with a state agency is subject to those limitations of subparagraph (d)(1)(A) and paragraph (2) of subsection (d) of Code Section 32-2-61.

(b)(1) A municipality may contract with any county in which part of the municipality lies for the construction and maintenance of a public road within the limits of such municipality. A municipality may contract with any county abutting the corporate limits of such municipality for the construction and maintenance of a bridge within the limits of both such municipality and such county.

(2) In such contract, the county may agree to use any county funds available for the construction and maintenance of roads in such county, including funds derived from general obligation bonds issued after approval in a county-wide election, to pay the costs, in whole or in part, of the construction or maintenance of such public road.

(3) In such contract, the municipality may agree to use any funds available for the construction and maintenance of roads in such

municipality, together with any funds the municipality may collect pursuant to its power to assess any part of its share of the cost of such contract against abutting and adjoining property and the owners thereof according to the provisions of Chapter 39 of Title 36, as if the municipality were performing the work alone, unless the terms of such assessment shall be in violation of the municipality's charter, an ordinance of the municipality, or a general law of the state.

(4) The work under such contract may be performed either by county or municipal forces or by a contractor employed by either or jointly. (Code 1933, § 95A-833, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2018, p. 714, § 1/SB 324.)

The 2018 amendment, effective July 1, 2018, added the second sentence in paragraph (b)(1).

32-4-113. Limitations on power to contract; at least two estimates required for certain expenditures.

(a) A municipality is prohibited from negotiating a contract except a contract:

- (1) Involving the expenditure of less than \$200,000.00;
- (2) With a state agency or political subdivision as authorized by Code Sections 32-4-111 and 32-4-112;
- (3) With a railroad or railway company or a publicly or privately owned utility as authorized by Article 6 of Chapter 6 of this title;
- (4) For engineering or other kinds of professional or specialized services;
- (5) For emergency maintenance requiring immediate repairs to a public road, including but not limited to bridge repairs, snow and ice removal, and repairs due to flood conditions; or
- (6) Otherwise expressly authorized by law.

(b) No contract involving an expenditure of more than \$20,000.00 but less than \$200,000.00 shall be awarded under this Code section without the submission of at least two estimates. (Code 1933, § 95A-834, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1989, p. 356, § 3; Ga. L. 2014, p. 851, § 4/HB 774.)

The 2014 amendment, effective July 1, 2014, designated the existing provisions of this Code section as subsection (a); substituted "\$200,000.00" for "\$20,000.00" in paragraph (a)(1); and added subsection (b).

CHAPTER 5

FUNDS FOR PUBLIC ROADS

| | | | |
|---|---|----------------------------|---|
| Article 1 | | Article 3 | |
| Federal Funds | | Allocation of Funds | |
| Sec. | | Sec. | |
| 32-5-2. | Appropriation of funds to department. | 32-5-27.1. | Plan for use of department resources; budgeting considerations. |
| Article 2 | | | |
| State Public Transportation Fund | | | |
| 32-5-24. | Authorization of expenditure for public roads serving planned communities [Repealed]. | 32-5-30. | Allocation of state and federal funds; items excluded from budgeting; budgeting periods; authorization of reduction of funds allocated. |

ARTICLE 1

FEDERAL FUNDS

32-5-2. Appropriation of funds to department.

All federal funds received by the state treasurer under Code Section 32-5-1 are continually appropriated to the department for the purpose specified in the grants of such funds except as such funds may be directed by the federal government to the State Road and Tollway Authority. (Code 1933, § 95A-702, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1993, p. 1402, § 18; Ga. L. 2001, p. 1251, § 1-5; Ga. L. 2010, p. 863, § 3/SB 296; Ga. L. 2015, p. 1072, § 2/SB 169.)

The 2015 amendment, effective July 1, 2015, deleted the proviso at the end of this Code section, which read: “, provided that no federal funds or funds appropriated to the department shall be expended

for procurement of rights of way for a road to be constructed on a county road system except as otherwise provided by law or by agreement between the federal government and the department”.

ARTICLE 2

STATE PUBLIC TRANSPORTATION FUND

32-5-24. Authorization of expenditure for public roads serving planned communities.

Reserved. Repealed by Ga. L. 2015, p. 385, § 2-6/HB 252, effective July 1, 2015.

Editor’s notes. — This Code section enacted by Ga. L. 1974, p. 1215, § 3; Ga. was based on Code 1933, § 95A-706.1, L. 1982, p. 3, § 32.

Ga. L. 2015, p. 385, § 1-1/HB 252, not codified by the General Assembly, provides: “This Act shall be known and may be cited as the ‘J. Calvin Hill, Jr., Act.’”

32-5-27.1. Plan for use of department resources; budgeting considerations.

(a) In addition to the requirements contained in Code Section 32-5-27, the department shall annually prepare and submit to the General Assembly, for approval by the Senate Transportation Committee and the House Committee on Transportation, a ten-year strategic plan that outlines the use of department resources for the upcoming fiscal years.

(b) The Senate Transportation Committee and the House Committee on Transportation shall approve the plan and may make recommendations to the Senate Appropriations Committee and the House Committee on Appropriations for their consideration in developing the budget.

(c) Such plan shall identify at least the following categories and establish a target percentage of resources to be expended and the respective fund sources in each of the following areas:

- (1) Construction of new highway projects;
- (2) Maintenance of existing infrastructure;
- (3) Bridge repairs and replacement;
- (4) Safety enhancements; and
- (5) Administrative expenses.

(d) Priority shall be given to expenditure of available resources for maintenance, expansion, and improvement of highway infrastructure in the areas of this state most impacted by traffic congestion and to areas of this state in need of highway infrastructure to aid in attracting economic development to the area.

(e) Such plan shall also bring forward all efficiencies found within the bureaucracy of the department and how those funds have been redirected to road construction. (Code 1981, § 32-5-27.1, enacted by Ga. L. 2015, p. 236, § 2-1/HB 170.)

Effective date. — This Code section became effective July 1, 2015.

Editor’s notes. — Ga. L. 2015, p. 236, § 8-1/HB 170, not codified by the General Assembly, provides: “This Act shall be known and may be cited as the ‘Transportation Funding Act of 2015.’”

Ga. L. 2015, p. 236, § 8-2/HB 170, not codified by the General Assembly, provides: “It is the intention of the General

Assembly, subject to appropriations and other constitutional obligations of this state, that year to year revenue increases be prioritized to fund education, transportation, and health care in this state.”

Ga. L. 2015, p. 236, § 9-1(b)/HB 170, not codified by the General Assembly, provides: “Tax, penalty, and interest liabilities and refund eligibility for prior taxable years shall not be affected by the passage

of this Act and shall continue to be governed by the provisions of Title 48 of the Official Code of Georgia Annotated as it existed immediately prior to the effective date of this Act.”

Law reviews. — For article on the 2015 enactment of this Code section, see 32 Ga. St. U.L. Rev. 261 (2015).

ARTICLE 3

ALLOCATION OF FUNDS

32-5-30. Allocation of state and federal funds; items excluded from budgeting; budgeting periods; authorization of reduction of funds allocated.

(a)(1) The total of expenditures from the State Public Transportation Fund under paragraphs (4), (5), and (6) of Code Section 32-5-21 plus expenditures of federal funds appropriated to the department shall be budgeted by the department over two successive budgeting periods every decade. However, such budgeting shall not include:

(A) Any federal funds specifically designated for projects that have been earmarked by a member of Congress in excess of appropriated funds;

(B) Any funds for a project undertaken for purposes of providing for the planning, surveying, constructing, paving, and improving of The Dwight D. Eisenhower System of Interstate and Defense Highways within the state; or

(C) Any funds for a project undertaken for purposes of providing for the planning, surveying, constructing, paving, and improving of any part of the state designated freight corridor, when such designation is made by the director of planning with approval from a majority of the board.

(2) The first budgeting period shall commence immediately following redistricting of congressional districts and shall be for a duration of five years. The second budgeting period shall continue until the beginning of the budgeting period following the next redistricting of congressional districts after each decennial census; provided, however, that if the congressional districts have been redrawn prior to a new decennial census, but after the approval of an existing map based on the last decennial census, the budgeting period shall include two successive budgeting periods. The first budgeting period shall end upon approval of the new redistricting and the second budgeting period shall commence from the date such redrawn congressional districts have been approved and shall continue until the next budgeting period following the next redistricting of congressional districts. The department shall budget such expenditures such that

at the end of such budgeting period funding obligations equivalent to at least 80 percent of such total for such budgeting period shall have been divided equally among the congressional districts in this state, as those districts existed at the commencement of such budgeting period, for public road and other public transportation purposes in such districts.

(b)(1) The board may upon approval by two-thirds of its membership authorize a reduction in the share of funds allocated pursuant to this Code section to any such congressional district if such supermajority of the board determines that such district does not have sufficient projects available for expenditure of funds within that district to avoid lapsing of appropriated funds.

(2) In the event that funding becomes available to the department which could not otherwise be allocated among congressional districts due to the allocation requirements of this Code section, the board may upon approval by a majority of its membership authorize a waiver of such allocation requirements to the extent necessary to allow the expenditure of such funding, and any project, projects, or portion thereof undertaken with such additional funding shall be in addition to those projects funded in accordance with the allocation requirements of this Code section in the fiscal year in which the additional funds became available or any subsequent year; provided, however, that any such waiver shall be valid only for the fiscal year in which it is granted, and any funds budgeted pursuant to a waiver granted by this paragraph which were not obligated by the end of such fiscal year shall not be obligated in violation of the allocation requirements of this Code section in a subsequent fiscal year unless a majority of the board again authorizes a waiver of the allocation requirements in such subsequent fiscal year.

(c) Provisions of this Code section may be waived pursuant to subsection (b) of Code Section 32-5-1 only upon approval by two-thirds of the membership of the board. (Code 1981, § 32-5-30, enacted by Ga. L. 1999, p. 112, § 2; Ga. L. 2000, p. 1483, § 1; Ga. L. 2001, p. 4, § 32; Ga. L. 2002, p. 1490, § 1; Ga. L. 2005, p. 724, § 1/SB 4; Ga. L. 2006, p. 72, § 32/SB 465; Ga. L. 2009, p. 8, § 32/SB 46; Ga. L. 2013, p. 67, § 2/HB 202; Ga. L. 2017, p. 774, § 32/HB 323.)

The 2013 amendment, effective July 1, 2013, substituted the present provisions of paragraph (a)(1) for the former provisions, which read: “The total of expenditures from the State Public Transportation Fund under paragraphs (4), (5), and (6) of Code Section 32-5-21 plus expenditures of federal funds appropriated to the department, not including any fed-

eral funds specifically designated for projects that have been earmarked by a member of Congress in excess of appropriated funds, shall be budgeted by the department over two successive budgeting periods every decade.”

The 2017 amendment, effective May 9, 2017, part of an Act to revise, modernize, and correct the Code, substituted

“provided, however, that if” for “provided, however, if” near the middle of the second sentence of paragraph (a)(2).

CHAPTER 6

REGULATION OF MAINTENANCE AND USE OF PUBLIC ROADS GENERALLY

Article 1
General Provisions

- Sec.
32-6-5. Closure of or limiting access to roads due to declared state of emergency for inclement weather conditions; exception for certain vehicle operators.
- 32-6-6. Camping on roadways; penalty.

Article 2
Dimensions and Weight of Vehicles and Loads

- 32-6-24. Length of vehicles and loads.
- 32-6-27. Enforcement of load limitations.

- Sec.
32-6-28. Permits for excess weight and dimensions.

Article 3
Control of Signs and Signals

PART 1
PUBLIC ROADS GENERALLY

- 32-6-51. Erection, placement, or maintenance of unlawful or unauthorized structure; removal thereof; penalty for violation; authorization of placement, erection, and maintenance of commercial advertisements by transit agency.

ARTICLE 1
GENERAL PROVISIONS

32-6-5. Closure of or limiting access to roads due to declared state of emergency for inclement weather conditions; exception for certain vehicle operators.

(a) The department may close or limit access to any portion of road on the state highway system due to a declared state of emergency for inclement weather conditions that results in dangerous driving conditions. There shall be erected or posted signage of adequate size indicating that a portion of the state highway system has been closed or access has been limited. When the department determines a road shall have limited access due to a declared state of emergency for inclement winter weather conditions, notice shall be given to motorists through posted signage that motor vehicles must be equipped with tire chains, four-wheel drive with adequate tires for existing conditions, or snow tires with a manufacturer’s all weather rating in order to proceed. Such signage shall inform motorists that it shall be unlawful to proceed on such road without such equipment. With the exception of buses,

operators of commercial motor vehicles as defined by Code Section 40-1-1 with four or more drive wheels traveling on a road declared as limited access due to a declared state of emergency for inclement winter weather conditions shall affix tire chains to each of the outermost drive wheel tires. Bus and motor coach operators shall affix tire chains to at least two of the drive wheel tires before proceeding on a road with limited access due to a declared state of emergency for inclement winter weather conditions. For purposes of this Code section, the term “tire chains” means metal chains which consist of two circular metal loops, positioned on each side of a tire, connected by not less than nine evenly spaced chains across the tire tread or any other traction devices as provided for by rules and regulations of the commissioner of public safety.

(b) A driver of a motor vehicle who causes an accident or blocks the flow of traffic while failing to comply with the requirements of subsection (a) of this Code section when access is limited on the state highway system due to a declared state of emergency for inclement weather conditions shall be fined up to \$1,000.00.

(c) This Code section shall not apply to a tow operator towing a motor vehicle or traveling to a site from which a motor vehicle shall be towed or to emergency responders traveling the roadway in order to fulfill their duties. (Code 1981, § 32-6-5, enacted by Ga. L. 2012, p. 1343, § 6/HB 817; Ga. L. 2014, p. 807, § 1/HB 753.)

The 2014 amendment, effective July 1, 2014, rewrote subsection (a); added subsection (b); and redesignated former subsection (b) as present subsection (c).

32-6-6. Camping on roadways; penalty.

(a) For purposes of this Code section, the term “camping” means temporary habitation outdoors as evidenced by one or more of the following actions: the erection or use of tents or other shelters; the laying down of sleeping bags, blankets, or other materials used for bedding; the placing or storing of personal belongings; the making of a fire; or the act of cooking.

(b) It shall be unlawful for any person to knowingly use any portion of road on the state highway system or any property owned by the department for camping.

(c) Nothing in this Code section shall prohibit the normal, customary, and temporary use of safety rest areas, welcome centers, tourist centers, and other property of the department or state highway system specifically designated for purposes of resting, sleeping, eating, or other similar activities by persons traveling by vehicle.

(d) This Code section shall not apply to state or local government officials or employees acting in their official capacity and while perform-

ing activities as part of their official duties and shall not apply to any employee of a contractor or subcontractor performing duties under a contract with the department.

(e) Any person convicted of violating this Code section shall be guilty of a misdemeanor. (Code 1981, § 32-6-6, enacted by Ga. L. 2018, p. 372, § 5/SB 445.)

Effective date. — This Code section became effective July 1, 2018.

Cross references. — Information for traveling public, § 32-2-4.

ARTICLE 2

DIMENSIONS AND WEIGHT OF VEHICLES AND LOADS

32-6-24. Length of vehicles and loads.

(a) As used in this article, the term:

(1) “Bimodal semitrailer” means a detachable load-carrying unit designed to be attached to a coupling on the rear of a truck tractor by which it is partly supported during movement over the highway and designed either with retractable flanged wheels or to attach to a detachable flanged wheel assembly for movement on the rails.

(2) “Combination of vehicles” means a semitrailer pulled by a truck tractor or a semitrailer and trailer pulled by a truck tractor operating in a truck tractor-semitrailer-trailer combination.

(3) “Extendable semitrailer” means a semitrailer that has been manufactured for the purpose of extending the frame to increase the overall length for the purpose of transporting single-piece loads.

(4) “NHS” means the National Highway System.

(5) “Semitrailer” means a detachable load-carrying unit designed to be attached to a coupling on the rear of a truck tractor by which it is partly supported.

(6) “Trailer” means a detachable load-carrying unit designed to be attached to a coupling at the rear of a semitrailer and capable of support in operation without the truck tractor.

(7) “Truck tractor” means the noncargo-carrying power unit that operates in combination with a semitrailer or trailer, except that a truck tractor and semitrailer engaged in the transportation of automobiles may transport motor vehicles on part of the power unit.

(b) Unless exempted in Code Section 32-6-25 or so authorized by a permit issued pursuant to Code Section 32-6-28, the following length limits shall apply:

(1) Trailer and semitrailer lengths:

(A) Truck tractor-semitrailer-trailer combinations shall have trailers and semitrailers that do not exceed 28 feet in length;

(B) Truck tractor-semitrailer combinations shall have semitrailers that do not exceed 53 feet in length, unless signs are posted that indicate semitrailer length restrictions;

(C) On interstate and NHS routes, single-piece loads may be transported on an extendable semitrailer that exceeds 53 feet, provided that no pieces will be loaded end to end and the semitrailer does not exceed 75 feet in length; on roads other than the interstate and NHS routes, the foregoing provisions of this subparagraph shall also apply, except that the overall length shall not exceed 100 feet. Empty extendable semitrailers or extendable semitrailers transporting a single-piece load of 53 feet or less shall be required to maintain a semitrailer length of 53 feet or less. When the semitrailer is extended as described in this subparagraph, the rear extremity of each extendable semitrailer or load shall be marked with a four-inch multidirectional amber strobe light and with 18 inch bright red or orange warning flags on the rearmost of the load or semitrailer;

(D) Maxi-cube combinations shall have a cargo box that does not exceed 34 feet, provided that the pair of cargo boxes together does not exceed 60 feet and the overall length, including the power unit, does not exceed 65 feet; and

(E) Trailer and semitrailer length requirements in this paragraph shall not apply to automobile and boat transporters; however, no unit of the vehicle shall exceed 56 feet in length; and

(2) Overall truck tractor-semitrailer or truck tractor-semitrailer-trailer lengths:

(A) Maxi-cube combinations shall have an overall length that does not exceed 65 feet;

(B) Saddlemount and saddlemount with fullmount combinations shall have an overall length that does not exceed 97 feet; and

(C) All other combinations of truck tractor-semitrailer or truck tractor-semitrailer-trailer operated on roads other than interstate or the NHS shall have an overall length that does not exceed 100 feet, unless signs are posted that indicate length restrictions. This maximum length shall include the federal allowance for automobile and boat transporter loads to overhang up to three feet over the front of the vehicle and overhang up to six feet over the rear of the vehicle. (Ga. L. 1927, p. 226, § 15; Code 1933, § 68-401; Ga. L.

1956, p. 83, § 2; Ga. L. 1959, p. 27, § 1; Ga. L. 1964, p. 83, § 1; Ga. L. 1968, p. 30, § 1; Code 1933, § 95A-958, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1974, p. 1422, §§ 35, 36; Ga. L. 1979, p. 439, § 2; Ga. L. 1980, p. 576, §§ 1-3; Ga. L. 1981, p. 133, § 1; Ga. L. 1983, p. 1798, § 2; Ga. L. 1985, p. 1002, § 1; Ga. L. 1987, p. 414, § 1; Ga. L. 1987, p. 1030, § 1; Ga. L. 1989, p. 1569, § 1; Ga. L. 1989, p. 693, § 1; Ga. L. 1990, p. 255, § 1; Ga. L. 1991, p. 94, § 32; Ga. L. 1992, p. 2467, § 1; Ga. L. 1993, p. 786, § 1; Ga. L. 1995, p. 990, § 1; Ga. L. 1996, p. 1010, § 2; Ga. L. 1999, p. 567, § 2; Ga. L. 1999, p. 828, § 1; Ga. L. 2000, p. 136, § 32; Ga. L. 2000, p. 1654, § 1; Ga. L. 2001, p. 4, § 32; Ga. L. 2010, p. 442, § 1/HB 1174; Ga. L. 2017, p. 720, § 1/HB 328.)

The 2017 amendment, effective July 1, 2017, substituted “six feet” for “four feet” near the end of the last sentence of subparagraph (b)(2)(C).

32-6-27. Enforcement of load limitations.

(a) Any person who violates the load limitation provisions of Code Section 32-6-26 shall be conclusively presumed to have damaged the public roads, including bridges, of this state by reason of such overloading and shall recompense the state for such damage in accordance with the following schedule:

(1) Five cents per pound for all excess weight over the allowed weight limitations, including any applicable variances;

(2) For the following vehicles, damages for excess weight shall be assessed at 125 percent times the rate imposed on offending vehicles operating without a permit:

(A) Where a vehicle is authorized to exceed the weight limitations of Code Section 32-6-26 by a permit issued pursuant to Code Section 32-6-28, the term “excess weight” means that weight which exceeds the weight allowed by such permit; and

(B) Where a vehicle is authorized to exceed the weight limitations of Code Section 32-6-26 by a permit issued pursuant to Code Section 32-6-28 as a superload permit or superload plus permit, the term “excess weight” means:

(i) Any single axle weight which exceeds any single axle weight allowed by such permit; and

(ii) All weight greater than 150,000 pounds when the gross weight of the vehicle and load exceeds the gross weight allowed by such permit or when any axle spacing is less than that specified by such permit; or

(3) Any vehicle that utilizes idle reduction technology shall have any penalty for violating Code Section 32-6-26, except for subsections

(f) and (h), calculated by reducing from the actual gross weight, single axle weight, tandem axle weight, or the allowed weight on any group of two or more axles the manufacturer's certified weight of the idle reducing technology or 550 pounds, whichever is less. The operator of the vehicle shall present written certification from the manufacturer specifying the weight of the idle reducing technology and demonstrate that the idle reducing technology is fully functional at all times when so requested by any law enforcement officer or employee of the Department of Public Safety.

(a.1)(1)(A) The Department of Public Safety is authorized to issue a citation to the owner or operator of any vehicle in violation of a maximum weight limit on a county road which is a designated local truck route under subsection (f) of Code Section 32-6-26 and for which signs have been placed and maintained as required under paragraph (2) of subsection (c) of Code Section 32-6-50.

(B) The Department of Public Safety is authorized to issue a warning to the owner or operator of any vehicle in violation of a maximum weight limit on a county road which is a designated local truck route under subsection (f) of Code Section 32-6-26 but for which signs have not been placed or maintained as required under paragraph (2) of subsection (c) of Code Section 32-6-50 upon the first such violation and to issue a citation to such owner or operator for a subsequent such violation.

(2)(A) The Department of Public Safety is authorized to issue a citation to the owner or operator of any vehicle in violation of a maximum weight limit on a bridge for which signs have been placed and maintained as required under paragraph (3) of Code Section 32-4-41 or subsection (a.1) of Code Section 32-4-91.

(B) The Department of Public Safety is authorized to issue a warning to the owner or operator of any vehicle in violation of a maximum weight limit on a bridge but for which signs have not been placed or maintained as required under paragraph (3) of Code Section 32-4-41 or subsection (a.1) of Code Section 32-4-91 upon the first such violation and to issue a citation to such owner or operator for a subsequent such violation.

(b) The schedules listed in paragraphs (1) and (2) of subsection (a) of this Code section shall apply separately to:

(1) The excess weight of the gross load; and

(2) The sum of the excess weight or weights of any axle or axles; provided, however, that where both gross load and axle weight limits are exceeded, the owner or operator shall be required to recompense the

state only for the largest of the money damages imposed under paragraphs (1) and (2) of this subsection.

(c)(1) Within 30 days after the issuance of the citation, the owner or operator of any offending vehicle shall pay the amount of the assessment to the Department of Public Safety or request an administrative determination of the amount and validity of the assessment.

(2) The right to an administrative determination of the amount and validity of the assessment shall be granted only to the owner or operator of an offending vehicle.

(3) The party requesting an administrative determination of the amount and validity of the assessment shall deposit the amount of the assessment with the Department of Public Safety, within the time permitted to request such determination, before the determination will be granted. In the event the assessment is determined to be erroneous, the Department of Public Safety shall make prompt refund of any overpayment after receipt of a final decision making such determination.

(4) If an administrative hearing is requested, it shall be held in accordance with Chapter 13 of Title 50, the "Georgia Administrative Procedure Act," and the rules and regulations of the Department of Public Safety. The scope of any such hearing shall be limited to a determination of:

(A) The weight of the offending vehicle;

(B) The maximum weight allowed by law on the roadway upon which the offending vehicle was operated; and

(C) Whether the operator had in his or her actual possession a valid oversize or overweight permit issued by the Department of Transportation allowing the vehicle to operate in excess of the maximum weight otherwise allowed by law on the roadway upon which the offending vehicle was operated.

(5) Any person who has exhausted all administrative remedies available within the Department of Public Safety and who is aggrieved by a final order of the Department of Public Safety is entitled to judicial review in accordance with Chapter 13 of Title 50.

(6) If a party requests an administrative determination of the amount and validity of the assessment and fails to appear without first obtaining permission from the administrative law judge or does not withdraw the request in writing no less than five days in advance of a scheduled hearing, the party shall be deemed in default and the citation shall be affirmed by operation of law. The party shall be deemed to owe the sum of \$75.00 in addition to the amount due on the citation, which sum shall represent hearing costs.

(d) All moneys collected in accordance with this Code section shall be disposed of as follows:

(1) All moneys collected for violations of the weight limitations imposed by this article shall be remitted to the general fund of the state treasury;

(2) All moneys collected for violations of the height, width, or length limitations imposed by this article, after the appropriate statutory deductions, shall be retained by the governing authority of the county wherein the violation occurred for deposit in the general treasury of said county;

(3) Hearing costs imposed pursuant to paragraph (6) of subsection (c) of this Code section shall be retained by the Department of Public Safety;

(4) Reissuance fees imposed pursuant to paragraph (4) of subsection (g) of this Code section shall be retained by the Department of Revenue; and

(5) Restoration fees imposed pursuant to paragraph (1) of subsection (i) of this Code section shall be retained by the Department of Revenue.

(e) Any owner or operator of a vehicle which is operated on the public roads of this state in violation of the weight limitations provided in this article shall be required, in addition to paying the moneys provided in subsection (a) of this Code section, to unload all gross weight in excess of 6,000 pounds over the legal weight limit at the closest reasonable location.

(f) Any person authorized by law to enforce this article may seize the offending vehicle of an owner who fails or whose operator fails to pay the moneys prescribed in subsection (a) of this Code section and hold such vehicle until the prescribed moneys are paid. If the offending vehicle is not registered in this state, any person authorized by law to enforce this article may seize any vehicle owned or operated by an owner who fails or whose operator fails to pay the moneys prescribed in subsection (a) of this Code section and hold such vehicle until the prescribed moneys are paid. Any person seizing a vehicle under this subsection or subsection (e) of this Code section may, when necessary, store the vehicle; and the owner thereof shall be responsible for all reasonable storage charges thereon. When any vehicle is seized, held, unloaded, or partially unloaded under these subsections, the load or any part thereof shall be removed or cared for by the owner or operator of the vehicle without any liability on the part of the authorized person or of the state or any political subdivision because of damage to or loss of such load or any part thereof.

(g)(1) Whenever any person, firm, or corporation violates this article and becomes indebted to the Department of Public Safety because of such violations and fails within 30 days of the date of issuance of the overweight assessment citation either to pay the assessment or appeal to the Department of Public Safety for administrative review, as provided for in subsection (c) of this Code section, such assessment shall become a lien upon the overweight motor vehicle so found to be in violation, which lien shall be superior to all liens except liens for taxes or perfected security interests established before the debt to the Department of Public Safety was created.

(2) Whenever any person, firm, or corporation requests an administrative review, it shall be held in accordance with Chapter 13 of Title 50, the "Georgia Administrative Procedure Act." In the event that the administrative law judge finds in favor of the Department of Public Safety, the person, firm, or corporation shall pay the assessment within 30 days after that decision becomes final or, if judicial review is had in accordance with Chapter 13 of Title 50, then within 30 days after final judicial review is terminated. If the person, firm, or corporation fails to pay the assessment within 30 days, such assessment shall become a lien as provided for under paragraph (1) of this subsection.

(3) The Department of Public Safety shall perfect the lien created under this subsection by sending notice thereof on a notice designated by the commissioner of public safety, by first-class mail or by statutory overnight delivery, to the owner and all holders of liens and security interests shown on the records of the Department of Revenue maintained pursuant to Chapter 3 of Title 40. Upon receipt of notice from the Department of Public Safety, the holder of the certificate of title shall surrender same to the state revenue commissioner for issuance of a replacement certificate of title bearing the lien of the department unless the assessment is paid within 30 days of the receipt of notice. The Department of Revenue may append the lien to its records, notwithstanding the failure of the holder of the certificate of title to surrender said certificate as required by this paragraph.

(4) Upon issuance of a title bearing the lien of the Department of Public Safety, or the appending of the lien to the records of the Department of Revenue, the owner of the vehicle or the holder of any security interest or lien shown in the records of the Department of Revenue may satisfy such lien by payment of the amount of the assessment, including hearing costs, if any, and payment of a reissuance fee of \$100.00. Upon receipt of such amount, the Department of Public Safety shall release its lien and the Department of Revenue shall issue a new title without the lien.

(h)(1) The Department of Public Safety, in seeking to foreclose its lien on the motor vehicle arising out of an overweight motor vehicle

citation assessed under this article, may seek an immediate writ of possession from the court before whom the petition is filed, if the petition contains a statement of facts, under oath, by the Department of Public Safety, its agents, its officers, or attorney setting forth the basis of the petitioner's claim and sufficient grounds for issuance of an immediate writ of possession.

(2) The Department of Public Safety shall allege under oath specific facts sufficient to show that it is within the power of the defendant to conceal, encumber, convert, convey, or remove from the jurisdiction of the court the property which is the subject matter of the petition.

(3) The court before whom the petition is pending shall issue a writ for immediate possession, upon finding that the petitioner has complied with paragraphs (1) and (2) of this subsection. If the petitioner is found not to have made sufficient showing to obtain an immediate writ of possession, the court may, nevertheless, treat the petition as one being filed under Code Section 44-14-231 and proceed accordingly.

(4) When an immediate writ of possession has been granted, the Department of Public Safety shall proceed against the defendant in the same manner as provided for in Code Sections 44-14-265 through 44-14-269.

(i)(1) Whenever any person, firm, or corporation violates this article and fails within 30 days of the date of issuance of the overweight assessment citation either to pay the assessment or appeal to the Department of Public Safety for an administrative review as provided for under Chapter 13 of Title 50, the "Georgia Administrative Procedure Act," the Department of Revenue may act to suspend the motor vehicle registration of the vehicle involved. However, if the person, firm, or corporation requests an administrative review, the Department of Revenue shall act to suspend the registration only after the issuance of a final decision favorable to the Department of Public Safety and the requisite failure of the person, firm, or corporation to pay the assessment. Upon such failure to pay the assessment, the Department of Revenue shall send a letter to the owner of such motor vehicle notifying the owner of the suspension of the motor vehicle registration issued to the motor vehicle involved in the overweight assessment citation. Upon complying with this subsection by paying the overdue assessment and upon submitting proof of compliance and paying a \$10.00 restoration fee to the Department of Revenue, the state revenue commissioner shall reinstate any motor vehicle registration suspended under this subsection. In cases where the motor vehicle registration has been suspended under this subsection for a second or subsequent time during any two-year

period, the Department of Revenue shall suspend the motor vehicle registration for a period of 60 days and thereafter until the owner submits proof of compliance with this subsection and pays the \$150.00 restoration fee to the Department of Revenue.

(2) Unless otherwise provided for in this Code section, notice of the effective date of the suspension of a motor vehicle registration occurs when the owner has actual knowledge or legal notice thereof, whichever first occurs. For the purposes of making any determination relating to the restoration of a suspended motor vehicle registration, no period of suspension shall be deemed to have begun until ten days after the mailing of the notice required in paragraph (1) of this subsection.

(3) For the purposes of this subsection, except where otherwise provided, the mailing of a notice to a person at the name and address shown in records of the Department of Revenue maintained under Chapter 3 of Title 40 shall, with respect to the holders of liens and security interests, be presumptive evidence that such person received the required notice.

(4) For the purposes of this subsection, except where otherwise provided, the mailing of a notice to a person or firm at the name and address shown on the overweight assessment citation shall, with respect to owners and operators of vehicles involved in an overweight assessment, be presumptive evidence that such person received the required notice.

(5) The state revenue commissioner may suspend the motor vehicle registration of any offending vehicle for which payment of an overweight assessment is made by a check that is returned for any reason.

(6) For the purposes of this subsection, where any provisions require the Department of Public Safety or the Department of Revenue to give notice to a person, which notice affects such person's motor vehicle license plate, the mailing of such notice and the name and address shown on the notice of overdue assessment citation supplied by the Department of Public Safety, as required by this subsection, shall be presumptive evidence that such person received the required notice. (Ga. L. 1956, p. 83, § 3; Code 1933, § 95A-960, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1974, p. 1422, § 37; Ga. L. 1978, p. 1989, § 2; Ga. L. 1981, p. 998, § 1; Ga. L. 1982, p. 3, § 32; Ga. L. 1983, p. 3, § 23; Ga. L. 1985, p. 149, § 32; Ga. L. 1992, p. 1236, § 2; Ga. L. 1998, p. 1206, § 4; Ga. L. 2000, p. 951, §§ 2-4, 2-5; Ga. L. 2002, p. 415, § 32; Ga. L. 2003, p. 450, § 1; Ga. L. 2005, p. 334, § 12-2/HB 501; Ga. L. 2005, p. 822, § 2/HB 279; Ga. L. 2006, p. 72, § 32/SB 465; Ga. L. 2007, p. 237, § 2/HB 536; Ga. L. 2010, p. 442,

§ 2/HB 1174; Ga. L. 2011, p. 548, § 2/SB 54; Ga. L. 2017, p. 720, § 2/HB 328.)

The 2017 amendment, effective July 1, 2017, substituted “550 pounds” for “400 pounds” near the end of the first sentence of paragraph (a)(3).

32-6-28. Permits for excess weight and dimensions.

(a) Generally.

(1)(A) The commissioner or an official of the department designated by the commissioner may, in his or her discretion, upon application in writing and good cause being shown therefor, issue a permit in writing authorizing the applicant to operate or move upon the state’s public roads a motor vehicle or combination of vehicles and loads whose weight, width, length, or height, or combination thereof, exceeds the maximum limit specified by law, provided that the load transported by such vehicle or vehicles is of such nature that it is a unit which cannot be readily dismantled or separated; and provided, further, that no permit shall be issued to any vehicle whose operation upon the public roads of this state threatens to unduly damage a road or any appurtenance thereto, except that the dismantling limitation specified in this Code section shall not apply to loads which consist of cotton, tobacco, concrete pipe, and plywood that do not exceed a width of nine feet or of round bales of hay that do not exceed a width of 11 feet and which are not moved on part of The Dwight D. Eisenhower System of Interstate and Defense Highways. However, vehicles transporting portable buildings and vehicles not exceeding 65 feet in length transporting boats on roads not a part of The Dwight D. Eisenhower System of Interstate and Defense Highways, regardless of whether the nature of such buildings or boats is such that they can be readily dismantled or separated, may exceed the lengths and widths established in this article, provided that a special permit for such purposes has been issued as provided in this Code section, but no such special permit shall be issued for a load exceeding 12 feet in width when such load may be readily dismantled or separated. A truck tractor and low boy type trailer may, after depositing its permitted load, return to its point of origin on the authorization of its original permit.

(B) Notwithstanding the provisions of subparagraph (A) of this paragraph, the commissioner or an official of the department designated by the commissioner may, in his or her discretion, upon application in writing and good cause being shown therefor, issue to a specific tow vehicle a permit in writing authorizing the applicant to operate or move upon the state’s public roads a motor

vehicle or combination of vehicles and loads for transporting not more than two modular housing units or sectional housing units if the total weight, width, length, and height of the vehicle or combination of vehicles, including the load, does not exceed the limits specified in Code Sections 32-6-22 and 32-6-26. Permission to transport two modular housing units is only authorized when the modular unit transporter meets the minimum specifications contained in subparagraph (C) of this paragraph. No permit shall be issued to any vehicle or combination of vehicles whose operation upon the public roads of this state threatens the safety of others or threatens to damage unduly a road or any appurtenance thereto.

(C) A modular unit transporter shall meet all requirements of the Federal Motor Carrier Safety Administration and all state safety requirements, rules, and regulations. The modular unit transporter shall be properly registered and have a proper, current license plate. At a minimum, the modular unit transporter shall:

(i) Be constructed of 12 inch steel I beams doubled and welded together;

(ii) Have all axles equipped with brakes;

(iii) Have every floor joist on each modular section securely attached to the beams with lag bolts and washers, or lag bolts, washers, and cable winches; and

(iv) Have an overall length not to exceed 80 feet including the hitch.

(2) Permits may be issued, on application to the department, to persons, firms, or corporations without specifying license plate numbers in order that such permits which are issued on an annual basis may be interchanged from vehicle to vehicle. The department is authorized to promulgate reasonable rules and regulations which are necessary or desirable to govern the issuance of such permits, provided that such rules and regulations are not in conflict with this title or other provisions of law.

(3) Every such permit shall be carried in the vehicle or combination of vehicles to which it refers and shall be open to inspection by any police officer, state trooper, or authorized agent of the department.

(4) The application for any such permit shall describe the type of permit applied for, as said types of permits are described in subsection (c) of this Code section. In addition, the application for a single-trip permit shall describe the points of departure and destination.

(5) The commissioner or an official of the department designated by the commissioner is authorized to withhold such permit or, if such permit is issued, to establish seasonal or other time limitations within which the vehicles described may be operated on the public road indicated, or otherwise to limit or prescribe conditions of operation of such vehicles when necessary to ensure against undue damage to the road foundation, surfaces, or bridge structures, and to require such undertaking or other security as may be deemed necessary to compensate the state for any injury to any roadway or bridge structure.

(6) For just cause, including, but not limited to, repeated and consistent past violations, the commissioner or an official of the department designated by the commissioner may refuse to issue or may cancel, suspend, or revoke the permit and any permit privileges of an applicant or permittee. The specific period of time of any suspension shall be determined by the department. In addition, any time the restrictions or conditions within which a permitted vehicle must be operated are violated, the permit may be immediately declared null and void.

(7) The department is authorized to promulgate rules and regulations necessary to enforce the suspension of permits authorized in this Code section.

(8) The department shall issue rules to establish a driver training and certification program for drivers of vehicles escorting oversize/overweight loads. Any driver operating a vehicle escorting an oversize/overweight load shall meet the training requirements and obtain certification under the rules issued by the department pursuant to this Code section. The rules may provide for reciprocity with other states having a similar program for escort certification. Certification credentials of the driver of an escort vehicle shall be carried in the escort vehicle and be readily available for inspection by law enforcement personnel or an authorized employee of the department. The department shall implement the vehicle escort driver training and certification program on or before July 1, 2010, and the requirements for training and certification shall be enforced beginning on January 1, 2011.

(9) Permit holders shall be required to meet the following minimum insurance standards:

(A) For loads where the gross vehicle weight is less than or equal to 10,000 pounds:

(i) For bodily injury a limit of \$50,000.00 per person for injury or death as a result of any one occurrence; and

(ii) For property damage a limit of \$50,000.00 for damage to property of others in any one occurrence; or

(B) For commercial motor carriers where the gross vehicle weight is greater than 10,000 pounds:

(i) For bodily injury a minimum of \$300,000.00 for each person and \$1 million for multiple persons for injury or death as a result of any one occurrence; and

(ii) For property damage a minimum of \$1 million for damage to property of others in any one occurrence.

(b) Duration and limits of permits.

(1) **Annual permit.** The commissioner or an official of the department designated by the commissioner may, pursuant to this Code section, issue an annual permit which shall permit a vehicle to be operated on the public roads of this state for 12 months from the date the permit is issued even though the vehicle or its load exceeds the maximum limits specified in this article. However, except as specified in paragraph (2) of this subsection, an annual permit shall not authorize the operation of a vehicle:

(A) Whose total gross weight exceeds 100,000 pounds;

(B) Whose single axle weight exceeds 25,000 pounds;

(C) Whose total load length exceeds 100 feet;

(D) Whose total width exceeds 102 inches or whose load width exceeds 144 inches; or

(E) Whose height exceeds 14 feet and six inches.

(2) **Annual permit plus.** Vehicles and loads that meet the requirements for an annual permit may apply for a special annual permit to carry wider loads on the NHS. The wider load limits shall be a maximum of 14 feet wide from the base of the load to a point 10 feet above the pavement and 14 feet and eight inches for the upper portion of the load.

(3) **Annual commercial wrecker emergency tow permit.** Pursuant to this Code section, the commissioner may issue an annual permit for vehicles towing disabled, damaged, abandoned, or wrecked commercial vehicles, including combination vehicles, even though such wrecker or its load exceeds the maximum limits specified in this article. An annual commercial wrecker emergency tow permit shall not authorize the operation of a vehicle:

(A) Whose single axle weight exceeds 25,000 pounds;

(B) Whose load on one tandem axle exceeds 50,000 pounds and whose load on any secondary tandem axle exceeds 38,000 pounds; or

(C) Whose total load length exceeds 125 feet.

(4) **Six-month permit.** Six-month permits may be issued for loads of tobacco or unginne d cotton the widths of which do not exceed nine feet, provided that such loads shall not be operated on The Dwight D. Eisenhower System of Interstate and Defense Highways.

(5) **Single trip.** Pursuant to this Code section, the commissioner may issue a single-trip permit to any vehicle or load allowed by federal law.

(6) **Multitrip.** Pursuant to this Code section, the commissioner may issue a multitrip permit to any vehicle or load allowed by federal law. A multitrip permit authorizes the permitted load to return to its original destination on the same permit, if done so within ten days, with the same vehicle configuration, and following the same route, unless otherwise specified by the department. A multitrip permit authorizes unlimited permitted loads on the same permit, if done so within the allowable ten days, with the same vehicle configuration, and following the same route.

(c) **Fees.** The department may promulgate rules and regulations concerning the issuance of permits and charge a fee for the issuance thereof as follows:

(1) **Annual.** Charges for the issuance of annual permits shall be \$150.00 per permit.

(2) **Annual permit plus.** Charges for the issuance of annual permits plus shall be \$500.00 per permit.

(3) **Annual commercial wrecker emergency tow permit.** Charges for the issuance of annual commercial wrecker emergency tow permits shall be \$500.00 per permit.

(4) **Six months.** The charges for the issuance of six-month permits for loads of tobacco or unginne d cotton shall be \$25.00 per permit.

(5) **Single trip.** Charges for the issuance of single-trip permits shall be as follows:

(A) Any load not greater than 16 feet wide, not greater than 16 feet high, and not weighing more than 150,000 pounds or any load greater than 100 feet long which does not exceed the maximum width, height, and weight limits specified by this subparagraph \$ 30.00

(B) **Superload permit.** Any load having a width, height, or weight exceeding the maximum limit therefor specified in subparagraph (A) of this paragraph and not weighing more than 180,000 pounds 125.00

(C) **Superload plus permit.** Any load having a weight exceeding the maximum limit therefor specified in subparagraph (B) of this paragraph 500.00

(6) **Multitrip.** Charges for the issuance of multitrip permits shall be \$100.00 for any load not greater than 16 feet wide, not greater than 16 feet high, and not weighing more than 150,000 pounds or any load greater than 100 feet long which does not exceed the maximum width, height, and weight limits specified by this paragraph.

(d) Notwithstanding any provision of Code Section 48-2-17 to the contrary, all fees collected in accordance with this Code section shall be paid to the treasurer of the department to help defray the expenses of enforcing the limitations set forth in this article and may also be used for public road maintenance purposes in addition to any sums appropriated therefor to the department. (Ga. L. 1968, p. 30, § 1; Ga. L. 1969, p. 637, § 1; Ga. L. 1971, p. 43, § 1; Ga. L. 1971, p. 462, §§ 2, 3; Ga. L. 1972, p. 356, §§ 1, 2; Code 1933, § 95A-961, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1974, p. 1422, § 38; Ga. L. 1975, p. 400, § 1; Ga. L. 1979, p. 439, § 4; Ga. L. 1980, p. 576, § 7; Ga. L. 1982, p. 3, § 32; Ga. L. 1983, p. 1798, § 5; Ga. L. 1986, p. 471, §§ 1-3; Ga. L. 1986, p. 655, § 1; Ga. L. 1987, p. 846, § 1; Ga. L. 1992, p. 987, § 1; Ga. L. 1992, p. 2467, §§ 2-4; Ga. L. 1993, p. 348, § 1; Ga. L. 1995, p. 10, § 32; Ga. L. 1995, p. 155, § 1; Ga. L. 1996, p. 1010, § 3; Ga. L. 1996, p. 1512, § 3A; Ga. L. 1999, p. 567, § 3; Ga. L. 2000, p. 136, § 32; Ga. L. 2000, p. 1654, § 2; Ga. L. 2002, p. 1126, §§ 5, 6; Ga. L. 2010, p. 442, § 3/ HB 1174; Ga. L. 2011, p. 548, §§ 3, 4/ SB 54; Ga. L. 2012, p. 732, § 1/ HB 835; Ga. L. 2012, p. 775, § 32/ HB 942; Ga. L. 2013, p. 738, § 1/ SB 218.)

The 2013 amendment, effective July 1, 2013, in the introductory language of paragraph (b)(3), inserted “abandoned,” and inserted “, including combination vehicles,” in the first sentence, and substituted “An annual” for “However, an annual” at the beginning of the second sentence; substituted “25,000 pounds” for

“21,000 pounds” in subparagraph (b)(3)(A); and substituted “one tandem axle exceeds 50,000 pounds and whose load on any secondary tandem axle exceeds 38,000 pounds” for “any tandem axle exceeds 40,000 pounds” in subparagraph (b)(3)(B).

ARTICLE 3

CONTROL OF SIGNS AND SIGNALS

PART 1

PUBLIC ROADS GENERALLY

32-6-50. Uniform regulations governing erection and maintenance of traffic-control devices; placement, removal, defacement, damaging, or sale of devices.

JUDICIAL DECISIONS

State DOT not liable for failing to erect road closure signs on county road. — Because an accident occurred on a county-owned road and did not occur on a part of the state highway system upon which the DOT owed a duty to motorists, and the couple's expert's affidavit could

not establish a legal duty to erect signs or to take other steps to inform drivers of the closure of the county-owned road, summary judgment for the DOT was proper. *Diamond v. DOT*, 326 Ga. App. 189, 756 S.E.2d 277 (2014).

32-6-51. Erection, placement, or maintenance of unlawful or unauthorized structure; removal thereof; penalty for violation; authorization of placement, erection, and maintenance of commercial advertisements by transit agency.

(a)(1) It shall be unlawful for any person to erect, place, or maintain within the dedicated right of way of any public road any sign, signal, or other device except as authorized by this subsection or subsection (d) of this Code section or as required or authorized by Code Section 32-6-50 or any other law.

(2) The erection, placement, and maintenance of signs within the dedicated rights of way of county roads or municipal streets may be authorized and governed by ordinances adopted by governing authorities of counties and municipalities having jurisdiction over such roads or streets, which ordinances as to such dedicated rights of way of county roads or municipal streets may be as or less restrictive than the provisions of paragraph (1) of this subsection.

(b) It shall be unlawful for any person to erect, place, or maintain in a place or position visible from any public road any unauthorized sign, signal, device, or other structure which:

(1) Imitates, resembles, or purports to be an official traffic-control device;

(2) Hides from view or interferes with the effectiveness of any official traffic-control device;

(3) Obstructs a clear view from any public road to any other portion of such public road, to intersecting or adjoining public roads, or to property abutting such public road in such a manner as to constitute a hazard to traffic on such roads; or

(4) Because of its nature, construction, or operation, constitutes a dangerous distraction to or interferes with the vision of drivers of motor vehicles.

(c) Any sign, signal, device, or other structure erected, placed, or maintained on the dedicated right of way of any public road in violation of subsection (a) or (b) of this Code section or in violation of any ordinance adopted pursuant to subsection (a) of this Code section is declared to be a public nuisance, and the officials having jurisdiction of the public road affected may remove or direct the removal of the same. Where any sign, signal, device, or other structure is erected, placed, or maintained in violation of subsection (b) of this Code section, but not on the dedicated right of way of any public road, the officials having jurisdiction of the public road affected may order the removal of such structure by written notice to the owner of the structure or the owner of the land on which the structure is located. If such structure is not removed within 30 days after the giving of such order of removal, such officials are authorized to remove or cause to be removed such structure and to submit a statement of expenses incurred in the removal to the owner of the structure or to the owner of the land on which the structure is located. If payment or arrangement to make payment is not made within 60 days after the receipt of said statement, the department shall certify the amount thereof for collection to the Attorney General.

(d)(1) As used in this subsection, the term:

(A) “Bus shelter” means a shelter or bench located at bus stops for the convenience of passengers of public transportation systems owned and operated by governmental units or public authorities or located on county or municipality rights of way for the convenience of residents.

(B) “Commercial advertisements” means any printed or painted signs or multiple media displays on a bus shelter for which space has been rented or leased from the owner of such shelter.

(C) “Multiple media display” means a device by which the message, image, or text is capable of electronic alteration by movement or rotation of panels or slats.

(2) Bus shelters, including those on which commercial advertisements are placed, may be erected and maintained on the rights of way of public roads subject to the following conditions and requirements:

(A) Any public transit system wishing to erect and maintain a bus shelter on the right of way of a state road shall apply to the department for a permit, and as a condition of the issuance of the permit, the department must approve the bus shelter building plans and the location of the bus shelter on the right of way; provided, however, that such approval is subject to any and all restrictions imposed by Title 23, U.S.C., and Title 23, Code of Federal Regulations relating to the federal-aid system. This paragraph shall entitle only public transit systems or their designated agents the right to be issued permits under this paragraph;

(B) If the bus shelter is to be located on the right of way of a public road other than a state road within a county or municipality, application for permission to erect and maintain such shelter shall be made to the respective county or municipality. Such application shall conform to the county's and municipality's regulations governing the erection and maintenance of such structures. When the county or municipality is served by a public transit agency or authority, the applications for all bus shelters on routes of such agency or authority shall also be forwarded by the applicant to such transit agency or authority and subject to the approval of such agency or authority; and

(C) As a condition of issuing a permit for the erection of a bus shelter on the right of way of a state road, the department shall require that the bus shelter shall be properly maintained and that its location shall meet minimum setback requirements as follows:

(i) Where a curb and gutter are present, there shall be a minimum of four feet clearance from the face of the curb to any portion of the bus shelter or the bus shelter shall be placed at the back of the existing concrete sidewalk; or

(ii) Where no curb or gutter is present, the front of the bus shelter shall be at least ten feet from the edge of the main traveled roadway.

(3) Any bus shelter erected and maintained on the right of way of a public road in violation of paragraph (2) of this subsection or in violation of the conditions of the permit issued by the department or in violation of the conditions of the consent of the county or municipality is declared to be a public nuisance and if it is determined to be a hazard to public safety by the department, county, or municipality, it may be removed or its removal may be ordered by the department or the governing authority of the respective county or municipality. In every case of removal of a bus shelter as a hazard to public safety by the department, a county, or a municipality, a good faith attempt shall be made to notify the owner of its removal. In such cases where

the department, county, or municipality orders the removal of the bus shelter as a public nuisance, if such a bus shelter is not removed by its owner within 30 days after its owner has been issued a written order of removal by the department or the governing authority of the respective county or municipality, the department or the governing authority of the respective county or municipality may cause the bus shelter to be removed and submit a statement of expenses incurred in the removal to the owner of the bus shelter. In the case of a statement of expenses for removal of a shelter on a state road, if payment or arrangement to make payment is not made within 60 days after the receipt of such statement, the department shall certify the amount thereof to the Attorney General for collection.

(4) The person to whom a permit has been issued for the erection and maintenance of a bus shelter on the right of way of a public road or who places such shelter on a public road other than a state road shall at all times assume all risks for the bus shelter and shall indemnify and hold harmless the State of Georgia, the department, and any county or municipality against all losses or damages resulting solely from the existence of the bus shelter.

(5) Permits for shelters on state roads shall be issued under this subsection only to cities, counties, or public transportation authorities owning or operating public transportation systems or their designated agents.

(e) Each sign erected, placed, or maintained in violation of paragraph (1) of subsection (a) of this Code section shall constitute a separate offense.

(f) Any person who violates paragraph (1) of subsection (a) of this Code section shall be punished the same as for littering under Code Section 16-7-43. Any person who violates subsection (b) of this Code section shall be guilty of a misdemeanor.

(g)(1) As used in this subsection, the term:

(A) "Commercial advertisements" means any printed or painted signs or multiple media displays on or in transit vehicles or facilities for which space has been rented or leased from the owner of such transit vehicles or facilities.

(B) "Multiple media display" means a device by which the message, image, or text is capable of electronic alteration by movement or rotation of panels or slats.

(C) "Transit agency" means any public agency, public corporation, or public authority existing under the laws of this state that is authorized by any general, special, or local law to provide any type of transit services within any area of this state, including, but

not limited to, the Department of Transportation, the Atlanta-region Transit Link “ATL” Authority, and the Georgia Rail Passenger Authority.

(D) “Transit vehicles or facilities” means everything necessary and appropriate for the conveyance and convenience of passengers who utilize transit services.

(2) A transit agency may authorize the placement, erection, and maintenance of commercial advertisements on or in transit vehicles or facilities owned or operated by that transit agency and said placement of commercial advertisements shall not be considered conducting commercial enterprises or activities in violation of Code Section 32-6-115.

(h) Multiple media displays authorized pursuant to this Code section shall comply with the operational standards for multiple message signs provided for in Part 2 of this article but shall not be required to comply with any spacing requirements provided for in such part and multiple media displays shall not be considered in regard to the spacing requirements provided for in Code Section 32-6-75 as to the placement of any multiple message sign. (Ga. L. 1931, p. 221, §§ 1, 2, 4, 5; Code 1933, §§ 95-2002, 95-2004, 95-2005, 95-2006; Ga. L. 1953, Nov.-Dec. Sess., p. 556, § 38; Code 1933, § 95A-902, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1991, p. 1861, § 1; Ga. L. 1992, p. 1504, § 1; Ga. L. 1993, p. 1732, § 1; Ga. L. 2001, Ex. Sess., p. 335, § 5; Ga. L. 2005, p. 601, § 3/SB 160; Ga. L. 2006, p. 275, § 3-10/HB 1320; Ga. L. 2009, p. 302, § 2/HB 101; Ga. L. 2016, p. 148, § 1/SB 307; Ga. L. 2017, p. 774, § 32/HB 323; Ga. L. 2018, p. 377, § 4-13/HB 930.)

The 2016 amendment, effective July 1, 2016, in paragraph (d)(1), near the middle of subparagraph (d)(1)(B), inserted “or multiple media displays”, and added subparagraph (d)(1)(C); in paragraph (g)(1), in subparagraph (g)(1)(A), substituted “media displays” for “message signs”, added present subparagraph (g)(1)(B), and redesignated former subparagraphs (g)(1)(B) and (g)(1)(C) as present subparagraphs (g)(1)(C) and (g)(1)(D), respectively; and added subsection (h).

The 2017 amendment, effective May 9, 2017, part of an Act to revise, modernize, and correct the Code, inserted a comma following “area of this state” in subparagraph (g)(1)(C).

The 2018 amendment, effective May 3, 2018, substituted “Atlanta-region Transit Link ‘ATL’ Authority” for “Georgia Regional Transportation Authority” near the end of subparagraph (g)(1)(C).

PART 2

STATE HIGHWAY SYSTEM

32-6-70. Declaration of policy.

Law reviews. — For annual survey on business corporations, see 64 Mercer L. Rev. 61 (2012).

JUDICIAL DECISIONS

Signs inside the building. — After a company installed three signs inside the windows of a building, the superior court erred in concluding that the Georgia Outdoor Advertising Control Act (OACA), O.C.G.A. § 32-6-70 et seq., regulated the company’s signs because the OACA regu-

lated outdoor signs, and it was undisputed that the company’s signs were located inside the building, and the signs could not be characterized as outdoor signs. *Monumedia II, LLC v. DOT*, 343 Ga. App. 49, 806 S.E.2d 215 (2017).

32-6-71. Definitions.

JUDICIAL DECISIONS

Signs in windows are not outdoor signs. — After a company installed three signs inside the windows of a building, the superior court erred in concluding that the Georgia Outdoor Advertising Control Act (OACA), O.C.G.A. § 32-6-70 et seq., regulated the company’s signs because the

OACA regulated outdoor signs, and it was undisputed that the company’s signs were located inside the building, and the signs could not be characterized as outdoor signs. *Monumedia II, LLC v. DOT*, 343 Ga. App. 49, 806 S.E.2d 215 (2017).

32-6-75. Restrictions on outdoor advertising authorized by Code Sections 32-6-72 and 32-6-73; multiple message signs on interstate system, primary highways, and other highways.

Law reviews. — For annual survey on administrative law, see 64 Mercer L. Rev. 39 (2012).

32-6-75.3. Application for tree trimming permit and annual renewal; forms; application fees; evaluation; criteria for trimming trees or vegetation.

JUDICIAL DECISIONS

Constitutionality. — In a city’s suit challenging vegetation removal around billboard advertising, the Supreme Court of Georgia upheld the constitutionality of

the billboard advertising statute, O.C.G.A. § 32-6-75.3 because the Georgia legislature has found that outdoor advertising provides a substantial service and

benefit to the traveling public. *City of Columbus v. Ga. Dep't of Transp.*, 292 Ga. 878, 742 S.E.2d 728 (2013).

Billboard advertising statute constitutional. — Trial court properly determined that the billboard advertising statute, O.C.G.A. § 32-6-75.3(j), did not violate the trustees clause because the trustees clause did not apply because the city's challenges to the statute did not involve a public officer reaping personal financial gain at the expense of the public. *City of Columbus v. Ga. Dep't of Transp.*, 292 Ga. 878, 742 S.E.2d 728 (2013).

Take down credits for removal of billboards. — Trial court erred in holding that the take-down credits under O.C.G.A. § 32-6-75.3(j) violated the gratuities clause because, to the contrary, the Supreme Court of Georgia has found that the Georgia legislature has explicitly determined that removal of outdated signs provides a benefit to the State of Georgia and that there would be a financial benefit in allowing take-down credits. *City of Columbus v. Ga. Dep't of Transp.*, 292 Ga. 878, 742 S.E.2d 728 (2013).

ARTICLE 6

PUBLIC UTILITIES

PART 1

IN GENERAL

32-6-171. Authority of department to order removal, relocation, or adjustment of utility facilities; giving notice to utility; relocation procedures; procedure by department upon failure of utility to remove facility; damages; mediation.

JUDICIAL DECISIONS

County liable to power company for movement of power lines from private property easement. — Trial court properly found that a power company was entitled to compensation from a county for the taking of the company's private property easements, including the costs of relocating the electrical power and distribution poles, when the county widened a

road because a 1929 franchise agreement did not apply to situations where the power company was forced by the county to relocate power transmission lines and poles that the company originally erected on private property easements. *Clayton County v. Ga. Power Co.*, 340 Ga. App. 60, 796 S.E.2d 16 (2017).

32-6-173. Payment of expenses of removal and relocation of utility facilities.

JUDICIAL DECISIONS

County liable to power company for movement of power lines from private property easement. — Trial court properly found that a power company was entitled to compensation from a county for the taking of the company's private prop-

erty easements, including the costs of relocating the electrical power and distribution poles, when the county widened a road because a 1929 franchise agreement did not apply to situations where the power company was forced by the county

to relocate power transmission lines and poles that the company originally erected on private property easements. Clayton

County v. Ga. Power Co., 340 Ga. App. 60, 796 S.E.2d 16 (2017).

CHAPTER 7

ABANDONMENT, DISPOSAL, OR LEASING OF
PROPERTY NOT NEEDED FOR PUBLIC
ROAD PURPOSES

Sec.

32-7-4. Procedure for disposition of property.

32-7-1. Authority of department, counties, and municipalities to substitute for, relocate, or abandon public roads.

Law reviews. — For annual survey on local government law, see 66 Mercer L. Rev. 135 (2014).

JUDICIAL DECISIONS

Questions of fact remained as to abandonment. — In a dispute over access to a roadway, the trial court erred in granting the plaintiff summary judgment enjoining the defendant from obstructing the road because questions of fact remained as to abandonment of the roadway leading to the plaintiff’s property, which were not properly resolved by the trial court. *Pass v. Forestar GA Real Estate Group, Inc.*, 337 Ga. App. 244, 787 S.E.2d 250 (2016), cert. denied, No. S16C1689, 2016 Ga. LEXIS 830 (Ga. 2016).

Judicial review of abandonment decision. — In a mandamus action, a trial court erred by reversing a decision of a county board of commissioners to abandon a road as the trial court failed to give proper deference to the board’s decision to abandon the road and substituted the court’s own judgment for that of the board. *Scarborough v. Hunter*, 293 Ga. 431, 746 S.E.2d 119 (2013).

32-7-2. Procedure for abandonment.

Law reviews. — For annual survey on local government law, see 66 Mercer L. Rev. 135 (2014).

JUDICIAL DECISIONS

Distinction between abandonment and failure to maintain. — Standard of review on appeal with respect to a mandamus order involving the superior court’s

review of a county’s decision to abandon a public road pursuant to O.C.G.A. § 32-7-2(b)(1) is whether there is any evidence supporting the decision of the local

governing body, not whether there is any evidence supporting the decision of the superior court. This standard is not applicable if the issue on appeal involves the county's failure to properly build, repair, and maintain county roads. *Burke County v. Askin*, 294 Ga. 634, 755 S.E.2d 747 (2014).

Judicial review of abandonment decision. — In a mandamus action, a trial court erred by reversing a decision of a county board of commissioners to abandon a road as the trial court failed to give proper deference to the board's decision to abandon the road and substituted the court's own judgment for that of the board.

Scarborough v. Hunter, 293 Ga. 431, 746 S.E.2d 119 (2013).

Questions of fact remained as to abandonment. — In a dispute over access to a roadway, the trial court erred in granting the plaintiff summary judgment enjoining the defendant from obstructing the road because questions of fact remained as to abandonment of the roadway leading to the plaintiff's property, which were not properly resolved by the trial court. *Pass v. Forestar GA Real Estate Group, Inc.*, 337 Ga. App. 244, 787 S.E.2d 250 (2016), cert. denied, No. S16C1689, 2016 Ga. LEXIS 830 (Ga. 2016).

32-7-3. Authority of department, counties, and municipalities to dispose of property no longer needed for public road purposes.

JUDICIAL DECISIONS

Application. — Trial court properly granted summary judgment to a county and purchaser, because the prior owner of the property condemned by the county never had a binding contract with the county to re-purchase a remnant, unused

portion and there was no conflict between O.C.G.A. §§ 32-7-3, 32-7-4, and 36-9-3(h) and the county's code amendment. *Hubert Props., LLP v. Cobb County*, 318 Ga. App. 321, 733 S.E.2d 373 (2012).

32-7-4. Procedure for disposition of property.

(a)(1) In disposing of property, as authorized under Code Section 32-7-3, the department, a county, or a municipality, provided that such department, county, or municipality has held title to the property for no more than 30 years, shall notify the owner of such property at the time of its acquisition or, if the tract from which the department, a county, or a municipality acquired its property has been subsequently sold, shall notify the owner of abutting land holding title through the owner from whom the department, a county, or a municipality acquired its property. In the event that all or a portion of the property subject to disposition is a roadway located in a subdivision with a duly formed property owner's association, the notice for that roadway portion of the property within such subdivision may be provided to the association in lieu of the individual owners of abutting land. The notice shall be in writing delivered to the appropriate owner or association or by publication if the owner's or association's address is unknown; and the owner or the association, as applicable, shall have the right to acquire, as provided in this subsection, the property with respect to which the notice is given. Publication, if necessary, shall be in a newspaper of general circula-

tion in the county where the property is located. If, after a search of the available public records, the address of any interested party cannot be found, a record of the facts and reciting the steps taken to establish the address of any such person shall be placed in the department, county, or municipal records and shall be accepted in lieu of service of notice by mailing the same to the last known address of such person. After properly completing and documenting the search, the department, county, or municipality may dispose of the property in accordance with the provisions of subsection (b) of this Code section.

(2)(A) When an entire parcel acquired by the department, a county, or a municipality, or any interest therein, is being disposed of, it may be acquired under the right created in paragraph (1) of this subsection at such price as may be agreed upon, but in no event less than the price paid for its acquisition. When only remnants or portions of the original acquisition are being disposed of, they may be acquired for a price no less than 15 percent under the market value thereof at the time the department, county, or municipality decides the property is no longer needed. The department shall use a real estate appraiser with knowledge of the local real estate market who is licensed in Georgia to establish the fair market value of the property prior to listing such property.

(B) The provisions of subparagraph (A) of this paragraph notwithstanding, if the value of the property is \$75,000.00 or less as determined by department estimate, the department, county, or municipality may negotiate the sale.

(3) If the right of acquisition is not exercised within 30 days after due notice, the department, county, or municipality may proceed to sell such property as provided in subsection (b) of this Code section.

(4) When the department, county, or municipality in good faith and with reasonable diligence attempted to ascertain the identity of persons entitled to notice under this Code section and mailed such notice to the last known address of record of those persons or otherwise complied with the notification requirements of this Code section, the failure to in fact notify those persons entitled thereto shall not invalidate any subsequent disposition of property pursuant to this Code section.

(b)(1)(A) Unless a sale of the property is made pursuant to paragraph (2) or (3) of this subsection, such sale shall be made to the bidder submitting the highest of the sealed bids received after public advertisement for such bids for two weeks. If the highest of the sealed bids received is less than but within 15 percent of the established market value, the department may accept that bid and

convey the property in accordance with the provisions of subsection (c) of this Code section. The department or the county or municipality shall have the right to reject any and all bids, in its discretion, to readvertise, or to abandon the sale.

(B) Such public advertisement shall be inserted once a week in such newspapers or other publication, or both, as will ensure adequate publicity, the first insertion to be at least two weeks prior to the opening of bids, the second to follow one week after the first publication. Such advertisement shall include but not be limited to the following items:

(i) A description sufficient to enable the public to identify the property;

(ii) The time and place for submission and opening of sealed bids;

(iii) The right of the department or the county or municipality to reject any one or all of the bids;

(iv) All the conditions of sale; and

(v) Such further information as the department or the county or municipality may deem advisable as in the public interest.

(2)(A) Such sale of property may be made by the department or a county or municipality by listing the property through a real estate broker licensed under Chapter 40 of Title 43 who has a place of business located in the state. Property shall be listed for a period of at least 30 days. The department shall use a real estate appraiser with knowledge of the local real estate market who is licensed in Georgia to establish the fair market value of the property prior to listing such property. If the highest offer received to purchase is less than the appraised value but within 15 percent of such value, the department, county, or municipality may accept such offer and convey the property in accordance with the provisions of subsection (c) of this Code section. All sales shall be approved by the commissioner on behalf of the department or shall be approved by the governing authority of the county or municipality at a regular meeting that shall be open to the public, and public comments shall be allowed at such meeting regarding such sale.

(B) Commencing at the time of the listing of the property as provided in subparagraph (A) of this paragraph, the department, county, or municipality shall provide for a notice to be inserted once a week for two weeks in the legal organ of the county indicating the names of real estate brokers listing the property for the political subdivision. The department, county, or municipality may adver-

tise in newspapers, on the Internet, or in magazines relating to the sale of real estate or similar publications.

(C) The department, county, or municipality shall have the right to reject any and all offers, in its discretion, and to sell such property pursuant to the provisions of paragraph (1) of this subsection.

(3)(A) Such sale of property may be made by the department, a county, or a municipality to the highest bidder at a public auction conducted by an auctioneer licensed under Chapter 6 of Title 43. If the highest offer received to purchase is less than the appraised value but within 15 percent of such value, the department, county, or municipality may accept such offer and convey the property in accordance with the provisions of subsection (c) of this Code section.

(B) The department, county, or municipality shall provide for a notice to be inserted once a week for the two weeks immediately preceding the auction in the legal organ of the county including, at a minimum, the following items:

(i) A description sufficient to enable the public to identify the property;

(ii) The time and place of the public auction;

(iii) The right of the department or the county or municipality to reject any one or all of the bids;

(iv) All the conditions of sale; and

(v) Such further information as the department or the county or municipality may deem advisable as in the public interest.

The department, county, or municipality may advertise in magazines relating to the sale of real estate or similar publications.

(C) The department, county, or municipality shall have the right to reject any and all offers, in its discretion, and to sell such property pursuant to the provisions of paragraph (1) or (2) of this subsection.

(c) Any conveyance of property shall require the approval of the department, county, or municipality, by approval of the commissioner on behalf of the department and, in the case of a county or municipality, by resolution, to be recorded in the minutes of its meeting. If the department or the county or municipality approves a sale of property, the commissioner, chairperson, or presiding officer may execute a quitclaim deed conveying such property to the purchaser. All proceeds arising from such sales shall be paid into and constitute a part of the

funds of the seller. (Code 1933, § 95A-621, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1974, p. 1422, § 16A; Ga. L. 1995, p. 1195, § 1; Ga. L. 2008, p. 726, § 1/SB 444; Ga. L. 2009, p. 8, § 32/SB 46; Ga. L. 2015, p. 1072, § 3/SB 169; Ga. L. 2015, p. 1358, § 1/HB 477; Ga. L. 2018, p. 372, § 6/SB 445.)

The 2015 amendments. — The first 2015 amendment, effective July 1, 2015, in paragraph (a)(1), added the proviso in the first sentence, substituted “search of the available public records, the address of any interested party cannot be found, a record of the facts” for “search of the land and probate records, the address of any interested party cannot be found, an affidavit stating such facts” near the middle of the fourth sentence, and substituted “completing and documenting the search” for “completing and filing such affidavit” near the middle of the last sentence; deleted “and not an employee of the department” following “Georgia” in the last sentence of subparagraph (a)(2)(A) and in the third sentence of subparagraph (b)(2)(A); in subparagraph (a)(2)(B), substituted “\$75,000.00” for “\$30,000.00”; in paragraph (a)(3), substituted “30 days” for “60 days”; in paragraphs (b)(2) and (b)(3), inserted “department,” throughout; in subparagraph (b)(2)(A), inserted “the department or” near the beginning of the first sentence, in the last sentence, inserted “the commissioner on behalf of the department or shall be approved by” and substituted “regular meeting that shall be open to the public, and public comments shall be allowed at such meeting” for “regular meeting and shall be open to the public at which meeting public comments shall be allowed”; in subparagraphs (b)(2)(B), (b)(2)(C), (b)(3)(A), and (b)(3)(B), added a comma following “county”; in subparagraph (b)(3)(A), inserted “the department,” and substituted “or a municipality” for “or municipality”; in subparagraph (b)(3)(C), inserted “or (2)”; and substituted “approval of the commissioner” for “order of the commissioner” in the first sentence of subsection (c). The second 2015 amendment, effective May 12, 2015, in paragraph (a)(1), added the second sentence, and substituted “owner or association or by publication if the owner’s or association’s address is unknown; and the owner

or the association, as applicable,” for “owner or by publication if his or her address is unknown; and he or she” in the third sentence.

The 2018 amendment, effective July 1, 2018, inserted “a price no less than 15 percent under” in the middle of the second sentence of subparagraph (a)(2)(A); substituted the present provisions of subparagraph (b)(2)(A) for the former provisions, which read: “Such sale of property may be made by the department or a county or municipality by listing the property through a real estate broker licensed under Chapter 40 of Title 43 who has a place of business located in the county where the property is located or outside the county if no such business is located in the county where the property is located. Property shall be listed for a period of at least three months. Such property shall not be sold at less than its fair market value. The department shall use a real estate appraiser with knowledge of the local real estate market who is licensed in Georgia to establish the fair market value of the property prior to listing such property. All sales shall be approved by the commissioner on behalf of the department or shall be approved by the governing authority of the county or municipality at a regular meeting that shall be open to the public, and public comments shall be allowed at such meeting regarding such sale.”; inserted “newspapers, on the Internet, or in” in the middle of subparagraph (b)(2)(B); and substituted “If the highest offer received to purchase is less than the appraised value but within 15 percent of such value, the department, county, or municipality may accept such offer and convey the property in accordance with the provisions of subsection (c) of this Code section” for “Such property shall not be sold at less than its fair market value” in subparagraph (b)(3)(A).

Law reviews. — For survey article on real property law, see 67 Mercer L. Rev. 193 (2015).

JUDICIAL DECISIONS

Application. — Trial court properly granted summary judgment to a county and purchaser because the prior owner of the property condemned by the county never had a binding contract with the county to re-purchase a remnant, unused

portion and there was no conflict between O.C.G.A. §§ 32-7-3, 32-7-4, and 36-9-3(h) and the county’s code amendment. *Hubert Props., LLP v. Cobb County*, 318 Ga. App. 321, 733 S.E.2d 373 (2012).

ARTICLE 1

GENERAL PROVISIONS

Editor’s notes. — Code Sections 32-9-1 through 32-9-12 were designated as Arti-

cle 1 by Ga. L. 2018, p. 377, § 3-1/HB930, effective May 3, 2018.

32-9-4.1. FlexAuto lanes.

(a) As used in this Code section, the term “FlexAuto lane” means an area designated as a special lane of travel created by converting

emergency lane and hard shoulder areas on the left or right side of an interstate highway or other road into a rush hour traffic lane for use by automobiles during certain hours.

(b) The department, with the approval of the board, is authorized to designate FlexAuto lanes on the state highway system for the purpose of improving traffic flow in and around areas with a history of traffic congestion.

(c) Any FlexAuto lane shall be appropriately striped and marked and shall have signage appropriate to indicate its nature, as determined by the department. The department may incorporate emergency havens, emergency ramps, or emergency parking pads into the design and creation of FlexAuto lanes, as determined appropriate by the department.

(d) The hours of usage of a FlexAuto lane shall be determined by the department.

(e) It shall be unlawful for any person operating any motor vehicle to use a FlexAuto lane for purposes of travel other than emergency use outside the permitted hours of travel use, as determined and posted by the department. It shall be unlawful for any person operating any motor vehicle other than an automobile, motorcycle, or light truck to use a FlexAuto lane for purposes of travel other than emergency use at any time.

(f) Prior to implementing this Code section, the department shall, if necessary, seek to secure and implement any federal approvals, waivers, or other actions necessary or appropriate in order to implement this Code section without any loss or impairment of federal funding. (Code 1981, § 32-9-4.1, enacted by Ga. L. 2005, p. 684, § 2/HB 273; Ga. L. 2017, p. 720, § 3/HB 328.)

The 2017 amendment, effective July 1, 2017, deleted “, not to exceed eight hours per day” following “department” at the end of subsection (d); and deleted former subsection (g), which read:

“FlexAuto lanes shall not be implemented at more than 80 separate locations in the state until such time as the department has completed a one year test use of such lanes.”.

32-9-8.1. Redesignated.

Redesignated as Code Section 6-1-3 by Ga. L. 2016, p. 864, § 32(1)/HB 737, effective May 3, 2016.

Editor’s notes. — Ga. L. 2016, p. 864, redesignated former Code Section § 32(1)/HB 737, effective May 3, 2016, 32-9-8.1 as Code Section 6-1-3.

32-9-10. Implementation of federal Transportation Safety Program.

(a) The purpose of this Code section is to implement the federal Public Transportation Safety Program, 49 U.S.C. Section 5329, referred to in this Code section as the act.

(b) For purposes of this Code section, the term “system” means a public transportation system having vehicles operated on a fixed guideway on steel rails, the steel of the wheels of such vehicles coming directly into contact with such rails, but excluding such systems that are subject to regulation by the Federal Railroad Administration. In addition, a “system” shall include all other public transportation systems that, under regulations issued pursuant to subsection (e) of the act, are subject to the act.

(c) The department is designated as the agency of this state responsible for implementation of the act.

(d) Each system operating in this state shall adopt and carry out a safety program plan that provides for the following:

(1) The plan shall establish safety requirements with respect to the design, manufacture, and construction of the equipment, structures, and fixtures of the system; the maintenance of equipment, structures, and fixtures; operating methods and procedures and the training of personnel; compliance with federal, state, and local laws and regulations applicable to the safety of persons and property; protection from fire and other casualties; and the security of passengers and employees and of property;

(2) The plan shall provide for measures reasonably adequate to implement the requirements established pursuant to paragraph (1) of this subsection; and

(3) The plan shall establish lines of authority, levels of responsibility and accountability, and methods of documentation adequate to ensure that it is implemented.

(e) The department shall have the following powers and duties:

(1) It shall review the safety program plan of each system and all revisions and amendments thereof and if it finds that the plan conforms to subsection (d) of this Code section shall approve it;

(2) It shall monitor the implementation of each system’s plan;

(3) It shall have the power to require any system to revise or amend its safety program plan as may be necessary in order to comply with any regulations issued pursuant to subsection (e) of the act and any amendments or revisions thereof; and

(4) It shall investigate hazardous conditions and accidents on each system and, as appropriate, require that hazardous conditions be corrected or eliminated.

(f) If any system fails to comply with an order of the department to correct or to eliminate a hazardous condition, the department may apply for an order requiring such system to show cause why it should not do so. Such application shall be made to the superior court of the most populous county in which such system operates, as such population is determined according to the United States decennial census of 1990 or any future such census. If at the hearing upon such an order to show cause the court finds that the condition that is the subject of the order in fact creates an unreasonable risk to the safety of persons, property, or both, the court may order the system to comply with the department's order or to take such other corrective action as the court finds appropriate.

(g) Nothing in this Code section is intended to conflict with any provision of federal law; and, in case of such conflict, such portion of this Code section as may be in conflict with such federal law is declared of no effect to the extent of the conflict.

(h) The department is authorized to take the necessary steps to secure the full benefit of the federal-aid program and meet any contingencies not provided for in this Code section, abiding at all times by a fundamental purpose to perform all acts which are necessary, proper, or incidental to the efficient and safe operation and development of the department and the state highway system and of other modes and systems of transportation. (Code 1981, § 32-9-10, enacted by Ga. L. 1993, p. 1362, § 1; Ga. L. 2015, p. 1072, § 4/SB 169.)

The 2015 amendment, effective July 1, 2015, substituted the present provisions of subsection (a) for the former provisions, which read: "The purpose of this Code section is to implement Section 3029 of Public Law 102-240, the federal Intermodal Surface Transportation Efficiency Act of 1991, referred to in this Code section as the act."; and added subsections (g) and (h).

32-9-11. Transit services with local governments.

(a) As used in this Code section, the term:

(1) "Local government" means any county, municipality, or political subdivision of this state, or any combination thereof.

(2) "Nonattainment area" means those counties currently having or previously deemed to have excess levels of ozone, carbon monoxide, or particulate matter in violation of the standards in the federal Clean Air Act, as amended in 1990 and codified at 42 U.S.C.A. Sections 7401 to 7671q and which fall under the jurisdiction exercised by the Atlanta-region Transit Link "ATL" Authority or any

predecessor authority as described in Article 2 of Chapter 39 of Title 50.

(3) “Transit agency” means any public agency, public corporation, or public authority existing under the laws of this state that is authorized by any general, special, or local law to provide any type of transit services within any area of this state but shall not include the Department of Transportation, the Atlanta-region Transit Link “ATL” Authority, or the Georgia Rail Passenger Authority.

(4) “Transit facilities” means everything necessary and appropriate for the conveyance and convenience of passengers who utilize transit services.

(5) “Transit services” means all modes of transportation serving the general public which are appropriate to transport people and their personal effects by highway or other ground conveyance but does not include rail conveyance.

(b)(1) Any transit agency may, by contract with any local government for any period not exceeding 50 years, provide transit services or transit facilities for, to, or within that local government or between that local government and any area in which such transit agency provides transit services or transit facilities, except that if such services or facilities are to be funded wholly or partially by fees, assessments, or taxes levied and collected within a special district created pursuant to Article IX, Section II, Paragraph VI of the Constitution, such contract may only become effective if a majority of the qualified voters residing within the special district to be taxed authorize such contract or tax by referendum in a special election which shall be called and conducted for that purpose by the election superintendent of such local government.

(2)(A) Any services provided in a county outside a nonattainment area by a transit agency pursuant to a contract authorized by this subsection shall be conditioned upon such services being included in a plan for transit services adopted or approved by the governing authority of the county and by the governing authorities of any municipalities within which transit services are to be provided as provided in the plan.

(B) Any services provided by a transit agency in a county within a nonattainment area pursuant to a contract authorized by this subsection and entered into on or after January 1, 2019, shall be for services:

(i) Approved by a local governing authority;

(ii) Included in the regional transit plan adopted pursuant to Code Section 50-39-12; and

(iii) Through agreement with the Atlanta-region Transit Link “ATL” Authority.

(c) The purpose of this Code section is to facilitate the exercise of the power to provide public transportation services conferred by Article IX, Section II, Paragraph III of the Constitution. This Code section does not repeal any other law conferring the power to provide public transportation services or prescribing the manner in which such power is to be exercised. This Code section does not restrict the power of the Department of Transportation, the Atlanta-region Transit Link “ATL” Authority, or the Georgia Rail Passenger Authority to contract with any local government to provide transit services or transit facilities, including but not limited to rail transit services and facilities, pursuant to Article IX, Section III, Paragraph I of the Constitution. (Code 1981, § 32-9-11, enacted by Ga. L. 1998, p. 888, § 1; Ga. L. 1999, p. 112, § 4; Ga. L. 2018, p. 377, § 4-1/HB 930.)

The 2018 amendment, effective May 3, 2018, added paragraph (a)(2); redesignated former paragraph (a)(2) as present paragraph (a)(3); substituted “Atlanta-region Transit Link ‘ATL’” for “Georgia Regional Transportation” near the end of present paragraph (a)(3) and in the last sentence of subsection (c); redesignated former paragraphs (a)(3) and (a)(4) as present paragraphs (a)(4) and (a)(5), respectively; and substituted the present provisions of subsection (b) for the former provisions, which read: “Any transit agency may, by contract with any local government for any period not exceeding 50 years, provide transit services or transit facilities for, to, or within that local government or between that local government and any area in which such transit agency provides transit services or transit facilities, except that if such services or

facilities are to be funded wholly or partially by fees, assessments, or taxes levied and collected within a special district created pursuant to Article IX, Section II, Paragraph VI of the Constitution, such contract may only become effective if it is approved by a majority of the qualified voters voting in such local government in a special election which shall be called and conducted for that purpose by the election superintendent of such local government. Any services provided by a transit agency pursuant to a contract authorized by this subsection shall be conditioned upon such services being included in a plan for transit services adopted or approved by the governing authority of the county and by the governing authorities of any municipalities within which transit services are to be provided as provided in the plan.”

ARTICLE 2

METROPOLITAN ATLANTA RAPID TRANSIT AUTHORITY (MARTA)

Editor’s notes. — Code Sections 32-9-13 and 32-9-14 were designated as Article 2 by Ga. L. 2018, p. 377, § 3-1/HB 930, effective May 3, 2018.

32-9-13. Definitions.

As used in this article, the term:

(1) “Authority” means the authority created by the MARTA Act and pursuant to a local constitutional amendment for purposes of establishing a metropolitan area system of public transportation set out at Ga. L. 1964, p. 1008.

(2) “Board” means the board of directors of the authority.

(3) “City” means the City of Atlanta.

(4) “MARTA Act” means an Act known as the “Metropolitan Atlanta Rapid Transit Authority Act of 1965,” approved March 10, 1965 (Ga. L. 1965, p. 2243), as amended.

(5) “Metropolitan area” means the counties of Clayton, Cobb, DeKalb, Fulton, and Gwinnett and the City.

(6) “Qualified municipality” shall have the same meaning as provided in paragraph (4) of Code Section 48-8-110.

(7) “Regional transit plan” means the official multiyear plan for transit services and facilities adopted pursuant to Code Section 50-39-12. (Code 1981, § 32-9-13, enacted by Ga. L. 2016, p. 105, § 1-1/SB 369; Ga. L. 2018, p. 377, § 3-1/HB 930.)

Effective date. — This Code section became effective April 26, 2016.

The 2018 amendment, effective May 3, 2018, deleted the subsection (a) designation; substituted “article” for “Code section” in the introductory paragraph; added “and pursuant to a local constitutional amendment for purposes of establishing a metropolitan area system of public transportation set out at Ga. L. 1964, p. 1008” at the end of paragraph (1); added present paragraph (2); redesignated former paragraphs (2) and (3) as present paragraphs (3) and (4), respectively; added paragraphs (5) through (7); and redesignated former subsections (b)

through (g) as present Code Section 32-9-14.

Code Commission notes. — Pursuant to Code Section 28-9-5, in 2016, Code Section 32-9-13, as enacted by Ga. L. 2016, p. 864, § 32/HB 737, was redesignated as Code Section 32-9-14.

Editor’s notes. — Former Code Section 32-9-13, pertaining to suspension of restrictions on use of annual proceeds from local sales and use taxes by public transit authorities, was repealed by Ga. L. 2014, p. 649, § 1/HB 265, effective June 1, 2014. The former Code section was based on Ga. L. 2010, p. 778, § 3/HB 277.

32-9-14. Procedures, conditions, and limitations for levy of additional retail sales and use tax by City of Atlanta for MARTA services.

(a) Any provisions to the contrary in the MARTA Act notwithstanding and pursuant to the authority granted under a provision of the Constitution enacted by Ga. L. 1964, p. 1008, the city shall be authorized to levy a retail sales and use tax up to 0.50 percent under the provisions set forth in this Code section. Such tax shall be in addition to any tax which is currently authorized and collected under the MARTA Act. The city may elect to hold a referendum in 2016 as provided for by

this Code section by the adoption of a resolution or ordinance by its governing body on or prior to June 30, 2016; provided, however, that if the city does not adopt a resolution or ordinance on or prior to June 30, 2016, it may elect to hold a referendum at the November, 2017, municipal general election by the adoption of a resolution or ordinance by its governing body to that effect on or prior to June 30, 2017. Such additional tax shall not count toward any local sales tax limitation provided for by Code Section 48-8-6. Any tax imposed under this Code section at a rate of less than 0.50 percent shall be in an increment of 0.05 percent. Any tax imposed under this Code section shall run concurrently as to duration of the levy with the 1 percent tax currently levied pursuant to the MARTA Act.

(b)(1) No later than May 31 of the year a referendum is to be called for as provided in this Code section, the authority shall submit to the city a preliminary list of new rapid transit projects within or serving the geographical area of the city which may be funded in whole or in part by the proceeds of the additional tax authorized by this Code section.

(2) No later than July 31 of the year a referendum is to be called for as provided in this Code section, the authority shall submit to the city a final list of new rapid transit projects within or serving the city to be funded in whole or in part by the proceeds of the tax authorized by this Code section. Such final list of new rapid transit projects shall be incorporated into the rapid transit contract established under Section 24 of the MARTA Act between the authority and the city upon approval by the qualified voters of the city of the referendum to levy the additional tax authorized by this Code section.

(c) Before the additional tax authorized under this Code section shall become valid, the tax shall be approved by a majority of qualified voters of the city in a referendum thereon. The procedure for holding the referendum called for in this Code section shall be as follows: There shall be published in a newspaper having general circulation throughout the city, once each week for four weeks immediately preceding the week during which the referendum is to be held, a notice to the electors thereof that on the day named therein an election will be held to determine the question of whether or not the tax authorized by this Code section should be collected in the city for the purpose of expanding and enhancing the rapid transit system. Such election shall be held in all the election districts within the territorial limits of the city. The question to be presented to the electorate in any such referendum shall be stated on the ballots or ballot labels as follows:

“() YES Shall an additional sales tax of (insert
percentage) percent be collected in the City of
() NO Atlanta for the purpose of significantly expanding
and enhancing MARTA transit service in Atlanta?”

The question shall be published as a part of the aforesaid notice of election. Each such election shall be governed, held, and conducted in accordance with the provisions of law from time to time governing the holding of special elections. After the returns of such an election have been received, and the same have been canvassed and computed, the result shall be certified to the governing body of the city, in addition to any other person designated by law to receive the same, and such governing body shall officially declare the result thereof. Each election called by the governing body of the city under the provisions of this Code section shall be governed by and conducted in accordance with the provisions of law governing the holding of elections by the city. The expense of any such election shall be paid by the city.

(d) If a majority of those voting in such an election vote in favor of the proposition submitted, then the rapid transit contract between the authority and the city shall authorize the levy and collection of the tax provided for by this Code section, and the final list provided for in paragraph (2) of subsection (b) of this Code section shall be incorporated therein. All of the proceeds derived from the additional tax provided for by this Code section shall be first allocated for payment of the cost of the rapid transit projects incorporated in such contract, except as otherwise provided by the terms of such rapid transit contract, and thereafter, upon completion and payment of such rapid transit projects, as provided for in such contract and this Code section. It shall be the policy of the authority to provide that the tax collected under this Code section in an amount exceeding the cost of the rapid transit projects incorporated in the contract shall be expended solely within and for the benefit of the city. When a tax is imposed under this Code section, the rate of any tax approved as provided for by Article 5A of Chapter 8 of Title 48 shall and the tax provided for by this Code section, in aggregate, shall not exceed a rate of 1 percent.

(e) If a majority of those voting in an election provided for by this Code section in 2016 vote against the proposition submitted, the city may elect to resubmit such proposition on the date of the November, 2017, municipal general election by the adoption of a resolution or ordinance to that effect on or prior to June 30, 2017, subject to the provisions of this Code section.

(f)(1) Except as provided for to the contrary in this Code section, the additional tax provided for by this Code section shall be collected in the same manner and under the same conditions as set forth in Section 25 of the MARTA Act.

(2) The tax provided for by this Code section shall not be subject to any restrictions as to rate provided for by the MARTA Act and shall not be subject to the provisions of paragraph (2) of subsection (b) or subsection (k) of Section 25 of the MARTA Act.

(3) A tax levied under this paragraph shall be added to the state sales and use tax imposed by Article 1 of Chapter 8 of Title 48 and the state revenue commissioner is authorized and directed to establish a bracket system by appropriate rules and regulations to collect the tax imposed under this paragraph in the city. (Code 1981, § 32-9-13, enacted by Ga. L. 2016, p. 105, § 1-1/SB 369; Code 1981, § 32-9-14, as redesignated by Ga. L. 2018, p. 377, § 3-1/HB 930.)

The 2018 amendment, effective May 3, 2018, redesignated former subsections (b) through (g) of former Code Section 32-9-13 as subsections (a) through (f) of present Code Section 32-9-14, respectively; in subsection (a), substituted “0.50” for “.50” twice, substituted “Code section” for “part” twice, substituted “0.05” for “.05” in the fifth sentence, and substituted “MARTA Act” for “‘Metropolitan Atlanta Rapid Transit Authority Act of 1965,’ approved March 10, 1965 (Ga. L. 1965, p. 2243), as amended” at the end of the last

sentence; and substituted “subsection (b)” for “subsection (c)” near the end of the first sentence of present subsection (d). See Editor’s notes for applicability.

Editor’s notes. — Former Code Section 32-9-13, pertaining to suspension of restrictions on use of annual proceeds from local sales and use taxes by public transit authorities, was repealed by Ga. L. 2014, p. 649, § 1/HB 265, effective June 1, 2014. The former Code section was based on Ga. L. 2010, p. 778, § 3/HB 277.

32-9-15. Procedures, conditions, and limitations for levy of additional retail sales and use tax by Fulton County for MARTA services; transit oriented development.

(a) Any provisions to the contrary in the MARTA Act notwithstanding and pursuant to the authority granted under a provision of the Constitution enacted by Ga. L. 1964, p. 1008, the governing authority of Fulton County shall be authorized to levy a retail sales and use tax up to 0.20 percent in the portion of such county located outside the jurisdictional limits of the city upon satisfaction of the provisions set forth in this Code section. Such tax shall be in addition to any tax which is currently authorized and collected under the MARTA Act. Such additional tax shall not count toward any local sales tax limitation provided for by Code Section 48-8-6. Such additional tax shall not be utilized to fund heavy rail. Any tax imposed under this Code section at a rate of less than 0.20 percent shall be in an increment of 0.05 percent. The minimum period of time for the imposition of the tax imposed under this Code section shall be ten years and the maximum period of time for the imposition shall not exceed 30 years.

(b) Prior to the call for a referendum authorized by this Code section, the governing authority of Fulton County shall deliver or mail a written notice to the authority and to the mayor or chief elected official in each qualified municipality located within such county and outside the jurisdictional limits of the city. Such notice shall contain the date, time, place, and purpose of a meeting at which the authority and the governing authority of such county and of each qualified municipality

are to meet to discuss possible projects within or serving the geographical area of the county which may be funded in whole or in part by the proceeds of the additional tax authorized by this Code section and the rate of such tax. The notice shall be delivered or mailed at least ten days prior to the date of the meeting. The meeting shall be held at least 60 days prior to the issuance of the call for the referendum.

(c) Following the meeting required by subsection (b) of this Code section and prior to any tax being imposed under this Code section, the qualified municipalities and governing authority representing at least 70 percent of the population of Fulton County outside the boundaries of the city may execute an intergovernmental agreement memorializing their agreement to the levy of a tax and the rate of such tax; provided, however, that no tax shall be authorized to be imposed under this Code section if no such intergovernmental agreement is entered into. An intergovernmental agreement authorized by this subsection shall, at a minimum, include:

(1) If such tax is to be levied after January 1, 2019, a list of the projects proposed to be funded from the tax which shall be from the regional transit plan and approved by the Atlanta-regional Transit Link "ATL" Authority;

(2) The rate of tax to be imposed upon approval of a referendum; and

(3) The duration of the tax to be imposed upon approval of a referendum.

(d) Upon execution of an intergovernmental agreement as provided for in subsection (c) of this Code section, the governing authority of Fulton County shall be authorized to enter into a rapid transit service contract based upon the conditions agreed to in such intergovernmental agreement. Such rapid transit service contract shall incorporate the list of projects included in the intergovernmental agreement pursuant to paragraph (1) of subsection (c) of this Code section. Such rapid transit contract shall become effective and binding only upon passage of a referendum approving the imposition of an additional tax held in accordance with the provisions of subsection (e) of this Code section.

(e) Before the additional tax authorized under this Code section shall become valid or the rapid transit contract shall become binding, the tax shall be approved by a majority of qualified voters in Fulton County residing outside the jurisdictional boundaries of the city in a referendum thereon. The procedure for holding the referendum called for in this Code section shall be as follows: There shall be published in a newspaper having general circulation throughout Fulton County, once each week for four weeks immediately preceding the week during which the referendum is to be held, a notice to the electors thereof that on the

day named therein an election will be held to determine the question of whether or not the tax authorized by this Code section should be collected in Fulton County for the purpose of expanding and enhancing the rapid transit system. Such election shall be held in all the election districts within the territorial limits of Fulton County located outside the jurisdictional boundaries of the city. The question to be presented to the electorate in any such referendum shall be stated on the ballots or ballot labels as follows:

- “() YES Shall an additional sales tax of (insert rate) be collected for a period of (insert number) years in the portion of Fulton County outside of the City of Atlanta for the purpose of (description of project or projects)?”
- () NO

The question shall be published as a part of the aforesaid notice of election. Each such election shall be governed, held, and conducted in accordance with the provisions of law from time to time governing the holding of special elections. After the returns of such an election have been received, and the same have been canvassed and computed, the result shall be certified to the board of commissioners of Fulton County, in addition to any other person designated by law to receive the same, and such board of commissioners shall officially declare the result thereof. Each election called by the board of commissioners of Fulton County under the provisions of this Code section shall be governed by and conducted in accordance with the provisions of law governing the holding of elections by such county. The expense of any such election shall be paid by the county.

(f) If a majority of those voting in such an election vote in favor of the proposition submitted, then the rapid transit contract between the authority and Fulton County shall be binding and the levy and collection of the tax provided for by this Code section shall be authorized. All of the proceeds derived from the additional tax provided for by this Code section shall be first allocated for payment of the cost of the rapid transit projects incorporated in such contract, except as otherwise provided by the terms of such rapid transit contract, and thereafter, upon completion and payment of such rapid transit projects, as provided for in such contract and this Code section. It shall be the policy of the authority to provide that the tax collected under this Code section in an amount exceeding the cost of the rapid transit projects incorporated in the contract shall be expended solely within and for the benefit of Fulton County.

(g) If a majority of those voting in an election provided for by this Code section vote against the proposition submitted, Fulton County may elect to resubmit such proposition provided that the requirements of this Code section are satisfied.

(h)(1) Except as provided for to the contrary in this Code section, the additional tax provided for by this Code section shall be collected in the same manner and under the same conditions as set forth in Section 25 of the MARTA Act.

(2) The tax provided for by this Code section shall not be subject to any restrictions as to rate provided for by the MARTA Act and shall not be subject to the provisions of paragraph (2) of subsection (b) or subsection (k) of Section 25 of the MARTA Act.

(3) A tax levied under this Code section shall be added to the state sales and use tax imposed by Article 1 of Chapter 8 of Title 48, and the state revenue commissioner is authorized and directed to establish a bracket system by appropriate rules and regulations to collect the tax imposed under this Code section in the area of Fulton County outside the jurisdictional boundaries of the city.

(i)(1) For purposes of this subsection, the term “transit oriented development” means any commercial, residential, retail, or office building or development located on authority property or connected physically or functionally to a transit station, including, without limitation, joint development projects on authority property which provide for lease of authority property to private parties, convenient access to a transit station, and construction of a development for any such use. Notwithstanding the foregoing, the location of retail concessions within a transit station shall not alone constitute a transit oriented development.

(2) With respect to any local jurisdiction levying a tax as provided for by this Code section, the power of zoning and planning provided for by Article IX, Section II, Paragraph IV of the Constitution of Georgia shall extend to transit oriented development and to authority property which is not part of the transportation system, transportation projects, or rapid transit system or projects of the authority as provided for by the MARTA Act. (Code 1981, § 32-9-15, enacted by Ga. L. 2018, p. 377, § 3-1/HB 930.)

Effective date. — This Code section became effective May 3, 2018.

32-9-16. Metropolitan Atlanta Rapid Transit Overview Committee.

(a) There is created the Metropolitan Atlanta Rapid Transit Overview Committee to be composed of the following 14 members: the chairperson of the State Planning and Community Affairs Committee of the House of Representatives; the chairperson of the State and Local Governmental Operations Committee of the Senate; the chairperson of the Ways and Means Committee of the House of Representatives; a

member of the Banking and Financial Institutions Committee of the Senate to be selected by the President of the Senate; two members of the House of Representatives appointed by the Speaker of the House, at least one of whom shall be from the area served by the authority; two members of the Senate, to be appointed by the President thereof, at least one of whom shall be from the area served by the authority; and three members of the House of Representatives and three members of the Senate appointed by the Governor, at least two of whom shall be from the area served by the authority. The appointed members of the committee shall serve two-year terms concurrent with their terms as members of the General Assembly. The chairperson of the committee shall be appointed by the Speaker of the House from the membership of the committee, and the vice chairperson of the committee shall be appointed by the President of the Senate from the membership of the committee. The chairperson and vice chairperson shall serve terms of two years concurrent with their terms as members of the General Assembly. Vacancies in an appointed member's position or in the offices of chairperson or vice chairperson of the committee shall be filled for the unexpired term in the same manner as the original appointment. The committee shall periodically inquire into and review the operations, contracts, safety, financing, organization, and structure of the authority, as well as periodically review and evaluate the success with which said authority is accomplishing its legislatively created purposes.

(b) The state auditor, the Georgia Department of Transportation, and the Attorney General shall make available to the committee the services of their staffs' facilities and powers in order to assist the committee in its discharge of its duties herein set forth. The committee may employ staff and secure the services of independent accountants, engineers, and consultants. Upon authorization by joint resolution of the General Assembly, the committee shall have the power while the General Assembly is in session or during the interim between sessions to compel the attendance of witnesses and the production of documents in aid of its duties. In addition, when the General Assembly is not in session, the committee shall have the power to compel the attendance of witnesses and the production of documents in aid of its duties, upon application of the chairperson of the committee with the concurrence of the Speaker of the House and the President of the Senate.

(c) The authority shall cooperate with the committee, its authorized personnel, the Attorney General, the state auditor, and the Georgia Department of Transportation in order that the charges of the committee, set forth in this Code section, may be timely and efficiently discharged. The authority shall submit to the committee such reports and data as the committee shall reasonably require of the authority in order that the committee may adequately inform itself of the activities of the authority required by this Code section. The Attorney General is

authorized to bring appropriate legal actions to enforce any laws specifically or generally relating to the authority or as to any subpoenas issued by the committee. The committee shall, on or before the first day of January of each year, and at such other times as it deems to be in the public interest, submit to the General Assembly a report of its findings and recommendations based upon the review of the operations of the authority, as set forth in this Code section.

(d) In the discharge of its duties, the committee shall evaluate the performance of the authority in providing public transportation consistent with the following criteria:

- (1) Public safety;
- (2) Prudent, legal, and accountable expenditure of public funds;
- (3) Responsiveness to community needs and community desires;
- (4) Economic vitality of the transportation system and economic benefits to the community;
- (5) Efficient operation; and
- (6) Impact on the environment.

To assist in evaluating the performance of the authority, the committee may appoint a citizens' advisory committee or committees. Such citizens' advisory committee or committees shall act in an advisory capacity only.

(e)(1) The committee is authorized to expend state funds available to the committee for the discharge of its duties. Said funds may be used for the purposes of compensating staff personnel; paying the expenses of advertising notices of intention to amend the MARTA Act; paying for services of independent accountants, engineers, and consultants; paying necessary expenses of the citizens' advisory committee or committees; and paying all other necessary expenses incurred by the committee in performing its duties.

(2) The members of the committee shall receive the same compensation, per diem, expenses, and allowances for their service on the committee as is authorized by law for members of interim legislative study committees.

(3) The funds necessary for the purposes of this Code section shall come from the funds appropriated to and available to the legislative branch of government.

(f) Nothing contained within this Code section shall relieve the authority of the responsibilities imposed upon it under the MARTA Act for planning, designing, purchasing, acquiring, constructing, improving, equipping, financing, maintaining, administering, and operating a

system of rapid transit for the metropolitan area of Atlanta. (Code 1981, § 32-9-14, enacted by Ga. L. 2016, p. 864, § 32/HB 737; Ga. L. 2017, p. 774, § 32/HB 323; Code 1981, § 32-9-16, as redesignated by Ga. L. 2018, p. 377, § 3-1/HB 930.)

The 2017 amendment, effective May 9, 2017, part of an Act to revise, modernize, and correct the Code, substituted “for planning” for “for the planning” in the middle of subsection (f).

The 2018 amendment, effective May 3, 2018, redesignated former Code Section 32-9-14 as present Code Section 32-9-16; substituted “authority” for “Metropolitan Atlanta Rapid Transit Authority” throughout this Code section; substituted

“MARTA Act” for “Metropolitan Atlanta Rapid Transit Authority Act of 1965,” as amended” in the second sentence of paragraph (e)(1); and substituted “MARTA Act” for “Metropolitan Atlanta Rapid Transit Authority Act of 1965,” as amended,” in the middle of subsection (f).

Editor’s notes. — Ga. L. 2016, p. 864, § 32(2)/HB 737, codified Ga. L. 1999, p. 965, §§ 1-5, as this Code section.

32-9-17. Logo and branding.

(a) On and after January 1, 2019, the board shall utilize a logo and brand upon any newly acquired capital asset worth more than \$250,000.00 that is regularly visible to the public which shall include the acronym “ATL” as a prominent feature.

(b) On and after January 1, 2023, the board shall utilize a logo and brand upon any property of the authority which shall include the acronym “ATL” as a prominent feature.

(c) Such branding and logo will in no manner change the official name, business, contracts, or other obligations of the authority.

(d) The powers and duties conferred under this Code section shall be in addition to any powers and duties authorized in the MARTA Act and shall in no way be interpreted to repeal any portion of such Act. (Code 1981, § 32-9-17, enacted by Ga. L. 2018, p. 377, § 3-1/HB 930.)

Effective date. — This Code section became effective May 3, 2018.

32-9-18. Repeal of funding limitations.

Any provision of the MARTA Act which limits the amount the state may contribute to the system of the rapid transit system of the authority shall stand repealed. (Code 1981, § 32-9-18, enacted by Ga. L. 2018, p. 377, § 3-1/HB 930.)

Effective date. — This Code section became effective May 3, 2018.

32-9-19. Transportation services contracts.

(a) Notwithstanding the provisions of the MARTA Act, any county, municipality, special tax or community improvement district, political subdivision of this state within the metropolitan area, or any combination thereof may execute a transportation services contract with the authority to provide public transportation services, facilities, or both, for, to, or within such county, municipality, district, subdivision, or combination thereof. A transportation services contract executed pursuant to this subsection:

(1) Shall not be a rapid transit contract subject to the conditions established therefor in Code Sections 32-9-20 and 32-9-22 or Section 24 of the MARTA Act;

(2) May not utilize a method of financing those public transportation services or facilities provided under the contract which involves:

(A) The issuance of bonds under subsection (c) of Section 24 of the MARTA Act;

(B) The levy of the special retail sales and use tax described and authorized in Section 25 of the MARTA Act; or

(C) Both methods described in subparagraphs (A) and (B) of this paragraph;

(3) Shall require that the costs of any transportation services and facilities contracted for, as determined by the board on the basis of reasonable estimates, allocations of costs and capital, and projections, shall be borne by one or more of the following:

(A) Fares;

(B) Other revenues generated by such services or facilities;

(C) Any subsidy provided, directly or indirectly, by or on behalf of the public entity with which the authority contracted for the services and facilities; or

(D) A special retail sales and use tax described and authorized in Article 5B of Chapter 8 of Title 48; and

(4) Shall be for services on the regional transit plan and approved by the Atlanta-regional Transit Link “ATL” Authority.

(b) Notwithstanding the provisions of the MARTA Act, any county, municipality, special tax or community improvement district, political subdivision of this state outside the metropolitan area, or any combination thereof may execute a transportation services contract with the authority to provide public transportation services, facilities, or both, for, to, or within such county, municipality, district, subdivision, or

combination thereof. Under a transportation services contract executed pursuant to this subsection:

(1) The services and facilities shall be provided pursuant to a transportation services contract meeting the requirements therefor under subsection (a) of this Code section; and

(2) The contract shall not authorize the construction of any extension of or addition to the authority's existing rapid rail system. (Code 1981, § 32-9-19, enacted by Ga. L. 2018, p. 377, § 3-1/HB 930.)

Effective date. — This Code section became effective May 3, 2018.

32-9-20. Rapid transit contract with Gwinnett County.

(a)(1) Any provisions to the contrary in the MARTA Act notwithstanding and pursuant to the authority granted under a provision of the Constitution enacted by Ga. L. 1964, p. 1008, and subject to such limitations set forth in this Code section, the authority and the board of commissioners of Gwinnett County may negotiate and determine the extent of financial participation and the time or times such financial participation may be required with respect to Gwinnett County in order to finance the provision of a rapid transit system through the joint instrumentality of the authority. Except as provided in Code Section 32-9-19 if such county is entering into a transportation services contract, such determination shall take the form of a rapid transit contract to be entered into between the authority and the local government. The final execution of a rapid transit contract shall be completed in every instance in the manner hereinafter set forth in this Code section.

(2) As one method of providing the financial participation determined by the board of commissioners and the authority to be Gwinnett County's proper share of the cost of financing a rapid transit project or projects, Gwinnett County may, in the manner prescribed by law and subject to the conditions and limitations prescribed by law, issue its general obligation bonds, pay over the proceeds thereof to the authority, and thereby complete and make final the execution of the proposed rapid transit contract anticipated by such bond authorization and issuance and the authority shall agree in such contract to perform for such local government the aforesaid governmental function and to provide specified public transportation services and facilities.

(3) As an alternative method of providing the financial participation determined by the board of commissioners and the authority to be Gwinnett County's proper share of the cost of financing a rapid transit project or projects, Gwinnett County may enter into a rapid

transit contract or contracts calling for the authority to perform for it the aforesaid governmental function and calling for it to make periodic payments to the authority for the public transportation services and facilities contracted for, which payments may include amounts required to defray the periodic principal and interest payments on any obligations issued by the authority for the purpose of financing the cost of any rapid transit project or projects, amounts necessary to establish and maintain reasonable reserves to insure the payment of said debt service and to provide for renewals, extensions, repairs and improvements and additions to any project or projects, and amounts required to defray any operational deficit which the system or any part thereof may incur from time to time.

(b) The board of commissioners of Gwinnett County, subject to the conditions provided in this Code section, shall be authorized to enter into a rapid transit contract for and on behalf of the county with the authority for the provision of the aforesaid services and extension of the existing system to and from and within said county subject to approval by a majority of the qualified voters within said county voting in a referendum as provided for in subsection (c) of this Code section. As a condition precedent to the board of commissioners of Gwinnett County holding such referendum, if a rapid transit contract is entered into after January 1, 2019, the rapid transit service to be provided through the execution of a rapid transit contract shall be from the regional transit plan and approved by the Atlanta-regional Transit Link “ATL” Authority.

(c) The procedure for holding the referendum called for in subsection (b) of this Code section shall be as follows: There shall be published in a newspaper having general circulation throughout the territory of Gwinnett County, once each week for four weeks immediately preceding the week during which the referendum is to be held, a notice to the electors thereof that on the day named therein an election will be held to determine the question of whether or not the local government shall enter into the proposed rapid transit contract and said notices shall contain the full text of said proposed contract, which contract shall set forth the obligations of the parties thereto. It is expressly provided, however, that none of the documents or exhibits which are incorporated in such contract by reference or are attached to such contract and made a part thereof shall be published. Such special election shall be held at all the election districts within the territorial limits of Gwinnett County. The question to be presented to the electorate in any such referendum shall be and shall be stated on the ballots or ballot label as follows:

“Gwinnett County has executed a contract for the provision of transit services, dated as of (insert date)).

Shall this contract be approved?

YES _____ NO _____”

The question shall be published as a part of the aforesaid notice of election. Such election shall be governed by and held and conducted in accordance with the provisions of law from time to time governing the holding of special elections as provided in Chapter 2 of Title 21, the “Georgia Election Code.” After the returns of such an election have been received, and the same have been canvassed and computed, the result shall be certified to the board of commissioners of Gwinnett County, in addition to any other person designated by law to receive the same, and such board of commissioners shall officially declare the result thereof.

(d) If a majority of those voting in such an election vote in favor of the proposition submitted, then the rapid transit contract as approved shall become valid and binding in accordance with its terms.

(e) The board of commissioners of Gwinnett County may elect any method provided in subsection (a) of this Code section to finance the participation required of it in whole or in part, and the election of one method shall not preclude the election of another method with respect thereto or with respect to any additional or supplementary participation determined to be necessary.

(f) When the authority and the board of commissioners of Gwinnett County have completed and fully executed a rapid transit contract in compliance with the requirements of this Code section, and the voters shall have approved such contract as herein provided, such contract shall constitute an obligation on the part of the local government for the payment of which its good faith and credit are pledged, but in no other way can the good faith and credit of any local government be pledged with respect to a rapid transit contract.

(g) The board of commissioners of Gwinnett County may use public funds to provide for a rapid transit system within the metropolitan area and may levy and collect any taxes authorized to it by law to the extent necessary to fulfill the obligations incurred in a rapid transit contract or contracts with the authority.

(h) Gwinnett County may transfer to the authority any property or facilities, or render any services, with or without consideration, which may be useful to the establishment, operation, or administration of the rapid transit system contemplated hereunder, and may contract with the authority for any other purpose incidental to the establishment, operation, or administration of such system, or any part or project thereof or the usual facilities related thereto. (Code 1981, § 32-9-20, enacted by Ga. L. 2018, p. 377, § 3-1/HB 930.)

Effective date. — This Code section became effective May 3, 2018.

32-9-21. (Repealed effective December 1, 2019) Creation of Cobb County Special District for Transit Committee; meetings; contracting; abolishment.

(a) There is created a Cobb County Special District for Transit Committee to be composed of the members of the board of commissioners of Cobb County and the members of the House of Representatives and Senate whose respective districts include any portion of Cobb County.

(b) The first meeting of the committee shall be called by the chairperson of the board of commissioners. A chairperson of the committee shall be selected by majority vote of the members at the first meeting. The committee shall formulate a map for a proposed special district within Cobb County for the provision of public transportation services and for the construction, maintenance, and operation of transportation projects to and from and within said district by the authority. Such proposed special district shall be known as the Cobb County Special District for Transit. The committee shall be authorized to solicit input from the residents of Cobb County and hold public meetings for use in the development of the map of such proposed district.

(c) The committee shall appoint two subcommittees to approve the proposed map, prior to submission of the map to the full committee for final approval. One subcommittee shall be composed of the members of the board of commissioners and the other subcommittee shall be composed of the legislative members. Each subcommittee shall elect a chairperson by majority vote and may adopt rules as deemed necessary. No map shall be brought before the whole committee for consideration until such map has been approved by majority vote of both subcommittees.

(d) Upon final approval of the map by a majority vote of the whole committee, the committee shall negotiate terms of a proposed rapid transit contract between the authority and Cobb County on behalf of the special district in consultation with the Atlanta-region Transit Link “ATL” Authority, if such contract is to be entered into after January 1, 2019. Such proposed rapid transit contract shall include the extent of financial participation and the time or times such financial participation may be required with respect to Cobb County in order to finance the provision of a rapid transit system through the joint instrumentality of the authority. The committee may recommend one or both of the following methods for providing such financial participation:

(1) In the manner prescribed by law and subject to the conditions and limitations prescribed by law, Cobb County may issue its general

obligation bonds, pay over the proceeds thereof to the authority, and thereby complete and make final the execution of the proposed rapid transit contract anticipated by such bond authorization and issuance and the authority shall agree in such contract to perform specified public transportation services for the Cobb County Special District for Transit and to provide specified construction, maintenance, and operation of transportation projects; or

(2) Cobb County may enter into a rapid transit contract or contracts calling for the authority to perform specified public transportation services for the Cobb County Special District for Transit and to provide specified construction, maintenance, and operation of transportation projects. In such contract or contracts, Cobb County, acting on behalf of the special district, shall make periodic payments to the authority for the public transportation services and facilities contracted for, which payments may include amounts required to defray the periodic principal and interest payments on any obligations issued by the authority for the purpose of financing the cost of any rapid transit project or projects, amounts necessary to establish and maintain reasonable reserves to insure the payment of said debt service and to provide for renewals, extensions, repairs, and improvements and additions to any project or projects, and amounts required to defray any operational deficit which the system or any part thereof may incur from time to time.

The committee may elect any method provided in this subsection as a recommendation to finance the participation required of Cobb County, in whole or in part, and the election of one method shall not preclude the election of another method with respect thereto or with respect to any additional or supplementary participation determined to be necessary.

(e) The committee shall provide to the board of commissioners of Cobb County the recommended map for the special district, which was approved by majority vote of the committee, and a proposed rapid transit contract, no later than December 1, 2019.

(f) Any final execution of a rapid transit contract for the Cobb County Special District for Transit shall be completed by the board of commissioners of Cobb County and the authority pursuant to the requirements set forth in Code Section 32-9-22.

(g) The committee shall stand abolished and this Code section shall stand repealed by operation of law on December 1, 2019. (Code 1981, § 32-9-21, enacted by Ga. L. 2018, p. 377, § 3-1/HB 930.)

Effective date. — This Code section became effective May 3, 2018.

Code Commission notes. — Pursuant to Code Section 28-9-5, in 2018, “the board

of commissioners of Cobb County” was substituted for “the Cobb County board of commissioners” in subsection (f).

32-9-22. Rapid transit contract with Cobb County on behalf of the Cobb County Special District for Transit.

(a) Any provisions to the contrary in the MARTA Act notwithstanding and pursuant to the authority granted under a provision of the Constitution enacted by Ga. L. 1964, p. 1008, and subject to such limitations set forth in this Code section, the authority and the board of commissioners of Cobb County may, after taking into consideration the recommendations of the Cobb County Special District for Transit Committee, adopt the map recommended by such committee by passage of a resolution or ordinance and, upon such passage, enter into a rapid transit contract. The contract entered into shall be based solely upon the recommendation of the committee. The final execution of a rapid transit contract shall be completed in every instance in the manner hereinafter set forth in this Code section.

(b) The board of commissioners of Cobb County, subject to the conditions provided in this Code section, shall be authorized to enter into a rapid transit contract for and on behalf of the Cobb County Special District for Transit with the authority for the provision of the aforesaid services and extension of the existing system to and from and within said district subject to approval by a majority of the qualified voters within said district voting in a referendum as provided for in subsection (c) of this Code section. As a condition precedent to the board of commissioners of Cobb County holding such referendum, the rapid transit service to be provided through the execution of a rapid transit contract shall be based upon the map and rapid transit contract terms approved by majority vote of the Cobb County Special District for Transit Committee, be from the regional transit plan, and be approved by the Atlanta-regional Transit Link “ATL” Authority if the contract is to be entered into after January 1, 2019.

(c) The procedure for holding the referendum called for in subsection (b) of this Code section shall be as follows: There shall be published in a newspaper having general circulation throughout the territory of the Cobb County Special District for Transit, once each week for four weeks immediately preceding the week during which the referendum is to be held, a notice to the electors thereof that on the day named therein an election will be held to determine the question of whether or not the local government shall enter into the proposed rapid transit contract and said notices shall contain the full text of said proposed contract, which contract shall set forth the obligations of the parties thereto. It is expressly provided, however, that none of the documents or exhibits

which are incorporated in such contract by reference or are attached to such contract and made a part thereof shall be published. Such special election shall be held at all the election districts within the territorial limits of the Cobb County Special District for Transit. The question to be presented to the electorate in any such referendum shall be stated on the ballots or ballot label as follows:

“Cobb County has executed a contract for the provision of transit services for the Cobb County Special District for Transit, dated as of (insert date).

Shall this contract be approved?

YES _____ NO _____”

The question shall be published as a part of the aforesaid notice of election. Such election shall be governed by and held and conducted in accordance with the provisions of law from time to time governing the holding of special elections as provided in Chapter 2 of Title 21, the “Georgia Election Code.” After the returns of such an election have been received, and the same have been canvassed and computed, the result shall be certified to the board of commissioners of Cobb County, in addition to any other person designated by law to receive the same, and such board of commissioners shall officially declare the result thereof.

(d) If a majority of those voting in such an election vote in favor of the proposition submitted, then the rapid transit contract as approved shall become valid and binding in accordance with its terms.

(e) When the authority and the board of commissioners of Cobb County have completed and fully executed a rapid transit contract in compliance with the requirements of this Code section on behalf of the Cobb County Special District for Transit, and the voters within such special district shall have approved such contract as herein provided, such contract shall constitute participation of the county in the authority and obligation on the part of the local government for the payment of which its good faith and credit are pledged, but in no other way can the good faith and credit of any local government be pledged with respect to a rapid transit contract.

(f) The board of commissioners of Cobb County may use public funds to provide for a rapid transit system within the metropolitan area and may levy and collect any taxes authorized to it by law to the extent necessary to fulfill the obligations incurred in a rapid transit contract or contracts with the authority.

(g) Cobb County may transfer to the authority any property or facilities, or render any services, with or without consideration, which may be useful to the establishment, operation, or administration of the rapid transit system contemplated hereunder, and may contract with

the authority for any other purpose incidental to the establishment, operation, or administration of such system, or any part or project thereof or the usual facilities related thereto.

(h) In the event a rapid transit contract has not been entered into on behalf of the Cobb County Special District for Transit or the referendum required by this Code section fails to receive the requisite majority vote for approval prior to December 1, 2019, this Code section shall stand repealed by operation of law on such date. (Code 1981, § 32-9-22, enacted by Ga. L. 2018, p. 377, § 3-1/HB 930.)

Effective date. — This Code section became effective May 3, 2018.

32-9-23. Retail sales and use tax in Gwinnett and Cobb counties; rate; proceeds; utilization.

(a) In the event Gwinnett County and the authority enter into a rapid transit contract which is approved by a majority of voters, a retail sales and use tax shall be authorized to be levied pursuant to the conditions and limitations set forth in Section 25 of the MARTA Act, except as provided to the contrary in subsection (c) of this Code section. Such additional tax shall not count toward any local sales tax limitation provided for by Code Section 48-8-6.

(b)(1) In the event Cobb County, acting for and on behalf of the Cobb County Special District for Transit, and the authority enter into a rapid transit contract which is approved by a majority of voters within such district, a retail sales and use tax shall be authorized to be levied pursuant to the conditions and limitations set forth in Section 25 of the MARTA Act. Such tax shall be levied only within the geographical area contained within such district. Such tax shall not count toward any local sales tax limitation provided for by Code Section 48-8-6.

(2) In the event a rapid transit contract has not been entered into on behalf of the Cobb County Special District for Transit or the referendum required by Code Section 32-9-22 fails to receive the requisite majority vote for approval prior to December 1, 2019, this subsection shall stand repealed and reserved by operation of law on such date.

(c)(1) The retail sales and use tax authorized to be levied pursuant to this Code section shall be at a rate of up to 1 percent. Any tax imposed under this Code section shall be in increments of 0.05 percent.

(2) The proceeds of the tax authorized to be levied pursuant to this Code section shall be used solely by each local government to fulfill the obligations incurred in the contracts entered into with the authority and as contemplated by this article.

(3) The effective date of the tax authorized to be levied pursuant to this Code section shall be the first day of the first calendar month following approval of the tax in the referendum required by Code Sections 32-9-20 and 32-9-22 unless a later effective date shall have been specified in the resolution or ordinance providing for the levy of the tax; provided that, with respect to services which are regularly billed on a monthly basis, the tax shall become effective with the first regular billing period coinciding with or following the effective date of the tax.

(4) The tax authorized to be levied pursuant to this Code section shall not be subject to any restrictions as to rate provided for by the MARTA Act and shall not be subject to the provisions of subsection (k) of Section 25 of the MARTA Act.

(5) A tax levied pursuant to this Code section shall be added to the state sales and use tax imposed by Article 1 of Chapter 8 of Title 48 and the state revenue commissioner is authorized and directed to establish a bracket system by appropriate rules and regulations to collect the tax imposed under this Code section. (Code 1981, § 32-9-23, enacted by Ga. L. 2018, p. 377, § 3-1/HB 930.)

Effective date. — This Code section became effective May 3, 2018.

32-9-24. Appointment of Gwinnett County residents to board.

Notwithstanding subsections (a) and (b) of Section 6 of the MARTA Act to the contrary, upon approval of a rapid transit contract pursuant to Code Section 32-9-20, the board of commissioners of Gwinnett County may appoint three residents of the county to the board. The board of commissioners shall designate one such resident to serve an initial term ending on December 31 in the second full year after the year in which the referendum approving said rapid transit contract was held and one such resident to serve an initial term ending on December 31 in the fourth full year after the year in which the referendum approving said rapid transit contract was held, in which event the board shall, subsections (a) and (b) of Section 6 of the MARTA Act to the contrary notwithstanding, be composed of such additional members. Upon the conclusion of the initial terms provided for in this Code section, the board of commissioners of Gwinnett County shall appoint a successor thereto for a term of office of four years. (Code 1981, § 32-9-24, enacted by Ga. L. 2018, p. 377, § 3-1/HB 930.)

Effective date. — This Code section became effective May 3, 2018.

ARTICLE 2

STATE ROAD AND TOLLWAY AUTHORITY

PART 1

GENERAL PROVISIONS

32-10-60. Definitions.

As used in this article, the term:

(1) “Approach” means that distance on either end of a bridge as shall be required to develop the maximum traffic capacity of a bridge, including but not limited to necessary rights of way, grading, paving, minor drainage structures, and such other construction necessary to the approach.

(2) “Authority” means the State Tollway Authority created by the “State Tollway Authority Act,” Ga. L. 1953, Jan.-Feb. Sess., p. 302, as amended particularly by Ga. L. 1972, p. 179, and on and after April 30, 2001, also means the State Road and Tollway Authority.

(3) “Bridge” means a structure, including the approaches thereto, erected in order to afford unrestricted vehicular passage over any obstruction in any public road, including but not limited to rivers, streams, ponds, lakes, bays, ravines, gullies, railroads, public highways, and canals.

(4) “Cost of project” means the cost of construction, including relocation or adjustments of utilities; the cost of all lands, properties, rights, easements, and franchises acquired; relocation expenses; the cost of all machinery and equipment necessary for the operation of the project; financing charges; interest prior to and during construction and for such a period of time after completion of construction as shall be deemed necessary to allow the earnings of the project to become sufficient to meet the requirements of the bond issue; the cost of engineering, legal expenses, plans and specifications, and other expenses necessary or incident to determining the feasibility or practicability of the project; administrative expenses; and such other expenses as may be necessary or incident to the financing authorized in this article, the construction of any project, and the placing of the same in operation. Any obligation or expense incurred for any of the foregoing purposes shall be regarded as a part of the cost of the project and may be paid or reimbursed as such out of the proceeds of revenue bonds issued for such project under this article.

(5) “Project” means land public transportation systems, including: (A) one or more roads or bridges or a system of roads, bridges, and tunnels or improvements thereto included on an approved state-wide transportation improvement program on the Developmental Highway System as set forth in Code Section 32-4-22, as now or hereafter amended, or a comprehensive transportation plan pursuant to Code Section 32-2-3 or which are toll access roads, bridges, or tunnels, with access limited or unlimited as determined by the authority, and such buildings, structures, parking areas, appurtenances, and facilities related thereto, including but not limited to approaches, cross streets, roads, bridges, tunnels, and avenues of access for such system; (B) any program for mass transportation or mass transportation facilities as approved by the authority and the department and such buildings, structures, parking areas, appurtenances, and facilities related thereto, including, but not limited to, approaches, cross streets, roads, bridges, tunnels, and avenues of access for such facilities; and (C) any project undertaken pursuant to a public-private initiative as authorized pursuant to Code Section 32-2-78.

(6) “Relocation expenses” means all necessary relocation expenses, replacement housing expenses, relocation advisory services, expenses incident to the transfer of real property, and litigation expenses of

any individual, family, business, farm operation, or nonprofit organization displaced by authority projects to the extent authorized by the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended by the Uniform Relocation Act Amendments of 1987, Title IV of Public Law 100-17.

(6.1) “Revenue” or “revenues” shall mean any and all moneys received from:

(A) The collection of tolls authorized by Code Sections 32-10-64 and 32-10-65, any federal highway funds and reimbursements, any other federal highway assistance received from time to time by the authority, any other moneys of the authority pledged for such purpose, any other moneys received by the authority pursuant to the Georgia Transportation Infrastructure Bank, and any moneys received pursuant to a public-private initiative as authorized pursuant to Code Section 32-2-78; and

(B) **(Repealed effective July 1, 2021.)** Any federal highway transit funds and reimbursements and any other federal highway transit assistance received from time to time by the authority. This subparagraph shall stand repealed by operation of law on July 1, 2021.

(7) “Revenue bonds,” “revenue bond,” “bonds,” or “bond” means any bonds, notes, interim certificates, reimbursement anticipation notes, or other evidences of indebtedness of the authority authorized by Part 2 of this article, including without limitation obligations issued to refund any of the foregoing.

(8) “Self-liquidating” means that, in the judgment of the authority, the revenues and earnings to be derived by the authority from any project or combination of projects or from any other revenues available to the authority, together with any maintenance, repair, operational services, funds, rights of way, engineering services, and any other in-kind services to be received by the authority from appropriations of the General Assembly, the department, other state agencies or authorities, the United States government, or any county or municipality or from disbursements from any person, firm, corporation, limited liability company, or other type of entity shall be sufficient to provide for the maintenance, repair, and operation and to pay the principal and interest of revenue bonds which may be issued for the cost of such project, projects, or combination of projects.

(9) “Utility” means any publicly, privately, or cooperatively owned line, facility, or system for producing, transmitting, transporting, or distributing communications, power, electricity, light, heat, gas, oil products, passengers, water, steam, clay, waste, storm water not connected with highway drainage, and other similar services and

commodities, including publicly owned fire and police, and traffic signals and street lighting systems, which directly or indirectly serve the public. This term also means a person, municipal corporation, county, state agency, or public authority which owns or manages a utility as defined in this paragraph. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 3; Ga. L. 1972, p. 179, § 3; Code 1933, § 95A-1238, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1974, p. 1422, § 44; Ga. L. 1976, p. 775, § 3; Ga. L. 1977, p. 1285, § 1; Ga. L. 1982, p. 3, § 32; Ga. L. 1986, p. 1241, § 1; Ga. L. 1988, p. 227, § 1; Ga. L. 2001, p. 1251, § 1-6; Ga. L. 2008, p. 73, § 1/HB 1019; Ga. L. 2017, p. 760, § 1/SB 183; Ga. L. 2018, p. 377, § 4-2/HB 930.)

The 2017 amendment, effective July 1, 2017, in paragraph (5), deleted “and” at the end of subparagraph (A), added “; and” at the end of subparagraph (B), and added subparagraph (C); in paragraph (6.1), deleted “and” preceding “any other moneys” in the middle, and added “, and any moneys received pursuant to a public-private initiative as authorized pursuant to Code Section 32-2-78” at the end; and in paragraph (8), substituted “municipality or from disbursements from any person, firm, corporation, limited liability company, or other type of entity” for “municipality,” near the end.

The 2018 amendment, effective May 3, 2018, in paragraph (6.1), substituted “moneys received from: (A) The collection” for “moneys received from the collection” near the beginning; in subparagraph (6.1)(A), deleted “or transit” following “federal highway” twice and substituted “; and” for a period at the end; and added subparagraph (6.1)(B).

Law reviews. — For annual survey on administrative law, see 69 Mercer L. Rev. 15 (2017).

32-10-63. Powers of authority generally.

The authority shall have, in addition to any other powers conferred in this article, the following powers:

- (1) To have a seal and alter the same at its pleasure;
- (2) To acquire by purchase, lease, exchange, or otherwise and to hold, lease, and dispose of real and personal property of every kind and character for its corporate purposes;
- (3) To appoint such additional officers, who need not be members of the authority, as the authority deems advisable and to employ such experts, employees, and agents as may be necessary, in its judgment, to carry on properly the business of the authority; to fix their compensation; and to promote and discharge same;
- (4) To acquire in its own name by purchase, on such terms and conditions and in such manner as it may deem proper, or by condemnation in accordance with any and all existing laws applicable to the condemnation of property for public use, including but not limited to those procedures in Article 1 of Chapter 3 of this title, real property or rights or easements therein or franchises necessary or

convenient for its corporate purposes; and to use the same so long as its corporate existence shall continue and to lease or make contracts with respect to the use of or to dispose of the same in any manner it deems to the best advantage of the authority, the authority being under no obligation to accept and pay for any property condemned under this article except from the funds provided under the authority of this article; and, in any proceedings to condemn, such order may be made by the court having jurisdiction of the action or proceedings as may be just to the authority and to the owners of the property to be condemned; and no property shall be acquired under this article upon which any lien or other encumbrance exists unless at the time such property is so acquired a sufficient sum of money be deposited in trust to pay and redeem such lien or encumbrance in full;

(5) To make such contracts, leases, or conveyances as the legitimate and necessary purposes of this article shall require, including but not limited to contracts for construction or maintenance of projects, provided that the authority shall consider the possible economic, social, and environmental effects of each project, and the authority shall assure that possible adverse economic, social, and environmental effects relating to any proposed project have been fully considered in developing such project and that the final decision on the project is made in the best overall public interest, taking into consideration the need for fast, safe, and efficient transportation, public services, and the cost of eliminating or minimizing adverse economic, social, and environmental effects. Furthermore, in order to assure that adequate consideration is given to economic, social, and environmental effects of any tollway project under consideration, the authority shall:

(A) Follow the processes required for federal-aid highway projects, as determined by the National Environmental Policy Act of 1969, as amended, except that final approval of the adequacy of such consideration shall rest with the Governor, as provided in subparagraph (C) of this paragraph, acting as the chief executive of the state, upon recommendation of the commissioner, acting as chief administrative officer of the Department of Transportation;

(B) In the location and design of any project, avoid the taking of or disruption of existing public parkland or public recreation areas unless there are no prudent or feasible project location alternates. The determination of prudence and feasibility shall be the responsibility of the authority as part of the consideration of the overall public interest;

(C) Not approve and proceed with acquisition of rights of way and construction of a project until: (i) there has been held, or there has been offered an opportunity to hold, a public hearing or public

hearings on such project in compliance with requirements of the Federal-aid Highway Act of 1970, as amended, except that neither acquisition of right of way nor construction shall be required to cease on any federal-aid project which has received federal approval pursuant to the National Environmental Policy Act of 1969, as amended, and is subsequently determined to be eligible for construction as an authority project utilizing, in whole or in part, a mix of federal funds and authority funds; and (ii) the adequacy of environmental considerations has been approved by the Governor, for which said approval of the environmental considerations may come in the form of the Governor's acceptance of a federally approved environmental document; and

(D) Let by public competitive bid upon plans and specifications approved by the chief engineer or his or her successors all contracts for the construction of projects, except as otherwise provided for projects authorized under any provisions of Code Sections 32-2-78 through 32-2-81;

(6) To construct, erect, acquire, own, repair, maintain, add to, extend, improve, operate, and manage projects, as defined in paragraph (5) of Code Section 32-10-60, the cost of any such project to be paid in whole or in part from the proceeds of revenue bonds of the authority, from other funds available to the authority, or from any combination of such sources;

(7)(A) To accept and administer any federal highway funds and any other federal highway assistance received from time to time for the State of Georgia and to accept, with the approval of the Governor, loans and grants, either or both, of money or materials or property of any kind from the United States government or the State of Georgia or any political subdivision, authority, agency, or instrumentality of either of them, upon such terms and conditions as the United States government or the State of Georgia or such political subdivision, authority, agency, or instrumentality of either of them shall impose;

(B) **(Repealed effective July 1, 2021.)** To accept and administer any federal transit funds and any other federal transit assistance received from time to time for the State of Georgia. This subparagraph shall stand repealed by operation of law on July 1, 2021;

(8)(A) To borrow money for any of its corporate purposes, to issue negotiable revenue bonds payable from revenues of such projects, and to provide for the payment of the same and for the rights of the holders thereof; and

(B) To enter into credit enhancement or liquidity agreements with any person, firm, corporation, limited liability company, or

other type of entity for the planning, design, construction, acquisition of land for, financing, refinancing, operating, maintaining, or carrying out of any project. Such credit enhancement or liquidity agreements may be secured by the authority's loan agreements, deeds to secure debt, security agreements, contracts, or other instruments or funds derived from tolls, fees, or other charges, upon such terms and conditions as the authority shall determine reasonable, including provision for the establishment and maintenance of reserves and insurance funds, provided that the obligation of the authority under any such agreements shall not be general obligation of the authority, but shall be a limited obligation of the authority payable from a specific source of funds identified for such purpose. Any such agreements may further include provisions for guaranty, insurance, construction, use, operation, maintenance, and financing of a project as the authority may deem necessary or desirable;

(9) To exercise any power usually possessed by private corporations performing similar functions, which power is not in conflict with the Constitution and laws of Georgia;

(10) To covenant with bondholders for the preparation of annual budgets for each project and for approval thereof by engineers or other representatives designated by the bondholders of each project, as may be provided for in any bond issue resolutions or trust indentures, and to covenant for the employment of experts or traffic engineers;

(11) To lease its property to the United States government, the State of Georgia, or its political subdivisions, including any agency, authority, or instrumentality of the foregoing governments or political subdivisions, as well as to persons, public or private, for the construction or operation of facilities of benefit to the general public;

(12) By or through its authorized agents or employees, to enter upon any lands, waters, and premises in the state for the purpose of making surveys, soundings, drillings, and examinations as the authority may deem necessary or convenient for the purposes of this article; and such entry shall not be deemed a trespass. The authority shall, however, make reimbursement for any actual damages resulting from such activities;

(13) To make reasonable regulations for the installation, construction, maintenance, repairs, renewal, and relocation of pipes, mains, conduits, cables, wires, towers, poles, and other equipment and appliances of any public utility in, on, along, over, or under any project;

(14)(A) To pledge, mortgage, convey, assign, hypothecate, or otherwise encumber any property of the authority, including but not

limited to real property, fixtures, personal property, intangible property, revenues, income, charges, fees, or other funds and to execute any lease, trust indenture, trust agreement, resolution, agreement for the sale of the authority's bonds, loan agreement, mortgage, deed to secure debt, trust deed, security agreement, assignment, or other agreement or instrument as may be necessary or desirable, in the judgment of the authority, to secure such bonds; and

(B) To acquire, accept, or retain equitable interests, security interests, or other interests in any property, real or personal, by deed to secure debt, assignment, security agreement, pledge, conveyance, contract, lien, loan agreement, or other consensual transfer, with any such instrument terminating when the bonds for the project are retired, in order to secure repayment under a credit enhancement or liquidity agreement and taking into consideration the public benefit to be derived from such transfer; and

(15) To do all things necessary or convenient to carry out the powers expressly given in this article. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 4; Ga. L. 1972, p. 179, §§ 9-13; Code 1933, § 95A-1241, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1974, p. 1422, § 45; Ga. L. 1988, p. 227, §§ 2-4; Ga. L. 1994, p. 591, § 11; Ga. L. 2001, p. 1251, § 1-9; Ga. L. 2009, p. 8, § 32/SB 46; Ga. L. 2017, p. 760, § 2/SB 183; Ga. L. 2018, p. 377, § 4-3/HB 930.)

The 2017 amendment, effective July 1, 2017, added “, except as otherwise provided for projects authorized under any provisions of Code Sections 32-2-78 through 32-2-81” at the end of subparagraph (5)(D); designated the existing provisions of paragraph (8) as subparagraph (8)(A); in subparagraph (8)(A), added “and” at the end; added subparagraph (8)(B); designated the existing provisions of paragraph (14) as subparagraph (14)(A); and added subparagraph (14)(B).

The 2018 amendment, effective May 3, 2018, designated the existing provisions of paragraph (7) as subparagraph (7)(A), and, in subparagraph (7)(A), deleted “or federal transit” following “federal highway” near the beginning and deleted “or transit” following “federal highway” near the middle; and added subparagraph (7)(B).

Law reviews. — For annual survey on administrative law, see 69 Mercer L. Rev. 15 (2017).

32-10-63.1. Exemption for transit service buses, motor vehicles, and rapid rail systems from requirements relating to identification and regulation of motor vehicles.

No provision of Chapter 1 of Title 40 shall apply to any bus, other motor vehicle, or rapid rail system of the authority which provides transit services. (Code 1981, § 32-10-63.1, enacted by Ga. L. 2018, p. 254, § 1/SB 391.)

Effective date. — This Code section became effective July 1, 2018.

32-10-64. General toll powers; police powers; rules and regulations.

(a)(1) For the purpose of earning sufficient revenue to make possible, in conjunction with other funds available to the authority, the financing of the construction or acquisition of projects of the authority with revenue bonds, the authority is authorized and empowered to collect tolls on each and every project which it, the department, or local governing authority shall cause to be constructed. It is found, determined, and declared that the necessities of revenue bond financing are such that the authority's toll earnings on each project or projects, in conjunction with other funds available to the authority, must exceed the actual maintenance, repair, and normal reserve requirements of such projects, together with monthly or yearly sums needed for the sinking fund payments upon the principal and interest obligations of financing such project or projects; however, within the framework of these legitimate necessities of the authority and subject to all bond resolutions, trust indentures, and all other contractual obligations of the authority, the authority is charged with the duty of the operation of all projects in the aggregate at the most reasonable possible level of toll charges; and, furthermore, the authority is charged with the responsibility of a reasonable and equitable adjustment of such toll charges as between the various classes of users of any given project in which the repayment of financing is the primary or exclusive purpose for the exercise of the toll power of the authority.

(2) For the purpose of managing the flow of traffic, the authority is authorized and empowered to collect tolls on each and every project which it, the department, or local governing authority shall cause to be constructed in which managing the flow of traffic is the primary or exclusive purpose. It is found, determined, and declared that the necessities of managing the flow of traffic are such that the authority is charged with the responsibility of taking into consideration value pricing and lane management as those terms are described in subsection (d) of Code Section 40-6-54 in determining toll charges on such projects.

(b) In the exercise of the authority's toll powers, the authority is authorized to exercise so much of the police powers of the state as shall be necessary to maintain the peace and accomplish the orderly handling of the traffic and the collection of tolls on all projects operated by the authority; and the authority shall prescribe such rules and regulations for the method of taking tolls and the employment and conduct of toll takers and other operating employees as the authority, in its discretion, may deem necessary.

(c)(1) No motor vehicle shall be driven or towed through a toll collection facility, where appropriate signs have been erected to notify traffic that it is subject to the payment of tolls beyond such sign, without payment of the proper toll. In the event of nonpayment of the proper toll, as evidenced by video or electronic recording, the registered owner of such vehicle shall be liable to make prompt payment to the authority of the proper toll and an administrative fee of up to \$25.00 per violation to recover the cost of collecting the toll. The authority or its authorized agent shall provide notice to the registered owner of a vehicle, and a reasonable time to respond to such notice, of the authority's finding of a violation of this subsection. The authority or its authorized agent may provide subsequent notices to the registered owner of a vehicle if such owner fails to respond to the initial notice. The administrative fee may increase with each notice, provided that such fee shall not exceed a cumulative total of \$25.00 per violation. Upon failure of the registered owner of a vehicle to pay the proper toll and administrative fee to the authority after notice thereof and within the time designated in such notice, the authority may proceed to seek collection of the proper toll and the administrative fee as debts owing to the authority, in such manner as the authority deems appropriate and as permitted under law. If the authority finds multiple failures by a registered owner of a vehicle to pay the proper toll and administrative fee after notice thereof and within the time designated in such notices, the authority may refer the matter to the Office of State Administrative Hearings. The scope of any hearing held by the Office of State Administrative Hearings shall be limited to consideration of evidence relevant to a determination of whether the registered owner has failed to pay, after notice thereof and within the time designated in such notice, the proper toll and administrative fee. The only affirmative defense that may be presented by the registered owner of a vehicle at such a hearing is theft of the vehicle, as evidenced by presentation at the hearing of a copy of a police report showing that the vehicle has been reported to the police as stolen prior to the time of the alleged violation. A determination by the Office of State Administrative Hearings of multiple failures to pay by a registered owner of a vehicle shall subject such registered owner to imposition of, in addition to any unpaid tolls and administrative fees, a civil monetary penalty payable to the authority of not more than \$70.00 per violation. Upon failure by a registered owner to pay to the authority, within 30 days of the date of notice thereof, the amount determined by the Office of State Administrative Hearings as due and payable for multiple violations of this subsection, the motor vehicle registration of such registered owner shall be immediately suspended by operation of law. The authority shall give notice to the Department of Revenue of such suspension. Such suspension shall continue until the proper toll,

administrative fee, and civil monetary penalty as have been determined by the Office of State Administrative Hearings are paid to the authority. The authority may seek to collect the debt owed through setoff by the Department of Revenue under procedures set forth in Article 7 of Chapter 7 of Title 48. Actions taken by the authority under this subsection shall be made in accordance with policies and procedures approved by the members of the authority.

(2) The registered owner of a vehicle which is observed being driven or towed through a toll collection facility without payment of the proper toll may avoid liability under this subsection by presenting to the authority a copy of a police report showing that the vehicle had been reported to the police as stolen prior to the time of the alleged violation.

(3) For purposes of this subsection, for any vehicle which is registered to an entity other than a natural person, the term "registered owner" shall be deemed to refer to the natural person who is the operator of such motor vehicle at the time of the violation of this subsection, but only if the entity to which the vehicle is registered has supplied to the authority, within 60 days following notice from the authority or its authorized agent, information in the possession of such entity which is sufficient to identify and give notice to the natural person who was the operator of the motor vehicle at the time of the violation of this subsection.

(d) Any person who shall use or attempt to use any currency or coins other than legal tender of the United States of America or tokens issued by the authority or who shall use or attempt to use any electronic device or equipment not authorized by the authority in lieu of or to avoid payment of a toll shall be guilty of a misdemeanor.

(e) Any person, except an authorized agent or employee of the authority, who removes any coin from the pavement or ground surface within 15 feet of a toll collection booth or toll collection machine, except to retrieve coins the person dropped while attempting payment of that person's toll, shall be guilty of a misdemeanor.

(f) Any person who enters without authorization or who willfully, maliciously, and forcibly breaks into any mechanical or electronic toll collection device of the authority or appurtenance thereto shall be guilty of a misdemeanor.

(g) Any law enforcement officer shall have the authority to issue citations for toll evasions if such officer is a witness to any of the following violations:

(1) A person forcibly or fraudulently passes a toll collection device without payment or refuses to pay, evades, or attempts to evade the payment of such tolls;

(2) A person turns, or attempts to turn, a vehicle around on a bridge, approach, or toll plaza where signs have been erected forbidding such turning; or

(3) A person refuses to pass through the toll collection facility after having come within the area where signs have been erected notifying traffic that it is entering the area where a toll is collectable or where vehicles may not turn around and where vehicles are required to pass through the toll gates for the purposes of collecting tolls.

(h) The authority may in its discretion use such technology, including but not limited to automatic vehicle license tag identification photography and video surveillance, either by electronic imaging or photographic copy, that it deems necessary to aid in the collection of tolls and enforcement of toll violations. Such technology shall not be used to produce any photograph, microphotograph, electronic image, or videotape showing the identity of any person in a motor vehicle except that such technology may be utilized for general surveillance of a toll collection facility for the security of toll collection facility employees.

(i) State and local law enforcement entities are authorized to enter into traffic and toll enforcement agreements with the authority. Any funds received by a state law enforcement entity pursuant to such toll enforcement agreement shall be subject to annual appropriations by the General Assembly to such law enforcement entity for the purpose of performing its duties pursuant to such agreement. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 8; Ga. L. 1972, p. 179, § 15; Code 1933, § 95A-1245, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 1979, p. 1091, § 2; Ga. L. 1988, p. 227, § 5; Ga. L. 1993, p. 366, § 2; Ga. L. 2001, p. 1251, § 1-10; Ga. L. 2004, p. 498, § 1; Ga. L. 2006, p. 308, § 1/HB 1190; Ga. L. 2015, p. 1058, § 1/SB 125; Ga. L. 2018, p. 152, § 1/HB 150.)

The 2015 amendment, effective May 6, 2015, designated the previously existing provisions of subsection (a) as paragraph (a)(1); in paragraph (a)(1), in the first sentence, inserted “the department, or local governing authority”, and deleted “or acquired” at the end, added “in which the repayment of financing is the primary or exclusive purpose for the exercise of the toll power of the authority” at the end of

the last sentence, and added paragraph (a)(2); and, in paragraph (c)(1), inserted “up to” in the second sentence, added the fourth and fifth sentences, and substituted “notices” for “notice” in the seventh sentence.

The 2018 amendment, effective July 1, 2018, added the next-to-last sentence of paragraph (c)(1).

32-10-65. Fixing, revising, charging, and collecting tolls; use and disposition of tolls generally.

The authority is authorized to fix, revise, charge, and collect tolls for the use of each project. Such tolls shall be so fixed and adjusted as to carry out and perform the terms and provisions of any resolution, trust indenture, or contract with or for the benefit of bondholders; and such

tolls shall not be subject to supervision or regulation by any other commission, board, bureau, or agency of the state. Notwithstanding any provision of this article to the contrary, if the repayment of financing is not the primary or exclusive purpose for the exercise of the authority’s toll power, the authority shall not be required to issue or have outstanding bonds or other indebtedness with respect to a project in order to fix, revise, charge, enforce, or collect tolls for such project. The use and disposition of tolls and revenues shall be subject to the provisions of the resolution authorizing the issuance of such bonds or of the trust indenture securing the same, if there are any. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 33; Code 1933, § 95A-1270, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2015, p. 1058, § 2/SB 125; Ga. L. 2016, p. 864, § 32/HB 737.)

The 2015 amendment, effective May 6, 2015, added the third sentence in this Code section.

The 2016 amendment, effective May 3, 2016, part of an Act to revise, modernize, and correct the Code, substituted “with respect to” for “in respect to” in the third sentence of this Code section.

32-10-65.2. Annual reporting.

The authority shall submit an annual report to the House Committee on Transportation and the Senate Transportation Committee detailing the amount of funds collected pursuant to the exercise of the authority’s toll powers and how such funds have been used or disposed of by the authority. (Code 1981, § 32-10-65.2, enacted by Ga. L. 2017, p. 760, § 3/SB 183.)

Effective date. — This Code section became effective July 1, 2017.

Law reviews. — For annual survey on administrative law, see 69 Mercer L. Rev. 15 (2017).

32-10-68. Letting of contracts by competitive bids.

All contracts of the authority for the construction of any project authorized by this article shall be let to the reliable bidder submitting the lowest sealed bid upon plans and specifications approved by the department, except as otherwise provided for projects authorized under any provisions of Code Sections 32-2-78 through 32-2-81. The procedures for letting such bids shall conform to those prescribed for the department in Code Sections 32-2-64 through 32-2-72 and 32-2-78 through 32-2-81. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 13; Code 1933, § 95A-1242, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2017, p. 760, § 4/SB 183.)

The 2017 amendment, effective July 1, 2017, added “, except as otherwise provided for projects authorized under any provisions of Code Sections 32-2-78

through 32-2-81” at the end of the first sentence, and added “and 32-2-78 through 32-2-81” at the end of the second sentence.

Law reviews. — For annual survey on administrative law, see 69 Mercer L. Rev. 15 (2017).

32-10-73. Designation of moneys received pursuant to article as trust funds.

All moneys received pursuant to the authority of this article, whether as proceeds from the sale of revenue bonds or as revenues, tolls, and earnings, shall be deemed to be trust funds to be held and applied solely as provided in this article. The bondholders paying or entitled to receive the benefits of such bonds shall have a lien on all such funds until applied as provided for in any resolution or trust indenture of the authority, provided that revenue bonds issued for the use and benefit of a person, firm, corporation, limited liability company, or other type of private entity shall be a limited obligation of the authority and in the event of default, the remedies of the bondholders shall be limited to the funds identified in the resolution or trust indenture and not the funds held by the authority as trust funds or otherwise. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 32; Code 1933, § 95A-1269, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2017, p. 760, § 5/SB 183.)

The 2017 amendment, effective July 1, 2017, added the proviso at the end of the second sentence.

Law reviews. — For annual survey on administrative law, see 69 Mercer L. Rev. 15 (2017).

32-10-76. (Effective until July 1, 2021. See note.) Grant programs; pilot program formation; factors to be considered in selecting pilot projects; procedures; eligible projects.

(a) As used in this Code section, the term:

(1) “Local government authority” and “state” mean the same as under 49 U.S.C. Section 5302.

(2) “Public-private project initiative” means a local or regional streetcar project which is proposed and advanced by a cooperative entity or sponsor that involves a combined public and private sector financing and development structure which includes not for profit entities.

(3) “Streetcar” includes, but is not limited to, a rail transit vehicle, including a modern, antique, or reproduction vehicle, that is designed to fit the scale and traffic patterns of the neighborhoods through which it travels and operates at lower speeds generally in existing rights of way through mixed traffic, with frequent stops.

(b) The authority shall establish and implement a five-year grant program to provide assistance to local governmental authorities as well

as a public-private project initiative for the capital, technical, and start-up costs of development and expansion of streetcar transportation and attendant economic and community development opportunities. The five-year grant program shall begin when funding becomes available for such purposes. The five-year grant program may be renewed at the end of each five-year period, consistent with the provisions of this Code section.

(c) The authority will work closely with the formation of a pilot program and will provide a state-level flow through point for any available federal funding or other forms of financial and development sources and assistance for local, regional, and public-private streetcar projects.

(d) The authority shall consider the following factors in its selection of projects that will be implemented by this pilot program:

(1) The project is ripe for development, construction, and operation;

(2) The project application demonstrates strong local and private sector financial participation in the project;

(3) The project will foster redevelopment opportunities adjacent to the streetcar line for which assistance is being sought;

(4) The project includes the financial participation of the private owners of real property abutting the streetcar line, with the exception of owner occupied residential properties, for some of the capital costs of the project;

(5) The project application demonstrates that development or redevelopment agreements are in place with respect to the project and land planning policies complimentary to the project have been adopted for land in close proximity to the streetcar line, including the availability of property zoned to accommodate mixed use development adjacent to the streetcar line;

(6) The project application demonstrates either how redeveloping or new neighborhoods on vacant or underutilized land will be connected by the project to each other or to major attractors in the central city where the project will be carried out or how circulator or connector lines under the project will connect developed neighborhoods with one another or with the business district in the central city;

(7) The project has demonstrated desirable levels of local financial and linking resources commitment; and

(8) The project may include, and is encouraged to include, a public-private project initiative and organizational structure or sponsor.

(e) The authority will coordinate with all appropriate metropolitan, regional, and municipal planning and development agencies where projects may be pursued and will coordinate with the Atlanta-region Transit Link “ATL” Authority and appropriate local transit agencies in the development, funding, and implementation of various streetcar projects.

(f) In order to receive grant assistance under this Code section, a sponsor of a project must submit to the authority an application that includes a detailed operating plan for the streetcar line for which such assistance is being sought, including the frequency of service, hours of operation, stop locations, and demonstration of the financial capacity of the sponsor to operate the streetcar line.

(g) A project for which grant assistance may be provided under this Code section may include streetscaping, signalization modifications, and other modifications to the road system or other public rights of way on which the project is to be carried out; acquisition of streetcars; and project construction, design, and engineering. (Code 1981, § 32-10-76, enacted by Ga. L. 2006, p. 498, § 2/SB 150; Ga. L. 2018, p. 377, §§ 4-4, 4-13/HB 930.)

The 2018 amendment, effective May 3, 2018, substituted “Atlanta-region Transit Link ‘ATL’ Authority” for “Georgia Regional Transportation Authority” in the

middle of subsection (e); and, effective July 1, 2021, redesignates this Code section as Code Section 50-39-53.

PART 2

REVENUE BONDS

32-10-107. Confirmation and validation of bonds.

Bonds of the authority shall be confirmed and validated in accordance with Article 3 of Chapter 82 of Title 36, the “Revenue Bond Law.” The petition for validation shall also make any person, firm, corporation, limited liability company, or other type of private entity a party defendant to such action, if such person, firm, corporation, limited liability company, or other type of private entity has or will contract with the authority with respect to the project for which revenue bonds are to be issued and are sought to be validated. The bonds, when validated, and the judgment of validation shall be final and conclusive with respect to the validity of such bonds and against the authority and against all other persons or entities, regardless of whether such persons or entities were parties to such validation proceedings. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 30; Code 1933, § 95A-1267, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2017, p. 760, § 6/SB 183.)

The 2017 amendment, effective July 1, 2017, substituted the present provisions of this Code section for the former provisions, which read: “Bonds of the authority shall be confirmed and validated in accordance with Article 3 of Chapter 82 of Title 36, the ‘Revenue Bond Law.’ The

bonds, when validated, and the judgment of validation shall be final and conclusive with respect to such bonds and against the authority issuing the same.”
Law reviews. — For annual survey on administrative law, see 69 Mercer L. Rev. 15 (2017).

32-10-109. Covenant with holders as to tax-exempt status of authority property and bonds.

It is found, determined, and declared that the creation of the authority and the carrying out of its corporate purpose are in all respects for the benefit of the people of this state and that the authority is an institution of purely public charity and will be performing an essential governmental function in the exercise of the power conferred upon it by this article; and this state covenants with the holders of the bonds that the authority shall not be required to pay any taxes or assessments upon any of the property acquired or leased by it or under its jurisdiction, control, possession, or supervision or upon its activities in the operation or maintenance of the projects erected by it or upon any fees, tolls, or other charges for the use of such projects or upon other income received by the authority. The bonds of the authority, their transfer, and the income therefrom shall at all times be exempt from taxation within this state. The tax exemption provided for in this chapter shall include an exemption from sales and use tax on property purchased by the authority or for use by the authority. (Ga. L. 1953, Jan.-Feb. Sess., p. 302, § 28; Code 1933, § 95A-1265, enacted by Ga. L. 1973, p. 947, § 1; Ga. L. 2015, p. 1058, § 3/SB 125.)

The 2015 amendment, effective May 6, 2015, added the last sentence in this Code section.

PART 3

TRANSPORTATION INFRASTRUCTURE BANK

32-10-127. Loans and other financial assistance; determination of eligible projects.

(a) The bank may provide loans and other financial assistance to a government unit to pay for all or part of the eligible costs of a qualified project. The term of the loan or other financial assistance shall not exceed the useful life of the project. The bank may require the government unit to enter into a financing agreement in connection with its loan obligation or other financial assistance. The board shall determine the form and content of loan applications, financing agreements, and loan obligations including the term and rate or rates of

interest on a financing agreement. The terms and conditions of a loan or other financial assistance from federal accounts shall comply with applicable federal requirements.

(b)(1) The board shall determine which projects are eligible projects and then select from among the eligible projects qualified projects. When determining eligibility, the board shall make every effort to balance any loans or other financial assistance among all regions of this state.

(2) Preference for loans may be given to eligible projects in tier 1 and tier 2 counties, as defined in Code Section 48-7-40 and by the Department of Community Affairs.

(3) Preference for grants and other financial assistance may be given to eligible projects which have local financial support. (Code 1981, § 32-10-127, enacted by Ga. L. 2008, p. 73, § 2/HB 1019; Ga. L. 2015, p. 236, § 6-1/HB 170.)

The 2015 amendment, effective July 1, 2015, in subsection (b), designated the previously existing provisions as paragraphs (b)(1) and (b)(2), added the second sentence to paragraph (b)(1), substituted the present provisions of paragraph (b)(2) for “Preference may be given to eligible projects which have local financial support.”, and added paragraph (b)(3).

Editor’s notes. — Ga. L. 2015, p. 236, § 8-1/HB 170, not codified by the General Assembly, provides: “This Act shall be known and may be cited as the ‘Transportation Funding Act of 2015.’”

Ga. L. 2015, p. 236, § 8-2/HB 170, not codified by the General Assembly, provides: “It is the intention of the General Assembly, subject to appropriations and

other constitutional obligations of this state, that year to year revenue increases be prioritized to fund education, transportation, and health care in this state.”

Ga. L. 2015, p. 236, § 9-1(b)/HB 170, not codified by the General Assembly, provides: “Tax, penalty, and interest liabilities and refund eligibility for prior taxable years shall not be affected by the passage of this Act and shall continue to be governed by the provisions of Title 48 of the Official Code of Georgia Annotated as it existed immediately prior to the effective date of this Act.”

Law reviews. — For article on the 2015 amendment of this Code section, see 32 Ga. St. U.L. Rev. 261 (2015).

CHAPTER 12

GEORGIA COORDINATING COMMITTEE FOR RURAL AND HUMAN SERVICES TRANSPORTATION

Sec.

32-12-1 through 32-12-6 [Repealed].

32-12-1 through 32-12-6.

Repealed by Ga. L. 2015, p. 950, § 1/HB 386, effective July 1, 2015.

Editor’s notes. — This chapter consisted of Code Sections 32-12-1 through 32-12-6, relating to Georgia Coordinating Committee for Rural and Human Services

Transportation, and was based on Ga. L. 2010, p. 778, § 4/HB 277; Ga. L. 2011, p. 705, § 5-19/HB 214.
